Material & Finish: •Machined from solid steel bar stock •Steel componentry is zinc plated
Valving: •Die cast tubular valve is standard for 1/4" body size •Steel tubular valve is standard for 3/8" body size
Coupled Seal: •Buna-N (Nitrile) seal is standard

Plug features:
Material & Finish: •Machined from solid steel bar stock •Steel plugs are hardened and zinc plated to provide maximum service life

PERFECTING PNEUMATICS
Couplings & Accessories

SINGLE SHUT-OFF, INTERCHANGEABLE "X" SERIES

Socket features:
Latch Mechanism: •Automatic connect ball latch •Compact design profile and sleeve guard reduce risk of accidental disconnect
Material & Finish: •Machined from solid brass bar stock •Stainless steel balls and springs maximize corrosion resistance
Valving: •Brass tubular valve provides higher flow when used with X series plugs
Seals: •Coupled D-ring seal provides excellent sealing characteristics for all plug types •All seal materials are Buna-N (Nitrile) standard

Plug features:
Material & Finish: •Machined from solid steel bar stock •Steel plugs are hardened and zinc plated to provide maximum service life

AIR HOSE
Self-Storing

NYLON HOSE

A flexible lightweight air hose, designed for maximum security at the work place. Keeps hoses off the floor, eliminating tripping accidents. A tough abrasion resistant premium quality nylon with excellent retraction for many years of safe operation. For air tools, robotics, paint shops, electronic controls, service stations, maintenance shops, dental drill equipment, instrumentation, automotive assembly lines, etc.

Part No. SBH412C45, 1/4" x 12 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. SBH425C45, 1/4" x 25 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. SBH450C45, 1/4" x 50 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. SBH612C65, 3/8" x 12 ft. self-store air hose c/w 3/8" swivel fittings.
Part No. SBH625C65, 3/8" x 25 ft. self-store air hose c/w 3/8" swivel fittings.
Part No. SBH650C65, 3/8" x 50 ft. self-store air hose c/w 3/8" swivel fittings.
Part No. SBHB41005, 1/4" x 100 ft. self-store air hose.
Part No. SBHB61005, 3/8" x 100 ft. self-store air hose.
Part No. FCN-404, 1/4" male swivel hose fitting.
Part No. FCN-606, 3/8" male swivel hose fitting.

POLYURETHANE HOSE

•Blue non-marking polyurethane •4" pigtail and 20" whip end •Highly kink, abrasion, and oil resistant •Flexible and lightweight •Can be used to transfer air, fluids, and chemicals •Temperature range of -40°C to 80°C

Part No. HSC2846-04X10, 1/4" x 10 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-04X15, 1/4" x 15 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-04X20, 1/4" x 20 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-04X25, 1/4" x 25 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-04X30, 1/4" x 30 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-04X50, 1/4" x 50 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-06X10, 3/8" x 10 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-06X15, 3/8" x 15 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-06X20, 3/8" x 20 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-06X25, 3/8" x 25 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. HSC2846-06X50, 3/8" x 50 ft. self-store air hose c/w 1/4" swivel fittings.
Part No. FSP-404, 1/4" male swivel hose fitting.
Part No. FSP-606, 3/8" male swivel hose fitting.

WATTS
Air Line Products

R364-02C

filter

regulator

lubricator

Part No. R364-02C*, 1/4" mini air regulator.
Part No. R119-03C, 3/8" standard air regulator.
Part No. R119-04C, 1/2" standard air regulator.
Part No. R119-08C, 1" standard air regulator.
Part No. F602-03BJ, 3/8" standard air filter.
Part No. F602-04BJ, 1/2" standard air filter.
Part No. F602-08WJ, 1" standard air filter.
Part No. L606-03B, 3/8" standard air lubricator.
Part No. L606-04B, 1/2" standard air lubricator.
Part No. L606-08W, 1" standard air lubricator.

Part No. BK602Y, Replacement bowl kit - 1/4", 3/8".
Part No. BK602A, Replacement bowl kit - 1/2".
Part No. EK602Y, Replacement element kit - 1/4", 3/8".
Part No. EK602A, Replacement element kit - 1/2".
Part No. EK602B, Replacement element kit - 3/4", 1½".
Part No. SA602MD, Internal auto drain for filters.

NOTE: All Watts regulators have a pressure range from 0-125 lbs. All 3/8" and 1/2" units have a polycarbonate bowl with a polyethylene bowl guard. All 1" units have a metal bowl with sight glass. For 1/4" and 3/4" units, use 3/8" and 1" units with bushings.
*NOTE: Item does not include panel mounting nut. Please order part number (CBA) 4161 for this purpose.

Air Line Accessories

AIR OPERATED SRAYER

Part No. 939 - Adjustable suction control. Strainer assembly in suction hose keeps out contaminants. 6 ft. vinyl suction hose. Air coupler nipple permits quick coupling to any air hose. Pistol grip handle. Use with solvents or detergent solutions.

Compatible with vinyl, aluminum, and carbon steel. Air inlet 1/4" NPT (f). Maximum operating pressure 200 psi.

WATER BIBB COCKS

Part No. 846 - For attaching to water service hose. 1/4" NPT female inlet, thumb action trigger. Built-in strainer filters out contaminants.
Part No. 845 - Same as #846 except inlet 3/4" - 11-1/2" A.N. — connects to standard lawn hose.

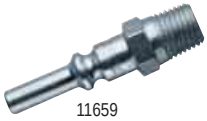
AIR BLOW GUNS

Part No. 950 - Handy, thumb-button design air blow gun. 1/4" NPT female. Nozzle inlet pressure 30 psi max. Complies with Federal Safety Regulations.
Part No. 840 - Same as #950, less air restrictor.
Part No. 960 - Cast aluminum pistol grip design. Overall height 5-3/4". Inlet 1/4" NPT female. Outlet 7/64".
Part No. 940 - Same as #960, less air restrictor.

AIR COUPLERS & NIPPLES

•HEAVY DUTY

815



11659

11661

Part No. 815 - Coupler with 1/4" NPT female inlet. Furnished as standard equipment on all Lincoln Series 20 air motor operated Lubriguns. Maximum air flow 52 SCFM at 100 psi. Length 2-1/2"; diameter 1-7/16"; weight 4-1/2 ozs.

Part No. 11659 - Nipple - 1/4" NPT male.
Part No. 11661 - Nipple - 1/4" NPT female.
Part No. 11660 - Nipple - 1/8" NPT male.

•LIGHTWEIGHT

13329

5862

13331

Part No. 5862 - Air coupler with 1/4" NPT female inlet. Fits all automotive/Tru-Flate, ARO, and industrial/Milton style nipples for 1/4" I.D. hose. 300 psi max. operating pressure. Maximum air flow 38 SCFM at 100 psi. Length 2"; diameter 1-1/8"; weight 4 ozs.
Part No. 13329 - Nipple - 1/4" NPT male.
Part No. 13331 - Nipple - 1/4" NPT female.

AIR COUPLERS & NIPPLES

63 Series - For 1/4" I.D. Hose
Maximum operating pressure 250 psi. Maximum air flow 45 SCFM at 100 psi. Length 1-3/4"; diameter 1-1/8"; weight 3 ozs.

Part No. 632004 - Coupler, female thread, 1/4" NPT.

Part No. 630104 - Nipple, male thread, 1/4" NPT.

Part No. 630204 - Nipple, female thread, 1/4" NPT.

64 Series - For 3/8" I.D. Hose
Maximum operating pressure 250 psi. Maximum air flow 108 SCFM at 100 psi. Length 2-1/16"; diameter 1-5/16"; weight 6 ozs.

Part No. 642006 - Coupler, female thread, 3/8" NPT.

Part No. 640104 - Nipple, male thread, 1/4" NPT.

Part No. 640106 - Nipple, male thread, 3/8" NPT.

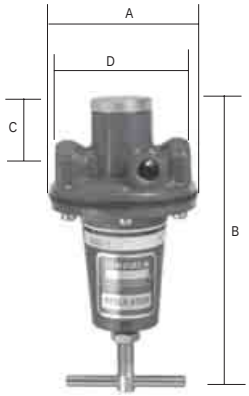
Part No. 640206 - Nipple, female thread, 3/8" NPT.

65 Series - For 1/2" I.D. Hose
Maximum operating pressure 200 psi. Maximum air flow 176 SCFM at 100 psi. Length 2-3/4"; diameter 1-1/2"; weight 9 ozs.

Part No. 652008 - Coupler, female thread, 1/2" NPT.

Part No. 650108 - Nipple, male thread, 1/2" NPT.

Part No. 650208 - Nipple, female thread, 1/2" NPT.

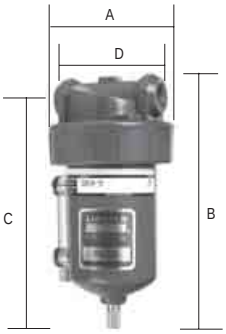


REGULATORS

Constructed of die-cast zinc with stainless steel strainer and renewable brass seat. Diaphragm and disc are oil-resistant Buna-N. Secondary pressure side gauge connections are 1/4" NPTF (F) and are sealed with removable pipe plugs. Maximum supply pressure 300 psi for all sizes listed. For secondary pressure, see "NOTE" below chart. Operating temperature range: 4° to 49°C.

PART NO.	PIPE SIZE	A	B	C	D	WEIGHT (lbs.)
600004	1/4"	3"	6"	1-3/8"	2-3/8"	1.8
600006	3/8"	3"	6"	1-3/8"	2-3/8"	1.8
600008	1/2"	3-9/16"	7"	1½"	3¼"	2.8
600012	3/4"	4-11/16"	10"	1-7/8"	4-3/8"	6.2
600016	1"	4-11/16"	10"	1-7/8"	4-3/8"	6.2

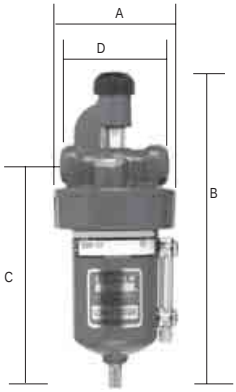
NOTE: Models 600004-6-8 are 0-225 psi range. Models 600012-16 are 0-250 psi range.



FILTERS

Constructed of die-cast zinc with 40 micron filter element of porous bronze. Metal bowl with sight glass. Maximum supply pressure 250 psi. Maximum temperature 65°C.

PART NO.	PIPE SIZE	CAPACITY (ozs.)	A	B	C	D	WEIGHT (lbs.)
600104	1/4"	5	2-15/16"	5-5/8"	5-1/8"	2½"	1.8
600106	3/8"	5	2-15/16"	5-5/8"	5-1/8"	2½"	1.8
600108	1/2"	8	3-3/4"	6¼"	5-5/8"	3¼"	2.8
600112	3/4"	16	4-7/8"	8¾"	7-3/4"	4-9/16"	6.3
600116	1"	16	4-7/8"	8¾"	7-3/4"	4-9/16"	6.3



LUBRICATORS

Constructed of die-cast zinc. Metal bowl with sight glass. Maximum supply pressure 250 psi. Maximum temperature 65°C. Oil viscosity maximum not over 800 S.S.U. (SAE 30, not under 29°C). NOTE: Oil adjustment may be made tamper-proof by removing "Dial Set" knob on all models. All sizes may be filled while under pressure.

PART NO.	PIPE SIZE	CAPACITY (ozs.)	A	B	C	D	WEIGHT (lbs.)
602204	1/4"	5	2-15/16"	7-5/8"	5-5/8"	2½"	2.2
600206	3/8"	5	2-15/16"	7-5/8"	5-5/8"	2½"	2.2
600208	1/2"	8	3¾"	8-1/8"	5¾"	3¼"	3.3
600212	3/4"	16	4-7/8"	10½"	7-7/8"	4-9/16"	4.2
600216	1"	16	4-7/8"	10½"	7-7/8"	4-9/16"	4.2

AIR GAUGE

Registers pressures up to 200 psi. Diameter of dial face 2"; ¼" NPT male bottom connection. Black enameled case.
Part No. 66100.

AIR GAUGE

Same as #66100 except with ¼" NPT centre back connection. NOTE: Lincoln air gauges 66100 and 600401 are calibrated both in psi and KG/cm2.
Part No. 600401.

AUTOMATIC DRAIN CONVERSION KIT

Converts manual drain filter to automatic drain. Increases filter efficiency and eliminates problem of manual draining. Applies to filters not kit.
Part No. 600301.

FILTER — REGULATOR & GAUGE — LUBRICATOR COMBINATION UNITS

Lincoln filter, regulator, and lubricators are available as combination units. All units include 600401 gauge and 0-250 psi range regulator.

PART NO.	PIPE SIZE	A	B	C	WEIGHT (lbs.)
85387-4	1/4"	5.27"	1.63"	6.46"	3.3
85387-8	1/2"	6.95"	2.12"	10.52"	6.2
85387-12	3/4"	10.44"	2.22"	14.75"	10.6

LINCOLN

Incandescent, Halogen, Fluorescent Lamps, & Fluorescent Ballasts

PHILIPS

OSRAM SYLVANIA

120 VOLT ROUGH SERVICE BULBS
Part No. 50RS, 50 watt.
Part No. 100RS, 100 watt.
Part No. 150RS, 150 watt.
Part No. 200RS, 200 watt.

120 VOLT TUFFSKIN ROUGH SERVICE BULBS
Part No. 50TUFF, 50 watt.
Part No. 100TUFF, 100 watt.

120 VOLT EXTENDED SERVICE BULBS
Part No. 60ES, 60 watt.
Part No. 100ES, 100 watt.
Part No. 150ES, 150 watt.
Part No. 200ES, 200 watt.
Part No. 300ES, 300 watt.

120 VOLT MOGUL (LARGE BASE) BULBS
Part No. 300MB, 300 watt.

120 VOLT HALOGEN FLOOD LAMPS
75 watt, PAR38.
Part No. 75PARFL.

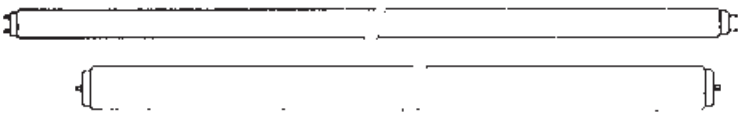
EARTHLIGHT ENERGY SAVING BULBS
18 watt Earthlight fluorescent lamp with electronic energy saving bulb. Excellent for either indoor/outdoor use, this fluorescent lamp has the equivalent output of a 75 watt incandescent bulb.
Part No. ELO18.

32 WATT, 4 FT. FLUORESCENT LAMPS
32 watt, 4 ft. double pin 4100K cool white energy efficient fluorescent lamp for electronic ballasts. Case of 30 lamps.
Part No. F32-T8-TL741/ALTO.

34 WATT, 4 FT. ENERGY EFFICIENT FLUORESCENT LAMPS
34 watt, 4 ft. double pin cool white energy efficient fluorescent lamp. Case of 30 lamps.
Part No. F40-CW-EE.

60 WATT, 8 FT. ENERGY EFFICIENT FLUORESCENT LAMPS
60 watt, 8 ft. single pin cool white energy efficient fluorescent lamp. Case of 15 lamps.
Part No. F96T12-CW-EE.

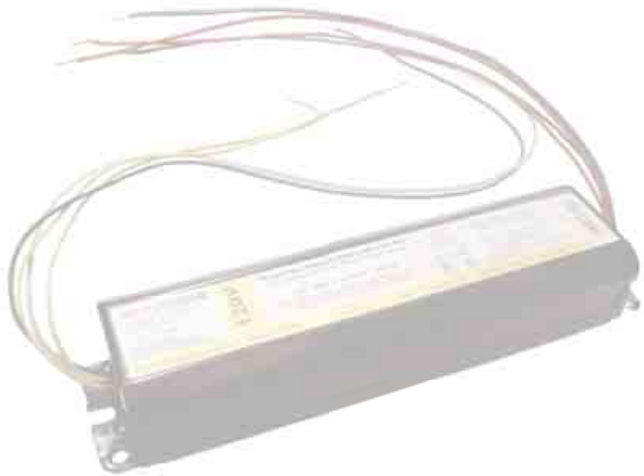
110 WATT, 8 FT. HIGH OUTPUT FLUORESCENT LAMPS
110 watt, 8 ft. double pin cool white high output cold weather/outdoor fluorescent lamp. Case of 15 lamps.
Part No. F96T12-CW-HO-O.



***Fluorescent bulbs are available in case quantities only. (4 ft. - 30 lamps; 8 ft. - 15 lamps.)*

FLUORESCENT BALLASTS
Part No. HF-120-2/32-IPMP, 2 lamp, 120 volt electronic ballast for 4 ft. T8 lamps.
Part No. SSB-120-4/32-IS, 4 lamp, 120 volt electronic ballast for 4 ft. T8 lamps.
Part No. HF347-2/32-IPMP, 2 lamp, 347 volt electronic ballast for 4 ft. T8 lamps.
Part No. SSB2-347-4/32-ISLH, 4 lamp, 347 volt electronic ballast for 4 ft. T8 lamps.

Part No. R2C34-TPC-IC, 2 lamp, 120 volt energy saving ballast for 4 ft. lamps.
Part No. R2E75-S-TPC-IC, 2 lamp, 120 volt energy saving ballast for 8 ft. lamps.
Part No. G2E75-TPC-IC, 2 lamp, 347 volt energy saving ballast for 8 ft. lamps.



13w FLUORESCENT WORK LIGHTS

•Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/ natural daylight illumination •High impact lamp protector w/ high gloss reflector •Flame retardant yellow (except #SL-520 - black) polypropylene handle •Clear chemical & UV resistant lamp protector •Convenient hang hook •Rocker on/off switch

Part No. SL-563, angle work light, 18/2 gauge cord, 25 ft. cord length.

Part No. SL-964, angle work light, 16/3 gauge cord, 25 ft. cord length w/ polarized plug and 12 amp grounded receptacle.

Part No. SL-520, 18/2 gauge cord, 25 ft. cord length w/ nylon tipped double hang hook. Black colour with clear end housing.

Part No. SL-550, 18/2 gauge cord, 50 ft. cord length w/ nylon tipped double hang hook.

SL-563

SL-520

18w FLUORESCENT WORK LIGHT w/TOOL TAP

•2 Cool running 9w 10,000 hour rated bulbs (included) •Equivalent to 100w incandescent bulb w/natural daylight illumination •Innovative retractable & removable nylon tipped double hang hook rotates 360° •Polarized plug with 12 amp grounded receptacle & rocker on/off switch •Sleek, ergonomic design w/unique 90° cord swivel pivots cord for hands free, stand up use •Clear polycarbonate top for spot lighting •Flame retardant yellow polypropylene handle •High impact lamp protector w/high gloss reflector

Part No. SL-928, 16/3 gauge cord, 25 ft. cord length.

CORDLESS 7.2v 13w PROFESSIONAL SERIES FLUORESCENT WORK LIGHT

•Over 90 minutes continuous cordless runtime •Powerful 7.2v NiMH battery charges in about an hour •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •Sleek, ergonomic work light tool •Impact resistant & flame retardant yellow polypropylene handle •Convenient & versatile nylon tipped double hang hook •High impact lamp protector w/high gloss reflector •120v charging cord included

Part No. SLR-9000CPDQ.

Part No. SLR-9004C2, Quick charge platform and extra 7.2v battery pack.

Part No. SLR-9005C2, Extra 7.2v battery pack.

OSHA 13w FLUORESCENT WORK LIGHTS

•Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •Clear polycarbonate top for spot lighting •High impact lamp protector w/high gloss reflector •Ballast enclosed near plug end of cord •Convenient & versatile nylon tipped double hang hook

Part No. SL-676, 18/2 gauge cord, 25 ft. cord length.

Part No. SL-677, 18/2 gauge cord, 50 ft. cord length.

BAYCO®
Life Depends on Light™

13w ROUGH DUTY FLUORESCENT WORK LIGHTS w/SPOT WORK LIGHT & TOOL TAP

•The industry standard...The pro mechanics choice •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •Polarized plug with 12 amp grounded receptacle & rocker on/off switch •Clear polycarbonate top for spot lighting •Flame retardant yellow polypropylene handle •High impact lamp protector w/high gloss reflector •Clear chemical & UV resistant lamp protector •Convenient & versatile nylon tipped double hang hook

Part No. SL-935, 16/3 gauge cord, 25 ft. cord length.

Part No. SL-936, 16/3 gauge cord, 50 ft. cord length.

SL-935

26w DOUBLE BRITE PRO GRADE FLUORESCENT WORK LIGHT w/TOOL TAP

•2 Cool running 13w 10,000 hour rated bulbs (included) •Equivalent to 125w incandescent bulb w/natural daylight illumination •Electronic ballast for instant no-flicker cold weather starts •Polarized plug with 12 amp grounded receptacle and rocker on/off switch •Sleek, ergonomic design •Hang hook and tool hook •Clear chemical and UV resistant lamp protector •Flame retardant yellow polypropylene handle •High impact lamp protector w/high gloss reflector

Part No. SL-975, 16/3 gauge cord, 25 ft. cord length.

15w FLUORESCENT WORK LIGHT

•15w 7,000 hour rated bulb (included) •Extra long 17" high impact lamp protector w/high gloss reflector •Plastic hang hook on one end plus 2 metal hooks for hanging versatility

Part No. SL-623, 18/2 gauge cord, 25 ft. cord length.

REPLACEMENT BULBS, PARTS & ACCESSORIES

Part No. SL-229PDQ, Fluorescent work light bulb for 9w fluorescent work lights.
Part No. SL-103, Fluorescent work light bulb for 13w and 26w fluorescent work lights.
Part No. SL-213, Fluorescent work light bulb for 7.2v cordless work lights.
Part No. SL-223, Fluorescent work light bulb for 15w fluorescent work lights.
Part No. SL-235, Halogen work light bulb for 35w halogen clamp work lights.
Part No. SL-236, Halogen work light bulb for 12v 35w halogen clamp work lights.
Part No. SL-209PDQ, Halogen work light bulb for 500w halogen work lights.
Part No. SL-225PDQ, Halogen work light bulbs twin pack for 250w halogen work lights.
Part No. SL-230PDQ, Halogen work light bulbs twin pack for 300w halogen work lights.
Part No. SL-150, Fluorescent replacement head for 18 gauge wire applications.
Part No. SL-181, Fluorescent replacement head for ballasted reels.
Part No. SL-200, Fluorescent replacement head for pro series lights.
Part No. SL-908H, Replacement head for 26w double brite pro grade fluorescent lights.
Part No. SL-908L, Replacement lens for 26w double brite pro grade fluorescent lights.
Part No. SL-203B, Magnetic clips for Pro Series fluorescent work lights.
Part No. SL-203C, Magnetic clips for 18w and 26w double bulb fluorescent work lights.
Part No. SL-203D, Magnetic clips for LED work lights.
Part No. SL-208, Replacement double hook for 13w fluorescent lights (500, 600

SL-203B

12v — Car/Truck Lights

12v LIGHT w/ BATTERY CLIPS

•Plastic lamp guard w/swivel hang hook •50w "Rough Service" incandescent bulb (included) •Alligator clips •Durable push on/off switch •Black flame retardant polypropylene handle •Thermoplastic cord insulation

Part No. SL-412, 18/2 gauge cord, 20 ft. cord length.

12v FLUORESCENT EMERGENCY/ WORK LIGHT

•12v cigarette lighter adapter •Emergency/ work light runs from DC power outlet •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •High impact lamp protector w/high gloss reflector •Flame retardant yellow polypropylene handle •Electronic ballast for instant no-flicker cold weather starts •Rocker on/off switch •Convenient & versatile nylon tipped double hang hook

Part No. SL-512, 18/2 gauge cord, 20 ft. cord length.
Part No. SL-512T, 18/2 gauge cord, 65 ft. cord len

12v 26w DOUBLE-BRITE PRO-GRADE FLUORESCENT EMERGENCY/WORK LIGHT

•12v cigarette lighter adapter •Emergency/ work light runs from DC power outlet •2 cool running 13w 10,000 hour rated bulbs (included) •Equivalent to 125w incandescent bulb w/natural daylight illumination •High impact lamp protector w/high gloss reflector •Hang hook & tool hook •Flame retardant yellow polypropylene handle •Electronic ballast for instant no-flicker cold weather starts •Dual rocker on/off switch

Part No. SL-912T, 18/2 gauge cord, 65 ft. cord length.

12v 35w HALOGEN CLAMP WORK LIGHT

•12v hand held 35w halogen light •Adjustable head directs light to where it's needed •12v - 35w bi-pin halogen bulb with spare bulb (included) •12v cigarette lighter adapter •Convenient hang hook & heavy duty clamp for hands free operation •Comfortable foam grip handle •Rocker on/off switch

Part No. SL-1012, 18/2 gauge cord, 20 ft. cord length.

Incandescent Utility Lights

NON-METALLIC INCANDESCENT UTILITY LIGHT

•High temp resistant plastic guard with hang hook •Black flame retardant polypropylene handle •Durable push on/off switch

Part No. SL-421, 18/2 gauge cord, 25 ft. cord length.

PROFESSIONAL SERIES METAL SHIELD INCANDESCENT UTILITY LIGHTS

•Galvanized metal lamp shield w/rubber tipped hang hook •Polarized plug •Flame retardant yellow polypropylene handle •Up to 75w incandescent bulb (not included) •Durable push on/off switch

Part No. SL-425, 18/3 gauge cord w/10 amp grounded receptacle, 25 ft. cord length.
Part No. SL-426, 18/3 gauge cord w/10 amp grounded receptacle, 50 ft. cord length.
Part No. SL-425A, 16/3 gauge cord w/12 amp grounded receptacle, 25 ft. cord length.
Part No. SL-426A, 16/3 gauge cord w/12 amp grounded receptacle, 50 ft. cord length.

BAYCO
Incandescent Work Light Reels

PROFESSIONAL SERIES METAL SHIELD INCANDESCENT UTILITY LIGHT ON PLASTIC REEL

•Impact resistant polyethylene retractable reel •Galvanized metal lamp shield w/rubber tipped hang hook •Flame retardant yellow polypropylene handle •Polarized plug w/7 amp grounded receptacle •7 amp resettable circuit breaker •Durable push on/off switch •Up to 75w incandescent bulb (not included)
Part No. SL-450, 18/3 gauge cord, 20 ft. cord length.

PROFESSIONAL SERIES METAL SHIELD INCANDESCENT UTILITY LIGHT ON 50 FT. METAL REEL

•Heavy-duty metal retractable reel •Galvanized metal lamp shield w/rubber tipped hang hook •Flame retardant black polypropylene handle •Durable push on/off switch •Up to 75w incandescent bulb (not included) •Mounting brackets included
Part No. SL-851, 18/3 gauge cord, 50 ft. cord length.

PROFESSIONAL SERIES METAL SHIELD INCANDESCENT UTILITY LIGHT w/ TOOL TAP ON 40 FT. METAL REEL

•Heavy-duty metal retractable reel •Galvanized metal lamp shield w/rubber tipped hang hook •Polarized plug w/10amp grounded receptacle •Flame retardant yellow polypropylene handle •Durable push on/off switch •Up to 75w incandescent bulb (not included) •Mounting brackets included
Part No. SL-840, 16/3 gauge cord, 40 ft. cord length.

BAYCO
Life Depends on Light™

Fluorescent Work Light Reels

13w FLUORESCENT WORK LIGHT ON 20 FT. PLASTIC REEL

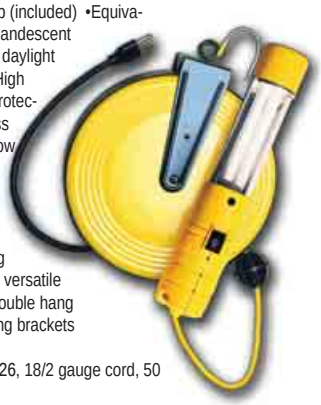
•Impact resistant polyethylene retractable reel •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •High impact lamp protector w/high gloss reflector •Clear chemical resistant lamp protector •Polarized plug •7 amp resettable circuit breaker •Rocker on/off switch •Yellow polypropylene handle
Part No. SL-651, 18/2 gauge cord, 20 ft. cord length.

13w FLUORESCENT ANGLE WORK LIGHT ON 30 FT. METAL REEL

•Heavy duty metal retractable reel •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •High impact lamp protector w/high gloss reflector •Yellow polypropylene handle •Durable push on/off switch •Polarized plug w/10amp grounded receptacle •Convenient hang hook •Mounting brackets included
Part No. SL-821, 16/3 gauge cord, 30 ft. cord length.

13w FLUORESCENT WORK LIGHT ON 50 FT. METAL REEL

•Heavy duty metal retractable reel •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •High impact lamp protector w/high gloss reflector •Yellow polypropylene handle •Durable push on/off switch •Polarized plug •Convenient & versatile nylon tipped double hang hook •Mounting brackets included
Part No. SL-826, 18/2 gauge cord, 50 ft. cord length.



ROUGH DUTY 13w FLUORESCENT WORK LIGHT w/ SPOT WORK LIGHT & TOOL TAP ON 40 FT. METAL REEL

•Heavy duty metal retractable reel •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •Polarized plug w/10amp grounded receptacle •High impact lamp protector w/high gloss reflector •Yellow polypropylene handle •Durable push on/off switch •Nylon tipped double hang hook & convenient magnetic clamp •Mounting brackets included
Part No. SL-825, 16/3 gauge cord, 40 ft. cord length.

OSHA 13w FLUORESCENT WORK LIGHT ON 50 FT. METAL REEL

•Heavy duty metal retractable reel •Cool running 13w 10,000 hour rated bulb (included) •Equivalent to 75w incandescent bulb w/natural daylight illumination •High impact lamp protector w/high gloss reflector •Polarized plug •Clear chemical resistant lamp protector •Convenient & versatile nylon tipped double hang hook •Mounting brackets included •Ballast enclosed near plug end of cord
Part No. SL-827, 18/2 gauge cord, 50 ft. cord length.

15w FLUORESCENT WORK LIGHT ON 50 FT. METAL REEL

•Heavy duty metal retractable reel •15w 7,000 hour rated bulb (included) •Extra long 17" high impact lamp protector w/high gloss reflector •Plastic hang hook on one end plus 2 metal hooks for hanging versatility •Mounting brackets included
Part No. SL-823, 18/2 gauge cord, 50 ft. cord length.

Fluorescent Work Light Reels

18w FLUORESCENT WORK LIGHT w/TOOL TAP ON 40 FT. METAL REEL

•Heavy duty metal retractable reel •2 cool running 9w 10,000 hour rated bulbs (included) •Equivalent to 100w incandescent bulb w/natural daylight illumination •Innovative retractable & removable nylon tipped double hang hook rotates 360° •Unique strain relief allows cord to swivel 90° •Polarized plug with 10amp grounded receptacle •Clear polycarbonate top for spot lighting •High impact lamp protector w/high gloss reflector •Convenient magnet clamp & mounting brackets included
Part No. SL-818, 16/3 gauge cord, 40 ft. cord length.

26w DOUBLE-BRITE PRO GRADE FLUORESCENT WORK LIGHT w/TOOL TAP ON 40 FT. METAL REEL

•Heavy duty metal retractable reel w/flame retardant yellow polypropylene handle •2 cool running 13w 10,000 hour rated bulbs (included) •Equivalent to 125w incandescent bulb w/natural daylight illumination •Polarized plug with 12amp grounded receptacle •Clear chemical & UV resistant lamp protector •High impact lamp protector w/high gloss reflector •Independent rocker on/off switches •Hang hook & convenient magnetic clamp •Mounting brackets included
Part No. SL-875, 16/3 gauge cord, 40 ft. cord length.

ROUGH DUTY 13w FLUORESCENT WORK LIGHT w/SPOT WORK LIGHT & TOOL TAP ON 50 FT. PROFESSIONAL REEL

•40% larger cord reel w/smooth glide rewind •Cool running 13w 10,000 hour rated bulb (included)
•Equivalent to 75w incandescent bulb w/natural daylight illumination •Polarized plug with 12amp grounded receptacle •Resettable 13amp circuit breaker •High impact lamp protector w/high gloss reflector •Durable push on/off switch •Nylon tipped double hang hook & convenient magnetic clamp •Mounting brackets included
Part No. SL-8907, 14/3 gauge cord, 50 ft. cord length.

18w FLUORESCENT WORK LIGHT w/TOOL TAP ON 50 FT. PROFESSIONAL REEL

•40% larger cord reel w/smooth glide rewind •2 cool running 9w 10,000 hour rated bulbs (included) •Equivalent to 100w incandescent bulb w/natural daylight illumination •Innovative retractable & removable nylon tipped double hang hook rotates 360° •Unique 90° cord swivel pivots cord for hands free stand up use •Flame retardant yellow polypropylene handle w/12 amp grounded receptacle •Clear polycarbonate top for spot lighting •High impact lamp protector w/high gloss reflector •Convenient magnet clamp & mounting brackets included
Part No. SL-8918, 14/3 gauge cord, 50 ft. cord length.

26w DOUBLE BRITE PRO GRADE FLUORESCENT WORK LIGHT w/TOOL TAP ON 50 FT. PROFESSIONAL REEL

•40% larger cord reel w/smooth glide rewind •2 cool running 13w 10,000 hour rated bulbs (included) •Equivalent to 125w incandescent bulb w/natural daylight illumination •Flame retardant yellow polypropylene handle w/12 amp grounded receptacle •Resettable 13amp circuit breaker •High impact lamp protector w/high gloss reflector •Independent rocker on/off switches •Hang hook & convenient magnetic clamp included •Mounting brackets included
Part No. SL-8908, 14/3 gauge cord, 50 ft. cord length.

LED Work Light Reel

PROFESSIONAL SERIES LED WORK LIGHT ON 30 FT. METAL REEL

•Heavy duty metal retractable reel •Each LED emitter light is rated up to 70,000 hours •Compact 1-1/4" diameter for access to tight areas •Tough, practically indestructble work light •Convenient push button on/off switch •Convenient hang hook •Mounting brackets included
Part No. SL-2110, 30 LED emitter lights, 18/2 gauge cord.
Part No. SL-2112, 60 LED emitter lights, 18/2 gauge cord.

Cord Reels

ADD-A-CORD QUAD PLUG CORD REEL w/ CIRCUIT BREAKER

•4 outlet powerized reel works with almost any single tap extension cord •Brings the power to the work site •Holds up to 100 ft. of 16 & 14 gauge extension cords and up to 75 ft. of 12 gauge •Impact resistant polypropylene hand wind reel •Polarized plug w/ 4 grounded receptacles •Resettable 11 amp circuit breaker •Durable steel stand w/grip handle
Part No. K-2000.

QUAD PLUG CORD REEL

•Impact resistant polypropylene hand wind reel •Polarized plug w/ 4 grounded receptacles •Resettable 10 amp circuit breaker
Part No. SL-755, 16/3 gauge cord, 25 ft. cord length.

HEAVY DUTY 30 FT. TRIPLE TAP RETRACTABLE REEL

•Heavy duty metal retractable reel •Polarized plug w/ three 10 amp grounded receptacle •Brackets for wall or ceiling mounting included •LED power status light
Part No. SL-800, 16/3 gauge cord, 30 ft. cord length.

BAYCO Cord Reels

SL-105

SL-100

SL-204

PROFESSIONAL 50 FT. TRIPLE TAP RETRACTABLE REEL

•40% larger cord reel w/smooth glide rewind •Polarized plug w/ three 13 amp grounded receptacles •Resettable 13 amp circuit breaker •LED power status light •Mounting brackets included
Part No. SL-8903, 14/3 gauge cord, 50 ft. cord length.

PROFESSIONAL 50 FT. QUAD TAP RETRACTABLE REEL

•40% larger cord reel w/smooth glide rewind •Polarized plug w/four 15 amp grounded receptacles •Resettable 15 amp circuit breaker •LED power status light •Mounting brackets included •Heavy duty 12/3 cord
Part No. SL-8904, 12/3 gauge cord, 50 ft. cord length.

Work Light & Reel Accessories

Part No. SL-105, Replacement non-metallic lamp guard for incandescent work lights & reels.
Part No. SL-100, Replacement metallic lamp guard for incandescent work lights & reels.
Part No. SL-204, Incandescent work light kit.
Part No. SL-202, Replacement tube assembly for 900 series fluorescent work lights.
Part No. SL-202A, Replacement tube assembly for pro series lights.

BAYCO
Life Depends on Light™

Incandescent Clamp Lights

5½" CLAMP LIGHT w/ ALUMINUM REFLECTOR

•Spring steel clamp w/ scratch resistant vinyl sleeve •Rated at up to 75w incandescent (bulb not included) •Adjustable ball joint for easy positioning •Energy saving durable on/off switch
Part No. SL-201PDQ6, 18/2 gauge cord, 6 ft. cord length.

8½" CLAMP LIGHT w/ ALUMINUM REFLECTOR

•Spring steel clamp w/ scratch resistant vinyl sleeve •Rated at up to 150w incandescent (bulb not included) •Adjustable ball joint for easy positioning •Energy saving durable on/off switch
Part No. SL-300B4, 18/2 gauge cord, 6 ft. cord length.

8½" CLAMP LIGHT w/ ALUMINUM REFLECTOR w/ GRIP-TITE SUPER CLAMP

•Heavy duty spring steel clamp w/ scratch resistant vinyl sleeve •Rated at up to 150w incandescent (bulb not included) •Adjustable ball joint for easy positioning •Energy saving durable on/off switch
Part No. SL-301B4, 18/2 gauge cord, 6 ft. cord length.

10½" CLAMP LIGHT w/ ALUMINUM REFLECTOR

•Lights 50% more area than standard 8-1/2" clamp light •Spring clamp w/ scratch resistant vinyl sleeve •Rated at up to 200w incandescent (bulb not included) •Adjustable ball joint for easy positioning •Energy saving durable on/off switch
Part No. SL-310B4, 18/2 gauge cord, 6 ft. cord length.

10½" CLAMP LIGHT w/ ALUMINUM REFLECTOR w/ GRIP-TITE SUPER CLAMP

•Lights 50% more area than standard 8-1/2" clamp light •Heavy duty spring clamp w/ scratch resistant vinyl sleeve •Rated at up to 200w incandescent (bulb not included) •Adjustable ball joint for easy positioning •Energy saving durable on/off switch
Part No. SL-311B4, 18/2 gauge cord, 6 ft. cord length.

35w HALOGEN CLAMP WORK LIGHT

•Hand held 35w halogen light •Adjustable head directs light to where it's needed •35w bi-pin halogen bulb with spare bulb included •Convenient hang hook & heavy duty clamp for hands free operation •Comfortable foam grip handle •Rocker on/off switch
Part No. SL-1000, 18/3 gauge cord, 1 ft. cord length.

Halogen Work Lights

STANDARD 500w HALOGEN PROJECT WORK LIGHT

•Tempered glass lens w/metal safety grill •Foam grip "S" type handle •500w halogen bulb with spare bulb included •Durable powder coat finish
Part No. SL-1002, 18/3 gauge cord, 3 ft. cord length.

PROFESSIONAL 500w HALOGEN WORK LIGHT

•500w halogen bulb with spare bulb included •Closed "V" handle for non slip grip •30% larger housing for durability and wider base for tip-over stability •Weatherproof on/off switch •Tempered glass lens w/metal safety grill •Durable powder coat finish •Spare bulb in protective bulb holder
Part No. SL-1003, 18/3 gauge cord, 5 ft. cord length.

PROFESSIONAL 600w HALOGEN PROJECT WORK LIGHT

•Includes 2 x 300w halogen bulbs plus spare bulb •Dual switch provides 2 light levels - 300w & 600w of halogen light •30% larger housing for durability and wider base for tip-over stability •Tempered glass lens w/metal safety grill •Durable powder coat finish
Part No. SL-1032, 18/3 gauge cord, 6 ft. cord length.

PROFESSIONAL HEAVY DUTY 750w HALOGEN PROJECT WORK LIGHT

•Includes 500w & 250w halogen bulbs •Dual switch provides 3 light levels - 250w-500w-750w of halogen light •Largest housing for maximum durability and wider base for tip-over stability •Tempered glass lens w/metal safety grill •Durable powder coat finish
Part No. SL-1042, 16/3 gauge cord, 6 ft. cord length.

STANDARD 500w SINGLE HEAD CONVERTIBLE TRIPOD MINI TOWER HALOGEN WORK LIGHT

•40" mini telescoping convertible tripod •Includes 500w halogen bulb •Removable light rack easily converts into portable fixture •Tempered glass lens w/metal safety grill
Part No. SL-1022, 18/3 gauge cord, 6 ft. cord length.

STANDARD 500w TWIN HEAD CONVERTIBLE TRIPOD MINI TOWER HALOGEN WORK LIGHT IN MOLDED CASE

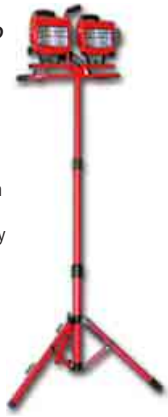
•40" mini telescoping convertible tripod •2 x 250w halogen bulbs •Separate dimmer switches provide 4 light levels -125w-250w-375w-500w of halogen light •Removable light rack easily converts into a portable fixture •Tempered glass lens w/metal safety grill •Includes convenient molded storage case
Part No. SL-2250C, 18/3 gauge cord, 6 ft. cord length.

STANDARD 1000w TWIN HEAD CONVERTIBLE TRIPOD TOWER HALOGEN WORK LIGHT

•Approx 6 ft. telescoping tripod w/adjustable leg for leveling on uneven surfaces •2 x 500w halogen bulbs with spare bulb in protective bulb holder •Removable light rack easily converts into a portable fixture •Separate switches provide 2 light levels - 500w & 1000w of halogen light •Tempered glass lens w/metal safety grill •Durable powder coat finish
Part No. SL-1005, 18/3 gauge cord, 6 ft. cord length.

PROFESSIONAL 1000w TWIN HEAD CONVERTIBLE TRIPOD TOWER HALOGEN WORK LIGHT

•8 ft. telescoping tripod w/adjustable leg for leveling on uneven surfaces •2 x 500w halogen bulbs with spare included •Separate switches provide 2 light levels - 500w & 1000w of halogen light •Tempered glass lens w/metal safety grill •Removable light rack easily converts into a portable fixture •Spare bulb in protective bulb holder •Extra wide tubing •Unique stabilizing head bracket
Part No. SL-1006, 18/3 gauge cord, 6 ft. cord length.



PROFESSIONAL 1200w TWIN HEAD CONVERTIBLE TRIPOD TOWER HALOGEN WORK LIGHT

•Approx 7 ft. telescoping tripod w/adjustable leg for leveling on uneven surfaces •4 x 300w halogen bulbs with spare bulb in protective bulb holder •Removable light rack easily converts into a portable fixture •Dual switches provide 4 light levels -300w -600w-900w-1200w of halogen light •Tempered glass lens w/metal safety grill •Durable powder coat finish
Part No. SL-1062, 18/3 gauge cord, 8 ft. cord length.

PROFESSIONAL HEAVY DUTY 1500w TWIN HEAD CONVERTIBLE TRIPOD TOWER HALOGEN WORK LIGHT

•Approx 8 ft. telescoping tripod w/adjustable leg for leveling on uneven surfaces •2 x 250w & 2 x 500w halogen bulbs with spare bulb in protective bulb holder •Removable light rack easily converts into a portable fixture •Dual switches provide 6 light levels -250w -500w-750w-1000w-1250w-1500w •Tempered glass lens w/metal safety grill •Durable powder coat finish
Part No. SL-1082, 16/3 gauge cord, 10 ft. cord length.

REPLACEMENT BULBS

Part No. SL-235, Halogen work light bulb for 35w halogen clamp work lights.
Part No. SL-209PDQ, Halogen work light bulb for 500w halogen work lights.
Part No. SL-225PDQ, Halogen work light bulbs twin pack for 250w halogen work lights.
Part No. SL-230PDQ, Halogen work light bulbs twin pack for 300w halogen work lights.

Life Depends on Light™

WOODHEAD CANADA
Lighting Products

DROP-LITE® MOLDED NYLON TROUBLE LIGHT
With switch and side outlet. Heavy plated steel quick open guard and reflector. 100 watt CSA certified and UL listed. 16-3 SJTO cord.
Part No. 402, 25 ft. cord.
Part No. 405, 50 ft. cord.

RUGGEDLY BUILT 25 FT. BARE CORD REEL
Features include: All steel unit, automatic spring retraction, ratchet lock, circuit breaker protection, 16-3 SJOW cable, CSA certified.
Part No. 927.

RUGGEDLY BUILT 25 FT. CORD REEL WITH DROP-LITE® TROUBLE LIGHT
Reel features include: All steel unit, automatic spring retraction, ratchet lock, circuit breaker protection, 16-3 SJOW cable, CSA certified. Trouble Light features include: Switch and side outlet. 100 watt rating.
Part No. 927HL.

RUGGEDLY BUILT 40 FT. CORD REEL WITH 13 WATT FLUORESCENT WORK LIGHT
Features include: All steel unit, automatic spring retraction, ratchet lock, plug-in ballast, on/off switch, 18-2 SJTW cable, and includes hardware for ceiling or wall mounting.
Part No. 927FL.

TOUGH, PORTABLE HAZARDOUS DUTY INCANDESCENT HAND LAMP
Meets UL, CSA, and NEC Article 500 hazardous location requirements. Certified for Class I, Division 1, Group C and D, Class II, Division 1, Group F and G. 120 V AC hand lamp only, no cord, bulb not included.
Part No. 61430.

PORTABLE 26 WATT HAZARDOUS DUTY FLUORESCENT HAND LAMP
Meets UL, CSA, and NEC Article 500 hazardous location requirements. Certified for Class I, Division 1, Group C and D, Class II, Division 1, Group F and G. 120 V AC hand lamp only, no cord, bulb included.
Part No. 1090HZ.

REPLACEMENT PARTS
Part No. 400-3, Replacement Drop-Lite® handle and guard assembly for #402, 405, and 927HL.
Part No. 40-5660, Replacement quick open steel guard for #402, 405, and 927HL.
Part No. 34-0350, Replacement 13 watt fluorescent tube for #927FL cord reel - 4 pin (old style).
Part No. CFDS827, Replacement fluorescent tube for #927FL cord reel - (2 pin, ½" x ½" block on one end, 7" overall length).

200306

REEL-O-MATIC RETRACTABLE CORD REEL/TROUBLE LIGHTS
Cord pulls out of reel to any length and locks. Automatically retracts with a tug of the cord. All cord reel trouble lights listed are incandescent. Complete with hardware for ceiling or wall mounting.

PART NO.	DESCRIPTION	WIRE GAUGE	TYPE
200306	6 metre cord reel/trouble light with power receptacle and circuit breaker	18/3	SVT
200312	12 metre cord reel/trouble light	18/3	SJT
221308	9 metre cord reel with tri-tap power receptacle and circuit breaker	16/3	SJT

100307

101315

PROFESSIONAL INCANDESCENT TROUBLE LIGHTS
Incandescent trouble lights fitted with on/off switch. Available in various lengths.

PART NO.	DESCRIPTION	WIRE GAUGE	TYPE
100307	Trouble light c/w 7 metre cord with outlet handle	16/3	SJTW
100315	Trouble light c/w 15 metre cord with outlet handle	16/3	SJTW
101307	Trouble light c/w 7 metre cord with outlet and circuit breaker handle	16/3	SJOW
101315	Trouble light c/w 15 metre cord with outlet and circuit breaker handle	16/3	SJOW
100505	Trouble light c/w 12 volt; 5 metre cord with plastic guard; includes bulb	18/2	PXWT

111207

111307

PROFESSIONAL FLUORESCENT TROUBLE LIGHTS
Bright 13 or 15 watt bulb equivalent to 75 watt brightness. Cool in use, shatter resistant high impact case and outer housing. On/off switch. Hanging hook allows 360° rotation.

PART NO.	DESCRIPTION	WIRE GAUGE	TYPE
111207	7 metre cord with 14" 15 watt tube	18/2	SJOW
111307	7 metre cord with 7" 13 watt tube; with magnetic base	16/3	SJT

Replacement bulbs:
400012 ..... 12 volt, 50 watt incandescent rough service bulb
410115 ..... 15 watt, 14" fluorescent tube
410113RS ..... 13 watt, 7" fluorescent tube

HEAVY DUTY PLUGS & CONNECTORS

Features: •Devices are UL listed and CSA certified •Totally insulated impact and crush resistant nylon body •Clamp type terminals provide a superior electrical connection by bundling the conductor strands when clamps are tightened •Powerful cord grips prevent conductor slippage and strain on wiring terminals •Removable cord inserts, device accommodates a wide range of cord sizes •Yellow

HEAVY DUTY PLUGS & CONNECTORS

Features: •Devices are UL listed and CSA certified •Individually molded face for each blade configuration keeps debris out of plug interior •Roomy wiring chamber provides ample space for wiring •Ribbed nylon housing is impact and chemical resistant •Beveled housing prevents snagging when dragged across uneven surfaces •Integral VARI-SIZE insert adjusts to a wide range of cord sizes •Transparent angled wiring entrance holes permit "straight in" conductor insertion •*Twist to Lock devices are designed to prevent accidental disconnection* •Black & White

INCANDESCENT TROUBLE LIGHT

10 metre cord with outlet. 16-3, SJTW. Orange.
Part No. 21-0210.

Replacement metal trouble light guard for #21-0210.
Part No. 21-0211.

ANGLED FLUORESCENT TROUBLE LIGHT

10 metre cord with outlet. 16-3, SJTW. Black.
Part No. 21-0410.

STRAIGHT FLUORESCENT TROUBLE LIGHT

10 metre cord with outlet. 16-3, SJTW. Yellow.
Part No. 21-0610.

CORDLESS LED ANGLE TROUBLE LIGHT

•28 bright LEDs •600mAh Ni-MH internal battery •AC and 12V vehicle charger included, CUL rated •360° fold-down hook for convenience and versatility •Conveniently operated on/off rocker switch in handle •ABS handle with rubber grip for comfort.
Part No. 21-0812.

MULTIPLE OUTLETS

Includes 7 outlets aligned side by side, and outlets with child proof slider and lighted rocker switch. 14-3, SJT. White. 1 metre cord.
Part No. 21-1002, Surge protected.
Part No. 21-1001, Not surge protected.

OUTLET ADAPTERS

cUL rated, 125 volts, 15 amps, grounded. Carded for display.
Part No. 21-1100, 3 outlet T-tap adapter.
Part No. 21-1101, 3 outlet T-tap straight adapter.
Part No. 21-1102, 3 outlet T-tap straight adapter with night light and sensor.
Part No. 21-1103, 3 outlet T-tap swivel style adapter.
Part No. 21-1106, 6 outlet wall tap adapter.

PREMIUM OUTDOOR CORDS — "YELLOW JACKET®"
•SINGLE OUTLET WITH POWER INDICATOR LIGHT

•Excellent weather resistance — tough outer jacket will not crack in cold weather even as low as -50°C. During the hot weather, this tough outer jacket will not deform in heat up to 60°C.
•Heavy duty strain relief — these easy grip cord ends keep plug on cord.
•Powerlite™ indicator end — the clear ends are rugged, durable and light up when cord has power.
•High visibility — these yellow cords are very visible.
•Super flexibility — 30-50% more flexible than standard cords even at -50°C.
•Longer life — 3 times greater resistance to abrasion than standard vinyl cords.
Yellow Jacket® cords are designed with the special needs of the professional contractor in mind. Offers the best in durability, weather resistance, and flexibility.

CORD CADDY

•This self-storing extension cord allows up to four tools or appliances to be plugged in either indoors or outdoors •4 grounded outlets •Overload protection with built-in 10 amp circuit breaker protects tools •Impact resistant reel •Eliminates messy, tangled extension cords — unwind only as much cord as needed, quick and easy to rewind •Safe, neat storage protects cord from damage •16/3 gauge •SJTW •10 metre cord •Orange cord
Part No. 545794.

CORD CADDY II

•Impact resistant reel •Single grounded outlet •Unique "Pop Lid" feature ensures safety •Eliminates messy, tangled extension cords •Attractive display box •16/3 gauge •SJTW •25 metre cord •Orange cord
Part No. 545823.

H-RACK CORD CADDY

•With carry handle, durable one-piece construction •Black
Part No. 502803.

CORD CARRY STRAP

•Holds up to 45 m of 16/3 cord •Versatile — may also be used for storing holiday string light •Black
Part No. 502805.

EMPTY CORD REEL

•13" reel can hold up to 45 m of 16/3 cord •Portable — easy to use •High impact reel •Clip secures loose cord end •Yellow
Part No. 547702.

POWERLITE™ PLUG

•Plugs into any 3-conductor extension cord or wall outlet •Shows you at a glance that the power is on •Rugged design is ideal for appliances such as sump pumps, freezers, etc. •Use with extension cords on power tools and equipment •Orange
Part No. 512521, Pack of 2.

WORKSHOP LIGHT

•Grounded outlet on handle •Dual Hook system •16/3 gauge •SJTW •Blue cord colour
Part No. 541426, 10 metre.
Part No. 541455, 15 metre.

WORKSHOP WORK LIGHT

•Many uses around the home, or workshop •On/Off switch on handle •Polarized •Dual hook system •18/2 gauge •SJTW •Orange cord colour
Part No. 541332, 6 metre.
Part No. 541362, 10 metre.
Part No. 541388, 15 metre.

THIRD HAND WORK LIGHT

•Swivel clamp on base of handle allows for hands-free use and 360° rotation •Grounded outlet on handle for accessories or tools •16/3 gauge •SJTW •Blue cord colour •10 metre
Part No. 546272.

RETRACTABLE WORK LIGHT

•Self-rewinding •On/Off switch on handle •Cord stop keeps the length of cord required out of the case •Ceiling or wall mount hardware included •10 amps, 120 volts, maximum 75 watt type A bulb •18/3 gauge •SJTW •Black cord colour •6 metre
Part No. 546200.

150 WATT MAXIMUM CLAMP LAMP

•On/Off switch •Maximum 150 watts •Polarized cord set •Full swivel head •8½" polished aluminum reflector •18/2 gauge •SPT-2 wire type •White cord colour •2 metre cord length
Part No. 510151.

60 WATT MAXIMUM CLAMP LAMP

•On/Off switch •Maximum 60 watts •Polarized cord set •Full swivel head •5½" polished aluminum reflector •18/2 gauge •SPT-2 wire type •White cord colour •2 metre cord length
Part No. 510160.

BULK LAMP WIRE

•Thermoplastic jacket, not for hard usage •-20°C to 60°C, 300 volts •For lamps, small appliances, radios •75 metre rolls •Choose from 18/2 gauge or 16/2 gauge; brown or white
Part No. 10477, 18/2 gauge, brown.
Part No. 10478, 18/2 gauge, white.
Part No. 10888, 16/2 gauge, brown.
Part No. 10889, 16/2 gauge, white.

THERMOSTAT WIRE

•Type CL2 low voltage cable using thermoplastic insulated conductors and jacket •Fire resistant •60°C, 150 volts •For thermostat controls, heating and air conditioning installations, burglar alarm systems, intercom systems, door bells, etc. •18/2 gauge •Brown cord colour •150 metre roll
Part No. 10400.

SPEAKER WIRE

•Type CL2 Parallel wire, power limited circuit cable 20°C to 105°C •For stereo and Hi-Fi systems, home theatre sound systems, lamps, radios •18/2 gauge •Clear cord colour •75 metre roll
Part No. 10783.

6-OUTLET POWER CENTRE

•Convert standard wall outlet into 6 outlet power centre with convenient on/off switch •3 ft. cord •White
Part No. 546342.

6-OUTLET WALL BLOCK

•Safely convert a standard outlet into 6 outlets •Beige
Part No. 545882.

1 WAY SINGLE OUTLET SURGE PROTECTION

•Superior protection for electronics, appliances and major office equipment — 810 joules rating •White
Part No. 546500.

6 OUTLET POWER BAR WITH SURGE PROTECTION

•6 grounded outlets •Surge protector for home electronics •24" cord •Lighted breaker switch •Max. surge voltage: 90 joules •Grey
Part No. 12680.

6 OUTLET POWER BARS WITH SURGE PROTECTION

•Protects valuable equipment from dangerous spikes and energy surges •With advanced EMI/RFI noise filtration for cleaner power
Part No. 545243, 4 ft. cord, 210 joule rating.
Part No. 545101, 3 ft. cord, 312 joule rating.

7 OUTLET POWER BARS WITH SURGE PROTECTION

•Protects valuable equipment from dangerous spikes and energy surges •With advanced EMI/RFI noise filtration for cleaner power •6 ft. cord •510 joule rating
Part No. 545200.
Part No. 545201, Includes telephone, modem, and fax line protection.
Part No. 545202, Includes coax/antenna protection.

WORKSHOP POWER BARS "PROPOWER"™

•Grounded outlets •Heavy duty housing •Rear mounting holes •Convenient on/off switch •4 ft. cord •Black
Part No. 502177, 4 outlets, metal housing.
Part No. 507408, 6 outlets, ABS housing.

24 HOUR OUTDOOR DIGITAL TIMER

•24 hour cycle •1 on/off per day •Manual on/off option •Ideal for outdoor lighting, car heating accessories, etc. •1875 watts, 15 amps •3-prong plug type
Part No. 49122.

PHOTOELECTRIC TIMER

•Digital display shows selected hours of operation •Program option to turn lights off after 1-9 hours after dusk •Program option to turn lights on at dusk, off at dawn •1000 watts, 8 amps •2-prong plug type •1 on/off per day
Part No. 49103.

INDOOR/OUTDOOR REMOTE SWITCH

•40 foot range •Dual grounded plugs •Hand remote •Transmitting indicator light •3-prong plug type
Part No. 49063.

Common Wire Types; Wire & Cable Abbreviations

SJW
Extra hard usage cord. 600V jacket, 60°C to 105°C. Weather resistant for outdoor use.

SJTW
Hard usage thermoplastic or rubber-insulated conductors and overall thermoplastic jacket. All Elastomer construction. 300V, 90°C to 105°C. Weather resistant for outdoor use.

SPT-1
All thermoplastic construction, parallel jacketed. 300V, 60°C to 105°C, 2 or 3 conductor. (18 gauge)

SPT-2
Same as SPT-1 but heavier construction (18 - 16 gauge).

SPT-3
Same as SPT-2 but heavier construction (18 - 10 gauge).

S = Service
J = Junior
O = Oil Resistant
T = Thermoplastic/Vinyl
P = Parallel
E = Elastomer

Freeze Protection Cable (Heat Tape)

EASYHEAT® pipe heating cable eliminates freezing problems in and around the home, farm, cottage, mobile homes, trailers, etc. Designed and tested to meet the highest safety standards and withstand the toughest winter conditions. Pre-assembled and ready-to-install, the cable prevents pipe from freezing, keeping water flowing to -40°C. Using an energy-saving thermostat, Easyheat cables operate on 120 volts and are suitable for use on plastic and metal water pipes. CSA approved.
Part No. AHB-13, 3 ft. length, 21 watt.
Part No. AHB-16, 6 ft. length, 42 watt.
Part No. AHB-19, 9 ft. length, 63 watt.
Part No. AHB-112, 12 ft. length, 84 watt.
Part No. AHB-115, 15 ft. length, 105 watt.
Part No. AHB-118, 18 ft. length, 126 watt.
Part No. AHB-124, 24 ft. length, 168 watt.
Part No. AHB-130, 30 ft. length, 210 watt.
Part No. AHB-140, 40 ft. length, 280 watt.
Part No. AHB-160, 60 ft. length, 420 watt.
Part No. AHB-180, 80 ft. length, 560 watt.

Part No.	Description	Colour	Wire Range	Minimum Capacity	Maximum Capacity
•Marrette® XTP® Made of a tough, durable engineered thermoplastic material that withstands high installation pressures and operating temperatures. Designed to accommodate a wide range of wire combinations.					
331	Marrette XTP connector	orange	18 to 14 ga.	2 #18	3 #14
333	Marrette XTP connector	yellow	18 to 10 ga.	2 #18, 1 #14	2 #14, 1 #10
335	Marrette XTP connector	red	18 to 8 ga.	2 #18, 2 #16	3 #10

•Marrette® Type II™ For electricians who prefer a winged connector, Marr offers its Type II connector -- the twist-on wire connector engineered to meet the high expectations of electrical professionals.					
733	Marrette Type II connector	yellow	18 to 10 ga.	2 #18	3 #12
735	Marrette Type II connector	red	18 to 8 ga.	2 #14	2 #12, 2 #10
739	Marrette Type II connector	blue	14 to 6 ga.	3 #12	2 #8, 1 #6

•Marrette® Black® This connector is a superior quality, general purpose wire connector. Proven effective in new construction, electrical maintenance and manufacturing, Marrette Black's high temperature rating makes it perfect for HID lighting, high wattage fixtures, and signs.					
29	Marrette Black connector	black	22 to 16 ga.	1 #22, 1 #20	2 #16
30	Marrette Black connector	black	22 to 14 ga.	3 #20	3 #16
31	Marrette Black connector	black	18 to 14 ga.	2 #18	4 #16
33	Marrette Black connector	black	18 to 12 ga.	1 #18, 1 #14	4 #14
35	Marrette Black connector	black	18 to 10 ga.	2 #14	3 #16, 3 #12
37	Marrette Black connector	black	14 to 8 ga.	1 #14, 2 #12	4 #10

•Marr® Set Screw™ When you want to be able to see the connection, the Marr Set Screw wire connector is a two piece compression connector with a screw on insulator cap. Set screw in brass barrel provides secure, visible compression while enhancing conductivity. No special tools required, and the high temperature (150°C, 302°F) insulator cap locks securely in place to isolate the connection.					
1SH	Marr Set Screw connector, small 2 piece Robertson	black	18 to 12 ga.	2 #18	4 #14
2SH	Marr Set Screw connector, large 2 piece slot	black	16 to 10 ga.	2 #14	1 #12, 2 #10

•Marr® Snap-It™ Cable Connectors

This rugged CSA approved plastic cable connector saves time and effort when installing non-metallic cable through a standard 1/2" metal box knock-out. Rapid installation — no tools required. Self-locking, yet cable can be adjusted after installation.

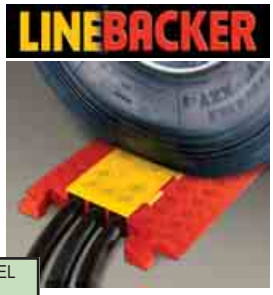
W100LXKP1 Marr Snap-It cable connector - cable sizes; 14/2, 14/3, 12/2, 12/3, 10/2, 10/3, 2 x 14/2, 2 x 14/3, 2 x 12/2

•Marr® TapeMaster®

Use TapeMaster to fish a complete range of electrical, electronic, and communication wires and cables through rigid or flexible conduit, or through plenum spaces. Best quality, oil tempered, flat spring steel fish tape in patented Tapemaster dispenser and storage reel. Rigid, with flexible spring action. Excellent tensile strength. Comes with preformed hook. High-impact plastic case, durable, easy grip handle and brake. Slip resistant inner ring. Enlarged tape viewports.

14-250 Marr TapeMaster - 50 ft. length, 8½" reel dia., 1/8" x .060 in. (1/16 in.) fish tape
14-258 Marr TapeMaster - 100 ft. length, 8½" reel dia., 1/8" x .060 in. (1/16 in.) fish tape
14-259 Marr TapeMaster - 200 ft. length, 8½" reel dia., 1/8" x 0.60 in. (1/16 in.) fish tape

Modular Cable & Hose Protectors



Protect valuable electrical cables, cords and hose lines from damage and abuse while insuring a method of safe passage for vehicles and pedestrian traffic. Ideal for convention centers, amusement parks, construction sites, public utilities, municipalities, manufacturing plants and industrial applications. Features: •All weather polyurethane construction with heavy load capacity •Non metallic protectors insulates cables/hose lines from human contact •Satisfies state and federal regulatory agencies •Hinged lift cover makes placing and removing cable/hose lines easy •Modular interlocking design is lightweight and easy to transport, set up, dissassemble and store.

LINEBACKER® HD - HEAVY DUTY 2, 3, 4, 5 CHANNEL CABLE/HOSE PROTECTOR

Load capacities up to 16,000 lbs. per tire. Yellow lid/orange base.

PART NO.	DESCRIPTION	A-LENGTH	B-WIDTH	C-HEIGHT	D-CHANNEL WIDTH	E-CHANNEL HEIGHT

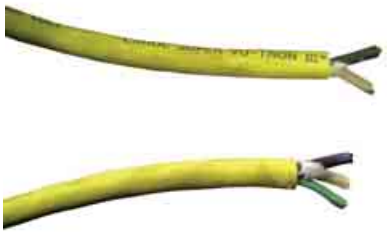
LINEBACKER

SUPER VU-TRON® III Cable

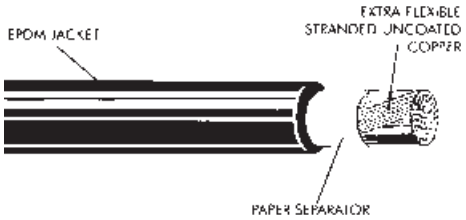


FEATURES: Extreme flexibility, maximum safety, indoors or out.
•UL/CSA listed as indoor/outdoor cord •Rated CSA: +105° to -50°C; UL: +105° to -50°C •Extra flexible stranding •Oil resistant 105°C insulation •Cable fillers are non-hygroscopic •Resists abrasion and cutting •Impervious to chemicals, oils, water, ozone, fungus •Will not stiffen or crack when cold •Does not support combustion •Meets all Bureau of Mines requirements •Yellow jacket

It's super flexible — won't corkscrew under tension, or kink no matter how it's abused. The highly visible safety yellow outer jacket and premium grade insulation won't stiffen in cold, or dry out in heat. Take Super Vu-Tron III to temperature extremes from -50°C all the way to 105°C — it performs flawlessly even in the toughest industrial environments.

Part No. 02004, 2 wire - 16 ga. SJOOW cable.
Part No. 02005, 3 wire - 16 ga. SJOOW cable.

ExCELENE® Welding Cable



Part No. EF-4, #4 600 volt EPDM jacketed ExCELENE® welding cable.
Part No. EF-2, #2 600 volt EPDM jacketed ExCELENE® welding cable.
Part No. EF-1, #1 600 volt EPDM jacketed ExCELENE® welding cable.
Part No. EF-1/0, #1/0 600 volt EPDM jacketed ExCELENE® welding cable.
Part No. EF-2/0, #2/0 600 volt EPDM jacketed ExCELENE® welding cable.
Part No. EF-3/0, #3/0 600 volt EPDM jacketed ExCELENE® welding cable.
Part No. EF-4/0, #4/0 600 volt EPDM jacketed ExCELENE® welding cable.

Temperature rating:
-50°C to + 105° C

•Chemical, grease, oil, and acid resistant •Weather, ozone, and sunlight resistant jacket
•Abrasion resistant •Excellent dielectric strength

EVEREADY™ REPLACEMENT BULBS

Part No.	Description	Packaging	Case Qty.
PR2	Miniature bulb - Min. flg. for 2 x D cell flashlight, 2.4V, .50A.	bulk	10
PR2BP2	Pack of 2 Miniature bulb - Min. flg. for 2 x D cell flashlight, 2.4V, .50A.	blister	10
PR3	Miniature bulb - Min. flg. for 3 x D cell flashlight, 3.6V, .50A.	bulk	10
PR4	Miniature bulb - Min. flg. for 2 x AA cell flashlight, 2.3V, .27A.	bulk	10
PR13	Miniature bulb - Min. flg. for 6V lantern, 4.8V, .50A.	bulk	10
222	Miniature bulb - Min. screw for 2 x AAA cell flashlight, 2.3V, .25A.	bulk	10
222BP2	Pack of 2 Miniature bulb - Min. screw for 2 x AAA cell flashlight, 2.3V, .25A.	blister	10
407BP	Pack of 1 Miniature bulb - Min. screw for lantern, 4.9V, .30A.	blister	10
KPR102BP2	Pack of 2 Krypton bulb - Bayonet for 2 x D cell flashlight, 2.4V, .70A.	blister	10
KPR104BP2	Pack of 2 Krypton bulb - Bayonet for 2 x AA or 2 x C cell flashlight, 2.2V, .47A.	blister	10
KPR113BP2	Pack of 2 Krypton bulb - Bayonet for 6Vor 4D cell flashlight, 4.8V, .75A.	blister	10

Energizer Canada

NEW!!

LED CLIP LIGHT

•Uses 2 lithium coin batteries (included) •White LED bulb •Industrial strength clip •Multi-position flexible neck •Slide switch •Retail blister card
Part No. IND2BU1CS.

RUBBER FLASHLIGHT

•Uses 2 "AA" batteries (included) •Uses bulb #PR4 •Pushbutton switch •Retail blister card
Part No. R215WBS.

ZAP DISPOSABLE LIGHT

•Batteries included •Slide switch •Retail blister card
Part No. V2202ACS.

STANDARD 2D FLASHLIGHT

•Uses 2 "D" batteries (included) •Uses bulb #PR2 •Slide switch •Retail blister card
Part No. 3251NWBS.

RUBBER 2D FLASHLIGHT

•Uses 2 "D" batteries (included) •Uses bulb #KPR102BP2 •Pushbutton switch •Retail blister card
Part No. R250WBS.

UTILITY LANTERN

•Uses spring top 6V battery (included) •Uses bulb #KPR113BP2, #PR13 •Pushbutton switch •Bulk packaging
Part No. 5109WBS.

6 LED HEADLIGHT

•With head strap that's wide enough to fit hard hats •2 built-in pencil holders •Pivoting head •Uses 3 "AAA" batteries (included) •Pushbutton switch •Retail blister card •Offers 4 Light Modes — "Spot": (2 white LEDs) focused light for detail work; "Flood": (2 white LEDs) area light for moving, working; "Spot + Flood": (4 white LEDs) maximum light output; "Night Vision": (2 red LEDs) saves power, keeps peripheral vision, up to 50 hours of run time.
Part No. HDL33AINE.

INDUSTRIAL SWIVEL HEAD FLASHLIGHT

•Uses 4 "AA" batteries (included) •Uses bulb #KPR104BP2 •Pushbutton switch •Retail blister card
Part No. IN421WBE.

INDUSTRIAL UTILITY FLASHLIGHT

•Uses 2 "D" batteries (not included) •Uses bulb #KPR102BP2, #PR2 •Slide switch •Boxed
Part No. E250Y.

INDUSTRIAL UTILITY FLASHLIGHT w/ MAGNET

•Uses 2 "D" batteries (not included) •Uses bulb #KPR102BP2, #PR2 •Slide switch •Boxed
Part No. E251Y.

INDUSTRIAL HEAVY DUTY FLASHLIGHT
•Uses 2 "AA" batteries (not included) •Uses bulb #KPR104BP2, #PR4 •Slide switch •Boxed
Part No. 1151.

INDUSTRIAL HEAVY DUTY FLASHLIGHT
•Uses 2 "D" batteries (not included) •Uses bulb #KPR102BP2, #PR2 •Slide switch •Boxed
Part No. 1251.

INDUSTRIAL EXPLOSION PROOF FLASHLIGHT
•Uses 2 "D" batteries (not included) •Uses bulb #PR2 •Slide switch •Boxed
Part No. 1259.

INDUSTRIAL EXPLOSION/ WATERPROOF LANTERN
•Uses spring top 6V battery (not included) •Uses bulb #PR13 •Pushbutton switch •Boxed
Part No. 459.

INDUSTRIAL FLOATING WATERPROOF LANTERN
•Uses spring top 6V battery (not included) •Uses bulb #KPR113BP2, #PR13 •Pushbutton switch •Bulk
Part No. 1700.

INDUSTRIAL UTILITY FLOATING LANTERN
•Uses spring top 6V battery (not included) •Uses bulb #KPR113BP2, #PR13 •Pushbutton switch •Bulk
Part No. 5109IND.

INDUSTRIAL 2-WAY SWIVEL HEAD LANTERN
•Uses screw post 6V battery (not included) •Uses bulb #KPR113BP2 •Pushbutton switch •Bulk
Part No. 231IND.

INDUSTRIAL LED PENLIGHT
•Uses 2 "AAA" batteries (included) •Pushbutton switch •Over 100 hour run time •Metal casing •Retail bliser card
Part No. PLED23AE.

INDUSTRIAL RUBBER WATER RESISTANT FLASHLIGHT
•Uses 2 "D" batteries (not included) •Uses bulb #KPR102BP2, #PR2 •Pushbutton switch •Bulk
Part No. 4250IND.

HARD CASE PRO™ 2AA FLASHLIGHT
•Uses 2 "AA" batteries (included) •Uses 3 Nichia LEDs •Pushbutton switch •Impact resistant •Steel plate bolted sides •Weather proof •Shatter proof lens •Survives a 30 ft. drop •Includes storage pouch •Retail blister card
Part No. TUF2AAPEH.

HARD CASE PRO™ 4AA FLASHLIGHT
•Uses 4 "AA" batteries (included) •Uses 4 Nichia LEDs •Pushbutton switch •Impact resistant •Steel plate bolted sides •Weather proof •Shatter proof lens •Survives a 15 ft. drop •Retail blister card
Part No. TUF4AAPEH.

HARD CASE PRO™ SWIVEL HEAD FLASHLIGHT
•Uses 4 "AA" batteries (included) •Uses 4 Nichia LEDs •Pushbutton switch •Impact resistant •Steel plate bolted sides •Weather proof •Shatter proof lens •Survives a 15 ft. drop •Retail blister card
Part No. TUF421PEH.

HARD CASE PRO™ SPOT LANTERN
•Uses 4 "C" batteries (included) •Uses 3 watt Luxeon LEDs •Trigger pushbutton switch •Impact resistant •Steel plate bolted sides •Weather proof •Shatter proof lens •Survives a 15 ft. drop •Retail blister card
Part No. TUF4CPEH.

HARD CASE PRO™ 4D LED LANTERN
•Uses 4 "D" batteries (not included) •Uses K2 LED •Trigger switch •Impact resistant •Steel plate bolted sides •Weather proof •Shatter proof lens •Survives a 15 ft. drop •25 hour run time •Bulk
Part No. TUF4DPH.

MINE SAFETY 2AA LED LIGHT
•Uses 2 "AA" batteries (not included) •Uses 3 LED safety bulbs •Pushbutton switch •Survives 7 ft. drop •Shatter proof lens and non-roll feature •Waterproof •Anti-static chemical resistant polypropylene •17 hour run time
Part No. MS2AALED.

MINE SAFETY 2D LED LIGHT
•Uses 2 "D" batteries (not included) •Uses 1 LED safety bulb •Pushbutton switch •Survives 7 ft. drop •Shatter proof lens and non-roll feature •Waterproof •Anti-static chemical resistant polypropylene •80 hour run time
Part No. MS2DLED.

MINE SAFETY LED LIGHT SPECIFICATIONS
Intrinsically safe flashlight for use in hazardous locations: UL 913 (Sixth Edition) Class I groups A, B, C & D, Class II groups E, F & G and Class III; IEC 60529 Waterproof and Dustproof standards), Ingress Protection Rating: 1P67

Hand Held Spot Lights

•Swivel handle •Equipped with cigarette lighter plug •DC 12V 55W bulb •Long range light •1,000,000 candlepower
Part No. 648-255.

Flashlights & Accessories

MAG-LITE®

MAG-LED™ FLASHLIGHTS

Maglite flashlight, well known for its quality, durability, and reliability is now available with the new MAG-LED™ Technology. Designed for professional and consumer use, Maglite LED flashlights buildon the experience in craftsmanship, engineering, and advanced technology evident in all Mag flashlights. The Maglite flashlight is internationally accepted as the Professional Flashlight®. Built tough enough to last a lifetime, its durability and patented features now combined with the new MAG-LED Technology make the Maglite LED flashlight a technologically advanced lighting instrument. Available in 2, 3, and 4 Cell D size the benefits include: •A projecting beam that focuses simply by rotating the head •Balanced optics provide a focusing, 3 watt LED, optimized to produce a powerful beam •Intelligent energy source management (patent pending) balancing an optimum high brightness with extended battery life •Maglite LED is interchangeable between LED and Krypton lamp (spare Krypton lamp included in the tailcap)

MINI MAGLITE® LED 2-CELL AA FLASHLIGHTS

Holster pack includes Mini Maglite LED AA flashlight, polypropylene belt holster and two AA cell premium alkaline batteries.
Part No. SP2201H, Black.
Part No. SP2203H, Red.
Part No. SP2209H, Grey pewter.
Part No. SP2210H, Silver.
Part No. SP2211H, Blue.

MINI MAGLITE® LED 3-CELL AA FLASHLIGHTS

Holster pack includes Mini Maglite LED AA flashlight, polypropylene belt holster and three AA cell premium alkaline batteries.
Part No. SP2301H, Black.
Part No. SP2303H, Red.
Part No. SP2309H, Grey pewter.
Part No. SP2310H, Silver.
Part No. SP2311H, Blue.

MAGLITE® LED 2-CELL D FLASHLIGHTS

Hang pack includes: Maglite LED D Cell flashlight.
Part No. ST2D016, Black.
Part No. ST2D036, Red.
Part No. ST2D096, Grey pewter.
Part No. ST2D106, Silver.
Part No. ST2D116, Blue.

MAGLITE® LED 3-CELL D FLASHLIGHTS

Hang pack includes: Maglite LED D Cell flashlight.
Part No. ST3D016, Black.
Part No. ST3D036, Red.
Part No. ST3D096, Grey pewter.
Part No. ST3D106, Silver.
Part No. ST3D116, Blue.

MAGLITE® LED 4-CELL D FLASHLIGHTS

Hang pack includes: Maglite LED D Cell flashlight.
Part No. ST4D016, Black.
Part No. ST4D036, Red.
Part No. ST4D096, Grey pewter.
Part No. ST4D106, Silver.
Part No. ST4D116, Blue.

MAGLITE C OR D CELL LED UPGRADE MODULE

Upgrade your existing 2, 3, and 4 C and D-Cell Maglite flashlights to the new MAG-LED™ Technology. The benefits include: •Intelligent Energy Source Management (patent pending) extends battery life •Balanced optics provide a focusing, 3 watt LED, optimized to produce a powerful projecting beam •Upgrade modules are available for all 2, 3, and 4 cell C and D size Maglite flashlights. The kits are cell number/size specific — i.e. 2 Cell, 3 Cell, 4 Cell and must be matched to a 2, 3, or 4 cell Maglite flashlight. Does not void the Maglite flaslight Limited Lifetime Warranty. Upgrading any C or D size flashlight is as easy as 1, 2, 3! Step 1: Unscrew the flashlight head assembly. Step 2: Unscrew the retaining collar and remove lamp. Step 3: Insert LED Module and replace retaining collar and head assembly.

Maglite C or D Cell LED Upgrade Module
Hang pack includes: Maglite C or D Cell LED Upgrade Module, White LED
Part No. SH32DCW6, 2 Cell C or D LED upgrade module.
Part No. SH33DCW6, 3 Cell C or D LED upgrade module.
Part No. SH34DCW6, 4 Cell C or D LED upgrade module.

MagLite flashlights have an exceptionally durable body that is machined to exacting tolerances from the finest aircraft aluminum. Each end is sealed with the highest quality rubber o-rings for superior water and shock resistance. A fast focus beam adjusts from spot to flood with a turn of the head, and a patented self-cleaning switch eliminates oxidation.

SOLITAIRE® FLASHLIGHTS

Ideal for a purse or key chain. It weighs less than an ounce and is about three inches long. Includes a spare bulb in the end cap, an alkaline AAA Energizer® battery, and key lead.
Part No. K3A016, Hang pack - black.
Part No. K3A036, Hang pack - red.
Part No. K3A116, Hang pack - blue.
Part No. LK3A001, Card of 2, Solitaire replacement bulbs.

MINI MAGLITE® AAA FLASHLIGHTS

Features a candle mode for hands-free use. Includes a spare bulb in the end cap, pocket clip, and two alkaline AAA Energizer batteries.
Part No. M3A016, Hang pack - black.
Part No. M3A036, Hang pack - red.
Part No. M3A116, Hang pack - blue.
Part No. M3A012, Presentation box - black.
Part No. M3A032, Presentation box - red.
Part No. M3A112, Presentation box - blue.
Part No. AM3A026, Nylon full flap holster - hang pack - black.
Part No. LM3A001, Card of 2, Mini Maglite AAA replacement bulbs.

Part No. S6D036, 6 D cell flashlight - red.
Part No. ASXD026, Card of 2, Maglite D cell universal mounting brackets.
Part No. ASXC046, C cell plain leather belt holder.
Part No. ASXD036, D cell plain leather belt holder.
Part No. ASXX07B, C or D cell red traffic wand.
Part No. ASXX08B, C or D cell yellow traffic wand.
Part No. ASXX09B, C or D cell white traffic wand.
Part No. ASXX376, D cell accessory pack w/ red, amber, and blue lenses, anti-roll device, two universal mounting brackets and screws.
Part No. LWSA201, Card of 2, 2 C or D cell White Star replacement bulbs.
Part No. LWSA301, Card of 2, 3 C or D cell White Star replacement bulbs.
Part No. LWSA401, Card of 2, 4 D cell White Star replacement bulbs.
Part No. LWSA501, Card of 2, 5 D cell White Star replacement bulbs.
Part No. LWSA601, Card of 2, 6 D cell White Star replacement bulbs.
Part No. LMSA201, Card of 1, 2 C or D cell Mag-Num® replacement bulb.
Part No. LMSA301, Card of 1, 3 C or D cell Mag-Num replacement bulb.
Part No. LMSA401, Card of 1, 4 D cell Mag-Num replacement bulb.
Part No. LMSA501, Card of 1, 5 D cell Mag-Num replacement bulb.
Part No. LMSA601, Card of 1, 6 D cell Mag-Num replacement bulb.

MAGLITE® LITE PACK

Includes one Maglite 3 D cell flashlight, and one Mini Maglite AA flashlight. Hang Pack.
Part No. X01016, Black.

MAG CHARGER® RECHARGEABLE FLASHLIGHT SYSTEM

Features 30,000 candlepower. Comes complete with Mag Charger flashlight, charging unit, battery pack, and two mounting brackets.
Part No. RX1019, Mag Charger Rechargeable Flashlight System #1 - includes additional 12 volt DC cigarette lighter adapter and 110 volt AC converter.

Part No. RX2019, Mag Charger Rechargeable Flashlight System #2 - includes additional 12 volt DC cigarette lighter adapter.

Part No. RX3019, Mag Charger Rechargeable Flashlight System #3 - includes additional 110 volt AC converter.

Part No. ARXX025, Mag Charger replacement charging unit w/ base bracket.

Part No. ARXX035, Mag Charger replacement 110 volt AC converter.

Part No. ARXX045, Mag Charger replacement 12 volt DC cigarette lighter adapter.

Part No. ARXX075, Mag Charger replacement 6 volt nicad battery pack.

Part No. ARXX088, Mag Charger replacement charger base bracket.

Part No. LR00001, Card of 1, Mag Charger halogen replacement bulb.

Professional Flashlights

SUPER PELILITE® LASER SPOT™ XENON FLASHLIGHT

Watertight to 500 feet. Unbreakable ABS body with a high-impact polycarbonate lens and rubber lens protector, and lanyard. Provides 400% more light than ordinary flashlights. Requires 2 C-cell alkaline batteries (not included). 10,000 candlepower Xenon lamp module. Length: 6". carded.
Part No. 1800C, Black.
Part No. 1800C-YE, Yellow.
Part No. 1804, Replacement lamp module.

L4 LED FLASHLIGHT

•Tested lumen value 8.0 •5 mm Nichia white LED •3 AAAA (quad-A) batteries (included) •50 hours battery burn time •Handy push-button tail cap on/off switch •Tough light weight body made of indestructible Xenoy® •Sleek organic design for easy operation •Momentary "blink" or constant "on" mode •Pocket clip for easy attachment
Part No. 1830C, Black.
Part No. 1830C-YE, Yellow.

MITYLITE® LASER SPOT™ FLASHLIGHT

Water resistant. Unbreakable space age high-impact polycarbonate resin. Focused beam that is 400% brighter than ordinary pocket lights. Includes shirt clip, 4000 candlepower lamp module, 2 AAA-cell Energizer® alkaline batteries and Litebender. Length 4¾". Carded.
Part No. 1900C, Black.
Part No. 1900C-YE, Yellow.
Part No. 1900C-OR, Orange.
Part No. 1900C-BL, Blue.
Part No. 1904, Replacement lamp module.

PELICAN L1 WHITE LED FLASHLIGHT WITH LANYARD

The L1 LED flashlight provides a concentrated close quarter beam. The LED lamp provides up to 50,000 hours of usage and uses 4 replaceable LR44 1.5 volt alkaline coin cells (included) for up to 100 hours of battery life. Includes neck lanyard and a handy push button on/off end switch. 6000 candlepower. Carded.
Part No. 1930C, Black.
Part No. 1930C-YE, Yellow.

SUPER SABRELITE® LASER SPOT™ XENON PROFESSIONAL FLASHLIGHT

Submersible to 500 feet. Unbreakable ABS body with a high-impact polycarbonate lens. Provides a tightly focused white light beam with 400% increased net candlepower. Includes belt spring clip, stainless steel split ring and black lanyard. With rubber lens protector and battery safety tray. Meets military specifications. Requires 3 C-cell alkaline batteries (not included). 12,000 candlepower. Length: 7-13/16". Carded.
Part No. 2000C, Black.
Part No. 2004, Replacement lamp module.

SABRELITE™ 2010 RECOIL LED™

•Tested lumen value 32.0 •1 watt Luxeon Lambertion LED using Recoil LED Technology™ •3 C batteries (not included) •50 hours battery burn time •Twist on/off shroud •Rugged ABS body •Submersible to 500 feet
Part No. 2010C, Black.
Part No. 2010C-YE, Yellow.

PELICAN™
You break it, we replace it... forever.

SABRELITE™ LED FLASHLIGHT

Submersible to 500 ft. Advanced super bright Recoil LED Technology™ combines the brightness of a conventional light with the long life and durability of an LED. Recoil LED Technology™ delivers a lux reading of over 1,558. That's 32 times brighter than the nearest competition! Light weight body made of Xenoy® with polycarbonate lens and ABS shroud. O ring sealed with a twist on shroud. Carded. Requires 3 C-cell batteries (not included.)
Part No. 2020B, Black.
Part No. 2020B-YE, Yellow.

VERSABRITE™ II FLASHLIGHT

Features Pelican's 8,000 candlepower Xenon wide beam LMX lamp module. Covers 4 times the area. Multiple position (o-ring sealed) swivel head made of Xenoy unbreakable chemical resistant resin. Includes: large multiple use visor cap/clothing clip, 2 night vision discs (red and blue/green) and 2 AA-cell Energizer® alkaline batteries. Burn time 5 - 6 hours. Length: 4-3/16". Carded. NOTE: Not for SCUBA applications.
Part No. 2270C, Non-glare black.
Part No. 2274, Replacement lamp module.

MITYLITE® MAGNUM 2AA FLASHLIGHT

Submersible to 500 feet. Made of Xenoy unbreakable chemical resistant resin. Focused Xenon Laser Spot beam is 600% brighter than ordinary personal lights. Includes shirt clip, Xenon lamp module and 2 AA-cell Energizer® alkaline batteries. 8000 candlepower. Length: 5-5/8". Carded.
Part No. 2300C, Black.
Part No. 2304, Replacement lamp module.

MAGNUM PLUS™ 2AA FLASHLIGHT

Tail button switch (on/off and intermittent). Unbreakable chemical resistant resin. Pre-focused Xenon Laser Spot beam, rubber lens protector, water resistant. Includes shirt clip, 2 AA-cell Energizer® alkaline batteries. 8000 candlepower. Length: 6½". Carded.
NOTE: Not for SCUBA applications.
Part No. 2340C, Black.
Part No. 2340C-YE, Yellow.
Part No. 2304, Replacement lamp module.

STEALTHLITE® RECOIL LED™ FLASHLIGHT

Finally, an LED flashlight that's just as bright as a high performance incandescent, without the annoying dark spots and irregular beam pattern and susceptibility to breakage found in standard filament lamps. Brilliant power and faultless dependability... that's Recoil LED Technology™.
Features: •Tested lumen value 32.0 •1 watt luxeon lambertion LED using Recoil LED Technology™ •4 AA batteries (included) •32 hrs battery burn time •One handed safety switch operation •Rugged ABS body with nylon lens •Submersible to 500 feet.
Part No. 2410B, Black.
Part No. 2410B-YE, Yellow.

STEALTHLITE® FLASHLIGHT

Watertight to 500 feet. Unbreakable ABS body with a high-impact polycarbonate lens. Features state-of-the-art Laser Spot Xenon lamp module. Includes one-handed safety switch operation, double shock mounted battery compartment and black lanyard. Operates 5 - 6 hours on 4 AA-cell Energizer® alkaline batteries (included). 10,000 candlepower. Length: 6½". Carded.
Part No. 2400C, Black.
Part No. 2400C-YE, Yellow.
Part No. 2404, Replacement lamp module.

VB3 LED FLASHLIGHT

Water resistant. Dual super bright white LEDs never need replacing and provide over 100 hours of battery usage. Body made of virtually indestructible Xenoy®. Lights turn on when head is flipped up. Swivel head pivots to a full 180° for light where you need it. Multiple use built in clip attaches to surfaces up to 1/2" thick. Carded.
Part No. 2220C, Black.
Part No. 2220C-YE, Yellow.

HEADSUP LITE™ 2630 LED

•Tested lumen value 7.0 (low)/15 (medium)/30 (high) •1 watt Luxeon side emitter LED •3 AA alkaline batteries (included) •24 hours (low)/10 hours (medium)/3 hours (high) battery burn time •Constant on/off push button with low/medium/high power levels, and a flashing mode of operation •Rugged ABS shroud •Flashing mode for emergencies •Hi-tech battery gauge •Rubber strap and cloth strap included
Part No. 2630C.

HEADSUP LITE™ FLASHLIGHT

Watertight to 500 feet. Includes 2 Krypton lamps, one high intensity and one low intensity. Adjustable beam, large on/off switch. Corrosion-proof ABS polymer. "Super Pad" exclusive comfortable forehead pad. Includes 4 AA-cell Energizer® alkaline batteries. 10,000 candlepower. Non-glare black. Length: 5-1/8".
Part No. 2600C, HeadsUP Lite flashlight, comes with heat resistant hypo-allergenic silicone rubber strap and an elastic cloth strap. Ideal for hard hats and helmets. Clamshell packaged.

Part No. 2604LM, HeadsUP Lite lamp, low intensity 0.5 amp. (Provides extended battery burn time)
Part No. 2605LM, Same as #2604LM except high intensity 0.75 amp.

RECHARGEABLE STEALTHLITE® FLASHLIGHT SYSTEM

Watertight to 500 feet. System includes StealthLite, drop-in handy Smart Charger desk/dash mount base with 110 volt charger and high capacity industrial NiCad battery pack. Burn time 1 hour. 10 minutes per charge. 15,000 candlepower. Black.
Part No. 2450AC, Flashlight system, clamshell packaged.
Part No. 2404, Lamp module, carded.
Part No. 8056F, 12 volt plug-in charger.
Part No. 2459, Replacement battery.

BIG ED™ FLASHLIGHT

Water resistant. Heavy duty design for firefighters. Push button quick change battery replacement. Uses 4 C-cell batteries (not included). Momentary and constant on/off switch. Body made of chemical resistant unbreakable Xenoy. 50 hour lamp life. Comes with emergency spare lamp. Can be carried comfortably by hand, worn on a shoulder strap, or clipped to a belt or pocket with its heavy duty clip. Includes stainless steel ring clip. 55,000 candlepower. Yellow.
Part No. 3700, Flashlight.
Part No. 3704, Big Ed Xenon lamp and back-up lamp (set of 2).

Class I Div. 1

BIG ED™ RECHARGEABLE Flashlight System

Water resistant. Heavy duty design for firefighters. Chemical resistant unbreakable Xenoy body. Attach to belt or clothing. Push button quick change battery. LED lights indicate state of charge. Back-up lamp included behind lens; 150 hour lamp life. NiCad rechargeable battery pack with 110 volt fast charger. Includes heavy duty stainless steel clothing clip. 65,000 candlepower. Yellow. Momentary and constant on/off switch.
Part No. 3750AC110F, Flashlight system.
Part No. 3751B, Big Ed flashlight w/ rechargeable batteries only.
Part No. 8056F, 12 volt adapter.

Class I Div. 1

KING PELICAN LITE™ PRO 4000 SERIES FLASHLIGHT

Water resistant. 12 volt, 14 watt, 100,000 candlepower, primary hand held light source. Unbreakable ABS housing with polycarbonate lens and thermoplastic rubber shroud. Includes dual filament Xenon back-up safety lamp with 60 hours of lamp life (30 hours each filament) and a shock absorbing internal battery module that protects 8 D-cells from hard abuse. Combination pistol grip/lantern handle quickly converts to multiple positions. Operates 10 - 12 hours on 8 D-cell alkaline batteries (not included). Black. Length: 9-3/8". NOTE: Not for SCUBA applications.
Part No. 4000MS, Flashlight.
Part No. 4003, Xenon dual filament lamp.

Laser Pro™ 4D Flashlight
Water resistant. Unbreakable ABS body with polycarbonate lens and thermoplastic rubber shroud. Industrial/professional quality multi-use spotlight. Dual filament Xenon back-up safety lamp. Double switch. Operates 30 hours per filament (60 hours total). Battery burn time is 10 - 12 hours on 4 D-cell alkaline batteries (not included). Multi-position ergonomically designed handle fits gloved hands. O-ring sealed. Adjustable position fold-away stand. Heavy duty rubber lens protector and internal battery shock system. Supplied with lanyard and equipment clip ring. 60,000 candlepower. Black. Length: 8-3/8". NOTE: Not for SCUBA applications.
Part No. 6000MS, Flashlight.
Part No. 5003, Xenon dual filament lamp.

Alkaline Flashlights & Accessories

TWIN-TASK™ FLASHLIGHTS

The Twin-Task™ line of flashlights offers a LED/Xenon combination, so you can choose between a super-bright light (Xenon) and an incredibly long runtime (LED). The Twin-Task are ideal to use in a wide variety of applications, including industrial, automotive, security, household, even recreation. All are constructed of computer-machined aluminum with an anodized finish, are O-ring sealed, feature an unbreakable polycarbonate lens, water resistant, enhanced knurled grip, and lanyard included.

Twin-Tasks™ at a glance:
•LED/Xenon combination •Choose between an extraordinary run time (LEDs) and a blinding bright light (Xenon) •Micro faceted reflector for a smooth, perfectly focused beam •Adjustable focus

TWIN-TASK™ 2D

•Battery: Uses (2) D alkaline (not included)
•Bulb: High intensity Xenon or Ten 100,000 hour lifetime, high intensity light emitting diodes (LEDs)
•Weight with Batteries: 632 grams
•Dimensions: 2.2"D x 8.35"L
•Run Time (3 Modes): Up to 9.5 hours (Xenon); Up to 80 hours (5 LEDs); Up to 50 hours (10 LEDs)
Part No. 51001, black colour.
Part No. 51011, titanium colour.

TWIN-TASK™ 3C

•Battery: Uses (3) C alkaline (not included)
•Bulb: High intensity Xenon or Six 100,000 hour lifetime, high intensity light emitting diodes (LEDs)
•Weight with Batteries: 449 grams
•Dimensions: 1.7"D x 9"L
•Run Time (3 Modes): Up to 3 hours (Xenon); Up to 160 hours (3 LEDs); Up to 100 hours (6 LEDs)
Part No. 51002, black colour.
Part No. 51012, titanium colour.

TWIN-TASK™ 3AA

•Battery: (3) AA alkaline (included)
•Bulb: High intensity Xenon or Three 100,000 hour lifetime, high intensity light emitting diodes (LEDs)
•Weight with Batteries: 191 grams
•Dimensions: 1.28"D x 8.54"L
•Run Time (2 Modes): Up to 2.6 hours (Xenon); Up to 80 hours (3 LEDs)
Part No. 51003, black colour.
Part No. 51013, titanium colour.

TWIN-TASK ACCESSORIES

Part No. 51101, Twin-Task 2D Xenon bulb
Part No. 51102, Twin-Task 3C Xenon bulb
Part No. 51103, Twin-Task 3AA Xenon bulb

TWIN-TASK™ 3C - LASER

Versatile combination LED/Xenon Light with Laser Pointer
•Battery: (3) C alkaline (not included)
•Bulb: High intensity Xenon, five ultra-bright long running LEDs and one long-range laser pointer
•Dimensions: 1.68"D x 9.02"L
•Run Time: Up to 5 hours (Xenon); Up to 100 hours (5 LEDs)
•Includes high strength lanyard
Part No. 51031, Gun-metal grey colour.

TWIN-TASK™ 3C - UV

Includes an ultraviolet light for fluorescent detection of fraudulent documents and for use in forensic investigations.
•Battery: (3) C alkaline (not included)
•Bulb: High intensity Xenon plus 6 ultraviolet 100,000 hour lifetime (LEDs)
•Weight with Batteries: 449 grams
•Dimensions: 1.68"D x 9.02"L
•Run Time: (3 Modes): Up to 5 hours (Xenon); Up to 160 hours (3 LEDs); Up to 100 hours (6 LEDs)
Part No. 51010, black colour.
Part No. 51018, titanium colour.

TASK-LIGHT® FLASHLIGHTS

Dual lighting mode flashlights. They're ultra-compact, extremely durable, and powerfully bright with long runtimes. The ideal lights to take anywhere! Corrosion and water resistant, anodized machined aluminum.

Task-Light® at a glance:
•Deep reflective optic for a bright beam •O-ring sealed •Weather resistant •Knurled body for enhanced grip •Wrist lanyard •Two stage push-button head switch; high and low power •Emergency strobe function •Includes battery

TASK-LIGHT® 1AA

•Battery: Uses (1) AA alkaline
•Bulb: 5 mm Nichia 100,000 hour LED
•Weight with Batteries: 88 grams
•Dimensions: 4.2" L
•Run Time: Up to 5 hours at optimum output; up to 80 hours on low power
Part No. 52101, Gun-metal grey.

TASK-LIGHT® 2AA

•Battery: Uses (2) AA alkalines
•Bulb: .5 watt 100,000 hour Rigel LED
•Weight with Batteries: 130 grams
•Dimensions: 6.8" L
•Run Time: Up to 8 hours at optimum output; up to 50 hours on low power
Part No. 52102, Gun-metal grey.

TASK-LIGHT® 3AAA

•Battery: Uses (3) AAA alkalines
•Bulb: .5 watt 50,000 hour Nichia Rigel LED
•Weight with Batteries: 145 grams
•Dimensions: 4.5" L
•Run Time: Up to 5 hours at optimum output; up to 45 hours on low power; up to 32 hours on strobe setting
Part No. 52103, Gun-metal grey.

3C-XP™ FLASHLIGHTS

Streamlight, the only company to offer an LED/incandescent combination in a full size flashlight. This lightweight light features a high output, pre focused Xenon main beam and a trio of close range LEDs, allowing you to choose a super bright beam or an incredibly long runtime. Offers a virtually unbreakable polymer construction, a non-slip rubber comfort grip, an unbreakable polycarbonate lens, and dual switch control.

•Battery: Uses (3) C alkaline (not included)
•Bulb: 3 watt Xenon or three 100,000 hour high intensity (Light Emitting Diodes) LEDs
•Weight with Batteries: .92 pounds
•Dimensions: 10.9"L
•Run Time (3 Modes): Up to 5-6 hours continuous (Xenon); Up to 300+ hours (3 LEDs); 1 hour minimum (Emergency backup)
Part No. 24000, black colour.

PROPOLYMER® FLASHLIGHTS

The ProPolymer line is Class 1, Division 1-Approved for use in hazardous locations - unique for LED flashlights. ProPolymers are extremely tough and virtually unbreakable - all models are non conductive, shock resistant, corrosion proof, and waterproof. And, with push button switching for easy, one handed operation, they're remarkably handy.

PROPOLYMER® 2AA

•Battery: (2) AA alkaline (included)
•Bulb: High intensity Xenon gas filled bi-pin
•Weight with Batteries: 3.7 ounces
•Dimensions: 1.32"D x 6.06"L
•Run Time: Up to 4 hours of continuous use
Part No. 67201, yellow colour.

PROPOLYMER® 4AA

•Battery: (4) AA alkaline (included)
•Bulb: High intensity Xenon gas filled bi-pin
•Weight with Batteries: 6.3 ounces
•Dimensions: 1.69"D x 6.5"L
•Run Time: Up to 4 hours of continuous use
Part No. 68254, yellow colour.

PROPOLYMER® 4AA LUXEON®

•Battery: (4) AA alkaline (included)
•Bulb: One (1 watt) Super High Flux Luxeon LED, 10,000 hour LED life
•Weight with Batteries: 7.52 ounces
•Dimensions: 1.48"D x 7"L
•Run Time: Up to 4 hours of continuous use; 2 additional hours of declining useable output
Part No. 68602, yellow colour.
Part No. 68702, black colour.

UL Class1, Div1

PROPOLYMER® 4AA LED

•Battery: (4) AA alkaline (included)
•Bulb: Seven 100,000 hour lifetime, high intensity Light Emitting Diodes (LEDs)
•Weight with Batteries: 6.3 ounces
•Dimensions: 1.69"D x 6.5"L
•Run Time: Up to 155 hours
Part No. 68202, yellow colour.
Part No. 68302, black colour.
Part No. 68212, with blue LEDs, yellow colour.

PROPOLYMER® 3C

•Battery: (3) C alkaline (not included)
•Bulb: High intensity Xenon gas filled bi-pin
•Weight with Batteries: 13.5 ounces
•Dimensions: 2"D x 8.55"L
•Run Time: Up to 5.5 hours of continuous use
Part No. 33254, yellow colour.

PROPOLYMER® 3C LED

•Battery: (3) C alkaline (not included)
•Bulb: Ten 100,000 hour lifetime, high intensity Light Emitting Diodes (LEDs)
•Weight with Batteries: 13.5 ounces
•Dimensions: 2"D x 8.55"L
•Run Time: Up to 336 hours
Part No. 33202, yellow colour.
Part No. 33302, black colour.
Part No. 33212, with blue LEDs, yellow colour.

PROPOLYMER® 3C LUXEON®

•Battery: (3) C alkaline (not included)
•Bulb: One (1 watt) Super High Flux Luxeon LED, 10,000 hour LED life
•Weight with Batteries: 0.94 pounds
•Dimensions: 2"D x 9.30"L
•Run Time: 5.5 hours continuous at full intensity; 2 additional hours of declining useable output
Part No. 33602, yellow colour.
Part No. 33702, black colour.

PROPOLYMER® ACCESSORIES

Part No. 67005, 2AA helmet clamp, industrial.
Part No. 68004, 4AA helmet clamp, fire.
Part No. 68005, 4AA helmet clamp, industrial.
Part No. 67007, 2AA Xenon lamp assembly.
Part No. 68220, 4AA Xenon lamp assembly.
Part No. 33004, 3C Xenon lamp assembly.
Part No. 33221, 3C white LED lamp module.
Part No. 68221, 4AA white LED lamp module.
Part No. 75904, 4AA yellow safety wand.
Part No. 75903, 4AA red safety wand.
Part No. 75902, 4AA blue safety wand.
Part No. 75908, 4AA white safety wand.
Part No. 72024, lanyard with push button slide.

Alkaline Flashlights & Accessories

STYLUS® & STYLUS® REACH™ PENLIGHTS

This ultra slim, amazingly bright penlight features an LED bulb, lasts 100,000 hours, and is visible from a mile away. For hands free lighting, clip it to your hat or clothing. Plus, you can easily switch between momentary "blink" and constant "on". The virtually indestructible Stylus is constructed from aircraft aluminum casing and is waterproof. The Stylus Reach has the same great features as the Stylus but has a flexible cable extension, allowing you to get deep into the tightest spots.

STYLUS®

•Battery: (3) AAAA alkaline (included)
•Bulb: 100,000 hour lifetime, high intensity Light Emitting Diode (LED), "solid state bulb"
•Weight with Batteries: 1.1 ounces
•Dimensions: .38"Dia. x 6.21"L
•Run Time: Up to 60 hours
Part No. 65006, red LED, black colour.
Part No. 65022, blue LED, black colour.
Part No. 65058, white LED, black colour, UL listed.
Part No. 65016, blue LED, silver colour.
Part No. 65012, white LED, silver colour.

STYLUS REACH®

•Battery: (3) AAAA alkaline (included)
•Bulb: 100,000 hour lifetime, high intensity Light Emitting Diode (LED), "solid state bulb"
•Weight with Batteries: 1.7 ounces
•Dimensions: .38"Dia. x 7"L folded; 14"L extended
•Run Time: Up to 60 hours
Part No. 65622, blue LED, black colour.
Part No. 65658, white LED, black colour, UL listed.

STYLUS® UV

Includes an ultraviolet light for fluorescent detection of fraudulent documents and for use in forensic investigations.
•The same features as Stylus with an ultraviolet LED.
Part No. 65069, ultraviolet LED, black colour.

STYLUS REACH® 18

The slim, compact, lightweight Stylus Reach® allows you to see almost anywhere. Thanks to its flexible cable, nothing is out of sight.
•Battery: (3) AAAA alkaline (included)
•Bulb: 100,000 hour lifetime, high intensity Light Emitting Diode (LED), "solid state bulb"
•Weight with Batteries: 3.5 ounces
•Dimensions: 25.5" extended; 13"folded
•Includes flexible 18.75" cable extension cable that allows for 25.5" of "reach"
Part No. 65418, white LED, black colour.
Part No. 65422, blue LED, black colour.

STYLUS® ACCESSORIES

Part No. 65031, Stylus glare guard.
Part No. 65065, Stylus sharp spot, black.
Part No. 72024, Stylus lanyard with push button slide.
Part No. 65030, Pack of 6, AAAA batteries.

JR® LUXEON® REACH LED FLASHLIGHT

This super bright, powerful light goes where no light has gone before. You can twist & turn the tough PVC coated cable into any position to see almost anywhere. The magnetic clip allows you to attach the light to any metal surface to illuminate your work area.

•1-watt, 50,000 hour "Luxeon® Star" LED provides up to 24 lumens of light
•Flexible, durable cable makes it easy to point the light in any direction. Reach length: 14", Folds to 9", Overall length: 20"
•Runs up to 3 hours at maximum intensity (1.5 hrs. additional declining useable output)
•Push button tailcap for steady on and momentary on/off operation
•Magnetic clip holder included
•Powered by 2 "AA" size alkaline batteries, included in package
•6.3 ounces
Part No. 71600, black colour.

SCORPION® COMPACT FLASHLIGHT

Compact, lithium powered flashlight, with variable spot-to-flood focus. Xenon bulb provides up to 6,500 candlepower. Triple-action tailcap switch. Rubber-armored sleeve over aluminum body. Spare bulb included and is located in its lamp holder assembly.

•Battery: (2) 3 Volt lithium with a shelf life of nearly ten years (included)
•Bulb: Xenon gas filled bi-pin
•Weight with Batteries: 4.4 ounces
•Dimensions: 4.9"L
•Run Time: One hour of continuous use
Part No. 85001, black colour.
Part No. 85914, Scorpion bulb.
Part No. 85905, Scorpion black nylon holster.

KEY-MATE® COMPACT FLASHLIGHT

The smallest, brightest 1 oz. LED flashlight available. This tiny LED flashlight is super bright, tough, and remarkably handy. It's so compact, you can carry it with you at all times. It offers a spot-to-flood beam, 400% more lighting range than a penlight, and reflector optics that enhances the brightness of the LED. The Key-Mate offers versatile powder coated spring steel pocket clip. Weatherproof - O-ring sealed. Rotary head switch.

•Battery: (4) alkaline button cells (included)
•Bulb: 100,000 hour lifetime, high intensity Light Emitting Diode (LED) with reflector optics.
•Weight with Batteries: .9 ounces
•Dimensions: 2.36"L
•Run Time: Up to 96 hours
Part No. 72001, white LED, black colour.
Part No. 72101, white LED, titanium colour.
Part No. 72024, lanyard with push button slide.

CLIPMATE™ CLIP-ON FLASHLIGHT

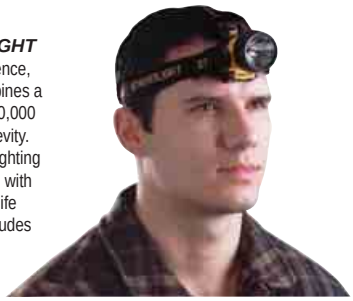
The ClipMate is a small but durable clip-on flashlight that gives you the power of three super bright, 100,000 hour LEDs. Available in brilliant white or night vision green LED, both of which are visible for more than a mile away. This 360° rotating light is also convenient because its large clip allows easy attachment to almost anything. Water resistant. Includes a fully adjustable head strap and a convenient lanyard.

•Battery: (3) AAA alkaline (included)
•Bulb: (3) 100,000 hour lifetime, high intensity Light Emitting Diode (LED) "solid state bulb"
•Weight with Batteries: 2.4 ounces
•Dimensions: 1"D X 1.5"H X 3.5"L
•Run Time: Up to 120 hours
Part No. 61100, white LED, yellow colour.
Part No. 61102, green LED, black colour.

Alkaline Flashlights & Accessories

TRIDENT™ HEADLAMP FLASHLIGHT

Trident headlamp is the ultimate in convenience, safety, and dependability. The Trident combines a super bright white Xenon bulb with three 100,000 hour LEDs, giving you high power and longevity. This lightweight headlamp, features 3 way lighting for short, medium and long distances. Plus, with a tough polymer construction and a battery life of up to 120 hours. Water resistant and includes adjustable head straps.



•Battery: (3) AAA alkaline (included)
•Bulb: 3 Volt 300 ma, Xenon T1 Bi-Pin. Three 100,000 hour lifetime, high intensity Light Emitting Diode (LED) "solid state bulb"
•Weight with Batteries: 5 ounces
•Dimensions: 2"D x 2"H x 2.75"L
•Run Time: Up to 120 hours with one LED
Part No. 61050, white LEDs, yellow colour c/w elastic headstrap and rubber hard hat strap.
Part No. 61051, (2) white & (1) green LEDs, green colour.
Part No. 61004, Xenon bulb.
Part No. 61001, battery cartridge.

SEPTOR™ HEADLAMP FLASHLIGHT

The combination of brilliant LEDs in the headlamp places the Septor in a class by itself. Its piercing light comes from seven super bright white LEDs each with a life of 100,000 hours. The LEDs provide 3 way, hands free lighting for short, medium, and long distances. Plus, a 90° tilting head lets you zero in on the source you're illuminating. Constructed of virtually indestructible polymer. Septor has fully adjustable straps and is water resistant.

•Battery: (3) AAA alkaline (included)
•Bulb: Seven 100,000 hour lifetime, high intensity Light Emitting Diode (LED) "solid state bulb"
•Weight with Batteries: 5 ounces
•Dimensions: 2"D x 2"H x 2.75"L
•Run Time: Up to 120 hours with one LED
•Yellow colour
Part No. 61052, includes elastic headstrap and rubber hard hat strap.
Part No. 61001, battery cartridge.

Rechargeable Flashlights & Accessories

STINGER® RECHARGEABLE FLASHLIGHTS

Stinger® and UltraStinger™ models are compact machined aluminum housing anodized against corrosion inside and out; unbreakable polycarbonate lens. The PolyStinger® model is super tough non-conductive nylon polymer with non-slip grip; unbreakable polycarbonate lens. Stinger is the only machined aluminum flashlight to carry an Underwriters Laboratories (UL) listing. PolyStinger also carries the same listing. Stinger, UltraStinger, and PolyStinger come with (1) 120V AC charge cord, (1) 12V DC charge cord, and (2)10 hour snap-in charger/holders. Batteries are a Nickel-cadmium 3.6 Volt (6 Volt UltraStinger), 1.8 amp hour, sub-C; rechargeable up to 1,000 times.

STINGER®

•Bulb: 3.7 Volt, 6 watt, Xenon gas filled bi-pin; spare bulb in tailcap.
•Weight with Battery: 10 ounces
•Length: 7.4 inches
•Run Time: 1 hour of continuous use between charges
•Candlepower: Up to 15,000; adjustable focus
Part No. 75014, black colour.

POLYSTINGER®

•Bulb: 3.7 Volt, 6 watt, Xenon gas filled bi-pin; spare bulb in tailcap.
•Weight with Battery: 8.7 ounces
•Length: 7.4 inches
•Run Time: 1 hour of continuous use between charges
•Candlepower: Up to 15,000; adjustable focus
Part No. 76014, yellow colour.
Part No. 76514, black colour.

ULTRASTINGER®

•Bulb: 6 Volt, 10 watt, Xenon-halogen gas filled bi-pin
•Weight with Battery: 1.1 lbs.
•Length: 11.75 inches
•Run Time: 1 hour of continuous use between charges
•Candlepower: Up to 75,000; adjustable focus
Part No. 78014, black colour.

STRION™ RECHARGEABLE FLASHLIGHT & ACCESSORIES

Strion weighs just 4.6 ounces. Yet, with 12,000 candlepower, it's as bright as lights five times its size! The 6 watt xenon gas filled bulb is powered by an innovative lithium ion battery that's as strong as batteries twice its weight and size. This powerful light has an adjustable spot-to-flood focus, a spare lamp in the tailcap, and a runtime of up to 70 minutes. The Strion is so compact and powerful, it's the ideal duty or backup light.

•12,000 candlepower
•Only 5.3 inches long
•Weighs only 4.6 ounces
•Run time: 70 minutes
•Aircraft aluminum with anodized finish
•Comes with (1) 120V AC charge cord, (1) 12V DC charge cord, (2) Snap-in charger/holders, and rechargeable battery stick.
Part No. 74002, black colour.
Part No. 74175, replacement battery stick.
Part No. 74903, red safety wand.
Part No. 74904, yellow safety wand.

SL-20X® RECHARGEABLE FLASHLIGHT

Machined aluminum anodized against corrosion inside and out; unbreakable polycarbonate lens. Comes with (1) 120V AC charge cord, (1) 12V DC charge cord, and (2) charge sleeves. Battery is a Nickel-cadmium 6 Volt, 2.4 amp hour, 1/2 D; rechargeable up to 1,000 times.

•Bulb: 10 watt, hard glass halogen pre-focused in spun reflector
•Weight with Battery: 1.9 pounds
•Length: 13 inches
•Run Time: 1.5 hours of continuous use between charges
•Candlepower: Up to 30,000 pre-focused
Part No. 26010, black colour.

STINGER® & SL-20X® ACCESSORIES

Nickel Cadmium Batteries
Part No. 75175, battery stick for Stinger, PolyStinger.
Part No. 20170, battery stick for SL-20X.
Part No. 77175, battery stick for UltraStinger.

Bulbs and Lamp Modules
Part No. 75914, bulb for Stinger, PolyStinger.
Part No. 78914, bulb for UltraStinger.
Part No. 20110, lamp module for SL-20X.

Lens
Part No. 20160, clear polycarbonate lens for SL-20X, UltraStinger.
Part No. 75956, lens/reflector assembly for Stinger.
Part No. 76956, lens/reflector assembly for PolyStinger.

Nylon Holsters and Ring Holders
Part No. 25090, holster for rechargeables.
Part No. 76090, holster for Stinger, PolyStinger.
Part No. 75906, ring holder for all Stingers.
Part No. 22911, ring holder for SL-20X.

Safety Wands for Stinger, PolyStinger
Part No. 75904, yellow safety wand.
Part No. 75903, red safety wand.
Part No. 75902, blue safety wand.
Part No. 75908, white safety wand.

SURVIVOR® DIVISION 2 MODEL RECHARGEABLE FLASHLIGHT

Survivor - Steady Charge Model Flashlight case is made from high impact, super tough nylon and is "O" Ring sealed; unbreakable Lexan® lens. Non incendive, two position rotary switch is "O" Ring sealed and with a 1/4" high actuator that provides easy operation, even with heavy gloves. Smoke Cutter® optics. Black-dot bulb specifically designed to cut through dense smoke, fog and mist. Hinged door and latch for quick battery reload. Battery is a Nickel-cadmium 4.8 Volt, 1.8 amp hour, sub-C; rechargeable up to 1,000 times. Comes with (1) 10-hour Steady Charger holder with (1) 120V AC charge cord, (1) 12V DC charge cord.
•Lamp: 5.5 watt, 4.8 Volt "black dot" Xenon bulb
•Weight with Battery: 15.4 ounces
•Dimensions: 6.88"H x 3"W x 3.38"D
•Run Time: Up to 1.7 hours of continuous use between charges
•Candlepower: Up to 25,000

Part No. 90043, orange colour.
Part No. 90338, battery pack assembly.
Part No. 90314, black dot Xenon bulb.
Part No. 90330, facecap assembly.
Part No. 90054, bezel/lens assembly.

LITEBOX SYSTEM RECHARGEABLE FLASHLIGHT

Litebox® Standard System case is made from high impact ABS thermoplastic housing; rubberized impact bumper, lens ring and cushioned grip handle. LiteBox features a sealed beam system. This proprietary design allows easy replacement of halogen bulbs, minimizing replacement costs, while maximizing performance. Battery is a 6 Volt, 10 amp hour, sealed lead acid; rechargeable up to 500 times.
•Bulb: High intensity halogen 8 watt spot, Par 36
•Weight with Battery: 7.4 pounds.
•Dimensions: 11.5"L x 5.1"W x 7"H
•Run Time: Up to 8 hours of continuous use between charges
•Candlepower: Up to 50,000

LITEBOX® STANDARD SYSTEM

Includes (1) Mounting/ charging rack with (1) 120V AC charge cord, (1) 12V DC charge cord, and (1) shoulder strap.
Part No. 45116, orange colour.

LITEBOX® VEHICLE MOUNT SYSTEM

Includes (1) Truck mountable 12 Volt DC direct wire mounting rack, and (1) shoulder strap.
Part No. 45107, orange colour.

FIRE VULCAN® RECHARGEABLE FLASHLIGHT

The Fire Vulcan® designed by firefighters for firefighters - is the safety lantern because it features two ultra bright blue taillight LEDs that lets your partners see you when they're following (or approaching) you in a smoke filled room. In fact, this versatile lantern is ideal for the many roles of a firefighter. Features: •2 taillight LEDs - offers 2 modes: steady and blinking •Quick release strap •3-position toggle switch, easy to turn on/off with gloves •High clearance handle, your gloved hand fits easily around it •Heavy duty D-rings for strap connection •Rugged, high impact thermoplastic housing •Waterproof. Battery is a 6 Volt, 4.5 amp hour, sealed lead acid, rechargeable up to 500 times. Includes (1) 120 V, 230V or 240V AC (home) charging cord and (1) 12 Volt DC (automobile) charging cord. Charging rack and quick release shoulder strap.
•Bulb: High intensity halogen 8 watt spot, Par 36. Two (2) ultra bright blue LEDs.
•Weight with Battery: 3.3 pounds.
•Dimensions: 7.5"L x 5"W x 5.75"H
•Run Time: Steady mode: 3 hours. Blinking Mode: 6 hours. Blinking (LEDs only): 60 hours.
•Candlepower: 8 watt spot, Up to 65,000
Part No. 44400, orange colour.

LITEBOX & FIRE VULCAN® ACCESSORIES

Part No. 45937, battery for LiteBox.
Part No. 44007, battery for Fire Vulcan.
Part No. 45911, 8 watt spot lamp assembly for LiteBox.
Part No. 45901, 8 watt bi-pin bulb (100 hr) for LiteBox and Fire Vulcan.
Part No. 44050, quick release strap for LiteBox and Fire Vulcan.

BERNZOMATIC® PRODUCTS

Trigger Start Torches

QUICKFIRE™ TRIGGER START PROPANE TORCH KIT
2 piece torch kit — handle the heat with the Bernzomatic Quickfire torch. Its quick-starting igniter, comfortable grip and easy maneuverability make it the first choice for fast jobs. •For use with propane fuel only •Pressure regulated to burn upside down!
Part No. BZTS3000KC.

BRASS BURNER WAND/TIP/HOSE
Solid brass burner wand with swirl flame burn tip, 4 ft. hose and cylinder clip. Burn tip produces a turbo-charged swirl action flame for maximum heat output. Pressure regulated torch can be used at any angle. Burns propane or MAPP gas for maximum heat.
Part No. JTH7.

TRIGGER START TORCH HEADS
Trigger start self-igniting propane torch head with adjustable flame control.
Part No. TS1500T.

Trigger start cast aluminum torch head.
Part No. TS4000T.

Trigger start adjustable/high output cast aluminum torch head (burns propane and MAPP gas)
Part No. TS7000T.

POWERCELL™ FUEL SYSTEM
Offers all the power with half the size™. •Adjustable Flame Control packs all of the power and performance of a full size torch in half the size. It is the most compact, lightweight and easy to use propane torch available anywhere. Use it to solder or thaw copper pipe; loosen rusted bolts; strip paint; even top off the perfect créme brulee!
Part No. BZTSPC8KC.

Replacement 8 oz. Powercell cylinder.
Part No. BZPC8

Jet Torches

JUMBO FLAME TORCH KIT
2 piece jumbo flame torch kit — includes torch that produces a large, high volume 1¼" flame.
Part No. JT680.

PENCIL FLAME TORCH HEAD
Produces a ½" pencil point flame for detail work.
Part No. JT681.

FLAME SPREADER
Stainless steel. For use with all ½" O.D. burn tips.
Part No. 810.

2 PC. PENCIL FLAME TORCH KIT
Durable, solid brass construction •Fully adjustable fuel knob •Solid brass value threads help seizing or binding •Kit includes: solid brass propane torch and propane fuel cylinder
Part No. BZUL100.

7 PC. PENCIL FLAME TORCH KIT
Durable, solid brass construction •Fully adjustable fuel knob •Solid brass value threads help seizing or binding •Kit includes: solid brass propane torch, propane fuel cylinder, sparker, flame spreader, replacement flints, utility flame head and molded plastic case
Part No. BZUL125.

SELF-IGNITING OUTDOOR TORCH
Easy-start yard and utility torch produces 20,000 BTU output. Fueled by propane or MAPP gas. •Trigger start for ease of lighting •Solid brass regulators for durability •Extended handle for greater reach
Part No. JT850.

BERNZOMATIC®

Brazing Torches

TRIGGER START FLAME CONTROL TORCH
Adjustable knob, instant off trigger and lock button. Swirl flame and cast aluminum body. 360° swiveling torch head.
Part No. TS99T.

TRIGGER START BRAZING TORCH KIT
With torch head and 16 oz. MAPP gas cylinder.
Part No. BZTS839ZKC.

Specialty Torches

LIGHTWEIGHT MICRO FLAME TORCH
Streamlined, refillable, compact design for comfortable use. Removable solder tip and hot blower. Built-in stand, on/off switch. (Burns butane fuel.)
Part No. ST200T.

MICRO FLAME TORCH & SOLDERING KIT
Refillable micro torch with solder tip and hot blower attachments. Easy to use trigger start with continuous run lock button. Comfort grip handle with refill valve.
Part No. ST2200T.

COMPLETE MICRO FLAME TORCH KIT
6 tips for multiple applications. (Burns butane fuel.)
Part No. ST250K.

6 PC. LIGHTWEIGHT MINI TORCH KIT
Includes needle point flame torch, hot air tip, 2.4 mm soldering tip, 4 ft. hose, hot knife, and torch stand. (Burns propane and MAPP gas.)
Part No. ST900D.

Accessories

DISPOSABLE CYLINDERS
Part No. BZTX9, Propane cylinder, 14.1 oz.
Part No. BZTX916, Propane cylinder, 16.4 oz. (for use with recreational propane appliances).
Part No. BZMG9, MAPP gas cylinder, 16 oz.
Part No. BF9, Butane cylinder, 2.1 oz.

BZTX916

BZMG9

BF9

SPARK LIGHTER & FLINTS
Creates a spark to ignite most propane and MAPP gas fueled appliances quickly and easily. Includes replacement flints.
Part No. TX405.

FLEXIBLE LIGHTER
Comes fully equipped with a dependable wind proof flame, soft grip handle, bonus refill and performs equally as well in all indoor and outdoor applications. •Bend it •Shape it •Direct it anywhere you need it •Ideal for lighting candles, camping, grilling
Part No. BZO-2MPP.

BERNZOMATIC® PRODUCTS

Oxygen/Acetylene Torch Kits

OXYGEN/MAPP GAS BRAZING/WELDING/CUTTING TORCH KIT

Includes burner wand, hose, oxygen regulator, fuel gas valve, cylinder, stand, 16 oz. MAPP gas cylinder, 1.1 cubic foot oxygen cylinder, spark lighter, 5 brazing/welding rods, and a "How to Manual". (Burns oxygen and propane or MAPP gas).
Part No. BZOX2550KC.

OXYGEN CYLINDER

1.1 cubic foot.
Part No. BZOX9.

TORCH & FUEL FACTS

•Mapp® vs. Propane

•Work is completed most efficiently with the primary flame •MAPP fuel has 51% more heat transfer in the primary flame than propane
Propane Flame Temperature in air: 3450°F
Propane Primary Combustion Heating Value: 255 BTU/CuFt.

MAPP Flame Temperature in air: 3650°F
MAPP Primary Combustion Heating Value: 517 BUT/CuFt.

Basics — Soldering & Brazing

SOLDERING

Definition: The process of joining two copper pipes to create a water tight seal.
STEPS:
1. Clean fitting and pipe with abrasive cloth.
2. Apply flux to the fitting and pipe.
3. Heat joint with primary flame until flux sizzles.
4. Apply solder to the joint.

NOTE: Solder should be melted by the heat of the pipe and fitting, not direct contact with the flame.

BRAZING

Definition: The process of joining two independent pieces of metal to form one strong weight bearing joint.
STEPS:
1. Stage metal pieces into desired position.
2. Heat joint until it glows.
3. Apply brazing rod to joint while continuing to heat.

NOTE: Brazing rod should be melted by the heat of the metal pieces, not direct contact with the flame.

WELLER®

Soldering Equipment

8 PC. HEAVY DUTY SOLDERING KIT

Contains D550CSA soldering gun with tin plated heavy copper tip, 1 sealing tip, 1 cutting tip, flux brush, soldering aid tool, coil of lead free solder and sturdy plastic carrying case. 260/200 watt, 120 volt.
Part No. D550PK.

8 PC. SOLDERING KIT

Includes: 8200 dual heat soldering gun with 1 soldering tip, 1 sealing tip, 1 cutting tip, flux brush, soldering aid tool, coil of 60/40 rosin-core solder, and sturdy plastic carrying case. 140/100 watt, 120 volt.
Part No. 8200PK.

HEAVY DUTY SOLDERING GUN

Highest output gun with 2-position trigger selection of dual heats. Heavy gauge, high efficiency, tin plated copper tip arrives at selected temperature in 6 seconds. Pistol-grip design with twin lights to illuminate work. 260/200 watt, 120 volt.
Part No. D550CSA.

Soldering Equipment

Weller

PORTASOL® PROFESSIONAL CORDLESS REFILLABLE BUTANE GAS POWERED SOLDERING IRON KIT

Includes PSI-100C soldering iron, 2 chisel tips, hot blower tip, hot knife tip, cleaning sponge, safety stand and rugged storage case. 125 watt.
Part No. PSI-100K.

PORTASOL® SELF-IGNITING PORTABLE BUTANE SOLDERING IRON

Ideal for service technicians to anti-static solder, heat shrink and cut rope. Rugged stainless steel body features "Auto Switch" safety shutoff, iron plated tips, and built-in filter. Temperature is adjustable to 1,076°F. 125 watt.
Part No. PSI-100C.

LIGHTWEIGHT SOLDERING IRON

With pencil handle and replaceable tip, designed for hobbies, kits, radios. 8-1/4" long. 1/8" tip develops 750° F (400°C). 25 watt, 120 volt.
Part No. SP23LCSA.

LIGHTWEIGHT PENCIL IRON

For hobby and electronic work. 8-1/4" long. 1/4" tip develops 900°F (482°C). 40 watt, 120 volt.
Part No. SP40LCSA.

MEDIUM-DUTY PENCIL IRON

Ideal for hobby work, stained glass and minor repairs. Includes soldering iron rest. 9-3/4" long. 3/8" tip develops 900°F (482°C). 80 watt, 120 volt.
Part No. SP80LCSA.

STAINED GLASS IRON

Can tackle the most intricate seams and repair old ones. Includes SP80LCSA iron, 2 pre-tinned (1/4" and 3/8") tips of iron plated copper and soldering iron rest. 80 watt, 120 volt.
Part No. SPG80LCSA.

HEAVY-DUTY IRON FOR GREATER OUTPUT

Ideal for home workshop and repairs, stained glass and hobbies, includes soldering iron rest. 11-3/8" long. 1/2" long-life iron plated copper tip develops 900°F (482°C). 120 watt, 120 volt.
Part No. SP120-3CSA.

EXTRA HEAVY-DUTY IRON FOR DEMANDING JOBS

For sheet metal work. Includes soldering iron rest. 12-1/2" long. 5/8" long-life iron plated copper tip develops 900°F (482°C). 175 watt, 120 volt.
Part No. SP175-3CSA.

SOLDERING IRON/GUN REPLACEMENT TIPS

Part No. MT1, Cone soldering tips for SP23LCSA, 1/8" tip size. Packed 2/card.
Part No. MT10, Chisel soldering tips for SP40LCSA, 1/4" tip size. Packed 2/card.
Part No. MTG20, Chisel soldering tip for SPG80LCSA, 3/8" tip size. Packed 1/card.
Part No. MTG30, Chisel soldering tip for SP120-3CSA, 1/2" tip size. Packed 1/card.
Part No. MTG40, Chisel soldering tip for SP175-3CSA, 5/8" tip size. Packed 1/card.
Part No. PSI-2*, Flat soldering tip for PSI-100C, 3/32" tip size. Packed 1/card.
Part No. PSI-4*, Flat soldering tip for PSI-100C, 3/16" tip size. Packed 1/card.
Part No. PSI-6*, Chisel soldering tip for PSI-100C, 3/32" tip size. Packed 1/card.
Part No. PSI-8*, Chisel soldering tip for PSI-100C, 3/16" tip size. Packed 1/card.
Part No. PSI-9*, Hot blower soldering tip for PSI-100C. Packed 1/card.
Part No. PSI-10*, Hot knife soldering tip for PSI-100C. Packed 1/card.
Part No. 7250W, Copper soldering tips for D550CSA soldering gun. Packed 2/card.
Part No. 7135W, Copper soldering tips for 8200 soldering gun. Packed 2/card.
Part No. WB1C, 60 gram, premium butane fuel cylinder for PSI-100C.

TIGER TORCH
Torches, Regulators, & Accessories

ANGLE TIGER TORCH
Copper bronze head, single barber jet with flash protection, steel stem, neoprene hand grip, and needle valve. 208,000 BTU at 30 lbs. PSI.
Part No. 445.

STRAIGHT TIGER TORCH
Cast iron head, single barber jet with flash protection, steel stem, neoprene hand grip, and needle valve. 208,000 BTU at 30 lbs. PSI.
Part No. 95-B.

PROPANE REGULATOR
Complete with adjusting handle.
Part No. 567-EB.

REPLACEMENT PARTS
Part No. 445H, Head for 445 torch.
Part No. 95BH, Head for 95-B torch.
Part No. 400-50, Orifice for 95-B and 445 torches.
Part No. 400-61, Bushing and filter for 445 torch.
Part No. 400-60, Bushing and filter for 95-B torch.
Part No. 854-L, Needle valve - 9/16-18 L.H. to 1/4 NPT.

HOSE ASSEMBLIES
Part No. 3410, 10 ft. Tiger Torch hose c/w 9/16-18 L.H. fittings.
Part No. 3415, 15 ft. Tiger Torch hose c/w 9/16-18 L.H. fittings.
Part No. 3420, 20 ft. Tiger Torch hose c/w 9/16-18 L.H. fittings.
Part No. 3425, 25 ft. Tiger Torch hose c/w 9/16-18 L.H. fittings.
Part No. 3430, 30 ft. Tiger Torch hose c/w 9/16-18 L.H. fittings.

FITTINGS
Part No. 1601, POL nut - 7/8" hex.
Part No. 1605, POL stem - 1/4" NPT.
Part No. 1606, POL stem - 9/16"-18 LH.
Part No. 135-LB, 9/16-18 LH x 1/4" male pipe connector.

1601

1605

135-LB

Required items to connect a Tiger Torch to a propane tank:

1. Select the appropriate size tank.
2. You will need part #1605 POL stem, #1601 POL nut, #567-EB regulator, #135-LB connector.
3. Select the appropriate Tiger Torch hose length.
4. Select the appropriate Tiger Torch (either #445 or #95-B).

PROPANE
Bottles

PROPANE BOTTLES
Part No. QCC-20, 20 lb. propane bottle c/w QCV safety valve.
Part No. QCC-30, 30 lb. propane bottle c/w QCV safety valve.
Part No. QCC-40, 40 lb. propane bottle c/w QCV safety valve.
Part No. PRO-100, 100 lb. propane bottle.

FLAME KING MAX PROPANE BOTTLE C/W GAUGE
NEVER run out of propane! Take the guesswork out of grilling!! With the new Flame King Max and its built-in gauge, you will always know the right time to fill. Accurate, easy to read and easy to use. 20 lb. QCC bottle.
Part No. GAUGE-QCC-20.

Safety Containment Systems

JUSTRITE

Justrite Safety Cabinets features: •Double wall construction with 1½" insulating air space •Sturdy 18 gauge steel, welded for strength, long life and greater fire protection •Stainless steel, three-point bullet self latching system provides easy, fail-safe, positive door closure with increased heat resistance; with double key set •Exclusive U•Loc™ padlockable handle allows for extra security and keycoding multiples for convenient access •Flush paddle handle with slip resistant grip offers easy fingertip operation and reduces dangerous "catches" from passing traffic •2" leakproof sill to capture spills •High visibility trilingual warning label with new Haz-Alert™ Safety Brand — Firefighter friendly reflective band at bottom alerts firefighters when crawling in smoke-filled areas •Dual 2" vents with flame arresters •New, exclusive SpillSlope™ safety shelves directs spills to back and bottom of leak proof sump, easily adjust on 3" centres •Durable lead-free powder paint finish, inside and out, for maximum chemical resistance •Four adjustable levelling feet provide a wobble-free base •Built-in grounding connector prevents static build-up •Quality backed by exclusive 10 year warranty

***YELLOW** cabinets are most often used for flammable liquids. **RED** cabinets usually identify paints, inks and other combustible liquids. **BLUE** cabinets typically store corrosive liquids.*

YELLOW SURE-GRIP® EX SAFETY CABINETS FOR FLAMMABLES

2 door cabinet, 44"H x 43"W x 18"D, 30 gallon capacity. 1 adjustable shelf; paddle handle.
Part No. 893000.

2 door cabinet, 65"H x 43"W x 18"D, 45 gallon capacity. 2 adjustable shelves; paddle handle.
Part No. 894500.

2 door cabinet, 65"H x 34"W x 34"D, 60 gallon capacity. 2 adjustable shelves; paddle handle.
Part No. 896000.

RED SAFETY CABINETS FOR FLAMMABLES

2 door cabinet, 65"H x 43"W x 18"D, 45 gallon capacity. 2 adjustable shelves; paddle handle.
Part No. 894501.

Note: Only 2 shelves are included with this cabinet.

YELLOW COUNTERTOP & COMPAC CABINETS

1 door countertop cabinet, 22"H x 17"W x 17"D, 4 gallon capacity. 1 adjustable shelf; paddle handle.
Part No. 890400.

1 door compac cabinet, 35"H x 23¼"W x 18"D, 12 gallon capacity. 1 adjustable shelf; paddle handle.
Part No. 891200.

YELLOW SLIMLINE SAFETY CABINETS

1 door slim cabinet, 65"H x 23¼"W x 18"D, 22 gallon capacity. 3 adjustable shelves; paddle handle.
Part No. 892200.

YELLOW VERTICAL DRUM SAFETY CABINETS

Safely house 55 gallon drums — these cabinets are designed to accommodate a drum equipped with a pump or funnel so it may be used as a pumping station or for waste accumulation.
2 door cabinet with drum rollers, 65"H x 34"W x 34"D, stores (1) 55 gallon drum. Paddle handle.
Part No. 896260.

YELLOW AEROSOL CAN BENCHTOP SAFETY CABINET

Fits up to 24 aerosol cans in 2 easy roll-out shelves! Shelves feature "Stopguard" protection so they won't fall out when fully extended. 1 door cabinet, 27"H x 21"W x 18"D; paddle handle.
Part No. 890500.

YELLOW HORIZONTAL DRUM SAFETY CABINETS

These cabinets are designed to house drums being used for gravity flow dispensing. Interior provides space for a drip can and includes tracks to guide drum cradle into position (drum cradle not included). 2 door cabinet, 50"H x 30"W x 48"D, stores (1) 55 gallon drum. Paddle handle.
Part No. 899300.

JUSTRITE®

JUSTRITE

2 DOOR HIGH SECURITY SAFETY CABINETS WITH FORKLIFT POCKETS

Safely store and protect costly fuels or chemicals from tampering or theft. Security system includes ¼" x 2" steel bar stock, high visibility barrier bar secured across both doors to deter prying. Crossbar is firmly supported by two brackets welded across the front of the cabinet doors and interlocks onto two sidewall brackets. Padlock lugs on crossbar and side bar channel are located on each side of the cabinet, provide double layered steel strength and accept No. 5 Master Locks (sold separately). Lockable doors with Sure-Grip® handle are designed with a three point latch for an extra measure of security. Manual closing door self-latches for maximum protection under fire conditions. High visibility flammable labels promote proper usage while contrasting colour crossbar enables security checks even from a distance. Exterior Dimensions: 68½" H x 43" W x 18" D. Capacity: 45 gallons. Number of shelves: 2 adjustable.

Part No. 29882Y, yellow cabinet.

Part No. 29882R, red cabinet.

Contrasting crossbar can be completely removed from the cabinet when not in use.

Support brackets are firmly welded to cabinet door for extra tamper resistance.

RED SAFETY CABINETS FOR COMBUSTIBLES

2 door cabinet, 65"H x 43"W x 18"D, 60 gallon capacity. 5 adjustable shelves; lever handle.

Part No. 894511.

BLUE STEEL SAFETY CABINETS FOR CORROSIVES

These cabinets also include polyethylene trays attached to galvanized steel shelves to resist aggressive chemicals (they can be removed for easy cleaning). A separate polyethylene liner for the bottom sump is also included. Even the paint is exclusively formulated to resist the acids, bases and solvents often used in laboratories. 2 door cabinet, 65"H x 43"W x 18"D, 45 gallon capacity. 2 adjustable shelves; lever handle.

Part No. 894502.

BLUE POLYETHYLENE STORAGE CABINETS

For highly corrosive acids, these polyethylene cabinets offer the most resistance to chemical corrosion and leaks. Clearly labelled for ACID contents and accept a padlock (not included) for added security.

1 door countertop cabinet, 19½"H x 14¼"W x 16¼"D, holds (2) 4 litre bottles. Without shelf.

Part No. 24040.

2 door undercounter cabinet, 35"H x 36"W x 23½"D, holds (30) 1 litre bottles. 2 adjustable shelves.

Part No. 24160.

SAFETY CABINET SHELVES FOR STEEL SAFETYCABINETS

Part No. 25924, 13¼"L x 13"D shelf fits 4 gallon cabinets.

Part No. 25935, 19½"L x 14"D shelf fits 12 and 15 gallon compac cabinets.

Part No. 25901, 39¼"L x 14"D shelf fits 17 gallon piggyback, and all two door 30, 40, and 45 gallon cabinets.

Part No. 25909, 30¼"L x 30"D shelf fits all 60 gallon two door cabinets.

Part No. 25935, 19½"L x 14"D shelf fits 22 gallon Slimline cabinet.

ACCESSORIES FOR DRUM CABINETS

Part No. 25920, Replacement drum roller for single 55 gallon vertical drum cabinets, 29½"L x 30"D.

Part No. 25932, Drum ramp for all drum cabinets, 28"L x 24½"D.

16032Y

YELLOW SAFESITE™ FLAMMABLES CHESTS FOR JOBSITES

Safesite™ Chests are the first to offer safe, compliant storage for flammables along with protected storage for corrosive liquids, tools, or valuables. They are ideal for construction, utilities, and maintenance areas where gasoline, other fuels, paint thinners or chemicals are used. Perfect for portable outdoor use. Optional caster package makes these units even more portable.
31-1/8"H x 48"W x 24"D.
Part No. 16032Y, Safety Chest, 15 gallon.
Part No. 16031Y, Combo Safety Chest, 5 gallon, extra locking compartment.
Part No. 16043, Set of 4 casters, 2 locking, 2000 lb. total capacity, 5" diameter x 1½"D.

16031Y shown with optional caster set #16043

CYLINDER LOCKERS FOR COMPRESSED GAS

The "no rust" solution to safely securing LPG and compressed gas cylinders! Cylinder lockers from Justrite offer superior features that make these units extremely durable and easy to use. Constructed of 100% welded aluminum — they will not rust, corrode or discolour. Justrite's expanded .065" thick metal panels are the strongest in the industry — offering additional resistance to tampering. Welded security lug on front panel door accepts a padlock (not included) for extra security. Heavier gauge aluminum mesh and extruded (not bent) frame add rigidity. All models have an exclusive solid aluminum roof panel that slants toward the back to shed water and ice. LPG vertical lockers comply with Canadian Standards Association CSA-B149.2.
Part No. 23010, 8 cylinder vertical style for LPG, holds eight 20 lb. or 33 lb. cylinders, 30"W x 65"H x 32"D.
Part No. 23011, 16 cylinder vertical style for LPG, holds sixteen 20 lb. or 33 lb. cylinders, 60"W x 65"H x 32"D.
Part No. 23006, 10 cylinder vertical style for compressed gas, holds up to 10 compressed gas cylinders, 30"W x 65"H x 32"D.
Part No. 23007, 20 cylinder vertical style for compressed gas, holds up to 20 compressed gas cylinders, 60"W x 65"H x 32"D.

23007

23010

SAFETY CANS

Safety Cans with a unique counterbalance design: On safety cans with capacities over one gallon, Justrite's unique counterbalance design offers a full-fisted grip on a swinging handle for effortless pouring. This ergonomic design leverages the weight of liquid against the opening mechanism — making it the easiest to use can when handling full containers. *Can colours: RED is the most widely used (and OSHA accepted) choice for flammable liquids; YELLOW cans can be used to designate the storage of diesel fuel.*
TYPE I CANS: Easy to fill and easy to use, the economical choice for flammables. Meets OSHA and NFPA Code 30. FM approved. Most are UL and ULC listed.
TYPE II CANS: Offer additional convenience with two openings at the top. One opening is equipped with a flexible metal hose for smooth, accurate pouring into small apertures. These cans also meet OSHA and NFPA, are FM approved and UL/ULC listed.

TYPE I RED SAFETY CANS FOR FLAMMABLES

1 gallon steel safety can, 7¼" dia. x 11½"H.
Part No. 10301.

2 gallon steel safety can, 9½" dia. x 13¼"H.
Part No. 10501.

5 gallon steel safety can, 11½" dia. x 17"H.
Part No. 10801.

TYPE I YELLOW SAFETY CANS FOR FLAMMABLES

5 gallon steel safety can, 11½" dia. x 17"H.
Part No. 10811.

"STAY-ON" FUNNEL WITH FLEXIBLE HINGE

For safe, leak-free pouring into smaller openings, this funnel attaches quickly and provides protection from splashing and spillage. Fits all Type I steel cans, 1 gallon and above. Two position funnel allows you to: •fill can without removing the funnel •save storage space by folding funnel down •reduce splashes with large rounded bowl
Part No. 11202Y.

JUSTRITE

TYPE II RED SAFETY CANS FOR FLAMMABLES

1 gallon steel safety can with 9" hose, 9-3/8" dia. x 6½"H.
Part No. 10327.

2 gallon steel safety can with 9" hose, 9½" dia. x 12-5/8"H.
Part No. 10527.

5 gallon steel safety can with 9" hose, 11½" dia. x 17"H.
Part No. 10821.

UNO™ TYPE II CANS FOR FLAMMABLES — RED, YELLOW, BLUE, & GREEN

The easiest to use safety can with a patented integrated fill-and-pour spout! For safe, smooth, accurate pouring, nothing beats the UNO™ can. UNO's exclusive ergo-progressive design features a Safe-Squeeze® trigger mechanism that releases liquid with precise timing — controlling the liquid flow when you're ready. Rounded handle and trigger are designed for a natural grasp. Lead-free steel construction for long service life. Durable, chemical resistant powder coat paint stands up to rugged use. Quality is backed by a 10 Year Warranty. Built-in safety features include an internal dual-density flame arrestor to dissipate heat and prevent flashback ignition; a leaktight, self closing lid; automatic venting between 3 and 5 psig to guard against pressure build-up at elevated temperatures and potential explosion; and each and every can is 100% tested to guarantee leakproof construction. The flexible metal 5/8" x 9" hose provides a grounding path to prevent static sparks when a grounding wire is used. •RED is the most widely used (and OSHA required) choice for flammable liquids •BLUE cans are frequently used for the storage of kerosene •YELLOW cans can be used to designate the storage of diesel fuel •GREEN cans are often used for the storage of oils

1 gallon UNO™ steel safety can with 9" hose. 9½" dia. x 10-5/8"H.
Part No. 10368, Red.
Part No. 10368Y, Yellow.
Part No. 10368E, Green.

2 gallon UNO™ steel safety can with 9" hose. 9½" dia. x 12½"H.
Part No. 10568, Red.
Part No. 10568Y, Yellow.
Part No. 10568B, Blue.
Part No. 10568E, Green.

3 gallon UNO™ steel safety can with 9" hose. 9½" dia. x 16"H.
Part No. 10768, Red.

5 gallon UNO™ steel safety can with 9" hose. 11½" dia. x 17¼"H.
Part No. 10868, Red.
Part No. 10868Y, Yellow.
Part No. 10868B, Blue.
Part No. 10868E, Green.

UNO™ TYPE II RED TRANSPORT & DISPENSING SAFETY CANS

UNO D.O.T. Safety cans are FM approved and D.O.T. compliant with an integrated fill and pour spout. "Usage Mode": Simply disengage the hold-down bracket when the can is not being used for transportation purposes. The hold-down bracket can be secured firmly to the top of the spout to prevent loss or damage. "Transport Mode": To prevent vapour release and spills during transport, a fusible link protected hold-down bracket is tethered to the spout and equipped with an easy to grasp tightening screw.

1 gallon D.O.T. Type II can with 9" hose, 10¼" dia. x 11-5/8"H.
Part No. 10361.

2½ gallon D.O.T. Type II can with 9" hose, 10¼" dia. x 16½"H.
Part No. 10661.

5 gallon D.O.T. Type II can with 9" hose, 12-5/8" dia. x 18¼"H.
Part No. 10861.

RED LIQUID DISPOSAL CANS

Made of high density polyethylene for superior chemical resistance and leak protection. Large and strategically placed opening offers controlled filling and pouring during disposal. When closed, the cap automatically vents between 3 and 5 psig. A flame arrester guards against outside ignition. FM approved.

2 gallon polyethylene can with plated steel hardware, 12" dia. x 14¾"H.
Part No. 14722.

Safety Containment Systems

JUSTRITE

RED OILY WASTE CANS

Dispose of oil-soaked rags and protect your facility from fires that can start due to: •spontaneous combustion •sparks •careless use of smoking material
Cans are OSHA compliant and all feature galvanized steel body construction with a durable powder paint finish. Foot operated cover leaves hands free — cover snaps shut when pedal is released.

6 gallon oily waste can, 11-7/8" dia. x 15-7/8"H.
Part No. 09100.

10 gallon oily waste can, 13-15/16" dia. x 18¼"H.
Part No. 09300.

14 gallon oily waste can, 16-1/16" dia. x 20¼"H.
Part No. 09500.

21 gallon oily waste can, 18-3/8" dia. x 23-7/16"H.
Part No. 09700.

SMOKERS CEASE-FIRE® CIGARETTE BUTT RECEPTACLES

The safe and attractive answer to cigarette butt disposal to keep your property clean. Safely collects unsightly cigarette butts and reduces the risk of fire. Made of flame-retardant, sturdy polyethylene, this unit won't rust, dent, or crack. Rain bonnet keeps rain out and discourages other trash. Simply unscrew back knob and lift lid to empty big galvanized steel pail inside. Pewter grey. 16½" dia. x 38½"H.
Part No. 26800.

DRUM COVERS

Convert open-top drums into fire safe receptacles. Only a screwdriver and wrench are needed to attach the cover to a drum and it can be removed when the drum needs to be emptied. A replaceable fusible-link assembly inside the cover melts at 165°F to automatically slam the cover shut to extinguish the flame if there is a fire in the drum. Fits 55 gallon drums.
Part No. 26750.

PLUNGER CANS

Dispense flammable liquids and solvents safely, without waste or exposure. Steel dasher assembly and brass plunger assembly. 5" dasher diameter.
Part No. 10108, 1 quart, 7¼" dia. x 6½"H.
Part No. 10308, 1 gallon, 7¼" dia. x 11"H.

BENCH CANS

Provides an easy means of cleaning small parts in solvent. Simply place work on spring-loaded, perforated dasher plate, press down and agitate, then release to return dasher to drain position.
Part No. 10175, 1 quart steel bench can, 4-7/8" dia. x 5½"H.
Part No. 10375, 1 gallon steel bench can, 9-3/8" dia. x 4½"H.

CEASE-FIRE® WASTE RECEPTACLES FOR GENERAL USE

The safe answer to waste paper and other solvent-free combustibles accumulation. Specially contoured to direct smoke and gas from any fire inside the container, back into the combustion area, cutting off the air supply and extinguishing flames in seconds. Cease-Fire® receptacles provide around-the-clock protection against trash fires and are suitable for use in plants, hospitals, schools, offices, and stores. Choose from either brushed aluminum or heavy duty red painted steel heads. Both carry a UL listing and FM approval. Aluminum heads are virtually corrosion-free, providing easy clean-up and long lasting good looks. Steel heads are finished in a durable, red powder coat paint finish; recommended for applications where potentially abusive conditions make aluminum heads impractical. Cease-Fire® drum bodies are heavy gauge grey steel with a rust preventative interior coating. Both aluminum and steel heads are available separately for use with existing metal drums.

Cease-Fire® with aluminum head:
Part No. 26615G, 15 gallon drum with aluminum head, 5¼" opening dia., 15-1/8" dia. x 25¾"H.
Part No. 26630G, 30 gallon drum with aluminum head, 7" opening dia., 19-7/8" dia. x 29¾"H.
Part No. 26655G, 55 gallon drum with aluminum head, 7-7/8" opening dia., 24" dia. x 35½"H.

Cease-Fire® heavy duty units with painted red steel head:
Part No. 26415, 15 gallon drum with red painted steel head, 5¼" opening dia., 14½" dia. x 25¾"H.
Part No. 26430, 30 gallon drum with red painted steel head, 7" opening dia., 19¼" dia. x 29¾"H.
Part No. 26455, 55 gallon drum with red painted steel head, 7-7/8" opening dia., 23¾" dia. x 35½"H.

Cease-Fire® replacement heads only:
Part No. 26512, Aluminum head for use with 12 and 15 gallon drums, 5¼" opening dia., 15-1/8" dia.
Part No. 26530, Aluminum head for use with 30 gallon drums, 7" opening dia., 19-7/8" dia.
Part No. 26555, Aluminum head for use with 55 gallon drums, 7-7/8" opening dia., 24" dia.
Part No. 26312, Red painted steel head for use with 12 and 15 gallon drums, 5¼" opening dia., 15-1/8" dia.
Part No. 26330, Red painted steel head for use with 30 gallon drums, 7" opening dia., 19-7/8" dia.
Part No. 26355, Red painted steel head for use with 55 gallon drums, 7-7/8" opening dia., 24" dia.

GATOR® CONTAINMENT SYSTEMS FOR SPILL CONTROL

The GATOR® Advantage. Overall, a better quality product designed to give customers more... more protection, more security, and more convenience. Justrite's Gator line offers the ultimate protection against leaks and spills. "Gator-Tuff" polyethylene products offer secondary containment to catch hazardous spills before they become a problem! Spilled liquids are captured to help prevent contaminating factory floors, drains and outside groundwater. Gator helps you to not only protect the environment... but save money in the process by: •Reclaiming captured spills for reuse •Avoiding high costs associated with hazardous material clean-up •Preventing slip and fall injuries to safeguard employees and avoid worker's compensation claims •Avoiding fines from non-compliance with EPA and UFC regulations
Gator also helps to organize your drum storage, segregate liquids for easy identification, and makes drum handling safer and easier.

GATOR® SPILL CONTROL PALLETS

These pallets are molded of Gator-Tuff, UV protected polyethylene making them nearly impervious to chemical attack from hazardous acids, caustics and solvents, and they resist deterioration in rough environments. They are the ideal platforms for 30 and 55 gallon drums or other containers stored indoors. Seamless construction eliminates leaks even if a 55 gallon drum fails and completely dumps its contents.

2 drum pallet, inline, 66 gallon sump capacity, 2500 lbs. load bearing capacity. 49"W x 25"D x 15½"H. No drain.
Part No. 28234.

4 drum pallet, inline, 75 gallon sump capacity, 5000 lbs. load bearing capacity. 97"W x 25"D x 9"H. No drain.
Part No. 28704.

4 drum pallet, square, 72 gallon sump capacity, 5000 lbs. load bearing capacity. 49"W x 49"D x 10¼"H. No drain.
Part No. 28254.

Ramp for #28254. 1000 lbs. load bearing capacity, 49"W x 33"D x 10½"H.
Part No. 28921.

#28254 shown with

GATOR

GATOR® ACCUMULATION CENTRES

Customize and protect workstations. These low profile accumulation centres are the economical solution to spill concerns during drum filling and dispensing operations. They are ideal for chemical or battery storage needs. "Gator-Tuff" seamless construction in 100% polyethylene eliminates leaks and is nearly impervious to chemicals including acids and corrosives. Sturdy, self-locating grates eliminate the chance of ride-up and they remove for easy cleaning. Expand your storage area with "joining clips" to firmly lock units together. Sump-to-sump drain kit allows you to join centres together, on-site, for full compliance with EPA and UFC regulations when combined sump capacities meet 66 gallons.

2 drum unit, 22 gallon sump capacity,
2400 lbs. load bearing capacity. 49"W x 25"D x 5½"H.
Part No. 28922.

4 drum unit, 43 gallon sump capacity,
6000 lbs. load bearing capacity. 49"W x 49"D x 5½"H.
Part No. 28923.

6 drum unit, 64 gallon sump capacity,
7000 lbs. load bearing capacity. 73"W x 49"D x 5½"H.
Part No. 28924.

8 drum unit, 85 gallon sump capacity,
8000 lbs. load bearing capacity. 97"W x 49"D x 5½"H.
Part No. AK28905.

Ramp for above. 1000 lbs. load bearing capacity.
48"W x 33"D x 6¼"H.
Part No. AK28906.

Joining clips, one pair, stainless steel. 4" x 2".
Part No. 28926.

Sump-to-Sump™ Drain Kit. One pair stainless steel joining clips, one pair rubber grommets, one Teflon transfer tube.
Part No. 28927.

Shown in this configuration:

GATOR® SPILL CONTAINMENT CADDY

The single solution for drum handling safety, mobile dispensing capability, and built-in spill containment! Offers a convenient handling and dispensing solution of hazardous chemicals with complete assurance of compliance with EPA and OSHA regulations. The ideal choice for managing either 30 or 55 gallon drums; nylon strap holds drum securely in place. Indoor caddy, with 66 gallon sump capacity and 600 lbs. load bearing capacity. 32"W x 72¼"D x 27"H.
Part No. AK28901.

GATOR® DRUM MANAGEMENT SYSTEM

Modules combine efficient drum storage, positive spill control, and safe liquid dispensing. Meets safety and environmental protection requirements while organizing drum storage for maximum efficiency, productivity, and cost savings. The design accommodates either 30 or 55 gallon drums of Class 1B or 1C flammables and combustibles.

Base module, 66 gallon sump capacity, 3000 lbs. load bearing capacity. 49"W x 59"D x 26"H.
Part No. AK28902.

Stack module, 1500 lbs. load bearing capacity. 49"W x 46"D x 12"H.
Part No. AK28903.

Dispensing shelf, 60 lbs. load bearing capacity. 19½"W x 18¾"D x 16½"H.
Part No. AK28904.

Safety Containment Systems

JUSTRITE

GATOR® SPILL CONTROL FUNNELS

Large diameter funnels provide a simple cost effective way to collect liquids and keep drum tops clean. These funnels fit all closed head 30 and 55 gallon drums. Low profile, wide diameter opening offers large "target" for quick, easy pouring.

Funnel for non-flammables, 2½ gallon sump capacity, 21" diameter x 3¼"H.
Part No. 28210.

Funnel for flammables, 2½ gallon sump capacity, 21" diameter x 3¼"H.
Part No. 28211.

Cover for funnel #28210.
Part No. 28215.

GATOR® SINGLE & DOUBLE DRUM COLLECTION CENTRES

Provide safe, effective and economical spill control for 55 gallon drums. Rugged drum collection centres are made of all-weather chemical resistant Gator-Tuff polyethylene which stands up to the harshest environments. All are designed to be forkliftable for easy relocation.

Double drum collection centre, 180 gallons sump capacity, 60"W x 39"D x 47"H.
Part No. 28250.

Single drum collection centre, 55 gallons sump capacity, 33" top dia. x 31¾"H.
Part No. 28268.

Steel drum dolly, fits #28268.
Part No. 28270.

GATOR® OVERPACK SALVAGE DRUM

Ideal for overpacking damaged drums for transport. 95 gallon overpack salvage drum is the safe and economical solution to the transportation and temporary storage of damaged or leaking drums of hazardous materials. Withstands the rigours of land, air, and sea transportation. 31" outside diameter x 43¼"H. D.O.T. and UN compliance.
Part No. 28201.

DRUM FAUCET

For maximum draining of a horizontally stored drum. This is the simple solution for nearly complete drainage of liquids out of 30 and 55 gallon drums. Eliminates the need for dangerous drum tipping or rolling. Unique siphon action empties residual solvents from a typical two to three gallons down to the last few ounces. Solid cast brass.
Part No. 08311.

DRUM CRADLE

Allows for easy moving and secure setup of drums weighing up to 800 lbs. Loading bar grips drum chime and permits smooth shifting of drum into horizontal position.
Part No. 08800.

SAFETY FILL VENT/FUNNEL

Facilitates waste solvent disposal, while offering protection. Built of cast brass and high density polyethylene with a 6" flame arrester, they will fit a 2" bung opening. Features include automatic pressure and vacuum relief and cap with safety chain to prevent misplacement of cap. Funnel has full 9" diameter to eliminate spills.
Part No. 08211.

SAFETY DRUM FUNNEL

Easy pouring during liquid waste collection. Wide mouth opening with hinged, stay-open lid. Built-in 6" flame arrester to prevent fire intrusion; galvanized steel with durable epoxy powder coat finish. Self-closing lid in case of fire. (For use with flammables.) Funnel dia. 10¾" x 10"H.
Part No. 08207.

08501

08507

ANTI-STATIC WIRES

Reduce fire risks from static electricity. Anti-static wires prevent sparks from static electricity generated by movement and flow of flammable liquids. Bonding between containers during liquid transfer, and connecting drums to an earth ground are required under Federal and Local Codes. Standard wire lengths are 3 ft.; for longer reach use several wires with ¼" terminal ends.

Part No. 08500, 3 ft. length flexible static wire, with dual alligator clips (5/8" jaws).

Part No. 08501, 3 ft. length flexible static wire, with "C" clamp (5/8") x alligator clip (5/8" jaw).

Part No. 08507, 3 ft. length insulated flexible static wire, with "C" clamp (5/8") x pipe clamp (2¾" jaw).

flexible wire (top) and insulated wire

Part No. MP-20, 20 litre metal pail. 26 gauge with rust inhibitor lining; grey. The bottom is double seamed to the body using non-hardening seaming compound. The body is tapered to facilitate nesting and stacking. Side seam is welded and top body corrugations enhance structural integrity. Bail handle with plastic grip.

Part No. ML, Metal lid for 20 litre pails. Contains a gasket and has 16 lugs for easy crimping. Grey. No flex spout.

Part No. MLS, Same as #ML except with flex spout.

Garbage Cans, Pails, Cans, & Funnels

A full line of cans manufactured from pre-galvanized steel resulting in a smooth bright rust-proof finish. Cans are uniform thickness throughout, have no rough spots or barbs. All handles are rivetted in place for maximum strength. Covers are of 1 piece construction for durability.

STANDARD GARBAGE CAN WITH PLAIN COVERS

30 gauge steel garbage can. With side handle except (*) = bail handle. Dimension shown is top diameter x height.
Part No. 12013*, 9 gallon/41 litre capacity, 15" x 16".
Part No. 12303, 9 gallon/41 litre capacity, 15" x 16".
Part No. 12033, 14 gallon/63 litre capacity, 17" x 20½".
Part No. 12043, 15 gallon/68 litre capacity, 17" x 22½".
Part No. 12053, 16½ gallon/75 litre capacity, 17" x 24½".
Part No. 12063, 20 gallon/91 litre capacity, 17" x 28½".

STANDARD GARBAGE CAN WITH SPRING LOCK COVERS

30 gauge steel garbage can. Dimension shown is top diameter x height.
Part No. 11013, 15 gallon/68 litre capacity, 17" x 22".
Part No. 11023, 16½ gallon/75 litre capacity, 17" x 24½".
Part No. 11033, 20 gallon/91 litre capacity, 17" x 28½".

HEAVY DUTY GARBAGE CAN WITH PLAIN COVERS

28 gauge steel garbage can. Dimension shown is top diameter x height.
Part No. 12093, 24 gallon/109 litre capacity, 18½" x 28".
Part No. 12103, 28 gallon/127 litre capacity, 18½" x 29".

HEAVY DUTY EXTRA REINFORCED GARBAGE CAN WITH PLAIN COVER

26 gauge steel garbage can. Has 11 gauge steel reinforcing bands at top and bottom for extra durability. Dimension shown is top diameter x height.
Part No. 12113, 28 gallon/127 litre capacity, 18½" x 29½".

YARD-GARD® PRE-GALVANIZED STEEL GARBAGE CANS WITH SELF-LOCKING COVERS

30 gauge steel garbage can. Dimension shown is top diameter x height.
Part No. 12153, 20 gallon/91 litre capacity, 17" x 29".
Part No. 12143, 16½ gallon/75 litre capacity, 17" x 25".
Part No. 12123, 14 gallon/63 litre capacity, 17" x 21".

YARD-GARD® PRE-GALVANIZED STEEL UTILITY PAILS WITH 3/16" WIRE HANDLE

31 gauge steel pail. Pails are made water-tight with a special sealant. Heavy galvanized reinforcing wire is rolled completely around the top. Pail has no ears. Handle is attached to top reinforcing wire. Dimension shown is top diameter x height.
Part No. 20323, 8 quart/9 litre capacity, 10.62" x 8½".
Part No. 20343, 10½ quart/12 litre capacity, 11.38" x 9.13".
Part No. 20363, 13 quart/15 litre capacity, 11.75" x 11".

STANDARD GALVANIZED PAILS WITH WIRE HANDLE

31 gauge standard steel pail. Attractively swedged, sturdy pail, fully nestable. Excellent general purpose pail. Dimension shown is top diameter x height.
Part No. 20063, 8 quart/9 litre capacity, 10.62" x 8½".
Part No. 20053, 10½ quart/12 litre capacity, 11.38" x 9¾".
Part No. 20043, 13 quart/15 litre capacity, 11¾" x 11".

HEAVY DUTY GALVANIZED STEEL PAIL — "GREEN LINE" SERIES

30 gauge heavy duty steel pail. Green Line features heavier gauge steel, larger capacity deeply formed bottoms, heavier top and bail wire. Green trim with matching wooden bail handle. Dimension shown is top diameter x height.
Part No. 20013, 14 quart/16 litre capacity, 12¾" x 11".

HEAVY DUTY GALVANIZED STEEL PAIL — "MULE" SERIES

28 gauge heavy duty steel pail. Mule features heavier gauge steel, extra wide flare for stock feeding. Dimension shown is top diameter x height.
Part No. 30013, 15 quart/17 litre capacity, 14.8" x 9.62".

HEAVY DUTY GALVANIZED STEEL PAIL — "CONTRACTOR" SERIES

26 gauge heavy duty steel pail. Contractor features wire bail, ears that do not project, and a domed bottom. Dimension shown is top diameter x height.
Part No. 30023, 15 quart/17 litre capacity, 11¾" x 9.13".

HEAVY DUTY GALVANIZED STEEL PAIL — "HEAVY DUTY CONTRACTOR" SERIES

26 gauge heavy duty steel pail. Heavy Duty Contractor features a steel band under top wire to form super strong ears, and domed bottom. Designed for cement work. Dimension shown is top diameter x height.
Part No. 30043, 13 quart/15 litre capacity, 11¾" x 11.13".

"WRING EASY" GALVANIZED MOP PAILS

Used with the common yacht mop makes a very efficient mopping unit. By placing mop in cone, pressing down and turning, water is wrung out. Dimension shown is top width x height.
Part No. 20133, 4 gallon/18 litre capacity, 13½" x 13".
Part No. 20143, 2 gallon/9 litre capacity, 10¼" x 10½".

"PULL-THROUGH" GALVANIZED MOP PAILS

Manufactured from heavy 28 gauge galvanized steel. All seams are hand soldered for durability. Hardwood rollers. Dimension shown is top width x height.
Part No. 20203, 10½ quart/12 litre capacity, 10.38" x 9¾".

STEEL FIRE PAIL

31 gauge steel fire pail. Painted red and stencilled "For Fire Only". Canadian Coast Guard regulations require all boats over 12 metres to have fire pails on board. These feature a domed bottom to prevent the pail being used for other purposes. 10½ quart/12 litre capacity.
Part No. 21563.

STAINLESS STEEL DAIRY PAIL

Manufactured from Type 304-2B stainless steel. Smooth finish is easily cleaned. Hand soldered seams. 13 quart/15 litre capacity.
Part No. 30252.

TRACTOR PAIL

A funnel and pail all-in-one. 40 mesh brass screen in spout stops water. 10½ quart/12 litre capacity.
Part No. 30053.

SANITARY CLOSET PAIL

Steel replacement sanitary closet pail. 5 gallon/23 litre capacity.
Part No. 16062.

SQUARE WASH TUBS

28 gauge pre-galvanized steel. Offers a smooth, bright rust-proof finish. Tubs are uniform thickness throughout, have no rough spots or barbs. Hand soldered for water-tightness. Two sizes to choose from.
Part No. 11713, 10 gallon/45 litre capacity. 18½" x 16½" 11".
Part No. 11723, 12½ gallon/56 litre capacity. 20½" x 18½" x 11".

ROUND WASH TUB

28 gauge pre-galvanized steel. Offers a smooth, bright rust-proof finish. Tubs are uniform thickness throughout, have no rough spots or barbs. Hand soldered for water-tightness. 15 gallon/68 litre capacity. 25" x 20½" x 11".
Part No. 11833.

WATERING CAN

30 gauge galvanized watering can with a heavier zinc coating for greater durability. Handles are folded and formed for easy carrying. Sold complete with even flow plastic rosette. 7 quart/8 litre capacity.
Part No. 40093.

HEAVY DUTY UTILITY CANS

Manufactured from pre-galvanized steel, utility cans are ideal for use with water, antifreeze solutions and non-solvent based cleansers and chemicals.
Part No. 15013, 1 gallon/4.5 litre capacity.
Part No. 15083, 2 gallon/9 litre capacity.
Part No. 15093, 5 gallon/22.7 litre capacity.

GALVANIZED TRACTOR FUNNELS

30 gauge steel, built to last. Includes 40 mesh brass screen in spout to stop water. Two sizes to choose from.
Part No. 14083, 9" tractor funnel, 4½ quart/5 litre capacity.
Part No. 14093, 11" tractor funnel, 6 quart/6.8 litre capacity.

GWM GREAT-WEST METAL EST. 1939

MEASURERS
by Cluthé®, Dynaline, Dutton-Lainson, Plews

CLUTHÉ PLASTIC MEASURING CONTAINERS
Ideal for mixing oil, gas, powders, chemicals. Polypropylene construction.
Part No. 34020, 2.5 L capacity, 8"H x 5¾"W.
Part No. 34040, 4.5 L capacity, 10½"H x 7¾"W.
Part No. 34046, 4.5 L capacity, c/w removable anti-splash spout, 10¼"H x 7¾"W, with 4¾" spout.

DYNALINE PLASTIC MEASURING CONTAINERS
Flexible, durable, spark-proof, dent-proof, rust-proof polyethylene.
Part No. 14025, 2.5 L capacity, 8"H x 6"W.
Part No. 14045, 4.5 L capacity, c/w removable anti-splash spout, 10¼"H x 7¾"W.

DYNALINE METAL MEASURING CONTAINERS
Easy grip handle. Galvanized finish; complete with flexspout.
Part No. 14120, 2 quart capacity.
Part No. 14140, 4 quart capacity.

DYNALINE RATIO MASTER™
A revolutionary patented mixing cup for accurately measuring and mixing pre-determined ratios. For all 2-cycle engine applications.
Part No. 14027.

DUTTON-LAINSON GALVANIZED MEASURING CONTAINER
2 quart capacity measurer with 12" flexible funnel spout.
Part No. 355.

PLEWS GALVANIZED MEASURING CONTAINERS
With flexible spout.
Part No. 75-441, 1 quart.
Part No. 75-442, 2 quart.
Part No. 75-444, 4 quart.

CLEAN FUNNEL™
Capped Funnels

Using a CLEAN FUNNEL means protecting your valuable equipment from damage caused by dirt and grime. Caps prevent the funnel from collecting potentially harmful contaminates. Caps keep your funnel clean. Replace the caps after each use, no need to wipe with a rag before using. Prevents left over fluid from dripping out. The caps are standard household sizes. If lost, they can be easily replaced from containers found in the home. Each funnel comes complete with two caps (one for each end of funnel).

PART NO.	COLOUR	SIZE	OVERALL LENGTH	SPOUT O.D.
112*	Turquoise	1 pint	6"	3/8"
115	Orange	1 pint	9½"	9/16"
315	Light Blue	1¼ qt.	13½"	9/16"

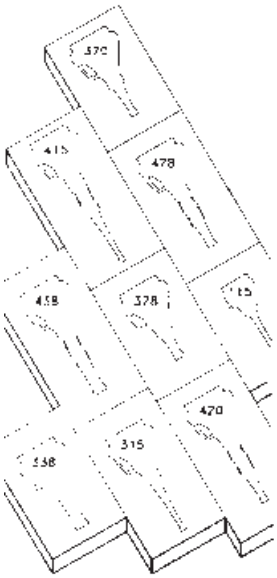
328	Turquoise	1¼ qt.	9½"	1-1/8"
338	Black	1-1/3 qt.	10½"	1-3/8"
415	Bright Red	1½ qt.	17"	9/16" flexible
420	Yellow	1½ qt.	14¼"	3/4" flexible
428	Green	1½ qt.	13¾"	1-1/8" flexible
438	Dark Red	1-2/3 qt.	14¼"	1-3/8" flexible

*Unit comes with 12" vinyl hose.



FUNNELS
by Cluthé®, Dynaline, Dutton-Lainson, Plews

Cluthé® funnels are ideal for oils, acids, adhesives, etc. Made of flexible, durable polyethylene. Spark proof, dent proof, leak proof, chemical resistant, eliminates splashing and tipping, hang up tabs and easily cleaned.

CLUTHÉ MULTI-PURPOSE FUNNELS
Variety of sizes.
Part No. 35020, 2", 2 oz. (57 ml).
Part No. 30030, 3", 6 oz. (170.5 ml) w/ filter.
Part No. 35040, 4", 8 oz. (227 ml).
Part No. 35050, 5", 14 oz. (398 ml).
Part No. 30050, 5", 23 oz. (681 ml) w/ filter.
Part No. 35070, 7", 28 oz. (795 ml).

CLUTHÉ AUTOMOTIVE FUNNELS
8" automotive funnel w/ 100 mesh filter, 120 oz. (3.4 litre).
Part No. 30080.

CLUTHÉ ANTI-SPLASH INDUSTRIAL FUNNELS
Anti-splash funnel w/ 100 mesh filter.
Part No. 30150, 5¾", 24 oz. (681 ml).
Part No. 30190, 9", 144 oz. (4.09 litre).

CLUTHÉ INDUSTRIAL FUNNEL
9" industrial funnel w/ 100 mesh filter. 144 oz. (4.09 litre).
Part No. 30090.

CLUTHÉ OFFSET FUNNEL
2-3/8" x 5-7/8".
Part No. 30260.

CLUTHÉ PRESERVE FUNNEL
Part No. 35200, 3½", 113 ml.
Part No. 35550, 6½", 625 ml.

CLUTHÉ SAFETY FUNNEL
4-7/16" safety funnel with fill level indicator. Floating indicator signals when tank is full. 500 ml.
Part No. 32037.

CLUTHÉ CLIP-ON SPOUT
Clip-on spout for quart and gallon containers. Helps protect against spills and drips into engine compartment or work area. One side clips onto neck of plastic gallon container.
Part No. 33160-A.

CLUTHÉ REPLACEMENT FILTER
Pack of 2, 100 mesh filter for #30030, 30050, 30150, 30190, 30080, 30090.
Part No. 30000X, Pack of 2.

DYNALINE MULTI-PURPOSE FUNNELS
Flexible, durable, spark-proof, dent-proof, rust-proof polyethylene. Handy hang-up tab.
Part No. 13504, 4", 8 oz.
Part No. 13505, 5", 14 oz.
Part No. 13506, 6", 32 oz.
Part No. 13508, 8", 120 oz.
Part No. 13510, 10", 160 oz.

DYNALINE AUTOMOTIVE FUNNELS
Automotive funnels feature a wider opening for automotive applications. Heavy duty plastic construction. Handy hang-up tab. With 100 mesh filter. 8", 120 oz.
Part No. 13008.

DYNALINE TRANSMISSION FUNNELS
With detachable flex spouts. Metal or plastic.
Part No. 14014, 5½" metal transmission funnel and 14" spout w/ 100 mesh filter.
Part No. 14017, 5¾" plastic transmission funnel and 16" spout.
Part No. 14015, 6½" plastic 2-in-1 transmission funnel and 10½" spout w/ 100 mesh filter.

DYNALINE PLASTIC SUPER FUNNEL
Designed for hard-to-reach places. Mouth diameter is 4½", overall length is 18". Blue in colour.
Part No. 14018.

DYNALINE TIN FUNNELS
In a variety of sizes. Made of lightweight tin coated steel.
Part No. 13550, 3½", 5 oz.
Part No. 13551, 4½", 10 oz.
Part No. 13552, 5¾", 24 oz.
Part No. 13553, 6½", 32 oz.
Part No. 13554, 8", 56 oz.

DYNALINE METAL OFFSET FUNNELS
Painted finish. With or without extension. 7", 2 litre.
Part No. 14007.
Part No. 14008, With 17" flex extension.

DYNALINE HEAVY DUTY TRACTOR FUNNEL
1" O.D. tip with screen. Galvanized finish. 9½" diameter, 12" height, 8 litre.
Part No. 13811.

DYNALINE INDUSTRIAL ANTI-SPLASH FUNNELS
Flexible, durable, spark-proof, dent-proof, rust-proof polyethylene. Handy hang-up tab. With 100 mesh filter.
Part No. 13015, 5", 24 oz.
Part No. 13019, 9", 144 oz.

DYNALINE INDUSTRIAL FUNNELS
Flexible, durable, spark-proof, dent-proof, rust-proof polyethylene. Handy hang-up tab. With 100 mesh filter.
Part No. 13003, 3", 6 oz.
Part No. 13005, 5", 24 oz.
Part No. 13009, 9", 144 oz.

FUNNELS
by Cluthé®, Dynaline, Dutton-Lainson, Plews

DUTTON-LAINSON UTILITY FUNNEL
1 quart capacity galvanized utility funnel. 5½" diameter with screen and 1" spout.
Part No. 336.

DUTTON-LAINSON GALVANIZED FUNNEL
8 quart capacity galvanized funnel, 10¼" diameter with screen and 1¼" spout.
Part No. 332.

DUTTON-LAINSON GALVANIZED TRANSMISSION FUNNEL
6" diameter galvanized metal transmission funnel with screen and 12¾" flexible metal hose.
Part No. 321.

PLEWS GALVANIZED STEEL UTILITY FUNNELS
Part No. 75-001, 1 quart, 7" diameter.
Part No. 75-003, 2 quart, 8" diameter, banded top.

PLEWS GALVANIZED STEEL OFFSET FUNNEL
6 quart, with screen, 9" diameter.
Part No. 75-002.

PLEWS GALVANIZED STEEL TRACTOR FUNNELS
8 quart tractor funnel, regular or lock-on.
Part No. 75-004, Regular, w/ screen, 9½" diameter.
Part No. 75-008, Lock-on w/ screen and tabs, 10" diameter.

PLEWS UTILITY TIN FUNNELS
Part No. 75-009, 10 oz., 4½" diameter.
Part No. 75-010, 24 oz., 5¾" diameter.
Part No. 75-011, 32 oz., 6½" diameter.
Part No. 75-012, 56 oz., 8" diameter.

PLEWS FUNNEL FILLERS
1 quart utility funnel filler w/ screen, 5¾" diameter, galvanized steel, 12" flexible extension w/ tapered tip.
Part No. 75-007.

PLEWS OFFSET FUNNEL FILLERS
2 quart offset funnel filler w/ screen, 7" diameter, epoxy finished steel.
Part No. 75-005, 4" rigid tip.
Part No. 75-006, 17" flexible extension w/ tapered tip.

PLEWS PLASTIC UTILITY FUNNELS
Part No. 75-060, 8 oz., 4½" diameter.
Part No. 75-062, 16 oz., 6" diameter.
Part No. 75-064, 48 oz., 8" diameter.

PLEWS PLASTIC FUNNELS w/ SCREEN
Part No. 75-070, 2 quart, 7" diameter.
Part No. 75-072, 6 quart, 9" diameter.

PLEWS EASY POUR PLASTIC FLEX SPOUT
With stopper cap. Two thread sizes to fit most containers. Screws onto motor oil, antifreeze, windshield washer fluid, and similar plastic containers.
Part No. 60-200.

PLEWS SUPER FUNNEL
All purpose plastic utility funnel w/ extra long neck for hard-to-reach spots. 5" diameter.
Part No. 75-068.

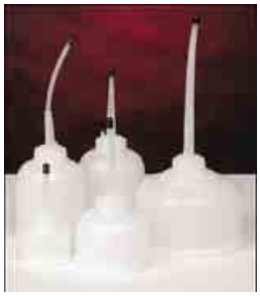
PLEWS TWO-PIECE PLASTIC FUNNEL
Two-piece plastic funnel and flexible screw-on spout. 12" detachable, flexible spout. Includes an easy grip handle. 6" diameter.
Part No. 75-074.

PLEWS UTILITY FUNNEL FILLER
½ pint plastic utility funnel filler w/ 13" flexible neoprene hose. 4½" diameter.
Part No. 75-101.

4 LITRE FLEXSPOUT
Fits 4 litre containers for easy-pour flexibility and convenience.
Part No. FS-4.

CLUTHÉ MULTI-PURPOSE OILERS

Ideal for oils, acids, adhesives, etc. Made of flexible, durable polyethylene. Spark-proof, dent-proof, leak-proof, chemical resistant, eleminates splashing and tipping, hang up tabs and easily cleaned.
Part No. 30300, With 3" spout, 6 oz. (170.5 ml) capacity.
Part No. 30310, With 3" spout, 10 oz. (284 ml) capacity.
Part No. 30320, With 6" spout, 16 oz. (454 ml) capacity.



DYNALINE INDUSTRIAL PUMP OILERS

Seamless steel body with brass pump mechanism. Supplied with flexible and rigid metal spout. Durable enamel painted finish.
Part No. 13604, 4.4 oz.
Part No. 13607, 7 oz.
Part No. 13610, 10.6 oz.
Part No. 13617, 17 oz.
Part No. 13624, 24 oz.

DUTTON-LAINSON GOLDEN ROD EXTRA HEAVY DUTY PUMP OILERS

The 120 series extra heavy duty pump oilers provide standards of construction, quality and operating features unmatched by any other hand oiler. Precision machined replaceable parts throughout, wrought iron straight spouts and screw cap filler opening.

PART NO.	CAPACITY	SPOUT TYPE	REPLACEMENT SPOUT NO.	SPOUT LENGTH

600 606S 610 626

GOLDEN ROD SPRAY TIP OILERS

These unique spray tip oilers feature precision machined metal spray tips that adjust from a fine mist to a thin stream. For use with low viscosity fluids including cleaners, kerosene, light lubricants, solvents, and penetrating oils. These units are made from drawn steel construction with double seamed bases. **NOTE**: Not for use with water based fluids.

PART NO.	CAPACITY	SPOUT TYPE	SPOUT LENGTH
601	6 oz.	straight	5"
624	10 oz.	straight	5"
631	20 oz.	straight	6"

601 631

OILERS
by Cluthé®, Dynaline, Dutton-Lainson

GOLDEN ROD SPRING BOTTOM OILERS

These oilers are expertly made from quality materials. Spring steel bottoms are double seamed. Filler openings are roll threaded for leakproof body-to-spout connection. Straight spout seams are copper brazed.

PART NO.	CAPACITY	SPOUT TYPE	SPOUT LENGTH
505	6 oz.	tapered	4½"
506	6 oz.	flexible	7"
507	12 oz.	flexible	7"
510	12 oz.	tapered	4½"

MISCELLANEOUS CONTAINER PRODUCTS
by Cluthé®, Dynaline, Plews, Thexton

CLUTHÉ PLASTIC SCOOPS

Ideal for measuring dry materials. Made of flexible, durable polyethylene. Spark-proof, dent-proof, leak-proof, chemical resistant, easily cleaned, secure grip, and heat resistant handle.
Part No. 33100, 8 oz. (0.3 litre) capacity.
Part No. 33110, 52 oz. (1.5 litre) capacity.
Part No. 33140, 104 oz. (3.0 litre) capacity.

DYNALINE BATTERY FILLER

Automatic shut-off system. 2 litre capacity.
Part No. 14024.

PLEWS RADIATOR FILLER

2½ gallon polyethylene plastic radiator filler. Impervious to oil, gasoline, and antifreeze.
Part No. 75-029.

PLEWS PROFESSIONAL BATTERY FILLER

2 quart polyethylene plastic professional battery filler. Shuts off automatically when battery cell is at the proper level. Features double action fast flow valve tip that prevents after-drip.
Part No. 75-030.

PLEWS BATTERY FILLER w/ FLEX SPOUT

6 oz. battery filler w/ 6" flex spout. Ideal for all fluids including battery acid. Rubber bulb remains pliable in cold weather.
Part No. 75-033.

PLEWS GALVANIZED STEEL RADIATOR DRAIN PAN

6 gallon capacity galvanized steel radiator drain pan. 19" diameter x 6" high.
Part No. 75-750.

PLEWS GALVANIZED STEEL UTILITY DRAIN PAN

3½ gallon capacity seamless galvanized steel utility drain pan. 16" diameter x 4" high.
Part No. 75-751.

PLEWS GALVANIZED STEEL WATER PAIL

12 quart capacity galvanized steel water pail.
Part No. 75-825.

PLEWS PLASTIC TIRE & TUBE TEST TANK

Rugged high density polyethylene plastic construction. Large enough to handle passenger car and light truck tires. Measures 31" x 12" x 12".
Part No. 75-754.

PLEWS PLASTIC DRAIN PAN w/ LIP

6 quart capacity plastic drain pan w/ pouring lip.
Part No. 75-760.

PLEWS PLASTIC DRAIN PAN w/ SPOUT

5 gallon capacity plastic drain pan w/ pouring spout.
Part No. 75-762.

THEXTON ACTIVATOR®

•Dry charge battery filler, "Cell-Eye" prevents over filling •Dispenser attaches to standard acid pak tube •Ends acid spills, drips and leaks •Positive thumb release valve absolutely controls acid flow •Comes with spacers to adjust cell fill level
Part No. 604.

MOTORCYCLE/RV BATTERY FILLER ADAPTER

•Designed for all small acid batteries •Adapter fits snugly over the end of the Activator® (Part No. 604) and reduces the end of the filler to fit the smaller cell openings in smaller batteries •Made of high strength nylon material
Part No. 605.

SURE SHOT
Pressure Sprayers

Part No. 1000-G, Green enamel 1 quart Sure Shot pressure sprayer.
Part No. 1000-R, Red enamel 1 quart Sure Shot pressure sprayer.
Part No. 1000-W, White enamel 1 quart Sure Shot pressure sprayer.
Part No. 1000-B, Black enamel 1 quart Sure Shot pressure sprayer.
Part No. 10, Complete repair kit for 1000 series pressure sprayers.

BUCKET BUSTER®
Pail Opener

"Bucket Buster" pail opener. Opens all common heavy duty pails with ease. With easy to grip red rubber handle covering, this handy tool opens pails with very little effort and no damage to lids; which permits secure resealing.
Part No. BB-010.

ACCESSORIES
Part No. 410497, 2" acrylic snap in window for 111.10 series.
Part No. 420891, 2½" acrylic snap in window for 111.10 series.
Part No. 551988, 4" acrylic snap in window for 111.10 series.
Part No. 154121, 4" safety glass for 212.20 series.
Part No. GE-25B-E, 1/4" brass snubber.
Part No. 1449605, 1/4" stainless steel snubber.
Part No. 704547, 1/2" stainless steel snubber.
Part No. 523518, Brass mounting flange.

Gauge Series Descriptions

WIKA standard pressure gauges are designed for long and reliable service under rugged conditions. Some typical applications are for pumps, hydraulic and pneumatic systems, compressors, as a contractor's gauge, and for many other applications where the measured media does not corrode brass. The accuracy is 1.5% of full range for the Type 111.10 gauges, and 1.0% of full range for the Type 212.20 gauges.

Series 111.10 & 111.12 — General Purpose Gauge, Dry
Case: Black ABS plastic
Wetted parts: Copper alloy
Window: Snap-in acrylic

Series 212.20 — Large Diameter Hydraulic Gauge
Case: Stainless steel
Ring: Stainless steel — twist-on
Wetted parts: Copper alloy
Window: Acrylic

WIKA brass gauges are recognized world-wide as the standard of accuracy and durability for gauges in fluid power and hydraulic systems, and in severe service applications for non-corrosive environments and media.

Gauge Series Descriptions

Series 213.53 — Stainless Steel Case, Brass Internals, Field Liquid Fillable
Case: Stainless steel
Ring: Polished stainless steel - crimped on
Wetted parts: Copper alloy
Window: Acrylic

Series 213.40 — Hydraulic Gauge
Case: Cast brass
Cover Ring: Brass plated ABS (2½"); chrome plated brass (4")
Wetted parts: Copper alloy
Window: Acrylic

Series 233.53 — Stainless Steel Case, Stainless Steel Internals, Field Liquid Fillable
Case: Stainless steel
Ring: Polished stainless steel - crimped on
Wetted parts: 316 stainless steel
Window: Acrylic

Please see the Gauge Series Descriptions on the following page for the above 4 & 4½" Liquid Filled Pressure Gauges.

WIKA
Standard Pressure Gauges

Gauge Series Descriptions

Refers to the 4" & 4½" Liquid Filled Pressure Gauges found on the previous page.

Like all WIKA products, WIKA stainless steel gauges are widely known for their excellent durability. Plus, superior engineering and construction ensure long service life in the harshest, most demanding applications. WIKA stainless steel gauges are the ideal choice for the process, chemical, and petrochemical industries; all off-shore applications; oil exploration and production; power generation; pollution control equipment; and any other application requiring fine quality, long lasting pressure measurement instrumentation. Specifically designed for the chemical and petroleum processing industries, WIKA Process Gauges have the construction, materials, and engineering it takes to stand up to the toughest conditions around. They are engineered to deliver years of accurate service, while withstanding vibration, corrosive media and atmospheres, and a wide range of temperatures.
Construction details include a strong, corrosion-resistant molded phenolic case, a glass-reinforced polybutylene ring and an adjustable pointer, a wear resistant stainless steel movement, and a brass or 316SS Bourdon tube and connection. A compensating membrane helps maintain accuracy by equalizing internal pressure changes. The case has a molded solid front and a snap-in-blow-out back to protect the operator at all times.
A stress equalizing coiled safety Bourdon tube is standard for pressures of 1500 psi and higher. All WIKA Process Gauges can take a 30% momentary overload without changing calibration.

Series 213.40 — Hydraulic Gauge
Case: Cast brass
Cover Ring: Brass plated ABS (2½"); chrome plated brass (4")
Wetted parts: Copper alloy
Window: Acrylic

Series 233.54 — Field Repairable, Field Liquid Fillable
These gauges have a stainless steel bourdon tube used mostly in oil and gas service and with chemicals of a corrosive nature.
Case: Stainless steel
Bayonet Ring: Stainless steel - twist on
Wetted parts: 316 stainless steel
Window: Laminated safety glass

Series 233.34 — Process Gauge
Case: Fibreglass reinforced thermoplastic
Ring: Threaded thermoplastic
Wetted parts: 316 stainless steel
Window: Acrylic

Series 213.34 — Process Gauge
These gauges have a copper alloy bourdon tube for steam, water and hydraulic service.
Case: Fibreglass reinforced thermoplastic
Ring: Threaded thermoplastic
Wetted parts: Copper alloy
Window: Acrylic

BI-METAL THERMOMETER MODEL 33
This high quality, low cost thermometer is designed for applications where a weather resistant, tamper proof case is required.
Specifications
Case: One piece case/bezel design in corrosion resistant 304 stainless steel.
Dial: White matte finish with black markings. Dished form with Celsius on lower plane and Fahrenheit on raised plane.
Crystal: Heavy duty clear glass, gasketed and sealed to insure weather tight integrity.
Stem/Connection: Type 304 stainless steel, 1/4 inch/6.35 millimetre diameter with standard lengths to 24 inches/609 millimetres. 1/2 inch NPT connection is standard.
Bi-Metal Element: An extremely responsive temperature sensing helix which has been carefully sized and tested, heat treated and aged to relieve inherent stresses and insure continued accuracy.
Accuracy: One percent full-scale is standard.

MODEL 50
Case: 302 series corrosion resistant stainless steel case and bezel.
Dial: Heavy gauge aluminum with hard surface white matte finish to reduce glare. Dished form with Celsius on lower plane and Fahrenheit on raised plane offers accurate indication of both scales.
Crystal: Optically clear, strong glass, gasketed to maintain weather tight integrity.
Stem: 300 series stainless steel, welded at tip and case connector to prevent leakage. 1/4 inch/6.35 millimetre diameter is standard for lengths to 24 inches/609 millimetres.
Bi-Metal Element: An extremely responsive temperature sensing helix which has been carefully sized and tested, heat treated and aged to relieve inherent stresses and ensure continued accuracy.
Accuracy: Guaranteed to be accurate to within one percent of full scale.

MODEL 52
For those applications that preclude the use of standard form thermometers, the fully adjustable TREND JUST-RITE model is offered.
Simple adjustment of the heavy duty stainless steel harness allows case rotation of 360° and stem variation of more than 180°. Flexible stainless steel bellows sealed at case and stem connector protects the temperature transmission mechanism and guarantees the weather tight integrity.

Part No. CM-534-060-304, 6" stainless steel thermometer well - 1/2" x 3/4" x 6".

FULTON

SINGLE SPEED WINCHES

A full line of single speed winches to meet your toughest pulling demands. Our winches feature efficient gear ratios, full length drum bearings, oil impregnated shaft bushings and the patented "Comfort Grip" handle for ease of cranking. All gears are high carbon steel for superb strength and long term durability. Stamped carbon steel frames provide rigidity for gear alignment and longer cycle life. Zinc finishes provide excellent corrosion resistance in all environments. All models are designed for use with rope or strap. For end user convenience two "Z" models are available with factory installed straps and hooks.

MRO Equipment & Supplies

TWO SPEED WINCHES

Make light work of heavy loads with Fulton two-speed winches. One fast speed for quick pull in, a second low speed for increased mechanical advantage. Shift lock design allows changing gears without moving the crank handle from shaft to shaft. Just lift the shift lock and slide the shaft into the desired gear position. Shift lock holds the shaft in gear. Neutral, free-wheel position, allows quick line pay out without spinning the handle. Our ratchet pawl also has a convenient neutral position. Optional handbrake kit #1619-01 is available (see below) for all two-speed winches and can be installed after the winch is mounted.

AUTOMATIC BRAKE WINCHES

Fulton's K Series self-activating automatic brake winches hold the load securely when the crank handle is released. Unlike our competitors, no minimum line load is required to activate the brake or pay out cable from the winch. Typical applications include boat lifts, grain augers, manual fork lifts, retractable swing keels, dumpster lid lifts and manual hoists. Drum hubs are 10X recommended cable size to maximize cable life.

WORM GEAR WINCHES

These worm gear winches feature high gear ratios for excellent load control. Worm gear design allows reel to automatically stop when handles are released. No minimum loading is required for winch operation. Drum hubs are sized to prevent cable damage and extend cable life. Oil impregnated bushings and comfort grip handles for easy cranking. Reinforced frames keep gears aligned for improved life cycle performance.

DUTTON-LAINSON

Strongarm® Electric Winches

StrongArm® Electric Winches - provide load-moving muscle with just the push of a button or switch. Electric winch gear-train uses heat treated sintered-iron gears for smooth, quiet operation. Final drive gears are heat treated high carbon steel for greater strength. SA series feature power-in, power-out, controlled freewheeling clutch and automatic brake. SA models equipped with flexible high strength 7 x 19 galvanized aircraft cable. AC model feature 120 volt AC operation complete with 10 ft., 3 wire grounded power cord and built in 3 position rocker switch.

WINCH COVER

Keeps all StrongArm winches clean, dry, and looking like new. Strong vinyl.
Part No. 6363.

REMOTE HAND-HELD SWITCH

For 120 volt AC StrongArm winch models. Provides 10 ft. remote hand-held switch unit for wiring directly to winch. Pendant has an "In-Off-Out" switch similar to power switch provided on all 120 volt AC StrongArm winch models.
Part No. 6372.

Pulling Winches

Pulling Winches - are available in models from 400 lbs. capacity to 3500 lbs. capacity. The seven largest models have two direction ratchets which allow cranking cable onto the drum in either direction. Four models are available with a hand brake to help control the freewheel mode. Ratchet winches are built for multi-purpose hauling, pulling, and material handling operations and are ideal for boat trailer and wheeled equipment applications. **NOTE**: Strap included on strap winches — cable extra on all others. B as a suffix = Hand Brake.

DUTTON-LAINSON
Brake Hand Winches

Brake Winches - have design features for additional safety and convenience. Brake winches have a friction brake which automatically applies a constant, positive holding action. The load remains exactly in position when handle is released. Brake winches should be used in place of ratchet winches in applications where a danger would be created if the winch load were allowed to freewheel. Brake winches are ideal for applications such as raising boats on davits, and raising or lowering retractable keels on sailboats. **NOTE**: Cable not included on winches. *Units marked with an asterisk are freewheel winches.

Worm Gear Hand Winches

Worm Gear Winches - are designed for applications requiring safe controlled movement of loads. The reel automatically stops turning whenever cranking is stopped. This means no freewheel mode and no special mechanism required to stop reel gear movement. Worm gear winches may be used for raising boats on davits, and raising and lowering retractable swing keels on sailboats. These types of winches do not require a minimum load for operation. **NOTE**: Cable not included on winches.

DYNALINE
Hand Winches

DYNALINE

GENERAL PURPOSE HAND WINCHES

Solid carbon steel gears. Embossed frame for added strength. Winch drums are drilled for use with winch straps. Baked black enamel painted finish. Supplied with grip handle and cable keeper.

PART NO.	DESCRIPTION	*LOAD CAPACITY	GEAR RATIO	CABLE SIZE & REEL CAPACITY
11301	One speed, one way ratchet	800 lbs.	3:1	3/16" x 45 ft./ 1/4" x 40 ft./ 9/32" x 40 ft.
11303	One speed, two way ratchet	1200 lbs.	4:1	7/32" x 58 ft./ 1/4" x 55 ft./7/16" x 25 ft.
11304	One speed, two way ratchet	1400 lbs.	4:1	1/4" x 55 ft./ 7/16" x 25 ft.
11305	Two speed, two way ratchet	2000 lbs.	4:1/10:1	1/4" x 65 ft./ 9/32" x 58 ft./ 7/16" x 40 ft./1/2" x 20 ft.
11306	Two speed, two way ratchet & hand brake	2500 lbs.	5:1/12:1	1/4" x 80 ft./ 5/16" x 59 ft./ 7/16" x 40 ft./1/2" x 20 ft.

AUTO BRAKE WINCH

Keeps loads automatically locked in position when handle is released. (Note: Minimum load required to activate brake mechanism.) Baked black enamel painted finish. Supplied with grip handles and cable keeper.

PART NO.	DESCRIPTION	*LOAD CAPACITY	GEAR RATIO	CABLE SIZE & REEL CAPACITY
11308	Auto brake	1400 lbs.	4:1	1/4" x 90 ft./ 5/16" x 65 ft.

WORM GEAR WINCH

Self-braking mechanism prevents loads from accidentally running free. The load remains fixed in position when handle is released. Baked black enamel painted finish. Supplied with grip handles and cable keeper.

PART NO.	DESCRIPTION	*LOAD CAPACITY	GEAR RATIO	CABLE SIZE & REEL CAPACITY
11312	Worm gear	2000 lbs.	41:1	1/8" x 230 ft./ 3/16" x 97 ft.

*Load capacity based on direct line pull on the first layer of line on the drum. Capacity decreases as line builds up on the drum.

DOCAP

Grommets

Grommets are made from styrene butadiene rubber. They are used within the holes of sheetmetal, wherever wiring, rubber hose or cable pass through providing protection against rough edges. Solid centre grommets can be used as plugs.

BRUSHES
Parts Cleaning Brushes

Part No. PC-1, Parts cleaning brush.

DOCAP
Tie Wire

Part No. BTW-1, 3.5 lb. roll (285 ft.) 16 gauge BAR TIE wire.
Part No. SPW-2, 2 lb. roll (330 ft.) 18 gauge MECHANIC'S wire.
Part No. SSW-1, 1 lb. roll (157 ft.) 18 gauge STAINLESS STEEL TIE wire.

Paint Brushes, Rollers, & Accessories

PROFESSIONAL SERIES LATEX BRUSHES

•Polyester/Nylon blend •Stainless steel ferrules •Sealed hardwood handles

Part No. 860-38, 38 mm/thin angle sash.
Part No. 860-50, 50 mm/thin angle sash.
Part No. 861-50, 50 mm/angle sash.
Part No. 861-64, 64 mm/angle sash.
Part No. 862-50, 50 mm/flat sash.
Part No. 862-64, 64 mm/flat sash.
Part No. 863-50, 50 mm/trim.
Part No. 863-75, 75 mm/trim.
Part No. 864-75, 75 mm/wall.
Part No. 864-100, 100 mm/wall.

PROFESSIONAL SERIES OIL BRUSHES

•100% China bristle •Stainless steel ferrules •Sealed hardwood handles

Part No. 760-38, Black bristle, 38 mm/thin angle sash.
Part No. 760-50, Black bristle, 50 mm/thin angle sash.
Part No. 761-50, Black bristle, 50 mm/angle sash.
Part No. 761-64, Black bristle, 64 mm/angle sash.
Part No. 762-50, Black bristle, 50 mm/flat sash.
Part No. 762-64, Black bristle, 64 mm/flat sash.
Part No. 762-75, Black bristle, 75 mm/flat sash.
Part No. 763-50, White bristle, 50 mm/trim.
Part No. 763-75, White bristle, 75 mm/trim.
Part No. 764-75, Black bristle, 75 mm/wall.
Part No. 764-100, Black bristle, 100 mm/wall.

MID-GRADE "PRO" LATEX BRUSHES

•Polyester/Nylon blend •Stainless steel ferrules •Sealed hardwood handles

Part No. 4400-38, 38 mm/angle sash.
Part No. 4400-64, 64 mm/angle sash.
Part No. 4100-50, 50 mm/flat trim.
Part No. 4100-100, 100 mm/wall.

MID-GRADE "PRO" OIL BRUSHES

•100% China bristle •Stainless steel ferrules •Sealed hardwood handles •Asterisk (*) denotes white bristles

Part No. 1213-38, 38 mm/angle sash.
Part No. 1213-50, 50 mm/angle sash.
Part No. 1213-64, 64 mm/angle sash.
Part No. 1217-64*, 64 mm/angle sash.
Part No. 1211-50, 50 mm/flat sash.
Part No. 1214-75, 75 mm/wall.
Part No. 1215-75*, 75 mm/flat trim.
Part No. 1214-100, 100 mm/wall.

MID-GRADE "BONUS" OIL BRUSHES

•100% pure bristle •Long length bristles •Sealed hardwood handles •Flat sash

Part No. 680-38, 38 mm/trim.
Part No. 680-50, 50 mm/trim.
Part No. 680-75, 75 mm/wall.
Part No. 680-100, 100 mm/wall.

ALL-PURPOSE "ONE COAT" LATEX BRUSHES

•One coat results •100% polyester filaments •Contoured black plastic handles

Part No. 2020-25, 25 mm/trim.
Part No. 2020-50, 50 mm/trim.
Part No. 2020-75, 75 mm/wall.
Part No. 2020-100, 100 mm/wall.
Part No. 2320-50, 50 mm/trim - angle sash.

ALL-PURPOSE "ONE COAT" OIL BRUSHES

•One coat results •100% pure China bristle •Contoured black plastic handles

Part No. 920-25, 25 mm/trim.
Part No. 920-50, 50 mm/trim.
Part No. 920-75, 75 mm/wall.
Part No. 920-100, 100 mm/wall.
Part No. 925-50, 50 mm/trim - angle sash.

ALL-PURPOSE "MULTI-USE" LATEX BRUSHES

•100% polyester filaments •Red plastic handles •General maintenance use

Part No. 2015-25, 25 mm/trim.
Part No. 2015-50, 50 mm/trim.
Part No. 2015-75, 75 mm/wall.
Part No. 2015-100, 100 mm/wall.
Part No. 2315-38, 38 mm/angle sash.

ALL-PURPOSE "MULTI-USE" OIL BRUSHES

•100% natural black bristle •Red plastic handles •General maintenance use

Part No. 915-25, 25 mm/trim.
Part No. 915-50, 50 mm/trim.
Part No. 915-75, 75 mm/wall.
Part No. 915-100, 100 mm/wall.

ALL-PURPOSE "BASIC" LATEX BRUSHES

•100% polyester filaments •Blue plastic handles •Utility use

Part No. 2010-25, 25 mm/trim.
Part No. 2010-50, 50 mm/trim.
Part No. 2010-75, 75 mm/wall.
Part No. 2010-100, 100 mm/wall.

ALL-PURPOSE "BASIC" OIL BRUSHES

•100% natural black bristle •Blue plastic handles •Utility use

Part No. 910-25, 25 mm/trim.
Part No. 910-50, 50 mm/trim.
Part No. 910-75, 75 mm/wall.
Part No. 910-100, 100 mm/wall.

Rubberset®

WHITE BRISTLE CHIP BRUSHES

•100% natural white bristle •Wood handles

Part No. 603-13, 13 mm.
Part No. 603-25, 25 mm.
Part No. 603-38, 38 mm.
Part No. 603-50, 50 mm.
Part No. 603-75, 75 mm.
Part No. 603-100, 100 mm.

POLYOLEFIN CHIP BRUSHES

•Economical grade polyolefin filament •For all types of touch-up jobs

Part No. 4405-13, 13 mm.
Part No. 4410-25, 25 mm.
Part No. 4415-38, 38 mm.
Part No. 4420-50, 50 mm.
Part No. 4425-64, 64 mm.
Part No. 4430-75, 75 mm.
Part No. 4470-100, 100 mm.

"GO" BRUSHES

•Economical grade bristle brushes with red handles •Utility use only

Part No. 310-30, 30 mm.
Part No. 310-50, 50 mm.
Part No. 310-75, 75 mm.
Part No. 310-100, 100 mm.

"CLIPPER" LATEX BRUSHES

•100% polyester •Green plastic handles

Part No. 302-30, 30 mm.
Part No. 302-50, 50 mm.
Part No. 302-75, 75 mm.
Part No. 302-100, 100 mm.

"CLIPPER" OIL BRUSHES

Wood handles:
Part No. 83210-25, 25 mm.
Part No. 83215-38, 38 mm.
Part No. 83220-50, 50 mm.
Part No. 83230-75, 75 mm.
Part No. 83240-100, 100 mm.

RADIATOR BRUSHES

•Pure bristle •Extra long handles for hard to reach surfaces

Part No. 2065, 30 mm/flat.
Part No. 2075, 30 mm/bent.
Part No. 2085, 50 mm/bent.

OVAL SASH BRUSHES

•Black China bristle •Use for glue, shellac, and machine cleaning

Part No. 1150-2, #2.
Part No. 1150-4, #4.
Part No. 1150-6, #6.
Part No. 1150-8, #8.
Part No. 1150-10, #10.

#2 NYLON CLEANING TOOL

Part No. 2264.

WATERSEAL BRUSH

100 mm polyester waterseal brush.
Part No. 2340.

STAIN BRUSH

100 mm polyolefin stain brush.
Part No. 2200.

CHINA BRISTLE STAIN BRUSH

Grey.
Part No. 2440-75, 75 mm.
Part No. 2440-100, 100 mm

FLAT FOAM BRUSH

Flat foam brush with wood handle.
Part No. 81610-25, 25 mm.
Part No. 81620-50, 50 mm.
Part No. 81630-75, 75 mm.
Part No. 81640-100, 100 mm.

"PAINTER'S COLLECTION" BRUSH SET

4 piece brush set, 25, 38, 50, 75 mm.
Part No. 0115.

Paint Brushes, Rollers, & Accessories

HIGH DENSITY POLYESTER ROLLER SLEEVES — VINYL CORE

Part No.	Roller Type	Size	For Use With...
8200	Smooth surface	240 mm x 6 mm pile	Oil and latex paints
8201	Smooth or light textured surface	240 mm x 10 mm pile	Oil and latex paints
8202	Smooth or textured surface	240 mm x 13 mm pile	Oil and latex paints
8203	Semi-rough surface	240 mm x 19 mm pile	Oil and latex paints
8204	Rough surface	240 mm x 25 mm pile	Oil and latex paints
8205	Very rough surface	240 mm x 30 mm pile	Oil and latex paints

LOW LINT WOVEN POLYESTER ROLLER SLEEVES — VINYL CORE

Part No.	Roller Type	Size	For Use With...
5910	Smooth surface	240 mm x 6 mm pile	Oil and latex paints
5911	Smooth or light textured surface	240 mm x 10 mm pile	Oil and latex paints
5912	Semi-smooth surface	240 mm x 13 mm pile	Oil and latex paints

ALL-PURPOSE SERIES ROLLER REFILLS

Part No.	Roller Type	Size	For Use With...
6008	"One Coat" smooth surface	190 mm x 6 mm pile	Oil and latex paints
6009	"One Coat" textured surface	190 mm x 10 mm pile	Oil and latex paints
6010	"One Coat" semi-smooth surface	190 mm x 13 mm pile	Oil and latex paints
6000	"One Coat" smooth surface	240 mm x 6 mm pile	Oil and latex paints
6001	"One Coat" textured surface	240 mm x 10 mm pile	Oil and latex paints
9502	Set of 6, #6001 "One Coat" roller refill	240 mm x 10 mm pile	Oil and latex paints
6003	"One Coat" semi-smooth surface	240 mm x 13 mm pile	Oil and latex paints
6002	"One Coat" rough surface	240 mm x 25 mm pile	Oil and latex paints
6020	"Multi-Use" smooth surface	240 mm x 6 mm pile	Oil and latex paints
6021	"Multi-Use" textured surface	240 mm x 10 mm pile	Oil and latex paints
6022	Set of 3, #6021 "Multi-Use" roller refill	240 mm x 10 mm pile	Oil and latex paints

SPECIALTY SLEEVES

Part No.	Roller Type	Size	For Use With...
5112	Moblend twin pack	75 mm x 5 mm pile	Epoxies and toluenes
5542	Moblend smooth surface	110 mm x 5 mm pile	Epoxies and toluenes
5572	Moblend smooth surface	190 mm x 5 mm pile	Epoxies and toluenes
5592	Moblend smooth surface	240 mm x 5 mm pile	Epoxies and toluenes
6332	Polypile	75 mm x 5 mm pile	Epoxies and toluenes
6336	Polypile	75 mm x 11 mm pile	Epoxies and toluenes
7523	Foam	75 mm x 10 mm pile	Epoxies and toluenes
5541	Polyhide textured surface	110 mm x 13 mm pile	Epoxies and toluenes
9129	"Economy" textured surface	190 mm x 10 mm pile	Latex paints
9130	"Economy" textured surface	240 mm x 10 mm pile	Latex paints
9132	"Economy" textured surface twin pack	240 mm x 10 mm pile	Latex paints
9122	Textured surface toss-away twin pack	240 mm x 10 mm pile	Latex paints
0341	Textured roller sleeve	240 mm x 6 mm pile	Textured paints
7524	Foam smooth surface	240 mm x 10 mm pile	Varnish and urethanes
7624	Split foam textured surface	240 mm x 19 mm pile	Varnish and urethanes
9252	Brush fabric smooth surface	240 mm x 5 mm pile	Epoxy and fibreglass

MINI-ROLLER & FRAME SETS FOR TRIM PAINTING

Part No. 5312, 75 mm moblend mini-roller and frame - 5 mm pile.
Part No. 6712, 75 mm polypile mini-roller and frame - 5 mm pile.
Part No. 6716, 75 mm polypile mini-roller and frame - 11 mm pile.
Part No. 6718, 75 mm foam mini-roller and frame - 10 mm pile.
Part No. 5342, 110 mm moblend roller and frame - 5 mm pile.
Part No. 5341, 110 mm polyhide roller and frame - 13 mm pile.

SPECIALTY PAINT PADS

Part No. 9611, 2 wheel edger paint pad.
Part No. 9612, Refill pad for 9611 edger paint pad.
Part No. 9615, Paint wand and tray.

MISCELLANEOUS ACCESSORIES

Part No. 2530, 25 mm "Sturdy" wire brush.

Part No. 78540, 120 cm wooden extension pole with threaded tip.
Part No. 97523, 120 cm wooden extension pole with metal threaded tip.
Part No. 7625, 183 cm wooden extension pole with metal threaded tip.

Part No. 9019, "Klamp-Tite" adapter for wooden extension poles.
Part No. 9805, "Pro" painter's mitt.
Part No. 9808, Paper dust masks, package of 5.

POLYETHYLENE PRODUCTS

Multi-Purpose Poly Sheeting

Multi Purpose Sheeting can be used for a number of construction and industrial uses, including: •Paint drop sheets •Ceiling stippler film •Paint masking •Furniture covers •Weather protection •Equipment covers •Dust protection •Auto masking. With its handy dispenser type of box, the product is easy to store, transport, and use in any desired length. This utility grade plastic film product is 10 feet wide and 360 feet long (a full 3600 square feet of film), yet supplied in a 16 inch wide box.
Part No. 05-C10-007.

Construction Grade Poly Sheeting

LIGHT GAUGE
Part No. 05-C20-505, 102" x 59 ft. roll, 1 mil clear poly sheeting - 500 sq. ft./roll.
Part No. 05-C21-505, 102" x 177 ft. roll, 1 mil clear poly sheeting - 1500 sq. ft./roll.

MEDIUM GAUGE
Part No. 05-C40-505, 102" x 59 ft. roll, 2 mil clear poly sheeting - 500 sq. ft./roll.
Part No. 05-C41-007, 120" x 100 ft. roll, 2 mil clear poly sheeting - 1000 sq. ft./roll.
Part No. 05-C41-505, 102" x 177 ft. roll, 2 mil clear poly sheeting - 1500 sq. ft./roll.

HEAVY GAUGE
Part No. 05-C60-505, 102" x 59 ft. roll, 3 mil clear poly sheeting - 500 sq. ft./roll.
Part No. 05-C61-007, 120" x 100 ft. roll, 3 mil clear poly sheeting - 1000 sq. ft./roll.
Part No. 05-C61-011, 240" x 100 ft. roll, 3 mil clear poly sheeting - 2000 sq. ft./roll.

Poly Vapour Barrier

•CGSB approved #69006
Part No. 05-V60-505, 102" x 59 ft. roll, 6 mil clear poly vapour barrier - 500 sq. ft./roll.
Part No. 05-V61-007, 120" x 100 ft. roll, 6 mil clear poly vapour barrier - 1000 sq. ft./roll.
Part No. 05-V61-505, 102" x 177 ft. roll, 6 mil clear poly vapour barrier - 1500 sq. ft./roll.

3M

Paintable Plastic Sheeting

3M™ Paintable Plastic Sheeting is a new 20 ft. x 250 ft. roll with micro-etched surface. Helps reduce masking time and labour on larger trucks and SUVs. High density tear resistant clear film.
Part No. 06742.

MARKAL®

Marking Products

SOAPSTONE MARKER & HOLDER
•For the temporary marking of metal surfaces during fabrication operations •Made of all natural soapstone for superior marking •Marks will not contaminate welds and is easily removed
Part No. 80129, Soapstone marker, 5" x 1/2" x 3/16" (flat).
Part No. 80140, Soapstone Holder for flat soapstone, 12 per box.

B PAINTSTIK® MARKER
•All purpose, cold surface marker •Real paint in stick form, dries overnight •Marks on any surface or material •Weather resistant and fade resistant •Lead free •Marking range: -46°C to 66°C •11/16" x 4¾" •Standard package 12 per box
Part No. 80200, White (2/card).
Part No. 80201, Yellow (2/card).
Part No. 80220, White.
Part No. 80221, Yellow.
Part No. 80222, Red.
Part No. 80223, Black.
Part No. 80224, Orange.
Part No. 80225, Blue.
Part No. 80226, Green.
Part No. 80229, Brown.

LUMBER CRAYON #500
•Also known as layout chalk or "keel" •Longer lasting than ordinary crayons •Weather resistant and water resistant •Marks on concrete, wood, metal, plastics, rubber, paper, cardboard, and ceramics •Lead free •Marking range: -46°C to 66°C •1/2" x 4-5/8" •Standard package 12 per box
Part No. 80320, White.
Part No. 80321, Yellow.
Part No. 80322, Red.
Part No. 80323, Black.
Part No. 80324, Orange.
Part No. 80325, Blue.
Part No. 80326, Green.

LA-CO® Markal®

BALL PAINT MARKER™

•Ball size 1/8" •Fine line marks with real paint that dries in minutes •Lead free •Weather and water resistant •Marks on metal, wood, plastic, almost any surface •Typical uses: metal pipe, I-beams, sheet metal, lumber, and PVC pipe •Marking range: -46°C to 66°C •2 oz. bottle •Standard package 12 per box
Part No. 84620, White.
Part No. 84621, Yellow.
Part No. 84622, Red.

DURA-INK® #15 MARKER

•Ideal for fine line marking •Extra strong tip will not spread or mush •Smear resistant, water resistant, fast drying •Marks on metal, wood, cardboard, paper, plastic, glass, etc. •Standard package 12 per box
Part No. 96023, Dura-Ink #15 marker, black.

DURA-INK® #55 MARKER

•High intensity colours •Smear and water resistant •Fast drying •Chisel tip makes fine or broad lines •Excellent for use on cardboard, ceramics, glass, leather, lumber, paper, rubber and steel. •Standard package 12 per box
Part No. 96528, Red.
Part No. 96529, Black.
Part No. 96530, Blue.
Part No. 96531, Green.

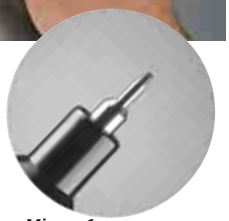
VALVE ACTION™ PAINT MARKER

•Paint formulated for industrial applications •Dries in minutes - weather resistant •Lead free •Ideal for all surfaces •Makes fine line marks •Typical uses: metal and PVC pipe, sheet metal, cartons, lumber, signs, and tires •Marking range: -46°C to 66°C •Standard package 12 per box
Part No. 96820, White.
Part No. 96821, Yellow.
Part No. 96822, Red.
Part No. 96823, Black.
Part No. 96824, Orange.
Part No. 96825, Blue.
Part No. 96826, Green.
Part No. 96832, Aluminum.

PRO-LINE™ FINE/MICRO POINT PAINT MARKER

•The only non-xylene, fine/micro point paint marker designed and built with tough, industrial applications in mind •Two tip sizes: 2 mm Fine tip for general use where a finer paint line is needed, 1 mm Microline tip for detailed writing and identification on clean parts or materials •Xylene-Free formula for less objectionable odour, fewer health concerns, less flammable •Recommended for metals, plastics, chipboard, corrugated, laminates, fibreglass, painted or varnished woods, glass, paper, ceramics. •Designed for smoother surfaces such as sheet metal, machined metal parts, etc. IT IS NOT SUITABLE for rough surfaces such as slab steel, rough lumber, fabrics, etc. •Self-storing pocket clip cap •Standard package 48 per box
Part No. 96871, Fine Tip, white.
Part No. 96872, Fine Tip, yellow.
Part No. 96873, Fine Tip, black.
Part No. 96874, Fine Tip, red.
Part No. 96875, Fine Tip, blue.
Part No. 96876, Fine Tip, green.
Part No. 96877, Fine Tip, orange.
Part No. 96888, Micro Tip, white.
Part No. 96889, Micro Tip, yellow.
Part No. 96890, Micro Tip, black.
Part No. 96891, Micro Tip, red.

Fine, 2 mm



Micro, 1 mm

SILVER-STREAK® FINE LINE METAL MARKER

•Ideal for doing metal layout and fabrication work •Round or flat •Marks on any metal surface, won't rub off like soapstone •Marks on oily, wet, or rusty metals •More visible through filter plates •Marks are resistant to torch flames and won't shatter if dropped •Holders include a handy pocket clip •Standard package 24 per box except #96017 (12)
Part No. 96004, Silver-Streak flat holder w/ 4 refills.
Part No. 96006, Silver-Streak round w/ refill.
Part No. 96007, Card of 6 Silver-Streak round refills.

Part No. 96018, Package of 25 Silver-Streak flat refills.
Part No. 96002, Package of 100 Silver-Streak flat refills.
Part No. 96017, Package of 10 holders only for Silver-Streak flat refills; also fits Red-Riter flat refills.

RED-RITER® FINE LINE METAL MARKER

•Ideal for doing metal layout and fabrication work •Marks on any metal surface, won't rub off like soapstone •Marks on oily, wet, or rusty metals •More visible through filter plates •Marks are resistant to torch flames and won't shatter if dropped •Holders include a handy pocket clip •Standard package 24 per box except #96017 (12)
Part No. 96005, Red-Riter flat holder w/ 4 refills.
Part No. 96019, Package of 25 Red-Riter flat refills.
Part No. 96017, Package of 10 holders only for Red-Riter flat refills; also fits Silver-Streak flat refills.

QUIK STIK™ TWIST UP PAINT MARKER

•Twist-up advance of the stick •Plastic holder with self storing cap prevents breakage, keeps hands and clothing clean •More marks for the money, lasts 20% longer than other brands •Bright, bold fade resistant colours •Smooth marking, fast drying paint marks on virtually any surface: metal, glass, plastic, wood, cardboard, paper, etc. •Marks dry in 5 - 7 minutes •Marking temperature range: -17°C to 60°C
Part No. 61051, White.
Part No. 61053, Yellow.
Part No. 61049, Red.
Part No. 61050, Black.
Part No. 61069, Green.
Part No. 61070, Blue.
Part No. 61071, Orange.
Part No. 61073, Purple.

DURA-BALL™ PAINT TUBE MARKER

•All colours are low chloride which make them safe for marking stainless steel and nuclear plant use •Marks on all hard surfaces such as metals, plastic, glass, and wood •Available in 12 colours •Thick paint won't run on vertical and overhead surfaces •Colour coded cap shows the paint colour and protects the tip •Marking range -46°C to 66°C •Standard package 48 per box •1/8" ball tip size

Part No. 96655, Black.
Part No. 96656, Orange.
Part No. 96657, Blue.
Part No. 96658, Green.
Part No. 96659, Pink.
Part No. 96660, Violet.
Part No. 96661, Brown.
Part No. 96662, Grey.
Part No. 96663, Beige.

IRWIN INDUSTRIAL TOOLS

Sharpie Permanent Markers

SHARPIE® KING SIZE™

•Industrial strength for tough marking jobs •Marks on wet and oily surfaces •Durable aluminum barrel and felt tip stand up to heavy use •Special water resistant ink formula dries quickly •Excellent for marking corrugate, wood, metal, foil, stone, plastic, leather, and more •Large ink supply for big projects

Part No. 15001-SH, Black.
Part No. 15002-SH, Red.

SHARPIE® FINE TIP

•Permanent on most surfaces •Quick-drying, fade and water resistant ink •Available in 3 colours

Part No. 30101-SH, Black.
Part No. 30102-SH, Red.
Part No. 30103-SH, Blue.

SHARPIE® TWIN TIP

•Increased functionality with both fine and chisel tips in one marker •Permanent on most surfaces •Fade and water resistant ink encourages multiple project uses •Quick drying, AP certified non-toxic ink formula

Part No. 36401-SH, Black.

SHARPIE® PROFESSIONAL

•Ready for your big jobs •Permanent on most surfaces, including wet, oily, and non-porous surfaces: sandpaper, concrete, bricks, glass, metal, plastic, wood, etc., •Stronger tip lasts 50% longer than the standard fine point tip •Rubber barrel and cap design makes cap easy to remove when wearing gloves •Reinforced oval shaped barrel is designed to withstand dents and will not roll off flat surfaces •Versatile chisel tip allows for 2 distinctive line widths: broad or fine •Quick drying, AP certified non-toxic ink formula •Available in 2 colours

Part No. 34801-SH, Black.
Part No. 34802-SH, Red.

SHARPIE® MAGNUM®

•Industrial strength for big marking jobs •Marks on wet and oily surfaces •Durable aluminum barrel and felt tip stand up to heavy use •Special water resistant ink formula dries quickly •Oversized felt chisel tip for extra wide, highly visible lines on corrugate, wood, metal, foil, stone, plastic, leather, and more •Extra-large ink supply for big projects •2 colours

Part No. 44001-SH, Black.
Part No. 44002-SH, Red.

SHARPIE RETRACTABLE PERMANENT MARKERS

Same great Sharpie ink, now in a retractable marker that allows easy one-handed operation! •No cap to remove or lose •Safety Seal™ Valve design prevents dry out •Permanent on most hard-to-mark surfaces •Quick drying, AP certified non-toxic ink formula •3 colours

Part No. 32721-SH, Black.
Part No. 32722-SH, Red.

Sharpie®
PERMANENT MARKER

GENPACK

Markers

"THE PUMPER" VALVE ACTION PAINT MARKER

Available in a variety of colours, these paint markers come with an extra tip in the cap. Ideal for most surfaces. Dries in minutes. 12/box.

Clean Grip

Looking for a way to secure decorative trims and/or functional seals and gaskets without adhesives, screws, or rivets? Clean Grip is one of the easiest and fastest trims to install on the market today. The heart of the Clean Grip system is a continuous flexible steel core. Clean Grip simply grips the flange providing a professional, simple, and low cost method to attach seals, gaskets, or decorative trims. This product is available in a variety of designs to fit most needs.
**Sold by the foot.

Industrial Tapes

REGULAR ELECTRICAL PVC TAPE
-7°C, regular PVC tape. 3/4" width.
Part No. REG-33, 33 ft. roll.
Part No. REG-66, 66 ft. roll.

COLD WEATHER ELECTRICAL PVC TAPE
-18°C, cold weather PVC tape. 3/4" width x 66 ft. roll.
Part No. CW-66.

3M SCOTCH™ SUPER 33+ VINYL PLASTIC ELECTRICAL TAPE
7-mil, suited for all weather, resistant to oil, water, wear, chemicals, and solvents. 3/4" x 66 ft. roll.
Part No. 06132.

3M SCOTCH™ SUPER 88 COLD WEATHER VINYL PLASTIC ELECTRICAL TAPE
For use in cold weather applications. 3/4" x 66 ft. roll.
Part No. 06143.

3M TEMFLEX™ VINYL PLASTIC ELECTRICAL TAPE
7-mil, flame retardant, resistant to moisture and abrasion. 3/4" x 66 ft. roll.
Part No. 6140.

3M TARTAN™ VINYL PLASTIC ELECTRICAL TAPE
7-mil, flame retardant, resistant to moisture and abrasion. 3/4" x 66 ft. roll.
Part No. 05487.

COLOURED PVC TAPE
3/4" x 66 ft. roll. 5 colours to choose from.
Part No. COL66-WHI, White.
Part No. COL66-YEL, Yellow.
Part No. COL66-BLU, Blue.
Part No. COL66-GRN, Green.
Part No. COL66-RED, Red.

3M SCOTCH™ ELECTRICAL MOISTURE SEALANT
Quick and easy method of moisture-proofing electrical connections. Protects against vibration, road grime, and abrasion.
Part No. 06147, 2½" x 10 ft. roll.
Part No. 06149, 2½" x 2½" patch.

WRAP 'N SEAL AUTOMOTIVE TAPE
Bonds without adhesive by stretching onto itself thus forming a rubber covering. Self fusing for waterproofing and insulating electrical connections. Suitable for use at not more than 600V as primary insulation and not more than 80°C. Strong and durable rubber construction allows this tape to thrive in tough conditions as a seal/protective covering. Non-sticky to the touch. Versatile. 3/4" x 22 ft. roll.
Part No. 66-9972EA.

SCOTCH™ 2242 LINERLESS SPLICING COMPOUND
Designed to offer ultimate in protection of electrical wiring and connectors from shorts and failures caused by moisture and corrosion.
Part No. 06165, ¾" x 15 ft. roll.

SILVER DUCT TAPE
Standard silver duct tape. 60 yard rolls. 5 widths available.
Part No. DUC-1, 1".
Part No. DUC-1-1/2, 1½".
Part No. DUC-2, 2".
Part No. DUC-3, 3".
Part No. DUC-4, 4".

PREMIUM SILVER DUCT TAPE
Contractor grade, 2" x 60 yard roll.
Part No. PDUC-2.

3M SCOTCH™ TRANSPARENT DUCT TAPE
Makes your repairs less obvious. It will not fall apart in extreme temperatures and harsh UV conditions. Lasts 6 times longer than other ordinary duct tapes. 2" x 20 yard roll.
Part No. 83260.

COLOURED DUCT TAPE
2" x 180 ft. rolls. Choose from 8 colours.
Part No. PC-600BK, Black.
Part No. PC-600WH, White.
Part No. PC-600RD, Red.
Part No. PC-600GN, Green.
Part No. PC-600YE, Yellow.
Part No. PC-600BL, Blue.
Part No. PC-600OR, Orange.
Part No. PC-600BR, Brown.

POL-E-MAX™ #738 POLY DUCT TAPE
This is a silver polyethylene backed pressure sensitive adhesive tape with a natural rubber based adhesive. The adhesive is aggressive and will adhere well to a variety of surfaces. Silver coloured, the thick backing layer does not contain any cloth reinforcements but is strong and flexible. An excellent substitute for cloth duct tape, the polyethylene layer is much thicker than traditional duct tapes providing a superior physical barrier against moisture or vapour transmission. It is well suited for temporary and permanent applications such as: bundling and wrapping; patching and repairs; sealing; bonding dissimilar materials. Easy to tear by hand. 2" x 60 yard roll.
Part No. PMAX-2.

GENERAL GRADE MASKING TAPE
60 yard roll.
Part No. MAS-1/2, 1/2".
Part No. MAS-3/4, 3/4".
Part No. MAS-1, 1".
Part No. MAS-2, 2".
Part No. MAS-3, 3".

PREMIUM GRADE MASKING TAPE
60 yard roll.
Part No. PRE-3/4, 3/4".
Part No. PRE-1, 1".
Part No. PRE-2, 2".

AMERICAN BODY SHOP PREMIUM HIGH TEMP MASKING TAPE
60 yard roll.
Part No. PG27-3/4, 3/4".
Part No. PG27-1, 1".
Part No. PG27-1-1/2, 1½".
Part No. PG27-2, 2".

3M SCOTCH™ 233+ AUTOMOTIVE REFINISH MASKING TAPE
55 m roll.
Part No. 26334, 3/4".
Part No. 26336, 1".
Part No. 26338, 1½".
Part No. 26340, 2".
Part No. 26341, 3".
Part No. 26343, 1/8".
Part No. 26344, 1/4".

3M SCOTCH™ 233 AUTOMOTIVE REFINISH MASKING TAPE
Part No. 6364, 3/4" x 55 m roll.

LIGHT DUTY FLAGGING TAPE
Light duty poly flagging tape. 1" x 600 ft. roll.
Part No. ORAP, Orange.
Part No. YELP, Yellow.
Part No. BLUP, Blue.

MEDIUM DUTY PREMIER FLAGGING TAPE
Medium duty premier flagging tape. 1" x 150 ft. roll.
Part No. OF3V, Fluorescent orange.
Part No. BF3V, Fluorescent blue.
Part No. LF3V, Fluorescent lime.
Part No. PF3V, Fluorescent pink.
Part No. RF3V, Fluorescent red.
Part No. WR6, White with red stripe.
Part No. WB3, White with blue stripe.

ARCTIC FLAGGING TAPE
Arctic flagging tape. 1" x 120 ft. roll.
Part No. OF6V, Fluorescent orange.
Part No. BF6V, Fluorescent blue.
Part No. LF6V, Fluorescent lime.
Part No. PF6V, Fluorescent pink.
Part No. YF6V, Fluorescent yellow.
Part No. GF6V, Fluorescent green.
Part No. RR6V, Red.
Part No. YY6V, Yellow.
Part No. OB6V, Orange with black stripe.
Part No. PB6V, Pink with black stripe.

REINFORCED FLAGGING TAPE
1" x 300 ft. roll. Orange.
Part No. FT-300.

WARNING TAPE
2" x 36 yard roll yellow/black PVC adhesive warning tape. Complies with O.S.H.A. colour marking requirements. Superior resistance to high temperature.
Part No. HVMT-YE/BK.

ATHLETIC TAPE
General purpose cotton cloth tape with a black rubber based adhesive. For applications including athletics, such as taping ankles and wrists, hockey sticks and pads, baseball bats, etc. White, black, or clear shinpad tape.
Part No. 21042, 1" x 18 yard roll white hockey tape.
Part No. 21048, 1" x 24 yard roll white hockey tape.
Part No. 21012, 1¼" x 12 yard roll white hockey tape.
Part No. 21014, 1½" x 13 yard roll white hockey tape.

Part No. 21142, 1" x 18 yard roll black hockey tape.
Part No. 21148, 1" x 24 yard roll black hockey tape.
Part No. 21112, 1¼" x 12 yard roll black hockey tape.
Part No. 21114, 1½" x 13 yard roll black hockey tape.

Part No. 31048, 1" x 30 yard roll clear polyethylene shinpad tape.

EAGLE PICHER
Floor Dry®

EASY TO APPLY... Eagle Picher Floor Dry is a superior diatomite absorbent, easy to apply and economical too, since it can be spread by hand or scoop in a minimum amount of time. It absorbs floor spills immediately, Floor Dry goes to work absorbing "right now", leaving a dry safe floor which can help eliminate costly employee accidents.

LIKE A SPONGE... Observed under a microscope, these uniquely shaped diatomite granules look like tiny sponges. They're also light like sponges. Typically, Floor Dry will absorb nearly its own weight in water or oil. This sponge-like quality makes Floor Dry a powerful ally in handling your absorbent needs.

FLOOR DRY... Out-performs most mineral sorbent competitors and passes the Liquid Release Test (LRT) with larger quantity of liquid absorbed.
Part No. FD85N, 20 lb. poly bag.

SPC
Sorbent Products

ENV™ OIL SORBENTS — CONTRACTOR GRADE — MAXX TECHNOLOGY

Economical pads, rolls, and booms for oil clean-up on land or water.
•Oil only sorbent equally effective on land or water •Repels water and floats indefinitely - even when saturated •Efficient single ply construction •MAXX means greater performance without the extra weight •Ideal for marine applications where low cost and high absorption capacity is desired: •Emergency spill response •Off shore spills •A low cost industrial alternative

PART NO.	STYLE	SIZE	DESCRIPTION
ENV100	PAD	Pack of 100, 15" x 19"	Economy, heavy weight
ENV300	PAD	Pack of 100, 15" x 19"	Economy, medium weight
ENV500	PAD	Pack of 100, 15" x 19"	Economy, light weight NEW
ENV200	PAD	Pack of 200, 15" x 19"	Economy, light weight, double coverage
ENV810	BOOM	8" x 10 ft.	Economy with blue sleeve, lint free
ENV150	ROLL	30" x 150 ft.	Medium weight, value roll

SXT™ INDUSTRIAL OIL SORBENT

Premium extra-tough oil only pads.
•High performance, oil only sorbent made to handle petroleum based spills •Remains intact even when saturated •Spunbond coverstock on both sides offers: -Maximum durability and very low linting - Both abrasion resistant and non abrasive performance (ideal for workstations involving the wipe down of tools or component parts) - The extra strength required for the wringing and re-using of sorbents •Perforated to help you use only what you need •Ideal for applications where low linting is required: •High tech industries •Pharmaceutical •Machining of small parts •Paper industry •Food processing

PART NO.	STYLE	SIZE	DESCRIPTION
SXT100	PAD	Pack of 100, 15" x 19"	Full size, heavy weight perfed pad
SXT200	PAD	Pack of 200, 15" x 19"	Full size, light weight perfed pad NEW

SPC™ OIL SORBENTS — MAXX TECHNOLOGY

Industry standard pads, rolls, booms, for oil clean-up on land or water.
•Convenient and cost-effective •Hydrophobic nature makes it ideal for outdoor applications •Heavier and bonded to enhance strength and reduce linting •Dimpled and perforated, single ply sorbents •MAXX means greater performance without the extra weight •Applications: •Spill response and clean up •Off shore or ship board spills •Outdoor industrial applications where lint is not a concern

PART NO.	STYLE	SIZE	DESCRIPTION
SPC100	PAD	Pack of 100, 15" x 19"	Heavy weight, dimpled and perfed
SPC200	PAD	Pack of 200, 15" x 19"	Light weight, dimpled and perfed, double the coverage
SPC500	PAD	Pack of 100, 15" x 19"	Light weight, dimpled and perfed NEW
SPC810	BOOM	8" x 10 ft.	Strong, lint-free, booms with no gaps
SPC150	ROLL	38" x 144 ft.	Heavy weight and dimpled

OIL PLUS™

Superior performing oil only white dimpled pads and rolls for industry.
A 3-ply dimpled material notable for its low linting, thickness and strength. It is equally effective in absorbing oil and petroleum fluids and will not pick up water or water-based liquids. Suitable for industrial and environmental applications, Oil Plus is perforated to permit the use of precisely the right amount of material — whatever the job. Easily disposed of, Oil Plus is incinerable and leaves less than .02% ash.

PART NO.	STYLE	SIZE	DESCRIPTION
OP100	PAD	Pack of 100, 15" x 19"	Full size, heavy weight perfed pad
OP15	ROLL	15" x 150 ft.	Heavy weight, new efficient width
OP30	ROLL	30" x 150 ft.	Heavy weight, full size blanket

SPC
www.sorbentproducts.com

All-new "MAXX™" technology – maximizes absorbency and minimizes waste. Pads perform significantly better than their pre-MAXX versions: ENV offers an average increase in absorbency of 37% , GP has an average increase of 39% and SPC an average increase in absorbency of 22%. MAXX delivers greater strength and absorbency in a more cost-effective product.

GP™ UNIVERSAL SORBENTS — MAXX TECHNOLOGY

For economical general purpose maintenance.
•This economical, general purpose sorbent offers the look and feel as well as the performance of a premium product •Universal in nature so it absorbs basically all fluids (water, petroleum and chemical based) •Efficient single ply construction •Made with MAXX for greater performance without the extra weight •Applications: •Machine shop •Refineries •Transportation maintenance •Steel manufacturing •Paper mills •Just about anywhere you have a leak, drip or spill

PART NO.	STYLE	SIZE	DESCRIPTION
GP100	PAD	Pack of 100, 15" x 19"	Full size pad, heavy weight
GP200	PAD	Pack of 200, 15" x 19"	Economy weight, double coverage
GP500	PAD	Pack of 100, 15" x 19"	Economy weight NEW
GP30	ROLL	30" x 150 ft.	Wide area coverage

MRO PLUS™

The new standard in all-purpose grey dimpled maintenance sorbents.
This is highly effective for clean-up and removal of oil and water-based liquids. A three-ply, grey dimpled material combining thickness, strength and high absorbency, low-linting MRO Plus is suitable for virtually any industrial application. MRO Plus contributes to economy, too. Perforation permits use of precisely the right amount, and the product's dirt-masking grey colour fosters longer use before disposal. Incineration residue of MRO Plus is less than .02% ash.

PART NO.	STYLE	SIZE	DESCRIPTION
MRO100	PAD	Pack of 100, 15" x 19"	Full size, heavy weight perfed pad
MRO300	PAD	Pack of 100, 15" x 19"	Medium weight pad
MRO15	ROLL	15" x 150 ft.	New efficient heavy weight width
MRO15-DPS	ROLL	15" x 73 ft.	Heavy weight refill for Spill Kaddie
HT555	ROLL	15" x 150 ft.	Heavy weight, 300 pads per roll, dispenser box
MRO30	ROLL	30" x 150 ft.	Heavy weight, full-size blanket

UNIVERSAL PLUS™

Green dimpled chemical sorbent for hazardous materials clean-up.
A specially developed chemical sorbent with properties that make it ideal for hazardous liquid clean-up. A surfactant-treated polypropylene, Universal Plus absorbs 16 times its weight in chemicals, water or oil. Versatile and cost-effective, Universal Plus can be used on a wide range of chemicals, including acids and caustics. It is chemically inert, so it will not react with aggressive fluids. Leaves only .02% ash. The product's green colour — the universal symbol for safety — indicates that it is intended for use on hazardous materials.

PART NO.	STYLE	SIZE	DESCRIPTION
UN1113	PAD	Pack of 50, 12" x 12"	Handy refillable dispenser box
UN1719	PAD	Pack of 100, 15" x 19"	Full size perfed pad
UN1019	ROLL	15" x 150 ft.	Perfed every 9" and up centre

MAXX CHEMICAL SORBENTS — MAXX TECHNOLOGY

Yellow value sorbent enhanced with MAXX Technology - an ideal choice for all your chemical applications
•MAXX means greater performance without the extra weight •Colour coded yellow for safety and easy separation of hazardous waste •Product will not react with aggressive fluids •For use where hazardous chemicals and acids are involved: •Nuclear power facilities •Chemical spill response units •Labs and hospitals •Any industry utilizing aggressive fluids

PART NO.	STYLE	SIZE	DESCRIPTION
CH1212	PAD	Pack of 50, 12" x 12"	Handy refillable dispenser box
CH100	PAD	Pack of 100, 15" x 19"	Full size perfed pad
CH15P	ROLL	15" x 150 ft.	Perfed every 18"
CH30DP	ROLL	30" x 150 ft.	Perfed every 15" and up centre

Sorbent Products

SLIKWIK® SOCS™

For routine spill containment and control.

PART NO.	STYLE	SIZE	DESCRIPTION
SW46	Slikwik® SOC	3" x 42"	For quick, dependable, corncob-filled SOC, pick-up of all but aggressive fluids
OIL412	Oil Only	3" x 4 ft.	Specialized oil-only polypropylene SOC for
OIL124	SOC	3" x 12 ft.	use against oil and petroleum based spills
AW412	Allwik®	3" x 4 ft.	All-purpose maintenance polypropylene SOC
AW124	SOC	3" x 12 ft.	suitable for most industrial applications
HAZ412	Hazwik®	3" x 4 ft.	The SOC filled with chemical resistant
HAZ124	SOC	3" x 12 ft.	polypropylene preferred when aggressive fluids are a problem
MS50	Multiwik™ SOC	3" x 4 ft.	A wringable SOC filled with universal polypropylene product for non-aggressive fluids

SLIKWIK® PILLOWS

Stop spills at the source.

PART NO.	STYLE	SIZE	DESCRIPTION
OIL1818	Oil Only	18" x 18"	Used in waste troughs
OIL99	PILLOW	9" x 9"	
AW1818	Allwik®	18" x 18"	For absorption of oil, water, and chemicals
AW99	PILLOW	9" x 9"	
HAZ1818	Hazwik®	18" x 18"	Intended for use with hazardous materials
HAZ99	PILLOW	9" x 9"	

SPC INDUSTRIAL RUGS

For high traffic areas and workstations — makes workplace safe.
Sorbent Industrial Rug (SIR™) is made of durable needlepunched polypropylene fibres. Absorbs ten to twelve times its weight in oil, water, or chemicals, prevents slippery areas and eliminates unsightly tracking between plant and office. Can stand up to the most aggressive chemicals.

PART NO.	STYLE	SIZE	DESCRIPTION
SIR36	RUG ROLL	36" x 300 ft.	Sorbent Industrial Rugs (SIR™); best seller for most applications
RAG36150	RUG ROLL	36" x 150 ft.	Rag Rug; absorbent and durable, recycled fibres

TRACKMAT™

The ultimate barrier sorbent for high volume petroleum spills.
Originally developed for use between and outside railroad tracks, it's not just for railroads anymore. Still known as the most absorbent barrier mat available, it is now widely used by transportation companies, utilities, refineries, steel mills and in other environments in which a high absorbency barrier is required. It is quickly becoming the barrier of choice for indoor and outdoor locations where high absorbency and retention of petroleum based fluids is a must.

PART NO.	STYLE	SIZE	DESCRIPTION
TM58	ROLL	58" x 80 ft.	Fits between standard rails
TM19	ROLL	19" x 80 ft.	Fits outside standard rails

DRAIN COVER

Protect drains from potential hazards. Neoprene/SBR drain cover. 36" x 36". Part No. DRAINCOVER.

(May not be exactly as illustrated.)

SORBENT CENTRE

A better way to store and access sorbents
•Fill your Sorbent Centre with just about any SPC sorbent you need •Holds up to 38" roll and full bales of product •Hang it on the wall or place it under your workbench •Buy two or three to make a custom sorbent cabinet •Optional accessories available •Applications: •Sorbent deployment station •Mobile spill control unit •Extension of your bin system and managed inventory program
Part No. SC-3000, Cabinet only.
Part No. SC-4, Set of 5 casters.
Part No. SC-ACC, Accessory pack. Includes goggles, disposal bags and emergency handbook.
Part No. SC-MB, Wall mounting bracket.
Part No. SC-2COVER, Sorbent centre cover.
Part No. SC-D15, 15" dowel rod.
Part No. SC-D40, 40" dowel rod.

Introducing the Sorbent Center

Product Not Included

Spill Kit Types:
"SKO" — Oil Only
These kits are specialized for oil and other petroleum-based spills. Oil only sorbents will not absorb water and will float indefinitely. SPC's oil only products are equally effective in soaking up petroleum-based solvents and paints, vegetable oils and other non-water soluable chemicals.
"SKA" — Allwik®
These kits contain all-purpose sorbents to clean up oils, coolants, solvents, and water based fluids.
"SKH" — Hazwik®
These kits contain sorbents that can be used on a wide range of chemicals, including hydrofluoric acid and are chemically inert, so they will not react with aggressive fluids.

Portable Spill Kits

ECONOMY SPILL KIT™
Highly visible yellow PVC bag is "just right" for small spills. The right price, the right size and the right value.
Absorbs up to 5 gallons. Contents:
•10 pads, 15" x 19"
•2 SOCs, 3" x 4 ft.
•Nitrile gloves
•1 disposal bag
•Instruction sheet
Part No. SKO-PP, Oil Only Economy Spill Kit.
Part No. SKA-PP, Allwik® Economy Spill Kit.
Part No. SKH-PP, Hazwik® Economy Spill Kit.

ATTACK PAC™
Efficient, space saving, single use kit, packed in puncture and UV resistant foil bag. Hang anywhere from grommet.
Absorbs up to 7 gallons/kit. Contents:
•15 pads, 15" x 19"
•3 SOCs, 3" x 4 ft.
•Goggles
•Nitrile gloves
•1 disposal bag
Part No. SKO-ATK, Oil Only Attack Pac.
Part No. SKA-ATK, Allwik® Attack Pac.
Part No. SKH-ATK, Hazwik® Attack Pac.

EMERGENCY SPILL SAK™
Easily portable economy spill kit packed in reusable stuff sack.
Absorbs up to 10 gallons. Contents:
•10 pads, 15" x 19"
•2 SOCs, 3" x 12 ft.
•1 pillow, 18" x 18"
•Nitrile gloves
•1 disposal bag
Part No. SKO-SAK, Oil Only Spill Sak.
Part No. SKA-SAK, Allwik® Spill Sak.
Part No. SKH-SAK, Hazwik® Spill Sak.

Drum Spill Kits

6.5 GALLON SPILL BUCKET
Extremely accessible spill kit in a reusable bucket. For small response.
Absorbs up to 9 gallons. Contents:
•10 pads, 15" x 19"
•3 SOCs, 3" x 4 ft.
•2 disposal bags
•Nitrile gloves
•Instruction sheet
Part No. SKO-BKT, Oil Only Spill Bucket.
Part No. SKA-BKT, Allwik® Spill Bucket.
Part No. SKH-BKT, Hazwik® Spill Bucket.

20 GALLON OVERPACK
UN approved water and chemical resistant polyethylene Lab Pack container with screw top lid for small to medium response.
Absorbs up to 16 gallons. Contents:
•12 pads, 15" x 19"
•3 SOCs, 3" x 12 ft.
•2 pillows, 18" x 18"
•Goggles
•Nitrile gloves
•3 disposal bags
Part No. SKO-20, Oil Only Overpack.
Part No. SKA-20, Allwik® Overpack.
Part No. SKH-20, Hazwik® Overpack.

55 GALLON DRUM
Open and close this lever locked 55 gallon drum for fast response. Drum meets UN specifications. For medium spill response.
Absorbs up to 40 gallons. Contents:
•50 pads, 15" x 19"
•4 SOCs, 3" x 12 ft.
•8 pillows, 18" x 18"
•Goggles
•Nitrile gloves
•5 disposal bags
•Emergency response handbook
Part No. SKO-55, Oil Only 55 Gallon Drum.
Part No. SKA-55, Allwik® 55 Gallon Drum.
Part No. SKH-55, Hazwik® 55 Gallon Drum.

95 GALLON OVERPACK
Tough, secure and highly visible, this top quality screw topped overpack drum meets UN and DOT specifications. For larger spill response.
Absorbs up to 82 gallons. Contents:
•100 pads, 15" x 19"
•12 SOCs, 3" x 4 ft.
•8 SOCs, 3" x 12 ft.
•8 pillows, 18" x 18"
•Goggles
•Nitrile gloves
•10 disposal bags
•Emergency response handbook
Part No. SKO-95, Oil Only 95 Gallon Overpack.
Part No. SKA-95, Allwik® 95 Gallon Overpack.
Part No. SKH-95, Hazwik® 95 Gallon Overpack.

Mobile Spill Kits

SPILL KADDIE
Mobile, compact Emergency Spill Kit is for fast spill response or maintenance mess prevention anywhere in the plant.
Absorbs up to 22 gallons. 18"L x 17"W x 39"H. Contents:
•1 15" x 73" roll (200 7½" x 9" pads)
•5 SOCs, 3" x 4 ft.
•8 pillows, 9" x 9"
•Goggles
•Nitrile gloves
•5 disposal bags
•Emergency response handbook
Part No. SKO-K2, Oil Only Spill Kaddie.
Part No. SKA-K2, Allwik® Spill Kaddie.
Part No. SKH-K2, Hazwik® Spill Kaddie.

LARGE 42" SPILL TRUCK
Large and Extra Large polyethylene boxes are chemical and water resistant. Wheel mounted for maximum mobility, spill trucks provide the highest level of readiness.
Absorbs up to 113 gallons.
42"L x 29"W x 32¼"H.
Contents:
•100 pads, 15" x 19"
•24 SOCs, 3" x 4 ft.
•12 SOCs, 3" x 12 ft.
•8 pillows, 18" x 18"
•Goggles
•Nitrile gloves
•5 disposal bags
•Emergency response handbook
Part No. SKO-LT, Oil Only 42" Spill Truck.
Part No. SKA-LT, Allwik® 42" Spill Truck.
Part No. SKH-LT, Hazwik® 42" Spill Truck.

EXTRA LARGE 48" SPILL TRUCK
Absorbs up to 178 gallons.
48"L x 44"W x 29¼"H.
Contents:
•150 pads, 15" x 19"
•36 SOCs, 3" x 4 ft.
•20 SOCs, 3" x 12 ft.
•6 pillows, 18" x 18"
•Goggles
•Nitrile gloves
•30 disposal bags
•Emergency response handbook
Part No. SKO-XLT, Oil Only 48" Spill Truck.
Part No. SKA-XLT, Allwik® 48" Spill Truck.
Part No. SKH-XLT, Hazwik® 48" Spill Truck.

DEVCON® PRODUCTS
Spill Control Products

MAGIC SORB™ SUPER CONCENTRATED SORBENTS
A blend of inert, inorganic and geologically unique minerals. Magic Sorb is a non-dusting formula that contains no hazardous ingredients. It has extraordinary capacity to quickly pick up oils, mineral acids (except for hydrofluoric acid), caustics, paints, and solvents. Magic Sorb's small particle size ensures residue removal, cleans spills instantly and completely, and greatly reduces hazardous waste costs.
Part No. 48000, 25 lb. bag.
Part No. 48050, 7 lb. Mitey-Pak dispenser container.
Part No. 48100, 3" diameter x 42" long Magic Sorb Sock.

ABSORBENT W SORBENTS
Made from a 100% natural wood pulp by-product. This product is designed to contain and control oil-based liquids while repelling water. Liquid is drawn into the cellulose fibers through capillary action, therefore it will not leach or drain. Features of this product include: 100% recycled material, floats on water even when fully saturated, absorbs immediately on contact, works in freezing temperatures, non-abrasive, anti-static, and Green Cross certified.

Part No. 48240, 10 qt. bag.
Part No. 48230, 50 qt. bag.
Part No. 48225, 4" diameter x 10 ft. Mesh Boom.
Part No. 48235, 8" diameter x 10 ft. Mesh Boom.
Part No. 48315, 17" x 17" Mesh Pillow.
Part No. 48365, Case of 100, 16" x 20" x 1/4" Natural Fibre Pads.

ABSORBENT GENERAL PURPOSE SORBENTS
Contain and control liquid spills ranging from oil and solvents to water and chemicals. Liquids are locked into the cellulose fibers, preventing leaching and handling problems. Ideal for industrial clean-up activities. Features include: 100% recycled material, non-abrasive, anti-static, absorbs immediately on contact, works in freezing temperatures, and Green Cross certified.
Part No. 48490, 25 qt. bag.
Part No. 48291, 3" diameter x 42" Sock.
Part No. 48250, Case of 100, 16" x 20" x 1/4" Pads.
Part No. 48345, 32" x 150 ft. x 1/4" Natural Roll.

GENERAL PURPOSE TRUCKER SPILL KIT
Designed to equip your vehicles in the event of a minor spill. Compact and lightweight, this kit will enable you to contain and secure the area.
Contains: 1- 3" diameter x 8 ft. Absorbent GP Sock, 6 - 16" x 20" x 1/4" Absorbent GP Pads, 1 - disposal bag, 1 - pair disposable gloves
Part No. 48485.

ACTION-PAK EMERGENCY SPILL KIT
Designed for multi-purpose applications and versatility. Contains product for ready response to hazardous liquid spills in both marine and industrial sectors. Contains: 1 - 24 gallon water resistant storage container, 2 - 4" x 10 ft. Absorbent W Booms, 2 - 4" diameter x 4 ft. Absorbent W Socks, 2 - 8" x 17" Absorbent W Pillows, 3 - 10 qt. bags Absorbent W Particulate, 3 - 24" x 48", 4 mil disposal bags, 2 - pairs disposable gloves
Part No. 48435.

TRANSPORTER EMERGENCY SPILL KIT
Designed for easy mobility around the workplace. The 50 gallon wheeled container carries spill control products quickly to the spill site and can handle up to 250 pounds of waste material on the way back from the emergency site. The contents of the kit come in a sturdy, weather resistant container with a fasten-down lid. Contains: 1 - 50 gallon mobile wheeled container, 2 - 3" diameter x 8 ft. Absorbent GP Socks, 2 - 3" diameter x 4 ft. Absorbent GP Socks, 2 - 17" x 17" Absorbent GP Pillows, 2 - 50 qt. bags Absorbent GP Particulate, 10 - 16" x 20" x 1/4" Absorbent GP Natural Fibre Pads, 1 - detachable shovel, 1 - detachable broom, 3 - pairs disposable gloves and disposable coveralls, 1 - pair safety goggles, 4 - particle masks, 4 - 24" x 48", 4 mil disposal bags
Part No. 48440.

WD-40

The Five Basic Functions

Cleans: WD-40 gets under dirt, grime and grease to clean. It also dissolves adhesives, allowing easy removal of labels, tape, stickers, and excess bonding material.
Displaces Moisture: Because WD-40 displaces moisture, it quickly dries out electrical systems to eliminate moisture-induced short circuits.
Penetrates: WD-40 loosens rust to metal bonds and frees stuck, frozen or rusted metal parts.
Lubricates: WD-40 finds and lubricates squeaks in hard to get at mechanisms. Because WD-40 is silicone free, there's no messy, gummy residue.
Protects: WD-40 protects metal surfaces with corrosion resistant ingredients to shield against moisture and other corrosive elements.

Part No. 01005, 155 gram aerosol can WD-40
Part No. 01011, 311 gram aerosol can WD-40
Part No. 01032, 311 gram Big Blast aerosol can WD-40
Part No. 01010, 3.785 litre can WD-40
Part No. 01118, 205 litre drum WD-40
Part No. 01000, Empty spray applicator

WD-40 Big Blast Can: •Current WD-40 formula in a can designed to cover big areas fast •Wide spray pattern and high velocity spray rate for Total Coverage •Great for spraying down auto parts, wheel rims, farm implements, shovels, chain gates, wheelbarrows, snow blowers, engines, lawn mowers, grease and road tar on motor vehicles.

JJJ/3870

TRI-FLOW™
Penetrating Lubricant

Penetrates - deep and fast. Solvents in Tri-Flow wash away dirt, corrosion and other contaminants permitting faster and deeper penetration on frozen assemblies.
Superior Lubrication - premium parafinic oils, extreme pressure additives and Teflon provide superior performance and service life.
Protects - by displacing moisture. Helps prevent icing and inhibits corrosion.
Reduces - abrasive build-up. Tri-Flow solvents wash away contaminant accumulation. Teflon and premium oils leave no heavy residue to attract dirt, dust, sand, etc.
Resists - rust and corrosion. Corrosion inhibitors protect against rust and corrosion under the most extreme conditions...ie: high humidity, salt spray, etc.

Part No. TF-1, 170 gram aerosol can Tri-Flow penetrating lubricant w/ extension tube
Part No. TF-2, 340 gram aerosol can Tri-Flow penetrating lubricant w/ extension tube
Part No. TF-3, 532 ml spray bottle Tri-Flow penetrating lubricant
Part No. TF-4, 3.78 litre jug Tri-Flow penetrating lubricant

JJJ/2935

FLUID FILM®
Lubricant

Fluid Film® is a non-toxic, long lasting penetrant, lubricant, and corrosion preventive. Its formulation has been used for over fifty years in the highly corrosive marine environment of ships and offshore drilling rigs. Fluid Film's unique molecular action derived from wool wax (lanolin) provides positive protection. Its penetrating and protective properties start working immediately. Long lasting, economical, will not dry out or evaporate. Provides long term protection. Use on: conveyors, bearings, rollers, gears, slides, hinges, chains, pulleys, wood, pumps, and any metal parts requiring lubrication and protection from rust.
Part No. 1450, 145 g aerosol Fluid Film
Part No. 3300, 333 g aerosol Fluid Film
Part No. 3700, 3.79 litre non-aerosol Fluid Film pump bottle refill
Part No. 4300, 20 litre pail Fluid Film (auto, truck, equipment undercoating)

Environmentally Friendlier!
(no solvents)

AEROLEX™ DRY LUBRICANT
Unique molybdenum disulphide aerosol lubricant with excellent adhesion, penetration, and lubricating qualities. Aerolex forms a thin, dry black coating for superior anti-friction and anti-seize properties. 313 gram aerosol can.
Part No. CS-1.

B-LUBE PLUS BELT DRESSING
Penetrates belts to keep them flexible and help prevent cracking. B-Lube Plus does not collect dirt, dust, or lint as well as waterproofs your belts. Use on round, V, and flat belts made of leather, rubber, or fabric. 313 gram aerosol can.
Part No. CS-2.

CHEM-SLICK LUBRICANT
A multi-purpose lubricant spray developed for solving most sticking and friction problems. Chem-Slick leaves superior, invisible lubrication with excellent release agent properties. 325 gram aerosol can.
Part No. CS-3.

CONQUEST POLYMERIC RUST CONVERTER
Stops rust and chemically converts existing rust into a moisture-free black protective barrier preventing future rusting. Conquest is easy to use — just brush, roll, or spray on surface to be treated. When dry, Conquest makes an excellent primer and may be painted. 1 litre can.
Part No. CS-4.

EZE-WAY PENETRANT
Used for quick, easy release of nuts, bolts, and fittings without a fire hazard and will free most parts within seconds even when bolts are countersunk. Special aerosol allows all-position spraying. 454 gram aerosol can.
Part No. CS-5.

GEX OPEN GEAR LUBRICANT
An extra tacky formulation which lasts longer and leaves a strong adhesive film that continually re-lubricates gear surfaces to eliminate dry or bare spots. Gex does not drip, sling off, melt, dry out, or build up between gear teeth. 400 gram aerosol can.
Part No. CS-6.

HY-ZINC™ COLD GALVANIZING
A highly concentrated zinc metal finish that becomes an integral part of metal to prevent rust and corrosion. 568 gram aerosol can.
Part No. CS-7.

LUBE-SAN LUBRICANT
Designed for use on food plant equipment. Lube-San won't sling off or break down even in water, steam, or under heavy loads. 354 gram aerosol can.
Part No. CS-8.

LUBREASE® CHAIN & CABLE LUBRICANT
Increases the life of your chain and cable by penetrating into the core of the wire or hemp type cables and flows freely into chain links. Lubrease reduces friction, displaces water, is non-corrosive, and lubricates hard-to-reach places. 368 gram aerosol can.
Part No. CS-9.

MET-KOOL™ CHEMICAL CUTTING FLUID
Combines lubrication and chemical cooling action for faster and more convenient cutting operations. Met-Kool is excellent for threading, tapping, or drilling operations and for manual pipe threading on the job. 368 gram aerosol can.
Part No. CS-10.

META-LOX™ METALLIC PATCHING COMPOUND
2-part kit. Meta-Lox epoxy metallic patching compound consists of (part A) 629 gram and (part B) 454 gram in a kit. Mixes and applies like putty and hardens and wears like steel. Meta-Lox bonds to wet or dry surfaces and molds to any shape or size, smooths off easily with water. Meta-Lox is resistant to acids, alkalis, and solvents and holds up under impact and abrasion.
Part No. CS-11.

NC-123 PLUS DEMOISTURIZING COMPOUND
For electrical equipment. A non-conductive and a stable way to improve electrical connections where components are exposed to moisture. Great for use on batteries, brushes, commutators, contacts of large and small motors. Also works well on ignition systems and printed circuit boards. 312 gram aerosol can.
Part No. CS-12.

QUICK CURE™ REPAIR COMPOUND.
This is a steel filled repair compound for repair jobs on equipment, machinery, pipes, and fixtures. Quick Cure's steel filled epoxy compound can be drilled, filed, painted, sanded, tapped, or threaded and it withstands vibration, heavy loads and high impacts. 120 gram stick.
Part No. CS-13.

RUSTORE™ COATING
A heavy duty coating for metal surfaces stored outdoors and exposed to the ravages of weather. Rustore's protective barrier withstands adverse temperatures and weather changes including salt water, heat, snow, and acid rain. Excellent for use in almost any industry such as machine shops, auto shops, construction, oil and gas industry, and grounds care equipment. 369 gram aerosol can.
Part No. CS-14.

TEL-X DRY LUBRICANT & RELEASE AGENT
Sprays away most sticking and friction problems and leaves a smooth, quick drying, slick surface. Works well on applications that include plastics, metals, leather, rubber, wood, glass, and paper. Tel-X is a dry, non-staining, non-conductive, colourless and odourless product that repels water, oil, dirt, and dust. 311 gram aerosol can.
Part No. CS-15.

THREAD-EZE™ ANTI-SEIZE & LUBRICATING COMPOUND
Protects metal parts under extreme pressures and sustained temperatures up to 1204°C. Thread-Eze reduces friction and wear and decreases seizure, corrosion, pitting, galling, and thread distortion.
Part No. CS-16, 425 gram aerosol can.
Part No. CS-17, 1 lb. brush-top can.

YIELD™ RELEASE AGENT
Frees nuts, bolts, and fittings within seconds. Yield cleans grease, dust, dirt, and sludge — also loosens rust and prevents further corrosion. Penetrates deeply to free countersunk threads for reuse. 340 gram aerosol can.
Part No. CS-19.

MAXI-LUBE LUBRICANT
Multi-purpose, heavy load, extreme pressure, high temperature lubricant. Resists breakdown; maintains a constant film of protection in high heat, under high pressure, and even in water washout conditions. Inhibits rust and corrosion. Black.
Part No. CS-20, 397 gram cartridge.
Part No. CS-21, 22 kg pail.

VOLTZ™ II SAFETY SOLVENT
A synthetic safety solvent for use in parts washers. Voltz II's powerful formula dissolves the heaviest grease and won't harm plastics. Formulated to reduce frequent solvent changeouts it stays on surfaces longer to clean more effectively and reduce condensation. 27 litre pail.
Part No. CS-27.

CHEMSEARCH

INSULATING VARNISHES — AEROSOL

RED Insulating Varnish - Thoroughly penetrates old and new materials, air dries faster than most insulating aerosols. Provides good adhesion, high arc resistance and non-tracking properties. Use as Class F varnish system, has dielectric strength up to 2100 VPM, oil resistance per ASTMD-115-55. 432 gram aerosol can.
Part No. 00601.

RED Epoxy Insulation Enamel - Ideal for coating end turns on electrical windings exposed to extreme moisture and corrosive conditions. Outstanding chemical resistance properties. Leaves a smooth enamel surface that sheds dirt readily and resists acids, alkalis, salts, chemicals, oil, and moisture. Dielectric strength: 1100 VPM. 340 gram aerosol can.
Part No. 66650.

CLEAR Insulating Varnish - Thoroughly penetrates old and new materials, air dries faster than most insulating varnishes. Provides high adhesion, high arc resistance and non-tracking properties. Use as Class F insulating and has dielectric strength to 2100 VPM. 340 gram aerosol can.
Part No. 00600.

NON OZONE-DEPLETING CLEANERS — AEROSOL

N.O.D. Safety Cleaner and Degreaser - Designed for fast, effective removal of dirt, oil, grease, wax, and tar on electrical equipment. For use on non-energized equipment, leaves no residue and has dielectric strength of 16,800 VPM. 425 gram aerosol can.
Part No. 00749.

N.O.D. Contact Cleaner - This heavy duty degreaser is a quick drying cleaner that is ideal for sensitive equipment and precision instruments. 312 gram aerosol can.
Part No. 02302.

HI-TECH CIRCUIT COOLER — "FREEZE SPRAY"

Circuit Cooler - Instantly chills circuits down to -52°C. An excellent trouble-shooter, exposing defective electrical parts, connections and intermittence due to heat induced failure. Eliminates humming noises in electronic circuits caused by dust, dirt, and foreign particles. 425 gram aerosol can.
Part No. 2003C.

CLEAR ACRYLIC— AEROSOL

Clear Acrylic - Forms a crystal-clear film which preserves, protects, and waterproofs metal surfaces against rust, corrosion, tarnish, fungus, chemicals, vegetable oils, mineral oils, and greases. Also protects wood, paper, and leather. 319 gram aerosol can.
Part No. 02000.

SILICONE & SPECIALTY LUBRICANTS — AEROSOL

All-Purpose Silicone Lube - This superior, long lasting lubricant is compatible with most surfaces and will not attack most plastics. Eliminates friction and sticking, protects against corrosion and oxidation with an invisible film that repels water and is not affected by temperature changes.
Part No. 00206, 284 gram aerosol can.
Part No. 00100, 312 gram aerosol can White Lithium Lube
Part No. 00200, 312 gram aerosol can Dry Moly Lube
Part No. 00201, 369 gram aerosol can Heavy Duty Open Gear/Wire Rope Lube
Part No. 00202, 340 gram aerosol can Chain and Pin Bushing Lube
Part No. 00204, 284 gram aerosol can Dry Graphite Lube
Part No. 00208, 340 gram aerosol can Cutting Oil

P.D.R.P.® LUBRICANTS — AEROSOL & BULK

These Penetrants, Demoisturants, and Rust Preventatives are designed to solve specific problems, indoors and out. High quality oils and films meet a host of stringent requirements, (including military) and extend the life of your valuable equipment while saving labour and downtime.
Part No. 00711, 340 gram aerosol can "The Protector" lubricant
Part No. 71101, 3.78 litre "The Protector" lubricant
Part No. 71105, 18.9 litre pail "The Protector" lubricant

TEFLON® + LUBRICANTS — AEROSOL

These products blend Teflon®, lubricating fluids, and additives to meet stringent performance requirements.
Part No. 00708, 284 gram aerosol T.F.E. Dry Lube
Part No. 00727, 369 gram aerosol Q.T.L. Wet Lube

FOOD GRADE SILICONE LUBE — AEROSOL

5% silicone formula. Will not attack delicate surfaces such as styrene or urethane. Uses: slides, guide rails, knives, slicers, saws, grinders, dough mixers, guards, conveyors, food racks, ovens, bottling machines, heat sealing equipment, all food and drug processing equipment. USDA H-1 rated.
Part No. 00210, 284 g aerosol can Food Grade Silicone Lube

FOOD GRADE MACHINERY OIL — AEROSOL

Penetrates and loosens rust, dirt, scale and corrosion. Works on paint, metal, plastic and wood. Silicone free formula. USDA H-1 rated.
Part No. 00700, 340 g aerosol can Food Grade Machine Oil

RUST BREAKER™ PENETRANT — AEROSOL & BULK

Quickly loosens rust while penetrating grease and dirt. Transparent, non-staining oil. For releasing rusted or frozen lugs and bolts, lubricating tight fitting parts, general overhaul, repair work, food plant equipment.
Part No. 00103, 340 g aerosol can "Rust Breaker™"
Part No. 10301, 3.78 litre jug "Rust Breaker™"
Part No. 10305, 18.9 litre "Rust Breaker™"

MOLD RELEASE AGENTS — AEROSOL

N.O.D. Mold Release Products meet high performance standards and are non ozone-depleting. All feature fast evaporation, little or no odour, no CFCs, HCFCs or chlorinated solvents.
340 gram aerosol cans.
Part No. 00302, General Purpose Mold Release
Part No. 00305, Heavy Duty Silicone Mold Release
Part No. 00307, Heavy Duty Paintable Mold Release
Part No. 00309, Paintable Mold Release
Part No. 00311, Dry Film Vydax® Mold Release
Part No. 00303, Food Grade Silicone Mold Release and Lubricant
Part No. 00314, Paintable Lecithin Mold Release

MISCELLANEOUS PRODUCTS — JANITORIAL, SPECIALTY MAINTENANCE

Part No. 00757, 454 g aerosol can Citrus Cleaner and Degreaser
Part No. 00880, 538 g aerosol can General Purpose Cleaner
Part No. 00885, 482 g aerosol can Stainless Steel Cleaner
Part No. 00888, 510 g aerosol can Glass Cleaner
Part No. 00702, 340 g aerosol can Engine Degreaser

Part No. 00738, 340 g aerosol can Welders' Stainless Steel Protective Coating
Part No. 00739, 454 g aerosol can Brite Zinc Cold Galvanizing Compound
Part No. 00740, 454 g aerosol can Zinc-Rich Cold Galvanizing Compound
Part No. 74000, .946 litre can Zinc-Rich Cold Galvanizing Compound
Part No. 74001, 3.78 litre can Zinc-Rich Cold Galvanizing Compound
Part No. 74005, 13.23 litre pail Zinc-Rich Cold Galvanizing Compound

Part No. 00602, 340 g aerosol can Ultra Blue Layout Dye
Part No. 00603, 340 g aerosol can Blue Layout Fluid
Part No. 00606, 361 g aerosol can Layout Fluid Remover

Part No. 00607, 312 g aerosol can Belt Dressing
Part No. 00615, 425 g aerosol can Heavy Duty Paint & Gasket Cement Remover
Part No. 00620, 318 g aerosol can Anti-Seize & Lubricating Compound

Part No. 00737, 312 g aerosol can Synthetic Modified Dry Lubricant
Part No. 00767, 312 g aerosol can Long Term Indoor Protectant & Lubricant
Part No. 00777, 312 g aerosol can Long Term Outdoor Protectant & Lubricant

PREMIUM PORTABLE HAND SPRAYER

JJJ/2150

Pro Pump & Spray

VARIO VITON PUMP & SPRAY

•Compressed Air (Maximum Operating Pressure 62 psi) & Manual Operation
•Manufactured from "polyamid" with "viton" seals, ideal for use with most: •Corrosive Liquids - brake cleaners (may not be suitable for all non-chlorinated brake cleaners) •Rust Penetrants and •Cleaners and Removers. "VITON" rubber is highly resistant to a wide range of chemicals, and mineral oils containing sulphur. It is not resistant to formulas containing Methyl, Ethyl, Ketone, and/or silicones.
Part No. 50400, 1.69 Quart/ 1.6 L.

PRO PUMP & SPRAY

Manufactured from "polyamid" with "viton" seals, ideal for use with most: •Corrosive Liquids - brake cleaners (may not be suitable for all non-chlorinated brake cleaners) •Rust Penetrants and •Cleaners and Removers
Part No. 50100, 1 litre hand sprayer, 0.75 litre working capacity.
Part No. 50170, Viton repair kit (O-rings, seals, and nozzle) for #50100.
Part No. 50190, 30 cm extension for #50100.

BESSEY TOOL

JJJ/2890

Cutting Fluids

NEW RAPID TAP METAL CUTTING FLUID

•Proven on the job to work better •Super fine machined finish •Extra effective on tough materials such as aluminum, beryllium, brass, bronze, cast iron, copper, iconel, magnesium, molybdenum, stainless steel, and stellite •Non-WHMIS, environmentally friendly •Non-toxic and non-flammable •No 1, 1, 1 Trichloroethane •Ozone friendly
Part No. CRS0101004, 114 ml can
Part No. CRS0102016, 455 ml can
Part No. CRS010304L, 4 litre can
Part No. CRS010405G, 20 litre pail

OPTION 1 METAL CUTTING FLUID

•Water based •Effective in all machining operations, on all metals except those that are water reactive such as magnesium •Use for tapping, drilling, milling, turning, broaching, reaming, and sawing •Biodegradable; no oil content •No chlorine, no sulphur, non-toxic formula •Non-WHMIS, environmentally friendly
Part No. CRO0151004, 118 ml can
Part No. CRO0152016, 455 ml bottle
Part No. CRO015301G, 4.5 litre jug
Part No. CRO015405G, 20 litre pail

A-9 ALUMINUM CUTTING FLUID

•Attaches to aluminum surface forming an extreme pressure boundary lubricant between tool and work •Eliminates scuffing and gouging •Leaves a surface requiring only ordinary cleaning for subsequent processing •For tapping, drilling, boring, milling, turning, broaching, reaming, and sawing aluminum •May be used on other metals •Non-WHMIS, environmentally friendly
Part No. CA90101004, 118 ml can
Part No. CA90102016, 455 ml can
Part No. CA9010301G, 3.78 litre jug
Part No. CA9010405G, 20 litre pail

BESSEY

DARK & LIGHT THREAD METAL CUTTING FLUIDS

•Specifically for thread cutting, it is designed to be efficient — speeding up metal removal •Reduces friction to prolong tool life; leaves a clean, burr-free thread •Forms a tough film for use on a wide variety of materials; suitable for cast iron, black iron, wrought iron, brass, copper, stainless steel, aluminum, galvanized and steel pipe •Non-clogging, easily pumped for automatic machine use •Light thread cutting oil remains transparent on surface
Light Thread
Part No. CO1016TC01, 1 US gallon jug
Part No. CO1016TC05, 5 US gallon pail

Dark Thread
Part No. CO1014TC01, 1 US gallon jug
Part No. CO1014TC05, 5 US gallon pail

RIDGID

RID/3343

Thread Cutting Oil

RIDGID

THREAD CUTTING OIL

•Cools threads and pipe during operation •Speeds metal removal •Improves thread quality
Ridgid thread cutting oils are free of chlorine and other halogens, PCBs and heavy metals.
Dark Oil — Traditional mineral oil with low odour and anti-mist formulation.
Nu-Clear® Oil — Clear mineral oil with low odour and anti-mist formulation. Special low temperature properties maintain workable viscosity to -29°C.
Extreme Performance Oil — High performance mineral oil formulated to produce superior quality threads on stainless steel and black pipe.

SIZE	PART NO. NU-CLEAR	PART NO. DARK	PART NO. EXT. PEFORMANCE
0.94 L	41565	41590	74007

18.9 L	41575	41600	74047
16 oz.	-	-	22088 Aerosol

RIDGID®

ANTI-SEIZE COMPOUNDS

Kopr-Kote High Temperature Anti-Seize Compound
•Copper flakes and graphite •water resistant grease base •anti-oxidants, rust and corrosion inhibitors •will not run, drip or settle out
Part No. JL-1, 225 ml brush top bottle.
Part No. JL-10, 1 litre pail.
Part No. JL-100, 5 litre pail.
Part No. JL-1000, 15 litre pail.

Marine Kopr Copper Anti-Seize Compound
•Manufactured to exacting marine specifications with highly water resistant aluminum complex •fortified with anti-oxidants and corrosion inhibitors for marine conditions
Part No. MAR-JL-1, 225 ml brush top bottle.
Part No. MAR-JL-10, 450 ml brush top bottle.

SS-30 Pure Copper High Temperature Anti-Seize Compound:
•High copper content, no lead or graphite •excellent conductivity •non-melting, non-volatile grease base •will not harden, separate, settle out, or dry •contains anti-oxidants and corrosion inhibitors
Part No. JL-2, 225 ml brush top bottle.

Nikal Pure Nickel High Temperature Anti-Seize Compound:
•Pure nickel flake, no lead, copper, or graphite •protects against rust and corrosion •will not run, drip, or settle out •strong resistance to water washoff
Part No. NK-1, 225 ml brush top bottle.

THREAD SEALANTS

TF-15 Thread Sealing Compound
•Contains PTFE and molybdenum disulfide, and rust, corrosion, and oxidation inhibitors •water resistant and non-hardening •resists H2S and salt water
Part No. TF-15, 225 ml brush top bottle.
Part No. TUBE-TF-15, 250 ml squeeze tube.
Part No. TF-15-10, 1 litre container.

TFW™ Multi-Purpose Sealant with PTFE
•Non-hardening, non-toxic sealant for sealing and protecting threaded connections •Low coefficient of friction allows tight makeup with low torque and breaks out easily without damaging threads •Can be used on steel, aluminum, brass, copper, iron, reinforced fibreglass, PVC, CPVC and ABS threaded connections •For pipes carrying: Acids (dilute), natural gas, hydraulic oil, cutting oils, kerosene, steam, LP gases, freons, caustics (dilute), air, inert gases, etc.
Part No. TFW-1, ½ pint brush-top can.
Part No. TFW-10, 1 pint brush-top can.
Part No. TFW-100, 1 US gallon pail.
Part No. TFW-1000, 5 US gallon pail.

V-2 Multi-Purpose Thread Sealant
•Soft setting •non-petroleum based •water resistant, non-staining •contains PTFE and natural fillers •non-toxic
Part No. V2-1, 225 ml brush top bottle.
Part No. V2-10, 1 litre pail.

No. 60 Lead Seal Compound
•Lead base thread sealant •high lead content •resists vibration, expansion or contraction •prevents metal-to-metal seizure
Part No. 60, 225 ml brush top bottle.
Part No. 60-10, 1 litre container.

HIGH PRESSURE THREAD COMPOUND

API-15 Modified High Pressure Thread Compound:
•Contains rust and oxidation inhibitors blended into Jet-lube's unique grease, compounded from custom-refined low-sulphur oil to ensure brushability over a wide temperature range, tenacious adherence to thread surfaces, resistance to water washout, and prevention of rust and corrosion •will seal and withstand pressures to 69,000 kPa (10,000 psi) and will not harden or dry
Part No. API-15, 15 kg pail.

E.P. GREASES

Ap-5 High Temperature Grease With Molybdenum Disulfide - Black
•premium Grade Lubricant •molybdenum Disulfide, Rust And Corrosion Inhibitors •will Not Melt, Drip, Or Run Off •waterproof
Part No. AP5-1, 400 Gram Disposable Grease Gun Cartridge.
Part No. AP5-5, 1 Litre Pail.
Part No. AP5-10, 5 Litre Pail.

AP-1 High Temperature Multi-Purpose Grease - White
•Multi-purpose white grease •zinc oxide non-volatile grease base •high and low temperature capabilities •waterproof, will not melt
Part No. AP1-1, 400 gram disposable grease gun cartridge.

CB-2 Super-Lith Multi-Purpose Grease
•Multi-purpose amber grease •resistant to heat, water, oxidation •lithium 12 hydroxystearate base •highly adhesive to metal •protects against rust and corrosion
Part No. CB2-1, 400 gram disposable grease gun cartridge.

#202 Moly-Lith Multi-Purpose Grease
•Contains micro-fine molybdenum disulfide particles •lithium 12 hydroxystearate base •resistant to heat, water, oxidation •superior metal adhesion
Part No. 202-1, 400 gram disposable grease gun cartridge.

White Lithium Multi-Purpose Grease with Teflon
•Contains PTFE •all-purpose grease •resists heat, water, and oxidation •prevents rust and corrosion •very adhesive
Part No. WLG-1, 400 gram disposable grease gun cartridge.
Part No. WLG-2, 369 gram aerosol can.

Arctic™ Extreme Service Grease
•Is particularly suitable for use in extreme cold environments such as cold rooms, cold storage lockers, ice plants, and on refrigeration or cold storage equipment •it will resist such environmental contact as humidity, ice, and road salts without hardening, washing off, or deteriorating •it has an amber colour, and no solid additives such as graphite, moly disulfide, or zinc oxide •effective winter or summer •rust, corrosion and water resistant •extremely resistant to salt spray •service rating: -54°C to 107°C
Part No. ALTG-1, 400 gram disposable grease gun cartridge.

LUBRICANTS/SEALANTS

RuFF Heavy-Duty Rust & Corrosion Inhibitor
Rust Free Film (RuFF) •Designed for use where there is high water and salt spray environments •RuFF is formulated using natural products •It contains no solvents, is non-toxic and environmentally safe to use •It will not dry, crack or evaporate, providing superior protection for extended periods of time •RuFF may be used to provide long term protection on steel from rust and corrosion for a variety of industrial, marine, aviation and oilfield applications •Long lasting impervious barrier •Protects from moisture •Scuff resistant •Forms a tough waxy film •Penetrates and lubricates
Part No. RUFF, 340 g aerosol
Part No. RUFF9-20, 20 litre thinner grade
Part No. RUFF9-205, 205 litre thinner grade
Part No. RUFF21-20, 20 litre thicker grade
Part No. RUFF21-205, 205 litre thicker grade

MP-50 Low Friction Moly Paste
•High percentage of moly •lowers friction and prevents stick-slip
Part No. MP-50, 225 ml brush top bottle.

Moly-Mist Dry Film Lubricant
•Non-corrosive •quick dry bonding •highly tenacious dry film lubricant will not attract dirt, dust, snow, etc.
Part No. MM-1, 340 gram aerosol can.

CC Lube Multi-Purpose Semi-Synthetic Lubricant
•Clear, odourless, non-toxic, non-staining, non-drying •prevents rust, corrosion •extremely water resistant •contains PTFE •biodegradable
Part No. CCL-1, 400 gram disposable grease gun cartridge.

JET-LUBE®

JET-LUBE
Industrial Products

LUBRICANTS/SEALANTS

TF-500 Lubricating Sealant
•High percentage of PTFE •can be applied on operating equipment
Part No. TF-500-1, 454 gram disposable grease gun cartridge.

Gear Guard Premium Paste Lubricant
•Graphite and E.P. additive •contains molybdenum disulfide •highly tenacious •lowers operating temperatures •will not melt or pound off
Part No. GG-1, 340 gram aerosol can.

OG-H Open Gear Lubricant
•Graphite and E.P. additive •contains molybdenum disulfide •highly tenacious •lowers operating temperatures •will not melt or pound off
Part No. OGH-1, 400 gram disposable grease gun cartridge.

WLD™ Wire Line Dressing, Cable and Open Roller Chain Lubricant
•Penetrates, removes moisture, and lubricates •prevents rust and corrosion •will not throw or run off •does not attract dirt or dust
Part No. WLD-1, 340 gram aerosol can.

AX-2 Valve Lubricant
•A non-melting, water resistant grease which contains rust and corrosion inhibitors •has a high working stability, excellent metal adhesion, and superior storage life
Part No. AX-2-55, 55 litre keg.
Part No. AX-2-180, 180 kg barrel.

FOOD GRADE PRODUCTS

FMG Food Machinery Grease
•Premium USDA H-1 authorized and Agriculture Canada approved food-grade grease •contains a bacteriostatic agent to retard bacteria and fungus •recommended for the lubrication of roller, needle, ball, journal and sliding bearings
Part No. FMG-14, 14 oz. cartridge.

Food Grade Silicone
•Stops sticking, squeaking and binding of moving parts •will not gum or form unwanted residues •use on equipment such as chutes, guides, conveyors, bottling machinery, slicers, ovens, knives, saws, etc.
Part No. FGS-12, 12 oz. aerosol can.

PENETRANTS & COATINGS

12/34 Lubricant and Penetrant
•Economical •contains no fluorocarbon or silicone •non-evaporating •non-conductive •chemically stable •never hardens or dries out
Part No. 12/34, 340 gram aerosol can.
Part No. 12/34-4L, 4 litre jug.

Rust Guard™ Corrosion Inhibitor
•Economical •forms a dry, waxy film •contains no fluorocarbon •protects for up to 24 months •will not crack or peel off •blue transparent colour •prevents rust and corrosion •non-flammable •non-evaporating •penetrates deeply and removes moisture
Part No. RG-1, 312 gram aerosol can.

Z-Plate™ Zinc Rich Galvanize
•Prevents rust and corrosion •equal to hot dip galvanizing •95% pure zinc •durable and flexible metal coating •quick drying
Part No. ZP-1, 419 gram aerosol can.

Renew™ Belt Dressing
•Prevents belt slippage •increases traction •stops squeaks and squeals •water resistant •extends belt life •will not glaze or collect dirt or dust •increases power up to 50% •removes residual build-up
Part No. RNW-1, 340 gram aerosol can.

CLEANERS & DEGREASERS

Jet-Lube 5000™ Water Based Cleaner and Degreaser
•Multi-purpose cleaner/degreaser •ozone friendly •environmentally safe
Part No. JL5000-1, 473 ml trigger spray bottle.

Clean-Up™ Industrial Cleaner & Safety Solvent
•Low odour •non-flammable •penetrates quickly •residue, acid, and alkaline free •low foaming •29kv dielectric strength
Part No. CU-2-1, 426 gram aerosol can.

OILFIELD PRODUCTS

LBX-Special Thread Compound
•Contains no lead or zinc •brushability and stability over a wide temperature range •CZ-EX® Extreme Pressure Additive protects against seizing and galling •protects against rust and corrosion •sticks to wet joints
Part No. LBX-15, 15 litre pail.

JET-LUBE®

SNOOP
Leak Detectors

SNOOP LIQUID LEAK DETECTOR

•Sustained bubble action works even on very small leaks and vertical surfaces •Bubble size indicates approximate leak rate •Flexible snooper tube extends for hard-to-reach areas •Non-toxic, non-corrosive, non-flammable formula •Does not contain chlorine, aliphatic amines, or ammonium compounds •Dries clean without staining
WARNING: Use Snoop liquid leak detector only on external surfaces. Do not use on internal surfaces.

Part No. MS-SNOOP-8OZ, 8 oz bottle with 12" snooper tube.
Part No. MS-SNOOP-GAL, 1 gallon jug.

REAL COOL SNOOP LIQUID LEAK DETECTOR

•Sustained bubble action works at temperatures as low as -54°C even on very small leaks and vertical surfaces •Will not freeze at sub-zero temperatures •Bubble size indicates approximate leak rate •Flexible snooper tube extends for hard-to-reach areas •Non-flammable formula •Does not contain chlorine, aliphatic amines, or ammonium compounds •Dries clean without staining
WARNING: Use Real Cool Snoop liquid leak detector only on external surfaces. Do not use on internal surfaces.

Part No. MS-RC-SNOOP-8OZ, 8 oz bottle with 12" snooper tube.
Part No. MS-RC-SNOOP-GAL, 1 gallon jug.

THREAD SEAL TAPE

TEFLON THREAD SEALANT

The ideal sealant for threaded pipe connections, valve stems, hydraulic pressure lines, etc. This rugged, inert and highly resistant tape is impervious to steam, salt water, air, refrigerants, fuels, acids and alkalies, solvents and gases. Temperature rating of -240°C to 260°C.

Part No. TST-1, 1/2" x 180" roll Teflon Thread Seal Tape
Part No. TST-2, 3/4" x 180" roll Teflon Thread Seal Tape
Part No. TST-3, 1" x 180" roll Teflon Thread Seal Tape
Part No. TST-4, 1/2" x 540" roll Teflon Thread Seal Tape
Part No. TST-5, 3/4" x 540" roll Teflon Thread Seal Tape
Part No. TST-6, 1" x 540" roll Teflon Thread Seal Tape
Part No. TST-7, 1/2" x 480" economy roll Thread Seal Tape
Part No. TST-8, 3/4" x 480" economy roll Thread Seal Tape
Part No. TST-9, 1" x 480" economy roll Thread Seal Tape

YELLOW GAS THREAD SEAL TAPE

1/2" x 240" PTFE gas thread seal tape, used for all threaded connections involving gas line installations for natural gas, propane, butane or for water, oil, and chemicals. Yellow colour for instant identification with the gas code. 3,000 psi rating with an indefinite shelf life.
Part No. 904-128.

DOCAP

Water & Gas Thread Sealant Tape

PINK WATER SEALANT TAPE

This high density thread seal tape is used for joints in pipe, not exceeding 1-1/2". Pink in colour to identify line for water use, but tape is also compatible with, gasoline, petroleum oils, propane, butane naptha, benzene, kerosene and natural gas.
Part No. EC-PST-1, 1/2" x 260".

YELLOW GAS SEALANT TAPE

This high density thread seal tape is used for joints in pipe not exceeding 1-1/2". Yellow in colour to identify line for gas use, but tape is also compatible with gasoline, petroleum oil, propane, butane naptha, benzene, kerosene and natural gas.
Part No. EC-YST-1, 1/2" x 260".

UNASCO

Thread Sealing Tape

GAS SEAL TAPE - YELLOW

•The original, colour-coded, maximum density, Teflon® thread sealing tape developed specially for the gas industry •Provides an impenetrable barrier to gases •Holds higher pressures - not subject to cold flow or collapse •Will not string or shred •Fewer wraps required •Length: 260".
Part No. YST-1, 1/2" width.
Part No. YST-2, 3/4" width.
Part No. YST-3, 1" width.

PLUMBERS & PIPE FITTERS THREAD SEAL TAPE - PINK

•A colour-coded, maximum density, Teflon® thread sealing tape developed specially for the plumbers and pipe fitters •Provides an impenetrable barrier to gases •Wide temperature range - 260°C to 260°C •Suitable for metal or plastic pipes and fittings •Will not string or shred •Fewer wraps required •Unasco water seal tape is superior to liquid thread sealants •Length: 540".
Part No. PST-1, 1/2" width.
Part No. PST-2, 3/4" width.
Part No. PST-3, 1" width.

OXYGEN THREAD SEAL TAPE - GREEN

•A colour-coded, maximum density, Teflon® thread sealing tape developed specially for use on oxygen pipelines, cylinders, storage vessels, pumps, compressors, etc. in high or low pressure applications •Suitable for oxygen systems and other gases •Provides an impenetrable barrier to oxygen at pressures up to 200 bar •Wide temperature range -268°C to 260°C •Will not string or shred •Fewer wraps required •Unasco green seal tape is superior to liquid thread sealants •Length: 480".
Part No. GST-9, 1/4" width.
Part No. GST-2, 1/2" width.
Part No. GST-5, 3/4" width.
Part No. GST-8, 1" width.

YUKON GOLD

JJJ/3805

Economy Ice Melt

Part No. YG-5, 5 kg jug Yukon Gold economy ice melt
Part No. YG-10, 10 kg bag Yukon Gold economy ice melt
Part No. YG-20, 20 kg bag Yukon Gold economy ice melt

•Melts down to -31°C •Penetrates ice fast •Powerful formula •Made from natural ingredients •Won't harm concrete or vegetation when used as directed

PELADOW

JJJ/3130

Ice Melt

Try PELADOW Calcium Chloride Pellets, the fastest acting deicer known to man. Features:

1. Peladow melts more ice faster, no matter what the temperature. It melts over one-and-a-half times as much as rock salt in thirty minutes at -9°C, and nearly twice as much as SAFE STEP Ice Melter.
2. Beyond working faster, Peladow works when the others can't. It's effective to -32°C while the others quickly lose their ability to melt below -6°C.
3. Unlike the others, Peladow doesn't leave a white, powdery residue. You don't create a cleaning problem as you solve your snow and ice problem.
4. Laboratory research proves that compared to other deicers, Peladow calcium chloride pellets are the easiest on concrete.
5. Peladow works for a long time. Even a solution with just 20% of the deicer is effective down to -20°C.
6. Because Peladow is so much more effective, you can use less, less often. You can reduce deicer expenses and application labour... while getting safer surfaces faster.
7. When used as directed, Peladow will not harm vegetation.

Part No. PEL-1-10, 10 kg polybag Peladow ice melt
Part No. PEL-1-50, 50 lb. polybag Peladow ice melt

J-B® WELD

JJJ/2569

J-B WELD

J-B Weld is remarkably easy, convenient, and inexpensive alternative to welding, soldering, and brazing. J-B Weld will bond to virtually any clean, dry surface including: iron, steel, copper, aluminum, brass, bronze, pewter, porcelain, ceramic, marble, glass, concrete, fiberglass, wood, some plastics, and many more. When mixed in equal portions at room temperature, J-B Weld will set in 4-6 hours, and cure in 16-24 hours. J-B Weld is waterproof, petroleum, chemical, and acid resistant when fully cured. It can be drilled, tapped, machined, filed, sanded, and painted. J-B Weld is superstrong, nontoxic, and temperature resistant up to 600°F.
Part No. 8265-S.

J-B KWIK

Though not as strong as J-B Weld, J-B Kwik is perfect for need-to-fix-it-fast repairs at home, on the farm, or in the shop. When mixed in equal portions at room temperature, J-B Kwik will set in 4 MINUTES, and cure in 4-6 hours. Use J-B Kwik on iron, steel, copper, aluminum, brass, bronze, pewter, porcelain, ceramic, marble, glass, concrete, fiberglass, wood, some plastics, and other clean, dry surfaces. J-B Kwik is waterproof, petroleum, chemical, and acid resistant. It can be drilled, tapped, machined, filed, sanded, and painted. J-B Kwik is nontoxic, and temperature resistant up to 300°F.
Part No. 8276.

J-B STIK

J-B Stik Weld is a hand kneadable, steel-reinforced epoxy putty adhesive/sealant that will plug holes and make permanent repairs on wet and dry surfaces. It will even cure completely submerged in water or Gasoline! Simply knead thoroughly, with your fingers, a portion necessary for the repair and apply. J-B Stik will fully cure in 20-30 minutes and can be drilled, tapped, machined, filed, sanded, and painted. J-B Stik requires no tools or "preptime", and makes no mess.
Part No. 8267-S.

WATER WELD

This epoxy putty will plug holes and make permanent repairs in moist-surface or under water applications. Water Weld will even repair leaking fuel tanks! Simply pull off the amount of Water Weld necessary for the job, knead it with your fingers until the two colours are thoroughly mixed, then push the product into the hole. Water Weld will fully cure in 20-30 minutes and can be drilled, tapped, machined, filed, sanded, and painted. Nontoxic and approved by the National Sanitation Foundation for use with potable water.
Part No. 8277.

INDUSTRO WELD - is J-B Weld in an economical shop size package containing two 5 oz. tubes.

Professionals in many industries use Industro Weld to fix, bond or fill - in the shop, factory, and field. Industro Weld makes strong, permanent repairs where conventional welding is not possible or practical. Since it is the same product as J-B Weld it can be drilled, tapped, machined, filed, sanded, and painted.
Part No. 8280.

MARINE WELD

Formulated like J-B Weld, Marine Weld is as strong as steel, and is water and weather proof. It's impervious to saltwater, chemicals, oil, acids and other corrosive materials. Marine Weld will bond to virtually any clean, dry surface including: iron, steel, copper, aluminum, brass, bronze, pewter, porcelain, ceramic, marble, glass, concrete, fiberglass, wood, some plastics, and many more. Mix at room temperature, Marine Weld will set in 4-6 hours, and cure in 16-24 hours.
Part No. 8272.

MIRROR WELD

J-B Mirror Weld will not become brittle or break loose when subjected to UV light, shock, or vibration.
Mirror Weld is not just another "super glue" product.
It is specially formulated in a two part kit - accelerator and adhesive to maximize the holding strength of the mirror bracket to the windshield.
Part No. 8278.

PERM-O-SEAL

Seals holes in radiator, water jacket, and cylinder heads. This nontoxic mixture of seven organic ingredients is easy to use, and beneficial to your cooling system. Pour into your radiator while engine is running. Perm-O-Seal speeds through the water channels, seeks out holes, and swells shut as soon as it comes into contact with air. Makes a permanent repair.
Part No. DS114.

J-B MINI CLEAR EPOXY SYRINGE

•1-time use •Sets in five minutes •Cures in 2-3 hours •Adheres to metal, wood, tile, ceramic, glass and china •6 ml syringe.
Part No. 8212-S.

SEALANTS

732 Multi-Purpose Sealant
•RTV paste, seals vents, gutters, windows, electrical boxes, bonds appliance parts, pumps, etc. Will not sag or run.

PART NO.	SIZE
732CLT	90 ml tube, clear
732CLC	300 ml cartridge, clear
732WHT	90 ml tube, white
732WHC	300 ml cartridge, white
732BKT	90 ml tube, black
732BKC	300 ml cartridge, black
732ALC	300 ml cartridge, aluminum

733 Glass & Metal Sealant
•Used for bonding and sealing appliances, heavy equipment, marine equipment, and recreational vehicles. This RTV paste provides improved adhesion over other acetoxy sealants. May be applied overhead or on side walls.

733CLC	300 ml cartridge, clear
733WHC	300 ml cartridge, white
733BLC	300 ml cartridge, black

700 Industrial Grade Sealant
•For general industrial sealing and bonding. Will not sag or run; may be applied overhead or on side walls. One part, non-slumping RTV paste, cures at room temperature on exposure to moisture in air to a tough, rubbery solid.

700ALC	300 ml cartridge, aluminum
700BKC	300 ml cartridge, black
700CLC	300 ml cartridge, clear
700WHC	300 ml cartridge, white

736 Heat Resistant Sealant
•Non-slumping RTV paste, seals fired heaters, flanged pipe joints, ovens, bonds electrical equipment, etc. May be used in applications with continuous temperature exposure from -85°F to 500°F.

736REC	300 ml cartridge, red

786 Mildew Resistant Sealant
•RTV paste for interior sealing applications exposed to high moisture. Seals tubs, sinks, plumbing fixtures, and interior walls. Safe for food contact.

786CLC	300 ml cartridge, clear
786TWC	300 ml cartridge, translucent white
786WHC	300 ml cartridge, white
786AMC	300 ml cartridge, almond
786GRC	300 ml cartridge, grey

737 Neutral Cure Sealant
•This RTV paste provides primerless adhesion to most materials, oxime cure, and quick skin-over. May be used on concrete and masonry.

737CLC	300 ml cartridge, clear
737WHC	300 ml cartridge, white

738 Electrical Sealant
•This RTV paste is used for bonding and sealing corrosion-sensitive electrical and electronic equipment.

738WHC	300 ml cartridge, white

739 Plastic Adhesive
•Excellent flexibility in high vibration applications. This RTV paste has primerless adhesion to most plastics, metals, concrete, and masonry.

739WHC	300 ml cartridge, white
739BKC	300 ml cartridge, black

832 Multi-Surface Adhesive/Sealant
•Bonds to most surfaces, excellent adhesion to glass, metal, concrete, and masonry, most rubber and plastics, and has a non-corrosive cure. This RTV paste seals and repairs gutters, concrete floor seams, windows, etc.

832WHC	300 ml cartridge, white
832BKC	300 ml cartridge, black
832GRC	300 ml cartridge, grey

LUBRICANTS

4 Electrical Insulating Compound
•Lubricates and moisture-proofs ignition systems, disconnect junctions, electrical assemblies, terminals, etc. High dielectric strength, moisture and ozone resistant, and meets MIL specifications. Medium consistency.

PART NO.	SIZE
4TWT	150 gram tube, translucent white

111 Valve Lubricant & Sealant
•General purpose o-ring and valve lubricant. Provides a non-curing moisture barrier, high dielectric strength, moisture and ozone resistant, good thermal oxidation and chemical stability, suitable for potable water under NSF61. Heavy consistency. Operating temperature of -40°F to 400°F.

111TWT	150 gram tube, translucent white
111TWC	400 gram cartridge, translucent white
111TWP-3.6	3.6 kg container, translucent white
111TWP-18.1	18.1 kg container, translucent white

33 Extreme Low Temperature Bearing Grease
•Can be used on metal, plastic, and rubber parts. Resists oxidation, moisture, and corrosive atmospheres, good plastic and rubber lubricity. Not for metal-to-metal sliding applicaitons; can be used for metal-to-metal rolling applications. Temperature range from -100°F to 355°F. Light or medium consistency available.

33LTT	150 gram tube, beige/pink, light consistency
33MTT	150 gram tube, beige/pink, medium consistency
33MTC	400 gram cartridge, beige/pink, medium consistency

44 High Temperature Bearing Grease
•Designed to give long service life in high temperature bearings. Resists oxidation and moisture, excellent lubricant for plastic components, good for low to moderate loads and moderate to high speeds. Not for metal-to-metal sliding applications; can be used for metal-to-metal rolling applications. Temperature range from -40°F to 400°F. Light or medium consistency available.

44HTT	150 gram tube, red, light consistency
44MTT	150 gram tube, red, medium consistency
44MTC	400 gram cartridge, red, medium consistency

41 Extreme High Temperature Bearing Grease
•For lubricating ball bearings in high temperature equipment. Heat stable, resists oxidation, moisture, and corrosive atmospheres, for moderate loads and speeds. Not for high loaded ferrous metal bearing combinations. Temperature range from 0°F to 550°F.

41HTT	150 gram tube, black
41HTC	400 gram cartridge, black

55 O-Ring Lubricant
•Used for lubricating o-rings, sealing pneumatic systems and aircraft. Slightly swells o-rings to provide a tight seal, resists oxidation and has a temperature range of -85°F to 350°F.

55T	150 gram tube, beige/pink
55P	3.6 kg pail, beige/pink

BR2-Plus Multi-Purpose E.P. Grease
•Heavy duty lubricant for plant maintenance in metal-to-metal applications. Resists oxidation and water, good corrosion inhibiting properties, low evaporation, and high load carrying capability at moderate to high speeds.

BR2C	400 gram cartridge, black

White E.P. Bearing Grease
•Used for lubricating plain and rolling element bearings in equipment that requires grease that complies with FDA regulations for incidental food contact. For moderate to high loads/speeds.

WEP2C	400 gram cartridge, white

DOW CORNING

DOW CORNING®
Assembly & Maintenance Products

LUBRICANTS

BG 20 High Performance Synthetic Grease
•Lubricates bearings operating under extreme temperatures, high speeds, and high loads. Temperature range from -50°F to 360°F.

PART NO.	SIZE
BG20C	400 gram cartridge, beige

G-n Metal Assembly Paste/Spray
•Reduces friction and wear on parts during assembly and breaking in. For extreme loads and low speeds. Not for pressure lines or grease guns. Reduce torque values by approximately 1/3 when used on threaded connections. Temperature range for solids from 0°F to 750°F; base oils from 0°F to 250°F.

GNT	80 gram tube, black
GNA	312 gram aerosol, black
GNP	500 gram tub, black

321 Dry Film Lubricant
•For long term "dry" lubrication where air drying formulation is desired. Will not attract contaminants, easy to apply, and dries in seconds. For extreme loads at low speeds.

321A	312 gram aerosol, grey

557 Silicone Dry Film Lubricant
•Lubricates sliding contacts, particularly with aluminum and stainless steel. Extends the life of knives, tools, and dies.

PART NO.	SIZE
557A	312 gram aerosol, clear

316 Silicone Release
•Releases material from a variety of surfaces. Remains stable over a temperature range of -40°F to 390°F. FDA regulated.

316A	283 gram aerosol, clear
316S	355 gram spray, clear

Metal Protective Coating
•Provides long term corrosion protection. Extremely resistant to corrosive or salty environments.

MPCA	284 gram aerosol, translucent

DOW CORNING

DEVCON® PRODUCTS

General Repair Epoxies

Devcon Plastic Steel® Putty. The original metal filled epoxy putty used for hundreds of routine maintenance, production, and tooling applications. Bonds to most metal, concrete, and some plastics, cures at room temperature forming a tough, durable metallic mass, and can be drilled, tapped, machined, or painted. Resists oil, gasoline, water, and many chemicals. Patch and repair areas where welding or brazing would be undesirable or impossible.
Part No. 10110, 1 lb. can
Part No. 10120, 4 lb. pail
Part No. 10130, 25 lb. pail

Devcon Plastic Steel® Liquid. Steel filled liquid epoxy can be cast over models for accurate detail reproduction when making holding fixtures, light-gauge forming dies, and molds. Hardens in 1 hour, can be machined to close tolerances, low viscosity, and high compressive strength, ideal levelling compound for machinery and equipment, and meets MIL spec MMM-A-1754.
Part No. 10210, 1 lb. can
Part No. 10220, 4 lb. can
Part No. 10230, 25 lb. can

Devcon Plastic Steel® 5-Minute Putty. Steel filled epoxy for dependable emergency repairs in less than 1 hour. Can be machined, drilled, tapped, or sanded. Mixes, applies, and cures in 5 minutes at temperatures as low as 40°F.
Part No. 10240, 1 lb. can

Devcon Stainless Steel Putty. Stainless steel filled epoxy putty for patching, repairing, and rebuilding stainless steel food processing equipment. Non-rusting, bonds to ferrous and non-ferrous metals, NSF certified for potable water applications, and is USDA approved.
Part No. 10270, 1 lb. can

Devcon Fasmetal™ 10 (HVAC Repair Putty). Aluminum filled epoxy adhesive. Bonds to aluminum and other metals, ceramics, wood, concrete or glass, and cures to a rigid bond that can be ground, drilled, or tapped. Fills voids or porosity in aluminum castings, and can be used as an adhesive for repairs to copper coils in compressors.
Part No. 19770, 6½ oz (2 tubes)

Devcon Wear Resistant Putty. Smooth, non-rusting, all-purpose epoxy putty with wear-resistant fillers for repairs requiring low friction finishes, such as machine lathe beds. Bonds to steel, iron, aluminum, ceramic, concrete, brass, and some plastics.
Part No. 11410, 1 lb. can
Part No. 11420, 3 lb. can

Please see page J13 for a General Application Chart.

General Repair Epoxies

Devcon Aluminum Putty. Aluminum filled epoxy putty for dependable non-rusting repairs to aluminum castings, machinery, and equipment, widely used in HVAC applications. Repairs A/C system components, resists chlorofluorocarbons, can be machined, drilled, or tapped, and meets MIL spec DOD-C-24176B(SH), Type II.
Part No. 10610, 1 lb. can
Part No. 10620, 3 lb. can

Devcon Aluminum Liquid. Aluminum filled pourable epoxy for making molds, patterns, and holding fixtures. Mixes and pours easily, hardens in just over 1 hour; cures in 16 hours, and can be cast over models for accurate reproduction of details. Low viscosity permits reproduction of delicate or intricate parts.
Part No. 10710, 1 lb. can
Part No. 10720, 3 lb. can

Devcon Bronze Putty. Bronze filled epoxy putty for repairing bronze and brass bushings, shafts, castings, and equipment parts. Bonds securely to bronze alloys, brass, copper, and ferrous metals. Repair and rebuild areas where brazing would be undesirable or impossible. Can be machined, drilled, tapped, or ground.
Part No. 10260, 1 lb. can

Emergency Repair Products

Devcon Underwater Repair Putty. High performance technology for repairing, patching, and rebuilding equipment in habitually wet environments, even under water. Eliminates the need for substrate to be thoroughly dry before repairs. Penetrates wetness to bond securely to steel, iron, aluminum, brass, bronze, concrete, wood, and some plastics, and is invaluable for use in pulp and paper mills, waste water treatment plants, and marine environments. Non-rusting; easy to mix and apply, and cures in temperatures down to 40°F.
Part No. 11800, 1 lb. can.

Devcon Magic Bond™ Epoxy Putty. Two-part epoxy putty stick seals leaks and repairs gouges in steel, aluminum, wood, fiberglass, concrete, and ceramics. Cures rock-hard in 30-40 minutes and can be painted, sanded, machined, tapped, or drilled when fully cured. Waterproof formula cures well under water and remains sealed long-term. Used for plumbing repairs and marine use.
Part No. 11600, 4 oz. stick.

Devcon Zip Patch™. High technology, adhesive-impregnated patching system patch that cures at room temperature in minutes to a tough, durable, waterproof finish. Adheres to iron, steel, stainless steel, titanium, fiberglass, aluminum, wood, ceramics, composites, acrylics, PVC, and most other plastics. Makes permanent field repairs to pipes, tanks, and containers with minimal surface preparation.
Part No. 11500, 4" x 9".

ITW Devcon®

Canadian Now! Canadian Always!

Wear & Abrasion Epoxies

Devcon Wear Guard™ (High Load). High alumina, ceramic bead filled epoxy system for outstanding abrasion resistance to processing equipment. Trowels onto overhead or vertical surfaces without sagging, ideal for repairing scrubbers, ash handling systems, pipe elbows, screens, and chutes. Handles particulates greater than 1/8". Resists a wide range of acids, bases, saturated salt solutions, oils, and many other chemicals, and has an operational temperature resistance to 300°F.
Part No. 11490, 30 lb. pail.

Devcon Wear Guard™ (Fine Load). Micro high alumina, ceramic bead filled, high density epoxy system for equipment protection. Handles particulate smaller than 1/8", can be trowelled to form a smooth surface, and resists a wide range of chemicals. Excellent for dust particulate applications, slurry pumps, scrubbers, screens, and screw conveyors. Withstands operating temperatures as high as 300°F.
Part No. 11470, 30 lb. pail.

Devcon Wear Guard™ (High Temp). High temperature and high density, ceramic bead filled epoxy system for maximum wear and abrasion resistance in processing equipment. Heat-cure, trowelable system gives up to 30% improvement over conventional wear compounds, and has unmatched resistances to many acids, bases, salts, and solvents. Excellent abrasion resistance to all sizes of materials and particulate in high heat applications such as exhausters, pulverizers, and cyclones. Withstands continuous service temperatures to 450°F.
Part No. 11480, 30 lb. pail.

Devcon Carbide Putty. Silicon carbide filled epoxy putty for economical protection against wear and abrasion in aggressive industrial environments. Handles particulates less than 1/16", and withstands continuous service temperatures to 250°F.
Part No. 10050, 3 lb. can.

Precision Repair Epoxies

Devcon Titanium Putty. High technology, titanium reinforced epoxy, engineered for making repairs to machinery and equipment that can be precision machined. Resistance to chemicals and most acids, bases, solvents, and alkalis. High compressive strength of 18,800 psi, temperature resistant to 350°F, and meets MIL spec DOD-C-24176(SH), Type I & II.
Part No. 10760, 1 lb. can
Part No. 10770, 2 lb. can

Devcon Ceramic Repair Putty. Smooth, trowelable, alumina filled epoxy compound for rebuilding and protecting processing equipment exposed to corrosion, erosion, cavitation, chemicals, and acids. Used for filling voids and rebuilding metal castings. Has a temperature range up to 350°F, and meets MIL spec DOD-C-24176B(SH), Type I & II.
Part No. 11700, 3 lb. can.

Devcon Brushable Ceramic. Low viscosity, alumina filled, brushable epoxy compound, when applied to a 15-20 mil coating, provides a smooth protective barrier against wear, abrasion, corrosion, erosion, and chemical attack. Low friction surface reduces turbulence, wear, and cavitation. Chemically resistant to acids, solvents, and alkalis, and has a temperature range up to 350°F. White is NSF certified for use in potable water applications, and both red and white are USDA approved.
Part No. 11760, 2 lb. can (red)
Part No. 11765, 2 lb. can (blue)
Part No. 11770, 2 lb. can (white)

Devcon Fasmetal™. High performance, alumina filled epoxy for making fast, dependable emergency repairs to leaks in pipes carrying ores, coal, cement, sand, and gravel. Hardens in 1 hour, and applies in temperatures as low as 40°F.
Part No. 10780, 3/4 lb. can.

Devcon Cleaner Blend 300. Safe, multi-purpose, non-trichloroethane base degreaser for use on heavy grease and oil deposits on metal. Ideal for dip tanks, needs no rinsing, leaves no residue, and evaporates quickly.
Part No. 19510, 1 pint bottle.

Devcon Liquid Release Agent. Silicone type liquid release agent prevents Devcon's epoxy and urethane compounds from sticking to patterns or mold surfaces. Produces a high gloss finish, and facilitates the accurate duplication of intricate details.
Part No. 19600, 1 pint bottle.

Floor Savers™

Devcon Floor Patch™. All-purpose concrete patching compound with a compression strength of 8000 psi, three times the typical strength of concrete. Adheres to a variety of substrates, concrete, brick, masonry, metal or wood surfaces, easy to mix and apply, and has a functional cure in 8 hours; full cure in 16 hours. Resists water, oils, solvents, and alkalis, and is USDA approved.
Part No. 13100, 10 lb. pail.
Part No. 13120, 40 lb. pail.

Devcon Floor Patch™ FC (Fast Cure). A fast curing version of dependable Floor Patch with all of the characteristics of the regular product. 15 minute pot life allows repair to be back in service in 3 hours, and primer system allows bonding to wet surfaces and at temperatures below 40°F. USDA approved.
Part No. 13110, 10 lb. pail.

Devcon Ultra Quartz™. Heavy duty, premium floor patching system with excellent chemical resistance. This premium patching system includes a surface priming system for superior bonding to existing concrete or other surfaces. Trowelable for a non-porous finish, full cure in 16 hours, and compression strength of 9000 psi. Non-sag characteristics are ideal for vertical applications. Resists acids, alkalis, water, oils, solvents, and most chemicals. USDA approved.
Part No. 13550, 35 lb. pail.

Devcon Epoxy Coat™ 7000 AR (Acid Resistant). 100% solids epoxy novalac system designed to protect surfaces from severe acid and chemical attack. Ideal for use around chemical storage tanks, dike walls, and containment areas. Adheres to concrete surfaces, provides a durable, attractive, easy-to-clean surface, and resists sulfuric acid in concentrations up to 98%.
Part No. 12750, 2 gallon can.

Devcon Safe-T-Grit. Simple to apply, non-skid additive that can be mixed into any of the Floor Savers products. Formulated to stay in "suspension" in the coatings, when spread evenly onto concrete or other surfaces.
Part No. 12570, 2 lb. bag.

Devcon Concrete Sealer. 100% solids epoxy that provides a durable, chemical resistant coating and can be a primer system for damp surfaces. Self levelling, easily applied with a brush, roller, or squeegee at temperatures as low as 40°F. Resists many chemicals including acids, alkalis, oils, gasoline, and jet fuel. USDA approved.
Part No. 12560, 2 gallon can.

Devcon Floor Grip™. Heavy duty epoxy compound with silicone carbide granules, for an exceptional non-skid surface on walkways, ramps, loading docks, and stairs. It is brushed or rolled on, then silicone carbide granules are broadcast over the surface to provide a superior non-skid finish. Bonds to damp surfaces and exhibits excellent adhesion to concrete, brick, steel, and aluminum. For interior or exterior surfaces at temperatures as low as 40°F. USDA approved.
Part No. 13090, 2 gallon can.

Devcon Z® Cold Galvanizing. Protects iron and steel from rust and corrosion in both above ground or underground applications. 95% pure zinc composition, applies easily with brush, roller, or spray, and resists water, oil, gasoline, and other chemicals. Meets MIL spec MIL-P-21035 Navy, MIL-P-26915B Air Force, and TT-P-6416 USDA, Galvanized Repair.
Part No. 12020, 1 quart can.
Part No. 12030, 1 gallon can.

Please see page J13 for a General Application Chart.

ITW Devcon®

Flexane® Urethanes

Devcon Flexane 80 Putty. Trowelable, 100% solids, tear resistant urethane compound used to line and repair process equipment exposed to impact abrasion, vibration, expansion, and contraction. Cures to a tough medium hard rubber, easy to mix, trowels on smoothly and bonds to metal, concrete, rubber, wood, and fiberglass surfaces. Flexane Primers are recommended for maximum adhesion to metal, rubber, and concrete surfaces. Service temperatures to 180°F in dry environments and 120°F in wet environments.
Part No. 15820, 1 lb. can.
Part No. 15850, 4 lb. can.

Devcon Flexane 80 Liquid. Castable, non-shrinking, medium viscosity (10,000 cps) urethane compound for making rugged, flexible molds, forming dies, cast parts, non-scratching holding fixtures and abrasion/noise resistant linings, as well as for encapsulating parts. Two-component compound mixes and pours easily. Makes precision molds that faithfully reproduce detail, and cures at room temperature to a semi-rigid rubber material without changing shape. Returns to its original shape after 650% elongation, and requires 10 hour demolding time.
Part No. 15800, 1 lb. can.

Devcon Flexane 94 Liquid. Castable, non-shrinking, low viscosity (6,000 cps) urethane compound that cures to a rigid rubber material more rigid than Flexane 80 Liquid. For applications requiring a shorter demolding time (5 hours), makes flexible molds and non-scratching holding fixtures. Pour and mold cast rubber replacement parts that may have been discontinued.
Part No. 15250, 1 lb. can.

Devcon FL-10 Flexane Primer. Required for bonding of all Flexanes. Provides maximum adhesion of Flexanes to all metals and Flexane itself.
Part No. 15980, 4 oz. bottle.

Devcon FL-20 Flexane Primer. Required for bonding of all Flexanes. Provides maximum adhesion of Flexanes to rubber, wood, fiberglass, concrete, and Flexane itself.
Part No. 15985, 4 oz. bottle.

Devcon Flex-Add™. Flexibilizer used with Flexane 80 Liquid to produce a lower durometer castable urethane. Custom mix urethane for specific hardness (durometer) requirements, and allows matching existing hardness of "rubber for rubber" roll repair. Lower durometer allows molds to be more flexible for easier demolding.
Part No. 15940, 8 oz. bottle.

Devcon Flexane Brushable. High performance, brushable urethane coating that cures to a medium hard rubber for protection against wear due to abrasion and impact. Apply in thicknesses of 50 mils in one application to protect hoppers, chutes, pump impellers, feeder bowls, and fans. Flexane Primers are recommended for maximum adhesion to metals, rubber, wood, fiberglass, and concrete.
Part No. 15350, 1 lb. can.

Devcon Flexane High Performance Putty. High performance, trowelable lining for maximum protection against wear due to abrasion, gouging, and impact on processing equipment. Repair rubber parts in the most aggressive environments. Bonds to metal, rubber, wood, fibreglass, and concrete, and cures to a tough, resilient rubber compound. Flexane Primers are recommended for maximum adhesion.
Part No. 15330, 1 lb. can.

Devcon Flexane Belt Repair Kit. A rubber repair kit that is an ideal, off-the-shelf solution for making fast, permanent emergency maintenance repairs to damaged conveyor belts, rubber rollers, and many other rubber or elastomeric components. Contains Flexane 80 Putty, cleaner, FL-10 and FL-20 primer and applicator. Repairs and bonds to metal, concrete, rubber, wood, and fibreglass. Makes belt repairs covering up to 188 square inches at 1/4" thickness.
Part No. 15165, Kit.

Devcon Flexane Accelerator. For shortening the cure time of all Flexanes, even in temperatures as low as 0°C. Recommended for maintaining functional cure schedule when using Flex-Add™ Flexane Primers. 1/2 teaspoon reduces the cure time of 1 lb. of Flexane by 50%. FL-10 Primer enhances adhesion to all metals, and FL-20 Primer enhances adhesion to rubber, wood, fibreglass, and concrete.
Part No. 15990, 12 oz. bottle.

Polystrate™ Structural Adhesives

Devcon 5-Minute® Epoxy. Rapid curing, general purpose adhesive/ encapsulant. Bonds rigid, durable substrates such as metals, glass, ceramics, concrete, and wood in all combinations. Forms a clear, hard, rigid bond or coating in minutes.
Part No. 14200, 15 oz. tube.
Part No. 14210, 2.5 oz. tube.
Part No. 14250, 1 oz. Dev-Tube.
Part No. 14270, 50 ml Dev-Pak cartridge.

Devcon 5-Minute Epoxy Gel. Fast curing, thixotropic, non-migrating adhesive designed for filling gaps and for bonding rough or smooth surfaces. High tensile strength of 2500 psi, good solvent resistance, and is ideal for vertical surfaces.
Part No. 14630, 9 lb. can.
Part No. 14240, 1 oz. Dev-Tube.
Part No. 14265, 50 ml Dev-Pak cartridge.

Devcon 2-Ton® Clear Epoxy. Medium cure time for a strong, water resistant, non-shrinking rigid bond, fills poorly mated joining surfaces, while providing excellent adhesion and good impact strength. Forms a powerful bond with ferrous and non-ferrous metals, ceramics, wood, concrete or glass in any combination.
Part No. 14310, 1 oz. Dev-Tube.
Part No. 14260, 50 ml Dev-Pak cartridge.
Part No. 14360, 9 lb. can.

Devcon Epoxy Plus™. Two rubber-toughened structural adhesive with superior impact, peel, and fatigue resistance. 25 minute working time, non-corrosive. Ideal for potting and encapsulating electronic components. Bonds metals, FRP composites, rigid plastics, concrete, glass, and wood.
Part No. 14278, 50 ml Dev-Pak cartridge.

Devcon Plastic Welder™. Toughened structural adhesive with superior impact and peel resistance to both metallic and plastic surfaces. Bonds dissimilar substrates, unprepared metals, ceramics, wood, and standard engineered plastics. Requires minimal surface preparation and the final adhesive bond is designed to be load bearing and resistant to weathering, humidity, and wide variations in temperature.
Part No. 14300, 1 oz. Dev-Tube.
Part No. 14320, 50 ml Dev-Pak cartridge.
Part No. 14330, 2 litre kit.

Devcon Plastic Welder™ II. Formulated for bonding difficult-to-bond substrates such as nylon-containing alloys, modified polyesters, epoxy composites and standard plastics. Superior durability in aggressive environments where resistance to aqueous chemicals, gasolines, and fuels is required. Final adhesive bond has high shear, peel, and impact resistance.
Part No. 14340, 50 ml Dev-Pak cartridge.

Devcon Rubber Cement. Industrial strength waterproof rubber adhesive for flexible, durable bonds to rubber, flexible plastics to rubber, wood, plastics, metals, glass, and ceramics. Solvent based, one component contact adhesive cures in half an hour and lasts for years. Outstanding resistance to ultraviolet, oils, acids, and alkalis.
Part No. 14900, 1 pint can.

Devcon Duco Cement. Multi-purpose adhesive that replaces tape, tacks, staples, and magnets. This easy to apply product dries fast, clear, and tough. It is not affected by heat or cold. Excellent for use on wood, china, leather, glass, paper, and metal.
Part No. 6245, 1 oz. tube.

Please see page J13 for a General Application Chart.

Structural Adhesive Accessories

Part No. 14275, Mark II Pneumatic Applicator Gun - for use with 50 ml cartridges - air operated
Part No. 14280, Mark 5™ Applicator Gun - for use with 50 ml cartridges - hand operated
Part No. 14400, Pneumatic Applicator Gun - for use with 400 ml cartridges - air operated
Part No. 14410, Manual Applicator Gun - for use with 400 ml cartridges - hand operated
Part No. 14285, Mark 5™ Mix Nozzle - for use with 50 ml Dev-Pak cartridges
Part No. 14291, Mix Nozzle - 1/4" diameter, for use with 400 ml cartridges
Part No. 14292, Mix Nozzle - 1/2" diameter, for use with 400 ml cartridges

Instant Adhesive

Devcon Zip Grip® 4404, Low viscosity (20 cps), single component cyanoacrylate adhesive for close-fitting parts. Provides permanent bonding of metal to metal, and rubber/plastics to metal surfaces. Bonds in seconds, and fills gaps to .003". Excellent for splicing o-rings, rubber weatherstripping and gaskets, for part fixturing and repairing plastics.
Part No. 44045, 2 gram tube; 3 per pack.
Part No. 44044, 14 gram bottle
Part No. 44046, 1 lb. bottle

Devcon Zip Grip® HV1200, High viscosity instant adhesive featuring exceptional impact resistance when used to bond plastics, or as an excellent general purpose adhesive. Ideal for bonding porous substrates and in gap filling up to .008". Can be dispensed with automatic equipment.
Part No. 44001, 1 oz. bottle.
Part No. 44002, 1 lb. bottle.

Devcon Zip Grip® 4495, Medium viscosity (80-100 cps), instant bonding cyanoacrylate which offers exceptional adhesion to rubber, plastics, and metals. Ideal for many assembly applications and fills gaps to .004".
Part No. 44950, 1 oz. bottle.
Part No. 44955, 1 lb. bottle.

GENERAL APPLICATION CHART

Here are some common repair and tooling problems with the corresponding Devcon products recommended for the application. More than one product may be listed for the application, since the best product for the application is determined by the substrate being repaired, the environment in which the product is to be mixed and applied, and the working environment of the equipment. For further information, please contact a Gregg Distributors representative.

SEAL-ALL

JJJ/1195

Seal-All® All-Purpose Adhesive

•Seals •Bonds •Insulates •Waterproofs •UV Resistant •Not Affected By Gasoline or Oil - This product is particularly adaptable for bonding many types of small size articles. Seal-All can be used to adhere wood to itself, cloth, cardboard to itself, cementing ceramic and glass, PVC, lexan, plastics, and in many other locations where transparent colourless adhesive is required.

Part No. BPS, 22 ml tube Seal-All, blister carded
Part No. BPL, 60 ml tube Seal-All, blister carded

GOOP®

JJJ/1475

Adhesive/Sealant

Amazing Goop adhesives are scientifically formulated to repair, seal, and adhere to a wide variety of materials with superior strength. For glass, plastic, metal, leather, vinyl, rubber, brick, marble, copper, tile, wood, pottery, steel, fabric. Automotive Goop is great to protect and coat battery terminals, reattach rear-view mirrors, secure auto trim and emblems. Household Goop repairs everything around the house from broken teacups to loose towel bars. Marine Goop mends sails and inflatables, seals portholes and diving masks, repairs canopies and canvas covers and is UV resistant. Plumber's Goop seals PVC, ABS, tile, porcelain, ceramic and metal fixtures. 110 ml tube.

Part No. 130035, Household Goop clear adhesive/sealant
Part No. 160035, Automotive Goop clear adhesive/sealant
Part No. 160235, Automotive Goop black adhesive/sealant
Part No. 170035, Marine Goop clear adhesive/sealant
Part No. 150035, Plumber's Goop clear adhesive/sealant

Glue Products

PROBOND™ WOOD GLUE - CONTRACTOR GRADE
Superior high performance wood glue. 350 ml bottle with offset spout for tight corners and gripper lugs on cap for easy open/close. Refillable from handy 3.8 litre jug.
Part No. 69702, 350 ml bottle.
Part No. 69705, 3.8 litre jug.

PROBOND™ EXTERIOR WOOD GLUE - CONTRACTOR GRADE
Superior high performance ANSI Type II weather resistant wood glue. 350 ml bottle with offset spout for tight corners and gripperlugs on cap for easy open/close. Refillable from handy 3.8 litre jug.
Part No. 69403, 350 ml bottle.
Part No. 69404, 3.8 litre jug.

PROBOND™ CONTRACTOR'S PREMIUM POLYMER GLUE - CONTRACTOR GRADE
Bonds stronger and faster than most general purpose glues. Dries clear and flexible. Can be used for a wide variety of applications including bonding and fortifying concrete, drywall, wood, etc.
Part No. 69395, 3.8 litre jug.

PROBOND™ POLYURETHANE GLUE - CONTRACTOR GRADE
A revolutionary glue that adheres to virtually any surface. Bonds wood, glass, ceramics, metal, stone, and most rigid plastics. The strength of epoxy without the mixing. Sand it, paint it, stain it. Waterproof. Sets in 1 to 4 hours.
Part No. 69401, 240 ml bottle.
Part No. 69402, 475 ml bottle.

PROBOND™ CONTACT CEMENT - CONTRACTOR GRADE
A high solids, fast setting, professional strength contact cement that sets up fast (ready to bond in 10 minutes). Resistant to water, heat, and solvents. Excellent strength immediately after bonding. Great for professional cabinetmakers. Easy to brush on, no need to apply heat or clamps.
Part No. 69503, 950 ml tin
Part No. 69504, 3.8 litre tin

ELMER'S

CARPENTER'S WOOD GLUE - WORKSHOP GRADE
Specially formulated for wood. Grabs fast but allows repositioning; reduces clamping time. Penetrates wood deeply for strong bond. Can be painted. Will not gum up from heat when sanded or sawed. Easy water clean-up. Non-flammable, non-toxic, no harmful fumes. In a wide variety of sizes.
Part No. 60615, 120 ml bottle.
Part No. 60613, 225 ml bottle.
Part No. 60617, 475 ml bottle.
Part No. 60618, 950 ml bottle.
Part No. 60619, 3.8 litre jug.

WEATHER-TITE™ WOOD GLUE - WORKSHOP GRADE
A truly unique wood glue with pateneted technology. It is water resistant*, stainable and has a no-run gel formulation. Resists heat and mildew. Easy water clean-up. Safe, non-toxic formula. (*Not for continuous submersion or below water line use.)
Part No. 60720, 120 ml bottle.
Part No. 60722, 475 ml bottle.

GLUE-ALL™ MULTI-PURPOSE WHITE GLUE - WORKSHOP GRADE
Strong and versatile, Elmer's Glue-All sets fast and dries to a clear lasting bond. Ideal for wood, paper, cloth, and all porous materials. Easy water clean-up. Shatter-resistant plastic squeeze bottle. No-clog twist open/close cap. Non-flammable, non-toxic, no harmful fumes.
Part No. 60345, 40 ml bottle.
Part No. 60355, 120 ml bottle.
Part No. 60359, 225 ml bottle.
Part No. 60375, 475 ml bottle.
Part No. 60385, 950 ml bottle.
Part No. 60395, 3.8 litre jug.

ELMER'S CAULKING TUBES - WORKSHOP GRADE
Tub Caulk offers a mildew resistant seal for tub and tile. Dries to a tough, flexible seal. Water resistant when dry. Resists shrinking and discolouration. Can also be used to cement loose wall tile to clean, dry sound surfaces. Tile Grout is a durable acrylic, pre-mixed sealer. For grouting and sealing — resists shrinking, cracking, staining, mildew. Highly water resistant. Ready-to-use right out of the tube.
Part No. 60845, 175 ml tube Tub Caulk.
Part No. 60873, 175 ml tube Tile Grout.

ELMER'S
Glue Products

ORIGINAL KRAZY® GLUE
No mixing, no mess. Strong instant bond on many materials such as plastics, metal, rubber, glass, ceramics. One drop does it. 2 ml carded
Part No. 10100, Original Krazy Glue.
Part No. 10120, Original Krazy Glue Pen. Precision pen applicator for pin-point control.
Part No. 10330, Original Krazy Glue Gel. Gel version won't run and fills gaps on less than perfectly mated surfaces.

ADVANCED FORMULA KRAZY® GLUE
Stronger, more durable, and shock resistant. Ideal for items that will be handled after repair. Carded.
Part No. 10300, 2 ml Advanced Formula Krazy Glue.
Part No. 10466, 4 ml Advanced Formula Krazy Glue Gel. Gel version won't run and provides more effective bonding of porous materials and less than perfectly mated surfaces.

SKIN GUARD KRAZY® GLUE
The only instant adhesive that virtually eliminates accidental skin bonding. Same strong, instant bond as original Krazy Glue on almost everything except skin. Note: Delayed adhesion to skin (up to 60 seconds vs. less than 15 seconds with original Krazy Glue.)
Part No. 10785, Carded 2 ml Skin Guard Krazy Glue.

RECOCHEM
Camping Fuel

Part No. CF-1, 946 ml tin camping fuel - 12 per case
Part No. CF-4, 3.78 litre tin camping fuel - 4 per case
Part No. CF-205, 205 litre drum camping fuel

Wood Preservative

Part No. WPC-4, 4 litre can clear wood preservative - 4 per case
Part No. WPC-20, 20 litre pail clear wood preservative - 1 per case
Part No. WPG-4, 4 litre can green wood preservative - 4 per case
Part No. WPG-20, 20 litre pail green wood preservative - 1 per case

Painting Products

Part No. 10132, 946 ml lacquer thinner - 12 per case
Part No. 10133, 3.78 litre lacquer thinner - 4 per case

Part No. 10223, 946 ml paint and varnish remover - 12 per case
Part No. 10224, 3.78 litre paint and varnish remover - 4 per case

Part No. 10211, 1 litre paint thinner - 12 per case
Part No. 10212, 4 litre paint thinner - 4 per case

Part No. ACE-1, 1 litre Acetone - 12 per case
Part No. ACE-4, 4 litre Acetone - 4 per case

RUST-OLEUM CONSUMER BRANDS
MONO Expanding Foam Insulation

Is a polyurethane foam, ideal for insulating, sealing and filling gaps and spaces •Stops drafts •R Value = 5 per inch •Non-flammable aerosol •Re-useable, easy to clean nozzle •360 degree application •Easy to use
Part No. 890201-546, 250 g aerosol. ***New Size!***
Part No. 890201-538, 350 g aerosol.
Part No. 890201-539, 580 g aerosol.
Part No. 890201-543, 900 g aerosol.

MONO Window & Door Foam

Only waterproof window and door foam on the market •Softer expansion: will not cause windows or doors to bind •Ideal for insulating, sealing and filling gaps and spaces •Non-flammable during application of product •Re-useable, easy to clean nozzle •360 degree application •Easy to use, cures quickly •Low odour •Excellent adhesion
Part No. 890520-538, 340 g aerosol.

SPECTRA
Aerosol Spray Paint

A - SERIES — ENGINE ENAMELS
Spectra Engine Enamels are specially formulated for engine blocks and components to provide maximum temperature resistance consistent with the operating temperatures of an engine. Dry to touch in 5 minutes, they are resistant to gas and oil.
Part No. A-200, Chevrolet Orange
Part No. A-204, General Motors Blue
Part No. A-206, Universal Black
Part No. A-210, Aluminum
Part No. A-211, Universal Grey
Part No. A-216, Ford Dark Blue
Part No. A-218, Cummins Beige

E - SERIES — ACRYLIC ENAMELS
Spectra Acrylic Enamels can be used on any inside or outside application. It can be used on any surface, wood, metal or plastic. Spectra Acrylic Enamel provides the flexibility required to withstand climatic changes as opposed to the rigid characteristics of a lacquer. For best results, use over a primer coat.
Part No. E-102, Royal Blue
Part No. E-105, Mid Blue
Part No. E-108, Florida Orange
Part No. E-109, Medium Grey
Part No. E-110, Ranch Brown
Part No. E-111, Forest Green
Part No. E-112, Sunshine Yellow
Part No. E-114, Harvester Red
Part No. E-116, Deep Grey
Part No. E-117, Gloss Black
Part No. E-118, Gloss White
Part No. E-119, Flat Black
Part No. E-125, Flat White
Part No. E-132, Mist Grey
Part No. E-133, Amber
Part No. E-134, Chinese Red
Part No. E-135, Emerald Green
Part No. E-136, CAT/School Bus Yel...
Part No. E-141, Citrus Yellow
Part No. E-143, Meadow Green
Part No. E-148, Sky Blue
Part No. E-149, R.V. White
Part No. E-163, Light Yellow
Part No. E-164, Cherry Red

F - SERIES — FLUORESCENT
Highly visible, Spectra Fluorescent Spray Paints dry fast to a durable, reflective finish.
Part No. F-100, Pink
Part No. F-101, Jamaica Orange
Part No. F-102, Yellow
Part No. F-103, Sunset Orange
Part No. F-104, Green
Part No. F-105, Titan Red

H - SERIES — HIGH HEAT
Spectra High Heat Spray Paints dry fast and cure at 300°F. They resist oil, gas, rust, caustics, and grease, withstand 1200°F heat, and require no primer.
Part No. H-101, Hibachi Black
Part No. H-103, Aluminum

L - SERIES — LACQUER
Spectra Lacquers provide a very fast dry, durable finish. It can be used on any interior or exterior surface, but at no time should it be used over any existing enamel finish. For best results it should be used over a primer coat.
Part No. L-123, Gloss Black
Part No. L-125, Clear Matte
Part No. L-126, Clear Acrylic

M - SERIES — METALLIC
Spectra Metallic Paints are fast drying to a very brilliant finish. For best results, use over a primer coat.
Part No. M-101, Brass
Part No. M-102, Gold
Part No. M-103, Aluminum
Part No. M-107, Silver

P - SERIES — PRIMERS
Spectra Primers provide a good base for any top coat of paint. They provide "protection build" and are used to level out and fill small imperfections in the surface prior to the colour coat. They can be used over any existing paint surface.
Part No. P-102, Grey
Part No. P-103, Red Oxide
Part No. P-193, Non-Zinc Chromate

All Spectra Cans are 340 grams

KRYLON
Paint Products

GENERAL PURPOSE PAINTS — INTERIOR/EXTERIOR LACQUERS — KRYLON "5 BALL" AEROSOL
The most asked for spray paint in the industrial marketplace. For superior performance indoors or outdoors. These specially formulated lead-free paints create a hard, protective, durable finish.

Basic Colours — 340 gram aerosol cans EXCEPT: † = 325 grams.
Part No. 41401, Bright Silver †

KRYLON INDUSTRIAL

Paint Products

IRON GUARD™ DIRECT-TO-METAL ACRYLIC ENAMEL

No primers or solvents needed. Iron Guard is a direct-to-metal, water-borne acrylic, which means you don't have to spend time or money on primers. Downtime is reduced as well since drying time is shorter. And, your thinning and cleanup solvent costs are the lowest to be found — with Iron Guard, all you need is water. •Superior rust protection in a direct-to-metal water-borne acrylic •VOC compliant to 150 grams/litre •Reduces total site emissions •No primers or solvents needed •Thins and cleans up with water •Industrial durability •Excellent gloss and colour retention •Dry to touch in as little as 15 minutes •Apply by brush, roller or spray

Part No. KWBC03506, Green

MINE MARKING PAINTS

Premium high visibility colours overcome darkness and distance factors. Designed for overhead marking. Non-clogging and fast drying. Great for mines, underground utilities, construction, and excavation.

WATER BASED MINE MARKING PAINTS
— 481 gram aerosol cans.
Part No. K04010, Fluorescent Red
Part No. K04020, Fluorescent Red/Orange
Part No. K04030, Fluorescent Orange
Part No. K04050, Fluorescent Green
Part No. K04070, White

ATHLETIC FIELD STRIPING PAINTS

•Fast drying •Ideal for grass and fields or short term striping •Non-clogging spray tip •VOC compliant, free-of-lead hazards •Uses: Athletic fields, golf courses, football, soccer, lacrosse, basketball and baseball fields •Cans spray only in upside-down position. *Use with #K08360 striping wand sold below.*

Water Based — 510 gram aerosol cans.
Part No. 808305, Athletic Field White

PAVEMENT STRIPING PAINTS

•Fast drying •Long-lasting durability on outdoor pavement and inddor surfaces •Non-clogging spray tip •VOC compliant, free-of-lead hazards •Uses: Warehouse aisles, parking lots, school grounds, construction and excavation sites, road surfaces, nurseries, apartment complexes, fairgrounds •Cans spray only in upside-down position. *Use with #K08360 striping wand sold below.*

Solvent Based — 510 gram aerosol cans.
Part No. 808300, Highway White
Part No. 808301, Highway Yellow
Part No. 808302, Handicap Blue
Part No. 808303, Firelane Red
Part No. 808304, Cover-Up Black

STENCIL INKS

Whether you're applying new stencils to unmarked containers, steel or lumber, or covering old markings, these quality products will meet all your requirements. They're easy to apply and dry quickly.

Industrial Colours — 340 gram aerosol cans.
Part No. 03105, White
Part No. 03106, Red
Part No. 03108, Black
Part No. 03109, Blue
Part No. 03111, Green
Part No. 03112, Orange
Part No. 03121, Medium Blue
Part No. 03127, No-Lead Yellow

TAN KRAFT STENCIL KOVER®

Completely hides old stencilling from used shipping containers, making them reusable. For matching Kraft cartons perfectly. 340 gram aerosol can.
Part No. 03119.

SNAP & SPRAY AEROSOL CAN HOLDER

Transforms any standard spray can of varnish, paint, cleaner, lubricant, etc. into a spray gun. Easy to clean, reusable.
Part No. 47099.

QUIK-MARK™ MARKING WANDS

•Constructed of durable, rugged plastic and lightweight steel •Comfortable pistol grip for easy handling and marking •Apply a uniform, 3 - 4 cm width of paint •Recommended for use with Quik-Mark marking paints
Part No. K07095, Spotter Hand-Held Wand (30 cm length).
Part No. K07096, Wheeler Hand-Held Wand (85 cm length).

LINE-UP® STRIPING WAND

•Use for easy stenciling or line touch-ups •Durable construction •85 cm long for convenient operation •Recommended for use with Line-Up striping paints
Part No. K08360.

LINE-UP® PAVEMENT STRIPING MACHINE

•Engineered and designed for easy operation and durability •18 gauge all-steel construction •12 can storage •Stripes widths of 5 - 10 cm •18 cm wheels provide a smooth ride on hard surfaces, such as concrete, blacktop and metal •Excellent for use in parking lots, warehouses, plants, factories, etc.
Part No. K08340.

AEROSOL CAN DISPOSAL

A safe and economical means to empty and dispose of aerosol cans. Easy to use, hand operated, no power source necessary. Handle moves a puncture pin through a fluid-tight chamber and pierces can, no worker contact required. Unique carbon filter coalesces VOCs in filter reservoir. Residual contents safely collected in drum. For use with 20, 30, or 55 gallon drum.
Part No. CPU03, Aerosolv™ venting system. Consists of one puncturing unit, one filter, and one anti-static wire which is required under several federal and local codes.
Part No. CPF04, Two stage coalescing filter with replaceable carbon cartridge. For CPU03 disposal unit.
Part No. CPF05, Replacement carbon filter cartridge for CPF04 filter unit.

KRYLON
INDUSTRIAL

RUST DESTROYER

JJJ/1476

Protective Primer

RUST DESTROYER

Is your best protection against rust. It represents a major breakthrough in paint chemistry as it reacts with existing rust and converts rust into an inert compound. Additionally, Rust Destroyer is a universal primer: able to coat or be coated by almost every class of paint in the world. Applied directly over rust in just one application. No sandblasting, scraping or sanding gloss finishes are required, just a pass with a wire brush to remove loose flakes and bubbles of rust. Safe and easy to use: Non-toxic, no lead, chrome or other dangerous pigments or derivatives. 350 gram aerosol.
Part No. RD-8.

TREMCLAD

TRE/3835

Primers

Tremclad Primers are rust inhibiting primers providing excellent corrosion resistance, top coat adhesion and coverage to both clean and rusted metal. For severely pitted or sandblasted steel, Tremclad Primers will provide a smooth surface to enhance the adhesion of a protective or decorative topcoat. Lead and chromate free. The primers are available in either grey or red oxide to allow better hiding no matter what colour of topcoat is used. — 340 gram aerosol.
Part No. 2065, Red Oxide.
Part No. 2066, Grey

Rust Paint

Tremclad Aerosol Rust Paint is specially formulated for automotive use, to provide rust protection and a durable high gloss finish with long lasting colour on new or rusted metal. It does not require the need for a separate primer in most cases.
— 300 gram aerosol.
Part No. 2000, Gloss Black
Part No. 2001, Gloss White
Part No. 2002, Flat Black
Part No. 2003, Cherry Red
Part No. 2005, Bright Yellow
Part No. 2011, Aluminum
Part No. 2015, Silver Grey

ZERO-RUST™

JJJ/4053

Rust & Corrosion Control Coating

•Zero-Rust is a direct-to-metal, phenolic modified alkyd rust and corrosion control coating, which puts down an impermeable barrier at the steel level •Temperature Range: Zero-Rust can withstand intermittent temperatures of about 250-300°F before the resin starts baking out. Heat resistance will vary by colour. •Benefits: •Lays down an impermeable barrier •2000+ hours salt spray test results •Low V.O.C. — High solids •Protection at the steel level •Topcoats optional •No lead —No isocyanates •Eliminates damaging levels of intrusive corrosive elements •Provides maximum adhesion to steel •Dielectric ability is extraordinary •Surface tolerant •No sandblasting required •Recoatable

Thinning: Because Zero-Rust is heavy bodied, thinning will be required for siphon gun application. A reduction of 15-20% with xylene is typical. Recommended thinners are: xylene, lacquer thinner, acetone, and acrylic enamel reducer. Do not use mineral spirits or VMP Naptha for thinning. Application with airless spray equipment can be done directly from the can with no thinning. If you are using a brush or roller, thin to suit.

SPECTRA
Industrial Enamels

Spectra Industrial Enamel combines good gloss and colour retention with resistance to mild chemical and corrosive exposures. Spectra Enamels can be used on any inside or outside application, and can be used on any surface; wood, metal, or plastic. For best results, Spectra Enamels should be used over a primer coat. Spectra Industrial Enamel paint is available in the following colours and sizes:

SEYMOUR
Paints

•NON CFC, OZONE FRIENDLY PROPELLENT •NO METHYLENE CHLORIDE

CAST BLAST® - Restores a new "cast iron" look.

Use Cast Blast spray paint on newly cleaned cylinder heads, engine blocks... all the cast iron parts you rebuild. The Cast Iron Grey colour creates an original, factory-fresh appearance, good enough to replace glass beading. That's why Cast Blast is the preferred choice of professional rebuilders. Formulated for excellent adhesion, Cast Blast is durable, quick drying, and stops instant rusting. It's also non-abrasive. Can be top coated with OEM engine colours for good-looking showroom results. 340 gram aerosol can.

Part No. 16-048.

MRO STAINLESS STEEL - Rust protection with real stainless steel.

Formulated with 100% type 316L stainless steel pigment for maximum corrosion resistance and a satin sheen finish. Protects from weather, sunlight, oil and water. 454 gram aerosol can.

Part No. 20-1460.

ALUMI BLAST - Restores a new "aluminum" look.

Easy to apply and non-smudging, Alumi Blast makes aluminum parts such as alternators, calipers, water pumps and transmission housings look like new... in just one pass. And because the non-leafing pigment won't rub off, the parts you rebuild keep their good look even after installation, whether for interior or exterior use. Alumi Blast combines long lasting durability with the colour and texture of new aluminum casting, a finished look you can be proud of. Thanks to the fast-dry formula, you can use this new and unique spray wherever professional results are desired. 340 gram aerosol can.

Part No. 16-055.

RUST-OLEUM®
High Performance Aerosols

INDUSTRIAL ENAMEL AEROSOL

Hard Hat® V2100/2200 System •The ultimate spray paint for metal •Maximum corrosion protection •Fast dry •Better gloss retention, coverage and dry time than other industrial rust preventive spray paints •Superior resistance to chipping, cracking and peeling •Higher paint solids •Superior hide and colour retention •Smooth, durable, long lasting finish •Indoor/outdoor •Typical Applications: Storage tanks, exterior handrails, piping, racks, conveyors, machinery, heavy equipment, metal doors •Most colours match Rust-Oleum Industrial Enamel gallon products for convenient touch-up

Part No. 209564, Metal Dark Bronze

INDUSTRIAL FARM EQUIPMENT AEROSOL

•The ultimate spray paint for metal •Bright, durable finishes in a range of original equipment colours •Smooth, durable, long lasting finish •Maximum corrosion protection •Fast dry formula •Typical Applications: Tractors, trailers, farm implements, machinery and equipment

Available Colours Match Manufacturers' Colours 15 oz.
Part No. 209713, John Deere Green
Part No. 209714, John Deere Yellow
Part No. 209715, Caterpillar Yellow (old)
Part No. 209716, Allis Chalmers Orange
Part No. 209717, International Red
Part No. 209718, Ford Blue

INDUSTRIAL HIGH HEAT COATING AEROSOL

Hard Hat® High Temperature Coating •Resists temperatures up to 1000°F (538°C) •Direct to metal •Durable, long lasting finish •Fast drying •Protects in extreme high heat •Typical Applications: Boilers, steam pipes and vents, drying vents, kilns, exhaust pipes

Available Colours 15 oz.
Part No. V2116838, High Heat Aluminum
Part No. V2176838, High Heat Black

RUST-OLEUM® HIGH PERFORMANCE

INDUSTRIAL COLD GALVANIZING COMPOUND AEROSOL

Hard Hat® Galvanizing Compound •Contains up to 93% pure zinc in the dry film for ultimate galvanic protection •Maximum corrosion protection •Excellent adhesion to galvanized metal •Fast drying •Protects in moderate to extreme environments •Ideal for touch up repair of galvanized metal •Typical Applications: Bare sheet metal, production welds, galvanized ducts, storage tanks, fences, gutters, trucks, trailers, offshore applications, utility towers

Available Colours 20 oz.
Part No. V2185838, Cold Galvanizing Compound
Part No. V2117838, Bright Galvanizing Compound

RUST-OLEUM®
Striping & Marking

INVERTED MARKING PAINT AEROSOL

Hard Hat® V2300 System Inverted Striping Paint •High output spray tip for bold, easy to see markings •Bright, vivid colours •Long lasting •Fast drying • Guaranteed not to clog •Available in APWA, general purpose and fluorescent colours •Use with Rust-Oleum marking wand or pistol for quick and accurate site marking •Typical Applications: Utility locating, surveying, construction sites, excavation sites, landscaping

Available Colours 15 oz.

Part No. V2324838, Caution Blue
Part No. V2345838, Caution Yellow
Part No. V2354838, Alert Orange
Part No. V2363838, Safety Red
Part No. V2344838, High Visibility Yellow
Part No. V2333838, Fluorescent Green
Part No. V2355838, Fluorescent Orange
Part No. V2358838, Fluorescent Red Orange
Part No. V2392838, White
Part No. V2301838, Clear

INDUSTRIAL CHOICE MARKING PAINT BAG

•Durable material, zippers and fasteners •Handy design holds 3 cans of marking paint for extended jobs •Extra compartments perfect for keys, phone, water bottle and more •Comfortable, adjustable strap •Blaze orange colour for visibility

Part No. 203912

STRIPING MACHINE

•Create 2-4" straight lines quickly and easily •Cover a larger area in shorter time •Convenient storage compartment holds 12 extra cans •Sturdy steel construction •Collapsible handle for easy storage

Part No. 2395000.

ATHLETIC FIELD STRIPING MACHINE

•Create 3-6" straight lines quickly and easily •Cover a larger area in shorter time •Convenient storage compartment holds 12 extra cans •Sturdy steel construction •Collapsible handle for easy storage

Part No. 206346.

MARKING WAND

•Easy, upright site marking •Quick and convenient with no mess •Comfortale grip •Lightweight, yet durable construction •Use with Rust-Oleum Inverted Marking Paint

Part No. 2393000.

MARKING PISTOL

•Easy, accurate marking •Light touch spray control •Comfortable grip

Part No. 210188.

Thinners

THINNER FOR HIGH PERFORMANCE INDUSTRIAL ENAMELS

Part No. 633402, 1 gallon, brush application
Part No. 641402, 1 gallon, spray application
Part No. 641300, 5 gallon, spray application

THINNER FOR HIGH PERFORMANCE SPEEDY-DRY ENAMELS

Part No. 150402, 1 gallon

THINNER FOR HIGH PERFORMANCE INDUSTRIAL DTM EPOXY MASTIC

Part No. 160402, 1 gallon
Part No. 165402, 1 gallon, for immersion

THINNER FOR HIGH PERFORMANCE INDUSTRIAL HIGH HEAT COATINGS

Part No. 140402, 1 gallon

THINNER FOR INDUSTRIAL CHOICE ALKYD ENAMELS

Part No. 2400402, 1 gallon

High Performance Gallons

Available Colours 5 Gallons

Part No. 634300, High Gloss Black
Part No. 721300, National Blue
Part No. 906300, Silver Gray
Part No. 975300, Navy Gray
Part No. 944300, Safety Yellow

INDUSTRIAL ENAMEL

7400 System Finishes •The original rust preventive coating formulated to protect metal surfaces from the ravages of rust and corrosion •Special polyamide-modified alkyd for maximum performance •Better gloss retention and coverage than competitors' industrial enamels (colour tested: white) •Protects against mild chemical spills, fumes, oil and grease •High paint solids •Resists chipping, cracking and peeling •Superior gloss and colour retention •Excellent hiding •Smooth, durable, long lasting finish •Indoor/outdoor •Most colours match High Performance Industrial Enamel aerosols •Typical Applications: Pipes, equipment, metal cabinets and lockers, railings, trim, doors and gates, vents, outdoor signage

Available Colours 1 Gallons

Part No. 865402, Dunes Tan
Part No. 977402, Chestnut Brown
Part No. 721402, National Blue
Part No. 866402, Marlin Blue
Part No. 935402, Vista Green
Part No. 1282402, Forest Green
Part No. 7232402, Pleasant Green
Part No. 7434402, Green (John Deere)
Part No. 7446402, Yellow
Part No. 7448402, Old Caterpillar Yellow
Part No. 7447402, New Caterpillar Yellow
Part No. 559402, International Orange
Part No. 1210402, Fire Hydrant Red
Part No. 745402, Tile Red
Part No. 925402, Safety Blue
Part No. 933402, Safety Green
Part No. 956402, Safety Orange
Part No. 964402, Safety Red
Part No. 944402, Safety Yellow
Part No. 7280402, Light Neutral Gray
Part No. 904402, Machine Tool Gray
Part No. 975402, Navy Gray
Part No. 906402, Silver Gray
Part No. 470402, Aluminum
Part No. 473402, Heavy Duty Aluminum
Part No. 1030402, Green Aluminum
Part No. 1020402, Blue Aluminum
Part No. 634402, High Gloss Black
Part No. 412402, Flat Black
Part No. 7290402, White
Part No. 2764402, Flat White
Part No. 2766402, High Gloss White
Part No. 717402, Clear (Clear-Sele®)

Industrial Enamel Primers – 7400 System Primers

769® RED DAMP PROOF PRIMER

•The original fish oil modified primer, drives moisture and air out to stop rust •Bonds to tightly adhered rusted metal and forms a secure film •Can be exposed up to one year without topcoating •Proven corrosion protection •Superior adhesion to sound, rusted steel
Part No. 769402, Red, 1 gallon
Part No. 769300, Red, 5 gallon

HEAVY DUTY RUST INHIBITIVE PRIMERS

•Special high solids alkyd primers for severe rust producing conditions. Use on new, clean, heavily rusted, previously painted and abrasive blasted metal •Ideal where a higher film build [up to 3 mils (75µ dry) film thickness/coat] is needed •Superior corrosion protection •Superior adhesion
Part No. 1060402, Gray, 1 gallon
Part No. 1069402, Red, 1 gallon
Part No. 1069300, Red, 5 gallon

ZINC CHROMATE PRIMERS

•Zinc chromate rust inhibitive primers for use on new, lightly rusted, abrasive blasted, or previously painted steel •Can be exposed up to six months without topcoating •Superior corrosion protection •Superior adhesion
Part No. 960402, Yellow, 1 gallon
Part No. 960300, Yellow, 5 gallon
Part No. X60402, Red, 1 gallon

QUICK DRY PRIMERS

•Fast drying •For use on clean, slightly rusted, abrasive blasted, or previously painted steel •Spray applied and tack free in 30-60 minutes •Can be exposed up to six mounths without topcoating
Part No. 7086402, Gray, 1 gallon
Part No. 678402, Red, 1 gallon
Part No. 678300, Red, 5 gallon

HIGH SOLIDS, QUICK DRY LOW VOC PRIMERS

•Fast drying primers for use on clean, slightly rusted, abrasive blasted, or previously painted steel •Spray applied and tack free in 30-60 minutes •Can be exposed up to six months without topcoating •VOC <340 g/l
Part No. 2082402, Light Gray, 1 gallon
Part No. 2068402, Red, 1 gallon

SHOP COAT PRIMER

•Fast drying primers for slightly rusted steel, clean steel and abrasive blasted steel in mild conditions •Spray applied and tack free in 15-30 minutes
Part No. 7069402, Red, 1 gallon

RUST-OLEUM® HIGH PERFORMANCE

High Performance Gallons

INDUSTRIAL FOOD & BEVERAGE COATING (ALKYD)

8400 System •A special, modified alkyd designed for the food and beverage industry •Provides all the benefits of Rust-Oleum Industrial Enamels, plus resistance to mold and mildew •Resists repeated washing, disinfectants and cleaning compounds •Resistant to humidity and heat as high as 212°F (100°C), and can be applied to cold surfaces as low as 18°F (-7°C) •Not for immersion service •Typical Applications: Dairies, breweries, meat packing plants, frozen food operations, bakeries, bottling plants, tanneries and laundries, water or wastewater plants, showers, locker rooms and kitchens
Available Products 1 Gallon
Part No. 8494402, Dairy White
Part No. 8469402, Red Rusted Metal Primer
Part No. 8492402, White Clean Metal Primer

INDUSTRIAL DTM EPOXY MASTIC

9100 System •Two component high solids polyamine converted epoxy with 9101402 Standard Activator (polyamide with 9102402 Immersion Activator) •Direct to metal and tightly adhered rusted metal •Superior long term solvent, chemical and abrasion resistance •Maximum corrosion protection •Tough film for excellent durability, recommended DFT 5-8 mils •Convenient 1:1 mixing ratio of base and activator •Provides the wear and abrasion resistance of multi coat epoxy coatings •Four activators available for a variety of conditions •In severe industrial environments or over abrasive blasted surfaces, a second coat is required for optimal protection •Typical Applications: Steel beams, structural steel towers, conveyors, industrial equipment, storage tanks, sewage treatment basins and non potable water storage facilities, steel handrails, floors
Available Colours 1 Gallon
Part No. 9171402, Dunes Tan
Part No. 9122402, Marlin Blue
Part No. 9145402, Equipment Yellow
Part No. 9165402, Regal Red
Part No. 9168402, Tile Red
Part No. 9125402, Safety Blue
Part No. 9133402, Safety Green
Part No. 9144402, Safety Yellow
Part No. 9186402, Navy Gray
Part No. 9182402, Silver Gray
Part No. 9115402, Aluminum
Part No. 9179402, Black
Part No. 9192402, White

SPEEDY-DRY ENAMEL (ALKYD)

1500 System •A modified short oil alkyd for vehicle refinishing and OEM applications •Prime, coat and return vehicles to service within 4 hours •Fast dry formula quickly provides a tough, fade resistant coating •Maximum durability and corrosion protection •High gloss finish •Indoor/outdoor •Typical Applications: Forklift trucks, airport ground support vehicles, trucks, tractors and trailers
Available Colours & Products 1 Gallon
Part No. 1547402, New Caterpillar Yellow
Part No. 1565402, International Red
Part No. 1545402, Safety Yellow
Part No. 1586402, Navy Gray
Part No. 1584402, Silver Gray
Part No. 1510402, Chrome
Part No. 1579402, Jet Black
Part No. 1590402, White
Part No. 1573402, Rust Inhibitive Primer (VOC 600 g/l)
Part No. HS1573402, Low VOC, High Solids Rust Inhibitive Primer (VOC 420 g/l)
Part No. 2083402, Gray Primer (VOC 600 g/l)

STANDARD ACTIVATOR

•For use when air and surface temperatures are 50-100°F (10-38°C)
•Produces higher gloss than other activators
Part No. 9101402, 1 gallon

IMMERSION ACTIVATOR

•For fresh or salt water immersion applications on steel or concrete where water temperatures do not exceed 125°F (52°C) •Great for use in floor coating applications •Produces slightly lower gloss than the standard activator •Not for use with tint bases or in potable water tanks
Part No. 9102402, 1 gallon

LOW TEMPERATURE ACTIVATOR

•For use when air and surface temperatures are 40-60°F (5-15°C)
•Produces higher gloss than other activators
Part No. 9103402, 1gallon

FAST CURE ACTIVATOR

•Faster cure to minimize downtime •For use when air and surface temperatures are 50-100°F (10-38°C) •Recoat in four hours at 70°F (21°C) and 50% RH •Produces slightly lower gloss than the standard activator
Part No. 9104402, 1 gallon

INDUSTRIAL WATER-BASED EPOXY

5300 System •Two component polyamine cured water based epoxy •Applies to damp surfaces for minimal downtime •Low odour •Forms a tough, protective coating •Excellent resistance to chemicals and abrasion •Excellent corrosion protection and adhesion to smooth surfaces •High gloss finish •VOC < 250 g/l •Typical Applications: Beverage plants, clean rooms, hospitals, schools, washdown bays, abrasive environments, highly populated areas where minimal odour is essential

Available Colours & Products 1 Gallon

1st Component:
Part No. 5371408, Dunes Tan
Part No. 5323408, Marlin Blue
Part No. 5368408, Tile Red
Part No. 5344408, Safety Yellow
Part No. 5382408, Silver Gray
Part No. 5379408, Black
Part No. 5392408, White
Part No. 5369405, Red Primer
Part No. 5381405, Gray Primer
2nd Component:
Part No. 5301604, Epoxy Activator
Part No. 5303502, Primer Activator

COLD GALVANIZING COMPOUND

•Single component, zinc rich epoxy ester •Contains 95% pure zinc in the dry film for ultimate galvanic protection •Maximum corrosion resistance •Excellent adhesion to galvanized metal •Meets Federal Specification Mil P26915B and DOD P21035A •Typical Applications: Bare sheet metal, production welds, galvanized ducts, storage tanks, fences, gutters, trucks, trailers, offshore drilling rigs, utility towers

Available Products
Part No. 206193, 1 gallon
Part No. 206194, 1 quart

INDUSTRIAL EPOXY PRIMERS

HS9300/9300 System Primers for use with Rust-Oleum Industrial Epoxies and Urethanes •Unsurpassed adhesion to metal surfaces •Excellent intercoat adhesion •Maximum corrosion protection •Resists heavy abrasion and high moisture exposure •Two component •Dry heat resistance to 300°F (149°C) •For recoat times between 16 hours up to 30 days, use Extended Recoat Epoxy Primers

Available Products 1 Gallon
VOC <420 g/l:
1st Component:
Part No. HS9369407, Red Primer
Part No. HS9381407, Gray Primer
2nd Component:
Part No. HS9303604, Primer Activator

EXTENDED RECOAT (VOC <340 g/l):
1st Component:
Part No. 9360402, Red Primer
Part No. 9370402, Buff Primer
Part No. 9380402, MIO Gray Primer
2nd Component:
Part No. 9304402, Primer Activator

INDUSTRIAL HIGH HEAT COATINGS

4200/4300 Systems
Available Products 1 Gallon

HIGH HEAT COATINGS

Modified silicone, aluminum and coloured finishes for surfaces exposed to temperatures from 300-800°F (149-426°C).
Part No. 4233402, Green
Part No. 4286402, Gray
Part No. 4279402, Black
Part No. 4215303, Aluminum
Part No. 4268402, Red Primer

GRAY ZINC-SELE

Fights corrosion through cathodic sacrificial action. Protects from 300-800°F (149-426°C). Apply to steel abrasive blasted to a minimum commercial grade. 81% zinc in dry film. Requires two coats.
Part No. 4285402

PURE SILICONE ALUMINUM

Self-priming, two coat system for surfaces subject to temperatures from 500°F (260°C) up to 1200°F (649°C). VOC <600 g/l. Apply directly on steel abrasive blasted to a minimum near white grade (SSPC SP10, NACE 2).
Part No. 4315402

INDUSTRIAL COAL TAR EPOXY

C9578 •Two component, high solids polyamide converted epoxy with refined coal tar pitch •Protects against severe abrasion, strong chemicals and non potable water immersion •Meets Corps of Engineers Specs C-200, C-200A, Steel Tank Institute Corrosion Control System STI-P3, AWWA Spec C210-84, and SSPC-Paint 16 •Self priming, high build coating (8-10 mils/200-250µ DFT) •Typical Applications: Wastewater treatment plants, barges, marine environments

Available Products
Part No. C9578402, Coal Tar Epoxy, 1 gallon
Part No. C9502504, Coal Tar Epoxy Activator, 1 quart
Part No. C9578380, Coal Tar Epoxy, 5 gallon
Part No. C9502402, Coal Tar Epoxy Activator, 1 qallon

RUST-OLEUM®
HIGH PERFORMANCE

Industrial Choice Aerosols

INDUSTRIAL CHOICE ENAMEL

•A multi purpose spray paint for everyday industrial applications •Fast dry— in 12 minutes or less •High solids content provides faster, further coverage •Protects against chipping, fading and peeling •Higher gloss than lacquer based aerosols •Superior solvent resistance not found in lacquer based aerosols •Indoor/outdoor •Typical Applications: Tools, ducts/vents, ladders, cabinets, lockers, furniture, stenciling

Available Colours 12 oz. Aerosol

Part No. 1672830, Almond
Part No. 1671830, Beige
Part No. 1674830, Leather Brown
Part No. 1626830, True Blue
Part No. 1622830, Regal Blue
Part No. 1638830, Hunter Green
Part No. 202211, Machine Green
Part No. 1643830, School Bus Yellow
Part No. 202212, Sun Yellow
Part No. 202216, Dusty Pink
Part No. 1666830, Banner Red
Part No. 1664830, Cherry Red
Part No. 1624830, Safety Blue
Part No. 1633830, Safety Green
Part No. 1653830, Safety Orange
Part No. 1670830, Safety Purple
Part No. 1660830, Safety Red
Part No. 1644830, Safety Yellow
Part No. 1655830, Fluorescent Red-Orange
Part No. 1632830, Fluorescent Green
Part No. 1654830, Fluorescent Orange
Part No. 1659830, Fluorescent Pink
Part No. 1642830, Fluorescent Yellow
Part No. 1686830, Universal Gray
Part No. 1684830, Dove Gray
Part No. 1688830, Smoke Gray
Part No. 202214, Machinery Gray
Part No. 1614830, Dull Aluminum
Part No. 1679830, Glossy Black
Part No. 1676830, Ultra-Flat Black
Part No. 1678830, Semi-Flat Black
Part No. 1692830, Glossy White
Part No. 1690830, Flat White
Part No. 1696830, Antique White
Part No. 1610830, Crystal Clear

INDUSTRIAL CHOICE ENAMEL PRIMER

•Provides a solid base for adhesion of topcoat •Wet or dry sandable •Fast drying, indoor/outdoor •Use on bare or painted wood, metal, masonry and more

Available Products 12 oz. Aerosol

Part No. 1667830, Red Primer
Part No. 1680830, Gray Primer
Part No. 1681830, White Primer
Part No. 202213, Green Rust Inhibitive Primer

INDUSTRIAL CHOICE INVERTED STRIPING PAINT

•Creates crisp and clean, long lasting lines •Each 18 oz. can produces approximately 300 linear feet of a 2" stripe •Use with Rust-Oleum Striping Machine (#2395000) for crisp, straight 2-4" lines •Typical Applications: Mark aisles, lift truck routes, pallet positions, hazardous areas, commercial parking lots

Available Colours 18 oz. Aerosol

Part No. 1627838, Blue
Part No. 1648838, Yellow
Part No. 1665838, Red
Part No. 1677838, Black
Part No. 1691838, White

INDUSTRIAL CHOICE COLD GALVANIZING COMPOUND

•Contains a high zinc content in the dry film for ultimate galvanic protection •Excellent corrosion protection •Great adhesion to galvanized metal •Fast drying •Typical Applications: Bare sheet metal, production welds, galvanized ducts, gutters, trailers, fences

Available Colour 14 oz. Aerosol

Part No. 1685830, Cold Galvanizing Compound

INDUSTRIAL CHOICE ATHLETIC FIELD INVERTED STRIPING PAINT

•Specially formulated for striping athletic fields •Dries fast in 30 minutes •Creates sharp, well defined lines •Good hide with one application •Safe for use on grass •Smudge resistant, durable, long lasting formula •Water based •Guaranteed not to clog Use with Athletic Field Inverted Striping Machine #206346 •Typical Applications: Athletic fields, playgrounds, golf courses, and more

Available Colours 17 oz. Aerosol

Part No. 206045, Yellow
Part No. 206044, Orange
Part No. 206043, White

INDUSTRIAL CHOICE ANTI-SLIP

•Creates a slip-resistant surface in minutes •Resists cracking and peeling •Indoor/outdoor •Durable finish provides resistance to gasoline, oil and mild chemicals •Lower cost per square foot than anti-slip tapes •Coefficient of friction—dry 0.72, wet 0.85 •Typical Applications: Ideal for pedestrian traffic on stairs, pool decks, ramps and walkways

Available Products 15 oz. Aerosol

Part No. AS2144838, Yellow
Part No. AS2185838, Gray
Part No. AS2178838, Black
Part No. AS2192838, White
Part No. AS2102838, Clear

INDUSTRIAL CHOICE PRECISION-LINE INVERTED MARKING CHALK

•For temporary marking •Can be easily removed with a stiff brush •Features a precision line spray tip for vivid, easy to read marking •Virtually no overspray for precise lines •Lasts up to 30 days when exposed to traffic and weathering •Fast dry formula •Easy to use spray through cap guaranteed not to clog •Typical Applications: Locating utilities, surveying, construction sites, excavation sites, golf courses, athletic fields, landscape marking

Available Colours 17oz. Aerosol

Part No. 205236, APWA Blue
Part No. 205238, APWA Green
Part No. 205234, APWA Yellow
Part No. 205233, APWA Orange
Part No. 205235, APWA Red
Part No. 205237, APWA White

INDUSTRIAL CHOICE PRECISION-LINE INVERTED MARKING PAINT

•Features a precision line spray tip for easy to read, bright, vivid markings •Marks more linear feet than the competition •Virtually no overspray •Can be applied down to 25°F (-4°C) •Dries in less than 5 minutes •Easy to use, spray through cap guaranteed not to clog •"No mess" spray tip keeps paint off fingers •Locking tip keeps tip from popping off •Use with Rust-Oleum marking wand or pistol •Best resistance against premature chalking and fading •Typical Applications: Utility locating, surveying, construction sites, excavation sites, landscapes marking

Available Solvent Based Colours 17 oz. Aerosol

Part No. 203022, Caution Blue
Part No. 203024, Caution Yellow
Part No. 203025, High Visibility Yellow
Part No. 203026, Alert Orange
Part No. 201516, APWA Orange
Part No. 1634838, Safety Green
Part No. 1668838, Safety Purple
Part No. 203029, Safety Red
Part No. 1669838, Fluorescent Purple
Part No. 1662838, Fluorescent Red
Part No. 203028, Fluorescent Red-Orange
Part No. 203023, Fluorescent Green
Part No. 203027, Fluorescent Orange
Part No. 1661838, Fluorescent Pink
Part No. 1675838, Black
Part No. 203030, White
Part No. 1601838, Clear

Available Water Based Colours 17 oz.

Part No. 203031, Caution Blue
Part No. 203033, Caution Yellow
Part No. 203034, High Visibility Yellow
Part No. 203035, Alert Orange
Part No. 1834838, Safety Green
Part No. 1868838, Safety Purple
Part No. 203038, Safety Red
Part No. 1869838, Fluorescent Purple
Part No. 1862838, Fluorescent Red
Part No. 203037, Fluorescent Red-Orange
Part No. 203032, Fluorescent Green
Part No. 203036, Fluorescent Orange
Part No. 1861838, Fluorescent Pink
Part No. 1875838, Black
Part No. 203039, White
Part No. 1801838, Clear

INDUSTRIAL CHOICE ALKYD ENAMEL

•A general purpose, modified alkyd enamel •Withstands mild chemical fumes and spills •Hard finish resists chipping, cracking and peeling •Good gloss retention •Provides good hiding and smooth coverage •Multi purpose indoor/outdoor coating •Typical Applications: Machinery, handrails, doors, tools, trim, drums, piping, cabinets

Available Colours 1 Gallon

Part No. 207839, Beige
Part No. 207837, True Blue
Part No. 207840, John Deere Green
Part No. 207835, Hunter Green
Part No. 207841, New Caterpillar Yellow
Part No. 207842, Old Caterpillar Yellow
Part No. 206287, Banner Red
Part No. 206288, Machine Green
Part No. 206301, Safety Blue
Part No. 206303, Safety Yellow
Part No. 207836, Safety Orange
Part No. 206304, Safety Red
Part No. 206300, Universal Gray
Part No. 206302, Aluminum
Part No. 206283, Glossy Black
Part No. 207838, Ultra Flat Black
Part No. 206285, Glossy White
Part No. 208118, Silver Gray
Part No. 206282, Gray Primer

Available Colours 5 Gallon

Part No. 206284, Glossy Black
Part No. 206286, Glossy White

INDUSTRIAL CHOICE DTM ACRYLIC

5200 System •A low VOC acrylic water based dispersion •Low odour, water based coating •Direct to metal •Resists chalking and fading •Withstands mild chemical fumes and spills •Indoor/outdoor •Brush, roll and spray with ease •Typical Applications: Food processing plants, schools, offices, restaurants, prisons

Available Colours & Products 1 Gallon

Part No. 5281402, Gray Primer
Part No. 5269402, Red Primer

INDUSTRIAL CHOICE SHOP COAT PRIMER

•A fast drying modified alkyd •Low cost metal protection •Brush for touch up application only •Excellent adhesion on structural steel and fabricated metal

Available Products

Part No. 206329, Red Primer, 1 gallon
Part No. 206330, Red Primer, 5 gallon
Part No. 206331, Gray Primer, 1 gallon
Part No. 206332, Gray Primer, 5gallon

INDUSTRIAL CHOICE CLEAR BLUE UNDERCOAT

•Thermoplastic acrylic bonding agent •An ideal undercoating to help adhesion of subsequent topcoats •Promotes adhesion on clean, extremely smooth surfaces •Must be topcoated after one-hour flash off time •Excellent for priming galvanized steel

Available Products

Part No. 3202502, 1 quart

INDUSTRIAL CHOICE MULTI PURPOSE EPOXY

3600 System •A general purpose high solids, two component epoxy coating •Applies direct to metal and to tightly adhered rusted metal •Excellent long term solvent, chemical and abrasion resistance •Excellent corrosion protection •Multi purpose indoor/outdoor coating •Typical Applications: Steel beams, machinery, equipment

Available Colours & Products 1 Gallon

1st Component:
Part No. 206968, Safety Yellow
Part No. 206970, Dove Gray
Part No. 206967, Universal Gray
Part No. 206969, Glossy Black
Part No. 206971, Glossy White
2nd Component:
Part No. 206976, Epoxy Activator
Part No. 206977, Primer Activator
Part No. 206975, Rust Inhibitive Gray Primer

INDUSTRIAL CHOICE ACRYLIC ALIPHATIC URETHANE

3300 System •A general purpose, two component acrylic polyurethane coating •Good resistance against chemical fumes and spills •Hard finish resists chipping, cracking and peeling •Excellent colour and gloss retention •Excellent corrosion protection •Multi purpose indoor/outdoor coating •Typical Applications: Outdoor equipment, water tanks, structural steel, cinderblock walls

Available Colours & Products 1 Gallon

1st Component:
Part No. 207957, Safety Blue
Part No. 207956, Safety Yellow
Part No. 207958, Safety Red
Part No. 206915, Dove Gray
Part No. 206917, Glossy Black
Part No. 206916, Glossy White
2nd Component:
Part No. 206879, Urethane Activator

Concrete Saver Floor Coatings

CONCRETE SAVER ANTI-SLIP LOW PROFILE EPOXY
AS6000 System •Two component, water based epoxy •Formulated for barefoot and light recreational pedestrian traffic, wet areas and occasional spills of mild chemicals •Low, wavy profile for interior and exterior areas •Low VOC •Low odour •Coefficient of friction - Dry: 0.78, Wet: 0.86 •Typical Applications: Pool areas, locker rooms, showers, laundries, walkways
Available in 1 Gallon Kits (activator & base contained in one carton)
Part No. AS6086425, Navy Gray
Part No. AS6082425, Silver Gray

CONCRETE SAVER ANTI-SLIP ONE-STEP EPOXY
AS5400 System •Single component epoxy, pedestrian grade, anti-slip floor coating •Ridged profile to handle heavy foot traffic and/or light vehicle traffic •One step application •Withstands intermittent spills of mild chemicals, occasional steam and chemical cleaning •Indoor/outdoor •Unused portion can be resealed for future use •Contains aluminum oxide aggregate •Coefficient of friction - Dry: 1.17, Wet: 1.00 •Typical Applications: Floors, ramps, decks, entrances, step bumpers, treads, stairs
Available Colours 1 Gallon
Part No. AS5471402, Dunes Tan
Part No. AS5468402, Tile Red
Part No. AS5444402, Safety Yellow
Part No. AS5486402, Navy Gray
Part No. AS5482402, Silver Gray
Part No. AS5479402, Black

CONCRETE SAVER ANTI-SLIP HIGH PERFORMANCE EPOXY
AS9100 System •Two component, heavy duty, anti-slip epoxy floor coating •Highly ridged profile can endure heavy vehicle and equipment traffic •Excellent chemical and abrasion resistance •Formulated for heavy wear, frequent power cleaning and constant high humidity •Coefficient of friction - Dry: 1.05, Wet: 1.05 •Typical Applications: Indoor/outdoor vehicle routes, forklift traffic areas, loading docks, stadium ramps, walkways
Available in 1 Gallon Kits (activator & base contained in one carton)
Part No. AS9171425, Dunes Tan
Part No. AS9168425, Tile Red
Part No. AS9144425, Safety Yellow
Part No. AS9186425, Navy Gray
Part No. AS9182425, Silver Gray

CONCRETE SAVER ANTI-SLIP 100% SOLIDS EPOXY
AS6500 System •Two component, 100% solids epoxy •Extra heavy duty, highly chemical resistant anti-slip floor coating •Highly ridged profile can endure continuous vehicle and equipment traffic •Superb chemical and abrasion resistance •Formulated for continuous heavy wear, regular power cleaning and constant high humidity •Low odour formula ideal for confined, low ventilation areas •Coefficient of friction - Dry: 1.10, Wet: 1.00 •Typical Applications: Food processing and preparation areas, meat packing and poultry operations, breweries, wineries, bakeries, bottling plants and hospitals
Available in 1 Gallon Kits (activator & base contained in one carton)
Part No. AS6586425, Navy Gray
Part No. AS6582425, Silver Gray

RUST-OLEUM

Sierra Performance Coatings

GLOSS CONCRETE EPOXY FLOOR COATING
S40 •A two component, water based concrete enamel •Ideal for interior applications on concrete floors with light to medium vehicle traffic and occasional mild chemical spills •Tough high gloss finish provides excellent durability •Highly resistant to most chemicals and abrasion •Fast dry—tack free in 30 minutes •Can accept light traffic in 24 hours •Easy to use with professional results •Multiple coats can be applied in one day •Ideal for use in institutions, warehouses, schools, healthcare, food service, office buildings, hotels or in any area where paint odours or VOCs could be a problem
Available Colours & Products 1 Gallon

1st Component:

2nd Component:
Part No. S6501410, Activator
Part No. S6502410, Penetrating Prime and Seal Primer Activator

CONCRETE SAVER CLEAR WATER-BASED POLYURETHANE
6711 Clear Water-Based Polyurethane •Single component, oil modified water borne polyurethane dispersion •Can be used as a clear, glossy sealer for concrete •Can be used as a gloss topcoat over anti-slip coatings •Designed for interior and exterior concrete and wood floors •Gloss finish stands up to light traffic, weather and staining •Low VOC—196 g/l •Typical Applications: Wood floors and concrete floors, such as in gymnasiums, where a hard natural finish is desired
Available Colours 1 Gallon
Part No. 6711402, Clear

TURBOKRETE® CONCRETE PATCHING COMPOUND

•High performance, 100% solids epoxy patch kit •Repairs damaged concrete, fills deep holes, and protects against abrasion, impact and most chemicals •Restores damaged curbs and severely spalled floors •3-4 times stronger than concrete •Easy mix, trowel applied fast cure formula

Part No. 5494323, 0.3 cu ft. kit.

200 ANTI-SKID FLOOR COATING ADDITIVE

•Specially refined aggregate provides increased skid resistance •Formulated for use with our 6000 System Water-Based Epoxy or 6500 System 100% Solids Epoxy •Can be added directly to the liquid coating or broadcast over the final finish

Part No. 200504.

108 CLEANING & ETCHING SOLUTION

•Dual action solution—cleans and etches •Helps dissolve grease, dirt and oil; then etches concrete for improved coating adhesion •Covers approximately 400 sq. ft. of concrete with just one pre-mixed ready to use gallon

Part No. 108402.

DECORATIVE VINYL CHIPS

•Use with 6500 and 6000 Systems for a decorative finish •1 lb. bags

Part No. 205220, Black/White

Part No. 205177, Black/White/Blue

Part No. 205178, Blue/White

Part No. 205179, Black/White/Gray

PURE STRENGTH® CLEANER/DEGREASER

•Ready to use general purpose cleaner/degreaser •Extremely effective for preparing surfaces prior to painting •Typical Applications: Walls, floors, machinery, dip tanks and equipment

Available Products

Part No. 3590402, 1 gallon

Part No. 3590300, 5 gallon

PURE STRENGTH® CONCENTRATED CLEANER/DEGREASER

•Powerful, heavy duty water soluble cleaner/degreaser •Non caustic, non abrasive •Removes grease and oil •Prepares surfaces prior to painting •Non aerosols meet Air Pollution Control regulation 31 for general purpose cleaners •Typical Applications: Walls, floors, machinery, dip tanks and equipment

Available Products

Part No. 3599507, 1 quart

Part No. 3599402, 1 gallon

Part No. 3599300, 5 gallon

Part No. 3599100, 55 gallon

Part No. 3599838, 14 oz. Aerosol

Pure Strength. Cleaner/Degreaser

ROAD WARRIOR PROTECTIVE TRUCK BED COATING

Rust-Oleum Road Warrior Protective Truck Bed Coating Kit adds a textured, two-component rubberized epoxy coating to truck beds. Apply to Truck Beds, Trailer Undercoatings, Stairs, Ramps and much more...

Prevents rust and provides abrasion, chemical and impact resistance. Fast-drying, indoor/outdoor, durable, corrosion resistant.

Part No. 7705-498, Black, gallon kit.

EPOXY SHIELD™ GARAGE FLOOR KITS

Showroom quality garage floor. Long-lasting performance - Protects against gasoline, antifreeze, motor oil, salt and hot tire pick-up. Easy to keep clean. Easy to apply - Water based for low odor and easy clean up. Kit includes: 2 part epoxy floor system, concentrated cleaner, decorative chips, stir stick, detailed instructions and instructional video

Available Colours

Part No. 203005, Gray

Part No. 203006, Tan

EPOXY SHIELD™ INDUSTRIAL FLOOR KIT

Industrial toughness for the most demanding environments. Strengthens and protects factory, garage and commercial floors and walls. Withstands splash and spillage of mild acid, gasoline, brake fluid, oil and other automotive chemicals. Helps prevent concrete chipping, cracking and dusting. Use on floors and walls in: factories, workshops, warehouses, garages, stairways, hallways. Kit includes: 2 gallons of floor coating, decorative colour chips and detailed instructions.

Available Colours

Part No. 203373, Silver Gray Semi-Gloss

RUST-OLEUM EPOXY Shield

Janitorial Supplies

GLADIATOR SERVICE UTILITY CART

For the warehouse, the garage — any place a rugged cart is needed. Easy to clean structural plastic for industrial, medical, and food service use. 3" deep leak-proof top tray plus a 3" deep bottom shelf. 2 swivel and 2 fixed 5" casters and a comfortable push handle. Easy assembly. Optional middle tray shelf is available as well as a utility bin for tools, markers, pencils, rulers, etc.

Part No. CA1900, 2 shelf cart with 5" casters.
Part No. CA1902, Middle shelf for cart.
Part No. CA1903, Bin box for 2 shelf cart.

CA1900

CA1900 w/ CA1902 installed

CA1903

PLASTIC MOP BUCKET COMBO

26-32 quart bucket and wringer combination. 3" non-marking ball bearing casters for smooth movement. Molded graduations for accurate measurements. Yellow.
Part No. MA2633-YE.

UTILITY PAILS

High impact plastic with sturdy handle for easy carrying. Stackable. Snap-on cone wringer is ideal for yacht mops.
Part No. MI70, Heavy duty bucket only, 11 quart capacity.
Part No. MI75, Cone wringer for #MI70.
Part No. BU10721W, Heavy duty double bucket with sliding cone wringer and wheels, 14 litre capacity.

MI70 & MI75

BU10721W

MINI-POUR™ BUCKET

Strong durable plastic. Tapered body helps to empty bucket. Stackable. With ergonomic handle. 10 litre capacity. Blue.
Part No. 10-1200-BL.

WASTE BASKET

Rectangular waste basket. 9" x 11" x 13". Beige.
Part No. WB2815.

GLADIATOR PLASTIC GARBAGE CONTAINERS

Strong construction. Crush resistant, rugged, and durable. Colour is molded into the plastic, will not chip, dent, or crack. Lids snap with a tight fit securely in place. Grey.
Part No. GB2020G, 20 gallon.
Part No. GB2020LG, Lid for 20 gallon.
Part No. GB3232G, 32 gallon.
Part No. GB3232LG, Lid for 32 gallon.

C PRO™ NARROW BAND COTTON CUT END WET MOP HEADS

Top grade cotton for a very durable and absorbent wet mop. Pre-soak prior to use in order to maximize its effectiveness. 2 row stitched, band width 1-1/4".
Part No. MP3P20, 20 oz., green.
Part No. MP3P24, 24 oz., yellow.
Part No. MP3P32, 32 oz., orange.

C PRO™ WIDE BAND COTTON CUT END WET MOP HEADS

Top grade cotton for a very durable and absorbent wet mop. Pre-soak prior to use in order to maximize its effectiveness. 6 row stitched, band width 5".
Part No. MP3P20WB, 20 oz., green.
Part No. MP3P24WB, 24 oz., yellow.
Part No. MP3P32WB, 32 oz., orange.

THE LOOPER™ LOOPED END NARROW BAND WET MOP HEADS

Hospital launderable. A blend of yarn that enables superior absorbency while withstanding repeated laundering and eliminating linting. Looped end construction, fan tail design for maximum floor coverage. 4 row stitched, band width 1¾". White.
Part No. MPLMSWH, Small.
Part No. MPLMMWH, Medium.
Part No. MPLMLWH, Large.
Part No. MPLMXLWH, Extra large.

THE LOOPER™ LOOPED END WIDE BAND WET MOP HEADS

Hospital launderable. A blend of yarn that enables superior absorbency while withstanding repeated laundering and eliminating linting. Looped end construction, fan tail design for maximum floor coverage. 6 row stitched, band width 5". White.
Part No. MPLMLWWH, Large.

SENTREX™ NARROW BAND SYNTHETIC/RAYON CUT END WET MOP HEADS

Superior synthetic/rayon blended mop has a longer life expectancy. Do not require pre-soaking. 4 row stitched, band width 1¾".
Part No. MP4PS20, 20 oz., green.
Part No. MP4PS24, 24 oz., yellow.
Part No. MP4PS32, 32 oz., orange.

SENTREX™ WIDE BAND SYNTHETIC/RAYON CUT END WET MOP HEADS

Superior synthetic/rayon blended mop has a longer life expectancy. Do not require pre-soaking. 6 row stitched, band width 5".
Part No. MP4PS20WB, 20 oz., green.
Part No. MP4PS24WB, 24 oz., yellow.
Part No. MP4PS32WB, 32 oz., orange.

SILKY™ FLOOR FINISHING MOP HEADS

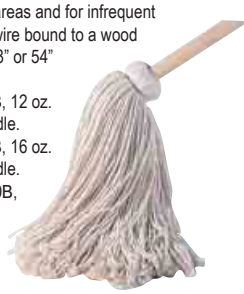
Lint free pre-shrunk finishing mop leaves floors streak free with approximately 25% more shine due to its lint free yarn. Narrow band looped end construction gives longer life and larger floor coverage area.
Easily cleaned and air dried. White.
Part No. FFSILKY16, Finishing mop.
Part No. FF-SILKY20, Waxing mop.

LAUNDRY NET

Polyester mesh bag with drawstring locking closure — for laundering wet mops and dust mops to avoid tangling. 24" x 36". White.
Part No. MILN1020.

COTTON YACHT MOPS

Perfect for small areas and for infrequent users. Securely wire bound to a wood handle in either 48" or 54" length.
Part No. YMY12B, 12 oz. mop with 48" handle.
Part No. YMY16B, 16 oz. mop with 48" handle.
Part No. YMHY20B, 20 oz. mop with 54" handle.



SNAP-N GO™ MOP HANDLE
Will accommodate either narrow or wide band mops. Features a unique lever which gives a new meaning to "hands free". Snap lever open to insert new mop head or discard soiled one. 60" fibreglass handle.
Part No. MH7000F.

JAWBREAKER™ MOP HANDLE
Lock jaw allows for fast and easy release of mop simply by unscrewing the collar. Recommended for wide band mops. 1" x 60" blue fibreglass handle.
Part No. MH160F-BL.

METAL MOP HANDLE
Economical quick change mop handle is designed for both narrow and wide band mops of any size. Zinc plated metal parts to retard corrosion, wing nut and pressure plate are brass plated to eliminate rusting. 1-1/8" x 54" x 7" head with wood handle.
Part No. MH145W.

FLOOR SIGNS
Bright yellow floor signs communicate the necessary warning message for safety. Two sided, 28" tall.
Part No. MI7003, French/English "Caution Wet Floor/Attention Plancher Mouillé".
Part No. MI7005, English "Caution Wet Floor".

LAMBSWOOL DUSTER
100% lambswool, a natural fibre that requires no spray and protects from scratching and streaking. May be laundered with mild soap. 42" long telescopic duster.
Part No. MI525.

FLAT "STICKY" SYSTEM FOR WALL WASHING
Flat "Sticky" holder made of durable plastic with universal locking device allows the use of any standard handle. Unit measures 3-3/4" x 9" and features 360° swivel action. Versatile "sticky" holder features more teeth — like pegs that securely holds wall washing pad or utility scouring pad firmly in place. When used with the launderable cotton washing pad, this is ideal for washing walls, baseboards, and floors. Use the utility pads for scrubbing walls, floors, etc.
Part No. WI17-048, Flat "Sticky" holder only.
Part No. WI17-100, "Sticky" cotton wall washing pad - cut end.
Part No. MIUTPBRO, 10 x 4-5/8" brown utility pad, heavy duty.
Part No. MIUTPBLA, 10 x 4-5/8" black utility pad, coarse.
Part No. MIUTPBLU, 10 x 4-5/8" blue utility pad, medium.

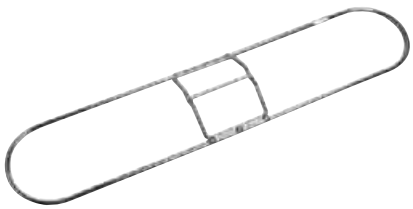
TIE-ON COTTON DUST MOPS
Absorbent and economical. 4 ply high quality cotton yarn that is sewn onto a durable polyester backing. Tie-on style, 5" wide. Natural colour.
Part No. DM518C, 18".
Part No. DM524C, 24".
Part No. DM530C, 30".
Part No. DM536C, 36".

TIE-ON DUST MOP FRAMES
Galvanized metal wire. Frames come complete with 60" handle and feature 360° swivel. For 5" series tie-on mops.
Part No. DTC0524, 24".
Part No. DTC0530, 30".
Part No. DTC0536, 36".

TIE-ON "HI STAT" DUST MOPS
Offers the ability to remove dust without the need for expensive and potentially hazardous dust mop treatments. Special blended yarn is sewn onto a durable polyester backing. Withstands heavy use and repeated commercial laundering without fraying, tangling, etc. 5" wide. Blue.
Part No. DM524N-BL, 24".
Part No. DM530N-BL, 30".
Part No. DM536N-BL, 36".

BREAKAWAY "HI STAT" DUST MOPS
Offers the ability to remove dust without the need for expensive and potentially hazardous dust mop treatments. Special blended yarn is sewn onto a durable polyester backing. Withstands heavy use and repeated commercial laundering without fraying, tangling, etc. 5" wide. Red.
Part No. DMBA518NRD, 18".
Part No. DMBA524NRD, 24".
Part No. DMBA536NRD, 36".
Part No. DMBA548NRD, 48".

SNAP-ON CLAMP STYLE DUST MOP FRAMES
For 5" tie-on dust mops. Frame only.
Part No. DTSN524F, 24".
Part No. DTSN536F, 36".



BREAKAWAY STYLE DUST MOP FRAMES
For 5" dust mops. Its unique foot pedal release means that there is never any need to touch a soiled mop again. 60" handle.
Part No. DTBA518, 18".
Part No. DTBA524, 24".
Part No. DTBA536, 36".
Part No. DTBA548, 48".

COMBINATION SYNTHETIC FILL PUSH BROOM — MEDIUM SWEEPING

Black polypropylene border surrounds the stiff red polypropylene centre which effectively combines medium sweeping of heavier debris. Not affected by water, grease, oil, and most chemicals. Handles sold separately.
Part No. BR216RB18, 18".
Part No. BR216RB24, 24".
Part No. BR216RB36, 36".

BASSINE FILL PUSH BROOM — COARSE SWEEPING

Coarse natural bassine fibre is long wearing and sweeps the most stubborn soils effectively on both wet and dry surfaces. Handles sold separately.
Part No. BR217BF18, 18".
Part No. BR217BF24, 24".

GARAGE PUSH BROOM — COARSE SWEEPING

Durable heavy duty polystyrene makes this broom ideal for sweeping the heaviest soils on rough surfaces in wet or dry applications. Handles sold separately.
Part No. BR224G18, 18".
Part No. BR224G24, 24".
Part No. BR224G36, 36".

STREET/BARN PUSH BROOM — COARSE SWEEPING

For extra rough surfaces, heavy debris and all heavy duty wet and dry applications. Block has 2 tapered handle holdes. For constant outdoor sweeping and scrubbing. Handles sold separately.
Part No. SB225P16, 16".

BROOM BRACE

Metal construction. Connects quickly and easily. Long rod style.
Part No. MI351.

THREADED HANDLE

54" x 15/16" threaded lacquered handle.
Part No. FH354.

METAL TIP HANDLES

For rugged uses. Wood handle/metal tip.
Part No. FH354MF, 54" x 15/16".
Part No. FH360MF, 60" x 15/16".

FIBREGLASS HANDLE

Durable and hygienic fibreglass with nylon standard threaded tip guaranteed not to absorb moisture and bacteria. 54" x 15/16". Blue.
Part No. FH354FB-BL.

TAPERED HANDLE

Hardwood tapered handle. 54" x 15/16".
Part No. FH354WT.

EXTENSION HANDLES

Great for use with any cleaning tool for high or hard to reach areas. With tip and hanger cap.
Part No. FH354EX, Threaded tip, extends to 54".
Part No. FH372EX-NT, Non threaded tip, extends to 72".

FLOW THROUGH HANDLE

Unique 60" fibreglass handle attaches to hose. Threaded end attached to a brush provides you with the added advantage of supplying a continual flow of water for any cleaning application. Yellow.
Part No. FH260FL.

MAGNETIC BROOM

Made of colourful long lasting flagged PVC fibre which is staple set in an industrial large curved plastic block and comes complete with 48" handle. Can be rinsed clean and will dry quickly.
Part No. MB100LP.

RAIL & SWITCH BROOMS

Constructed of polypropylene fibres that are unaffected by water, acids, oils, and most chemicals and do not harbour bacteria. Stiff brown fibre. Handle included.
Part No. CB111.
Part No. CB112, With chisel.

UPRIGHT INDUSTRIAL CORN BROOMS

Bound with polyester stitching and a heavy duty galvanized wire band for long life. For wet or tough sweeping, indoors or out.
Part No. CB107C, Warehouse 3 string, 1 wire corn broom.
Part No. CB110, Yard 1 string, 3 wire w/ cane centre corn broom.
Part No. CB500, 1 wire, 4 string - 50/50 corn broom.

LARGE CORN WHISK

With 3 strings and metal cap w/ hook.
Part No. CB102.

TOOL BRACKETS

Part No. TL100, Single clip holder only.
Part No. TL103, 3 clip tool bracket - 18" bar.
Part No. TL105, 5 clip tool bracket - 36" bar.

MARINO™

LOBBY DUST PAN
Plastic. No bending necessary.
Part No. MI800.

DUST PAN
12" heavy duty plastic dust pan, black.
Part No. MA614.

DUST PAN w/ COUNTER BRUSH
Fine line edged for maximum pick-up.
Part No. MI206D.

LITTER SCOOP
Part No. FR1171, With bag.
Part No. FR1171-500, Bag only.

BANISTER/COUNTER BRUSH
7" wood block w/ Tampico fill. Tampico fibre is a natural long wearing fibre that is considered ideal as an all purpose brush for any surface.
Part No. AB206T.

BI-LEVEL WINDOW/BASEBOARD BRUSHES
Stiff yellow bristles for aggressive scrubbing.
Part No. 60707.

ROUND WINDOW/BASEBOARD BRUSH
White Tampico bristles are staple set to form a plastic block that has two standard threaded holes.
Part No. AB205RWT.

VEHICLE BRUSHES
Blocks come with standard threaded hole with flow through design for attaching a flow through handle. Great for vehicles, windows, siding, and walls.
Part No. AB300F, 10" with green high density flagged fill.
Part No. AB300AR, 10" with grey and white acid resistant fill.

WINDOW BRUSH
8" block with white Tampico fill that is acid resistant and ideal for medium to heavy scrubbing on smooth surfaces. With standard threaded hole that features flow through design for attaching a flow through handle.
Part No. AB205WT.

UTILITY DECK SCRUB BRUSH
11" sanded hardwood block with tapered handle hole. For light to heavy scrubbing of floor surfaces, wood or grouted tiles, smooth and rough surfaces. Features a heavy duty neoprene squeegee blade that is securely attached and allows for quick water removal. Bassine fill.
Part No. AB226B.

HAND SCRUB BRUSH
9" wood block with white Tampico fill ideal for light scrubbing, and won't scratch.
Part No. AB229HWT.

UTILITY POT BRUSH
Stiff bristles, long handle, white polyproylene. 2" fibres. For tough scrubbing in kitchens, hospitals, hotels, etc. 20" handle.
Part No. AB210LW-WH.

BRASS BARBECUE/GRILL BRUSH
Sturdy plastic handle, brass fibres, non-slip grip. For grills, ovens, etc. 18" handle.
Part No. BQ08101.

CARPET SPOTTING BRUSH
For scrubbing stains around your home and workplace.
Part No. 3772.

"SEAL PRO" DRIVEWAY SEALER TOOL
Ideal for applying blacktop or sealer to ashphalt or concrete driveways and pathways. The fibers quickly spreads the sealer while the squeegee quickly gives a smooth finish. 18" long. Handle sold separately.
Part No. FS1800.

SCOURING PADS
Great for heavy duty scrubbing. 6 x 9½", green.
Part No. MIHSPI.

MARINO™

TRIGGER SPRAYER
Adjustable blue and white trigger sprayer with 9" tube. Bottle not included.
Part No. TS5912-9.

24 oz. polyethylene bottle for use with #TS5912-9.
Part No. TS289-PL.

ACRYLIC BOWL SWAB
Made from the finest acid resistant acrylic yarn securely attached to a strong plastic handle. Releases liquid quickly, eliminating dripping.
Part No. MI209.

BOWL BRUSHES
Contoured to facilitate scrubbing and cleaning of toilet bowl and under rim. Polypropylene fibre staple set into a plastic handle.
Part No. MI203, Bowl brush and holder.
Part No. MI204, Bowl brush only.

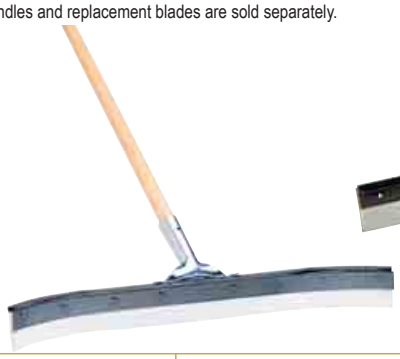
METAL FRAME FLOOR SQUEEGEES

Straight or curved styles. Heavy metal frames are zinc plated for corrosion resistance. Non-marking blades are secured in place with sturdy rust resistant screws. Designed for universal use. Handles and replacement blades are sold separately.

Part No. FS55618, 18" grey/white PVC complete head, straight.
Part No. FS55624, 24" grey/white PVC complete head, straight.
Part No. FS55630, 30" grey/white PVC complete head, straight.
Part No. FS55636, 36" grey/white PVC complete head, straight.

Part No. FS55724, 24" grey/white PVC complete head, curved.
Part No. FS55736, 36" grey/white PVC complete head, curved.

Part No. FS556R18, 18" grey/white PVC refill, for straight or curved.
Part No. FS556R24, 24" grey/white PVC refill, for straight or curved.
Part No. FS556R30, 30" grey/white PVC refill, for straight or curved.
Part No. FS556R36, 36" grey/white PVC refill, for straight or curved.



WIPE 'N CLEAN (MUS) FLOOR SQUEEGEES

Multi-functional floor squeegees. Ideal for patios, decks, garages, basements, driveways, and restaurants. Removes water build-up quickly. Handles sold separately.
Part No. FS18SB, 18" MUS, black, standard.
Part No. FS22SB, 22" MUS, black, standard.
Part No. FS30HB, 30" MUS, black, heavy duty.

WIPE 'N CLEAN PLASTIC (MUS) FLOOR SQUEEGEE W/ SCRUB

22" double MUS floor squeegee and scrub in one. Handle sold separately.
Part No. 60401.

CAR/WINDOW SQUEEGEE

Gentle scrubber with durable rubber squeegee.
Part No. WS09100, 10" head with 20" handle.

WINDOW WASHER

With abrasive strip, plastic T-handle. 14".
Part No. PUV30035.

BRASS WINDOW SQUEEGEE

Brass window squeegee complete. 14".
Part No. PUT35014.

"SCRAP" FLOOR/WINDOW SCRAPER

Plastic 5½" handle.
Part No. PUR01510.

TELESCOPIC POLE

3 piece, 20 ft. total length.
Part No. PUP03600.

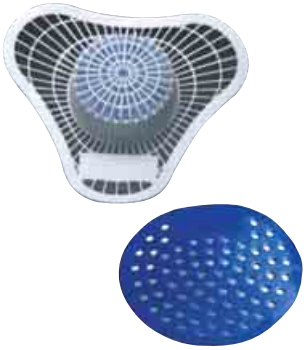
MARINO™

AIR FRESH GEL DISPENSER

Wall mounted and attractively designed with light sensitive photo-electric eye to automatically turn unit on and off. Provides a fresh, fragrant atmosphere 24 hours a day. Set in automatic or manual (on/off) mode. Controls odours up to 3500 cubic feet; fragrance gel refill lasts up to 30 days. Requires 2 "D" batteries.
Part No. AF-180M, Air freshener with light and LED sensor.
Part No. AF09101, Gel refill, cherry.
Part No. AF09102, Gel refill, apple.
Part No. AF09104, Gel refill, mint.

URINAL SCREENS

Simply place plastic screen with open end against centre of urinal. Upon flushing the urinal, the water dissolves a portion of the waxy composition contained in the block, releasing its bacteriostatic ingredients and refreshing scent. Lasts a minimum of 30 days.
Part No. CU40, Urinal screen with non-Para block.
Part No. CU50, Urinal screen with Para block.
Part No. MIUS-2, Urinal screen without block, bubble gum scent.



NIPPERS

40" "Nippers" are ergonomically designed to eliminate constant bending when picking up debris in parking lots, etc. Also a perfect tool for the removal of urinal screens and other objectionable objects.
Part No. PUWO2100.

ALL PURPOSE PLUNGER

Rubber cup provides a snug fit to all types of sinks, drains, and toilets. Its strong suction allows for the movement of all types of stoppages. Black with plastic handle.
Part No. PL2025.

MARINO
Janitorial Supplies

SOAP DISPENSER
Can be filled with liquids such as hand soap, body cleansers, shampoo, and more. Constructed of ABS plastic. Push-style design. Complete with empty 900 ml capacity refillable container.
Part No. SD400.

COMBINATION TOWEL DISPENSER
White. Accepts rolls to 6" diameter or single fold to 10" wide. 9-¾"H x 10½"W x 6¾"D.
Part No. WC101.

TOILET TISSUE HOLDERS
Single roll, chrome. 6-3/8"W x 3-1/8"H x 4-1/4"D.
Part No. WC146.

Double roll, chrome. 12-5/8"W x 3-1/8"H x 4-1/4"D.
Part No. WC150.

FROST
Sanitation Accessories

ROLL & SINGLE FOLD DISPENSER
White. Universal towel dispenser will accept all standard single fold and roll towels (max. 6" diameter and up to 10" wide).
Part No. 101.
Part No. 101-1, with keyed tumbler lock.

JUMBO ROLL TOWEL DISPENSER
White. Offers maximum towel capacity in a compact unit. Universal towel dispenser will accept all standard roll towels (max. 7-1/8" diameter and up to 8" wide). This includes almost all 425 ft. jumbo rolls and the Scott 500 ft. rolls. Comes with keyed tumbler lock.
Part No. 101J.

MULTIFOLD TOWEL DISPENSER
White. Compact size. The unit opening will dispense multifold and "C" fold towels. Comes with keyed tumbler lock.
Part No. 105.

CONTROL ROLL TOWEL DISPENSER
Designed to dispense Jumbo 8" diameter (4" reserve roll) x 8" wide towels. Controlled delivery is easy with push action lever. Comes with keyed tumbler lock.
Part No. 109-50W, white.
Part No. 109-50P, smoked transparent plastic front.

HANDS FREE TOWEL DISPENSER
White. Designed to dispense jumbo roll towels max. 8" diameter (1½ - 2" cores). Large detection zone senses hand when placed in a natural position under dispenser to deliver a 12" length of towel. Operates with 4 "D" size alkaline batteries.
Part No. 109-70W.

STANDARD ROLL DISPENSER
Polished chrome finish. Designed for standard 11" rolls. All welded construction of 18 ga. steel. Pivot arm hinges on hardened steel rivets. Tension springs restrict paper consumption. Concealed locking device.
Part No. 126.

Sanitation Accessories

ROLL TOILET TISSUE DISPENSERS
Polished chrome finish. Tension springs restrict paper consumption to prevent free wheeling of roll. Concealed self locking device.
Part No. 146, single roll.
Part No. 150, double roll.

RESERVE ROLL TOILET TISSUE DISPENSERS
Stainless steel. Dispenses all standard toilet tissue rolls. Dispenses its reserve second roll after the first roll is empty. Comes with keyed tumbler lock.
Part No. 165.

JUMBO TOILET TISSUE DISPENSERS
White. Designed to dispense 10" or 13" roll maximum with 2-1/4" to 3" spindle diameter. Comes with keyed tumbler lock.
Part No. 166, 10" roll.
Part No. 168, 13" roll.

TABLE NAPKIN DISPENSER
Polished chrome finish. Table napkin dispenser. Will accept all standard napkins.
Part No. 195.

FREE STANDING WASTE RECEPTACLES
Can be used in almost any applications. The medium and small units fit under most countertops. The all metal construction is ideally suited for fire protection and rugged use. Rounded soft edge design. All welded construction of 22 gauge cold rolled steel. Comes with standard bag holder apparatus. White finish.
Part No. 302-NL, Small, 26-3/4" high (68cm).
Part No. 301-NL, Medium, 34-3/4" high (88cm).
Part No. 300-NL, Large, 42" high (109cm).

FREE STANDING WASTE RECYCLING RECEPTACLE
Part No. 301R-NL, Medium, 34-3/4" high (88cm), recycling blue finish.

OPTIONAL LINERS
Optional light weight 26 gauge galvanized steel liner provides extra fire protection.
Part No. 300-500, liner for 300-NL.
Part No. 301-500, liner for 301-NL.
Part No. 302-500, liner for 302-NL.

WALL MOUNTED WASTE RECEPTACLE
Designed to conserve floor space in medium to light duty areas. All steel construction offers maximum fire protection with no openings on sides or bottom of unit. Comes with standard bag holder apparatus. White finish.
Part No. 303-NL, 33" high (85cm).

Part No. 303-500, optional galvanized liner.

FREE STANDING ASH URNS
Ash urn 18" high. Stainless steel top with black body, 18 ga. cold roll steel.
Part No. 914.

TANK TYPE LIQUID SOAP DISPENSER
Drawn and welded construction of 20 ga. stainless steel. Easy refill at top. All purpose valve. Keyed lock filler cap. Lucite soap level indicator window. All mounting screws concealed.
Part No. 708A, vertical mounting.
Part No. 710A, horizontal mounting.

GRAVITY FED LIQUID SOAP DISPENSER
Chrome plated gravity fed push up type liquid soap valve. Globe screws into wall bracket and valve. Recommended for use with coconut oil base, easy flowing liquid soaps.
Part No. 700.

HALF MOON WALL URNS
8" diameter. Satin chrome finish. Half moon wall urns are ideal for high traffic areas providing safe (rounded) edges to guard against accidental knocks and bumps. 22 gauge steel.
Part No. 911C.

OUTDOOR ASH BIN
Heavy duty all stainless unit is ideal for pedestrian common areas. Door secured with tumbler lock. 18 ga. stainless steel.
Part No. 909.

VANDAL RESISTANT MIRRORS

One piece stainless steel channel frame with mitred corners provides rigid assembly. Comes in bright annealed finish. Vandal resistant concealed three way mounting. Comes in flush wall mount. 4mm glass with shock resistant primary back.
Part No. 941-1624, 16" x 24".
Part No. 941-1630, 16" x 30".
Part No. 941-1824, 18" x 24".
Part No. 941-1830, 18" x 30".
Part No. 941-2424, 24" x 24".
Part No. 941-2430, 24" x 30".
Part No. 941-2436, 24" x 36".

STANDARD WASHROOM SIGNAGE

Durable engraved plastic signage. Engraved portion are white with blue relief. All signage is self adhesive.
Part No. 960, Male symbol.
Part No. 961, Female symbol.
Part No. 962, Wheelchair, Male.
Part No. 963, Wheelchair, Female.
Part No. 964, Handicap symbol only.
Part No. 965, Male/Female symbol.

AUTOMATIC 'NO TOUCH' WARM AIR HAND/ HAIR DRYERS

Touch free sensor is activated when hands are placed within the set range under spout. Approximately 20 second drying time. There is a .6 sec delay for on and a 2 second delay for off. The power will cut off automatically in cases of irregular use over 120 seconds, sensor will reset during normal use.
Part No. 1187, white finish, 120 volts.
Part No. 1187-1, white finish, 220 volts.
Part No. 1188, chrome finish, 120 volts.
Part No. 1188-1, chrome finish, 220 volts.
Part No. 1189, cast iron, 120 volts.
Part No. 1189-1, cast iron, 220 volts.
Part No. 1190, brushed steel finish, 120 volts.
Part No. 1190-1, brushed steel, 220 volts.

1187

1188

1189

1190

DEODORIZER

Chrome plated 20 gauge steel surface mounted fixture holds all standard size deodorant blocks.
Part No. 1100.

BROOM / MOP RACK

All welded construction of type 304 stainless steel with brushed finish.
Part No. 1113, 3 holders, 26" long.
Part No. 1114, 4 holders, 36" long.

CORNER GUARD

18 ga. stainless steel, brushed finish. Full length self adhesive backing (1/2" x 40") allows for quick installation. Dimensions: 4" x 4" x 40".
Part No. 1117.

SINGLE COAT HOOK

Hooks are fabricated from 12 ga. (.1") thick solid stainless steel. Hook ends are 1" radius with all edges deburred.
Part No. 1146.

PERMATREET is a dressing developed with built-in magnetic action for treatment of dust mops and cloths. Recommended for maintaining many types of floors, sealed wood, polished furniture, painted and plastic surfaces. It was designed to provide big savings in time and labour.
APPLICATION: Treated dust mops and cloths reduce airborne dust, bacteria and viruses which circulate when sweeping with push brooms and untreated cloths. They hold the dust, dirt and grit securely leaving floors and surfaces clean, dry and dust free. Shake the mop over a sheet of newspaper to release the soil. It will not discolour or stain floors and it leaves no greasy film. PERMATREET preserves the beauty of floor finishes and extends the cleaning and finishing cycles. It can be used on the following floors: vinyl, vinyl-asbestos, rubber and asphalt tiles, linoleum, gym and sealed cork, treated wood, terrazzo, marble, concrete, quarry tile, and ceramic, etc.
Part No. DMT-4L, 4 litre jug.

Janitorial/Toilet Chemicals

Part No. 21-155, 85 gram pink Parazene urinal block w/ cherry odour fighting fragrance, individually sealed
Part No. 29-955, "Ever Screen" plastic urinal screen. Dual action cleaning and 100 gram spice fragrance urinal block

Part No. 21-111, 455 gram rectangular air purifier block, cherry, individually sealed. Very effective odour control in large areas.
Part No. 29-907, Plastic holder for #21-111 air purifier block

Part No. 22-211, 4 litre jug orange hand soap. Extra mild, pleasantly tangerine perfumed, lotionized.
Part No. 22-221, 4 litre jug pink hand soap. Extra mild, pleasantly perfumed, lotionized. Very effective in hard water.

Part No. 14-201, 4 litre jug neutral all-purpose cleaner. Non-toxic, non-flammable, non-corrosive. Cleans without harming wax. For floors, walls, countertops, and a variety of other cleaning jobs.
Part No. 14-202, Same as #14-201, except 20 litre pail.

Part No. 42-111, 20 kg pail powdered laundry detergent. Concentrated, low-foaming detergent. Economical to use because of its concentrated formula. Safe for all fabrics and in any type of machine.

Part No. 16-261, 1 litre bottle non-acid cleaner. For washrooms (bowls, urinals, etc.), kitchens, or any hard surface. No caustics, abrasives, or acids.

CONCENTRATED INDUSTRIAL BLEACH

JJJ/2902

12% Bleach is a concentrated bleaching solution, which also makes an excellent deodorizer and sanitizer for cleaning surfaces that are not damaged by its strong action. Dilute with water or use at full strength for sanitizing washrooms, kitchens and kitchen equipment, and in similar areas. All food contact surfaces must be rinsed well with potable water. Biodegradable. NOTE: Never mix with bowl cleaner, ammonia or other cleaners. Poisonous gas may be liberated.
Part No. BLEACH-12-4L, 4 litre jug 12% industrial bleach
Part No. BLEACH-12-20L, 20 litre pail 12% industrial bleach

CLEAROMA™

JJJ/1225

Odour Control Products

Why CLEAROMA™ Products Work Best
Clearoma™ is a secret, scientifically designed blend of natural organics, essential oils, natural aldehydes, esters and ketones with vapour pressure reducing properties. The vapour pressure reducing reaction attacks malodorous compounds that typically contain sulphur and nitrogen, altering their aromatic character, allowing the Clearoma™ fragrance compound to deliver a pleasant scent. Clearoma™ contains proprietary aroma chemicals with specific malodor suppressing properties. 100% biodegradable and safe to use anywhere.

Clearoma™ Sprayer
•Ideal for odour control around the house or in your vehicle •Works exceptionally well to control cigarette smoke •A single spray will destroy the lingering odour of smoke •Keep garbage cans, pet litter boxes, smelly footwear and sports equipment smelling fresh •Handles smoke and water damage odours. Rugs, carpets or draperies will smell fresh and clean after use •Simply spray as required to eliminate offensive odours
Part No. AMS-125, 125 ml finger sprayer.
Part No. AMS-500, 500 ml trigger spray.

Clearoma™ Liquid READY-TO-USE
•Ready-To-Use is specially formulated for recharging Gel-Paks™, hand sprayers, and other specialized dispensing devices. This formula is effective for general household uses, as well as automobiles, boats, RV's, sick rooms, washrooms, musty basements, closets, cooking odours, cigarette smoke, pet odours (litter boxes etc.), rugs, carpets, laundry and diaper pails, garbage containers, smelly footwear and sports equipment.
Part No. AML-475, 475 ml bottle.
Part No. AML-950, 950 ml bottle.
Part No. AML-4, 4 litre jug.

Clearoma™ Gel-Pak™
•Provides a consistent source of high powered odour control •Ideal for closets, storage bays or any confined area in your home, office, or RV •Open the container and let it go to work for you •The Gel-pak™ is reusable - when the liquid has evaporated usually in 4 to 5 weeks, simply pour more Clearoma™ liquid into the container and watch as the high grade polymers regenerate themselves and the Gel-Pak™ is ready to go to work
Part No. AMG-250, 250 ml container.
Part No. AMG-500, 500 ml container.
Part No. AMG-4, 4 litre container.

Rubbermaid Commercial Products

ROUND BRUTE® CONTAINERS & LIDS

Waste handling workhorse. All plastic professional grade construction, will not rust, chip or peel, and resists dents.
Part No. 2610-GREY, Round Brute container, 37.9 litre, grey
Part No. 2609-GREY, Lid for #2610 container, grey

Part No. 2620-GREY, Round Brute container, 75.7 litre, grey
Part No. 2619-GREY, Lid for #2620 container, grey

Part No. 2632-GREY, Round Brute container, 121.1 litre, grey
Part No. 2631-GREY, Lid for #2632 container, grey
Part No. 2637-GREY, Duramold Brute dome top lid for #2632, grey

Part No. 2643-GREY, Round Brute container, 166.5 litre, grey
Part No. 2645-BLACK, Lid for #2643 container, black
Part No. 2647-GREY, Duramold® Brute dome top lid for #2643 container, grey

Part No. 2640, Brute dolly for #2620, #2632, #2643 containers, black

SQUARE BRUTE® BIG WHEEL® CONTAINER W/ LID

Provides easy mobility during general refuse collection and material handling. Constructed of tough Dur-x™ resin for long life. 189.3 litre. Blue.
Part No. 9W27-BLUE.

SLIM JIM® CONTAINER & TOPS

Efficient size and shape for tight spaces. Durable, all plastic construction. 87.1 litre. Grey container; tops as noted.
Part No. 3540-GREY.
Part No. 2673-GREY, Untouchable® top for #3540, grey.
Part No. 2692-BROWN, Slim Jim bottle and can recycling top for #3540, brown.
Part No. 2703-BLUE, Slim Jim paper recycling top for #3540 container, dark blue.

SQUARE UNTOUCHABLE® CONTAINERS & TOPS

For hygienic, hands-free refuse disposal. Durable and crack resistant, even under tough indoor/outdoor conditions. Containers are beige, tops as noted.
Part No. 3568-BEIGE, 71.9 litre.
Part No. 3569-BEIGE, 87.1 litre.
Part No. 2689-BEIGE, Untouchable top for #3568 or #3569, beige.
Part No. 3624-BROWN, Square swing top for #3568 or #3569, brown.

HALF ROUND UNTOUCHABLE® CONTAINER & TOP

For hygienic, hands-free refuse disposal. Durable and crack resistant, even under tough indoor/outdoor conditions. Containers are beige, tops are black.
Part No. 3520-BEIGE, 79.5 litre.
Part No. 3620-BLACK, StyleLine Series® top for #3520.

PROFILE SERIES® CONTAINER W/ LID

Wall mounting keeps the container out of pedestrian traffic and allows for floor cleaning. Comes with complete hardware. Factory Mutual approved for fire safety when wall mounted. 56.8 litre, beige.
Part No. 7822-BEIGE.

STEP-ON CONTAINERS FOR OILY WASTE

For safe and efficient separation of combustible waste. Bold "Empty Every Night" imprint. FM approved. Red.
Part No. 6143, 30.3 litre.
Part No. 6144, 45.4 litre.

Rubbermaid Commercial Products

SOFT WASTEBASKETS

Provides space efficiency and economical value. All plastic construction won't chip, rust or dent. Beige.
Part No. 2955-BEIGE, Small, 12.9 litre.
Part No. 2956-BEIGE, Medium, 26.6 litre.
Part No. 2957-BEIGE, Large, 39 litre.

MARSHAL® CONTAINERS W/ LID

Practical good looks and fire safety combined. FM approved. Beige.
Part No. 8160-BEIGE, 56.8 litre.
Part No. 8170-BEIGE, 94.6 litre.

RANGER® CONTAINER W/ LID

Designed for outdoor use. Built to withstand extreme weather. FM approved. Beige.
Part No. 8430-BEIGE, 132.5 litre.

DURAMOLD® SMOKING URN W/ METAL ASHTRAY TOP

Easily blends in with furniture and fixtures. Metal ashtray top. Black/chrome. 11-1/2" x 19-1/2".

Part No. 1731, 23½" (L) x 19½" (W) x 10" (H).
Part No. 1732, 23½" (L) x 19½" (W) x 13" (H).
Part No. 1720, Palletote lid for #1721, #1722 boxes.
Part No. 1730, Palletote lid for #1731, #1732 boxes.

Rubbermaid®
Commercial Products

TRADES CART

Moves productivity right to the work site - a total tool storage and mobile workbench system. Four compartmentalized parts boxes and two storage bins hold essential hand tools and supplies. 16" casters, 30" (L) x 19¼" (W) x 33⅜" (H), 330 lbs. capacity.
Part No. 6180.

UTILITY CART

Transports equipment and supplies with stability. 2 shelf, 36" (L) x 24" (W) x 32¼" (H), 600 lbs. capacity, black.
Part No. 4520-BLACK.

PLATFORM TRUCK

Built for durability. Sturdy structural foam construction won't rust, dent or splinter. 36" (L) x 24" (W), 5" dia. x 1-1/4" wide rubber casters, crossbar handle, 500 lbs. capacity.
Part No. 4403.

STRUCTURAL FOAM TILT TRUCK

Easy to clean and virtually maintenance free. Designed for general refuse collection and light to medium materials handling. Mark resistant casters. 64½" (L) x 30¼" (W) x 38" (H), 400 lbs. capacity.
Part No. 1011.

TOOL BOXES

Larger, professional grade tool boxes and chests for commercial/industrial use. Made of sturdy polypropylene structural foam construction that won't rust, dent, chip, or peel. Removable trays. #7802 and #7803 can be padlocked for security — improved solid metal latches are designed to open and close easily. Grey.
Part No. 7802, 26" (L) x 11⅛" (W) x 11⅛" (H).
Part No. 7804, 36" (L) x 18½" (W) x 20⅛" (H).

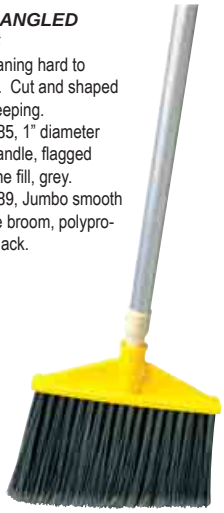
JANITOR CART

With yellow vinyl bag for convenient, versatile storage. Gives a professional image and helps save time. 46" (L) x 21¾" (W) x 38⅜" (H), black.
Part No. 6173-BLACK.

Rubbermaid®

BRUTE® ANGLED BROOMS

Ideal for cleaning hard to reach areas. Cut and shaped for easy sweeping.
Part No. 6385, 1" diameter aluminum handle, flagged polypropylene fill, grey.
Part No. 6389, Jumbo smooth sweep angle broom, polypropylene fill, black.



DUST PAN

Innovative design for improved performance. 12¼" (L) x 8¼" (W) x 2⅝" (D), charcoal.
Part No. 2005.

HANDLES & BRACES

Provide a solid connection for brooms and sweeps.
Part No. 6351, Wood handle, threaded, lacquered, 54" (L) x 15/16" (dia.).
Part No. 6352, Wood handle, tapered, sanded, 54" (L) x 1⅛" (dia.).
Part No. 6355, Aluminum handle, plastic threaded tip, vinyl grip, 57" length, grey.
Part No. 6364, Wood handle, threaded metal tip, lacquered, 60" (L) x 15/16" (dia.).

BRUTE® BUCKETS

Round with molded-in graduations for accurate measuring. Grey.
Part No. 2963-GREY, 9.5 litre.
Part No. 2614-GREY, 13.2 litre.

DOUBLE PAIL

Allows separation of cleaning solution and rinse water for an easy to use cleaning system. 16.1 litre. Grey.
Part No. 2617.

TOILET BOWL BRUSHES

Convenient and easy to use.
Part No. 6301, Plastic fill, 17¾" length.
Part No. 6320, Polypropylene fill, plastic handle, 17" length.

6320

COUNTER BRUSHES

Perfect for quick clean-ups. Structural foam blocks with 8" bristle coverage. 12½" length.
Part No. 6341, Tampico fill.
Part No. 6342, Flagged polypropylene fill.

FLOOR SIGNS

Lightweight and versatile, but make a heavy statement about safety. 25" high (open). Two-sided. Yellow.
Part No. 6112, "Caution" (multi-lingual).

Part No. F118, 24 oz. cotton mop head, 1" orange headband.
Part No. F119, 32 oz. cotton mop head, 1" orange headband.

DURA-PRO® 4-PLY CUT-END BLEND MOPS

Blend mop — cotton/rayon/synthetic yarn blend for good performance and durability.
Part No. F556-BLUE, 16 oz. blue blend mop head, 5" blue headband.

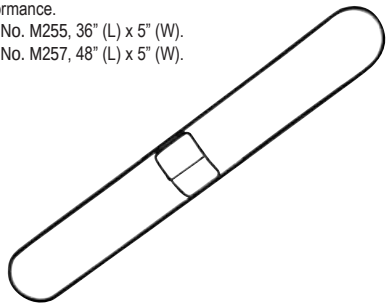
GENERAL PURPOSE 4 PLY RAYON CUT-END MOPS

Very economical. White.
Part No. F416, 16 oz. rayon mop head, 1" orange headband.
Part No. F417, 20 oz. rayon mop head, 1" orange headband.
Part No. F418, 24 oz. rayon mop head, 1" orange headband.
Part No. F419, 32 oz. white rayon mop head, 1" orange headband.

Rubbermaid®
Commercial Products

KUT-A-WAY® DUST MOPS
An excellent alternative for general purpose dust mopping. Launderable for long product life. Half-tie backing style. Blue.
Part No. K155-BLUE, Blue dust mop, 36" (L) x 5" (W).
Part No. K157-BLUE, Blue dust mop, 48" (L) x 5" (W).

SNAP-ON WIRE DUST MOP FRAMES
Powder coated, heavy duty metal frame for durable performance.
Part No. M255, 36" (L) x 5" (W).
Part No. M257, 48" (L) x 5" (W).



SNAP-ON WIRE DUST MOP HANDLE
Sliding collar locks the handle into position or allows for a full 360° swivel action. Hardwood. 60" length.
Part No. M116.

GRIPPER® WET MOP HANDLES W/ MICROBAN® ANTIMICROBIAL PROTECTION
Holds mop firmly between the jaws of the mop handle. Use with 5" headband mops. Plastic head. Aluminum handle.
Part No. H225, 54" length.
Part No. H226, 60" length.

INVADER® WET MOP HANDLES W/ MICROBAN® ANTIMICROBIAL PROTECTION
Hinged side gate allows mop to easily slide on and off handle. Thumb wheel clamps the mop firmly in place. Use with 1" headband mops. Plastic head. Aluminum handle.
Part No. H125, 54" length.
Part No. H126, 60" length.

SWEEPER
For floors and low pile carpets.
Part No. 4212.

STEPSTOOL
Heavy duty stepstool glides easily on retractable rubber casters. Supports loads up to 350 lbs. 16" diameter base x 13" (H). Black.
Part No. 2523-BLACK.

Rubbermaid®

Commercial Products

PUSH BROOM HEADS — Stiff Sweeping
Most popular heavy duty maintenance stiff sweeping broom, ideal for parking lot, driveway, snow or grain. Good in wet or dry conditions. Filled with .030 polypropylene offering unsurpassed durability and strength.
Part No. 2104-18, 18".
Part No. 2104-24, 24".
Part No. 2104-36, 36".

PUSH BROOM HEADS — General Purpose
Economical general purpose, all Tampico fill, good for smooth and uneven surfaces.
Part No. 2105-18, 18".
Part No. 2105-24, 24".
Part No. 2105-36, 36".

PUSH BROOM HEADS — Combination
Combination broom, the fibres are soft feathered tip synthetic on the outside and a stiff fibre centre. Good for fine dust and debris - e.g. wood or welding.
Part No. 2106-18, 18".
Part No. 2106-24, 24".
Part No. 2106-36, 36".

PUSH BROOM HEAD — Street/ Stable
Street/stable broom, 4½" trim of synthetic stiff fibre. Suited for garage, street, and areas where heavy coarse material needs to be moved.
Part No. 109-16S, 16" broom head.

WHISK BROOM
2 thread, 100% corn.
Part No. C101.

CORN BROOM
Heavy duty industrial corn broom, 1 wire, 4 threads, 100% corn.
Part No. C108.

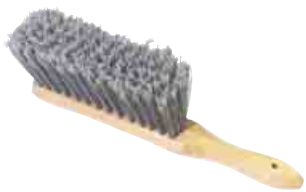
TRACK BROOM WITH CHISEL
Upright coarse sweep. Constructed of crimped polypropylene fibre, heat sealed, and mounted in a durable metal housing. Comes complete with a hardened steel chisel mounted in the handle for removing compacted snow, ice, or dirt.
Part No. 6214.

RIG SCRUB BRUSH — Round
5-1/4" round hardwood back, filled with natural Union fibre. Bolt type.
Part No. 1601.

RIG SCRUB BRUSHES
21" long handle, 4½" x 4½" brush face.
Part No. 1300, Nylon fill.
Part No. 1301, Union fibre fill.
Part No. 1305, Tampico fill.

PETROLEUM INDUSTRY PIPE BRUSH
16" handle. Constructed from high density polypropylene. Tested to -50°F. 2¾" O.D. x 2¾" brush face.
Part No. 1201-NG, with no guard.
Part No. 1202-G, with guard.

COUNTER & BENCH BRUSH
14" counter and bench brush. 9" head, 2¾" grey PVC/fine bristles. Feather tip.
Part No. 607.



ACID BRUSH
5-3/8" handle c/w 3/8" x 1" nylon bristles.
Part No. 710.

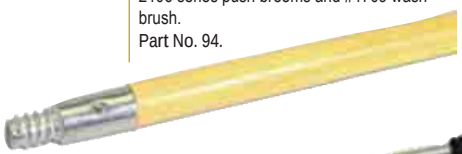
TWIN-BLADED FLOOR SQUEEGEES
Galvanized metal frame with splash guard and reinforced handle socket. These unique floor squeegees clean all different types of surfaces including brick, cement and even tile.
Part No. 740-22, 2" x 22" black natural rubber blade, general purpose.
Part No. 740-30, 2" x 30" black natural rubber blade, general purpose.
Part No. 743-30, 2" x 30" red oil resistant neoprene rubber blade.

DECK & FLOOR SCRUB BRUSH HEAD
2½" x 9" wood block, Union fill. Bolt type.
Part No. 1705-BT.

VEHICLE WASH BRUSH HEAD
10" x 2½" wide, plastic back flagged grey and orange. PVC fill.
Part No. 1709.

May not be exactly as illustrated.

THREADED METAL TIP HARDWOOD HANDLE
15/16" x 54". For use with #2104, 2105, and 2106 series push brooms and #1709 wash brush.
Part No. 94.



FLOW-THROUGH TELESCOPIC HANDLE
Heavy duty drip-free handle adjusts from 36" to 62". Cushioned handle grips provide ease of use and comfort.
Part No. 9560.

COTTON YACHT MOP
Complete with 48" handle.
Part No. 12Y, 12 oz.

HYDROSQUEEGEE
Water Powered Floor Squeegee

When it comes to floor cleaning devices, nothing beats a squeegee — especially if you combine it with water. The new HydroSqueegee gives you water on demand! With a push of the valve, water sprays out just in front of the rubber squeegee blade, blasting away dirt and debris. The squeegee picks up what is left, leaving your floor spotless. Perfect for use in factories, warehouses, plants, farms, and garages.

Part No. HS-30-GR, 30" HydroSqueegee with non-marking grey rubber
Part No. HS-30-BF, 30" HydroSqueegee with black double edge soft foam

Part No. R-30-BF, 30" black double edge soft foam replacement blade
Part No. R-30-RF, 30" red oil resistant double edge soft foam replacement blade
Part No. RH-54, 54" replacement flow-through handle
Part No. RV-5, Twist on/off replacement valve with quick connect

Easy-Twist valve for on/off water supply wherever you're working

STRUCTRON®

JJJ/2595

Superhandle®

Structron's dedication to quality has made "Superhandle®" an exceptional value for both the professional contractor and quality conscious homeowner. The combination of Structron's proven craftsmanship and state-of-the-art fibreglass technology outperform all other wood, metal, or fibreglass handled products on the market. Superhandle® products are built for strength and are made from millions of fibreglass strands and continuous strand mats bonded together with a yellow polyester resin. These handles will not conduct electricity and have a "memory" to avoid kinking or denting allowing continuous operation under heavy use.

Part No. CE24, 2 section handle - 2 ft. to 4 ft. extension with threaded collar lock
Part No. CE48, 2 section handle - 4 ft. to 8 ft. extension with threaded collar lock
Part No. CE612, 2 section handle - 6 ft. to 12 ft. extension with threaded collar lock
Part No. CE816, 2 section handle - 8 ft. to 16 ft. extension with threaded collar lock

Part No. SS48, 1" x 48" utility straight handle
Part No. SS60, 1" x 60" utility straight handle
Part No. SS72, 1" x 72" utility straight handle

EDGEWOOD

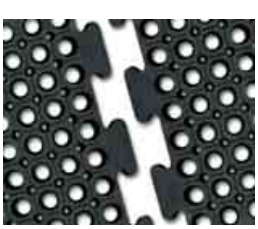
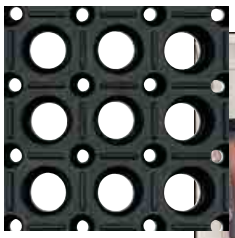
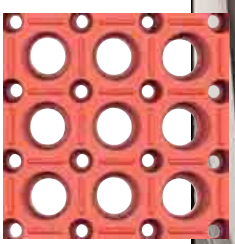
Part No. DK3861TC, Terra cotta, 38" x 61".
Part No. DKCNTRTC, Terra cotta centre piece, 38" x 61".
Part No. DKENDSTC, Terra cotta end piece, 38" x 61".







CORRUGATED SWITCHBOARD NON-CONDUCTIVE RUNNER

•Insulates worker against electrical shock •Meets ASTM standards D 178, Type 2, Class 2 as well as all optional ASTM standards for ozone, flames, and oil •For high voltage applications — dielectric test — 30,000 volts; proof tested — 20,000 volts; recommended/usage — 17,000 volts •Vinyl, ¼" thick •Black •75 foot roll
Sold by the foot:
Part No. CRRSB36BK, Black, 3 ft. wide.

AMERICAN BILTRITE

JJJ/1201

Vinyl Runner Matting

Wide rib matting is used extensively for both floor protection and safety in industrial and government applications. This vinyl runner matting is designed for long service life even in the dirtiest and grimiest abrasive conditions. American Biltrite vinyl runner matting has excellent resistance to oil, chemicals, sunlight, and ozone. Wide rib matting will not shrink or crack at low temperatures nor will it stain the floor surface.

Part No. 440-08-243, Black vinyl wide rib runner matting - 1/8" thick x 24" wide **SOLD BY THE FOOT**

STEEL WOOL GRADE CHART

GRADE	WOODWORKING	METAL WORK	STAINING/PAINTING	TIPS
0000	Final finish on fine wood work, smooth lacquer, varnish, shellac. Buff furniture and wood to a rich lustre using wax or oil.	Clean precision tools and instruments.		Clean windows and glass without liquid cleaners
000	Scuff/sand between coats to remove dust ribs and surface imperfections.	Remove rust spots from chrome with auto polish.	Remove dried paint drips and splatters.	Removes wax or polish from fine furniture with soap and water. Clean bottom of electric irons.
00	Remove old finishes from antiques with finish remover. Remove stains from wood floors	Polish and restore aluminum, copper, brass and other bright metals.	Remove minor burns from wood. Cuts high gloss finish to semi-gloss.	Clean golf clubs, metal wheels, screens and metal lawn furniture. Remove minor burns from suede.
0			Remove final paint residue when staining.	Cleans porcelain, tile and grout.
1	Smooth raised grain or primed wood	Clean copper pipes and fittings. Remove rust from cast iron. Clean barbecue grills.	Degloss painted surfaces before applying new coatings.	Cleans linoleum floors, bowling balls, and soles of shoes.
2		Etch porcelain and metal surfaces	Remove paint from moldings and awkward corners.	Remove old wax and scuff marks from floors, cleans glass blocks.
3	Remove old paint, varnish, lacquer and shellac using paint remover or strippers.	Clean rough metal or stone surfaces.		Tuck into holes, cracks and openings to control and eliminate rodents, birds and other pests.
4			Removes the most stubborn paint, rust, dirt and varnish. Strip paint and coatings from exterior woodwork.	

WIPING RAGS

Bagged Wiping Rags

Rags are packaged in 20 lb. vacuum packed clear plastic bags. Bags are waterproof, stackable and easy-to-handle.

Part No. 711-20, 20 lb. bag white cotton rags. These 100% cotton wipers are extremely absorbent and lint free. Excellent for the automotive trades.
Part No. 538-20, 20 lb. bag mixed colour cotton rags. These are 100% cotton wipers and are very absorbent and lint free. Various colours mixed in each bag. Excellent for the automotive trades.
Part No. 746-20, 20 lb. bag white fleece rags. These No. 1 white fleece wipers are a very absorbent cloth and are excellent for use in car washes and detail shops.
Part No. 546-20, 20 lb. bag mixed colour fleece rags. These No. 1 fleece wipers offer the same quality as white fleece, but come in various colours in the bag. Excellent for use (and preferred) by oil patch and service shop applications.
Part No. 532-20, 20 lb. bag mixed colour terry rags. Excellent for use in garages and furniture shops.
Part No. 704-20, 20 lb. bag white ganzie rags. These wipers are mainly used by painting contractors, furniture manufacturers, and are ideal for staining wood.
Part No. 536-20, 20 lb. bag mixed colour ganzie rags. General purpose coloured wipers which are ideal for paint contractors, mechanics and machine shop applications. Excellent for picking up spills.

Boxed Wiping Rags

Part No. WC-20, 20 lb. box white cotton rags. These 100% cotton wipers are extremely absorbent and lint free. Excellent for the automotive trades.
Part No. MCC-20, 20 lb. box mixed colour cotton rags. These are 100% cotton wipers and are very absorbent and lint free. Various colours mixed in each case. Excellent for the automotive trades.
Part No. WF-20, 20 lb. box white fleece rags. These No. 1 white fleece wipers are a very absorbent cloth and are excellent for use in car washes and detail shops.
Part No. MCF-20, 20 lb. box mixed colour fleece rags. These No. 1 fleece wipers offer the same quality as white fleece, but come in various colours in the case. Excellent for use (and preferred) by oil patch and service shop applications.
Part No. MCT-20, 20 lb. box mixed colour terry rags. Excellent for use in garages and furniture shops.
Part No. WG-20, 20 lb. box white ganzie rags. These wipers are mainly used by painting contractors, furniture manufacturers, and are ideal for staining wood.
Part No. MCG-20, 20 lb. box mixed colour ganzie rags. General purpose coloured wipers which are ideal for paint contractors, mechanics and machine shop applications. Excellent for picking up spills.
Part No. FLA-20, 20 lb. box mixed colour flannel rags. An excellent choice in applications where a low lint, very absorbent wiper is required.

Dispensers

BATH TISSUE JUMBO ROLL TWIN DISPENSER, 9 INCH, SMOKE

Holds two rolls. See-through front reduces maintenance, allows quick and easy service checks. Elegant appearance compliments any decor. High impact flame retardant, chemical-resistant, rigid vinyl plastic provides years of low maintenance, trouble free service. Large capacity dispenser goes longer between refills. 12"H x 20½"W x 5¾"D, fits part #'s: TJ0912A, TJ0922A.
Part No. 56T1.

BATH TISSUE JUMBO ROLL DISPENSER, 9 INCH SINGLE, SMOKE

Clean, modern appearance compliments all decors. Translucent cover allows for "at a glance" inspection for refills. Hides scratches and maintains image. Smooth cover with no recesses is easy to clean and maintain. Only touch the paper you need. High capacity for reduced costs and fewer service interruptions. Built-in pilferage control. High impact plastic and design help prevent breakage. Replaceable covers and lock fingers. No exposed metal parts to corrode or rust. 11"H x 11½"W x 5¼"D, fits part #'s: TJ0912A, TJ0922A.
Part No. 66TR.

HAND TOWEL ROLL DISPENSER, LEVER AUTO TRANSFER, SMOKE

Clean, modern appearance compliments all decors. Translucent cover allows for "at a glance" inspection for refills. Hides scratches and maintains image. Smooth cover with no recesses is easy to clean and maintain. Only touch the paper you need. Lever controlled consumption means less waste, lower costs and it has a stub roll auto-transfer feature. High capacity for reduced costs and fewer service interruptions. Built-in pilferage control. High impact plastic and design help prevent breakage. Replaceable covers and lock fingers. No exposed metal parts to corrode or rust. Built to last. 15½"H x 11¾"W x 9 3/5"D, fits part #'s: RB351, RK600E, RK3502E, RB6002.
Part No. 84TR.

NAPKIN TABLE DISPENSER, BRUSHED STEEL

The brushed steel body is highly durable. Smooth finish provides easy cleaning. Rubber feet offers skid resistance. Two sided dispensing. 3¾"L x 4 1/8"W x 7 3/8"H, fits part #: D3052.
Part No. 1TBS.

Victor Mouse/Rodent Traps

METAL PEDAL MOUSE TRAP
•The original wood based wire snap trap with metal trip pedal in a cello twin pack •Can be used around food, water, children, and pets •Clean and quick trapping; the large pedal is ideal for runway trapping
Part No. M150CAN, 2 pk.

EASY SET® MOUSE TRAP
•The original wood based wire snap trap with large scented plastic trip pedal in a cello twin pack •Can be used around food, water, children, and pets •No bait needed - "swiss cheese" pedal requires no baiting •Clean and quick trapping; the large pedal is ideal for runway trapping
Part No. M035, 2 pk.

QUICK SET MOUSE TRAP
•Quick Set is the easiest mouse trap to set and bait - sets and releases with one simple click •One step thumb set and release allows for easy setting and quick and clean disposal •Can be used around food, water, children, and pets
Part No. M130CAN, 2 pk.

MOUSE GLUE BOARDS
•"No See No Touch" contains no excessive packaging - the packaging is the product •Mouse Glue Boards have lock-tab tents that hide mice and make disposal quick and easy •Can be used around food, water, children, and pets •No setting - just place and catch •No baiting - pest attracting scent is dispersed throughout the glue
Part No. M180, Mouse Glue Board, 2 pk.

LIVE CATCH MOUSE TRAPS
•Live Catch and TIN CAT enable consumers to catch and release mice •Can be used around food, water, children, and pets •Disposable or reusable •Easy to set and bait •Ideal for consumers who do not want to see or touch the mouse
Part No. M007, Live Catch, 2 pk.
Part No. M308, TIN Cat® See Thru Lid.

PEST CHASER® ULTRASONIC RODENT REPELLERS
•High frequency ultrasonic sound effectively repels rodents •Frequency is set to sweep with multiple peaks from 32-62KHz preventing rodents from getting used to the sound •Sound is inaudible to humans and non-rodent pets and will not have any affect •Covers approx. 40 sq. m. for use in average sized rooms, kitchens, garages, basements, etc. Red light indicator shows that the Pest Chaser is working properly
Part No. M690CAN, PESTCHASER® Direct Plug In
Part No. M761CAN, PESTCHASER® Rotating Speakers - with two rotatable speakers offering optimal coverage.

RODENTICIDES - MOUSE & RAT PARAFFIN BLOCK W/ BITREX™
•Products contain Bitrex™ to prevent accidental ingestion •Bromadiolone is the active ingredient at .005% •Kills in a single feeding compared to older actives that can require numerous feedings •Convenient Place Packs allow quick placement •Convenient re-sealable pouches
Part No. M840CAN, 450 grams.

RODENTICIDES - MOUSE & RAT PELLETS W/ BITREX™
•Products contain Bitrex™ to prevent accidental ingestion •Bromadiolone is the active ingredient at .005% •Kills in a single feeding compared to older actives that can require numerous feedings •Convenient Place Packs allow quick placement •Convenient re-sealable pouches
Part No. M810CAN, (5) 43 gram Place Packs.
Part No. M850CAN, (10) 43 gram Place Packs.

Victor Insect/Pest Control

ATTACK® ANT KILLING SYSTEM
•Kills the queen and the colony •Use both indoors and outdoors •Place near ant trails and hills for effective results
Part No. 32-5420CAN, 240 ml ready to use ant killer fourmicide.

INSECTIGONE® POWDER INSECT KILLER (DE)
•Kills a variety of insects •Includes a patented bait formula that kills insects by ingestion/dehydration within 48 hours •Works indoors or outdoors when kept dry •Contains amorphous diatomaceous earth, also known as silicon dioxide - an organic product •Ready to use
ANT KILLER INSECTIGONE®

Part No. A011210005, 18.9 litre.

IMPACT™
A popular heavy duty floor stripper. •Removes today's highly burnished hard films, stays wet longer •Pleasant scent •Effective with mop on or rotary machine operations
Part No. A011320401, 3.78 litre.
Part No. A011320005, 18.9 litre.

NO RINSE FLOOR STRIPPER™
No-rinse, non-ammoniated floor finish stripper. •Quickly handles tough jobs •100% volatile, leaves no alkaline residue
Part No. A011920401, 3.78 litre.
Part No. A011920005, 18.9 litre.

CARPET EXTRACT™
Low foaming carpet cleaner. •Economically priced for use with all hot water extraction machines and truck mount systems
Part No. A005460401, 3.78 litre.

DUST-AID™
Water based dust mop and cloth treatment — aerosol. •Prevents dust from scattering •Use on air conditioning filters •Prevents dust and pollen from entering room
Part No. A5805A1218, 510 g.

BUBBLE BURST™
Super-concentrated liquid defoamer. •Eliminates foam in the return tanks of carpet extractors, wet vacs and automatic scrubbers
Part No. A005820401, 3.78 litre.

MULTI-SPOT™
Ready-to-use, multi-use, heavy duty spot remover. •Breaks down a wide range of soils and spots •Removes many grease, lipstick, food and other stains
Part No. A2638T1232, 946 ml.
Part No. A026380401, 3.78 litre.

LATHER CLEAN™
Carpet and upholstery shampoo. •Breaks down soil, detergent, and mineral deposits •Leaves no sticky detergent residues •For use with all rotary and dry foam shampooing
Part No. A026310401, 3.78 litre.

Sprayon

NEW!!

EXCALIBUR 4000 BIODEGRADABLE CITRUS CLEANER/DEGREASER

Designed for Pressure Washer Applications

Excalibur 4000 is a highly concentrated industrial degreaser designed for cold water pressure wash applications in cleaning of heavy equipment and ferrous (iron) metal surfaces. Removes oils, greases, smoke stains, waxes, tar, and inks. Not for use on painted road vehicle surfaces. It contains no glycol ether solvents and is non-caustic thus making it safe to use on most hard surfaces.

Excalibur 4000 is designed to go to work wherever greasy, oil, organic-based soils exist. It's great for ink too! Use it to clean tile, concrete, marble, and terrazzo floors or any other hard surface not affected by water. Cleans and deodorizes typewriters, vending machines, garbage, and trash containers, machinery, tools, etc.

Excalibur 4000 offers the following advantages:

•NON-BUTYL - Does not contain "butyl" or other glycol ether type solvents yet penetrates better than butyl for grease and inks.

•LOW VOC - Increased concern for Volatile Organic Compounds in work place areas has meant an increased concern for solvent cleaners. Excalibur 4000 contains less than 5% VOC and low evaporation rate meaning improved air quality.

•BIODEGRADABLE - The use of biodegradable citrus derivative means a more environmentally safe product.

•PLEASANT ODOUR - Many cleaners use perfumes or fragrances to mask the powerful solvent odours that people find objectionable. Excalibur 4000 uses no such perfumes but rather relies on the natural "orange" aroma of the citrus additive to provide a fresh clean smell after use.

•VERSATILE - Excalibur 4000 may be used in hot tanks as a soak cleaner, steam cleaner, pressure wash, automatic floor scrubber or in normal cleaning.

Part No. 4000-4L, 4 litre Excalibur Biodegradable Citrus Cleaner/Degreaser
Part No. 4000-20L, 20 litre Excalibur Biodegradable Citrus Cleaner/Degreaser
Part No. 4000-210L, 210 litre drum Excalibur Biodegradable Citrus Cleaner/Degreaser

EXCALIBUR 4001 BIODEGRADABLE NATURAL SOLVENT EQUIPMENT DEGREASER

4001 is a blend of natural solvents and detergents designed to remove tough soils including carbons, greases, and oils. It was designed to replace the standard petroleum distillates, chlorinated hydrocarbons and glycol ether type cleaners which work well but present a disposal problem.

Heavy equipment, automotive engines, machinery, and production equipment will clean quickly and easily with 4001. Road tars, greases, carbon and specialty lubricants are typical soils which are readily removed by 4001.

•EMULSIFIABLE LIQUID - May be used straight or extended with water for increased economy. Unlike petroleum solvents like kerosene or mineral spirits, surfaces cleaned with 4001 may be rinsed free with a water flush.

•SAFER - 4001 uses no petroleum distillates, chlorinated hydrocarbons, phenolics or glycol ethers which present waste disposal problems. Most waste treatment plants are able to accept 4001 dilutions for treatment (check with local authorities first).

•WORKS COLD - No need to add heat as with water-based cleaners. 4001 works at full efficiency when cold thus lowering energy requirements and costs.

•PLEASANT ODOUR - Most heavy duty solvent cleaners contain cresylic acid, chlorinated solvents or other odorous and toxic additives. 4001 cleans in heavy duty fashion and leaves behind a "citrus-like" odour. 4001 also has a slower evaporation rate than chlorinated type solvents meaning lower volatile organic content in the air and thus a safer workplace environment.

•NON-CORROSIVE - When used as directed, 4001 will not harm most metals and painted surfaces. Certain aluminum alloys and paints may be affected and surfaces should always be checked for safety before use.

Part No. 4001-4L, 4 litre Excalibur Natural Solvent Equipment Degreaser
Part No. 4001-20L, 20 litre Excalibur Natural Solvent Equipment Degreaser
Part No. 4001-210L, 210 litre drum Excalibur Natural Solvent Equipment Degreaser

EXCALIBUR 4100 MICRO-EMULSION "NATURAL POWER" CLEANER/DEGREASER

Excalibur 4100 is a heavy duty natural citrus solvent cleaner using state-of-the-art micro-emulsion technology. A unique blend of citrus oils, emulsifiers, detergents, and water softeners in a highly concentrated formula. 4100 will penetrate, dissolve, disperse, and remove heavy oils/greases/tars from surfaces that previously required cleaning with harmful petroleum and chlorinated solvents. When used as directed, 4100 will clean heavy equipment, engines, and machinery of even the heaviest soils. Excellent for removing oil and grease deposits and stains from concrete. When used as a general purpose cleaner diluted with up to 500 parts of water, 4100 will give superb cleaning results without the need for scrubbing or rinsing.

•POWER PLUS - The 4100 Micro-Emulsion Technology "locks in" a higher level of ingredients than normally possible in a solvent type product. This means greater efficiency of use because the product can be further diluted. It also means that when heavy duty jobs are at hand, 4100 can take them on with power to spare.

•ENVIRONMENTAL - 4100 uses no petroleum distillates, chlorinated hydrocarbons, phenolic compounds or glycol ethers which have been typically used to do heavy grease and oil cleanups. These materials are presenting increasing handling and disposal problems and in many areas are being phased out of use. The natural "citrus" solvent used in 4100 provides a more environmentally acceptable alternative to these materials.

•ENERGY EFFICIENT - Many detergent products require higher temperature to activate their emulsion and penetration characteristics. 4100 works extremely well in cold water even in the heaviest of cleaning jobs because it penetrates and solubilizes oils/grease/fats using the micro-emulsion principle.

•NON-CORROSIVE - 4100 does not depend on caustic ingredients to get the job done as many alkaline cleaners do. It has a pH in the neutral range (6.5 - 8.5) at use and will thus not corrode metal surfaces. In addition, it does not present a corrosive hazard to skin.

•ODOUR COUNTERACTION - The citrus solvent that provides the "punch" for 4100 micro-emulsion has another unique property. It exhibits the ability to counteract many malodors associated with industrial soils. Surfaces cleaned with 4100 not only look good but are left with a pleasant citrus-like odour.

Part No. 4100-4L, 4 litre Excalibur Natural Power Cleaner/Degreaser
Part No. 4100-20L, 20 litre Excalibur Natural Power Cleaner/Degreaser
Part No. 4100-210L, 210 litre drum Excalibur Natural Power Cleaner/Degreaser

Industrial Chemicals

EXCALIBUR 5000 INDUSTRIAL STRENGTH ALKALINE CLEANER/DEGREASER

Excalibur 5000 is an industrial strength alkaline cleaner concentrate formulated around the most state-of-the-art cleaning technology available today. It contains twice the active ingredients of many alkaline cleaners presently being sold thus making it extremely low cost to use.

Excalibur 5000 incorporates emulsifiers, soil destructive and peptizing agents that synergize the action of the builders to provide rapid, complete oil and dirt breakdown. These oily contaminants are emulsified and dispersed completely so that they do not interfere with rinsing. Built-in water softeners ensure that water hardness in make-up water is tied up and does not remove any cleaning power. Excalibur 5000 will easily clean most plastic, rubber, porcelain, concrete as well as a variety of metal surfaces without leaving a white residue on the surface after rinsing. It will take on any cleaning chore from light duty to the toughest. It is safe on most surfaces that can be cleaned with water.

Excalibur 5000 offers the following advantages:

- Contains no phosphates and is biodegradable - reduces disposal problem.
- Is non toxic and non flammable - safe for employees to handle.
- Contains no free hydroxides - will not clog steam cleaning and high pressure hot water machines.
- Rapid penetration.
- Versatile - may be applied by hand, immersion, spray, steam gun, high pressure hot water or scrubber.
- Liquid - easily diluted and totally dissolved, unlike powdered products.

Part No. 5000-4L, 4 litre Excalibur Industrial Strength Alkaline Cleaner/Degreaser
Part No. 5000-20L, 20 litre Excalibur Industrial Strength Alkaline Cleaner/Degreaser
Part No. 5000-210L, 210 litre drum Excalibur Industrial Strength Alkaline Cleaner/Degreaser

EXCALIBUR 5100 VEHICLE WASH CONCENTRATE

Excalibur 5100 is a liquid alkaline detergent concentrate chemically formulated to remove road film, carbon exhaust deposits and bug residue from painted vehicle surfaces utilizing pressure spray equipment and without the need to agitate the surface with brushes. It works equally well in hot or cold water and contains water softening agents to rinse freely even in hard water.

Many products have claimed to remove "road film", that ugly residue that normally remains on the vehicle surface unless it is mechanically or manually brushed during cleaning. This thin film is tenaciously held to the surface and requires a special combination of penetrants and dispersants to break the bond and bring the surface clean without the use of brushing. Excalibur 5100 contains builders, sequestrants and detergents in balanced levels to obtain "brushless" road film removal. This balanced system has been obtained without the use of phosphates, solvents or acids which have been part of most formulae designed in the past to attempt removal of "road film".

All that is required is a good pressure washing system with the ability to produce 500 psi or higher at the nozzle. Excalibur 5100 works best when applied and rinsed under high pressure conditions, however, application at low pressure followed by a few minutes of penetration time and a high pressure rinse will normally produce excellent results. Although Excalibur 5100 works extremely well with cold water, the use of hot water will enhance cleaning results. When hot water is used, it should be possible to reduce the concentration of the cleaner to one half or one third of the level required with cold water.

Excalibur 5100 offers the following advantages:

- CONCENTRATED LIQUID - simple and quick to mix and economical to use. No undissolved powder or lumps to settle out in mixing tanks or plug up in spraying equipment. May be metered easily into any system.
- SOAP FREE - may be used with any water source, soft or hard.
- NON-PHOSPHATED AND BIODEGRADABLE - reduces waste disposal problems.
- NON-CAUSTIC - contains no harsh caustic ingredients which can produce permanent and damaging effects on paint or skin.
- CHELATED - produces good cleaning and free rinsing even in the hardest of water conditions.

Part No. 5100-4L, 4 litre Excalibur Liquid Vehicle Wash Concentrate
Part No. 5100-20L, 20 litre Excalibur Liquid Vehicle Wash Concentrate
Part No. 5100-210L, 210 litre drum Excalibur Liquid Vehicle Wash Concentrate

EXCALIBUR ELIMINATOR POWDERED VEHICLE WASH

Excalibur ELIMINATOR is a highly effective, concentrated powder detergent formulated to efficiently remove a wide range of soils including; Road Film from automobiles, trucks, trailers, buses and cars; Carbon Deposits from truck exhaust on trailer fronts and sides and bug residue from vehicle fronts. As well it can remove many of the more stubborn grease and oil deposits on engines, transmissions, undercarriages and oil leaks from leaky hydraulic lines. "EXCALIBUR ELIMINATOR POWDERED VEHICLE WASH" - when mixed at the proper ratio and applied in accordance with the directions will remove most soils without the need for brushing.

Part No. P4235, 35 lb. keg Excalibur Eliminator Powdered Vehicle Wash
Part No. P4290, 90 lb. keg Excalibur Eliminator Powdered Vehicle Wash
Part No. P4200, 400 lb. keg Excalibur Eliminator Powdered Vehicle Wash

EXCALIBUR 7001 INDUSTRIAL DETERGENT CONCENTRATE

Excalibur 7001 is an industrial grade versatile detergent cleaner. It contains no glycol ether solvents and is non-caustic thus making it safe to use on most hard surfaces. The unique emulsion characteristics of Excalibur 7001 allow it to work in areas normally requiring a caustic based or butyl based cleaner. Specially designed to be used in food plants and food processing areas of all types. Excalibur 7001 is equally at home in an industrial plant, steam cleaner or in vehicle washing. Controlled foam characteristics make Excalibur 7001 an excellent product to use through a foam gun applicator for cleaning vertical or inclined surfaces. The quick penetrating and emulsifying action breaks up oily and greasy soils almost like magic. Once emulsified the soil particles are suspended so as not to redeposit. This allows 100% film and soil free surface after rinsing. May be used in hot tank as a soak cleaner, steam cleaner, pressure wash, automatic floor scrubber or in normal cleaning.

Part No. 7001-4L, 4 litre jug Excalibur Industrial 7001 Detergent Concentrate
Part No. 7001-20L, 20 litre pail Excalibur Industrial 7001 Detergent Concentrate
Part No. 7001-210L, 210 litre pail Excalibur Industrial 7001 Detergent Concentrate

Please see the Excalibur Soil Removal Guide on the following page.

EXCALIBUR 7100 HEAVY DUTY ALKALINE CLEANER/DEGREASER

Excalibur 7100 is a high alkali liquid detergent designed for pressure wash applications in cleaning of heavy equipment and ferrous (iron) metal surfaces. It contains a synergistic balance of alkaline builders and wetting agents to optimize penetration of tough oily and greasy soils and leave a clean free rinsed surface.

Although many alkaline cleaners will do an adequate job on light and medium duty cleaning, they fail to meet the grade in heavy duty cleaning situations. Excalibur 7100 was designed with such heavy duty cleaning in mind. Applications such as engine cleaning, heavy equipment and hydraulic cleaning and all cleaning where difficult soil exists on ferrous metal surfaces.

Excalibur 7100 works well in cold or hot water applications however hot water will normally produce superior results particularly where grease is present. When hot water cleaning is used, it is possible to reduce the concentration substantially from cold water cleaning dilutions.

Excalibur 7100 offers the following advantages:

•CONCENTRATED LIQUID - simple and quick to mix and economical to use. No undissolved powder or lumps to settle out in mixing tanks or plug up in spraying equipment. May be metered easily into any system.

•SOAP FREE - may be used with any water source - soft or hard.

•CHELATED - added sequestering agents produce enhanced cleaning and rinsing.

•SUPERIOR WETTING - rapid penetration and dispersion of soils produces cleaner surfaces in less time.

•STABLE - even though highly concentrated, no separation or settling takes place. May be stored for 1 year or more.

Part No. 7100-4L, 4 litre Excalibur Heavy Duty Alkaline Liquid Cleaner/Degreaser
Part No. 7100-20L, 20 litre Excalibur Heavy Duty Alkaline Liquid Cleaner/Degreaser
Part No. 7100-210L, 210 litre drum Excalibur Heavy Duty Alkaline Liquid Cleaner/Degreaser

EXCALIBUR LIQUID PARTS WASHER SOAP

Excalibur JW-81 is a specially formulated alkali liquid detergent designed specifically for use in automated parts washers. The unique detergent properties blended into the formulation promote consistent cleaning results. It contains no volatile organic compounds or phosphates and has special anti-rust agents blended into the mix to help prevent spot-rusting on cleaned parts. It is low foaming and will not attack aluminum or brass parts when used at recommended levels.

Part No. JW-81, 20 litre Excalibur Liquid Parts Washer Soap

EXCALIBUR POWDERED PARTS WASHER SOAP

A powdered alkaline cleaner formulated to promote consistent cleaning results in cabinet water based parts washers. It is designed to work in temperature ranges from 40° C to 80° C in all types of cabinet washers. This product contains no volatile organic compounds (V.O.C.'s) or phosphates, and is blended with anti-foam and anti-rust agents. It will not harm aluminum or brass parts when used at recommended levels.

Part No. JW-92, 150 lb. keg Excalibur Powdered Parts Washer Soap

EXCALIBUR ODOUR CONTROL

Excalibur ODOUR CONTROL product is used to control odours eminating from pits in shops, commercial buildings, institutions and residential complexes. Blended from essential oils, this all natural product forms a barrier that contains the odours below the water line. Excalibur Odour Control is convenient, long lasting and economical to use.

Part No. OCP-4L, 4 litre Excalibur Odour Control
Part No. OCP-20L, 20 litre Excalibur Odour Control

EXCALIBUR OIL & TAR REMOVER

Excalibur OIL & TAR REMOVER is an industrial grade solvent blend with built in activators and emulsifiers. Designd for use in removing tough soils (tar, asphalt, bitumen, diesel, stains, grease and sludge) from equipment such as engines, transmissions, construction equipment, farm machinery, garage floors, etc. May be diluted with up to 10 parts mineral spirits or kerosene and be applied by brushing on, spraying, wiping or immersion followed by water rinse if required.

Part No. TR1001-4L, 4 litre jug Excalibur Oil and Tar Remover
Part No. TR1001-20L, 20 litre pail Excalibur Oil and Tar Remover
Part No. TR1001-210L, 210 litre drum Excalibur Oil and Tar Remover

EXCALIBUR PAINT STRIPPER & GRAFFITI REMOVER

Excalibur PAINT STRIPPER & GRAFFITI REMOVER is designed with user safety in mind. It contains no methylene chloride, no acetone or other ketones, no flammable or volatile solvents. Easily cleaned up with water. All ingredients are readily biodegradable. Apply with a brush or roller, let stand and agitate with a brush (Excalibur Paint Stripper and Graffiti remover is a thick liquid that will cling to vertical surfaces). Wipe smooth surfaces with a clean towel or rag, rinse concrete and brick surfaces with a pressure washer. Reapply a second or third time as required.

Part No. GR2005-4L, 4 litre jug Excalibur Paint Stripper and Graffiti Remover
Part No. GR2005-20L, 20 litre pail Excalibur Paint Stripper and Graffiti Remover

PRODUCT INDEX

4000 •Biodegradable Citrus Cleaner/Degreaser
•removes organic soils such as oil and grease

4001 •Biodegradable Industrial Natural Citrus Solvent
•removes tars, grease, oils, carbons, exhaust

4100 •Biodegradable Natural Citrus Cleaner/Degreaser
•removes oil, grease, carbon, exhaust, tar, inks

5000 •Industrial Strength Alkaline Cleaner/Degreaser
•removes organic soils - oil, grease, carbons, inks, fuels

5100 •Vehicle Wash Concentrate
•removes organic soils such as road film, dirt, carbon

7001 •Industrial Grade Non-Butyl Detergent
•safe for use on most hard surfaces

7100 •Heavy Duty Alkaline Cleaner/Degreaser
•removes soils such as oil, grease, exhaust, fuels

TR1001 •Industrial Grade Solvent Blend
•removes tough soils, tar, asphalt, diesel stains

GR2005 •Graffiti Remover
•removes latex, enamel, aerosol paint, glue, inks, permanent markers, etc. Safe on brick, wood, glass, concrete, tile, fibre-glass, most plastic surfaces

JW81 •Liquid Parts Wash Detergent
•for use in cabinet parts washers, removes carbons, greases and oils from parts, safe on all metals

JW92 •Powder Parts Washer Detergent Concentrate
•designed to work in parts washers and like the liquid JW81, it has rust inhibitors and anti-foam agents blended in to help in the cleaning process, safe on all metals

ELIMINATOR •A Highly Effective, Powdered Vehicle Wash
•removes a wide range of soils including: road film from automobiles, trucks, trailers, buses and cars; carbon deposits from truck exhaust on trailer fronts and sides and bug residue from vehicle fronts
•removes many of the more stubborn grease and oil deposits on engines, transmissions, undercarriages and oil leaks from leaky hydraulic lines

STREAM
Power Wash Cleaning Compound

For Industrial, Institutional, & Food Plant Use
Stream is a cleaning compound specially formulated for a one-step spray or manual cleaning of cars, trucks, and buses. Completely safe on all painted surfaces.

Part No. STR-50, 44 lb. keg Stream powdered wash cleaning compound
Part No. STR-110, 110 lb. keg Stream powdered wash cleaning compound
Part No. STR-350, 352 lb. keg Stream powdered wash cleaning compound

RIG WASH
Equipment Wash Compounds

CONCENTRATED POWDERED RIG WASH CLEANER & DEGREASER
Rig Wash is designed primarily for cleaning oilfield and industrial equipment parts and is completely biodegradable. Can be used in pressure washer or with manual washing procedures. 20 kg pail.
Part No. RIG-50.

CONCENTRATED LIQUID RIG WASH CLEANER & DEGREASER
Rig Wash is designed primarily for cleaning oilfield and industrial equipment parts and is completely biodegradable. Can be used in pressure washer or with manual washing procedures. 20 litre pail.
Part No. LIQ-20.

SOLVENT TAR REMOVER & DEGREASER
This product is a highly effective solvent tar remover and degreaser which cuts tar, crude oil, and greases quickly. It is suitable for manual application or spraying only and can not be used in pressure washers or steamers. 20 litre pail.
Part No. TAR-20.

Dl Trounce® Pumice Lotion & Cream Hand Cleaner

•Professional strength lotion hand cleaner with pumice. •Fast-acting formula won't irritate hands or leave a greasy residue. •Cleans oil, grease, tar, grime, soil, resins, printers ink, epoxies, paint, rubber, gaskets, tile cement and laundry stains.

DL Trounce® cream hand cleaner with pumice

Part No. 03-013, 400 gram container.
Part No. 03-406*, 2 kg container.
Part No. 03-202, 20 kg pail.

DL Trounce® lotion hand cleaner with pumice

Part No. 21-116, 440 ml squeeze bottle.
Part No. 21-218*, 3.78 litre pump top jug.

DL BLUE LABEL™ CREAM HAND CLEANER

•Petroleum solvent-based cream formula waterless hand cleaner. •Gentle to hands, leaves no greasy feeling after use. •Cleans oil, grease, tar, grime, soil, resins, printers ink, epoxies, paint, rubber, gaskets and tile cement.
Part No. 01-013, 400 gram container.
Part No. 01-406*, 2 kg container.
Part No. 01-202, 20 kg pail.

DL PAINTER'S CLEAN PAINT & RESIN REMOVING HAND CLEANER

•A safer alternative to harsh, drying and potentially toxic solvents and thinners. Fortified with premium skin conditioners, this freshly-scented, fine pumice formula quickly removes the toughest soils. Biodegradable, nontoxic and nonflammable. •Cleans stains, varnish, lacquer, urethane adhesives and paints, resins, clear coats, body fillers, primers, oil-based paints, silicones, printer's ink, oil, and grime.
Part No. 65-116, 440 ml squeeze bottle.
Part No. 65-216, 1.89 litre pump bottle.

DL FAST ORANGE® PUMICE AND SMOOTH LOTION OR CREAM HAND CLEANER

•The leading biodegradable, waterless, petroleum solvent-free hand cleaner.
•Contains no harsh chemicals, mineral oils or ammonia that can sting cuts and abrasions. •Contains aloe, lanolin, jojoba and Corn Huskers. Lotion® for added skin conditioning and protection. Gently cleans the toughest dirt - cleans grease, grime, oils, glues, gasket and tile cement, printers ink, paint, and tar from hands. Also works great on laundry stains, greasy stoves, pet odours and other household cleaning needs.

DL FAST ORANGE® LOTION HAND CLEANER

Part No. 23-108, 225 ml squeeze bottle.
Part No. 23-116, 440 ml squeeze bottle.
Part No. 23-217*, 1.89 litre pump bottle.
Part No. 23-218*, 3.78 litre pump bottle.
Part No. 23-104*, 3.78 litre flat-top.

DL FAST ORANGE® LOTION HAND CLEANER WITH PUMICE

Part No. 25-108, 225 ml squeeze bottle.
Part No. 25-116, 440 ml squeeze bottle.
Part No. 25-217*, 1.89 litre pump bottle.
Part No. 25-218*, 3.78 litre pump bottle.
Part No. 25-104*, 3.78 litre flat-top.
Part No. 25-575, 163 gram bar soap.

DL FAST ORANGE® CREAM HAND CLEANER

Part No. 33-013, 397 gram container.
Part No. 33-406*, 2.04 kg container.

DL FAST ORANGE® CREAM HAND CLEANER WITH PUMICE

Part No. 35-013, 397 gram container.
Part No. 35-406*, 2.04 kg container.

DL FAST ORANGE® DRY SKIN HAND CLEANER

•Developed specifically for frequent users, Dry Skin formula helps reduce the symptoms of dry, cracked skin. Biodegradable, petroleum solvent-free and nontoxic, it also contains aloe, lanolin, glycerin and other premium skin conditioners.
Part No. 27-218, 3.78 litre pump bottle.

DL FAST ORANGE® HAND CLEANER WIPES

•Remove the toughest grease, tar, grime, ink, paints, sealants, adhesives and other difficult soils. Each pre-moistened wipe has a textured surface on one side that is ideal for cleaning heavy duty soils from hands, tools and work areas. The wipes also have a smooth side for general purpose cleaning. Applications: Field service trucks, industrial work stations, construction, utility maintenance, transportation, printing, municipal maintenance, marine, and warehouse personnel.
Part No. 25030, 30-ct. bucket.
Part No. 25072, 72-ct. bucket.

DL DISPENSERS, BRACKETS & MERCHANDISERS

Part No. 90-126, Plastic thumb pump dispenser - for all 3.78 litre jugs.
Part No. 90-128, Wall mounted wire bracket for all 3.78 litre jugs.
Part No. 95-140, Wall-mounted dispenser - allows for metered use of all DL Hand Cleaners in the professional size containers noted with *.

95-140

STOCKHAUSEN
Hand Cleaners

STOKO® SkinCare

Stockhausen consistently provides safe and effective products designed to protect, clean, and maintain healthy skin. All products have a pleasant fragrance. Stockhausen dispensers are guaranteed to provide superior service in hygiene, reliability, ease of use, and feature no waste dispensing. Stockhausen's 3 Point Program (Protection, Cleaning, After Care) offers the very best value in today's hand cleaning market.

1. PROTECTION (Blue Series)
Designed to protect skin from all kinds of professional hazards. The "Blue Series" products are applied before work helps keep skin healthy when working with harsh workplace substances. Safe for skin; they can also make clean-up easier.

TRAVABON®
•For use with oil-based substances such as grease, oil, cutting oils and organic solvents •Aids in clean up when applied before work •Silicone and oil-free Travabon® is the only skin protection cream of its type which has proved effective in clinical studies. Contains skin compatible special emulsifiers which greatly reduce the adherence of non water-soluble substances (e.g. oil, grease, glues, resins, paints, graphite and metal dust) to the skin. These emulsifiers make skin cleaning quick and easy. If Travabon® is regularly applied before and during work, the use of strong skin cleaners, and the associated risk of skin irritation, can be significantly reduced. Silicone free. Use: Rub small amount of Travabon® thoroughly onto clean dry skin. Do not use on face.
Part No. 81055, 100 ml tube.
Part No. 31157, 1000 ml Softbottle™.

2. CLEANING (Green Series) — continued to next page
The "Green Series" of products is engineered to provide optimized cleansing, skin-compatible and environmentally friendly cleansers break down grease, oil, dried-on paints, adhesives and urethanes. Heavy duty paste cleaners contain Astopon® all natural, walnut shell scrubbers which are effective at cleaning ground-in soils while remaining gentle to the skin.

KRESTO®
•For extra heavy cleaning of grease, oil, ink and carbon black •Contains all natural, biodegradable walnut shell scrubbers •Low solvent content, good skin compatibility
Kresto® is a slightly acidic alkali-free hand cleaner which contains a biodegradable walnut shell scrubber and a safe solvent. It cleans extremely well in cases of intensely stubborn industrial dirt (e.g. grease, oil, soot, metal dust, lacquers, adhesives, etc.) which cannot be removed at all by products that are free of scrubbers and solvents. Use: Rub a small amount of Kresto® thoroughly onto dry hands, add a little water and continue washing, rinse with plenty of water and dry thoroughly.
Part No. 87005, 250 ml tube.
Part No. 87045, 2000 ml Softbottle™.
Part No. 30362, ½ gallon pump bottle.

KRESTO® SELECT
•100% solvent free, extra heavy duty hand cleaner •Has the cleaning power to handle tough soils such as grease, oils, soot and carbon black, but is gentle to skin •Contains all natural, walnut shell scrubbers
Part No. 47157, 250 ml tube.
Part No. 87157, 2000 ml Softbottle™.

KRESTO® KWIK-WIPES®
•For quick cleaning of dirt, grease and grime when a sink is not available •Textured wipes •For use on skin, also great for tools and other surfaces
Part No. 87077, 70 count canister.
Part No. 87008, 130 count bucket.

Personal Use Products

STOCKHAUSEN
Hand Cleaners

Stockhausen consistently provides safe and effective products designed to protect, clean, and maintain healthy skin. All products have a pleasant fragrance. Stockhausen dispensers are guaranteed to provide superior service in hygiene, reliability, ease of use, and feature no waste dispensing. Stockhausen's 3 Point Program (Protection, Cleaning, After Care) offers the very best value in today's hand cleaning market.

2. CLEANING (Green Series) — continued

The "Green Series" of products is engineered to provide optimized cleansing, skin-compatible and environmentally friendly cleansers break down grease, oil, dried-on paints, adhesives and urethanes. Heavy duty paste cleaners contain Astopon® all natural, walnut shell scrubbers which are effective at cleaning ground-in soils while remaining gentle to the skin.

SOLOPOL®

•For medium to heavy duty cleaning of common automotive soils •Solvent free •Excellent skin compatibility •Contains all-natural, walnut shell scrubbers

Solopol® is a slightly acidic hand cleaner which contains a non-aggressive natural scrubber. It is alkali and solvent free. It has a good skin compatibility and excellent cleaning power in cases of intense industrial dirt (e.g. waste, oil, mineral oil, lubricating oil, graphite, metal dust, soot) which cannot be removed at all by products containing no scrubbers. Use: Rub small amount of Solopol® thoroughly onto dry hands, add a little water and continue washing, rinse with plenty of water and dry thoroughly.
Part No. 83187, 2000 ml Softbottle™.
Part No. 30384, 1/2 gallon pump bottle.

ESTESOL®

•Light duty, everyday hand cleaner •Pleasant fragrance and lather •Economical

Estesol® is a light duty skin cleanser designed for everyday use in public and private restrooms, and mechanic wash-up areas. It is formulated to be a highly effective cleanser with good cleaning power for light duty use. Neutral pH balanced green liquid is extremely gentle on the skin and offers a pleasant fragrance. Built-in conditioners leave the skin feeling smooth and soft.
Part No. 83311, 2000 ml Softbottle™.

CUPRAN® SPECIAL

•Special cleaner for oil based paints, stains, urethane sealants, adhesives, tar, and asphalt

Cupran® Special is a slightly acidic hand cleaner which contains a mixture of esters. It has very strong cleaning power for removing dirt caused by oil paints, lacquers, resins, adhesives, etc. Cupran® Special is free of soap and preservatives. It does not contain water which enables effective cleaning with only small quantities. Its slight fragrance makes it appealing to consumers. Use: Rub small amount of Cupran® Special thoroughly onto dry hands, add a little water and continue washing, rinse with plenty of water and dry thoroughly.
Part No. 81871, 250 ml tube.
Part No. 81874, 2000 ml Softbottle™.

3. AFTER CARE (Pink Series)

When the day's work is over, rough and damaged skin needs professional care. The "Pink Series" helps keep skin healthy when under environmental and occupational stress.

STOKOLAN®

•Concentrated conditioning cream for replacing lost moisture and oils •Ideal for chapping, chafing and eczema •Silicone free

Stokolan® is a silicone-free skin care cream which spreads easily, works quickly into skin and leaves no residual fat layer. Stokolan® has proved very effective in helping to prevent and treat dry, rough and even cracked skin that is caused by work-related conditions (attrition dermatosis). By adding moisture and oil to the skin, Stokolan® assists the natural regeneration of the skin. If applied regularly, it keeps the skin soft and smooth, and prevents it from becoming chapped or dry. Use: Rub small amount of Stokolan® thoroughly onto clean dry skin. May be applied to face.
Part No. 85485, 100 ml tube.
Part No. 31134, 1000 ml Softbottle™.

STOKO® DISPENSERS

Fits the Softbottle™ products. Vario sizing for 1000 ml and 2000 ml sizes. High impact plastic construction. Clean, hygienic, and economical.
Part No. 29187, white.
Part No. 59808, black.

KLEEN PRODUCTS INC.
Joe's Hand Cleaner Products

JOE'S ALL PURPOSE HAND CLEANER
Joe's creamy formula liquifies and gently lifts grease, grime and stains from the hands safely without water. Joe's leaves the hands cleaned, conditioned and without the greasy feeling and strong odor of competitive brands. The lanolin and skin care emollients help heal rough, dry and overused hands.
Part No. 105-15, 15 oz. plastic squeeze tube.
Part No. 101-45, 4.5 lb. plastic container.
Part No. 104-50, 20 L pail.

JOE'S HAND SCRUB
Formulated with lanolin and gentle polyethylene scrubbing agents. Polyethylene is round and smooth, unlike jagged edges of pumice or sand. Subsequently, the scrubbing process is a safer, more gentle method. Water or waterless.
Part No. 405-15, 15 oz. plastic squeeze tube.
Part No. 401-45, 4.5 lb. plastic container.
Part No. 404-50, 20 L pail.

JOE'S CITRUS BLUE
Formulated with nature's natural d-Limonene solvent for safe cleaning, balanced skin conditioning and the fresh scent of citrus. A distinctive blue colour to bring a new level of cleaning the smell of work off your hands.
Part No. 505-15, 15 oz. plastic squeeze tube.
Part No. 501-45, 4.5 lb. plastic container.

JOE'S DISPENSERS
Part No. 311-00, plastic wall dispenser (Fits 4.5 lb. containers).
Part No. 301-01, plastic pump dispenser (Fits 4.5 lb. containers).

311-00

301-01

'pr' SKIN CARE PRODUCTS
Barrier Cream

pr88 is not a detergent and/or handcleaner. pr88 is a water soluble barrier cream which is applied to the skin before work begins and which provides a protective non-greasy film while working. The skin's natural respiration remains unaffected while using pr88. A marble size quantity of pr88 suffices to protect the hands against contaminants such as oil, fat, tar, paint, lacquer, glue, resin, gasoline, synthetics, most of the non-aqueous, non-polar organic solvents and many other problem substances. The protective film can only be washed off with water. Upon completion of work the dirt is washed and rinsed off, together with the cream, under running water.
Part No. 88/005, 105 ml container.
Part No. 88/010, 1 litre container.

Personal Use Products

DEEP WOODS OFF!®/OFF!®/RAID®

KKK/3480

Insect Repellent & Killers

UDAP

12C

BEAR SPRAY
The Pepper Power Fogger is the most efficient way to dispense large amounts of OC (Oleoresin Capsicum - Hot Red Pepper) on to a subject in the shortest period of time. The fogger's enhanced broad spray pattern and inhalable particle size make it the most effective aerosol tool available to stop a bear attack.
SPECIFICATIONS
•Hot, potent oil based formula for lasting airborne dispersement of spray
•Bear spray comes in 0.75% Capsaicin rating
•Powerful dispersion, shotgun blast pattern
•Highly visible fog w/ a non-flammable propellant
•Glow in the dark safety pin attached with a tether to the bottle
•Proven in dozens of wildlife attacks

Part No. 12C, Bear Spray, 225 gram.
Part No. 12HPC, Bear Spray, 225 gram c/w hip holster in clamshell packaging.
Part No. 12H, Hip Holster - a comfortable means to carry bear spray, also allows the user to shoot "from the hip" without drawing the canister.
Part No. 12CH, Chest Holster - three easily adjustable straps are designed to fit chest sizes 32 to 54. Designed for immediate access, and for dispersing product directly from the holster. Recommended for use during colder temperatures and when wearing a back pack.

JOGGER FOGGER DOG DETERRENT
Is the most popular all-round self defense unit. Designed to fit easily in the palm of your hand with a stretch band to hold it securely in place. With holster's inner loop, it can also be worn on a belt for mail carriers, delivery people, meter readers, etc. For bicycle enthusiasts the jogger fogger can also be strapped on the back of your hand.
SPECIFICATIONS
•Emits 8 one second blasts at a maximum range of approximately 3 meters
•Oil-based powerful fog
•Dog spray comes in 0.35% Capsaicin rating
•Shotgun blast pattern
•Highly visible fog w/ a non-flammable propellant

Part No. 3PC, Dog Spray, 50 gram c/w universal jogger holster in clamshell packaging.

Part No. 33694, 300 ml cartridge.
Part No. 29247, Short caulking gun.

THE RIGHT STUFF™ FOR IMPORTS

Sensor safe and non corrosive. Performs under higher torque loads caused by engines with closely spaced bolt patterns (typical of import vehicles). Instant seal, forming a reliable, long lasting elastomeric rubber gasket. Applications: Automotive and marine gaskets, valve covers, gearbox covers, pumps, compressors, oil pans, thermostat housings, water pumps etc. Temperature Range: -60°C to 260°C.
Part No. 34311, 147 ml cartridge
Part No. 85144, 212 g PowerBead.
Part No. 34310, 300 ml cartridge.
Part No. 29247, Short caulking gun.

ULTRA BLUE® RTV GASKET MAKER

Eliminates the need for preformed, pre-cut, paper, rubber, or cork gaskets. Excellent adhesion to oily surfaces. Sensor safe. Applications: Intake manifold, oil pan gasket, valve cover gasket and similar stamped part sealing applications. Temperature Range: -60°C to 260°C.
Part No. 77BR, 80 ml tube, carded.
Part No. 77C, 300 ml cartridge.
Part No. 85519, 269 g PowerBead.

ULTRA BLACK® RTV GASKET MAKER

Sensor safe and non corrosive. Designed for the gasketing requirements of today's cars. Resistant to powertrain fluids. Applications: Intake manifold, oil pan gasket, valve cover gasket and similar stamped part sealing applications. Temperature Range: -54°C to 330°C.
Part No. 59803, 80 ml tube, carded.
Part No. 59813, 300 ml cartridge.
Part No. 85080, 269 g PowerBead.

ULTRA GREY® RTV GASKET MAKER

Sensor safe and non corrosive. Designed to meet the unique flange design sealing requirement of import engines. Superior resistance to powertrain fluids. Sensor safe. Applications: Intake manifold, oil pan gasket, valve cover gasket and similar sealing applications on import engines. Temperature Range: -54°C to 345°C.
Part No. 82194, 80 ml tube, carded.
Part No. 82195, 300 ml cartridge.
Part No. 85084, 269 g PowerBead.

ULTRA COPPER® RTV HIGH-TEMPERATURE GASKET MAKER

Sensor safe and non corrosive. Designed for gasketing applications where operating temperatures are higher. Superior resistance to powertrain fluids, and has excellent adhesion to oily surfaces. Sensor safe. Applications: Exhaust manifold gaskets, turbo chargers and similar higher temperature applications. Temperature Range: -60°C to 370°C.
Part No. 101BR, 80 ml tube, carded.
Part No. 101C, 300 ml cartridge.

WATER PUMP & THERMOSTAT RTV GASKET

Sensor safe and non corrosive. Formulated specifically for water pumps and thermostat housings, highest water-glycol resistance available. Applications: Water pump and thermostat housings. Temperature Range: -54°C to 345°C.
Part No. 31866, 14 g tube, carded.

BLUE RTV GASKET MAKER

Sensor safe. Use for sealing, bonding, insulating, caulking, making gaskets and coating pre-cut gaskets. Applications: Oil pan gaskets, valve cover gasket and similar applications on pre-1980 engines. Temperature Range: -54°C to 260°C.
Part No. 6BR, 80 ml tube, carded.
Part No. 6C, 300 ml cartridge.
Part No. 85860, 269 g PowerBead.

BLACK RTV GASKET MAKER

Sensor safe. Use for sealing, bonding, insulating, caulking, making gaskets and coating pre-cut gaskets. First generation 1970-1980 gasket maker. Applications: Oil pan gaskets, valve cover gaskets, seal and waterproof electrical connections. Temperature Range: -54°C to 230°C.
Part No. 17BR, 80 ml tube, carded.
Part No. 17C, 300 ml cartridge.

HIGH-TEMP RED RTV GASKET MAKER

Sensor safe. Formulated for high temperature applications or heavy duty use (such as towing and turbo charged engines). Replaces almost any cut gasket. Waterproof seal resists cracking, shrinking and migrating. Applications: Valve covers, oil pans, water pumps, thermostat housings, transmission pans. Temperature Range: -54°C to 343°C
Part No. 27BR, 80 ml tube, carded.
Part No. 27C, 300 ml cartridge.

HIGH TEMPERATURE ANAEROBIC FLANGE SEALANT

Use for gasketing close fitting rigid machined flanges with gaps up to 0.25 mm unprimed; 0.5 mm with primer. Eliminates the need for pre-formed, pre-cut, paper, rubber or cork gaskets. Superior resistance to powertrain fluids including engine oil, transmission fluid, gear lube, coolants, gasoline. Withstands temperatures to 204°C. Applications: Water pumps, thermostat housings, transmission pans, transmission case covers, transaxle casings, o-ring replacement. Temperature Range: -54°C to 204°C.
Part No. 51031, 50 ml tube.

ANAEROBIC GASKET MAKER - FLANGE SEALANT

Use for gasketing close fitting rigid machined flanges with gaps up to 0.25 mm unprimed; 1.27 mm with primer. Eliminates the need for pre-formed, pre-cut, paper, rubber or cork gaskets. Superior resistance to powertrain fluids including engine oil, transmission fluid, gear lube, coolants, gasoline. Applications: Water pumps, thermostat housings, transmission pans, transmission case covers, transaxle casings, o-ring replacement. Temperature Range: -51°C to 150°C.
Part No. 51531, 50 ml tube, carded.
Part No. 51580, 300 ml cartridge.

ANAEROBIC GASKET MAKER - AUTOMOTIVE GRADE

Designed for superior performance on aluminium flanges. Use for gasketing close fitting rigid machined flanges with gaps up to 0.25 mm unprimed; 1.27 mm with primer. Superior resistance to powertrain fluids including engine oil, transmission fluid, gear lube, coolants, gasoline. Resists temperatures up to 150°C. Applications: Water pumps, thermostat housings, transmission pans, transmission case covers, transaxle casings, o-ring replacement. Temperature Range: -54°C to 150°C.
Part No. 51817, 6 ml tube, carded.
Part No. 51813, 50 ml tube, carded.
Part No. 51845, 300 ml cartridge.

MOTOSEAL® 1 ULTIMATE GASKET MAKER GREY

Designed for use on motorcycles, watercraft, snowmobiles and karts. Effective at high temperatures up to 204°C intermittent and performs well at low temperatures. Applications: Cylinder head top covers, centre and end covers (transmissions), case halves, cam covers, exhaust manifold seals, timing chain cases, side covers, clutch housings. Temperature Range: -54°C to 177°C.
Part No. 38401, 80 ml tube, carded.

GASKET REMOVER

Removes gaskets and gasket residue from any type of metal housing. Aids in quickly removing all types of gasketing sealants and adhesives, even baked-on gaskets
Part No. 4MA, 340 g aerosol.

Gasket Sealants

FORM-A-GASKET® NO. 1 SEALANT
Designed for dressing/sealing cut gaskets on rigid flanges. Thick, fast drying, hardening formula. For application where permanent assembly is desired. Applications: Dressing cork, rubber, paper, and composite gaskets, sealing hose connections. Temperature Range: -54°C to 200°C.
Part No. 1AR, 30 ml tube, carded.
Part No. 1BR, 80 ml tube, carded.
Part No. 1C, 200 ml tube.

FORM-A-GASKET® NO. 2 SEALANT
Designed for dressing/sealing cut gaskets and stamped parts. Thick, slow drying, non-hardening formula. Resists common auto and shop fluids and fuels. Applications: Dressing cork, rubber and paper gaskets. Temperature Range: -54°C to 200°C.
Part No. 2AR, 30 ml tube, carded.
Part No. 2BR, 80 ml tube, carded.
Part No. 2C, 200 ml tube.

AVIATION FORM-A-GASKET® NO. 3 SEALANT
Slow drying, non-hardening sealant. Approved for use in aviation as well as automotive applications. Helps seal cut gaskets. Applications: Seals any paper, rubber, cork or composite gasket, close fitting machined surfaces, hoses. Temperature Range: -54°C to 200°C.
Part No. 3H, 118 ml brush-top can.
Part No. 3D, 473 ml brush-top can.

SUPER HIGH TACK® GASKET SEALANT
Tacky paste for holding cut gaskets in place during assembly. Fast drying, resists gasoline, oil, antifreeze and axle fluids. Applications: Seals any rubber, cork, paper or composite gasket; also works on hose connections; good as a general purpose contact adhesive. Temperature Range: -54°C to 260°C.
Part No. 80060, 51 ml tube, carded.
Part No. 98H, 118 ml brush-top can.
Part No. 98D, 473 ml brush-top can.

HIGH TACK™ SPRAY-A-GASKET® SEALANT
Tacky aerosol sealant for holding gaskets in place during assembly. Fast drying, resists gasoline, oil, antifreeze and axle fluids. Applications: Seals any rubber, cork, paper or composite gasket; also for holding sanding disks; good as a general purpose contact adhesive. Temperature Range: -54°C to 260°C.
Part No. 99GA, 135 g aerosol.
Part No. 99MA, 255 g aerosol.

COPPER SPRAY-A-GASKET® HIGH-TEMP SEALANT
Tacky aerosol sealant for holding gaskets in place during assembly. Contains copper to aid in heat transfer which reduces hot spots and gasket burn out. Fast drying, resists gasoline, oil, antifreeze and axle fluids. Applications: Head gaskets, exhaust manifold gaskets, turbo charger gaskets. Temperature Range: -46°C to 260°C.
Part No. 101MA, 255 g aerosol.

SUPER "300"® FORM-A-GASKET® SEALANT
Brushable fast drying, non-hardening gasket sealant. Resists gasoline, oil, antifreeze and axle fluids. Applications: Seals cork and paper gaskets, valve covers, oil pans. Temperature Range: -54°C to 218°C.
Part No. 83H, 118 ml brush-top can.

INDIAN HEAD® GASKET SHELLAC COMPOUND
The original quality formula. Hard setting, economical sealant. Seals all common gasketing materials in low temperature and low pressure applications. Resists diesel fuels and most shop fluids. Applications: Hose connections, paper and cardboard gaskets. Temperature Range: -54°C to 175°C.
Part No. 5J-1, 50 ml bottle.

FORM-A-SEAL® LEAK REPAIR
Spray on to form a durable rubber barrier to fix leaks. Can be used as an alternative to liquid additive-type sealers. Resists common automotive and shop fluids. Applications: Engine and transmission leaks, cooling systems, water leaks. Adheres to metals, rubber, glass, masonry, wood and most plastics. Temperature Range: -54°C to 177°C.
Part No. 82096, 142 g aerosol.

Thread Lockers

PURPLE LOW STRENGTH THREADLOCKER
Designed for fasteners 6 mm (1/4") and smaller. Removable with hand tools and normal effort. Applications: Set screws, headlamp screws and any small screw assembly. Temperature Range: -54°C to 150°C.
Part No. 22210, 10 ml bottle, carded.
Part No. 22250, 50 ml bottle.
Part No. 22225, 250 ml bottle.

BLUE REMOVABLE STRENGTH THREADLOCKER
Designed for fasteners 6 mm to 20 mm (1/4"- 3/4"). Removable with hand tools and normal effort. Applications: Oil pan bolts, water pump bolts and any similar threaded assembly. Temperature Range: -54°C to 150°C.
Part No. 31878, 0.5 ml Counterman's Choice™
Part No. 24200, 6 ml tube, carded.
Part No. 24210, 10 ml bottle, carded.
Part No. 24215, 10 g Gel Twist™.
Part No. 24240, 36 ml bottle, carded.
Part No. 24250, 50 ml bottle.
Part No. 24225, 250 ml bottle.

BLUE SURFACE INSENSITIVE THREADLOCKER
Designed for fasteners 6 mm to 20 mm (1/4"- 3/4") that have a slight oil film. Prevents vibration loosening. Oil resistant. Applications: Rocker studs, rocker adjustment bolts, bolts on valve, cam covers, oil pans, disc brake calipers, intakes, alternator and pully assemblies. Temperature Range: -54°C to 150°C.
Part No. 24300, 10 ml bottle, carded.
Part No. 24350, 50 ml bottle.
Part No. 24325, 250 ml bottle.

RED PERMANENT STRENGTH THREADLOCKER
Designed for fasteners 10 mm to 25 mm (3/8"- 1"). Withstands heavy shock and vibration. Extra effort and localized heat may be required for removal. Applications: Shock mounts, suspension bolts and studs, and similar fasteners subject to higher shock and vibration. Temperature Range: -54°C to 150°C.
Part No. 26200, 6 ml tube, carded.
Part No. 26210, 10 ml bottle, carded.
Part No. 26240, 36 ml bottle, carded.
Part No. 26250, 50 ml bottle.
Part No. 26225, 250 ml bottle.

RED HIGH STRENGTH THREADLOCKER
Designed for fasteners 10 mm to 25 mm (3/8"- 1"). High Strength threadlocker that is similar to Permanent Strength Threadlocker Red but more difficult to remove, extra effort localized heat or special tools for removal. Applications: Shock mounts, suspension bolts and studs, and similar fasteners subject to higher shock and vibration. Temperature Range: -54°C to 150°C.
Part No. 31879, 0.5 ml Counterman's Choice™.
Part No. 27110, 10 ml bottle, carded.
Part No. 27115, 10 g Gel Twist™.
Part No. 27140, 36 ml bottle, carded.
Part No. 27150, 50 ml bottle.
Part No. 27125, 250 ml bottle.

RED HIGH TEMP/HIGH STRENGTH THREADLOCKER
Designed for fasteners 16 mm to 25 mm (5/8"- 1") under high temperature conditions. Extra effort and localized heat may be required for removal. Applications: Exhaust studs into block, higher temperature high performance engine applications. Temperature Range: -54°C to 232°C.
Part No. 27200, 10 ml bottle, carded.
Part No. 27240, 36 ml bottle, carded.
Part No. 27250, 50 ml bottle.
Part No. 27225, 250 ml bottle.

RED LARGE DIAMETER THREADLOCKER
Designed for fasteners M25 (1") and larger. High viscosity, high strength threadlocker. Extra effort and localized heat may be required for removal. Applications: Large diameter frame bracket and suspension fasteners, motor mounts and similar larger diameter fasteners. Temperature Range: -54°C to 150°C.
Part No. 27710, 10 ml bottle, carded.
Part No. 27740, 36 ml bottle, carded.
Part No. 27750, 50 ml bottle.
Part No. 27725, 250 ml bottle.

PERMATEX®
Thread Lockers

Gel Twist™
The Permatex® Gel Twist™ pin point applicator puts the product where you want it... on the part! No more drips or solid globs to deal with. No more mess to clean or costly waste to worry about. Permatex Gels provide liquid quality reliability without the problems.

PowerBead™
The Ultimate Dispensing System
- Makes application quick and easy
- Extended, rigid nozzle gives pinpoint control
- Vertically-actuated valve design eliminates clogging
- Cushion-grip

GREEN PENETRATING GRADE THREADLOCKER
Designed to use where it is preferred to apply threadlocker AFTER fastener has been assembled. Low viscosity, medium strength threadlocker. Applications: Alternator bolts, pulley tensioners and similar post-applied applications. Can also be used as a porosity and weld seam sealant. Temperature Range: -54°C to 150°C.
Part No. 29000, 6 ml tube, carded.
Part No. 29040, 36 ml bottle, carded.
Part No. 29050, 50 ml bottle.
Part No. 29025, 250 ml bottle, carded.

Thread Repair

SURFACE PREP ACTIVATOR/PRIMER
Designed for cleaning and priming parts prior to assembly with threadlockers, thread sealants, and retaining compounds. Speeds cure of threadlockers by 50%. Ensures parts are clean to achieve maximum strength of product. Applications: Any threadlocking, thread sealing and retaining application.
Part No. 24163, 127 g aerosol.

ACTIVATOR T
Used to increase cure speed of Permatex anaerobic products. Recommended for applications with inert surfaces or passive metals and with large bond gaps. Can be used when temperatures are below room temperature especially when cure conditions are below 15°C. Applications: Any threadlocking, thread sealing and retaining application.
Part No. 19267, 52 ml bottle.

FORM-A-THREAD® STRIPPED THREAD REPAIR
Makes reliable, permanent thread repairs without drills, taps, tools or inserts. Restores worn, stripped or damaged threads. Repairs most metal to metal fasteners up to SAE grade 5 imperial and 8.8 metric (coarse and fine) Applications: Intake manifold bracket fastener threads, timing chain cover bolt threads, valve cover bolt threads, water pump bolt threads.
Temperature Range: -54°C to 150°C.
Part No. 81668, Kit.

Thread Sealants

HIGH PERFORMANCE THREAD SEALANT
Locks and seals threaded fittings. Resists leakage and vibration loosening. Formulated specifically for metal, tapered pipe thread fittings. Replaces Teflon® tape and pipe dopes. Cures rapidly to withstand 10,000 PSI. Paste formulation seals larger diameter fittings and won't run. Applications: Stainless steel fittings, head bolts into through holes, oil PSI sending units/sensors, oil and coolant lines, intake manifold switches, rear axle fill plug, fuel fittings.
Temperature Range: Up to 150°C.
Part No. 56521, 50 ml tube, carded.
Part No. 56525, 250 ml tube.

HIGH TEMPERATURE THREAD SEALANT
Designed to provide an extremely reliable seal on any metal pipe thread fitting and plugs. Resists leakage, vibration loosening, moisture, hydraulic fluids and diesel fuels. Will not loosen in service but can be easily removed with hand tools. Parts may be repositioned up to 4 hours after application. Applications: Oil PSI sending units/sensors, oil and coolant lines, rear axle fill plug, fuel fittings, head bolts into through holes, any pipe thread fitting or plug. Temperature Range: Up to 204°C.
Part No. 59214, 6 ml tube, carded.
Part No. 59234, 50 ml tube, carded.
Part No. 59225, 250 ml tube.

MAXIMUM TEMPERATURE THREAD SEALANT
Designed to provide an extremely reliable seal on any metal pipe thread fitting and plugs. Resists leakage, vibration loosening, moisture, hydraulic fluids and diesel fuels. Will not loosen in service but can be easily removed with hand tools. Parts may be repositioned up to 4 hours after application. Applications: Head bolts into through holes, oil PSI sending units/sensors, oil and coolant lines, fuel fittings, rear axle fill plug, brake and power steering fittings. Temperature Range: -54°C to 204°C.
Part No. 56750, 50 ml tube, carded.
Part No. 56725, 250 ml tube.

PNEUMATIC/HYDRAULIC SEALANT
Designed for locking and sealing high pressure hydraulic and pneumatic systems. Contains no fillers or particles which can contaminate system fluids, foul valves or clog fine filters and screens. Applications: Hydraulic line fittings, brake line fittings, transmission fluid fittings, PTO fittings.
Temperature Range: Up to 150°C.
Part No. 54540, 36 ml bottle, carded.
Part No. 54550, 50 ml bottle.

THREAD SEALANT WITH TEFLON®
Economical white general purpose thread sealant. Contains Teflon to aid in assembly of threads. Remains pliable in service and is easily removed with hand tools. Applications: Air conditioning fittings, temperature sending fittings, hydraulic fittings. Temperature Range: -54°C to 150°C.
Part No. 14H, 118 ml brush-top bottle.
Part No. 14D, 473 ml brush-top bottle.

PIPE JOINT COMPOUND
Economical black general purpose thread sealant. Resists common auto/shop fluids, fuels, gases. Remains pliable in service and is easily removed with hand tools. Applications: Threaded fitting and plumbing applications. Temperature Range: -54°C to 200°C.
Part No. 80045, 473 ml brush-top bottle.

Retaining Compounds

BEARING MOUNT FOR CLOSE FITS

Low viscosity, rapid-curing anaerobic adhesive that augments the strength of press fit assemblies or slip fit assemblies up to 0.13 mm (0.005") gap. Fixtures in 10 minutes and provides a shear strength of 3000 PSI after 24 hrs. Applications: Bushings, bearings, oil seals, ring gear bolts, differential lock pins. Temperature Range: -54°C to 150°C.
Part No. 60910, 10 ml bottle, carded.
Part No. 60940, 36 ml bottle, carded.
Part No. 60950, 50 ml bottle.
Part No. 60925, 250 ml bottle.

MAXIMUM TEMPERATURE SLEEVE RETAINER

Designed to increase the strength of press fits or retain slip fits where higher temperature resistance is required. Fixtures in 30 minutes at room temperature, but requires a secondary heat cure to generate high temperature resistance. Applications: Bearings, bushings, cylinder sleeves, valve guides, cup/core plugs and similar assemblies where higher temperature resistance is required. Temperature Range: -54°C to 232°C.
Part No. 62000, 6 ml tube, carded.
Part No. 62040, 36 ml bottle, carded.
Part No. 62050, 50 ml bottle.
Part No. 62025, 250 ml bottle.

HIGH TEMP SLEEVE RETAINER

High temperature anaerobic adhesive that secures slip and press fit assemblies. Adds up to 3000 PSI holding power. Restores fit to worn or out-of-tolerance assemblies. Prevents surface corrosion. Applications: Cylinder sleeves, valve guides, valve seats, bearings and bushings, woodruff keys, liner assemblies. Temperature Range: -54°C to 204°C.
Part No. 64010, 10 ml bottle, carded.
Part No. 64050, 50 ml bottle.
Part No. 64025, 250 ml bottle.

BEARING MOUNT FOR RELAXED FITS

High strength, medium viscosity anaerobic adhesive for slip fit assemblies. Fixtures in 10 minutes at room temperature. Provides 4000 PSI shear strength on steel after 24 hrs. Applications: Replaces set screws, replaces clamp rings, replaces snap rings, wheel bearings, idler shaft, press fit bearings. Temperature Range: -54°C to 150°C.
Part No. 68040, 36 ml bottle, carded.
Part No. 68050, 50 ml bottle.
Part No. 68025, 250 ml bottle.

BEARING MOUNT FOR WORN PARTS

A creamy, non-running adhesive used between parts to repair large gaps and severely worn parts. Fills gaps 0.005" to .020" in diametral gap. Very rapid cure. Applications: Refitting worn shafts and housing, repair worn keyways, repair loose set screws, refit worn couplings, form-in-place shims. Temperature Range: -54°C to 150°C.
Part No. 20297, 6 ml tube, carded.
Part No. 66050, 50 ml tube, carded.

Adhesives & Sealants

ULTRA BOND™ SUPER GLUE

General purpose super glue. Superior performance and strength. Fast setting, strong adhesive for bonding most materials. Better choice than epoxies for bonding parts with little or no gap. For use on nonporous materials. Makes durable, clear bonds. Gel formula works better on more porous materials. Applications: Metal, wood, ceramic, porcelain, leather, vinyl, paper, cork, fabric and most plastics. Temperature Range: -54°C to 82°C.
Part No. 49502, 3 g tube, carded.
Part No. 30030, 2 g tube Gel Formula, carded.
Part No. 49512, 28 g bottle.

ULTRA BOND™ PLASTIC BONDER

A premium superior performance industrial strength adhesive that bonds any plastic, even polyethylene and polypropylene. Includes gel formula super glue with activator. Applications: Use to bond any close fitting plastic parts, even difficult to bond polyethylene and polypropylene plastics. Temperature Range: -54°C to 82°C.
Part No. 30213, 2 g kit, carded.

SURFACE INSENSITIVE INSTANT ADHESIVE

Rapidly bonds a wide variety of materials. Suited for hard to bond materials. Low viscosity. Applications: Metal, plastics, and elastomers as well as porous and absorbent substrates such as fabric, paper, leather and wood. Temperature Range: -54°C to 82°C.
Part No. 40140, 20 g bottle.
Part No. 40161, 455 g bottle.

O-RING RUBBER BOND ADHESIVE

Specifically designed to bond O-rings along with other rubber and plastic surfaces. Low viscosity, fast curing adhesive. Applications: Fabricating O-rings, bonding rubber belts, pads and bumpers. Tacking rubber gaskets and weatherstripping, mounting plastic labels and name plates. Temperature Range: -54°C to 82°C.
Part No. 40413, 9.5 g bottle.

BLACK RUBBER TOUGHENED ADHESIVE

Rubber toughened, ethyl cyanoacrylate. Excellent resistance to peel and shock loads at elevated temperatures. Rapidly bonds a wide variety of materials. Suited for hard to bond materials in challenging environments. Resists thermal shock. Improved resistance to humid or damp environments. Gel formula works better on more porous materials. Applications: Ideal adhesive to bond rubbers, plastics and metals in challenging environments. Temperature Range: -54°C to 107°C.
Part No. 41040, 20 g bottle.

SUPER GLUE GEL

A superior performance, high strength gel formulation. Will not drip or run, even on vertical surfaces. Also ideal for overhead or hard to reach surfaces. Works both on porous and nonporous materials. Fixtures in less than 75 seconds. Applications: Metal, plastics, rubber, vinyl, paper, wood, textiles, and cork. Temperature Range: -54°C to 82°C.
Part No. 45440, 20 g tube.

SUPER GLUE

Specifically formulated for bonding metal surfaces. Works on nonporous materials. Specially designed for faster (less than 30 seconds), long lasting, permanent and transparent bonds. Bonds close fitting surfaces. Applications: Metal, plastics, rubber, vinyl, paper, wood, textiles, and cork gaskets. Temperature Range: -54°C to 82°C.
Part No. 49650, 28 g bottle.

PERMAPOXY™ 1 MINUTE EPOXY

NEW!!

Better choice than super glues for bonding parts with larger gaps. Bonds rigid materials including metal, fibreglass, chrome, glass, ceramic, wood and many plastics. Can be drilled, machined, filed and painted. •Sets in 1 minute •Permanent strength up to 2500 PSI •Impact resistant •Fuel and solvent resistant •Waterproof •Clear appearance Temperature Range: -51°C to 82°C.
Part No. 84162, 25 ml dual syringe, carded.

PERMAPOXY™ 5 MINUTE GENERAL PURPOSE EPOXY

Better choice than super glues for bonding parts with larger gaps. Resists most liquids including fuels and solvents, can be drilled, machined, filed and painted. Permanent strength - up to 3400 PSI. Applications: Auto trim parts, knobs, cracked tail lights, fills cracks, ceramic, chrome, fabric, fibreglass, glass, hard plastic, metal and rubber. Temperature Range: -51°C to 82°C.
Part No. QM50A, 25 ml dual syringe, carded.

PERMAPOXY™ 30 MINUTE CRYSTAL CLEAR EPOXY

Better choice than super glues for bonding parts with larger gaps. Resists most liquids including fuels and solvents, can be drilled, machined, filed and painted. Permanent strength - up to 3500 PSI. Applications: Fills cracks, repair damaged spoilers, tamper proofing, hub cap trim, ceramic, concrete, fabric, fibreglass, glass, metal and rubber. Temperature Range: -51°C to 82°C.
Part No. 84117, 25 ml dual syringe, carded.

PERMAPOXY™ 4 MINUTE MULTI-METAL EPOXY

Can be used as an alternative to welding or brazing cracked or broken metal parts. Grey appearance. Resists most liquids including fuels and solvents, can be drilled, machined, filed and painted. Permanent strength - up to 4500 PSI (except #84319 = 3500 PSI). Applications: Fills holes, mount metal components, fills metal cracks, seals welded seams, aluminum, brass, chrome, copper, iron, stainless steel and steel. Temperature Range: -51°C to 150°C.
Part No. 84119, 25 ml dual syringe, carded.
Part No. 84219, 56 g tube, carded.
Part No. 84319, 56 g stick, carded.

PERMAPOXY™ 5 MINUTE PLASTIC WELD

Better choice than super glues for bonding parts with larger gaps. Resists most liquids including fuels and solvents, can be drilled, machined, filed and painted. Cream appearance. Permanent strength - up to 3500 PSI. Applications: Bonds most plastic, interior trim, fills cracks, plastic to vinyl, ABS, acrylic, fibreglass, glass, PVC, steel, styrene, vinyl, wood. Temperature Range: -51°C to 121°C.
Part No. 84125, 25 ml dual syringe, carded.

COLD WELD BONDING COMPOUND

Fast setting, 2-part adhesive and filler system used as an alternative to welding or brazing cracked or broken metal parts. Can be drilled, machined, filed, and painted. Over 3000 PSI shear strength. Applications: Repair cracked or broken aluminum, steel, brass or bronze castings, stamping and machined parts. Temperature Range: -51°C to 150°C.
Part No. 14600, 56 g tube, carded.

CLEAR RTV SILICONE ADHESIVE SEALANT

An excellent all purpose RTV silicone adhesive/sealant. Use for sealing, bonding, insulating, caulking. Flexible, durable, tough, waterproof. Applications: Seal and waterproof electrical connections, windshields, sun roofs, firewall openings, heater boxes. Temperature Range: -60°C to 204°C.
Part No. 66BR, 80 ml tube, carded.
Part No. 66C, 300 ml cartridge.
Part No. 85913, 205 g PowerBead™.

BLACK RTV SILICONE ADHESIVE SEALANT

An excellent all purpose RTV silicone adhesive/sealant. Use for sealing, bonding, insulating, caulking. Flexible, durable, tough, waterproof. Applications: Seal and waterproof electrical connections, windshields, sun roofs, firewall openings, heater boxes. Temperature Range: -62°C to 260°C.
Part No. 16BR, 80 ml tube, carded.
Part No. 16C, 300 ml cartridge.

RED HIGH-TEMP RTV ADHESIVE SEALANT

An excellent all purpose RTV silicone adhesive/sealant. Resists aging, weather and thermal cycling, will not shrink, crack or harden. Use for sealing, bonding, insulating, caulking. Flexible, durable, tough, waterproof. Applications: Seal and waterproof electrical connections, firewall openings, heater boxes. Seals and bonds glass, metals and plastics. Temperature Range: -60°C to 340°C.
Part No. 26BR, 80 ml tube, carded.
Part No. 26C, 300 ml cartridge.
Part No. 85915, 205 g PowerBead™.

FLOWABLE SILICONE GLASS & WINDSHIELD SEALER

A flowable, clear RTV silicone adhesive/sealant specially formulated to flow into hard-to-reach or hidden areas to seal, bond, insulate or caulk. Flexible, durable, tough, waterproof. Applications: Seal and waterproof around heater boxes, door frames, RV vents and windows, vinyl roofs. Temperature Range: -62°C to 260°C.
Part No. 65AR, 42 g tube, carded.

AUTO TRIM ADHESIVE

Fast setting, no-mix 2-part structural adhesive system. Makes strong, durable, clear, water resistant bonds. Applications: Use to bond auto trim and emblems, metal, hard plastic, laminate, wood, fibreglass, ceramic, china, glass.
Part No. 25659, 3.5 ml kit, carded.

SUPER WEATHERSTRIP ADHESIVE

Strong, waterproof weatherstrip adhesive allows for repositioning of parts after contact. Applications: Use to bond weatherstripping, door and truck mouldings, truck liners, floor mats, carpeting, vinyl tops. Bonds rubber, cloth, vinyl, metal, glass, wood.
Part No. 80BR, 59 ml tube (yellow), carded.
Part No. 80S, 147 ml tube (yellow), boxed.
Part No. 81850, 147 ml tube (black), boxed.

CONTACT CEMENT

Tough, permanent bond on contact. Instantly bonds metal, wood, ceramic, leather, rubber and many other surfaces. Bonds leather and vinyl to metal. Heat and water resistant. Applications: Weather stripping, rubber mats, carpeting, metal, wood, ceramic, leather, rubber and many other surfaces.
Part No. 31862, 44 ml tube, carded.

HEAVY DUTY SPRAY ADHESIVE

High strength and high temperature spray adhesive. Designed for repairing interior parts that have become detached or loosened. Especially effective in repairing automotive headliners due to the high strength and temperature resistance of the product. Resistant to extreme weather conditions. Water resistant. Dries clear. Applications: Headliners, carpets, trunk linings, door panels. For use on foam, plastics and rubber. Temperature Range: Up to 77°C.
Part No. 27829, 474 g aerosol.

Specialized Maintenance & Repair

PLASTIC TANK REPAIR KIT
Quick, permanent repairs to plastic tanks (not for use on plastic Fuel tanks). Repairs cracks up to 4" (10 cm) long and holes up to 3/8" (9 mm) in diameter. Everything required for repair is included. Fast curing. Repairs can be made in 30 minutes. Applications: Ideal for cars, trucks, boats and RV's. Windshield washer reservoirs, radiator overflow tanks, coolant reservoirs, water and waste tanks.
Part No. 09220, Kit, carded

PLASTIC LENS RESTORATION KIT
Restores clouded, pitted and yellowed plastic lens surfaces •Restores plastic headlight lenses •Everything required for restoration is included •Applications: Works on most plastic lighting lenses to restore LIKE NEW clarity, improving light output and appearance.
Part No. 09225.

FUEL TANK REPAIR KIT
Quick, permanent repairs to metal fuel tanks (not for use on plastic Fuel tanks). Repairs cracks up to 4" (10 cm) long and holes up to 3/8" (9 mm) in diameter. Eliminates dangerous welding. Everything required for repair is included. Fast curing. Repairs can be made in 30 minutes. Applications: Ideal for cars, light trucks and commercial vehicles as well as portable metal fuel tanks.
Part No. 09221, Kit, carded.

RADIATOR REPAIR KIT
Quick, permanent repairs to radiator leaks. Repairs plastic and metal tanks. Repairs cracks up to 4" (10 cm) long and holes up to 3/8" (9 mm) in diameter. Everything required for repair is included. Fast curing. Applications: Ideal for cars, light trucks and RV's.
Part No. 09224, Kit, carded.

REAR-VIEW MIRROR ADHESIVE
Permanently bonds rear-view mirror button to windshield in minutes (not for use on plastic buttons). Achieves handling strength in seconds; mirror mounting strength in 15 minutes or less. Applications: Bonding rear-view mirror brackets to windshields. Also works for bonding glass to glass or glass to metal.
Part No. 09222, 0.9 ml DIY kit.
Part No. 3306, 0.9 ml kit.
Part No. 03325, 170 g aerosol, 24 ml adhesive kit.

UV GLASS SEALANT
To be used with a professional vacuum plunger system. Repairs bullseye's, star damage, voids and spider webs on laminated automotive windshields. Stops cracks from growing due to changes in the weather or due to contamination entering the crack. Applications: Fill small cracks, voids, and Bullseyes on windshields.
Part No. 81379, 27 ml bottle.

BULLSEYE™ WINDSHIELD REPAIR KIT
Repairs chips, scratches and bullseyes in windshields. Makes a virtually undetectable clear repair. Applications: Minor chips and bullseye's in windshields and other glass windows. Not to be used on windshield cracks.
Part No. 09223, Kit, carded.
Part No. 16067, 5 ml syringe, carded.

REAR WINDOW DEFOGGER TAB ADHESIVE
Use to permanently bond broken off rear window defogger tabs to rear window. High electrical conductivity. Applications: To rebond broken off rear window defogger tabs.
Part No. 22437, 0.8 ml kit, carded.

QUICK GRID™ REAR WINDOW DEFOGGER REPAIR KIT
Economical repair for scratched or broken rear window defogger/defroster grid lines. High electrical conductivity. Dries to a colour that matches the heating element. Applications: To repair scratched or broken rear window defogger/defroster grid lines.
Part No. 15067, 1.4 ml kit, carded.

MUFFLER & TAILPIPE BANDAGE
Epoxy-impregnated fibreglass bandage chemically welds mufflers and tailpipes. Permanently repairs holes and leaks in exhaust systems. Seals out poisonous fumes to temperatures of 426°C. Applications: Mufflers and tailpipes on automobiles, trucks, tractors and farm equipment.
Part No. 38420, 2" x 42" bandage, carded.

MUFFLER & TAILPIPE PUTTY
Permanently repairs holes and leaks in exhaust systems. Seals out fumes at temperatures up to 1000°C. Applications: Mufflers, tailpipes, joints and catalytic converters.
Part No. 38422, 113 g pouch, carded.

MUFFLER & TAILPIPE SEALER
Non-slumping black paste. Seals holes and leaks in mufflers, tailpipes and around joints. Makes new installations more secure. Resists temperatures up to 1000°C. Applications: Mufflers, tailpipes, joints and catalytic converters.
Part No. 38414, 85 g tube, carded.

GAS TANK & RADIATOR REPAIR
Instantly and permanently seals small holes in gas tanks and radiators without welding or removing tank. Sticks to gasoline wet surfaces. Excellent chemical and moisture resistance. Dries to a hard seal. Applications: Repair gas tanks and radiators in cars, trucks, and farm equipment. Can also be used to repair oil pan holes if area to be repaired is cleaned of oil first.
Part No. 12020, 7 g stick, carded.

O-RING SPLICING KIT
Makes any size o-ring quickly and on-the-spot. Each kit contains: 12 feet of Buna-N cord (3/32", 1/8", 3/16", 1/4" diameter), Super Glue® adhesive, splicing fixture and cutting blade. Applications: Use to make emergency or hard to find O-rings of any size.
Part No. 00112, Kit, boxed.

VALVE GRINDING COMPOUND
Aids valve grinding and seating operations to remove burrs, surface defects, carbon, gum and corrosion. Can be used for lapping and grinding chromium. For both machine and hand grinding. Grease or water mixed formulas. Applications: Use on valves, cutting tools, main bearings, camshafts, reel type lawn mowers.
Part No. 474G, 115 ml can, grease mixed.
Part No. 34B, 85 g tube, water mixed.

PRUSSIAN BLUE
Used to aid in precision fitting of machined surfaces. Locates high spots on shafts, valves, gears and other close tolerance components. Non-drying, easy clean-up. Applications: Apply a thin film, then assemble or mate parts. Blue smears indicate points of contact or high spots.
Part No. 35V, 22 ml tube.

DIELECTRIC TUNE-UP GREASE
Necessary for an effective tune-up on high energy ignition systems. Protects electrical connections, ignition parts, and wiring from moisture, salt, dirt and corrosion. Prevents fusing of spark plugs to spark plug boots, voltage leaks, arcing. Applications: Spark plug boots, electrical connections, distributor caps, ignition coil connections, light sockets, wire harness connections.
Part No. 31880, 0.5 g sachet Counterman's Choice™.
Part No. 67VR, 9.5 g tube, carded.
Part No. 22064, 85 g tube, carded.

DISC BRAKE QUIET
Stops brake squeal by dampening vibration between the caliper and the brake pad. Applications: Disc brakes, outboard and inboard pads for disc braking systems.
Part No. 126VR, (2) 7.4 ml packets.
Part No. 127MA, 255 g aerosol.
Part No. 31868, 118 ml bottle.

Permatex®

RUST DISSOLVER GEL

Chemically dissolves rust from all iron and steel surfaces. Brush on to remove years of accumulated rust. Provides flash rust protection. Replaces sanding and scraping. Applications: Iron and steel surfaces on cars, trucks, motorcycles, tools, barbecue grills, lawn mowers, wagons, wheel covers, chrome bumpers and trim.
Part No. NJ-1C, 237 ml bottle.

EXTEND® RUST TREATMENT

One step process for restoring and protecting rusted iron or steel parts. Unpigmented latex primer containing rust-converting chemicals that destroy old rust and dries to a tough black polymer coating. Applications: Priming/painting stone chips, metral frames and undercarriages, and any previously rusted metal surface prior to repainting.
Part No. 25841, 290 g aerosol.
Part No. 81775, 237 ml bottle.
Part No. 81387, 946 ml bottle.
Part No. 75448, 3.78 L bottle.

HEAVY DUTY RUBBERIZED UNDERCOATING

Now with an improved formula! Rubberized for maximum durability; seals, protects and insulates. Excellent professional blend all purpose coating. Applications: Automotive frames, rocker panels and wheels. Other uses include sealing gutters, roofs, drain systems and tree pruning.
Part No. 135EA, 454 g aerosol.

Rust & Corrosion Maintenance

ULTRA SLICK® CERAMIC EXTREME BRAKE LUBRICANT

NEW!!

This environmentally safe lubricant prevents disc brake squeal and chatter while protecting caliper pins, sleeves, bushings, and pistons against seizing and galling. The non-silicone, non-petroleum based formula performs under the most adverse braking conditions. With its water and corrosion resistant properties, Ultra Slick® Ceramic Extreme Brake Lubricant is excellent on rolling and sliding surfaces. Temperature Range: -54°C to +1538°C. Non-melting, 100% synthetic based formula, loaded with ceramic solids. Lasts longer and easily outperforms ordinary caliper greases and traditional disc brake quiet products. Prevents long bolt and sleeve seizing/galling. Compatible with internal/external brake rubber and plastic hardware, including ethylene-propylene rubber.
Part No. 24126, 236 ml bottle.
Part No. 24127, 28 g tube, carded.

ULTRA SLICK® SYNTHETIC MULTI PURPOSE LUBRICANT WITH PTFE

Designed for wheel bearing and general chassis lubrication. High quality product can be used on any moving parts to provide better, longer lasting lubrication. Safe on rubber, plastic, metal, wood, leather, fabrics and painted surfaces. Non-staining, translucent colour. Good thermally conductive properties for heat sink applications. Applications: Steering linkage fittings, chassis points, suspension bushings, wheel covers, bearings, studs, nuts, hood support bushings, latch assemblies, hinges, door checks, trunk locks, weather stripping, antenna base threads, body, cams, mechanical linkages, o-rings, seat tracks, headlight seals, other moving parts. Temperature Range: Withstands temperatures up to 175°C.
Part No. 81946, 85 g tube w/ hang hole.
Part No. 81943, 312 g aerosol.
Part No. 81944, 396 g cartridge.
Part No. 81945, 454 g tub.

SILVER GRADE ANTI-SEIZE® LUBRICANT

Use for easy assembly and disassembly of metal parts. Prevents galling during assembly. Prevents rusting, cold welding and galvanic corrosion between assembled parts. Applications: Prevent seizing of exhaust system threads, spark plug threads, wheel studs, U-bolts, spring bolts, torque rod and pins, and similar automotive and marine applications. Temperature Range: -54°C to 870°C.
Part No. 31875, 5 g sachet Counterman's Choice™
Part No. 133H, 113 g brush top bottle.
Part No. 81464, 241 g aerosol.
Part No. 76764, 454 g brush top bottle.

COPPER ANTI-SEIZE

Contains a high percentage of micro fine copper flakes in a semi-synthetic grease carrier. Electrically conductive. Inhibits rusting, cold welding and galvanic corrosion between assembled parts. Applications: Spark plug threads installed in aluminum, exhaust manifold bolts, engine bolts, oxygen sensors, knock sensors, thermostat housing bolts, fuel filter fittings, and battery cable connections. Temperature Range: Effective at high temperatures up to 982°C.
Part No. 09127, 227 g brush top bottle.
Part No. 09124, 454 g brush top bottle.

ULTRA DISC BRAKE CALIPER LUBE

100% synthetic formula. High temperature lubricant to prevent seizing or sticking of disc brake components. Waterproof lubricant protects against corrosion. Will not cause rubber sleeves and seals to swell. Applications: Lubricate caliper pins, bushings, pistons, rubber sleeves and seals. Temperature Range: -40°C to 204°C.
Part No. 31877, 5 g sachet Counterman's Choice™.
Part No. 22063, 80 ml bottle.
Part No. 09125, 236 ml brush top bottle.

HI-TEMP BRAKE CALIPER LUBE

Silicone formula. Provides lasting protection against friction, wear and corrosion. Prevents rust and corrosion. Waterproof, will not wash out. Applications: Long and short bolts, sleeves, bushings, outboard and inboard pad backing plate, disc brake calipers, caliper pins and pistons. Temperature Range: -54°C to 288°C.
Part No. 24115, 236 ml can.

SUPER PENETRATING OIL

High performance formula acts faster than graphite formulations. Detergent action cuts through all foreign impediments. Applications: Use to help loosen any rusted or frozen assemblies.
Part No. 29219, 340 g aerosol.

WHITE LITHIUM GREASE

All purpose white lubricant. Protects against rust and makes surfaces friction free. Withstands moisture and high heat. Applications: Door hinges, hood latches, trunk latches, hatchback struts, seat tracks, jacks, winches, gear shift mechanisms, steering linkages, garage door and delivery truck door tracks.
Part No. 29222, 300 g aerosol.
Part No. 31845, 44 ml tube, carded.

SILICONE SPRAY LUBRICANT

High silicone content to lubricate, stop squeaks, prevent sticking, waterproof and preserve rubber, metal, wood, leather, vinyl. Will not swell rubber. Applications: Use to seal, lubricate and prevent the deterioration of any rubber seals, bushings, mouldings, weatherstripping as well as lubricate hinges, locks, door and window channels and any similar applications.
Part No. 29220, 320 g aerosol.

CHAIN LUBE

Specially formulated to lubricate and protect all types of roller chains operating in exposed conditions. Applications: Motorcycle, bicycles, chain saws and any chain-driven vehicle or equipment.
Part No. 29221, 340 g aerosol.

BELT DRESSING

Use to eliminate belt slipping and squealing permitting correct belt tension for longer belt and bearing life. Can be used on belting made of rubber, canvas, and leather. Applications: Fan belts and any similar belt drive applications.
Part No. 120GA, 141 g aerosol.
Part No. 120DA, 369 g aerosol.

Lubricants

ULTRA SLICK™ ENGINE ASSEMBLY LUBE

Specially formulated to ensure proper lubrication of engine components during start-up of new or rebuilt engines. Applications: Apply to camshafts and lifters, valves and guides, engine bearing when assembling engine.
Part No. 81950, 118 ml bottle.

HYDRAULIC JACK OIL

Improves lubrication and prevents rust and sludge build up in hydraulic units. Maintains viscosity and permits hydraulic actuator to function properly from -45°C to 49°C. Contains antioxidant, anti-rust and anti-wear additives for maximum service life. Applications: Floor lifts, motorcycle front forks, hydraulic hand jacks, rebuildable rear shocks and similar applications.
Part No. 80054, 946 ml bottle.
Part No. 78F, 3.78 L bottle.

SLIK-PAK® 5TH WHEEL GREASE

Effectively and conveniently lubricates 5th wheel top plates of trailer. Premeasured grease comes in handy pouch, requires no tools, creates no mess. Packaging disintegrates leaving no waste. Graphite lubricant designed for heavy duty applications and effective at extreme temperatures and environmental conditions. Applications: All fifth wheel plates including stationary, sliding and oscillating. All vehicle types from tractor-trailers to RV trailer homes.
Part No. 01020, 57 g packet.

Cleaners & Degreasers

NON-CHLORINATED BRAKE CLEAN

Professional strength to quickly remove oil, grease and grime from brake parts. Applications: Use to clean drum or disc brake assemblies and components; thousands of other uses including cleaning of C.V. joints, clutches, electrical contacts, switches, relays, ignition systems.
Part No. 29213, 390 g aerosol.

CHLORINATED BRAKE & PARTS CLEANER

Penetrates, dissolves, and removes oil, grease, brake fluid. Contains no ODCs. Displaces moisture and fast drying. Applications: All brake systems, C.V. joints, machinery, tools, farm equipment.
Part No. 29214, 538 g aerosol.

GREASE CUTTER ENGINE DEGREASER

Quickly dissolves and removes grease, oil and dirt. Cleans iron, steel, aluminum, magnesium and copper. Will not harm metals, rubber, plastic or concrete. Rinses off easily with water. Applications: Engines, tools, machinery, garage floors.
Part No. 48TA, 425 g aerosol.

ELECTRICAL CONTACT CLEANER

Ideal for sensitive electrical and electronic parts. Non-conductive and non-corrosive cleaner dries in seconds with no rinsing required. Removes grease, oil and other surface contaminants. Contains no HCFCs and is safe on all metal surfaces and many plastics. Applications: Switches, contacts, relays, motors, PC boards, connectors, tape heads, scales, sensors and control panels.
Part No. 24378, 425 g aerosol.

CARB AND CHOKE CLEANER

Super jet spray quickly cuts and removes grease, gum and varnish. Oxygen sensor safe. Applications: Manual and automatic chokes, baffle plates and carburetor linkage.
Part No. 29216, 350 g aerosol.

BATTERY CLEANER

Spray it on and wash corrosion off. Works in just three minutes. Applications: Automotive, marine, farm machinery and motorcycle batteries.
Part No. SA-8, 163 g aerosol.

BATTERY PROTECTOR & SEALER

Coats and seals battery terminals to prevent corrosion. Prevents battery drain, increases battery life, improves electrical flow. Spray on battery terminals, in or out of storage. Applications: Batteries, cables and terminals. For automotive, marine, farm machinery and motorcycle batteries.
Part No. 31876, 7 g sachet.
Part No. SA-9, 141 g aerosol.

DECAL & PAINT STRIPPER

Quickly strips and removes decals, stickers, pinstripes and paint from bumpers, auto and truck bodies. Applications: Pinstripes, bumper stickers, decals, various types of paint. Temperature Range: 5°C to 38°C.
Part No. 161DA, 340 g aerosol.

PLASTIC CLEANER

Cleans most plastics without scratching. Removes grease, stains and dirt. Forms a water repellent, antistatic shield which resists fogging. Applications: Plastic windows, canopies, instrument covers, goggles, lenses, motorcycle fairings, helmets, boat windshields and fibreglass hulls.
Part No. 403D, 473 ml spout-top can.

HEAVY DUTY RADIATOR CLEANER

Removes rust and scale from automotive engine radiators and cooling systems. Applications: Engine radiators, water jackets, industrial and maintenance applications.
Part No. 18E, 946 ml bottle.

FAST ORANGE GLASS & SURFACE CLEANER

Extra strength automotive formula safely cleans glass and other hard surfaces like chrome and bumpers. Powerful, grease cutting formula cleans streak free. Will not harm delicate surfaces. Applications: Windshields, mirrors, headlights, dashboards and plastic or vinyl interiors, plastic and chrome bumpers and exterior trim.
Part No. 36087, 624 g aerosol.

Permatex®

NOS® STREET FORMULA OCTANE BOOSTER

NOS performance for the street enthusiast, developed to increase octane effect up to 3 points. Recommended for high performance engines including marine and recreational. Improves horse power and lubricates upper end, excellent lead substitute. Eliminates knocks, pings and hesitation. Meets BMW requirements for IVD detergency. Excellent smoke suppressant for 2 cycle engines. Applications: For all combustion engines including carburated, fuel injected, turbo and super charged.
Part No. 12022, 355 ml bottle.

NOS® RACING FORMULA OCTANE BOOSTER

NOS performance for the serious enthusiast, developed to increase octane effect up to 7 points. Recommended for high performance engines including marine and recreational. Includes Nitro Methane and special lubricants developed for high performance engines. Improves horse power and lubricates upper end, excellent lead substitute. Eliminates knocks, pings and hesitation. Meets BMW requirements for IVD detergency. Excellent smoke suppressant for 2 cycle engines. Applications: For all combustion engines including carburated, fuel injected, turbo and super charged.
Part No. 12012, 355 ml bottle.

NOS® SUV FORMULA OCTANE BOOSTER

NOS performance for the light truck and off-road enthusiast, developed to increase octane effect up to 7 points. Recommended for high performance engines including marine and recreational. Improves horse power and lubricates upper end, excellent lead substitute. Eliminates knocks, pings and hesitation. Meets BMW requirements for IVD detergency. Excellent smoke suppressant for 2 cycle engines. Applications: For all combustion engines including carburated, fuel injected, turbo and super charged.
Part No. 12027, 355 ml bottle.

NOS® SUPER COOLANT

Reduces engine operating temperature by increasing heat transfer efficiency. Lubricates water pump, conditions seals and other components of cooling system. Safe for use with new or used ethylene and propylene glycol antifreezes. Protects aluminum cooling system parts from pitting and erosion. Lubricates water pump seals, preventing premature failure. Contains polymer dispersants, which prevent hard water scales and deposits. Ideal for water only racing applications. Reduces engine temperatures when towing, climbing or sitting in traffic. Increases horsepower by reducing operating temperature. Provides corrosion protection. Applications: For all automotive cooling system applications.
Part No. 12510, 355 ml bottle.

NOS® FUEL INJECTOR CLEANER

Cleans deposits from fuel injectors and combustion chamber. Reduces dieseling and eliminates engine knocking and pinging. Safe for catalytic converters and oxygen sensors. Reduces hydrocarbon and carbon monoxide emissions. Provides protection from rust and corrosion. Improves fuel efficiency, restores lost horsepower and prevents stalling and hesitation. Prevents valve sticking. Recommended for high performance engines including marine and recreational. Water suppressant properties. Applications: For fuel injected engines.
Part No. 12110, 355 ml bottle.

NOS
Nitrous Oxide Systems
OCTANE BOOSTER

Permatex®

Threadlockers

THREADLOCKER BLUE STICK
Medium strength removable grade threadlocker. Conveniently packaged in a self feeding stick applicator. Wax like formulation for difficult installations. Can be pre-applied to parts. Hand tool disassembly. Pocket and toolbox friendly. Applications: Valve covers, water pumps, oil pans, driveshafts, rocker arm nuts, carburetor studs.
Part No. 38132, 9 g stick, carded.
Part No. 38131, 19 g stick, carded.

THREADLOCKER RED STICK
High strength permanent grade threadlocker better suited for heavy duty applications where resistance to heavy shock, vibration and stress levels is required. Conveniently package in a self feeding stick applicator. Wax like formulation for difficult installations. Can be pre-applied to parts. Localized heating and hand tools required for disassembly. Pocket and toolbox friendly. Applications: Assembly with air tools, cylinder head studs, main cap bolts, flywheels, ring gears, transmission shaft hardware.
Part No. 38136, 9 g stick, carded.
Part No. 38134, 19 g stick, carded.

242® THREADLOCKER
Medium strength removable grade threadlocker. All purpose. Ideal for all nut and bolt applications from 1/4" to 3/4" (6 mm to 20 mm). Hand tool disassembly. Applications: Valve covers, water pumps, oil pans, driveshafts, rocker arm nuts, carburetor studs.
Part No. 38621, 6 ml tube, carded.
Part No. 38622, 36 ml bottle, carded.

243® THREADLOCKER OIL RESISTANT
Medium strength removable grade threadlocker. Used on "as received" parts with light oil coating. Ideal for all nut and bolt applications from 1/4" to 3/4" (6 mm to 20 mm). Hand tool disassembly. Applications: Valve covers, water pumps, oil pans, driveshafts, rocker arm nuts, carburetor studs.
Part No. 38636, 6 ml tube, carded.
Part No. 38646, 36 ml bottle, carded.

262 THREADLOCKER
High strength permanent grade threadlocker. Used for high impact and stressed applications. Ideal for all nut and bolt applications from 1/4" to 3/4" (6 mm to 20 mm). Localized heating and hand tools required for disassembly. Applications: Frame brackets, suspension fasteners, shock absorber mounts, wheel studs
Part No. 38637, 6 ml tube, carded.
Part No. 38647, 36 ml bottle, carded.

271™ THREADLOCKER
High strength permanent grade threadlocker. Used for heavy duty applications. Used for high impact and stressed applications. Ideal for all nut and bolt applications from 1/4" to 1" (6 mm to 25 mm). Adds 300 psi holding power on slip and press fit assemblies. Localized heating and hand tools required for disassembly. Applications: Frame brackets, suspension fasteners, shock absorber mounts, wheel studs
Part No. 38623, 6 ml tube, carded.
Part No. 38624, 36 ml bottle, carded.

277 THREADLOCKER
High strength permanent grade threadlocker. Used for high impact and stressed applications. Ideal for all nut and bolt applications from 1/4" to 1" (6 mm to 25 mm). Localized heating and hand tools required for disassembly. Applications: Frame brackets, suspension fasteners, shock absorber mounts, wheel studs
Part No. 38627, 36 ml bottle, carded.

5 PIECE THREADLOCKER STICK KIT
Handy boxed kit of all 5 stick products:
Blue threadlocker - medium strength, Red threadlocker - high strength, PST® - thread sealant, Copper anti-seize, Silver anti-seize. Toolbox friendly packaging.
Part No. 38659, Kit.

Thread Sealants

PST® THREAD SEALANT STICK
Self feeding applicator stick facilitates application of the material where a conventional thread sealant would be difficult to use. Lubricated thread sealant allows for smooth assembly and disassembly. Prevents galling of soft metal threads. Immediate low pressure sealing (<15 psi). Pocket and toolbox friendly. Applications: Stainless steel fittings, oil and coolant lines, fuel fittings, axle fill plugs, intake manifold, oil pressure and temperature senders.
Part No. 38133, 19 g stick, carded.

565 PST® THREAD SEALANT
Controlled strength formulation. Excellent replacement for Teflon® tape. Non shrinking, non cracking. Solvent resistant. High pressure capability (10,000 psi). Service temperature to 150°C. Applications: Stainless steel fittings, oil and coolant lines, fuel fittings, axle fill plugs, intake manifold, oil pressure and temperature senders.
Part No. 38635, 50 ml tube, carded.

592 PST® THREAD SEALANT
Low strength formulation. Slow cure for large assemblies. 72 hour adjustability window. Non shrinking. Service temperature up to 200°C. Applications: Stainless steel fittings, oil and coolant lines, fuel fittings, axle fill plugs, intake manifold, oil pressure and temperature senders.
Part No. 38614, 6 ml tube, carded.
Part No. 38613, 50 ml tube, carded.

LOCTITE®

LOCTITE®
Bearing Mounts

620 BEARING MOUNT
High strength. High temperature 230°C capabilities. Press/slip/shrink fit. Seals and locks bearings onto shafts/into bores. Localized heating and hand tools required for disassembly. Applications: Bushings, bearings, oil seals, cup/core plugs, pin mounting.
Part No. 38626, 36 ml bottle, carded.

660 PRESS FIT REPAIR
High strength press fit repair. Creamy, non running adhesive. For repair of large gaps. Rapid fixture and cure. Useful with worn press fits and splines. Localized heating and hand tools required for disassembly. Applications: Keyway rebuilds, worn splined parts, scored slip fits, form in place shims, loose set screws.
Part No. 38612, 50 ml tube, carded.

641 SLEEVE RETAINER
Medium strength. Controlled strength for parts that cannot be heated to dismount. Press/slip/shrink fit. Seals and locks bearings onto shafts/into bores. Ideal for parts requiring frequent servicing. Applications: Large diameter bearings, aluminum parts, precision parts.
Part No. 38648, 36 ml bottle, carded.

KLEAN 'N PRIME™
Primer for threadlocker, threadsealant and retaining products. Solvent based for fast dry. Speeds curing in low temperature applications. Assists curing on low activity metals (aluminum, stainless, cad/zinc/oxide coatings) Applications: All anaerobic machinery adhesive applications.
Part No. 38611, 4.5 oz. can.

Adhesives

SUPER GLUE
General purpose instant adhesive. Liquid formulation. Strong and fast. Bonds most materials in seconds. Applications: Metal, plastic, wood, vinyl, ceramic, rubber.
Part No. 38645, 2 g tube, carded.

QUICK GEL® SUPER GLUE
Gel formulation super glue designed for fast, strong repair to vertical surfaces. Adhesive will not run like a liquid. Strong and fast. Bonds most materials in seconds. Applications: Metal, plastic, wood, vinyl, ceramic, rubber.
Part No. 38615, 2 g tube, carded.

BLACK WEATHERSTRIP ADHESIVE
Fast drying contact adhesive. Tacks in 5 minutes. Waterproof. Solvent resistant (gas, kerosene, oil). Applications: Weather-stripping, metal, vinyl, wood, rubber.
Part No. 38603, 5 oz. tube, boxed.

EPOXY MIXER CUPS
Pre-measured epoxy in convenient mixer cups. No mess, no guess, no waste. Bonds in 5 to 15 minutes. Excellent chemical resistance. Useful for worn metal repairs. Applications: Loose trim, broken grilles, casting cracks, gouged metal repairs.
Part No. 38606, 10 x 4 g cups.

LOCWELD® BONDING COMPOUND
15 minute two part epoxy to replace welding or brazing. Machinable when cured. 3000 psi shear strength on steel parts. Paintable. Solvent resistance. Temperature resistance to 150°C. Applications: Aluminum, steel, brass, bronze, cast iron, worn stampings.
Part No. 38630, 2 x 1 oz. tubes, carded.

REARVIEW MIRROR ADHESIVE
Two part no mix tough acrylic adhesive. Permanent mounting for rearview mirrors to glass windshields. Instant fixture, 15 minute re-mount. Applications: Mounting rearview mirrors to windshields.
Part No. 38632, 0.3 cc kit, carded.

RTV SILICONE ADHESIVE SEALANT
General purpose RTV. Seals/bonds/mends glass, metal, plastic, fabric and rubber. May be applied to horizontal and vertical surfaces. Waterproof and flexible. Temperature resistant to 230°C. Resistant to oil, water, weather and vibration. Applications: Windshields, door frames, electrical connections, vinyl tops, seams and roofs.
Part No. 38617, Clear - 80 ml tube, carded.
Part No. 38618, Clear - 300 ml cartridge.
Part No. 38641, Black - 80 ml tube, carded.
Part No. 38642, Black - 300 ml cartridge.

Gasketing

READY GASKET
Forms tough, flexible form in place gaskets in 1 minute. Extreme oil tolerance. Blowout resistant, equipment to be returned to service immediately. Temperature range from -60°C to 260°C intermittent. Sensor safe, non corrosive low odour. Applications: Automotive and marine gaskets, valve covers, oil pans, intake manifolds, timing covers, water pumps, thermostat housings.
Part No. 40480, 190 ml can.

RTV 5699 GREY SILICONE
Specialized formulation for high torque applications. Temperature range from -60°C to 330°C intermittent. Ideal for rigid machined flanges. Outstanding oil tolerance. Sensor safe, non corrosive, low odour. Applications: Automotive and marine gaskets, valve covers, oil pans, intake manifolds, timing covers, water pumps, thermostat housings.
Part No. 38633, 80 ml tube, carded.

RTV 598™ BLACK SILICONE
Sensor safe, low odour, non-corrosive. Outstanding oil resistance, works to 329°C intermittent. OEM specified to comply with extended warranty requirements. Forms tough, flexible gaskets directly on the flange. 598™ Black retains high flexibility and oil resistance for longer gasket life.
Part No. 41241, 80 ml tube, carded.
Part No. 41240, 300 ml cartridge.

LOCTITE®

Gasketing

RTV 5920 COPPER SILICONE
Premium silicone designed for 4 cylinder turbo charged or high performance engines. Sensor safe, low odour. Temperature range from -60°C to 370°C intermittent. Vibration and oil resistant. Outstanding oil tolerance. Applications: Exhaust manifolds, headers, collectors, valve covers, oil pans, intake manifolds, timing covers, water pumps, thermostat housings.
Part No. 38639, 80 ml tube, carded.
Part No. 38640, 300 ml cartridge.

RTV 587 BLUE SILICONE
High flexibility form in place liquid gasket. Eight times more flexible than cork or composite gaskets. Sensor safe, low odour. Temperature range from -60°C to 260°C intermittent. Three times stronger oil tolerance than conventional silicones. Applications: Valve covers, oil pans, intake manifolds, timing covers, water pumps, thermostat housings.
Part No. 38616, 80 ml tube, carded.
Part No. 38634, 300 ml cartridge.

HIGH TEMP RTV RED SILICONE
Formulated for oxygen sensor. Service temperature to 315°C intermittent. Non shrinking, non hardening. Oil resistant. Applications: Valve covers, oil pans, intake manifolds, timing covers, water pumps, thermostat housings, transmission oil pans.
Part No. 38609, 80 ml tube, carded.
Part No. 38629, 300 ml cartridge.

RTV BLUE SILICONE
General purpose RTV. Sensor safe, low odour. Service temperature to 260°C intermittent. Vibration and oil resistant. Applications: Oil pans, intake manifolds, timing covers, water pumps, thermostat housings.
Part No. 38643, 80 ml tube, carded.
Part No. 38644, 300 ml cartridge.

HIGH TACK GASKET SEALANT
Fast drying gasket dressing. Improves seal between dry gasket and metal surfaces. Service temperature to 260°C intermittent. Resistant to gas, oil, coolant and grease. Applications: Valve covers, fuel pumps, carburetors, manifold gaskets.
Part No. 38607, 9 oz. aerosol.

AVIATION GASKET SEALANT
Slow drying, non hardening. Eases disassembly of metal parts. Resistant to gasoline, oil and greases. Applications: Close fit machined parts, sealing hoses, solid gaskets.
Part No. 38600, 4 oz. brush top can.

515 GASKET MAKER
Original version. Anaerobic gasket for rigid, machined flanges. Flexes with flanges that move in service. Flexible, solvent resistant liquid gasket. Max gap filling to 0.020". Eases disassembly. Replaces thin paper gaskets. Applications: Water pumps, thermostat housings, rigid transmission pans, transaxle casings, rigid differential covers.
Part No. 38625, 50 ml tube, carded.

518 GASKET MAKER
Newer improved version. Anaerobic gasket for aluminum, iron and steel flanges. Ideal for on-the-spot repairs. Flexible, solvent resistant liquid gasket. Max gap filling to 0.020". Eases disassembly. Replaces thin paper gaskets. Works well with aluminum. Applications: Water pumps, thermostat housings, rigid transmission pans, transaxle casings, rigid differential covers.
Part No. 38638, 50 ml tube, carded.

HIGH FLEX FORM-IN-PLACE GASKET
Anaerobic, flexible gasket sealant for flanges with vibration or pressure. Form-in-place gasket that fills gaps to 0.020". Resists solvents, flange movement, vibration, pressurization, and thermal changes up to 177°C.
Part No. 38628, 50 ml tube.

Anti Seize

COPPER ANTI-SEIZE STICK
Protects metal parts against galling, seizing and corrosion. Conveniently packaged in a self feeding stick applicator. Service temperature to 980°C. Smooth, non clumping formulation. Excellent low temperature lubricity. Applications: Spark plug threads into aluminum, exhaust manifolds bolts, engine bolts, thermostat housing bolts, oxygen sensors, battery cable connections.
Part No. 38137, 20 g stick, carded.

COPPER ANTI-SEIZE
Formulated with copper and graphite. Protection from rust, corrosion and galling. Service temperature to 980°C. Excellent low temperature lubricity. Applications: Spark plug threads into aluminum, exhaust manifolds bolts, engine bolts, thermostat housing bolts, oxygen sensors, battery cable connections.
Part No. 38605, 8 oz. brush top can.
Part No. 38604, 16 oz. brush top can.

SILVER ANTI-SEIZE STICK
Multi purpose high temperature anti-seize. Heavy duty protection against seizing, galling and corrosion. Conveniently packaged in a self feeding stick applicator. Ideal for high contact pressure applications. Service temperature to 870°C. Long term applications. Applications: Spark plug threads , exhaust manifold studs, engine bolts, alternator bolts, oxygen sensors, battery connections.
Part No. 38138, 20 g stick, carded.

SILVER ANTI-SEIZE
Heavy duty metallic and graphite formulation. Heavy duty protection against seizing, galling and corrosion. Non evaporating, non-hardening. Ideal for high contact pressure applications. Service temperature to 870°C. Long term applications. Applications: Spark plug threads , exhaust manifold studs, engine bolts, alternator bolts, oxygen sensors, battery connections.
Part No. 38619, 8 oz. brush top can.
Part No. 38620, 16 oz. brush top can.

Specialized Maintenance & Repair

DISC BRAKE QUIET STICK
This wax-like stick is specially formulated to dampen brake pad vibrations and eliminate associated squeaking and noise, without the sticky, smelly mess of traditional solvent and water-based products. Loctite® Disc Brake Quiet Stick forms a water-resistant, high temperature film that will absorb vibration and quiet disc braking.
Part No. 41238, 9 g stick.
Part No. 41239, 19 g stick.

NEW!!

LOCTITE®

SUPER LUBE®
Chemicals

SUPER LUBE® SYNTHETIC GREASE W/ TEFLON®
Excellent dielectric multi-purpose synthetic grease. Teflon particles fill surface irregularities. Provides super adhesion. Waterproof, will not wash away in hot, cold, or salt water.
Part No. CA21033, 85 gram tube.
Part No. CA31040, 170 gram aerosol.
Part No. CA31110, 311 gram aerosol.
Part No. CA41150, 400 gram cartridge.
Part No. CA41160, 400 gram jar.
Part No. CA41050, 2.25 kg can.
Part No. CA41030, 30 lb. pail.
Part No. CA41120, 120 lb. can.
Part No. CA41140, 400 lb. drum.

SUPER LUBE® SYNTHETIC OIL W/ TEFLON®
Multi-purpose synthetic oil. Ideal for applications where parts are confined or bathed in lubricant. Use in place of conventional 80 to 90 weight oil.
Part No. CA51010, 7 gram syringe.
Part No. CA51040, 1 gallon bottle.
Part No. CA51050, 5 gallon pail.
Part No. CA51550, 55 gallon drum.

SUPER LUBE® ENGINE TREATMENT W/ TEFLON®
Helps maintain normal operating temperatures during high stress conditions such as towing heavy loads. Compatible with all types of motor oils.
Part No. CA20320, 1 quart.

HDA TOP CHOICE CHEMICALS
Assorted Chemicals

CARB & CHOKE CLEANER
•High pressure blast spray
•Cleans carb, choke and PCV valve
•369 g
Part No. A-00736.

MULTI PURPOSE LUBRICANT
•Nonflammable
•Lubricates (Contains P.T.F.E.)
•Displaces water
•Prevents corrosion
•425 g
Part No. A-00391.

HEAVY DUTY GLASS CLEANER
•Professional strength
•Safe to use on tinted windows
•Cleans glass, chrome and metal
•Removes road film, grime, bugs, sap and nicotine film
•Fast acting, no streaks or residue
•No CFC's/Ozone friendly
•539 g
Part No. A-00124.

WHITE LITHIUM GREASE
•Lubricates and Reduces Friction
•Fortified with PTFE
•Prevents rust and corrosion
•Non-chlorinated
•312 g
Part No. A-00725.

CHLORINATED NON-FLAMMABLE BRAKE & PARTS CLEANER
•Blasts away deposits
•Superior cleaner and degreaser
•Removes brake fluid and oil
•Reduces wear on parts
•567 g
Part No. A-00733.

NON-CHLORINATED BRAKE & PARTS CLEANER
•V.O.C. compliant
•Blasts away deposits
•Superior cleaner and degreaser
•Removes brake fluid and oil
•Reduces wear on parts
•397 g
Part No. A-00734.

NON-CHLORINATED BRAKE & PARTS CLEANER V.O.C. COMPLIANT
•Meets or exceeds current California V.O.C. requirements
•Blasts away deposits
•Superior cleaner and degreaser
•Removes brake fluid and oil
•Reduces wear on parts
•397 g
Part No. A-00732.

Brake Maintenance

BRAKLEEN®
Quickly removes brake fluid, grease, oil and other contaminants from brake linings and pads. Helps brakes last longer and perform more efficiently. Cleans fast/dries fast/no residue. Degreases instantly. Non-flammable. Works without disassembly.
Part No. 75089, 539 gram aerosol.
Part No. 75090, 3.785 L jug.
Part No. 75091, 19 L pail.
Part No. 75093, 208 L drum.

NON-CHLORINATED BRAKLEEN®
Use where compliance calls for a chlorine-free product. Quickly removes brake fluid, grease, oil and other contaminants from brake linings and pads. Helps brakes last longer and perform more efficiently. Cleans fast/dries fast/no residue. Degreases instantly. Works without disassembly.
Part No. 75088, 425 gram aerosol.
Part No. 75086, 19 L pail.
Part No. 75087, 208 L drum.

DISC BRAKE QUIET™
Forms a water-resistant, high temperature film that instantly absorbs noise and quiets disc brake squeaks and squeals. Easily applied to the back of new or previously installed pads.
Part No. 75016, 118 ml bottle.
Part No. 75017, 255 gram aerosol.

SYNTHETIC BRAKE & CALIPER GREASE
Designed for today's high tech braking systems. Prevents caliper binding, sticking, vibration and squeal. Use on components of disc brake systems, caliper assemblies, metal backing plates of the disc brake pad, self-adjusters and drum brake systems. Effective temperature range: -30°C to 315°C.
Part No. 75359, 227 gram brush top bottle.
Part No. 75353, 340 gram tub w/ brush.

DE-SQUEAK™
Conditioning treatment for brakes. Metallic formula fills grooves and imperfections in the friction surfaces that cause squeaks and squeals. For use on disc, drum and ABS braking systems. Eliminates brake noise.
Part No. 75080, 319 gram aerosol.

Cleaner/Degreasers

GASKET REMOVER
Quickly removes the most stubborn gaskets, even in high temperature areas. Removes paint and decals. Dissolves gasket cement within minutes.
Part No. 75021, 340 gram aerosol.

CLEAN-R-CARB®
Carburetor cleaner. Maximizes carburetor performance. Quickly dissolves deposits on chokes, carb linkage, heat risers and PCV systems. Harmless to catalytic converters and oxygen sensors.
Part No. 75081, 454 gram aerosol.

FUEL INJECTION AIR INTAKE CLEANER
Removes gum and varnish from throttle valves and body. Lubricates butterfly and all moving parts. Leaves behind a corrosion resistant film. 360° valve sprays in any direction.
Part No. 75078, 340 gram aerosol.

ENGINE DEGREASER
Heavy duty cleaner. Quickly lifts grease and grime off for cooler, more efficient running. Leaves no residue. Easy to use; Spray on - rinse off
Part No. 75025, 425 gram aerosol.

LECTRA-MOTIVE™
Electrical parts cleaner. Provides fast, thorough cleaning for non-sensitive electrical equipment. Dissolves grease, oil, dirt and wax. Leaves no residue/ non-flammable.
Part No. 75018, 539 gram aerosol.
Part No. 75022, 19 L pail.
Part No. 75024, 208 L drum.

QD™ ELECTRONIC CLEANER
Excellent precision cleaning solvent. Instantly removes oil, grease, dirt, or flux from tape decks, radios, office equipment, computer components and other sensitive electronic components. No residue/harmless to most plastics.
Part No. 75012, 127 gram aerosol.
Part No. 75102, 312 gram aerosol.

GLASS CLEANER
Industrial strength cleaner for glass, mirror, chrome, stainless, and plastics. Removes greasy fingerprints, road film, smoke haze and silicone.
Part No. 14100, 500 gram aerosol.

HEAVY DUTY DEGREASER
Effective for cleaning and degreasing - evaporates fast, leaves no residue - non-flammable, non staining and non corrosive - dissolves grease, oil and sludge.
Part No. 73095, 589 gram aerosol.
Part No. 73097, 19 L pail.
Part No. 73098, 208 L drum.

HEAVY DUTY DEGREASER II
Unique alternative to chlorinated solvents - low odour - high flash point - removes tough grease, oil and dirt - high dielectric strength - non conductive, non corrosive, and chemically stable.
Part No. 73120, 454 gram aerosol.

TYME® 1
Carburetor and cold parts cleaner. Removes carbon, varnish and grease. Safely cleans aluminum and other metals. Non corrosive/non flammable.
Part No. 14101, 3.785 L can.
Part No. 14104, 19 L pail.

PARTS DIPPING BASKET
For use with Tyme 1®. Long lasting basket for hands free cleaning of a variety of metal parts. 13" handle.
Part No. 14061.

CRC® CHEMICALS

Lubricant/Penetrants

HEAVY DUTY SILICONE™
Multi-use lubricant. Clean, odourless, highly water resistant. Eliminates squeaking and binding. Fights rust and corrosion. Won't melt, freeze, gum or become rancid. Lubricates from -73°C to 232°C.
Part No. 75074, 213 gram aerosol.

SCREWLOOSE™ SUPER PENETRANT
Powerful, concentrated, fast-acting. Instantly penetrates minute crevices. Dissolves gum, rust and corrosion. Loosens rusted nuts, bolts, screws and frozen parts.
Part No. 75330, 312 gram aerosol.

POWER LUBE™ MULTI-PURPOSE LUBRICANT
Penetrates fast/stops squeaks. Plastic safe and odour free. Concentrated - clings for long lasting lubrication and protection.
Part No. 75005, 312 gram aerosol.
Part No. 75007, 3.785 L jug.
Part No. 75009, 19 L pail.
Part No. 75011, 208 L drum.

WHITE LITHIUM GREASE
Provides long lasting lubrication with excellent water and heat resistance. Fights rust and corrosion. Ideal for metal-to-metal lubrication. Will not wash off, melt or freeze.
Part No. 14200, 284 gram aerosol.

CHAIN & WIRE ROPE LUBRICANT
Penetrates chain pin and bushing areas - resists water wash-off and high temperature sling off - quiets noisy chain.
Part No. 73050, 284 gram aerosol.

CUTTING OIL
Use on all types of metal. Reduces heat and friction to ease cutting and increase tool life. Clings to vertical surfaces. No active sulphur, no strong sulphur odour.
Part No. 75500, 360 gram aerosol.

DRY GRAPHITE LUBRICANT
All temperature lubricant, fast drying, greaseless lubricant. Suitable for use around sensitive electronics.
Part No. 75101, 320 gram aerosol.

3-36®
Multipurpose lubricant/corrosion inhibitor - for use around modern plastics - penetrates, lubricates and seals out moisture.
Part No. 73005, 325 gram aerosol.
Part No. 73009, 19 L pail.
Part No. 73011, 208 L drum.

POWER LUBE®
Long lasting protection - blend of lubricants, additives and Teflon for maximum performance - provides corrosion protection - displaces moisture.
Part No. 73045, 339 gram aerosol.

EXTREME DUTY SILICONE
For all metallic and non metallic surfaces - ideal for metal-to-metal contact - clear, non-staining odourless film resists moisture.
Part No. 73030, 303 gram aerosol.

FOOD GRADE SILICONE
Moisture resistant - non toxic - harmless to most rubber and plastics.
Part No. 73040, 299 gram aerosol.

BELT DRESSING
Restores flexibility and prolongs belt life. Eliminates squeaks. Prevents slippage and glazing. Removes oil, grease and glaze formations.
Part No. 75350, 284 gram aerosol.

Corrosion Inhibitors/Coatings

ZINC MATE®
Zinc rich cold galvanize coating. 95% pure zinc. Forms a tough, flexible coating to fight rust and corrosion. Protects weld and base metal on previously galvanized coatings. Easy to apply/dries in minutes. Repairs damaged coatings.
Part No. 75054, 369 gram aerosol.

SP-300™ CORROSION INHIBITOR
Protects indoors up to 9 months - penetrates and seals out moisture - displaces water based coolants.
Part No. 73246, 19 L pail.

SP-350™ CORROSION INHIBITOR
Protects indoors up to 2 years - thin, non-drying film - excellent heavy duty start up lubricant.
Part No. 73262, 323 gram aerosol.
Part No. 73266, 19 L pail.

SP-400™ CORROSION INHIBITOR
Long term indoor/outdoor corrosion protectant - waxy film seals out moisture - highly resistant to humidity.
Part No. 73282, 304 gram aerosol.
Part No. 73286, 19 L pail.

Additives

DIESEL FUEL ANTI-GEL
Prevents diesel fuel gelling. Improves flowability of diesel fuel in cold weather. Lowers pour point up to 19°C. Disperses water.
Part No. 75221, 355 ml bottle.

BIO-CON® DIESEL FUEL SLIME REMOVER & CONDITIONER
Keeps injectors clean. Absorbs and disperses moisture. Improves storage stability. 1 bottle treats 50 gallons of diesel fuel.
Part No. 75225, 355 ml bottle.

DIESEL FUEL CONDITIONER & INJECTOR CLEANER
Lubricates upper cylinders. Dissolves varnish and gum accumulation. Improves fuel economy. Disperses water. Contains no harmful alcohol.
Part No. 75202, 887 ml bottle.
Part No. 75203, 3.785 L jug.
Part No. 75205, 208 L drum.

DIESEL FUEL CONDITIONER WITH ANTI-GEL
Lowers pour point of diesel fuel by up to 19°C. Cleans injectors. Reliquefies gelled fuel. Lubricates upper cylinders. Disperses water. Contains no harmful alcohol.
Part No. 75212, 887 ml bottle.
Part No. 75213, 3.785 L jug.
Part No. 75214, 19 L pail.
Part No. 75215, 208 L drum.

FUEL INJECTOR CLEANER
Removes deposits from injectors, carburetor and intake system. With regular use, eliminates hard starts, rough idling and excessive emissions. Reduces engine demand for high octane fuel. Harmless to catalytic converters and oxygen sensors.
Part No. 75061, 355 ml bottle.

Additives

GUARANTEED TO PASS™ EMISSIONS TEST FORMULA
Powerful emulsifiers and cleaning agents work to decrease carbon monoxide and hydrocarbon emissions by removing intake valve deposits and improving the flow into port fuel injectors - improves vehicle performance and virtually eliminates common fuel system problems such as hesitation and sluggish acceleration.
Part No. 75060, 355 ml bottle.

FUEL STABILIZER
For seasonal equipment, including chain saws, snow blowers and lawn mowers. Preserves gasoline and diesel fuel for up to one year. Prevents gum and varnish build up, keeps fuel fresh- while equipment is in storage. Treats 75 litres of gasoline.
Part No. 75380, 237 ml bottle.

ENGINE STOR®
Long term metal protection fogging fluid for seasonal storage. Protects outboard motors and internal engines - keeps pistons, rings and cylinder walls corrosion free for long engine life. Protects electricical connections in use/storage.
Part No. 75027, 369 gram aerosol.

SUPER TURBO™ LEAD SUBSTITUTE, OCTANE BOOST
Increases octane by 2.5% to 5.5% for maximum horsepower and torque. Replaces lubrication formerly found in leaded fuels. Treats 75 litres of fuel.
Part No. 75063, 355 ml bottle.

TOW KOOL™ FOR COOLING SYSTEMS
A super concentrated cooling system additive specially formulated to reduce operating temperatures, increase engine performance and extend component life. Tow Kool for Cooling Systems will prevent overheating, improve air conditioner performance and lubricate the entire cooling system.
Part No. 75501, 474 ml bottle.

TOW KOOL™ FOR AUTOMATIC TRANSMISSIONS
A revolutionary automatic transmission additive. After monitoring and analyzing the heat related stresses and strains put on an automatic transmission during normal and extreme driving, CRC developed this technologically advanced formula. Tow Kool for Automatic Transmissions restores ATF viscosity, reduces operating temperatures and protects internal transmission components with extreme pressure agents.
Part No. 75502, 474 ml bottle.

Specialty Products

RUBBERIZED SPRAY UNDERCOAT
Provides a tough, flexible shield against moisture, salt and road debris. Dries quickly. Will not crack or peel. Deadens outside road noise. Seals underbody, fenders, panels, frame, hood, doors, decks, weld joints, etc.
Part No. 75034, 450 gram aerosol.

AIR TOOL OIL
Lubricates and protects pneumatic equipment - reduces rust, varnish, sludge and acids - increases torque - assures long tool life - picks up and expels moisture into exhaust air.
Part No. 74095, 444 ml bottle.
Part No. ST2533, 3.785 L jug.

SMOKE TEST™
Smoke detector tester. Simulates smoke for effective testing. Non-staining/no residue. Accepted by the National Fire Protection Association.
Part No. 72105, 71 gram aerosol.

ICE-OFF® WINDSHIELD SPRAY DE-ICER
Melts ice, snow, and frost on contact. Harmless to car finish. Thaws frozen locks.
Part No. 75346, 340 gram aerosol.

BATTERY MAINTENANCE
Removes corrosion, neutralizes acid spills. Reduces voltage leakage. Assures maximum battery current flow.
Part No. 75097, 312 gram aerosol.

BATTERY TERMINAL PROTECTOR
Designed to protect battery terminals from corrosion. Provides a lead-free, protective coating.
Part No. 75046, 213 gram aerosol.

SENSORKLEEN™
Used to clean the Mass Air Flow (MAF) sensor on newer GM, Ford, and import fuel injected engines. Cleans all road type soils without harming the sensitive plastics or leaving a residue on wires/plates. Evaporates quickly and completely.
Part No. 75110, 312 gram aerosol.

DI-ELECTRIC GREASE
Moisture barrier for electrical contacts, battery terminals, spark plugs and high voltage surfaces. Unique, non-curing silicone compound used for sealing, lubricating, protecting and electrical insulating.
Part No. 73082, 298 gram aerosol.

DUSTER
Removes dirt and dust from any surface leaving no residue - non-flammable - non-abrasive - plastic safe - ozone friendly.
Part No. 74085, 227 gram aerosol.

FREEZE SPRAY
An aerosol cooling system that instantly freezes surfaces to -51°C. Non-flammable and plastic safe. Dissipates heat and cools circuits. Safe for use on sensitive components and all surface finishes. Comes with 4" extension tube.
Part No. 74086, 284 gram aerosol.

CRC® CHEMICALS

Electrical Precision Cleaner Products

QD™ CONTACT CLEANER
Evaporates rapidly, removes contaminants from electrical/electronic components and contacts. Harmless to most sensitive plastics. Leaves no residue.
Part No. 72130, 335 gram aerosol.

CO® INDUSTRIAL CONTACT CLEANER
Removes light oils, dust and finger prints from sensitive electrical/electronic equipment - non-conductive - non-corrosive - leaves no residue - no flash point - plastic safe and ozone friendly.
Part No. 72016, 397 gram aerosol.

LECTRA CLEAN® II
No chlorinated solvents - low odour compound - high flash point: 61°C - removes tough grease, oil, and dirt - non-conducting, non-corrosive, and chemically stable - controlled evaporation.
Part No. 72120, 466 gram aerosol.

URETHANE SEAL COATS™
Abrasion resistant insulator - seals out water and moisture - high dielectric strength - effective temperature range of -68°C to 121°C.
Part No. 72049, (Clear) 330 gram aerosol.
Part No. 72044, (Red) 344 gram aerosol.

Equipment/Accessories

LIGHT DUTY SPRAY APPLICATOR
Spray nozzle adjusts from fine mist to stream - economical, easy to use - compatible with most liquids except paint and lacquer thinners.
Part No. 14021, 16 oz. spray bottle.

SURE SHOT® REUSABLE SPRAYER
Completely portable, no hoses or wire - jet stream or mist spray - air pressurized and fully tested to 200 psi - recommended for spraying most light liquids except corrosive materials and water-based solutions
Part No. 14016, 32 oz. spray bottle.

CELEBRATING 40 YEARS
40
1968 Gregg 2008

Cleaners & Degreasers

ENGINE BRITE GEL
Fast acting, highly effective, non-flammable gel formula. Safely removes grease, dirt and grime from most engines.
Part No. EBGELC, 425 gram aerosol.

ENGINE BRITE®
Heavy duty cleaning formula is packed with powerful degreasing solvents that quickly and easily remove the toughest grease, dirt and grime.
Part No. EB1C, 454 gram aerosol.
Part No. EB5C, 18.9 L pail.
Part No. EB8, 205 L drum.

CITRUS ENGINE BRITE®
Cleans grime leaving a pleasant citrus scent. Cleans and details for a like-new look. Protective layer makes next engine clean up even easier. Unique 2 stage spray tip gives light spray or powerful stream.
Part No. CEB1C, 453 gram aerosol.

INTAKE MEDIC™ AIR INTAKE CLEANER
Improves engine performance by cleaning away varnish, carbon, oil, and grease from computer controlled air intake systems.
Part No. M4712C, 340 gram aerosol.

ENVIRONMENTAL BRAKE CLEANER
Dissolves and removes brake fluid, oil, grease, and other contaminants from all types of brake assemblies.
Part No. AM720C, 510 gram aerosol.
Part No. AM734C, 3.78 L can.
Part No. AM739C, 18.9 L pail.

SUPER CONCENTRATE DEGREASER
An economical concentrated cleaner turns grease into soap. Dilutes with kerosene and other similar petroleum solvents.
Part No. SC3, 3.78 L can.
Part No. SC5, 18.9 L pail.
Part No. SC8, 205 L drum.

NON CHLORINATED BRAKE CLEANER
For disc, drum, ABS brakes and CV joints. Removes brake fluid, oil and grease. Fast drying.
Part No. M705C, 390 gram aerosol.
Part No. M739C, 18.9 L pail.

ELECTRICAL CONTACT CLEANER
Cleans alternators, electric motors, instruments, etc. Safe for ABS brakes.
Part No. NM1C, 567 gram aerosol.

BATTERY TERMINAL CLEANER
Cleans battery terminals, connectors, battery tray and holder bolts and brackets. Prevents corrosion. Fuel cell safe.
Part No. BTC4C, 142 gram aerosol.

SWAB™ POWDERED CONCRETE CLEANER
Quickly dissolves grease, oil and dirt from concrete and asphalt. Cleans, brightens, and hardens concrete.
Part No. SW2, 680 gram bottle.
Part No. SW4, 11.35 kg pail.
Part No. SW6, 45.4 kg keg.

CARB MEDIC
Cleans carbs and fuel injectors on the engine. Saves gas, stops rough idling, stalling and hard starting. Cleans linkages, automatic chokes, PVC valves, and heat riser valves.
Part No. M4814C, 354 gram aerosol.

HYDROSEAL® II
Powerful, heavy duty hard parts cleaning compound. Contains no chlorinated solvents. Non-corrosive.
Part No. HS3, 3.78 L can.
Part No. HS3K, 6.62 L w/basket.
Part No. HS5K, 18.9 L w/ basket.
Part No. HS5LB, 18.9 L pail.
Part No. HS8, 189 L drum.

LIQUIK™ STEAM CLEANER & PRESSURE WASHER COMPOUND
Heavy duty formula for steam cleaners. Removes coil scale.
Part No. LPH5, 18.92 L pail.

Lubricants & Penetrants

LIQUID WRENCH® SUPER PENETRANT
Proven over millions of applications. A powerful blend of quick-acting, fast penetrating solvents that loosens rusted nuts, bolts, and parts in seconds.
Part No. L104C, 118 ml squirt spout.
Part No. L106C, 170 gram aerosol.
Part No. L112C, 312 gram aerosol.

LIQUID WRENCH® SUPER LUBRICANT
Lubricates and protects all metal surfaces from rust and corrosion. Penetrates and frees rusted nuts, bolts, and screws. Quick drying formula.
Part No. L212C, 312 gram aerosol.

LIQUID WRENCH® NON-FLAMMABLE SUPER LUBRICANT W/PTFE
Non flammable formula. The all purpose lubricant... loosens rusted nuts and bolts, releases frozen and corroded parts, frees seized joints and mechanisms, lubricates locks, hinges, and casters. Stops squeaks and squeals. Displaces moisture and inhibits corrosion.
Part No. L312C, 311 gram aerosol.

L4 LIQUID WRENCH FOAMING PENETRANT & LUBRICANT
Unique foaming action. Cleans, penetrates and lubricates. Superior corrosion protection.
Part No. L412C, 255 gram aerosol.

LIQUID WRENCH DRY LUBE WITH PTFE
Long lasting dry lubricant film. Superior lubricity with no oily residue. Will not collect dust.
Part No. L512C, 311 gram aerosol.

WHITE LITHIUM GREASE
Reduces friction in all metal to metal and metal to plastic applications. Protects against rust and corrosion. Will not melt, run, freeze, or wash off.
Part No. L616C, 290 gram aerosol.
Part No. L666, 454 gram tub.
Part No. L6200, 200 gram tube.

CHAIN LUBE
Withstands high temperatures and adheres to surfaces under high RPM's. Sprays on and penetrates like an oil... sets up like grease.
Part No. L716, 350 gram aerosol.

HEAVY DUTY SILICONE SPRAY
Compatible with metals, rubber, plastic, and wood. High viscosity formula eliminates squeaks and lubricates all kinds of household and mechanical equipment.
Part No. M914C, 311 gram aerosol.

RADIATOR SPECIALTY

Lubricants & Penetrants

SUPER OIL™
1001 uses around home and shop. Lubricates and protects metal parts against wear & corrosion. Lubricates electric motors, locks, sewing machines etc.
Part No. L1004C, 118 ml squirt spout.

DRY GRAPHITE
Ideal for hydraulic pumps, motors etc. Works at temperatures from -50°C to 500°C.
Part No. BGS1, 325 gram aerosol.

SULFLO™ CUTTING OIL
Speeds work by more than 50%. Superior lubricity and anti-weld properties. Multiplies tool life.
Part No. SUL2C, 946 ml bottle.
Part No. SUL3C, 3.78 L bottle.

SULFLO™ DARK
For high speed machines.
Part No. SUD3C, 3.78 L bottle.

Fuel System Products

FUEL STABILIZER
For storage and everyday use in all two and four cycle engines. Keeps stored fuel fresh. Prevents formation of gum, varnish and rust in fuel systen Contributes to quick engine start up after storage.
Part No. M5312C, 350 ml bottle.

INJECTOR PLUS™ SUPER CONCENTRATED FUEL INJECTOR CLEANER
One treatment cleans fuel injectors and intake valves. Restores lost power. Increases fuel economy.
Part No. M5212C, 350 ml bottle.

OCTANE PLUS™
Cleans combustion chambers and fuel system. Reduces knock, ping and hesitation. Restores top performance.
Part No. M5112C, 350 ml bottle.

LEAD SUBSTITUTE
Replaces lead protection, for low lead gasolines. Contains valve seat anti-wear additive.
Part No. M5012C, 350 ml bottle.

FUEL INJECTOR CLEANER
Keeps fuel injectors & carburetors clean. Restores lost power. Reduces exhaust emissions.
Part No. M4912C, 350 ml bottle.

EXHAUST MEDIC™
Cleans entire fuel system. Guaranteed to reduce emissions and increase vehicle performance.
Part No. M5512C, 350 ml bottle.

CARB-MEDIC™ CARBURETOR CLEANER
Improves gas mileage and smooths rough idling. Removes gum and varnish.
Part No. M4816C, 350 ml bottle.

SUPER CONCENTRATED FUEL SYSTEM CLEANER
For vehicles with larger fuel tanks - treats 130 litres. Reduces stalling and emissions. Cleans injectors and valves, pistons and combustion chambers.
Part No. MSUV16C, 476 ml bottle.

DIESEL FUEL DE-GEL
Dissolves gelled diesel fuel, ice and wax in 15 minutes. For low or high sulfur diesel fuel.
Part No. M7532C, 946 ml bottle.

DIESEL MILEMAX MILEAGE IMPROVER
Enhances lubricity. Improves fuel economy and increases cetane number by 3 points. Cleans injectors and reduces emissions. Does not contain alcohol.
Part No. M6732C, 946 ml bottle.

DIESEL FUEL ANTI-GEL
Enhances lubricity. Prevents gelling and lowers pour point to -40°C. Increases cetane number by 3 points. Does not contain alcohol.
Part No. M6932C, 946 ml bottle.

DIESEL-TONE® FUEL CONDITIONER
Keeps injectors clean by dissolving gum and varnish. Prevents rust and corrosion buildup. Enhances combustion.
Part No. M2412C, 350 ml bottle.
Part No. M2432C, 946 ml bottle.

METHYL HYDRATE (METHANOL)
Use as a de-icer, shellac thinner or smokeless fuel. Guaranteed pure.
Part No. MH1, 1 L bottle.
Part No. MH4, 4 L bottle.

GAS LINE ANTI-FREEZE
Prevents frozen gas lines and eliminates condensation. Protects entire fuel system.
Part No. G206, 150 ml bottle.

Oil Additives

FIVE MINUTE MOTOR FLUSH
Removes accumulated gum, varnishes, and sludge from internal engine parts. Releases sticky valves and piston rings, allowing oil to circulate freely to all parts of the motor.
Part No. MF2C, 946 ml bottle

BEARIN' SEAL™
Stops engine leaks in front and rear main bearings, head gaskets, and timing chain.
Part No. M1616C, 350 ml bottle

MILEMAX™ MILEAGE IMPROVER
Up to 7% mileage increase. Kit contains oil treatment and gas treatment. Reduces engine friction, cleans dirty fuel systems.
Part No. GS3C, Kit

VALVE-MEDIC®
Super-concentrated formula quiets noisy valve lifters. Dissolves gum, sludge and dirt deposits from valve lifters. Eliminates valve noises.
Part No. M3712C, 350 ml bottle

MOTOR MEDIC® OIL TREATMENT
Reduces friction and wear. Helps reduce oil consumption.
Part No. M1815C, 443 ml bottle

ENGINE STOP LEAK
Revitalizes oil sels and gaskets that have shrunk due to temperature or age. 100% petroleum product. Compatible with all sealing and gasket materials.
Part No. M2115C, 443 ml rip top can.

STOP SMOKIN'
Helps reduce oil consumption. Helps reduce blow-by.
Part No. M5714C, 428 ml bottle.

Winter Products

INSTANT STARTING FLUID
Quickly starts gasoline and diesel engines without glow plugs. Contains upper cylinder lubricants. Effective to -48°C.
Part No. M3512, 210 gram aerosol.

LIQUID FIRE™ STARTING FLUID
Designed for all gasoline engines and diesel engines without glow plugs. Fits injector bracket on most diesel trucks and heavy equipment. Effective to -54°C.
Part No. M3911, 210 gram aerosol.

Cooling System Products

10 MINUTE FLUSH
Quickly removes grease, scum, rust and scale. A fast, one step product that requires no neutralizer. Contains no acids. Compatible with all cooling systems.
Part No. C1412C, 350 ml bottle.

SUPER RADIATOR FLUSH
Proprietary cleaning agents remove rust deposits and oily residue in one easy step to help anti-freeze/ coolant efficiently flow to all parts of the cooling system.
Part No. C2124C, 650 ml bottle.

SUPER RADIATOR SEALER
Exclusive free flowing, non clogging formula seals leaks where the other leading brands fail. Compatible with all cooling system metals, hoses and gaskets.
Part No. C2016C, 443 ml bottle.

ANTI-RUST WITH WATER PUMP LUBE
Mixes with all ethylene glycol based antifreeze/ coolants. Prevents evaporation, formation of rust and corrosion. Keeps entire cooling system clean and running efficiently. Lubricates and protects all aluminum and/ or metal parts, hoses and seals.
Part No. C1012C, 325 ml bottle.

SEALER & STOP LEAK/ LIQUID RAD REPAIR
A non-metallic liquid formula that goes to work fast to repair cooling system leaks. Forms a tough, durable seal that holds up to extreme heat, vibration and pressure.
Part No. C312C, 325 ml can.

HEAVY DUTY BLOCK SEAL
Special dual action formula quickly removes grease, scum, rust and scale. A fast, one step product that requires no neutralizer. Contains no acids. Compatible with all cooling systems.
Part No. C616C, 443 ml bottle.

STOP LEAK
Aluminized formula prevents and stops leaks and seepage in radiators, heater cores, blocks, cylinder heads, freeze plugs, and gaskets. Specially formulated to effectively work with modern or older cooling systems.
Part No. C501C, 28.3 gram stick, carded.
Part No. C501VC, 28.3 gram stick.

Functional Fluids

SUPER HEAVY DUTY DOT 3 BRAKE FLUID
Super heavy duty formula with higher boiling point than conventional DOT 3 bra or exceeds DOT 3 specifications and is recommended for use in disc, drum or a systems.
Part No. M4312C, 350 ml bottle.
Part No. M4316C, 500 ml bottle.
Part No. M4332C, 946 ml bottle.
Part No. M4334C, 3.78 L bottle.
Part No. M4339C, 18.9 L pail.

DOT 4 BRAKE FLUID
Provides superb performance and protection in today's high temperature braking systems. Exceeds DOT 3 and DOT 4 specs. Recommended for all disc, drum or ABS braking systems as well as hydraulic clutches.
Part No. M4512C, 350 ml bottle.

DOT 5 SILICONE BRAKE FLUID
Meets or exceeds Dot 5 specs. 500°F dry boiling point. Prevents system corrosion.
Part No. M4011C, 350 ml bottle.

SQUEAL MEDIC BRAKE SQUEAL & SQUEAK CURE
Prevents brake squeal. For all disc, drum and ABS brakes.
Part No. M72502C, 56 gram aerosol.
Part No. M725C, 318 gram aerosol.

SQUEAL MEDIC CALIPER GREASE
Prevent caliper seizing. Silences caliper noise. Works to 270°C.
Part No. L908C, 226 gram bottle.

HYDRAULIC CLUTCH FLUID
Meets OEM spec. Makes shifting easier. Increases clutch life.
Part No. M4112C, 350 ml bottle.

DISC BRAKE QUIET AEROSOL
Stops disc brake squeal, squeak and chatter. Provides a high temperature, water resistant protective film.
Part No. M609, 255 gram aerosol.

AIR BRAKE ANTI-FREEZE
Anti-freeze with rubber lubricant. Keeps moisture in air brakes from fre ing.
Part No. M2832, 1 L bottle.
Part No. M2834, 4 L bottle.

TRANSEAL
Prevents and stops leaks in automatic transmissions. Keeps transmission seals soft and pliable.
Part No. M1512C, 350 ml bottle.

TRANS-MEDIC™
Helps eliminate slippage, down shifting, rough shifting, sluggish action, and gear whine. Reduces friction. Will not drain off, squeeze off or burn off frictional surfaces.
Part No. M3612C, 350 ml bottle.

TRANS-FUSION
Stops and prevents leaks in automatic transmissions by controlled softening of seals. Compatible with all domestic automatic transmission fluids.
Part No. M1432C, 946 ml bottle.

RADIATOR SPECIALTY

Functional Fluids

POWER STEERING FLUID
Non-corrosive, non-foaming formula. Stops squealing, protects seals and helps prevent abnormal wear. Formulated with detergent additives to promote cleaner operating system.
Part No. M2716C, 500 ml bottle.
Part No. M2732C, 946 ml bottle.

POWER STEERING FLUID FOR HONDA® VEHICLES
Specifically formulated to meet the requirements of Honda and Acura vehicles.
Part No. M2714H, 341 ml bottle.

STEERSEAL®
Stops power steering leaks due to drying, hardening or shrinking of seals. Reduces wear and noise. Replaces fluid. Keeps power steering unit operating at peak efficiency. Compatible with power steering fluids.
Part No. M1712C, 350 ml bottle.

Appearance Products

FOAMING GLASS CLEANER
Powerful foaming action. Cleans windshields, all glass windows, mirrors, appliances, ceramic tile, chrome, stainless steel, and aluminum.
Part No. GC1, 550 gram aerosol.

TAR & BUG REMOVER
Removes tar and bug residue from car finishes, motorcycles, chrome grilles, wheels, and bumpers.
Part No. TR1C, 340 gram aerosol.

TIRE SHINE
No wiping! Just spray and let Tire Shine do the rest. Lasting shine. Beautifies and protects.
Part No. FTS21C, 481 gram aerosol.

FOAMING RIM CLEANER
Removes dirt, grime and brake dust from wheels, rims and hub caps. Scrubbing foam action cleans quickly.
Part No. FWC22C, 623 gram aerosol.

CARPET & UPHOLSTERY CLEANER
Deep cleans carpet, fabric, vinyl and leather. Removes spills and stains, kills carpet smells.
Part No. MPC22C, 623 gram aerosol foam.
Part No. CS33C, 975 ml trigger bottle.

TOP GUN™ CONCENTRATED CLEANER
Removes grease and grime from machinery when used at full strength yet still effective for glass and crystal when diluted. Non-toxic, biodegradable, and non-corrosive. Professional strength.
Part No. TG1C, 650 ml trigger bottle.
Part No. TG2C, 1.9 L refill bottle.

ONE MINUTE WHEEL CLEANER
Cleans without scrubbing. Removes dirt, grease and brake dust. Just spray and rinse. Safe on all wheels.
Part No. WC33C, 975 ml trigger bottle.

ORANGE GUNK ALL-PURPOSE CLEANER
Cleans grease, grime and dirt on contact. Leaves a pleasant citrus fragrance.
Part No. GOB33C, 975 ml trigger bottle.

BUG REMOVER WITH WAX
Removes dried on bug splatter, tree sap, grease, oil. Clear coat safe. Leaves a glossy protective barrier.
Part No. BUG33C, 975 ml trigger bottle.

AUTO DEODORIZER
For cloth interiors. Kills odours and inside smell. Leaves a fresh scent.
Part No. DEOD33C, 975 ml trigger bottle.

LIQUID CLEAR™ CAR WASH
Clear finish look that won't remove wax! Removes road grime, salt and bugs. Spot free - cleans without hazing.
Part No. VW2C, 473 ml bottle.

CAR & TRUCK WASH
Deep cleans dirt and grime. Safe on all finishes. Won't remove wax.
Part No. VW5, 3.78 L bottle.

Specialty Products

ACRA-SEAL™ IGNITION SEALER
Produces a clear, strong, yet flexible waterproof coating on metal, rubber, wood, plastic, or paper surfaces. Excellent for ignition systems, spark plugs, batteries, chrome, and metal parts.
Part No. M406C, 170 gram aerosol.

WIRE DRYER
Dries wet ignition systems leaving a weatherproof protective coating. Excellent for all electrical parts, batteries, distributors, coils, plugs, leads, cables, and wires.
Part No. M1306C, 170 gram aerosol.

HYDRAULIC JACK OIL
Formulated with extreme pressure additives. For use in hydraulic jacks.
Part No. J132C, 946 ml bottle.

STOP-SLIP™ BELT DRESSING
Conditions v-belts and fan belts for prolonged belt life. Provides better belt grip and traction and helps eliminate squeals and chattering.
Part No. M208C, 170 gram aerosol.

Specialty Products

UNDERCOATING
Rubberized and paintable. Seals against rust and corrosion. Muffles noise.
Part No. T1617RC, 454 gram aerosol.

BATTERY TERMINAL PROTECTOR
Provides special coating which when sprayed on battery terminals and holder hardware prevents battery acid corrosion. Ensures maximum starting current for faster starts.
Part No. BTP4C, 112 gram aerosol.

ANCHOR™ DUCT TAPE
Multi purpose aluminum cloth tape.
Part No. 6900, 48 mm x 54.8 m.

EASY TO USE NON-FLAMMABLE PUNCTURE SEAL™ FOR PASSENGER CARS
Versatile 8 inch (203 mm) applicator hose and choice of 2 sizes, handles tire inflation problems with ease.
Part No. M1115C, 510 gram aerosol.
Part No. M1120C, 680 gram aerosol.

EASY TO USE NON-FLAMMABLE JUMBO PUNCTURE SEAL™ FOR TRUCKS
Contains no hydrocarbon gas. Formulated for the larger size tires found on light trucks, sport utility vehicles, vans, and RV's.
Part No. M1128C, 694 gram aerosol.

Hand Cleaners

GUNK PLUMERZ® HAND CLEANER
Safely and effectively removes PVC, ABS and CPVC plastic pipe cement. Also removes: adhesives/sealants, grease/grime.
Part No. M1010, 500 ml bottle.

GUNK MECHANIX® HAND CLEANER WITH PUMICE
Removes dirt and grime. Solvent free, biodegradable hand cleaner. Natural orange lotion fortified with lanolin.
Part No. M1017, 473 ml bottle.
Part No. M1035, 3.5 L bottle w/ pump.

LANLIN ORANGE CREAM HAND CLEANER WITH PUMICE
Contains soft plastic scrubbers for fast, gentle cleaning action. Fortified with Aloe Vera and lanolin.
Part No. M1092, 2 kg can.

SOLDER SEAL GUNK

kleen -flo

ECO-CARE MULTI-KLEEN
An environmentally safe, water soluble multi-purpose biodegradable cleaner/degreaser with the fragrance of citrus fruit.
Part No. 017, 4 litre bottle.
Part No. 018, 20 litre pail.

ECO-CARE ENGINE DEGREASER
An industrial strength, biodegradable cleaner that effectively replaces hazardous solvents. Derived from citrus fruit.
Part No. 022, 4 litre bottle.
Part No. 023, 20 litre pail.

ECO-CARE KLEEN PARTS
Carburetor and Metal Parts Cleaner is designed for industrial applications. A natural biodegradable cleaner/degreaser derived from citrus fruits.
Part No. 032, 4 litre bottle.
Part No. 033, 20 litre pail.

ECO-CARE NATURAL KLEEN HAND CLEANER WITH PUMICE
Made using the natural cleaning oils found in an orange to remove all soils and stains from your hands. Contains lanolin, skin conditioners, and moisturizers.
Part No. 043, 3.5 litre pump bottle.

KLEEN-SOLV
Multi-purpose cleaning solvent — fast and effective. Can also be used as a paint and varnish thinner.
Part No. 116, 20 litre pail.
Part No. 117, 205 litre drum.

MULTI-KLEEN
All purpose, pre-mixed, non-corrosive heavy duty cleaner. Pleasant fragrance.
Part No. 174, 710 ml spray bottle.
Part No. 175, Concentrated, 4 litre bottle.
Part No. 176, Concentrated, 20 litre pail.

MULTI-KLEEN PLUS
Industrial strength multi-purpose cleaner. For grease, oil, etc.
Part No. 184, 710 ml spray bottle.
Part No. 186, 4 litre bottle.
Part No. 187, 20 litre pail.
Part No. 188, 205 litre drum.

ARMASHINE PROTECTANT
Protects and beautifies vinyl, treated leather, rubber, and plastic surfaces. Contains no water. For tires, dashboards, even as a fibreglass boat polish and restorer.
Part No. 192, 500 ml bottle.
Part No. 193, 725 ml bottle.
Part No. 194, 4 litre bottle.

ARMASHINE TIRE FOAM
Cleans, shines, and protects tires in minutes. No washing, no wiping, simply spray foam on tires.
Part No. 198, 600 gram aerosol.

KLEEN-LOC REMOVABLE BLUE THREADLOCKER
Regular strength, fast cure. Locks fasteners up to 1". Eliminates the need for expensive locking devices.
Part No. 202, 10 ml bottle.
Part No. 204, 50 ml bottle.

KLEEN-LOC PERMANENT RED THREADLOCKER
High strength, fast cure. Locks fasteners up to 1". Eliminates the need for expensive locking devices.
Part No. 206, 10 ml bottle.
Part No. 208, 50 ml bottle.

ARMASHINE LIQUID GLASS CLEANER
Anti-fog formula cuts through road grime, oily dirt, dust, and smokers' film. Ideal for household applications.
Part No. 269, 725 ml spray bottle.

ARMASHINE CARPET & UPHOLSTERY CLEANER
Cleans and brightens the original texture and appearance of all types of carpets and upholstery. Ideal for pet stains.
Part No. 271, 725 ml spray bottle.

ARMASHELL PAINT & FIBREGLASS RECONDITIONER
Cleans and restores finish. Reconditioner uncovers the original hidden shine in one easy step.
Part No. 275, 500 ml bottle.

ARMASHELL CHROME CLEANER
Quickly cleans rusty, tarnished chrome to its original bright lustre.
Part No. 280, 500 ml bottle.

"BLACK" DASHBOARD CLEANER
"Black" is a revolutionary interior surface cleaner and protectant that gently penetrates and conditions. Formulated with premium anti-static ingredients, "Black" repels dust and film while leaving a pleasant lemon or wild cherry scent.
Part No. 291, 380 gram aerosol, Lemon.
Part No. 293, 380 gram aerosol, Wild Cherry.

ARMASHELL BLUE DIAMOND WAX
One step glaze cleans and beautifies automotive finishes. Restores showroom lustre with little rubbing.
Part No. 300, 500 ml bottle.

DEODORIZED BRAKE CLEANER
Deodorized, non-flammable, chlorinated brake cleaner that's also VOC free.
Part No. 303, 539 gram aerosol.

ODOUR KLEEN
Scientifically engineered all natural air freshener/neutralizer. Suitable as a vehicle air conditioning odour counteractant.
Part No. 306, 369 gram aerosol.

DISC BRAKE QUIET
Eliminates disc brake squeal caused by vibrations of the brake pad. Provides an extreme temperature and water resistant film of protection that dampens and absorbs chatter and vibration.
Part No. 311, 275 gram aerosol.

DISC BRAKE QUIET
Eliminates disc brake squeals caused by vibrations of brake pad.
Part No. 312, 118 ml bottle.

BRAKE & PARTS KLEEN
Instantly removes brake fluid, oil, grease, transmission fluid, brake dust, and other contaminants from all types of brake assemblies. Low odour.
Part No. 313, 390 gram aerosol.

NON-CHLORINATED BRAKE & PARTS CLEANER
Part No. 322, 4 litre bottle.
Part No. 323, 20 litre pail.

BRAKE & ELECTRICAL CONTACT KLEEN
Non-flammable. Instantly removes brake fluid, oil, grease, and brake dust. Suitable for air brake components. Non-conductive for cleaning electrical equipment such as alternators, switches, etc. No CFCs.
Part No. 325, 672 gram aerosol.
Part No. 327, 20 litre pail.

EZE-SLIDE BRAKE LUBRICANT
A silicone based brake lubricant designed to withstand extreme operational temperatures without melting.
Part No. 331, 170 gram tube.

BRAKE-IN
Revolutionary Brake-In prevents brake noise at the source. Effective on all brake systems. No drying time required. Temperature use range -100°C to 1000°C.
Part No. 333, 255 gram aerosol.

kleen -flo

SUPREME FUEL INJECTOR GAS LINE ANTIFREEZE & CONDITIONER
Two products in one. Cleans and protects the fuel system, plus absorbs moisture to prevent frozen gas lines.
Part No. 409, 150 ml bottle.
Part No. 412, 500 ml bottle.

UNIVERSAL GAS LINE ANTIFREEZE
With corrosion control. Prevents and thaws frozen gas lines. Absorbs water condensation in the gas tank.
Part No. 426, 150 ml bottle.

BATTERY KLEEN
Safely neutralizes sulphuric acid spills on skin, clothing, and battery box.
Part No. 445, 210 gram aerosol.

MUFFLER CEMENT
For repairs to old and installation of new systems. Grey paste-like consistency which adheres to exhaust parts to repair damaged mufflers or pipes as you drive. (The exhaust heat "sets" the cement within 30 minutes). Does not contain asbestos.
Part No. 450, 170 gram tube.

RUSTKLEEN RUSTPROOF
A ready-to-use rustproofing system in convenient aerosol can. Designed for use as an undercoat and for internal body protection.
Part No. 460, 570 gram aerosol.

KLEEN GASKET
Contains an adhesive to allow quick and easy assembly for even the heaviest gaskets. Withstands temperatures from -54°C to 260°C. Dyed red.
Part No. 465, 210 gram aerosol.

SILICONE GASKET MAKER
Makes any size, any shape in minutes. Helps make most cork or paper gaskets obsolete. Temperature range from -57°C to 260°C.
Part No. 470, Black - 85 gram tube.
Part No. 471, Black - 300 ml cartridge.
Part No. 472, Clear - 300 ml cartridge.
Part No. 478, Blue - 300 ml cartridge.
Part No. 476, Cartridge Gun for use with #471, 472, and 478.

HIGH TEMP SILICONE GASKET MAKER
Replaces cork, felt, rubber, paper, and asbestos gaskets. Resists oil, water, antifreeze, etc. Temperature range from -60°C to 315°C.
Part No. 474, Red - 85 gram tube.
Part No. 477, Red - 300 ml cartridge.
Part No. 476, Cartridge Gun - for use with #477.

QUIK GASKET
A full bodied, rapid cure elastomeric silicone specifically formulated to provide sensor-safe, leak proof gaskets. This non-corrosive design seals instantly while conforming to OEM spec's. Withstands repeated hot and cold cycles from -57°C to 260°C.
Part No. 479, 150 ml bottle.

2 CYCLE OIL
Superior "low ash" lubrication for two cycle engines requiring up to and including 50:1 gas/oil mixtures.
Part No. 501, 250 ml bottle.
Part No. 504, 500 ml bottle.

KF MAX INJECTOR OIL
A premium formulation ideal for use in high performance 2 cycle engines. Provides protection to -40°C. Meets API TC or NMMA TC-W3 requirements.
Part No. 505, 1 litre bottle.

KF MAX SYNTHETIC INJECTOR OIL
Premium blend designed for high performance 2 cycle engines. Outperforms conventional oils while reducing smoke and extending engine life. Provides protection to -40°C.
Part No. 506, 1 litre bottle.

kleen -flo

SAFE-T-BRAKE AIR BRAKE ANTIFREEZE
Designed to absorb condensation and ensure complete protection against frozen air lines on trucks, buses, and construction equipment. With anti-corrosive agents and lubricant.
Part No. 509, 950 ml bottle.
Part No. 510, 4 litre bottle.
Part No. 511, 20 litre pail.
Part No. 513, 205 litre drum.

NEW!

BRAKE FLUID DISPENSER PUMP
New version offers enhanced structural design changes allowing it to fit #529 4 litre brake fluid container.
Part No. 522.

DOT 3 SUPER HEAVY DUTY BRAKE FLUID
For drums, disc, and ABS braking systems.
Part No. 525, 350 ml bottle.
Part No. 527, 500 ml bottle.
Part No. 528, 1 litre bottle.
Part No. 529, 4 litre bottle.
Part No. 530, 20 litre pail.

DOT 4 SUPER HEAVY DUTY BRAKE FLUID
For drums, disc, and ABS braking systems under severe heat and extreme cold conditions.
Part No. 532, 350 ml bottle.

DOT 5 SILICONE BRAKE FLUID
Recommended for North American, European, and Japanese cars and light trucks, hydraulic brake systems on motorcycles, heavy duty vehicles over 10,000 GVAW, and trailer units. Reduces corrosion. For even braking over operating temperatures from -60°C to 315°C.
Part No. 535, 350 ml bottle.

AMR BRAKE FLUID
AMR (Advanced Moisture Resistance) Brake Fluid is designed for today's demanding drum, disc and ABS braking systems. Suitable for DOT 3 or DOT 4 requirements. Ideal for high performance requirements such as Audi, BMW, Porsche, SAAB, etc. Conforms to standard DMVSS 116.
Part No. 537, 500 ml bottle.

FLO-MATE DISPENSER
Patented gravity fed technology. Reservoir system allows for easy changes; efficient system allows for greater than 99% product usage. For use with #539 and #1079.
Part No. 538, Unit.

KLEEN-EZE HAND CLEANER WITH PUMICE
High power cleaner that leaves hands sparkling clean. Specially formulated with skin conditioners and emollients including lanolin.
Part No. 539, 3.8 litre can.

RUB 'N RINSE HAND CLEANER
Deep cleans the most stubborn professional grime.
Part No. 543, 3.5 litre pump bottle.

RUB 'N DRI WATERLESS HAND CLEANER
Gel hand cleaner effectively removes oil and grease bound dirt, paint, inks, epoxies, resins, without scrubbing. Contains lanolin.
Part No. 551, 400 gram can.
Part No. 554, 2 kg tub.
Part No. 557, 20 kg pail.
Part No. 559, Dispenser - plastic push type dispenser for use with #554.

ROADSIDE ASSISTANCE EMERGENCY TIRE SEAL
Non-flammable tire inflator that safely seals and inflates tires instantly without removing tire from car.
Part No. 566, 510 gram aerosol.

RIM SLIP TIRE MOUNTING LUBE
A lubricant to enable tires to be easily mounted and de-mounted from rims (wheels).
Part No. 571, 4 litre jug includes applicator.
Part No. 572, 20 litre pail.

GREASE TYPE TIRE MOUNTING LUBRICANT
Cuts down on installation time, prevents damage to rims and tire bead and provides stronger seal between tires and rims.
Part No. 574, 3.64 kg tub.
Part No. 575, 11.36 kg tub.

kleen-flo

GOLD PASTE TIRE MOUNT
Concentrated formula is ideal for mounting and demounting tires. Elminates squeaks on rubber mounting, chassis parts, insulating strips and pads.
Part No. 577, 11.36 kg pail.

POWER STEERING FLUID
For Honda and Acura vehicles. Protects power steering systems from pump wear, corrosion and foaming while providing smooth, quiet operation at various temperatures.
Part No. 580, 350 ml bottle.

POWER STEERING FLUID
Meets the service fill requirements of all North American car and truck manufacturers, plus many imports except Honda and Audi vehicles.
Part No. 583, 350 ml bottle.
Part No. 585, 500 ml bottle.
Part No. 586, 1 litre bottle.

LOCK DE-ICER
Thaws all types of locks and lubricates internal lock mechanism. Pocket size.
Part No. 612, 18 gram aerosol.
Part No. 615, 35 ml bottle.

ENGINE FLUSH
Concentrated, works in 5 minutes. Thoroughly cleans crankcase prior to adding fresh oil. Cleans clogged screens, removes piston varnish, and crankcase sludge.
Part No. 637, 350 ml bottle.

PRESSURE WASH 639
Cleans cars, trucks, buses, boats, aircraft, engines, etc. Soluble in water, non-flammable, non-toxic, will not irritate skin.
Part No. 639, 22.7 kg drum.

ACE PUMP SPRAYER
Economically dispenses brake cleaners, degreasers, parts cleaners, etc.
Part No. 640, 710 ml Sprayer.

SURE SHOT SPRAYER
Refillable, rechargeable atomizer. Eliminates aerosol disposal problems.
Part No. 641, Sprayer.

MULTI-PURPOSE SPRAYER
For engine shampoo.
Part No. 642, 1.9 litre.

ENGINE SHAMPOO
Safely and rapidly cleans and shampoos trucks, cars, construction, marine, and motorcycle engines to improve engine appearance and efficiency. For larger areas use #643 Booster Sprayer.
Part No. 645, 4 litre can.
Part No. 646, 20 litre pail.
Part No. 649, 205 litre drum.
Part No. 643, Engine Shampoo Booster Sprayer.

CARBURETOR & METAL PARTS CLEANER
Cleans finely machined metal parts without requiring complete disassembly. Simply soak the part and then rinse with with water.
Part No. 651, 4 litre can.
Part No. 652, 9.1 litre pail.
Part No. 653, 20 litre pail.
Part No. 656, Dip Basket for use with #652.
Part No. 657, Dip Basket for use with #653.

PWD
Loosens, lubricates, protects, drives out moisture.
Part No. 660, 312 gram aerosol.

PWD WITH PTFE
Non-flammable. Stop squeaks, frees sticking parts, loosens, lubricates, protects, and drives out moisture. Prevents corrosion to: battery terminals, chrome tools, etc.
Part No. 661, 500 gram aerosol.

IGNITION KLEEN
An easy, convenient aerosol spray which moisture-proofs ignition systems on automobiles, power lawnmowers, snowmobiles, etc.
Part No. 670, 210 gram aerosol.

KLEEN CARB
A blend of powerful solvents designed to completely mix with gasoline to thoroughly clean carburetor jets, removing varnish and gum coatings while you drive.
Part No. 675, 395 ml bottle.

POWER STEERING FLUID & SEALER
For total filling or top-up of power steering systems.
Part No. 684, 350 ml bottle.
Part No. 685, 500 ml bottle.

TKO TRANSMISSION KIT
2 step process. Cleans gum and varnish from transmissions, neutralizes deposits, conditions and restores seals and has excellent anti-oxidation properties.
Part No. 689, 2 x 350 ml bottle.

AUTOMATIC TRANSMISSION SEALER & CONDITIONER
Add directly to automatic transmissions to stop fluid leaks.
Part No. 690, 350 ml bottle.

INJECTOR KLEEN
Cleans and protects fuel injector system. Contains no methyl hydrate. Reduces exhaust emissions, cleans intake valves, etc. Oxygen, catalytic converter, and turbo charger safe.
Part No. 695, 395 ml bottle.

NITRO-KLEEN
Protects against valve seat wear in engines designed for leaded fuel. Also recommended for marine and RV engines.
Part No. 697, 395 ml bottle.

KLEEN VALVES & LIFTERS
Added to the crankcase, this product rapidly dissolves the oil varnish which is often responsible for causing valves and lifters to stick.
Part No. 700, 325 ml bottle.

ENGINE SEAL
Stops minor oil leaks. Revitalizes dried out and glazed rubber seals, gaskets, and o-rings enabling them to reseal the engine.
Part No. 702, 350 ml bottle.

OIL MAX SUPPLEMENT
Improves fuel efficiency by reducing internal engine friction. Compatible with diesel and gasoline engine oils.
Part No. 704, 350 ml bottle.

OIL TREATMENT
A concentrated synthetic crankcase oil additive for oil burning, exhaust smoking, low oil pressure, etc.
Part No. 705, 450 ml bottle.

TEN MINUTE RAD FLUSH
Rapidly removes rust deposits, greasy sludge and scale from cooling system in ten minutes.
Part No. 708, 450 ml bottle.

COOLING SYSTEM TREATMENT
Revives the rust protective agents of antifreeze and lubricates water pump to stop pump squeaks.
Part No. 709, 450 ml bottle.

COOLING SYSTEM SEALER & CONDITIONER
A homogenized liquid sealant that mixes rapidly with radiator solutions to seal leaking radiators.
Part No. 711, 250 ml bottle.

RADIATOR FLUSH
Removes scale, rust, grease, and dirt deposits. Contains corrosion inhibitor that remains in the radiator to prevent future corrosion; and anti-oxidant to counteract pitting. Suitable for cool-ant flushing machines.
Part No. 713, 450 ml bottle.

RAD SEAL, RADIATOR STOP LEAK
A powdered metallic sealer that instantly seals leaks in radiators, motor blocks, cylinder heads, and freeze plugs. Safe for aluminum.
Part No. 714, 21 gram can.

Chemicals

KLEEN-START STARTING FLUID
A priming fluid formulated to spray at extreme sub-zero temperatures. Effective to -53°C. Designed to fit all standard injection brackets. Contains an upper cylinder lubricant to reduce dry-start engine wear.
Part No. 730, 221 gram aerosol.

CE STARTING FLUID
Designed to fit all standard injection brackets. Contains an upper cylinder lubricant to reduce dry-start engine wear.
Part No. 735, 221 gram aerosol.

KLEEN-SLIP SILICONE GREASELESS LUBRICANT
A non-staining, greaseless lubricant in a handy aerosol. Many uses around the home, car, etc.
Part No. 740, 210 gram aerosol.
Part No. 742, 350 gram aerosol.

DRIVE BELT KLEEN
Stops belt slippage and squeal. Increases power delivery due to low-slip ingredients.
Part No. 762, 450 gram aerosol.

TKO FRICTION SHIELD ENGINE TREATMENT
Reduces friction, oil acidity and wear in gas or diesel engines.
Part No. 777, 475 ml bottle.

ICE MELTER/QUICK MELT
Quickly eliminates ice and snow from steps, sidewalks, driveways, parking lots, runways, and roads. Not harmful to plants, shrubs, or grass.
Part No. 782, 2.7 kg tub.
Part No. 781, 6.81 kg tub.
Part No. 784, 20 kg pail.
Part No. 785, 40 kg pail.

KLEEN STOR ENGINE FOGGING OIL
Provides superior protection for seasonal and extended motor storage. Suitable for all internal combustion engines including cars, trucks, boats, motorcycles, garden tractors, snowmobiles, snowblowers, lawn mowers, chain saws, personal watercraft and all 2 cycle and 4 cycle engines.
Part No. 789, 340 gram aerosol.

FUEL STABILIZER
Keeps fuel fresh during extended storage for easier starting in the next season. Good for all grades of gasoline. Ensures stability for 1 year.
Part No. 790, 350 ml bottle.

NEW!!

KLEEN-STOR KIT
A unique shrink wrapped combo with a 60 gram Engine Storage/Fogging oil spray can and a 150 ml Fuel Stabilizer additive for the fuel tank. The Kleen-Stor Kit is designed as a single use application for cars, trucks, boats, motorcycles, and snowmobiles. It can also be used in chainsaws, augers, cement mixers and or any gas driven equipment that may be stored over a season. Suitable for all 2 and 4-cycle engines.
Part No. 791.

DIESEL INJECTOR KLEEN
Reduces gum and deposits on diesel fuel injectors, prevents fuel system corrosion, lubricates and protects injectors and pumps, etc.
Part No. 795, 395 ml bottle.
Part No. 796, 1 litre bottle.

HONEY GOO ALL PURPOSE PENETRATING LUBRICANT
Thanks to the help of the Bumble Bee, this multi-purpose marvel penetrates, inhibits rust, protects, lubricates, prevents oxidation, repels water, displaces moisture, undercoats, and much more.
Part No. 800, 330 gram aerosol.

QUIK PENETRATING SOLVENT
Professional strength penetrating fluid "eats" through rust, paint, and corrosion to loosen bolts, nuts, screws, and pipe threads.
Part No. 807, 285 gram aerosol.

ANTI-SEIZE & SEALING COMPOUND
Prevents seizures of all threaded parts caused by heat, corrosion, friction, rust, etc.
Part No. 810, 275 gram bottle.

TEF-LUBE 2000
Transparent heavy duty PTFE penetrating gel. A high pressure lubricant with high adhesive strength. Resists water washout, prevents rust and corrosion.
Part No. 813, 460 gram aerosol.

GAS TREATMENT
Improves mileage by helping to maintain a clean combustion chamber. Lubricates upper cylinder. Will not promote rust in fuel system.
Part No. 815, 395 ml bottle.

CHOKE & CARB KLEEN
Powerful, concentrated carburetor cleaner rapidly removes fuel gum and varnish to maximize gasoline economy and performance.
Part No. 820, 404 gram aerosol.

COMBUSTION CHAMBER KLEEN
Designed for sluggish engines; purges carbon, gum, varnish, sludge from internal parts. Oxygen sensor and catalytic converter safe.
Part No. 822, 475 gram aerosol.

ENGINE KLEEN
Easy to use, just spray on, hose off. Will not affect rubber, metal, plastic, or painted surfaces.
Part No. 824, 454 gram aerosol.

FOAMY KLEEN
Heavy duty engine shampoo's foamy ingredients actively remove dirt, grease, oil, and grime from even the hardest to reach spots.
Part No. 825, 454 gram aerosol.

EMISSION CONTROL KLEEN
Reduces carbon monoxide, nitrous oxide, and hydrocarbon emission. For all fuel injection and carburetor systems, all types of gasoline powered vehicles.
Part No. 829, 395 ml bottle.

TKO - TOTAL KOMBUSTION OVERHAUL
Knock out combustion chamber deposits; clean entire air intake system; restore engine performance; reduce exhaust emissions; stop engine knock and run-on; restore smooth idling. All this can be done with this complete kit which contains one of each: •combustion chamber and intake valve cleaner •fuel injector cleaner •engine antacid •air intake system cleaner
Part No. 830, Overhaul Kit.
Part No. 831, Application Kit for use with #830 .

TKO 2000
An extremely concentrated formula that provides rapid clean-up of fuel injector, intake valve and combustion chamber deposits. Restores and protects.
Part No. 835, 475 ml bottle.

AIR INTAKE KLEEN
Safely cleans and flushes out any dirt in the air intake system. Cleans, lubricates, prevents corrosion. Oxygen, aluminum, catalytic converter safe.
Part No. 837, 418 gram aerosol.

FUEL SYSTEM KLEEN
Powerful formula to flush away gummy deposits that build up on fuel injector tips, causing hesitation, poor fuel economy, uneven idling, and stalling.
Part No. 839, 340 gram aerosol.
Part No. 840, Fuel System Kleen Kit for use with #839 - includes various fittings for most vehicles, comes complete with instruction manual.

WASH 'N WAX LIQUID
Liquid shampoo and waxing system designed originally for the professional car wash operators. Dries without spotting or streaks.
Part No. 851, 455 ml bottle.
Part No. 852, 4 litre bottle.
Part No. 853, 20 litre pail.
Part No. 856, 205 litre drum.

kleen-flo

GLASS KLEEN
Concentrated, all purpose glass cleaner.
Part No. 885, 550 gram aerosol.

TKO DIESEL
For injector clean-up, restored power, reduced emissions and improved fuel economy.
Part No. 888, 475 ml bottle.

WHITE GREASE
Based upon high melting point sulphide systems designed to resist water washout and severe duty use. Suitable wherever No. 2 grease is specified. Excellent for boat trailer wheel bearings.
Part No. 907, 225 gram tube.
Part No. 909, 400 gram cartridge.
Part No. 914, 450 gram aerosol can.

#1 HYDRAULIC OIL
Winter grade, ISO 32, clear.
Part No. 918, 20 litre pail.

#2 HYDRAULIC OIL
Summer grade, ISO 68, clear.
Part No. 919, 20 litre pail.

HYDRAULIC JACK OIL
Paraffinic formulation for car hoists, jacks, dump trucks, etc. Retards rust and oxidation within the hydraulic system.
Part No. 924, 1 litre bottle.
Part No. 925, 4 litre bottle.

HYDRAULIC OIL
For industrial use only. Contains anti-foam and anti-friction additives. Meets or exceeds ISO specifications.
Part No. 930, No. 1, ISO 32 (winter grade), 20 litre pail.
Part No. 929, No. 1, ISO 32 (winter grade), 205 litre drum.
Part No. 931, No. 2, ISO 68 (summer grade), 20 litre pail.
Part No. 932, No. 2, ISO 68 (summer grade), 205 litre drum.
Part No. 933, No. 3, ISO 46, (summer grade), 20 litre pail.
Part No. 934, No. 3, ISO 46, (summer grade), 205 litre drum.
Part No. 935, ISO 22, (summer grade), 20 litre pail.
Part No. 936, ISO 22, (summer grade), 205 litre drum.
Part No. 937, ISO 100, 20 litre pail.

TDH OIL
Super Universal Tractor Oil can be used in the hydraulic/transmission/wet brake systems of a wide variety of farm tractors and implements. Extreme pressure protection.
Part No. 941, 20 litre pail.

NEW!!

1 SHOT DIESEL LUBRICANT
Is a Ultra Low Sulphur Diesel approved additive which will boost lubricity, reduce emissions, and offers "Cold Filter Plugging Protection". Alcohol free. Treats 75 litres of diesel fuel at one time.
Part No. 952, 195 ml bottle.

DIESEL LUBRICANT
All season, low sulphur, provides superior lubricity and anti-wear protection for diesel engines. Lowers the pour point of diesel fuel and helps disperse water. Alcohol free, decreases engine smoke, increases power, and contains excellent corrosion properties.
Part No. 953, 1.92 litre container (treats up to 3000 litres).

LOW SULPHUR DIESEL FUEL CONDITIONER
Restore lost lubrication to fuel injectors and pumps. Prevents freezing and icing of fuel lines and filters. Prevents gelling down to -45°C. Methyl hydrate free.
Part No. 963, 1 litre can.
Part No. 964, 4 litre can.
Part No. 965, 20 litre pail.
Part No. 966, 205 litre drum.

LOW SULPHUR DIESEL FUEL ANTIGEL WITH CONDITIONER
With all the properties of #963 Low Sulphur Diesel Fuel Conditioner.
Part No. 973, 1 litre can.

ACE METHYL HYDRATE
100% pure. For fleets, gas stations, etc.
Part No. 984, 1 litre bottle.
Part No. 985, 4 litre bottle.
Part No. 986, 20 litre pail.
Part No. 989, 205 litre drum.

DIESEL FUEL CONDITIONER
A powerful solvent system designed for diesel fuel to attack varnish and sludge. Keeps injectors clean, reduces corrosion, prevents stalling and frozen fuel lines, retards wax formation. (100 ml treats up to 227 litres) Contains anti-gel properties.
Part No. 991, 150 ml bottle.
Part No. 992, 500 ml can.
Part No. 993, 1 litre can.
Part No. 994, 4 litre can.
Part No. 995, 20 litre pail.
Part No. 998, 205 litre drum.

MEGA KLEEN HAND CLEANER
With pumice. Contains lanolin and helps prevent chapping and skin dryness. Removes grease, paint, tar, carbon, etc.
Part No. 1079, 3.8 litre can.

GARAGE FLOOR KLEEN
An effective powdered detergent mixture that cleans grease, oil, and dirt off concrete floors, garage floors, machine shops, factory floors, etc. Safe on asphalt.
Part No. 1200, 11 kg pail.

ARMASHELL GOLDEN WAX WASH POWDER
Maximum concentration shampoo/wax combination powder to clean and wax in one step. Fortified with detergents selected for strength and versatility, in service station and mobile vehicle washing systems.
Part No. 1224, 3.6 kg can.
Part No. 1226, 13.6 kg tub.

STEAM CLEANING COMPOUND
Highly concentrated, non-caustic, with excellent wetting qualities.
Part No. 1527, 20 litre pail.
Part No. 1529, 205 litre drum.

SILICONE POLISH REMOVER
Extra strength professional formulation. One generous application dissolves wax, polish, grease, and silicone.
Part No. 2745, 4 litre can.
Part No. 2747, 205 litre drum.

SPRAY UNDERCOAT & RUST RETARDER
Ideal for touch-ups in wheel wells as well as total body protection. Synthetic rubber formulation dries in 20 minutes.
Part No. 2783, 550 gram aerosol.

PAINTABLE RUBBERIZED UNDERCOATING
Fast drying paintable rubberized undercoating which is exceptionally resistant to abrasions.
Part No. 2785, 550 gram aerosol.

BLACK RUSTPROOFING
Superior protective rust inhibitor for both new and used vehicles. Will not run, drop, or sag at elevated temperatures. Ideal for the underside of vehicles
Part No. 3000, 4 litre bottle.
Part No. 3001, 20 litre pail.
Part No. 3002, 60 litre pail.
Part No. 3003, 205 litre drum.

AMBER RUSTPROOFING
Super protective rust inhibitor protects against rust, salt, and corrosion. Can be used anywhere on the vehicle and is highly resistant to heat with a threshold over 100°C.
Part No. 3010, 4 litre bottle.
Part No. 3011, 20 litre pail.
Part No. 3012, 60 litre pail.
Part No. 3013, 205 litre drum.

RUSTPROOFING GUN & WAND KIT
Consists of: 1 rust inhibitor applicator gun; 1 quick coupler; 1 46" 360° flexible wand; 1 46" 30° flexible wand; 1 pressure pot.
Part No. 3020, Kit.
Part No. 3021, 48" door wand for use with #3020.
Part No. 3022, Pressure pot for use with #3020.

kleen-flo

KLEEN-FLO
Chemicals

AIR TOOL OIL
Special formula engineered for the maintenance of all piston-type and rotary air tools. Ensures longer tool life and smoother starting by dissolving gums and sludge.
Part No. 4168, 4 litre bottle.
Part No. 4169, 500 ml bottle.

COOL-TRAK COOLANT TEST STRIPS
Will test: Freeze point/boil point; coolant pH level.
Part No. 6500, 1 bottle of 50 test strips.

NEW!!

BRAKE FLUID TEST STRIPS
Recognizes the age of brake fluid, levels of amines, thermal oxidation catalysts and fluid contamination. This complete analytic tool is the only method recognized by the Motor Assurance Program. Determine in seconds the rating of the brake fluid, and visually show the condition of that fluid to the customer and therefore recommend that the fluid be flushed out and changed.
Part No. 7500, Bottle of 100 test strips.

kleen-flo

Part No. GS-20, 591 ml can.

ROUGH SERVICE BULB - 50 WATT
Part No. RS-12-50, 12 volt.

AGS LINE®

Year Round Performance Enhancing Diesel Treatments

FUEL POWER - ORIGINAL FORMULA

Formulated to totally disperse water, control bacteria growth, and clean and lubricate the entire fuel injection system. Fuel Power prevents icing in fuel and controls waxing and gelling. It also increases combustion for greater efficiency, which means more power and increased fuel economy. Fuel Power is compatible with all grades of fuel and can be used year round. Contains no alcohol.

PART NO.	DESCRIPTION	TREATS (Gallons)	CASE QUANTITY
00100	8 oz. bottle	240	24
00101	1 US gallon bottle	3840	4
00102P	5 US gallon pail	19,200	1

RV/BUS/SUV FUEL TREATMENT

RVs, buses, SUVs, many Class 5 and 6 trucks, farm equipment, pick-up trucks, and automobiles with smaller fuel tanks require an additive formulated and packaged for them. This product is designed to deliver a full range of benefits at the right treatment ratio in a convenient, economical package.

00355	12 oz. bottle	60	12

FUEL POWER - PLUS LUBRICITY

Year round diesel fuel treatment that combines the benefits of Fuel Power and a lubricity additive that exceeds the ASTM BOCLE standards. Helps prevent rotary fuel pump wear and piston fuel pump wear, reduces pintle scoring, and improves engine starting. Contains no alcohol.

00105	32 oz. bottle	250	12
NEW!! *New Size!* 00401	1 US gallon pail	1000	4
00112P	5 US gallon pail	5000	1

LUBRICITY 100% ADDITIVE

Formulated to increase the lubricity of Diesel Fuel, Jet A Fuel (as well as NATA F-35, F-34 (JP-8) and JP-8+100) Turbine Fuels and Kerosene type fuels used in Diesel Engines and Diesel ground support equipment (GSE). Low lubricating fuels, when used in diesel engines, cause problems related to the lubricity or the slip of the fuels. Problems related to premature wear in fuel pumps, both in-line and rotary as well as the pintle in the injectors can be totally eliminated with the use of FPPF Lubricity 100%. Typical problems include hard starting, engine chatter, engine shut-down, loss of power and premature pump and injection system wear.

00604	16 oz. bottle	200	12
00503	5 US gallon pail	8000	1

DIESEL INJECTOR CLEANER

Diesel Injector Cleaner adds lubricity to the entire fuel injection system, and removes varnish, shellac, and carbon from injector tips. It shows immediate improvement in emissions by increasing fuel economy, engine performance and horse power. Exceeds L-10 and N-14 standards.

00212	32 oz. bottle	250	12
00213P	5 US gallon pail	5000	1

LIQUID MUSCLE™

All season additive will increase fuel mileage; increase power and engine performance; clean injectors and keep them clean with regular use; improve fuel lubricity (with soy oil); prevents fuel gelling.

50899	64 oz. bottle	750	6

FLEET FORMULA™ DIESEL FUEL TREATMENT (YEAR ROUND FORMULA)

All diesel fuel contains a percentage of water. Water can damage injectors by scoring the pintles. Water creates gum and varnish, causes corrosion and promotes the growth of harmful bacteria in your fuel system. Fleet formula, containing FPPF Fuel Power and other additives, is a highly concentrated custom blend of organic compounds proven to: •Remove water •Stabilize fuel •Clean pumps and interiors.

90393	1 US gallon jug	up to 7500	4

Premium Performance Products For Winter

POLAR POWER

This unique formulation combines all the benefits of Fuel Power with the most advanced cold flow improver on the market. Polar Power lowers the pour point and cold filter plug point. Contains wax dispersant and seed crystal modifier. Contains no alcohol.

00106	32 oz. bottle	250	12
00108P	5 US gallon pail	5000	1

FPPF's Polar Power and Total Power both provide you the best antigel system on the market today—a true water absorber to greatly reduce the chance of fuel icing and a lubricity improver. Both Polar Power and Total Power now have lubricity additive to prevent pump and fuel system damage from ultra low sulphur diesel.

TOTAL POWER

Total Power is the ultimate winter diesel fuel treatment. It is a combination of Fuel Power, Polar Power, Diesel Injector Cleaner, Cetane 8 +, and includes a lubricity additive and anti-gel. Lowers the pour point. Total Power meets L-10, N-14, and ASTM BOCLE standards. Contains no alcohol.

00343	32 oz. bottle	250	12
00344P	5 US gallon pail	5000	1

FLEET FORMULA™ DIESEL FUEL TREATMENT (WINTER FORMULA)

Completely removes water to prevent icing. Powerful anti-gel lowers cold filter plug point and cloud point. Seed crystal modifier prevents wax from gelling fuel. Provides these benefits: •Cleans injectors •Adds lubricity •Prevents bacterial growth •Improves fuel mileage •Stabilizes fuel •Treatment ratio depends on outside temperature.

90225	1 US gallon jug	7500/1500	4

MELT-DOWN

This emergency road treatment is specifically formulated to dissolve gelled fuel back into solution and return the flow in approximately 20 minutes. Will not harm precombustion components or fuel pump injectors, and is compatible with all types of fuel.

00124	32 oz. bottle	50	12
00330	1 US gallon bottle	200	4

Miscellaneous Products & Conditioners

8 PLUS CETANE IMPROVER

8 Plus will raise the cetane level of your fuel providing faster starting, reduced engine noise, reduced smoke and particulates, and increased power and acceleration. Increased cetane - Increased efficiency.

00188	32 oz. bottle	250	12
00122P	5 US gallon pail	5000	1

Fuel Additives & Miscellaneous Chemicals

Miscellaneous Products & Conditioners

ABC AIR BRAKE CONDITIONER

Protects all air brake systems and helps prevent freeze-ups. There are no ingredients or residues to corrode brake line systems. ABC contains pure methanol.

PART NO.	DESCRIPTION	TREATS (Gallons)	CASE QUANTITY
00157	32 oz. bottle	n/a	12
00158	1 US gallon jug	n/a	4

SLUDGE-BE-GONE OIL TREATMENT

Formulated to eliminate sludge and water. SBG's specially formulated chemical base dissolves the sludge into a combustible substance in such a way as not to clog nozzles, while assuring clean filters and strainers. Helps to improve atomization and will provide a more efficient combustion.

00342	32 oz. bottle	1000	12
00359P	5 US gallon pail	20,000	1

HOT 4 IN 1 HEATING OIL TREATMENT

A concentrated Heating Oil Treatment that provides superior winter and year round protection for outside, inside and underground storage tanks. Disperses water and controls waxing and gelling; improves combustion and helps stabilize fuel; removes varnishes from pumps and filters. Prevents corrosion in the entire fuel system and cleans burner tips. Provides for cleaner burning, less smoke, and a cleaner flame. Prevents sludge and slime and removes microbes and fungi growth.

00161	16 oz. bottle	275	24
00164	1 US gallon jug	2200	4

AGRI FUEL TREATMENT

Specially formulated for diesel and gasoline machinery in the ag industry. Increases cetane up to 2 numbers; controls bacteria growth; lubricates entire fuel system. Provides faster warm-ups and acts as a combustion catalyst. Reduces downtime and extends life of equipment. Meets N-14 specifications. Stabilizes fuel year round and increases fuel mileage up to 14.6%. Reduces emissions.

00351	32 oz. bottle	375	12
00352P	5 US gallon pail	7500	1

4000 COOLING SYSTEM TREATMENT

A concentrate utilizing today's technology to create a combination corrosion inhibitor and scale dispersant specifically designed to maintain heat transfer in all closed cooling systems. By removing existing scale, eliminating foaming, and reducing cavitation, 4000 improves the efficiency, decreases the potential for overheating and extends the engine life. It is non-toxic, non-corrosive, and will not affect gaskets and hoses, and is compatible with all types of antifreeze including Glyclean.

00149	16 oz. bottle	8	12
00150P	5 US gallon jug	320	1

DIESEL ENGINE TREATMENT

Provides protection against thermal breakdown of engine oil. Reduces engine deposits as well as valve and piston ring friction and sticking. Decreases oil consumption in older engines and neutralizes acids.

90368	32 oz. bottle	3	12

Gasoline Treatments & Cleaners

GAS TREATMENT

Formulated to treat all grades of gasoline as well as gasohol blends. Totally dispersing water, Gas Treatment prevents carburetor icing and rusting in the system. It removes gums, carbon, and varnish from internal engine parts; causing improved combustion, greater acceleration, and increased mileage. It also eliminates rough idle, pre-ignition and hesitation, without harm to catalytic converters.

PART NO.	DESCRIPTION	CASE QUANTITY
00189	12 oz. bottle (treats 30 gal.)	12
00146P	5 US gallon pail (treats 1600 gal.)	1

OCTANE BOOSTER

Specially formulated to raise the octane 5+ numbers, cleans fuel injection systems and provides increased power and acceleration. Contains no harmful alcohols and can be used with any grade of gasoline.

00140	12 oz. bottle (treats 30 gal.)	12

FREE IT! PENETRATING OIL & LUBRICANT

This oil penetrates deeply and lubricates to loosen rusted, corroded and frozen parts. Use this versatile lubricant on nuts, bolts, locks, clamps, linkages and any other metal parts that are exposed to moisture and contaminants.

00127	16 oz. aerosol	12

BIG RED MULTI-PURPOSE LUBRICANT

This product sprays out as a thin, penetrating liquid and sets as a thick, red grease. It withstands temperatures to 500°F and resists "throw-off" from moving parts. Resists rust, water, and acids.

00125	16 oz. aerosol	12

COMPLETE GLASS CLEANER

This powerful aerosol is a "streakproof" formula that cuts through really tough dirt — effortlessly. Use to clean windows, tile, porcelain, stainless steel, chrome, glass tables, even automobile windshields. This is an anti-fogging, ammonia fortified product that will leave surfaces sparkling clean without residue.

00128	20 oz. aerosol	12

BATT 1000 BATTERY CLEANER & PROTECTOR

Formulated to penetrate and emulsify dirt, grease and corrosive deposits to protect and lengthen the life of your battery. It guards against corrosive salt water areas and helps preserve the battery's power in cold temperatures and under other severe conditions.

00126	20 oz. aerosol	12

Gasoline Treatments & Cleaners

FPPF "3" MULTI-PURPOSE SOLVENT

Specially formulated using virgin solvents. Will not leave behind an oily film or stain fabric. Can be used in body shops, prep dept. and service and parts departments. No CFCs, 100% VOC. Superior performance and seat belt friendly.

PART NO.	DESCRIPTION	CASE QUANTITY
00130	375 g aerosol	12

TRUCK WASH HEAVY DUTY CLEANER

Concentrated truck and trailer wash and cleaner designed to remove all types of grime, dirt, road film, and grease from all surfaces. Safe for use on all painted, rubber, aluminum, and stainless steel finishes. Can be used with pressure washers and automatic systems, or can be applied by hand.

00361	1 US gallon jug	4
00362P	5 US gallon jug	1

TRAILER BRIGHTENER METAL CLEANER

Highly concentrated acid wash and cleaner that cleans all aluminum and stainless steel surfaces. It will remove oils, greases, carbon and oxidation, restoring a bright new appearance. Can be used with hot or cold water and can be used with pressure automatic equipment or applied by hand.

00356	1 US gallon jug	4
00357P	5 US gallon jug	1

NOFLASH NU PRECISION CONTACT CLEANER

•Patented •Non-flammable precision cleaning •Unique alternative to HCFC cleaners •Non-conductive •Fast evaporating •Quick penetration •No residue •Safe to use on most surfaces •Can be sprayed in an upright or inverted position

Part No. C04015, 425 gram aerosol.

NOSPARK ELECTRICAL CLEANER

•Patented •Non-flammable •Plastic safe •Does not contain HCFCs •Fast evaporating •Quick penetration •No residue •Non-conductive

Part No. C04816, 397 gram aerosol.

PSC PLASTIC SAFE CLEANER

•Formulated for contact cleaning •Non-flammable •Non-conductive •No residue •Displaces moisture •Fast evaporating •Inverta spray valve allows one to spray in an upright or inverted position

Part No. C04620, 511 gram aerosol.

ELECTRO CONTACT CLEANER

•Non-flammable •Fast evaporating •Safe on plastics •Quick penetration •Non-conductive •Does not contain HCFCs •Ideal for electrical/electronic fine parts •Removes light greases, oils, dirt, and organic soils •No residue

Part No. C00416, 397 gram aerosol.

ELECTRA-X NON-FLAMMABLE CONTACT CLEANER

•Non-flammable •Non-conductive •No residue •Displaces moisture •Fast evaporating •Quick penetration •Inverta spray valve allows one to spray in an upright or inverted position

Part No. C00816, 397 gram aerosol.

EMPTY TRIGGER SPRAY BOTTLE

Part No. C09120, 567 gram.

QB PRECISION DUSTER

•Quick blast precision duster removes contaminants, dirt, dust and other soils •Excellent for use on electronics and delicate mechanisms •Non-flammable •Safe on plastic •No residue •Moisture free

Part No. C05710, 284 gram aerosol.

POWERBLAST DUSTER

•Twice the spray power of typical dusters •Superior cleaning ability •Excellent for cleaning delicate parts and electronic components in hard to reach areas •Non-flammable •Safe on plastics •No residue •Moisture free •Non-abrasive •Odourless

Part No. C05712, 284 gram aerosol.

CFC FREE ELECTRO CONTACT CLEANER

•Fast evaporation •No residue •Low odour •Non-conductive •Does not contain HCFCs •Safe on plastics •Can be sprayed in an upright or inverted position

Part No. C03116, 312 gram aerosol.
Part No. C03101, 3.78 litre can.
Part No. C03105, 18.93 litre pail.
Part No. C03155, 208 litre drum.

MICRO-X FAST EVAPORATING CONTACT CLEANER

•Fast evaporation •Quick penetration •No residue •Low odour •Does not contain HCFCs •Safe on plastics •No rinsing •Can be sprayed in an upright or inverted position

Part No. C04516, 312 gram aerosol.
Part No. C04555, 208 litre drum.

ELECTRO 140° CONTACT CLEANER

•Flash point above 140°F (60°C) •Superior wetting and penetrating action •Controlled evaporation •No residue •Non-conductive •Safe to use on most surfaces •Does not contain HCFCs •Can be sprayed in an upright or inverted position

Part No. C00916, 312 gram aerosol.
Part No. C00922, 591 ml trigger.
Part No. C09128, 3.78 litre jug.
Part No. C00905, 18.93 litre pail.
Part No. C00955, 208 litre drum.

REVO 66 NEW ALTERNATIVE CONTACT CLEANER

•Does not contain HCFCs or 1-bromopropane •Fast drying •Revo 66 is a moderate to heavy-duty electrical contact cleaner that is non-flammable with low odour. Revo 66 is designed to quickly penetrate and remove oils, grease and grime associated with electrical contacts, connections, switches and other associated equipment.

Part No. C04416, 340 gram aerosol.

Industrial Degreasers

PRECISION CLEAN MULTI-PURPOSE CLEANER/DEGREASER

•Water based •Biodegradable •Super industrial strength •Removes tough, stubborn stains and soils such as grease and oil •Non-flammable •pH concentrate = 13 •pH ready-to-use = 12.5 •Does not contain chlorinated or petroleum solvents, bleach, ammonia, abrasives or butyl •Rinses clean •Contains a corrosion inhibitor to help prevent flash rusting •Safe on all surfaces
Part No. C02701, Concentrate, 3.78 litre jug.
Part No. C02705, Concentrate, 18.93 litre pail.
Part No. C02755, Concentrate, 208 litre drum.
Part No. C02720, Ready-to-use, 510 gram aerosol.
Part No. C02728, Ready-to-use, 828 ml trigger.
Part No. C02765, Ready-to-use, 208 litre drum.

PRESOLVE® CITRUS DEGREASER

•High performance citrus based degreaser •Ideal for removing grease and oil •Fast acting penetration •Controlled evaporation •Does not contain chlorinated solvents •Non-conductive •Safe on all metals and most plastics •Can be sprayed in an upright or inverted position
Part No. C01420, 425 gram aerosol.
Part No. C01422, 591 ml trigger.
Part No. C01428, 3.78 litre can.
Part No. C01405, 18.93 litre pail.
Part No. C01455, 208 litre drum.

EM CITRO SOLVENT/DEGREASER

•Heavy duty, citrus based emulsion degreaser that removes oil, grease, dirt, asphalt, and tar •Fast penetrating action to remove grease and oil •Safe on most metals and plastics and does not contain chlorinated solvents •Concentrated versions are solvent based and can be diluted with water

Ready-to-Use:
Part No. C02820, 425 gram aerosol.

Concentrate:
Part No. C02801, 3.78 litre can.
Part No. C02805, 18.93 litre pail.
Part No. C02855, 208 litre drum.

CITRUS DEGREASER

•High performance industrial degreaser which cleans on contact •Fast acting on grease, oil, and sludge •Natural based •Does not contain chlorinated solvents •Flash point above 100°F (38°C) •Safe on all metals and most plastics •Can be sprayed in an upright or inverted position
Part No. C05020, 425 gram aerosol.
Part No. C05001, 3.78 litre can.
Part No. C05005, 18.93 litre pail.
Part No. C05055, 208 litre drum.

F-104° FAST DRY SOLVENT/DEGREASER

•Heavy duty degreaser •104°F (40°C) flash point •Controlled evaporation •Does not contain chlorinated solvents •Safe to use on most surfaces •Non-conductive •No rinsing •Minimal residue •Can be sprayed in an upright or inverted position
Part No. C04920, 425 gram aerosol.
Part No. C04928, 3.78 litre can.
Part No. C04905, 18.93 litre pail.
Part No. C04955, 208 litre drum.

INSTANT SUPER DEGREASER

•Heavy duty performance •Non-flammable •Fast evaporating •Non-conductive •No residue •Safe on all metals •Can be sprayed in an upright or inverted position
Part No. C00720, 567 gram aerosol
Part No. C07128, 3.78 litre can.
Part No. C00705, 18.93 litre pail.

ZEROTRI HEAVY DUTY DEGREASER

•Fast evaporating •Instant degreasing action •Non-conductive •Safe to use on most surfaces •Ideal for degreasing metals •Does not contain chlorinated solvents •No residue •Can be sprayed in an upright or inverted position
Part No. C03520, 425 gram aerosol.
Part No. C03528, 3.78 litre can.
Part No. C03505, 18.93 litre pail.
Part No. C03555, 208 litre drum.

TRIFREE BRAKE CLEANER

•Heavy duty performance •Instant degreasing action •Improves brake performance •No chlorinated solvents •Helps stop disc brake squeal •Fast evaporation •Powerful jet spray •Compliant to California V.O.C. regulations •No residue •Non-conductive
Part No. C03620, 425 gram aerosol.

EFX SOLVENT/DEGREASER

•Fast drying, non-chlorinated solvent for removing grease and oil •Heavy duty solvent offers instant degreasing action •Quickly removes grease and oil with its power blast spray •Fast evaporating is safe to use on most surfaces and ideal for cleaning metals •No residue
Part No. C01820, 590 gram aerosol.
Part No. C01801, 3.78 litre can.
Part No. C01805, 18.93 litre pail.
Part No. C01855, 208 litre drum.

HDX HEAVY DUTY DEGREASER

•Heavy duty action removes oil, grease, wax, dirt, moisture, tar, brake fluid, and other contaminants •Non-flammable •Fast evaporating •Low odour •Quick penetration •No residue •Non-conductive
Part No. C01020, 539 gram aerosol.
Part No. C01001, 3.78 litre can.
Part No. C01005, 18.93 litre pail.
Part No. C01055, 208 litre drum.

HDX II HEAVY DUTY DEGREASER

•Penetrating action removes oil, grease, tar, resins, corrosion inhibiting compounds and other contaminants •Contains no chlorinated solvents •Very low odour •Can be used in parts washers, dip tanks, and ultrasonic cleaners •Safe to use on most surfaces •Can be sprayed in an upright or inverted position
Part No. C03020, 425 gram aerosol.
Part No. C03001, 3.78 litre jug.
Part No. C03005, 18.93 litre pail.
Part No. C03055, 208 litre drum.

A-151 SOLVENT/DEGREASER

•High flash point above 140°F (60°C) •Low odour •Controlled evaporation •No residue •No chlorinated solvents •Non-conductive •Safe to use on most surfaces •Can be sprayed in an upright or inverted position
Part No. C04320, 425 gram aerosol.
Part No. C04328, 3.78 litre can.
Part No. C04305, 18.93 litre jug.
Part No. C04355, 208 litre drum.

BFX ALL-PURPOSE CLEANER

•Water-based •Butyl free •Biodegradable •Non-corrosive •Removes grease and oil •Rinses clean •Ideal for parts washers and pressure washers •Safe on most surfaces except magnesium
Part No. C05528, 828 ml trigger.
Part No. C05501, 3.78 litre jug.
Part No. C05505, 18.93 litre pail.
Part No. C05555, 208 litre drum.

TAPMATIC TRICUT®

•Excellent for stainless steel and other hard to machine metals •Not recommended for aluminum •Provides smooth, accurate cutting action •Flows directly to cutting edge •Extends tool life •Improves surface finish •Allows increased removal rates •Reduces friction •Suitable for high and low speed applications •Non-corrosive to steel
Part No. C05316, 473 ml can.
Part No. C05328, 3.78 litre jug.

TAPMATIC #1 GOLD

•Great for steel and aluminum •Excellent for low speed, high pressure applications •Minimizes torque increases •Does not contain chlorinated paraffins, water, solvents or inactive fillers •Aerosol provides a pinpoint stream with foaming action •Safe on all metals
Part No. C40312, 312 gram aerosol.
Part No. C40320, 473 ml bottle.
Part No. C40330, 3.78 litre jug.
Part No. C40340, 18.93 litre pail.
Part No. C40360, 208 litre drum.

TAPMATIC AQUACUT

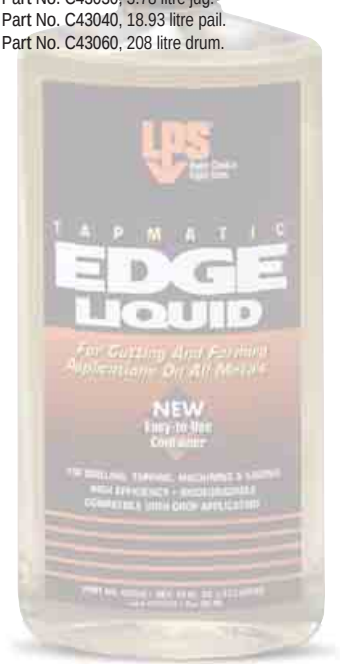
•Water based formula •Excellent in applications where cooling of the tool is desired •Non-flammable •Non-hazardous •Does not contain sulphur, chlorinated solvents, chlorine or oils •Safe on all metals, except magnesium •Corrosion inhibitors prevent flash rusting •Provides fine finishes •Cinnamon scent
Part No. C01216, 473 ml bottle.
Part No. C01228, 3.78 litre jug.
Part No. C01205, 18.93 litre pail.
Part No. C01255, 208 litre drum.

TAPMATIC NATURAL

•Non-toxic and non-hazardous •Biodegradable •Does not irritate the skin, eyes or respiratory tract •Does not contain sulphur, chlorine, chlorinated solvents, water, mineral oil or inactive fillers •Great for steel and aluminum •High performance lubricating ability eliminates galling and seizing •Safe on all metals
Part No. C44220, 473 ml bottle.
Part No. C44230, 3.78 litre jug.
Part No. C44240, 18.93 litre pail.
Part No. C44260, 208 litre drum.

TAPMATIC EDGE LIQUID

•Compatible with drop applicators •Biodegradable •Excellent for high alloy metals •Safe on all metals •Compatible with oil and water systems •High film strength •Reduces friction •Low toxicity •Increases tool life
Part No. C43020, 473 ml bottle.
Part No. C43030, 3.78 litre jug.
Part No. C43040, 18.93 litre pail.
Part No. C43060, 208 litre drum.



TAPMATIC EDGE LUBE

•White, solid waxy bar •Biodegradable •Excellent for belt, wheel or disc grinding, and sawing applications •Eliminates heat build-up and belt loading •Does not contain any hazardous chemicals •Extends grinding wheel life •Low toxicity •Safe on all metals
Part No. C43200, 364 gram bar.

TAPMATIC EDGE CREME

•Excellent for vertical applications •Biodegradable •Can be applied to cutting tools before tapping or reaming •Squeeze tube allows easy application •For use when drilling, tapping blind holes, forming, bending, pre-coating fasteners and lubricating rubber seals •Does not contain any hazardous chemicals •Ecological and economical •Safe on all metals
Part No. C43100, 325 ml tube.

TAPMATIC® DUAL ACTION PLUS #1 CUTTING FLUID

•Made for hard to machine alloys such as stainless steel and titanium •Reduces friction and eliminates chip welding •Lowers temperature through chemically controlled evaporation •Provides ultrafine finishes and precise tolerances
Part No. C40120, 473 ml.

TAPMATIC DUAL ACTION PLUS #2

•Provides superior extreme pressure lubricity in machining aluminum and its alloys •Reduces friction and eliminates chip welding •Improves surface finish and extends tool life
Part No. C40220, 473 ml can.
Part No. C40230, 3.78 litre jug.
Part No. C40240, 18.93 litre pail.
Part No. C40260, 208 litre drum.

Lubricants/Penetrants

EVR CLEAN AIR SOLVENT

•High solvent strength •Fast evaporating •Excellent replacement for Methyl Ethyl Ketone (MEK) •Ideal for cleaning metals •No residue •No ozone depleting compounds •Inverta Spray Valve allows can to be sprayed at almost any angle
Part No. C05220, 397 gram aerosol.
Part No. C05201, 3.78 litre can.
Part No. C05205, 18.93 litre pail.
Part No. C05255, 208 litre drum.

KB 88 ULTIMATE PENETRANT

•Formulated to attack and quickly release rusted and corroded nuts, bolts, hinges, and other frozen components •With a high KB solvency value, low surface tension and special additives, KB 88 enhances penetration, lubrication, and corrosion attack •Outperforms the competition in independent lab tests
Part No. C02316, 367 gram aerosol.
Part No. C02301, 3.78 litre can.
Part No. C02305, 18.93 litre pail.
Part No. C02355, 208 litre drum.

LPS 1™ GREASELESS LUBRICANT

•Provides a dry, thin lubricating film •Resists oil, dust, and dirt build-up •Fast acting penetration •Displaces moisture •Loosens rusted or frozen parts •Provides a short term, light, corrosion resistant barrier •Non-conductive •Ideal for delicate mechanisms •Used worldwide in aviation •Safe on paint and most plastics •Can be sprayed in an upright or inverted position
Part No. C30116, 312 gram aerosol.
Part No. C00122, 591 ml trigger spray.
Part No. C01128, 3.78 litre jug.
Part No. C00105, 18.93 litre pail.
Part No. C00155, 208 litre drum.

LPS 2™ INDUSTRIAL STRENGTH LUBRICANT

•Strong, multi-purpose lubricant and penetrant with added corrosion protection •Provides a non-drying, light, oily film for use on indoor/outdoor equipment •Reduces wear caused by friction and corrosion •Displaces moisture •Loosens rusted or frozen parts •Provides up to one year of protection •Non-conductive •Safe on paint and most plastics •Can be sprayed in an upright or inverted position
Part No. C30216, 312 gram aerosol.
Part No. C00222, 592 ml trigger spray.
Part No. C02128, 3.78 litre jug.
Part No. C00205, 18.93 litre pail.
Part No. C00255, 208 litre drum.

TKX ALL PURPOSE PENETRANT, LUBRICANT & PROTECTANT

•Excellent all purpose lubricant •Displaces moisture •Loosens rusted or frozen parts •Protects against corrosion •High flash point of 175°F (79°C) •Does not contain chlorinated solvents or silicones •Non-conductive •Safe on fabric, plastic, paint, and other finishes •Can be sprayed in an upright or inverted position
Part No. C02016, 312 gram aerosol.
Part No. C02022, 591 ml trigger spray.
Part No. C02028, 3.78 litre jug.
Part No. C02005, 18.93 litre pail.
Part No. C02055, 208 litre drum.

LST PENETRANT

•Specially formulated with low surface tension for fast penetrating action •Attacks rust and corrosion to free frozen parts •Powerful foaming action provides complete surface coverage •Displaces moisture •Lubricates and protects metal surfaces •No chlorinated solvents •Flash point of 175°F (79°C) •Can be sprayed in an upright or inverted position
Part No. C01916, 312 gram aerosol.
Part No. C01928, 3.78 litre jug.
Part No. C01905, 18.93 litre pail.
Part No. C01955, 208 litre drum.

HEAVY DUTY SILICONE LUBRICANT

•Meets FDA regulation for incidental food contact •Meets USDA requirements for H1 •Silicone-rich formula •Water based formula •Colourless and odourless •Ideal for rubber and plastic surfaces •Eliminates sticking, binding, and squeaking •Does not contain chlorinated solvents •Non-staining •Safe on most surfaces
Part No. C01516, 368 gram aerosol.
Part No. C01505, 18.93 litre pail.

FOOD GRADE SILICONE LUBRICANT

•Meets FDA regulation for incidental food contact •Meets USDA requirements for H1 •Dry film will not attract dust or dirt •Provides excellent lubrication •Ideal for releasing molded parts •Fast evaporating •Excellent for high temperature applications up to 500°F (260°C) •Does not contain chlorinated solvents •Petroleum base
Part No. C01716, 284 gram aerosol.

FOOD GRADE MACHINE OIL

•NSF H1 registered #129000 for use in meat and poultry plants •All ingredients are GRAS per 21-CFR-178.3570 •Penetrates to loosen frozen nuts and bolts •Does not contain silicone •Colourless, odourless •Safe on most surfaces •Can be sprayed in an upright or inverted position
Part No. C01316, 312 gram aerosol.

FOOD GRADE CHAIN LUBRICANT

•The silicone free, food grade chain lubricant for parts and equipment. •Excellent for applications involving incidental food contact on food processing equipment •NSF registered H1 (#132899) •Foaming action provides extra penetration and lubrication •Oily, wet film extends chain life •Non-flammable
Part No. C06016, 340 grams aerosol.

DRY FILM SILICONE LUBRICANT

•Dry film will not attract dust or dirt •Non-flammable •Provides excellent lubrication •Excellent for releasing molded parts •Excellent for high temperature applications up to 500°F (260°C) •Colourless, thin film •Does not contain chlorinated solvents •Petroleum base
Part No. C01616, 340 gram aerosol.

FORCE 842°™ DRY MOLY LUBRICANT

•Fortified with molybdenum disulfide •Provides a quick drying, thin film •For assembly and break-in lubrication •Works under high temperatures — 842°F (450°C) and pressures — 100,000 psi (6890 Bars) •Resists dust and dirt •Prevents seizure of parts •High adhesion •Water and chemical resistant
Part No. C02516, 312 gram aerosol.

CHAINMATE™ CHAIN & WIRE ROPE LUBRICANT

•Fortified with molybdenum disulfide •Increases the life of chains and wire ropes •Effective under extreme temperature and pressure ranges •Deep penetration to the core of wire ropes •Reduces wear caused by friction and corrosion •Lubricant and corrosion protectant •High adhesion •Use with guards in place to eliminate costly down time
Part No. C02416, 312 gram aerosol.

MAGNUM PREMIUM LUBRICANT WITH PTFE

•High performance lubricant with PTFE additives •Ideal for both regular and extreme conditions •Penetrates and protects metal against rust and corrosion •Flash point of 175°F (79°C) •Safe to use on most surfaces •Displaces moisture •Can be sprayed in an upright or inverted position
Part No. C00616, 312 gram aerosol.
Part No. C00605, 18.93 litre pail.

DRY FILM PTFE LUBRICANT

•Dry film will not attract dust or dirt •Provides excellent lubrication •Ideal for releasing molded parts •Colourless, thin film •Non-flammable •Excellent for high temperature applications up to 500°F (260°C) •Paintable •Does not contain silicones •Does not contain chlorinated solvents
Part No. C02616, 340 gram aerosol.

COPPER ANTI-SEIZE

•Prevents seizure up to 1800°F (982°C) •Lead free •Protects against seizure, heat-freeze, galling, rust, and corrosion •Ideal for use on stainless steel and for joining dissimilar metals •Brushes easily •Highly adhesive on both wet and dry surfaces •Cushions impact and shock loads •"Copper plates" surfaces to prevent metal-to-metal contact •Will not run, drip or settle out •Copper colour
Part No. C02916, 340 gram aerosol.
Part No. C02908, 227 gram brush-on.
Part No. C02910, 454 gram brush-on.

NICKEL ANTI-SEIZE

•Prevents seizure up to 2600°F (1427°C) •Does not contain lead, copper or graphite •Protects against seizure, rust, and corrosion •Chemically inert •Acid resistant •Can be used with ammonia, acetylene, and vinyl monomers which are unstable in the presence of copper •Strong resistance to water washoff •Brushable to -18°F (-28°C) •Will not run, drip or settle out •Silver colour
Part No. C03908, 227 gram brush-on.
Part No. C03910, 454 gram brush-on.

ALL-PURPOSE ANTI-SEIZE

•Prevents seizure up to 1800°F (982°C) •Moly fortified •Lead free •Protects against seizure, heat-freeze, galling, rust and corrosion •Lowers friction; reduces wrench torque •Reduces maintenance costs •Not affected by contraction, expansion, or vibration •Will not run, drip or settle out •Steel blue colour
Part No. C04108, 227 gram brush-on.
Part No. C04110, 454 gram brush-on.

ANTI-SPATTER

•Excellent spatter protection provides cleaner welds •Oversized nozzle for easy use with welding gloves •Safe, water based formula •Non-flammable •Does not contain suspect carcinogens such as methylene chloride •Does not contain silicone •Paint compatible •Non-toxic
Part No. C02116, 368 gram aerosol.

BELT DRESSING

•Prevents belt slippage on flat, round, and V-belts •Extends belt life •Does not contain chlorinated solvents that deteriorate drive belts •Fast evaporation •Eliminates squeaks from slipping belts •Meets USDA requirements for P1 •Colourless •Can be used in wet outdoor conditions •Low odour
Part No. C02216, 284 gram aerosol.

Greases

THERMAPLEX MULTI-PURPOSE BEARING GREASE

•Long life •Excellent load carrying properties •Extends relubrication periods •Prolongs bearing life •Good corrosion resistance •Ideal for lubricating all types of bearings •Reduces grease consumption •Blue coloured paste •Temperature range: -22°F (-30°C) to 350°F (177°C)
Part No. C70614, 400 gram cartridge.
Part No. C70606, 18.93 litre pail.
Part No. C70635, 60.48 litre pail.
Part No. C70655, 208 litre drum.

THERMAPLEX AQUA BEARING GREASE

•Excellent resistance to fresh and salt water •Resists water washout •Good adhesion properties •Excellent corrosion resistance •Significant load carrying capability •Reduces wear •Reduces grease consumption •Greater degree of bearing protection •Amber coloured paste •Temperature range: -4°F (-20°C) to 302°F (150°C)
Part No. C70514, 400 gram cartridge.
Part No. C70506, 18.93 litre pail.
Part No. C70535, 60.48 litre pail.
Part No. C70555, 208 litre drum.

THERMAPLEX FOODLUBE BEARING GREASE

•USDA H1 category approved •Uses only FDA listed ingredients •Ensures safety in areas where incidental food contact may occur •High degree of water resistance •Excellent corrosion protection •Very good load capacity •Extends lubrication intervals •Does not contain mineral oil, solvents or silicone •Non-toxic, non-staining and non-emulsifying •White coloured paste •Temperature range: -4°F (-20°C) to 300°F (149°C)
Part No. C70114, 400 gram cartridge.
Part No. C70106, 18.93 litre pail.
Part No. C70135, 60.48 litre pail.
Part No. C70155, 208 litre drum.

THERMAPLEX HI-TEMP BEARING GREASE

•Reduces risk of bearing failure at high temperatures •Excellent high temperature performance •Resists carbonization at high temperatures •Extends relubrication intervals •Very high dropping point •Ensures optimal production rates •Excellent vibration resistance •Reduces grease consumption •Brown coloured paste •Temperature range: -15°F (-22°C) to 392°F (200°C)
Part No. C70214, 400 gram cartridge.
Part No. C70206, 18.93 litre pail.
Part No. C70235, 60.48 litre pail.
Part No. C70255, 208 litre drum.

THERMAPLEX HI-LOAD BEARING GREASE

•Excellent load carrying ability •Withstands shock loading •Reduces wear from vibration •Contains 3% moly •Good corrosion resistance •Excellent anti-wear properties •Wide operating temperature range •Reduces maintenance costs •Black coloured paste •Temperature range: -22°F (-30°C) to 350°F (177°C)
Part No. C70414, 400 gram cartridge.
Part No. C70406, 18.93 litre pail.
Part No. C70435, 60.48 litre pail.
Part No. C70455, 208 litre drum.

RED & REDI MULTI-PURPOSE RED GREASE

•Delivers excellent lubrication •Prevents rust, corrosion, and oxidation •Red colour allows easy visual inspection •Remains effective at extremely high temperatures — 550°F (288°C) •Penetrates quickly •Reduces friction and vibration •Resists shock
Part No. C05816, 312 gram aerosol.

WHITE LITHIUM MULTI-PURPOSE WHITE GREASE

•Rapidly forms into a pure white grease that will not melt or wash away •PTFE additives for superior lubrication •NLGI grade: number 2 •Provides maximum lubrication •Rust and oxidation inhibitors protect metal •Pure white colour allows easy visual inspection •Heat and water resistant
Part No. C03816, 284 gram aerosol.

PREMIUM DIELECTRIC GREASE

•Protects and lubricates electrical connections, rubber and plastic parts •Prevents voltage leakage around electrical contacts •Premium Dielectric Grease protects critical electrical connections from oxidation and lubricates electrical switches while preventing moisture damage. Premium Dielectric Grease will not conduct electricity thus stopping signal leakage/bleed and power groundings. Premium Dielectric Grease conditions rubber and plastic boots and connectors. It is great for electrical connections, relay blocks, slide contact switches, etc.
Part No. C03216, 284 gram aerosol.

Corrosion Inhibitors

BRIGHTCOAT COLD GALVANIZE CORROSION INHIBITOR

•Shiny zinc coating •Prevents rust and corrosion on all metals •Restores hot dip galvanizing •Dries to touch in 15 to 30 minutes •Repairs rusted, galvanized and welded surfaces •Electro-chemically protects bare metal •Heat resistant, flexible coating •Will not yellow, chalk, crack or peel •Meets performance requirements of ASTM A780-93A
Part No. C05916, 368 gram aerosol.

COLD GALVANIZE CORROSION INHIBITOR

•95% zinc-rich galvanized coating •Works like a hot-dip on ferrous metals indoors and out •Withstands water temperature up to 212°F (100°C) and continuous dry heat up to 750°F (400°C) •Commonly used as a flash rust preventive on welded areas •Long term protection •Flexible coating will not yellow, chalk, crack, or peel •Electro-chemically protects bare metal •Dries in 3-5 minutes
Part No. C00516, 397 gram aerosol.
Part No. C05128, 3.78 litre jug.

LPS 3™ HEAVY DUTY RUST INHIBITOR

•Protects up to two years •Stops rust and corrosion •Provides non-sling lubrication •Self-healing, waxy film •Provides anti-seize coating •Safe to use on rubber, fabric, plastics and paints
Part No. C30316, 312 gram aerosol.
Part No. C00322, 591 ml trigger spray.
Part No. C03128, 3.78 litre jug.
Part No. C00305, 18.93 litre pail.
Part No. C00355, 208 litre drum.

HARDCOAT CORROSION INHIBITOR

•Multi-year protection of metal parts in outside storage •500+ hours salt spray resistance •Durable, hard transparent film •Commonly used on sides and tops of aircraft fuselages •Resists dripping and puddling during spray application •Low odour •Ready-to-use and can be applied with conventional airless or air operated spray equipment •Safe to use on rubber, fabric, plastics and paints
Part No. C03328, 3.78 litre jug.
Part No. C03305, 18.93 litre pail.
Part No. C03355, 208 litre drum.

PROCYON CORROSION INHIBITOR

•Multi-year protection of metal •Durable, hard transparent film •Resistant to saltwater, salt spray, moisture, acid, alkali fumes, and other corrosive elements •Resists dripping and puddling during spray application •Wide operating temperature range •Low odour •Ready-to-use and can be applied with conventional airless or air operated spray equipment •Safe to use on rubber, fabric, plastics and paints
Part No. C04228, 3.78 litre jug.
Part No. C04205, 18.93 litre pail.
Part No. C04255, 208 litre drum.

ZINC-X CORROSION INHIBITOR

•95% pure zinc rich galvanized coating •Prevents rust and corrosion on all metals •Up to two years protection •Works as a paint primer over rust •Dries to touch in 10 - 15 minutes •Withstands water temperatures up to 100°C and continuous dry heat up to 400°C •Will not yellow, chalk, crack or peel •Repairs rusted, galvanized and welded surfaces •Meets ASTM A-780 specification •Does not contain Methyl Ethyl Ketone
Part No. C05616, 397 gram aerosol.

Hand Cleaner Towels & Additional MRO Products

WORKPLACE HAND CLEANER TOWELS •WATERLESS

•Fast acting •Disposable •Portable •Premoistened •Residue free •Non-scratching abrasive •Pleasant fragrance •Opaque white liquid with a fresh citrus scent saturated onto towels
Part No. C09200, Bucket of 72 towels.

POWER PULL - WIRE PULLING LUBRICANT

•A water-based gel lubricant formulated to provide maximum friction reduction for electrical cable pulling operations •Biodegradable •Leaves a lubricating film which clings to cable during long pulls and vertical pulls •Coats electrical cables, datacom and copper cables •Excellent for electrical applications •Provides maximum friction reduction for difficult cable pulling applications •Compatible with all types of cable jacket materials •Will not "cement" the cable to the conduit •Safe for use on all cable types •Can be applied by hand, brush or pump
Part No. C64432, 946 ml container.
Part No. C64401, 3.78 litre pail.
Part No. C64405,18.93 litre pail.

STRONG STEEL STICK RENEWAL COMPOSITE

•Hand-kneadable, ready-to-use stick for fast emergency repairs •Hardens like steel in 20 minutes •Can be machined, drilled, tapped, and painted in 30 minutes •Plugs and seals leaks •Permanently fill gaps and holes in metal, concrete, wood, fibreglass, and ceramics •Patches holes and cracks in pipes, drums, and tanks •Can be used for underwater repairs
Part No. C60159, 114 gram stick.

LPS®

3M Automotive Chemicals

THROTTLE PLATE CLEANER
Fast cleaning action for dirty throttle plates. Cleans and lubricates. Safe for coated throttle plates.
Part No. 08866, 241 g aerosol.

GLASS CLEANER
Excellent for cleaning glass, plastic, chrome or metal. Non-flammable.
Part No. 08968, 538 g aerosol.

CITRUS BASE CLEANER
Removes oil, grease, tar, liquid adhesive, adhesive tape residue, dirt and scuff marks. Non-corrosive and has a citrus scent. Non-aerosol.
Part No. 08789, 142 g can.

SILICONE LUBRICANT
Dry Type - Eliminates rubber squeaks and prevents sticking. Contains no petroleum oils to stain fabric. Will not freeze at -33°C. Will not degrade at 175°C. Seals out moisture.
Part No. 08897, 241 g aerosol.

5-WAY PLUS PENETRANT
Helps free rusted, frozen bolts, nuts, etc. Lubricates and provides a long lasting film. Demoisturizes - "dries out" electrical ignitions, generators and other electrical apparatus. Stops squeaks yet contains no silicone. Non-aerosol.
Part No. 08890, 142 g can.

STP® Oil Additives

STP OIL TREATMENT
Fights motor oil breakdown, reduces oil thinning, oil consumption, and engine wear.
Part No. 33636, 400 ml.

Fuel Additives

STP WATER REMOVER
Removes water to fight gas line freeze up, cleans fuel injectors and carburetors and helps prevent rust and corrosion.
Part No. 70709, 350 ml.

STP CONCENTRATED FUEL INJECTOR CLEANER
Improves acceleration and gas mileage. Will not harm catalytic converters. Formulated for leaded or unleaded gasolines.
Part No. 70053, 350 ml.

STP FUEL INJECTOR & CARBURETOR CLEANER
Keeps fuel injectors and carburetors clean to fight power loss. Reduces exhaust emissions and prevents rust and corrosion.
Part No. 70035, 350 ml.

STP GAS TREATMENT
Cleans carburetors, fuel injectors, intake valves, and manifolds. Removes water to prevent gas line freezing, rust and corrosion.
Part No. 70020, 350 ml.

STP OCTANE BOOSTER
Dual action formula boosts octane and cleans combustion chambers to reduce octane requirements. Prevents hard starting, restores horsepower and stops knocking or pinging noises.
Part No. 70318, 350 ml.

Functional Fluids

STP POWER STEERING FLUID
Meets specifications for: GM, Ford, Chrysler, and most foreign cars. Protects against breakdown caused by wear, oxidation, and foaming.
Part No. 44726, 350 ml.

STP DOT 3 BRAKE FLUID
For ABS, drum and disc brake systems. Protects against corrosion.
Part No. 66951, 350 ml.

Wheel & Tire Care

BLACK JACK TIRE SHINE
This silicone based product gives a long lasting "new shine" look in wet or sunny weather. Water repellent - excellent for all exterior applications on rubber or vinyl and black painted metal.
Part No. NA127, Towelette - for single use.
Part No. NA27, 8 oz. bottle.

Brush-On Electrical Tape

BRUSH-ON ELECTRICAL TAPE
Out-performs common electrical tape by sealing out moisture and dirt to virtually eliminate corrosion. Sticks to all metal, rubber, vinyl, and plastics. Forms a tough flexible coating that dries at room temperature in just 5 minutes.
Part No. NA55, 4 oz. brush top can.

Octane Boost

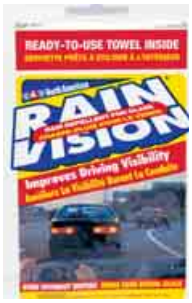
TURBO 108 CONCENTRATED OCTANE BOOSTER
Part No. NA30, 16 oz. bottle Turbo 108 Concentrated Octane Booster - makes 22 gallons for standard automotive use (12 per case).
Part No. NA31, 32 oz. bottle Turbo 108 Concentrated Octane Booster - makes 22 gallons for high performance racing applications or 44 gallons for standard automotive use (12 per case).

Brake Fluid

SILICONE BRAKE FLUID
Part No. NA41, 12 oz. bottle (12 per case).
Part No. NA40, 32 oz. bottle (12 per case).

Glass Care Products

RAIN VISION
Rain repellent for glass. By applying Rain Vision rain repellent, you put an invisible coating on the windshield which makes the rain bead and slide off. The use of Rain Vision results in better visibility in the rain, greater safety and increased driver comfort. Available in the following sizes:
Part No. NA125, Rain Vision towelette - for single use or trial size - (24 per case).
Part No. NA25BC, 4 oz. blister carded Rain Vision - (12 per case).



NEVER FOG AUTOMOTIVE ANTI-FOG
For interior auto glass. Prevents annoying fogging on glass. Great year round fog shield. Available in the following sizes:
Part No. NA128, Never Fog Automotive Anti-Fog towelette - for single convenient application - (24 per case).
Part No. NA28BC, 4 oz. blister carded bottle of Never Fog Autom. Anti-Fog - (12 per case).

AUTO GLASS CLEANER TOWELETTE
For cleaning interior and exterior auto glass. Removes road film, blinding smears, and smoke residue.
Part No. NA110, Auto Glass Cleaner towelette - for single use, convenient, never messy cleaning - (24 per case).

Leather & Vinyl Care Products

JUST FOR LEATHER
Part No. NA117, Just For Leather towelette - for single use in cleaning and shining up your vehicle's leather upholstery - (24 per case).

Air Freshener Products

PURE CITRUS AIR FRESHENER
Using a unique non-aerosol compressed nitrogen can, Pure Citrus Air Freshener is a very environmentally friendly choice. Pure Citrus contains no water, alcohol, or other fillers to dilute its long lasting effectiveness. No preservatives, heavy perfumes, or artificial ingredients — it only leaves behind a delightful citrus fragrance.
Part No. NA20BC, 1.5 oz. blister carded can - (12 per case).
Part No. NA2012, Case of 12, 1.5 oz. cans. Comes in counter display case with free tester.
Part No. NA22, 7 oz. can - (12 per case).

DURA LUBE
Chemicals

ENGINE TREATMENT

Dramatically reduces friction in all gas or diesel engines by penetrating metal surfaces and smoothing and sealing micropores. Dura Lube is a blend of hi-tech petroleum components bonded through a unique processing sequence to produce the most effective friction reducing formulation ever tested. Engine Treatment reduces friction wear, increases gas mileage and horsepower, makes starting easier, improves performance and extends engine life. 948ml bottle.
Part No. DLOS-12.

TRANSMISSION TREATMENT

Revolutionary metal conditioner carefully formulated to meet all manufacturer's specifications and to blend with all automatic and manual transmission fluids. Its SR-3 formulation is designed to help restore fluid life, prevent rough shifting, clean valves, retard acid and varnish buildup, and keep your transmission cooler and cleaner. Protects transmissions for up to 50,000 miles of normal driving. 237 ml bottle.
Part No. DLT08-12.

RISLONE®
Engine Treatment Products

RISLONE ENGINE TREATMENT

Clean engine formula — •Replaces a litre of oil at oil change time or whenever the crankcase is down a litre •Keeps engines clean and removes harmful engine deposits •Quiets noisy valves and lifters, frees sticking piston rings •Promotes longer engine life and efficient, powerful performance •Reduces engine friction and wear, especially at start-up time •Maintains normal oil viscosity at engine operating temperatures and will not void new car warranties •Compatible with SG specification oils and all petroleum based synthetic oils
Part No. 100LR, 950 ml bottle.
Part No. 100-5R, 20 litre pail.
Part No. 100-45R, 208 litre drum.

RISLONE ENGINE TREATMENT CONCENTRATE

•Add between oil changes or top off a new oil change without overfilling •Keeps engines clean and removes harmful engine deposits •Quiets noisy valves and lifters, frees sticking piston rings •Promotes longer engine life and efficient, powerful performance •Reduces engine friction and wear, especially at start-up time •Maintains normal oil viscosity at engine operating temperatures and will not void new car warranties •Compatible with SG specification oils and all petroleum based synthetic oils
Part No. 150-C, 450 ml bottle.

RISLONE OIL TREATMENT

•Reduces oil burning, exhaust smoke, and quiets noisy engines
•Decreases oil leakage, increases oil pressure and power •Increases oil thickness •Prevents destructive "blow-by" gases from leaking out
•Provides an ideal protective coating for pistons, rings, and bearings
•Retains oil flow characteristics in cold weather
Part No. 850-OT, 450 ml bottle.

RESTORE INC.
Automotive Products

ENGINE RESTORER & LUBRICANT

Restores compression and power when added to oil, this amazing product actually fills power-robbing scratches with millions of microscopic particles. Engine Restorer rebuilds metal surfaces, which seals power-robbing leaks. The result is the restoration of cylinder compression and therefore horsepower to near original levels. Engine Restorer also dramatically reduces excess oil usage and oil burning, and the puffs of blue smoke in high mileage cars. Engine Restorer will increase engine performance to a point where you can actually feel the difference as you drive.

Part No. 00011, 11 oz. Engine Restorer, 4 cylinder formula - 12 per case.
Part No. 00015, 15 oz. Engine Restorer, 6 cylinder formula - 12 per case.
Part No. 00019, 19 oz. Engine Restorer, 8 cylinder formula - 12 per case.
Part No. 00468, Engine Restorer mixed display - 4 each of the above Engine Restorer - 12 per case.
Part No. 01000, 1 litre Diesel Restorer - for heavy equipment, tractors, and trucks - 6 per case.
Part No. 20016, 16 oz. Marine Restorer, 4 cycle formula - 12 per case.

IRONTITE

LLL/2496

Crack Detection & Repair Products

KWIK-CHEK CRACK DETECTION MATERIALS

Detect cracks in aluminum (or ductile iron) cylinder heads.
Part No. 400-1310-01, Kwik-Chek Kit - includes the Dye Penetrant, Remover, and Developer.
Part No. 400-1320-01, #1 Penetrant Dye.
Part No. 400-1320-02, #2 Dye Remover.
Part No. 400-1320-03, #3 Developer.

ELECTRO-MAGNETIC CRACK DETECTION

Electro Magnetic Kits include the magnet, bulb and powder in a handy tool box. 3200 maximum ampere turns; 8" (203 mm) between yoke legs.
Part No. 400-1110-00, Electro Magnetic Kit, 115V.
Part No. 400-1210-01, Spray bulb.
Part No. 400-1230-16, 1 lb. can grey magnetic powder.
Part No. 400-1230-80, 5 lb. can grey magnetic powder.
Part No. 400-1231-60, 10 lb. can grey magnetic powder.
Part No. 400-1234-00, 25 lb. can grey magnetic powder.

THORO FLUSH - THE PERFECT CLEANER

Protects and cleans the engine cooling systems. Leaves them free from rust, sludge and grease. Extends the life of the cooling system. 1 pint.
Part No. 468-9112-16.

CERAMIC SEAL

Finish the crack repair job by circulating Ceramic Seal internally to seal any part of the crack that may still be separated on the inside of the casting.
Part No. 468-9122-16, 1 pint Ceramic Seal.
Part No. 468-9121-28, 1 gallon Ceramic Seal.
Part No. 468-9126-40, 5 gallon Ceramic Seal.

ALL WEATHER SEAL

Seals leaks and cracks in the cooling system; prevents antifreeze leakage. Fast acting, non-corrosive, and non-clogging. Recommended for use with any antifreeze or coolant. Lubricates water seals. 1 pint.
Part No. 468-9132-16.

K & W PRODUCTS

LLL/1562

Chemicals

PERMANENT METALLIC® BLOCK SEAL

Forms a permanent molecular seal as strong as steel. Seals holes and cracks in: cast iron and aluminum blocks; head gaskets and freeze plugs; copper, aluminum and plastic bi-material radiators and heater cores. Treats six-cylinder and larger engines.
Part No. 74016, 329 ml.

TRANS-X® STOP LEAK & TUNE UP

Stops transmission and power steering leaks and restores smooth operation. Ideal preventative maintenance tool when added to transmission fluid every 40,000 km and each time fluid and filter change. Cures common causes of transmission malfunction.
Part No. 74015, 444 ml.

TRANS-X® POSI-TRAC LIMITED SLIP GEAR OIL ADDITIVE

Engineered with friction-reducing conditioners to maintain smooth operation of limited slip and posi-trac differentials. Eliminates squealing and noises. Reduces friction, wear and overheating. Prevents gear oil breakdown.
Part No. 742508-6, 207 ml.

TANNERY® LEATHER & VINYL CLEANER & CONDITIONER

Cleans, conditions, protects and preserves vinyl, rubber, plastic, trim and fibreglass. Quickly restores luster and shine to tires, bumpers, vinyl tops, dashboards, sporting goods and equipment, rubber boots, patio furniture, and more.
Part No. 74171, 284 g.

CRC

Automotive Chemicals & Supplies

U VIEW
Fluorescent Dye Additives & A/C Oils

MULTI-PURPOSE DYES
Pinpoint leaks in engine oil, transmission, hydraulic, power steering, gasoline, and fuel diesel fuel systems.
Part No. B483206, Case of 6 (1 oz./30 ml) bottles. Each bottle services 1 vehicle.
Part No. 483208, 8 oz. (240 ml) bottle. Services 8 vehicles.

RADIATOR COOLANT DYES
Pinpoint leaks in radiators, hose/fittings, waterpumps and head gaskets.
Part No. B483906, Case of 6 (1 oz./30 ml) bottles. Each bottle services 1 vehicle.
Part No. 483908, 8 oz. (240 ml) bottle. Services 8 vehicles.

EXTENDED LIFE RADIATOR COOLANT DYES
Part No. B483806, Case of 6 (1 oz./30 ml) bottles. Each bottle services 1 vehicle.

UNIVERSAL A/C DYE & CARTRIDGE
Pinpoint leaks in A/C systems.
Part No. 499008, 8 oz. (240 ml) bottle. Services 32 vehicles.
Part No. 499108, 8 oz. (240 ml) dye cartridge. Services 64 small A/C systems or 32 regular A/C systems. Use with Spotgun Injector #471539.

A/C OILS
Allows the technician to select the correct oil. Oil selection chart included with disposable cartridge. Use with Spotgun #471539.
Part No. 488046P, 8 oz. (240 ml) bottle. PAG oil (46 viscosity).
Part No. 488100P, 8 oz. (240 ml) bottle. PAG oil (100 viscosity).
Part No. 488125P, 8 oz. (240 ml) bottle. PAG oil (125 viscosity).
Part No. 488150P, 8 oz. (240 ml) bottle. PAG oil (150 viscosity).
Part No. 488108E, 8 oz. (240 ml) bottle. ESTER oil (100 viscosity).

Chemicals

BRAKE FLUID
•Supreme DOT 3
Part No. BF-350, 350 ml, 12 per case.
Part No. BF-1, 1 litre, 12 per case.
Part No. BF-4, 4 litre, 4 per case.
Part No. BF-20, 20 litre.

POWER STEERING FLUID
•Supreme
Part No. PS-350, 350 ml, 12 per case.
Part No. PS-1, 1 litre, 12 per case.

SOLVENT
•Grade 16
Part No. SV-1, 946 ml, 12 per case.
Part No. SV-4, 3.78 litre, 4 per case.
Part No. SV-20, 18.9 litre.
Part No. SV-205, 205 litre drum.

KEROSENE
•Grade K-1
Part No. KER-4, 3.78 litre, 4 per case.
Part No. KER-10, 9.46 litre, 2 per case.
Part No. KER-205, 205 litre drum.

ACETONE
•For thinning fibreglass resin mixes, dissolving two part epoxies •For cleaning tools and brushes used for epoxies and lacquers
Part No. ACE-1, 946 ml, 12 per case.
Part No. ACE-4, 3.78 litre, 4 per case.

Pressure Washer Fluids

WINDOW & SCREEN CLEANER PRESSURE WASHER FLUID
•Removes dirt and grime without streaking •For use on all windows, screens and outdoor lighting •Blue coloured •4 litre jug
Part No. WSC-4.

CARNAUBA WASH & WAX PRESSURE WASHER FLUID
•Cleans and protects surface finish against rain, dirt, salt and water spotting •For use on automobiles, trucks, RV vehicles and boats •Yellow coloured •4 litre jug
Part No. CWW-4.

DECK & FENCE CLEANER PRESSURE WASHER FLUID
•Cleans away any build up of dirt, stains and grime caused by sap, leaves and foot traffic •For use on wood decks, fences and porches •Orange coloured •4 litre jug
Part No. FDC-4.

HOUSE & SIDING PRESSURE WASHER FLUID
•Removes build up of dirt and grime on houses, siding, painted wood, gutters and awnings •Purple coloured •4 litre jug
Part No. HSC-4.

RECOCHEM

Pressure Washer Fluids

MOULD & MILDEW STAIN REMOVER PRESSURE WASHER FLUID

•For use on stone patios, aluminum siding, vinyl siding and outdoor furniture •Amber coloured •4 litre jug

Part No. MMR-4.

ALL PURPOSE HEAVY DUTY CLEANER PRESSURE WASHER FLUID

•Cleans build up of tough to remove dirt, grime and grease •For use on engines, driveways, sidewalks and BBQ grills •Green coloured •4 litre jug

Part No. APC-4.

CAR & BOAT PRESSURE WASHER FLUID

•For use on automobiles, trucks, RV vehicles, commercial vehicles and power and sail boat hulls •Red coloured •4 litre jug

Part No. CBC-4.

MISCELLANEOUS

Winter Chemicals

BUG-OFF/BUG-BUSTER

•Summer windshield cleaner •Pink in colour

Part No. BUGOFF, 3.78 litre.

WINDSHIELD WASHER PREMIX

•Premix windshield washer antifreeze •-35°C •Blue in colour

Part No. PM-35, 3.78 litre.

Part No. PM-35-205, 205 litre.

PREMIUM DE-ICER WASHER FLUID

•Rain-X premium fluid removes light ice and frost •Makes windshields water and soil repellent •-40°C •Yellow in colour

Part No. DFL-4, 4 litre.

WINDSHIELD WASHER CONCENTRATE

•Concentrated formula

Part No. WWC-20, 18.9 litre.

Part No. WWC-205, 205 litre.

RECREATIONAL VEHICLE ANTIFREEZE

Part No. ND-4, 3.78 litre.

Part No. ND-205, 205 litre.

ECONOMICAL RECREATIONAL VEHICLE ANTIFREEZE

Safe for plastic piping only. -50°C. Specifically formulated to protect and prevent freeze damage to drains and fresh water lines in septic systems, boats, recreational vehicles, seasonal homes, swimming pool filtration and heating systems.

Part No. ECRV-4, 3.78 litre.

Part No. ECRV-205, 205 litre.

GAS LINE ANTIFREEZE

Fuel injector gas line antifreeze:

Part No. FIG-150, 150 ml.

Standard gas line antifreeze:

Part No. MHG-150, 150 ml.

Recochem

Part No. MHY-1, 900 ml.
Part No. MHY-4, 4 litre.
Part No. MHY-20, 18.9 litre.
Part No. MHY-205, 205 litre.

DIESEL FUEL CONDITIONER - TURBO POWER
Part No. DFC-1, 1 litre.
Part No. DFC-205, 205 litre.

AIR BRAKE ANTIFREEZE - TURBO POWER
Part No. ABAF-1, 1 litre.
Part No. ABAF-4, 3.78 litre.
Part No. ABAF-20, 18.9 litre.
Part No. ABAF-205, 205 litre.

LOCK DE-ICER
Part No. LDI-35, 30 ml.
Part No. LDI-35C, 30 ml, carded for display.

ANTIFREEZE/COOLANT
Products

AUTOMOTIVE D995M LONG LIFE ANTIFREEZE/COOLANT
•D995M long life engine coolant is based on organic acid technology. This product is free of silicates, phosphates, borates, nitrates, and amines. 5 year or 250,000 km lifetime. Performance specifications: ASTM D-3306/D-4985; SAE J1034/J1941; GM6277 (Sections 4.1 - 4.13); Ford WSS-M97B44-C (Sections 3.1 - 3.4); Renault Type D; Peugeot B71 5110. Fully compatible with Dexcool™.
Part No. EXL-3.78, 3.78 litre jug Long Life.

UNIGARD UNIVERSAL ANTIFREEZE/COOLANT
•Automotive and light duty diesel truck coolant based on low silicate, borate technology. High pH. SCA addition required when used as a heavy duty diesel engine coolant. Fully aluminum compatible. Enhanced hard water compatibility. Performance specifications: ASTM D-3306/D-4985; SAE J1034.
Part No. UNI-3.78, 3.78 litre jug Unigard.
Part No. UNI-205, 205 litre non-returnable drum Unigard.

GD-3000 HEAVY DUTY DIESEL EXTENDED LIFE ANTIFREEZE/COOLANT
•Automotive and heavy duty antifreeze/coolant based on hybrid technology. This low silicate, phosphate and amine free product is recommended for use in automotive, light duty, and heavy duty applications namely on-road truck, off-road, farm, and marine. It does not require an initial charge of supplemental coolant additives (SCAs) upon initial fill in heavy duty diesel applications as the product is specially formulated to protect heavy duty diesel wet sleeve liners. Compatible with coolant filters and heavy duty diesel SCAs. RED in colour. Extended life of 12,000 hours or 1,000,000 km. Fully aluminum compatible. Enhanced hard water compatibility. Performance specifications: ASTM D-3306/D-4985/D-6210; ASTM D-4656 (50/50 premix automotive); ASTM D-5345 (50/50 premix diesel); Cummins Bulletin #3666132; Detroit Diesel #7SE298; GM 1825M/1899M; Caterpillar EC-1; SAE J1034/J1941; TMC RP 329; Ford ESE-M97B44A, ESE-M97B18-C, WSS-M97B51-A1; Mack Trucks; Freightliner 48-2288D; White Star; MAN 324; Saab-Scania 6901; Perkins; Landrover; Chrysler MS-7170, MS9769; PACCAR; Volvo/GM Heavy Truck; New Holland WSN-M97B18-D; MTU MTL 5048; JIS K2234; Mercedes Benz DBL 7700; US Federal A-A-870.
Part No. GD3000-3.78, 3.78 litre jug GD-3000.
Part No. GD3000-205, 205 litre non-returnable drum GD-3000.
Part No. PREGD3000-3.78, 3.78 litre jug GD-3000 PRE-MIX.
Part No. PREGD3000-205, 205 litre non-returnable drum GD-3000 PRE-MIX.

HEAVY DUTY ANTIFREEZE/COOLANT
•Automotive and heavy duty diesel engine coolant based on borate, and nitrite technology. High pH. SCA addition not required on initial fill. Fully aluminum compatible. Enhanced hard water compatibility. Performance specifications: ASTM, D-3306/D-4985/D-4340/D-6210; Cummins Bulletin #3666132; Detroit Diesel #7SE298; GM 1825M/1899M; SAE J1034/J1941; TMC RP 329; Ford ESE-M97B44A, ESE-M97B18-C; Chrysler MS-7170; Mack Trucks; PACCAR; Freightliner 48-2288D; Volvo/GM Heavy Truck; New Holland WSN-M97B18-D; US Federal A-A-870.
Part No. FFD-3.78, 3.78 litre jug Heavy Duty Antifreeze/Coolant.
Part No. FFD-205, 205 litre non-returnable drum Heavy Duty Antifreeze/Coolant.

GLOBAL EXTENDED LIFE ANTIFREEZE/COOLANT
Global Extended Life Antifreeze/Coolant is recommended for use in all makes and models of foreign and domestic passenger vehicles and light duty trucks. It contains a proprietary formulation of premium corrosion inhibitors that provide extended protection against rust, corrosion and cavitation for all coolant system metals. It also provides excellent protection against temperature extremes, preventing freeze-up and boil-over when used in accordance with OEM and product manufacturers' guidelines regarding product dilution. This product provides up to 5 years or 240,000 km of protection. Meets or exceeds ASTM D-3306 and Japanese Industry Standard K-2234. Recommended for use in all makes and models of foreign and domestic passenger vehicles and light duty trucks. When pre-diluted with soft or de-ionized water, it can be added to any colour antifreeze/coolant.
Part No. GXL-3.78, 3.78 litre jug Global Extended Life.
Part No. PREGXL-3.78, 3.78 litre jug 50/50 Premix Global Extended Life.

CONTAINER
Part No. WHITELP, Empty 20 litre white pail w/ lid.

Recochem

RECOCHEM

LLL/3352

Industrial Heat Transfer Fluid

•Designed for primary and secondary heating and cooling •Freeze and burst protection of pipes, and a variety of deicing, defrosting and dehumidifying applications •Does not contain silicates, nitrates, nitrites, or molybdate •Formulated to provide corrosion protection to copper, solder, brass, steel, cast iron and aluminum •Supplied as a concentrate that must be diluted with good quality water prior to use, or use a pre-diluted 50/50 blend for heavy duty use

ETHYLENE GLYCOL
Specifications: ASTM D1384 compatible with Dowtherm SR1, IG, HD, Ucartherm.
Common Application: Ethylene is highly toxic and used primarily in engines.

Concentrate
Part No. CON-EG-20, 20 L pail.
Part No. CON-EG-205, 205 L drum.

50/50 Blend
Part No. BLE-EG-20, 20 L pail.
Part No. BLE-EG-205, 205 L drum.

PROPYLENE GLYCOL
Specifications: ASTM D1384 compatible with Dowfrost, Protherm.
Common Application: Propylene is less toxic than ethylene. It is commonly used for in-floor heating where if a leak occurs, it is less harmful to soil and animals.

Concentrate
Part No. CON-PG-20, 20 L pail.
Part No. CON-PG-205, 205 L drum.

50/50 Blend
Part No. BLE-PG-20, 20 L pail.
Part No. BLE-PG-205, 205 L drum.

GASGACINCH

LLL/3292

Gasket Sealer

Holds gaskets in place with "cinch"-like tenacity. Throughout the high performance field, manufacturers, motorcycle field, truck and implement field as well as automotive dealers and the general repair shops rely on Gasgacinch more than any other sealer to do the job right. Why? They have found and now know it is the one sealer that resists heat, fuels, pressure, and shock. It remains flexible affording easy gasket removal.
Uses Unlimited — Because of its special composition, Gasgacinch has many more uses than found with other type gasket sealers. Due to the flexible bonding powers of Gasgacinch, it will be found to be superior for the following: •superior super grip belt dressing •prevents rim leak to new and used tubeless tires •unequalled for tire boot patches •superior unequalled head gasket seal
Gasgacinch contains no heat retaining metal powders. Its solids are of heat resisting formula compounds.
Part No. 440-A, 4 oz. can.
Part No. 440-B, 8 oz. can.

MURPHY'S

LLL/2907

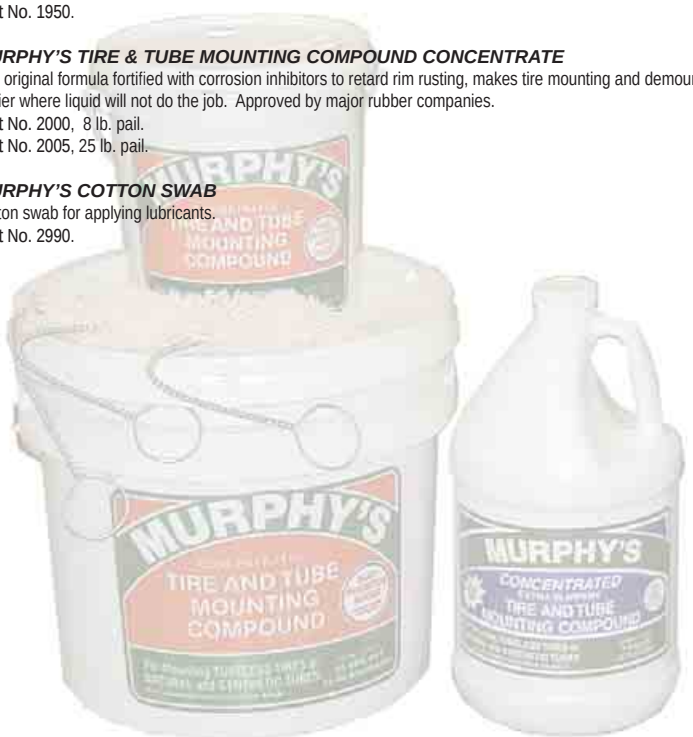
Tire Products

Recognized as the #1 name at the tire dealer and fleet level, Murphy's Tire Products are a non-petroleum based mounting lubricant. Designed for extended temperature ranges, these products include rust inhibitors to prevent damage to the tire bead.

MURPHY'S "EXTRA SLIPPERY" CONCENTRATED LIQUID
Contains improved, super lubricity polymers, may be diluted 2 to 1, and is used for the super-fast mounting of passenger tires.
1 gallon.
Part No. 1950.

MURPHY'S TIRE & TUBE MOUNTING COMPOUND CONCENTRATE
The original formula fortified with corrosion inhibitors to retard rim rusting, makes tire mounting and demounting faster and easier where liquid will not do the job. Approved by major rubber companies.
Part No. 2000, 8 lb. pail.
Part No. 2005, 25 lb. pail.

MURPHY'S COTTON SWAB
Cotton swab for applying lubricants.
Part No. 2990.



DURACOOL®

Duracool 12a® Refrigerant

•System head pressure reduction and non-corrosive formula means greater system longevity •Non-toxic, non-global warming and non-ozone depleting •Fully compatible with mineral and synthetic system oils •Patented friction fighting additive for enhanced performance and safety
NOTE: All cylinders equipped with conversion fitting to ensure either R-12 or R-134a hoses/gauges can be utilized. Core charges apply to 30 lb. and 50 lb. cylinders. A/C system tags enclosed.

Part No. F006, 6 oz. can Duracool 12a® refrigerant; standard R-134a thread.
Part No. F30, 30 lb. cylinder Duracool 12a® refrigerant.
Part No. F50, 50 lb. cylinder Duracool 12a® refrigerant.
Part No. DC0026, Consumer Recharge Kit. Contains (2) 6 oz. cans Duracool 12a® refrigerant, 1 disposable hose kit, high and low fitting set.

Air Conditioning Solutions & Hose Kits

DURACOOL SYSTEM SEAL™
Seals troublesome hard to find leaks. Compatible with all mobile air conditioning refrigerants and lubricants. Formulated for sealing leaks in evaporators, condensers, gaskets, "O" rings, metal and rubber hoses. Easy to follow instructions, will not harm air conditioning components when used according to instructions. 113 g.
Part No. DC0013.

DURACOOL SEALQUICK™
Assists in preventing winter loss, ideal for preventative maintenance. Seals leaks in mobile air conditioning systems and conditions hoses, gaskets, seals and "O" rings. Easy to follow instructions, will not harm air conditioning components when used according to instructions. 113 g.
Part No. DC0011.

DURACOOL DURADRY™
Moisture is one of the leading causes of air conditioning system failures. Easy to use Duradry removes moisture from mobile air conditioning systems. A must-use companion for air conditioning sealers and stop leak additive. 113 g.
Part No. DC0009.

DURACOOL A/C OIL CHILL™
With O.E.M. approved ultraviolet leak detection dye. Compatible with all mobile air conditioning refrigerants and lubricants. Will not absorb moisture and is the only air conditioning lubricant you need. Low miscibility means that the oil stays in the compressor where it's required. Lowers vent temperatures — lowers compressor operating temperatures — one lubricant does it all! 113 g.
Part No. DC0015.

ECONOMY A/C R-134a CHARGING HOSE
For connection to the low-port side, automotive A/C systems. Quick disconnect for R-134a system threads. Can pierce end constructed of combination brass and plastic, threaded for Duracool refrigerant cans or standard R-134a refrigerant cans. Hose constructed of high-density plastic. Suitable for multiple uses.
Part No. DC3000.

DURACOOL®

Air Conditioning Fittings & Adapters

BRASS CONVERSION FITTINGS
Pair of conversion fittings converts high side and low side R-12 ports to R-134a quick release fitting. (Most vehicles.)
Part No. DC0098.

BRASS CAN TOP PIERCING ASSEMBLY
½" F-Acme x ¼" M-Flare (to R-12 hose). Ideal for Duracool 6 oz. cans or other brands with R-134a ½" Acme threaded top.
Part No. DC6000.

BRASS CAN TOP PIERCING ASSEMBLY
½" F-Acme x ½" Acme male to R-134a hose. Ideal for Duracool 6 oz. cans or other brands with R-134a ½" Acme threaded top.
Part No. DC6001.

AC PLASTIC CAPS
Low side, corrosion proof and seal tight for valve leak prevention. Pack of 5.
Part No. DC8087.

AC PLASTIC CAPS
High side, corrosion proof and seal tight for valve leak prevention. Pack of 5.
Part No. DC8088.

BRASS CONVERSION FITTING (CAPPED)
High side. Converts high side R-12 port to R-134a quick release fitting most 1970 series vehicles, farm tractors, older imports, and heavy trucks. ¼" (7/16"-20) x 16 mm.
Part No. DC1471.

REFRIGERANT

134a Refrigerant

Production of chlorofluorocarbons (CFCs) has been phased out. Environmentally acceptable replacement compounds are therefore needed for use in existing medium and low temperature refrigeration applications. Refrigerant 134a was developed to meet these needs. Refrigerant 134a is a commercially available hydrofluorocarbon (HFC) refrigerant for use as a long term replacement for R-12.

30 lb. cylinder 134A refrigerant.
Note: Core charge applies
Part No. A5995.

Body Shop Professional Products

OVERSPRAY CLAY No. C2000.
A uniquely formulated surface preparation clay to safely and quickly remove overspray, tree sap mist, and other airborne pollutants without staining or scratching the surface. Use in conjunction with Meguiar's Final Inspection (M3416).
Part No. C2000, 200 gram container.

SWIRL FREE POLISH No. 82.
A high performance blended polish with cleaning power to effectively remove fine scratches and eliminate swirl marks fast, while giving a glistening "new paint" shine.
Part No. M8232, 32 oz. liquid.

DUAL ACTION CLEANER/POLISH No. 83.
A perfect combination of "Buffered Abrasives" and rich polishes to provide a single step cleaner and polish all in one.
Part No. M8332, 32 oz. liquid.

COMPOUND POWER CLEANER No. 84.
A special formulation of aggressive "Diminishing Abrasives" for fast and safe removal of sanding scratches and other surface defects. These abrasives cut quickly, then reduce to a gently polishing rouge.
Part No. M8432, 32 oz. liquid.

Mirror Glaze Professional Cleaners & Polishes

MEDIUM CUT CLEANER No. 1.
A moderate abrasive cleaner for removing medium defects, including swirl marks, oxidation, and water sanding marks.
Part No. M0116, 16 oz. liquid.
Part No. M0164, 64 oz. liquid.

FINE CUT CLEANER No. 2.
A mild abrasive cleaner for removing fine surface defects, light oxidation, stains, scratches, swirls, and mild water spots.
Part No. M0216, 16 oz. liquid.

MACHINE GLAZE No. 3.
This product uses unique penetrating nutrients that effectively revitalizes all paint finishes, restoring them to their original brilliance and clarity.
Part No. M0316, 16 oz. liquid.
Part No. M0364, 64 oz. liquid.

HEAVY CUT CLEANER No. 4.
A more aggressive formula for removing coarse paint defects such as deep swirls, acid rain etchings, industrial fallout, scratches, oxidation, and water sanding scratches.
Part No. M0416, 16 oz. liquid.

SHOW CAR GLAZE No. 7.
A hand applied polish that is specially formulated to nourish all paint finishes with rich polishing oils to give a deep "wet look" shine. Outshines all other hand applied polishes, glazes, waxes, and sealants. Does not dry white.
Part No. M0716, 16 oz. liquid.

SWIRL REMOVER No. 9.
A combination cleaner/polish used to give a deep dark shine, while removing light scratches and swirl marks. Low VOCs formula to reduce splatter and make application and wipe-down easier.
Part No. M0916, 16 oz. liquid.

QUICK DETAILER No. 66.
A one-step cleaner/wax, specially formulated for high production reconditioning for the quick and safe removal of oxidation and blemishes while restoring a deep gloss and providing a durable wax finish.
Part No. M6601, 1 US gallon.

Maintenance Products

GOLD CLASS PREMIUM LEATHER CLEANER & CONDITIONER No. 72.
Luxurious, one-step treatment safely cleans and protects leather and leaves the surface rich and natural. Mild cleaners provide safe cleaning action without stripping nutrients or protection. Special oils moisturize and condition the leather so it remains rich and supple. Totally pH-balanced leaving no artificial slickness.
Part No. G7214, 14 oz. liquid.

CLEAR PLASTIC POLISH No. 10.
Used to safely restore and maintain optic clarity to all clear plastics. Also leaves the surface static-free, thus repelling dust. Safe and effective on both acrylic and polycarbonate surfaces.
Part No. M1008, 8 oz. liquid.

CLEAR PLASTIC CLEANER No. 17.
A non-abrasive cleaner used to remove fine hair line scratches from all types of clear plastics. Perfect cleaner for eyeglasses, computer screens, convertible windows, helmet visors, instrument panels, and all clear plastics.
Part No. M1708, 8 oz. liquid.

CLEAR PLASTIC CLEANER/POLISH No. 18.
An easy to use spray on and wipe off product for light cleaning on clear plastics. Non-abrasive formula that removes smudges and residue without scratching. It restores clarity and gives an anti-static surface.
Part No. M1808, 8 oz. liquid.

FINAL INSPECTION No. 34.
Quick clean-up for a "Show Car Shine" with a fast mist-on, wipe-off special lubricity formula which removes dust and dirt without scratching; instantly and without water. Enhances finishes as well as being paintable and body shop safe.
Part No. M3416, 16 oz. liquid spray.

HEAVY DUTY VINYL CLEANER No. 39.
Formulated to remove tough, ground-in dirt from excessively-soiled vinyl, rubber, and textured non-skid surfaces. Apply to vinyl tops, bumpers, plastic door panels, car and boat interiors, luggage and furniture.
Part No. M3916, 16 oz. liquid spray.

VINYL & RUBBER CLEANER/ CONDITIONER No. 40.
A complex formula that cleans, penetrates, and rejuvenates vinyl and rubber surfaces. Durable protection that screens out damaging ultraviolet rays, restoring life and colour, leaving a rich, natural sheen.
Part No. M4016, 16 oz. liquid spray.
Part No. M4001, 1 US gallon.

Meguiar's since 1901

Professional Body Shop & Automotive Products

Wash & Wax

GOLD CLASS CAR WASH SHAMPOO & CONDITIONER No. 71.
Designed for the enthusiast who washes often. The rich ingredients protect and enhance the finish and won't strip off wax protection. Special conditioners leave the surface so slick that water sheets off the car.
Part No. G7116, 16 oz. liquid.

GOLD CLASS PREMIUM WAX No. 70.
The most reflective and finest Car Wax from Meguiar's. This formula with its incredible reflective qualities will darken the colour bringing out the full richness of the paint, creating a clear, sharp reflection. It glides on and off easily, cleans the surface, removes swirl marks, adds polishing oils, reduces UV ray penetration, and adds tough, long lasting polymer protection.
Part No. G7014, 14 oz. paste.
Part No. G7016C, 16 oz. liquid.

HI-TECH WASH No. 00.
This concentrated formula foams away dirt and grime while enhancing gloss and protection of your wax. It is detergent free to guarantee gentle cleansing, without stripping away protection and gloss.
Part No. M0016, 16 oz. liquid.

LIQUID CLEANER WAX No. 6.
Easy to use, one-step, product that will clean, polish, and protect in one easy application. Will remove light oxidation creating a long lasting, high gloss finish. Can be used by hand or machine.
Part No. M0616, 16 oz. liquid.

HI-TECH YELLOW WAX No. 26.
A sophisticated blend of premium yellow Carnauba wax, silicones, polymers, and other waxes that gives maximum gloss and protection and adds richness and depth of colour.
Part No. M2611, 11 oz. paste.
Part No. M2616, 16 oz. liquid.
Part No. M2601, 1 US gallon.

Marine & RV Care

Wash Products

BOAT/RV WASH
Safely removes grime and dirt with special ingredients which extend the life of the suds with a refreshing scent.
Part No. M4364, 64 oz. liquid.

BOAT/RV GEL WASH No. 54
Biodegradable wash lifts boat scum, dirt, salt spray, grime, bird droppings, and other fresh contaminants while not stripping wax. Conditioners in wash increase shine and slickness while sheeting action greatly reduces drying time.
Part No. M5416, 16 oz. liquid.
Part No. M5401, 1 US gallon.

Cleaners

ODOUR ELIMINATOR.
Removes offensive odours such as smoke, sweat, pet odour, food smells.
Part No. G2310, 10 oz. spray.

HOT RIMS ALL WHEEL CLEANER.
Highly effective formula which removes road grime and brake dust on all wheel surfaces. Tough, penetrating, neutralizing agents dissolve and lift the dirt and grime by breaking it down and washing it away. Spray it on and hose it off.
Part No. G9524, 24 oz. trigger spray.

COLOUR RESTORER No. 44.
Quickly removes light to moderate oxidation, stains, and blemishes on all fibreglass and painted surfaces. Revives faded, oxidized surfaces to their original vibrant colour, and is a safe alternative to a rubbing compound.
Part No. M4416, 16 oz. liquid.

HEAVY DUTY OXIDATION REMOVER No. 49.
Removes heavy oxidation, scratches, stains, and tough water spots on all fibreglass and painted surfaces. Restores colour by effectively removing surface degradation, and is a safe alternative to a rubbing compound.
Part No. M4916, 16 oz. liquid.
Part No. M4901, 1 US gallon.

QUIK CLEAN MARINE No. 52.
Quickly and safely removes fresh water spots, mineral deposits, salt spray, boat scum, and other fresh contaminants. Easy spray and wipe maintains your boat's high gloss finish between washings.
Part No. M5216, 16 oz. liquid.

Polish & Protection

BOAT/RV POLISH No. 45.
Creates a brilliant high gloss finish while restoring optimal gloss on fibreglass and painted surfaces after cleaning. Valuable oils to feed and nourish the fibreglass or painted surfaces are restored, and is especially effective on dark colours.
Part No. M4516, 16 oz. liquid.

ONE STEP BOAT/RV CLEANER/WAX No. 50.
A non-abrasive formula that cleans, polishes, and protects all boats and RVs in one easy step by removing light oxidation and haze, minor scratches and swirls. Provides a long-lasting protection against salt air, corrosion, and the sun's ultraviolet rays.
Part No. M5014, 14 oz. paste.
Part No. M5016, 16 oz. liquid.
Part No. M5032, 32 oz. liquid.
Part No. M5001, 1 US gallon.

BOAT/RV PURE WAX No. 56.
Unique, high gloss protection for fibreglass and all painted surfaces by using a combination of a blend of pure Brazilian Carnauba wax with silicones, polymers, and resins to maintain extraordinary gloss and protection while protecting against the sun's ultraviolet rays.
Part No. M5616, 16 oz. liquid.

QUIK SPRAY WAX No. 59.
Provides incredible gloss with light wax protection, quickly and easily and is excellent for maintaining brilliant gloss and protection between periodic waxings. Perfect for use on fibreglass, painted surfaces, painted aluminum, stainless steel, clear plastic and other non-porous surfaces.
Part No. M5916, 16 oz. liquid.

FLAGSHIP PREMIUM MARINE WAX No. 63.
Dramatically deepens the colour and enhances the clarity of gelcoat and polyurethane paints (including clear coats) while removing light oxidation, dullness and swirls while adding polishing oils and reducing UV ray penetration giving a tough, long-lasting polymer protection.
Part No. M6316, 16 oz. liquid.

Meguiar's since 1901

Specialty Products

ALL METAL POLISH
Safe and effective deep cleaning formula with long lasting protection for all marine bright work, including: aluminum, stainless steel, brass, chrome, gold, and other metal surfaces.
Part No. M2805, 5 oz.

BOAT/RV FIBREGLASS OXIDATION REMOVAL KIT
3-step process renews oxidized fibreglass and painted surfaces to a high gloss shine while cleaning the most difficult surfaces then restoring them to a brilliant, durable high gloss. Contains Heavy Duty Oxidation Remover (#49), Boat & RV Polish (#45), Boat & RV Pure Wax (#56).
Part No. M4965, 3-pack kit: each bottle is 16 oz. liquid.

VINYL & RUBBER CLEANER CONDITIONER No. 57.
Deep cleans and revitalizes vinyl and rubber surfaces while restoring colour to a rich natural sheen. Screens out damaging UV rays that can dry out and crack the surface.
Part No. M5716, 16 oz. liquid.
Part No. M5701, 1 US gallon.

NEW BOAT OWNER'S KIT
Complete starter kit for a new boat owner designed to keep the boat looking great every day. Includes #M6316 Flagship Premium Marine Wax, #M5216 Quick Clean Marine, #M5416 Boat/RV Gel Wash, #W0004 Applicator Pad.
Part No. M6365.

MOLD RELEASE WAX
Costly blend of imported waxes specially formulated to provide the maximum number of releases per application and is useful on tooling, new molds, and production use.
Part No. M0811, 11 oz. paste.

RICH LEATHER WIPES
Protects against spills and UV exposure with a combination of the safest and strongest cleaning formula, the most luxurious aloe enriched conditioner and best long-lasting protection formula.
Part No. G10900, 25 wipes per container.

PROTECTANT WIPES
For vinyl and rubber. Wipes revive plastic, vinyl, and rubber trim surfaces with long-lasting water resistant protection, including antioxidants that keep rubber from turning brown.
Part No. G11500, 25 wipes per container.

Accessories

SOFT FOAM BUFFING PADS
Unique fibre-free foam pads that add gloss and depth of colour to fibreglass and painted surfaces.
Part No. W7000, 8" cutting pad for effective cleaning.
Part No. W8000, 8" finishing pad for polishing.
Part No. W9000, 8" finishing pad for polishing and waxing.
Part No. W1000, 8" all purpose buffing pad w/ backing plate attached.
Part No. W5500, 5" all purpose buffing pad.

ULTIMATE WIPE DETAILING CLOTH
Unique cloth eliminates swirl marks producing a clearer, deeper shine.
Part No. M9910.

8" WOOL CUTTING PAD W/ VELCRO BACK
Part No. W4000.

2.5" FOAM APPLICATOR PADS FOR HAND APPLICATION
Part No. W0004, Pack of 4.

8" BACKING PAD FOR VELCRO PADS
Part No. W65.

W9000

W65

W4000

"Gold Class" Premium Car Care Accessories

VERSA-ANGLE WHEEL FACE BRUSH
•Designed to safely wash and clean any wheel surface •Made with super soft bristles to prevent scratching •Added contours for greater surface contact and more efficient cleaning •Ergonomic handle reverses the angle
Part No. X-1020.

EXTRACTOR/HAIR REMOVER
•To quickly and efficiently remove pet hair and lint •Two-sided static electricity producing rubber bristles •Long bristles ideal for carpet and deep pile •Short bristles work great on upholstery
Part No. X-1140.

VERSA-ANGLE ULTRA SAFE WHEEL SPOKE BRUSH
•Designed to safely wash and clean any wheel surface •Ergonomic handle reverses the angle of the brush head to give you the best cleaning angle for the job
Part No. X-1160.

VERSA-ANGLE ADJUSTABLE BODY DUSTER
•Safely removes light surface dust •Interchangeable handles •Paraffin treated dust head traps dust •Accu-Grip handle ensures comfortable and cushioned grip and feel
Part No. X-1180.

"Gold Class" Premium Car Care Accessories

SUPER ABSORBENT WATER MAGNET TOWEL

•Absorbs up to 3 times the water of traditional terry towels •Extra large 22" x 30" towel •Fast, spot-free results •Ultra safe and ultra plush
Part No. X-2000.

SUPREME SHINE MICROFIBRE TOWEL

•For amazing mirror-like shine on all finishes •Dual sided microfibre pile absorbs 3 times more than traditional terry towels •Pre-washed for maximum absorbency •Clear coat safe, satin safety edges
Part No. X-2010, Single pack.
Part No. X-2020, Pack of 3.

ULTRA PLUSH SUPER TERRY TOWEL

•To provide superior absorption for swirl-free surfaces •Spa quality thickness and plushness •Satin safety edging prevents scratching •Pre-washed for instant, lint-free absorbency
Part No. X-2050, Pack of 2.

MICROFIBRE SUPER SUEDE DRYING TOWEL

•Achieves spot-free effortless drying •Easy chamois-like performance •Absorbs buckets of water •Dries soft for instant usability
Part No. X-2070.

SUPER THICK NATURAL CHAMOIS

•Quickly and efficiently dries vehicle surfaces •Unsurpassed thickness and premium tanning process produce maximum absorbency and durability •100% natural sheepskin •2 square feet
Part No. X-2090.

EVEN-COAT APPLICATOR

•Provides unsurpassed application results •Specialized microfibre material produces amazing results when applying wax or protectant •Ideally sized for long term comfort •Wash and dry as you would any towel
Part No. X-3080.

HIGH TECH APPLICATOR PAD

•Provides safe wax application •Tight cell, ultra soft foam for even and safe wax application •Washable and reusable
Part No. X-3070.

Meguiar's since 1901 Canada

MOTHERS®

Part No. 38216, 473 ml spray bottle.

California Gold Clay Bar Paint Saving System Kit
Includes: 80 gram Clay Bar, 473 ml Showtime® Instant Detailer, 4 oz. Original Formula Carnauba Cleaner Wax
Part No. 37240.

California Gold Scratch Remover
Removes surface scratches, improves appearance, works on all colours and is safe for clearcoats
Part No. 08408, 236 ml bottle.

Wheel & Metal Care Products

WHEEL MIST® MULTI-PURPOSE WHEEL CLEANER
Part No. 35922, 650 ml bottle.

CHROME POLISH
Part No. 35208, 236 ml bottle.

MAG & ALUMINUM POLISH
The original "Mag Wheel" polish. Cleans, polishes, and protects. The secret formula is world renowned for providing the easiest deepest shine for aluminum wheels, manifolds, valve covers, brass trim, all alloy parts, and accessories. Strong enough to clean the most neglected metals yet gentle enough to use every day.
Part No. 35100, 141 gram can.
Part No. 05101, 283 gram can.
Part No. 05102, 1 gallon can.

BILLET METAL POLISH
Billet Metal Polish takes the world famous Mothers metal polish technology to a whole new level. State of the art cleaners and cutting edge formulation give your billet, forged and finely cast aluminum, brass and other polishable metals the absolute finest finish available — guaranteed. If you've spent big bucks on quality metal accessories, step up to a polish worthy of your investment.
Part No. 05106, 4 oz. can.

MOTHERS® POWERBALL™
The patent-pending PowerBall is the first foam polishing tool designed to revitalize billet, diamond plate, polished aluminum, stainless steel, plastic lenses, convertible top windows and much more. When used with Mothers® PowerMetal™ polish, the PowerBall is ideal for use on any uncoated, polishable metal finish. Its unique and durable construction compresses to fit tight spaces, so polishing difficult, intricate metalwork to a mirror-like finish is fast and easy.
Part No. 05140.

MOTHERS® POWERBALL MINI™
Takes your intricate, hard to reach, tedious polishing jobs and makes them easy. It retains the PowerBall's signature speed, ruggedness, and versatility, while adding reach and pinpoint accuracy for those knuckle-busting jobs. It's perfect for polishing wheels, diamond plate, taillight lenses, engine components, and much more. With 10" extension.
Part No. 05141.

Interior Solutions & Special Care

BACK-TO-BLACK® EXTERIOR BUMPER AND TRIM CARE
Part No. 36108, 237 ml bottle.

PLASTIC POLISH FOR ALL PLASTIC AND ACRYLICS
Part No. 06208, 237 ml bottle.

LEATHER CLEANER
Part No. 36412, 355 ml spray bottle.

LEATHER CONDITIONER
Part No. 36312, 355 ml bottle.

CARPET & UPHOLSTERY CLEANER
Part No. 05424, 710 ml spray bottle.

PRESERVES! PROTECTANT
Beautifies and protects
Part No. 35316, 473 ml spray bottle.
Part No. 35302, 3.79 litre bottle.

MOTHERS® Polishes•Waxes•Cleaners INCORPORATED

Multi-Surface Protectants

ARMOR ALL PROTECTANT
Is unique. It renews, revitalizes and protects rubber, vinyl, plastic, leather, and wood by combining with their fibres to form a thin, tough layer that blocks the cracking and rotting effect of oxygen. Surfaces treated with Armor All Protectant shed water, dirt, and static electricity. Armor All Protectant is non-toxic, odourless, non-flammable, and safe for most materials. Best ever UV protection.
Part No. 10125, 118 ml plunger spray bottle
Part No. 11300, 300 ml plunger spray bottle
Part No. 78021, 473 ml trigger spray bottle
Part No. 78024, 946 ml trigger spray bottle
Part No. 12035, 1.89 litre refill bottle
Part No. 16000, Spongepack

ARMOR ALL ULTRASHINE PROTECTANT
Higher shine for dashboard, tires and trim. Long lasting shine and protection. Protects against discoloration and cracking. Keeps your car looking like new.
Part No. 32062, 475 ml trigger spray bottle

Cleaners

ARMOR ALL OXI MAGIC CARPET AND UPHOLSTERY CLEANER
Breaks down tough stains with the power of activated oxygen. Less scrubbing. Let the oxygen bubbles do the work! Works like magic on: coffee, juice, soft drink, tea, mud, dirt, grass, and motor oil. Can be used to clean: carpet, upholstery, floor mats, vinyl, and door panels.
Part No. 10926, 650 ml trigger spray bottle

ARMOR ALL MULTI-PURPOSE CLEANER
Great for cleaning almost anything. Specially formulated to remove tough ground-in dirt, grease, tar, and more without drying out or fading even delicate surfaces. For automobiles, home, or shop use.
Part No. 78172, 600 ml trigger spray bottle

ARMOR ALL AUTO GLASS CLEANER
Specially designed to safely remove tough road grime, bugs, dirt, and oily film from all automotive glass — even tinted windows. Streak free.
Part No. 32061, 650 ml trigger spray bottle

Multi-Purpose Wipes

ARMOR ALL PROTECTANT WIPES
Protects and shines. One step protection. Great for touch ups. Guards against UV damage. Keeps your car looking like new.
Part No. 10859, 25 wipes in pop up container

ULTRA SHINE WIPES
Higher shine for dashboard, tires and trim. Long lasting shine and protection. Protects against discoloration and cracking. Keeps your car looking like new.
Part No. 32063, 20 wipes in pop up container

ARMOR ALL CLEANING WIPES
One step cleaning. Cleans dash, vinyl and fabric. Helps keep your car looking like new. Great for dust.
Part No. 10869, 25 wipes in pop up container

ARMOR ALL ORANGE CLEANING WIPES
Specially formulated with natural orange degreasers. Powers out tough dirt. Safe for all auto surfaces. Lint free.
Part No. 10925, 25 wipes in pop up container

ARMOR ALL LEATHER WIPES
One step - cleans and protects. Protects against spills and stains. Safely cleans dirt and soil. Specially designed for leather. Keeps your leather looking like new.
Part No. 10856, 20 wipes in pop up container

ARMOR ALL GLASS WIPES
Removes film and grime on glass. One step glass cleaning. Safe for factory tinted windows. Helps keep your windows looking like new. Great for fingerprints.
Part No. 10850, 25 wipes in pop up container

Tires & Rims

ARMOR ALL TIRE FOAM PROTECTANT
A great new way to clean tires! No wiping...no rags...no mess...just walk away! The foaming action lifts dirt right out of the tire's sidewall, giving even coverage with a deep, lustrous shine. This product won't damage wheels or paint and it's ozone friendly (no CFCs).
Part No. 78173, 567 gram aerosol

ARMOR ALL RIM CLEANER
Removes tough road dirt and brake dust from all types of wheels. Spray on, let sit for 60 seconds, then hose off.
Part No. 40340, 710 ml trigger spray bottle

Wash

ARMOR ALL LIQUID CONCENTRATE CAR WASH
Safely tackles tough dirt, grime, and road film without stripping your wax like household cleaners. Its rich, deep-foaming formula sheets away water and fights water spots, leaving a water beading just-waxed shine. Cold water formula.
Part No. 25101, 715 ml bottle
Part No. 25102, 1.89 litre jug

NO TOUCH®
Tire, Wheel & Glass Care Products

HIGH SHINE® TIRE CARE
60% more shine ingredients than Original Tire Care. It cleans, shines and protects tires better than anything on the market today. Provides maximum U.V. protection leaving a high gloss shine.
Part No. NTHS21, 600 gram aerosol

ORIGINAL TIRE CARE
The original patented formula established the one-step tire care category. No Touch Tire Care leaves a rich, satin finish and a protective barrier that helps repel dirt, dust and moisture.
Part No. NT21, 600 gram aerosol

WET 'N' PROTECT® TIRE FINISH
This clear liquid easily sprays on clean tires for an ultra WET high-gloss finish. Protects against ozone damage.
Part No. WP15, 425 gram aerosol
Part No. WPTS, 651 ml bottle

NO TOUCH® SERIOUSLY WET™ EXTREME TIRE SHINE
Sprays on wetter for an exceptionally long-lasting ultra high gloss shine. With an advanced 3 way spray, select a low, medium or high spray pattern to fit any profile of tire. No Touch Seriously Wet utilizes 100% active shine ingredients and protects tires from UV and ozone damage. No petroleum distillates.
Part No. NTSW, 425 gram aerosol.

ALL WHEEL CARE®
Cleans, shines and protects wheels. This advanced formula loosens road grime and brake dust for easy removal, leaves a shine and a protective barrier. Contains no acids.
Part No. AWC20, 567 gram foaming aerosol

GLASS AND SURFACE CLEANER
This extra-strength clear liquid automotive formula safely cleans glass and hard surfaces like bumpers and chrome.
Part No. GSC20, 600 ml spray bottle

INSTANT RAIN SHIELD™ WINDSHIELD COATING
Forms an instant coating on windshield to repel rain, sleet and snow. Spray on in rainy conditions with no wiping necessary. Great for highway driving.
Part No. RS6, 170 gram aerosol

AUTO GLASS STRIPPER®
Heavy duty cleaner specially formulated for auto windshields. Removes silicone build-up, hard water stains, mud, oil and tar that other cleaners can't.
Part No. GS8, 240 ml bottle

INTERIOR SHINE 'N PROTECT™
Quickly and easily restores rich lustre to faded vinyl, plastic and rubber surfaces. Distributes a rich, even shine on surfaces without the need for wiping and buffing. Long lasting shine and UV protection. For rubber, plastic, and vinyl surfaces.
Part No. NTIS11, 312 gram aerosol

RAIN-X®
Hi-Tech Products

RAIN-X® DE-ICER PREMIUM WASHER FLUID
Removes light ice and frost. Will not ice up your windshield. Provides freeze protection down to -40°C.
Part No. QSRX68606CN, 4 litre bottle.

RAIN-X® GLASS TREATMENT
An ultra-thin, absolutely invisible non-stick coating that can be easily and quickly applied to windshields, windows, mirrors, and lights — just like a plasti — to make them remarkably water, soil, and stain repellent.
Part No. BCRX11168CN, 22 ml ready-to-use towelette.
Part No. BCRX11212CN, 200 ml bottle.

RAIN-X® ANTI-FOG
A 100% solvent-solubalized surface active micro-polymer that absorbs surface moisture — on contact — to let you see clearly through glass and plastic transparencies and mirrors.
Part No. BCAF21212CN, 200 ml bottle.

NEVR-DULL
JJJ/1470

Wadding Polish

NEVR-DULL
The original wadding polish. Cleans all metals with nothing to shake up, nothing to spill! Great on brass, copper, steel, aluminum, chromium, nickel, pewter, zinc, silver and gold. Removes rust, tar and grime off the chrome on your vehicle. 142 gram tin.
Part No. ND12.

MAGIC MIX®
LLL/2933

Metal Polish / Metal Cleaner

Magic Mix® Metal Polish "The Lazy Man's Polish" This fantastic product will cut your polishing time by 80%. Its application is easy-on, easy-off — guaranteed! You can use it on all metals and oxidized paint. Shines and protects aluminum, chrome, stainless steel, diamond plate, brass, gold, silver, magnesium, and copper. It removes oxidation, tar, and bugs from paint — and will even remove rust from chrome.

Magic Mix® Metal Cleaner is a great surface prep/cleaner. It will remove stains and oxidation from all the metals Magic Mix® Metal Polish will polish.
Part No. 710XX611, 237 ml bottle Magic Mix® Metal Polish
Part No. 710XX640, 473 ml bottle Magic Mix® Metal Polish
Part No. 710XX648, 237 ml bottle Magic Mix® Metal Cleaner

The Original MAGIC MIX®
QUALITY POLISHES AND WAXES

JEWELER'S ROUGE
LLL/1739

Aluminum, Stainless Steel, & Chrome Polishes

•Jeweler's Rouge puts a jewel of a shine on trucks - To begin the simple two-step process, use Tripoli rouge with the applicable buff; then follow with either green, white, or blue rouge (depending on the type of finish you desire).

BUFFS
For polishers up to 3600 rpm, use an Airway Buff.
For polishers over 3600 rpm, use the Sewn Muslin Buff.
•White buffs give a higher finish/polish.
•Yellow buffs should be used on Step 1 procedures.
•4" flanges are also available when using buffs with power polishers
Part No. BUFF-YA, 8" yellow airway buff.
Part No. BUFF-WA, 8" white airway buff.
Part No. BUFF-YM, 8" yellow sewn muslin buff.
Part No. BUFF-WM, 8" white sewn muslin buff.
Part No. FLANGE, Pair of 4" steel flanges.

ROUGE
Tripoli (reddish brown). Fast cutting and easily cleaned up. For use as first steps on aluminum and stainless steel.
Green gives a slightly bluish finish on aluminum, stainless steel and chrome.
White for a high, mirror finish on aluminum, stainless steel, and chrome.
Blue Lightning for show pieces — high mirror finish.
Part No. BAR-TRIPOLI, 2 lb. Step 1 pre-polish bar.
Part No. BAR-GREEN, 2 lb. Step 2 polish bar.
Part No. BAR-WHITE, 2 lb. Step 2 polish bar.
Part No. BAR-BLUE, 2 lb. Step 2 polish bar.

Muslin
Airway

BASE COAT/CLEAR COAT™ EXTRA (BEST "GOLD")

Premium tack free lightweight auto body filler. •New "Smooth as Glass" self-levelling formula, no bleach, no bleed, no stain •Extra adhesion to "galvanized, Zinc-treated, E-coat" and aluminum surfaces •Pinhole, sag and shrink resistant, all weather formula •With raspberry cream hardener

Part No. 16060, 1 gallon.
Part No. 16063, 3 gallon, air.
Part No. 16066, 3 gallon, mechanical.
Part No. 16065, 5 gallon, air.
Part No. 16067, 5 gallon, mechanical.

FEATHER-RITE®

"White" tack free, fast sanding lightweight auto body filler. •Will not load-up sandpaper and files, saves money •The most popular white filler •Formulated with special polyester resin and microscopic glass beads for superior results •Superb spreadability and workability, smooth and creamy •Excellent feather-edging properties, no sag formula •With red cream hardener

Part No. 21335, 1 quart.
Part No. 21330, 1 gallon.
Part No. 21360, 2 gallon.
Part No. 21334, 3 gallon, mechanical.
Part No. 21350, 5 gallon, air.
Part No. 21351, 5 gallon, mechanical.

KROMATE® LIGHT

"Gold" tack free lightweight auto body filler. Now vacuum processed for easier sanding. •Reduces time and cost of sanding and filing, with minimal airborne dust •Smooth and creamy formulation offers extended workability •Virtually eliminates pinholes, provides superior feather-edge •Non-separating, non-shrinking formula for uniform consistency throughout •With red cream hardener

Part No. 12060, 1 quart.
Part No. 12050, 1 gallon.
Part No. 12073, 3 gallon, air.
Part No. 12080, 5 gallon, air.

ICING®

Pourable, brushable polyester finishing putty. •Ultra smooth, incredibly easy to sand •Tack free, sand in 15 - 20 minutes •Helps prevent bleedthrough when used with Base Coat/Clear Coat™ body filler •Pinhole resistant, no shrinkage •Great feather-edging •Adheres to galvanized surfaces •With raspberry cream hardener

Part No. 26006, 24 fl. oz. soft squeeze tube.
Part No. 26004, 30 fl. oz. can.

HALF TIME™

One-step filler and glazing putty. •Applies like a premium body filler and finishes like the best glazing putty you've ever used! •Builds to 1/8" •Extremely easy to sand •Guaranteed to cut repair time, fills and glazes in one easy step •Stain-free, no-bleed formula •Tack free, sand in 15 - 20 minutes •Adheres to galvanized surfaces •With raspberry cream hardener

Part No. 21002, 24 fl. oz. soft squeeze tube.
Part No. 21000, 1/2 gallon can.

RED GLAZING PUTTY

Extremely fine texture fills pinholes, scratches, and dimples on bare metal and hardened plastic fillers •Best under lacquer, acrylic, and synthetic finishes •One component air dry system needs no hardener or mixing

Part No. 32035, 1 lb. tube.

DURAGLAS®

The #1 fibreglass filled body filler. •The original, premium all-purpose reinforced body filler •Repairs rusted-out areas, holes, tears and cracks on metal, wood, and fibreglass •Combines resin and chopped fibreglass, giving Duraglas superior strength over ordinary plastic fillers •Can also be used with fibreglass cloth to cover large holes in a fraction of the time it takes to weld in a patch •Rustproof and waterproof •With white cream hardener

Part No. 24035, Squat quart can.
Part No. 24030, 1 gallon.

LONG 'N STRONG™

Super strength "long-strand" reinforcing compound. •The preferred filler to use when repairing large rusted-out metal areas and cracked or shattered fibreglass to its original strength •Contains extra long strands of chopped fibreglass that provide extra strong bonding power •No-sag formula lets you use Long'n Strong in cracks, holes, edges behind panels or any other difficult area that needs strong reinforcing •Rustproof and waterproof •With blue cream hardener

Part No. 23020, 1 quart.
Part No. 23010, 1 gallon.

ALL-METAL®, "THE ORIGINAL"

Premium aluminum filled repair compound for the true craftsman. •The world's first aluminum filled repair compound •Preferred product for restoration work and classic car repairs •Excellent adhesion to metals or wood, can be drilled and tapped •Prevents bleed-through and bleaching •Ideal for metal levelling and mending, rust repair, use over spot welds and as a finish or barrier coat over all types of fillers •Rustproof and waterproof •Requires minimal shaping or grinding, has the look and feel of lead •Includes all-metal liquid reactor

Part No. 14060, 1 quart.
Part No. 14010, 1 gallon.

ALL-METAL® REACTOR

Specially formulated for use with All-Metal®. Unique orange formula.

Part No. 30045, 1/2 oz.
Part No. 30040, 2 oz.

FIBREGLASS RESIN

Improved formula for better wetting and more flexibility •Use with fibreglass mat or cloth to repair rust-outs, holes, tears, and cracks •Ideal for custom molding •Faster cure time; includes USC's fast-acting liquid hardener

Part No. 58015, 1 quart.
Part No. 58020, 1 gallon.

LIQUID HARDENER

Fast acting for a permanent bond in minutes •For the strongest bond possible, use with Fibreglass Resin sold above

Part No. 30015, 2 oz.

Autobody Products

CREAM HARDENERS
Precise factory formula for the strongest bond possible •For best results use with USC plastic fillers

FIBREGLASS MAT
Ideal for repairing/restyling fibreglass panels on cars, trucks and boats •Flexible enough to repair contoured surfaces •Marine grade for superior waterproof repairs
Part No. 58075, 8 sq. ft.
Part No. 58045, 32 sq. ft.

FIBREGLASS CLOTH
Superb for contoured surfaces where thickness isn't needed •Bonds to most rigid surfaces •Marine grade for superior waterproof repairs
Part No. 58065, 8 sq. ft.

MAGIC MASK™
Professional overspray masking liquid. •Sprays on easily — no special equipment needed •Sets to a dry, no-tack film •Water based, VOC free formula •One application for multiple bake cycles •Includes exclusive anti-corrosion additive •Biodegradable; rinse off with water
Part No. 36135, 1 gallon.
Part No. 36136, 5 gallon.
Part No. 36137, 15 gallon.
Part No. 36138, 55 gallon.

HANDY MASK™
Hand masking tape and paper dispenser. •Replaces 2" tape to mask headlights, bumpers, door jambs, quickly and easily •Can be used in conjunction with Magic Mask™ system
Part No. 38081, Dispenser w/ roll (7" x 65 ft.)
Part No. 38082, Refill roll (7" x 65 ft.)

PAINT BOOTH COATING
Clear, easily washes off with water •Contains no VOC; biodegradable •Maximum reflection; long term protection •No special equipment needed
Part No. 36155, 5 gallon

MAGNUM BLUE™ & IDEAL™ TACK CLOTHS
Ultra-soft texture collects dust, dirt, and lint like a magnet •Safe to use on metal, fibreglass, wood, and plastic surfaces •Wax and silicone free formula gets surfaces surgically clean •Anti-static and non-abrasive •Each tack cloth is 18" x 36" •Magnum Blue™ developed for urethanes and base coat/clear coats
Part No. 60075, Magnum blue shop-pak.
Part No. 60044, Ideal (tan) shop-pak.

UNDERCOATINGS (AEROSOL)
Superior protection against rust, corrosion, moisture, and abrasion •Professionally formulated to be tough, durable, and long-lasting •Quickly dries to a flexible, textured surface •Reduces road noises and vibrations •Premium solvent-based pro formula
Part No. 51333, 17.75 oz. rubberized spray.
Part No. 51030, 17.75 oz. rubber paintable spray/chip guard.

AIRCRAFT PAINT STRIPPER
A new Methylene Chloride-free formula. Aggressive and strong, this new formula still delivers fast effective paint stripping capabilities you have come to expect but without the potential health risks of Methylene Chloride. Fast, aggressive formula to remove tough urethane or baked enamel coatings •Works effectively on most automotive, commercial and industrial finishes •Safe for use on all types of metals •Non-corrosive under normal exposure times
Part No. 495-1, 1 gallon.

SLIP-N-GRIP® SEAT COVERS
Patented. •Stays in place during servicing •Protects against dirt, grease, etc. •33" x 54"
Part No. 70509, Case of 125.

SHARK SKIN™ "PAINT ADHERENCE" PREMIUM PLASTIC SHEETING
Increases masking efficiency and reduces cost •Tremendous paint anchorage •Super cling sheeting •Solvent resistant •Protection for indoor storage of molds, plugs and finished parts. 14' x 350' roll.
Part No. 36114.

PLASTIC SHEETING
Anti-static treated, high strength polyethylene plastic. 12 ft. width comes folded in an easy to handle 3 foot wide roll. Cut to fit, quality masking material.
Part No. 36123, 12 ft. x 400 ft. (w/ 3" core).

PAINTER'S PAIL™

With new Ratio Measurement for easy mixing and measuring. Tough high density polyethylene. More durable than bleached paper pots. Sturdy side walls with visible liquid level (readable from inside or outside). Solvent resistant, seamless construction. U.S. and Metric measure.
Part No. 36170, 1 pint Painter's Pail™
Part No. 36174, 1 quart Painter's Pail™
Part No. 36176, 2-1/2 quart Painter's Pail™
Part No. 36178, 5 quart Painter's Pail™
Part No. 36171, Lid for 1 pint pail
Part No. 36175, Lid for 1 quart pail
Part No. 36177, Lid for 2-1/2 quart pail
Part No. 36179, Lid for 5 quart pail

SOUND CONTROL PADS

Reduces noise and vibration — ideal for car audio •Flexible — easy to cut and contour •Hi-tack permanent acrylic adhesive back
Part No. 36161, Box of 7 mats, .070 x 12" x 12"
Part No. 36160, Sheet, .070 x 32" x 58"

PLASTIC SPREADERS

Extra flexible yellow spreaders have a sharp tapered edge •Extra sturdy for tough filling jobs
Part No. 36039, Pack of 3 spreaders, 4", 5", 6"
Part No. 36044, 4" spreader
Part No. 36052, 5" spreader
Part No. 36062, 6" spreader

MIXING BOARD

Plastic mixing board, 12" x 12". Special non-stick, non-absorbent plastic surface •Just flex to clean
Part No. 37005.

Part No. PM24, 24" x 300 metre roll
Part No. PM36, 36" x 300 metre roll

Scotch-Brite™ Three Pad Scuffing System

SCOTCH-BRITE PRIMER PREP SCUFF - MAROON
360-400 approximate scratch equivalent. Application: •Scuffing of new parts, door jambs and under hood areas •Scuffing prior to primer and paint for proper mechanical adhesion •Tire clean-up •Cleaning grease, oil and rust from engine parts. 4-3/4" x 6" perforated pad, 30 pads/15 ft. roll.
Part No. 07747.

SCOTCH-BRITE COLOUR PREP SCUFF - GREY
800-1000 approximate scratch equivalent. Application: •Ideal for preparing colour blend areas •Can be used with 3M Prep and Blend Liquid •Light scuffing of primer and paint. 4-3/4" x 6" perforated pad, 30 pads/15 ft. roll.
Part No. 07748.

SCOTCH-BRITE CLEAR BLEND PREP SCUFF - GOLD
1200-finer approximate scratch equivalent. Application: •Scuffing prior to clear coat blending •Can be used with 3M Prep and Blend Liquid •General light duty clean-up •Light scouring •Fine polishing of metal surfaces. 4-3/4" x 6" perforated pad, 30 pads/15 ft. roll.
Part No. 07745.

Body Repair Products

PREMIUM LIGHTWEIGHT BODY FILLER
Tack free and stain resistant. For base coat/clear coat refinishing systems. Ultra creamy. Cures tack-free in 15 - 20 minutes — reduces sandpaper loading. Minimizes staining that can occur with base coat/clear coat systems over body filler.
Part No. 05808, gallon can.

PREMIUM BODY FILLER GOLD QBA
Quick Build Adhesion — tack free and stain resistant. For filling low areas in damaged automotive sheet metal. Contains zinc complex. For base coat/clear coat refinishing systems. Cures tack free in 15 - 20 minutes. Minimizes staining that can occur with base coat/clear coat systems over body and filler. Excellent adhesion to galvanized, SMC, and aluminum. Distinctive gold colour.
Part No. 05835, gallon can.

FLOWABLE FINISHING PUTTY
Tack-free and stain resistant. Two component, self-levelling putty designed for use as a "skin" coat over plastic filler to fill pinholes, sand scratches, low areas or other imperfections. For metal and fibreglass, cures tack-free in 30 minutes. Flowable and brushable. Minimizes staining that can occur with base coat/clear coat systems over body filler.
Part No. 05824, 710 ml can.

ACRYL-RED GLAZING PUTTY
Good general purpose putty. Fills small pinholes and scratches. Fills larger areas of imperfections.
Part No. 05966, 21 oz. tube.

Sealer Products

FLEXICLEAR™ BODY SEAM SEALER
High solids clear joint and seam sealer designed to seal interior and exterior joints and seams. Adheres well to clean, bare metal, primed metal and painted surfaces. Non-yellowing. Excellent tooling properties, remains flexible. Can be painted within 60 minutes.
Part No. 08405, 295 ml cartridge.

ALL-AROUND AUTOBODY SEALANT - WHITE
Used for sealing interior and exterior autobody joints and seams. Applies easily, can be smoothed to a feather edge with a wet finger and sets to a firm, tough, rubber-like water resistant bead. Water clean-up (before it dries); will not harm paint; can be painted within 30 minutes.
Part No. 08500, 300 ml cartridge.

AUTO BEDDING & GLAZING COMPOUND - BLACK
Non-hardening, pliable, water resistant, medium bodied sealer for sealing auto seams and between windshield rubber and car body. Can be used as a supplementary sealer for auto glass installation. Remains permanently soft, has non-sag consistency for vertical and overhead applications.
Part No. 08509, 300 ml cartridge.

HEAVY DRIP-CHEK™ SEALER - GREY
Heavy based sealer especially designed for use on vertical seams. Up to 1/8" bead can be applied easily. Weathers well — does not crack or deteriorate in sunlight. Excellent adhesion to metal, paint, glass, rubber, etc. Resists gas and oil, can be painted within 60 minutes.
Part No. 08531, 147 ml tube.

CLEAR AUTO SEALER
Used for sealing leaks in windshields, back lights, reveal moldings, truck ornaments, tail-lights and other small seams on the auto body. Flexible and colour stable. May be water tested soon after application. Will not harden or become brittle. Dries to smooth, bubble-free film and can be painted within 60 minutes.
Part No. 08551, 147 ml tube.

STRIP-CALK - BLACK
Soft, non-hardening caulking material in one-foot lengths for use in all types of seams, joints, and openings. Has non-sag consistency for vertical and overhead applications. No shrinkage. Adheres to metal, paint, glass, and rubber. Completely waterproof, will not crack or dry out and can be painted immediately.
Part No. 08578, Box of 60 one-foot lengths.

BRUSHABLE SEAM SEALER - GREY
Specially developed to seal sheet metal overlap joints that have been spot welded, riveted or bolted together. Dries quickly without sag or flow to restore factory appearance. Adheres well to bare or painted metal, remains flexible and resists oil, fuel, etc. Use for sealing floor pans, firewalls, trunk seams, etc. Can be painted within 60 minutes.
Part No. 08656, 946 ml can.

3M

Coating Products

WELD-THRU COATING - SILVER
An aerosol coating designed to be applied to metal surfaces prior to welding which permits corrosion protection after the weld. Dries in 10 - 15 minutes. Minimizes MIG weld spatter. Can be applied after the weld for additional corrosion protection.
Part No. 05917, 361 gram aerosol.

UNDERCOATING - BLACK
A multi-purpose, non-paintable aerosol coating for undercarriages, wheel wells, frame rails, and fenders. Protects metal from corrosion and abrasion. Can also be used as a sound-dampening coating in door skins.
Part No. 08881, 454 gram aerosol.

UNDERSEAL™ RUBBERIZED UNDERCOATING - BLACK
Rapid drying, rubberized undercoating in an aerosol. Use for rustproofing and sound deadening. For fenders, quarter panels, door panels, repaired sections, etc. Maintains proper spray pattern while applying and won't plug the spray nozzle.
Part No. 08883, 560 gram aerosol.

ROCKER AEROSOL - GREY
Exhibits an orange peel to smooth texture. Fast-drying, paintable, chip resistant coating that resists weathering, salt spray, and abrasion. Excellent adhesion to unprimed metal. Paintable within 60 minutes.
Part No. 08889, 650 gram aerosol.

ROCKER PANEL COATING - BEIGE
A fast drying, paintable, chip resistant coating that resists weathering, salt spray, and abrasion. Exhibits a medium to fine texture. Excellent adhesion to unprimed metal. Paintable within 60 minutes. Apply with applicator gun #08997.
Part No. 08888, 850 ml.

NO CLEANUP ROCKER GARD™ COATING - BEIGE
Can be used wherever stone chip protection is needed. Exhibits a medium to fine texture. Has tack-free time of ten minutes. Paintable within 60 minutes. Use with applicator gun #08801.
Part No. 08949, 650 ml can.

NO CLEANUP ULTRA GARD™ COATING - BLACK
A versatile product that is recommended for use on trunk areas, rocker panels, valances, undercarriages, and wheel wells. Exhibits a medium to fine texture. Salt, weather, and abrasion resistant. Paintable in 60 minutes. Use with applicator gun #08801.
Part No. 08950, 650 ml can.

NO CLEANUP HIGH COVERAGE BODY SCHUTZ - BLACK
Exhibits greater coverage, better environmental protection and is more durable than other similar coatings. One can covers up to 43% more than conventional offerings. Its no clean-up applicator system provides the added benefits of no mess, no clogged guns, and absolutely no clean-up. It's ready to use every time you are. Paintable within 60 minutes. Use with applicator gun #08801.
Part No. 08964, 662 ml.

HIGH SOLIDS BODY SCHUTZ - BLACK
High solids formula for up to 20% more coverage. A heavy textured product recommended for use on trunk areas, frame rails, undercarriage and wheel wells. Adjustable gun tip offers varying textures and appearance. Paintable within 3 hours. Use with applicator gun #08998.
Part No. 88640, 1 litre can.

ULTRA SCHUTZ - BLACK
Versatile, protective coating developed primarily for use as a sound deadener, rocker panel coating and underseal. Exhibits a medium to fine texture. Excellent adhesion to a variety of surfaces. High resistance to salt spray abrasion and wear. Paintable within 60 minutes. Apply with applicator gun #08997.
Part No. 88645, 850 ml can.

Adhesive Products

SUPER WEATHERSTRIP ADHESIVE
Bonds all types of gaskets to painted or unpainted metal surfaces. Stays permanently flexible and rubbery, never dries out or becomes hard. Easy to brush and spread, extremely fast drying, and waterproof. Resists oil, grease, and solvents.
Part No. 80010, 150 ml tube, yellow.
Part No. 08008, 150 ml tube, black.

WEATHERSTRIP ADHESIVE - BLACK
Fast-drying black adhesive used for bonding and sealing weatherstripping. Also an excellent adhesive for new EPDM weatherstripping. Easy to apply, flexible, and waterproof.
Part No. 80119, 150 ml tube, black.

SPRAY TRIM ADHESIVE - CLEAR
An adhesive for attaching lightweight trim materials (upholstery cloth, trunk liners) to metal and other surfaces. Ideal for position bonding applications where mechanical fasteners will be used. May be used to bond styrofoam.
Part No. 80747, 482 gram aerosol.

PRESS IN PLACE EMBLEM ADHESIVE
Transfer adhesive allowing emblems with existing foam tape to be reattached. No "stringing". No trimming needed. Press emblem onto adhesive, place emblem on vehicle.
Part No. 08069, (10) 2" x 12" pieces/pack.

SUPER TRIM ADHESIVE - YELLOW
A contact adhesive designed for bonding vinyl tops, heavyweight headliners and hood silencer pads where high strength and heat resistance are needed.
Part No. 08090, 510 gram aerosol.

STRUCTURAL ADHESIVE KIT
Two-part general purpose grey structural adhesive that may be used for bonding metal, glass, and plastic. May be used for trim, fibreglass and flexible body parts repair. Easy mixing, spreads smoothly, sets up quickly. Cures to an extremely strong bond.
Part No. 08101, (2) 59 ml/kit.

AUTOMIX™ PANEL BONDING ADHESIVE
Superior two-part epoxy adhesive that may be used to bond either steel or aluminum body panels. Long work time. Cures on demand with the addition of heat. Primary use is to replace quarter panels, roofs, box sides, van sides, and door skins. Eliminates corrosion normally caused by welding. Not for use on structural components. Work time: 90 minutes; handling time: 4 hours; cure time: 24 hours (handling and cure time can be accelerated by heat).
Part No. 08115, 200 ml cartridge.

SUPER FAST URETHANE - BLACK
Rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back light replacements. Black and odourless. Easy to apply, cures quickly, provides the necessary strength for automotive glass replacement.
Part No. 08609, 310 ml cartridge.

3M

Adhesive Removal Products

WOODGRAIN & STRIPE REMOVER
For removing woodgrain vinyl and vinyl stripes from acrylic enamel surfaces. Jelly-like consistency keeps remover in place on vertical surfaces to promote fast action when sprayed from the aerosol can. For removal of adhesive residue, follow up with #08908.
Part No. 08907, 510 gram aerosol.

WOODGRAIN & STRIPE ADHESIVE REMOVER
Cleans off adhesive residue after woodgrain vinyl or vinyl stripes have been removed. Fast acting remover can be used on all acrylic enamel painted metal surfaces. Jelly-like consistency keeps remover in place on vertical surfaces to promote fast action when sprayed from an aerosol can.
Part No. 08908, 510 gram aerosol.

AUTOMIX™ SUPER FAST CLEANER
A fast, high strength solvent that quickly removes adhesives, bugs, grease/oils, overspray, silicones, waxes, and tars.
Part No. 08215, 946 ml.

GENERAL PURPOSE ADHESIVE CLEANER
Specially blended solvent provides easy clean-up of most types of adhesives. Quickly removes waxes, road tars, grease, oil, and similar materials. Will not harm most thoroughly cured automotive paint, vinyl, or fabrics when properly used.
Part No. 08984, 1 litre.
Part No. 08985, 4 litre.

SCOTCH-BRITE™ MOLDING ADHESIVE & STRIPE REMOVAL DISC
Use to remove vinyl decals, graphics, and striping tapes. Will not scratch or damage acrylic enamel or urethane paint. Long lasting, unique construction provides optimum disc life. No sharp edges to cause damage to surfaces. Not recommended for use on acrylic lacquer paints. 4" discs should be used at 4000 RPM; 6" discs at 2800 RPM.
Part No. 07501, 4" dia. x 3/8".
Part No. 07502, 6" dia. x 3/8".

STRIPE OFF WHEEL
Used to remove vinyl decals, striping tapes, and double sided foam attachment tapes. Will not scratch or damage acrylic enamel or urethane. Not for use on lacquer coatings. Designed to be used with common 3/8" pneumatic and electrical tools with a 500-4000 rpm speed range. Optimum performance achieved around 2000 +/- 200 rpm. Includes attachment hardware.
Part No. 07498, Stripe Off Wheel.

Masking Products

OVERSPRAY MASKING LIQUID II
Water based masking liquid dries to a firm coating with a slight tack. Protects against paint and primer overspray. Recommended as the most cost effective method of liquid masking.
Part No. 06828, 20 litre.
Part No. 06830, 57 litre.

Paint Finishing Products

SUPER DUTY RUBBING COMPOUND
Aggressive compound remains wet on the job with little or no mess. Maintains high rate of cut with constant pressure. Buffs to high gloss with minimum of swirl marks. Use by hand or machine.
Part No. 05954, 946 ml.

PERFECT-IT™ II RUBBING COMPOUND
Specially designed medium-cutting compound for removing grade 1200, 1500, and 2000 colour-sanding scratches in automotive paints including clear coats. Unique formulation produces minimal compound swirl marks while buffing to a high gloss.
Part No. 05973, 946 ml liquid.

PERFECT-IT™ FOAM POLISHING PAD GLAZE
Uniquely formulated to remove compound swirl marks. Leaves a wheel mark free finish when applied with 3M polishing pads. Compatible with all types of paint; glazes contain no wax or silicones. Both glazes are clear coat safe. Identical performance characteristics. #05996 provides easier detailing and clean-up on dark coloured paints.
Part No. 05995, 946 ml for light paints.
Part No. 05996, 946 ml for dark paints.

FINESSE-IT™ II FINISHING MATERIAL
Designed for use on O.E.M. and fully cured automotive paints. Can remove sand scratches; removes swirl marks after compounding, while leaving a glazed finish.
Part No. 05928, 946 ml.

Polishing Pads

PERFECT-IT™ FOAM 3" POLISHING PAD
Convoluted foam face for cool and swirl free polishing. Easy on and easy off Hookit™ attachment. Ideal size for getting into hard to reach areas. To be used with Hookit disc pad #05769 and Roloc buffing back-up pad #14736.
Part No. 05726.

FINESSE-IT™ KNIT 3" BUFFING PAD
Hook-and-loop attachment. For compounding and polishing in hard to access areas. Use with Hookit™ disc pad #05769 or #14736.
Part No. 85078.

PERFECT-IT™ FOAM 8" COMPOUNDING PAD
Utilizes a 3M patented convoluted foam face. Easily attaches to Hookit™ back-up pad #05717.
Part No. 05723.

PERFECT-IT™ FOAM 8" POLISHING PAD
Utilizes a 3M patented convoluted foam face. Produces a wheel mark free automotive paint surface when used in conjunction with Perfect-it™ foam polishing pad glazes. Attaches to Hookit back-up pad #05717.
Part No. 05725.

SUPERBUFF™ 9" POLISHING PAD
A double-sided, soft edge polishing pad designed for use with a polisher and glaze. Made of extremely fine fibres, produces a high gloss on paint surfaces. Features long life, flexibility, light weight and balance. Fits all standard 5/8" shaft slow speed polishers. Use with Superbuff adapter #05710.
Part No. 05705.

HOOKIT™ SBS™ 9" WHITE COMPOUNDING PAD
Uniquely constructed compounding and polishing pad system. Provides quick change advantages while producing exceptional finishes. Easy attachment and removal. Accurate centrering to the Hookit back-up pad #05717.
Part No. 05711.

HOOKIT™ SBS™ 9" YELLOW POLISHING PAD
Uniquely constructed compounding and polishing pad system. Provides quick change advantages while producing exceptional finishes on today's paint systems. Easy attachment and removal, fits all standard 5/8" shaft slow speed polishers. Accurate centrering to the Hookit back-up pad #05717.
Part No. 05713.

Back-Up Pads

FINESSE-IT™ ROLOC 3" FINISHING PAD
Interface pad, approximately 3/4" thick. Attaches to #05540 Roloc holder and is used with Hookit Finishing Film Discs and Finesse-it Buffing and Polishing Pads. Has a hook and loop face. Maximum 6000 RPM.
Part No. 14736.

HOOKIT™ 3" DISC PAD
For use with #05771 and Hookit Film Discs for paint finishing and defect removal.
Part No. 05769.

SUPERBUFF™ ADAPTER
For use with #05705 buffing pad.
Part No. 05710.

HOOKIT™ SBS™ BACK-UP PAD
Designed to be used with 3M compounding pads. Fits all standard 5/8" shaft slow speed polishers.
Part No. 05717.

Scotchgard™ Protector

NEW!!

SCOTCHGARD™ PROTECTOR FOR UPHOLSTERY
Protects new or freshly cleaned cloth or velour upholstery •Helps prevent many spills from soaking through the fabric; resists soils and many stains •Will not change look, feel or breathability of upholstery
Part No. 03572C, 263 g aerosol.

Autobody Tapes

SCOTCH MOUNT™ DOUBLE-COATED AUTOMOTIVE ACRYLIC FOAM TAPE
O.E.M. approved for the attachment of body side mouldings, fascia nerf strips, bumper trim, wheel lip and door edge mouldings, claddings and a wide variety of other trim components. More durable and much stronger than other foam tapes. Resists stress. Gives good initial and cold temperature adhesion.
Part No. 06382, Black, 1/2" x 20 yds., 1.2 mm thickness
Part No. 06383, Black, 7/8" x 20 yds., 1.2 mm thickness
Part No. 06384, Black, 1/2" x 5 yds., 1.2 mm thickness
Part No. 06397, Grey, 1/2" x 10 yds., 1.5 mm thickness

SCOTCH-MOUNT™ NAMEPLATE REPAIR TAPE
Automotive acrylic foam tape. Adheres emblems, nameplates, etc. to vehicle surfaces. Assures permanent adhesion to O.E.M. and aftermarket paint systems. Thinner to offer a flush fit of emblems and nameplates to vehicle surface.
Part No. 06385, Grey, 1/4" x 5 yds., .8 mm thickness

HIGHLAND™ #2308 MASKING TAPE
Recommended for non-critical masking such as protecting tail-lights or mouldings. Lower cost alternative automotive masking tape.
Part No. 06545, 18 mm x 55 m
Part No. 06547, 36 mm x 55 m
Part No. 06548, 48 mm x 55 m

TRIM MASKING TAPE
Designed to actually lift up the moulding from the vehicle, allowing paint to flow under the moulding. This tape works particularly well on flush mount windshield and back glass mouldings. Saves time, labour, and the cost of removing and installing new mouldings, plus the removal of paint lines on existing mouldings.
Part No. 06349, 2" x 11 yds.

SCOTCH™ #218 FINE LINE TAPE
Has a special processed film backing that allows taping over freshly painted acrylic lacquer or enamel surfaces sooner and with less chance of imprint damage. This polypropylene film tape provides the finest colour separation line possible in multi-colour striping applications. Can be used for lettering, striping, and two-tone separation lines in all types of trucks and auto refinishing accounts. Not for outdoor application.
Part No. 06300, 1/8" x 60 yds.
Part No. 06301, 1/4" x 60 yds.
Part No. 06303, 1/2" x 60 yds.
Part No. 06306, 1/16" x 60 yds.

Autobody Tapes

SCOTCH™ #218 FINE LINE PAINT STRIPING TAPE
A specially engineered tape that is slit to provide pull-out pieces for paint striping. Can be applied over freshly painted acrylic lacquer or enamel surfaces sooner and with less chance of imprinting. This polypropylene film tape is excellent for multi-colour striping application. Rolls are 1" x 550".
Part No. 06314, 8 pull-outs 1/16" each

SCOTCH™ #471 PLASTIC TAPE - BLUE
This vinyl backed tape offers outstanding paint line definition along with superior holding power for critical masking operations including sharp curves, over rivets and into seams. Poly bagged.
Part No. 06404, 1/8" x 36 yds.
Part No. 06405, 1/4" x 36 yds.
Part No. 06408, 1/2" x 36 yds.
Part No. 06409, 3/4" x 36 yds.

SCOTCH™ #5430 SQUEAK REDUCTION TAPE
An ultra-high molecular weight polyethylene film tape designed for the automotive industry. Controls squeaks and rattles due to vibration or wear of metal and plastic materials.
Part No. 06356, 1" x 3 yds.

SCOTCH™ #425 AUTO BODY REPAIR TAPE
A practical, easy-to-use back-up material for plastic filler on rust-out areas. Has extremely high strength adhesive, is strong and rigid and withstands weathering well. Thick aluminum backing.
Part No. 06935, 48 mm x 20 m
Part No. 06936, 72 mm x 20 m

SCOTCH™ #969 ATG ADHESIVE TRANSFER TAPE
Hold, attach, bond, laminate, tab, join, fasten, mount, splice, or seal nearly any surface — paper, foils, films, fabrics, glass, foams, plastics, metal, painted surfaces, and wood. Thin and tacky on both sides; one side adheres to applied surface, the other side is immediately ready to join a second surface. Provides instant tack and strong constant bond. 5 mil thickness.
Part No. 06493, 1/2" x 18 yds.
Part No. 06494, 3/4" x 18 yds.

URETHANE PROTECTIVE FILM
A heavy duty clear film which will not yellow with age. Use to protect areas such as the wheel wells, door handles, trunk locks, hood, rocker panel, etc., from abrasion and stone-chipping.
Part No. 84804, 4" x 40 yds.
Part No. 84806, 6" x 40 yds.

SCOTCH PERFORMANCE MASKING TAPE 233+
High performance masking tape designed to exceed the needs of today's collision repair shops •Highly conformable and has a specially formulated adhesive system which offers improved adhesive transfer resistance on rubber mouldings and painted surfaces •Performs consistently under a variety of climactic conditions •Provides outstanding paint lines and a controlled consistent unwind •Ideal for paint masking applications with temperatures up to 250°F. In addition, 233+ offers clean removal from difficult surfaces like EPDM rubber mouldings and painted steel even after 30 minutes. GREEN in colour.
Part No. 26343, 3 mm x 55 m (1/8" applications)
Part No. 26344, 6 mm x 55 m (1/4" applications)
Part No. 26334, 18 mm x 55 m (3/4" applications)
Part No. 26336, 24 mm x 55 m (1" applications)
Part No. 26338, 36 mm x 55 m (1½" applications)
Part No. 26340, 48 mm x 55 m (2" applications)
Part No. 26341, 72 mm x 55 m (3" applications)

SCOTCH AUTOMOTIVE REFINISH MASKING TAPE 233
Designed expressly for the professional auto refinish painter •Conformable, hugs curves and contours •Goes on quickly and easily, sticks at a touch and stays put •Every feature perfectly balanced to give outstanding masking results
Part No. 6364, 3/4" x 60 yds.

AMERICAN BODY SHOP
Premium Masking Tape

AMERICAN BODY SHOP PREMIUM HIGH TEMP MASKING TAPE
Part No. PG27-3/4, 3/4" x 60 yard roll
Part No. PG27-1, 1" x 60 yard roll
Part No. PG27-1-1/2, 1½" x 60 yard roll
Part No. PG27-2, 2" x 60 yard roll

3M
Welding Drapes

HIGH PERFORMANCE WELDING DRAPE
57" x 80" Welding Drape. Unique, ultra fire resistant fabric. Will not burn through, resists penetration by MIG weld spatter or grinding sparks, keeps components safe when performing welding operation. Lightweight, soft fabric, easy to handle and hold in place. Durable fabric, extended wear and tear resistance.
Part No. 05919.

Deflection Paper

WELDING AND SPARK DEFLECTION PAPER
Flame retardant with repositionable adhesive. Formulated to protect vertical surfaces, glass and paint from welding spatter and grinding sparks.
Part No. 05916, 24" x 150 ft. roll.

76 LUBRICANTS
Automotive Oils

76 SUPER MOTOR OIL
Is a premium quality engine oil for all weather operation of passenger cars, vans, and light trucks. It provides excellent lubrication and offers superior performance in the severe service caused by short trips and stop-and-go driving. This product meets major car manufacturer's performance requirements and is suitable for use in turbocharged engines.
*Denotes Super Synthetic Blend motor oil — these products exceed ILSACGF-4 requirements. API SM SL GF-4.
†Denotes API SL SJ.
‡Denotes API SM SL.

76 GUARDOL QLT MOTOR OIL - Heavy Duty Oil for Diesel & Gasoline Engines
Is a premium quality, universal engine oil designed for use in over-the-road diesel trucks, off-highway diesel equipment, farm tractors, diesel passenger cars, and gasoline engines operating under severe conditions. It meets the performance and warranty requirements of most naturally aspirated, turbocharged, and supercharged diesel engines such as those manufactured by Caterpillar, Cummins, and Detroit Diesel; as well as gasoline engines in passenger cars and light trucks.

76 Lubricants carry the most current API, ILSAC, and other popular ratings.

76 ROYAL TRITON QLT - Semi-synthetic Diesel Engine Oil
Is a world-class semi-synthetic SAE 15W/40 diesel engine oil. Its unique blend of performance additives and synthetic and virgin base oils provides outstanding engine protection in both standard and extended drain service. The semi-synthetic nature of this motor oil offers extra protection at both low and high temperatures, and outstanding pumpability compared to mineral oil formulations, with a -44 °C pour point.

GUARDOL ECT™ MOTOR OIL - synthetic blend engine oil for 4 stroke cycle diesel engines
Is a premium quality, synthetic blend, API CJ-4 engine oil for low emission engines. Developed for use in 4 stroke cycle diesel engines. It is specially formulated with advanced low sulfated ash, phosphorus and sulfur additive technology to protect exhaust after treatment devices, such as diesel particulate filters and diesel oxidation catalysts. Guardol ECT meets or exceeds the requirements of: •API Service CJ-4, CI-4 PLUS/CI-4, CH-4, CG-4, CF-4, SM •ACEA E7-04 •Caterpillar ECF-3 •Cummins CES 20081 •Detroit Diesel Power Guard 93K218 •Mack EO-O Premium Plus •Mercedes-Benz Sheet 228.3 •Volvo VDS-4

PART NO.	GRADE	SIZE
GUA-ECT-15/40-1	SAE 15W/40	0.946 litre
GUA-ECT-15/40-4	SAE 15W/40	3.785 litre
GUA-ECT-15/40-205	SAE 15W/40	205 litre

NEW!!

76 TRITON 5005 GEO - Natural Gas and LP Gas Engine Oil
Is a premium quality low ash, dispersant-detergent gas engine oil designed for four-stroke cycle and selected two-stroke cycle gas engines.

PART NO.	GRADE	SIZE
NG-30-205	SAE 30	208 litre
NG-40-205	SAE 40	208 litre
NG-15/40-205	SAE 15W/40	208 litre

76 AIRKOOL HP TWO-CYCLE OIL
Is a low ash API "TC" type oil for use in two-stroke cycle engines requiring ash for lubricity. It is formulated for high output chain saws and weed cutters, and may be used in many other air-cooled two-stroke cycle engines. (Caution: AirKool HP is NOT intended for use in engines requiring an ashless TC-W3®, TC-WII®, or TC-W® oil).

PART NO.	SIZE
ATC-1	0.946 litre

76 UNIMIX TWO-CYCLE OIL
Is designed for use in two-stroke cycle outboard, snowmobile, motorcycle, chainsaw, lawnmower, and other two-stroke cycle engines that specify a TC-W®, TC-WII®, or TC-W3® quality ashless oil. May be used in both pre-mixed or oil injected systems. (Caution: should NOT be used in two-stroke cycle engines that require an ash-containing oil, or four-stroke cycle engines).

PART NO.	SIZE
UTC-1	0.946 litre
UTC-205	208 litre

76 HYDRAULIC/TRACTOR FLUID

Is specially formulated for use in transmissions, final drives, and hydraulic systems of all major brands of tractors and other farm implements employing a common fluid reservoir. It may also be used in other hydraulic applications where wide temperature range performance and good anti-wear characteristics are required. This multifunctional fluid: 1) lubricates the transmission; 2) lubricates the final drive; 3) actuates hydraulic disc brakes that are oil wetted; and 4) serves as a hydraulic fluid to operate power steering units, implements, and attachments.

PART NO.	SIZE
HTF-20	18.92 litre
HTF-205	205 litre
HTF-B	bulk

76 HT/4 FLUID - Transmission Fluid Meeting Caterpillar TO-4 Requirements

Is a high quality lubricant specially formulated to meet the Caterpillar TO-4 specification requirements for transmission and drive train fluids. SAE 10 and SAE 30 also meets Allison C-4 requirements. 76 HT/4 Fluid provides excellent shear stability, friction and anti-wear performance, resulting in longer equipment life and reduced risk of field failure. (Caution: should NOT be used in farm tractors or other applications where wet brakes and clutches are used. NOT recommended for use in farm tractors that employ a common fluid reservoir for transmission & hydraulic systems. For these applications see 76 Hydraulic/Tractor Fluid).

PART NO.	GRADE	SIZE
HT4-10-20	SAE 10	18.92 litre
HT4-10-205	SAE 10	208 litre
HT4-30-20	SAE 30	18.92 litre
HT4-30-205	SAE 30	208 litre
HT4-50-20	SAE 50	18.92 litre
HT4-50-205	SAE 50	208 litre

76 T5X Heavy Duty Motor Oil — Monograde

This monograde motor oil is intended for use in the hydraulic systems and hydrostatic transmissions of Caterpillar and other off-highway construction equipment. They are NOT recommended for use in engines. Meets or exceeds requirements of Caterpillar hydraulic oil for hydraulic systems and some hydrostatic transmissions.

PART NO.	GRADE	SIZE
T5X-10-20	SAE 10	18.92 litre
T5X-10-205	SAE 10	208 litre

76 SUPER ATF

is designed specifically for use in automatic transmissions where Dexron®-IIE, Dexron-III, Dexron or Mercon® fluids are specified in passenger cars and light trucks manufactured by GM and Ford. It also has excellent antiwear properties and may be used in mobile and industrial hydraulic systems operating over a wide temperature range. (Note: Do not mix with conventional hydraulic fluid.)

PART NO.	SIZE
ATF-1	.946 litre
ATF-20	18.92 litre
ATF-205	205 litre
ATF-B	bulk

DEXRON®-VI ATF

Is a next generation fluid approved for use in passenger car and light truck automatic transmissions that require a General Motors Dexron-VI or earlier generation Dexron fluid. It is formulated to provide improved oxidation stability, shear stability, friction durability and foam resistance compared to earlier generation Dexron fluids to help ensure long service life, better performance in extreme conditions and consistent shift performance for the life of the fluid. It is particularly recommended for use in new GM 6-speed automatic transmissions, and is fully backwards compatible with older GM automatic transmissions.

PART NO.	SIZE
ATF-6-1	0.946 litre
ATF-6-205	205 litre

76 ATF TYPE F

Designed for use in automatic transmissions in passenger cars and light trucks manufactured by Ford prior to 1977, and in many 1977-1980 models. It may also be used in most Ford power steering units.

PART NO.	SIZE
ATF-F-1	.946 litre

Industrial Lubricants

76 AIR COMP ND30 OIL - Air Compressor Oil

Is a premium quality, non-detergent oil designed for use in air compressors and gear heads requiring an SAE 30 or ISO 100 mineral oil.

PART NO.	SIZE
AC-30-20	18.92 litre

76 Lubricants carry the most current API, ILSAC, and other popular ratings.

76 UNAX AW HYDRAULIC OIL - Anti-wear

Is a premium quality anti-wear hydraulic fluid designed for piston, gear, or vane pumps used in high pressure, high speed industrial and mobile hydraulic systems. Provides outstanding wear protection for critical system components.

PART NO.	GRADE	SIZE
AW-22-20	ISO 22	18.92 litre
AW-22-205	ISO 22	205 litre
AW-22-B	ISO 22	bulk

AW-150-205	ISO 150	208 litre

Industrial Lubricants

76 UNAX AW-WR HYDRAULIC OIL - Wide Temperature Range Anti-wear Hydraulic Oil

Is a premium quality anti-wear hydraulic oil designed for use in industrial, mobile, and marine hydraulic systems operating in cold climates or in locations experiencing wide temperature fluctuations. It has a high viscosity index and low pour point of -44°C for use over a wider temperature range than conventional hydraulic fluids.

PART NO.	GRADE	SIZE
AWWR-32-20	ISO 32	18.92 litre
AWWR-32-205	ISO 32	208 litre

76 ARCTIC LOW POUR HYDRAULIC OIL

Is a premium quality anti-wear hydraulic fluid designed for high pressure, high speed hydraulic systems subject to extremely low temperatures, with a -69°C pour point. (Caution: Must NOT be used in aircraft hydraulic systems under any circumstances. It is NOT a qualified MIL fluid).

PART NO.	GRADE	SIZE
ALP-205	ISO 15	208 litre

76 UNAX PC-AW HYDRAULIC OIL - Environmentally Friendly

(Pollution Control Anti-wear) is a premium quality, environmentally responsible anti-wear hydraulic fluid designed for piston, gear, or vane pumps used in high pressure, high speed industrial and mobile hydraulic systems. Specially developed for use in areas where toxic metals in effluent pose a risk of soil and water contamination. Contains no zinc or other heavy metals.

PART NO.	GRADE	SIZE
PCAW-32-205	ISO 32	208 litre
PCAW-46-205	ISO 46	208 litre
PCAW-68-205	ISO 68	208 litre

76 SPECIAL BAR & CHAIN OIL

Is an adhesive lubricant formulated for use on chain saws for the logging industry. Suitable for all types of chain saws using either hand operated or automatic oilers to lubricate the chain, bar, and sprocket. This product may also be used on industrial chain drives, slides, ways, and guides. It is fortified with a tackiness agent to resist sling-off during operation, and is dyed red for easy visibility on the chain. Foam inhibitor minimizes foaming.

PART NO.	GRADE	SIZE
BC-68-205	ISO 68	208 litre
BC-150-20	ISO 150	18.92 litre
BC-150-205	ISO 150	208 litre
BC-220-20	ISO 220	18.92 litre
BC-220-205	ISO 220	208 litre

76 TURBINE OIL

Is a high quality rust and oxidation inhibited oil designed for use in hydraulic systems, steam and hydraulic turbines, circulating lubrication systems, industrial gear sets, air compressors, heat exchange systems, and a wide variety of other industrial applications. Resists foaming and has excellent demulsibility for quick separation from water.

PART NO.	GRADE	SIZE
TUR-32-205	ISO 32	208 litre

76 REFRIGERATION OIL

Is a high quality lubricating oil designed for use in piston, centrifugal, and rotary screw compressors used in ammonia refrigeration systems. Formulated with well-refined paraffinic base oils and effective oxidation and foam inhibitors. Low pour point of -32°C.

PART NO.	GRADE	SIZE
RFG-68-205	ISO 68	208 litre

76 KOOLKUT II CUTTING OIL - Heavy Duty

Is a transparent, active cutting oil designed for uses ranging from light duty machining to heavy duty broaching and tapping. Satisfies a wide range of machining operations, minimizes tool wear, and provides a good surface finish.

PART NO.	SIZE
KOO-20	18.92 litre
KOO-205	208 litre

76 SOLUBLE OIL

Is a compounded oil designed to emulsify easily and form a stable creamy white emulsion when mixed with water. It is an excellent coolant and lubricant in light duty machining and grinding operations. Provides good rust protection. (Caution: NOT to be used to machine magnesium or its alloys. Do NOT store at temperatures above 54°C or below 4°C).

PART NO.	SIZE
SOL-20	18.92 litre
SOL-205	208 litre

Gear Lubricants

76 MP GEAR LUBE - Limited Slip

Is a thermally stable and multi-purpose extreme pressure automotive gear lubricant. Provides excellent service over a wide temperature range and excellent durability at elevated temperatures. Meets the requirements of modern passenger car and truck axles with either conventional or limited-slip differentials.

PART NO.	GRADE	SIZE
75/90-20	SAE 75W/90	18.92 litre
75/90-60	SAE 75W/90	60 litre
75/90-205	SAE 75W/90	208 litre

85/140-20	SAE 85W/140	18.92 litre
85/140-205	SAE 85W/140	208 litre

76 TRITON SYN-LUBE CD-50 - Synthetic Manual Transmission Fluid

Is a full synthetic SAE 50 lubricant designed to meet the severe lubrication requirements of modern heavy-duty truck manual transmissions. It is formulated for extended drain service. Recommended for Eaton/Fuller, Rockwell, Spicer/Dana transmissions. (Caution: NOT to be used in engine crankcase oil applications, or mixed with any API GL type gear lubricant).

PART NO.	GRADE	SIZE
SYN-50-20	SAE 50	18.92 litre
SYN-50-205	SAE 50	208 litre

76 TRITON SYN LUBE EP

Is a full synthetic multi-purpose extreme pressure automotive GL-5 gear lubricant. It is designed for use in axles with hypoid gear sets, and provides outstanding service over a wide temperature range and excellent durability at elevated temperatures. Meets the requirements of modern passenger car and truck axles with either conventional or limited-slip differentials.

PART NO.	GRADE	SIZE
SYN-75/90-20	SAE 75W/90	18.92 litre
SYN-75/90-205	SAE 75W/90	208 litre
SYN-80/140-20	SAE 80W/140	18.92 litre

76 EXTRA DUTY GEAR LUBE

Is an extreme pressure industrial gear lubricant. It is formulated with an excellent additive package designed to minimize wear in enclosed industrial gear sets with heavy tooth loads, high peak loads, or intermittent shock loads. Non-corrosive to bronze or brass at temperatures below 107°C.

PART NO.	GRADE	SIZE
2EP-20	Gear Lube 2EP - ISO Grade 68	18.92 litre
2EP-205	Gear Lube 2EP - ISO Grade 68	208 litre

6EP-20	Gear Lube 6EP - ISO Grade 320	18.92 litre
6EP-205	Gear Lube 6EP - ISO Grade 320	208 litre
7EP-20	Gear Lube 7EP - ISO Grade 460	18.92 litre
7EP-205	Gear Lube 7EP - ISO Grade 460	208 litre

76 Lubricants carry the most current API, ILSAC, and other popular ratings.

76 UNOBA EP GREASE

Is a multi-purpose, extreme pressure, lithium soap grease designed for use in a wide range of industrial and automotive applications. It is recommended for most plain and rolling bearings and gears in general purpose industrial applications. Provides good rust and corrosion protection, anti-wear properties, plus resistance to oxidation, mechanical breakdown, and water washout.

PART NO.	GRADE	SIZE
UNOBA-14	EP2	14 oz. tube
UNOBA-35	EP2	35 lb. pail
UNOBA-120	EP2	120 lb. keg
UNOBA-400	EP2	400 lb. barrel
UNOBA-0-35	EP0	35 lb. pail
UNOBA-00-35	EP00	35 lb. pail
UNOBA-00-120	EP00	120 lb. keg

76 MOLY LOW TEMP GREASE

Is a high performance, multipurpose, extreme-pressure, corrosion preventive grease specially developed for use in industrial and automotive equipment operating in wet or corrosive environments. Formulated with high quality paraffinic base oils, calcium sulfonate thickener, rust and corrosion inhibitors and antiwear additives. It protects against rust and corrosion in high humidity, high temperature applications, such as those found in the steel, lumber, tire manufacturing and paper industries. NLGI GC-LB certified for use as a multipurpose automotive wheel bearing and chassis lubricant.

PART NO.	SIZE
MLT-14	14 oz. tube
MLT-120	120 lb. keg

76 OMNIGUARD 2 GREASE

Is an effective problem solver for many of the most demanding applications. These include; unmatched corrosion resistance in wet and salt water environments, extreme high temperature stability, and minimal mechanical degradation. While Omniguard provides outstanding performance that is best for industrial applications, it is also a great automotive wheel bearing and chassis lubricant that meets NLGI GC-LB.

PART NO.	SIZE
OMNI-14	14 oz. tube

OMNI-35	35 lb. pail

76 POLYTAC EP2 GREASE

Is a new technology polyurea-thickened grease designed for use in a wide range of automotive and industrial applications. Provides long service life at elevated temperatures and superior protection against rust and oxidation. It has a 60 lb. Timken load rating.

PART NO.	SIZE
POLYTAC-14	16 oz. tube
POLYTAC-35	35 lb. pail

76 MEGAPLEX XD-3 GREASE

Is a stringy, extremely adhesive, multi-purpose lithium soap grease fortified with 3% molybdenum disulfide. It is designed for use in heavy duty automotive and industrial equipment where heavy loads and wet conditions require a grease with high film strength and excellent resistance to water washout. Contains anti-wear properties for protection against heavy or shock load.

PART NO.	SIZE
MEGAPLEXXD3-14	14 oz. tube
MEGAPLEXXD3-35	35 lb. pail

76 REDTAC GREASE

Is a heavy duty, adhesive multi-purpose lithium grease designed for use in a wide range of automotive and industrial applications. Provides outstanding water washout resistance, anti-wear properties, shock load protection, and has good resistance to oxidation and corrosion. It has a 70 lb. Timken load rating.

PART NO.	GRADE	SIZE
RED-2-14	RedTac 2	14 oz. tube
RED-2-35	RedTac 2	35 lb. pail
RED-2-120	RedTac 2	120 lb. keg
RED-2-400	RedTac 2	400 lb. barrel
RED-1-14	RedTac 1	14 oz. tube
RED-1-120	RedTac 1	120 lb. keg
RED-1-400	RedTac 1	400 lb. barrel

76 Lubricants carry the most current API, ILSAC, and other popular ratings.

CASTROL®
Motor Oils

CASTROL GTX MOTOR OIL
GTX is the only leading oil that meets the world's requirements for viscosity breakdown in every grade. A number one choice in all aspects, this motor oil was developed to provide superior performance and wear protection under the most severe operating conditions. For use in gasoline or turbo charged passenger car and light truck engines. GTX exceeds Europe's demanding high temperature/high shear and viscosity stability requirements.

PART NO.	GRADE	SIZE
0015-42	SAE 5W-20	1 litre
0015-89	SAE 5W-20	4.4 litre
0015-06	SAE 5W-20	208 litre
0011-42	SAE 5W-30	1 litre
0011-89	SAE 5W-30	4.4 litre
0011-05	SAE 5W-30	205 litre
0012-42	SAE 10W-40	1 litre
0012-89	SAE 10W-40	4.4 litre
0013-42	SAE 10W-30	1 litre
0013-89	SAE 10W-30	4.4 litre
0013-05	SAE 10W-30	205 litre
0014-42	SAE 20W-50	1 litre
0014-89	SAE 20W-50	4.4 litre

CASTROL GTX HIGH MILEAGE MOTOR OIL
Specially formulated motor oil that provides an added level of protection for vehicles that have more than 120,000 kilometres. GTX High Mileage is formulated with premium base oils and some semi-synthetic components to provide the following benefits specifically for high mileage engines: •Utilizes special base oils to provide superior protection against oil burn off •Contains seal conditioners that provide an added level of protection and reduce oil leakage in high mileage engines •Contains proprietary additives that provide maximum protection against engine wear and harmful deposits •Reduces deposit formation to minimize compression loss and maximize engine performance

PART NO.	GRADE	SIZE
00016-38	SAE 5W-30	1 litre
00017-38	SAE 10W-30	1 litre

CASTROL HEAVY DUTY MOTOR OIL
A monograde oil that is formulated with high quality base oils and is fortified with Castrol's world-famous additives to provide outstanding protection and lubrication. Exceeds all passenger car and light truck manufacturer's requirements for protection of gasoline, diesel, and turbo-charged engines.

PART NO.	GRADE	SIZE
1567-42	SAE 30	1 litre
1570-42	SAE 40	1 litre

Ancillary Lubricants

CASTROL NON-DETERGENT OIL
For use in compressors recommending a non-detergent lubricant.

PART NO.	GRADE	SIZE
0146-42	SAE 10	1 litre
0148-42	SAE 30	1 litre

CASTROL SYNTEC BLEND MOTOR OIL
Provides an added level of synthetic protection versus conventional oils to gasoline and turbo-charged engines.

PART NO.	GRADE	SIZE
2025-38	SAE 5W-30	1 litre
2025-06	SAE 5W-30	208 litre
2026-38	SAE 10W-30	1 litre

CASTROL SYNTEC MOTOR OIL
Patented stabilizers aggressively seek out and neutralize harmful corrosive particles, suspending them away from engine parts, providing the ultimate in engine protection. Syntec contains an exclusive chemical ester that bonds to engine parts providing a layer of protection far stronger than conventional oils. Protects gasoline, diesel, and turbo-charged engines. 0W-30 allows for unaided engine starts down to -40°C.

PART NO.	GRADE	SIZE
2012-38	SAE 0W-30	1 litre
2009-38	SAE 5W-20	1 litre
2011-38	SAE 5W-30	1 litre
2014-38	SAE 5W-40	1 litre
2010-38	SAE 5W-50	1 litre
2013-38	SAE 10W-30	1 litre

CASTROL GTX DIESEL MOTOR OIL
A premium quality universal diesel motor oil formulated for highway and off-road use. Protects and maintains cleanliness in hot running, heavy duty diesel and gasoline engines.

PART NO.	GRADE	SIZE
4076-42	SAE 15W-40	1 litre
4076-89	SAE 15W-40	4.4 litre
1015-59	SAE 15W-40	18.9 litre
1015-06	SAE 15W-40	208 litre
1016-06	SAE 10W-30	208 litre
9007-49	SAE 30	946 ml

Castrol Lubricants carry the most current API, ILSAC, and other popular ratings.

Automatic Transmission Fluids

CASTROL ATF

Formulated to meet the demands of today's electronic transmissions requiring superior fluid flow under low temperature conditions.

PART NO.	GRADE	SIZE
GM & Ford approved for use in all GM and all 1983+ model Ford automatic transmissions and transaxles.		
0668-42	Dexron® III/Mercon®	1 litre
0668-10	Dexron® III/Mercon®	20 litre
0668-05	Dexron® III/Mercon®	205 litre
Ford approved for all transmissions calling for a Type F fluid		
1758-42	Type F	1 litre
00675-49	7176 (ATF +4)	946 ml
GM and Ford approved		
0672-49	Multi-Vehicle ATF	946 ml

Motorcycle Products

CASTROL GRAND PRIX FOUR-STROKE OIL

Multi-grade formula provides maximum protection against oil oxidation in high revolution motorcycle engines.

PART NO.	GRADE	SIZE
0747-42	SAE 10W-40	1 litre
0697-42	SAE 20W-50	1 litre

CASTROL CHAINLUBE

Designed to penetrate, clean, and protect all drive chains and sprockets.

PART NO.	GRADE	SIZE
0167-99	Chainlube (aerosol)	250 g

Power Steering Fluid

CASTROL GT POWER STEERING FLUID

This is recommended for "top-up" and complete refill of most passenger cars and light trucks.

PART NO.	SIZE
0789-47	500 ml

Gear Oils

CASTROL HYPOY C

Multi-grade gear lubricant recommended for manual transmissions and heavy duty truck systems under extreme pressure conditions. Syntec Gear Oil has synthetic durability for maximum protection under severe service conditions.

PART NO.	GRADE	SIZE
0658-75	SAE 80W-90	946 ml
0658-31	SAE 80W-90	4 litre
0658-10	SAE 80W-90	20 litre
0658-11	SAE 80W-90	60 litre
0856-11	SAE 75W-90	60 litre
2016-75	SAE 75W-90 Syntec Gear Oil	946 ml

Greases

GREASE LUBRICANTS

MP is a lithium complex grease formulated to provide exceptional protection and performance in all wheel bearing and chassis applications. Exceptional consistency, water washout resistance properties and extreme pressure adaptability. Lubricates from -40°C to 200°C. Universal Chassis Grease is a lithium grease recommended for automotive chassis lubrication points, including ball joints, and universal joints. Can also be used for automotive wheel bearings where Ford ESA-M1C75-B grease is specified. LMZ #1 is a lithium based white grease that offers excellent shearing and corrosion resistant qualities. Syntec Grease provides full synthetic protection under high and low temperatures. Resistant to water, rust, dirt, and corrosion.

PART NO.	GRADE	SIZE
0969-81	MP GREASE	400 g
0969-55	MP GREASE	450 g
0969-02	MP GREASE	2 kg
0969-18	MP GREASE	55 kg
0970-81	UNIVERSAL CHASSIS GREASE	400 g
0065-81	LMZ #1 GREASE	400 g
2022-33	SYNTEC GREASE	411 g

Two Stroke Lubricants

TWO STROKE OILS

Used in two cycle engines requiring fuel to oil ratios. Formulated with selected base oils and additives to minimize ring sticking and exhaust port clogging.

PART NO.	GRADE	SIZE
0020-48	SUPER TWO STROKE A.P.I. TC	250 ml
0020-47	SUPER TWO STROKE A.P.I. TC	500 ml
0020-42	SUPER TWO STROKE A.P.I. TC	1 litre
0980-42	GRAND PRIX TWO STROKE A.P.I. TC	1 litre

Snowmobile Lubricants

SNOWMOBILE OIL A.P.I. TC/ N.M.M.A. TC-W3

Formulated for use in oil injected systems. Also excellent when used in premixed systems requiring fuel/oil ratios. Helps prevent ring sticking, exhaust port blockage, and spark plug fouling. This oil provides superior low temperature flow performance and increased lubricity.

PART NO.	SIZE
0174-47	500 ml
0174-42	1 litre
0174-31	4 litre

Outboard Motor Lubricants

OUTBOARD MOTOR OILS

Selected base oils and premium ashless additive to ensure superior lubrication, cleanliness and rust protection in two cycle outboard motors.

PART NO.	GRADE	SIZE
1547-47	SUPER OUTBOARD N.M.M.A. TC-WII/TC-W3	500 ml
1547-31	SUPER OUTBOARD N.M.M.A. TC-WII/TC-W3	4 litre
0152-39	OUTBOARD GEAR OIL EP90	500 ml

Brake Fluid

GT LMA BRAKE FLUIDS

Unique, low moisture activity formulation provides maximum protection against vapour lock brake failure. Provides superior lubricity for anti-lock braking systems (ABS). Maintains a higher boiling point than conventional fluids.

PART NO.	SIZE
0320-44	354 ml

Castrol

Castrol Lubricants carry the most current API, ILSAC, and other popular ratings.

Automotive Oils

Q ADVANCED ENGINE™ FULL SYNTHETIC

Fine-tuned for advanced engines. Today's advanced engines generate power and performance with the help of aluminum cylinder heads, aggressive cam designs, multi-valves and turbochargers. But with powerful, high-tech components and tighter tolerances comes added friction and heat, which can break down even the toughest conventional motor oil. Q Advanced Engine™ Full Synthetic is specially formulated to maximize the performance and power of today's modern engines. Under conditions in which friction and heat are most severe, the heat-activated molecules in Q are unleased to provide a low-friction, ultra-heat resistant lubrication film. This superior, protective layer helps control power-robbing friction, prevent oil shearing and resist thermal and viscosity breakdown, whether under heavy loads or at high RPMs. The result: less friction, superior protection, and best of all... maximum power.

Diesel Plus Formula:

5059095	5W40	946 ml

Q HIGH-RPM™ SYNTHETIC BLEND

Fine-tuned for engines with muscle. Whether your car has a muscular V-8 or a 4 cylinder turbo, there's nothing like the rush of pushing the RPMs. But when you rev high, you also rev hot, generating the kind of excess friction that can break conventional oils down and rob your engine of power. Q High RPM™ Synthetic Blend is specially formulated to maximize the performance of your high output engine. When heat and stress are at their most severe, special heat activated additives are unleased to provide a low-friction, heat resistant lubrication film. This advanced protective layer helps reduce the coefficient of friction, prevent oil shearing and resist thermal breakdown... even in engines that red line at 8000 RPMs. The result: less friction, better protection at high RPMs, and best of all... maximum power.

29110	10W30	946 ml

Q 4x4 and SUV™ SYNTHETIC BLEND

Whether hauling heavy loads or tackling tough off-road conditions, the engine in your truck or SUV is designed to perform on demand. But hard working vehicles like yours generate excess friction and heat in the engine, which can break down conventional oils and rob you of power. Q 4x4 and SUV™ Synthetic Blend is specially formulated to deliver maximum performance and power for hard working engines. Its heat activated molecules kick in under heavy loads and stress, creating a low-friction, heat resistant lubrication film. This advanced protective layer combats oil oxidation and resists thermal and viscosity breakdown, for better protection and maximum power.

HIGHER MILEAGE ENGINE™

Fine tuned for vehicles with over 120,000 km. Most modern engine oils are formulated to meet new car warranty requirements. However, as an engine ages and accumulates over 120,000 km problems such as oil consumption, oil leakage, or lower cylinder compression may arise. Quaker State® High Mileage Engine™ has been developed to help address those problems. It has lower volatility than most conventional engine oils. This helps reduce oil consumption at high operating temperatures. Additionally, a special conditioning additive was incorporated to help recondition seals and reduce leaking.

- Helps restore engine performance and power
- Helps prevent engine leaks and oil consumption
- Advanced protection for worn engine parts

PEAK PERFORMANCE™

For advanced friction protection. Keep your engine performing at its peak with Quaker State® Peak Performance™. Fine tuned for engines in their prime, it protects against the harmful effects of friction. Plus, it is backed by a 400,000 km/10 Year Lubrication Limited Warranty. Even for those who change their own oil. Helps maintain engine life.

Fleet & Heavy Duty Oils

FCI® SYNTHETIC BLEND UNIVERSAL HDX ENGINE OIL

This is a high performance, heavy duty oil that protects through all seasons. HDX 0W-30 motor oil is a synthetic blend that flows in temperatures as low as -40°C and protects engines at temperatures above 160°C. This is a premium motor oil formulated for severe diesel and gasoline engine service.

PART NO.	GRADE	SIZE
5042357	0W30	4 litre

FCI UNIVERSAL HDX PREMIUM HEAVY DUTY DIESEL ENGINE OIL

Recommended for use in heavy duty naturally aspirated and turbo-charged 2-cycle and 4-cycle diesel engines used in mobile and stationary service, as well as in modern 4-cycle automotive gasoline engines. HDX 15W40 Diesel engine oil meets or exceeds the latest requirements of industrial, military, and equipment builders.

29041	15W40	946 ml
5042359	15W40	4 litre

Transmission Oils

AUTOMATIC TRANSMISSION FLUIDS

There are various requirements for transmission fluids today. "Severe driving conditions" can change healthy, bright red fluid to a burnt-looking brown. Quaker State products are designed to meet all the latest manufacturers' specifications and offer outstanding resistance to wear, oxidation, varnish, and sludge. Manufactured with highly refined base oils and performance additives. Keeps vehicles shifting smoothly and running cool under various operating temperatures.

PART NO.	GRADE	SIZE
11083	Dexron®-III/Mercon®-V	946 ml
29048	Dexron®-IIIH/Mercon®	946 ml
5042360	Dexron®-IIIH/Mercon®	4 litre
5070845	ATF+4®	946 ml

MULTI-VEHICLE ATF

Quaker State® Multi-Vehicle Automatic Transmission Fluid, meets and exceeds the frictional requirements of most automatic transmissions manufactured after 1983. A perfect balance of superior additive technology and premium synthetic blend base oil, this product is specially formulated to meet the stringent viscosity and frictional requirements of Dexron®-III, Mercon® and Mercon®-V fluids. This product has also been tested extensively for Chrysler MS-7176 and MS-9602 and can be used in applications calling for ATF+3 and ATF+4.

PART NO.	SIZE
5036394	946 ml
160026	208 litre

Specialty Lubricants

STERLING 2-CYCLE MOTOR OIL TC-W3®

This is a new generation oil for outstanding lubrication and engine cleanliness. Stays mixed even in cold weather. Approved for use with gasohol/oxygenated fuels. Perfect for personal watercraft, such as jet skis, wave runners, etc.

PART NO.	SIZE
11079	500 ml
29051	946 ml
5044485	4 litre

Gear Lubricants

CONVENTIONAL 80W90 GEAR LUBRICANT

For years, Quaker State has been providing many car dealers, quick lubes and parts stores with high quality gear oils. These conventional products are formulated for use in passenger car and light truck differentials, as well as manual transmissions, axles and final drives of commercial equipment. 80W90 (GL-5/Limited Slip).

PART NO.	SIZE
29062	1 litre
11043	20 litre
11052	60 litre

FULL SYNTHETIC 75W90 GEAR LUBRICANT

Formulated for differentials and transmissions in high performance and heavy duty applications where an extended service interval may be required. This thermally stable product is recommended for vehicles with manual transmissions and conventional or limited slip differentials, especially where extremely low temperature shifting can be a problem. It also contains special additives to reduce bearing and gear distress, minimize chatter, oxidation or foaming, and provides protection against rust or corrosion better than any conventional gear oil.

PART NO.	SIZE
5066713	946 ml

Lubricating Grease

GOLDEN CHASSIS NLGI 2 LUBRICANT

Designed for multiple applications and temperature ranges. We design our products to be used in more than car wheel bearings. They perform in boat trailers and even commercial or industrial applications.

PART NO.	SIZE
11026	400 gram cartridge
32090	16 kg pail
42090	55 kg drum

Specialty Motor Oils

NEMCO SYNFLO MOTOR OIL - Semi-Synthetic Universal Motor Oil

Is a partial synthetic winter motor oil for mixed fleets of diesel, gasoline and propane powered vehicles. Excellent low temperature fluidity assures rapid oil circulation to protect vital engine parts in extreme cold starts.

PART NO.	GRADE	SIZE
99-4	SAE 0W/30	4 litre
99-20	SAE 0W/30	20 litre
99-205	SAE 0W/30	205 litre

128-205	SAE 15W/40	205 litre

NEMCO 100% SYNTHETIC MOTOR OIL

Race proven world class lubricants which exceed all major American, European, and Japanese performance requirements. NemCo 5W/30 and 10W/30 synthetic oils flow down to -54°C and pump at lower temperatures than similar SAE viscosity conventional oils, providing superior protection against wear at start-up when most engine wear occurs.

PART NO.	GRADE	SIZE
89-1	SAE 5W/30	1 litre
89-20	SAE 5W/30	20 litre
90-1	SAE 10W/30	1 litre

Transmission Fluids

NEMCO MULTI-PURPOSE AUTOMATIC TRANSMISSION FLUID (ATF)

Is a new premium product which can be used when either DEXRON® III or MERCON® fluids are specified. It can also be used in hydraulic systems when specified by the O.E.M.

PART NO.	SIZE
23-1	1 litre
23-4	4 litre
23-20	20 litre
23-205	205 litre

NEMCO POWERTRANS FLUID - Transmission Fluid Meeting Caterpillar TO-4 Requirements

Meets the demands for Caterpillar TO-4 specification requirements for transmission and drivetrain fluids.

PART NO.	GRADE	SIZE
241-20	SAE 10 TO-4	20 litre
241-205	SAE 10 TO-4	205 litre
243-20	SAE 30 TO-4	20 litre
243-205	SAE 30 TO-4	205 litre

NEMCO MULTI-PURPOSE TRACTOR TRANSMISSION/HYDRAULIC FLUID

TGH and TGH Arctic - is used in tractors employing a common fluid reservoir.

TGH Fluid is approved against these specifications:

*John Deere J20D(Ford) *New Holland M2C134D (FNH201)
*Massey Ferguson M1135, M1141 *White New Idea Q-1802, Q-1826
*Allison C-4 and Volvo BM *Denison HF-0, HF-1, HF-2
*Sauer Sundstrand *Volvo AWB 101
*AGCO Clark Sundstrand ZFTE-ML06

TGH and TGH Arctic Fluid Exceed Performance Requirements of:

*Case International J/C 145/MS 1210, J/C 185/MS 1204, MS 1205, MS 1206, MS 1207, B6 -Sundstrand Gear Pump
*Copper Corrosion (ASTM D 130), 1A Rating
*Deutz-Allis 821XL
*Komatsu Dresser B-06-0001, B-06-0002
*Caterpillar TO-2 Powershift
*L-20
*Dexron® and Type A, Suffix A (Tractor)
*Sundstrand Hydrostatic
*Vickers 35VQ25A Pump
*Sundstrand 22 Axial Piston Pump
*Cincinnati Millacron P-68, P-69, P-70

Exceeds Performance Recommendations of:

*Clark, KH Deutz, Ebru, Fendt, Fiat-Hesston, Hurlimann, International Hough IMT, Lamborghini, Link Belt, Renk, Schulter, Steyr Daimler Puch, Steiger, Universal, Ursus, Valmet, and Zetor

Application:

*Recommended for top-up and refill of transmissions, differentials, final drives, hydraulic and power steering systems, as well as wet brakes, PTOs and hydrostatic drives in farm, contractor and industrial tractors recommending the above specifications.

286-205	HVI 46	205 litre

NEMCO ALL SEASON HYDRAULIC FLUID

Blended from premium quality mineral base oils. It is fortified with V.I. improvers, rust, anti-wear, anti-foam and oxidation inhibitors to impart optimum performance, including usefulness over a wide operating temperature range and longer service life. A multigrade fluid with a pour point of -45°C.

PART NO.	GRADE	SIZE
0310-004	Multigrade	4 litre

NEMCO CHAIN OIL

Designed to provide optimum lubrication of the chain and guide bar of chain saws. These oils provide excellent anti-wear characteristics to extend chain and bar life. NemCo chain oils are available in All Season Chain Oil designed for year round use in all temperatures. Light Chain Oil is designed for winter use and Heavy Chain Oil is designed for summer use.

PART NO.	GRADE	SIZE
38-1	All Season Chain Oil	1 litre
38-4	All Season Chain Oil	4 litre
39-4	Light Chain Oil	4 litre
39-205	Light Chain Oil	205 litre
41-4	Heavy Chain Oil	4 litre
41-205	Heavy Chain Oil	205 litre

NEMCO WAYLUBE OIL

Specially designed to lubricate the slideways of machine tools. These unique formulations provide excellent film strength, lubrication, and machine table accuracy as well as resisting removal by synthetic coolants and soluble oils.

PART NO.	GRADE	SIZE
1292-20	68 Waylube Oil	20 litre
1293-20	220 Waylube Oil	20 litre

Grease

RED MAX GREASE - EP Aluminum Complex Grease

Is a premium quality, extreme pressure multi-purpose grease that has a smooth and tacky consistency and is red in colour. Red Max has an extremely high dropping point (260°C) and gives outstanding performance in high temperature applications. Excellent water resistance provides bearing protection when water wash-out or leaching conditions are encountered.

PART NO.	GRADE	SIZE
432-14	EP1	14 oz.
43-14	EP1.5	14 oz.
43-35	EP1.5	35 lb.
43-120	EP1.5	120 lb.
43-400	EP1.5	400 lb.

BLUE MAX GREASE - Lithium Complex EP Grease

Is a Premium Lithium Complex Grease designed for use on plain and anti-friction bearings in all automotive, farm equipment, and industrial machinery. This multi-purpose lithium complex grease has a high dropping point in excess of 260°C, which insures retention where high temperatures are encountered.

PART NO.	GRADE	SIZE
44-14	EP1	14 oz.
44-35	EP1	35 lb.
45-14	EP2	14 oz.
45-35	EP2	35 lb.
45-120	EP2	120 lb.

NemCo Lubricants carry the most current API, ILSAC, and other popular ratings.

SUPER TURBO MOTOR OILS

Premium high-detergent, high-performance, new generation oils designed to deliver long and dependable protection for today's high performance gasoline and light to medium duty diesel engines, including the critical performance demands of turbo-charged and super-charged gasoline engines. All Super Turbo oils are fully approved API SJ and the 5W30 and 10W30 are licensed to carry the "Star-Burst" Energy Conserving II designation.

PART NO.	GRADE	SIZE
GP5W30-1	5W30	946 ml
GP10W30-1	10W30	946 ml
GP10W30-4	10W30	3.785 litre
GP10W40-1	10W40	946 ml
GP20W50-1	20W50	946 ml
GP30W-1	30W	946 ml
GP40W-1	40W	946 ml

SUPER DUTY 15W40 DIESEL MOTOR OIL

Is designed for use in heavy duty diesel engines in the most demanding environments. This all-fleet motor oil may be used wherever the highest quality gasoline or diesel engine oils are required, and meet all current and former specifications for: CI, CH-4, CG-4, CF-4, CF-2, CF, CE, CD-II, CD, SJ, SH, SG, Caterpillar TO-2, Cummins NTC-400, Mack EO-L, and Allison C-3, C-4.
Part No. GP15W40-1, 946 ml.
Part No. GP15W40-4, 3.785 litre.
Part No. GP15W40-20, 18.92 litre.

SYNTHETIC MOTOR OIL

Is engineered for dependable protection and critical performance as it is formulated to provide superior performance in most gasoline and diesel engines. Contains a special additive package and is designed to meet today's low phosphorus level requirements. Fully approved API SJ, SH, SG, CD, CE, and CF.
Part No. GPSYN5W50-1, 946 ml.

UNIVERSAL DEXRON III/MERCON ATF (Automatic Transmission Fluid)

High quality, new generation automatic transmission fluid is for use in all new automatic transmissions requiring Dexron III and/or Mercon transmission fluids. It is also a premium quality multiple use hydraulic fluid approved for use where Allison C-3, C-4 or Caterpillar TO-2 fluids are required.
Part No. GPDEXRON-1, 946 ml.

OUTBOARD & 2 CYCLE TC-W3 OIL

Fully approved 2 cycle oil certified by the NMMA is formulated to meet the requirements of outboard manufactures calling for a TC-W3 rating. May also be used successfully in any 2 cycle application such as marine, motorcycle, snowmobiles, and other 2 cycle recreational vehicles, as well as lawn and garden applications.
Part No. GPUTC-1, 946 ml.

GL-5 SYNTHETIC HIGH PERFORMANCE GEAR OIL

This high viscosity index, low pour point, synthetic based product provides reduced friction with resultant fuel saving potential during low temperature start-up and operation. Superior high performance gear oil is formulated to meet the requirements of API classification: GL-5, MIL PRF-2105E, Eaton Axle Division Bulletin 88-201, GE D 50E9C, P&H 474, Mack GO-J Plus, and Rockwell 0-76-E.
Part No. GPSYN75W90-1, 946 ml.
Part No. GPSYN75W90-20, 18.92 litre.

GL-5 MULTI-PURPOSE GEAR OILS

Recommended for use in differentials and final drives of the bevel, spiral bevel, or hypoid type and in all manual (non-automatic) transmissions. Also recommended for limited slip or posi-traction type rear axles. These GL-5 multi-purpose gear lubricants meet the requirements of API service classification GL-5, and specification MIL-L-2105D.
Part No. GP80W90-1, 80W90 gear oil, 946 ml.
Part No. GP80W90-20, 80W90 gear oil, 18.92 litre.
Part No. GP85W140-20, 85W140 gear oil, 18.92 litre.

SPECIAL ISO 32 HYDRAULIC FLUID

Specifically blended to offer light-treat antiwear properties in an economical hydraulic oil. This oil offers substantial anti-wear protection and is an excellent and durable lubricant engineered to inhibit oxidation, keep systems clean, rust-free, and protected from corrosion. Suitable for a wide variety of applications where highly inhibited oils are not required and should not be used where original equipment specifications are required.
Part No. GPHO32-20, 18.92 litre.

DOT 3 BRAKE FLUID

Super heavy duty drum and disc brake fluid with a high temperature rating, and a minimum wet boiling point of 284°F. Surpasses CMVSS 116 and SAE J-1703 as well as US Federal motor vehicle standard 116 and W-B 680.
Part No. GPBF-350, 350 ml.
Part No. GPBF-1, 946 ml.
Part No. GPBF-4, 3.785 litre.

POWER STEERING FLUID

Formulated from highly refined base oils and select additives to provide smoother performance for year round use while protecting against wear, oxidation, corrosion, foaming, and clogging. Compatible with all factory power steering fluids.
Part No. GPPS-350, 350 ml.
Part No. GPPS-1, 946 ml.

UNIVERSAL OUTBOARD & 2 CYCLE OIL

Is an excellent 2 cycle mix oil alternative when economy is a concern yet quality is required for marine and other applications. This oil is manufactured from a special low ash formula to protect against corrosion, rust, and wear and is fortified with chemical inhibitors to assist in keeping engines clean, reduce spark plug fouling, and piston scuffing.
Part No. GPATC-1, 946 ml.

AMALIE/XCEL
Additives

SUPER OIL TREATMENT
Specially formulated to help maintain viscosity of motor oil at high temperatures, helping to reduce oil burning and tailpipe smoke. Designed to be added at regularly scheduled oil changes.
Part No. GPSOT-350, 350 ml.

ENGINE FLUSH
Engine flush is designed to circulate through the entire oil system removing power-robbing deposits by dissolving sludge, gum and varnish from the engine and the oil pan as well as helping sticky valves and rings. Designed to be added at regularly scheduled oil changes.
Part No. GPEF-350, 350 ml.

SUPER CONCENTRATED FUEL INJECTOR CLEANER
Designed to improve performance, fuel economy and reduce emissions through its high strength concentrated cleaner which removes deposits throughout the entire fuel delivery system. Also helps with tough starts, rough idling and increases power and acceleration.
Part No. GPFIG-350, 350 ml.

FUEL INJECTOR & CARBURETOR CLEANER
By using regularly, this will help keep injectors, intake valves, fuel system, port and PCV system clean. Also reduces exhaust emissions, improves gas mileage, power and performance and eliminates hesitation, rough idling, engine knock and ping. Safe for all types of gasoline and on catalytic converters and oxygen sensors.
Part No. GPFICC-350, 350 ml.

SUPER OCTANE TREATMENT & BOOST
Increases octane, eliminates engine knock and ping and improves fuel combustion. Also prevents fuel system from freezing and will not harm catalytic converters.
Part No. GPOB-350, 350 ml.

DIESEL FUEL ANTI-GEL & CONDITIONER
Prevents fuel from gelling in cold weather allowing it to flow freely as well as cleans injectors and disperses water. Maintains Cetane rating for quicker starting, and contains conditioners to clean filters and fuel lines year round. Treats 50 US gallons or 190 litres.
Part No. GPDFC-350, 350 ml.

RADIATOR STOP LEAK
Stops leaks quickly in radiator and entire cooling system. Prevents antifreeze loss and seals against seepage. Is designed for use in all cooling systems including aluminum and will not harm hoses or gaskets. No clogging formula is compatible with any standard antifreeze.
Part No. GPRSL-350, 350 ml.

RADIATOR FAST FLUSH
Helps restore cooling system efficiency and prevents overheating by helping to remove rust, scale, grease and sludge. Safe for aluminum blocks, will not harm cooling systems, nor is harmful to hoses or gaskets.
Part No. GPRFF-350, 350 ml.

RECOCHEM
Chain Saw Oil

Part No. 14-004, 4 litre jug light chain saw oil - 4 per case
Part No. 14-204, 4 litre jug heavy chain saw oil - 4 per case

LUBRIPLATE®

Grease

PART NO.	REF. #	DESCRIPTION
C105	(03494)	Lubriplate motor assembly lube, 284 gram tube
35-C105	(03435)	Lubriplate motor assembly lube, 35 lb. pail.
SLA	(03463)	Lubriplate 'Spray Lube A' lubricant/grease - light coloured. -10° to +265°F. 311 gram aerosol can.
CCF	(13563)	Lubriplate chain and cable fluid used for cleansing, penetrating and lubricating roller chains and wire rope, 340 gram aerosol can.
GSXH	(15263)	Lubriplate gear shield extra heavy spray. A tacky, high temperature, extreme pressure grease for open gears. 311 gram aerosol can.
630-2	(07298)	Lubriplate multi-purpose grease, 411 gram cartridge.
35-630-2	(07235)	Lubriplate multi-purpose grease, 35 lb. pail.
930-2	(10098)	Lubriplate multi-purpose high temperature grease. +375°F. 411 gram cartridge.
35-930-2	(10035)	Lubriplate multi-purpose high temperature grease. +375°F. 35 lb. pail.
LT-2	(17298)	Lubriplate multi-purpose low temperature grease. -60°F. 411 gram cartridge.
35-LT-2	(17235)	Lubriplate multi-purpose low temperature grease. -60°F. 35 lb. pail.
1200-2	(10298)	Lubriplate heavy duty extreme pressure grease, 411 gram cartridge.
35-1200-2	(10235)	Lubriplate heavy duty extreme pressure grease, 35 lb. pail.
3000-2	(10898)	Lubriplate tacky, moly, extreme pressure grease. 15°F to +450°F. 411 gram cartridge.
35-3000-2	(10835)	Lubriplate tacky, moly, extreme pressure grease. 15°F to +450°F. 35 lb. pail.
3000-W-2	(10798)	Lubriplate low temperature, tacky, moly, extreme pressure grease. -30°F to +275°F. 411 gram cartridge.
35-3000-W-2	(10735)	Lubriplate low temperature, tacky, moly, extreme pressure grease. -30°F to +275°F. 35 lb. pail.
HT-2	(16198)	Lubriplate high temperature non-melt grease. 40°F to 450°F; 550°F for short intervals. 411 gram cartridge.
35-HT-2	(16135)	Lubriplate high temperature non-melt grease. 40°F to 450°F; 550°F for short intervals. 35 lb. pail.

RED RAM

Lubricants

RED RAM ALUMINUM COMPLEX GREASE

The industry standard for outstanding operating performance for a multi-purpose grease over a wide range of applications. Aluminum Complex greases are completely water resistant, possess high temperature properties, exhibit excellent shear and mechanical stability and provide outstanding temperature reversibility characteristics. These greases are fortified with anti-rust, anti-oxidant, extreme pressure, and anti-wear additives. This unique formulation provides an excellent plating action on metal parts as well as providing outstanding anti-scuff wear protection.

Part No. 0104028, A-Complex Grease EP 1-1/2 - 400 gram.

RED RAM BLUE VELVET MULTI-PURPOSE GREASE

A premium high temperature lithium complex grease. It provides excellent performance in severe applications such as disc brake wheel bearings, Spicer and Rockwell U-joints, backhoe hinge pins, fan hubs, conveyor bearings, and fifth wheels. Red Ram Blue Velvet Multi-Purpose grease has been engineered to provide outstanding load carrying protection as well as unequalled shock load protection. These types of applications are applicable to mining operations, sawmills, sand-gravel plants, and construction equipment where shock loading is quite frequent and additional load carrying ability is needed. Red Ram Blue Velvet Multi-Purpose grease has an operating temperature range from -12°C to 163°C and is an approved high temperature lubricant for Spicer's universal joint specification M-2006-J.

Part No. 0104528, Blue Velvet Multi-Purpose Grease EP2 - 400 gram.

HELLY HANSEN
Heavyweight Rainwear

Helly Hansen Rainwear P Series rainwear is made from PVC-coated cotton, the standard in commercial rainwear around the world for over 40 years. With MicroWelded™ seams, Helly Hansen rainwear is guaranteed 100% waterproof. PVC is resistant to most chemicals, oil, grease, acids, saltwater, sunlight and mildew. This PVC rainwear won't peel, crack or become sticky. It stays flexible down to -25°C and is machine washable. Available in Dark Green.

P300 JACKET
•PVC coated cotton •Drawcord hood •Inside stormflap •Microwelded seams •Rust-resistant snaps

P104 LONG RAINCOAT
•PVC coated cotton •Three quarter length •Two front pockets with waterproof flaps •Rust resistant snap closure •Drawcord hood •Microwelded seams

P400 DOUBLE BIB PANT
•PVC coated cotton •Microwelded seams •Side gusset •Adjustable suspenders •Can be worn back to front

Impertech Mid-Weight Rainwear

An exceptional fabric which is completely waterproof and comfortable — something rarely found in such lightweight fabrics. Impertech's built-in stretch factor and the generous cut of the garments produce a relaxed, non-binding fit. Garment details such as inner storm cuffs and Velcro closures contribute to garment style features. Impertech is a Polyurethane (PU) coated nylon, it is virtually noiseless. Available in Olive Green and Orange.

IT600 STRETCH JACKET

Beaver Nylon Heavyweight Thermal Outerwear

These garments are manufactured using the highest quality fabric and trim items available to ensure maximum comfort and flexibility while working in harsh cold conditions. The outer shell is a rugged Beaver nylon of 57% cotton and 43% nylon, with a light water repellent coating. Helly Hansen Thermal Pile is used for the inner liner to ensure maximum warmth and comfort. Reflective stripes provide high visibility.

F851B POLAR BIB PANT

Lined throughout with thermal pile. Two layers of pile across the lower back. Elasticized back, waist and adjustable suspenders. Two-way front zip and 23" side leg zippers and snap-closing storm flaps covering all zippers. Navy.

Stretch Suit Heavyweight Thermal Outerwear

The new Helly Hansen insulated stretch suit combines comfort with great protection. The outer shell is 160g/sq. metre polyurethane on knit nylon base. This tear resistant fabric feels like leather but has stretch for extra comfort. All seams are Microwelded to be completely waterproof. The liner of this suit is a 12 mm thermal pile, made popular in Helly Hansen's Polar suits. This pile will keep its insulative properties for the life of the garment.

HH® HELLY HANSEN

Poly-Pro™ Heavyweight Bodywear (Base Layer)

Helly Hansen's Poly-Pro Heavyweight bodywear will keep you warm and dry even on the most miserable days. This bodywear works on the principle that wet skin becomes cold skin, leading to chilling and even hypothermia. Poly-Pro won't trap moisture next to the skin — body heat pushes sweat through the fabric, away from your skin to the next layer of clothing. Poly-Pro is machine washable, HANG TO DRY.

Flame Retardant Bodywear (Base Layer)

Comfort matters most next to the skin. It's known that wet skin can become cold skin. Bodywear FR features a 48.5% wool/ 48.5% viscose/ 3% inox blend that wicks moisture away from the skin, keeping the body comfortable, warm, and safe. Bodywear FR is knit with a special interlocking construction to provide optimum stretch and comfort.

Traffic Parka

These high intensity traffic parkas increase the visibility of workers on any job site. Parka features 360° of reflectability - two reflective stripes down the chest, a 'X' on the back, and bands around the arms and waist. The water repellent outer shell makes this an excellent parka for inclement weather and cold winters. The parkas are made of 100% polyester and have a inner black lining with diamond-shaped quilting. Material is 300 denier and the lining is 200 grams. Jacket features front storm flap with 5 snaps and a two-way zipper, set-in long sleeves with an inner knitted wrist storm cuff, 2 flap waist pockets, inside left and right chest pockets with velcro closure, and a hood that rolls into the collar and features a drawstring with plastic bell knob stopper.

3-In-1 Traffic Jackets

The best of all worlds - enjoy a winter jacket with a zip-in reversible traffic vest with removable sleeves. These high intensity traffic jackets increase the visibility of workers on any job site. Jacket features 360° of reflectability - two reflective stripes down the chest, a 'X' on the back, and bands around the arms and waist. The water repellent outer shell makes this an excellent choice for inclement weather and cold winters. Material is 250 grams (10 oz. per square yard) and the lining is 220 grams (8.8 oz. per square yard). The 100% polyester jacket with mesh lining features a front storm flap with 6 snaps and a one-way zipper, set-in long sleeves with a knitted storm cuff inside, inside left and right chest pockets with velcro closure, lower mobile phone pockets with velcro closures on both sides and a hood that rolls into the collar and features a drawstring with plastic bell knob stopper.

Bama Rubber Boot Insole

The ultimate in rubber boot insoles. This "air conditioning" system for boots employs a two layer system designed to protect your feet — keeping them dry and warm in rubber boots. The inner layer is constructed of an acrylic fleece for added insulation — the outer layer is a reinforced cotton fabric to absorb foot moisture. These washable insoles are of a sock form and have an elastic entry ensuring a firm hold in the boot, and preventing their removal.

Part No. 84-305-4/5, size 4/5
Part No. 84-305-6/7, size 6/7
Part No. 84-305-8/9, size 8/9
Part No. 84-305-10/11, size 10/11
Part No. 84-305-12/13, size 12/13

Insoles perfect for every application from rubber boots to adding additional thermo protection for your work boots. Moccasin Cut is excellent for all rubber boots and winter boots, while the Profile Cut is contoured to fit leather work boots.

DURAY WORK SOCKS

MMM/2637

Original Work Sock

Two-ply twisted yarn knit made of 50% wool, 25% acrylic, 20% nylon, and 5% other fibres provide excellent comfort and durability. Package of 3 pairs.

AIR ACTIVATED WARMERS

•Keeping hands, feet, or your body warm in cool or cold weather is always a concern of the avid outdoorsman. Hothands® provide you warmth and freedom to endure cold climate situations. This product is used by professional athletes, outdoor sportsmen, spectators, skiers, construction workers, and by those who want safe, convenient, concentrated warmth. Hothands® are made of natural materials including iron powder, water, salt, activated charcoal and vermiculite. Each warmer is sealed in a specially designed outer package. Once removed from this package exposure to air activates the ingredients and the warmer begins to build heat.

Hothands-2 Hand Warmers

Compact 2.25" x 4" warmer designed for gloves and mittens and lasts up to 10 hours.
Part No. 16990, twin pack.

Toasti Toes® Foot Warmer With Adhesive

For the active outdoorsman who will be walking or moving while outdoors. This foot warmer works great. It lasts up to 5 hours and has adhesive on one side that sticks to the bottom of your socks.
Part No. 16992, one pair/pkg.

Conviction SRT (Safety Resin Technology) Series

Conviction SRT series is a technologically advanced safety boot design to keep your feet warm and safe in cold climate applications. The non metallic safety toe and sole protection features Safety Resin Technology. Safety resin toe cap is the latest innovation in non metallic safety protection. The compound is able to be injected in a dense format providing superior non metallic protection while maintaining a sleek profile and light weight flexible protection. Boots Feature: •-40°C removable inner boot system •Nitrile Rubber Outsole - Provides excellent traction in a variety of conditions and temperatures; Acid and oil resistant •Polyurethane Base - Light weight shell; Acid and oil resistant; Flexible; Cold crack resistant •Safety Components - Non detectable hardware; Safety resin non metallic toe and plate provide next generation technology that meets and exceeds all CSA standards, is extremely light weight, flexible and is non-detectable in security x-rays.

Nitri-Seal® Gloves

Natural rubber coated glove, featuring a nitrile overdip for extra resistance to oil, grease, and other chemicals. These gloves have a wrinkle finish for a strong wet or dry grip. Ideal for handling lumber, glass, metal strappings, sheet metal, and other sharp edged materials. **Palm coated, style. Size 10.**
Part No. 2912, Safety cuff

Hustler® Gloves

Premium grade PVC and reinforced with nitrile. Good in the petrochemical, refining, general chemical handling, shipbuilding industries; and material handling in acids, oil, grease, caustics, and many solvents. This glove features a jersey liner and a rough finish.
Part No. 725-R, Size 10, 12" gauntlet cuff
Part No. 728-R, Size 11, 18" gauntlet cuff

Black Knight® Gloves

An economical, PVC fully coated jersey lined glove for a multitude of jobs such as petrochemicals, refining, mining, automotive subassembly and handling slick, abrasive materials. Size 10.
Part No. 7703-R, Knit wrist cuff
Part No. 7712-R, 12" gauntlet cuff
Part No. 7714-R, 14" gauntlet cuff

Nitri-Flex Lite® Gloves

Seamless nylon knit glove with a textured green nitrile palm coat. Snug fitting knit wrist glove is extremely flexible. Resists cuts, snags and abrasion with non-slip grip.
Part No. 4500-7, Size 7
Part No. 4500-8, Size 8
Part No. 4500-9, Size 9
Part No. 4500-10, Size 10

Big Orange Gloves

High grade PVC with high visibility. For workers whose hands must be seen. These gloves feature a jersey liner and a rough grip finish. Size 10.
Part No. F-852,12" gauntlet cuff
Part No. F-853, Knit wrist cuff

Nitri-Pro® Gloves

Super synthetic nitrile coated glove that is an economical replacement for medium to heavy duty leather palm work gloves. Superior resistance to oil, grease, and most chemicals, cuts, abrasions, and snags. Excellent for handling rough castings, cores, extrusions, tubular steel, sheet metal, drywall, concrete block and bricks. These smooth finish gloves feature a two-piece jersey liner.

Part No. 7166-10, Size 10

Nitri-Flex® Gloves

This nitrile-coated glove with a textured grip provides maximum wear and excellent cut, puncture, and abrasion resistance. Featuring a two-piece 100% cotton interlock liner for comfort, flexibility, and dexterity. Excellent for assembly, shipping and receiving, general maintenance and light fabrication. Fully coated.
Part No. 4000-8, Size 8, knit wrist
Part No. 4000-9, Size 9, knit wrist
Part No. 4166-8, Size 8, safety cuff
Part No. 4166-10, Size 10, safety cuff

Insulated Big Orange Gloves

This PVC coated glove with triple-layer construction resists chemicals and abrasion. Because of its high visibility it is ideal for workers whose hands must be seen. These gloves feature a unique crinkle finish. Size 10.
Part No. 75, 12" gauntlet cuff
Part No. 76, Safety cuff

Insulated Super Flex® Gloves

This PVC coated glove with its triple-layer construction and rough finish is ideal for municipalities, cold storage, yard and field work, outdoor maintenance, and the fishing industry. Tan Colour. Size 10.
Part No. 7022, Safety cuff
Part No. 7033, Knit wrist cuff

Zorb-It™ Gloves

Unique "sponge nitrile" technology produces an extra absorbent nitrile dip that conforms and adheres to the nylon shell like no other glove available. Launder over and over again with no shrinkage.
Part No. 4550-7, Size 7
Part No. 4550-8, Size 8
Part No. 4550-9, Size 9
Part No. 4550-10, Size 10

Cannonball® Gloves

A proven performer, this is a high grade PVC multidipped glove with a rough finish for extra protection and grip. Excellent for fishing, petrochemicals, refining, construction, mining, utilities, and handling abrasive materials coated with oil and grease. Cannonball's high grade PVC coating provides outstanding chemical resistance, wear and flexibility, making it an excellent choice for abrasive chemical applications. Size 10.
Part No. 803, Knit wrist cuff
Part No. 812, 12" gauntlet cuff
Part No. 814S, 14" gauntlet cuff
Part No. 823, Mitt, knit wrist cuff

Super Flex® Gloves

Low temperature resistant PVC formulation keeps Super Flex gloves soft and supple even in cold conditions. Excellent for general material handling, construction, agriculture, and for handling oils, acids, and alcohols. These rough finish gloves are jersey lined. Size 10.
Part No. 763-Y-R, Knit wrist cuff
Part No. 765-Y-R, 12" gauntlet cuff

Insulated Nitri-Pro® Gloves

Nitrile coated glove featuring triple-layer construction. Smooth finish. Ideal for situations requiring good abrasion, cut, and puncture resistance. Application: Fuel oil trucks, pipelines, and petrochemicals. Fully coated. Size 10.
Part No. 8166, Safety cuff

Neoprene Gloves

A premium grade neoprene heavyweight glove with smooth finish. Resistant to caustics, oils, greases, and solvents. Excellent all-round protection against physical hazards such as abrasion and cuts. Size 10.
Part No. 6784, 14" gauntlet cuff

Nitty Gritty® Gloves

Often imitated but never equalled, the original Nitty Gritty was the industry's first wrinkle-finished, natural rubber coated glove. This glove offers the best in both grip and protection. Having a five-piece flannel lined construction, this glove is recommended for the most rugged jobs — handling sharp edged objects like glass and sheet metal. Size 10.
Part No. 66-NF-W, Safety cuff
Part No. 99-NF-W, Gauntlet cuff

Insulated Rough Tough Gloves

This PVC coated glove with triple-layer construction resists chemicals and abrasion. Applications include fuel delivery, municipalities, cold storage, trash collection, fishing, and lumber industries. Unique green crinkle finish for excellent grip. Size 10.
Part No. 272, 12" mitt, gauntlet cuff
Part No. 275, 12" gauntlet cuff
Part No. 276, Safety cuff

N-Dex® Gloves

N-DEX gloves are a low powder, low-modulus, ambidextrous, and disposable glove. Made of 100% blue nitrile. **Not for medical use**. 4-mil, 9½" gloves. Box of 100.
Part No. 7005-M, Medium
Part No. 7005-L, Large
Part No. 7005-XL, Extra large

Derma Thin® Gloves

Unsupported natural rubber glove, ambidextrous, surgical type disposable glove with strength, unsurpassed sensitivity and optimum dexterity. Recommended for cosmetic and pharmaceutical laboratories, food processing, and electric applications. 5 mil, 10" gloves. Box of 100.
Part No. 1005-M/L, Green - medium/large
Part No. 5005-S, White - small
Part No. 5005-M, White - medium
Part No. 5005-L, White - large

Chem Master® Gloves

Unsupported neoprene over natural rubber glove. Excellent for battery manufacturing, chemical plants, aircraft assembly, food processing, and plant maintenance. Tactile sensitive with a tractor tread grip and flock lining. Black/blue. 26 mil, 13" gloves.
Part No. CHM-L, Large
Part No. CHM-XL, Extra large

Value Master® Gloves

Unsupported natural rubber glove recommended for food processing, canning, lab work, pharmaceutical processing, and delicate electronic applications. Ideal for handling of many salts, alkalis, ketones, and acids. Yellow textured finish and 100% air tested. 18 mil, 12" flock lined gloves.
Part No. VM-L, Large
Part No. VM-XL, Extra large

Nitri-Solve® Gloves

Made from special nitrile (NBR) compound, Nitri-Solve provides excellent protection against abrasion, puncture, cut, and snags as well as resistance to a broad range of solvents, animal fats and other chemicals. Applications: food processing, petrochemical, refining, chemical processing, automotive assembly, painting, machine operations using cutting oil, metal fabrication, handling pesticides. Bisque finish for better grip. Green. 15 mil. 13" flock lined.
Part No. 730-9, Size 9
Part No. 730-10, Size 10

Natural Rubber Latex HD® Gloves

Unsupported natural rubber heavy duty glove is liquid proof for dip tank applications. Features a two-colour construction (red inside/black outside) for added safety. Smooth finish. Excellent for sandblasting and electroplating. This glove is not recommended for electrical use. 50 mil. Size 10.
Part No. **558-10**, 18" rolled cuff

Disposable Latex Gloves

Natural latex gloves are ideal for industrial repair work. They fit either hand while providing superior manual dexterity. Lightly powdered, the gloves are easy to put on and take off. Each glove features textured fingers that are ideal for gripping dirty parts and tools. Ideal for all mechanical repairs that do not require extensive chemical resistance.

Part No. 09193, 50-ct. box - Large.

Disposable Nitrile Gloves

Made from a 100% synthetic rubber that provides superior resistance to a wide range of solvents and hazardous chemicals. Nitrile gloves are suitable for users with natural rubber latex sensitivity. They feature textured fingers that provide a secure grip on dirty parts and tools. Gloves are lightly powdered, which makes them easier to put on and take off. When superior chemical resistance is required, Permatex® Nitrile Disposable Gloves provide users with ideal heavy duty hand protection.

Part No. 09194, 50-ct. box - Large.

Value-Touch™ Latex Disposable Gloves

LEGEND FOR LENS TINTS & COATINGS

Lens Tints:

Clear - used for most indoor work applications
Grey - minimizes outdoor sunlight and glare
Amber - for low light applications where enhanced contrast is needed
Silver Mirror - deflects sunlight and glare
Blue Ice Mirror - deflects sunlight and glare
Orange Mirror - deflects sunlight and glare
SCT-Reflect 50 - light mirror coating for varying light conditions
SCT-Grey - minimizes outdoor glare and offers true colour recognition
SCT-Vermilion - for indoor applications where contrast is needed, such as inspection
SCT-Blue - applications with high levels of sodium vapor lighting
ID-Infradura® welding lenses

Lens Coatings:

(XTR) Uvextreme® antifog coating performs under the most extreme conditions and will not wear off after repeated proper cleanings. It is permanently bonded to the lens and retains anti-scratch, anti-static and UV protection properties.
(UD) Ultra-dura® hard coat is permanently bonded to the lens and is scratch resistant and chemical resistant

HDL Yellow	High Definition Lens - Yellow	Enhances and brightens low level light (dusk, dawn, indoor), UV and blue light protection.
I/O™	Indoor/Outdoor	Dual purpose, clear mirrored lens recommended for indoor and outdoor jobs. Reduces glare from natural and artificial light.
Shaded IR/PC	Shaded Infrared/Polycarbonate	UV, blue light, and IR protection. For protection from light cutting, brazing, and welding. Green Shades 1.7 to 5.
TCG™ - Dark	True Colour Grey - Dark	Reduces glare and provides true colour perception. UV, blue light, and limited IR protection. Outdoor use.
TSR® Grey	Traffic Signal Recognition	Meets ANSI requirements for traffic signal colour recognition. Grey and mirrored grey lenses for outdoor use. Provides UV protection.

Welding Helmets, Headgear & Visors

KWIK-KLIP® HEADGEAR FOR HARD HATS

Durable Kwik-Klip accessories allow secure attachment to Willson or competitive safety caps using a simple spring tension band with sturdy nylon brim hooks. Willson offers a comprehensive selection of Kwik-Klip headgear and mounting strips for safety caps, brackets, attachments and other accessories. Interchangeability and adaptability help maintain operating costs and let you make maximum use of your safety equipment.

Part No. 11380030, Plastic visor mounting strip.

Part No. 11380031, Plastic visor mounting strip for non-slotted safety caps.

Part No. 11380032, Aluminum visor mounting strip.

Part No. 11380029, Aluminum bracket.

PRO SYSTEM® COMBINATION HEAD, HEARING & FACE PROTECTION KIT

The Pro System provides comfortable head, eye, face, and hearing protection to meet a variety of needs. This multi-task system features a lightweight polyethylene hard hat, with an adjustable nape strap for a secure fit, high performance cap-mounted ear muffs with NRR 25dB and low glare steel mesh visor. Polysafe® Protective Eyewear is included, to provide primary safety eyewear for protection from flying debris. Ideal for a vast array of applications, all Pro System components meet or exceed applicable ANSI standards. Pro System®, includes: 73BC yellow Beta® safety cap, Bilsom® 728 earmuffs, steel mesh visor and Polysafe safety eyewear. NRR 25 dB.

Part No. 13910046.

PROTECTO-SHIELD® PROLOK® HEADGEAR - WITHOUT VISOR

Allows simple, secure attachment of Willson visors.
Model V5N - This improved version of the extremely popular V5 headgear is suited for a wide range of uses, including high-heat applications. It features a plastic browguard, ratchet adjustment and padded sweatband.
Part No. 11380048.

Model V15N - Constructed of high density polyethylene, this economical browguard model offers a snap adjustment for quick, easy sizing and sweatband.
Part No. 11380049.

PROTECTO-SHIELD® VISORS

For facial protection against impacts, sparks, liquid splashes and welding related hazards. Quality features: •Universal hole pattern tested with most headgear •Easy attachment without snaps, posts or levers •Reinforced edge to resist cracking from abuse •Compliance with ANSI Z87.1-1989 and CSA Z94.3-1999 high impact standards.

COMBO SAFEPACK PLUS UNIVERSAL SIDE SHIELDS

The COMPLIANCE SAFEPACK PLUS conveniently contains: •10 pairs of B-52 AYE MATE side shields for conventional safety frames and •10 pairs of B-26 WING MATE side shields for narrow safety frames •10 kits of CC-26 custom comfort cushions •20 required instruction booklets for the selection, use and care of side shields.
FEATURES: •UNIVERSAL CONFORMITY - Patented designs that adapt to the shape of a wide range of frames •QUICK CHANGE - These unique side shields can be installed or removed quickly without tools •PROTECTION - Molded from high impact resistant polycarbonate made from GE LEXAN resin. Impact tested to meet the compliance issues of the new ANSI Z87.1 2003 standard and CSA Z-94 specifications on both metal and plastic frames. Complies with DOL, OSHA Rule 29 CFR Part 1910.133 Effective July 5, 1994. •RESILIENT ELASTOMERIC MOUNTING - Superior EP mounting band is resistant to oil, chemicals and weather. Bands permit side shields to be securely attached to various frame shapes. •FORTIFIED WITH UV SHIELD - Protect against harmful UV radiation. Exclusive UVS additive provides an ultraviolet barrier, which effectively attenuates UV up to 380 nanometers.
Part No. CP-5226.

MACH II SERIES
Comfortable, complete coverage for face and neck protection. Molded from high strength polycarbonate material, it is made to withstand rugged use. Adjusting ratchet type suspension that can be quickly adjusted to the correct head size. Oversized 7½" x 15½" visors securely lock into place with swivel type locks to provide frontal and lateral protection.

Crowns Only (visor sold separately)
Part No. 7220000RSS, MACH II faceshield with ratchet style suspension.
Part No. 7220000CAP, MACH II faceshield with hard hat adapter.

Visors
Clear polyester visor, flat - 0.040"thickness.
Part No. 7221000PLC, MACH II clear polyester visor - 7" x 16¾" size.
Part No. 7211000PLC, MACH & MACH II visor - 7½" x 15½" size.

Crown shown with Visor

WIDE VISION COVER FLEX WELDER'S GOGGLE
With soft vinyl frame complete with 2" x 4¼" (shade 5) welding plate and cover lens. Goggles come standard with adjustable elastic headband and six ventilation ports, will fit over prescription eyewear.
Part No. 73042.

LIFT FRONT WELDING HELMET
Thermoplastic reinforced with curved chin. Helmet features lift front 2" x 4¼" welding plate holder, and floating suspension headgear w/ ratchet style headband adjustment.
Part No. 73002.

FIBRE METAL

Welding Protective Equipment & Accessories

SUPERGLAS® FIBREGLASS WELDING HELMETS

Superglas® tough fibreglass provides effective welding protection shift after shift, year after year. Its durable smooth surface sheds spatter, its molded-on glassholder never loosens or needs replacing and its glass-reinforced shell holds its shape on any jobsite.
Part No. 706, under-chin welding helmet, lift front, 2" x 4¼".
Part No. 880, under-chin welding helmet, wide vision, 4½" x 5¼".
Part No. 606, straight front welding helmet, lift front, 2" x 4¼".
Part No. 680, straight front welding helmet, wide vision, 4½" x 5¼".
Part No. 110-P, Pipeliner™ Superglas Plus fibreglass welding helmet with elastic headband, fixed front, 2" x 4¼".

706
(under-chin style)

110-P

WELDING HANDSHIELDS

Handshields for inspectors and "occasional" welders. Heat resistant handles instead of headgear. Standard shaped fibreglass shells and universal thermoplastic Tigerhood® shapes.
Part No. 713, Fibreglass standard handshield, 2" x 4¼".
Part No. 913, Thermoplastic Tigerhood handshield, 2" x 4¼".
Part No. 998, Thermoplastic Tigerhood handshield, wide vision, 4½" x 5¼".

913
(straight front style)

TIGERHOOD® THERMOPLASTIC WELDING HELMETS

Tigerhood® helmets are the lightest weight standard size welding helmets. They are molded from Noryl, a tough weight-to-strength, heat resistant thermoplastic. Their universal shell shape combines under-chin and straight-front helmet benefits to increase welder comfort and protection.
Part No. 906, Tigerhood thermoplastic welding helmet, lift front, 2" x 4¼".
Part No. 990, Tigerhood thermoplastic welding helmet, wide vision, 4½" x 5¼".

906

990

TIGERHOOD® FUTURA HELMETS

Streamlined shape is designed to satisfy welders' needs. Classic 3-C free floating headgear ensures maximum comfort. Sturdy, durable ratchet headgear. Easy to use front loading glassholders increase production, reduce downtime. Complete with a shade 10 filter plate installed.
Part No. 2006SL, Silver.

TIGERHOOD HIGH PERFORMANCE ADF (AUTO DARKENING FILTER LENS)

Increases productivity, improves quality, etc. "Intelligent" lens technology distinguishes between welding arcs and extraneous sources of light.
Part No. 990HPV, With variable shades #10, 11, 12, 13.
Part No. 990HPF10, Fixed shade #10.
Part No. 990HPF11, Fixed shade #11.
Part No. 990HPF12, Fixed shade #12.

WELDING HELMET REPLACEMENT HEADGEAR

Deeply offset, pliable headband fits head contours comfortably. Overhead band with multiple adjustments helps position the glassholder for the best view of the weld and a comfortable working position. Exclusive "free-floating" arms balance and stabilize the helmet while minimizing pressure points.

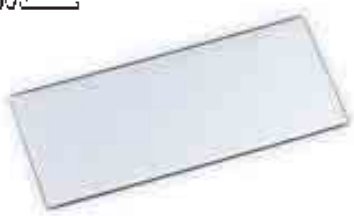
Standard ratchet headgear.
Part No. 3-C.

Quick-Lok® ratchet headgear.
Part No. 3-Q.

Pipeliner ratchet headgear.
Part No. 1-CR.

Pipeliner elastic headgear.
Part No. 1-CP.

Tigerhood Ultralite ratchet headgear.
Part No. 1-UL.



WELDING HELMET PARTS & GLASS

Part No. 1092, Retaining spring for glass holders #1096, 1085.
Part No. 9101P, Retaining spring for glass holders #606, 670, 676, 706, 710, 910, 906, 110, 110P.
Part No. 9901, Retaining spring for glass holders #990, 880, 680.
Part No. 1096, Glass holder, lift front, complete.
Part No. 1097P, Replacement lid kit, complete for all lift front glass holders.
Part No. 1170, Gasket for glass holders #1096, 1097.
Part No. 9902, Gasket for glass holders #990, 880, 680, 190.
Part No. P243, Glass safety/cover lens, clear, 2" x 4¼".
Part No. P453, Glass safety/cover lens, clear, 4½" x 5¼".

LIGHT DUTY FACESHIELD HEADGEAR

3" crown protector with ratchet headgear and padded, perforated sweatband. Standard view window series with channel grip mounting system for a quick, positive seal. Window sold separately, below.
Part No. F300.

Standard View Faceshield Window
.060", 8 x 11¼".
Part No. 4118C, Clear.
Part No. 4118G, Green.

MEDIUM DUTY FACESHIELD HEADGEAR

4", broader, deeper crown protector includes free-floating #3C headgear. Wide view window series for nearly 40% more protective area, with channel grip mounting system. Window sold separately, below.
Part No F400.

Wide View Faceshield Window
.060", 8 x 16½".
Part No. 4178C, Clear.
Part No. 4178G, Green.
Part No. 4178IR50, Shade 5.0

HEAVY DUTY FACESHIELD HEADGEAR

7" crown protector maximizes protection from a wide range of adverse environments. Includes #3C headgear. Exclusive wrap-around extended view windows protect greatest area, do not inhibit movement. Includes channel grip mounts. Window sold separately, below.
Part No. F500.

Extended View Faceshield Window
.060", 9¾" x 19".
Part No. 4199C, Clear.
Part No. 4199G, Green.

SUPEREIGHT® SUPERELECTRIC® E-2 & ROUGHNECK® P-2W HARD HATS

Supereight Superelectric E-2, the quality leader in head protection, is a thermoplastic, dielectric hard hat. Unique smooth crown design; 360° padded, perforated sweatband; multiple position adjustable headband; technically advanced eight point impact energy control suspension. Available in a variety of colours. With ratchet headband and Quick-Lok® block.

Roughneck P-2W fibreglass caps are built for strength, toughness, and durability, providing exceptional crack resistance. These caps handle the hard knocks in the toughest places — without developing the nicks and cracks often seen in other fibreglass caps. Available in a variety of colours. With ratchet headband and Quick-Lok® block.

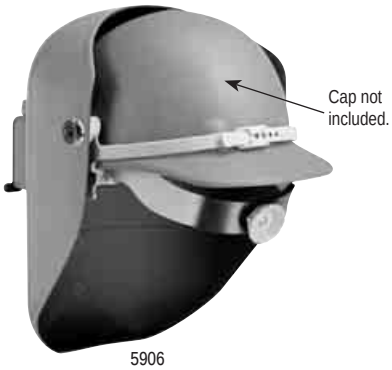
Welding Protective Equipment & Accessories

WELDING HELMET WITH SPEEDY-LOOP SYSTEM FOR USE WITH PROTECTIVE CAPS

For frequent on/off use with protective caps, welding helmets, faceshields, etc. equipped with Speedy® mounting loop. May be mounted and removed without removing the cap. Lift-front, 2" x 4¼".
Part No. 5906.



5906

WELDING HELMET WITH QUICK-LOK® SYSTEM FOR USE WITH PROTECTIVE CAPS

For long term combination use. These mounting blocks are screwed onto the protective cap. Welding helmets, faceshields, etc. with Quick-lok cups can then be securely mounted onto, and removed from, the cap without tools. Lift-front, 2" x 4¼".
Part No. 4906.

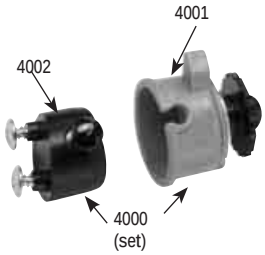
FACESHIELDS FOR USE WITH PROTECTIVE CAPS

With Quick-Lok mounting cups. Window sold separately.
Part No. F4400, 4" faceshield.
Part No. F4500, 7" faceshield.

F4400

QUICK-LOK ATTACHMENT ACCESSORIES

Part No. 4000, Quick-Lok kit, complete.
Part No. 4001, Quick-Lok helmet mounting cup.
Part No. 4002, Quick-Lok cap mounting block.



SPEEDY-LOOP KIT

Part No. 5000.

SLOTTED CAP BLADES

Part No. 6000.

BERNARD SHORTSTUBS® ELECTRODE HOLDER

Electrode can be used to within one inch of the Shortstubs head. Built to last with a proven high impact, high heat separate and easy to install replacement head. Capacity: 400 amps at 60% duty cycle. Electrode size: 1/16 - 1/4 (1.6 mm - 6.4 mm). Length: 8¾" (22 cm).
Part No. 40S.

Replacement head assembly for #40S.
Part No. K40.

FIBRE-METAL ELECTRODE HOLDER

"Twist Type" 400 amp at 60% duty cycle. Accepts electrodes 1/16" to 1/4" (1.6 mm - 6.4 mm). Length: 8¾" (22 cm). Similar handle design as most popular models on the market today. Interchangeable with popular models on the market today. Large set screw cable connection (same as most popular models).
Part No. S-400.

Replacement head assembly for #S-400.
Part No. T-400AD.

HEAVY DUTY CABLE CONNECTORS

Part No. FM40HD, Complete set. North American style; fits cables #4 to 4/0.
Part No. FM-40M, Male only.
Part No. FM-40F, Female only.

FM40HD

GROUND CLAMPS

Part No. FMG-300, 300 amp.
Part No. FMG-500, 500 amp.

HAMMER-ON LUGS

FLINT SPARK LIGHTERS
Part No. 3001, Round file single flint spark lighter.
Part No. 3001X, 5 pack replacement single flint.
Part No. 4501, Round file triple flint spark lighter.
Part No. 5012X, 4 pack replacement triple flint.

FOUR-PANEL SOFT WELDER'S CAP
Designed to cover more head and hair area. Reversible print/solid.
Part No. WC-470.

ENVIROSPAT PREMIUM ANTI-SPATTER CONCENTRATE
Prevents spatter build-up in welding applications of all types of materials including steel, stainless steel, aluminum. 16 oz. aerosol.
Part No. ES-16-A.

3M
Welding Drapes

•High Performance Welding Drape - Unique, ultra fire resistant fabric. Will not burn through, resists penetration by MIG weld spatter or grinding sparks, keeps components safe when performing welding operation. Lightweight, soft fabric, easy to handle and hold in place. Durable fabric, extended wear and tear resistance.
Part No. 05919, 57" x 80" Welding Drape.

WELDING ACCESSORIES
Welding Blankets & Heat Isolation Pads

WELDING BLANKETS
A 20 ounce and 32 ounce fibreglass base fabric that has been impregnated with cured silicone rubber. The silicone coating adds extended life while providing greater oil and water resistance than uncoated fabrics as well as low smoke and flame retardancy. Base fabric is safety rated to 537°C continuous operating temperature, the silicone coating is safety rated to 260°C on a continuous basis. Operating temperatures have a safety factor of 4:1.
Part No. TW20-5X5, 20-ounce, 5 ft. x 5 ft.
Part No. TW20-5X8, 20-ounce, 5 ft. x 8 ft.
Part No. TW32-5X5, 32-ounce, 5 ft. x 5 ft.
Part No. TW32-5X8, 32-ounce, 5 ft. x 8 ft.

HEAT ISOLATION PADS
These pads are designed to insulate and protect personnel, equipment, or the working environment from potentially hot hazards. Perfect personnel protection from hot steam pipes; exhaust systems, heating systems, etc. Protects equipment and the working environment from a temporarily introduced heat source. The pad is constructed of a high performance one inch thick insulating material that is covered with a high temperature resistant fabric on one side and a silicone impregnated, non (liquid) absorbing fabric on the other. The tan (or hot) side has a continuous temperature rating of 815°C, while the red (non-absorbing) side is rated at 260°C. Superior protection for use by welders, plumbers, maintenance personnel, mechanics, etc.
Part No. IP-12X12, 12" x 12".
Part No. IP-18X18, 18" x 18".
Part No. IP-24X24, 24" x 24".
Part No. IP-36X36, 36" x 36".

MARKAL®

Thermomelt® Temperature Indicators

•Accurate, fast, low-cost method for measuring surface temperatures •Accurate to within ±1% of stated temperature •4½" Thermomelt® Stik® features a stainless steel holder with pocket clip for convenient, easy use •Meets ANSI/ASME CODE B31.1, and B31.3, AWS D1.1 and ASME Code Sec. I, III and VII, NIST traceable

Welding Helmets & Headwear

RATCHET TAKE-UP HEADGEAR

Designed to give the worker unrestricted movement, comfort and safety. The headband adjusts by pinlocks and the pivot assembly can be adjusted while wearing heavy gloves. Features include: Ratchet style head band, compact lightweight spark guard, adjustable tension pivot assembly, CAM locks window retention. (Faceshield lens ordered separately.)
Part No. 244065.

HEADGEAR WITH VISOR & CHIN PROTECTOR

Features a chin protector for additional protection from objects or splash. An adjustable ratchet headband with "Full-floating" mounting and an adjustable tension pivot assembly provides comfort and convenience. Large spark guard on headgear.
Part No. 244041.

FORMED FACESHIELDS

Polypropionate clear shield measuring 8" x 15.5" x .060". The attachment pattern is a series of slots designed to fit a large variety of headgear.
Part No. 243960, Clear.
Part No. 244090, Dark Green.

FLIP FRONT HIDEROK® WELDING HELMET

Extremely lightweight which reduces fatigue. The "Hiderok" material was selected to deliver the desired strength, flexibility and safety with the least possible weight. The helmet shell is a seamless one piece construction. Perfectly balanced with ratchet headgear and 4 position adjustment for maximum comfort. 2" x 4" flip front, c/w Shade II IR filter plate and clear polycarbonate cover plate.
Part No. 320000.
Part No. 232010, Replacement Ratchet Headgear.

NOISE BLOCKING EARMUFFS

When you need to block the noise. Thunder®, Leightning®, Viking™ and Mach 1™ earmuffs provide a choice of features and protection ideal for many workers and environments.

LEIGHTNING® SERIES

•Maximum protection from an earmuff •With Air Flow Control™ technology •Robust steel headband withstands demanding use •Padded foam headband and super soft ear cushions deliver long wearing comfort •Contemporary design improves wearer compliance •Telescoping height adjustment
Part No. 1010924, 30 NRR.
Part No. 1010923, 27 NRR.
Part No. 1010922, 25 NRR.

LEIGHTNING® CAP-MOUNT

•For use with a wide range of popular hard hats •Earcups snap in place during use and swing back when not in use •Adapter included with earmuff
Part No. 1011993, 27 NRR.
Part No. 1011992, 25 NRR.
Part No. 1011991, 23 NRR.

LEIGHTNING® NECKBAND

•Sleek, anatomic behind the head design •Use with face shields, visors, hard hats and other PPE •Includes headband strap for better positioning
Part No. 1011996, 28 NRR.
Part No. 1011995, 26 NRR.
Part No. 1011994, 25 NRR.

LEIGHTNING® FOLDING

•Convenient folding design for easy storage
Part No. 1011997, 27 NRR.

1011996

1011997

LEIGHTNING® HI-VISIBILITY SERIES

•Fluorescent green earcups, provide high visibility and contrast on the job. Ideal to wear at night, during the day, in low light, and under inclement weather conditions. Bright fluorescent green colour does not fade when exposed to sunlight •Reflective padded foam headband •Maximum protection from an earmuff with Air Flow Control™ technology •Robust steel wire headband withstands demanding use •Padded foam headband and super soft ear cushions deliver long wearing comfort •Snap-In ear cushions •Contemporary design improves wearer compliance •Telescoping height adjustment
Part No. 1013941, Headband Earmuff - 30 NRR.
Part No. 1013942, Folding Earmuff - 27 NRR .

THUNDER® SERIES

•Top of the line protection and comfort •With Air Flow Control™ technology •Uniform headband pressure for all head sizes •Inner ventilated headband minimzes pressure on the head, breathes easier in warm/humid climates (929 & 970 only) •Non-deforming outer headband withstands rough treatment •Quick-Click height adjustment •Dielectric design for safe electrical environments
Part No. 1010970, 30 NRR.
Part No. 1010929, 28 NRR.
Part No. 1010928, 26 NRR.

THUNDER® CAP-MOUNT

•For use with a wide range of popular hard hats •Earcups snap in place during use and swing back when not in use •Adapter included with earmuff
Part No. 1011603, 27 NRR.
Part No. 1011602, 25 NRR.
Part No. 1011601, 23 NRR.

THUNDER® FOLDING

•Convenient folding design for easy storage
Part No. 1011600, 25 NRR.

NOISE BLOCKING EARMUFFS

When you need to block the noise. Thunder®, Leightning®, Viking™ and Mach 1™ earmuffs provide a choice of features and protection ideal for many workers and environments.

VIKING™ SERIES

•Multiple position headband allows wearer to select position over-the head, behind-the-head, under-the-chin Alternative to cap mounted earmuffs - wear with hard hats, face shields, respirators and other PPE •Inner ventilated headband minimzes pressure on the head, breathes easier in warm/humid climates (926 & 927 only) •Includes head-band strap for better positioning •Dielectric design safe for electrical environments •Headband strap for multiple position wear

Part No. 1010927, 29 NRR.
Part No. 1010926, 25 NRR.
Part No. 1010925, 23 NRR.

MACH 1™ SERIES

•An economical choice for basic hearing protection •Adjusts to fit any head size •Dielectric, super lightweight construction

Part No. 1010421, 18 NRR.

SOUND MANAGEMENT EARMUFFS

Sometimes blocking sound isn't enough. You need to filter noise out and let information in. The sound management earmuffs use patented electronic and non-electronic technologies that screen out harmful noise while letting alarms, warnings and even co-workers' voices come through.

CLARITY™ SERIES

•Patented technology offers sophisticated filtering without electronics •Blocks noise but helps wearers hear co-workers' speech, warning sounds and alarms •Improves safety in environments where overprotection is a danger •Inner ventilated headband minimzes pressure on the head, breathes easier in warm/humid climates •Dielectric design for electrical environments

Part No. 1011146, 27 NRR.
Part No. 1011145, 23 NRR.
Part No. 1011142, 20 NRR.

CLARITY™ CAP-MOUNT

•For use with a wide range of popular hard hats •Earcups snap in place during use and swing back when not in use •Adapter included with earmuff

Part No. 1011147, 25 NRR.
Part No. 1011242, 20 NRR.

CLARITY™ FOLDING

•Convenient folding design for easy storage

Part No. 1011143, 20 NRR.

IMPACT™ SERIES

•Sound amplification allows wearers to hear important communication •Directionally placed stereo microphones amplify and enhance sound for more natural hearing •Ideal for hearing impaired workers •Limits sound amplification to 82dB •Automatic shut off and AUX signal input

Part No. 1010376, 23 NRR.

IMPACT™ CAP-MOUNT

Part No. 1010632, 21 NRR.

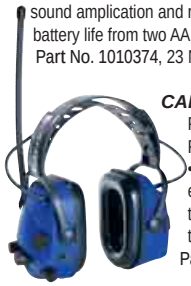
RADIO EARMUFFS

Add music and routine jobs become more satisfying. Radio earmuffs provide protection from noise — and let you listen to music from a built-in AM/FM stereo radio.

ELECTO®

•Separate controls for radio and sound amplification •Directionally placed microphones amplify and enhance sounds •Limits sound amplication and radio volume to 82 dB •130 hour battery life from two AA batteries

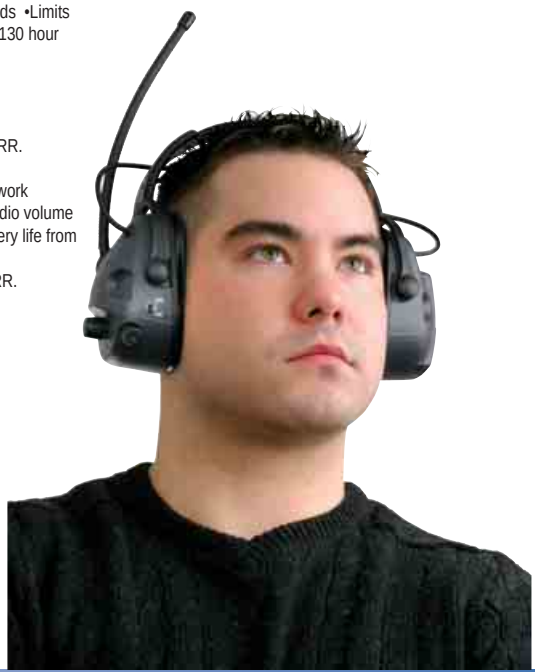
Part No. 1010374, 23 NRR.



CAP-MOUNT

Part No. 1010631, 21 NRR.
Radio
•Built for tough outdoor work environments •Limits radio volume to 82 dB •140 hour battery life from two AA batteries

Part No. 1010375, 23 NRR.



MOLDEX

Hearing Protectors

JAZZ BAND® SEMI-AURAL HEARING PROTECTOR

Cool and comfortable to wear. The high NRR 25 rating makes it an ideal alternative to earmuffs. The replaceable soft foam pods feature Moldex's exclusive AdB® coating to help provide maximum attenuation, repel dirt, and allow pods to be washed and reused. Spare pair of pods included plus optional breakaway neck cord to allow Jazz Band to conveniently hang around the neck when not in use.

Part No. 6506, Jazz Band under the chin hearing protector, standard box quantity is 10.

Part No. 6504, Bag of 5 replacement pods and 1 neck cord, standard box quantity is 50.

PURA-FIT® SOFT FOAM EAR PLUGS

High NRR 31 rating is suitable for most industrial environments. Tapered for easy insertion in any size ear canal. Made from softer foam with a non-irritating, smooth surface for comfort. Longer length for easy fitting and removal. Bright green colour for easy compliance checks. Corded model #6900 helps workers keep track of their ear plugs in applications like food processing and other chemical preparations.

Part No. 6800, Pair Pura-Fit ear plugs, standard box quantity is 200.

Part No. 6900, Pura-Fit ear plugs, corded, standard box quantity is 100

SPARKPLUGS® MULTI-COLOUR SOFT FOAM EAR PLUGS

Fun-coloured SparkPlugs are sure to put some spark into your hearing protection program. Every package reveals two different coloured SparkPlugs. The soft foam, tapered design snugly, yet comfortably, seals the ear canal. High NRR 30 rating is suitable for most industrial environments. Bright, fun colours provide for easy compliance checks. Non-irritating. Corded model #6654 helps workers keep track of their ear plugs when not in use.

Part No. 6604, Pair SparkPlugs ear plugs, standard box quantity is 200.

Part No. 6654, SparkPlugs ear plugs, corded, standard box quantity is 100.

PLUGSTATION®

Gives workers easy access, with high visibility, to earplugs. Increases awareness for your hearing conservation program. PlugStation is affordable enough to be placed virtually anywhere. PlugStation eliminates individual paper/poly-bag packaging, reduces mess and facility maintenance cost. PlugStation is sealed and disposable plus completely recyclable. Available in 2 sizes with either SparkPlugs (NRR 30) or Pura-Fit (NRR 31) soft foam earplugs. Mounting bracket with hardware included.

Part No. 6644, PlugStation with 250 pairs SparkPlugs ear plugs.

Part No. 6645, PlugStation with 500 pairs SparkPlugs ear plugs.

Part No. 6844, PlugStation with 250 pairs Pura-Fit ear plugs.

Part No. 6845, PlugStation with 500 pairs Pura-Fit ear plugs.

OVER THE GLASSES PROTECTIVE EYEWEAR

Features/Benefits: •Fits over most prescription eyewear •Also can be worn as regular safety glasses •Offers very good coverage •Wide field of view •The lenses are protected with : Anti-Fog, Anti-Scratch, Anti-UV 99.9%, and Anti-Static •Meets or exceeds ANSI Z87.1 and CSA Z94.3 requirements.

PART NO.	LENS COLOUR	SIDESHIELDS COLOUR
T11005	Clear	Clear

VISITOR™ PROTECTIVE EYEWEAR

Features/Benefits: •These spectacles offer premium protection to plant visitors •Large lens that provide a wide viewing field •The exclusive interlocking sideshield system offers all around protection from flying particles •Meets or exceeds ANSI Z87.1 and CSA Z94.3 requirements.

PART NO.	LENS COLOUR	SIDESHIELDS COLOUR
90S	Clear	Clear

BASIC™ PROTECTIVE EYEWEAR

Features/Benefits: •An economical solution for limited use situations •Injection molded polycarbonate lenses and temples •Absorbs more than 99.9% of harmful UV light •Meets or exceeds ANSI Z87.1 and CSA Z94.3 requirements.

PART NO.	LENS COLOUR	SIDESHIELDS COLOUR
T1900	Clear	Smoke

SPEC-CORD HOLDER & SIDESHIELDS

Part No. SS51, Cord holder for safety spectacle, black.
Part No. XG22A, Clear sideshields for glasses - does not meet CSA requirements.

DISPOSABLE LENS CLEANING STATION

Disposable Cleaning Station - with (1) 16 oz. bottle of antifog cleaning liquid and (2) boxes of cleaning tissues.
Part No. LCS2.

LENS CLEANING TISSUES & TOWELETTES

Lens Cleaning Tissues - 280 per box.
Part No. 1025.

Lens Cleaning Towelettes - 100 per dispenser box.
Part No. T1025T.

PROTECTOR 300™ SAFETY GOGGLES

Features/Benefits: •Large comfortable soft frame •Direct ventilation •Wide one piece lens •Meets or exceeds ANSI Z87.1 and CSA Z94.3 requirements.

PART NO.	LENS COLOUR	FRAME COLOUR
300	Clear	Green

SAFESPLASH 315™ SAFETY GOGGLES

Features/Benefits: •Large comfortable soft frame •Indirect ventilation (Cap vented) •Chemical splash protection •Meets or exceeds ANSI Z87.1 and CSA Z94.3 requirements.

PART NO.	LENS COLOUR	FRAME COLOUR
315	Clear	Green

HEADGEAR

Features/Benefits: •Accepts a wide range of faceshield styles •Large sparkguard provides excellent protection •Cross strap adjusts to allow an exceptional fit •Full floating mount sparkguard provides comfortable wear even with heavy faceshield and continuous use •Comes with protected holding system for faceshield •New non-slip ratchet system is easy to use and offers precise size adjustments.
Part No. KHG5001.

BRACKETS

Part No. CP5004, Aluminum bracket "High Heat Resistant".
Part No. CP5005, Plastic bracket made from nylon.

CP5005

Hearing Protection

DECIDAMP2™ EARPLUGS

Features/Benefits: •Expands to fit ear canal - maximizes wearer protection •Foam Construction - one size fits most. Lightweight, soft and comfortable. Non toxic and non irritating, disposable

Part No. 280005, 1 pair uncorded, cellophane pouch.

Part No. 282505, 1 pair uncorded, degradable paper pouch.

CONIC-FIT EARPLUGS

Features/Benefits: •One size fits most - extra long tab permits simple insertion and removal •Extreme comfort and fit - made from soft injection molded material •Each pair comes with its own storage case and handy chain •Orange colour - highly visible colour for easier safety checks and convenient cord for wearing around neck, minimizes loss.

Part No. EP02, 1 pair corded in storage case.

MUSTANG EARMUFFS

Features/Benefits: •No snag band - low profile for model EM4155 •Unique tension adjustability of EM4157 arms •Unique cup design •Good attenuation •Durable •Maximum comfort •Soft sealing cushions •Lightweight •Dielectric •Blue

Part No. EM4155, Head band earmuff, NRR 23dB.

Part No. EM4157, Cap mounted earmuff, NRR 20dB.

STEALTH EARMUFFS

Features/Benefits: •Unique cup design •Large, soft and comfortable sealing cushions •Extremely good attenuation at low and high frequency •Individual spring band wire •Two low mounting points for even, comfortable alignment •Padded head band on EM1282 •Easy mounting of arms and slots for cap muff EM1286 •Universal slot adapters •Green

Part No. EM1282, Head band earmuff, NRR 25dB.

Part No. EM1286, Cap mounted earmuff, NRR 24dB.

INTRUDER EARMUFFS

Features/Benefits: •Unique cup design •Exceptional performance •Large, flexible and comfortable cushions offering equal distribution of pressure •Head band is made of individual spring band wire with a soft padded cushion easily adapting to the head •Two low mounting anchor points on each side of the cup for even pressure and comfortable alignment •First class comfort at all times •Black/white.

Part No. EM7209, Cap mounted earmuff for full brim hat, NRR 27dB.

Part No. EM7202, Head band earmuff, NRR 28dB.

Part No. EM7206, Cap mounted earmuff, NRR 27dB.

HEAD/EYE/FACE/HEARING PROTECTION

Fully integrated protection. Specialized combination forestry kit. Comes with hard hat #A79 red, forestry screen #FS03, earmuff #EM4157.

Part No. FK13.

Part No. FS03, Black metal screen with integrated adapters. 7" x 15½".

Respiratory Protection

COMFORT MASK

Disposable comfort mask for protection against non toxic dusts. Not NIOSH approved.

Part No. RP1500.

N95 PARTICULATE RESPIRATORS

Provides exceptional comfort and worker protection. It features a soft cushioned nose seal for added comfort and a nose clip for improved fit. The headstraps are latex free. Provides protection from solids and particulate aerosols free of oil, and is ideal for dusty environments such as grinding, sanding and sweeping.

Part No. 7130N95, N95 Particulate Respirator.

Part No. 7140N95, N95 Particulate Respirator with exhalation valve.

P95 PARTICULATE RESPIRATORS

Comfortable and durable. Features a foam cushioned facepiece seal that conforms closely to the face for long lasting comfort and protection, latex free straps, and a built in exhalation valve for cooler and easier breathing.

Part No. 8140P95, P95 Particulate Respirator with exhalation valve.

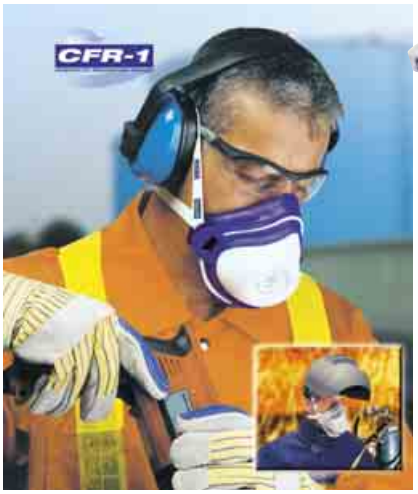
CFR-1™ COMFORT FIT RESPIRATORY SYSTEM

North's CFR-1 reusable particulate respirators give workers the comfort and protection they deserve at a much better value than ordinary dust masks. Ordinary dust masks quickly get warm, moist and uncomfortable and are often replaced several times a day. The filter in the CFR-1 does not touch the face keeping it cool and dry, and one filter can provide all day protection. The facepiece is reusable, and replaceable filters will save money and reduce waste.

Features/Benefits: •Soft thermoplastic elastomer seal provides maximum comfort to ensure greater worker acceptance •Exhalation valve removes air quicker for easier and cooler breathing •Inhalation valve keeps the filter drier and allows the user to perform a positive pressure seal check •Adjustable harness system will ensure a comfortable and secure fit •Parking mechanism provides a convenient place to put respirator when not in use •The CFR-1 Welding Respirator comes with a stainless steal mesh cover to protect the user from heat, sparks and slag

Part No. 4200S, CFR-1 Respirator with N95 filter (Small).
Part No. 4200M, CFR-1 Respirator with N95 filter (Medium).
Part No. 4200L, CFR-1 Respirator with N95 filter (Large).
Part No. 4200SW, CFR-1 Welding Respirator with N95 filter (Small).
Part No. 4200MW, CFR-1 Welding Respirator with N95 filter (Medium).
Part No. 4200LW, CFR-1 Welding Respirator with N95 filter (Large).

Part No. 42N95, Replacement N95 Particulate Filter.
Part No. 42R95, Replacement R95 Particulate Filter.



Part No. 4200S

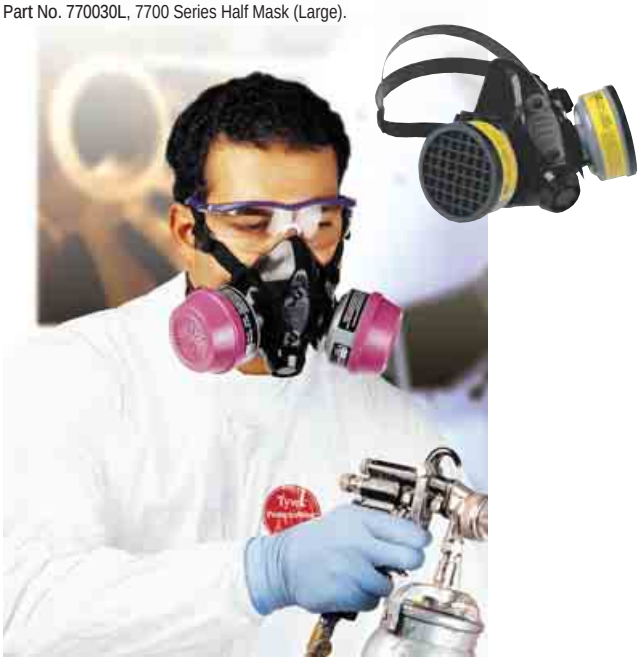
Part No. 4200SW

SILICONE HALF MASK - 7700 SERIES

Comfortable and durable half mask. Its soft non-allergenic silicone seal provides excellent protection, comfort and fit. The half mask cradle suspension system allows the facepiece to seal evenly on the face without creating pressure points. Its low profile gives workers a wide field of vision and does not interfere with protective eyewear. The low inhalation and exhalation resistance, makes breathing easier to reduce worker fatigue.

Features/Benefits: •Silicone facepiece material conforms to facial features and doesn't harden with age. Silicone is easy to clean, extremely durable and resists distortion ensuring a better fit, time after time. •Contoured sealing flange and cradle suspension system eliminates discomfort caused by pressure points on facial nerves. Design of nose area provides excellent comfort and fit. •Minimal dead air space improves worker comfort by limiting re-breathing of exhaled air •Direct cartridge to facepiece seal minimizes replacement parts and simplifies maintenance

Part No. 770030S, 7700 Series Half Mask (Small).
Part No. 770030M, 7700 Series Half Mask (Medium).
Part No. 770030L, 7700 Series Half Mask (Large).



LOW MAINTENANCE HALF MASK - 5500 SERIES

The North 5500 Series incorporates the comfortable and efficient design of the popular 7700 Series half mask with the low cost and convenience of a disposable.

Features/Benefits: •Made of extremely soft non-allergenic elastomer for comfort and fit. Contoured sealing flange eliminates discomfort caused by pressure points on facial nerves. Design of nose area provides excellent comfort and fit. •Low dead air space improves worker comfort by limiting re-breathing of exhaled air •Direct cartridge to facepiece seal minimizes replacement parts and simplifies maintenance

Part No. 550030S, 5500 Series Half Mask (Small).
Part No. 550030M, 5500 Series Half Mask (Medium).
Part No. 550030L, 5500 Series Half Mask (Large).

SILICONE FULL FACEPIECE - 7600 SERIES

Designed to provide eye, face and respiratory protection while ensuring optimal comfort and performance. Its dual flange silicone seal gives this facepiece superior fitting characteristics. The hard coated polycarbonate lens provides over 200° field of vision and protects the wearer's eyes and face against irritating gases, vapors and flying particles. The lens also provides excellent optics, is scratch resistant and meets ANSI standards for impact and penetration resistance.

Features/Benefits: •Silicone facepiece material conforms to facial features and doesn't harden with age. Silicone is easy to clean, extremely durable and resists distortion ensuring a better fit, time after time. •Oral nasal cup reduces fogging and lessens dead air space to improve worker comfort by limiting re-breathing of exhaled air •Speaking diaphragm makes communication easy •Five strap harness provides an effective and comfortable facepiece to face seal •Chin cup helps to position the facepiece properly •Neck strap allows wearer to park respirator when not in use

Part No. 760008AS, 7600 Series Full Facepiece (Small).
Part No. 760008A, 7600 Series Full Facepiece (Medium/Large).

LOW MAINTENANCE FULL FACEPIECE - 5400 SERIES

Weighing only 14 ounces, the 5400's lightweight design offers a level of comfort that ensures greater worker acceptance. Plus, its facepiece seal is made from a soft, pliable elastomer material with high chemical resistance to assure excellent comfort, fit and performance.
Features/Benefits: •Each facepiece comes with three peel-away windows, six respirator wipes and a storage bag. Oral nasal cup reduces fogging and lessens dead air space to improve worker comfort by limiting re-breathing of exhaled air •Chin cup helps to position the facepiece properly •Hard coated polycarbonate lens affords an over 200° field of vision, provides excellent optics, is scratch resistant and meets ANSI standards for impact and penetration resistance
Part No. 54001S, 5400 Series Full Facepiece (Small).
Part No. 54001, 5400 Series Full Facepiece (Medium/Large).

ACCESSORIES FOR HALF MASKS & FULL FACEPIECES

Part No. 80836A, 5 Pak Peel-Away Windows for all Full Facepieces (three peel-away lenses per assembly).
Part No. 76BAG, Carry bag for Full Facepiece Respirators.
Part No. 77BAG, Carry bag for Half Mask Respirators.
Part No. BP1002, Backpack Adapter, allows user to locate cartridges and filters out of the work zone, by placing them on the user's back. Easily adaptable to all North full facepiece and Half Mask respirators.

(Facepiece and cartridge sold separately.)

REFRESHER WIPE PADS

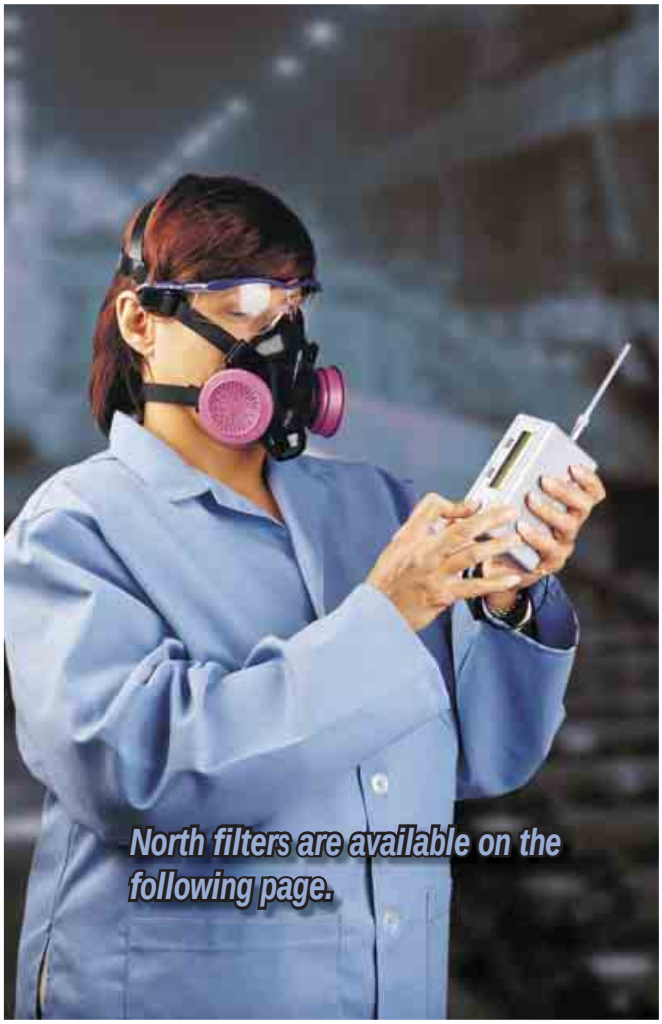
Refresher wipe pads provide a quick, easy method of removing perspiration and body oils from the respirator facepiece between scheduled cleanings. These wipe pads make respirator usage more acceptable to the wearer by improving comfort. Pads are individually wrapped.
Part No. 7003A, Box of 100 Refresher Wipe Pads.

PAPR COMPACT AIR

Convert North air-purifying half masks and full facepieces to powered air-purifying respirators quickly and easily with Compact Air's unique 'Y' breathing tube.
Features/Benefits: •Use the same mask for APR, and PAPR •Breathing tube goes over the shoulder •Greater flexibility for different work environments •No additional fit testing •Located on the worker's back, away from the work zone •Even distribution of weight •Cannot be disconnected in error •Nickel metal hydride battery - even flow for 8+ hours of use, lightweight rechargeable, no memory •On/Off switch •NIOSH approved for use with North facepieces to deliver a minimum of 4 CFM.
Part No. CA102, Kit Contains: Belt and comfort pad, blower and 7 amp battery, charger, flow indicator, breathing tube, 1 set of Tyvek covers for breathing tube, and carry case.
Part No. CA102D, Same as CA102 with decon belt that is washable for decontamination.

N99 PARTICULATE LOW MAINTENANCE RESPIRATOR

For solids, such as welding fumes and non-oil particulates. Fits easily under welding hoods.
Part No. 7190N99, N99 Particulate Respirator.
Part No. 719009N99, 2 Pak Replacement filters for 7190N99.



GAS & VAPOUR CARTRIDGES & PARTICULATE FILTERS

PART NO.	LABEL COLOUR	DESCRIPTION
75SC	Olive	1 pair, Defender™ Multi Purpose Cartridge for Organic Vapours, Chlorine, Hydrogen Chloride, Sulfer Dioxide, Hydrogen Sulfide (escape) Hydrogen Fluoride, Chlorine Dioxide, Ammonia, Methylamine and Formaldehyde
75SCP100	Olive	Above with P100 Particulate Filter
N75001	Black	1 pair, Organic Vapour Cartridge
7581P100	Black	Above with P100 Particulate Filter
N75002	White	1 pair, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Fluoride, Chlorine Dioxide, Formaldehyde Cartridge
7582P100	White	Above with P100 Particulate Filter
N75003	Yellow	1 pair, Organic Vapour, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Fluoride, Chlorine Dioxide Cartridge
7583P100	Yellow	Above with P100 Particulate Filter
N75004	Green	1 pair, Ammonia, Methylamine Cartridge
7584P100	Green	Above with P100 Particulate Filter
N750052	Olive	1 pair, Mercury Vapour, Chlorine Cartride with End-of Service-Life Indicator
75852P100	Olive	Above with P100 Particulate Filter
PARTICULATE FILTERS		
7580P100		1 pair, P100 Particulate Filter - (99.97% Minimum Filter Efficiency)
75FFP100		1 pair, P100 Particulate Filter (Pancake) - (99.97% Minimum Filter Efficiency)
7506N95		Pack of 10, N95 Non-Oil Particulate Filter - (95% Minimum Filter Efficiency)
7506N99		Pack of 10, N99 Non-Oil Particulate Filter - (99% Minimum Filter Efficiency)
7506R95		Pack of 10, R95 Particulate Filter - (95% Minimum Filter Efficiency)
7531N95		N95 Non-Oil Particulate Filter Assembly - (95% Minimum Filter Efficiency). Includes 7506N95 filter, N750027 seal check/filter cover and N750015 filter holder.
7531N99		N99 Non-Oil Particulate Filter Assembly - (99% Minimum Filter Efficiency). Includes 7506N99 filter, N750027 seal check/filter cover and N750015 filter holder.
7531R95		R95 Particulate Filter Assembly - (95% Minimum Filter Efficiency). Includes 7506R95 filter, N750027 seal check/filter cover and N750015 filter holder.

ACCESSORIES FOR CARTRIDGES & FILTERS

Part No. N750015, Filter Holder for 7506N95, 7506N99 and 7506R95 filters. Requires N750027 Check Seal/Filter Cover.
Part No. N750027, Seal Check/Filter Cover for 7506N95, 7506N99 and 7506R95 filters. Attaches to Gas and Vapour cartridges. For filter use only, use N750015 Filter Holder.
Part No. N750029, Shower Cap for 7580P100 Filter. Protects filter during abatement using water or during decontamination.
Part No. N750035, Adapter for assembly of a 75FFP100 Pancake Filter to a gas and vapour cartridge (Except for Defender Multi-Purpose Cartridge).

GAS & VAPOUR CARTRIDGES & FILTERS FOR COMPACT AIR PAPR

Part No. 40HE, HEPA Filter.
Part No. 4001, Organic Vapour Cartridge.
Part No. 4003, Organic Vapour, Acid Gas Cartridge.
Part No. 4004, Ammonia / Methylamine Cartridge.
Part No. 4001HE, Organic Vapour Cartridge & HEPA Filter.
Part No. 4003HE, Organic Vapour, Acid Gas Cartridge & HEPA Filter.
Part No. 4004HE, Ammonia / Methylamine Cartridge & HEPA Filter.

EMERGENCY ESCAPE MOUTHPIECE RESPIRATOR

The 7902 emergency escape mouthpiece respirator is approved for protection during escape only from atmospheres containing Chlorine, Hydrogen Chloride, Hydrogen Sulfide, Chlorine Dioxide and Sulfur Dioxide. The 7904 is approved for respiratory protection during escape only from atmospheres containing Ammonia.
Part No. 7902, Emergency Escape Mouthpiece Respirator.
Part No. 7904, Emergency Escape Mouthpiece Respirator (Ammonia).
Part No. 79BAG, Carry bag for Mouthpiece Respirator.

IRRITANT SMOKE QUALITATIVE FIT TEST KIT

For testing employees that wear air purifying respirators. Used properly, these kits will keep you in compliance with OSHA regulations for qualitative fit testing. Kit includes an air purifying training video.
Part No. 770040C.

WILLSON® Respirators

SAF-T-FIT™ DISPOSABLE RESPIRATORS NIOSH 42 CFR 84

The saf-T-FIT Series is designed to maximize wearer comfort, fit, compliance, and respirator life. Three anthropometrically designed, colour coded facepiece sizes for increased protection and better fit on a wider range of facial features. Meets NIOSH 42 CFR 84 standards for effective protection against particulate hazards. Certain models provide protection from organic vapours and acid gases at nuisance level exposures below the OSHA PEL. Lightweight, humidity resistant, and hypoallergenic filter media. Low breathing resistance increases wearer comfort. Durable suspension straps eliminate pre-stretching and staples do not penetrate filter area. Boomerang nose seal on most models adapts to different faces. Full sealing flange on some models provides an extra barrier from the challenge atmosphere.

Disposable Mask, N95 - 20 per box
Part No. 14110387, Small
Part No. 14110388, Medium
Part No. 14110389, Large

Disposable Mask, N95, Boomerang Nose Seal - 20 per box
Part No. 14110390, Small
Part No. 14110391, Medium
Part No. 14110392, Large

Disposable Mask, N95, Boomerang Nose Seal, Exhalation Valve - 20 per box
Part No. 14110393, Small
Part No. 14110394, Medium
Part No. 14110395, Large

Disposable Mask, N95, Boomerang Nose Seal, Exhalation Valve, Nuisance Organic Vapour - 10 per box
Part No. 14110396, Small
Part No. 14110397, Medium
Part No. 14110398, Large

Disposable Mask, N95, Boomerang Nose Seal, Exhalation Valve, Nuisance Acid Gas - 10 per box
Part No. 14110399, Small
Part No. 14110400, Medium
Part No. 14110401, Large

Disposable Mask, N99, Full Sealing Flange, Exhalation Valve - 10 per box
Part No. 14110402, Small
Part No. 14110403, Medium
Part No. 14110404, Large

NUISANCE DISPOSABLE DUST MASK
Nuisance Dust Masks are used for animal dander, pollen, or other nuisance level dusts at exposures below the OHSA permissible exposure limit. Not NIOSH approved. 50 per box.
Part No. 14110094CC.

SURVIVAIR Respirators

VALUAIR® PLUS SERIES HALF MASK
Great value and easy to adjust. The VALUAIR Plus series provides an excellent choice for limited use, limited life applications. VALUAIR combines NIOSH-approved protection with low breathing resistance and the comfort of more expensive respirators.
•Thermoplastic elastomer facepiece reduces cost
•Soft sealing flange and forward angled nosepiece easily accommodate eyewear
•Perspiration port
•Easy to adjust, 3 piece sliding suspension
Recommended Use - Ideal for limited use, limited life applications without sacrificing comfort and fit

S-Series - Uses Threaded Cartridges
Part No. 301500, Small basic facepiece assembly.
Part No. 302500, Medium basic facepiece assembly.
Part No. 303500, Large basic facepiece assembly.

T-Series - Uses Bayonet Cartridges
Part No. 301000, Small basic facepiece assembly.
Part No. 302000, Medium basic facepiece assembly.
Part No. 303000, Large basic facepiece assembly.
Part No. 301099, Small probed facepiece.
Part No. 302099, Medium probed facepiece.
Part No. 303099, Large probed facepiece.
Part No. 301110, Small respirator with organic vapour and N95.
Part No. 302110, Medium respirator with organic vapour and N95.
Part No. 303110, Large respirator with organic vapour and N95.

Threaded Cartridges
S-Series — Traditional threaded design is easy to use and is widely accepted throughout the industry.

Bayonet Cartridges
T-Series — The positive locking cartridge connector offers an audible lock to assure correct cartridge attachment as well as an open flow lid design and large inhalation ports for improved breathing resistance.

BLUE 1™ SERIES HALF MASK
Dual flange protection with a speaking diaphragm. Made of comfortable, pliable silicone, the mask will not lose elasticity even in extreme hot or cold weather. An excellent choice for professionals, the Blue 1 can accept a full range of Survivair threaded replacement cartridges/filters.
•Economical solution for improving wearer communication
•Dual sealing flange provides excellent facepiece seal for secure fit
•Easily convertible to continuous flow SAR without the aid of tools
Recommended Use - Excellent value for professional users in a variety of applications who desire a secure, comfortable fit and speech enhancement.

S-Series - Uses Threaded Cartridges
Part No. B210010, Small assembly with speaking diaphragm.
Part No. B220010, Medium assembly with speaking diaphragm.
Part No. B230010, Large assembly with speaking diaphragm.

2000 SERIES HALF MASK

Lightweight and easy to maintain. With its comfortable silicone facepiece, this durable, user friendly half mask air purifying respirator can withstand years of washing and use. One of the industry's lightest respirators, the 2000 Series features an innovative yoke design, and an angled, self-adjusting nose bridge to accommodate safety or prescription eyewear.

•Durable, lightweight silicone facepiece construction
•Large, pliable sealing area for secure fit for almost any facial type
•Improved yoke and head harness design reduce facepiece slippage
•Sliding adjustment system on head harness keeps loose straps secure
•Easily converts to belt-mounted PAPR without the aid of tools

Recommended Use - Professional users wo seek a lightweight respirator that will provide protection in a wide variety of applications.

S-Series - Uses Threaded Cartridges

Part No. B250000, Small basic assembly.
Part No. B260000, Medium basic assembly.
Part No. B270000, Large basic assembly.

PREMIER® SERIES HALF MASK

One of the easiest breathing respirators of its type, it incorporates a perspiration port to reduce facepiece slippage and skin irritation. This high quality, silicone respirator includes a soft sealing flange with rolled edges for increased wearer comfort.

•Elastic headstraps adjust at the crown for easy fit and unobstructed vision
•Low profile nosepiece allows for compatibility with eyewear
•Lower breathing resistance than most other available models

Recommended Use - Ideal for professional users seeking comfort. Low breathing resistance for maximum comfort

S-Series - Uses Threaded Cartridges

Part No. 311500, Small basic assembly with elastic headstraps.
Part No. 312500, Medium basic assembly with elastic headstraps.
Part No. 313500, Large basic assembly with elastic headstraps.

T-Series - Uses Bayonet Cartridges

Part No. 311000, Small basic assembly with elastic headstraps.
Part No. 312000, Medium basic assembly with elastic headstraps.
Part No. 313000, Large basic assembly with elastic headstraps.
Part No. 311110, Small respirator with organic vapour and N95.
Part No. 312110, Medium respirator with organic vapour and N95.
Part No. 313110, Large respirator with organic vapour and N95.

PREMIER® PLUS SERIES HALF MASK

Made of soft silicone, it is extremely comfortable, flexible and durable •Wide, wraparound, pleated silicone facepiece fits a large variety of facial types •Lateral placement of exhalation valve and cartridge ports enhances field of vision •Cradle suspension with four-point floating yoke eliminates pressure points to enhance comfort

Recommended Use - A triple flange design provides the ultimate in comfort and superior fit for extended wear.

S-Series - Uses Threaded Cartridges

Part No. 321500, Small basic assembly.
Part No. 322500, Medium/large basic assembly.
Part No. 321599, Small probed assembly.

T-Series - Uses Bayonet Cartridges

Part No. 321000, Small basic assembly.
Part No. 322000, Medium/large basic assembly.
Part No. 321099, Small probed assembly.
Part No. 322099, Medium/large assembly.

SURVIVAIR
A Division of Bacou USA Safety, Inc.

Threaded Cartridges
S-Series — Traditional threaded design is easy to use and is widely accepted throughout the industry.

Bayonet Cartridges
T-Series — The positive locking cartridge connector offers an audible lock to assure correct cartridge attachment as well as an open flow lid design and large inhalation ports for improved breathing resistance.

OPTI-FIT™ SERIES FULL FACEPIECE

Optimum fit, comfort and superior optics in a full face respirator. The Opti-Fit offers the ultimate in performance and affordability. Opti-Fit features a distortion-free lens with exceptional view. Lightweight construction reduces head and neck stress even during extended wear.

•Comfortable, durable silicone skirt and five strap suspension
•Nose cup is a standard feature to prevent fogging
•Lens is replaceable and treated with an anti-scratch coating
•Easily converts to CF SAR

Recommended Use - Offers the ultimate level of valve and functionality, while helping users get the most out of their respiratory protection budget.

S-Series - Uses Threaded Cartridges

Part No. 752000, Small basic facepiece.
Part No. 762000, Medium basic facepiece.
Part No. 772000, Large basic facepiece.

T-Series - Uses Bayonet Cartridges

Part No. 758000, Small basic facepiece.
Part No. 768000, Medium basic facepiece.
Part No. 778000, Large basic facepiece.

ACCESSORIES

Part No. 702028, Clear Peel-Off Lens Covers - Pack of 25.
Part No. 962260, Spectacle Kit.
Part No. B140096, Mask Cleaning Wipes - Box of 100.
Part No. 981416, Opti-Fit Conversion Kit to SAR - converts normal Opti-Fit respirators to an SAR (Supplied Air Respirator).

Respirator Filters & Cartridges

Selection of the appropriate cartridge and filter combination is dependent on a number of factors, including the type of contaminant, the level of exposure, and the length of exposure. Thus, the information below is presented as an overview only.

N95 Filter - 95% efficient against particulate aerosols free of oil	P100 Filter - 99.97% efficient against all particulate aerosol
N99 Filter - 99% efficient against particulate aerosols free of oil	R95 Filter - 95% efficient against oil/ 99% efficient against non-oil based particulates / Time use restrictions apply for oil-based particulates.

Filters (S-Series)

Part No. 106010, N95 Filter for S-Series, each.

Cartridges for (S-Series)

Part No. B100144, Organic Vapours Cartridge for S-Series, each.
Part No. B100244, Acid Gases Cartridge for S-Series, each.
Part No. B100344, Organic Vapours/Acid Gases Cartridge for S-Series, each.
Part No. B100444, Ammonia/Methylamine Cartridge for S-Series, each.
Part No. 100644, Mercury Vapour or Chlorine Cartridge for S-Series, each.
Part No. 100844, Multi-Contaminant Cartridge for S-Series, each.

Cartridges (T-Series)

Part No. T100100, Organic Vapours Cartridge for T-Series, pair.
Part No. T100200, Acid Gases Cartridge for T-Series, pair.
Part No. T100300, Organic Vapours/Acid Gases Cartridge for T-Series, pair.
Part No. T100400, Ammonia/Methylamine Cartridge for T-Series, pair.
Part No. T100600, Mercury Vapour or Chlorine Cartridge for T-Series, pair.
Part No. T100800, Multi-Contaminant Cartridge for T-Series, pair.
Part No. T100900, Nitrogen Dioxide Cartridge for T-Series, pair.

Combined Cartridge/Filter (S-Series)

Part No. 105114, Organic Vapours /P100 Cartridge for S-Series, each.
Part No. 105214, Acid Gases/P100 Cartridge for S-Series, each.
Part No. 105314, Organic Vapours/Acid Gases/P100 Cartridge for S-Series, each.
Part No. 105414, Ammonia/Methylamine/P100 Cartridge for S-Series, each.
Part No. 105614, Mercury Vapour/Chlorine/P100 Cartridge for S-Series, each.
Part No. 105814, Multi-Contaminant Cartridge/P100 Cartridge for S-Series, each.

Combined Cartridge/Filter (T-Series)

Part No. T105110, Organic Vapour/P100 Cartridge for T-Series, pair.
Part No. T105210, Acid Gases/P100 Cartridge for T-Series, pair.
Part No. T105310, Organic vapour/acid gases/P100 Cartridge for T-Series, pair.
Part No. T105410, Ammonia/Methylamine/P100 Cartridge for T-Series, pair.
Part No. T105610, Mercury Vapour/Chlorine/P100 Cartridge for T-Series, pair.
Part No. T105910, Nitrogen Dioxide/P100 Cartridge for T-Series, pair.
Part No. T105810, Multi-contaminant (uni-sorb)/P100 Cartridge for T-Series, pair.

AIR PUMP SYSTEMS & ACCESSORIES

Each system includes pump, respirator, and one 50 ft. 3/8" I.D. air line hose w/ OBAC couplings except #981262 which offers 2 respirators and 2 airline hoses w/ couplings. These lightweight, highly portable air sources are ideal for a variety of applications, including spray painting and clean-up of hazardous materials. Powered by 115 volt electric motors, Survivair's air pumps come completely assembled and ready for use.
Part No. 981242, Air pump with full facepiece, 1/3 hp pump.
Part No. 981342, Air pump with half mask, 1/3 hp pump.
Part No. 981262, Air pump system with full facepiece, 3/4 hp pump.

AIR LINE HOSES

Each air line hose comes standard with 1/4" NPT swivel nuts and a male-to-male 1/4" NPT adapter to connect two or more hoses.
Part No. 985241, 25 ft. lightweight 3/8" I.D. hose w/ OBAC couplings for ambient air pumps.
Part No. 985242, 50 ft. lightweight 3/8" I.D. hose w/ OBAC couplings for ambient air pumps.
Part No. 985244, 100 ft. lightweight 3/8" I.D. hose w/ OBAC couplings for ambient air pumps.

CLEAR LENS COVERS

Part No. B140095, Clear lens covers - pack of 25.

IRRITANT SMOKE FIT TEST KIT

Simple and accurate method of fit testing. Each kit includes six smoke tubes that provide testing for approximately 25 wearers per tube.
Part No. 140090, Fit test kit.
Part No. 140038, Replacement tubes (6 per box).
Part No. 260089, Survivair fit test video.

*HandyStrap® - allows mask to conveniently hang around neck, so it's always ready for use. And during wear the stretch cloth strap is more comfortable and cooler.

3M™ REPLACEMENT CARTRIDGES & FILTER RETAINERS

Cartridges can be used for specific types of chemical exposures. Filters can be used for specific types of particulate exposures; filter 07054 must be used wtih cartridge 07046. Must be used with 3M automotive respirator facepieces.
Part No. 07046, Organic vapour cartridge - 1 pair.
Part No. 07054, Filter retainer.

07046

07054

3M™ N95 PARTICULATE RESPIRATOR

NIOSH 42CFR84 approved. Recommended for grinding, sanding and buffing. Lightweight disposable dust respirator. NIOSH certified as 95% efficient in removing solid and liquid particles (excluding those containing oil).
Part No. 07048.

3M™ N95 PARTICULATE RESPIRATOR

NIOSH 42CFR84 approved. Recommended for grinding, sanding and buffing. Cool Flow™ exhalation valve improves comfort. "M" nose clip adjusts to many face shapes. Stapled straps improve durability. NIOSH certified as 95% efficient in removing solid and liquid particles (excluding those containing oil).
Part No. 07185.

NIOSH# 8511

3M™ R95 PARTICULATE RESPIRATOR

NIOSH 42CFR84 approved. Recommended for undercoating, rustproofing, grinding, sanding, and buffing. Recommended for nuisance level (below OSHA PEL) organic vapour relief. NIOSH certified as 95% efficient in removing solid and liquid particles including oils.
Part No. 07186.

NIOSH# 8247

3M™ N95 PARTICULATE RESPIRATOR

NIOSH 42CFR84 approved. Recommended for welding applications. Recommended protection for up to 10X OSHA PEL of ozone. Removes nuisance level (below OSHA PEL) organic vapours and odours. Cool Flow™ exhalation valve improves comfort. Adjustable straps and faceseal ring provide secure face fit. NIOSH certified as 95% efficient in removing solid and liquid particles (excluding those containing oil).
Part No. 07187.

NIOSH# 8214

3M™ P100 HALF MASK RESPIRATOR ASSEMBLY & REPLACEMENT FILTERS

NIOSH 42CFR84 approved. Recommended for grinding, sanding, buffing, welding and asbestos. Reusable design - changeable filters and cartridges. Activated carbon layer removes nuisance level (below OSHA PEL) organic vapours and odours. NIOSH certified as being 99.97% efficient in removing solid and liquid particles including oils. Assembly includes: 1 facepiece and 4 (2 pack) P100 filters.

PART NO.	NIOSH #	DESCRIPTION
07181	6100	Small assembly
07182	6200	Medium assembly
07183	6300	Large assembly
07024		Replacement small facepiece
07025		Replacement medium facepiece
07026		Replacement large facepiece
07184	2097	P100 filter (2/pack)

3M™ P95 DISPOSABLE ORGANIC VAPOUR HALF FACEPIECE RESPIRATOR ASSEMBLY & REPLACEMENT FILTERS

Half facepiece respirators may be used up to 10X OSHA PEL or applicable government standard. NIOSH 42CFR84 approved. Recommended for spray painting lacquer, enamel and pesticides. Maintenance free design. NIOSH certified for organic vapours and 95% efficient in removing solid and liquid particles including oils. Assembly includes: 1 organic vapour respirator, 2 P95 filters and 2 filter retainers.

PART NO.	NIOSH #	DESCRIPTION
07191	5101	Small assembly
07192	5201	Medium assembly
07193	5301	Large assembly
07194	5P71	P95 filter
07054	5009	Filter retainer

3M™ P95 ORGANIC VAPOUR LOW MAINTENANCE HALF FACEPIECE RESPIRATOR ASSEMBLY & REPLACEMENT FILTERS & FILTER RETAINERS

NIOSH 42CFR84 approved. Recommended for spray painting lacquer, enamel and pesticides. Reusable design - changeable filters and cartridges. NIOSH certified for organic vapours and 95% efficient in removing solid and liquid particles including oils. Assembly includes: 1 reusable facepiece, 2 organic vapour cartridges, 4 P95 filters and 2 filter retainers.

PART NO.	NIOSH #	DESCRIPTION
07177	6100	Small assembly
07178	6200	Medium assembly
07179	6300	Large assembly
07054	5009	Filter retainer
07194	5P71	P95 filter
07046	6001	Pair of replacement organic vapour cartridges

3M™ RESPIRATOR CLEANING WIPE

Individually wrapped towelettes. Alcohol free formula. Pleasant fragrance. Oversized 8½" x 11" - ideal for cleaning full facepiece respirators. 100 wipes in convenient dispenser box.
Part No. 07065.

ADVANTAGE® 200 LS HALF-MASK RESPIRATORS

A new clear blue facepiece subtracts 25% of the weight and adds noticeable softness to MSA's popular Advantage half-mask respirator to give workers more comfort and stability than ever. The Advantage 200 LS respirator's new Lighter and Softer facepiece is made from a clear blue formulation of the thermoplastic rubber used for the Advantage 200 respirator. Extensive anthropometric research led to the this respirator's unique design. MSA's engineers examined facial form data of over 8000 people and, with CAD technology, developed the AnthroCurve™ Sealing Surface, which instantly conforms to each wearer's unique facial characteristics. The unmatched fit and comfort start with a soft, pliable combination of rubber and plastic that provide a virtually customized fit. These are key components in the patented MultiFlex® System that equalizes pressure on the face-seal area, while delivering exceptional stability, so the respirator will not collapse during wear.

Advantage 200 LS Facepieces only
Part No. 815448, Advantage 200 LS facepiece, small.
Part No. 815444, Advantage 200 LS facepiece, medium.
Part No. 815452, Advantage 200 LS facepiece, large.

Advantage 200 LS Facepieces, Pre-Assembled, with Chemical Cartridges and Filters
Part No. 816939, Advantage 200 LS facepiece, medium, with OV-N95 cartridge.
Part No. 816697, Advantage 200 LS facepiece, medium, with Multigas R95 cartridge.

Advantage 200 LS Comfo® Cartridge Adapter and Replacement Parts
Part No. 809999, Comfo® cartridge adapter, package of 2.

ADVANTAGE® 1000 FULL-FACE RESPIRATORS

The Advantage 1000 full-face respirator features a wrap-around flexible lens that offers a comfortable fit with increased vision. It weighs 40% less than conventional full-face respirators and uses the same cartridges as the Advantage 200 respirator. Constructed of super soft Hycar rubber that provides the feel and comfort of silicone but with better permeation resistance. For exceptional fit the facepiece is available in three sizes and has a unique inturned lip seal that provides the best possible seal against a wide range of facial contours. The Advantage 1000 facepiece also features a distinctive, flexible urethane lens that is integrally bonded to the facepiece, eliminating the need for rigid lens retainers that cause unwanted pressure points. Standard equipment includes a speaking diaphragm for clear, short range communications and a nosecup, to reduce lens fogging in low temperatures or high humidity conditions.

Advantage 1000 Facepieces only
Part No. 805414, Advantage 1000 facepiece, small.
Part No. 805408, Advantage 1000 facepiece, medium.
Part No. 805420, Advantage 1000 facepiece, large.

Advantage 1000 Comfo® Cartridge Adapter and Replacement Parts
Part No. 809999, Comfo® cartridge adapter, package of 2.
Part No. 805114, Replacement head harness assembly.
Part No. 78703, Replacement exhalation valve.
Part No. 801700, Replacement inhalation valve (2 required).
Part No. 813832, Tear away lens covers, package of 25.
Part No. 806462, Clear outsert lens assembly, medium/large.
Part No. 806463, Clear outsert lens assembly, small.
Part No. 806464, Tinted outsert lens assembly, medium/large.
Part No. 806465, Tinted outsert lens assembly, small.

*Escape only **Effective against, but not NIOSH approved for Iodine Vapour.

N95-Particulate Filter (95% filter efficiency level) effective against particulate aerosols free of oil; time use restrictions may apply.

R95-Particulate Filter (95% filter efficiency level) effective against all particulate aerosols; time use restrictions may apply.

P100-Particulate Filter (99.97% filter efficiency level) effective against all particulate aerosols.

†Notes
1. Do not use in atmospheres containing less than 19.5% oxygen, in atmospheres containing gases or vapours, or in atmospheres immediately dangerous to life and health.
2. Do not use in atmospheres containing less than 19.5% oxygen, or in atmospheres immediately dangerous to life and health.
3. Do not wear for protection against organic vapours with poor warning properties or those which generate high heats of reaction with the sorbent material in the cartridge.
4. 99.97% efficient against 0.3 micron DOP.

WARNING: Please be aware there are a number of gaseous materials for which chemical cartridge respirators must not be used for respiratory protection (for routine use) regardless of concentration or time of exposure except in special circumstances — please consult an expert if you have any questions or concerns whatsoever.

Air Purifying Respirators

FLEXI-FILTER™ FILTERS FOR ADVANTAGE RESPIRATORS

These low profile, flexible filters fit well under a welding hood and with other personal protective equipment. They offer great balance and weight distribution for maintaining a good face seal, while their swept-back design provides improved vision and comfort. In addition, their multi-layer composite construction gives them better durability and spark resistance. Finger tabs provide easy installation and prevent possible filter damage. With the P100 classification for high efficiency protection against oil and non-oil containing hazards or hazard-specific standards requiring HEPA filters such as the Lead and Asbestos Standards.

Part No. 818342, P100 Flexi-Filters.
Part No. 818343, P100 OV/Ozone Flexi-Filters.
Part No. 818344, P100 AG/AF Flexi-Filters.
Part No. 818346, N95 Flexi-Filters.
Part No. 818347, N95 OV/Ozone Flexi-Filters.
Part No. 818354, P95 Flexi-Filters.
Part No. 818355, P95 OV/Ozone Flexi-Filters.

Comfo Elite® Respirators

Unique sealing surface reduces facepiece slippage. Black silicone.

Part No. 490492, Comfo Elite respirator, small.
Part No. 490491, Comfo Elite respirator, medium.
Part No. 490493, Comfo Elite respirator, large.

Comfo Elite® Respirator Replacement Parts

Part No. 492224, Replacement headband assembly (3 piece set).
Part No. 78703, Replacement exhalation valve.
Part No. 78584, Replacement inhalation valve (2 required).
Part No. 489664, Replacement facepiece yoke, silver, medium.
Part No. 489665, Replacement facepiece yoke, gold, large.

COMFO CLASSIC® RESPIRATORS

The Comfo Classic respirator is an improved version of the Comfo II respirator, featuring new SoftFeel™ facepiece material, which increases the comfort factor dramatically. A result of extensive materials research by MSA, SoftFeel material is an exclusive new formulation that improves the pliability and softness of both Hycar rubber and silicone — the two facepiece materials available with Comfo Classic respirators. Like earlier Comfo respirator models, this unit features a unique face seal design that gives wearers an exceptional fit. Black.

Comfo Classic® Respirators

***Definitions

N95-Particulate Filter (95% filter efficiency level) effective against particulate aerosols free of oil; time use restrictions may apply.

R95-Particulate Filter (95% filter efficiency level) effective against all particulate aerosols; time use restrictions may apply.

P100-Particulate Filter (99.97% filter efficiency level) effective against all particulate aerosols.

†Notes

1. Do not use in atmospheres containing less than 19.5% oxygen, in atmospheres containing gases or vapours, or in atmospheres immediately dangerous to life and health.
2. Do not use in atmospheres containing less than 19.5% oxygen, or in atmospheres immediately dangerous to life and health.
3. Do not wear for protection against organic vapours with poor warning properties or those which generate high heats of reaction with the sorbent material in the cartridge.
4. 99.97% efficient against 0.3 micron DOP.

WARNING: Please be aware there are a number of gaseous materials for which chemical cartridge respirators must not be used for respiratory protection (for routine use) regardless of concentration or time of exposure except in special circumstances — please consult an expert if you have any questions or concerns whatsoever.

DEGIL Respirators

ODYSSEY LOW MAINTENANCE SERIES 400 ELASTOMERIC RUBBER HALF-MASK RESPIRATOR

The series 400 is priced to be disposable, but can easily be used up to 30 times. The elastomeric rubber offers excellent comfort, superior fitting capabilities and is very rugged.
Part No. 751400ML, Medium/large size.
Part No. 75550, Odyssey Series 400 respirator retail packaged - this unit comes with cartridges in a kit form for easy wall or floor mount displays - medium/large size.

DEGIL SAFETY PRODUCTS INC.

ODYSSEY SERIES 100 SILICONE RUBBER HALF-MASK RESPIRATOR

Half-Mask Respirator is molded from pure silicone material with no extra additives provide incredible comfort and superior fitting capabilities. Simple and quick to clean, the durability provides a long service life.
Part No. 751100M, Medium size.
Part No. 751100L, Large size.
Part No. 75500, Odyssey Series 100 respirator retail packaged - this unit comes with cartridges in a kit form for easy wall or floor mount displays - medium/large size.

ODYSSEY

Retainer Rings, Filter Holders/Covers

Part No. 756018, Pack of 6, pre-filter holders.
Part No. 756019, Pack of 6, pre-filter covers.
Part No. 756020, Pack of 6, retainer rings for paint spray cartridge.

ODYSSEY Particulate Filters

Part No. 756480B16, Pack of 16, N95 filter pads, 42 CFR.

ODYSSEY P100 Cartridges

Part No. 756417B24, Pack of 24, high efficiency pre-filters.
Part No. 756140B6, Pack of 6, low profile, high efficiency, 42CFR.

ODYSSEY Cartridges

Part No. 756109B6, Pack of 6, organic vapour cartridges.
Part No. 756111B6. Pack of 6, organic vapour/acid gas cartridges.

SAFEWAY Respirators & Head Protection

N95 MASK

NIOSH approved and meet 42 CFR 84 requirements for protection against solid or liquid particles (excluding those containing oil). The contoured aluminum nosepiece can be shaped for personal adjustment to provide a close fit and the low profile design lets you see without obstructions and can be worn with glasses. Features include a hypoallergenic microfibre filtration media for enhanced protection, a soft, non-irritating lining, a comfortable inner foam nosepiece, pre-stretched durable head straps, and high quality materials and molding process which improves the collapse resistance of the shell when worn. Ideal for blood-borne pathogen hazard spill kits.
Part No. W795120, Without air valve.
Part No. W795110, With air valve.

NON-TOXIC DUST MASK

This lightweight cone-shaped disposable mask allows you to breathe and speak easily. The low profile design lets you see without obstructions and can be worn with glasses. For protection against non-toxic dust, contaminants, and fluids. The aluminum nosepiece can be shaped for personal adjustment to provide a close fit. Features a non-irritating filter media. Can be used for woodworking, agriculture, and general clean-up.
Part No. W213150.

NEW!!

HARD HAT CAP RACK/CRADLE

Part No. 31024S, Seat mounted.
Part No. 31024W, Wall mounted.

Head Protection — Safety Caps

The Alpha® and Beta® Safety Caps feature a lightweight polyethylene slotted shell. The Alpha Safety Cap is available with two types of replaceable four-point suspension... the ratchet and the standard pinlock. The ratchet permits easy and fast adjustment to head sizes and assures an excellent, comfortable fit. The Preslok® suspension has a low fitting nape strap that adapts for an individual fit. Both offer patented shock absorbing hangers which snap firmly in place and help to evenly absorb impact. Replaceable padded sweatband and high quality nylon straps supported by a balanced crown pad help provide all day wearing comfort and protection. Feather-Kap Safety Caps are manufactured using impact resistant plastic. Lightweight design features a replaceable suspension with sweatband. All caps are adjustable for head sizes 6½" to 8". For greatest versatility in meeting unique job requirements, these safety caps accept a wide range of face and hearing protection accessories. Alpha and Beta Safety Caps meet or exceed ANSI Z-89.1-1986, Class A & B standards. Feather-Kap Safety Caps are not approved for use in areas where OSHA requires head protection tested in accordance with ANSI Z89.1-1986.

WINTER LINERS FOR SAFETY CAPS

Part No. 12800003, Gold lightweight cotton flannel winter liner. Adjustable chin strap, three suspension tabs.
Part No. 12800002, Heavyweight stretch quilted winter liner. Polyurethane foam between green nylon tricot and white cotton knit lining. Flame retardant, Velcro chin fastener, three suspension tabs.
Part No. 12800007, Dielectric steel blue cotton twill winter liner. Blue fleece lining, three suspension tabs.

SUPER V™ CAPS

Designed to provide limited impact and penetration protection in the event of a top or lateral blow to the head, as well as limited protection against contact with high voltage conductors. This hard hat system consists of a durable polyethylene shell, a Fas-Trac® Ratchet suspension or 1-Touch™ suspension, and a polystyrene foam impact liner. The flame retardant liner is grooved and donut shaped to allow the movement of cool air to the head area. The Super V® helmet weighs less than 1 lb. and features wide inner cross straps making it the lightest and most comfortable lateral protection safety helmet available. Certified to CSA Z94.1-1992 Class "E" certification.

1-Touch™ Suspension
1-touch™ suspension is a revolutionary new suspension design. It features:
•Easy one hand squeeze opening •One hand slide adjustment and snap closure
•Comfortable and stable fit •Adjustable dual nylon straps

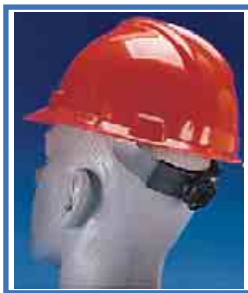
About the suspension systems:

UNIPRO™ SUSPENSION

UniPro™ suspension offers a unique, comfortable, yet energy-absorbing design. Easily snaps into the lugs of either the V-Gard cap or full-brimmed hat. A soft, absorbent replaceable sweatband provides a comfortable fit and cooling effect. The pinlock nape strap can be adjusted to fit sizes 6½ - 8".

STAZ-ON SUSPENSION SYSTEM

This is an easily adjustable, comfortable system specially designed for MSA Protective Hats and Caps to provide essential crown clearance to absorb impact energy. It features a headband, nape strap, CushionAire™ Sweatband and adjustable crown straps. Four plastic mounting clips fit into four molded slots in the hat or cap shell. Warning: For protective headwear to function effectively, it is imperative that the proper sized suspension be used with the proper sized protective shell.



FAS-TRAC RATCHET SUSPENSION SYSTEM

This system contains no metal parts and is an easily adjustable, snug-fitting system specially designed to work with MSA Protective Hats and Caps to provide essential crown clearance to absorb impact energy. Each Fas-Trac Ratchet Suspension features a headband, nape strap, CushionAire Sweatband and adjustable crown straps. Warning: For protective headwear to function effectively, it is imperative that the proper sized suspension be used with the proper sized protective shell.

TOPGARD® HARD HATS & CAPS

Lightweight, durable Topgard slotted caps and non-slotted hats are built for use by utilities and other industries where head protection from falling objects is necessary, along with good dielectric properties. Limited resistance to top impact or penetration is retained through a wide range of temperatures. Uni-ridge design; injection-molded, high impact resistant polycarbonate shell is combined with either a Staz-on or Fast-Trac suspension system to provide a comfortable fit, while offering effective protection from impact energy. Meets ANSI requirements.

Topgard Cap & Hat <u>Replacement</u> Suspension

Part No. 10061127*, Staz-on replacement suspension.
Part No. 473333*, Fas-Trac replacement ratchet suspension.

*These replacement suspensions will also fit MSA Shockgard® caps.

About the suspension systems:

STAZ-ON SUSPENSION SYSTEM

This is an easily adjustable, comfortable system specially designed for MSA Protective Hats and Caps to provide essential crown clearance to absorb impact energy. It features a headband, nape strap, CushionAire™ Sweatband and adjustable crown straps. Four plastic mounting clips fit into four molded slots in the hat or cap shell. Warning: For protective headwear to function effectively, it is imperative that the proper sized suspension be used with the proper sized protective shell.

FAS-TRAC RATCHET SUSPENSION SYSTEM

This system contains no metal parts and is an easily adjustable, snug-fitting system specially designed to work with MSA Protective Hats and Caps to provide essential crown clearance to absorb impact energy. Each Fas-Trac Ratchet Suspension features a headband, nape strap, CushionAire Sweatband and adjustable crown straps. Warning: For protective headwear to function effectively, it is imperative that the proper sized suspension be used with the proper sized protective shell.

PLASTIC BUMP CAPS

•Provides scalp covering to reduce exposure to abrasions and lacerations due to minor bumps •Molded from high density polyethylene — very durable •Perforated sides allows cross ventilation for better air circulation •Adjustable sizing 6½ to 8 •Cool, lightweight, and comfortable •Smooth surface is easy to clean •No replacement parts •Designed for work in areas such as pest control, meter reading, food/beverage processing, meat packing, auto repair

WARNING:
This bump cap is NOT a safety helmet and does NOT meet OSHA nor ANSI requirements for head protection. DO NOT USE as sport safety helmet. DO NOT USE when ANSI-compliant head protection is required or needed.

DEFENDER™ FACESHIELD FRAME FOR SLOTTED CAPS

Features of the Defender Frame include:
•Front-drip-edge splash protection
•Unlimited number of lift stop positions
•Long lasting O-ring pivot joint design
•Snap in ear muff option
•Easy in, easy out visor replacement
•All frames come without visors, (sold separately below)

Part No. 10021614, Defender Faceshield Frame for medium V-Gard Caps.
Part No. 10021615, Defender Faceshield Frame for Topgard Caps.
Part No. 10026398, Sound Blocker 26 (26 NRR) Ear Muffs for Defender Frame.
Part No. 10017934, Visor, 8 x 16 x .04, clear.
Part No. 10005885, Visor, 8 x 16 x .04, dark green.

COMFORT BANDS INTL.

Terry Cloth Sweatbands For Hard Hats

64920

64720

Comfort Bands act like a one-way sponge, drawing in sweat and moisture from the forehead and pulling it around to the front, where it evaporates, keeping the user's head dry. This evaporation also helps the cooling process. Comfort Bands also reduce heat loss in frigid conditions by keeping the plastic bands away from contact with the user's forehead. Helps head and face safety gear stay in place and helps keep head gear on when bending over. Made of 100% cotton with hook and loop closure tape — all edges are serged for strength. This product can be washed and reused many times, which will save companies money and reduce waste to the environment. Reduces rashes caused by head and face safety gear.

Part No. 64920, Hard hat comfort band.

Part No. 64720, Welders' comfort band.

Part No. GB5130.

GENERAL DUTY SMALL GEAR BAG

•1½" heavy duty adjustable padded shoulder strap •12" x 12" x 10" main hold •Two 12" x 3" x 10" zippered end pockets •Heavy duty ribbed strap handles •420D nylon •Total capacity: 2220 ci •Black w/ red and grey panels
Part No. GB5115.

GENERAL DUTY MEDIUM GEAR BAG

•1½" heavy duty adjustable padded shoulder strap •14" x 16" x 11" main hold •Two 14" x 4" x 11" zippered end pockets •Heavy duty ribbed strap handles •420D nylon •Total capacity: 3780 ci •Black w/ red and grey panels
Part No. GB5116.

GENERAL DUTY LARGE GEAR BAG

•11" x 37" x 13" main hold •11" x 4" x 13" zippered end pocket •19" x 12" side pocket •Heavy duty ribbed strap handles •420D nylon •Total capacity: 6130 ci •Black w/ red and grey panels •Bearing skate wheels and end strap for easy towing
Part No. GB5120.

GENERAL DUTY BACK PACK

•20" x 13" x 6" main hold •Loaded with storage pockets •Padded back wall •3" padded shoulder straps with keeper and phone hold •Ergonomic top handle •420D nylon •Total capacity: 1560 ci •Black w/ red and grey panels
Part No. GB5143.

GENERAL DUTY WAIST PACK/TOOL KIT

•Two 6" x 12" x 2" pockets •Loaded with several pockets and loops •4" padded straps and bag wall for extra comfort •420D nylon •Total capacity: 290 ci •Black
Part No. GB5145.
Note: Tools not included.

MILLER®

Fall Protection Equipment

DURAFLEX® PYTHON™ ULTRA HARNESSES

A premier line of Miller brand harnesses designed for superior comfort, fit, and safety performance. •Quick connect buckles for chest and leg straps •Comfort-Touch back D-ring pad; comfortable and orients harness for quick tangle free donning •Stretchable webbing for greater comfort and increased productivity •Cushioned tubular webbing in the shoulder straps minimizes possible discomfort around the neck and shoulders when required to wear a tool belt •Webbing protected with Teflon® HT — an invisible finish that extends harness life up to 25% and provides superior water/oil repellency and protection against grease, dirt, and grime.
Part No. P950QC/UGNC, Quick-connect buckle chest strap and leg straps; and comfort D-pad.
Part No. P950QC-4/UGN, Quick-connect buckle chest strap and tongue buckle leg straps; and comfort D-pad.
Part No. P950QC-7/UGNC, Quick-connect buckle chest strap and leg straps; comfort D-pad; and side D-rings.

Back D-Ring Pad

DURAFLEX® HARNESSES

Easier to wear because the webbing is a blend of nylon, polyester, and a specially formulated elastomer that stretches. Flexible, lightweight, soft — no bunching, binding, or kinking. Lime green colour. Meets applicable OSHA/ANSI/CSA Z259.10 standards. One "universal" size fits most.

•New stretchable elastic webbing in leg, shoulder and body straps •Friction buckle shoulder straps •Mating buckle leg and chest straps •Pull up design shoulder straps •Belt loops to accommodate tool belts, back pads, accessories •Lanyard clip
Part No. E650SN.

•New stretchable elastic webbing in shoulder and body straps •Friction buckle shoulder straps •Type 19 standard nylon webbing in grommeted leg straps with tongue buckles •Pull up design shoulder straps •Belt loops to accommodate tool belts, back pads, accessories •Lanyard clip
Part No. E650-4SN.

•New stretchable elastic webbing in leg, shoulder, and body straps •Friction buckle shoulder straps •Mating buckle leg straps
Part No. E850SN.

Fall Protection Equipment

BELTLESS LIGHTWEIGHT HARNESSES

The ultimate in comfort and convenience. Easy to put on and take off. Meets CSA Z259.10 standards.

Part No. 650-4, With sliding back dee, has personal fit for maximum distribution of shock load in the event of a fall. It features friction buckle shoulder strap adjusters, grommeted leg straps, a quick connect buckle on the shoulder strap retainer, and a sub-pelvic strap. Universal fit.

Part No. 650-64, Same as #650-4; with the addition of shoulder dees for raising and lowering in confined space applications. Universal fit.

Part No. 650, With sliding back dee, has personal fit for maximum distribution of shock load in the event of a fall. It features friction buckle shoulder strap adjusters, quick connect buckles on leg straps and shoulder strap retainer, and a sub-pelvic strap. Universal fit.

Part No. 650-3, Same as #650; with the addition of shoulder dees for raising and lowering in confined space applications. Universal fit.

Part No. 751S/M, Quick-connect harness with mating buckle leg straps, small/medium fit.

Part No. 751L/XL, Same as #751S/M; except large/extra large fit.

650-4

COMPLETE HARNESSES

Meets CSA Z259.10 standards.

Part No. 8714-17M, Complete harness with sliding back dee also has shoulder dees for confined entry or manhole work when used with lifting lanyard and spreader bar. The rump saddle (sub-pelvic strap) features front dees for controlled descent or rappelling capability. Medium; 36 - 44" waist.

Part No. 8714-17L, Same as #8714-17M, except large size; 40 - 48" waist.

WELDERS' HARNESSES & LANYARDS

Blue, flame retardant Nomex® webbing with contrasting yellow Kevlar® core. Special webbing protects against weld splatter; inner core adds strength and high temperature resistance; bright contrasting colours make inspection easier. Meets National Fire Protection Association (NFPA) standards; OSHA, ANSI, and CSA requirements.

Part No. 650K, Welders' harness. Features lanyard clip, pull-up shoulder adjustment, sub-pelvic strap, belt loops. Universal fit.

Part No. 650K-7, Welders' harness w/ side D-rings. With the same features as #650, and two forged steel side D-rings. Universal fit.

Part No. 751KS/M, Welders' harness. Features single adjustment point in legs; economical design. Small/medium fit.

Part No. 751KL/XL, Same as #751KS/M except large/extra large fit.

Part No. 850K, Welders' harness. Pull-down shoulder adjustment; sub-pelvic strap. Universal fit.

Part No. 907K, 6 ft. cable lanyard w/ SofStop shock absorber w/ Nomex cover and Kevlar safety strap. 1/4" steel cable; 2 locking snap hooks with 3/4" gate openings.

Part No. 913K, 6 ft. web lanyard w/ SofStop shock absorber w/ Nomex cover and Kevlar safety strap. 2 locking snap hooks with 3/4" gate openings.

Part No. 940K, 6 ft. web lanyard w/ double SofStop shock absorber for 12 ft. free fall. Nomex cover and Kevlar safety strap. 2 locking snap hooks with 3/4" gate openings.

Part No. 8185K, 6 ft. cross-arm strap anchorage connector. Loop on one end and D-ring on the other; 1-3/4" wide, Nomex webbing with Kevlar core.

Part No. 9751KL/XL, Welders' Kit. Includes: Full body harness (#751K), cable lanyard (#907K) with SofStop shock absorber, cross-arm strap anchorage connector, and durable Millerhyde™ carrying bag. Large/extra large.

Part No. 9850K, Welders' Kit. Includes: Full body harness (#850K), cable lanyard (#913K) with SofStop shock absorber, cross-arm strap anchorage connector, and durable Millerhyde carrying bag.

9751KL/XL

RELIEF STEP SAFETY DEVICE

The Miller Relief Step Safety Device alleviates the effects of orthostatic intolerance, also known as suspension trauma. If a fall occurs, a person becomes suspended in a harness and remains both vertical and sedentary for a period of time, causing blood to "pool" in the veins of the legs. Subsequently, blood is restricted to the brain and other major organs that may initially result in unconsciousness. If not rescued promptly, serious injury or death may occur. The Miller Relief Step is designed to provide a short term solution for alleviating suspension trauma.

Part No. 9099.

RELIEF STEP SAFETY DEVICE

DELUXE WAIST BELTS

CSA Standard Z259.1. Deluxe lined waist belt with D-ring.
Part No. 123NS, Small, 32 - 40".
Part No. 123NM, Medium, 36 - 44".
Part No. 123NL, Large, 42 - 48".
Part No. 123NXL, Extra large, 44 - 52".

WAIST BELTS w/ BACK PAD

CSA Standard Z259.1. Waist belt w/ back pad and D-ring.
Part No. 3NA-S, Small, 32 - 40".
Part No. 3NA-M, Medium, 36 - 44".
Part No. 3NA-L, Large, 42 - 48".
Part No. 3NA-XL, Extra large, 44 - 52".

MANYARD™ SHOCK ABSORBING LANYARD

Meets applicable OSHA/ANSI/CSA Z259.11 standards.
Part No. 216WLSX4, 4 ft., w/ small locking snaps at both ends.
Part No. 216WLSX6, 6 ft., w/ small locking snaps at both ends.
Part No. 216WLSX8, 8 ft., w/ small locking snaps at both ends.
Part No. 219WRSX4, 4 ft., with a large and small locking snap.
Part No. 219WRSX6, 6 ft., with a large and small locking snap.
Part No. 219WRSX8, 8 ft., with a large and small locking snap.

MANYARD II™ SHOCK ABSORBING LANYARD

Meets applicable OSHA/ANSI/CSA Z259.11 standards.
Manyard II™ 6 ft. shock absorbing lanyard, reduces the force of a fall by 50 to 80%. Integral red core shock absorber/wear indicator; heavy duty outer jacket serves as a back-up strap for added safety. Drop forged zinc plated steel locking snap hooks that minimize the possibility of accidental disengagement.
Part No. 216M.

The shock absorbing lanyard employs a unique webbing technique which allows a controlled stretch during fall arrest thus reducing the shock to the wearer (as much as 50% over corresponding 5/8" nylon rope lanyards). When the shock absorbing lanyard receives a force of 600 lbs. (2,7 KN) exerted on it, an indicator flap pops out to indicate the lanyard has been subjected to a fall, and the lanyard is NOT TO BE REUSED.

MILLER

SOFSTOP™ WEBBING LANYARD

Meets applicable OSHA/ANSI/CSA Z259.11 standards.
Webbing lanyard with locking snaps at both ends — can be attached directly to the hardware of a full body harness, with or without an attached lanyard.
Part No. 913WLSX4, 4 ft.
Part No. 913WLSX6, 6 ft.

NYLON ROPE NON-SHOCK ABSORBING LANYARD

CSA Z259.1 standard. Construction grade 5/8" nylon rope non-shock absorbing lanyard.
Part No. 201RLS-2X6, 6 ft., with small locking snaps at both ends.
Part No. 202RRS-2X4, 4 ft., with a large and small locking snap.

BACKBITER™ TIE-BACK LANYARD

6 ft. BackBiter™ Tie-Back Lanyards - all-in -one lanyard with Softstop shock absorber and cross-arm anchorage connector. Heavy duty Cordura® green nylon webbing with five times more abrasion resistance, with locking snap hook and locking 5K thumb tab snap hook.
Part No. 913B-SN.

TRAILING ROPE GRABS

Rope Grabs Meet OSHA/ANSI/CSA Z259.2 requirements.
Part No. 8174, Manual Rope Grab - stainless steel, with 5/8" or 3/4" synthetic rope tunnel
Part No. 8175, Trailing Rope Grab - stainless steel, with 5/8" rope tunnel

8174

8175

MIGHTYLITE RETRACTABLE LIFELINES

Select from a variety of lifeline lengths in galvanized wire rope, stainless steel wire rope, or polyester webbing. Easy to install and handle; ideal for hard-to-mount locations. Built-in carrying strap (on unit #RL20P, RL20G, RL20SS) or heavy duty steel handle (on all other units) for transporting. With carabiner and tagline. Double swivels (swivel on the snap hook and a top swivel on the unit) are perfect for tight situations, preventing the lifeline from twisting. Meets OSHA/ANSI/CSA Z259.2 requirements.
Part No. RL20P, 20 ft. polyester webbing (1") lifeline.
Part No. RL20G, 20 ft. galvanized wire rope (3/16") lifeline.
Part No. RL20SS, 20 ft. stainless steel wire rope (3/16") lifeline.
Part No. RL50P, 50 ft. polyester webbing (1") lifeline.
Part No. RL65G, 65 ft. galvanized wire rope (3/16") lifeline.
Part No. RL130G, 130 ft. galvanized wire rope (3/16") lifeline.
Part No. RL130SS, 130 ft. stainless steel wire rope (3/16") lifeline.

RL20P

RL65G

RETRACTABLE WEBBING LANYARD

8 ft. webbing length, retractable webbing lanyard c/w 2 attachment carabiners; CSA Z259.2 standard.
Part No. AD6902.

D-BOLT ANCHOR

Eliminates rollout. Ideal for use with the Manyard shock absorbing lanyard or retractable lifelines.
Part No. 416.

WEBBING/HOOK ANCHOR

Facilitates anchoring to scaffolding, pipe or angle iron. Large 2½" snap hook for easy installation, and D-ring to accommodate connecting device.
Part No. 480.

CROSS-ARM STRAP

6 ft. cross-arm strap. 2" nylon webbing, designed to wrap around I-beams forming a secure attachment point for lanyards, etc.
Part No. 8183.

"SHADOW BEAM ANCHOR"

Connects to a wide range of flanged beam sizes from 4" to 12" and up to 1¼" thick. Installs horizontally. Provides a compatible connection point for Manyard and SofStop shock absorbing lanyards.
Part No. 8811.

MANHANDLER HOIST

Manhandler Hoist w/ 60 ft. galvanized steel cable. Lightweight for easy transport and installation. One person set-up in minutes. Increased safety with "red" load indicator on the locking snap hook. Cost-effective, multiple use system — confined space, non-entry rescue, positioning device, personnel and material handling. Rapid retrieval rate. •Anti-backlash crank handle •Secondary braking system •Steel construction •5:1 gear ratio
Part No. 8442.

D-RING EXTENSION

18" extension.
Part No. 8928/18INBK.

7 FT. TRIPOD

7 ft. Tripod. Acts as the anchorage points of most typical rescue systems. Built for strength and durability, this lightweight aluminum tripod can withstand up to 5000 lbs. of vertical pull. Can easily be set up by one worker and can be transported effortlessly from one location to another. Legs adjust easily and lock in place, and feature yellow reflective tape for visibility. Comes complete with a safety chain and a rubber skid pad on each foot to control slippage. (Accessories not included; shown for illustration purposes only.)
Part No. 51.

Dimensions:	
(Legs Extended)	
Standing Height:	89"
Leg Span Diameter:	66"
Distance Between Feet:	58"
(Legs Collapsed)	
Standing Height:	52"
Leg Span Diameter:	38"
Distance Between Feet:	34"
Weight:	37 lbs.
Maximum Workload:	300 lbs.
Adjustment Increments:	5.5"

SPREADER BAR & ROPE YOKE

Spreader Bar and Rope Yoke. With locking snaps; attaches to wristlets or to the shoulder dees of a full body harness to raise and lower entrants.
Part No. 6490RYLS.

RESPIRATOR/LANYARD BAG

9" x 6".
Part No. 1639-1.

CARABINER

Carabiner. Steel w/ 1" opening and screw lock. Can be used to connect retractable lifelines, such as the M52 to the overhead anchor point of the 51 tripod. This locking device is user friendly and has a tensile strength of more than 5000 lbs.
Part No. 17D-1.

Titan Fall Protection Products are user-friendly and safe. With a limited offering of "add-on" features, the Titan line is the sensible, cost-effective choice for fall protection. Available in 3 job categories.

CONSTRUCTION & GENERAL MAINTENANCE KITS

One Titan™ full-body, universal sized harness. Titan full-body harness with mating buckle leg straps and back D-ring. Kit includes one Titan #T5111 tubular webbing shock absorbing lanyard, one Titan #T7314 6 ft. cross-arm strap anchorage connector.
Part No. TCK4000.

SCAFFOLDING KITS

One Titan™ full-body, universal sized harness. Titan full-body harness with mating buckle leg straps and back D-ring. Kit includes one Titan #T5112 6 ft. tubular shock absorbing lanyard with locking rebar snap hook (2¼" gate opening).
Part No. TSK4000.

ROOFING KITS

One Titan™ full-body, universal sized harness. Titan full-body harness with mating buckle leg straps and back D-ring. Kit includes one roof anchor with attachment D-ring, one 5/8" trailing rope grab, one 3 ft. lanyard with two locking snap hooks (3/4" gate opening), one 50 ft. high strength rope lifeline.
Part No. TRK4000-50.

UNIVERSAL FULL-BODY HARNESSES

Lightweight, durable polyester webbing for all day comfort and dependability. •Fully adjustable designs •Sliding back D-ring •Sub-pelvic strap •Mating chest strap shoulder buckles •Trilingual labelling and instructions •One "universal" size fits most
Part No. T4000U, Without side D-rings, with mating leg strap buckles.
Part No. T4007U, With side D-rings, with mating leg strap buckles.
Part No. T4500U, Without side D-rings, with tongue leg strap buckles.
Part No. T4507U, With side D-rings, with tongue leg strap buckles.

T4000U

SHOCK ABSORBING LANYARDS

Tubular shock absorbing lanyards feature a built-in woven inner core which smoothly expands to reduce fall arrest forces, while the outer jacket serves as a back-up web lanyard. •Polyester webbing •One leg •Locking snap hook harness connection •6 ft. length
Part No. T5111, 6 ft. lanyard with locking snap hook.
Part No. T5112, 6 ft. lanyard with locking rebar hook.

T5111

T5112

ANCHORAGE CONNECTOR

6 ft. x 1¾" polyester webbing cross-arm strap features a D-ring which slips through a web loop.
Part No. T7314.

FULL-BODY HARNESSES

Protecta full-body harnesses incorporate the following features: •1¾" wide webstrap •Shock-absorbing design •Sewn-in load indicators for easy visual inspection •Sub-pelvic strap •Parachute buckles for 100% closure •Full range of adjustment •Colour coding for ease of donning •Individual serial numbers for traceability •Compliance with OSHA 1910/1926, ANSI Z359.1-1992, and CSA Z259 •Designed for male or female use Construction Model - •3 parachute buckle closures •Leg and chest adjustable •Red with yellow sub-pelvic strap •Single D-ring in back •2.5 lbs. total weight •Standard size
Part No. AB10113.

Industrial Model-Positioning - •3 parachute buckle closures •Leg and chest adjustable •Red with yellow sub-pelvic strap •Single D-ring in back •2 side-hip positioning D-rings •2.6 lbs. total weight •Standard size
Part No. AB11123.

AB10113

FIVE POINT HARNESS

•100% polyester construction •Sliding dorsal "D" ring for fall arrest •Adjustable shoulder, leg, and chest straps •Stamped 5,000 lb. hardware •2.1 lbs. (0.96 kg) •Meets CSA Z259.10
Part No. AB17530C.
Part No. AB17540C, Similar to #AB17530C, with hip D-Rings.
Part No. AB17550C, Similar to #AB17530C, with Dorsal D-Ring, tongue, and grommet leg straps.
Part No. AB17560C, Similar to #AB17530C, with Dorsal and hip D-Rings, tongue and grommet leg straps.

THREE POINT HARNESS

•100% polyester construction •Sliding dorsal "D" ring for fall arrest •Parachute buckle leg/chest closures •Stamped 5,000 lb. hardware •1.7 lb - 0.45 Kg •Meets CSA Z259.10
Part No. AB17510C.

THREE POINT HARNESS W/ POSITIONING "D"- RINGS

•100% polyester construction •Sliding dorsal "D" ring for fall arrest •2 side positioning "D" rings •Parachute buckle leg/chest closures •Stamped 5,000 lb. hardware •2.4 lb - 0.91 Kg •Meets CSA Z259.10
Part No. AB17520C.

THREE POINT HARNESS W/ SHOULDER "D"- RINGS

•100% polyester construction •Sliding dorsal "D" ring for fall arrest •2 shoulder "D" rings •Parachute buckle leg/chest closures •Stamped 5,000 lb. hardware •3.2 lb - 1.36 Kg •Meets CSA Z259.10
Part No. AB17525C.

POSITIONING LANYARDS

Positioning lanyards are used by workers either to maintain a working position at heights, or to restrict their movement so that they avoid placing themselves in a hazardous position. Positioning lanyards are constructed of either rope or web material, and can incorporate a variety of hooks and connectors. Meets OSHA 1910/1926, ANSI Z359.1-1992, and CSA Z259 standards.
Part No. AL305CPW-6, Web Positioning Lanyard - 1" wide polyester web lanyard with double locking snap hook each end, 6 ft. total length.
Part No. AL340C-6, Rope Positioning Lanyard - 5/8" dia. rope lanyard with double locking snap hook each end, 6 ft. total length.

AL305CPW-6

POSITIONING LANYARD

•1.75"/445 mm polyester •Standard snap hooks •6 ft. / 1.83 m length •2.0 lb - 0.91 Kg •CSA Z259.11
Part No. AE57610C.

POSITIONING LANYARD

•1.75"/445 mm polyester •Large scaffold snap hook •6 ft. / 1.83 m length •2.5 lb - 0.91 Kg •CSA Z259.11
Part No. AE57640C.

POSITIONING LANYARD

•1.75"/445 mm polyester •100% tie-off •6 ft. / 1.83 m length •2.9 lb - 0.91 Kg
•CSA Z259.11
Part No. AE57630C.

POSITIONING LANYARD

•1.75"/445 mm polyester •100% tie-off / 2 scaffold hooks •6 ft. / 1.83 m length •3.8 lb - 1.36 Kg
•CSA Z259.11
Part No. AE57620C.

POSITIONING LANYARD

•1.75"/445 mm polyester •Standard snap hooks •4 ft. / 1.22 m length •1.9 lb - 0.86 Kg
•CSA Z259.11
Part No. AE57611C.

SHOCK ABSORBING LANYARDS

Shock absorbing lanyards are designed to reduce the impact forces placed on a body in the event of a fall. Shock absorbing lanyards are comprised of two sections: a lanyard (constructed of web); and a shock absorbing unit. The shock absorbing unit is constructed of two separate pieces of webbing that are woven together and a separate backup strap. If a fall occurs the woven material will separate progressively, absorbing energy as it smoothly and quickly brings the user to a stop. Meets OSHA 1910/1926, ANSI Z359.1-1992, and CSA Z259 standards.
Part No. AE542CPW2-6, Shock Absorbing Lanyard - 1¾" wide polyester web shock absorbing lanyard with double locking snaphook each end, 6 ft. total length.
Part No. AE544CPW2-4, Shock Absorbing Lanyard w/ Ladder Hook - 1¾" wide polyester web shock absorbing lanyard with one double locking snaphook, 4 ft. total length.
Part No. AE544CPW2-5, Same as #AE544CPW2-4, except 5 ft. length.
Part No. AE544CPW2-6, Same as #AE544CPW2-4, except 6 ft. length.

Part No. AE560C-4, "Pro-Stop" Shock Absorbing Lanyard - 1" web with integrated shock absorber, double locking snaphook each end, 4 ft. total length.
Part No. AE560C-5, Same as #AE560C-4, except 5 ft. length.
Part No. AE560C-6, Same as #AE560C-4, except 6 ft. length.

Part No. AE555CW2-6,Y Lanyard - with ladder hook.

AE544CPW2-6

AE560C-6

LANYARDS

Integrated Absorbing Lanyard. •1-3/8" (35 mm) polyester tube web with integrated energy absorber, snap hooks •2.2 lbs. (1 kg) •CSA Z259.11
Part No. AE57700C, 6 ft. long.
Part No. AE57701C, Similar to #AE57700C, with snap, scaffold hooks.
Part No. AE57702C, Similar to #AE57700C, 4 ft., with snap hooks.
Part No. AE57703C, Similar to #AE57700C, 4 ft., with snap, scaffold hooks.

CONNECTORS, ANCHORAGE DEVICES, & ACCESSORIES

Anchorage devices are designed to be adaptable to virtually any circumstance where connection of a fall protection system to a 5,000 lb. anchorage point is necessary. Each is rated at least 5,000 lb. or greater, and conforms to OSHA 1910/1926 and ANSI Z359.1-1992 standards for anchorage devices.

WEBSTRAP SLINGS

1¾" x 3 ft. nylon web with 3" scuff guard, 2" and 3" pass-through D-rings.
Part No. AJ450C-3.

Same as #AJ450C-3, except 6 ft. length.
Part No. AJ450C-6.

ANCHORAGE D-EYEBOLT

Forged steel, zinc coated. 1/2" x 1-3/8" mounting bolt. 2¾" ID horizontal anchor area, 1-3/8" ID vertical anchor area. May be used vertically with shock absorber.
Part No. AN112A.

4-LEG STRETCHER BRIDLE

Part No. RM0300.

SELF-LOCKING CARABINERS

2" gate opening. Fits #16 diameter rebar, 9/16" diameter zinc-plated carbon steel. Captive eye pin provided. 1.4 lbs. total weight.
Part No. AJ593A.

3/4" gate opening. Forged steel, galvanized. 0.38 lbs. total weight. Captive eye pin included.
Part No. AJ514A.

REBEL™ SELF-RETRACTING LIFELINES

Protecta fall arrestors incorporate an energy absorption system that will arrest a fall in less than two feet, while providing smooth, rapid deceleration. Ergonomic lifting handle. Includes a double locking snaphook at cable end. Meets OSHA 1910/1926, ANSI Z359.1-1992, and CSA Z259 standards. Thermoplastic casing with built in impact load indicator. Red end-of-travel indicator. 3/16" stainless steel cable.
Part No. AD110BRC, 10 ft. Self-Retracting Lifeline - 10 ft. web SRL w/ swivel snap and swivel housing
Part No. AD212CS, 30 ft. Self-Retracting Lifeline - 30 ft. total cable length. 14.25 lbs. total weight.
Part No. AD216CG, 50 ft. Self-Retracting Lifeline - 50 ft. total cable length. 14.25 lbs. total weight.
Part No. AD222CG, 75 ft. Self-Retracting Lifeline - 75 ft. total cable length. 21.5 lbs. total weight.

PROTECTA® INTERNATIONAL

Fall Protection Equipment

COBRA AUTOMATIC ROPE GRABS

The rope grab fall arrestor is designed for use where light weight and mobility are a must. It is designed to offer hands-free traverse. The device can be attached to or removed from the rope at any point. Its one piece design does not use pins or screw locks to open and close the device. Complies with OSHA 1910/1926, ANSI Z359.1-1992, and CSA Z259 standards. Constructed of impact resistant steel.

Part No. AC203C-2SL, With a permanently attached 2 ft. lanyard.

Part No. AC203C-SA2, With a permanently attached 2 ft. shock absorbing lanyard.

AC203C-2SL

ROPE GRAB & SHOCK-ABSORBER COMBO

•1/2" diameter blended rope lifeline •Stainless steel single action rope grab •2 ft. shock-absorber permanently attached

Part No. AC27325, 25 ft.

Part No. AC27350, 50 ft.

Fall Protection

RITE-ON™ FALL ARREST UNIVERSAL HARNESSES

The RITE-ON harnesses are designed with two things in mind: Simplicity and Comfort. It's constructed to shape around the user with ease. The harnesses are engineered with a comfort pad to make the donning of a harness a breeze. The comfort pad also eliminates the tangling of the straps which are common with traditional harnesses. The bayonet style connectors allow users to connect their chest and leg straps in a single action. The RITE-ON harnesses are designed to have workers wear them all day without the need to remove them, this increases safety and productivity in the work place.

Part No. FP81F/1DBA, Fall arrest, (1) large back D-ring.

Part No. FP81F/1EDBA, Fall arrest, (1) large back D-ring with extender.

Part No. FP81F/4DLA, Fall arrest, work positioning, ladder climbing, (1) large back, (2) large sides, (1) small sternal D-ring.

Part No. FP81F/4EDLA, Fall arrest, work positioning, ladder climbing, (2) large sides, (1) small sternal D-ring, (1) large back D-ring with extender.

VEST-STYLE FALL ARREST UNIVERSAL HARNESSES

Polyester universal vest style harness with adjustable shoulder straps and a chest strap that can be positioned in the optimum location for the user, eliminating any need for stretchable webbing. Back D-ring and pass through leg buckles. CSA.

Part No. FP759/1DP, Fall arrest, (1) large back D-ring.

ROOFER'S KITS

Contains: Lightweight universal harness, soft pack energy absorbing lanyard with rope grab permanently attached, 3 strand co-polymer rope 5/8", roof bracket, 4" Ardox spiral nails and Durabilt carrying bag.

Part No. FPD90/25, With 25' of rope.

Part No. FPD90/50, With 50' of rope.

NORTH

NORTH DECELERATOR® ENERGY ABSORBING LANYARDS

Nylon with ergonomic double locking snap and flagging system
Part No. FP28822/6, (2) self locking snaps, 6 ft.
Part No. FP28829/4, (1) self locking snap, (1) rebar hook, 4 ft.
Part No. FP289299/6, Y-lanyard, (1) self locking snap, (2) rebar hooks, 6 ft.

SOFT PAK ENERGY ABSORBING LANYARDS

1¾" continuous polyester web soft pak energy absorbing lanyard - double locking ergonomic snaps at both ends. 6 feet long.
Part No. FP26322/6.

SOFT PAK ENERGY ABSORBING LANYARDS

1" continuous polyester web energy absorbing Y- lanyard - With double locking ergonomic stamped snap and 2 stamped scaffold hooks. 6 feet long.
Part No. FP2562GG/6.

DURALITE II SELF-RETRACTING LIFELINE

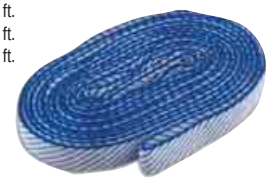
Self-retracting lifeline. Plastic housing with nylon web (3/4"). Double locking swivel snap. 20 ft. long.
Part No. FP1/306W.

RETRACTABLE WEB LANYARD

2" webbing with swivel double locking snap hook. Applications: General fall protection applications, stock pickers in warehouse, aerial lift applications. 8 ft. long.
Part No. FP0304.

TNT SPECTRA SLING

Tiny 'n Tough (T'nT) Sling is made of revolutionary Spectra webbing for lightweight, small size and exceptional strength. 1" web can be used without additional protective materials in concrete forming.
Part No. FP242/2, 2 ft.
Part No. FP242/4, 4 ft.
Part No. FP242/6, 6 ft.



ANCHOR SLING

1/4" PVC coated galvanized steel sling. 6 feet long.
Part No. FP02/6.

CARABINER CONNECTOR

Drop forged steel D-shaped carabiner. Autolocking, 3/4" opening.
Part No. FP86.

BOLT ON D-RING

D-ring shape reduces rollout possibilities. Mounting hardware required.
Part No. FP3730.

TEMPORARY ROOF ANCHOR

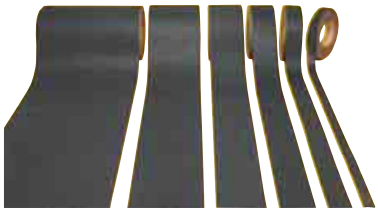
Disposable residential roof anchor (5000 lbs.), supplied with 4" spiral nails.
Part No. FP90B.

NORTH

Safety Products

ANTI-SLIP GRIT TAPE

This anti-slip grit tape offers extra traction to ensure a safe workplace. Constructed from a thick PVC base layer impregnated with an aggressive 60-grit compound. The backing has an aggressive acrylic adhesive system for longevity, that will adhere to most clean, dry surfaces. Tape works well in both indoor and outdoor environments, but should be applied at 40°F or higher. Liner is printed with a 1" square grid pattern. Black.
Part No. SG3101B, 1" x 60 ft. roll.
Part No. SG3102B, 2" x 60 ft. roll.
Part No. SG3103B, 3" x 60 ft. roll.
Part No. SG3104B, 4" x 60 ft. roll.
Part No. SG3106B, 6" x 60 ft. roll.
Part No. SG3112B, 12" x 60 ft. roll.
Part No. SG3124B, 24" x 60 ft. roll.



ANTI-SLIP BLACK SAFETY GRIT SHAPES

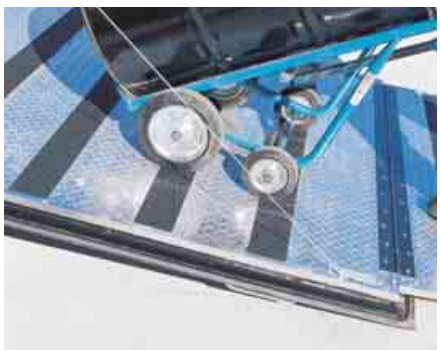
Die cut cleats are made from the same materials as the standard grit product, but pre-cut to give a finished look on your floor or equipment. All die cut cleats have rounded corners. An acrylic system will adhere to most any clean, dry surface. Cleats work well in both indoor and outdoor applications. Water resistant for outdoor usage. Black.
Part No. SG3125BS, 50 strips/pack, 3/4" x 24"
Part No. SG3125BSEA, 1 strip, 3/4" x 24"
Part No. SG3126BS, 50 strips/pack, 6" x 24"
Part No. SG3126BSEA, 1 strip, 6" x 24"
Part No. SG3127BS, 50 squares/pack, 5-1/2" x 5-1/2"
Part No. SG3127BSEA, 1 strip, 5-1/2" x 5-1/2"

COLOURED ANTI-SLIP SAFETY GRIT TAPE

Coloured grit tape is an effective way to offer visual warning of a slip and fall hazard while offering the same aggressive anti-slip features found on standard grit products. The surface is an aggressive 60-grit impregnated compound on a thick PVC liner. Tape will adhere to most any clean, dry surface with an acrylic adhesive system. May be used indoor and outdoor. Tape and adhesive are water resistant for use in outdoor applications, but not recommended for continually submerged applications. Try the popular yellow/black hazard striped tape for maximum visual warning and anti-slip protection on stair nosings.
Part No. SG3902YB, Yellow/black coloured, 2" x 60 ft.
Part No. SG3302Y, Yellow coloured, 2" x 60 ft.
Part No. SG3502R, Red coloured, 2" x 60 ft.
Part No. SG3602CL, Clear coloured, 2" x 60 ft.

"ALUMINUM BACKED" ANTI-SLIP SAFETY GRIT TAPE

This anti-slip safety grit tape is for those extreme applications. The foil carrier allows for excellent formability to most any surface with an aggressive adhesive. Works great on steel tread plate and stair nosing. The tape comes with an extra coarse 60-grit surface. Black.
Part No. SG4102AL, 2" x 60 ft.
Part No. SG4104AL, 4" x 60 ft.



EXTRA COARSE GRIT TAPE

Heavy foot traffic, dirty work environments can clog up the standard grit products with mud, oil, and grease. This extra coarse grit tape offers a deeply textured (36-grit) surface to continue to offer non-slip protection, even in the dirtiest conditions. Black.
Part No. SG6101B, 1" x 60 ft.
Part No. SG6102B, 2" x 60 ft.
Part No. SG6104B, 4" x 60 ft.
Part No. SG6106B, 6" x 60 ft.

SIGN SPRAY ON ADHESIVE

Part No. BA1, Sign On - multi-purpose spray adhesive. Great for porous surfaces.

FIRST AID KITS

AB, B.C. & Saskatchewan Regulation First Aid Kits

First Aid Kits are designed to meet or exceed WCB Standards. All contents are packed in colour coded sterile cartons for easy selection and are sealed with plastic film. This allows for long term storage and assures you of sterility even under adverse sanitary conditions. Cabinets are made from 20 gauge steel furnished with sturdy latches and piano type hinges. They also come with built in handles and mounting brackets.

Part No. ALBERTAP, Type P Personal First Aid Kit - Plastic case.
Part No. ALBERTA #1, #1 First Aid Kit - 1 person.
Part No. ALBERTA #2, #2 First Aid Kit - 2 to 9 people.
Part No. ALBERTA #3, #3 First Aid Kit - 10 to 49 people.
Part No. BCP, Personal BC regulation First Aid Kit, plastic w/ gasket.
Part No. BCB, Basic BC regulation First Aid Kit, metal 24 unit box w/ gasket.
Part No. BC1, Level 1 BC regulation First Aid Kit, metal 36 unit box w/ gasket.
Part No. BC2, Level 2 and 3 BC regulation First Aid Kit, metal cabinet w/ gasket.
Part No. SASK1, Level 1 Saskatchewan regulation First Aid Kit.
Part No. SASK2, Level 2 Saskatchewan regulation First Aid Kit.
Part No. SASK3, Level 3 Saskatchewan regulation First Aid Kit.
Part No. FAK042304, School Bus First Aid Kit.
Part No. F7580M060, Extreme First Aid Kit.

Soft Pack First Aid Bags

First Aid Nylon Bag Style Kits are designed to meet or exceed WCB and OSHA Standards. Gregg Distributors offers a line of quality nylon bag first aid kits in a wide variety of sizes. Red in colour, using quality zipper closures and durable handles.

Part No. F88PN100, Alberta Type P personal nylon bag first aid kit.

Part No. F1004802, 4" x 5 yard roll unitized - box of 2.

CONFORM BANDAGES (NON-STERILE)

•For dressing retention
Part No. F1020300, 2" x 5 yard roll.
Part No. F1021300, 3" x 5 yard roll.
Part No. F1022300, 4" x 5 yard roll.
Part No. F1023300, 6" x 5 yard roll.

SELF-ADHERENT WRAP

•Self adherent. No clips or fasteners needed. Maintains consistent compression with non-slip support.
Part No. F2102300, 2" x 5 yard roll.
Part No. F2103300, 3" x 5 yard roll.
Part No. F2104300, 4" x 5 yard roll.

REGULAR ELASTIC SUPPORT BANDAGES

•Non-adhesive elastic support bandages made of high quality acrylic polyester interwoven with rubber threads of high tensile strength. Individually shrink wrapped.
Part No. F1120300, 2" x 5 yard roll, stretched.
Part No. F1121300, 3" x 5 yard roll, stretched.
Part No. F1122300, 4" x 5 yard roll, stretched.

HOSPITAL TAPE - WATERPROOF

•On a spool with cover
Part No. F2021701, 1/2" x 5 yard roll, plastic spool.
Part No. F2024701, 1" x 5 yard roll, plastic spool.
Part No. F2026701, 2" x 5 yard roll, metal spool.
Part No. F2027701, 2" x 5 yard roll 3 cut, metal spool.

HOSPITAL TAPE - WATERPROOF

•White zinc oxide waterproof tape
Part No. F2022100, ½" x 10 yard roll.
Part No. F2024100, 1" x 5 yard roll.
Part No. F2025100, 1" x 10 yard roll.

ADHESIVE CLOTH - COTTON

•Economically packaged on a plastic spool
Part No. F2001100, 1/2" x 2½ yard roll.
Part No. F2002100, 1/2" x 5 yard roll.
Part No. F2003100, 1/2" x 10 yard roll.
Part No. F2004100, 1" x 2½ yard roll.
Part No. F2005100, 1" x 5 yard roll.
Part No. F2006100, 1" x 10 yard roll.

ELASTOPLAST® ALL PURPOSE TAPE - WATERPROOF

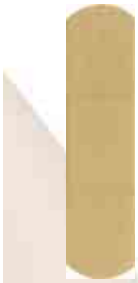
•Made from thin PVC film fully spread with zinc oxide adhesive. Excellent protectant from oil, grease and water.
Part No. F2078100, 1" x 3½ yard roll on spool.
Part No. F2079100, 2" x 3½ yard roll on spool.

FABRIC BANDAGES (STERILE)

•Conformable stretch fabric dressings, stretch with every movement. Unique open weave fabric allows your skin to breathe for fast healing.
Part No. F1504760, 3" x 3/4" strip - box/100.
Part No. F1504750, 3" x 3/4" strip - box/50.
Part No. F1504812, 3" x 3/4" strip - box/12.
Part No. F1510760, Knuckle, 3" x 1½" - box/100.
Part No. F1510750, Knuckle, 3" x 1½" - box/50.
Part No. F1510812, Knuckle, 3" x 1½" - box/12.
Part No. F1513760, Finger tip regular, 1¾" x 2" - box/100.
Part No. F1513750, Finger tip regular, 1¾" x 2" - box/50.
Part No. F1513812, Finger tip regular, 1¾" x 2" - box/12.
Part No. F1516760, Finger tip large, 3" x 1¾" - box/100.
Part No. F1516750, Finger tip large, 3" x 1¾" - box/50.
Part No. F1525760, 3" x 2" patch - box/100.
Part No. F1525750, 3" x 2" patch - box/50.
Part No. F1531760, 1½" x 3/4" patch - box/100.

PLASTIC BANDAGES (STERILE)

•For all types of minor wounds
Part No. F1570812, 3" x 3/4" strip - box/12.
Part No. F1570824, 3" x 3/4" strip - box/24.
Part No. F1570832, 3" x 3/4" strip - box/32.
Part No. F1570760, 3" x 3/4" strip - box/100.
Part No. F1572760, 3" x 1" strip - box/100.
Part No. F1580760, Butterfly closure medium - box/100.



COTTON GAUZE PADS (STERILE)

•Individually wrapped gauze pads
Part No. F1030760, 2" x 2" pad - box/100.
Part No. F1030525, 2" x 2" pad - bag/25.
Part No. F1031760, 3" x 3" pad - box/100.
Part No. F1031524, 3" x 3" pad - bag/24.
Part No. F1032760, 4" x 4" pad - box/100.
Part No. F1032725, 4" x 4" pad - bag/25.

WATERPROOF TAPE & DISPENSER

•A premium grade tape made from waterproof coated high tensile strength cloth with a zinc oxide adhesive backing.
Part No. F2030701, 1/2" x 5 yards.

COTTON TIP APPLICATORS (NON-STERILE)

Part No. F1201560, 3" applicator - bag/100.
Part No. F1203560, 6" applicator - bag/100.

TRIANGULAR BANDAGES

•100% muslin cotton individually packaged with safety pins
Part No. F1131300, 40" x 40" x 56".

Water-Jel® First Aid Burn Kits

COMPRESS BANDAGES & ABDOMINAL PADS

•Compress bandages and pressure pad helps stop bleeding quickly. Compress bandages feature non-stick pads. Full strength self adherent tails for support. Individually wrapped and sterilized.
Part No. F1101300, 2" x 2".
Part No. F1102300, 3" x 3".
Part No. F1103300, 4" x 4".
Part No. F1040300, 36" x 36".
Part No. F1112300, 5" x 15".
Part No. F1110300, 4" x 6" w/ rubber elastic ties.
Part No. F1105300, 6" x 6".
Part No. F1215200, 7½" x 8".
Part No. F1216200, 8" x 10".

OPSITE® SPRAY

•Spray on dressing for minor cuts and abrasions. Provides waterproof coating and clean environment for faster healing.
Part No. F3024160, 100 ml.

ISOPROPYL RUBBING ALCOHOL

•General antiseptic solution that also serves as a rubbing compound for sprains and sore muscle tissue. 70% solution.
Part No. F2501162, 250 ml bottle.
Part No. F2501165, 500 ml bottle.
Part No. F2501189, 4 litre bottle.

GREEN ANTISEPTIC SOAP

•A surgical clean-up soap ideal for first aid kits, industrial first aid rooms, medical clinics and hospital.
Part No. F2550150, 50 ml bottle.
Part No. F2550162, 250 ml bottle.
Part No. F2550165, 500 ml bottle.

HYDROGEN PEROXIDE

•Cleansing solution for minor cuts and abrasions. 3% solution.
Part No. F2502160, 100 ml bottle.
Part No. F2502162, 250 ml bottle.
Part No. F2502165, 500 ml bottle.

ALCOHOL WIPES

•Individual pads saturated in 70% isopropyl alcohol. Ideal for skin cleansing for injection and I.V. attachments. Packaged in a foil pouch. Ideal for use in first aid kits and rooms.
Part No. F2520761, Alcohol wipes - box/200.
Part No. F2520760, Alcohol wipes - box/100.
Part No. F2520810, Alcohol wipes - box/10.

BZK ANTISEPTIC TOWELETTES

•For use wherever antiseptic cleansing/refreshing is needed. Antiseptic Benzalkonium. Sting free for sensitive areas.
Part No. F2523760, Towelettes - box/100.
Part No. F2523812, Towelettes - box/12.

HAND CLEANSING TOWELETTES

•Cleans and refreshes hands, face and body without soap and water. Contains mild cleansing solution.
Part No. F2528760,Towelettes - box/100.
Part No. F2528812, Towelettes - box/12.

STING STOP PADS

•Antiseptic pad for insect bites. Helps relieve itchiness and pain.
Part No. F2525860, Sting pads - box/100.
Part No. F2525810, Sting pads - box/10.

IODINE OINTMENTS/WIPES

•Aids in the prevention of infection in burns, cuts and abrasions; catheter care. Topical ointment.
Part No. F2524760, Wipe pads - box/100.
Part No. F3004762, Ointment packette .05 oz. - box/250.
Part No. F3004810, Ointment packette .05 oz. - box/10.

SENIOR TONGUE DEPRESSORS

Part No. F1220760, Depressors - box/100.

ANTISEPTIC CREAMS

•First Aid Cream: odourless, water soluble antiseptic cream. Cetrimide as an active ingredient. For minor cuts, wounds, abrasions •Petroleum Jelly: a soothing ointment for any minor skin problems, scalds, chapped lips, dry skin.
Part No. F3001125, First Aid Cream - 25 grams.
Part No. F3007164, Petroleum Jelly - 460 ml.
Part No. F3007191, Petroleum Jelly - 2 kg.

TOPICAL SPRAYS & LOTIONS

Antiseptic Spray - Cetrimide Antiseptic Spray is a topical antiseptic for minor cuts, scratches, minor burns and skin irritations. 100 ml.
Part No. F2504160.

No Bleed®- is a mild antiseptic and coagulant that helps stop minor bleeding from cuts and abrasions. 25 ml.
Part No. F2506125.

First Aid Spray - Antiseptic solution containing a mixture of benzocaine and isopropyl alcohol. Ideal for first aid treatment of minor burns, sunburn and scalds. 120 ml.
Part No. F2505160.

Bactine® First Aid & Burn Squeeze Bottle - helps cleanse wounds, prevent infection and relieve pain and itching caused by sunburn, minor burns, abrasions, insect bites, poison ivy, etc. 120 ml.
Part No. F3025160.

SUNDRIES

Part No. F3030160, ASA tablets - bottle/100.
Part No. F3031160, Acetaminophen regular - bottle/100.
Part No. F3035160, Tylenol® regular strength - bottle/100.
Part No. F3036160, Tylenol® extra strength - bottle/100.
Part No. F3040160, Advil® - bottle/100.
Part No. F3045764, Cepacol® throat lozenges - box/400.

FIRST AID POCKET GUIDE & ACCIDENT RECORD BOOKS

Part No. F3081100, First aid pocket guide.
Part No. F3084100, Accident record book.

FIRST AID BLANKETS

•First Aid Blanket: ideal for first aid rooms, stretchers. Rescue Blanket: disposable pocket size blanket that can be used to help retain individual body heat in cold temperatures. Applicable for all first aid kits.
Part No. F6503401, First Aid Blanket, 41" x 72" - stretcher size.
Part No. F6502401, Disposable Blanket, 60" x 72".
Part No. F6501401, Rescue Blanket Sheet, 56" x 80".

F6502401

F6501401

HOT & COLD PACKS

•Economy instant hot or cold packs for immediate relief and re-usable microwavable hot and cold packs. Flexible easy to use.
Part No. F4002100, Large instant cold pack, 10" x 6".
Part No. F4001100, Small instant cold pack, 7" x 4½".
Part No. F4020100, Large hot pack, 10" x 6".
Part No. F4006100, Reusable hot/cold pack, 10" x 5".

MULTI-PURPOSE SPLINTS

•Wire Splints: can be easily shaped for contour fit.
Part No. F6001801, Wire splint, 12".
Part No. F6005100, 2" x 11½" wood splint.
Part No. F1213801, Splint padding, 5" x 9".
Part No. F6011100, Finger applicator, plastic.

MULTI-PURPOSE SPEED SPLINT® KIT

•Very versatile, can be used on foot, ankle, lower leg, knee, hand, wrist, lower arm, elbow or upper arm. One size fits all.
Part No. F6021301.

FIRST AID INSTRUMENTS

Part No. F3501110, Economy scissors - 4".
Part No. F3503115, Paramedic style universal scissors - 5½".
Part No. F3553506, Safety pins - pkg/6.
Part No. F3553512, Safety pins - pkg/12.
Part No. F3529109, Tweezers - 3½".
Part No. F3531109, Splinter tweezers - 3½".

BIO-HAZARD BAG

•Red, 24" x 24"
Part No. F3240100.

DISPOSABLE GLOVES

•1 pair
Part No. F3404501.

Eye Care

EMERGENCY EYEWASH STATIONS

•Designed for areas without plumbing. Complete station can be readily mounted on the wall in any hazardous work area.
Part No. F4560701, 32 oz. eyewash station.
Part No. F4558701, 16 oz. eyewash station.
Part No. F4565701, 32 oz. double eyewash station.
Part No. F4570301, 32 oz. eyewash bottle - empty.
Part No. F4573301, 16 oz. eyewash bottle - empty.

EYEWASH (STERILE) - BORIC ACID 2½% W/V

•Designed for cleansing and rinsing of eyes affected by dust, pollutants, non-toxic chemicals.
Part No. F4501165, 500 ml bottle.
Part No. F4501169, 1 litre bottle.
Part No. F4501189, 4 litre bottle.

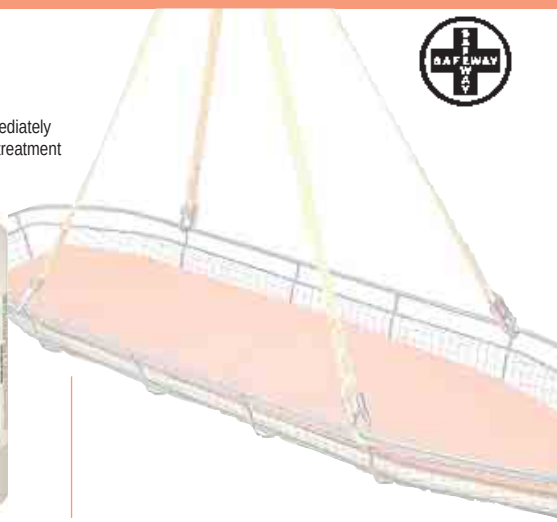
Eye Care

EYE LOTIONS, DROPS & EYE DRESSING KITS

•For relief of irritation from dust, smoke, pollutants, wind burn, welder's flash.
Part No. F4584130, Sterile eye drops - 30 ml.
Part No. F4579763, Optrex® eye lotion - 300 ml bottle.
Part No. F4589801, Eye dressing kit - eye pad, eye shield, sterile eye drops.
Part No. F4588100, Eye pad, 2-1/8" x 2-3/8".

NEUTRALITE® FACE & BODY WASH FOR CHEMICAL BURNS

•Designed to splash over all parts of your body to immediately neutralize acids and alkalis. Ideal product for first aid treatment of chemical splash.
Part No. F4505160, 100 ml bottle.
Part No. F4505169, 1 litre bottle.



CPR Emergency Essentials; Stretchers, First Aid Cabinets, & Fire Blankets

MTM® SHIELD RESUSCITATOR W/ GLOVES

•One-way valve with patient exhaust port delivers performance in excess of minimum requirement of 800 ml of air inflation. Soft faceshield allows excellent seal on all patients. Heavy duty, weatherproof bag with belt loop and key ring.
Part No. F7591N140.

MTM® MOUTH TO MASK

•One-way valve with patient exhaust port delivers tested average of 1110 ml of air per inflation. Sized to fit both adults and children. Includes oxygen ports for use with supplementary oxygen. Headstrap to help maintain position. With case, gloves, wipes, and instructions.
Part No. F5013401.

DISPOSABLE RESUSCITATION SHIELD

•Excellent training aid. Credit card size package. Provides protection from cross infection for student training. Packages in an easy to open polyethylene pouch.
Part No. F5001401.

STRETCHERS

Part No. F6051401, Aluminium Pole Stretcher - made of sturdy poles, rugged aluminium cross spreader bars, complete with feet. 18 oz. nylon coated bed. 81" x 21½" x 5½".

Part No. F6055701, Double Fold Pole Stretcher - same construction as pole stretcher. Folds in half for easy storage. 81" x 21½" x 5½".

Part No. F6072100, Wire Basket Stretcher - made of steel, all welded rigid construction which does not rely on injured person to attain form or rigidity. Light in weight and ample size.

Part No. F6073100, Mattress - for #F6072100.

Part No. F6066100, Full Spine Board - full body length. Ideal for swimming areas, and first aid stations. Smooth finish with protective coating for long term care. Complete with straps.

Part No. F6069503, Straps For Spine Board - set of 3.

METAL FIRST AID CABINETS

•White baked enamel finish. Comes with handle and wall mount bracket. Withstands extreme abrasive conditions, i.e. weather, chemicals. Ideal choice for a first aid station.
Part No. F0515250, Metal cabinet contains 1 shelf 12"W x 15½"H x 4"D.
Part No. F0515650, Metal cabinet contains 2 shelves 15½"W x 20"H x 6"D.
Part No. F0515751, Metal cabinet contains 3 shelves plus pull out tray with lock 18"W x 27"H x 8½"D.
Part No. F0515750, Metal cabinet contains 3 shelves plus pull out tray without lock 12"W x 27"H x 8½"D.
Part No. F0515950, Metal cabinet contains 3 shelves (2 adjustable) 15"W x 16½"H x 5½"D.

FIRE BLANKETS IN PLASTIC CONTAINERS

•Tear resistant woven glass fibres provide the highest quality in fire blankets. BSI approved. Available in white solid plastic containers complete with triangle clip for vertical suspension. Designed for blanket Quick Release
Part No. 390020, 6 ft. x 5 ft.

FIRE BLANKETS IN PVC FLATPAKS

•Tear resistant woven glass fibres provide the highest quality in fire blankets. BSI approved. Available in popular high quality Quick Release red PVC container which neatly holds each blanket ready for immediate use. These containers are highly efficient, very effective in any situation.
Part No. 390000, 6 ft. x 5 ft.
Part No. 390010, 4 ft. x 4 ft.

PORTA STREAM® I

•The Porta Stream® I delivers solution at ambient temperature to provide six minutes of uninterrupted, hands-free flushing. The gravity fed flow begins immediately when the nozzle pull strap is removed. This portable unit may also be mounted on a table or mobile cart. Complete with emergency eyewash sign.
Part No. 100, Includes #509 Eyesaline concentrate, mix with potable water and change every six months.

PORTA STREAM® II

•The Porta Stream® II delivers solution at ambient temperature to provide 15 minutes of uninterrupted, hands-free flushing. The gravity fed flow begins immediately when the nozzle pull strap is removed. Hanging bracket permits easy installation on vertical surfaces, or installs on a horizontal surface. Exclusive "full-flow" nozzles cover a wide area around the eyes. SEI certified to meet ANSI Z358.1 requirements. Complete with hanging bracket and inspection tag.
Part No. 200, Includes #513 Eyesaline concentrate, mix with potable water and change every 6 months.
Part No. 230, Includes #1100 Defend water preservative, mix with potable water and change every 4 months.

PORTA STREAM® III

•The Porta Stream® III is designed for indoor/outdoor use. It holds 15 gallons of Eyesaline solution at a thermostatically controlled temperature, and provides 15 minutes of uninterrupted flushing. The fluid heating system makes this unit ideal for use where temperatures are below 22°C and will work in temperatures down to -36°C. This unit is protected by a fitted, insulated cover and warmed by twin, 600-watt, 110 volt heaters. SEI certified to meet ANSI Z358.1 requirements. Complete with emergency eyewash sign.
Part No. 310, Includes #513 Eyesaline concentrate, mix with potable water and change every 6 months.

FLASH FLOOD®

•Is intended for immediate, hands free eye flushing, and should be located near work place hazards. Remove the pull strap to start the flow of Eyesaline® flushing solution. Dual nozzles flush both eyes simultaneously. The Flash Flood delivers Eyesaline solution from a one gallon cartridge. When the cartridge is inserted in the base unit, the cartridge seal is broken and the Flash Flood is ready to deliver eyewash solution for three minutes at a rate of .33 gallons per minute. Cartridge replacement is quick and easy. Wall mountable. Replace cartridge after unit is actuated, or once every six months.
Part No. 400.

Replacement Cartridges

•One gallon cartridges of Eyesaline® Solution ready for use. Sold as each.
Part No. 401.

Wire Storage Rack

•Wire rack holds four one gallon Flash Flood cartridges.
Part No. 402.

Flash Flood pictured with #401 and #402

PUREFLOW 1000®

•Is the most economical eyewash station available. Twenty four month cartridge life. No special plumbing is needed, and the system mounts easily with one bracket. When a cartridge change is required, doing so takes less than five minutes. Waste flushing fluid captured for easy disposal. The Eyesaline solution for the PureFlow 1000 is contained in replaceable delivery modules that remain sealed until activated. A unique nozzle provides a soft "ribbon" of Eyesaline at ambient temperature. Flow exceeds 0.4 gpm for the entire 15 minute cycle. An expiration date is displayed on the pull strap and a "Service Immediately" warning appears when the delivery module has been emptied.
Part No. 1000.

Replacement Cartridges

•PureFlow 1000® fluid cartridges. 1 set of 2 cartridges.
Part No. 1050.

EYESALINE® CONCENTRATE

•Is specifically formulated to be mixed with clean potable water. Concentrate mixes quickly with water to provide a preserved, buffered, saline solution. Mixing ratio: ten parts water to one part concentrate.
Part No. 513, 5.3 litre for 14 to 16 gallon units (#200, #310).

Part No. 509, 2.1 litre for 5 to 7 gallon units (#100).

DEFEND WATER PRESERVATIVE

•To inhibit the growth of bacteria in self-contained eyewash stations up to 120 days.
Part No. 1100, 237 ml. for 14 to 16 gallon units (#230).

WASTE FLUID DISPOSAL CART
•This heavy duty polyethylene, wheeled disposal cart provides an easy means for collecting used flushing fluid at the emergency eyewash station. The top surface of the disposal cart is concave with a centre drain for improved fluid collection. The cart has dual wheels and a molded in handle for ease of movement. Use with #100, #200, #310.
Part No. 511.

PORTA STREAM® DUST COVER
•Protect the eyewash basin of your Porta Stream® from dirt, dust and debris. The dust cover attaches to the eyewash pull strap, so the cover and pull strap are removed in one motion. The dust cover installs easily, using four Velcro tabs. These tabs hold the cover securely in place until activation. Use with #100, #200, #230.
Part No. 517.

UNIVERSAL CART
•The universal cart provides portability for self contained gravity fed emergency eyewash stations. Classic hand truck design ensures easy movement to hazard sites.
Part No. 1060.

Part No. 1061, Waste Container.

Shown: Porta Stream, waste container, and universal cart

EMERGENCY DECONTAMINATION SHOWER
•Designed to provide decontamination facilities in accordance with OSHA standard 1910.120 without distracting emergency responders from their primary task. It is ideal for a variety of locations, including construction sites, loading docks, agricultural locations and other emergency response areas. Light weight compact shower and retention pool require no assembly. Pool and shower can be stored in convenient carrying bags on virtually any response vehicle. Pool and shower can be made fully operational in less than two minutes by one person. No tools are required for set up. The optional drench hose can be used to assist the emergency responder or victim with decontamination or drenching. Shower is designed to connect to a standard garden hose.
Part No. 1180, Shower.
Part No. 1181, Shower Bag.
Part No. 1182, Pool.
Part No. 1183, Pool Bag.
Part No. 1184, Drench Hose.

Fire Extinguisher Accessories

•Surface mounted economy type cabinets are steel, painted white. Supplied complete with scored front plexiglass, break glass decal, breaker bar and chain.
•Brackets are universal heavy duty type.

PART NO.	MODEL NO.	DESCRIPTION	DIMENSIONS
551936	FXC-5T	Cabinet, accommodates 2-1/2, 5, and 6 lb. dry chemical	5” x 8” x 20.5”
551937	FXC-10	Cabinet, accommodates 10 lb. dry chemical	6.25” x 10.5” x 24”
551938	FXC-20	Cabinet, accommodates 20 lb. dry chemical and PWS-25	9” x 14.2” x 30.25”
551958	-	Universal vehicle bracket, fits 5 and 10 lb. sizes	4” to 5.5”
551952	-	Bracket, 10 lb. dry chemical/CO2-5 lb.	5.5” to 6”
551953	-	Bracket, 20-30 lb. dry chemical/CO2-10-15/PWS-25	6.5” to 7.5”
551959	-	Bracket, CO2-20 lb.	8”
551951	-	Bracket, 20-30 lb. cartridge operated	8”

FLAG FIRE

FIRE INFORMATION

CLASS A
Class A fires are the most common in homes and offices. They involve ordinary combustibles such as wood, paper, cloth, rubber, trash, and other common materials.

CLASS B
Class B fires involve flammable liquids and gases — natural and manufactured gas, oil, gasoline, grease, paint, lacquers, tars, and other synthetic or oil-based products. They're very explosive, spread rapidly, and can be re-ignited by heat even after the flames are out.

CLASS C
Class C fires are those involving live electrical equipment, such as wiring, controls, telephone or data processing panels, and motors. They can start with a spark, a short circuit, or a power surge — often in places hidden from sight.

STRIKE FIRST
Dry Chemical Fire Extinguishers

PART NO.	GROUP	DESCRIPTION	DIA.	WIDTH	HEIGHT
MSF2ABC	Aluminum	2 lb. unit c/w vehicle mounting bracket - ULC approved - rated 1A, 5BC	2-7/8"	3¾"	12-7/8"

STRIKE FIRST
FIRE EXTINGUISHERS

PRESSURIZED WATER

Pressurized water for Class A fires. •Squeeze grip operation •Positive on/off operation •Pull pin safety lock •Brass chrome plated valve body •Waterproof stainless steel gauge •Tire valve for pressurizing •2A rating •44 to 55 ft. range •Stainless steel container
Part No. WBPW250.

FIRE EXTINGUISHER BRACKETS

Heavy Duty Vehicle Brackets - strong Uni-body construction. Scotchlite™ reflective label for added safety. Stainless steel pull pin. Rounded corners for added safety. Super durable polyester powder coat finish.
Part No. HDVB-1, Fits fire extinguisher with shell diameter 4" to 4¾". For models WBSFABC5, WBDLABC5.
Part No. HDVB-2, Fits fire extinguisher with shell diameter 5" to 6". For models WBSFABC10, WBDLABC10.
Part No. HDVB-3, Fits fire extinguisher with shell diameter 6¼" to 7-1/8". For models WBDLABC20.
Part No. HDVB-4, With 2 straps and is 25" high. For model WBDLABC30.

RS STEEL FIRE EQUIPMENT
Fire Extinguisher Accessories

RECHARGE CHEMICAL

Meets the requirements of CAN/ULC S 514 M88 powder specifications.
Part No. ABC-P, ABC Recharge Chemical (siliconized multi-purpose mono-ammonium phosphate /sulfate base). 45 lb. plastic pail.
Part No. BC-P, BC Recharge Chemical (siliconized sodium bicarbonate). 50 lb. plastic pail.
Part No. PK-P, PK Recharge Chemical (siliconized purple K potassium bicarbonate). 50 lb. plastic pail.

5 LB. FIRE EXTINGUISHER COVERS

With elastic back and pull bottom tab for removal. Fluorescent red.
Part No. E-FEC-5NW, No window.
Part No. E-FEC-5, Window.

10, 20, & 30 LB. FIRE EXTINGUISHER COVERS

With black imprint and black trim. Made in reinforced vinyl, with Velcro closures. Fluorescent red.

10 lb. - 20"H x 12"W
Part No. E-FEC-10NW, No window.
Part No. E-FEC-10, Window.

20 lb. - 25"H x 16"W
Part No. E-FEC-20NW, No window.
Part No. E-FEC-20, Window.

30 lb. - 30"H x 16"W
Part No. E-FEC-30NW, No window.
Part No. E-FEC-30, Window.

50, 75, 150 & 350 LB. WHEEL UNIT COVERS

Durable equipment protection. Helps prevent tampering. Fast and easy to remove.
Easy to spot location. Made in reinforced vinyl. Fluorescent red.
Part No. E-WFE-75, 50 lb. & 75 lb. CO_2 wheeled unit cover, 54"H x 26"W x 16"D
Part No. E-WFE-150, 150 lb., 53"H x 42"W x 30"D
Part No. E-WFE-350, 350 lb., 58"H x 52"W x 38"D

METAL FIRE EXTINGUISHER CABINETS

•Complete with cylinder lock keyed alike •Baked with enamel finish •Acrylic plastic scored viewing panel •Break glass hammer and chain •Made of galvanized steel
Part No. C-100, Accommodates 5 lb. Dry chemical. Dimensions: 8"W x 17"H x 5"D.
Part No. C-999, Accommodates 10 lb. Dry chemical. Dimensions: 10-9/16"W x 24-5/16"H x 6-9/16"D.
Part No. C-104, Accommodates 20 lb. Dry chemical or a 10 lb. CO_2 and 2½ gallon pressure water. Dimensions: 14"W x 30"H x 9"D.

Plastic Fronts & Accessories

Part No. PF-104, Plastic Front for # C-104 cabinet - 27-7/8" x 13-11/16".
Part No. PF-999, Plastic Front for # C-999 cabinet - 22-1/16" x 10-3/8".
Part No. PF-100, Plastic Front for # C-100 cabinet - 19¾" x 8".
Part No. BGH, Break Glass Hammer and Chain.
Part No. BL-106, Break Glass Sticker.

UNIVERSAL RUNNING BOARD VEHICLE BRACKETS

Welded steel construction with catch pin to keep bracket from vibrating open. Pin must be pulled prior to extinguisher removal.
Part No. VB-4, Fits fire extinguisher with shell diameter 4" to 4½".
Part No. VB-5, Fits fire extinguisher with shell diameter 4¾" to 5¼".
Part No. VB-6, Fits fire extinguisher with shell diameter 5½" to 6".
Part No. VB-7, Fits fire extinguisher with shell diameter 6¼" to 6¾".
Part No. VB-8, Fits fire extinguisher with shell diameter 6¾" to 7¼".

UNIVERSAL VEHICLE BRACKETS

Part No. V-2, Universal Vehicle Bracket fits most 2½ and 2¾ lb. units.
Part No. V-5, Universal Vehicle Bracket fits most 5 and 6 lb. units.

CARTRIDGE OPERATED VEHICLE BRACKETS

Heavy duty steel bolted construction design. Latch will not vibrate open. Pin must be pulled prior to extinguisher removal.
Part No. AG20C, ANSUL and GENERAL 20 lbs. style cartridge operated bracket.
Part No. AG30C, ANSUL and GENERAL 30 lbs. style cartridge operated bracket.
Part No. RBP, Rubber Bumper Pad fits all brackets

AG20C

AG30C

RBP

OTTAWA BRASS LTD.

Back Pack – Pump Tanks & Accessories

5 GALLON (US) THICK WALLED POLYETHYLENE TANK BACK PACK

Completely corrosion resistant. The "non slosh" design, moulded to fit the body ensures comfort, balance and stability. The high capacity slide pump is manufactured of brass, stainless steel and bronze and incorporates a jet/mist spray nozzle. Weighs only 9½ lbs.
Part No. MODEL20.

5 GALLON (US) DOUBLE WALLED NYLON TANK BACK PACK

Features a tough and replaceable inner bladder that provides extra puncture resistance, making the tank cost effective, light, easy to store and repair. It incorporates the same sliding pump as found on Part No. MODEL20. Padded shoulder straps, with quick detachable buckles, is designed to distribute weight from your shoulders down to your back, which provides a higher level of comfort. Weighs only 4½ lbs.
Part No. MODEL30.

REPLACEMENT PARTS

Part No. P-5, Ball valve.
Part No. P-6, Valve plate.
Part No. P-9, Valve spring.
Part No. P-11-5, Small o-ring.
Part No. P-12, Large o-ring.
Part No. P-15 , Flat rubber washer.
Part No. P-16, Spray nozzle.
Part No. T-5, Strainer cup for #MODEL20.
Part No. T-8, Lid for tank w/ chain for #MODEL20.
Part No. B-3, Inner bladder w/ cap for #MODEL30.

AMERICAN SENSORS

Smoke/Fire Alarms & Carbon Monoxide Alarms

EASY TOUCH™ - ALARM PAUSE® SMOKE ALARM

•9 volt battery operated •85 dB alarm •lighted power indicator •low battery signal •ionization sensor •alarm-pause feature to silence nuisance alarms for up to 10 minutes •recommended for use in kitchen areas but suitable for any room •10 year warranty •UL, ULC, and CSA approved
Part No. SA320KC.

EMERGENCY LIGHT SMOKE & FIRE DETECTOR

•9 volt battery operated •85 dB piezo electric alarm •lighted power indicator •low battery signal •ionization sensor •3.5 candle power emergency light •excellent for hallways, stairways, and exit door areas •10 year warranty •UL, ULC, and CSA approved
Part No. SA358KC.

PHOTOELECTRIC SENSING SMOKE & FIRE DETECTOR

•9 volt battery operated •85 dB piezo electric alarm •lighted power indicator •low battery signal •photoelectric sensor •ideal for kitchens or anywhere slow smoldering fires may occur •10 year warranty •UL, ULC, and CSA approved
Part No. SA388KC.

INTERCONNECTABLE 120 VOLT HARDWIRE/ BATTERY BACK-UP SMOKE ALARM

•120 volt AC hardwire with 9 volt battery back-up (battery included) •rear battery compartment "tamper resistant" •Alarm-Pause® feature •Interconnectible up to 18 units (12 smoke alarms and 6 compatible devices combined) •alarm source indicator •alarm and power test feature and LEDs •low battery warning •tamper resistant "Lock-It" key mounting hardware included •ionization technology •10 year limited warranty (battery excluded) •meets applicable standards •UL approved
Part No. 670LBX.

PORTABLE OR WALL MOUNT CARBON MONOXIDE ALARM

•9 volt battery operated •low battery warning •85 dB alarm •low level warning •hazard level alarm •self-diagnosing circuitry •test/reset feature •alarm/low battery indicator light •continuous air quality diagnosis sensor •5 year warranty •UL and CSA approved
Part No. FCD3NCNA.

120 VOLT AC PLUG-IN CARBON MONOXIDE ALARM

•120 volt AC plug-in with 9 volt battery back-up •unique 90° rotating plug •85 dB alarm •digital LED display •hazard level alarm •low level warning •self diagnosing circuitry •power, alarm, low back-up power indicators •instant test/reset feature •semi-conductor sensor •5 vear warranty •UL and CSA approved
Part No. CO920KC.

S-TECH

Carbon Monoxide, Propane, & Natural Gas Detectors

R.V. & MARINE CARBON MONOXIDE DETECTOR

•12 volt DC direct hard wire •85 dB alarm •lighted power and alarm indicators •low battery warning •test/reset button •UL, ULC, and CSA approved •1 year limited warranty
Part No. STCO-4000.

CARBON MONOXIDE DETECTOR

•120 volt AC plug-in •85 dB alarm •lighted power and alarm indicators •self diagnosing circuitry •test/reset button •UL, ULC, and CSA approved •5 year limited warranty
Part No. STCO-058.

R.V. & MARINE PROPANE GAS DETECTOR

•12 volt AC/DC direct hard wire •flush mount •85 dB alarm •power and alarm indicator lights •test/reset button •UL and CSA approved •1 year limited warranty
Part No. STCP-4000.

PROPANE GAS DETECTOR

•120 volt AC plug-in •85 dB alarm •power and alarm indicator lights •test/reset button •CSA approved •2 year limited warranty
Part No. STCP-1000.

NATURAL (METHANE) GAS DETECTOR

•12 volt DC direct hard wire •85 dB alarm •power and alarm indicator lights •test/reset button •self testing circuitry •ULC approved •2 year limited warranty
Part No. PSM-011.

NATURAL (METHANE) GAS DETECTOR

•120 volt AC (power cord) plug-in •85 dB alarm •power and alarm indicator lights •test/reset button •UL and CSA approved •2 year limited warranty
Part No. STCH-1000LC.

GOODYEAR INDUSTRIAL BELTS

Hy-T® Plus Matchmaker V-Belts

Since all materials -- rubber belts, metal chains, etc. -- will stretch in use, the secret to reliable performance isn't to eliminate elongation, but to control it so it is minimal, predictable, and uniform. To achieve this criteria, Goodyear developed the Vytacord® tensile cord member and an exclusive 3-T triple tempering process. The Vytacord construction provides the high strength, high horsepower rating capacity needed to effectively transmit the drive power. It's even tough enough to tolerate slight sheave misalignment that would quickly destroy ordinary belts.

The 3-T process removes excessive stretch and imparts exceptional dimensional stability. As a result, each belt of a given size will match every other belt of that size, no matter when it was produced. The exceptional dimensional stability of HyT Matchmaker, eliminates matching problems, improves performance and increases service life.

*Hy-T Premium Wedge V-Belts: with a molded cog and rubber edge construction, the Premium Wedge is just that — a high quality belt that provides premiums of greater flexibility, higher horsepower and longer life.

BELT SIZE INFORMATION
HY-T WEDGE

Section	Nominal Top Width	Angle	Lengths
3V	3/8" (0.375)	38°	Belt number indicates nominal effective length in inches and tenths, e.g.:
5V	5/8" (0.625)	40°	3VX425 is 42.5" outside.

GOODYEAR INDUSTRIAL BELTS

Torque Team Matchmaker V-Belts

TORQUE TEAM MATCHMAKER V-BELTS DELIVER PERFORMANCE PLUS ON HIGH HORSEPOWER DRIVES.

Torque Team Matchmaker V-Belts are built with super strong Vytacord. It provides the high strength, high horsepower rating capacity needed to effectively transmit the drive power. And it's tough enough to tolerate the misalignment that quickly destroys single belts. The Vytacord material is treated with an exclusive 3-T process which removes excessive stretch and imparts exceptional dimensional stability. Drive performance is consistent, reliable and predictable over the life of the belt. Then an oil and abrasion resistant backing fabric was added to provide maximum longitudinal flexibility and lateral strength to withstand the dynamic forces acting within a joined belt. The backing also has special adhesion characteristics which enable it to bond inseparably to the V-sections to maintain the unitary integrity of the belt. The cushion is made of a fibre-reinforced Wingprene compound, contributing heat and oil resistance and strength.

Please ask a Gregg Distributors representative for your specific application requirements.

The belts to the right are the same as Torque Team Matchmaker V-Belts listed on the previous page except they are a cogged version. Please contact us for further information on any of these belts.

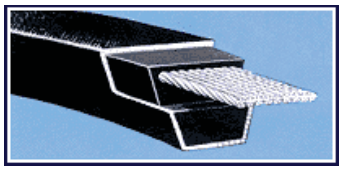
Belts

BELTS & HOSE

Goodyear offers a variety of belts for passenger cars and light trucks; for medium and heavy duty trucks; off-road equipment; snowmobiles, etc.

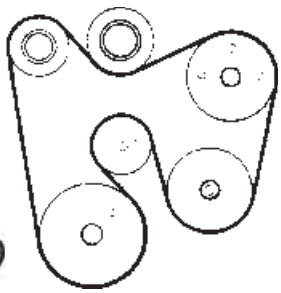
AUTOMOTIVE BELTS
Picture illustrates a two-ply fabric reinforcement for extra strength.

ACCU-DRIVE TENSIONERS & PULLEYS
A complete line of automotive and heavy duty belt tensioners and pulleys.



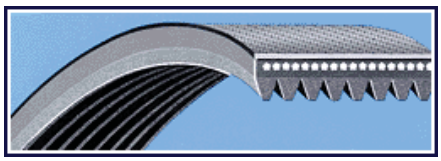
INSTA-POWER BELTS
These belts are for use in lawn and garden equipment drives, from 2 to 20 hp.

SERPENTINE BELTS

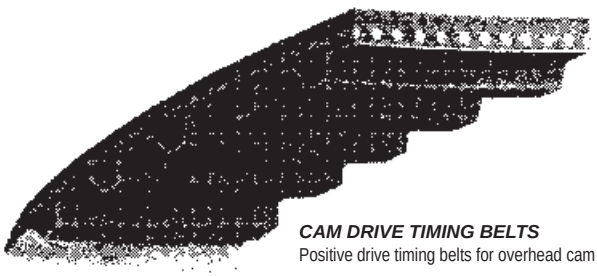


Gregg Distributors Ltd. carries the complete line of Goodyear Automotive Belts. Please ask for more information from your Gregg Distributors representative.

TRUCK TORQUE TEAM BELTS
These belts are specially suited for truck refrigeration purposes.



POLY-V BELTS
Goodyear carries the complete line of automotive Poly-V Belts.



CAM DRIVE TIMING BELTS
Positive drive timing belts for overhead cam (OHC) engines.

SPORTS VEHICLE DRIVE BELTS
Strengthened with Flexten cord, formed from an advanced synthetic fibre that is 5 times stronger than steel. They'll even take the hard-driving torture involved in stock-model racing.

UNICOIL™

Hose Molding Coil

UNICOIL™

WHEN MOLDED HOSE ISN'T AVAILABLE...
Now you can make those quick repairs when molded hose isn't available. Unicoil allows you to configure custom-bent hoses using straight heater hose — the perfect solution for: •Quick repairs •Customized engines •Out-of-stock situations •One-of-a-kind routing problems
Made of a stainless steel coil and a metal spine that will permanently hold its bend.
Part No. 28510, 1/2" Unicoil.
Part No. 28511, 5/8" Unicoil.
Part No. 28512, 3/4" Unicoil.

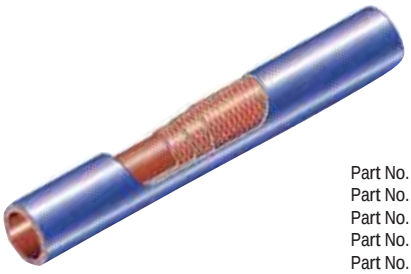
Part No. 59328, 1-3/4" x 30 ft.
Part No. 59330, 1-7/8" x 30 ft.
Part No. 59332, 2" x 30 ft.

FLEXFAB®
Silicone Coolant Hose



RED LINER, BLUE COVER

3 ply silicone coolant hose reinforced with polyester fabric and coated with specially compounded silicone elastomer. For heavy duty pressure connections in hostile engine environments. Resists hardening, cracking, cold leaks, aging, steam and many chemicals. Ideal for extreme temperature and various pressure ranges where high performance levels are required. Temperature range -54°C to 177°C. Meets or exceeds operating requirements of SAE J20 R1 Class A custom wall, TMC RP303B Class I Grade II and most OEM truck manufacturers' specifications.

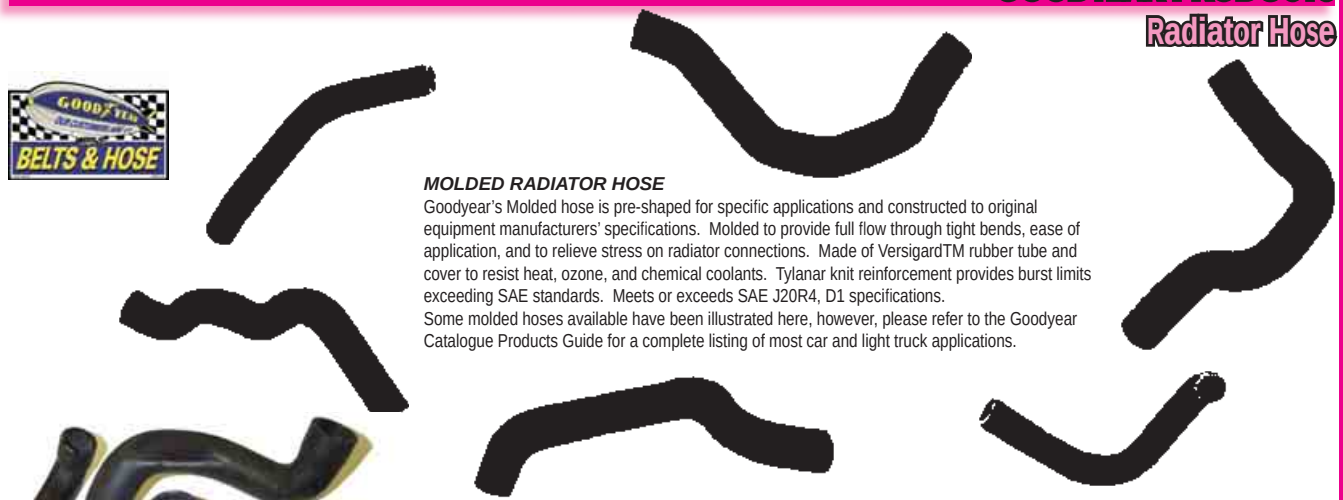
GOODYEAR PRODUCTS
Radiator Hose



MOLDED RADIATOR HOSE

Goodyear's Molded hose is pre-shaped for specific applications and constructed to original equipment manufacturers' specifications. Molded to provide full flow through tight bends, ease of application, and to relieve stress on radiator connections. Made of VersigardTM rubber tube and cover to resist heat, ozone, and chemical coolants. Tylanar knit reinforcement provides burst limits exceeding SAE standards. Meets or exceeds SAE J20R4, D1 specifications.
Some molded hoses available have been illustrated here, however, please refer to the Goodyear Catalogue Products Guide for a complete listing of most car and light truck applications.

ALL CURVE RADIATOR HOSE

Goodyear Flexible Radiator Hose is an outstanding advance in quality and performance. Both the tube and cover are made with a new tough, synthetic rubber compound. The synthetic knit yarn reinforcement now brings burst strength up to ten times normal operating pressures.

Miscellaneous Hose & Accessories

POWER BRAKE VACUUM HOSE

Specially engineered for vacuum power brake applications. Sold by the foot. Standard roll = 50 ft.
Part No. 65107, 11/32".
Part No. 65108, 15/32".

WINDSHIELD WASHER TUBING

Resists oil, grease, and ozone effects. Flexible at low temperatures. Sold by the foot. Standard roll = 50 ft.
Part No. 65111, 5/32".
Part No. 65112, 7/32".
Part No. 65113, 7/64".
Part No. 65114, 9/32".

FUEL LINE & EMISSION CONTROL HOSE

Resists oil, grease, and ozone effects. Flexible at low temperatures. Sold by the foot. Standard roll = 50 ft. Also available in 250 ft. rolls.
Part No. 65125, 3/16".
Part No. 65126, 1/4".
Part No. 65127, 5/16".
Part No. 65128, 3/8".

Part No. 65156, 250 ft. roll, 3/8".
Part No. 65157, 250 ft. roll, 7/16".

FUEL INJECTION HOSE

For unleaded fuels, Ethanol, and Methanol blends. Hypalon® cover is oil and gas resistant, and withstands exposure to grease, ozone, and coolants. Fluorel® liner resists deteriorations from oxidized gas which forms in fuel injection systems. Sold by the foot. Standard roll = 25 ft. Also available in 10 ft. rolls. Compatible with E85 Biodiesel.
Part No. 65151, 1/4".
Part No. 65152, 5/16".
Part No. 65153, 3/8".

Part No. 65161, 10 ft. roll, 1/4".
Part No. 65162, 10 ft. roll, 5/16".
Part No. 65163, 10 ft. roll, 3/8".

TRANSMISSION HOSE & POWER STEERING RETURN HOSE

Transmission oil cooler hose meets SAEJ1019; power steering return hose meets SAEJ189. Sold by the foot. Standard roll = 25 ft.
Part No. 65211, 5/16" transmission hose.
Part No. 65213, 3/8" transmission hose.
Part No. 65221, 3/8" power steering return hose.

AIR LINE HOSE

For tower, reel, and curb connections. A product frequently used by service stations. 25 and 50 ft. rolls come complete with couplings. Sold by the roll.
Part No. 65131, 25 ft. roll, 1/4".
Part No. 65133, 25 ft. roll, 3/8".
Part No. 65134, 25 ft. roll, 1/2".

Part No. 65135, 50 ft. roll, 1/4".
Part No. 65137, 50 ft. roll, 3/8".
Part No. 65138, 50 ft. roll, 1/2".

Part No. 65139, 300 ft. roll, 1/4".
Part No. 65141, 300 ft. roll, 3/8".

SURELINE WASH DOWN HOSE

A specially constructed water hose designed to meet the needs of today's automotive and truck service facilities. Sold by the roll.
Part No. 65170, 50 ft. roll, 5/8".

CARBURETOR PREHEATER/ EMISSION CONTROL DUCT

This connects the exhaust manifold to the air cleaner the preheat the fuel mixture and reduce carburetor icing. Sold individually by the 3 foot length.
Part No. 65912, 3 ft. length, 3/4".
Part No. 65924, 3 ft. length, 1½".
Part No. 65928, 3 ft. length, 1¾".
Part No. 65932, 3 ft. length, 2".

HOSE CUTTING TOOL

GYR/2375

A handy, easy-to-use tool for evenly cutting rubber or plastic hose. Cuts rubber hose from 1" to 3" diameter.
Part No. 65090, Hose cutting tool.
Part No. 65091, Replacement blades for #65090.

Flexfab

Silicone Charge Air Cooler Hose

SILICONE CHARGE AIR COOLER HOSE (CAC) — RED — HOT SIDE

For superior connection between engine mounted charge air systems components. Ideal for handling slight misalignments and isolating vibrations between hose ends. Flexfab charge air hose is built with 4 plies of DuPont Nomex® — iron oxide red. Hot side 260°C maximum operating temperature.

PART NO.	I.D.	O.D.	LENGTH	STAINLESS STEEL RINGS	MAX. OPER. PRESSURE
7731-0001	3"	3.28"	6"	2	60 psi
7732-0001	3.5"	3.73"	6"	3	55 psi

FROST PLUG HEATERS

Temro offers a wide variety of frost plug heaters for your automotive, small truck and industrial applications. For your specific needs please call Gregg Distributors.

FROST PLUG HEATER CORDS

Temro also has a variety of replacement frost plug heater cords. Pictured below are different styles available. Please consult Gregg Distributors for specific application needs.

LOWER RADIATOR HOSE HEATERS

Below is a chart for sizings on lower radiator hose heaters. Please consult Gregg Distributors for specific application needs.

Replacement Cord Sets for Lower Radiator Hose Heaters:
For heaters with this configuration. Heater stamped with Model D (e.g. 150D) on bottom of unit.
Part No. 3600047.

Tube type hose heater replacement cord.
Part No. 3600017.

TANK/CIRCULATION ENGINE HEATERS

This lead-free heater offers dependable engine starts all winter long. It assures fast defrost and heater action while greatly decreasing engine emissions associated with cold starts. The rugged diecast aluminum construction is corrosion and impact resistant. Other features include: overheat protection, water resistant terminal end caps, temperature and oil resistance, and flame retardant.

PART NO.	WATTS	VOLTS
330-5001	750	120
330-5002	1000	120

330-5006	1000	240
330-5007	1500	240
330-5008	2250	240

INDUSTRIAL TANK/CIRCULATION ENGINE HEATERS

The industrial tank/circulation engine heater offers very dependable engine starts in all temperatures. It assures a quick start, reduces time to reach operating speed, and enhances immediate full load acceptance. Standard features include: overheat protection, rugged diecast aluminum construction, low watt density copper heating element, and regulating thermostat options.

TANK HEATER ACCESSORIES

Part No. 330-0086, Heater hose nipple 1/4" NPT male x 5/8" heater hose barb.
Part No. 330-0090, Plastic universal 5/8" - 3/4" heater hose wye.

CIRCULATION HEATERS - HEAVY DUTY

•Universal formed mounting bracket. •Leak proof "O" ring sealing.
•Heavy duty approved 3 wire cord attached. •Rugged long-lasting cast-aluminum case.
•High quality, heavy duty, automatic resetting thermostat.
•Heater dimensions: diameter - 2¾" - height - 8½". •CSA approved.

PART NO.	WATTS	VOLTS	ELEMENT	THERMOSTAT
220-4010	750	120	220-4061	220-4266
220-4029	1000	120	220-4088	220-4266
220-4037	1500	120	220-4096	220-4266

CIRCULATION HEATERS - HIGH CAPACITY

A high wattage, heavy duty engine pre-heater for use on medium and heavy duty vehicles and stationary diesel engines.
•Rugged aluminum construction. •Low density copper element resists vibration. •Horizontal installation. •Minimum warm-up time of any heater. •Threaded, clearly marked inlet and outlet. •Positive ball-type check valve. •Keeps engine within specified temperature. •120V or 240V, from 1500W to 2500W. •Dimensions: length - 17½", height - 3½", height with auxilliary thermostat - 6". •Weight - 7 lbs. with thermostat, 6 lbs. without thermostat. •Packaged in rugged corrugated carton. •Standard case pack 1 unit. •CSA approved. NOTE: Basic units are all equipped with 96°C thermostat which maintains coolant at 66°C.

BASIC HEATER	HEATER WITH PRE-SET THERMOSTAT 120°F	140°F	WATTS	VOLTS	REPLACEMENT ELEMENT

330-0007	-	330-0037	2500	240	330-0057

Part No. 330-0079, Optional pressure switch for high capacity heaters - 120/240V - 25 amp, 20 psi on, 40 psi off - auto cut off.

RADIANT TYPE HEATERS

300 watt 120 volt 3" x 7" oval radiant type clamp-on heater for small car application — universal bracket supplied.
Part No. 340-0008.
Part No. 360-0001, Replacement cord for 340-0008 radiant heater.

HEAVY DUTY COOLANT IMMERSION HEATERS

Temro offers a wide variety of direct OEM immersion heaters. For specific application needs please consult Gregg Distributors or your newest Temro catalogue.
Part No. 360-0015, Standard replacement cord for most OEM immersion heaters offered by Temro.
Part No. 360-0014, Weatherproof receptacle and cordset for most OEM immersion heaters offered by Temro.

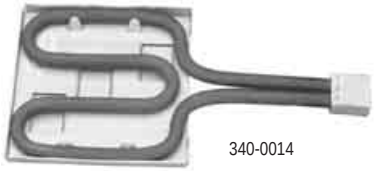
360-0015

MAGNETIC HEATER

200 watt 120 volt magnetic utility heater for use on engine blocks, oil pans, hydraulic cylinders, pipes, pumps, valves, etc. with built-in 121°C thermostat.
Part No. 340-0017.

OIL PAN HEATERS — CLAMP-ON

Part No. 340-0011, 300 watt 120 volt 4" x 4" clamp-on oil pan heater.
Part No. 340-0014, 500 watt 120 volt 6" x 6" clamp-on oil pan heater.
Part No. 360-0002, Replacement power cord for oil pan heaters.



340-0014

OIL PAN HEATERS - HEAVY DUTY THREAD IN

120 volt oil pan heater.
Part No. 220-1712, 1/2" NPT 150 watt - 7¾" long element.
Part No. 220-1968, 3/4" NPT 300 watt - 11-1/8" long element.
Part No. 220-4274, 1" NPT 150 watt - 6-5/8" long element.
Part No. 220-0635, 1" NPT 150 watt - 5-5/8" long element.
Part No. 220-2662, 1" NPT 300 watt - 6" long element - thermostatically controlled.
Part No. 360-0015, Replacement power cord for 220-0635, 220-1968, 220-4274.
Part No. 360-0002, Replacement power cord for 220-1712.

220-1712

220-2662

DIESEL FUEL WARMER — LIGHT/MEDIUM DUTY

Cast aluminum diesel fuel warmer for use on most popular makes of diesel powered cars, pick-ups, farm and off-road equipment using diesel engines up to 6.0 litres.
Part No. 820-8719.

DIESEL FUEL WARMER — HEAVY DUTY

Stainless steel diesel fuel warmer utilizing a compact OEM approved design. Can be mounted horizontally or vertically. May also be used as a heat exchanger in certain hydraulic applications. Unit is designed for all heavy duty diesel applications.
Part No. 820-8751.

Optional thermostat for heavy duty diesel fuel warmer. This thermostat will automatically by-pass fuel around warmer when it reaches 80°F temperature. Unit has 1/2" NPT ports.
Part No. 820-8786.

820-8751

820-8786

STARTING FLUID SYSTEM

E-Z stock ether injection kit. This kit will cover 90% of all class 7 and 8 vehicles having diesel engines 450 to 900 c.i.d. Kit comes complete with 3 atomizers, switch, valve fitting, 48" of nylon tube, dash decal, wire, thermostat, and all brackets required. Note: Ether bottle #820-0327 sold separately.
Part No. 820-3237.

STARTING FLUID SYSTEM ACCESSORIES

Part No. 820-4209, Smartshot module - Smartshot is a fully electronic control system that eliminates starting fluid guesswork and abuse. Smartshot collects engine temperature data and electronically controls use of starting fluid. Unit will deliver fluid only when starter is engaged and only when fluid is required. Wires to most existing 12V measured shot systems.
Part No. 820-3032, 1/4" NPT x 1/8" NPT bushing adapter for starting fluid atomizers.
Part No. 820-3091, Dual atomizer kit - for installing 2 atomizers on V engines or multiple in-line assemblies. Kit contains 2 tubes 48" long and 1 tube tee.
Part No. 820-0327, 18 oz. cylinder of ether for Zerostart units - 1" neck size.
Part No. 820-1277, 21 oz. stubby cylinder of ether - 1" neck size.
Part No. 820-3903, 1" standard gasket for ether injection systems.
Part No. 820-0386, Surface mount thermostat for ether injection systems.
Part No. 820-2281, 1/2" NPT low temp. thermostat for ether injection systems.
Part No. 829-1837, 1/2" NPT standard temp. thermostat for ether injection systems.

820-3091

820-4209

E-Z MOUNT — Standard electrical and mechanical kits are also available. Please consult charts on the following page for your specific application requirements.

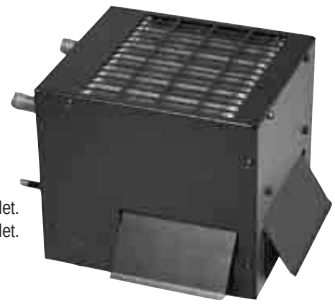
SPECIAL NOTES:

All kits require Model 820-0327 starting fluid cylinders.
(22) Use 820-2966 if installed in blower box or manifold.
(23) Use 820-2982 if installed in air intake horn.
(24) Air-to-Air aftercooled engines (ATAAC) generally will use an 820-2982 atomizer installed in pipe between discharge side of aftercooler and engine manifold.
CAUTION: Not for use on glow plug or flame thrower equipped engines.

FIREWALL OR WALL MOUNTED CAB HEATER

Designed for areas where space is at a premium. Standard features: •2-speed reversible fan motor •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 17,500 BTU/hr. Case size overall: 7.5" high x 8.6" wide x 7.7" deep.
Weight: 10 lbs. Maximum CFM: 150.
Outlet direction: top rear.



Part No. 700-0101, 12V/3.9 amp, 5/8" outlet.
Part No. 700-0103, 24V/2.0 amp, 5/8" outlet.

Part No. 700-0102, 12V/3.9 amp, 3/4" outlet.
Part No. 700-0104, 24V/2.0 amp, 3/4" outlet.

Replacement Parts:
Part No. 710-0023, Heat exchanger for 5/8" outlet.
Part No. 710-0022, Heat exchanger for 3/4" outlet.
Part No. 710-0002, 7" fan blade.
Part No. 710-0004, 12 volt motor.
Part No. 710-0006, 24 volt motor.
Part No. 710-0001, Installation kit.

FLOOR OR WALL MOUNTED CAB HEATER

Ideal for grader, front end loader, tractor cab, etc. applications where space is a problem. Standard features: •Heavy 14 gauge construction •Compact design •2-speed reversible fan motor •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 30,000 BTU/hr. Case size overall: 9.3" high x 11.5" wide x 10.6" deep.
Weight: 26.5 lbs. Maximum CFM: 250.
Outlet direction: left side.

Part No. 700-0202, 12V/9.4 amp, 5/8" outlet.
Part No. 700-0208, 24V/4.7 amp, 5/8" outlet.

Part No. 700-0205, 12V/9.4 amp, 3/4" outlet.

Replacement Parts:
Part No. 710-0013, Heat exchanger for 5/8" outlet.
Part No. 710-0012, Heat exchanger for 3/4" outlet.
Part No. 710-0003, 8" fan blade.
Part No. 710-0005, 12 volt motor.
Part No. 710-0007, 24 volt motor.
Part No. 710-0001, Installation kit.

FLOOR OR WALL MOUNTED CAB HEATER

Ideal for grader, front end loader, tractor cab, etc. applications where space is a problem. Standard features: •Heavy 14 gauge construction •Compact design •2-speed reversible fan motor •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 30,000 BTU/hr. Case size overall: 9.3" high x 11.5" wide x 10.6" deep.
Weight: 26.5 lbs. Maximum CFM: 250.
Outlet direction: right side.

Part No. 700-0203, 12V/9.4 amp, 5/8" outlet.

Part No. 700-0206, 12V/9.4 amp, 3/4" outlet.

Replacement Parts:
Part No. 710-0013, Heat exchanger for 5/8" outlet.
Part No. 710-0012, Heat exchanger for 3/4" outlet.
Part No. 710-0003, 8" fan blade.
Part No. 710-0005, 12 volt motor.
Part No. 710-0007, 24 volt motor.
Part No. 710-0001, Installation kit.

FLOOR OR WALL MOUNTED CAB HEATER

Ideal for grader, front end loader, tractor cab, etc. applications where space is a problem. Standard features: •Heavy 14 gauge construction •Compact design •2-speed reversible fan motor •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 30,000 BTU/hr. Case size overall: 9.3" high x 11.5" wide x 10.6" deep.
Weight: 26.5 lbs. Maximum CFM: 250.
Outlet direction: left rear.

Part No. 700-0201, 12V/9.4 amp, 5/8" outlet.
Part No. 700-0207, 24V/4.7 amp, 5/8" outlet.

Replacement Parts:
Part No. 710-0015, Heat exchanger for 5/8" outlet.
Part No. 710-0014, Heat exchanger for 3/4" outlet.
Part No. 710-0003, 8" fan blade.
Part No. 710-0005, 12 volt motor.
Part No. 710-0007, 24 volt motor.
Part No. 710-0001, Installation kit.

HEAVY DUTY CARGO HEATER

A heavy duty heater designed for construction equipment. 14 gauge steel case and grill enables heater to stand up to the roughest service. Standard features: •Compact design •Two, 2-speed reversible fan motors •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 40,000 BTU/hr. Case size overall: 7.7" high x 17.4" wide x 9.4" deep.
Weight: 28.3 lbs. Maximum CFM: 325.
Outlet direction: left side.

Part No. 700-0302, 12V/8.9 amp, 5/8" outlet.
Part No. 700-0308, 24V/4.5 amp, 5/8" outlet.

Part No. 700-0305, 12V/8.9 amp, 3/4" outlet.
Part No. 700-0311, 24V/4.5 amp, 3/4" outlet.

Replacement Parts:
Part No. 710-0017, Heat exchanger for 5/8" outlet.
Part No. 710-0016, Heat exchanger for 3/4" outlet.
Part No. 710-0002, 7" fan blade.
Part No. 710-0004, 12 volt motor.
Part No. 710-0006, 24 volt motor.
Part No. 710-0001, Installation kit.

HEAVY DUTY CARGO HEATER

A heavy duty heater designed for construction equipment. 14 gauge steel case and grill enables heater to stand up to the roughest service. Standard features: •Compact design •Two, 2-speed reversible fan motors •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 40,000 BTU/hr. Case size overall: 7.7" high x 17.4" wide x 9.4" deep.
Weight: 28.3 lbs. Maximum CFM: 325.
Outlet direction: right side.

Part No. 700-0303, 12V/8.9 amp, 5/8" outlet.
Part No. 700-0309, 24V/4.5 amp, 5/8" outlet.

Part No. 700-0306, 12V/8.9 amp, 3/4" outlet.

Replacement Parts:
Part No. 710-0017, Heat exchanger for 5/8" outlet.
Part No. 710-0016, Heat exchanger for 3/4" outlet.
Part No. 710-0002, 7" fan blade.
Part No. 710-0004, 12 volt motor.
Part No. 710-0006, 24 volt motor.
Part No. 710-0001, Installation kit.

HEAVY DUTY CARGO HEATER

A heavy duty heater designed for construction equipment. 14 gauge steel case and grill enables heater to stand up to the roughest service. Standard features: •Compact design •Two, 2-speed reversible fan motors •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 40,000 BTU/hr. Case size overall: 7.7" high x 17.4" wide x 9.4" deep.
Weight: 28.3 lbs. Maximum CFM: 325.
Outlet direction: left rear.

Part No. 700-0301, 12V/8.9 amp, 5/8" outlet.

Replacement Parts:
Part No. 710-0002, 7" fan blade.
Part No. 710-0004, 12 volt motor.
Part No. 710-0006, 24 volt motor.
Part No. 710-0001, Installation kit.

UNDER SEAT CAB HEATER

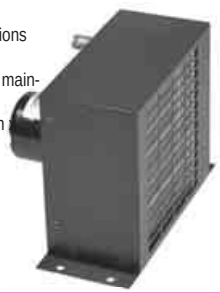
Recommended for most supplementary heat applications. Ideal as a secondary heat source in delivery trucks, station wagons, sleeper cabs, foreign vehicles, etc. Comes equipped with heavy duty twin cores. Standard features: •Compact design •2-speed reversible fan motor •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 13,500 BTU/hr. Case size overall: 3.1" high x 13" wide x 9" deep. Weight: 10.4 lbs. Maximum CFM: 130.
Outlet direction: bottom.

Part No. 700-0401, 12V/4.3 amp, 5/8" outlet.
Part No. 700-0403, 24V/2.2 amp, 5/8" outlet.

Replacement Parts:
Part No. 710-0021, Heat exchanger for 5/8" outlet.
Part No. 710-0020, Heat exchanger for 3/4" outlet.
Part No. 710-0002, 7" fan blade.
Part No. 710-0004, 12 volt motor.
Part No. 710-0006, 24 volt motor.
Part No. 710-0001, Installation kit.

SPACE SAVER DESIGN CAB HEATER

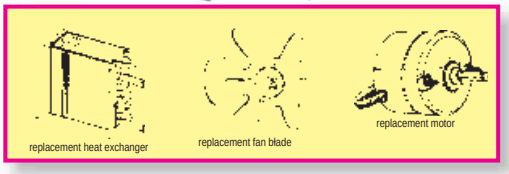
High performance in a small package. Ideally suited for applications where defrosting is not required. Standard features: •Compact design •2-speed reversible fan motor •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 17,500 BTU/hr. Case size overall: 7.6" high x 4.3" wide x 8.5" deep. Weight: 7.4 lbs. Maximum CFM: 150.
Outlet direction: right bottom.



Part No. 700-0501, 12V/4.4 amp, 5/8" outlet.
Part No. 700-0505, 24V/2.2 amp, 5/8" outlet.

Part No. 700-0503, 12V/4.4 amp, 3/4" outlet.

Replacement Parts:
Part No. 710-0010, Heat exchanger for 5/8" outlet.
Part No. 710-0008, Heat exchanger for 3/4" outlet.
Part No. 710-0002, 7" fan blade.
Part No. 710-0004, 12 volt motor.
Part No. 710-0006, 24 volt motor.
Part No. 710-0001, Installation kit.



SPACE SAVER DESIGN CAB HEATER

High performance in a small package. Ideally suited for applications where defrosting is not required. Standard features: •Compact design •2-speed reversible fan motor •Easily disassembled for maintenance •Installation kit included
Maximum capacity: 17,500 BTU/hr. Case size overall: 7.6" high x 4.3" wide x 8.5" deep. Weight: 7.4 lbs. Maximum CFM: 150.
Outlet direction: right rear.

Part No. 700-0502, 12V/4.4 amp, 5/8" outlet.
Part No. 700-0506, 24V/2.2 amp, 5/8" outlet.

Part No. 700-0504, 12V/4.4 amp, 3/4" outlet.
Part No. 700-0508, 24V/2.2 amp, 3/4" outlet.

Replacement Parts:
Part No. 710-0011, Heat exchanger for 5/8" outlet.
Part No. 710-0009, Heat exchanger for 3/4" outlet.
Part No. 710-0002, 7" fan blade.
Part No. 710-0004, 12 volt motor.
Part No. 710-0006, 24 volt motor.
Part No. 710-0001, Installation kit.

TEMRO

TEM/3800

Cold Weather Starting Products

TEMRO
COLD WEATHER STARTING PRODUCTS

BATTERY WARMER
120 volt battery blanket keeps your cranking amps at their peak.
Part No. 280-0055, 50 watt, 28" long.
Part No. 280-0063, 80 watt, 36" long.
Part No. 280-0071, 160 watt, 72" long.

LITTLE BUDDY® INTERIOR CAR WARMER
Designed for passenger car, light duty and R.V. applications. Unit has 900 watt output and has built-in automatic reset and back-up thermolink. This unit is made of a durable metal casing and measures only 7"L x 4½"W x 2¾" thick.
Part No. 260-0900.

CORD HOLDER
Extension cord holder for mounting on grill of vehicle will hold up to a 25 foot extension cord.
Part No. 360-0045.

AIR CIRCULATION & DEFROST FAN
Complete with switch. For 12V or 24V systems.
Part No. 760-2855, 12 volt.
Part No. 760-2891, 24 volt.

INDICATOR LIGHT CORDSET SYSTEMS
Specially designed wire harness with two-light system allows operators or fleet personnel to quickly determine both power availability and heater operation. 120 volt, 15 amp rating. Chrome plated, four hole mount, square flanged weatherproof receptacle with gasket. Indicator lights visible up to 50 ft. Mounting plate dimensions 3.56"W x 2.56"H.

Standard cord kit includes weatherproof housing and cord.
Part No. 360-0049, 6 ft length.
Part No. 360-0051, 12 ft. length.

Y-cord for connection to heater and thermostat, includes weatherproof housing and thermostat (operating range of thermostat 100°F (38°C) "on"; 120°F (49°C) "off".
Part No. 360-0054, 6 ft length.

Cord kit for use with high capacity heaters.
Part No. 330-0092, 8 ft length.

ACCESS ALASKA

QQQ/1375

Heat Pads

Access Alaska Pads are great for oil pans, automatic transmissions, hydraulic reservoirs, and hydraulic cylinders. They're made from silicone rubber, are easy to install and give rugged reliability.
A rule of thumb is 15 - 30 watts per quart of oil. Use Permatex #77BR silicone to apply.

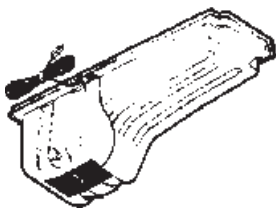
PART NO.	SIZE (in.)	AMPS	DESCRIPTION
786589-25050	2 x 5	.41	50 watt silicone rubber heat pad
786589-35075	1.7 x 5	.62	75 watt silicone rubber heat pad
786589-45100	2.7 x 5	.83	100 watt silicone rubber heat pad
786589-45150	3.7 x 5	1.25	150 watt silicone rubber heat pad
786589-41020	4 x 10	1.67	200 watt silicone rubber heat pad
786589-51025	5 x 10	2.08	250 watt silicone rubber heat pad
786589-61030	6 x 10	2.50	300 watt silicone rubber heat pad
786589-61545	6 x 15	3.75	450 watt silicone rubber heat pad
786589-12127	12 x 12	5.90	720 watt silicone rubber heat pad
786589-55856	6.5 x 8.5	.49	60 watt battery pad

WOLVERINE

QQQ/4040

Silicone Pad Heaters

The age-old concept of preheating an engine from its bottom upward is reintroduced by Wolverine Products Inc. The dependable, state of the art Wolverine Preheater uses a thin plate type element housed between layers of resilient fibreglass reinforced silicone mats to create a durable, effective preheater. Wolverine Preheaters are permanently bonded onto the bottom of an engine's oil pan where the heat producing element is in close proximity to the oil pan surface which results in a high coefficient of heat transfer. The Wolverine Preheater raises oil temperature to near normal operating levels, i.e., 66°C - 93°C. Heat rises off the oil to warm the engine's internal moving parts and the cushions of oil between them. Only Wolverine Preheaters can offer watts per quart of oil sufficient to insure effective temperature increases with watts per square inch very low to eliminate any possibility of damage to oil. In addition to preparing an engine for cold weather operation, Wolverine Preheaters can also be used for very effective warming of hydraulic reservoirs.



125 WATT PREHEATER
Recommended oil capacities for: diesel engines, 2 - 4 litres; gas engines, 2 - 6 litres; auto/manual transmissions,2 - 15 litres; hydraulic tanks, 4 - 20 litres. 1.1 amp unit. 3" round.
Part No. MODEL9.

250 WATT PREHEATER
Recommended oil capacities for: diesel engines, 5 - 14 litres; hydraulic tanks, 20 - 95 litres. 2.2 amp unit. 4" x 4.5".
Part No. MODEL16.

500 WATT PREHEATER
Recommended oil capacities for: diesel engines, 12 - 25 litres; hydraulic tanks, 96 - 285 litres. 4.5 amp unit. 5" x 7".
Part No. MODEL40.

1000 WATT PREHEATER
Recommended oil capacities for: diesel engines, 26 - 45 litres; hydraulic tanks, 285 - 1000 litres. 8.2 amp unit. 11.75" x 6".
Part No. MODEL80.

Superstat® Thermostats

A line of heavy duty thermostats for passenger cars and light trucks. The Stant SuperStat thermostat is better at controlling coolant temperature, providing faster warm-ups, and more stable operating temperatures. 19 SuperStat part numbers cover over 60% of all car and light truck applications. This listing shows SuperStat numbers and their equivalent reverse poppet part numbers. Available boxed or carded.

SUPERSTAT

Unlike conventional thermostats that continually open and close to achieve the proper operation temperature and flood the engine with coolant, the Stant SuperStat thermostat has a patented V-notch, non-linear design that reduces cycling by precisely metering the amount of coolant needed. The V-notches provide a small initial flow. As the engine heats up, the V-notches gradually open wider, metering coolant released into the system until the desired engine temperature is reached.

REVERSE POPPET

This thermostat design forms more material at the bridge adding more strength to the top. The flange is made without a step in order to fit newer vehicles. The bottom strap or frame has the same width but is formed for added strength and to firmly hold the spring in place. The completed assembly provides a securely sealed, heat responsive valve that keeps engine temperatures within original equipment specifications.

Truck Adapter Kit

Includes two solid die cast, chrome plated cap and radiator adapters and one 7/8" plug. Fits all popular trucks with the large diameter
(2-11/16" O.D. "B" size) filler neck.
Part No. 12450.

Cooling System & Radiator Cap Tester

For up to 30 lb. cooling systems and pressure caps.
The Stant 12270 tester now lets you test today's cars' higher pressure cooling systems and pressure caps up to 30 lbs. Gauge includes new cap testing pressure ranges of 17 - 19 lbs., 20 lbs., and 28 - 30 lbs. The large colour coded dial makes it easy to accurately test these higher pressure caps and systems.
The 12270 head also includes a pressure release bar that, when turned clockwise, releases pressure build-up before removing the head from the neck.
This pressure tester comes in its own plastic carrying case with a spacer to drop in 1" deep filler necks for testing, a cap adapter to check standard "A" size caps, and a complete easy-to-use instruction manual including cooling system and pressure cap testing instructions as well as usage instructions and applications for all Stant adapters.
Part No. 12270.

LUBER-FINER

Filtration Products & Accessories

A WORD FROM LUBER-FINER
WORLD FAMOUS FILTERS

Luber-finer's commitment to performance, quality and service is exemplified by our high standing in the industry: we proudly operate the first ISO 9000 approved filter manufacturing plant in the United States. The new attractive white filter is a visual representation of our global outlook and our dedication to keeping equipment all around the world running clean into the 21st century.

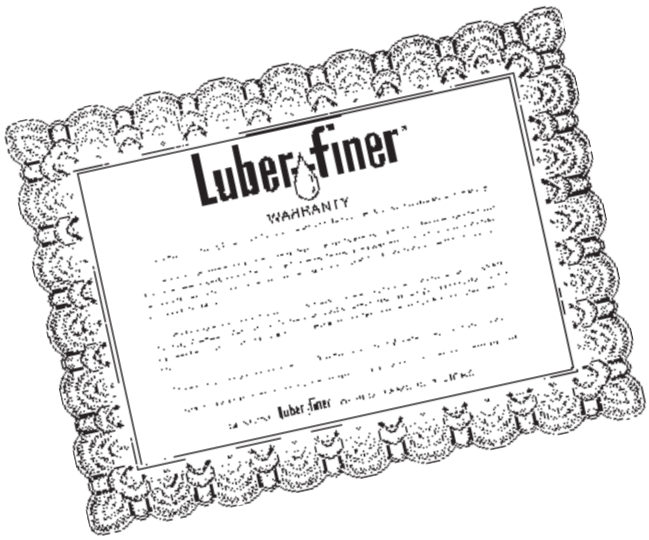
In 1936 we invented the by-pass filtration system. Since then, we have remained on the forefront of filter technology, manufacturing filters for a variety of uses. Today we offer a complete line of filters for many applications including heavy equipment, trucks, automotive, marine, agriculture, and mining.

In an effort to accommodate a global market, we are including "user-friendly" installation instructions in universal symbols directly on the filter that are easily understood by anyone, anywhere in the world.

We use only recycled paper for automotive filter packaging, and we shrink wrap our heavy duty mylar labelled filters for ultimate protection from corrosion and contamination before installation on expensive equipment.

Genuine Luber-finer filters, the name for quality filters for more than 60 years.

Please ask for more information on your specific application requirements.



Luber-Finer is used by the following original equipment manufacturers:

•Caterpillar •Caterpillar/Mitsubishi Forklift •Chrysler of Canada •Delphi Automotive Systems •Detroit Diesel •Ford Motor Company •Ford of Canada •Ford Truck Division •General Motors of Canada •John Deere •Mazda of Canada •Navistar •Opel •Volkswagen of America •Volkswagen AG •Volkswagen of Canada

FILTER CUTTER
Cuts filters ranging from 2" - 6".
Part No. FC1HD.

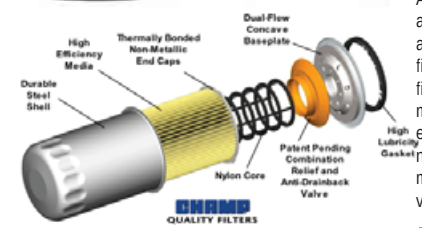
FILTER MINDER®
Air cleaner indicator kit with adapter fitting. Indicates air filter condition by measuring restriction caused by clogged filter.
Part No. RG4082.

CHAMP

Filtration Products

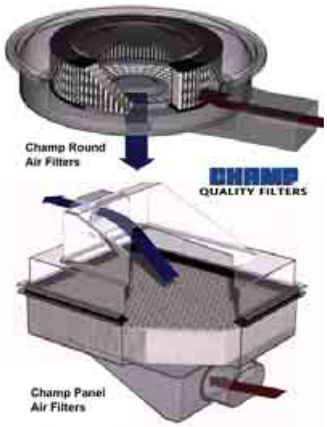
CHAMPION LABORATORIES, INC.
A UCI Company

Gregg Distributors carries the Champ line of air filters and oil filters. Please ask for further information on this line today.



Quality Champion Manufactured Oil Filters: The Most Trusted Name in Filters!
Manufactured with only the highest quality components, Champ Quality Oil Filters offer exceptional performance at exceptional prices.

All Champ Quality Oil Filters are made alongside the world's leading private label and original equipment manufacturer's filters. This ensures the most stringent filter construction requirements are met for maximum protection on today's demanding engines. Champ filters not only meet, but normally exceed original equipment requirements for fit, function and total replacement value.



Quality Champion Air Filters: Improve Fuel Economy!
Champ air filters are constructed with specially blended filter media for optimal dirt-holding capacity, filtering efficiency and maximum protection for your engine from harmful contaminants. Available in a broad range of sizes for virtually all applications, Champ air filter's advanced features ensure original equipment replacement fit, function, and performance.

Automotive & Heavy Duty Fleet Products

DUTTON-LAINSON
Fuel Tank Filters & Parts

WATER-BLOCK® WATER ABSORBING FUEL FILTER

Removes water from gasoline and diesel fuel. 15 micron filtration. Water absorbing polymers trap water, restricting fuel flow when it is time to replace the element. May be used by itself or in combination with a #495 fuel filter for added protection against microscopic particle contamination. 9½" high x 4" diameter.
Part No. 496.

FUEL FILTER

For removing microscopic particles (10 microns) of rust, sand, dirt, scale, and lint. 366 sq. inches of filter surface for efficient action. Unit works well by itself or in combination with the #496 fuel filter for added protection from water in the fuel. 9½" high x 4" diameter.
Part No. 495.

ACCESSORIES

Part No. 495-4, Replacement bowl.
Part No. 470-15, Stainless steel strainer, 40 mesh.
Part No. 470-16, Stainless steel strainer, 80 mesh.
Part No. 470-1, Top cap for use with 400 series filters. Heavy duty zinc die cast, 1" NPT fittings.
Part No. 470-5, Standard 10 micron replacement filter element.
Part No. 496-5, Water-Block® water absorbing replacement filter element.
Part No. 491, Fuel filter wrench fits #495-4 filter bowl for easy, damage-free removal.

495-4

470-16

470-5

491

STANDARD SPIN-ON FUEL FILTER

For use with gasoline, and diesel fuels. Filters microscopic particles (10 microns) of rust, sand, dirt, scale, and lint. 510 sq. inches of filtration area. Working pressure up to 50 psi. Maximum recommended working conditions: 50 psi and/or 12 gpm. Ideal for farm, construction, industrial, and service station use.
Part No. 595.

WATER-BLOCK® SPIN-ON FUEL FILTER

For use with gasoline and diesel fuels. Filters microscopic particles (10 microns) and absorbs water from fuel. Restricts fuel flow as water is absorbed, signalling the need for an element change. 201 sq. inches of filtration area. Maximum recommended working conditions: 50 psi and/or 12 gpm. Ideal for farm, construction, and service station use.
Part No. 596.

ACCESSORIES

Part No. 570-1, Top cap for use with 500 series spin-on fuel filters. Heavy duty zinc die-cast. With 1" NPT pipe fittings.
Part No. 595-5, Standard filter - replacement canister only.
Part No. 596-5, Water-Block® filter - replacement canister only.

Hydraulic Pumps & Accessories

REMOTE & DIRECT MOUNT HYDRAULIC PUMPS WITH MANUAL VALVES

Cast iron roller bearing dump pump is designed for 2 or 3 line installations. Pump is completely rebuildable and comes complete with mounting bracket.
Part No. BPC1010, Remote Mount Manual Valve Hydraulic Pump/Valve. 1" round shaft, 1/4" x 1¼" keyway.
Part No. BPC1010DMCW, For clockwise rotation, direct mount.
Part No. BPC1010DMCCW, For counterclockwise rotation, direct mount.

BPC1010

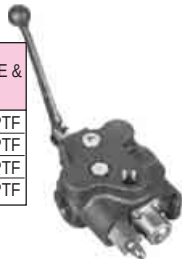
BPC1010DM-

SINGLE SPOOL DIRECTIONAL CONTROL VALVES

Rated to 2500 psi working pressure, maximum shock and surge pressure 4000 psi; rated flow capacity 30 gpm. 3 mounting holes for 3/8" bolts.

PART NO.	SPOOL ACTION	POWER BEYOND	PORT SIZE & TYPE
HV13AG00B0	3-way spring centre	None	All 3/4" NPTF
HV13AG1EB0	3-way spring centre	Yes	All 3/4" NPTF
HV11AG00B0	4-way spring centre	None	All 3/4" NPTF
HV11AG1EB0	4-way spring centre	Yes	All 3/4" NPTF

Part No. VH1, Handle and Linkage Assembly (Sold Separately).



TWO POSITION PRESS SHIFT SELECTOR VALVE

Press Shift can be shifted under full line pressure. Press Shift selector valves are designed with a hydraulically balanced spool that allows them to be shifted under full line pressure. System pressure is bled off to a low pressure leg before reaching the seal, resulting in a reduced effort required to shift the spool. The seal is therefore operated in an unloaded condition. 1" NPTF, 306 gpm.
Part No. HSV100.

AIR SHIFT CYLINDER FOR HYDRAULIC PUMP WITH MANUAL VALVE

Converts manual pump operation to pneumatically controlled pump. Comes complete with pump activator cylinder and mounting hardware.
Part No. AS301.

P.T.O./PUMP VALVE

Controlled lowering (feathering); automatic disengagement of the P.T.O. in "Lower".
Part No. K90, Valve only.
Part No. K90C, Single oval cabinet console for #K90 valve.
Part No. K90D, Valve with spring return raise (dead man control).

K90

K90C

37 GALLON RESERVOIR

12 gauge H.R.P.O. steel with welded mounting angles. ¼ turn chrome filter breather w/ wire basket strainer; site level gauge; interior baffle between suction and discharge. 2" NPT suction port and 1¼" NPT return. Magnetic drain plug with sump. Black.
Part No. SMR37S.

SIDE-MOUNT POLYETHYLENE RESERVOIR

Designed for applications where behind the cab mounting space is unavailable, making the SMR50P ideal for dump truck and garbage truck applications. •50 gallon capacity •Heavy duty construction (.375" min. thickness) •No rust, dents, peeling, slag or oxidation •Easily adapts to 2 or 3 lines for most dump trailer applications. Complete system includes: •Maintenance free textured poly reservoir •Fluid sight level/thermometer gauge •Raised antislosh fill neck with ¼ turn 40 Micron chromed filler cap •All mounting hardware and straps
Part No. SMR50P.

HYDRAULIC RESERVOIRS WITH INTEGRAL BRACKETS

7 Gallon Reservoirs - Features: •10 and 12 gauge steel construction •¾" screen in breather cap •¾" magnetic drain plug •1¼" suction ports •1" return ports •Factory powder coated •Multiple mounting positions
15, 25 Gallon & 30 Gallon Reservoirs - Features: •13 gauge H.R.P.O. steel •Welded mounting angles •¼ turn chrome filler breather w/basket strainer •Oil level gauge with temperature indicator •Interior baffle between suction and discharge •Large 2" NPT suction ports •Magnetic drain plug •Factory powder coated •Fully tested. 30 Gallon Reservoir - Additional Features: •Top drain port •Port to accommodate breather monitor kit (in cab warning light) •Port to accommodate fluid level gauge (light indicator in cab)
Part No. SMR7S, 7 gallon Reservoir, 7 usable gallons.
Part No. SMR15S, 15 gallon Reservoir, 11 usable gallons.
Part No. SMR25S, 25 gallon Reservoir, 18 usable gallons.
Part No. SMR30S, 30 gallon Reservoir, 30 usable gallons.

UPRIGHT POLYMER RESERVOIR

Extra large capacity reservoir (50-55 gallon usable), constructed from rugged reinforced polyethylene. Features: •Dual 2" NPT field serviceable port, heavy duty strapless hold down system, powder coated steel mounting saddle, screw in diffuser (2" to 1¼"), sight temperature gauge, heavy duty chain mounted 40 micron filler breather cap
Part No. UR50P.

Hydraulic Pumps & Accessories

UPRIGHT STEEL RESERVOIR

Sturdy 12 gauge steel construction is fully baffled and includes a ¼ turn filler breather unit and domed vent.
Part No. UR50S, 50 gallon Reservoir, 50 usable gallons.
Part No. UR70S, 70 gallon Reservoir, 67.5 usable gallons.

OPTIONAL EQUIPMENT

Part No. UR50FB, Upright frame bracket kit.
Part No. UR50MK, Upright tank spring kit.

SIDE MOUNT STEEL RESERVOIR

13 gauge steel construction is fully baffled and includes a ¼ turn filler breather unit.
Part No. SMS50S, 50 gallon, 25" x 9.63".
Part No. SMS70S, 70 gallon, 35" x 14.63".

BRACKET KIT

Part No. SMS005BK, Side mount bracket kit w/ stainless steel straps for 50 and 70 gallon reservoirs.

SIDE MOUNT ROUND ALUMINUM RESERVOIR

Features: •Large 2" NPT suction return/port •1¼" NPT return port/drain on bottom •¾" NPT port on top •¼ turn chrome filler breather w/basket strainer •Material: 11 gauge ref. sheel .118 thick, 12 gauge ref. heads .100 thick •Includes: tank - bracket straps (pair) - insulators dia. 24".
Part No. SMC50A, 50 gallon, 48 usable gallons. Tank dimensions 25"D x 27½"L.
Part No. SMC70A, 70 gallon, 70 usable gallons. Tank dimensions 25"D x 39½"L.

Filter Assemblies & Parts

HFA1 SERIES

•200 psi working pressure •Flows up to 15 gpm for return and 5 gpm for suction line applications •¾" NPT ports •(2) 1/8" NPT gauge ports
Part No. HFA11015, 10 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA11025, 10 micron hydraulic filter assembly, 25 psi bypass.
Part No. HFA12515, 25 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA12525, 25 micron hydraulic filter assembly, 25 psi bypass.
Part No. FH115, 15 PSI bypass filter head.
Part No. FH125, 25 PSI bypass filter head.
Part No. U1L3FE, Replacement 10 micron filter element.
Part No. U1L6FE, Replacement 25 micron filter element.

HFA11025

HFA2 SERIES

•150 psi working pressure •Flows up to 45 gpm for return and 12 gpm for suction line applications •1¼" NPT ports •(4) 1/8" NPT gauge ports
Part No. HFA21015, 10 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA21025, 10 micron hydraulic filter assembly, 25 psi bypass.
Part No. HFA22515, 25 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA22525, 25 micron hydraulic filter assembly, 25 psi bypass.
Part No. FH215, 15 PSI bypass filter head.
Part No. FH225, 25 PSI bypass filter head.
Part No. U3L3FE, Replacement 10 micron filter element.
Part No. U3L6FE, Replacement 25 micron filter element.

HFA21015

HFA3 SERIES

•150 psi working pressure •Flows up to 100 gpm for return and 35 gpm for suction line applications •1½" NPT ports
Part No. HFA31015, 10 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA31025, 10 micron hydraulic filter assembly, 25 psi bypass.
Part No. HFA32515, 25 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA32525, 25 micron hydraulic filter assembly, 25 psi bypass.
Part No. FH315, 15 PSI bypass filter head.
Part No. FH325, 25 PSI bypass filter head.
Part No. U3L3FE, Replacement 10 micron filter element.
Part No. U3L6FE, Replacement 25 micron filter element.

HFA32525

HFA4 SERIES

•150 psi working pressure •Flows up to 90 gpm for return and 20 gpm for suction line applications •1½" NPT ports and 2" SAE ports
Part No. HFA41015, 10 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA41025, 10 micron hydraulic filter assembly, 25 psi bypass.
Part No. HFA42515, 25 micron hydraulic filter assembly, 15 psi bypass.
Part No. HFA42525, 25 micron hydraulic filter assembly, 25 psi bypass.
Part No. FH415, 15 PSI bypass filter head.
Part No. FH425, 25 PSI bypass filter head.
Part No. U3L3FE, Replacement 10 micron filter element.
Part No. U3L6FE, Replacement 25 micron filter element.

HFA42515

HFA5 SERIES

•100 psi working pressure •Flows up to 50 gpm •For use with mineral and petroleum based fluids •Elements replaceable through filter cover •Operating temperature -30°C to 100°C •Aluminum casting and Buna-N seals •1¼" NPT and 1½" SAE flange
Part No. HFA51025, 10 micron tank immersed return filter, 25 psi bypass.
Part No. HFA52525, 25 micron tank immersed return filter, 25 psi bypass.
Part No. U5L3FE, Replacement 10 micron filter element.
Part No. U5L6FE, Replacement 25 micron filter element.

HFA52525

Filter Assemblies & Parts

INDICATOR GAUGES

Part No. HSP15P, Return line pressure gauge, 1/8-27 NPTF ports, white dial with 0 - 100 psi dual scale.
Part No. HSP15V, Suction line vacuum gauge, 1½" dial with 1/8" NPT stem.

OIL LEVEL GAUGE WITH TEMPERATURE INDICATOR

Part No. LDR02, Heavy duty aluminum cast body construction makes this the most rugged gauge available.

SIGHT LEVEL GAUGE

Part No. HSG075, ¾" NPT, zinc plated steel, rated at 125 psi, 250°F.
Part No. HSG100, 1" NPT, zinc plated steel, rated at 125 psi, 250°F.

RESERVOIR ACCESSORIES

Part No. TFA005715, Filler-strainer breather cap assembly.
Part No. TFA005715L, Filler-strainer breather cap assembly c/w locking tab.
Part No. BC40, Filler-strainer breather cap assembly c/w plastic basket.
Part No. TC0015, Replacement breather cap c/w chain.
Part No. TAF001, Filler-breather weld flange adapter.
Part No. BEC061A, Chrome push-in type breather cap for 1½" O.D. tube.
Part No. BEC061AB, Black push-in type breather cap for 1½" O.D. tube.
Part No. HBF2, 1/8" NPT 40 micron breather cap.
Part No. HBF4, ¼" NPT 40 micron breather cap.
Part No. HBF6, 3/8" NPT 40 micron breather cap.
Part No. HBF8, ½" NPT 40 micron breather cap.
Part No. HBF12, ¾" NPT 40 micron breather cap.
Part No. HBF12P, ¾" NPT 40 micron breather cap - plastic
Part No. HBF16, 1" NPT 40 micron breather cap.

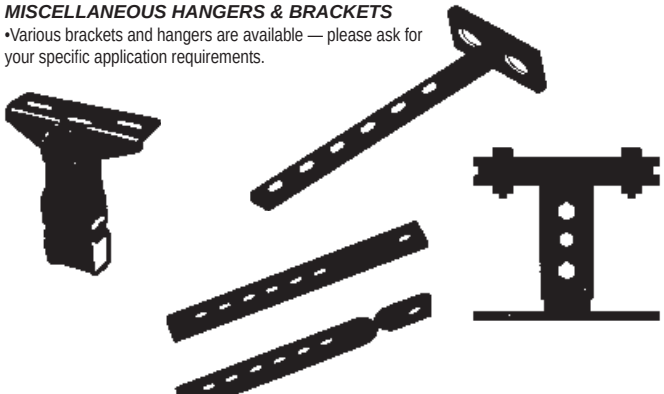
UNIVERSAL GRAB HANDLE

•Optional accessory for use with heat guards •Chrome plated
Part No. 89775K.

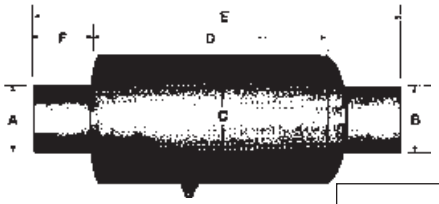
MISCELLANEOUS HANGERS & BRACKETS

•Various brackets and hangers are available — please ask for your specific application requirements.



UNIVERSAL SWIVEL HANGER

•Heavy reinforced rubber pad •Swivel design permits 360° •One piece construction installs in seconds •New closed end allows easy connection and assembly of loose system components
Part No. 89519K, 9.60" length.
Part No. 90843K, 17.30" length.



SPARK ARRESTORS

•Designed for universal application with a minimum of restriction on the engine. They work well as add-on units to existing exhaust systems. Their light weight and small size reduce stress and vibration to the rest of the exhaust system. Typical applications included logging and construction equipment, agricultural machinery, over-the-road trucks, airport equipment, forestry and military vehicles. •All arrestors exceed U.S. Forestry requirements, and are qualified and tested for vertical and horizontal installations under the U.S. Forestry Service Standard 5100-1b. •All inlets are slotted tube connections. Outlets are O.D. tubing. •CFM rating is based on a pressure drop of 1 psi.

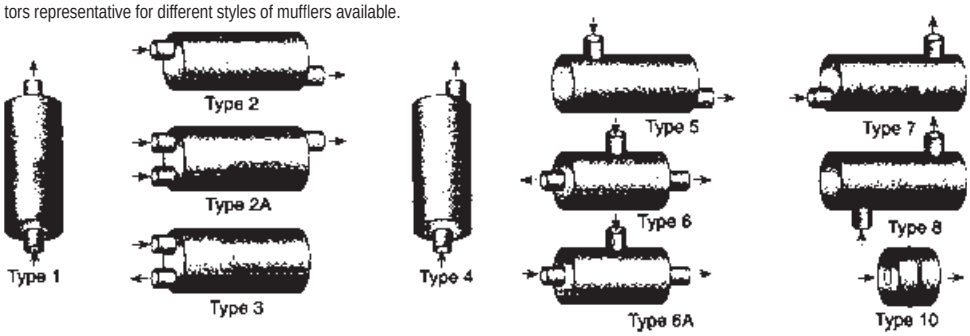
Exhaust & Intake Products

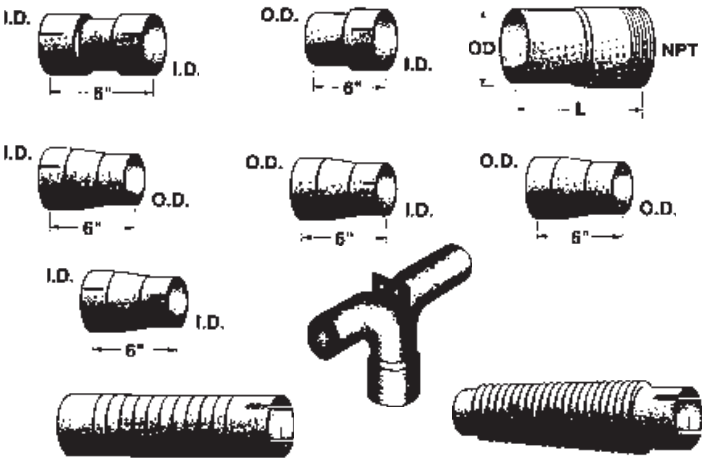
MUFFLERS

Gregg Distributors Ltd. has a number of different mufflers to suit a wide variety of applications manufactured by Nelson. Please contact a Gregg Distributors representative for different styles of mufflers available.



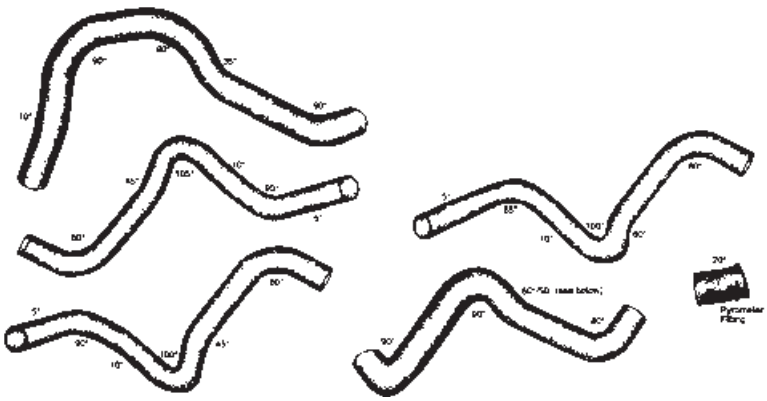
CONNECTORS , REDUCERS, & ADAPTERS

Gregg Distributors Ltd. also offers a variety of connectors and adapters. Please contact a Gregg Distributors representative for more information.

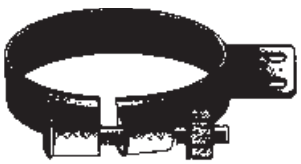


SPECIALTY TUBES

•Specialty tubes are available through special order to fit O.E.M. specifications.
Please ask for further information.



STACK SUPPORT BRACKET



"MONSTER" STACKS

•Change the appearance of factory system by replacing standard 5" stack with 6". Obtain lower restriction and "dress up" your truck. Bright, exceptional quality chrome. 6" tubing sized down to fit 5" system, no weld joints.

"PAK STAKS"

•Can reduce exhaust noise by 3 to 4 dbA •Mounts directly into existing system replacing the conventional stack •Aluminized steel, polished stainless steel or chrome plated

Exhaust Hose

Crushproof's rubber compound has been specially formulated to withstand up to 600°F of tailpipe exhaust temperatures, while maintaining maximum flexibility and durability. Crushproof's compounding has kept pace with the emergence of high heat producing catalytic converters and emission control devices.

FLARELOCK HOSE

The most popular hose line. The flared end allows multiple lengths to be connected without additional parts. This product should always be used with the appropriate adapter for your application. All hoses are 11 ft. long and the sizes shown refer to the inside diameter.

Part No. FLT200, 2" x 11 ft.
Part No. FLT250, 2½" x 11 ft.; for compact cars.
Part No. FLT300, 3" x 11 ft.; for passenger cars.
Part No. FLT350, 3½" x 11 ft.; for small truck, vans.
Part No. FLT400, 4" x 11 ft.; for gasoline trucks.

SUPERFLEX HOSE

Accordion-like stretch. Compressed rubber hose to prevent kinking at 180° bend over diesel stack.

Part No. 40-20SF, 4" x 20 ft.; for gasoline trucks.
Part No. 50-12SF, 5" x 12 ft.; for diesel trucks.

STAINLESS STEEL HOSE

For dynamometersor other high performance applications. Lightweight and flexible. Withstands 1650° F.

Part No. SS4000, 4" x 10 ft.
Part No. SS5000, 5" x 10 ft.

FABRIC/WIRE HOSE

Lightweight 600°F (intermittent) hose for use with overhead exhaust systems. Not designed for reel systems.

Part No. 401, 4" x 25 ft.; for gasoline trucks.
Part No. 501, 5" x 25 ft.; for diesel trucks.

ACT HOSE

Designed for use with larger gas vehicles and diesel trucks. Available with or without wire reinforcement to prevent kinking.

Part No. ACT400, 4" x 11 ft.; for gasoline trucks.
Part No. ACT400W11, 4" x 11 ft.; for gasoline trucks (inserted w/ 11 ft. wire).
Part No. 40-20, 4" x 20 ft.; for gasoline trucks.
Part No. ACT500, 5" x 11 ft.; for diesel trucks.
Part No. ACT500W11, 5" x 11 ft.; for diesel trucks (inserted w/ 11 ft. wire).
Part No. ACT600, 6" x 11 ft.; for diesel trucks.
Part No. ACT600W11, 6" x 11 ft.; for diesel trucks (inserted w/ 11 ft. wire).

CRUSHPROOF REEL HOSE

•Designed for use on hose reels and overhead exhaust systems •Most damage to reel hose systems occurs in the first five feet, but the Crushproof hose prevents that by adding 5 ft. of Crushproof rubber hose to a durable 20 ft. long section of lightweight fabric hose •Up to 315.5°C intermittent and 162.7°C constant •Includes an adapter

Part No. CPRH400, 4" x 25 ft. hose with DSR600 adapter.
Part No. CPRH500, 5" x 25 ft. hose with DSR600 adapter.
Part No. CPRH600, 6" x 25 ft. hose with DSR600-6 adapter.

Reel Not Included

TELESCOPING OVERHEAD SYSTEM

Lightweight system incorporates long lasting 600°F hose and components and is fully extendible to a 17 ft. length. Hoses can be shortened for low ceilings. Unit is easy to install and comes shipped completely assembled. Unit weighs only 30 lbs. and locking snaps allow it to be shut off.
Part No. TE6000.

"Y" ASSEMBLIES

Converts single hose length for dual exhaust vehicles.
Part No. YA300, Dual exhaust kit for 3" hose w/ straight adapter. Includes: two 4 ft. x 3" hose, one RY30 "Y" connector, and two F300 tailpipe adapters.

Part No. YA575, Dual exhaust kit for 3" hose w/ oval adapter. Includes: two 4 ft. x 3" hose, one RY30 "Y" connector, and two F575 tailpipe adapters.

Crushproof offers a complete line of accessory items that are designed to make your exhaust system safe and easy to use and prolong the life of the hose. Remember, no system is complete without a tailpipe adapter.

				ADAPTERS

*Small Y-assembly for dual exhaust vehicles with a spread of less than 24".

DOOR PORTS

Use on 1" thick doors.
Part No. DF25, 2½" rubber.
Part No. ADF30, 3" aluminum.
Part No. ADF40, 4" aluminum.

OVERHEAD DUCT CONNECTORS

Use to connect to overhead "T" of listed size:
Part No. OC30, 3" aluminum.
Part No. OC40, 4" aluminum.
Part No. OC50, 5" aluminum.
Part No. OC50D, 5" aluminum (w/ damper).

SPLICE CONNECTORS

Connects two length of hose. Hose threads into rubber and over aluminum.
Part No. SP25, 2½" rubber.
Part No. SP30, 3" rubber.
Part No. SP40, 4" rubber.
Part No. AC30, 3" aluminum.
Part No. AC40, 4" aluminum.
Part No. AC50, 5" aluminum.
Part No. AC60-OC, 6" aluminum.

OVERHEAD ELBOWS

Connect two hoses for overhead pulley system.
Part No. AEL25, 2½" aluminum.
Part No. AEL30, 3" aluminum.
Part No. AEL40, 4" aluminum.
Part No. AEL50, 5" aluminum.

"Y" CONNECTORS

Allows for three hoses to be joined together for dual exhaust vehicles. Hose threads into the connectors.
Part No. RY25, 2½" rubber.
Part No. RY30, 3" rubber.
Part No. AY40, 4" aluminum.

Shocks, Struts, & Cartridges

Shocks, struts, cartridges and specialty products for U.S. and Import passenger cars, vans, light trucks, and 4 WDs.

Please ask for further information or specific application requirements for Gabriel Products.

GAS RYDER® - 696 SERIES
- The ultimate gas shock for luxury, full-size and sport/performance cars
- Velocity Sensitive Technology® (VST) offers a comfortable ride under normal conditions and instant control under extreme conditions
- Nitrogen gas charge for a responsive ride
- Large Fluid capacity reduces fade
- Application-tuned for your car

RED RYDER® GAS - 81000 SERIES
- High technology at an economical price for import and domestic cars
- Nitrogen gas charge for a responsive ride
- Nine stage, high-efficiency valving for excellent control and handling
- Application-tuned for your car

GAS RYDER® CARTRIDGE & STRUTS - G44000 SERIES CARTRIDGE, G55000 SERIES STRUTS
- Meets or exceeds domestic and import OEM vehicle specifications
- Velocity Sensitive Technology® (VST) offers a comfortable ride under normal conditions and instant control under extreme conditions
- Nitrogen gas charge for faster response, better control and increased stability
- Application-tuned for your car

GAS RYDER® LT - G63000 SERIES
- Computer designed specifically for light trucks, vans, RVs, 4WDs and SUVs
- Velocity Sensitive Technology® (VST) offers a comfortable ride under normal conditions and instant control under extreme conditions
- Nitrogen gas charge for faster response, better control and increased stability
- Application-tuned for your vehicle
- Large fluid capacity reduces fade

GAS SPORT RYDER® - 61500 SERIES
- Designed specifically for SUVs, minivans and light trucks
- A premium truck shock with a passenger car ride
- Engineered to improve ride control around town and on the highway
- Application-tuned valving and nitrogen gas charge for response, control and stability
- Moly-oil additive and all-weather fluid protect against oil foaming

LTV™ COMMERCIAL SERIES - 58000 SERIES
- The ultimate commercial-duty shock for fleet use
- Designed specifically for severe duty use on light trucks and vans
- Oversized 1-5/8" piston bore with durable sintered iron piston and compression head
- Arc welded end mounts for maximum strength
- Moly-oil additive resists foaming

CLASSIC® - 82000 SERIES
- Modern gas shock technology for classic, collectable and limited registration vehicles
- Application-tuned to the specific needs of your vehicle
- Provides improved performance and handling

HIJACKERS® - 39000 SERIES
- America's best known air-adjustable shock absorber
- Ideal for towing boats and trailers or heavy loads
- Improves handling and prevents bottoming out
- Holds up to 160 psi air pressure
- Up to 1,100 pounds per pair of extra lifting capacity

FRONT & REAR LOAD CARRIER - 32000 SERIES FRONT, 41000 SERIES REAR
- Combines shock and spring technology
- Constant rate front coil springs improves stability, restore ride height
- Variable rate rear coil springs provide 500 lbs. per pair of extra load capacity

STEERING DAMPERS - 14000 SERIES
- Replacement steering dampers offer superior handling
- Reduces shimmy and wear on tires and other front end parts

STRONG ARM® LIFT SUPPORTS - 4000-4900 SERIES
- The ideal replacement for worn lift supports
- Wide variety of applications for sedans, hatchbacks, station wagons and vans

STEERING STABILIZER - 6800SE SERIES
- Improves handling and control by providing added damping of steering system's lateral motion
- Urethane bushings, premium high performance fluid and fade resistant foam cell

STRUT MOUNT™
- Highest quality in the aftermarket
- Meets or exceeds OEM/OES requirements
- Complete installation hardware kit included

STRUT CUSHION™
- Racing style bellows seals out dust, dirt and moisture
- Consolidated design offers substantial vehicle coverage with minimal inventory

KYB GAS SHOCKS

KYB's Gas-a-Just Shocks are designed to deliver maximum driving control and performance. The higher gas pressure keeps tires glued to the road while its high strength, monotube configuration provides extra-rugged durability and fade-free performance.

Shocks, struts, and cartridges for U.S. and Import passenger cars, vans, light trucks, and 4 WDs.

Please ask for further information or specific application requirements for KYB Products.

KYB's Strut Boots and Mounts help you make a better installation while improving vehicle safety and performance. They protect the strut from the elements and play a vital role in vehicle handling, alignment, braking, and steering. Easy to install and meet or exceed OEM requirements.

KYB's GR-2 Series is specially designed to deliver a smooth, comfortable ride. A patented check valve minimizes foaming and aeration to make sure the ride stays smooth, even under rough conditions.

Monomax™ High Performance Gas Shocks

SUVs and pick-ups have become more popular than passenger cars and KYB Monomax High Performance Gas Shocks are specifically designed for drivers of SUVs, 4x4s, and pick-ups who want better ride control and handling. In addition, their oversize piston and bore and higher rebound dampening make them perfect for serious off-roaders. MonoMax provides a safer, more stable ride and exceptional stability with reduced roll and pitch. Minimizes braking nose dive and acceleration squat. Multistage valve compression enables MonoMax to adjust to driving conditions automatically. The monotube design and floating piston keep oil and nitrogen gas completely separate, eliminating shock fade. Viton® oil seal with self-sealing packing to keep the oil in and contaminants out.

EUCLID/FIRESTONE

Ride-Rite® /Sport-Rite™ /Coil-Rite® Air Springs

RIDE-RITE® AIR HELPER SPRINGS:

These mount between the frame and the suspension. The heavy duty convoluted air springs will handle all your levelling needs with load carrying capacities between 3200 - 5000 lbs. per set.*

SPORT-RITE™ AIR RIDE SPRINGS:

The answer to most of your sport performance needs. This air spring mounts between the frame and the suspension, utilizing a state of the art tapered air spring. Sport-Rite kits enhance the ride while loaded. The tapered style air spring will support up to 3000 lbs. per set.*

COIL-RITE® AIR HELPER SPRINGS:

These springs mount inside an existing open coil spring suspension. These air springs allow for adjustable spring rates far superior to the standard coil spring. The durable polyurethane air springs will support 500 - 1000 lbs. per set.*

*Do NOT exceed the vehicle's Recommended Gross Vehicle Weight Rating (GVWR).

Footnote Chart

REQUIREMENTS	
*	Requires 7.50" of clearance between the frame and tire both single and dual rear wheels.
**	Requires 3.00" of clearance between the frame and tire.
***	Requires 9.50" of clearance between the frame and tire.
†	Requires 8.00" of clearance between the frame and tire.
††	Requires 6.25" of clearance between the frame and tire.
†††	Requires 6.50" of clearance between the frame and tire.

Please see the application charts below and on the following pages for the air springs described above, or contact a Gregg Distributors representative for your specific application requirement.

Applications List

All kits are for the rear unless otherwise specified.

Air Accessories & Service Parts for Air Springs can be found on the following page.

Air Accessories

TYPE	DESCRIPTION	COMPRESSOR USED	USAGE	PART NUMBER
COMPLETE KITS				
Level Command II	Light duty compressor and gauge	(9050)	Light	E-RR2158
Dual Electric Air Command	Light duty compressor and dual gauge	(9050)	Light	E-RR2178
Level Command	Heavy duty compressor and gauge	(9210)	Heavy	E-RR2097
Dual Air Command	Heavy duty compressor and dual gauge	(9210)	Heavy	E-RR2168
Single Automatic Air Command	(1) Height control valve (use w/ #E-RR2047)	-	-	E-RR2186
Dual Automatic Air Command	(2) Height control valves (use w/ #E-RR2047)	-	-	E-RR2017
Air Command	Compressor, 1/2 gallon air tank and 25 ft. ext. hose	(9210)	Heavy	E-RR2047
COMPONENTS				
Pneumatic Gauge	Single pneumatic gauge	*Use with an existing air source.*		E-RR2149
Pneumatic Gauge	Dual pneumatic gauge			E-RR2145
Electro-Pneumatic Gauge	Single electric pneumatic gauge			E-RR2191
Electro-Pneumatic Gauge	Dual electric pneumatic gauge			E-RR2188
1/2 Gallon Air Tank	*All air tanks are coated internally and externally to resist corrosion. They are tested to SAE J10 compliance and capable of 150 psi maximum pressure.*	dia. 6.00"	L = 7.63"	E-RR9124
1 Gallon Air Tank		dia. 6.00"	L = 11.00"	E-RR9125
2 Gallon Air Tank		dia. 7.00"	L = 13.50"	E-RR9126
3 Gallon Air Tank		dia. 7.00"	L = 20.00"	E-RR9127
SERVICE PARTS				
Air compressor	Light duty compressor	-	Light	E-RR9050
Air compressor	Heavy duty compressor	-	Heavy	E-RR9210
Air line service kit	18 ft. air line, elbow fittings and inflation valves	-	-	E-RR2012
Loadshare panel	Panel only	-	-	E-RR9024
Height control valve	Replacement valve	-	-	E-RR3599
Linkage Kit	Replacement linkage	-	-	E-RR9028
Pressure Switch	90 - 120 PSI	-	-	E-RR9016

Service Parts For Air Springs

•For Ride-Rite, Sport-Rite, Loadshare

STYLE #	STYLE	DESCRIPTION	UNINFLATED DIMENSIONS (APPROX.)		MAX. LOAD @ 100 PSI PER AIR SPRING	PART NUMBER

CATERPILLAR ENGINE - 3208, CORE GROUP WP1001
Mfg. No. 2W1225, Casting No. 9N3076. 3208 Engine; Bolt on pulley (3 belt).
Part No. RW1162X.

CATERPILLAR ENGINE - 3406 B/C, CORE GROUP WP1002
Mfg. No. 7W7019, Casting No. 9N5034. 3406 B/C Engine; Gear driven, with Teflon seals.
Part No. RW1194PX.

Mfg. No. 631890, Casting No. 100-7479. 3406E Engine; Gear driven.
Part No. RW6012X.

CUMMINS ENGINE - BIG CAM, CORE GROUP WP1003
Mfg. No. 3022474, Casting No. 218274. Big Cam; 4.675 dia. multi-groove pulley; 4½" imp.; vented; NTC290, 350, 400, Formula 290, 350.
Part No. RW1170X.

Mfg. No. 3045943 (3801708), Casting No. 3045163. Big Cam IV; 4.275 dia. multi-groove pulley; 4½" imp.; vented; 300, 350, 400, Fleet 300, NTC-Formula 300, 350, 400, NTC-475.
Part No. RW1172X.

CUMMINS ENGINE - SMALL CAM, CORE GROUP WP1003
Mfg. No. 3000886, 3801715 (AR45090), Casting No. 219040, 210238. Small Cam FFC; 7-hole mount; 2-groove pulley; 5¼" imp.; non-vented; NTC-270-CT, NT855-C280, NTC-290-R, NT855-C310, NT-310, NTC-355, NT855-C335, NTC350, NTA855-C360, NTC290.
Part No. RW1171X.

CUMMINS ENGINE - 88 BIG CAM IV, CORE GROUP WP1031
Mfg. No. 3803138 (3803030), Casting No. 3062899. 88 Big Cam IV; multi-groove pulley; NTC-300, 315, 350, 365, 400.
Part No. RW1176X.

CUMMINS ENGINE - L-10, CORE GROUP WP1034
Mfg. No. 3801840, 3803402, Casting No. 3039182. LTA10 Series; before 1991; 4-hole mount; LTA10-240, 270, 300 engines.
Part No. RW1178X.

CUMMINS ENGINE - N14, CORE GROUP WP1045
Mfg. No. 3803605 (3803361), Casting No. 3069644. N-14 Series; multi-groove pulley; N14-310, 330, 350, 370, 410 engines.
Part No. RW1073X.

CUMMINS IDLER - BIG/SMALL CAM, CORE GROUP WP1006
Mfg. No. 3064919 (AR45189), Casting No. 215397. Big Cam; multi-groove pulley.
Part No. RW1173X.

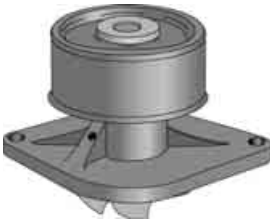
Mfg. No. 3064920 (AR8851), Casting No. 208118. Small Cam; 2-belt pulley.
Part No. RW1175X.

RW1173X

RW1175X

CUMMINS ENGINE - C-SERIES - 8.3, CORE GROUP WP1043
Mfg. No. 3802081, Casting No. 3903357. C-Series Diesel Engine.
Part No. RW6077X.

CUMMINS ENGINE - B-SERIES, CORE GROUP WP1047
Mfg. No. 3802358 (3802004), Casting No. 393132. B-Series Engine; 4 & 6 cylinder.
Part No. RW6075X.



DETROIT DIESEL ENGINE - 60 SERIES, CORE GROUP WP1039
Mfg. No. 23509067 (23505019), Casting No. 23505018. 60 Series engine; (prior to 12/90); gear driven.
Part No. RW1160X.

DETROIT DIESEL ENGINE - 92 SERIES, CORE GROUP WP1013
Mfg. No. 8921105, Casting No. 8921100. 6 and 8V 92 Series engine; 2¼" and 2½" I.D. outlets; walking; one straight outlet pipe and one at 45°, snap ring cover.
Part No. RW1189X.

DETROIT DIESEL ENGINE - 60 SERIES, CORE GROUP WP1048

Mfg. No. 23505895, Casting No. 23505894. 60 Series engine (after 12/90); gear driven.
Part No. RW4122X.

DETROIT DIESEL ENGINE - 92 SERIES, CORE GROUP WP1014

Mfg. No. 8921104, Casting No. 8921099. 92 Series engine; gear driven; running; two outlet pipes at 45°, snap ring cover.
Part No. RW1188X.

DETROIT DIESEL ENGINE - 71 SERIES, CORE GROUP WP1009

Mfg. No. 5149707, Casting No. 5186574. 71 Series in-line engine; right side; standard capacity.
Part No. RW1181X.

NAVISTAR ENGINE - 6.9 & 7.3 LITRE, (FORD), CORE GROUP WP1018

Mfg. No. E9TZ8501B, E4T2-8501B; Casting No. 446430C1. 6.9 and 7.3 litre engine; Ford truck; belt driven; pulley not supplied.
Part No. RW1757X.

FORD POWERSTROKE ENGINE - 7.3 LITRE TURBO DIESEL, CORE GROUP WP1064

Mfg. No. F6TZ-8501AA, F7TZ-8501BRM, F81Z-8501A, F81Z-8501B, F81Z-8501CRM, F81Z-8501FA. Casting No. 1831005C2. 7.3 litre Turbo Diesel Ford Powerstroke engine.
Part No. RW1767X.

NAVISTAR ENGINE - DT466, CORE GROUP WP1016

Mfg. No. 685155C92, Casting No. 677856C1. DT466 engine; belt driven; conventional cab; pulley not supplied.
Part No. RW1190X.

Electric Fuel Pumps

PISTON TYPE FUEL PUMP

The 82050 series is a powerful piston type pump which brings solid state reliability to fuel pumps. One moving part. Built-in filters eliminate the need for other filters in line: microcarbon filter dissipates water; magnetic filter traps metallic particles. Gas line connection 1/4" internal PT.
Part No. 82050, 12V neg. grd., 7 psi.
Part No. 82051, 12V neg. grd., 5 psi.
Part No. 82052, 12V pos/neg. grd., double insulated, 7 psi.
Part No. 82054, 24V pos/neg. grd., 7 psi.

FUEL PUMP

The 235 series has a built-in screen. Gas line connection: 1/8" internal PT. Not to be used with alcohol based fuels. 12V pos/neg. grd., 5 psi.
Part No. 235A-D.

Instruments & Gauges

Stewart Warner Instruments and Gauges can be found on the following pages. Below are descriptions of the 4 "Instrument Families" carried by Gregg Distributors Ltd. These instrument families are referred to in the charts of available gauges.

INSTRUMENT FAMILY DESCRIPTIONS

DELUXE™ INSTRUMENTS

•Classic easy-to-read white graphics on black face dials with white pointers •Patented light ring for night-time illumination •Low profile, bright, stainless steel bezel and metal cases

HEAVY DUTY™ INSTRUMENTS

•Bold white graphics on black face dials with white pointers •Black raised bezel with distinctive brushed bright rim •Patented light ring for better night-time readability •Mechanical gauges feature Bourdon tube mechanisms while electric gauges feature Bi-Torque™ mechanisms

HEAVY DUTY PLUS™ INSTRUMENTS

•ISO symbols on face dials indicate function being monitored •High visibility green tinted night-time illumination •Attractive low profile black bezel •Easy-to-read green and white graphics on black with white pointers

STANDARD INSTRUMENTS

•Classic white graphics on black face dial with white pointer •Flat bright stainless steel bezel •Popular diaphragm mechanism for proven performance in 2-1/32" diameter case •Sealed case and non-illuminated

MECHANICAL PRESSURE GAUGES

TEMPERATURE SENDERS

Constructed of high quality, corrosion resistant brass for maximum durability and outstanding electrical and thermal conductivity. Phosphor bronze contact spring provides resistance to shock and vibration.
Part No. 280EC, 1/8" NPTF thread, 5/8" hex, 100 - 230°F range.
Part No. 280EA, 1/8" NPTF thread, 5/8" hex, 100 - 240°F range.
Part No. 280ED-F, 1/8" NPTF thread, 5/8" hex, 100 - 280°F range.
Part No. 280EE-F, 1/8" NPTF thread, 5/8" hex, 140 - 320°F range.

TEMPERATURE SWITCHES

Solid brass body with gold plated contacts. Excellent accuracy and repeatability. Normally open contact; switches are voltage independent.

PART NO.	THREAD SIZE	TEMPERATURE	TERMINAL
83300	1/4" NPTF	200°	Spade
83301	1/4" NPTF	225°	Spade
83302	1/4" NPTF	225°	Screw

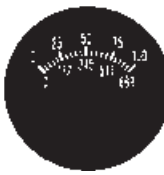
82305 face



82728 face

THICK FILM PRESSURE SENDERS

Preferred for the most rigorous applications, thick film pressure senders will last up to five times longer than senders with wire-wound resistors. 12 volts is normal operating voltage. Can be used in a 24 volt situation with voltage adapter (#829525-2D).
Part No. 279A, 80 psi thick film pressure sender.
Part No. 279B-F, 100 psi thick film pressure sender.
Part No. 279C, 150 psi thick film pressure sender.

Part No. 829525-2D, Voltage adapter used to adapt 12 VDC gauges to higher voltage electrical systems.

829525-2D

PRESSURE SWITCHES

Robust construction for maximum strength. Diaphragm assembly is normally closed. Switches are voltage independent. 1/8" PT.
Part No. 364L-F, 6 psi.
Part No. 364K-F, 15 psi.

ADJUSTABLE THICK FILM FUEL SENDERS

Thick film resistors deliver greater accuracy and will perform reliably for more than twenty million cycles. Phosphor bronze wiper with nickel silver contact provides extended life under fuel sloshing, vibration, and dither conditions. 240 ohm units, resistance range (full) 29.0 - 33.5 ohms; (empty) 240 - 250 ohms.

Part No. 385B-F, 6 - 12" tank depth, LH thick film fuel sender.

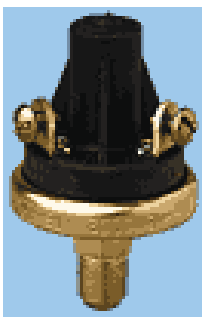
HOBBS
Pressure & Vacuum Switches



5000 series pressure switches are specifically designed to stand up to extended duty applications. Outstanding design benefits are its durable construction, compact size, and enhanced set point integrity. Switches feature Kapton diaphragms.

Hour Meters

DC HOUR METERS

85000 DC HOUR METERS

Indicates operating time in hours and tenths, plus has a running indicator. 10,000 hour version standard, with automatic recycle to zero. Totally sealed. Temperature range: -40°C to 85°C. 1/4" male blade terminals are standard. Glass lens, polyester case.

Part No. 85094, 2-screw black, 10 - 80 VDC.

Part No. 23944, Angle bracket for all 2-screw rectangular meters when panel mounting is not practical.

Part No. 85097, 3-screw black, 10 - 80 VDC.

AC HOUR METERS

20000 AC HOUR METERS

Polycarbonate, shock resistant, tamper proof case. Records up to 99,999 hours, automatic recycle to zero. Totally sealed. Operating temperature: -54°C to 68°C. Lens material: (3-screw mount) glass; (all others) polycarbonate. Screw terminals.

Part No. 20001, 2-screw rectangular, 108 - 132 VAC, 60 hertz.

Part No. 20017, 3-screw round, 108 - 132 VAC, 60 hertz.

LCD HOUR METERS

98000 LCD HOUR METERS

LCD hour meters provide a large easy-to-read display in a conventional size package. The hour meters are available in a variety of mounting styles and voltage ranges that will fit virtually any application. Records up to 99,999.9 hours. Operating temperature: -40°C to +85°C. Features: •Totally sealed from moisture and dirt •Direct replacement for current hour meter •No battery back-up needed •Fits in existing panel openings •Compact depth •Rugged design •Pulse counter option •Reset option •Run indicator •9 to 64 VDC

16.5ti HEAVY DUTY THERMOMETRIC SELF-RECOVERY WINCH

Ideal for heavier trucks and SUVs. The new WARN 16.5ti winch is the highest capacity, most technologically advanced truck winch in the industry today. Features the full diagnostic ability of WARN Thermometric technology, plus the extreme sealing, durability and reliability that this series are known for. New, more efficient design delivers faster line speeds and lower amp draw. It's beefed up where needed, and features a new aluminum solenoid housing cover. Not to mention 90 ft. of aircraft grade 7/16" wire rope. If you've got a big rig and you like to load it up, this is the winch to handle it. 3-stage planetary gear train; efficient controls; exclusive multi-segment cam actuated brake; operator feedback on motor temperature on remote.

Part No. 68801.

Specifications

Rated line pull	16,500 lbs. (7484 kgs.) single line.
Motor	12V, 4.6 hpGen II, Series Wound™
Controls	Remote Switch, ti, 12 ft. lead
Gear Train	3-stage planetary
Gear Ratio	315:1
Fairlead	Roller

M15000 HEAVY DUTY SELF-RECOVERY WINCH

Designed for the really big trucks, the Warn M15000 is a 15,000 lb. brute. Boasts new high strength gear train components to handle the stresses of a 15,000 lb. load. The gear ratio is 315:1 with 90 ft. of 7/16" wire rope equipped with a large hook and latch. The control pack is designed for generous clearance and ease of access. 4.6 hp Series Wound motor with direct drive cone brake.

Part No. 47801.

9.5ti THERMOMETRIC WINCH

No other recreational winch on the market today combines a massive protective structure with sophisticated user feedback control. The 9.5ti is 9500 lbs. of pulling capacity packed into a massive 12.5 pound 360 aluminum die-cast body. Sealed for extreme duty water resistance. Powered by a Generation II Series Wound motor and controlled by another Warn Industries' first: the Thermometric Indicator that gives the operator information about motor operating temperature. Remote control with 12 ft. lead; roller fairlead.

Part No. 67550.

WARN® and the WARN logo are registered trademarks and/or service marks of Warn Industries, Inc.

9.5 xp EXTREME PERFORMANCE WINCH

The fast, powerful Warn 9.5 xp is designed for the serious off-roader who demands a winch that will perform under the most extreme conditions in the world. With 9,500 lbs. of pulling power, the longest duty cycle and fastest line speed of any Warn winch under load, the 9.5 xp delivers extreme performance when you need it most. Features an all new, High Output Parallel Series Wound winch motor that's the strongest and most durable in the industry. Full face contact drum seals, motor and end housing gaskets deliver extreme-duty water resistance.

Part No. 68500.

Specifications

Rated line pull..... 9500 lbs. (4310 kgs.) single line.
Motor ..... 12V DC, 6 hp High Output Parallel Series Wound
Controls ..... Remote Switch, 12 ft. lead
Gear Train..... 3-stage planetary
Gear Ratio 156:1
Fairlead..... Roller

9.5 si M.O.S.F.E.T. WINCH

Warn Industries has taken MOSFET (Metal-Oxide-Semiconductor Field-Effect-Transistor) technology and put it to work for serious off-roaders. The 9.5 si MOSFET control module eliminates the solenoid pack and its electro-mechanical functions. With no moving parts, this model takes "rugged" to new extremes. Water and contaminants are readily shed. There's no corrosion build-up to foul contacts. Operating temperatures from -40°C to + 82°C won't phase it. With its extreme sealing system and the 12.5 lb. aluminium die-cast body, the 9.5 si is the winch for the really serious user.

Part No. 67600.

Specifications

Rated line pull..... 9500 lbs. (4310 kgs.) single line.
Motor ..... 12V DC, Gen II, Series Wound™
Controls ..... 9.5si Remote Switch, 12 ft. lead
Gear Train..... 3-stage planetary
Gear Ratio 156:1
Fairlead..... Roller

TABOR SERIES 9k WINCH

Delivers the best value for the entry level winch user. A tough winch at a great value; comes with an automatic brake, 100 ft. of wire rope, low profile freespool actuator and a 3-stage planetary geartrain. Includes hand held remote control with 12 ft. lead, wire rope with hook, hook strap and roller fairlead.

Part No. 900560.

TABOR SERIES 12k WINCH

Great as an entry level winch — this unit is for heavier trucks that need occasional help. Features a 12V Series Wound™ motor, a low profile freespooling actuator, 3-stage planetary geartrain and 80 ft. of wire rope. Power for when you need it most. Includes hand held remote control with 12 ft. lead, wire rope with hook, hook strap and roller fairlead.

Part No. 812000.

XD9000i SELF-RECOVERY WINCH

One of Warn's more famous winches, the XD9000i has won positive comments from all the off-roading magazines. Now, with the addition of the all-new 4.6 hp Series Wound™ motor, it's better than ever. No-load line speed is 38 ft./minute. It has more torque. And its three-stage planetary gearing lets it run cooler and longer than earlier models. 9000 lbs. rated line pull. Remote control with 12 ft. lead; roller fairlead.

Part No. 27550.

ABOUT THE i-SERIES

For the "i" series Warn engineers conceived a design that was compact, easy to mount and resistant to extreme weather conditions. The result of their endeavour is the advanced i-series. The "i" actually stands for "integrated", which is what engineers have done with the solenoids and controls. The "i" series integrates the control pack into the main winch body and protects it in an all-metal housing. This makes installation easy, improves durability, and creates a sleek look without sacrificing power.

RT30 SERIES ATV WINCH

For Bigger ATVs and Heavier Pulling Jobs, This Winch Helps You Get The Job Done In The Field And On The Trail.

With a mammoth 3,000 lb. pulling capacity, 50 ft. of durable aircraft-grade wire rope and a convenient hand held remote, the RT30 has the features you need to get the job done in the field and on the trail. No matter what the situation, the RT30's full sealing means the winch is prepared to do battle against the elements, and its all-metal 3-stage planetary gear train will provide countless years of smooth, reliable operation. The brake prevents rollback and will hold your vehicle securely on inclines. A standard hand held wired remote and handlebar-mounted mini-rocker switch increases your winching options so you can get the job done right.

Part No. 76000.

Specifications

Rated Line Pull - 3000 lbs. (1360 kg) single line.
Motor - 12V DC, .9hp permanent magnet, Sealed
Controls - Corded remote and handlebar-mounted mini-rocker control switch
Gear train - All-metal 3-stage planetary
Gear Ratio - 154:1
Clutch (freespooling) - Sliding pin and ring gear

NEW!!

RT25 SERIES ATV WINCH

Work Or Play - This Winch Is Everything You Need To Get The Job Done.

This is the winch you want when you need to pull up to 2,500 lbs. using wire rope. As the industry standard, this unit is great for pulling a heavy load or recovering a stuck ATV. Features include our patent-pending brake to hold you on steep inclines, a reliable all-metal 3-stage planetary geartrain, an efficient electrical system that allows for longer pulls with minimal battery drain, and a handlebar-mounted mini-rocker switch for great control.

Part No. 75000.

Specifications

Rated Line Pull - 2500 lbs. (1134 kg) single line.
Motor - 12V DC, .9hp permanent magnet, Sealed
Controls - Sealed handlebar-mounted mini-rocker control switch
Gear train - All-metal 3-stage planetary
Gear Ratio - 154:1
Clutch (freespooling) - Sliding pin and ring gear

NEW!!

RT25

Off-Road Winch Products & Accessories

XT30 SERIES ATV WINCH

NEW!!

This is the ultimate ATV winch! With 3,000 lbs. of pulling capacity, it can rescue the heaviest ATVs, and to keep the elements out, the winch is fully sealed. Premium amenities include an all-new wireless remote with handlebar-mounted holster, and 50 ft. of 3/16" diameter synthetic rope for reduced weight and easy handling. This winch also features a new 0.9 hp motor; an ergonomically designed clutch knob; a potted and sealed mini rocker handlebar control; a waterproof contactor; and a roller fairlead.

Part No. 76500.

Specifications
Rated Line Pull - 3000 lbs. (1360 kg) single line.
Motor - 12V DC, .9hp permanent magnet, Sealed
Controls - Wireless remote w/ handlebar holster and handlebar mounted mini-rocker
Gear train - 3-stage planetary
Gear Ratio - 154:1
Clutch (freespooling) - Sliding pin and ring gear

RT40 SERIES UTV WINCH

NEW!!

With a whopping 4,000 lbs. of pulling power, this winch is specially designed to pull the extra weight of a UTV, making it the most powerful winch in the line-up. Amenities include a potent 1.5 hp high torque motor; 55 ft. of 7/32" wire rope; a fully sealed drivetrain; an ergonomically designed clutch knob; a hand held remote; a potted and sealed mini rocker control with universal mount; a high capacity waterproof contactor; and a roller fairlead.

Part No. 77000.

Specifications
Rated Line Pull - 4000 lbs. (1814 kg)
Motor - 12V DC, 1.5 hp permanent magnet
Controls - Remote control with 10 ft. lead and universal mount mini rocker
Gear train - 3-stage planetary
Gear Ratio - 136:1
Clutch (freespooling) - Sliding pin and ring gear

WIRELESS CONTROL SYSTEM FOR ALL WARN POWERSPORTS WINCHES

NEW!!

This system allows powersports enthusiasts a convenient and versatile option when winching an ATV or UTV. Includes an easy-to-use, ergonomically designed, handheld wireless control with a long-lasting, lithium-ion battery; a receiver with a built-in antenna for the fastest installation; a handlebar mounted holster for the handheld remote; and all the wiring and hardware needed for easy installation on an ATV or UTV. Will fit all current Warn ATV and UTV winches as well as all existing Warn winches equipped with a contactor and mini rocker switch.

Part No. 74500.

M12000 SELF-RECOVERY WINCH

For heavy duty winching needs, this winch is a champion workhorse. Big torque, power and quick no-load retrieval speed is 30 ft./minute. Design is low profile, so it will fit where you want. And it's powered by the all-new 4.6 hp Series Wound™ motor and Warn's proven three-stage planetary gear train. With 125 ft. of 3/8" wire rope, the M12000 can solve most any pulling problem. 12,000 lbs. rated line pull. Remote control with 12 ft. lead; roller fairlead.

Part No. 17801.

M8000 SELF-RECOVERY WINCH

The compact, tough M8000 has always been an outstanding value. But with its new 4.8 hp Series Wound™ motor, it's something else. Torque is improved substantially. Line retrieval speeds have increased from 45% at no-load, to 67% at full pull. And it runs cool for longer duty cycles. 8000 lbs. rated line pull. Remote control with 12 ft. lead; roller fairlead.

Part No. 26502.

Part No. 20910, Same as above except with Hawse fairlead.

M8274-50 SELF-RECOVERY WINCH

The fastest is even faster. No-load retrieval speed for the M8274-50 is now at 73.4 ft./minute. At 150 ft. of 5/16" cable, it also has a very long line capacity. Its unique spur-gear drive train and upright design are totally rugged. And its braking system delivers smooth operation. Roller fairlead, remote control on 12 ft. lead, free spool clutch and battery cables are included. 8000 lbs. rated line pull.

Part No. 38631.

M6000 SDP SELF-RECOVERY WINCH

A short drum portable winch for small sport utility vehicles, the 4.8 hp M6000 SDP provides plenty of pulling power, can be mounted single-handedly, and stores in a snap. Line retrieval speeds have increased — up 27% at no-load, 233% at full pull. This compact winch comes complete with handle/mounting system for a Class III 2" receiver, Hawse fairlead, remote control with 12 ft. lead, free spool clutch and battery cable. 6000 lbs. rated line pull.

Part No. 39116.

M6000 MEDIUM TO LIGHT DUTY WINCH

This is a medium to light duty winch. But it's no weakling. Designed to be compact, its 4.8 hp Series Wound™ motor can still pull 6,000 lbs., making it ideal for smaller vehicles with big ideas.

Part No. 45880.

Specifications
Rated line pull.....6000 lbs. (2720 kgs.) single line.
Motor .....12V DC, 4.8 hp Series Wound
Controls.....Remote Switch, 12 ft. lead
Gear Train.....3-stage planetary
Gear Ratio 156:1
Fairlead.....Roller
Wire rope.....80 ft., 5/16" diameter

DC3000 INDUSTRIAL DC ELECTRIC HOIST

3000 lb. capacity. The DC3000 features a special 199:1 3-stage planetary gear reduction. The weatherproof industrial contactor with 12 ft. remote control provides dynamic braking for secure load control. The cable to drum ratio is 18:1 with 5/16" wire rope. Designed to meet ANSI B30.5 standards. Clockwise, 12V Series Wound™ motor, contactor and remote control.
Part No. 36945.

DC2000 INDUSTRIAL DC ELECTRIC HOIST

2000 lb. capacity. Compact design for mounting flexibility and light weight. A powerful Series Wound™ motor combined with a deep 261:1 gear ratio results in an excellent duty cycle performance. Meets ANSI B30.5 standards. Clockwise, 12V Series Wound™ motor, contactor and remote control.
Part No. 33475.

DC1600 INDUSTRIAL DC ELECTRIC HOIST

1600 lb. capacity. The DC1600 features a large frame for increased wire rope capacity. A heavy duty permanent magnet motor combined with a deep 261:1 gear ratio results in precise position control. Clockwise, 12V permanent magnet motor, contactor and remote control.
Part No. 33501.

DC1200 INDUSTRIAL DC ELECTRIC HOIST

1200 lb. capacity. This compact hoist is built to work. Its heavy duty permanent magnet motor, 216:1 gear ratio and dual cone brake combine to ensure safe and reliable performance. Designed to meet ANSI B30.5 standards. Clockwise, 12V permanent magnet motor, contactor and remote control.
Part No. 60035.

See the WARN® DC Powered Pulling Tools on the following page.

DC Powered Pulling Tools

WARN WORKS® 1700 WINCH

The WARN Works® series puts an all metal gear train together with a 1.9 hp. permanent magnet motor. The 1700 has an easy to use heavy duty rotary control switch for power-in or power-out. The control switch can be mounted on the motor or remotely. The multi-directional clutch is a lever-actuated spring with a cam-over pin that is easy to engage from any angle that makes free spool simple. The brake is a self locking gear train that holds full rated load and the wire rope attachment lets you set the motor operation on the right or left side.

Part No. 651700.

Specifications
Switch Type ..... Dial - motor or remote mounted
Motor ..... Permanent magnet
Horsepower ..... 1.9 HP 3.0" diameter
Gear Train..... Split ring gear design
Gear Ratio 222:1
Clutch ..... Lever, multi-directional operation
Wire rope ..... 35 ft., 5/32" diameter

WARN WORKS® 3700 WINCH

The perfect tool for almost any job. The WARN Works® 3700 puts an all-metal gear train together with a 1.9 hp. permanent magnet motor and a rugged three stage planetary gear design, providing a 3700 lb. rated pull. It has an all weather remote control with 12 ft. lead for easy and safe power in or out. The multi-directional clutch is lever actuated and allows for free spooling of up to 60 ft. of wire rope. Braking is controlled by a mechanical and dynamic system that holds the full rated load. An ideal combination for rolling and static load pulling applications.

Part No. 603700.

Specifications
Switch Type ..... Remote with 12 ft. lead
Motor ..... Permanent magnet
Horsepower ..... 1.9 HP 3.0" diameter
Gear Train..... 3 stage planetary
Gear Ratio 176:1
Clutch ..... Lever, multi-directional operation
Wire rope ..... 60 ft., 7/32" diameter

WARN WORKS® 4700 WINCH

Make work even easier with a higher capacity winch. The WARN Works® 4700 takes the 3 stage planetary gear train and puts it to work with a 1.9 hp permanent magnet motor. The braking is a mechanical and dynamic system that holds full rated load. The 12 ft. all weather remote control plugs into an industrial contractor control pack. The wires to the motor and contactor are protected by a plastic housing.

Part No. 604700.

Specifications
Switch Type ..... Remote with 12 ft. lead
Motor ..... Permanent magnet
Horsepower ..... 1.9 HP 3.0" diameter
Gear Train..... 3 stage planetary
Gear Ratio 216:1
Clutch ..... Lever, actuated sliding ring gear
Wire rope ..... 60 ft., 1/4" diameter

Winch Accessories

MULTI-MOUNT™ MOUNTING SYSTEMS

For those who desire the security a winch provides, but don't want it permanently mounted to their vehicle, Warn devised the Multi-Mount system. It consists of the winch frame and front receiver that are sold separately. With the receiver mounted on the front of your vehicle, and a standard Class III towing receiver on the rear, the winch and frame assembly can be inserted and operated any time and anywhere. Accommodates all Warn 9500, 9000, 8000, and 6000 lbs. capacity winches. Power is supplied by Quick Connect power leads. An added advantage of having the front receiver hitch is the ability to manoeuvre trailers from the front of the vehicle.

Part No. 26370.

WINCH UPGRADE KIT

Converts the WARN A2000 to the WARN 2.5ci ATV winch. Comes with the contactor, Express Install wiring and Mini-rocker switch control.

Part No. 63990.

REMOTE CONTROL UPGRADE KIT

For the WARN 2.5ci. Comes with remote control, socket and Express Install wiring.

Part No. 64259.

REPLACEMENT REMOTE CONTROL

For the WARN 2.5ci and 3.0ci ATV winches (remote only - does not include socket).

Part No. 64849.

REPLACEMENT MINI-ROCKER CONTROL SWITCH

Handlebar mounted control. Replacement part for the WARN 3.0ci and 2.5ci ATV winches, or the WARN Plow Actuator control. Includes switch and mounting hardware.

Part No. 64851.

REPLACEMENT ATV SWITCH ASSEMBLY

Part No. 36015.

REPLACEMENT CONTACTOR

Weather resistant contactor handles high amps. Replacement for the WARN 3.0ci, 2.5ci and A2500 ATV winches.

Part No. 63070.

RECEIVER SHACKLE BRACKET

Combines a heavy duty receiver bracket with a 3/4" shackle. Utilizes a standard Class III receiver hitch as a recovery point for off road use. Fits all standard Class III hitches. Hitch pin not included.
Part No. 29312.

Winch Accessories For Self-Recovery Winches

REMOTE CONTROL

For use with all WARN Winches except 9.5ti; 9.5si; 16.5ti. The next generation of winch remote controls — incorporates an improved ergonomic design with intuitive features. With high intensity LED flashlight.
Part No. 72567.

SHACKLE

For rigging attachment. 3/4" (9500 lbs.) for M4500 and larger winches.
Part No. 13047.

HEAVY DUTY SNATCH BLOCK

9000 lbs. to 24,000 lbs.; for M12000 and M10000 winches. Snatch blocks double the pulling power of any winch, or aid in angled pulls. They also reduce heat build-up and amp draw.
Part No. 15640.

SNATCH BLOCK ATV

0 to 7000 lbs. Snatch blocks double the pulling power of any winch, or aid in angled pulls. They also reduce heat build-up and amp draw.
Part No. 28881.

HAWSE FAIRLEAD

For winches over 4000 lbs.
Part No. 7608.

ROLLER FAIRLEAD

Reduces cable wear, especially on pulls at severe angles.
Part No. 5742.

ROLLER FAIRLEAD

Reduces excessive wear on your winch cable or wire rope and aids in angled pulls. Replacement for 2.5ci, 3.0ci, A2500. Upgrade from hawse fairlead on 1.5ci and A2000 winches.
Part No. 28929.

STANDARD RECOVERY STRAPS

With nylon webbing. Absorbs the shock of heavy pulls, while the elastic rebound energy aids in quick recovery. 2" x 30 ft. 14,400 lbs. rating.
Part No. 11391.

Part No. 11392, Same as #11391 except 3" x 30 ft., 21,600 lbs. rating.

FAIRLEAD COVERS

Roller fairlead covers are made of high-strength ABS plastic and attach easily to fairlead. Standard mounting kit.
Part No. 25580.

SOFT WINCH COVERS

Made of durable nylon-backed vinyl, and hold securely with elastic bungee cord fasteners.

Part No. 8557, For full size pick-ups/4x4s (M8274); C.J. Land Cruisers, flatbed mount.

Part No. 13918, For full size pick-ups/4x4s (XD9000, HS9500, M8000).

Part No. 15639, For C.J. Land Cruisers, flatbed mount (M12000, M10000).

Part No. 13917, For C.J. Land Cruisers, flatbed mount (XD9000, XD9000i, HS9500, HS9500i, M8000, X8000i; combo or multi-mount system).

Part No. 13916, For mid-size pick-ups/4x4s (HS9500, XD9000, M8000, M6000, M4500 and multi-mount system).

BATTERY ISOLATOR

Dual battery isolator, 95 amp rated. Fits the 1985 and newer General Motors and Toyota vehicles except 1973-76 Jeep vehicles.
Part No. 22630.

Winch Accessories For Self-Recovery Winches

QUICK CONNECT POWER ACCESSORIES

Quick Connect power accessories provide a safe and simple power source for portable winches and booster cables. Heavy duty are 175 amp; medium duty are 50 amp.

Part No. 22680, Heavy duty power lead quick connectors — 2 large connectors for 2 to 4 gauge cable.

Part No. 36080, Heavy duty 28" power lead — two 4 gauge cables, eye terminals to quick connector.

Part No. 32963, Heavy duty 20 ft. power lead cable kit with power interrupt, dust cover.

Part No. 22681, Medium duty power lead quick connectors for 6 - 12 gauge cable.

Part No. 23321, Medium duty 18" 4 gauge cable.

Part No. 32966, Heavy duty 24 ft. quick connect power cable, for rear of vehicle. Includes power interrupt kit.

Part No. 23243, Medium duty 8 ft. 4 gauge cable.

Part No. 33541, Medium duty 4 gauge power lead kit, 20 ft. with 20 ft. ground and power interrupt switch.

Part No. 69847, Quick connect dust cover, heavy duty.

22681

SOLENOID SWITCH

Upright replacement solenoid switch.
Part No. 72631.

Fog, Flood, & Driving Lights

4X FOG LIGHTS

In obscuring fog, including the common "pea soup" variety, 4X Fog Lights combine the optimal intensity and reflectiveness to illuminate the road so you can drive safely. The 55 watt quartz halogen bulbs, surrounded with a steel housing and double-thickness chrome plating, provide a broad, penetrating beam. Two lens options are available: yellow lens reduces glare and clear provide 10% to 20% greater brightness. Hard plastic lens covers are included.
Part No. 220310, 3½" x 6", clear lens.

4X FLOOD LIGHTS

If you're looking for great side visibility, Warn 4X Flood Lights have a beam spread of 15° vertical by 24° horizontal. In other words, on average you'll illuminate 200% more area than with original equipment headlights. That means you have the advantage when driving off-road, particularly in areas where deer, elk, moose, or livestock are frequent surprises. 4X Flood Lights are available in 6" and 5" sizes and feature 55 watt H-3 quartz halogen bulbs, polished stainless steel housings, hard plastic lens covers and 2-axis mounting brackets.
Part No. 220520, 5".
Part No. 220620, 6".

4X SPOT LIGHTS

Original equipment headlights vary by model but average a reflective range of 4000 - 5000 ft. Warn 6" and 5" 4X Spot Lights project an intense pencil beam with a reflective range of 10,800 ft. and 7900 ft. respectively. Understandably, they are designed exclusively for off-road use, as such a powerful beam would be blinding to oncoming traffic on the street. 4X Spot Lights are built to last. They're equipped with resilient 100 watt H-3 quartz halogen bulbs encased in polished stainless steel and come with virtually impenetrable lens covers. A 2-axis mounting bracket allows for easy adjustment.
Part No. 220510, 5".
Part No. 220610, 6".

4X DRIVING LIGHTS

For all-around light for off-road driving, depend on Warn Driving Lights for unmatched performance. Two important distinctions set them apart. First, the 55 watt H-3 quartz halogen bulbs are designed with low amp draw so they can be on all the time. Second, since driving lights are designed to supplement original equipment headlights, the 2-axis mounting bolts allow for precise aiming of the light beam. In short, you can eliminate any dark voids left by your original headlights. The lens is sealed to lock out dirt and moisture. 4" x 7".
Part No. 220410.

WARN®

PHILLIPS TEMRO
12 Volt Dump Body Vibrator

For fast, complete, and safe discharge of sticky, cohesive materials from dump truck bodies and dump trailers. Saves time and effort, reduces damage, minimizes tip-over potential and increases safety. Low frequency vibration to prevent metal and weld fatigue. Installs easily; operates from truck battery.

12 volt dump body vibrator, comes complete with 34 feet of No. 4 cable, terminals, switch, and solenoid.
Part No. 800-0875.

Replacement 12 volt motor for #800-0875.
Part No. 800-1030.

BUYERS PRODUCTS
Pickup Truck & Van Racks

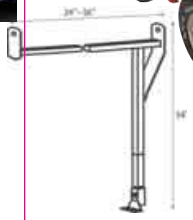
•Ideal for carrying ladders, lumber, building supplies and much more! •Quick & easy installation •Heavy duty 14 gauge steel tube construction •Powder coat finish for durability and corrosion resistance

UNIVERSAL RAIL MOUNT TRUCK RACK

Fits every pick-up truck in the world •Mounts to bed rail or camper shell brackets •Heavy duty 14 gauge steel tubing •Adjustable width and length, overall length extends up to 10 feet •Capacity 750 lbs. when mounted to camper shell brackets; 1000 lbs. when mounted to bed rail •High gloss black powder coat finish •Includes quick release locking pins for quick removal of rear bar for taller loads •Three cross rails
Part No. 1501040.

FLOOR MOUNT TRUCK RACK

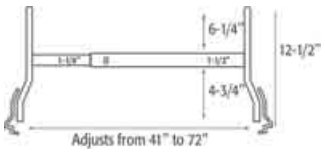
•High gloss black powder coat finish •1¾" square, 14 gauge steel tubing •Support arm telescopes from 24" to 35" for wider loads •250 lbs. load capacity •Compliments tool boxes and similar accessories •Rack carries ladders both vertically and horizontally •Easy installation: Rack slips into the truck bed mounting post and secures to bed rail with a collared "U" bolt and mounting posts are all that remain, leaving bed free of all unwanted fixtures
Part No. 1501070.



600 LB. GUTTER MOUNT VAN RACK

•Mounts to rain gutter •4" wide uprights made from 3/16" thick plate steel •1½" and 1¼" square 14 gauge steel tubing •600 lb. capacity evenly distributed •9/16" wrench is only tool required for installation •Adjustable from 41" to 72" •Available in white powder coat finish •Cargo positioners included •2-crossbars
Part No. 1502023.

Optional 3rd bar, white.
Part No. 1502024.



STEEL CROSS BOXES

Weather Guard Steel Cross Boxes are accessible from either side of the truck. Twin, gull-wing type covers "pop" open with the aid of the exclusive ONE-TOUCH Latch System mechanism. The RED PUSHBUTTON is your assurance of Weather Guard Equipment quality. The covers feature D-shaped weather stripping to seal out dust and weather and each cover operates independently of the other. Two keys are provided.

Part No. 115-3-01, For full size pick-ups with 8 ft. beds; 17.5 cu. ft. storage capacity. 71½"W x 17-7/8"H x 27¾"D; white.

Part No. 125-3-01, For full size pick-ups with 6½ ft. and 8 ft. beds; 12.75 cu. ft. storage capacity. 71½"W x 17-7/8"H x 20½"D; white.

ALUMINUM CROSS BOXES

The Aluminum Cross Box from Weather Guard Equipment is a strong, lightweight box that mounts across the bed of your pick-up, behind the cab, and is available in models to fit all domestic full size and mini pick-ups. Twin gull-wing type covers each have their own independant latching mechanism and offer easy access from either side of your pick-up. A sliding powder coated steel tray with dividers is included.

Part No. 114-0-01, For full size pick-ups with 8 ft. beds; 15.5 cu. ft. storage capacity. 72"W x 18-3/8"H x 27¾"D; Armor-Tuf clear coat.

Part No. 124-0-01, For full size pick-ups with 6½ ft. and 8 ft. beds; 11.3 cu. ft. storage capacity. 72"W x 18-3/8"H x 20½"D; Armor-Tuf clear coat.

STEEL SADDLE BOXES

Weather Guard Steel Saddle Boxes suspend from the side rails of the truck which allows plenty of room underneath for long materials that require the full length of the truck bed. These boxes have a single cover which opens wide enough to provide easy access for larger, bulkier items. With the aid of the ONE-TOUCH Latch System mechanism, and the RED PUSHBUTTON, you are able to "pop" the cover open with one hand. The pushbutton on each end is accessible from either the driver or passenger side. A locked saddle box can be unlocked and opened from one side without the need to unlock the other. Two keys are provided as well as a steel divider tray.

Part No. 116-3-01, For full size pick-ups with 8 ft. beds; 17.5 cu. ft. storage capacity. 71-3/8"W x 17-7/8"H x 28-1/8"D; white.

Part No. 126-3-01, For full size pick-ups with 6½ ft. and 8 ft. beds; 12.75 cu. ft. storage capacity. 71-3/8"W x 17-7/8"H x 21-1/8"D; white.

Part No. 128-3-01, For full size pick-ups with 6½ ft. and 8 ft. beds; 16.85 cu. ft. storage capacity. 71-3/8"W x 23-7/8"H x 21-1/8"D; white.

ALUMINUM SADDLE BOXES

These Aluminum Saddle Boxes are a low profile box that mounts across the bed behind the cab and features a wide opening, single piece cover that provides easy access for large bulky items. There is a pushbutton on each end which allows access from either the driver or the passenger side. The box may be locked or unlocked from one side without bothering with the other. Two keys are provided as well as a steel tray with dividers.

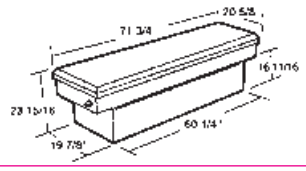
Part No. 117-0-01, For full size pick-ups with 8 ft. beds; 15.3 cu. ft. storage capacity. 71-3/8"W x 18-3/8"H x 28"D; Armor-Tuf clear coat.

Part No. 127-0-01, For full size pick-ups with 6½ ft. and 8 ft. beds; 11.3 cu. ft. storage capacity. 71-3/8"W x 19-7/8"H x 20-5/8"D; Armor-Tuf clear coat.

ALUMINUM DEEP SADDLE BOXES

These Aluminum Deep Saddle Boxes are an extra 5-9/16" in depth over regular saddle boxes. They mount across the bed behind the cab and features a wide opening, single piece cover that provides easy access for large bulky items. There is a pushbutton on each end which allows access from either the driver or the passenger side. The box may be locked or unlocked from one side without bothering with the other. Two keys are provided as well as a steel tray with dividers. Powder coated finish provides lasting protection. Fully arc welded and reinforced aluminum construction.

Part No. 123-0-01.



STEEL LO-SIDE BOXES

Weather Guard Steel Lo-Side Boxes allow you to expand your storage space for long and odd-sized tools and equipment, while not infringing on the load area of the truck bed between the wheel wells. With the aid of the ONE-TOUCH Latch System mechanism, the cover "pops" open. These boxes feature D-shaped weather stripping to seal out dust and weather. Two keys and a removable, high impact plastic tray are provided with each box.

Part No. 165-3-01, For full size pick-ups with 8 ft. beds; 6.25 cu. ft. storage capacity 87-7/8"W x 12-7/8"H x 13-5/8"D; white.

Part No. 175-3-01, For use separately or in combination with Cross or Saddle Boxes; 4.43 cu. ft. storage capacity 60-3/8"W x 12-7/8"H x 13-5/8"D; white.

Part No. 185-3-01, For use separately or in combination with Cross or Saddle Boxes; 3.25 cu. ft. storage capacity 46-7/8"W x 12-7/8"H x 13-5/8"D; white.

ALUMINUM LO-SIDE BOXES

The all Aluminum Lo-Side Box by Weather Guard Equipment is a low profile, side rail mounted box that will carry a full load of tools and materials without obstructing the payload area of your pick-up. Extensive reinforcing and fully arc welded seams have been combined to produce a rigid, structurally sound box that will easily stand up to the heavy demands of the professional tradesman.

Part No. 164-0-01, For full size pick-ups with 8 ft. beds; 6.4 cu. ft. storage capacity. 87-1/8"W x 13¼"H x 16"D; Armor-Tuf clear coat.

Part No. 174-0-01, For use separately or in combination with Cross or Saddle Boxes; 4.1 cu. ft. storage capacity 56-1/8"W x 13¼"H x 16"D; Armor-Tuf clear coat.

Part No. 184-0-01, For use separately or in combination with Cross or Saddle Boxes; 3.4 cu. ft. storage capacity 47-1/8"W x 13¼"H x 16"D; Armor-Tuf clear coat.

STEEL SUPER-LO BOXES

These boxes can store hand tool boxes and larger tools easily. They feature a built-in tool compartment along the front for convenient access to small parts and tools. Super-Lo's do "come into" the 4 ft. dimension between the wheel wells, but you still have 10 to 12 inches below the box to slide in 4 ft. wide materials. The WG-Ti™ BRITE WHITE Finish combined with the stainless steel hinge and trademarked RED PUSHBUTTON assures years of trouble free use and good looks. Cover "pops" open with the aid of the ONE-TOUCH Latch System mechanism. Two keys and a removable high impact plastic tray are provided.

Part No. 166-3-01, For full size pick-ups with 8 ft. beds; 9.25 cu. ft. storage capacity 87-7/8"W x 13-7/8"H x 18-1/8"D; white.

Part No. 176-3-01, For use separately or in combination with Cross or Saddle Boxes; 6.67 cu. ft. storage capacity 60-3/8"W x 13-7/8"H x 18-1/8"D; white.

Part No. 186-3-01, For use separately or in combination with Cross or Saddle Boxes; 4.5 cu. ft. storage capacity 46-7/8"W x 12-7/8"H x 18-1/8"D; white.

ACCESSORY TRAYS & PARTS CABINETS

Especially for Low Profile Boxes, Hi-Sides, and Super-Sides. Please check model numbers the item fits, these will fit various Weather Guard boxes in the marketplace.

STEEL DIVIDER TRAY

PARTS CABINET FOR HI-SIDES & SUPER-SIDES

All steel cabinet features removable partitions; bolts through bottom of box. Not intended for use with nos. 264-3, 265-3, and 272-3.

Part No. 201-3.

STEEL PORK CHOP BOXES

Weather Guard Pork Chop Boxes are designed for long lasting security, durability, and weather resistance. They also offer convenient out of the way storage that will help you to maximize the storage space in your pick-up truck. Made from 17 gauge fully arc welded steel construction and feature the WG-Ti™ BRITE WHITE Finish inside and out. Rotary style latch and trademarked RED PUSHBUTTON lock provide lockable security. The ONE TOUCH Latch System provides easy opening of the cover. Can be mounted in front of wheel wells of full size long bed pick-ups.

Part No. 162-3-01, Driver side - 3.0 cu. ft. storage capacity; 45½"L x 19-1/8"H x 13-5/8"W; 10¼" area for wheel well; white.

Part No. 163-3-01, Passenger side - 3.0 cu. ft. storage capacity; 45½"L x 19-1/8"H x 13-5/8"W; 10¼" area for wheel well; white.

ALUMINUM PORK CHOP BOXES

•Extreme Protection Lock™ protects against break-ins; is a tamper resistant retracting lock •New cover and body channel for distinguished look •90° cover opening for easy access •Level storage secures a 48" level •12V access for electrical up-fits •Automotive style latch has smooth "one touch" opening •Crimp-free/drill-free install mounting brackets •Full weather seal •Reduced clearance cover •Latch linkage protection •Increased warranty

Part No. 170-0-01, Driver side - standard. 2.1 cu. ft. storage capacity; 46-5/8"L x 9"W x 16-7/8"H.

Part No. 171-0-01, Passenger side - standard. 2.1 cu. ft. storage capacity; 46-5/8"L x 9"W x 16-7/8"H.

Part No. 172-0-01, Driver side - wide. 3.4 cu. ft. storage capacity; 46-5/8"L x 13¼"W x 16-7/8"H.

Part No. 173-0-01, Passenger side - wide. 3.4 cu. ft. storage capacity; 46-5/8"L x 13¼"W x 16-7/8"H.

STEEL ALL-PURPOSE CHESTS

Steel All-Purpose Chests come in a variety of models for full size pick-ups and mini pick-ups. These low profile boxes mount right to the bed of the truck and their angled body design makes it perfect for fifth wheel mounts. The offset body design means that zero clearance is required behind the box, so it fits tight against the front lip of the truck bed. WG-Ti™ BRITE WHITE Finish and stainless steel hinge.

Part No. 675-3-01, For mini pick-ups except '97 and newer Ford short-bed; 10 cu. ft. storage capacity 47"W x 19¼"H x 20"D; white.

Part No. 665-3-01, For full size pick-ups; 13.1 cu. ft. storage capacity 62"W x 19¼"H x 20"D; white.

Part No. 685-3-01, For long-bed full size pick-ups; 18.6 cu. ft. storage capacity 62"W x 19¼"H x 27-3/8"D; white.

Truck Equipment

weather guard

ALUMINUM ALL-PURPOSE CHESTS

The Weather Guard Aluminum All-Purpose Chests offer large capacity storage for bulky tools, materials, sports equipment or anything that requires secure weather resistant storage. The angled body design allows the chest to fit fifth wheel applications that require a full turning radius. The front, side, and cover panels are .063 thick diamond plate. The bottom and back panels are .063 smooth finished aluminum.

Part No. 674-0-01, For mini pick-ups; 10 cu. ft. storage capacity. 47¼"W x 19¼"H x 20"D; Armor-Tuf clear coat.

Part No. 664-0-01, For full size pick-ups except '97 and newer Ford short-bed; 13.1 cu. ft. storage capacity. 62"W x 19¼"H x 20"D; Armor-Tuf clear coat.

Part No. 684-0-01, For long-bed full size pick-ups; 18.6 cu. ft. storage capacity. 62"W x 19¼"H x 27-3/8"D; Armor-Tuf clear coat.

STEEL HI-SIDE BOXES

Weather Guard Steel Hi-Side Boxes have all aluminum doors which drop down for easy access and a full view of the contents. The smooth action brushed stainless steel paddle handle with its rotary style latch features a two position "safety" catch for your personal protection. The door can be adjusted to three positions. Mounting legs made out of 1/4" bar stock provide sturdy mounting. The rain gutter design, with its full weather stripping, provides a positive seal against the weather. The WG-Ti™ BRITE WHITE Finish provides a durable, long lasting finish. For full size and mini pick-ups.

Part No. 246-3, 5.16 cu. ft. storage capacity; door opening measures 11½"H x 42"W, 45-5/8"W x 16"H x 12-3/8"D.

Part No. 264-3, 7.26 cu. ft. storage capacity; door opening measures 11½"H x 26½"W, 64-1/8"W x 16"H x 12-3/8"D.

Part No. 272-3, 8.16 cu. ft. storage capacity; door opening measures 11½"H x 32¾"W, 72-1/8"W x 16"H x 12-3/8"D.

Part No. 290-3, 10.21 cu. ft. storage capacity; door opening measures 11½"H x 42"W, 90-1/8"W x 16"H x 12-3/8"D.

Part No. 296-3, 10.89 cu. ft. storage capacity; door opening measures 11½"H x 42"W, 96-1/8"W x 16"H x 12-3/8"D.

ALUMINUM HI-SIDE BOXES

Aluminum Hi-Side Boxes from Weather Guard Equipment offer a full view of the contents. The all-aluminum doors drop down for easy access. The door cable is easily adjustable to three positions. The smooth action brushed stainless steel paddle handle with unique rotary style latch features a two-position "safety" catch for your personal protection. Mounting legs made out of 1/4" bar stock provide sturdy mounting. The full weather stripping provides a positive seal against the weather. For full size and mini pick-ups.

Part No. 372, 8.7 cu. ft. storage capacity; door opening measures, 11½"H x 32"W, 72-1/8"W x 16"H x 13"D; Armor Tuf clear coat.

STEEL SUPER-SIDE BOXES

Offers the same exclusive features and benefits as the steel Hi-Side Boxes illustrated at the top of this page except with over 1/3 more storage space. The greater height and depth make it easier to store bulky items. The larger door opening also makes it easier to get those bulky items in and out.

Part No. 291-3, 14 cu. ft. storage capacity; door opening measures 13½"H x 42"W, 90-1/8"W x 18"H x 15-1/8"D; white.

ALUMINUM UNDERBED BOXES

Weather Guard Aluminum Underbed Boxes are lightweight yet durable and will protect your tools and equipment for years to come. Weather stripping and a flanged design seal out weather and road grime. Unique design rotary style two-position safety latch prevents the door from opening accidentally.

Part No. 622, 2.4 cu. ft. storage capacity; door opening measures 19¼"W x 9¼"H, 24-1/8"W x 14"H x 12¼"D; Armor-Tuf clear coat.

Part No. 638, 12.2 cu. ft. storage capacity; door opening measures 31¾"W x 19½"H, 36-5/8"W x 24"H x 24"D; Armor-Tuf clear coat.

WEEKENDER® LADDER RACKS & ACCESSORIES

The Weekender Ladder Rack from Weather Guard Equipment is a lighter duty ladder rack, with a 250 lb. payload capacity, for the person with the occasional need to carry a ladder or small quantities of long material. Uprights remove easily from the truck for a night out on the weekend and can easily be reinstalled for the work week ahead. (Uprights should be removed when not in use.) Constructed of 1½ x 1½", 14 gauge wall steel tubing. All joints are fully arc welded, and they come in black Armor-Tuf coating. Fits 1994 Dodge and newer full size and Dakota pick-ups; 1988 Chevy and newer full size and mini pick-ups; 1992 Ford and newer full size and Ranger pick-ups.

Part No. 1450, Weekender Ladder Rack, dimensions as shown; black.

PROTECT-A-RAIL® CAB PROTECTORS

All steel PROTECT-A-RAIL Cab Protectors from Weather Guard Equipment are finished with black Armor-Tuf powder coat or WG-Ti™ BRITE WHITE Finish for a long lasting durable finish. *All full size Protect-A-Rail Cab Protector models require separate purchase of installation kit.*

Each kit is designed to custom fit your vehicle.

Part No. 1916-3, Installation kit, Chevrolet; white.

Part No. 1915-3, Installation kit, Ford ('99 model year and newer, Ford Super Duty F-250 and F-350); white.

Part No. 1906-3, Punched steel screen cab protector for full size pick-ups; white; 71-3/8"W at base x 28¾"H.

Part No. 1906-5, Same as #1906-3 except black.

Part No. 1904-3, Steel louvered cab protector features a steel frame and 14 gauge steel louvers; white; 71-3/8"W at base x 28¾"H.

Part No. 1904-5, Same as #1904-3 except black.

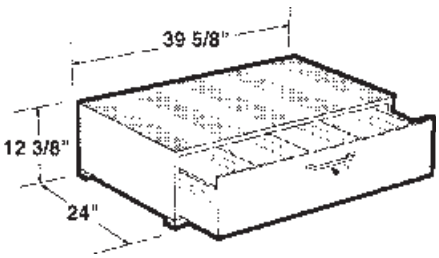
1904-3

1906-3

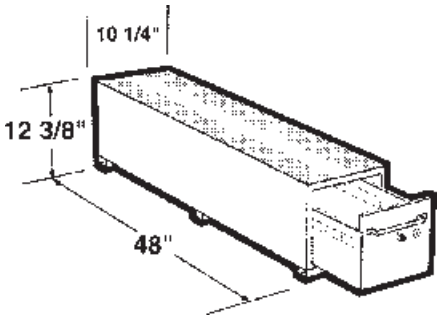
WEATHER GUARD®

PACK RAT® Drawer Units

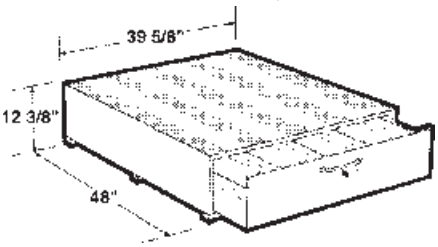
Low profile provides concealed and secure storage for heavy items without greatly reducing truck bed area. Reinforced construction allows material to be loaded on top of unit; where anti-skid strips prevent slipping. Removable roller bearings provide trouble-free operation and drawers are completely removable for easy maintenance. Smooth gliding roll-out drawer puts frequently needed items within easy reach without the need to climb up onto the truck bed. Drawers are constructed of a combination of 12 gauge and 18 gauge steel. The front and bottom is made of 12 gauge; the drawer partitions are made of 18 gauge. Drawers feature arc and spot welding. Necessary fasteners are provided for anchoring in place. White.



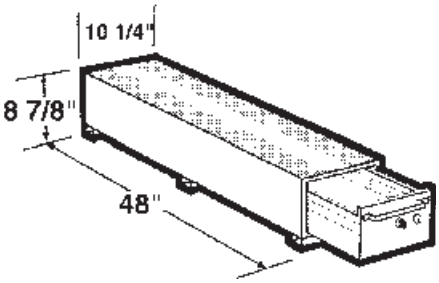
Each drawer compartment measures:
9¾"W x 21"L x 8½"D. This unit is four compartments wide.
Includes 12 dividers.
Part No. 303-3.



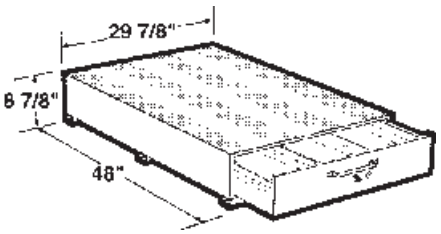
Each drawer compartment measures:
9¾"W x 45"L x 8½"D. This unit is one compartment wide.
Includes 6 dividers.
Part No. 335-3.



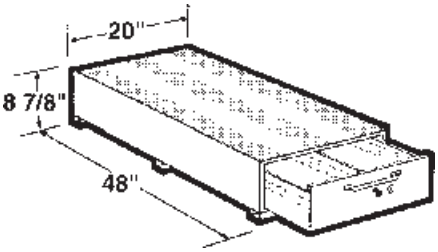
Each drawer compartment measures:
9¾"W x 45"L x 8½"D. This unit is four compartments wide.
Includes 24 dividers.
Part No. 338-3.



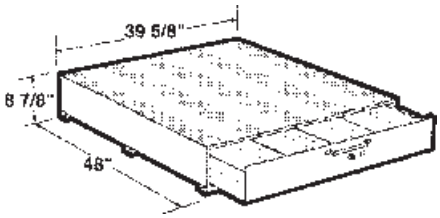
Each drawer compartment measures:
9¾"W x 45"L x 5"D. This unit is one compartment wide.
Includes 6 dividers.
Part No. 305-3.



Each drawer compartment measures:
9¾"W x 45"L x 5"D. This unit is three compartments wide.
Includes 18 dividers.
Part No. 307-3.



Each drawer compartment measures:
9¾"W x 45"L x 5"D. This unit is two compartments wide.
Includes 12 dividers.
Part No. 306-3.



Each drawer compartment measures:
9¾"W x 45"L x 5"D. This unit is four compartments wide.
Includes 24 dividers.
Part No. 308-3.

DYNALINE

Stake Rack Hardware

STAKE HOOKS

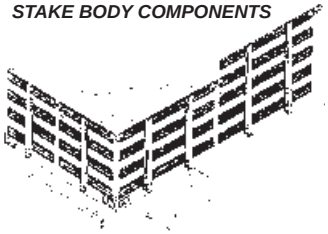
•Ductile iron •Rockwell hardness: 160~200 (HRC) •Clear zinc plated finish. Pin diameter: 9/16".
Part No. 23050, Left-hand, 3" pin length.
Part No. 23051, Right-hand, 3" pin length.

Part No. 23052, Left-hand, 6" pin length.
Part No. 23053, Right-hand, 6" pin length.

STAKE EYE

•Ductile iron •Rockwell hardness: 160~200 (HRC) •Clear zinc plated finish. 5/8" eye I.D.
Part No. 23054.

STAKE BODY COMPONENTS



STAKE ASSEMBLIES

•Two piece stakes with welded reinforcements •14 ga. steel •Available in 47" or 54" lengths
Part No. SA1447WDNH, 47".
Part No. SA1454WDNH, 54".

LINER SLATS

•Available in 7 lengths to suit your requirements •16 ga. steel •Long edges are rolled over and corners are radiused for safety
Part No. LS166545, 44.62".
Part No. LS166548, 47.25".
Part No. LS166554, 53.25".
Part No. LS166572, 71.25".
Part No. LS166590, 90".
Part No. LS1665120, 120".
Part No. LS1665144, 144".

WELD-ON STAKE POCKET

Straight or tapered.
Part No. B2373C, Straight: 3½" x 1¾"; 4" depth; ¼" thickness.
Part No. B2373W, Straight: 3" x 1½"; 2½" depth; 1/8" thickness.
Part No. B2373J, Straight: 3" x 1½"; 3" depth; ¼" thickness.
Part No. B2373K, Straight: 3" x 1½"; 4" depth; ¼" thickness.
Part No. B2373R, Straight: 3½" x 1½"; 3" depth; 7/32" thickness.
Part No. B2374E, Tapered: (top) 3-1/8" x 1-5/8"; (bottom) 2¾" x 1-5/8"; 4" depth; ¼" thickness.

BOLT-ON STAKE POCKET

Straight or tapered.
Part No. B2373G, Straight: 3" x 1½"; 2-1/8" depth; 1/8" thickness.
Part No. B2374G, Tapered: (top) 3" x 1½"; (bottom) 2-7/8" x 1½"; 2-1/8" depth; 1/8" thickness.

SPRING LATCH ASSEMBLIES

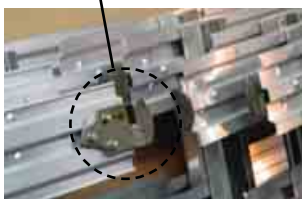
Part No. B2595LKB, Complete with keeper — ½".
Part No. B2595, ½".
Part No. B2596, ¾"; heavy duty.

LATCH KEEPERS/ASSEMBLIES

Part No. B2595KZ, Latch keeper - ½".
Part No. B2596KZ, Latch keeper - ¾" / heavy duty.
Part No. TL382, Tipper latch assembly.

STAKE RACK CONNECTORS

Set of 4, straight or corner. Set consists of one left hand pair and one right hand pair.
Part No. B2585B, Straight. 7" overall length.
Part No. B2585BZ, Straight / zinc plated. 7" overall length.
Part No. B2591B, Corner. 3-5/8" overall length to inside of angle.
Part No. B2591BZ, Corner / zinc plated. 3-5/8" overall length to inside of angle.



SECURITY LATCHES

Set of 4, straight or corner. Set consists of 4 pieces to make one complete latch.
Part No. B2588B, Straight.
Part No. B2588BZ, Straight / zinc plated.
Part No. B2588W, Straight / weld-on.
Part No. B2589B, Corner.
Part No. B2589BZ, Corner - zinc plated.
Part No. B2589W, Corner - weld-on.

RECESSED ROPE RING

Zinc plated. 285 lbs. safe working load; 850 lbs. ultimate breaking strength. Requires 3" diameter mounting hole in 3/8" or thicker material. Do not use for lifting.
Part No. B601, With countersunk holes.
Part No. B601U, Non-countersunk holes.

RECESSED ROPE RING

Zinc plated. 265 lbs. safe working load; 800 lbs. ultimate breaking strength. Requires 3" diameter mounting hole in ¼" or thicker material. Do not use for lifting.
Part No. B701.

SURFACE MOUNTED ROPE RING

Zinc plated. 265 lbs. safe working load; 800 lbs. ultimate breaking strength. Surface mounted pan with ¼" diameter ring. Do not use for lifting.
Part No. B701SM.

HEAVY DUTY ROPE RING

Zinc plated. 1000 lbs. safe working load; 3000 lbs. ultimate breaking strength. ¼" diameter steel ring w/ weld-on bracket. Do not use for lifting.
Part No. B28.

ROPE RING

Zinc plated. 800 lbs. safe working load; 2400 lbs. ultimate breaking strength. ¼" diameter steel ring and formed steel clamp. Do not use for lifting.
Part No. B20.

LIGHT DUTY SURFACE MOUNT ROPE RING

Zinc plated. 400 lbs. safe working load; 1200 lbs. ultimate breaking strength. ¼" diameter welded D-ring w/ 14 gauge steel clip. ¼" diameter mounting holes. Do not use for lifting.
Part No. B23.

HEAVY DUTY RECESSED ROPE RING

Zinc plated. 2000 lbs. safe working load; 6000 lbs. ultimate breaking strength. Formed 1/8" steel pan houses a ductile iron ring. 3-5/8" diameter hole with 7/8" clearance below surface is required. Square mounting holes for use with 3/8-16 x 2¼" carriage bolts. Do not use for lifting.
Part No. B801A.

HEAVY DUTY RECESSED ROTATING ROPE RING

2000 lbs. safe working load; 6000 lbs. ultimate breaking strength. Fabricated recessed ring rotates 360°. Designed to bolt to floor or weld to steel cross members. Do not use for lifting.
Part No. B901.

FORGED LASHING RING

•Forged from C-1045 steel •½" diameter ring •Includes weld-on mounting bracket or 2-hole mounting bracket •Forged bracket is 2" wide and 11/16" thick •2-hole bracket is 1¾" wide and 3/16" thick with square mounting holes to accept 3/8" carriage bolts •4,080 lbs. safe working load; 11,781 lbs. ultimate breaking strength •I.D. 2½" x 2-3/8"
Part No. B38, 2-hole mounting bracket.
Part No. B38W, Weld-on mounting bracket.
Part No. B38PNZW, Zinc plated recessed pan.
Part No. B38ZY, Forged yellow zinc plated, with 2-hole mounting bracket.

FORGED LASHING RING

•Forged from C-1045 steel •5/8" diameter ring w/ mounting bracket •Forged bracket is 2½" wide and 3/8" thick •6,130 lbs. safe working load; 18,390 lbs. ultimate breaking strength •I.D. 3" x 3"
Part No. B40.

FORGED LASHING RING

•Forged from C-1045 steel •¾" diameter ring w/ mounting bracket •Forged bracket is 2¼" wide and 3/8" thick •9,120 lbs. safe working load; 26,500 lbs. ultimate breaking strength •I.D. 3" x 3"
Part No. B46.

FORGED LASHING RING

•Forged from C-1045 steel •1" diameter ring w/ mounting bracket •Forged bracket is 2-1/8" wide and 3/8" thick •15,586 lbs. safe working load; 46,760 lbs. ultimate breaking strength
Part No. B48, I.D. 3" x 3".
Part No. B50, I.D. 4" x 3".

FORGED LASHING RING

•Forged from C-1045 steel •1" diameter ring is formed at a 55° angle to extend from the mounting surface •Forged bracket is 2-1/8" wide and 3/8" thick •15,586 lbs. safe working load; 46,760 lbs. ultimate breaking strength •I.D. 3½" x 3"
Part No. B5055.

LASHING RING

•With 2 hole bracket •Zinc plated
Part No. B38BZY.

D-RING

•With 2 hole bracket •Zinc plated •½" diameter
Part No. B38RZY.

BANJO EYES

•Dump body hardware •Stamped from 5/16" steel pipe
Part No. TGBE3125, 5/16" chain.
Part No. TGBE3138, 3/8" chain.

TRAILER BED CHAIN TIE DOWN

•Provides floor flush anchor point •6,600 lbs. working load limit
Part No. 1901006.

OFFSET FORGED LEVER NUT

•Lever is offset 1½"
Part No. B575A, 3/8-16NC thread.
Part No. B575CZ, ½-13NC thread.

CAST IRON WING STYLE CLAMP HANDLE

•5/8-11 full thread cast iron •Ideal for securing doors, chutes and tailgates using a 5/8-11 rod •Zinc plated
Part No. WN5811Z.

FORGED ROD END

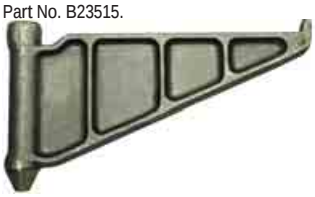
•5/8-11 forged rod end •Zinc plated
Part No. B27027EKZ.

TRUCK LAMP CABINETS

•Heavy duty design •Black powder coated steel •Features continuous welds •Industry standard hole patterns — oval cabinets designed for Model 60 lights; round cabinets desgined for Model 40 lights •Individually wrapped for finish protection
Part No. LB383, Single oval.
Part No. LB663, Single round.
Part No. LB3163, Dual oval.

FORGED STEEL OUTRIGGER

•Forged carbon steel •Includes upper and lower mounting brackets •Designed to allow for indexing at 90° angles •3 locking positions •5,000 lbs. capacity
Part No. B23515.



OUTRIGGER PAD

•Constructed of natural hardwood in a "floating design" to avoid cracking and breaking •Heavy duty U-bolt style handle runs the complete length of the pad for improved strength •Handle is generously sized for gloved hands •18" x 18"
Part No. OP18X18.

WELD-ON "BULLET" HINGE

•Steel with steel pin and brass bushing
Part No. FSP050, 2".
Part No. FSP060, 2-3/8".
Part No. FSP070, 2-3/4".
Part No. FSP080, 3-3/16".
Part No. FSP100, 4".
Part No. FSP120, 4-3/4".
Part No. FSP150, 6".
Part No. FSP200, 8".
Part No. FSP260, 10".

WELD-ON "BULLET" HINGE

•Steel with brass pin and brass bushing
Part No. FBP050, 2".
Part No. FBP060, 2-3/8".
Part No. FBP070, 2-3/4".
Part No. FBP080, 3-3/16".
Part No. FBP100, 4".
Part No. FBP150, 6".
Part No. FBP200, 8".
Part No. FBP260, 10".

WELD-ON "BULLET" HINGE

•Stainless steel with stainless steel pin and bushing
Part No. FSS070, 2-3/4".
Part No. FSS100, 4".

WELD-ON "BULLET" HINGE

•Steel with brass pin, brass bushing, and grease fitting
Part No. FBP080GF, 3-3/16".
Part No. FBP100GF, 4".
Part No. FBP120GF, 4-3/4".
Part No. FBP150GF, 6".

WELD-ON "BULLET" HINGE

•Aluminum with stainless steel pin and bushing
Part No. AFSSP080, 3-3/16".
Part No. AFSSP100, 4".

BUTT HINGE

•Flush mounted wing style •Zinc plated steel construction •Stainless steel pin •Single end weld for left or right mount •4" x 1¼"
Part No. H412538RH, Right, 3/8" pin.
Part No. H412538LH, Left, 3/8" pin.
Part No. H412550RH, Right, ½" pin.
Part No. H412550LH, Left, ½" pin.

(Left hand hinge shown.)

STRAP HINGE

•Strap: 3/16" steel, ¾" wide •Bracket: 3/16" steel 3½" wide, 4½" high •Pin: ½" diameter brass, washer and grease fitting •Finish: plain •8" long
Part No. B2423E.

STRAP HINGE

•Strap: 3/16" steel, 2¼" wide •Bracket: 3/16" steel 3" wide, 5" high •Pin: ½" diameter steel, steel thrust bearings •Strap is measured from centre of pin to end of strap
Part No. B2423F, 8".
Part No. B2423G, 12".
Part No. B2423H, 16".

STAINLESS STEEL STRAP HINGE

•Strap: 1/8" stainless steel, 1" wide •Bracket: 1/8" steel 2¾" wide, 1" high •Pin: 5/16" diameter, nylon bushing •3-5/8" long
Part No. B2424SS.

FORMED HINGE STRAP

•Formed steel hinge •Includes zinc washer, hex head cap sdcrew and locknut, plastic bushing •With grease fitting and long leaf
Part No. B2426FSLL.

FORMED BUTT HINGE

•Consists of drop forged butt, hinge pin and cotter key •Width of opening: 1½" •Holes in flat, C to C: 4" •Projection: 2" •Diameter of eye: 1-1/8" •Holes in eye: 7/32" •Pin size: ½"
Part No. B2426E.

FORGED HINGE STRAP

•Drop forged steel hinge straps offer strength with reduced weight •May be welded, bolted, or riveted •Strap width 1½"
Part No. B2429X, Short, 4-3/8" (C eye to end), 17/32" hole.
Part No. B2430W, Long, 24" (C eye to end), 33/64" hole.

STEEL BUTT HINGE

No holes, plain finish, tight pin (spun both ends)

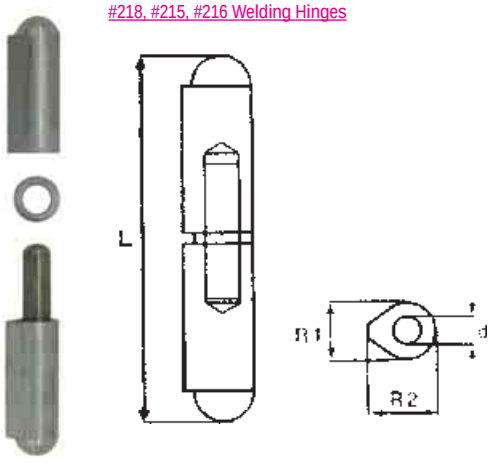
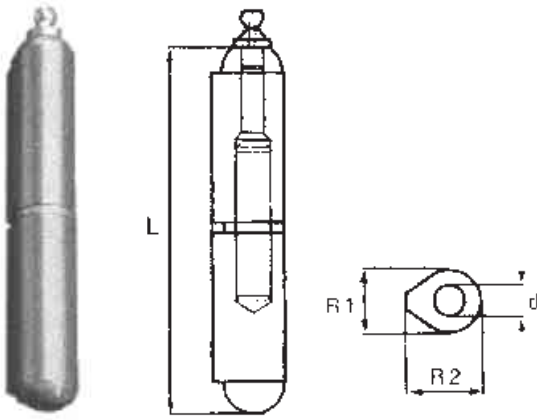
#218, #215, #216 Welding Hinges



#215 & #216 Welding Hinge



HEAVY DUTY STANDARD SIZE FLUSH MOUNT FOLDING T-HANDLE LATCHES

•Stainless steel •Available in single, double or triple point contact to address most applications •Adjustable cam allows for adjustment of the latch to accommodate door thickness from 1¼" to 2" •Designed to mount into a 3¾" x 4" recess opening

Part No. L8815, Single latch point w/ mounting holes.
Part No. L8816, Single latch point w/ blind studs, gasket and cylinder w/ keys included. *(This is a replacement for Buyers' tool boxes manufactured after 1/4/04.)*
Part No. L8825, Double latch point w/ mounting holes, rods included.
Part No. L8835, Triple latch point w/ mounting holes, rods included.

HEAVY DUTY STANDARD SIZE ROTARY PADDLE LATCH

•Single point rotary latch •Stainless steel •Hidden studs •Gasket installed •Cylinder w/ keys installed •For heavy duty applications *(This is a replacement for Buyers' tool boxes manufactured after 1/4/04.)*
Part No. L3890RLS.

Replacement striker pin with washer for use with #L3890RLS above.
Part No. SP045.

HEAVY DUTY STANDARD SIZE FLUSH MOUNT PADDLE LATCHES

•Designed to mount in a 3-3/8" x 4-5/8" recess •Single point latch •Available in rust resistant steel or stainless steel •Available with locking or non-locking style
Part No. L3980, Rust resistant steel, locking.
Part No. L3985, Rust resistant steel, locking, w/ mounting holes.
Part No. N3980, Rust resistant steel, non-locking.
Part No. L3885, Stainless steel, locking, w/ mounting holes.
Part No. N3885, Stainless steel, non-locking, w/ mounting holes.

JUNIOR SIZE FLUSH MOUNT PADDLE LATCHES

•All junior size latches mount in a 2¾" x 3¾" recess •Single point latch •Available in rust resistant steel or stainless steel •Available with locking or non-locking style
Part No. L1980, Rust resistant steel, locking.
Part No. N1980, Rust resistant steel, non-locking.
Part No. L1883, Stainless steel, locking.
Part No. N1883, Stainless steel, non-locking.

MINI SIZE TEAR DROP STYLE LATCHES

•Ideal for use on tool boxes and other small compartment doors •Polished stainless steel finish •Locking version includes cylinder and two keys
Part No. 8000SSL, Locking.
Part No. 8000SSN, Non-locking.

CYLINDER & KEY

•For standard and junior size latches
Part No. 19, For junior size.
Part No. 39, For standard size.

REPLACEMENT STRIKER PLATE

•For use with paddle latches and bolt latches
Part No. SP.

TAILGATE LATCH ASSEMBLY

•Bar assembly constructed of A-36 steel, with forged rod end and bracket for ease of use and strength of operation •The latch assembly can be used to provide a seal for dump body and dump trailer tailgates
Part No. TGL3410ST.

BOLT LATCH

•Finger pull with manual release •Powder metal bolt •Zinc plated steel finish •For use with two and three point latch applications
Part No. 90M.

BOLT LATCH

•Bolt for use with rods or cables •Powder metal bolt •Zinc plated steel finish •For use with two and three point latch applications
Part No. 90W.

½" SPRING LATCH

•Spring loaded bolt can be locked in the open position •Zinc plated bolt, housing, and keeper •Turning lever allows the bolt to close under spring pressure
Part No. B2575.

QUICK RELEASE SPRING LATCH

•5/8" spring loaded bolt can be locked in open position •Plain tube
Part No. B2598H.

CAM ACTION DOOR LOCK KIT

•Cast steel cups, lugs, steel handle, and supports •For use with locally available ¾" pipe
Part No. B2159C.

OUTSIDE SURFACE MOUNT "L" TYPE DOOR HANDLE

•Chrome plated handles rotate full 360° •Can be locked in 4 positions spaced 90° apart •Shaft is standard 5/16" square •1½" C-C mounting holes
Part No. B2394L.

OUTSIDE SURFACE MOUNT "T" TYPE DOOR HANDLE

•Chrome plated handles rotate full 360° •Can be locked in 4 positions spaced 90° apart •Shaft is standard 5/16" square •1½" C-C mounting holes
Part No. B2392L.

2" DOOR HANDLE CAM

•Zinc plated steel with set screw •Secures to 5/16" shaft •For use with #B2392L and #B2394L
Part No. B239C.

DOOR CHECK & HOLD BACK

•Spring permits slide to pass over centre and hold door at 90° •Releases automatically and door closes by slight push •Operates on doors with vertical or horizontal hinges •Parts are cadmium plated for long life •11" arm, 9¼" slide rod, and 12# spring
Part No. B2395LL30.

TELESCOPING DOOR & LID PROP

•Stays open preventing accidental closing •Automatically locks when extended •Unlocks automatically when extended slightly in the up position •All steel construction •Sturdy mounting clamps •Zinc palted to resist rust and corrosion
Part No. DP100, 21" open length.
Part No. DP102, 12¼" open length.

DOOR HOLD BACK SOCKET WITH RUBBER INSERT

•Two countersunk mounting holes for ¼" diameter screws (not included) •Mounting holes 2½" C-C
Part No. DH100, Socket and rubber insert.
Part No. DH101, Rubber insert only (large hole) 25 - 30 lb. pull to release.

DOOR HOLD BACK PLUNGER

•Zinc plated
Part No. DH258, 2-5/8", 2¼" plunger.
Part No. DH318, 3-3/16", 2-25/32" plunger.

HEAVY DUTY ALUMINUM DOOR HOLD BACK
•Heavy duty, die cast aluminum construction •Available in 2" or 4" lengths •Keeper has spring loaded latch mechanism
Part No. DH300, 2".
Part No. DH304, 4".

HOOK & KEEPER DOOR HOLDER
•Zinc plated steel stamping
Part No. DH500, 4" hook and keeper.
Part No. DH500SS, Stainless steel 4" hook and keeper.
Part No. DH5006, 6" hook and keeper.
Part No. DH5006SS, Stainless steel 6" hook and keeper.
Part No. DH501, 4" hook only.
Part No. DH5016, 6" hook only.
Part No. DH502, Keeper only.

LINK TYPE DOOR HOLDER
•Zinc plated steel
Part No. DH552, With 2" link.
Part No. DH554, With 4" link.

"EASY GRIP" RUBBER HOOD CATCH
•4" •With bracket •Interchanges with Southco® part number 37-10-086-10
Part No. WJ195.

RUBBER HOOD CATCH
•4-7/8" •With "A" bracket
Part No. WJ201A.

RUBBER HOOD CATCH
•4-7/8" •With "U" bracket
Part No. WJ201U.

MINIATURE RUBBER HOOD CATCH
•2½" •With bracket
Part No. WJ202.

HEAVY DUTY RUBBER HOOD CATCH
•6" •No bumper
Part No. WJ205, Includes brackets and pin.
Part No. WJ205RO, Handle only.

HEAVY DUTY RUBBER HOOD CATCH
•6" •With bumper
Part No. WJ206, Includes brackets and pin.
Part No. WJ206RO, Handle only.

side view shown to see bumper

HEAVY DUTY RUBBER HOOD CATCH
•7-7/8"
Part No. WJ208, Includes brackets and pin.
Part No. WJ208RO, Handle only.

ULTRA RUBBER/POLYMER HOOD CATCH
•12" •Interchangeable with Standard Navi-star™ hood catch
Part No. WJ211.

HOOD LATCH HOOKING BRACKET
Part No. WJ99.

PULL-DOWN CATCH
•With or without padlock eye •Catch complete with striker •Zinc plated steel
Part No. BHC224Z, Without padlock eye.
Part No. BHC207Z, With padock eye.

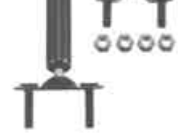
LARGE PADLOCK EYE PULL-DOWN CATCH
•Catch complete with striker •Zinc plated steel
Part No. BHC227Z.

HOOK STYLE HEAVY DUTY PULL-DOWN CATCH
•Used for general purpose •Toggle action •Zinc plated steel •Does not come with striker
Part No. BHC801Z.

SPRING LOADED 90° HOOD CATCH
•90° elbow at base of handle allows handle and bracket to be mounted on same plane •Black enamel finish •Includes hooking bracket
Part No. WJ96WCB.

SPRING LOADED HOOD CATCH
•Black enamel finish •Includes hooking bracket
Part No. WJ100WCB.

SPRING LOADED HOOD CATCH KIT
•Kit contains: Rubber coated handle hood catch; hooking bracket; four mounting studs; four nuts •Designed for use on Jeep
Part No. WJ122.



POLY GRAB HANDLE w/ STEEL INSERT
•Pop-out cover (hidden bolt) design •10-13/16"
Part No. B239911P.

SOLID ALUMINUM GRAB HANDLE
•Flat •Bright anodized finish •16"
Part No. B239916AL.

CHROME PLATED SOLID STEEL GRAB HANDLE
•Chrome finish •½" diameter
Part No. B239918C, 13¼".
Part No. B239920C, 16".

DIE CAST GRAB HANDLE
•Chrome plated •5/8" diameter except #B2399W which is ½" diameter
Part No. B2399A, 9½".
Part No. B2399B, 11½.
Part No. B2399C, 13½".
Part No. B2399D, 15-3/8".
Part No. B2399W, 13¼", weld-on.

TUBULAR STEEL GRAB HANDLE
•Chrome plated •8¼"
Part No. B2399B2C.

FORGED GRAB HANDLE
•Available in plain or chrome finish •11½" •5/8" diameter
Part No. B2399BP, Plain finish.
Part No. B2399BC, Chrome finish.

Truck & Trailer Products

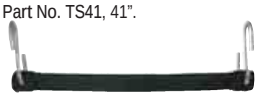
STEEL GRAB HANDLE
•Chrome plated •Weld-on •6"
Part No. B2399H6.

FOLDING FOOT OR GRAB STEP
•Investment cast •Plain, zinc plated, black E-coat, or stainless steel finish
Part No. B2797P, Plain.
Part No. B2797Z, Zinc plated.
Part No. B2797BPC, Black E-coat.
Part No. B2797SS, Stainless steel.

CAST ALUMINUM STEP
•Reversible for flat top or side guard application •Cast aluminum construction
Part No. B2744A.

REPLACEMENT TARP GEAR MOTOR
•Replaces: Donovan™ #61L, Roll-Rite™ #1031, and others •Hi-torque, direct drive 12V motor •Forged, 90 tooth drive gear for more torque and extended life •Epoxy sealed gearbox maintains lubrication •3-1/8" x ¾" extended output shaft fits wide range of tarp systems •Sealed drive shaft and encased bearing prevents contamination •Chrome cover included
Part No. 5541000.

TARP STRAPS
•100% rubber construction •5 convenient sizes
Part No. TS9, 9".
Part No. TS15, 15".
Part No. TS20, 20".
Part No. TS31, 31".
Part No. TS41, 41".



"S" HOOK
•Sold separately from tarp straps
•2½" S hook
Part No. 9225.

BINDING TARP HOOK
•½" round cross section •5" length
•11/32" holes •Zinc plated
Part No. B2448B.

TARP HOOKS
•3/8" round cross section •3¼" length
•9/32" holes unless otherwise noted
•4 styles available
Part No. B2447NHP, Weld-on, no holes.
Part No. B2447BZ, Zinc plated.
Part No. B2447BC, Chrome plated.
Part No. B2447WAL, Aluminum, weld-on, no holes.

HEAVY DUTY FRICTION STOCK BUMPER
•Reinforced with nylon and rayon cording •Compression molded •Come in pairs •Size shown is WxDxH
Part No. B4000, 6" x 3" x 8".

PRECISION MOLDED RUBBER BUMPER
•Designed for OEM applications where close tolerance and precision molding is mandatory •Come in pairs •Size shown is WxDxH
Part No. B4500, 5½" x 3-23/32" x 7-5/8".

MOLDED RUBBER BUMPERS
•Come in pairs •Size shown is WxDxH
Part No. B5264, 2½ x 4-1/8" x 6¾".
Part No. B5500, 3" x 3½" x 6".
Part No. B5540, 2-9/16" x 3" x 6".
Part No. B5760, 2¼" x 2" x 7¾".
Part No. B6000, 3½" x 3½" x 6".
Part No. B8000, 6" x 2-5/8" x 12".

EXTRUDED RUBBER D-BUMPER
•Sold in singles •Size shown is LxWxD
Part No. D26U, 6" x 2-1/8" x 1-7/8".
Part No. D210, 10" x 2-1/8" x 1-7/8".
Part No. D232, 32" x 2-1/8" x 1-7/8".
Part No. D2120, 120" x 2-1/8" x 1-7/8".
Part No. D312, 12" x 3" x 2-7/8".
Part No. D324, 24" x 3" x 2-7/8".
Part No. D46, 6" x 4" x 3¾".
Part No. D412, 12" x 4" x 3¾".
Part No. D424, 24" x 4" x 3¾".

EXTRUDED RECTANGULAR BUMPERS
•Includes steel insert mounting plate •Size shown is LxWxD •Sold in singles except as otherwise noted
Part No. 441425, Pair, 2½" x 4-1/8" x 2¾".
Part No. 441466, 4¾" x 10" x 2¾".
Part No. 441465, 4¾" x 15" x 2¾".
Part No. 441464, 4¾" x 20" x 2¾".
Part No. 441463, 4¾" x 30" x 2¾".

2½" ROUND RUBBER BUMPER
•Protects from door handles, latches, and cam locks •Used as a cushion for loading ramps and lift gates •Bumper is 1" high •Black or white
Part No. B1001, Black.
Part No. B1025, White.

Packaged Truck, Trailer, & Towing Hardware

PACKAGED TARP STRAPS & "S" HOOKS
•Package of 8 tarp straps c/w "S" hooks
Part No. 01010, 9" (TS9/9225).
Part No. 01015, 15" (TS15/9225).

PACKAGED ROPE RINGS
•Package of 4
Part No. 02005, Rope rings (B20).
Part No. 02010, Rope rings (B23).

PACKAGED RECESSED ROPE RINGS
•Package of 4
Part No. 02020, Recessed rope rings (B601U).

Packaged Truck, Trailer, & Towing Hardware

PACKAGED SURFACE MOUNT ROPE RINGS
•Package of 4
Part No. 02025, Surface mount rope rings (B701SM).

PACKAGED HEAVY DUTY RECESSED ROPE RINGS
•Package of 1
Part No. 02030, Heavy duty recessed rope rings (B801A).

PACKAGED RUBBER HOOD CATCHES
•Package of 2 •4-7/8"
Part No. 03010, Rubber hood catches (WJ201A).
Part No. 03015, Rubber hood catches (WJ201U).

PACKAGED SURFACE MOUNT DOOR HANDLES
•Package of 1
Part No. 04005, Surface mount "L" type door handle (B2394L).
Part No. 04010, Surface mount "T" type door handle (B2392L).

PACKAGED HEAVY DUTY PADDLE LATCHES
•Package of 1 •Locking or non-locking
Part No. 04030, Heavy duty non-locking paddle latch (N3885).
Part No. 04035, Heavy duty locking paddle latch (L3885).

PACKAGED BOLT-ON TAPERED STAKE POCKET
•Package of 1
Part No. 06010, Bolt-on tapered stake pocket (B2374G).

PACKAGED STAKE RACK CONNECTOR SETS
•Package of 1 •Straight or corner
Part No. 06015, Straight stake rack connector set (B2585BZ).
Part No. 06020, Corner stake rack connector set (B2591BZ).

PACKAGED SECURITY LATCH SETS
•Package of 1 •Straight or corner
Part No. 06025, Straight side security latch set (B2588BZ).
Part No. 06030, Corner security latch set (B2589BZ).

PACKAGED SPRING LATCH ASSEMBLY
•Package of 1 •Zinc
Part No. 06035, Zinc spring latch assembly (B2595LKB).

PACKAGED LIGHT DUTY TOW HOOKS
•Package of 1 •Black or chrome
•With clip and bolt kit
Part No. 10005, Black light duty tow hook w/ clip and bolt kit (B2799BKT).
Part No. 10010, Chrome light duty tow hook w/ clip and bolt kit (B2799CKT).

PACKAGED FORGED PINTLE HOOKS
•Package of 1 •Light or heavy duty
Part No. 10035, Forged light duty pintle hook w/ mounting kit - 5 ton (PH5/8520).
Part No. 10040, Forged heavy duty pintle hook w/ mounting kit - 15 ton (PH15/8520).

PACKAGED FORGED COMBINATION HITCHES
•Package of 1 •8 ton with ball
Part No. 10050, Forged combination hitch, 8 ton, 2" ball (BH82000).
Part No. 10055, Forged combination hitch, 8 ton, 2-5/16" ball (BH82516).

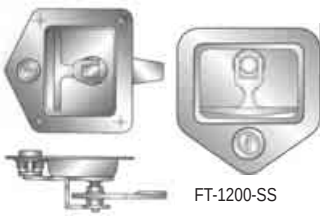
PACKAGED LINCH PINS
•Package of 2
Part No. 66001, ¼" linch pins (66000).
Part No. 66004, 3/16" linch pins (66003).
Part No. 66007, 5/16" linch pins (66006).
Part No. 66011, 7/16" linch pins (66010).
Part No. 66016, 7/16" heavy duty linch pins (66015).

PACKAGED SNAPPER PINS
•Package of 2
Part No. 66046, 3/16" x 1¾" snapper pins (66045).
Part No. 66051, ¼" x 2" snapper pins (66050).
Part No. 66054, 5/16" x 2¾" snapper pins (66053).
Part No. 66057, 3/8" x 1-5/8" snapper pins (66056).
Part No. 66061, 3/8" x 2½" snapper pins (66060).
Part No. 66064, ¼" x 2¾" snapper pins (66063).
Part No. 66067, ¼" x 3¼" snapper pins (66066).

Truck & Trailer Products

RYADON INC.

SINGLE POINT RECESSED FOLDING "T" HANDLES
•Stainless steel or zinc plated •Locking "T" handle
Part No. FT-2500SS-4DC, Stainless steel, c/w drilled holes - Dim: 4.90" x 4.75".
Part No. FT-2500SS-SDC, Stainless steel, c/w mounting studs - Dim: 4.90" x 4.75".
Part No. FT-1200-SS, Stainless steel, c/w 5/16" shaft - Dim: 5" x 4.75".
Part No. FT-1200-ZN, Zinc plated, c/w 5/16" shaft - Dim: 5" x 4.75".



FT-1200-SS

FT-2500SS-4DC

THREE POINT RECESSED FOLDING "T" HANDLES
•Stainless steel •Locking "T" handle
Part No. FT-1100A-SET-34, c/w drilled holes - Dim: 4.90" x 4.75". Comes complete with (2) 34" rods and 2 clips.

LOCKING PADDLE LATCHES
Part No. PH-9015-L-SS, Stainless steel, mini paddle handle c/w drilled holes - Dim: 4¾" x 3-5/8".
Part No. PH-9015-L-ZN, Zinc plated, mini paddle handle - Dim: 4¾" x 3-5/8".
Part No. FD351SS, Square "D" ring locking, single point.
Part No. FD352SS, Square "D" ring non-locking, single point.
Part No. FD472SS, Square "D" ring locking, dual point.
Part No. FD435MN1SS, Mini square "D" ring locking, single point.
Part No. FD435MN2SS, Mini square "D" ring non-locking, single point.
Part No. FD447MN2SS, Mini square "D" ring locking, dual point.
Part No. PH9018LZP, Large paddle handle, zinc plated.
Part No. PH9018LSS, Large paddle handle, stainless steel.

PH-9015-L-

REPLACEMENT PARTS FOR HANDLES & LATCHES

Part No. C-5619A, Handle striker plate, zinc plated - Dim: 2-7/8" x 7/8".
Part No. G-2500, Rubber gasket for FT2500 handles.
Part No. L-6881, Lock dust cover fits all versions of locking recess folding "T" handles.
Part No. G-FD-L, Large "D" handle gasket, locking.
Part No. G-FD-NL, Large "D" handle gasket, non-locking.
Part No. G-FD-SMALL, Mini "D" handle gasket.
Part No. RALH10554ZN, Anti rattle rod guide.
Part No. R-ROD34S, Zinc plated rods.

Handle Striker Plate

Built to last! Fit it... forget it... forever!

The Flettner Ventilator system enjoys worldwide success on virtually every form of transport on land or sea: buses (especially minibuses), ambulances, police vehicles, dog vans, horse boxes, livestock transport, food transport, public utility vehicles, glider trailers, fishing vessels, pleasure craft, etc. Flettner ventilators are also used on stationary sites such as caravans, mountain cabins, portable work units, farm buildings, and greenhouses. Tough and durable construction makes the ventilator suitable for use in extreme climates. Indeed, it has been shown to cope successfully with every type of weather condition from equatorial downpours to the intense cold and blizzards of the Antarctic.

How it works: The principle is deceptively simple — mounted on a spindle the extractor fan is driven by an air scoop which catches the air stream created by the vehicle's motion. No more than a slight breeze is required to set this polypropylene rotor in motion and hence it is also suitable for stationary sites in open locations. Beneath the spinning air scoop are 8 vanes which expel air centrifugally, drawing stale air from below. The construction of the unit prevents the entry of rain, dust, and downdraughts. Extraction capacity is remarkably effective and can be regulated by the open and close shutter accessory. Wind power means a very quiet, maintenance free performance with no electrical connections to worry about, no drain on batteries, no running costs and no distracting noise from a tired motor. Installation into the roof is simple requiring only a four bolt fixing and a 96 mm diameter vent aperture. An adapter is available to facilitate fitting on the ducting; two of these, joined end-to-end, may prove useful in bridging the cavity or insulation within a double skinned roof.

Part No. 2000-BK, Black Flettner 2000 ventilator.
Part No. 2000-WH, White Flettner 2000 ventilator.
Part No. 2000-AD, Mounting adapter for Flettner 2000 ventilator.

RAIN MASTER

For improved protection. The Rain Master backing is designed with special vertical ribs that trap and deflect water spray for improved highway safety. Molded from top quality rubber.

Part No.	Colour	Size	Weight (each)	Thickness
BRM-2430	Black	24" x 30"	9½ lbs.	5/16"
BRM-2436	Black	24" x 36"	10¾ lbs.	5/16"

ANTI-SAIL SPLASHGUARDS

Spring steel strapped full length for extra rigidity.

Part No.	Colour	Size	Weight (each)	Thickness
BAS-2430	Black	24" x 30"	10 lbs.	5/16"
BAS-2436	Black	24" x 36"	11½ lbs.	5/16"

SPECIALTY FLAPS

Mudflaps specially designed for your geographic location.

Part No.	Description	Size	Weight (each)	Thickness
NWT-B-2015	(black) Northwest Territories	20" x 15"	4 lbs.	5/16"
WILDROSE-W-2015	(white) Wildrose	20" x 15"	4½ lbs.	5/16"
WILDROSE-B-2015	(black) Wildrose	20" x 15"	4 lbs.	5/16"
ALTA-W-2430	(white) Alberta w/ coat of arms	24" x 30"	9¼ lbs.	5/16"

ECONOMY RUBBER MUD FLAPS

Compression molded and fibre reinforced for toughness and tear resistance. An economical splashguard that exceeds industry standards for both quality and stiffness.

Part No. LW-2424, 24" x 24" plain black economy rubber mudflap.
Part No. LW-2430, 24" x 30" plain black economy rubber mudflap.
Part No. LW-2436, 24" x 36" plain black economy rubber mudflap.

PERSONALIZED mudflaps are available on special request.

BETTS
Mud Flap Holders

Sold as a pair.

Part No. BETTS-23
•.640" square steel •interchangeable •30" long

Part No. BETTS-25
•.640" square steel •interchangeable •30" long

Part No. BETTS-29
•.640" square steel •5.5" offset arm •30" long

Part No. BETTS-33
•.640" square steel •shortened holder •45° angle •28" long

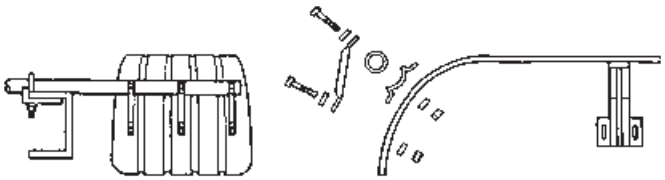
RUBBER QUARTER FENDER

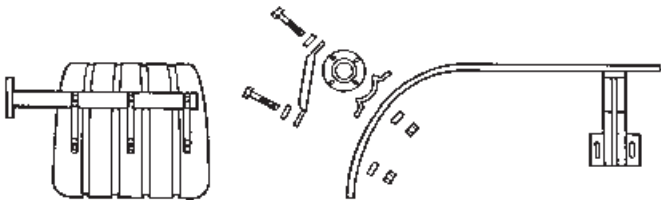
Part No. N123-R, Crossover mounted rubber quarter fender c/w zinc plated mounting hardware.

MOUNTING KITS FOR FENDERS

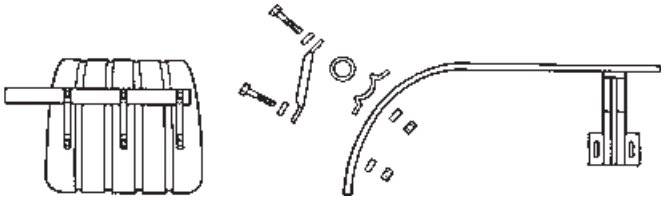
•For N and NF 60, 66, 80 stainless steel fenders



Part No. N8060SSMK, Crossover mount kit.



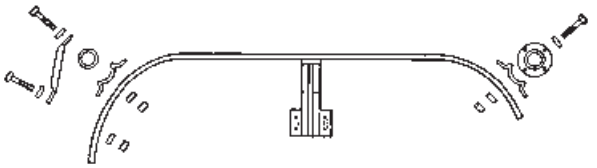
Part No. N8060SSMK-SM, Side mount kit.



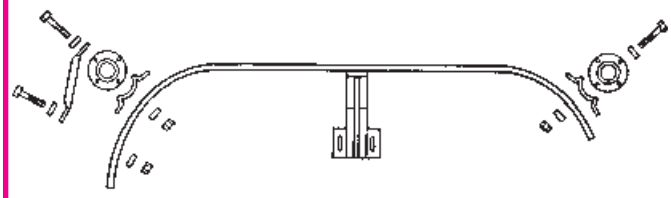
Part No. N8060SSMK-PM, Post mount kit.
Part No. N6080SSHB, Replacement hardware kit only.

MOUNTING KITS FOR FENDERS

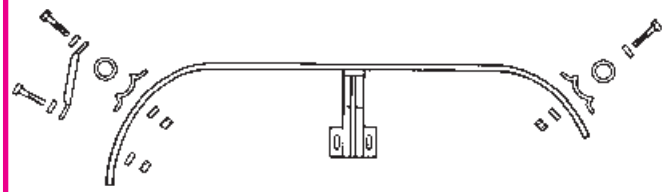
•For N120 stainless steel fenders



Part No. N120SSMK, Crossover mount kit.
Part No. N120SSHB, Replacement hardware kit only.



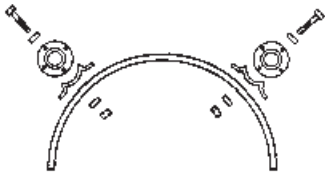
Part No. N120SSMK-SM, Side mount kit.



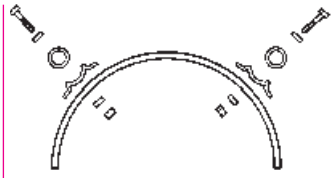
Part No. N120SSMK-PM, Post mount kit.
Part No. N120SSHB-SM, Replacement hardware kit only.

MOUNTING KITS FOR FENDERS

•For N and NF 155, 160, 180 stainless steel, galvanized, and aluminum round fenders



Part No. N180SSMK, Side mount kit.



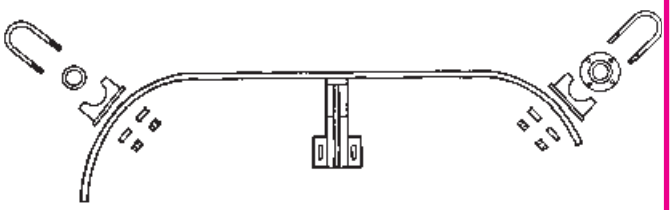
Part No. N180SSMK-PM, Post mount kit.
Part No. N180SSHB, Replacement hardware kit only.

Part No. N180GMK, Side mount kit (galvanized).

Part No. N180GMK-PM, Post mount kit (galvanized).
Part No. N180GHB, Replacement hardware kit only.

MOUNTING KITS FOR FENDERS

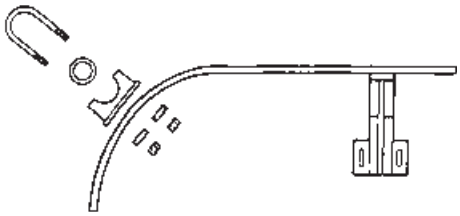
•For N120, painted, galvanized, and aluminum fenders



Part No. N120-GMK, Crossover mount kit. (illustrated)
Part No. N120GHB, Replacement hardware kit only for #N120-GMK.
Part No. N120-GMK-SM, Side mount kit. (not illustrated)
Part No. N120GHB-SM, Replacement hardware kit only for #N120-GMK-SM.
Part No. N120-GMK-PM, Post mount kit. (not illustrated)

MOUNTING KITS FOR HALF FENDERS

•For all galvanized and aluminum half fenders



Part No. N8060GMK, Crossover mount kit.
Part No. N6080GHB, Replacement hardware kit only for #N8060GMK.
Part No. N8060GMK-SM, Side mount kit.
Part No. N6080GHB-SM, Replacement hardware kit only for #N8060GMK-SM.
Part No. N8060GMK-PM, Post mount kit.

Truck/Trailer Accessories

MOUNTING PIPES & BRACKETS

Part No. NC091, 94" pipe, zinc, no holes.

Part No. N30, 30" side mount, zinc, no holes.

Part No. N40, 30" post mount, zinc, no holes.

Part No. N230, Centre mount bracket, 13" high.

FLEXIBLE MUD FLAP HANGERS

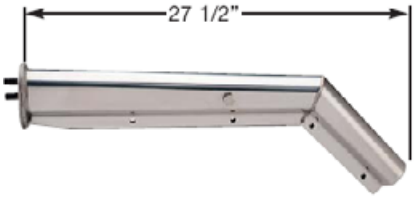
•Flexible spring loaded •Painted steel, chrome plated, or stainless steel
Part No. NF30-P, Painted steel.
Part No. NF30-C, chrome plated.
Part No. NF30-SS, Stainless steel.

Part No. NF30-3, Replacement expansion spring for NF30 flap hangers.

FLEXIBLE MUD FLAP HANGERS — 45° ANGLE

•Flexible spring loaded •45° angle •Painted steel, chrome plated, or stainless steel
Part No. NF37-P, Painted steel.
Part No. NF37-C, chrome plated.
Part No. NF37-SS, Stainless steel.

Part No. NF27-3, Replacement expansion spring for NF37 flap hangers.



MUD FLAP HANGER CONSPICUITY REFLECTOR STRIPS

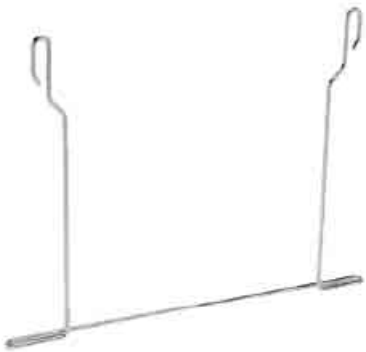
•Sold in pairs only

Part No. NRS3000, Fits NF30 series. Note: These will fit our BETTS23, BETTS25, and BETTS29 hangers.

Part No. NRS3700, Kit contains one left and one right. Fits NF37 series. Note: These will fit our BETTS33, BETTS35, and BETTS39 hangers.

ANTI-SAIL BRACKETS

•Fits standard 24" wide mud flaps up to ½" thick •Sold individually
•Chrome plated or black primed
Part No. N2620-C, Chrome plated.
Part No. N2620-P, Black primed.

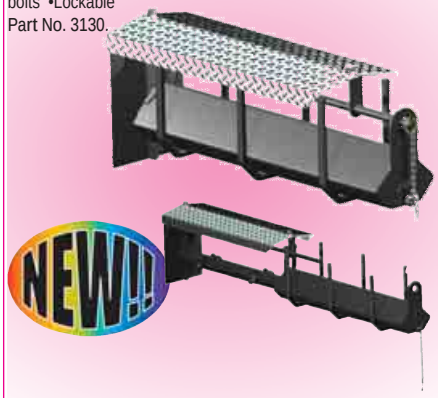


STAR FABRICATION
Tire Chain Hangers

RETRACTABLE TIRE CHAIN HANGER
•Mounts to frame/underbody of truck •Slides out for easy access to tire chains •Steel •Retracted length 32¼" •Sold as each
Part No. 3100.

COVERED RETRACTABLE TIRE CHAIN HANGER
•Heavy duty welded construction •Pulls out to fully expose all chains •Bolt-on aluminum tread plate cover •Stainless steel bolts •Lockable
Part No. 3110.

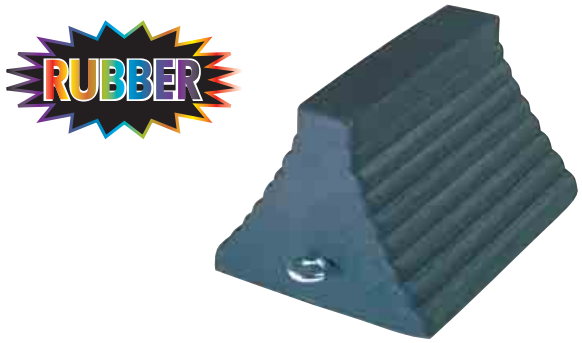
COVERED TIRE CHAIN HANGER w/ ROLLER BEARINGS
•Heavy duty welded construction •Pulls out to fully expose all chains with the added benefit of roller bearings for a smoother pull-out •Bolt-on aluminum tread plate cover •Stainless steel bolts •Lockable
Part No. 3130.



CHECKERS® INDUSTRIAL PRODUCTS
Wheel Chocks

RUBBER WHEEL CHOCKS — 450 SERIES
The standard of the utility industry! This wheel chock design is used by most utility and telephone fleets and allows either side of chock to be positioned against tire. Durable rubber construction, fits most chock storage compartments, resistant to the elements, and complete with a steel loop carrying handle. 10"L x 8"W x 5.5"H.
Part No. RC450, Wheel chock with bottom void, 7 lbs.
Part No. RC450-CL, Wheel chock with bottom void and ice cleat, 9 lbs.

RUBBER WHEEL CHOCKS — 815 SERIES
For "over the road" trucks and trailers and loading dock facilities. Design allows either side of chock to be positioned against tire. Ideal for keeping truck trailers in place during loading and unloading operations. Durable rubber construction, resistant to the elements, ribbed pyramid design and complete with eyebolt for ropes or chains. 10"L x 8"W x 6"H. 8.5 lbs.
Part No. RC815, Wheel chock with bottom void.



URETHANE WHEEL CHOCKS — 1500 SERIES
Urethane wheel chocks are strong, safe, and lightweight. Impact absorbing chocks grip tire and road, will not cause tire or pavement damage and are oil and chemical resistant. Popular design for "over the road" trucks and trailers. Recessed carrying handle, mounting hole for ropes or chains, and are orange in colour. 11"L x 7.75"W x 8"H.
Part No. UC1500-4.5, Urethane wheel chock, 4.5 lbs.
Part No. UC1500-6, Urethane wheel chock, 6 lbs.

URETHANE WHEEL CHOCKS — 1500 SERIES
Specifically designed for the mining industry. They are made of a tough polyurethane construction, resistant to oils, fuels, and solvents. Features a mounting hole — for ropes or chains and a recessed carrying handle. Will handle tires over 105" diameter and load capacity up to 240 tons. Yellow in colour. 22"L x 15"W x 11"H. 40 lbs.
Part No. MC1812.

FLAGSTAFF™

Safety Flagpoles For Off-Road Vehicles — "Buggy Whips"

Warn others of your off-road vehicle's presence by attaching a flagstaff safety flagpole. Safety flagpoles provide quick and easy identification of other vehicles or equipment in your area. Bolt-on mounting for easy attachment. Flagstaffs have a lamp socket which can accommodate a traditional lens or "Glo-Worm" light — each sold separately.

FLAGSTAFF w/ HEAVY DUTY FLAG
•Threaded base, lamp socket, and hot plug
Part No. FS10L, 10 ft.
Part No. FS8L, 8 ft.
Part No. FS5L, 5 ft.
Part No. FS3L, 3 ft.

flagpole shown with traditional lens

FLAGSTAFF w/ HEAVY DUTY FLAG & HEX MOUNTING BASE
•Lamp socket •Short thread/side hole (for use with #FSPC3009 magnetic mounting base only)
Part No. FS3LHEXBST/SH, 3 ft.

flagpole shown with traditional lens

TRADITIONAL PLASTIC LENS
•High impact traditional plastic lens •Amber or blue
Part No. FS7020-A, Amber.
Part No. FS7020-B, Blue.

Chrome plated metal lens cap for use with #FS7020-A and #FS7020-B lens.
Part No. FS7004.

GLO-WORM LIGHT
•12 volt •6" •Made of flexible PVC, UV stabilized material •Amber or clear
Part No. FSLED12-6A, Amber.
Part No. FSLED12-6C, Clear.

ACCESSORIES & REPLACEMENT PARTS
Part No. FS7006, Chrome plated heavy duty spring mount
Part No. FS9024, Standard heavy duty orange flag, plastic coated, nylon mesh — 11"H x 12"W, mounting clips included
Part No. FS9025, Standard heavy duty orange flag w/ white Reflexite "X", plastic coated, nylon mesh — 11" H x 12" W, mounting clips included.
Part No. FS9028, Hot plug connector with wire pigtail
Part No. FSPC3009, Magnetic mounting base and power cord (for #FS3LHEXBST/SH only)

TECTRAN
Wheel-Check™ Loose Wheel Nut Indicators

WHEEL-CHECK™ LOOSE WHEEL NUT INDICATORS

Provides a simple visual means of confirming proper wheel torque in seconds while reducing the risk of wheel detachment accidents and resulting load damage. Temperature sensitive polymer detects bearing or brake overheating problems by deforming at temperatures above 120°C/250°F. Withstands extreme cold temperatures (-75°C/-100°F) without cracking and is resistant to highway and cleaning chemicals.

Installed by pointing in a uniform clockwise direction after ensuring proper wheel torque. A Wheel-Check™ will rotate counter clockwise if wheel nut loses torque giving a visual indication. Bright yellow Wheel-Checks™ are visible at night and in dirty or muddy conditions while red Wheel-Torque™ are used to replace the Wheel-Check™ which indicates nut loosening to identify nut which needs re-torquing.

WHEEL-CHECK™ PART NO. (High Visibility Yellow)	WHEEL-TORQUE™ PART NO. (Red Torque Identifier)	NUT SIZE		TYPICAL APPLICATIONS
		INCHES	mm	
WCH04	WTR04	7/8	22.0	Smaller courier and GMC flange cap or flat nut
WCH12	WTR12	1	25.0	Curb side courier units
WCH16	WTR16	27/32"	20.8	Ford 350, 450, 550

WCH15*	—	13/16	20.5	Dodge 1 ton; Ford vans

*WCH15 is a pack of 20.

DOCAP
Brake Lines

DOUBLE WALLED STEEL HYDRAULIC BRAKE LINES

Standard UNC fittings. Both ends are double flared with fittings attached. These ready-to-install steel lines provide replacements for hydraulic systems and bend easily to service gas, oil, and vacuum lines on all late model cars, buses, and tractors.

DOUBLE WALLED STEEL ARMOURED HYDRAULIC BRAKE LINES

Standard UNC fittings. Both ends are double flared with fittings attached. These steel brake lines have a .046 diameter carbon galvanized wire which is wound around the entire length to afford maximum protection from road hazards, flying stones, and road chips. Can be formed without bending tools. Adds increased safety protection.

DOCAP

Tire Patches

STANDARD TUBE & TUBELESS TIRE REPAIRS

These patches seal punctures and cuts in tubes as well as punctures in all types of tubeless tires. These repairs feature a feather edge design to prevent chafing. They vulcanize with road heat and also chemically when used with all-purpose cement. (SV8 or SV32)

PART NO.	DESCRIPTION	BOX QTY.
RB40D	Round, 1-9/16"	40
RB30D	Round, 2-1/8"	30
RB20D	Round, 3-1/8"	20
OB30D	Oval, 1-7/16" x 2¼"	30
OB25D	Oval, 1-7/8" x 3¾"	20

ROUND REINFORCED UNIVERSAL RADIAL/BIAS REPAIRS

Double rubber reinforced and designed to seal most nail-hole sized injuries up to 1/4" in radial or bias ply tires. These are suitable for round puncture injuries and may be used on tubes and all types of tubeless tires. Round Reinforced vulcanize with road heat and chemically when used with all-purpose cement (SV8 or SV32) and were developed for use on any repairable area of the tire (centre tread, shoulder, or sidewall).

PART NO.	DESCRIPTION	BOX QTY.
WR0	Round, 1-9/16"	35
WR4	Round, 2-1/8"	30
WR5	Round, 3-1/8"	18

ALL RUBBER "PATCH-N-PLUG" QUILL TYPE COMBINATION REPAIRS

Combination repairs with attached plugs fill the injury, seal the inner liner, and effect a perfect repair all in one step. Designed to provide multi-directional repairs and can be used on any repairable area of radial or bias-ply tires. Metal quill protects plug from steel belts during installation, and simplifies pulling the plug through the injury. It is made of a one-piece construction and vulcanizes from road heat and chemically when used with all-purpose cement. (SV8 or SV32)

PART NO.	DESCRIPTION	BOX QTY.
Q6	Round, 2"; 1/4" stem	24

"EZY-SEAL" BLACK TIRE REPAIR CORD

Considered the industry standard for 30 years. Each cord can fill injuries up to 1/4". More than one cord may be inserted simultaneously for larger injuries when used with a back-up patch. For extra large injuries, use extra thick repairs, and use all cords with closed-eye inserting tools. 10-strip packet.

PART NO.	DESCRIPTION	BOX QTY.
WS9R	7¼" standard; 1/4" injury	50 packets
WS12R	7¼" extra-thick; 3/8" injury	50 packets
WS50TR	12" standard; 3/8" injury	50 packets

ROUND/OVAL CORD-REINFORCED RADIAL REPAIRS

Radial tire repairs only. High tensile polyester cords provide maximum strength and exceptional flexibility. A directional "bead arrow" is printed on each repair to ensure proper orientation. Round and oval repairs are designed for centre tread punctures and sidewall injuries. Vulcanization occurs from road heat and chemically when used with all-purpose cement. (SV8 or SV32)

PART NO.	DESCRIPTION	BOX QTY.
RC218	Round, 2-1/8"	25
RC318	Round, 3-1/8"	15
WR1	Oval, 1¾" x 3"	20
WR2	Oval, 2-3/8" x 4"	10

"NU-FLEX" CORD-REINFORCED BIAS PLY REPAIRS

Polyester cord-reinforced repairs provide a strong, flexible, lightweight repair. Their unique 77° polyester cord construction allows them to be located nearer the bead area. Vulcanization occurs from road heat and chemically when used with all-purpose cement. (SV8 or SV32)

PART NO.	DESCRIPTION	BOX QTY.
F11	3-ply, 4½" x 5½"	10
F12	3-ply, 5½" x 7¼"	12
F14	4-ply, 8-1/8" x 10-1/8"	12

"QUICK WELD" BROWN HEAVY DUTY SELF-VULCANIZING TIRE REPAIR CORD

Recognized as the finest outside repair for radial and/or conventional tires. This self-vulcanizing repair installs quickly and easily, and is made of twisted cords permeated with a formulated cement and specially compounded butyl rubber. It is semi-cured for fast road heat-induced vulcanization. 4" string is designed for passenger cars and light trucks — and the 8" string designed for heavier multi-ply tires.

PART NO.	DESCRIPTION	BOX QTY.
ST1933	4" brown string, 1/4" injury	60
ST1934	8" brown string, 1/4" injury	30

TS-L..... 2 oz. jar Gel Plug Lubricant

TS60K Deluxe Heavy Duty Kit contains: •(60) 4" "Quick-Weld" brown heavy duty repair cord •TS-T heavy duty chrome T-handle slot eye inserting tool •TS-PRB heavy duty chrome T-handle spiral probe •TS-L plug lubricant •razor blade

SELF-VULCANIZING CEMENT

•Complete with brush applicator
Part No. SV8, 8 oz.
Part No. SV32, 32 oz.

BLACK BEAD SEALER

•Complete with brush applicator •32 oz.
Part No. BS32.

REDI-BUFF CLEANER/BUFFER

•Liquid cleaner/buffer with squirt top •32 oz.
Part No. BU32.

INSERTING TOOLS — SLOT (SPLIT EYE)

Part No. TS-T, Solid steel chrome plated T-handle with 3" replaceable needle (Allen wrench included).
Part No. WRN35, 3½" replacement needle for #TS-T.
Part No. WRN45, 4½" replacement needle for #TS-T.

Part No. SEPG, Plastic pistol grip handle with non-replaceable needle.

SEPG/CEPG

INSERTING TOOLS — CLOSED EYE

Part No. CEPG, Plastic pistol grip handle with non-replaceable needle.
Part No. CE7, Heavy duty screwdriver type handle with non-replaceable needle.

SPIRAL PROBE TOOL

Part No. TS-PRB, Solid steel chrome plated T-handle spiral probe with replaceable probe (Allen wrench included).
Part No. PRBR, Replacement spiral probe for #TS-PRB.
Part No. SPPG, Plastic pistol grip handle spiral probe with non-replaceable probe.

MISCELLANEOUS TOOLS & CRAYONS

Part No. P150, Rasp/probe tool. Heavy duty screwdriver type handle barbed rasp with non-replaceable rasp.
Part No. 110B, Patch stitcher tool. Professional ball bearing stitcher with wooden handle.
Part No. WB12, White paint stick, 12/box.
Part No. YC12, Yellow marking crayon, 12/box.

YC12/WB12

BICYCLE TUBE FOIL BACKED REPAIR KIT
Camel Cold Patches are easy to use, inexpensive, and a permanent method to repair inner tubes. Cold patches are not for use in tubeless tires.
This handy kit easily fits in pocket. Contains foil backed patches, .25 oz. cement, abrasive paper and directions. Moisture resistant plastic case.
Part No. 11-004.

SUPER-GRIP EMERGENCY TIRE REPAIR KIT
Contains the most popular Super-Grip probe, open-eye tool, .30 fl. oz. Universal Cement and 5 radial inserts. For all bias ply and non-speed rated radial tires.
Part No. 15-162.

Refill kit contains 5 refill strips and .30 fl. oz. Universal Cement.
Part No. 15-164.

15-164

D-I-Y EMERGENCY REPAIR KIT
A popular kit containing #15-172 and #15-174 screwdriver type tools. For all bias ply and non-speed rated radial tires.
Part No. 15-163.

Refill kit contains 5 refill strips and .30 fl. oz. Universal Cement.
Part No. 15-164.

15-164

EMERGENCY REPAIR RADIAL TIRE KIT
This handy kit easily fits in the glove box of any car. Contains 10 repair strings and a closed-eye needle. Not for speed rated radial tires.
Part No. 15-165.

RADIAL INSERT
4". For most auto and light truck radial tire emergency repairs.
Part No. 15-184.

7" STRING REPAIR
For bias ply and tubeless tire emergency repairs.
Part No. 15-206.

7½" STRING REPAIR
Heavy duty string type repair for bias ply and radial tire nail hole emergency repairs.
Part No. 15-207.

STEEL BELTED RADIAL INSERTS
For emergency repair.
Part No. 15-280, 4".
Part No. 15-281, 7", for truck tires.

SUPER-GRIP OPEN-EYE NEEDLE
Part No. 15-224.

SUPER-GRIP TIRE PROBE
Part No. 15-225.

UNIVERSAL CEMENT
Part No. 12-077, 2 fl. oz. tube.
Part No. 12-085, 4 fl. oz. can.
Part No. 12-086, 8 fl. oz. can.

BEAD SEALER
Quart can with brush in cap. Prevents bead leaks and eases tire installation.
Part No. 12-090.

LIQUID BUFFER/CLEANER
Non-flammable. Quart can with "squirt top". Used to clean rubber so patches will adhere properly. Use prior to all power buffing.
Part No. 12-092.

CAM-CURE® HEAVY DUTY CEMENT
Non-flammable. 8 fl. oz. can.
Part No. 12-087.

TIRE SEALANT
16 fl. oz. squeeze bottle is just the right amount for lawn tractors, golf carts, trailers, and ATVs.
Part No. 12-079.

"STUF" MOUNTING LUBRICANT
Concentrated tire mounting lubricant with rust inhibitor. 8 lb. pail makes 5 gallons when mixed with warm water. Stops rubber squeaks, easy to use, and safe.
Part No. 12-095.

Cotton Swab Applicator.
Part No. 17-295.

ROUND FOIL BACKED REPAIR PATCHES
Used for repairing tubes and tires where fabric reinforcement is not required. Repair units feature a foil backing that keeps the repair fresh. Conveniently packed. For best results use with #12-087 Cam-Cure® Cement.
Part No. 14-400, 1¼" round.
Part No. 14-401, 1½" round.
Part No. 14-402, 1¾" round.
Part No. 14-403, 2-1/8" round.
Part No. 14-404, 3-1/8" round.

RADIAL PATCHES
Used for nail hole injuries in auto and light truck tires. Heavier construction than Chembond® patches. Utilize buffer cleaner and Universal Cement for a strong repair.
Part No. 14-137, 2¼" small round.
Part No. 14-139, 3¼" medium round.
Part No. 14-140, 4-1/8" large round.

Tire Repair Products

CHEMBOND® TUBE AND BIAS PLY PATCHES

These world famous patches are available in two shapes and six sizes. Pure rubber flows into the injury. May be applied with Universal Cement or an electric vulcanizer.
Part No. 14-152, 1-5/8" small round.
Part No. 14-153, 2¼" medium round.
Part No. 14-154, 3-1/8" large round.
Part No. 14-157, 1½" x 2½" small oval.
Part No. 14-158, 1-7/8" x 3-7/8" medium oval.
Part No. 14-159, 2-5/8" x 5¾" large oval.

REINFORCED UNITIZED BOOTS

Right angle cord construction uses high tensile cords for strength. Won't dry out or self-cure. May be used with cement or a spotter. Not for use on tubeless tires.
Part No. 13-102, Nail hole, 3¼", 2 ply.
Part No. 13-103, Small, 4½", 2 ply.
Part No. 13-105, Medium, 6", 2 ply.
Part No. 13-106, Medium/large, 7-3/8", 3 ply.
Part No. 13-107, Large, 8¾", 4 ply.

PLUG-N-PATCH FOR RADIAL & BIAS PLY TIRES

Will repair tires with nail hole injuries in the crown or sidewall including speed rated radial tires. For auto and truck. Designed with molded in straight pin.
Part No. 15-295, Small Round.
Part No. 15-296, Medium Round.
Part No. 15-297, Large Round.

REPAIR KITS

Contains patches, .30 fl. oz. cement and buffer.
Part No. 14-132, Tire Repair Kit. For D-I-Y radial repairs.
Part No. 14-130, Tube Repair Kit. For tire and tube repairs.

14-132

14-130

CAM-CURE® RADIAL REPAIR UNITS

For radial tires only.
Part No. 13-310, 2¼" x 3", 1 ply.
Part No. 13-312, 2¾" x 4½", 2 ply.
Part No. 13-320, 3" x 4-1/8", 2 ply.

HEAVY DUTY TRUCK TIRE EMERGENCY REPAIR KIT

Contains everything needed for emergency repairs on the largest truck tires. Contains heavy duty all steel split-eye T-handle tools with Sheffield steel shaft. 8" spiral cement tool, 2 oz. tube of Universal Cement and 15 heavy duty inserts. All packed in a heavy reclosable vinyl pouch.
Part No. 15-282.

DEALER KIT

Contains the most popular T-handle tools, 1/4 pint of cement and two boxes of #15-184 radial repairs. Box keeps tools organized, with reclosable lid.
Part No. 15-189.

NEEDLES & PROBES

Part No. 15-172, Open-eye repair needle, for D-I-Y use.
Part No. 15-174, Probe for tire repair, for D-I-Y use.
Part No. 15-227, Super-Grip split-eye needle, for professional use.
Part No. 15-231, Heavy duty truck needle, for professional use.
Part No. 15-230, Replacement shaft for #15-231.
Part No. 15-232, Spiral grip cement needle, for professional use.

15-172

15-227

15-231

BUFFERS & STITCHERS

Part No. 17-237, Combination buffer/stitcher.
Part No. 17-244, Professional stitcher, 1/16" face x 1½" diameter. Ball bearing stitcher with hardened steel wheel and varnished wooden handle.
Part No. 17-245, Same as #17-244, except 1/4" face x 1½" diameter.

Automotive & Heavy Duty Fleet Products

WRANGLER SEAT COVERS

Cool in summer and warm in winter. Form-fit wraparound design multidirectional stretch fabric molds to the contours of the seat.
•Wear resistant fabrics
•Centre armrest/console is covered in most applications
•Machine washable (drip dry)
•Available in black, brown, grey, navy, wine

We carry a very large variety of seat covers from FIA. Please ask us for further details on your specific application requirements.

Features SUPER GRIP® slip resistant fastening system. Engineered to provide original equipment installation in minutes. It's simple — no tools are needed. Multi-directional stretch polyester trim molds the seat cover to the contours of the seat. Velcro fasteners and a belt and buckle tightening system are the finishing touches that grip the cover to the seat.

AUTHENTIC WOVEN SADDLE BLANKET FABRIC
WRANGLER

OE 30 SERIES (ORIGINAL EQUIPMENT FABRIC) CUSTOM FIT TRUCK SEAT COVERS

Cool in summer and warm in winter. Advanced design creates a dynamic state of the art custom interior. For most pick-up trucks, minivans and SUV's
•Foam padded back supports for added comfort
•Foam fit wrap around design - multi-directional stretch trim molds to the contours of the seat
•Highly durable, abrasion resistant original equipment (OE) fabrics
•All fabrics are washable, lightfast, colourfast and flame resistant
•Colours:
Taupe (Taupe - centre panel/ Mocha - side panel)
Grey (Light grey - centre panel/ Dark grey - side panel)

HEAVY DUTY DELUXE WINTER FRONT & BUG SCREEN — NO DRILL INSTALLATION

Attaches with snap-on domes (no drilling). Just apply "Stick a Stud"™ fasteners to the vehicle and snap on Bug Screen or Winter Front. Custom fit for most pick-ups, sport utility vehicles and mini-vans. Black.
Winter Front: •Promotes better fuel economy •Promotes faster engine warm-up and interior heat •Keeps diesel engines at optimum operating temperatures •All weather heavy duty quilted vinyl •Adjustable air flow doors
Bug Screen: •Interchanges with winter front in the summer •Protects radiator and grille from bugs and stones •Tear resistant heavy mesh screen

We carry a large variety of Winter Fronts/Bug Screens by FIA. Please consult a Gregg Distributors representative for information on the right unit for you.

BT1000 SERIES BIG TRUCK WINTER FRONT & SUMMER BUG SCREEN

Multi-positional openings for precise temperature control. •Promotes better mileage and warmer cabs •Quilted and custom fit •Snaps on with dome fasteners — NO DRILL installation with "Stick a Stud"™ fasteners •Heavy duty vinyl, flexible to -40°C •Interchangeable fibreglass bug screen
•Please ask for ordering information

TRICO
A Stant Company

EXACT FIT™ WIPER BLADES

Trico Exact Fit is the first blade line to install in 10 seconds or less. The secret behind Exact Fit's fast, easy installation is that we have taken an extra step in the assembly of the blade. Exact Fit blades are manufactured to directly fit specific wiper arm types. There is no need to sort through numerous adapters or read complicated installation instructions. The wiper blade's receptor exactly matches the arm style of the vehicle. Just a snap or click and you're on your way. Note: All blade superstructures are metal except those items marked with an asterisk (*), which have plastic superstructures.

Part No. 11-100.

NOTE: O.E.M. replacement pumps are also available; please order by application.

Please ask for more information or specific application requirements.

TRU-COOL
Transmission & Engine Oil Coolers

TRU-COOL LPD® TRANSMISSION OIL COOLERS
Tru-Cool LPD is virtually the only cooler used now on OEM factory installations. These transmission oil coolers provide 30% more cooling, with 15 times less flow restriction, when compared to the less efficient tube and fin coolers. Constructed of a durable brazed aluminum, these coolers reduce the risk of a system failure as a controlled amount of fluid is allowed to bypass the stacked plate core through a self-regulating orifice. All coolers come complete with mounting hardware and an 11/32" hose barb to be used on either 5/16" or 3/8" systems without leaks or durability problems. Each can be mounted with fittings up, down, or sideways.

Part No.	Size (inches)	GVW Rating	BTU Rating	Application
LPD4451	4 x 11 x 3/4	11,500	7,500	Small cars
LPD4452	5¾ x 11 x 3/4	14,500	9,800	Small cars w/ trailers, light trucks

TRU-COOL LPD® ENGINE OIL COOLER KITS
With the same quality and manufacturing as the Transmission Oil Coolers, these universal kits come complete with 10 ft. of hose, universal adapter, and mounting hardware. They will only work with spin-on filters with thread sizes: 3/4" x 16; 13/16" x 16; 1" x 12; 18 x 1.5 mm; 20 x 1.5 mm; 22 x 1.5 mm. They also can be used for transmission applications.

Part No.	Size (inches)	BTU Rating	Application
TRU4269P34	5¾ x 11 x 1½	15,000	Heavy duty V6 cars, medium duty V8 cars, compact pick-ups, minivans
TRU4269P35	8 x 11 x 1½	20,500	Heavy duty V8 cars, full size pick-ups, vans, high performance applications

Push-Pull Controls

DELUXE STANDARD-DUTY CONTROLS

Furnished with 4 types of knobs. All controls: 1-1/16" diam. knob; 3/8" - 24 thread size; 2" travel; 1/2" long mounting thread.

PART NO.	LENGTH	KNOB DESCRIPTION
35-C	5 ft.	Choke
35-T	5 ft.	Throttle
39-5	5 ft.	—
39-10	10 ft.	—

TURN-TO-LOCK CONTROL

For locking throttle controls. Four locking surfaces assure extra strength grip. All working parts made of hardened steel. Will lock any place within its travel. 2" chromium plated handle; 7/16" - 20 thread size; 3" travel; 2" long mounting thread.

PART NO.	LENGTH	DESCRIPTION
54-9	9 ft.	Locking
54-15	15 ft.	Locking
54-25	25 ft.	Locking
54-28	28 ft.	Locking

"T" HANDLE CONTROLS

For hood releases and other applications. Handle: 2" chromium plated - Casing: 3/16" galvanized wire - Thread Size: 3/8" - 24 - Inner Wire: .054" stainless steel - Mounting Thread: 1/2" long - Travel: 2".

PART NO.	LENGTH	DESCRIPTION
56	8 ft.	"T" Handle

HEAVY DUTY PUSH-PULL CONTROLS

For applications with high push-pull load. Large (2" diam.) knob and heavy plunger (3/8" diam.) withstands high working loads. Has .090" inner wire of best grade high carbon spring wire, 5/16" galvanized wire casing is covered with vinyl jacket. 1/2" - 20 thread size; 4-1/2" travel; 1-3/16" long mounting thread. Available with P.T.O. (Power Take-Off) on knob.

PART NO.	LENGTH	DESCRIPTION
57-5	5 ft.	H.D.
57-10	10 ft.	H.D.
57-15	15 ft.	H.D.
57-20	20 ft.	H.D.
57-P-5	5 ft.	H.D. 'PTO'
57-P-10	10 ft.	H.D. 'PTO'
57-P-15	15 ft.	H.D. 'PTO'
57-PL-5	5 ft.	PTO Latchlock
57-PL-10	10 ft.	PTO Latchlock
57-PL-15	15 ft.	PTO Latchlock

SELF-LOCKING VERNIER CONTROL

For heavy-duty service. Make fine adjustment by screwing 2" diameter knob in or out - fast coarse adjustment by depressing button in knob and moving in or out. Has .063" stainless steel inner wire. 5/16" wavy spring steel casing covered with vinyl jacket. 3/4" - thread size; 3-1/2" travel; 2" long mounting thread.

PART NO.	LENGTH	DESCRIPTION
58-5	5 ft.	Vernier
58-10	10 ft.	Vernier
58-15	15 ft.	Vernier
58-25	25 ft.	Vernier

FITTINGS

Part No. 61, Wire end fitting for light duty loads only. Fits all controls except No. 57.
Part No. 62, Wire end fitting for push-pull loads. Fits all types of controls.
Part No. 63, Casing clamp for clamping lower end of control casing. Fits all controls.
Part No. 64, 30 ft. roll of 3/16" O.D. galvanized wire casing.
Part No. 65, 32 ft. roll of .054" stainless steel wire.
Part No. 66, Wire end fitting for push-pull loads. Fits all types of controls except No. 57. Used with 1/8" or 1/4" thick lever. Washer is removed for use with 1/4" thick lever.
Part No. 67, 2" diameter replacement knob for No. 57 cables.

Portable Equipment Service Tanks

CERTIFIED TIDY TANKS - INTERMEDIATE BULK CONTAINERS FOR THE TRANSPORTATION OF DANGEROUS GOODS

•Manufactured to CAN/CGSB-43.146-2002 •Portable service tanks designed and rigidly tested for the transportation of petroleum fuels •Transport Canada certified for diesel or gasoline •Commonly used in the logging industry and remote locations
Design Features: •Heavy 12 gauge steel •Body is one piece construction with flanged heads •All joints are of lap welded construction for added strength •Bottom skids elevate the tank off the floor •'V' type baffles provide stability •Red enamel finish
Standard Equipment: •2" aluminum fill cap •Hold down straps •Transport Canada approved pressure/vacuum device •Gate valve and suction assembly for pump

PART NO.	LITRES	DIMENSIONS
230TC	230	24"L x 29"W x 24"H
570TC	570	58"L x 29"W x 24"H (Low Profile)
580TC	580	48"L x 29"W x 29"H
750TC	750	58"L x 29"W x 29"H

NOTE: Accessories Not Included

"TIDY TANK PLUS" - DOUBLE WALL PORTABLE SERVICE TANK

•Manufactured to CAN/CGSB-43.146-2002
Design Features: •Design incorporates 110% containment of the primary tank •Each tank is labelled with a permanently fixed name plate •Containment inspection port and vent •'V' type baffles to provide stability •Red enamel finish
Standard Equipment: •2" pressure vent cap and emergency vent caps •Hold down straps

PART NO.	LITRES	DIMENSIONS
500DTC	500	48"L x 29"W x 29"H

NOTE: Accessories Not Included

"THE ORIGINAL TIDY TANK" - PORTABLE SERVICE TANKS DESIGNED FOR THE TRANSPORTATION OF DIESEL FUELS

•Commonly used in the logging industry and remote locations •Widely accepted by local authorities for refuelling at service stations
Design Features: •Heavy 12 gauge steel •Body is one piece construction with flanged heads •All joints are of lap welded construction for added strength •Bottom skids elevate the tank off the floor •'V' type baffles provide stability •Each tank is dated and sized with a permanent name plate •Red enamel finish •NOTE: Accepts 2" vent caps.

PART NO.	LITRES	DIMENSIONS
230T	230	24"L x 29"W x 24"H
320T	320	24"L x 29"W x 29"H

450T	450	48"L x 29"W x 24"H

NOTE: Accessories Not Included

"L" TANKS - PORTABLE SERVICE TANKS DESIGNED FOR THE TRANSPORTATION OF DIESEL FUELS

•Commonly used in the logging and construction industry •Designed to support a tool box
Design Features: •Heavy 12 gauge steel •Body is two piece construction •All joints are of lap welded construction for added strength •Baffle to provide stability •Grey enamel finish •Hold down clips for anchoring tank •Each tank is dated and sized with a permanent name plate
Standard Equipment: •2" fill connection c/w locking clip •1" drain c/w plug

PART NO.	LITRES	DIMENSIONS
340L	340	48"L x 29"W x 25"H
410L	410	58"L x 29"W x 25"H
410LS	410	58"L x 29"W x 25"H (Short Box)

NOTE: Accessories Not Included

"OVAL TANKS"

U.L.C. labelled tanks (CAN/ULC-S602-03)
Design Features: •Body is one piece construction with flanged heads •All joints are of lap welded construction for added strength •Design incorporates both Underwriter's Laboratory of Canada and most local standards •Tanks are coated with an aluminum finish

PART NO.	LITRES	DIMENSIONS
570H	570	30"L x 26"W x 50"H
900H	900	48"L x 26"W x 50"H

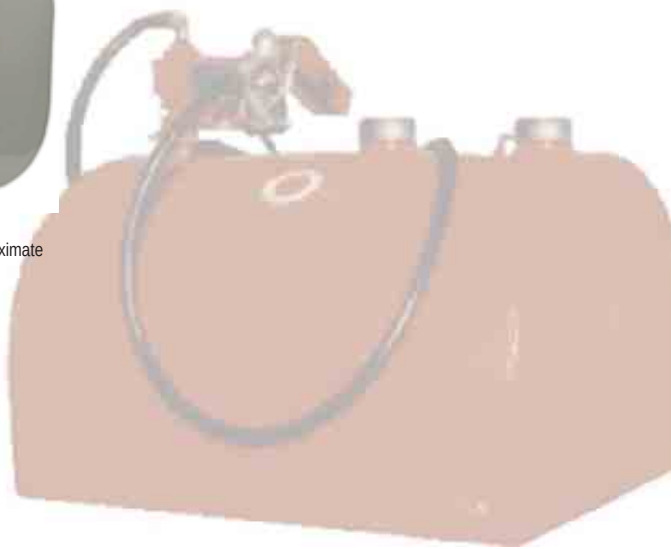
ACCESSORIES

Part No. GF-100, Float gauge, fits all oval tanks.
Part No. GP-100B, Replacement cap for GF-100.
Part No. HD-L, Pair of long hold down straps, fits 580TC, 750TC, 500DTC.
Part No. HD-S, Pair of short hold down straps, fits 230TC, 570TC, 230T, 320T, 365T, 450T.



"ROAD-VAULT™" ROUND TOP DESIGN

Road-Vault is the first North American manufactured tank for the transportation of flammable liquids to meet the stringent regulations listed in the CAN/CGSB-43.146-2002 Standard for this style and application of tank. TDG Regulations require these tanks for transport of flammable materials on public roads in quantities over 454 litres. Road-Vault features a fusible plug style emergency vent to provide added security against explosion in case of fire or excessive internal pressure. The vent safely releases combustible gases before they can build up to dangerous levels. •12 gauge steel construction •Internal baffles •Easy to install and remove (mounting hardware included — comes complete with 2 anchor straps and all mounting hardware) •Pumps are optional •Requires a 2" vent cap

PART NO.	LITRES	DESCRIPTION
264611	450	Road-Vault round top tank, 28"W x 24"H x 47"L
264612	591	Road-Vault round top tank, 29"W x 24"H x 60"L
264613	614	Road-Vault round top tank, 29"W x 30"H x 48"L
264614	750	Road-Vault round top tank, 29"W x 30"H x 60"L

"ROAD-VAULT™" ACCESSORIES

Part No. 264805, Mounting kit for 23" high round top tank.
Part No. 264808, Mounting kit for flat top tank.
Part No. 264809, Mounting kit for "L" shape fuel tank.

FLAT TOP DESIGN

Designed to be mounted in a pick-up truck to provide maximum fuel capacity without obstructing the driver's view. Convenient lift handles. "V" type internal baffles are provided for extra stability. Reinforced pump opening. Finished in red enamel. For diesel only.

PART NO.	LITRES	DESCRIPTION
264411	430	Flat top portable service tank, 24"W x 18"H x 60"L

ROUND TOP DESIGN

Designed for diesel fuel. Convenient lift handles. "V" type internal baffle for added stability. Reinforced pump opening. Low design will not obscure driver's view from rear window. Finished in red enamel.

PART NO.	LITRES	DESCRIPTION
264400	295	Round top portable service tank, 29"W x 23"H x 30"L

"L" SHAPE DESIGN

Allows you to mount a standard tool box over the tank making maximum use of your load space. Unrestricted visibility from the rear truck window. Tank body is of 14 gauge one piece steel construction with 12 gauge baffle and ends. Lock lugs and 2" reinforced openings for right or left hand pump mounting. Finished in red enamel. For diesel only.

PART NO.	LITRES	DESCRIPTION
264423	407	"L" shape portable service tank for long truck boxes, 29"W x 25"H x 60"L
264431	340	"L" shape portable service tank for short truck boxes, 29"W x 25"H x 48"L

OVAL FUEL OIL STORAGE TANKS

These tanks can be supplied for either vertical or horizontal mounting. They have one piece die stamped ends, which guarantee against "breathing". Supplied with lock lug. Aluminum finish. ULC rated S-602-M92. Includes 1¼" lugs for pipe leg support.

PART NO.	LITRES	DESCRIPTION
264014	682	Oval fuel oil storage tank, 23"W x 47"H x 48"L
264015	909	Oval fuel oil storage tank, 23"W x 47"H x 60"L
264016	1136	Oval fuel oil storage tank, 23"W x 47"H x 72"L

ACCESSORIES

Part No. 264139, 2" combination fill and pressure vent, locking type for L shape design.
Part No. 273521, 2½" combination fill and pressure vent, locking type for round, flat, and oval tanks.

Part No. 264031, 5" cradle - 2 required for vertical mounted tanks.
Part No. 264034, 44" measuring gauge - GF 100.

FUEL TANK CAPS

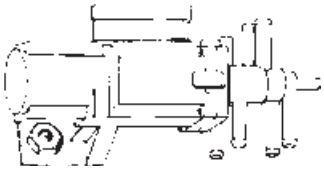
STANDARD PART NO.	LOCKING PART NO.	THREAD	MATERIAL	MALE OR FEMALE
9111	9111L	4" NPSM	Brass	Female
9118	—	2½" - 8 UN	Brass	Female
9115	9115L	2-1/8" - 12	Brass	Male
9114	9114L	2" NPSM	Brass	Female

ELECTRIC FUEL TANK VALVES

Electric valves - were developed for vehicles employing an auxiliary fuel tank. Operates with the flip of a switch when gas gauge indicates one tank is running low. Automatically shuts off gas supply from empty tank, switches on full one.
Part No. 42-151, 3 port Motor Driven Valve - for 3/8" I.D. fuel hose. (34-592 or 34-576 switch and 42-203 connector required).
Part No. 42-159, 6 port Motor Driven Valve - for 3/8" I.D. supply and 5/16" I.D. return hose. (34-592 or 34-576 switch and 42-203 connector required).

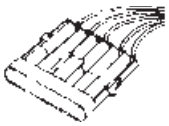
Part No. 42-201, Dash face plate for toggle switches - 'Aux - Main'.
Part No. 42-203, Motorized valve connector plug - 5 wire.
Part No. 34-576, 2 position toggle switch.
Part No. 34-592, 2 position toggle switch - reversing.

NOTE: 6 port selector valves are used where return to the carburetor is necessary.



6 port Valve

Toggle Switch & Face Plate



Valve Connector Plug

FUEL TANK VALVES

Part No. 63-G-10, 90° diesel fuel levelling valve - ½" NPT to #10 SAE
Part No. 63-G-20, 90° diesel fuel levelling valve - ½" NPT male and female
Part No. 210-CB, ¼" 3 way gas valve - 5/8" stem
Part No. 10800, ¼" 4 way gas valve - 5/8" stem
Part No. 210-CC, 3/8" 3 way gas valve - 1-3/8" stem
Part No. 10804, 3/8" 4 way gas valve - 1-3/8" stem

Fuel Levelling Valve

3 Way
Three way shut-off saddle tank valve with click - Flow from either of the two side ports to centre port, mounting bracket. All ports female P.T.

4 Way
Four way shut-off saddle tank valve with click - Flow from any one of the three side ports to bottom port, mounting bracket. All ports female P.T.

T-Bolt

The R.G. Ray T-Bolt Band Clamp is designed to provide high performance clamping on heavy duty applications. Use of this clamp can eliminate the need for double clamping to secure heavy rubber hose connections on trucks, tractors, construction equipment, or wherever high reliability is needed with a minimum of maintenance. The corrosion resistant stainless steel band provides even circumferential take up.
The 650 and 700 series is the standard band clamp.

Flex-Seal

The 667 series incorporates a heavy spring on the bolt before the hex nut that allows, once the clamp is tightened, for a constant pressure on the hose, thus eliminating the 'settling effect' and any possible leakage.

Designed both for conventional and automatic tightening.

The band arch swivels outwards so that assembly/disassembly is made much easier.

PART NO. SERIES DESCRIPTIONS:

W2 — Bolt: Strength grade 8.8. Zinc plated. Band and band arch: Stainless steel X8Cr17 (DIN 1.4016) (AISI 430).
Other components: Steel 1.0333. Zinc plated.

W4 — All stainless steel X5CrNi 1810 (DIN 1.4301) (AISI-304).

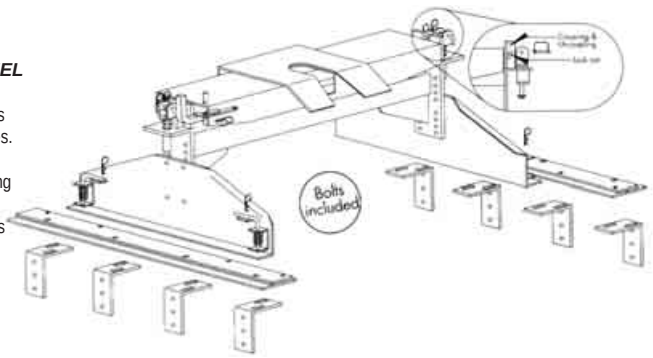
*Class III
**Class IV

THE DSP DUAL POSITION "ORIGINAL" SUPER FIFTH WHEEL HITCH (DPO)
Dual Position: •A must for the increasingly popular short box trucks •Lift four (4) pins (no tools needed) to set the hitch back 8" when backing into tight areas with short box trucks to prevent damage caused from contact with the RV, which is the same system used by semi-trucks •Increases fuel efficiency and travelling ease when the hitch is in travel position
Compatible With: •DSP Super Fifth Wheels and Sliding Gooseneck Hitches are universal for all pick-up trucks •DSP Super Fifth Wheels and Sliding Gooseneck Hitches are interchangeable and fit on Slide/Bed Rails for the same crossbar width
Installation: •All around solid construction, bolted directly to the frame with Grade 5 carriage bolts and 8-3/8" thick frame brackets

Part No. 72994, 24" crossbar width, 17,000 lbs. G.T.W.
Part No. 72995, 35" crossbar width, 17,000 lbs. G.T.W.

Hitches & Trailer Accessories

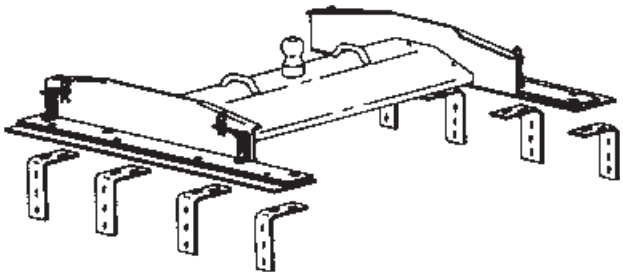


THE DSP SELF-ADJUSTING DUAL POSITION "EASY-LEVEL" SUPER FIFTH WHEEL HITCH (DPE)

Self-Adjusting: •Spring loaded cradle on the "H" bracket is self-adjusting. Made to deal with the difficulties associated with the engaging and disengaging of the RV on unlevel ground, commonly found on campsites. The springs compensate for any small or large angles created by unlevel ground.
Locking Position: •Built-in locking position restricts the spring loaded device from movement after engaging or disengaging is complete. No extra costs for optional accessories for a locking device!
Upgrading: •If you already have a DSP Super Fifth Wheel, the "H" bracket with the spring loaded device is compatible and interchangeable with all DSP 35" and 24" Super Fifth Wheel hitches.

Part No. 72996, 24" "Easy Level" hitch, 17,000 lbs. G.T.W.
Part No. 72999, 35" "Easy Level" hitch, 20,000 lbs. G.T.W.

THE DSP "SLIDING GOOSENECK" HITCH



Installation: •A large hole does not need to be cut into the truck bed, just (8) 1/4" holes need to be drilled •Fabrication of mounting hardware is not required, all parts are available from DSP •All around solid construction, bolted directly to the frame with Grade 8 carriage bolts (included) and (8) 3/8" thick frame brackets
Compatible with: DSP Super Fifth Wheels and Sliding Gooseneck hitches are universal for all pick-up trucks (frame brackets may vary)
Warning: •Vehicles towing 26,000 lbs. must have the correct towing package •Warranty is void with the usage of parts other than DSP products, exceeding hitch GTW and alterations to products
Note: •Slide rails and frame brackets are sold separately

Part No. 72935, 35" crossbar width, 26,000 GTW

Part No. 1801050.

CLASS 4, HITCH RECEIVER

•Features: •2" receiver •Forged collar •Heavy duty multifit pickup truck receiver •Fits Chevy/GMC, Dodge, Ford, Toyota •Hide away design •Black powder coat finish •Includes all hardware required for installation
Part No. 1801005.

FOUR POSITION BIKE RACK

•Fits all 2" receiver tubes •Holds up to 4 bikes •3,500 lbs. towing capacity (ball sold separately) •Black powder coat / rubber coated finish •Lockable (lock not included) •Fold down arms when not in use •Fold down feature allows access to rear of vehicle
Part No. 1805005.

2" RECEIVER TUBES

•Forged steel collar •Plain finish •Solid stress collar opening •5/8" hitch pin hole
Part No. RT25806, 2" I.D. x 6"
Part No. RT25808, 2" I.D. x 8"
Part No. RT25810, 2" I.D. x 10"
Part No. RT25812, 2" I.D. x 12"
Part No. RT25818, 2" I.D. x 18"
Part No. RT25824, 2" I.D. x 24"
Part No. RT25836, 2" I.D. x 36"
Part No. RT25848, 2" I.D. x 48"

2½" RECEIVER TUBES

•Cast steel collar •Plain finish •Solid stress collar opening •5/8" hitch pin hole
Part No. RT255808, 8".
Part No. RT255812, 12".
Part No. RT255818, 18".

STEP BUMPER HITCH

•Fits most full sized trucks with step bumpers •Accepts many 2" square ball mounts or accessories •Black powder coat finish
Part No. SBH2.

Buyers PRODUCTS COMPANY

HITCH ADAPTERS

Part No. 1804030, Converts 1¼" receiver tube to a 2" hitch.
Part No. 1804035, Converts 2" receiver tube to a 1¼" hitch.

1804030

1804035

RECEIVER EXTENSIONS

•Extend your receiver by 7", 12" or 18". Reduces hitch capacity by 1/3.
Part No. 1804003, 7".
Part No. 1804005, 12".
Part No. 1804007, 18".

Towing/Hitch Products

TOWING BALL MOUNTS

•Fit 2" receiver tubes •Two pieces welded steel construction •Tongue accepts 1" dia. shank towing balls •Black powder coated for corrosion resistance •Capacity: 6,000 lbs. M.G.T.W., 600 lbs. max. vertical load

Part No.	Description	Max. Drop
1803005	Straight ball mount (std.)	1½"
1803007	Straight ball mount (10" tube)	1½"
1803010	High low ball mount (std.)	3¾"
1803013	High low ball mount (10" tube)	3¾"
1803015	Deep drop ball mount (10" tube)	6"

TOWING BALL MOUNTS (2½" SHANK)

•Fits 2½" receiver tubes •Two pieces welded steel construction •Black powder coat finish •Tongue accepts 1¼" diameter shank towing balls
Part No. 1803405, Straight ball mount.
Part No. 1803410, High-low ball mount.

HEAVY DUTY FORGED SOLID SHANK BALL MOUNT

•Fit 2" receiver tubes •Single piece forged steel construction •Tongue accepts 1" and 1¼" dia. shank towing balls •Black powder coated for corrosion resistance

Part No.	Description	M.V.L.	M.G.T.W.
1803050	2" maximum drop, 1" hole	2000 lbs.	20,000 lbs.
1803051	2" maximum drop, 1¼" hole	2000 lbs.	20,000 lbs.
1803055	4" maximum drop, 1" hole	2000 lbs.	20,000 lbs.
1803056	4" maximum drop, 1¼" hole	2000 lbs.	20,000 lbs.
1803058	6" maximum drop, 1" hole	1700 lbs.	17,000 lbs.
1803059	6" maximum drop, 1¼" hole	1700 lbs.	17,000 lbs.

DEEP-DROP BALL MOUNTS

•Fits all 2" receiver tubes •Tongue accepts 1" diameter shank towing ball •Two piece welded steel construction •Black powder coat finish
Part No. 1803017, Tube Style, 10" length, 8" max drop, 6000 lbs. MGTW, 600 lbs. max vert load.
Part No. 1803019, Solid Shank, 10.28" length, 10.25" max drop, 5000 lbs. MGTW, 350 lbs. max vert load.

ADJUSTABLE BALL MOUNTS

•Fits 2" receiver tubes •Welded steel construction •Black powder coated finish •Tongue accepts 1" diameter shank towing ball •3-position
Part No. 1803093.

CLEVIS BALL MOUNTS

•Use as clevis mount or ball mount •Fits all 2" receiver tubes •Black powder coat finish for corrosion resistance •9¼" length •1" ball hole
Part No. 1803060, 6,000 lbs. M.G.T.W., 600 lbs. max. vertical load.
Part No. 1803065, 8,000 lbs. M.G.T.W., 800 lbs. max. vertical load.

TOWING BALL MOUNTS W/ DUAL BALLS

•Fits 2" receiver tubes •Welded steel construction •Black powder coated finish
Part No. 1803210, 1-7/8" and 2".
Part No. 1803215, 2" and 2-5/16".

DOUBLE BALL MOUNTS

•Solid shank for 2" receiver tubes •Black welded steel towing balls •Black powder coated finish •5/8" hitch pin hole
Part No. 1802210, 1-7/8" and 2".
Part No. 1802215, 2" and 2-5/16".

DOUBLE BALL MOUNTS — CHROME

•Solid shank for 2" receiver tubes •Chrome welded steel towing balls •Black powder coated finish •5/8" hitch pin hole
Part No. 1802211, 1-7/8" and 2".
Part No. 1802216, 2" and 2-5/16".

TRI-BALL HITCH

•Solid shank for 2" receiver tubes •Black welded steel towing balls •Black powder coated finish •5/8" hitch pin hole •All three towing ball sizes (1-7/8", 2", and 2-5/16") on one solid shank
Part No. 1802200.

TRI-BALL HITCH — CHROME

•Solid shank for 2" receiver tubes •Chrome welded steel towing balls •Black powder coated finish •5/8" hitch pin hole •All three towing ball sizes (1-7/8", 2", and 2-5/16") on one solid shank
Part No. 1802205.

ADJUSTABLE TRI-BALL HITCH

•Solid receiver for 2" receiver tubes, welded steel towing balls, black powder coat finish, a 5/8" hitch pin hole. •Chrome balls in all three towing ball sizes •12" vertical adjustment •Capacities:
1-7/8" ball, 6000 lbs. M.G.T.W.
2" ball, 10,000 lbs. M.G.T.W.
2-5/16" ball, 10,000 lbs. M.G.T.W.
Part No. 1802225.

TRI-BALL HITCH W/ PINTLE HOOK

•Solid shank for 2" receiver tubes •Chrome welded steel towing balls •Black powder coated finish •5/8" hitch pin hole •7500 lbs. cast steel pintle jaw •Upper jaw locks in closed position (down) for lunette eye towing •Towing ball sizes:
1-7/8", 2", 2-5/16"
Part No. 1802279.

GOOSENECK HITCH & ACCESSORIES

Gooseneck retractable ball hitch c/w 2-5/16" towing ball.
Part No. G9003.

Part No. BRB03, Safety chain U-bolt kit for #G9005 ball h
Part No. BRB04, U-bolt kit for #G9005.

GOOSENECK HITCH

Gooseneck hitch plate c/w 2-5/16" towing ball.
Part No. G9542.

POLY-COATED HITCH PINS

•Powder coated steel pin shank •High visibility blue poly coated handle — makes these pins easy to see and use •Includes zinc plated cotter pin to secure hitch pin in place
Part No. 66101, ½" x 4".
Part No. 66107, 5/8" x 4".
Part No. 66111, ¾" x 4½".
Part No. 66122, 7/8" x 4½".
Part No. 66127, 1" x 4½".

HITCH PINS

•Forged 1040 steel •Yellow zinc plated •Spring wire handle •Includes cotter pin
Part No. 66110, ¾" x 4¼".

SAFETY CHAIN ANCHOR

•Steel rod chain anchor •Secure safety chains to trailer frames •5/8" diameter
Part No. SC58B.

HITCH PIN ASSEMBLY

•Zinc plated w/ hairpin cotter •5/8" diameter fits 2" receivers
Part No. HP6253WC.

LOCKING HITCH PINS

•Black powder coat finish with chrome plated pin •Two sizes
Part No. BLHP125, ½", for use with 1¼" receivers.
Part No. BLHP200, 5/8", for use with 2" receivers.

LOCKING HITCH PIN "BONE STYLE"

•5/8" locking hitch pin for 2" receivers •Plated steel pin with two keys
Part No. BLHP300.

1-7/8" BALL COUPLERS

1-7/8" ball, 2000 lb. capacity, Class I.
Part No. 0091050, 2" channel.
Part No. 0091055, 3" channel.

2" BALL COUPLERS

2" ball, 3500 lb. capacity, Class II.
Part No. 0091058, 2" channel.
Part No. 0091060, 2½" channel.
Part No. 0091065, 3" channel.

Buyers PRODUCTS COMPANY

Towing/Hitch Products

2-5/16" COUPLER
•Heavy duty steel construction •Zinc plated latch •Safety pin included •4-hole mount style •12,000 lbs. M.G.T.W.
Part No. 0090108.

A-FRAME COUPLER
2-5/16" ball, 10,000 lb. capacity, Class IV.
Part No. 0091097.

ADJUSTABLE HEAVY DUTY CAST COUPLER
•Heavy duty cast steel construction •Accepts 2-5/16" towing balls •Auto-engage latch •15,000 lbs. M.G.T.W.
Part No. 0091550.
Accessories:
Part No. B9906, Heavy duty 3-position channel w/ weld gussets for #0091550.
Part No. B9912, Heavy duty 5-position channel w/ weld gussets for #0091550.
Part No. B9021, Bolt and nut kit (2 each).

ADJUSTABLE CAST COUPLER
Heavy duty cast steel, accepts 1-7/8" and 2" balls. 7000 lbs. capacity.
Part No. 0091005.

Accessories:
Repair kit for #0091005 adjustable coupler.
Part No. 0091015.

ADJUSTABLE COUPLERS
Heavy duty steel construction, zinc plated latch. Safety pin included. Comes complete with coupler, 3 or 5 position channel and fasteners.
Part No. 0090155, 2" ball coupler c/w 3 position channel.
Part No. 0090105, 2-5/16" ball coupler c/w 3 position channel.
Part No. 0090160, 2" ball coupler c/w 5 position channel.
Part No. 0090110, 2-5/16" ball coupler c/w 5 position channel.

ADJUSTABLE COUPLERS
Heavy duty steel construction, zinc plated latch. Safety pin included.
Part No. 0090150, 2" coupler.
Part No. 0090100, 2-5/16" coupler.

Accessories:
Part No. B8978, 3-position channel only.
Part No. B8979, 5-position channel w/ weld gussets.

COUPLER BOLT & NUT KIT
Bolt and nut kit (2 each) used w/ coupler nos. 0090105, 0090110, 0090155, 0090160.
Part No. B9020.

ADJUSTABLE EYE ASSEMBLY
•Ductile cast iron eye •Formed steel bracket •3" I.D. eye •1-9/16" section eye •12,000 lbs. capacity
Part No. B18128, w/ 3-position channel and fasteners.
Part No. B18135, w/ 5-position channel and fasteners.
Part No. B16137, Eye only.

6-TON RECEIVER MOUNT COMBINATION HITCH
•Single piece drop forged lower jaw is designed with an integral shank to fit 2" receiver tubes •Black powder coat finish •Drawbar eye dimensions: 2½" to 3" I.D. with 1¼" to 1-9/16" diameter section •Individually boxed with instruction sheet and capacity decals •12,000 lbs. M.G.T.W.
Part No. RM61780, 1-7/8" ball.
Part No. RM62000, 2" ball.
Part No. RM62516, 2-5/16" ball.
Part No. RM650M, 50 mm ball.

5-TON RECEIVER MOUNT PINTLE HOOK
•Single piece drop forged lower jaw is designed with an integral shank to fit 2" receiver tubes •Black powder coat finish •Drawbar eye dimensions: 2" to 3" I.D. with 1¼" to 1-5/8" diameter section •Individually boxed with instruction sheet and capacity decals •10,000 lbs. M.G.T.W.
Part No. RM5P.

8-TON COMBINATION HITCH
•Drop forged •Black powder coat finish •Forged steel ball •Interchangeable hitch balls •Drawbar eye dimensions: 2½" to 3" I.D. with 1¼" to 1-9/16" diameter section •Individually boxed with drilling template and capacity decals •16,000 lbs. M.G.T.W.
Part No. BH81780, 1-7/8" ball.
Part No. BH82000, 2" ball.
Part No. BH82516, 2-5/16" ball.

10-TON FORGED ALLOY STEEL COMBINATION HITCH
•Drop forged combination Pintle Hook/Ball Hitch •Black powder coat finish for durability and corrosion resistance •Interchangeable forged steel hitch balls •Capacity: 20,000 lbs. MGTW / 4,000 lbs. max. vertical load •Drawbar Eye Dimension: 2-3/8"- 3" I.D. with 1-1/4"- 1-9/16" dia. section.
Part No. BH102000, 2" ball combination hitch.
Part No. BH102516, 2-5/16" ball combination hitch.
Part No. RB102000, 2" replacement ball.
Part No. RB102516, 2-5/16" replacement ball.

Buyers Products Company

CLIP w/ CHAIN
Part No. P11C.

REPLACEMENT BALLS
For RM6 and BH8 series.
Part No. RB1780, 1-7/8".
Part No. RB2000, 2".
Part No. RB2516, 2-5/16".

HITCH BALL COVERS
•Black PVC hitch ball cover •Fits 1-7/8" or 2" balls
Part No. 5451000.

RIGID TYPE PINTLE HOOKS
•Drop forged alloy steel •Black powder coat •Drawbar eye dimensions: 2" to 3" I.D. with 1¼" to 1-5/8" diameter section •Individually boxed •Includes mounting information, spec. sheet, drilling template, and vehicle capacity decal
Part No. PH5, 5 ton, 10,000 lbs. M.G.T.W.
Part No. PH8, 8 ton, 16,000 lb.s M.G.T.W.
Part No. PH15, 15 ton, 30,000 lbs. M.G.T.W.
Part No. PH20, 20 ton, 40,000 lbs. M.G.T.W.

PH8

PH5

PH15

PH20

45-TON RIGID TYPE PINTLE HOOKS
•Austempered ductile iron •Black powder coat •Drawbar eye dimensions: 2-3/8" to 3" I.D. with 1¼" to 1-5/8" diameter section •Individually boxed •Includes mounting information, spec. sheet, drilling template, and vehicle capacity decal •90,000 lbs. M.G.T.W.
Part No. PH45.

MOUNTING KITS
Mounting kit used with nos. PH5, PH8, PH15, BH8. Contains all necessary mounting hardware.
Part No. 8520.

Mounting kit used with nos. PH20 and BH10. Contains all necessary mounting hardware.
Part No. 8525.

Mounting kit used with #PH45. Contains all necessary mounting hardware.
Part No. 8530.

SUPPORT BRACE FOR PINTLE HOOKS
Designed for 34" frame width and are meant to be used in pairs. Can be used with nos. PH5 and PH15 and similar pintle hooks.
Part No. BXA100800.

2" SHANK PINTLE HOOK MOUNTS
•Continuous welds •Black powder coat finish •High and low positioning •Welded support bracket •Solid shank
Part No. PM84, 2" x 9" shank, 5" x 3.75" plate, 2 pairs of holes, 20,000 lbs. M.G.T.W.
Part No. PM87, 2" x 9" shank, 5" x 7.38" plate, 4 pairs of holes, 10,000 lbs. M.G.T.W.
Part No. PM107, 2" x 10.25" shank, 5" x 7.38" plate, 4 pairs of holes, 10,000 lbs. M.G.T.W.
Part No. PM812, 2" x 12.25" shank, 5" x 12.50" plate, 7 pairs of holes, 10,000 lbs. M.G.T.W.
Part No. PM1012, 2" x 14.5" shank, 5" x 12.50" plate, 7 pairs of holes, 10,000 lbs. M.G.T.W.

2½" SHANK PINTLE HOOK MOUNTING PLATE
•Adapts 2½" receiver tube to multi-height pintle hook applications •2½" x 12" tubular shank •5" x 6.13" x ½" thick mounting plate w/ three pairs of mounting holes •Black powder coated steel construction •Continuous welds •Capacity: Max. trailer: 16,000 lbs. Max. tongue: 3200 lbs.
Part No. PM25612, 2-position shank.

15-TON FORGED SWIVEL-TYPE PINTLE HOOKS
•Spring cushion •Swivel action provides torsional relief of the coupling •Recommended for off-road applications (capacities reduced by 25%) •Drawbar eye dimensions: 2-3/8" to 3" I.D. with 1¼" to 1-5/8" diameter section •Individually boxed and include mounting information, spec. sheet, drilling template, and vehicle capacity decal •30,000 lbs. M.G.T.W.
Part No. BP100A.

FORGED SWIVEL-TYPE PINTLE HOOKS
•Spring cushion •Swivel action provides torsional relief of the coupling •Drawbar eye dimensions: 3" to 3" I.D. with 1-5/8" diameter section •Individually boxed and include mounting information, spec. sheet, drilling template, and vehicle capacity decal •60,000 lbs. M.G.T.W.
Part No. BP760.

PIN & CHAIN ASSEMBLY
Used with #BP760.
Part No. 7626.

MOUNTING KITS
Mounting kit used with #BP100A. Contains all necessary mounting hardware.
Part No. 8620.

Towing/Hitch Products

FORGED 4-BOLT MOUNT DRAWBAR
•One piece forged design •Alloy steel forging •Black powder coat finish •2½" I.D. eye with 1½" section drawbar with 4 hole square mounting plate •42,000 lbs. M.G.T.W.
Part No. BDB125015.

HEAVY DUTY FORGED 4-BOLT MOUNT DRAWBAR
•One piece forged design for safety and capacity •Alloy steel forging •Black powder coat finish •3" I.D. eye with 1.62" section drawbar with 4 hole square mounting plate
Part No. BDB1385, 0.78" mounting hole size, 60,000 lbs. M.G.T.W.
Part No. BDB1394, 0.89" mounting hole size, 90,000 lbs. M.G.T.W.

TRAILER NOSE PLATE
•Accepts standard 4½" square bolt pattern found on most drawbars •Allows three mounting positions
Part No. TNP716625750, ¾" thickness, 8 holes, for use with #BDB125015.
Part No. TNP716750100, 1" thickness, 8 holes, for use with #BDB1385.

WELD-ON FORGED STEEL DRAWBAR
•C1020 steel forged drawbar •2½" I.D. eye •4½" O.D. eye •1" section drawbar •10,000 lbs. M.G.T.W.
Part No. LW10.

BOLT-ON FORGED STEEL DRAWBAR
•2½" I.D. eye •5" O.D. eye •1¼" section drawbar •20,000 lbs. M.G.T.W.
Part No. BDB12281.

BOLT-ON FORGED ALLOY STEEL DRAWBAR
•3" I.D. eye •6¼" O.D. eye •1-5/8" section drawbar •22,000 lbs. M.G.T.W.
Part No. BDB1238.

FORGED ALLOY STEEL DRAWBAR WITH NUT
•Alloy steel forging •Includes nut, cotter pin, and washer •2½" I.D. eye •5½" O.D. eye •1½" section drawbar •15,000 lbs. M.G.T.W.
Part No. BDB12503.

FORGED ALLOY STEEL DRAWBAR WITH NUT
•Includes nut, cotter pin, and washer •3" I.D. eye •6¼" O.D. eye •1-5/8" section drawbar •45,000 lbs. M.G.T.W.
Part No. BDB12492H.

FORGED LUNETTE EYE
•3" I.D. ring
Part No. LW625, 5" O.D. eye, 1" section drawbar.
Part No. LW847, 6¼" O.D. eye, 1-5/8" section drawbar.

DRAWBAR LOCK
•Zinc plated •Fits all 2½" - 3" lunette eyes •Accepts most ½" diameter padlocks
Part No. BDL253.

2" FORGED TRAILER KING PINS
•Forged from AISI 8630 steel and heat treated to create and maintain a hardness of 301-363 BHN •150,000 psi in ultimate strength (which meet or exceed the performance specs. set by SAE)
Part No. KP20025, ¼" bolster.
Part No. KP20031, 5/16" bolster.
Part No. KP20038, 3/8" bolster.
Part No. KP20050, ½" bolster.

RECEIVER MOUNT TOW HOOK
•Straight pattern •Fits 2" receiver tube •Black powder coat •10,000 lbs. capacity
Part No. RM10H.

FORGED RECEIVER MOUNT TOW HOOK
•Straight pattern •Fits 2" receiver tube •Black powder coat •12,000 lbs. capacity
Part No. RM12H.

FORGED RECEIVER MOUNT TOW EYE
•Straight pattern •Fits 2" receiver tube •Black powder coat •10,000 lbs. capacity
Part No. RM1225E.

DROP FORGED LIGHT DUTY TOWING HOOKS
•Universal pattern •Drop forged steel •Available in black powder coat or chrome plated •Safe working load 10,000 lbs.
Part No. B2799B, Pair, black.
Part No. B2799C, Pair, chrome.

Part No. B2799BKT, Pair, black, w/ safety clip and bolt kit.
Part No. B2799CKT, Pair, chrome, w/ safety clip and bolt kit.

Buyers PRODUCTS COMPANY

DROP FORGED TOWING HOOK

•Pair of right and left hand pattern •Available in chrome plated or plain finish •13,500 lbs. safe working load (per hook)
Part No. B2800A, Pair, plain.
Part No. B2800AC, Pair, chrome plated.

DROP FORGED HEAVY DUTY TOWING HOOK

•Pair of right and left hand pattern •Plain finish •2-hole or 3-hole available
Part No. B2801A, Pair, 2-hole, 44,600 lbs. safe working load.
Part No. B2801C, Pair, 3-hole, 44,500 lbs. safe working load.

UTILITY RAMP PLATES

•Heavy duty steel construction •Black powder coat •Easy to assemble •Includes non-slip protective pad •Plates feature traction grips •Kit contains 2 heavy duty steel top plates with mounting hardware, simply bolt ramp plates to planks (not included).
Part No. RP8, Ramp plate kit (works w/ 2" x 8" plank).
Part No. RP12, Ramp plate kit (works w/ 2" x 12" plank).

JACKS

All jacks are black with zinc plated inner components.

PART NO.	MOUNTING STYLE	CAPACITY	TRAVEL	WIND

Front End & Hinge Assemblies

536 FRONT END ASSEMBLY

For Use With: 207K, 207S, 307K, 307S, 405S & 410S Swivel Eyes

Bushing Options: 437 (rubber), 437A (poly) or *437AK (poly)
Inside Diameter: 2" (51 mm) or *2-1/4" (57mm)
Outside Diameter: 4¼" (108 mm)
Length: 4½" (114 mm)

Ordering Information:
Part No. 536A, 536 Housing, 437 Rubber Bushings and 349 Washer

Part No. 536B, 536 Housing, 437A Poly Bushings and 349 Washer

Part No. 536BK, 536 Housing, 437AK Poly Bushings and 349SE-SPL Washer *(used with 207K and 307K only)

546 FRONT END ASSEMBLY

For Use With: 207SE, 307SE, 405SE, 407SE & 410SE Swivel Eyes

Bushing Options:
P205 Bushing (rubber)
Inside Diameter: 2" (51 mm)
Outside Diameter: 4¾" (121 mm)
Length: 5-3/16" (132 mm)

R205 Bushing (rubber)
Inside Diameter: 2½" (64 mm)
Outside Diameter: 4¾" (121 mm)
Length: 5-3/16" (132 mm)

Ordering Information:
Part No. 546A, 546 Housing, P205 Rubber Bushings and 349SE Washer

Part No. 546R, 546 Housing, R205 Rubber Bushings and 407W Washer (used with 407SE only)

556 FRONT END ASSEMBLY

For Use With: 207SE, 307SE, 405SE, 407SE & 410SE Swivel Eyes

Bushing Options:
P205 Bushing (rubber)
Inside Diameter: 2" (51 mm)
Outside Diameter: 4¾" (121 mm)
Length: 5-3/16" (132 mm)

R205 Bushing (rubber)
Inside Diameter: 2½" (64 mm)
Outside Diameter: 4¾" (121 mm)
Length: 5-3/16" (132 mm)

Ordering Information:
Part No. 556A, 556 Housing, P205 Rubber Bushings and 349SE Washer

Part No. 556R, 556 Housing, R205 Rubber Bushings and 407W Washer (used with 407SE only)

340S FRONT END ASSEMBLY

Accepts 3" (76 mm) standard channel or square tubing
For Use With: 207S, 307S, 405S & 410S Drawbar Eyes

Bushing Options: 348 (rubber), 348A (poly)
Inside Diameter: 2" (51 mm)
Outside Diameter: 3½" (89 mm)
Length: 3½" (89 mm)

Ordering Information:
Part No. 340S, 346 Housing, 348 Rubber Bushings and 349 Washer

Part No. 340SA, 346 Housing, 348A Poly Bushings and 349 Washer

640S FRONT END ASSEMBLY

Accepts 2½" (64 mm) round tubing
For Use With: 207S, 307S, 405S & 410S Drawbar Eyes

Bushing Options: 348 (rubber), 348A (poly)
Inside Diameter: 2" (51 mm)
Outside Diameter: 3½" (89 mm)
Length: 3½" (89 mm)

Ordering Information:
Part No. 640S, 646 Housing, 348 Rubber Bushings and 349 Washer

Part No. 640SA, 646 Housing, 348A Poly Bushings and 349 Washer

435 FRONT END ASSEMBLY

Accepts 2" x 4" (51 mm x 102 mm) rectangular tubing or standard channel
For Use With: *207K, 207S, *307K, 307S, 405S & 410S Drawbar Eyes
*only when used with 437AK Bushing

Bushing Options: 437 (rubber), 437A (poly) or *437AK (poly)
*only when used with 207K/307K Bushing
Inside Diameter: 2" (51mm) or *2¼" (57mm)
Outside Diameter: 4¼" (108 mm)
Length: 4½" (114 mm)

Ordering Information:
Part No. 435, 436 Housing, 437 Rubber Bushings and 349 Washer

Part No. 435A, 436 Housing, 437A Poly Bushings and 349 Washer

320 HINGE ASSEMBLY

Accepts 3" (76 mm) standard channel or square tubing.
Capacity (pair): 100,000 lbs.

Bushing Options: 344 (rubber), 344A (poly)
Inside Diameter: 1-7/8" (48 mm)
Outside Diameter: 3-1/2" (89 mm)
Length: 4-1/2" (114 mm)

Ordering Information:
Part No. 320, 320 Hinge, 344 Rubber Bushings

Part No. 320A, 320 Hinge, 344A Poly Bushings

440 HINGE ASSEMBLY

Accepts 3" (76 mm) standard channel or square tubing.
Capacity (pair): 100,000 lbs.

Bushing Options: 448 (rubber), 448A (poly)
Inside Diameter: 2" (51 mm)
Outside Diameter: 3-1/2" (89 mm)
Length: 1-3/4" (44 mm)

Ordering Information:
Part No. 440, 440 Hinge, 448 Rubber Bushings

Part No. 440A, 440 Hinge, 448A Poly Bushings

407SE SWIVEL E YE

Silver Eagle replacement (#1171)
Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 3,900 lbs.
Inside Diameter: 2-3/8" (60 mm)

Ordering Information:
Part No. 407SE, Includes 421 Sleeve Nut. Nut must be secured by installer (wire tied, etc.)

Weld-On Drawbar Eyes

3 WELD-ON EYE

Gross Trailer Weight: 70,000 lbs.
Maximum Tongue Weight: 10,500 lbs.
Inside Diameter: 2-1/16"
Part No. 3.

4 WELD-ON EYE

Gross Trailer Weight: 90,000 lbs.
Maximum Tongue Weight: 13,500 lbs.
Inside Diameter: 2-3/8"
Part No. 4.

5 WELD-ON EYE

Gross Trailer Weight: 90,000 lbs.
Maximum Tongue Weight: 13,500 lbs.
Inside Diameter: 2-5/8"
Part No. 5.

6 WELD-ON EYE

Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 15,000 lbs.
Inside Diameter: 2-3/8"
Part No. 6.

20 WELD-ON EYE

Designed for 3" (76 mm) standard channel or square tubing.
Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 15,000 lbs.
Inside Diameter: 2-3/8"
Part No. 20.

304 WELD-ON EYE

Gross Trailer Weight: 150,000 lbs.
Maximum Tongue Weight: 15,000 lbs.
Inside Diameter: 3"
Part No. 304.

306 WELD-ON EYE

Gross Trailer Weight: 150,000 lbs.
Maximum Tongue Weight: 15,000 lbs.
Inside Diameter: 3"
Part No. 306.

Bolt-On Drawbar Eyes

200 BOLT-ON EYE

Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 15,000 lbs.
Inside Diameter: 2-3/8"
Part No. 200.

300 BOLT-ON EYE

Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 15,000 lbs.
Inside Diameter: 3"
Part No. 300.

Non-Air Couplings

150 COMBINATION COUPLING

Whether you need to pull a trailer with an eye or ball connection, the 150 can do the job. The patented sideswing latch helps prevent tailgate damage and keeps the profile compact.
Gross Trailer Weight: 16,000 lbs.
Maximum Tongue Weight: 2,000 lbs.
Ultimate Latch Capacity: 10,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:

Coupling and Ball Combinations:
Part No. 150, Includes 150 coupling and 155 ball 2" (51 mm)
Part No. 150-1, Includes 150 coupling and 156 ball 2-5/16" (59 mm)
Part No. 150-2, Includes 150 coupling and 158 ball 1-7/8" (48 mm)

Replacement Trailer Balls:
Part No. 155, 2" (51 mm) diameter, 10,000 lbs.
Part No. 156, 2-5/16" (59 mm) diameter, 10,000 lbs.
Part No. 158, 1-7/8" (48 mm) diameter, 2,500 lbs.

240 COUPLING

The #240 has extra toughness and wear resistance that Premalloy users have come to expect.
Gross Trailer Weight: 45,000 lbs.
Maximum Tongue Weight: 6,000 lbs.
Ultimate Latch Capacity: 20,000 lbs.
Maximum Eye X-Section: 1-11/16" (43 mm)
Minimum Eye Opening: 2-1/8" (52 mm)

Ordering Information:
Part No. 240, Coupling only

240K COUPLING

Gross Trailer Weight: 45,000 lbs.
Maximum Tongue Weight: 6,000 lbs.
Ultimate Latch Capacity: 20,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 240K, Coupling only.
Part No. 240KL, Coupling with low handle.
Part No. 240LK, Low pro handle kit.

160 COUPLING

The same unique latching as #150, the model #160 offers a compact profile for tight places. Ideal for dolly haul back and other light to medium duty applications.
Gross Trailer Weight: 30,000 lbs.
Maximum Tongue Weight: 4,500 lbs.
Ultimate Latch Capacity: 10,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2" (51 mm)

Ordering Information:
Part No. 160, Coupling only

480 COUPLING

The strongest in the line of non-air couplings, the model #480 has high strength latch components that are strike-resistant and concealed within the coupling body. Conveniently located grease zerks provide for easy maintenance of internal components.
Gross Trailer Weight: 130,000 lbs.
Maximum Tongue Weight: 21,000 lbs.
Ultimate Latch Capacity: 30,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 480, Coupling only

130 COUPLING

Popular for dolly haul back, the model #130 is ideal for light to medium duty applications. Like many of Premier's couplings, the #130 features a strong strike-resistant latching system that is easy to operate and maintain.
Gross Trailer Weight: 30,000 lbs.
Maximum Tongue Weight: 6,000 lbs.
Ultimate Latch Capacity: 20,000 lbs.
Maximum Eye X-Section: 1-11/16" (43 mm)
Minimum Eye Opening: 2-1/2" (52 mm)

Ordering Information:
Part No. 130, Coupling only

580 COUPLING

A long time favourite of the logging industry Premier's #580 coupling offers a low profile and a very popular mounting pattern. External oil cup enables easy lubrication of internal latch components.
Gross Trailer Weight: 70,000 lbs.
Maximum Tongue Weight: 14,000 lbs.
Ultimate Latch Capacity: 30,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-1/16" (52 mm)

Ordering Information:
Part No. 580, Coupling only

Please contact a Gregg Distributors representative for Premier Couplings not shown in this listing.

PREMIER MANUFACTURING COMPANY

Air Operated Couplings

270 AIR ADJUSTED COUPLING

Most popular bolt mounting pattern in the industry. Low profile, wear resistant. Premalloy and easy quick latching are features that have made the 270 standard with fleets around the world.
Gross Trailer Weight: 90,000 lbs.
Maximum Tongue Weight: 18,000 lbs.
Ultimate Latch Capacity: 12,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 270, Coupling Only
Part No. 270A, Standard Installation Kit: Includes 270 coupling, 501 bolt kit, 281 air chamber, 267 air chamber adapter bracket, 271 thimble

570 AIR ADJUSTED COUPLING

When vertical clearance is at a premium, the #570 may be your solution. It offers a bottom mount air chamber, low profile and strong latching system. An oil cup is provided to quickly and easily lubricate the latch. This coupling must be used with an air service chamber.
Gross Trailer Weight: 90,000 lbs.
Maximum Tongue Weight: 18,000 lbs.
Ultimate Latch Capacity: 20,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 570, Coupling Only

370 AIR ADJUSTED COUPLING

Used frequently in dump and pup applications, our popular 370 offers users a low profile, high latch strength and our Premalloy body for maximum wear.
Gross Trailer Weight: 90,000 lbs.
Maximum Tongue Weight: 18,000 lbs.
Ultimate Latch Capacity: 20,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 370, Coupling Only
Part No. 370A, Standard Installation Kit: Includes 370 coupling, 502 bolt kit, 281 air chamber, 467 air chamber adapter bracket, 271 thimble

2200 AIR ADJUSTED COUPLING

Most popular mounting bolt pattern in the industry. Features exceptional latch strength, easy operation and low maintenance. Can be operated with or without an air service chamber.
Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 20,000 lbs.
Ultimate Latch Capacity: 60,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 2200, Coupling Only
Part No. 2200A, Standard Installation Kit: Includes 2200 coupling, 501 bolt kit, 281 air chamber, 267 air chamber adapter bracket, 271 thimble

470 AIR ADJUSTED COUPLING

Often used in the agricultural industry as well as tankers.
Gross Trailer Weight: 90,000 lbs.
Maximum Tongue Weight: 18,000 lbs.
Ultimate Latch Capacity: 12,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 470, Coupling Only
Part No. 470A, Standard Installation Kit: Includes 470 coupling, 508 bolt kit, 281 air chamber, 467 air chamber adapter bracket, 271 thimble

2300 AIR ADJUSTED COUPLING

Popular with tanker fleet customers. Made from Premalloy for long life. Has unsurpassed latch strength and can be operated with or without an air service chamber.
Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 20,000 lbs.
Ultimate Latch Capacity: 60,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 2300, Coupling Only
Part No. 2300A, Standard Installation Kit: Includes 2300 coupling, 502 bolt kit, 281 air chamber, 467 air chamber adapter bracket, 271 thimble

2400 AIR ADJUSTED COUPLING

When installation and mounting is limited by bolt hole pattern, the 2400 may be the answer. Although one of the bottom three mounting holes must be used, you choose which one. This allows for maximum compatibility with existing mounting patterns. Popular with Pup and Dumps and Tanker applications.
Gross Trailer Weight: 100,000 lbs.
Maximum Tongue Weight: 20,000 lbs.
Ultimate Latch Capacity: 60,000 lbs.
Maximum Eye X-Section: 1-13/16" (46 mm)
Minimum Eye Opening: 2-3/8" (60 mm)

Ordering Information:
Part No. 2400, Coupling Only
Part No. 2400A, Standard Installation Kit: Includes 2400 coupling, 508 bolt kit, 281 air chamber, 467 air chamber adapter bracket, 271 thimble

COUPLER GRIP

Bolts onto coupler with universal mounting holes. Fits 1-7/8" and 2" couplers. Coupler grip provides convenient and safer way to guide trailer tongue to and from coupler ball. Ideal for personal watercraft and other lightweight trailers. Zinc plated TUFFPLATE™ finish with large comfortable grip.
Part No. 6295.

BUMP-ME® COUPLER-VEHICLE CUSHION

Absorbs blow between coupler and towing vehicle when hook-up is misjudged. Slips onto the coupler flange. No tools required. Molded with UV inhibitor, resists deterioration and stays flexible in all kinds of weather. Fits most brands of Class 1 - 4 couplers.
Part No. 6279.

COUPLER REPAIR KITS

For D-L Quick-Lock couplers only. Kits cannot be interchanged with component parts of any other D-L models or other manufacturers' couplers.
Part No. 6256-1, Class 1, 1-7/8" ball size.
Part No. 6257-2, Class 2, 2" ball size.

MASTER LOCK®

MAS/2755

Coupler Lock & Hitch Ball System

INTERCHANGEABLE HITCH BALL SYSTEM

Change from one ball diameter to another without the need for any tools. Each ball comes with its own, permanently attached, retention blade which means that there are no loose parts that can be easily misplaced. Retention blade includes a pocket-knife style groove to help rotate it from the shaft. The shaft includes a 13/16" wide flat area for a wrench to aid installation. Chrome plated, solid steel components are able to withstand the elements.

Steps:
1. Lift and flip the blade of the ball
2. Rotate the ball 1/4 turn
3. Lift the ball to remove

Please consult your Gregg's Representative for all your Premier needs. Many options/configurations are available. Please see next page for general steps in selecting the Jack that's right for you.

Jacks

700 CUSTOM JACK

Designed for long life with minimal maintenance, the 700 is easily adapted to nearly any application.
Features: •Quick-Action spring activated folding handle that seats in a positive position for travel. This keeps the handle short, compact and out of the way. •DOM tubing inner and outer tube provide a strong precision fit between tubes reducing penetration of outside contaminants •Tube support collar on outside tube for added strength •Oil cup for convenient lubrication of main bearing and power screw
Capacity: 5,000 lbs. operational, 10,000 lbs. static.

Ordering Information:

Part No. 70015726, Jack; standard 15" travel with shock absorption and caster plate.
Part No. 700P15726, Jack; standard 15" travel with caster plate.
Part No. 700P15729, Jack; standard 15" travel with sand shoe.

Please consult your Gregg's Representative for all your Premier needs. Many options/configurations are available. Please see below for general steps in selecting the Jack that's right for you.

Optional Accessories:
Part No. 688, Swivel Mount: Helps lift jack up and out of harm's way when travelling.
Part No. 688US, Swivel Mount: Universal version of the 688. The 688US easily adapts to existing jacks that already have the standard mounting plate installed.

Replacement Parts:
Part No. 677A, Handle Assembly.
Part No. 375A, Locknut.
Part No. 675, Roll Pin.
Part No. 605, Washer.
Part No. 606, Bearing.
Part No. 707, Brass Half-Nut.
Part No. 703, Jack Screw.
Part No. 726, Caster Plate.
Part No. 729, Sand Shoe.

688
Swivel Mount

800 UTILITY JACK

Designed to accomodate light to medium duty applications
Features: •Quick-Action spring activated folding handle that seats in a positive position for travel. This keeps the handle short, compact and out of the way. •Strong, precision fit square tubing help reduce penetration of outside contaminants •Tube support collar on outside tube for added strength •Oil cup for convenient lubrication of power screw
Capacity: 2,500 lbs. operational, 5,000 lbs. static.

Please consult your Gregg's Representative for all your Premier needs. Many options/configurations are available. Please see below for general steps in selecting the Jack that's right for you.

Ordering Information:
Part No. 800P15829, Jack; standard 15" travel with caster plate.

Optional Accessories:
Part No. 688, Swivel Mount: Helps lift jack up and out of harm's way when travelling.

Replacement Parts:
Part No. 677A, Handle Assembly.
Part No. 375A, Locknut.
Part No. 675, Roll Pin.

Step 1: Determine The Jack Best Suited to Your Needs:

Review the features of Premier's 600, 700 and 800 series jacks to determine which line best suits your application

600
JIFFY

700
STANDARD

800
UTILITY

Step 2: Shock Absorption:

Premier's 600 Jiffy Jack and 700 Standard Jack both offer an optional shock system that reduces the potential for jack damage due to sudden load drops. If this feature is not desired, it is indicated by a "P" in the part number.

WITH SHOCK ABSORPTION

WITHOUT SHOCK ABSORPTION

Step 3: Specify Travel Length of Stroke:

The 600 Series Jack offers various travel lengths. Determine your required travel length and select the appropriate part number.

Step 4: Select a Caster Suited to Your Needs:

If a caster is desired, Premier has many casters to fit your needs. Please consult your Gregg's Representative for more details.

SAND SHOE

STEEL CASTER

PNEUMATIC CASTER

FULTON

TOUGH & TRUSTED BULLDOG

HEAVY DUTY JACK

Ideal for use on stock trailers and gooseneck trailers.
NOTE: Handle is sold separately (below).
•12,000 lb. capacity side wind design with 12" screw travel, 14" of drop leg adjustment and 9" square foot plate
•Stamped embossments prevent tube wobble
•Proprietary nut material and patented two-piece floating nut design provide for 20% less handle effort and substantially increased life cycle performance over competitor models
•Unique hex drive input shaft coupled with precision alloy gear train improves torque transmission, allows gear train service-ability and results in 20% faster actuation than competitive jacks
•Ergonomically designed 7/8" diameter pull pin provides ease of drop leg actuation

PART NO.	FINISH/DESCRIPTION	STATIC LOAD (IN LBS.)	WIND STYLE	DIMENSIONS		TUBE DIMENSION		
				RETRACTED	EXTENDED	INNER	HOUSING	DROP FOOT
HD12KS	Spring return drop foot, street side pull pin	12,000	Side	28.25"	40.50"	3.50" sq.	4.00" sq.	3.00" sq.

Part No. JHHB, 12K jack handle kit, horizontal yoke.

XP10

BOLT-THRU SWIVEL JACKS

Fulton offers the strongest bolt-thru swivel mount in the industry. The patented mount uses 3-D formed heavy gauge steel stampings and a proprietary bushing material for a mount with minimal deflection and maximum support. This design allows us to offer the industry's only 1500 pound capacity caster jack with 8" rally wheel for easier castering. Mounting brackets will accommodate up to 3" x 5" trailer frames.

PART NO.	FINISH/DESCRIPTION	STATIC LOAD (IN LBS.)	WIND STYLE	DIMENSIONS		PULL PIN DIAMETER	WHEEL DIAMETER
				RETRACTED	EXTENDED		
XP10	Zinc w/ caster	1000	Side	12.75"	22.75"	3/8"	6"
XP15	Zinc w/ caster	1500	Side	12.75"	22.75"	1/2"	8"

TJ503

SNAP RING SWIVEL JACKS

The industry standard in swivel mount jacks, these are time tested and application proven. From marine and utility trailers, to industrial outriggers, to farm implements, Fulton snap ring swivel jacks have seen it all, and performed superbly. Fulton snap-ring mounts fit up to a 3" x 5" trailer frame. Bolt-on versions include all necessary mounting hardware. *You must order Mounting Bracket and Snap Ring separately, (below).

PART NO.	FINISH/DESCRIPTION	STATIC LOAD (IN LBS.)	WIND STYLE	DIMENSIONS		MOUNTING BRACKET	PULL PIN DIAMETER
				RETRACTED	EXTENDED		
TJ503	Zinc, w/ 6" diameter caster	800	Side	12.75"	22.75"	Bolt-on incl.	3/8"
210SS01	Primed outer, zinc inner, w/ footplate	2000	Side	10.75"	20.50"	*	1/2"

Part No. P9211-00, Mounting bracket for #210SS01.
Part No. P9086-00, Retaining ring for #210SS01.

210SS01

A-FRAME JACKS

A-Frame jacks are engineered to meet heavy duty demands of today's rental, RV, industrial, agricultural, commercial and marine trailers. High strength triangular steel mounting brackets provide easy bolt-on or weld-on mounting and ensure years of trouble free service. Whether choosing a round or square tube jack, Fulton casters, foot plates and drop legs (sold separately below) easily mount to the jacks, and offer a variety of load support options.

PART NO.	FINISH/DESCRIPTION	STATIC LOAD (IN LBS.)	WIND STYLE	DIMENSIONS		TUBE DIMENSIONS	
				RETRACTED	EXTENDED	INNER	HOUSING
JA214T	Primed outer, zinc inner; round tube	2000	Top	8.00"	22.25"	2.00"	2.25"
JA214S	Primed outer, zinc inner; round tube	2000	Side	8.25"	22.00"	2.00"	2.25"
35TA15	Primed outer, zinc inner; square tube	5000	Top	7.50"	23.00"	2.00"	2.25"

Part No. CE555, Caster, for round tubes, fits 2" tube.
Part No. F2000, Footpad, for round tubes, fits 2" tube.
Part No. DF3500, Drop leg, for square tubes.

PLAIN MOUNT DROP LEG JACKS

Fulton's heavy duty drop leg jacks are fabricated from high strength, telescoping, structural steel tubing, and offer additional lift adjustment for higher hitch platforms, equipment outriggers and other applications. Corrosion resistant finishes and high efficiency cranking mechanisms give end users a long lasting, easy operating jack.

PART NO.	FINISH/DESCRIPTION	STATIC LOAD (IN LBS.)	WIND STYLE	DIMENSIONS		TUBE DIMENSION		
				RETRACTED	EXTENDED	INNER	HOUSING	DROP FOOT
35SP28F	Primed outer, zinc inner, with footpad, square tube	5000	Side	23.50"	37.25"	2.00" sq.	2.25" sq.	1.75" sq.
70SP28F	Primed outer, zinc inner, with footpad, square tube	7000	Side	24.25"	38.00"	2.25" sq.	2.50" sq.	2.00" sq.

NOTE: If the jack is used with a caster, footplate or drop leg, the system capacity will be based on the lesser value of the two capacities. For example, a 1000 lb. capacity caster used on a 2000 lb. capacity jack will limit the system capacity to 1000 lbs.

Jacks

TUBE MOUNT SWIVEL JACKS

Tube mount swivel jacks offer the convenience of a swivel mechanism with the durability needed for commercial, agricultural, and industrial markets. A locking pin secures the jacks in the vertical position for support, or in the storage position for ease of transport. A standard, heavy gauge steel footplate provides firm ground support on all surfaces. Includes the weld-on mating mounts.

PART NO.	FINISH/DESCRIPTION	STATIC LOAD (IN LBS.)	WIND STYLE	DIMENSIONS		PIN SIZE
				RETRACTED	EXTENDED	
35SG15F	Primed outer, zinc inner, w/ foot, square tube	5000	Side	15.00"	29.75"	5/8
35TG15F	Primed outer, zinc inner, w/ foot, square tube	5000	Top	15.00"	30.25"	5/8

FIXED MOUNT JACK

Light duty flip-up trailer stand, zinc finish, with caster. 6.25" retracted; 15.00" extended. 300 lb. capacity. Fits 3" x 3" frame.
Part No. TS300.

CAMPER STABILIZER

Offers a ratchet style mechanism for raising/lowering, all-steel construction and zinc plating for corrosion protection. Unit is a pair c/w handle. Adjustment range: 11-1/8" - 18¾".
Part No. 772.

Jacks & Replacement Parts

A-FRAME JACKS

•Heavy duty round tube with slotted universal fit triangular bracket for easy bolt mounting or welding to A-Frame type trailer couplers. Supplied with detachable 6½" reinforced polycarbonate caster. Mounting bolts not included. Black enamel painted finish.
Part No. 11463, Top wind handle operation, provides 1" of travel per 8 revolutions.
Part No. 11465, Top wind handle operation.
Part No. 11467, Side wind handle operation.
Part No. 11492, Top wind handle operation, without base.
Part No. 11493, Top wind handle operation, without base.

JACK REPLACEMENT PARTS

Part No. 11501, Internal mounting tube - fits #11468, 11469, 11472, 11473.
Part No. 11500, External mounting tube - fits #11468, 11469, 11472, 11473, 11474, 11475.

Tongue Jacks

When hitching and unhitching loaded trailers, D-L tongue jacks are real back savers. These easy to install smooth operating tongue jacks can be mounted in a variety of ways on various sizes of trailer tongues. Heavy duty D-L tongue jacks reduce the physical effort required to manoeuvre a loaded trailer into hitching position or removing the trailer from a vehicle. All models are made from heavy gauge steel for strength and durability.

Ag-Industrial Jacks

D-L GoldenRod ag-industrial jacks are used for lifting and levelling applications. Top wind and side wind swivel jacks feature precision rolled Acme thread inner screw, heavy duty thrust bearing, and heavy gauge steel outer and inner tubes for long life, easy cranking, and smooth, trouble-free operation. Tubular mounting style includes industry standard 2” weld-on mounting tube and 9/16” diameter locking pin. Swivel mount jacks use spring loaded locking mechanism for quick, easy operation. Black powder coated outer tube and zinc plated TUFFPLATE™ finish inner tube and foot for superior rust resistance.

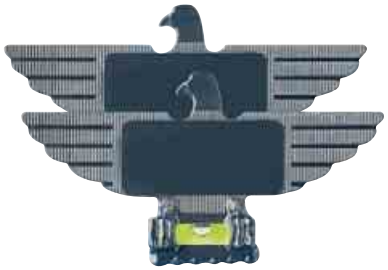
Hoppy™

MULTI-PURPOSE EAGLE LEVEL

The Eagle silhouette with a 5" wingspan has been a long time favourite with RV owners. Easy to apply, no tools required, the self-sticking adhesive backing holds the level securely in place. Yellow-green high visibility glass vial provides at-a-glance levelling. Card of 2.
Part No. 02925.

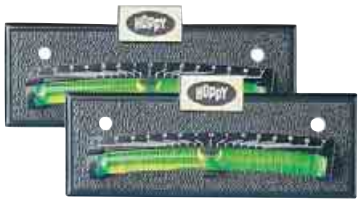


MULTI-PURPOSE SMALL LEVEL

Most versatile level sold, perfect for levelling pool tables, power equipment, refrigerators, appliances, camera equipment, picture frames, RVs, campers, and more. Self-sticking adhesive makes easy application with no tools required. Easy-to-read yellow-green glass vial provides accurate consistent levelling at a glance. Card of 2.
Part No. 03925.

MULTI-PURPOSE GRADUATED LEVEL

Designed to take the guess work out of camper and RV levelling. Graduated markings provide accurate elevation requirements. Sold in pairs, one for levelling front to back; one for side to side adjustments. Comes complete with self-sticking backing and screw holes, if a more permanent installation is preferred. High visibility yellow-green vial. Card of 2.
Part No. 08525.

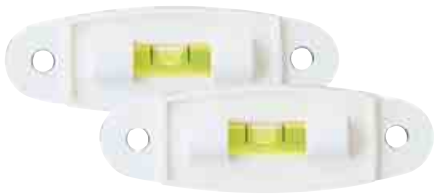


SUPER LEVEL

Specifically designed for use on trailers in tow. With a quick glance in the rearview mirror, the driver of the towing vehicle can easily read the large high visibility ball level. The Super Level also includes a small level vial to indicate front to back adjustment. Screw-on installation provides a permanent level reference.
Part No. 04025.

MULTI-PURPOSE SCREW-ON LEVEL

Permanent levelling reference for all types of campers and equipment. Self-sticking adhesive backing makes initial adjustment simple and easy, once in place. Screw holes are provided for permanent installation. Compact, yet accurate with high visibility yellow-green glass vial. Card of 2.
Part No. 09025.



SURFACE LEVEL

Amazingly versatile and can be used for hundreds of applications. Perfect "bullseye" level for all surfaces such as pool tables, shop equipment, machinery, sensitive instruments, and camper equipment. Each side is marked for quick accurate levelling of vertical surfaces. Small and compact, fits in a pocket or tool box.
Part No. 09515.

COMPU-HITCH LEVEL

Permanently mounted to trailer hitch to indicate the adjustments required for a perfectly level trailer. Comes with a snap-on cap to protect from weather and damage. Easy to read high visibility yellow-green glass vials. Eliminates trial and error camper levelling. Front to back and side to side levelling from a single unit.
Part No. 09715.

LEVEL LIGHT®

Bright LED lights up when your trailer is level! When you pull into a campground after dark, levelling your trailer is difficult because you can't see your level. The Hoppy Level-Light makes levelling your RV, day or night, much easier.
•Features a high intensity reflective light source to indicate the level position •Level is obtained when the bubble crosses the light beam •Can be seen from a distance, especially at night •Saves time and frustration •Patent-pending design
Part No. 09215.

Hoppy®

Trailer Wiring Accessories

BRAKE MASTER™ BREAK-AWAY KIT

Rustproof, plastic case protects battery and charger. For use on single, tandem and tri-axle trailers with electric brakes. Includes 12 volt sealed rechargeable battery, battery charger and Break-Away Switch.
Part No. 20001.

THE ENGAGER™ BREAK-AWAY SYSTEM

With the introduction of The Engager™ trailer breakaway system, Hoppy is changing the way consumers protect their trailer investment. •Activates trailer brakes upon separation from tow vehicle •Built-in battery meter with LED test lights •Convenient test button verifies battery charge •LEDs indicate: fully charged, re-charge, or charging •Built-in battery charger •Charges battery while plugged into vehicle •1 to 2 axle capacity •5 amp hour battery
Part No. 20400, Complete system with battery meter includes switch, cable/pin, and mounting screws.

Part No. 20407, Weldable Mounting Plate for #20400. Eliminates need to drill holes in trailer frame.

UNIVERSAL WIRING KITS:

These kits are designed for vehicles that are not equipped with factory taillight plugs and contain everything a do-it-yourselfer would need to complete a 4-wire flat application (3M Scotchloks with grease sealant and a circuit tester).

For vehicles equipped with common bulb turn signals and brake lights.
Part No. 46105.

For vehicles equipped with independent bulb turn signals and brake lights.
Part No. 46155.

POWER TAILLIGHT ISOLATOR & POWER TAILLIGHT CONVERTER:

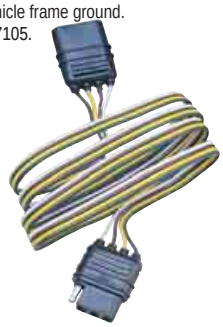
These units completely isolate the tow vehicle from trailer malfunctions. Power is taken directly from the battery for isolation and brighter trailer taillights.

Solid state electronics. For vehicles equipped with independent bulb turn signals and brake lights or common bulb systems.
Part No. 46255.

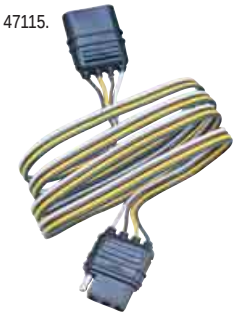
EXTENSIONS/ADAPTERS:

Hoppy trailer wiring systems have taken the guesswork and frustration out of vehicle trailer wiring. Pre-wired vehicle to trailer wiring extensions and adapters give the consumer a means to create a custom wiring system appropriate for any towing situation that's plug-in simple.

4-wire flat modular replacement. This unit is included in most T-connector kits. Utilizes an exterior vehicle frame ground.
Part No. 47105.



4-wire flat extension. Extends wiring system 48" for more flexibility. Passes through vehicle ground.
Part No. 47115.



4-wire flat to 6-way round, plastic.
Part No. 47155.

4-wire flat to 6-way round, metal.
Part No. 47165.

4-wire flat to 7-way RV blade round, plastic.
Part No. 47205.

Multi-Tow™ 2-in-1 tow harness. Provides 7 RV blade round or 4-wire flat towing capability. Both from one location; weatherproof.
Part No. 47185.

Multi-Tow™ tow harness. Provides 6 round or 4-wire flat towing capability. Both from one location; weatherproof.
Part No. 47175.

Multi-Tow™ tow harness. Provides 7RV blade and 4-wire flat towing.
Part No. 40955.

Multi-Tow™ tow harness. Provides 6-way and 4-wire flat towing.
Part No. 40965.

ADAPTERS:
Adapters provide the ability to tow several other trailers without having to re-wire your tow vehicle. Available in one piece compact design or with wires for flexibility.

6-way round to 4-wire flat adapter.
Part No. 47305.

6-way round to 4-wire flat adapter; flexible.
Part No. 47315.

6-way round to 4-wire flat. Includes function testing LEDs.
Part No. 47325.

7-way RV blade to 4-wire flat. Includes function testing LEDs.
Part No. 47345.

7-way RV blade to 4-wire flat adapter.
Part No. 47355.

7-way RV blade to 4-wire flat adapter; flexible.
Part No. 47365.

7-way RV blade to both 5-wire flat and 4-wire flat.
Part No. 47385.

7-way pin type to 4-wire flat adapter.
Part No. 47405.

4-way round to 4-wire flat adapter; flexible.
Part No. 47465.

7-way RV blade to 6-round adapter. Centre pin auxiliary. Universal — centre pin can be switched to electric brake.
Part No. 47545.

7-way RV blade to 6-round adapter. Centre pin electric brake. Universal — centre pin can be switched to auxiliary.
Part No. 47555.

7-way RV blade to both 6-round and 4-wire flat. Centre pin auxiliary. Universal — centre pin can be switched to electric brake.
Part No. 47565.

7-way RV blade to both 6-round and 4-wire flat. Centre pin electric brake. Universal — centre pin can be switched to auxiliary.
Part No. 47575.

4-wire flat knockout adapter. For use with 1.25" hole diameter or #48605 bracket.
Part No. 47605.

4-WIRE FLATS:
A 4-wire flat is the most common used trailer plug available. This plug is found on small boat, utility, jet ski, snowmobile, and small camper trailers where right turn/brake, left turn/brake, tail/marker lights and ground is needed. Available in SAE design.

48" trailer end. Includes 3 splice connectors.
Part No. 48125.

10 ft. 4-wire flat extension. Ideal for 5th wheel trailers.
Part No. 48235.

12" 4-wire flat non-shrouded loop. Works great with Ford tow packages.
Part No. 48145.

Flat-Lite™ 4-wire flat tester/dust cover. Tests left/right turn, taillights, and brake.
Part No. 48675.

5-flat wire flats.
Part No. 47905, 60" vehicle end.
Part No. 47915, 18" trailer end.

LED 48" Tow Vehicle End. Verify vehicle side wiring is correct. Integrated "easy-pull" grip.
Part No. 48055.

Automotive & Heavy Duty Fleet Products

MISCELLANEOUS CONNECTORS & ACCESSORIES:

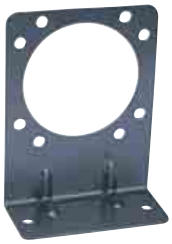
6-pole round trailer end plug only.
Part No. 48445.

7-pole RV blade round, tow vehicle end socket only, plastic.
Part No. 48485.

7-pole RV blade round, trailer end plug only, plastic.
Part No. 48505.

4, 5, 6-pole, knockout mounting bracket.
Part No. 48605.

7, 9-pole mounting bracket.
Part No. 48615.



NEW!!

POWER MANAGEMENT:

These products help you get 12-Volt power wherever you may need it in your vehicle. Great for tailgating, camping, hunting, boating, emergency use — and countless other applications. Products that plug into a 12-Volt socket include blenders, coolers, air compressors, spot lights, radios, TVs... Imagine the possibilities!

12-Volt Power Socket. Flush mount design means no drilling required. Mounts anywhere 12 volt power is needed. Weather proof dust cover.
Part No. 55110.

12-Volt Power Socket. Same as #55110 except includes 17 ft. power wire and fuse assembly.
Part No. 55115.

12-Volt Power Socket with Utility Light. Provides bonus light for multi-purpose use. Flush mount design. Mounts anywhere 12 volt power is needed. Weather proof dust cover.
Part No. 55120.

12-Volt Power Socket with Utility Light. Same as #55120 except includes 17 ft. power wire and fuse assembly.
Part No. 55125.

BRAKE CONTROLS & ACCESSORIES:

PLUG-IN SIMPLE!® BRAKE CONTROLS — Make your brake control installation easy! No more running wires through the firewall or searching for the stop switch. No more hassles...Plug-In Simple!®

BRAKE-FORCE™ Electronic Brake Control. This time-based brake control utilizes an LED light that changes from green to different levels of bright orange monitoring power to the trailer. The control offers short-proof capabilities, single power adjustment wheel, and can be mounted in any direction. For 2, 4, and 6 brake systems. NOTE: Each model comes w/ wiring harness.
Part No. 37835, Ford.
Part No. 37845, Dodge.
Part No. 37855, Chev/GMC/Cadillac.

IMPULSE™ Electronic Brake Control. Setting the power on a brake control has never been easier with the digital display on this time-based brake control. The digital display shows power in increments of 5% and is your trouble shooting guide for mis-wired trailers. The control is short-proof and can be mounted in any direction. Display can be reversed to mount unit upside down. For 2, 4, and 6 brake systems. NOTE: Each model comes w/ wiring harness.
Part No. 37865, Ford.
Part No. 37875, Dodge.
Part No. 37885, Chev/GMC/Cadillac.

RELIANCE™ Electronic Brake Control. Digital display feature: numerical from 5% to 99%. Set the exact percentage of power you desire with the brake power level. Short proof protection from trailer brake wire shorts. Error codes indicate short circuit.
Part No. 47285.

NEW!!

Brake connector, Ford F-Series pick-up w/ tow prep., 1992-93.
Part No. 47695.

Brake connector, FORD:
•F-Series pick-ups, 1994-04
•Expedition 1997-04
•Van (full size) 1994-98 w/ tow prep.
•Excursion 2000-04
Part No. 47705.

Brake connector, DODGE:
•Ram pick-up 1997-03
•Dakota 1997
•Durango 1998-03 w/ tow prep.
Part No. 47745.

Brake connector, CHEV/GMC:
•Silverado 1999-02
•Sierra 1999-02
•Suburban 2000-02
•Tahoe 2000-02
•Yukon 2000-02
•Denali 2000-02
•Escalade 2000-02
Part No. 47775.

PLUG-IN SIMPLE!® ACCESSORIES/CONNECTORS

Second vehicle mounting kit.
Part No. 47685.

Ford connector.
Part No. 47715.

Dodge connector.
Part No. 47755.

Chev/GMC/Cadillac connector.
Part No. 47795.

REESE

Trailer T-Connectors

•Make quick work of wiring 4-way flat plugs to most of today's popular towing vehicles with Reese T-connectors. No cutting, splicing or taping necessary, simply connect into the vehicle wiring harness. All products are retail packaged.

Gregg Distributors carries the Reese line of Trailer T-Connectors. Please ask for further information.

QQQ/1380

BEARING BUDDY®
Wheel Bearing Protectors

Bearing Buddy is designed for use on boat trailers, utility, horse, ATV trailers, as well as camping trailers, and other equipment and occasional use trailers. Trailering even a short distance heats the hubs of your trailer and when they are submerged in water, the hubs suddenly cool. This causes the air inside unprotected hubs to contract, forming a vacuum which draws in water through the rear seals. Trailers which are not used regularly are also subject to bearing corrosion and failure from condensation moisture. Bearing Buddy will prolong the life of your hubs by replacing the axle dust cap. The hub is filled with grease through a zerk fitting in the piston of the Bearing Buddy. This spring loaded piston holds a slight constant 3 lb. pressure inside the hub. When wheels are submerged the pressure in the hub keeps water out.

BEARING BUDDY

Consult chart below for your application and part number - SOLD IN PAIRS.

Bearing Buddy No.	Outer Bearing Cone	Outer Bearing Cup (Race)	Hub Bore Size (in inches)
1980	L44643, L44649, L44640	L44610	1.980
1781	LM11949	LM11910	1.781
2328	LM67048, hub not counterbored	LM67010	2.328
1810	LM12749	LM12711	1.810
1938	09067	09194, 95, 96	1.938
1968	M12649, 07100	M12610, 07196	1.968
2047	Various	07204	2.047
2080	900 series	900 series	2.080
2240	1700 series	1729	2.240
2441	LM67048, hub counterbored 15123 and others	LM67010, 15245	2.441
2717	14124, 14125A	14276	2.717

BEARING BUDDY II

Bearing Buddy II is the same product as the Bearing Buddy with the added features of Auto Check Visual Lubricant and Pressure Indicator. SOLD IN PAIRS.

Part No. 1980A, Bearing Buddy II for 1.98" bearing bore.

BEARING BUDDY BRA

Bearing Buddy Bra is designed to keep grease off the wheels which can come from overfilling of axle hubs, and that which is automatically relieved by the Bearing Buddy. SOLD IN PAIRS.

Part No. 19B, Fits Bearing Buddy numbers 1980, 1938, 1968.

Part No. 17B, Fits Bearing Buddy numbers 1781, 1810.

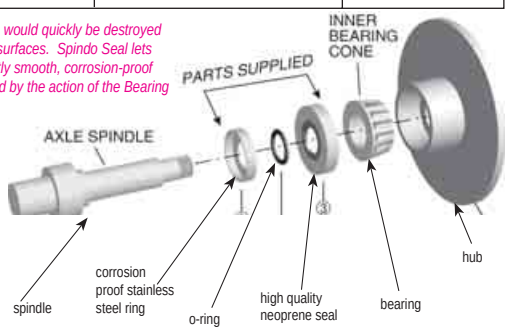
Part No. 23B, Fits Bearing Buddy numbers 2328, 2441, 2717.

SPINDO SEAL

Can be used with a Bearing Buddy on trailers with brakes or they can be used as replacement axle seals.

Part No.	Use With Bearing Buddy	If Inner Bearing Cone Number Is	And Seal Diameter Is
1	1980	L-44643	1.98"
2	1980, 1968	LM-48548; L-68149	2.56"
3	1980	LM-29749	2.56"
4	1938	15123	2.63"
5	1980	L-44649	1.98"
7	1781	LM-67048	2.33"
8	2328	LM-67048	2.33"
9	1938	15123	2.50"
10	1810	L-68149	2.36"
11	2441	25580	3.38"

Before Spindo Seal, seals would quickly be destroyed by rough or rusty sealing surfaces. Spindo Seal lets seals ride on a permanently smooth, corrosion-proof surface constantly greased by the action of the Bearing Buddy. Sold in pairs.



BOWER

Trailer Wheel Bearing Kits

These Trailer Wheel Bearing Kits are individually boxed packages, and they contain everything needed to replace the bearings on one wheel. Also included in the kit are detailed instructions, a grease pack, and cotter pin.

All of these kits are filled with O.E.-quality bearings and seals. These parts are suitable for a variety of applications including boat trailers, snowmobile/RV trailers, horse trailers, etc. To guard against bearing corrosion - and potential damage to recreational equipment if trailer bearings fail on the road - customers are encouraged to change bearings at least once a year, and to use BCA Trailer Wheel Bearing Kits.

Trailer Wheel Bearing Kit Contents:

Part No. FM001- 3/4" Axle Shaft
•Two A-2s (LM11949/LM11910)
•One 204020 Seal
•One Cotter Pin (1/8" x 2")
•One Grease Pack (55 gram)
•One Installation Instruction Sheet

Part No. NAT002 - 1" Axle Shaft
•Two A-14s (L44643/L44610)
•One 203025 Seal
•One Cotter Pin (1/8" x 2")
•One Grease Pack (55 gram)
•One Installation Instruction Sheet

Part No. FM003 - 1" Axle Shaft
•Two A-19s (07100/07196)
•One 203012 Seal
•One Cotter Pin (1/8" x 2")
•One Grease Pack (55 gram)
•One Installation Instruction Sheet

Part No. FM004 - 1¼" Axle Shaft
•Two A-6s (LM67048/LM67010)
•One 203013 Seal
•One Cotter Pin (1/8" x 2")
•One Grease Pack (55 gram)
•One Installation Instruction Sheet

Part No. FM005 - 1-3/8" Axle Shaft
•Two A-5s (LM48548/LM48510)
•One 205015 Seal
•One Cotter Pin (1/8" x 2")
•One Grease Pack (55 gram)
•One Installation Instruction Sheet

REESE

Brakeman™ Brake Controls

Brake controls by Reese are 100% solid state electronics designed for use with two to eight brake systems. These units meet all national highway traffic safety administration regulations regarding tow vehicle/trailer stoplight activation. Its ease of operation and innovative design features make it the perfect choice for today's towing vehicles.

On the Reese Brakeman brake controls, an output control is located on the front of the unit for easy adjustment. The Brakeman-Compact uses a slide adjustment. The Brakeman-Digital has a thumb wheel adjustment. The Brakeman-Compact has a red indicator light on the front of the unit which illuminates when the brakes are applied. The Brakeman-Digital has a digital display on the front of the unit which indicates the output and "sync" setting when a trailer is connected and trailer brakes are applied. In the case of an overload, caused by either a short or low power supply, the Brakeman-Digital will display an overload warning. Mounting bracket and hardware are included. Trailer brakes may be manually applied by squeezing the manual control, located on the front of both units. This control also triggers the trailer and tow vehicle's stop lights when brakes are applied.

Gregg Distributors Ltd. carries the Reese line of Brake Controls. Please ask for further information.

TEKONSHA

Brake Controls

Tekonsha Voyager® Brake Control - Its compact size and features, like a bicoloured LED brake monitor (to assure a complete connection to trailer brakes and give an indication of relative braking power being applied) make the Voyager extremely versatile. Voyager minimizes interference with tow vehicle electrical systems, uses a four wire hook up, has a broad setting range and is compatible with most any vehicle.
Part No. 9030, For 2 to 8 brake systems (1 to 4 axle).

Envoy™ Brake Control - Envoy is an inertially activated brake control ideal for installation in late model tow vehicles. Unique power knob allows you to adjust to varying trailer weights with a positive tactile response between each position. Ergonomic styling that complements interiors of late model tow vehicles. Envoy braking system reacts proportionally to the manner in which you stop, whether it be a slow coasting stop or an emergency stop, Envoy will respond accordingly.
Part No. 9040, For 2 to 4 brake systems (1 to 2 axle).

Tekonsha Prodigy, The Smart Control - The latest and most intelligent brake control from Tekonsha. This powerful control features new motion sensor technology similar to what's used in the aerospace industry. With Prodigy no manual level adjustment is necessary, it adjusts itself to varying terrains as you drive. It is equipped with a sensor that detects the tow vehicle's rate of deceleration, applies proportional braking to the trailer and features an exclusive "Boost" feature that gives users the ability to apply more initial trailer braking power (especially when towing heavier trailers).
Part No. 90185, For 2 to 8 brake systems (1 to 4 axle).

TEKONSHA

TEKONSHA Brake Controls

AccuTrac® and DigiTrac® II Brake Controls - AccuPower's smooth stopping controls are excellent choices for your more demanding heavier loads and constantly changing load conditions (as in transportation of horses or livestock). These advanced controls are able to detect the difference between a gradual deceleration like slowing for a traffic light and the stopping power required when braking for an unexpected event. Their advanced electronics and patented Inertia Sensing System are designed for consistent and predictable stopping power. The Inertia Sensing System uses two separate power delivery controls - one for "around town" gradual stopping and one for urgent sudden stops.

ACCUTRAC® ELECTRIC BRAKE CONTROL

Features:
•1-2 axle trailers
•Separate slide controls adjust braking action for different towing loads
•LED lights green indicating trailer brakes connected and changes to red as power to trailer brakes increases
•Easy-to-reach manual override control
Part No. 80510.

DIGITRAC® II ELECTRIC BRAKE CONTROL

Features:
•1-4 axle trailers
•Separate slide controls adjust braking action for different towing loads
•Large easy to read dual digital display shows:
a) Properly wired control
b) Voltage output to brakes
c) Connection to trailer
•Dark smoke lens ideal for direct light applications; performs better than red lens
Part No. 80750.

Pod® and Pilot® Brake Controls - AccuPower's Pod® and Pilot® brake controls are great choices for your basic economical light duty towing needs. These time actuated controls have solid state electronics and can be mounted in any position - horizontal, vertical, even turned upside down.

POD® ELECTRIC BRAKE CONTROL

Features:
•1-2 axle trailers
•Power on LED for a positive tow vehicle to trailer connection
•"Up front" manual override controls
Part No. 80500.

PILOT® ELECTRIC BRAKE CONTROL

Features:
•1-3 axle trailers
•Large easy to read dual digital display shows:
a) Properly wired control
b) Voltage output to brakes
c) Connection to trailer
•Dark smoke lens ideal for direct light applications; performs better than red lens
•Microprocessor allows control to be mounted upside down and still have a readable display
•Protection against short circuit and loss of ground
Part No. 80550.

PRIMUS™ BRAKE CONTROL

Introducing Primus, a totally proportional electric trailer brake control. Primus utilizes the primary sensor technology from Prodigy and features the Tekonsha one-step "Point and Go" set-up system. Easy to set system allows the driver maximum flexibility when determining how the trailer should respond to a braking event. Snap-in dash mounting clip and removable electrical connector allow unit to be quickly stored when not in use. You will appreciate the digital readout depicting a secure electrical connection and the amount of voltage delivery to the trailer brakes. Primus meets highway regulations regarding tow vehicle/trailer light activation. For 1, 2, and 3 axle trailers.
Part No. 90155.

Brake Control Accessories

3015/3025

6562

Part No. 3015, GM brake control wiring harness, 2003-2005.
Part No. 3025, GM brake control wiring harness, 1999-2002.
Part No. 3035, Ford brake control wiring harness, 1994-2005 (excluding 2005 Super Duty).
Part No. 3065, Ford Super Duty brake control wiring harness, 2005.
Part No. 3020, Dodge brake control wiring harness, 1996-2005.
Part No. 6562, 7-way RV style trailer emulator, used for the proper installation and set-up of a brake control when a trailer is not readily available.

Breakaway Systems & Accessories

BREAKAWAY KITS

For use on single, tandem and/or tri-axle trailers equipped with electric brakes. These complete systems incorporate the highest quality components in trailer breakaway systems. Meet or exceed DOT specifications regarding trailer breakaway and holding requirements. If a breakaway occurs between your tow vehicle and your trailer, the breakaway systems will automatically apply consistent braking power to your trailer brakes. Quick and easy to install, the system comes with a weather/corrosion resistant heavy duty polymer case to protect the battery and charger.

2028

20010

Part No. 2026, Includes #2018 polymer battery case with A-frame or post mounting bracket; #2023 rechargeable sealed 12V 5 amp/hr lead acid battery and terminals; #2010B nylon breakaway switch.

Part No. 20005, Includes #2051 lockable all polymer battery case with flat surface mounting; #2023 rechargeable sealed 12V 5 amp/hr lead acid battery and terminals; #2010B nylon breakaway switch.

Part No. 20010, Includes #20000 lockable polymer battery case with weldable flat surface mounting; #2023 rechargeable sealed 12V 5 amp/hr lead acid battery and terminals; #2010B nylon breakaway switch.

Part No. 2028, Includes #2018 polymer battery case with A-frame or post mounting bracket; #2023 rechargeable sealed 12V 5 amp/hr lead acid battery and terminals; #2024 DC to DC heavy duty quick/maintenance (two stage) battery charger; #2010B nylon breakaway switch.

Part No. 20015, Includes #2051 lockable all polymer battery case with flat surface mounting; #2023 rechargeable sealed 12V 5 amp/hr lead acid battery and terminals; #2024 DC to DC heavy duty quick/maintenance (two stage) battery charger; #2010B nylon breakaway switch.

Part No. 20020, Includes #20000 lockable polymer battery case with weldable flat surface mounting; #2023 rechargeable sealed 12V 5 amp/hr lead acid battery and terminals; #2024 DC to DC heavy duty quick/maintenance (two stage) battery charger; #2010B nylon breakaway switch.

Breakaway Systems & Accessories

BATTERY CASES

Rust proof heavy duty polymer cases protects battery and charger from elements and corrosion. Quick and easy installation.

One-bolt installation on jackpost or A-frame — no need for cutting or drilling. U-shaped clamp style fastener mounts over most trailer tongues.
Part No. 2018.

Four-bolt installation on any flat surface. For use with self-tapping screws or similar fasteners. Lockable case.
Part No. 2051.

Two-bolt or weldable installation on any flat surface. Galvanized metal mounting bracket and locking bar provide secure battery protection.
Part No. 20000.

BREAKAWAY SWITCHES

Sets trailer brakes in case of accidental trailer breakaway. Trailer brakes are applied automatically. Silver contact points remain corrosion free for positive contact. #2009B has all metal parts and a brass pull pin. #2010B has reinforced nylon case, weldable metal tab, nylon pull tab, and is rust and corrosion free.
Part No. 2010B, Breakaway switch, bulk.
Part No. 2010A, Replacement cable and nylon pin assembly.
Part No. 2009B, Breakaway switch, bulk.
Part No. 2009A, Replacement cable and brass pin assembly.

2010B

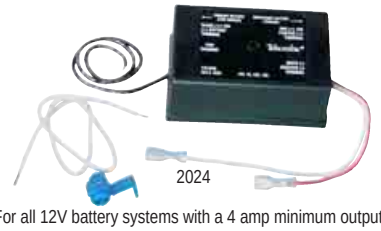
SEALED LEAD ACID BATTERIES

12V, sealed lead acid battery for use with Breakaway Systems on single, tandem, and tri-axle trailers equipped with electric brakes. Battery requires periodic recharging to maintain optimum performance.
Part No. 2023, 5 amp/hr sealed lead acid battery.

2009B

BATTERY CHARGERS

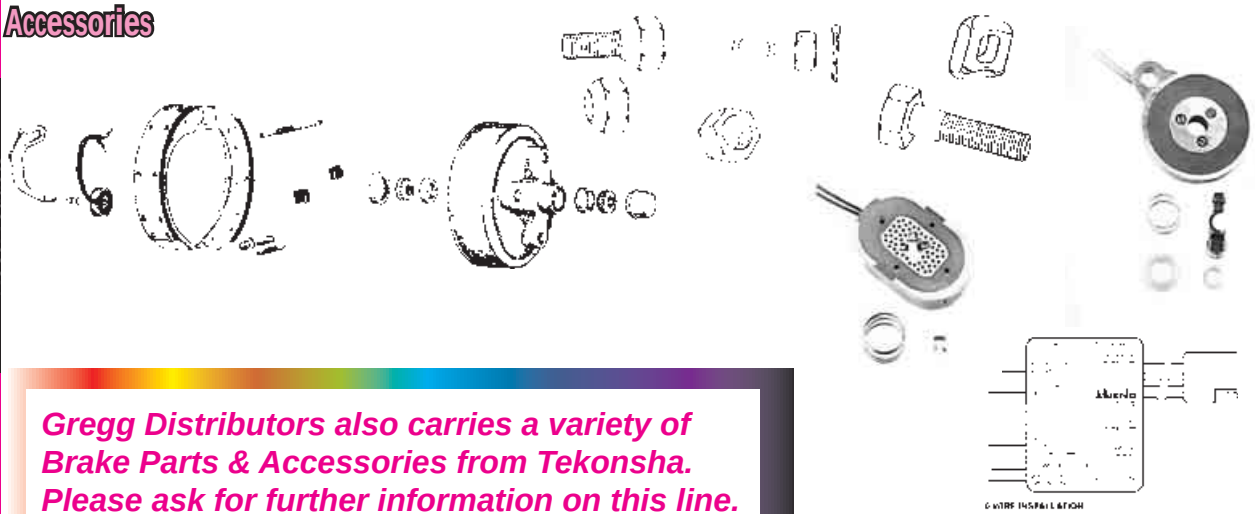
Designed to fit securely into the Breakaway battery cases. Patented temperature compensated design provides continuous recharge for all 12V battery systems with 4 amp (minimum) output. Provides maintenance-free assurance that breakaway batteries are always fully charged. Automatic shut-off feature will not permit battery to overcharge.
Part No. 2024, DC to DC heavy duty quick/maintenance (two stage) charger.



2024

For all 12V battery systems with a 4 amp minimum output. Charger includes automatic shut-off feature that prevents battery from overcharging. Ideal for seasonal storage and maintenance of recreational vehicles, motorcycles, snowmobiles, lawn tractors, and more.
Part No. 2025, AC to DC two stage/maintenance charger.

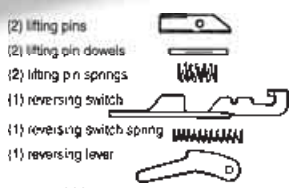
Accessories



Gregg Distributors also carries a variety of Brake Parts & Accessories from Tekonsha. Please ask for further information on this line.

JACKALL
Jacks

The Mechanical Jack - with the 8000 lbs. (3630 kg) capacity. LIFTS, PULLS, PUSHES OR HOISTS ANYTHING



1333

Part No. 36-J, 36" Jackall jack - 4 ton.
Part No. 48-J, 48" Jackall jack - 4 ton.

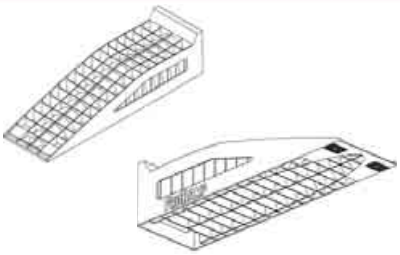
ACCESSORIES & REPLACEMENT PARTS

Part No. 1313, Jack rack — custom designed rack to mount your Jackall jack on trucks, pick-ups, campers, workshop walls, etc. Lockable to prevent theft (lock not included).
Part No. 1333, Jackall maintenance kit — everything needed to service the lifting mechanism. Includes instructions.
Part No. B-188, 36" steel beam.
Part No. B-187, 48" steel beam.
Part No. B-216, 3/16" x 2-1/4" lifting pin dowel.
Part No. B-07, Lifting pin spring.
Part No. B-08, Reversing spring.
Part No. C-04, 7/16" x 2-1/4" clevis pin.
Part No. C-05, 7/16" x 2-15/32" clevis pin.
Part No. B-343, Handle.
Part No. B-214, Lifting pin.
Part No. B-403, Base.
Part No. B-346, Reversing lever.
Part No. B-345, Reversing switch.
Part No. B-342, Large cast runner.
Part No. B-344, Pitman.
Part No. B-340, Small cast runner.

QQQ/2585

PRO RAMPS
Heavy Duty Poly Car Ramps

NEW!!



Part No. 4956-98, 12,000 lb. GVW capacity. 17° angle accommodates all vehicles. No assembly, no tools. No need for ramp extensions for low profile cars. Construction grid design prevents all slippage but allows water, snow or dirt to fall through for use in all weather. •A unique, modern look •Full colour retail packaging •One model for all vehicles •Lighter weight than steel •Easy to carry •Rust free •Excellent value

QQQ/2608

KOOLATRON®
Portable Coolers & Warmers

How Does Koolatron Work?

For cooling, heat is removed from the cooler by the thermoelectronic module. Current passing through the module draws heat from the cooler and forces it to flow to the external fins where it is blown away by the fan through the outer grille.
For heating, heat is taken from the outside air. It is combined with heat generated by the module and pumped into the case.
The miniature thermoelectric module replaces bulky piping coils, compressors, and motors used in conventional refrigerators. Environmentally friendly. Freon free!

KOOLATRON TRAVEL TOTE

A great cooler that can be taken anywhere such as in a car, picnic site, hotel, office, etc. For even more convenience, it plugs into any cigarette lighter, and the cord can be stored in the clear lid compartment when not in use. With shoulder strap. Holds up to 6 x 500 ml bottles. 13.97"W x 12.59"H x 7.48"D.
Part No. B-07.

KOOLATRON VOYAGER

The most popular electronic food and beverage carrier. This unit plugs into any 12V cigarette lighter plug and draws only 3 amps. Comes complete with a 10 ft. heavy duty power cord and weighs only 12 lbs. Will hold up to 40 - 12 oz. cans, and is tall enough to hold 2 litre bottles. 16"W x 15"H x 17"L.
Part No. P27.

Same as above unit but has slight case imperfections yet still carries the full Koolatron warranty – with a savings in cost.
Part No. SECONDP27.

KOOLATRON KOOL KARGO

This unit is engineered for travel comfort and ease of use with exterior dimensions to suit most modern vehicles. A split lid design promotes energy savings and greater accessibility. Interior circulation fan. Comes complete with dual basket type shelves/dividers and is capable of being used vertically or horizontally and is also tall enough to hold a 2 litre bottle of pop. 3 amp draw. 13½"W x 16"H x 19½"L.
Part No. P65.

KOOLATRON KOOL KADDY

This unit has all the same great features as the rest of Koolatron's line-up and has a heavy duty "brushless" motor with a 5 year warranty. Interior circulation fan. This unit also has an On-Off and Hot-Cold switch and a power indicator light. Vertical ribs allow the unit to be used in a vertical or horizontal position. This unit is tall enough to hold 2 litre bottles and will hold up to 48 - 12 oz. cans. 3 amp power draw. 16"W x 16"H x 21"L.
Part No. P75.

Accessories & Parts

AC15

Part No. AC15, Multi-purpose power adapter. Adapts 110/120V AC to 12V DC. Operates any Koolatron unit from any 110/120V receptacle. This versatile adapter can run with any 12V accessory with male lighter plug using less than 4.5 amp draw. Comes complete with 6 ft. input/output power cord.
Part No. A70020, Replacement motor for B-07 unit.
Part No. A70035, Replacement motor for P27 and P75 units.
Part No. A70025, Replacement 10 ft. power cord for units B-07, P27, P65, and P75.
Part No. A70030, Replacement latch kit for B-07 unit.
Part No. A70031, Replacement latch kit for units P27, P65, and P75.

Jerry Cans & Containers

GASOLINE JERRY CANS
Red.
Part No. J5S, 5 litre.
Part No. J102, 10 litre.
Part No. J105, 20 litre.

GAS/OIL JERRY CAN
6 litre gas/2.25 litre oil jerry can. Red.
Part No. J63.

MILITARY GAS JERRY CAN
20 litre military (tall) gas jerry can. Red.
Part No. RV520.

DIESEL JERRY CAN
20 litre diesel jerry can. Yellow.
Part No. D520.

KEROSENE JERRY CAN
20 litre kerosene jerry can. •Designed to meet the CARB portable fuel container spillage and emissions regulations •The cans are treated with Dupont SELAR to reduce vapour permeation through the walls of the can by up to 75% •Comes with a self-venting, self regulating spout that negates the requirement for a separate vent hole •Blue
Part No. K205.

WATER CONTAINER
20 litre water container. Blue.
Part No. W520.

PARTS & ACCESSORIES
Part No. JS310, Jerry can cap.
Part No. JS510, Jerry can vent cap.
Part No. FS610, Jerry can flexible spout.
Part No. FS610-DISPLAY, Jerry can flexible spout - carded.
Part No. JS710, Jerry can stopper.
Part No. JCA4-DISPLAY, Jerry can parts kit - carded.
Part No. JCSG, Jerry can spout gasket.
Part No. JS410, Jerry can solid cap, comes with gasket.

OUTBOARD MARINE TANKS
Red.
Part No. M12, 12 litre, no gauge.
Part No. M12BO, 12 litre, with gauge.

Part No. M25, 25 litre, no gauge.
Part No. M25BO, 25 litre, with gauge.

MARINE TANK PARTS & ACCESSORIES
Part No. MA1-12, Combination cap/fuel gauge for #M12 marine tank.
Part No. MA1-25, Combination cap/fuel gauge for #M25 marine tank.
Part No. MA1A, Vented fuel cap for #M12 and M25 marine tank.
Part No. FPA4-25, Fuel pick-up assembly for #M25 marine tank.
Part No. FPA4-12, Fuel pick-up assembly for #M12 marine tank.

"ODJOB" MIXER
Odjob mixes a wide variety of ingredients quickly and thoroughly for a perfect mix every time. In just 30 seconds, Odjob mixes 60 lbs. (approximately 30 kg) of concrete with no mess and little physical effort. Can also be used to mix mortar, grout, fertilizer, animal feed, soils, seeds, compost, and paint.
Part No. ODJOB.

GAS CONTAINERS

A sleeker, lower design profile, rounded corners and a lower center of gravity make Wedco containers difficult to tip over. Wedco gas containers come with an exclusive Versaflex pouring spout, a completely flexible spout for precise pouring, even at difficult angles. Red.

Part No. 81012.
5 litre gas container.

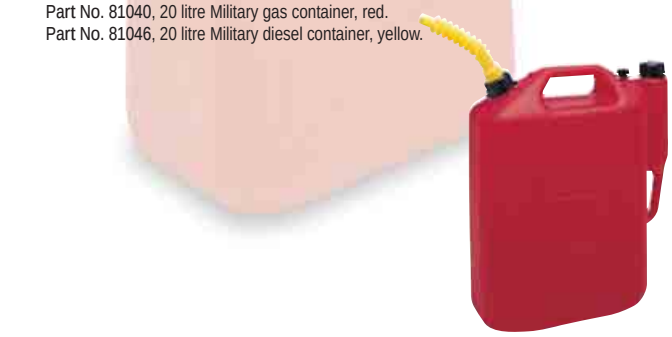
Part No. 81022.
10 litre gas container.

Part No. 81052.
20 litre gas container.

Part No. 81062.
25 litre gas container.

DIESEL & GAS MILITARY CONTAINERS

Attractive 20L version of classic Military-style army jeep gas can. Fits standard RV racks. Special "stay-dry" receptacles to store the Versaflex spout.
Part No. 81040, 20 litre Military gas container, red.
Part No. 81046, 20 litre Military diesel container, yellow.

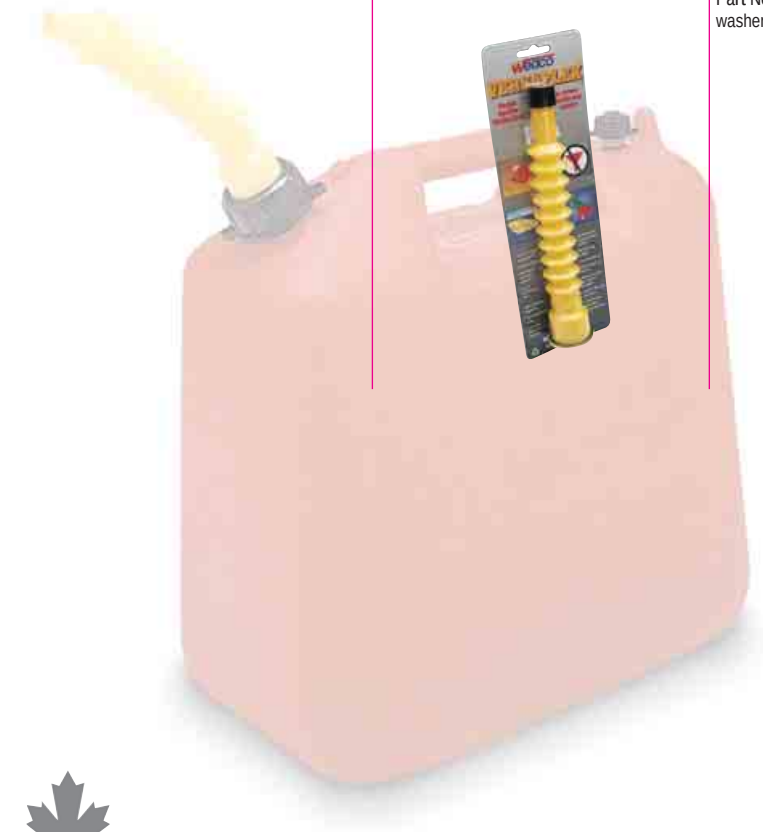


GAS & OIL CONTAINER

Keep chain-saw premix on one side; bar oil on the other with 2-in-1, separate compartment gas and oil reservoirs. C/W Versaflex spout. Red.
Part No. 81310, 5 litre gas /2.5 litre oil container.

VERSAFLEX FLEXIBLE SPOUT

With cap, yellow.
Part No. 84037, carded.



STOP FLO

Part No. 84038, Stop Flo for gas containers - carded, red/yellow.
Part No. 84039, Stop Flo for windshield washer and oil - carded, blue/yellow.

STOPPER/VENT/SCREW CAP

Yellow & black.
Part No. 84036, carded.

Wedco

CITATION

EEE/1615

Fuel Transfer Tank

Two way rotary pump for siphoning or dispensing. Works great for repairing today's hard to reach "in-tank" fuel pumps. Excellent for shops, car lots, salvage yards and rental outlets. The two wheel dolly design is easy to move. The unit is 42" high, 20" wide and 22" deep.
Features: •30 gal. capacity •Meets OSHA and FM standards •Flame arrestor neck - 2" filler •8 ft. clear vinyl hose •Ground wire clamp •14 gauge welded steel, powder coated
Part No. C530.

Part No. 813.

STOCK OPERATOR'S TIME BOOK
Complete with 20 sets of 2 pages. Large writing space. 8¼" x 5½". 90 per case.
Part No. 912.

TRUCKER'S SECRETARY CLIPBOARD
Plastic clipboard that fits over steering wheel. 16" x 16". 30 per case.
Part No. 1012.

DRIVER'S

Daily Log Books

CANADA/U.S.A. LOG BOOK

2 ply - 31 sets per book. This is a driver's daily log, monthly summary sheet, and driver's vehicle inspection sheet. 8½" x 5½". Bilingual. 192 per case.
Part No. CPB-L.

CANADA/U.S.A. LOG BOOK

2 ply - 31 sets per book. This book is similar to log book #CPB-L at left, but is larger and all information is contained on one side of a page. 8½" x 11". Bilingual. 50 per case.
Part No. 63LD.

DAILY LOGBOOK COVER

For use with CPB-L log book. Foam padded, with heavy duty vinyl and hardware construction. Space for two logbooks. Aluminum line guide fixture, two snap closure. Insert for credit cards, etc. 7" x 11".
Part No. 50-5072-00.

HOBI

Animal Alerts

Widely Used Throughout North America - After years of development this system has been proven to be at least 85% effective in numerous road and laboratory tests. These highly efficient results have prompted many corporations and police departments throughout Canada and the United States to equip the vehicles in their fleets with the Hobi Ultra Sonic Animal Alert. These corporations feel that this has saved them thousands of dollars and eliminated unnecessary injuries and down time by avoiding wildlife collisions.
Prevent Vehicle/Wildlife Accidents - Every year, millions of dollars in property damage, needless pain, suffering and death occurs on our highways due to vehicle/wildlife collisions. Now you can assure yourself that you will not become one of these startling statistics with the installation of the Hobi Ultra Sonic Animal Alert system.
Protect Your Family While Travelling - Collisions with wildlife can be dangerous to you and your family. When you have the Hobi Ultra Sonic Animal Alert installed, your worries about your family's safety are minimized. The system works automatically with no switches to remember to turn on.
Feel Safer While Driving By Day or Night - With the Hobi Ultra Sonic Animal Alert installed on your vehicle, wildlife is automatically warned away from traffic - day or night! At 50 km/hr (30 mph) or faster, a high frequency ultra sonic sound (16,000 - 20,000 hertz) is transmitted and is audible to wildlife as far as 400 metres (1/4 mile) away, but is not heard by the driver or pets inside the vehicle.
Safety In A Few Seconds of Installation Time - When you receive your Hobi Ultra Sonic Animal Alert system, it is fully assembled and is very simple to install so you can be protected right away! The system comes ready to mount with a self adhesive base. Counter sunk holes are also provided for a more rugged screw mounting.

Part No. 95-400, Blister card of 2 black Hobi Animal Alerts.
Part No. 96-400, Blister card of 2 chrome Hobi Animal Alerts.

•Warns wildlife up to 400 metres away with ultrasonic waves
•Works on cars, trucks and motorcycles
•Effective at speeds as low as 50 km/h
•Operates in the 16,000 - 20,000 hertz range -- Too high for humans but gives a definite warning to animals
•Easily and quickly mounted

CAR-FRESHNER®

Automobile Air Freshener Products — "Little Trees"

Quality air fresheners for your vehicle! Available in a HUGE assortment of fragrances. Your choice: buy them by the "Handi-Strip", (24 per strip); by the Display Rack, (144 per display); or buy them one by one. Pump Sprays available as an alternative to a hanging freshener.

US CHEMICAL

Slip-N-Grip® Seat Covers

Stays in place during servicing; protects against dirt, grease, etc.
Part No. 70509, Box of 125 Slip-N-Grip seat covers.

ORIGINAL CALIFORNIA WATER BLADE

•Patent pending T-Bar edge whisks away water •Soft medical grade silicone blade will not scratch •15 times less friction than terrycloth towels •Flexible silicone blade molds to the shape of the surface •Virtually eliminates messy towels and chamois •Easy to use; molds to contours; fast and efficient; works on any surface •12" blade
Part No. 20002.

ORIGINAL CALIFORNIA DRY BLADE

•All the features of the #20002 Water Blade in a slightly smaller format of 10¾" makes for a more affordable version •No lint, no towels to clean; no chamois to wring
Part No. 20014.

ORIGINAL CALIFORNIA HEAVY DUTY WATER BLADE KIT

•All the features of the #20002 Water Blade in a wider (18") version to efficiently remove water in large, hard-to-reach applications (trucks, trailers, SUVs, vans, boats, windows, etc.) •This kit includes an angle adjusting handle adapter and a three section telescoping handle which extends 25" to 60"
Part No. 20039.

ORIGINAL CALIFORNIA JELLY BLADE

Ultra flexible blade and handle mold to any surface without scratching or streaking. Patented "T-Bar" edge made of medical grade silicone removes 90% of standing water in 1/3 the time of a sponge or squeegee. Out-performs all other drying devices. 12" wide.
Part No. 20080.

NEW!!

ORIGINAL CALIFORNIA CAR DUSTER

•Removes dust and surface dirt with a quick "once-over" for a vehicle to look freshly washed •Special baked-on wax treated cotton fibre strands "lift" dust without scratching paint •Lasts for years and years •No re-treating wax required •The dirtier it gets, the better it works! •Includes handy carrying case •26" length for long reach and coverage
Part No. 62443.

ORIGINAL CALIFORNIA SUPER DUSTER CAR DUSTER

•The same features as the Car Duster #62443, in a larger 30" version with full 360° round mop for greater exposure •Includes carrying case
Part No. 62557.

ORIGINAL CALIFORNIA DASH DUSTER

•The same properties as the Car Duster #62443 above in a handy dash sized unit •For auto and home interior use •Never bother with dust cloths or feather dusters again •12"
Part No. 62448.

ORIGINAL CALIFORNIA WHEEL DUSTER

Use to remove annoying brake dust and much more! Exclusive prong-type duster closes around objects to clean both sides at the same time! Also great for roof racks and automotive grilles and can be washed and re-used hundreds of times.
Part No. 96630.

NEW!!

ORIGINAL CALIFORNIA MICROMITT

•Absorbs 7-10 times its weight in water (means more suds!) •Soft microfibres will not scratch paint — microfibre is 100 times finer than human hair •Lint-free washing or dusting •Traps dust and dirt •Washable •Durable •Use as a wash mitt when wet and as a duster mitt when dry and clean
Part No. 22012.

Car Care Products

ORIGINAL CALIFORNIA MICRO FIBRE INTERIOR DETAIL MITT™

Here's the perfect device for quickly and efficiently detailing the interior of any vehicle. This mitt gets into those nooks and crannies that seem impossible to clean. Great for dusting dashboards, instruments, consoles, etc. Lint free, streak free, cleans without chemicals.
Part No. 22100.

"MR. THIRSTY"™ SUPER ABSORBENT SYNTHETIC TOWEL

Absorbs water like nothing else. It's great for drying those hard-to-reach components like grilles, mirrors, and recessed areas. Mr. Thirsty™ doesn't need to be wrung out after each pass, because it holds up to five times its weight in water. After using The Original California Water Blade™ to dry your car, just use Mr. Thirsty™ to collect any drips or spills.
Part No. 21003, 2-pack.

ORIGINAL CALIFORNIA MICRO FIBRE MULTI-USE CLOTH

Thanks to advanced micro fibre technology, it's now possible to wash, dry or dust any vehicle more efficiently than with ordinary towels, chamois, etc. The micro fibres excel in both wet and dry use. Cloths are 16" x 16". Choose from a wide assortment of packaging options. There's something for everyone! •Dusts, washes, dries •Buffs and shines •Lint free and streak free •Won't scratch paint or clear coat •Cleans without chemicals
Part No. 22104, 3-pack Multi-Purpose Cloths.
Part No. 22108, Polishing and Waxing Cloth, green.
Part No. 22109, Washing and Drying Cloth, yellow.
Part No. 22017, 6-pack Multi-Purpose Cloths, two of each colour: blue, yellow, green.

ORIGINAL CALIFORNIA MICRO FIBRE GLASS CLEANING CLOTH

Designed specially to clean glass — with or without the use of chemical cleaners — this glass cleaning cloth is a must for anyone who appreciates spotless, streak-free windshields and mirrors. Easily folds up for storage in glove compartment or console. Cuts through dirt and film. Wash and re-use hundreds of times.
Part No. 22102, 2-pack.

ORIGINAL CALIFORNIA MICRO FIBRE CLEAN & POLISH PLUSH TOWEL

New dual-weave design optimizes your efforts! Use this towel for every step of the washing/waxing process to achieve maximum performance with minimum elbow grease. Woven side is perfect for waxing and cleaning; sheared side is ideal for final finish and polishing. 680 g heavy duty micro fibre. Absorbs 7 - 10 times its weight in water. 24" x 16". Can be easily washed and re-used hundreds of times.
Part No. 22200.

ORIGINAL CALIFORNIA MICRO FIBRE SUPER SPONGE

Combining a micro fibre cloth exterior with a highly absorbent sponge, the Original California Micro Fibre Super Sponge is a handy 2-in-1 device that's great for both washing or drying any car, truck, motorcycle, RV or boat. Shaped for easy handling. Super sudsing, super absorbent. Wash and re-use hundreds of times. Won't scratch paint or clear coat.
Part No. 22103.

Clean-Rite

Logistic Accessories

'E' TRACK FITTING BOARD HOLDER
•Holds 2" x 4" and 2" x 6" lumber •WLL depends on board or beam used •Zinc plated
Part No. 01100.

ROPE RING w/ 'E' TRACK FITTING
•1-5/16" I.D. ring with spring action security latch •6000 lbs. min. breaking strength •2000 lbs. working load limit •Zinc plated •With E track fitting
Part No. 01090.

Light/Medium Duty Cargo Control

NOTE: Safe Working Load Limit is 1/3 Maximum Load

MOTORCYCLE "SOFT" TIE-DOWN - CAM BUCKLE
Built-in soft tie allows the user to hook high in the fork of motorcycles. Can still be used with the hooks if necessary. 1" x 6 ft., 750 lb.
Part No. 05727, Pack of 2, red.

MOTORCYCLE "SOFT" TIE-DOWN - TOOTHLESS BUCKLE
Built-in soft tie allows the user to hook high in the fork of motorcycles. Can still be used with the hooks if necessary. 1" x 6 ft., 1200 lb.
Part No. 05729, Pack of 2, red.

MOTORCYCLE TIE DOWN STRAP
Nylon motorcycle tie down strap, c/w cam buckle and hooks. 1" x 6 ft., 750 lb.
Part No. 05700, Pack of 2, black.

ATV TIE DOWN STRAP
Nylon ATV tie down strap, c/w cam buckle and hooks. 1" x 5 ft., 750 lb.
Part No. 06299, Pack of 3, red.
Part No. 06300, Pack of 3, black.

ATV TIE DOWN ASSIST
Nylon ATV tie down assists. 1" x 18", 2000 lbs. maximum load.
Part No. 06304, Pack of 2, red.

ROPE RATCHET
Simply attach hooks and pull loose end of rope to the secure tightness you need. Releases with a thumb lever.
Part No. 01800, ¼" x 8 ft., 150 lb.
Part No. 01801, 3/8" x 8 ft., 250 lb.
Part No. 01805, ½" x 12 ft., 500 lb.

POLYPROPYLENE HANDY STRAP
Polypropylene handy strap, c/w ladder lock buckle. (Assorted colours).
Part No. 08200, Pack of 2, 1" x 6 ft.

POLYPROPYLENE ROOF RACK STRAP
Polypropylene roof rack strap, c/w cam buckle and gutter hooks. 1" x 7 ft.
Part No. 58100, Black.

POLYPROPYLENE TRUNK STRAP
Polypropylene truck strap, c/w cam buckle and wire hooks. 1" x 5 ft.
Part No. 02500, Red.

POLYPROPYLENE LASH STRAP
Polypropylene lash strap, c/w cam buckle. 1" x 10 ft.
Part No. 02600, Red.

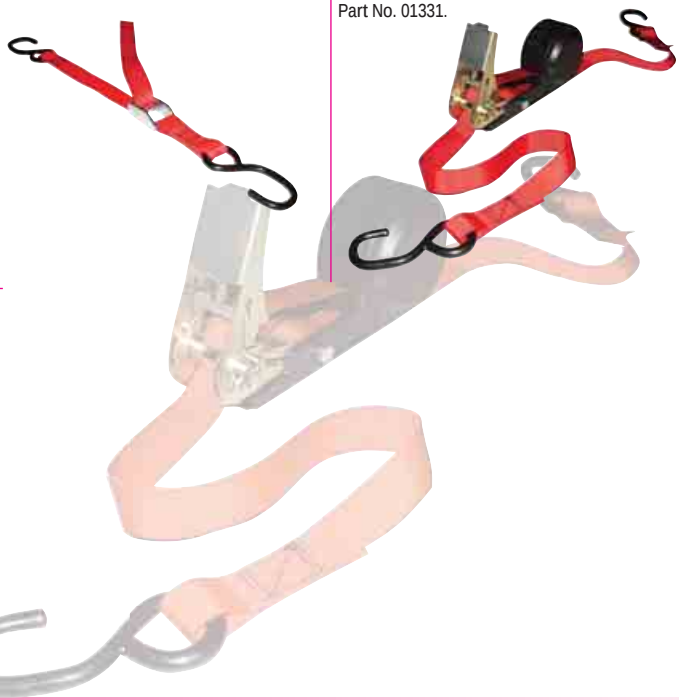
POLYPROPYLENE LASH STRAP
Polypropylene lash strap, c/w ratchet. 1" x 15 ft., 500 lbs. maximum load.
Part No. 01401, Red.

POLYPROPYLENE RATCHET STRAP
Polypropylene ratchet strap, c/w hooks. 1" x 15 ft., 500 lbs. maximum load.
Part No. 01400, Red.

POLYPROPYLENE LASHING STRAP
Polypropylene lashing strap c/w cam buckle. "J" hook at one end and sewn loop at the other end. Sewn loop ideal for use with screw pin shackle or 'U' bolt to affix one end. Great for use on tank trucks for securing hoses. 1" x 6 ft., 100 lbs. maximum load.
Part No. 01101, Red.

POLYPROPYLENE CAM STRAP
Polypropylene cam strap c/w cam buckle and hooks. 1" x 10 ft., 300 lbs. maximum load.
Part No. 01100, Red.

RETRACTABLE RATCHET STRAP
Patented system uses a storage wheel to store the excess web not required during use. 1" x 10 ft., 900 lb.
Part No. 01331.



NYLON CAM STRAP
Nylon cam strap, c/w cam buckle and hooks. 1" x 15 ft., 750 lbs. maximum load.
Part No. 01200, Black.

NYLON RATCHET STRAP

TIRE STRAP
Adjustable tire strap, 3300 lb. safe working load limit. Fits most tires from small cars to large 4 wheel drive trucks. 2" double "J" hook on short end.
Part No. 58522, Tire strap with ratchet.
Part No. 08518, Strap assembly only.

58522

08518

POLYESTER CAR/MACHINERY TIE DOWN
Polyester car/machinery tie down strap, c/w twisted safety hooks. 2" x 7 ft., 10,000 lbs. maximum load. Blue with red stripe.
Part No. 08504.

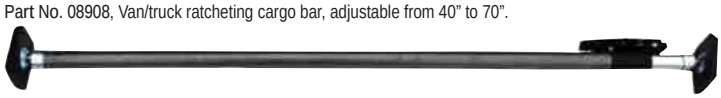
NYLON AXLE STRAP
Nylon axle strap, c/w welded D-rings. 2" x 24", 5000 lbs. maximum load. Blue.
Part No. 08506.

POLYESTER AXLE STRAP
Polyester axle strap, c/w forged D-rings. 2" x 24", 10,000 lbs. maximum load. Blue w/ red stripe.
Part No. 08505.

CARGO BARS
Part No. 08907, Deluxe pick-up cargo bar, lever action, adjustable from 60" to 75".

Part No. 08906, Deluxe van/truck cargo bar, lever action, adjustable from 80" to 104".

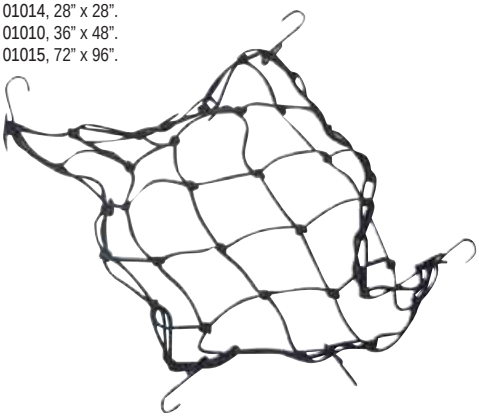
Part No. 08908, Van/truck ratcheting cargo bar, adjustable from 40" to 70".

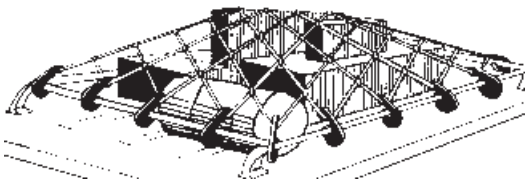


Part No. 08909, Industrial ratcheting cargo bar, adjustable from 81" to 105".

Part No. 08910, Van/truck twist type cargo bar, adjustable from 49" to 70".

CARGO NETS
Smaller units are ideal for ATVs, motorcycles, bicycles and snowmobiles. Medium to larger units are great for truck racks, truck boxes, etc.
Part No. 01013, 15" x 15".
Part No. 01016, 15" x 30".
Part No. 01014, 28" x 28".
Part No. 01010, 36" x 48".
Part No. 01015, 72" x 96".





ZINC PLATED WIRE ANCHOR
Zinc plated wire anchor with solid rubber base.
Part No. 01004,
Pack of 2.

CHROME PLATED ANCHOR
Chrome plated anchor with solid rubber base.
Part No. 01005,
Pack of 2.

PICK-UP ANCHOR
Ford/Dodge (1997 and up) pick-up anchor.
Part No. 01011,
Pack of 2.

4 BOLT ANCHOR RING
4 bolt surface mount anchor ring, 2000 lbs. maximum load.
Part No. 09113.

2 BOLT WIRE ANCHOR RING
2 bolt surface mount wire anchor ring, 1200 lbs. maximum load.
Part No. 09108, Pack of 2.

RECESSED ANCHOR RING
Surface mount with recessed anchor ring. 1200 lbs. maximum load.
Part No. 09110.

RECESSED ANCHOR RING
Recessed anchor ring, 1200 lbs. maximum load.
Part No. 09109.

HEAVY DUTY ANCHOR RING
½" heavy duty surface mount anchor ring. 11,000 lbs. maximum load.
Part No. 09111.

NOTE: Safe Working Load Limit is 1/3 Maximum Load

REPLACEMENT SECTIONS FOR NORTRAC TRUCK CHAINS

Part No. T126515, For group 510; 15 links.
Part No. T126517, For group 513/515; 17 links.
Part No. T126519, For group 521/525; 19 links.
Part No. T126521, For group 522/529; 21 links.
Part No. T126523, For group 523/530; 23 links.
Part No. T126525, For group 540; 25 links.

Heavy Equipment Chains — Double Diamond Special Net Chains

•Constant traction, tire protection, and smooth ride are the characteristics of the Double Diamond double studded net chain •The large round studs continuously penetrate the terrain to provide the needed stability in the harshest conditions •The entire chain is alloy steel throughout, fully cased hardened and annealed after assembly •SOLD IN PAIRS

PART NO.	TIRE SIZE	SIZE	WEIGHT
T174609	23.1 x 26	16 mm (5/8")	862 lbs.
T174618	24.5 x 32	16 mm (5/8")	1005 lbs.
T174640	30.5 x 32	16 mm (5/8")	1047 lbs.
T174940	30.5 x 32	19 mm (3/4")	1390 lbs.

Heavy Equipment Chains — Floating Ring Dozer Chains

•Self cleaning action and stationary manoeuvrability are the advantageous characteristics of the floating ring •Oversize components in the critical stress areas ensures long life •The entire chain assembly is alloy steel, fully case hardened and annealed after assembly •SOLD IN PAIRS

PART NO.	TIRE SIZE	SIZE	WEIGHT
T176638	23.1 x 26	16 mm (5/8")	737 lbs.
T176660	24.5 x 32	16 mm (5/8")	858 lbs.
T176670	30.5 x 32	16 mm (5/8")	878 lbs.
T176970	30.5 x 32	19 mm (3/4")	1229 lbs.

Heavy Equipment Chains — Multi-Grip Chains

•Loaders, graders and farm tractors working in tough conditions are the intended users of the Multi-Grip design •Sections are case hardened individually before assembly •11 mm chains have 13 mm studs and 13 mm chains have 14 mm studs •SOLD IN PAIRS

PART NO.	TIRE SIZE	SIZE	WEIGHT
T179135	14 x 24/25	11 mm (7/16")	308 lbs.
T179138	16 x 24	11 mm (7/16")	365 lbs.
T179338	16 x 24	13 mm (1/2")	440 lbs.
T179301	18 x 25	13 mm (1/2")	462 lbs.
T179112	17.5 x 25	11 mm (7/16")	299 lbs.
T179314	20.5 x 25	13 mm (1/2")	469 lbs.

NORSE OUTBACK

NRS/2943

ATV Studded Chains

Both #T168610 and T168615 may fit the sizes marked "*" depending on the brand and design of ribs. In general, the T168615 is the largest and longest chain, so on brand new tires Norse recommends the T168615 be used for these sizes. Studs on every second link provide best ground penetration. Diamond pattern provides excellent tight fit to new or used tires. 6 mm cross chain.

PART NO.	TIRE SIZE
T168605	22 x 8 x 10; 22 x 10 x 10; 22 x 11 x 8; 23 x 8 x 12; 23 x 10 x 10; 23 x 10 x 12; 24 x 9 x 11; 24 x 9 x 12; 25 x 8 x 12

SECURITY CHAIN CO.

SEC/3512

Tire Traction Products

Whether the job is clearing snow-clogged city streets or patrolling icy mountain roads, there's no substitute for the safety and control of effective winter traction products. Security Chain Co. offers a variety of products to meet your winter traction challenges.

SHUR GRIP Z BY SCC

The most popular choice for passenger cars. Rubber tensioners insure easy installation and eliminate the need to stop and re-tighten. ABS compatible. Lightweight and smooth ride. Greatly improves overall vehicle handling at a reasonable price. Great for vehicles with limited clearance.

Cable Chain

SUPER Z LT.

Offers the same durability and dependability as the other Z products, but is intended for heavier duty applications. Features more aggressive cross members than Shur Grip Z. One of the few light truck products on the market that meets S.A.E. Class "S" specifications.

Cable Chain

Super Z6

Super Z6 was designed for cars, pick-ups, and SUVs with restricted clearance around the drive tires. Super Z6 requires only 6.33 mm (.25") of sidewall clearance to operate. Diagonal crossmember pattern provides outstanding traction and durability. A split outside cable with two fastening positions allows for easy installation without moving the vehicle, and there's no need to stop and retighten. Compatible with all electronically monitored brake systems and traction control.

NEW!!

Traction coils are manufactured from alloy steel. Requires less space than SAE Class "S" clearance requirements.

Super Z8

Super Z8 was designed for SUVs, and light/medium duty trucks with restricted clearance around the drive tires. Recommended for vehicles under 20,000 lbs. loaded weight (GVW). Super Z8 requires only 8.2 mm (.32") of sidewall clearance to operate. Diagonal crossmember pattern provides outstanding traction and durability. A split outside cable with two fastening positions allows for easy installation without moving the vehicle, and there's no need to stop and retighten. Compatible with all electronically monitored brake systems and traction control. Traction coils are manufactured from alloy steel. Requires less space than SAE Class "S" clearance requirements.

NEW!!

The Benefits of "Z" Cable Chains — Shur Grip, Super ZLT, etc.

•"Z" style maintains constant contact with road surface •Greater durability •Superior starting, stopping and cornering performance •Easier installation and removal •Lower operating space requirements around drive tires •Lower potential for vehicle damage •Compatibility with electronic "Traction Management Systems" (anti-lock brakes, all-wheel-drive, etc.)

PLEASE NOTE: Tools and accessories are also available in this line.

ALLOY RADIAL CHAIN BY SCC

Radial Chain was the first brand name cable in winter traction products. Spring rollers covering the cross members eliminate the problem of flattened rollers while adding more bite to snow and ice covered roads. Lightweight, simple construction offers a smooth, quiet ride.

Ladder Style Cable Chain with Manganese Alloy Steel Spring Cross Members

QUIK GRIP

Traditional steel link chain. Quick Grip is available in passenger sizes as well as light truck and heavy duty truck applications. Available in either bar reinforced or non-reinforced styles. Cam locking tighteners are also an option on light truck and truck sizes.

Type Twin Grip

For farm tractor and industrial tires type R1, R2, R3, R4. Adjacent cross chains interconnected to prevent cross chains from dropping into the grooves of the tractor tread.

Clearance Definitions

SAE CLASS "S"
Cable chains or link chains for vehicles with restricted clearances.

SAE CLASS "U"
Passenger tire chains that use light truck components, as well as some light truck chains.

SAE CLASS "W"
Regular tire chains for vehicles with non-restricted wheel well clearances.

SECURITY CHAIN CO.
Tire Traction Products

QUESTIONS & ANSWERS
"The proof is in the tracks..."

Snow tracks are the simplest way to demonstrate a product's traction ability. As you can see from the diagram below, ladder-style cable or link chains offer the least amount of traction. These types of products have the biggest gaps in tire coverage and they are the least effective with ABS systems. (When using a ladder-style product, the vehicle is constantly trying to manage a traction/no traction pattern instead of the continuous traction other devices can provide.) Ladder-style traction products also create the most noise during use. Again, this is because the cross members are not continuous, so every time a cross member makes contact with the road surface there is a "thumping" sound.
The second set of tracks illustrates a continuous diagonal cross member pattern like SCC's "Z" chain family. This pattern has proven to be one of the most effective traction patterns under most winter driving conditions. The continuous pattern ensures there is always a cross member in contact with the road surface and the tread face of the tire at the same time. The diagonal design affords a smooth transition from cross member to cross member and sends true signals to the monitors of the Traction Control and/or ABS systems. Traction Control and/or ABS systems don't have to compensate for a gap or loss in traction as with other styles of traction products. Additionally, there is no cross member "thump", the noise that's normally associated with use of a winter traction product.

WINTER TRACTION PRODUCTS AND WINTER WEATHER DRIVING TIPS

•Always carefully read the owner's manual and the installation instructions before installing any winter traction product. All winter traction products wear out and eventually break with use. They also break due to misfit, misapplication or misuse. If this should happen, stop immediately and repair or remove the broken area to avoid any damage to your vehicle.

•Always set your vehicle's emergency brake before installing any winter traction device under any conditions.

•Always pre-fit your traction products to your vehicle before they are actually needed. While winter traction products are uniform in size, tires are not. They vary in size by manufacturer, age, tread, and type. Snow tires may require a larger traction product than a like-sized highway tire. The same is true for larger, more aggressive tires such as mud terrain and off-road tires.

WHY SHOULD I CHOOSE ONE WINTER TRACTION PRODUCT OVER ANOTHER?
These are the factors to consider when choosing a winter traction product:

CLEARANCE REQUIREMENTS: Nearly all passenger cars, many full size pick-ups and most sport/utility vehicles (SUVs) are currently built to accept only a Class "S" clearance winter traction product. SCC cable traction products for passenger cars do meet Class "S" clearance requirements. Quick Grip "PL" link tire chains also meet Class "S", when installed correctly. When you buy a winter traction product, keep in mind that an SCC cable chain will need less space to operate than any conventional link-style chains.

EASE OF INSTALLATION: Given a choice, most of us would prefer to stay clean and spend as little time as necessary installing a winter traction product. SCC's Z-Chain, Shur Grip, and Super Z products are manufactured with that in mind and are easier and faster to install than conventional products.

DAMAGE POTENTIAL: Paint scratches and other damages are likely if vehicles continue to be driven with a broken winter traction product mounted on the tire. Virtually all cable constructed winter traction devices present much less vehicle damage potential (when broken during use) than any winter traction device made from steel chain "links".

SECURITY CHAIN CO.
PRODUCT TRACTION COMPARISONS

Good

Quik Grip "PL" (Conventional Link Chain): Good for on and off road, steep grades, deep snow, back roads, unplowed side streets, etc.

Radial Chain/SC (Cable Chains): Good for on road use, packed snow, icy highways, side streets, etc.

Better

Shur Grip Z: (Cable Chains): Better for use on road, steep grades, deep snow, packed snow, icy roadways, and is compatible with traction control and/or ABS systems.

Alloy Radial Chain: Better for use on road, steep grades, deep snow, packed snow, icy roadways, and is compatible with traction control.

Best

Z-Chain (Cable Chain): Best for use on-road, steep grades, deep snow, packed snow, icy roadways, and is compatible with Traction Control and/or ABS systems. Outstanding all-around traction performance with unequalled speed and ride capabilities for use on emergency response equipment.
