DURABILITY: All winter traction products are destined to break during the course of normal use. No traction device will last forever. Driving speed and/or spinning directly impacts a traction product's useful life. Individual drivers, road conditions and driving distances also have an impact on how long a traction product will last.

TRACTION PERFORMANCE: Increased stopping, starting, and cornering abilities are the least anyone should expect from using a winter traction device. All SCC winter traction products provide a useful increase in traction on snow and ice, compared to all-season radial tires without traction devices.

The following figures represent average life expectancy of various types of SCC product cross members and BARE ROAD at 50 km/h, before breakage. (These are NOT WARRANTIES and ACTUAL MILEAGE MAY DIFFER.) *Impact count refers to the number of times a single cross member will hit the road for the mileage shown.

PRODUCT	AVERAGE MILEAGE	IMPACT COUNT*
Quik Grip "PL" (Conventional Link Chain)	110 km	55,000
Radial Chain/SC (Cable Chain)	220 km	105,000
Shur Grip Z (Cable Chain)	360 km	175,000
Z-Chain (Cable Chain)	600 km	300,000

Passenger Car & Light Truck Tire Applications

Check your owner's manual for information regarding the use of tire chains! These product applications show the best choice for most tires. Due to variations between tire manufacturers, the best choice for your tire may be different. To be sure, traction products should be fitted to the tire before actual use is required. Please refer to your vehicle owner's manual for any traction product limitations. Part Numbers shown in *bold italic pink typeface* will meet or exceed SAE Class "S" clearance requirements. Please also note the chart is listed by TIRE SIZE not Rim Size.

SECURITY CHAIN CO.

Commercial & Heavy Duty Tire Applications

These product applications show the best choice for most tires. Due to variations between tire manufacturers, the best choice for your tire may be different. To be sure, traction products should be fitted to the tire before actual use is required. Please refer to your vehicle owner's manual for any traction product limitations. Product stock number shown in *bold italic pink typeface* will meet or exceed SAE Class "S" clerance requirements.

LINK CHAIN TIGHTENERS — NON-CAM APPLICATIONS

•Sold in pairs.

Part No. QG20069, For use with large truck tires, rubber with 5 metal hooks.
Part No. QG20070, For use with all passenger tires, rubber with 5 metal hooks.
Part No. QG20071, For use with light truck tires, galvanized chain and spring.
Part No. QG20072, For use with medium truck tires, galvanized chain and spring.
Part No. QG20073, For use with large truck tires, galvanized chain and spring.
Part No. QG20074, For use with light truck tires, rubber with 5 metal hooks.

SIDE CHAIN FASTENERS

Part No. QG20060, Side chain fastener, P & RP passenger and light truck sizes. Types P, RP, LSH, RLS, DH.
Part No. QG20065, Side chain fastener, 9/32", 5/16" side chain. Types SH, DTH, RS, RDT, DH, SM, DTM, CTO, OTR, FTH, Twin Grip.
Part No. QG20066, Side chain fastener, 3/8", 7/16" side chain. Type OTR.

QG20060

QG20065

QG20066

CROSS CHAIN END HOOKS

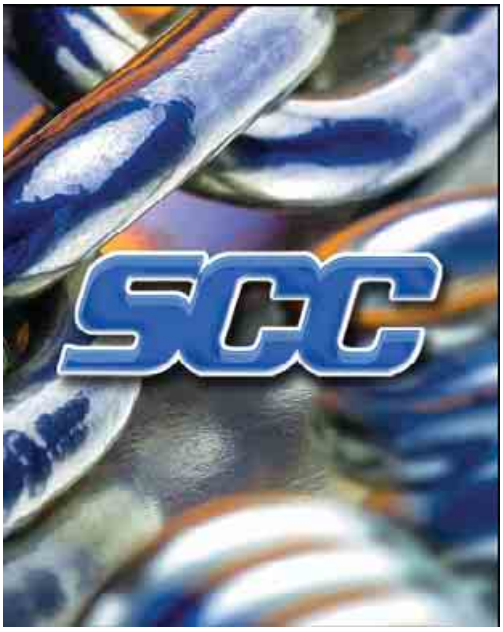
Part No. QG20051, 1/4" cross chain end hook, types LSH, RLS, DH. Inside length 1.562".
Part No. QG20054, 3/8" cross chain end hook, types SM, DTM, OTR, CTO, CAM-HD, Twin Grip. Inside length 1.750".
Part No. QG20055, 13/32" cross chain end hook, type FTH. Inside length 1.750".
Part No. QG20058, 7/16" cross chain end hook, types OTR, FTH. Inside length 2.375".
Part No. QG20059, 1/2" cross chain end hook, type OTR. Inside length 2.716".

STRAIGHT LINK WELDED SIDE CHAIN, NON-HARDENED

Part No. QG30040, 7/32" side chain, types LSH, DH, RLS. Inside length side chain link 1.390".
Part No. QG30070, 5/16" side chain, types SM, DTM, OTR, FTH, CTO-RS, CTO-RDT, Twin Grip. Inside length side chain link 1.921".
Part No. QG30090, 3/8" side chain, types FTH, OTR. Inside length side chain link 2.172".
Part No. QG30100, 7/16" side chain, type OTR. Inside length side chain link 2.250".

TIRE CHAIN PLIERS, LIGHT TRUCK & TRUCK

Part No. QG20094, Tire chain pliers, 13" long for light truck usage.
Part No. QG20093, Tire chain pliers, 33" long for truck usage.
Part No. QG20092, Replacement jaws for QG20093 chain pliers.
Part No. 0390MLN, Heavy duty production chain pliers.
Part No. 0313LKN, Replacement jaw set for 0390MLN chain pliers.



SCC
Security Chain Co.

TIRE CHAINS FOR WINTER SAFETY

NORSE
Chain Hardware

FORGED PIN COUPLERS
•Fastener for net chains. •Also used for repair and extending chains without welding.
Part No. A481010, 10 mm pin coupler.
Part No. A481013, 13 mm pin coupler.
Part No. A481016, 16 mm pin coupler.

SIDE CHAIN BOOMER — WITH LOCK BACK SHACKLE
•For use on "H" pattern and tractor chains. •Also used on heavy duty studded chains, 9 mm and 10 mm. •Complete with lock back shackle.
Part No. T246106, 7 mm and 8 mm boomer; 6 mm x 16 cm.
Part No. T246108, 9 mm and 10 mm boomer; 8 mm x 19 cm.
Part No. T246109, 11 mm and 13 mm boomer; 9 mm x 21 cm.

SIDE CHAIN BOOMER — WITH LOCK BACK LINK
•For use in truck chains 7 mm and 8 mm. •Complete with lock back link.
Part No. T246320, 6 mm boomer; 13 cm long.
Part No. T246330, 7 mm and 8 mm boomer; 6 mm x 15 cm long.

SIDE CHAIN "C" HOOK FASTENER
Part No. T246101, #1 "C" hook fastener, 4 - 5 mm.
Part No. T246102, #2 "C" hook fastener, 5 - 7 mm — used on 6 mm and 7 mm side chain.
Part No. T246103, #3 "C" hook fastener, 8 - 9 mm — used on 8 mm and 9 mm side chain.

TIRE CHAIN TOOL
•Opens and closes cross chain hooks.
Part No. T249610, Forged steel pliers, 18".
Part No. T249640, Replacement head.

TIGHTENING CAM
Part No. T248002, 8 mm tightening cam c/w link.

CAM TIGHTENING TOOL
Part No. T248001, Cam tightening tool - (8 mm); for use with truck chains.
Part No. T125502, Cam tightening tool - (5 mm); for use with "Nortrac" chains.

SIDE CHAIN — STRAIGHT LINK
•Moderately hardened, polished finish. •Camside has 1 cam every 10 links.
Part No. T2420700, 7.0 mm side chain, 295 feet per box.
Part No. T2420800, 8.0 mm side chain, 197 feet per box.
Part No. T2420900, 9.0 mm side chain, 197 feet per box.
Part No. T2421000, 10.0 mm side chain, 197 feet per box.
Part No. T2421100, 11.0 mm side chain, 164 feet per box.
Part No. T2421300, 13.0 mm side chain, 164 feet per box.
Part No. T2420870, 8.0 mm camside chain, 197 feet per box.

TELLEFSDAL

TIRE CHAIN
Fasteners — Heavy Duty

Part No. CH-1000, Clevis hook.
Part No. BH-1000, Boomer hook.
Part No. HO-1000, C hook.

GENERAL PURPOSE CLEVIS

Hot forged with heat treated round pin for extra strength. 3/4" body and pin. Working load limit 10,000 lbs.
Part No. M465.

TRACTOR DRAWBAR GRAB HOOK

Hot forged high strength steel. Fits all tractor drawbars, old or new, front or back, to and including 1-5/8" thick. Use with chain sizes 5/16" to 1/2" including G40 high test chain. Working load limit 9,200 lbs.
Part No. M834.

M2X834 PINS

To fit M834 tractor drawbar grab hook with hairpin lock. 3/4" diameter, 2½" usable length.
Part No. M2X834.

TRACTOR DRAWBAR HOOK

Forged steel. Black enamel painted hook and zinc plated T-pin. Supplied with hair pin. For chain size 5/16" - 1/2". 1-5/8" jaw; 3/4" x 3" (pin diameter x length); 7" overall length. 9200 lbs. safe working load limit.
Part No. 66040.

CABLE
Swagers & Cutters

BENCH SWAGER
Bench swager, multi-compression jaws swage 1/16" and 3/16" oval and stop sleeves. 22½" long x 6¼" high.
Part No. 1-BSC.

PRECISION CABLE CUTTER
Capacity 3/16" and smaller. Triangular jaws never leave a frayed end. Length 8".
Part No. C-7.

PRECISION CABLE CUTTER
Cuts 1/4" steel cable. Length 13".
Part No. C-9.

PRECISION CABLE CUTTER
Capacity 3/8" and smaller. Length 19".
Part No. C-12.

DYNALINE
Chain & Cable Tools

TIRE CHAIN PLIER
Opens and closes chain hardware easily. Steel handles with rubber hand grips. Alloy steel jaws. 32½" overall length.
Part No. 68100.

HAND SWAGER
For installing 1/16" to 3/16" aluminum or copper ferrules and stops. Heat treated alloy jaws. 26" overall length.
Part No. 77100.

CABLE CUTTERS
Aluminum drop forged handles and heat treated blades. For up to 3/16" diameter cutting capacity. 7½" overall length.
Part No. 77107.

CABLE CUTTERS
Aluminum drop forged handles and heat treated blades. For up to 5/8" diameter cutting capacity. 23" overall length.
Part No. 77116.

DYNALINE

DOCAP

E-Z Seal Expansion Plugs

•Can be used in all climates •Specially compounded neoprene rubber resists heat, oil, coolants, and rust inhibitors
•Expands up to 1/8" to seal against irregularities

MOELLER

Oil Filler Caps

Moeller adjustable oil filler caps create a positive seal that cannot be bounced or jarred loose. Due to the patented closure principle, this tight seal virtually locks out dirt, dust, and other engine-killing foreign matter. Available in a variety of standard sizes.

Part No. 23-40733, Oil filler cap, 1-7/8" Caterpillar.
Part No. 23-40855, Oil filler cap, 2-3/8" Caterpillar.
Part No. 23-44004, Oil filler cap, 2" Allis Chalmers/Bucyrus/Case/Cummins/Greyhound/Freightliner/Mack/Motor Coach/Paccar/Volvo/Western Star.
Part No. 23-44027, Oil filler cap, 1-3/4" Allis Chalmers/Detroit/Taylor.

PVC Insulated Terminals & Connectors

PVC INSULATED TERMINALS & CONNECTORS

•Feature a rigid insulation sleeve of polyvinyl chloride (PVC) •Sleeves are permanently affixed to the conductive barrel, providing quick crimping •The tough plastic sleeve protects against vibration damage by preventing wire flex at the crimp point

*HEAVY DUTY INSULATED TERMINALS

•Material thickness on heavy duty terminals is considerably greater than on standard duty terminals •Heavy duty terminals are employed where a constant, heavy vibration is a factor, as in off-the-road equipment, mining, and farming machinery.

PVC INSULATED TERMINALS & CONNECTORS

•Feature a rigid insulation sleeve of polyvinyl chloride (PVC) •Sleeves are permanently affixed to the conductive barrel, providing quick crimping •The tough plastic sleeve protects against vibration damage by preventing wire flex at the crimp point

Provides the ultimate electrical connection in three easy steps. Meets or exceeds the most stringent OEM standards.
- CRIMP •Mechanically reliable •Easy to install
- SOLDER •Additional strength •Better conductivity
- SHRINK •Durable insulation •Watertight connection •Transparent tubing for visual inspection
•Provides a seal against corrosion

Part No. 76-2148EA.
Part No. 76-2148PK, 10 pak.

•20-18 ga.
•OEM #12089649.
Part No. 76-2149EA.
Part No. 76-2149PK, 10 pak.

GM WEATHER PACK SERIES

•20-18 ga. •Tin plated brass, male •OEM #12089040.
Part No. 76-2150EA.
Part No. 76-2150PK, 10 pak.
Part No. 76-2150CPK, 100 pak.

•20-18 ga. •Tin plated brass, female •OEM #12089188.
Part No. 76-2151EA.
Part No. 76-2151PK, 10 pak.
Part No. 76-2151CPK, 100 pak.

•20-18 ga. •Silicone cable seals •Use with #76-2150 and #76-2151 •OEM #12015323.
Part No. 76-2152EA.
Part No. 76-2152PK, 10 pak.
Part No. 76-2152CPK, 100 pak.

•16-14 ga. •Use with #76-2153 and #76-2154 •OEM #12010293.
Part No. 76-2162EA.
Part No. 76-2162PK, 10 pak.
Part No. 76-2162CPK, 100 pak.

•16-14 ga. •Tin plated, mates with #76-2154 •OEM #12089305.
Part No. 76-2153EA.
Part No. 76-2153PK, 10 pak.
Part No. 76-2153CPK, 100 pak.

•16-14 ga. •Tin plated, mates with #76-2153 •OEM #12010182.
Part No. 76-2154EA.
Part No. 76-2154PK, 10 pak.
Part No. 76-2154CPK, 100 pak.

•Silicone cavity plug •Used to plug empty cavities in connector shell •OEM #12010300.
Part No. 76-2155EA.
Part No. 76-2155PK, 10 pak.

•Nylon single cavity for male terminals, mates with #76-2157 •OEM #12010996.
Part No. 76-2156EA.
Part No. 76-2156PK, 10 pak.

•Nylon single cavity for female terminals, mates with #76-2156 •OEM #12015791.
Part No. 76-2157EA.
Part No. 76-2157PK, 10 pak.

•Nylon double cavity for male terminals, mates with #76-2159 •OEM #12010973.
Part No. 76-2158EA.
Part No. 76-2158PK, 10 pak.
Part No. 76-2158CPK, 100 pak.

•Nylon double cavity for female terminals, mates with #76-2158 •OEM #12015792.
Part No. 76-2159EA.
Part No. 76-2159PK, 10 pak.
Part No. 76-2159CPK, 100 pak.

•Nylon triple cavity for male terminals, mates with #76-2161 •OEM #12010717.
Part No. 76-2160EA.
Part No. 76-2160PK, 10 pak.

•Nylon triple cavity for female terminals, mates with #76-2160 •OEM #12015793.
Part No. 76-2161EA.
Part No. 76-2161PK, 10 pak.

•Nylon four cavity for male terminals, mates with #76-2177 •OEM #12010974.
Part No. 76-2176EA.
Part No. 76-2176PK, 10 pak.

•Nylon four cavity for female terminals, mates with #76-2176 •OEM #12015797.
Part No. 76-2177EA.
Part No. 76-2177PK, 10 pak.

•Nylon six cavity for male terminals, mates with #76-2179 •OEM #12010975.
Part No. 76-2178EA.
Part No. 76-2178PK, 10 pak.

•Nylon six cavity for female terminals, mates with #76-2178 •OEM #12015799.
Part No. 76-2179EA.
Part No. 76-2179PK, 10 pak.

Terminal & Connector Assortments

PVC TERMINAL ASSORTMENT IN METAL STORAGE BOX

•Heavy gauge metal storage box •Comes complete with 1440 terminals in 20 of the most popular numbers and a #692001EA crimping tool •Each part number is indexed on the reference chart for ease of identification and quick reorder
Part No. 76-3003EA.

METAL STORAGE BOX

•Heavy gauge metal compartment storage box only (no terminals) as supplied with #76-3003EA assortments •Handy for making up your own assortments •12" x 9" x 2" high
Part No. 76-3004EA.

'FLIP-KITS' FOR EASY STORAGE OF ELECTRICAL ACCESSORIES

•Convenient - handle and latch allows for portability •Organized - keeps parts in their own compartments •Compatible - trays universal overall dimensions allow these trays to fit into most slider storage racks •Flexible - Compartments are adjustable to suit your requirements. Stores up to 32 items. Durable - High impact plastic construction means trays won't rust or dent

BLACK METAL RACK ONLY

Will hold 4 flip kits. Heavy duty steel construction with 4 slides. 20¾"W x 12½"L x 15"H.
Part No. 76-8188EA.

PLASTIC 'MAKE-IT-YOURSELF' ASSORTMENT TRAY.

Empty Tray with 32 adjustable compartments. Hi-impact plastic yellow in colour. 18"W x 12"L x 3"H.
Part No. 76-8189EA

1140 Pc. OEM TERMINAL FLIP KIT

•Terminal assortment containing GM OEM style terminals packed in handy storage tray (crimping tool not included)
Part No. 76-2187EA.

1485 Pc. CABLE TIE FLIP KIT

•Black cable ties & cable tie mounts.
Part No. 76-2997EA.

751 Pc. PVC TERMINAL FLIP KIT

Contains PVC insulated terminals & connectors and a crimp tool.
Part No. 76-3008EA.

85 Pc. AUTOMOTIVE BATTERY ACCESSORIES FLIP KIT

Contains battery terminals, adapters, lugs & clips.
Part No. 76-3009EA.

78 Pc. HEAVY DUTY BATTERY ACCESSORIES FLIP KIT

Battery terminals, adapters, lugs & clips.
Part No. 76-3010EA.

416 Pc. AUTOMOTIVE ELECTRICAL REPAIR FLIP KIT

Contains wire, terminals, ties, tape, shrink tubing, tools, fuses.
Part No. 76-3011EA.

364 Pc. MARINE ELECTRICAL REPAIR FLIP KIT

Contains tinned wire & lugs, HS terminals & tubing, ties, terminals, fuses.
Part No. 76-3013EA.

219 Pc. HEAVY DUTY ELECTRICAL REPAIR FLIP KIT

Contains wire, terminals, ties, tape, shrink tubing, tools, fuses.
Part No. 76-3014EA.

327 Pc. FUSE FLIP KIT

Contains fuses, fuse holders & fuse pullers.
Part No. 76-6010EA.

147 Pc. SHRINK TUBING KIT

Contains 6" pcs of seal wall heat shrink tubing 1/8" to 1".
Part No. 76-9001EA.

TECHSPAN IND. INC.
Terminal & Connector Tools

4 IN 1 CRIMPER
•The crimper has 3 die sections to crimp the appropriate size terminal •The bolt cutter shears mild steel bolts •The wire cutter trims wire to required length •The wire stripper removes outer cable and insulation
Part No. 69-2001EA.

4 IN 1 CRIMPER
•This versatile tool crimps, cuts and strips wire •Precision-ground wire cutters •Four crimping dies for crimping: 22-14 and 12-10 ga.. insulated terminals, 22-10 ga. non-insulated terminals and 7-8 mm automotive ignition terminals •Five common size bolt cutters with threaded slots for firmly grip on bolts when cutting and can be used for rethreading •A precision-ground wire stripper and two wire looping slots round off this multi-purpose tool
Part No. 69-2006EA.

HEAVY DUTY CRIMPING TOOL
•Designed to crimp almost every type of terminal used in the automotive fleet, marine, industrial and electrical fields •Cuts and strips solid and stranded wire 22-10 ga. •Crimps uninsulated and insulated terminals, disconnects and splices •Applies "W" crimp to 7 mm and 8 mm straight of 90° spark plug and distributor terminals, split or solid barrel •Approx. 10-1/4" long
Part No. 76-1434EA.

RATCHET DOUBLE CRIMPING TOOL (ANGLED HEAD)
•Ratchet design ensures a consistent crimp every time •Double crimp dies are ideal for PVC and nylon insulated terminals •The first crimp secures the bare wire while the second crimp secures the wire insulation •Excellent in high vibration applications •Features an angled head that gets to hard to reach places •Handles most 22-10 ga. terminals
Part No. 76-1435EA.

Wire Stripping Tools

HEAVY DUTY WIRE STRIPPER WITH BUILT-IN CUTTER/ CRIMPER
•It strips ... 10-26 ga. wire without damaging the conductor •It cuts... It crimps... insulated and uninsulated terminals with ease •Made of strong, durable steel alloy with insulated plastic handle
Part No. 66-9967EA.

COMBINATION WIRE STRIPPER & CUTTER
•Wire stripping range: 20 - 10 AWG •Wire crimping range: maximum 10 AWG
Part No. 66-9968EA.

OEM Terminal Tools

WEATHER PACK TERMINAL EXTRACTOR TOOL
Designed for extracting weather pack terminals from their connector housing •Simply slide the hollow shaft of the tool over the terminal retention barbs, then pull the terminal out of its connector housing
Part No. 76-2183EA.

TERMINAL EXTRACTOR PICKS
Used to release most GM, Ford and Chrysler OEM terminals from their insulating housings •Not suitable for round, pin-type terminals
Part No. 76-2184EA, Narrow blade.
Part No. 76-2185EA, Wide blade.

PREMIUM OEM TERMINAL CRIMPING TOOL
Ratchet single stroke crimping tool with terminal locator tool •20 through 12 ga. •Holds terminal in place for a perfect crimp every time
Part No. 76-2186EA.

GM WEATHER PACK SERIES

•Tin plated brass male, mates with #84-2001 •20-18 ga.
•OEM #12033674, #12089040.
Part No. 84-2000EA, Each.
Part No. 84-2000PK, Pack/10.

•Tin plated brass female, mates with #84-2000 •20-18 ga.
•OEM #12034051, #12089188.
Part No. 84-2001EA, Each.
Part No. 84-2001PK, Pack/10.

•Silicone cable seal •Use with #84-2000, #84-2001 •OEM #12015323.
Part No. 84-2002EA, Each.
Part No. 84-2002PK, Pack/10.

•Silicone cavity plug •Used to plug empty cavities in connector shell
•OEM #12010300.
Part No. 84-2003EA, Each.
Part No. 84-2003PK, Pack/10.

•Nylon single cavity for male terminals, mates with #84-2005
•OEM #12010996.
Part No. 84-2004EA, Each.
Part No. 84-2004PK, Pack/10.

•Nylon single cavity for female terminals, mates with #84-2004
•OEM #12015791.
Part No. 84-2005EA, Each.
Part No. 84-2005PK, Pack/10.

•Nylon double cavity for male terminals, mates with #84-2007 •OEM #12010973.
Part No. 84-2006EA, Each.
Part No. 84-2006PK, Pack/10.

•Nylon double cavity for female terminals, mates with #84-2006 •OEM #12015792.
Part No. 84-2007EA, Each.
Part No. 84-2007PK, Pack/10.

•Nylon triple cavity for male terminals, mates with #84-2009 •OEM #12010717.
Part No. 84-2008EA, Each.
Part No. 84-2008PK, Pack/10.

•Nylon triple cavity for female terminals, mates with #84-2008 •OEM #12015793.
Part No. 84-2009EA, Each.
Part No. 84-2009PK, Pack/10.

GM 56 SERIES

•16-14 ga. •Insulates with housing #84-2012 •Mates with terminal #84-2013 and housing #84-2012 •OEM #2962987.
Part No. 84-2011EA, Each.
Part No. 84-2011PK, Pack/10.

•16-14 ga.•Insulates terminal #84-2011 •Mates with housing #84-2014 •OEM #2962984.
Part No. 84-2012EA, Each.
Part No. 84-2012PK, Pack/10.

•16-14 ga. •Insulates with housing #84-2014 •Mates with terminal #84-2011 and housing #84-2012 •OEM #2962447.
Part No. 84-2013EA, Each.
Part No. 84-2013PK, Pack/10.

•16-14 ga. •Insulates terminal #84-2013 •Mates with housing #84-2012 •OEM #2962448.
Part No. 84-2014EA, Each.
Part No. 84-2014PK, Pack/10.

GM PACK-CON SERIES

•16-14 ga. •Male tab connector •Mates with terminal #84-2017
•OEM #8900524, #12020320.
Part No. 84-2016EA, Each.
Part No. 84-2016PK, Pack/10.

•20-18 ga. •Female receptacle •Mates with terminal #84-2016
•OEM #6294512, #12020346.
Part No. 84-2017EA, Each.
Part No. 84-2017PK, Pack/10.

•20-18 ga. •Tin plated mates with terminal #84-2017
•OEM #6294511.
Part No. 84-2018EA, Each.
Part No. 84-2018PK, Pack/10.

•16-14 ga. •Mates with #84-2016
•OEM #12020347.
Part No. 84-2019EA, Each.
Part No. 84-2019PK, Pack/10.

GM PACK-CON HD SERIES

•12-10 ga. •Tin plated
•OEM #12033817.
Part No. 84-2020EA, Each.
Part No. 84-2020PK, Pack/10.

•16-14 ga. •Tin plated
•OEM #8905087.
Part No. 84-2021EA, Each.
Part No. 84-2021PK, Pack/10.

GM PACK-CON II SERIES

•16-14 ga. •Tin plated
•OEM #12004996.
Part No. 84-2022EA, Each.
Part No. 84-2022PK, Pack/10.

GM METRI-PACK SERIES 120

•20-18 ga. •Tin plated •OEM #12047581.
Part No. 84-2023EA, Each.
Part No. 84-2023PK, Pack/10.

•20-16 ga. •Tin plated •OEM #12047767, #4368618.
Part No. 84-2024EA, Each.
Part No. 84-2024PK, Pack/10.

GM METRI-PACK SERIES 280

•18-14 ga. •OEM #12020116.
Part No. 84-2025EA, Each.
Part No. 84-2025PK, Pack/10.

•20-18 ga. •Mates with #84-2027
•OEM #12034047.
Part No. 84-2026EA, Each.
Part No. 84-2026PK, Pack/10.

•20-18 ga. •Tin plated mates with #84-2026 •OEM #12034046.
Part No. 84-2027EA, Each.
Part No. 84-2027PK, Pack/10.

GM METRI-PACK SERIES 480

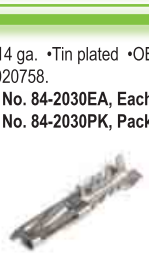
•16-14 ga. •Tin plated
•OEM #12020120.
Part No. 84-2028EA, Each.
Part No. 84-2028PK, Pack/10.

GM METRI-PACK SERIES 630

•16-14 ga. •Tin plated •OEM #12015870.
Part No. 84-2029EA, Each.
Part No. 84-2029PK, Pack/10.

GM METRI-PACK TERMINALS

•16-14 ga. •Tin plated •OEM #12020758.
Part No. 84-2030EA, Each.
Part No. 84-2030PK, Pack/10.



•22 ga. •Tin plated •OEM #120240902.
Part No. 84-2031EA, Each.
Part No. 84-2031PK, Pack/10.

FORD AND CHRYSLER SNAP-ON FEMALE TERMINALS

•20-18 ga. •1/4" female •OEM #2965470, #2096466, #C5AB-14474-B.
Part No. 84-2032EA, Each.
Part No. 84-2032PK, Pack/10.

Terminal Assortments

TERMINAL ASSORTMENTS

Part No. 83-2600PK, 100 assorted rings, butts, quick disconnects and spade terminals; 16-14 ga and 12-10 ga.
Part No. 83-2601PK, 20 assorted female quick disconnects
Part No. 83-2602PK, 20 assorted butt connectors

HEAT SHRINKABLE TERMINAL KIT

•120 assorted heat shrinkable terminals •Includes ring, butt, spade and disconnect terminals •12 compartment re-closable plastic box •Colourful re-ordering chart on inside of cover
Part No. 83-6503EA.

ECONOMY 4 WAY CRIMPING TOOL

•8" long •Cuts and strips primary wire 10-22 gauge •Crimps insulated and non-insulated terminals •Sure grip vinyl handles for safety
Part No. 83-6510EA.

ECONOMY TERMINAL KIT

•Assorted terminals •Crimping tool (#83-6510EA)
Part No. 83-6520EA.

ALL PURPOSE TERMINAL KIT

•37 pieces •Heavy duty crimping tool •2 miniature screwdrivers •Electrical pliers •Electrical circuit tester •Connector and terminal assortment
Part No. 83-6530EA.

HEAVY DUTY TERMINAL & CONNECTOR ASSORTMENT KIT

•Kit contains 650 of the most popular automotive electrical terminals and accessories •Assorted gauges (22-18, 16-14, 12-10) and stud sizes (#6 - 1/4") •Crimping tool (#83-6510EA)
Part No. 83-6540EA.

AUTO ELECTRIC REPAIR KIT

•6 electrical tools and 202 electrical components •Voltage tester and test leads •Assorted ring, butt, spade and quick disconnect wire terminals •Crimping tool (#83-6510EA) •Primary wire •Cable ties, shrink tubing and nylon wire clamps •Glass and ATO emergency fuses and a fuse puller •Emergency fuses •Battery brush •miniature screwdrivers
Part No. 83-6550EA.

AUTOMOTIVE & HEAVY DUTY WIRE/CABLE

Plastic – PVC Primary Wire

Ordering:
Please add your colour choice suffix to the part number when ordering. Suffixes are: BK = Black, BL = Blue, BR = Brown, RE = Red, GR = Green, YE = Yellow, WH = White, OR = Orange.
E.G.: 1218BL is 18 ga. wire, blue, 100 ft. roll

Meets SAE J1128 specifications. Bare copper conductor with solid plastic insulation. Greater flexibility, permanent colour, impervious to oil, grease, and diesel fumes. Temperature ranges to +120°C.

PART NO.	GA.	ROLL SIZE	COLOURS AVAIL.
1218	18	100 ft.	All

PHILATRON

RRR/3171

Brake Cable – Jacketed Parallel Primary Wire – Type GPT

Application: Trucks, automobiles, buses, RVs, and trailers.
Features: Thermoplastic insulated wires are jacketed with a tough grey PVC jacket for additional protection against moisture and abrasion. Parallel construction is common for use with trailers and vehicles where space is limited.
Standards: SAE J1128 Type GPT.

Part No.	AWG Size	No. of Conductors	Stranding	Nom. O.D.	Colours
JGPT182	18 AWG	2	16	.132" x .224"	Black & White
JGPT162	16 AWG	2	19	.143" x .246"	Black & White
JGPT142	14 AWG	2	19	.163" x .286"	Black & White
JGPT122	12 AWG	2	19	.185" x .330"	Black & White
JGPT102	10 AWG	2	19	.218" x .396"	Black & White

Primary Wire

Type GPT General Purpose Thermo Plastic Wire - Meets SAE code J1128 specifications. PVC insulation resists heat up to 85°C and provides protection from weather conditions and abrasives. All wire is spooled and shrink wrapped. All primary wire is single conductor based.

Gauge	Length	Outside Dia.	Stranding	Red	Brown	Black	Green	White	Blue	Yellow	Orange

SXL Wire – Heavy Duty Primary Wire

Type SXL meets SAE Specification J1128 125°C Temp Rating-
Designed to withstand harsher environments than general purpose primary wire. SXL has an annealed copper conductor that is insulated with a special cross linked polyethylene base. PVC insulation resists heat up to 125°C and provides protection from weather conditions and abrasives.

Gauge	Length	Outside Dia.	Stranding	Red	Black	White

FUSION™ SOLDER CONNECTORS

•Fusion™ Connectors come ready to use •Correctly engineered flux and solder is precisely pre-measured and loaded in a solderable tin-plated copper connector •More consistent quality than any other solder method including traditional wire solder and solder slug •Faster, less confusing and less costly than multi-component solder slug programs •Solder slugs and wire solder may provide too little or too much solder because of differences in barrel volumes •Widest selection of solderable straights, elbows, flags and lugs, in eight sizes from 6 through 4/0 gauge •Tin plated connectors, 5/16" bolts and shoulder nuts

FASTENER HARDWARE FOR BATTERY APPLICATIONS

Bolt, square head and shoulder nut, 5/16" -18 x 1-1/4".
Part No. 570-412.

Bolt, side terminal, 3/8" -16 x 13/32", for single power lead, OEM type.
Part No. 6703.

Bolt, side terminal, 3/8" -16 x 1", for dual power lead, OEM type.
Part No. 6704.

Nut, closed-cap, 3/8" -16
Part No. 6015.

Adapter bolt, side terminal •3/8" -16 x 13/32", for single lead
Part No. 6007.

Adapter bolt, side terminal •3/8" -16 x 1", for dual power leads
Part No. 6008.

SIDE TERMINAL-TO-TOP POST CONVERSION CONNECTORS

•Permits top terminal cable connection to side terminal battery •Stud head resists over-torque and improves conductivity, zinc-plated stud resists corrosion •Polarity specific for exact fit, oversize polarity signs molded in.
Part No. 5515, sold as pair.
Part No. 5515-CARD, card of 3 pairs.

STUD-TO-TOP POST CONVERSION CONNECTORS

•Converts stud terminal battery to top post, polarity specific for exact fit •Integrally cast 3/8" -16 threaded steel insert with nylon lock ring provides superior electrical and mechanical integrity •3/4" hex base permits precise torquing •Sold as pair
Part No. 5514.

QUICK DISCONNECT

•1/4 turn knob disconnects battery - knob may be removed to increase security •Clamp fits negative top post terminal •For light and medium duty applications
Part No. 850112-N.

MAGNALUG™ INVERTER CONNECTORS

•Can be crimped or soldered •Permanent connection, prevents arcing and shorting •Perfit fit for most inverter connections with screw tab mounting holes •Unique self centering design •Tab length: .75" •Tab width: .21"

Part No. 102804, 4 ga.
Part No. 102802, 2 ga.

Battery Terminals

HEAVY-DUTY UNIVERSAL SOLDERLESS TERMINALS, LEAD

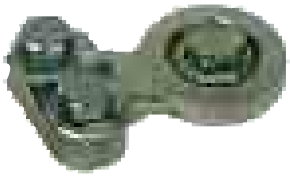
•Ideal for fleet applications •Fits 1 gauge to 3/0 gauge wire sizes
Part No. 76-2591EA, sold individually.
Part No. 69-2591PR, sold as a pair.

UNIVERSAL SOLDERLESS TERMINALS

•Fits 2/0 gauge to 6 gauge wire sizes
Part No. 76-2529EA, brass.
Part No. 76-2620EA, lead.
Part No. 69-2620PR, pair of #76-2620EA.

UNIVERSAL SIDE MOUNT TERMINALS

•Fits 6 gauge to 2/0 gauge wire sizes •Lead
Part No. 76-2588PR, sold as a pair.



BRASS MARINE TERMINALS

Part No. 76-2532EA, universal 5/16" stud with wing nut.
Part No. 76-2535EA, negative 5/16" stud with wing nut.
Part No. 76-2536EA, positive 3/8" stud with wing nut.
Part No. 76-2534PR, one pair (#76-2535EA and #76-2536EA) per package.

ELBOW STUD-TYPE TERMINALS

•3/8" x 3/4" stud with hex nut •Brass
Part No. 76-2527EA, negative.
Part No. 76-2528EA, positive.

POST-MOUNT BATTERY TERMINALS

•Brass straight type closed barrel
Part No. 76-2563EA, universal, fits 1 and 2 ga.
Part No. 76-2553EA, universal, fits 1/0 ga.

BRASS 90° ELBOW TERMINALS

•Universal (right or left)
Part No. 76-2561EA, universal, fits 1 and 2 ga.
Part No. 76-2562EA, universal, fits 1/0 and 2/0 ga.

CRIMPABLE/SOLDER TERMINALS

•100% pure copper, tin plated for superior conductivity and maximum corrosion prevention •Extended barrel provides a better connection •For additional protection against corrosion, heat shrink tubing should be used after crimping •Terminals may be soldered

Straight Barrel
Part No. 76-2504EA, universal, fits 4 ga.
Part No. 76-2505EA, positive, fits 1 ga.
Part No. 76-2506EA, negative, fits 1 ga.

Battery Connectors

AUTOMOTIVE BATTERY CONNECTORS

•Automotive and light truck applications •Universal clamp and side terminal styles; constructed of lead or brass •Accept 6 through 2/0 gauge cable sizes •Zinc-plated steel hardware included

PART NO.	DESCRIPTION
Brass; zinc-plated	
84-9126EA	Clamp, universal polarity
84-9126PK	Clamp, universal polarity, 25 pack
Lead; zinc-plated	
84-9134EA	Side terminal, universal polarity
84-9134PK	Side terminal, universal polarity, 25 pk
84-9135EA	Clamp, universal polarity
84-9135PK	Clamp, universal polarity, 25 pack

HEAVY DUTY BATTERY CONNECTORS

•Clamps designed for truck, bus, construction, agricultural and industrial applications •Polarity-specific brass or universal polarity lead construction; hardware included •Accept 1 through 4/0 gauge cable •Lead; zinc-plated

PART NO.	DESCRIPTION
84-9133EA	Clamp, universal polarity
84-9133PK	Clamp, universal polarity, 25 pack

Grote
The first name in vehicle safety systems®

MARINE CONNECTORS

•Converts battery post to stud connector •Permits quick disconnection from battery; eliminates current drain during storage •Polarity-specific; meets U.S.C.G. regulations •Zinc-plated steel fasteners included

GROTE

Battery Terminals – Conversion Connectors & Adapters

TOP POST-TO-SIDE TERMINAL CONNECTORS

•Permits side terminal cable connection to top terminal battery •Polarity-specific for exact fit on posts; polarity signs molded in •Lead construction - zinc plated hardware included •Sold as pair

Part No. 84-9132PR.

SIDE TERMINAL-TO-TOP POST CONVERSION CONNECTORS

•Permits top terminal cable connection to side terminal battery •Stud head resists over-torque and improves conductivity; zinc-plated stud resists corrosion •Polarity-specific for exact fit on posts; oversize polarity signs molded in •Lead construction - zinc plated hardware included •Sold as pair

Part No. 82-9131PR.

STUD-TO-TOP POST CONVERSION CONNECTORS

•Converts stud terminal battery to top post; polarity specific for exact fit •Integrally-cast 3/8" - 16 threaded steel insert and nylon lock ring provide superior electrical and mechanical integrity •3/4" hex base permits precise torquing •Sold as pair

Part No. 82-9130PR.

ADAPTER NUT

•Connects power-hungry accessories directly to battery •Fits standard battery bolt; select from three input threads •Adapter nut, top terminal accessory post 5/16" - 18 x 15/16" inside thread •Accessory stud: 5/16" - 18 x 3/4" •Brass; zinc-plated steel fasteners

Part No. 84-9185EA, sold as each.
Part No. 84-9185PK, pack of 5.

BOLT, SQUARE HEAD & SHOULDER NUT

•5/16" -18 x 1-3/8" •Steel, tin-plated

Part No. 84-9183EA, sold as each.
Part No. 84-9183PK, pack of 25.

Ground Straps

BRAIDED GROUND STRAPS

•3/8" Clamp-to-Lug •Corrosion resistant tin plating

PART NO. 2 GAUGE	CENTRE to CENTRE LENGTH
84-9239EA	9"
84-9240EA	13"

BOLT, SIDE TERMINAL

•3/8" -16 x 13/32", for single lead •OEM type •Steel, zinc-plated

Part No. 84-9216EA, sold as each.
Part No. 84-9216PK, pack of 25.

BOLT, SIDE TERMINAL

•3/8" -16 x 1", for dual power leads •OEM type •Steel, zinc-plated

Part No. 84-9217EA, sold as each.
Part No. 84-9217PK, pack of 25.

NUT, CLOSED CAP

•3/8" -16, •Stainless steel

Part No. 84-9184EA, sold as each.
Part No. 84-9184PK, pack of 25.

BATTERY NUT & BOLT

•5/16" -18 x 1-3/8", •Steel zinc plated

Part No. 84-9289EA, sold as each.
Part No. 84-9289PK, pack of 25.

Battery Field Repair Kit With Hexcrimp®

KIT CONTENTS:

Description	Re-Order Part No.
1 - HexCrimp Tool	84-9082EA
1 - 9" cutter	84-9088EA
5 - 2/0 straight clamp - positive	84-9059EA
5 - 2/0 straight clamp - negative	84-9058EA
2 - 2/0 flag clamp - positive	84-9098EA
2 - 2/0 flag clamp - negative	84-9097EA
5 - 2/0 starter/ground lug - 3/8" hole	84-9110EA
5 - 2/0 starter/ground lug - 1/2" hole	84-9111EA
5 - Terminal Protector straight - black	84-9142EA
5 - Terminal Protector straight - red	84-9143EA

•Contains components (except cable) needed to build or repair 2/0 battery cables •The carrying case is made of steel, finished in corrosion resistant baked grey enamel •In addition to compartments for connectors, etc., the carrying case will hold all major cutting and crimping tools

Part No. 84-9290EA.

Battery Cables

•Meet or exceed SAE specifications; ideal for OEM replacement •100% copper wire with black PVC insulation •Tinning of copper wire before casting ensures perfect bond between wire and connector •Antimonial lead connectors resist corrosion; die-cast process seals copper wire from acid fumes and corrosive salts

TOP POST BATTERY CABLES

•Standard 3/8" stud hole

Battery Harnesses

QUICKLINK® STUD BATTERY HARNESSES

•Heavy 2/0 gauge copper welding cable is colour-coded and rubber insulated; provides easier tight space routing and best cold weather flexibility •Stackable die-cast copper lugs have 36 anti-rotational teeth for solid bite

Centre Dimension: 8½"
Typical Battery Layout: Side -by-Side
Part No. 84-9304EA, Negative.
Part No. 84-9305EA, Positive.

Centre Dimension: 17"
Typical Battery Layout: End-to-End
Part No. 84-9306EA, Negative.
Part No. 84-9307EA, Positive.

Battery / Jumper / Grounding Cables

HEAVY-DUTY BATTERY CABLES

•Corrosion-resistant, heavy duty lead die cast terminals •Flexible 100% copper stranded PVC jacketed cable •2/0 gauge

PART NO.	LENGTH
76-9380EA	12" (30.5 cm)
76-9381EA	24" (61.0 cm)
76-9382EA	36" (91.4 cm)
76-9383EA	48" (122.0 cm)
76-9384EA	60" (152.4 cm)
76-9385EA	72" (182.8 cm)

FIFTH WHEEL GROUND STRAP, TINNED COPPER BRAID

•2/0 gauge

PART NO.	LENGTH
76-9330EA	8" (20.3 cm)
76-9332EA	14" (35.6 cm)

HEAVY-DUTY BATTERY JUMPER CABLES

•Corrosion-resistant, lead die cast terminals, flexible EPDM jacketed welding cable •2/0 gauge

PART NO.	LENGTH	TERMINAL POSITION
76-9386EA	8" (20.3 cm)	Straight
76-9387EA	8" (20.3 cm)	Angled, same side
76-9388EA	8" (20.3 cm)	Angled, offset
76-9389EA	12" (30.5 cm)	Straight
76-9390EA	12" (30.5 cm)	Angled, same side
76-9391EA	12" (30.5 cm)	Angled, offset
76-9392EA	19" (48.3 cm)	Straight
76-9393EA	19" (48.3 cm)	Angled, same side
76-9394EA	19" (48.3 cm)	Angled, offset

BONDING STRAP, TINNED COPPER BRAID

•Replaces OE strap and insulated type jumpers between firewall and engine valve cover or block •Grounds charging system to prevent dimming of lights and reduces radio noise by bonding metal parts •Fits most engines

PART NO.	LENGTH
76-9329EA	14" (35.6 cm)

These battery cables are made of quality copper conductor with cast antimonial lead universal terminals. Full gauge stranded copper core is flexible for easy installation and allows maximum current for quick starting. Copper core extends to the end of the plated lug to give a one-piece solid connection. Colour coded PVC insulation. Meets SAE standards.

TOP POST BATTERY CABLES

Fits up to 3/8" stud. Without lead.

Grote
The first name in vehicle safety systems®

HEAVY DUTY 50 AMP CHARGER CLIPS
•For battery chargers, tune-up and test equipment
Part No. 602035-RED, Red.
Part No. 602035-BLK, Black.

NON INSULATED ALLIGATOR CLIPS
•Crimp type •5 amp
Part No. 602007.

JAW TYPE CHARGING CLIPS
Jaws grasp terminal bolts, etc., to 3/4" wide
Part No. 602021, 10 amp.
Part No. 602030, 25 amp.
Part No. 602036, 50 amp.

PROTECTIVE WASHERS
•Impregnated with long lasting corrosion inhibitors to extend life of battery, connectors and hardware •Fits any post, side or stud terminal battery •100 per pack
Part No. 6622-B, Black.
Part No. 6622-R, Red.

QUICK FLUX
•Convenient applicator bottle •Cleans existing cable for better electrical connections •60 ml flip-up nozzle bottle.
Part No. 5574.

BATTERY CLEANER SPRAY
•Neutralizes acid spills, vapor and salt - reduces corrosive action •Cleans battery terminals, connectors and hold down hardware •32 g aerosol
Part No. 120131.

BATTERY TERMINAL PROTECTIVE SPRAY
•Protects exposed electrical connections from corrosion ensuring maximum current flow •Use on battery terminals, connectors and hardware •28 g aerosol
Part No. 120141.

QUICKCOTE+ PROTECTIVE COMPOUND
•Special formula seals terminals and connectors against corrosion, moisture, dirt and oil •Brush-on application •Prevents seizing of threaded fasteners •227 g can
Part No. 6023PC.

QUICKWRAP SILICONE TAPE
Self fusing, self vulcanizing silicone tape for an unlimited number of uses (cable/wire management, hose/plumbing repair, wrap/grip material). Stays flexible to -51°C and won't melt up to +260°C. Forms an air/water tight seal; 700 psi tensile strength; insulates to 8000 volts and stretches to 3 times its length. Each roll is 1" wide x 10 ft. x 20 mil thickness.
Part No. 507110.

QUICK CUTTER™ 1
•Cuts cable up to 2/0 gauge •9" size, fits any tool box •Ergonomic, insulated grips •Made of forged steel
Part No. 4275.

QUICK STRIP™ CABLE STRIPPER
•Strips up to 4/0 gauge cable •5-1/2" long •Includes spare blade
Part No. 4215, Quick Strip™ Cable Stripper.
Part No. 4216, Replacement blades.

BRUTE™ HAMMER CRIMPER
•Use with hammer, vise or press •Crimps 8 thru 4/0 gauge connection •Spring loaded pin locks in up position for loading connector and cable. When released pin holds connector securely during crimping
Part No. 4266.

RATCHET DIAMOND CRIMP TOOL
•Traditional four side crimp •For SAE/AWG gauge cable •Ideal for crimping connectors made from sand foundry castings •26" long
Part No. 4252.

CLAMP CONNECTOR LIFTER
•Removes connector without damaging top post •Adjusts to any clamp connector width and thickness •Vinyl dipped non slip handle resists acid
Part No. 120191.

CLAMP SPREADER/ REAMER
•Forged steel design evenly spreads connector •Use serrations to ream clamp •Vinyl dipped non-slip handle resists acid
Part No. 120192.

SIDE TERMINAL BRUSH
•Brass wires securely embedded on two sides •Shaped to clean terminals, connectors and bolts •5/16" hex in handle services GM connections
Part No. 120122.

QUICKCABLE®
Your Best Connection

Battery Accessories & Tools

50 AMP TEST CLIPS
•Copper plated steel •3/4" jaw spread •Polarized, black and red handle grips
Part No. 76-1644PR, 1 pair.

5 AMP ALLIGATOR TEST CLIPS
3/8" jaw spread.
Part No.76-1639PR, 1 pair (1 black, 1 red) with insulator sleeves.
Part No.76-1645PR, 1 pair without insulator sleeves.

BATTERY CLIPS
Part No. 76-1640PR, 1 pair, 10 amp, 1/2" spread.
Part No. 76-1641PR, 1 pair, 25 amp, 1" spread.
Part No. 76-1642PR, 1 pair, 50 amp, 1¼" spread.

BATTERY TERMINAL SOLDER SLUGS
•Terminal slugs are pre-measured pieces of solder that have been sized to provide the correct amount of solder per each size of battery terminal connector

PART NO.	GAUGE	COLOUR
76-2628EA	4	Grey
76-2629EA	2	Green
76-2630EA	1	Pink
76-2631EA	1/0	Black
76-2632EA	2/0	Orange
76-2633EA	3/0	Purple
76-2634EA	4/0	Yellow

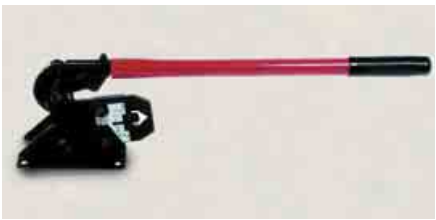
BATTERY POST & TERMINAL CLEANER
•Circular stainless steel brushes clean battery posts •Tapered brush cleans corrosion from battery terminals
Part No. 69-2003EA.

TOP POST CARRIER
•For regular batteries 17-1/2" long •Heavy duty, acid resistant strap has double grip jaws with safety catch
Part No. 69-2501EA.

HAMMER/VISE TYPE CRIMPING TOOL
•Crimps #16 through 4/0 non-insulated terminals, splices battery cable lugs and solderless battery cable terminals •Crimping scale prevents under crimping, nest design eliminates over crimping •Operate with hammer or vise
Part No. 76-1440EA.

LARGE LUG CRIMP TOOL
•Crimps lead, brass and copper terminals from 6 ga. to 250 MCM. The three-sided die provides a perfect crimp every time
Part No. 76-2626EA.

BENCH MOUNT CRIMP TOOL
•Bench mount style crimps lead, brass and copper terminals from 6 ga. to 250 MCM. The three-sided die provides a perfect crimp every time
Part No. 76-2627EA.



HEAVY DUTY WIRE/CABLE CUTTER
•Use for cutting all non-steel, single or multi-conductor cables up to 2/0 ga. •9" long •made with a cushioned handle for improved grip and comfort
Part No. 76-9886EA.

CABLE CUTTER LONG HANDLE
•This long handle cable cutter slices through any type of copper cable up to 350MCM •17" long
Part No. 76-9887EA.

LARGE WIRE/CABLE STRIPPER
•Strips larger gauge wire (#8 to 4/0 ga.) quickly and accurately •Place the hook over the wire or cable, adjust the blade, and spin the stripper around the wire/cable for an even, damage-free strip •With insulated handle
Part No. 66-9969EA.

ta
TECHSPAN AUTOMOTIVE

GROTE
Battery Accessories & Tools

BATTERY TERMINAL PROTECTORS

•Protects alternator and electrical system from shorts •Reduces the risks of battery explosion caused by sparks •High temperature PVC construction rated at 90°C •Colour coded for easy polarity identification •Conforms to SAE J1128 dielectric specifications; meets OSHA and USCG requirements

BRUTE HAMMER CRIMPER

•Use with hammer, vise or press •Crimps 8 through 4/0 gauge connectors •Spring loaded pin locks in up position for loading connector and cable. When released pin holds connector securely during crimping
Part No. 84-9087EA.

POST TERMINAL BRUSH

•Corrosion resistant self-contained brush set •Inner bristles clean post terminals •Conical outer bristles clean cable connectors
Part No. 84-9186EA.

ALLIGATOR CLIPS

•Jaws grasp terminal bolts 3/4" wide •5 amp
Part No. 84-5004EA, Black
Part No. 84-5005EA, Red

HEAVY DUTY CHARGING CLIPS

•Use for OEM repair and custom build •Colour coded vinyl boots •Clamp style •50 amp
Part No. 84-5000PR, 1 pair Red/Black
Part No. 84-5002EA, Red
Part No. 84-5003EA, Black

9" CABLE CUTTER

•Cuts cable up to 2/0 gauge •Fits any tool box •Ergonomic insulated grips •Made of forged steel
Part No. 84-9088EA.

HEAVY DUTY QUICK CUTTER™ 2

•Cuts cable up to 250 MCM (6/0 gauge) •22" handle for easier cutting •1075 carbon steel blade, hardened for long life, can be sharpened
Part No. 84-9089EA.

HEXCRIMP™

•Medium-heavy duty applications •Adjustable, colour -coded rotating crimp dies •Insulated grips •26" in length •8 ga. - 250 MCM connector cable range
Part No. 84-9082EA.

PERFORMANCE TOOL®
Battery Tools

SIDE TERMINAL BATTERY WRENCH

•Reversible ratchet action •Narrow design for confined areas •Easily removes and replaces 5/16" side terminal battery bolts
Part No. W1674.

BATTERY TERMINAL CLEANER

•Acid resistant construction •Removes battery corrosion •Cleans posts, terminals and cables •Extends battery life
Part No. W147C, carded.
Part No. W147B, bulk.

4-WAY BATTERY POST CLEANER

•Scraper blades remove stubborn corrosion from posts •Reamer cleans insides of terminals
Part No. W152C.

ANTI CORROSION WASHERS

•Chemically treated to retard corrosion •Extends the life of battery posts and terminals •2 washers included for positive and negative posts
Part No. W1658C, top post.

Performance Tool®

TECTRAN
Powercoil – Coiled Electrical Assemblies

POWERCOIL

•Excellent coil memory and durability •Flexible in temperatures to -85°F (-65°C) •10% more copper content than specified by SAE J1128 •Ultraviolet and ozone resistant •Colour coded for compatibility with SAE J560 connectors •Resistant to gasoline, diesel fuel, and commonly used chemicals •Up to 5 times more abrasion resistant than other commonly used cables •Available in numerous cable and coil configurations •Durable zinc die cast plugs are standard •Available with spring guards or the unique Tectran WeatherSeal®

WEATHERSEAL®

The unique new Tectran WeatherSeal sleeve can be substituted in place of the spring guard on any of the Tectran Powercoil products. The rugged outer sleeve is constructed of a tough, yet flexible polyolefin material which offers: •Excellent bend restriction and protection from cable chafing •Protection against the unsightly and damaging rusting that occurs with a spring guard. The sealant on the inner wall of the sleeve adheres to the plug and cable jacket providing: •A weatherproof barrier protecting the critical wire connections inside the plug from corrosion •Excellent strain relief which minimizes the pull stress on the inner wire connections

ABS Duty - Green - SAE Plugs (ATG)
4/12 - 2/10 - 1/8 gauge, SAEJ2394

This ultra heavy duty construction is approved for new ABS system power requirements on single or multiple trailer configrations. Meets TMC R. P. 137 and 141. Meets the stringent design and performance requirements of the new SAE J2394 Standard. Excellent coil memory prevents sagging.

PART NO. WITH SPRING GUARD	PART NO. WITH WEATHER SEAL	NUMBER OF PLUGS	LEAD LENGTHS
7ATG521MG	N/A	1	2 x 15”
7ATG522MG	7ATG522MW	2	2 x 15”

MTY - Medium Duty - Yellow
5/14 - 2/12 gauge

This unique cable configuration retains the 12-gauge conductor in the heavily loaded red stop circuit wire, as well as in the white ground wire, while providing the economy of 14-gauge wiring for the other circuits. The MTY construction is a perfect alternative for those currently using the 7/14 or 6/14 - 1/12 constructions.

PART NO. WITH SPRING GUARD	PART NO. WITH WEATHER SEAL	NUMBER OF PLUGS	LEAD LENGTHS
7MTY522MG	7MTY522MW	2	2 x 15”

STS - Standard Duty - Silver
6/12 - 1/10 gauge

This high quality, durable construction is recommended for single-trailer configurations using standard lighting.

PART NO. WITH SPRING GUARD	PART NO. WITH WEATHER SEAL	NUMBER OF PLUGS	LEAD LENGTHS
7STS520B	N/A	0	2 x 15”
7STS522MG	7STS522MW	2	2 x 15”

ETB - Economy - Black
7/14 gauge

Where a 14-gauge conductor is considered adequate, the ETB style coil offers economy and durability. As with other Powercoil constructions, the copper content of the ETB style is also 10% higher than in SAE J1128 wiring.

PART NO. WITH SPRING GUARD	NUMBER OF PLUGS	LEAD LENGTHS
7ETB520B	0	2 x 15”
7ETB521MG	1	2 x 15”
7ETB522MG	3	2 x 15”

TRUCK-LITE
Trailer Connector Cords

HEAVY DUTY ANTI-LOCK TRAILER CONNECTOR CORDS

•Extra heavy duty cords feature 4-12 ga. (brown, black, yellow, green), 2-10ga. (red, blue), 1-8 ga. ground (white) •Ideal for supplying power to trailer and dolly ABS systems •Designed for use in wide temperature range (-66°C to +90°C) •Meets TMC recommendations (RP137) and exceeds SAE J2222 •GREEN jacket

Part No. 97160, 12 ft. nylon plugs.
Part No. 97161, 15 ft. nylon plugs.

HEAVY DUTY TRAILER CONNECTOR CORDS

•Heavy duty coiled electrical connector cords feature 6/12, 1/10 ga. •Designed to meet or exceed SAE J559 or J1067 as applicable •Cords feature six 12 gauge conductors of 65 strands and one 10 gauge conductor constructed of 105 strands of soft annealed copper which meets ATA, SAE and TMC requirements •Designed for use in wide temperature range (-66°C to +90°C) •BLACK jacket

Part No. 97151, 12 ft. metal plugs.
Part No. 97153, 15 ft. metal plugs.

REPLACEMENT PLUG ASSEMBLIES

•#97158 features a rugged nylon housing, brass terminals and rear moisture seal •A unique 360° cable clamp helps prevent the cable from being accidentally pulled out •Assembly is resistant to degreasers, solvents and contact cleaners •#97159 features zinc die cast housing and brass terminals •Nylon insert is resistant to petro chemicals

Part No. 97158, nylon plug.
Part No. 97159, die cast plug.

Electrical Cable Assemblies Feature:

•Large finger grips for coupling/uncoupling, even with gloves •Extended plug interior for easy maintenance •Protected with anti-corrosive, non-conductive, dielectric lithium grease •PERMAPLUG™ has factory crimped terminals for best available electrical connection •All cable assemblies rated for 12 volt systems

QCP™ (QUICK-CONNECT PLUG) ASSEMBLY for 4/12, 2/10 & 1/8 ga. ABS Trailers

•Replaceable cartridge for quick & easy repair •Plug is sealed for corrosion protection •Temperature rating -48°C to 110°C •Excellent ratings for recoil memory, chemical resistance & abrasion resistance •Unbreakable housing

Part No. 30-9324, 12' w/ QCP™

Part No. 30-9624, 15' w/ QCP™

Part No. 30-9924, 15' , 48" lead w/ QCP™

ABS PERMACOIL™ for 4/12, 2/10 & 1/8 ga. ABS Trailers

•Good for ABS applications •Temperature rating -68°C to 52°C •Good ratings for recoil memory, chemical resistance & abrasion resistance •Unbreakable PERMAPLUGS™ •Zinc die-cast housing, reinforced for durability

Part No. 30-4320, 12' w/ two PERMA-PLUGS™

Part No. 30-4321, 12' w/ two zinc die-cast plugs

Part No. 30-4620, 15' w/ two PERMA-PLUGS™

Part No. 30-4621, 15' w/ two zinc die-cast plugs

Zinc Die-Cast Plugs

PERMAPLUGS™

ISOCOIL™ for 4/12, 2/10 & 1/8 ga. ABS Trailers

•For ISO/auxiliary applications •Temperature rating -48°C to 110°C •Excellent ratings for recoil memory, chemical resistance & abrasion resistance •Male ground pin to prevent mis-connections •Twisted pair brown and green wires to avoid electrical noise •Zinc die-cast housing, reinforced for durability

Part No. 31-9623, 15' w/ two zinc die-cast plugs

PERMACOIL™ for 6/14 & 1/12 ga. NON-ABS Trailers

•For standard 7-way applications, NON-ABS equipped trailers •Temperature rating -68°C to 52°C •Good ratings for recoil memory, chemical resistance & abrasion resistance •Male ground pin to prevent mis-connections •Unbreakable PERMAPLUGS™ •Zinc die-cast housing, reinforced for durability

Part No. 24-4321, 12' w/ two zinc die-cast plugs

Part No. 24-4621, 15' w/ two zinc die-cast plugs

ABS LECTRAFLEX™ for 4/12, 2/10 & 1/8 ga. ABS Trailers

•For ABS applications •Temperature rating -40°C to 66°C •Good ratings for chemical resistance & abrasion resistance •Unbreakable PERMAPLUGS™ •Zinc die-cast housing, reinforced for durability

Part No. 30-2050, 12' w/ two PERMAPLUGS™

Part No. 30-2051, 12' w/ two zinc die-cast plugs

Part No. 30-2070, 15' w/ two PERMAPLUGS™

Part No. 30-2071, 15' w/ two zinc die-cast plugs

PERMAPLUGS™

Zinc Die-Cast Plugs

ISOFLEX™ for 4/12, 2/10 & 1/8 ga. ABS Trailers

•For ISO/auxiliary applications •Temperature rating -40°C to 66°C •Good ratings for chemical resistance & abrasion resistance •Zinc die-cast housing, reinforced for durability

Part No. 31-2073, 15' w/ two zinc die-cast plugs

DURAFLEX™ for 6/12 & 1/10 ga. NON-ABS Trailers

•For standard 7-way applications, NON-ABS equipped trailers •Temperature rating -40°C to 66°C •Good ratings for chemical resistance & abrasion resistance •Zinc die-cast housing, reinforced for durability

Part No. 22-2051, 12' w/ two zinc die-cast plugs

Part No. 22-2071, 15' w/ two zinc die-cast plugs

Liftgate (Charging) Cables Feature:

•Perfect for liftgate applications utilizing trailer battery pack •NOT RECOMMENDED FOR POWER PULL FROM TRACTOR BATTERY •4 ga. fine stranded copper for flexibility •100 amp capacity •Zinc die-cast plugs

SINGLE POLE - One 4 ga. Fine Stranded Copper

•Good ratings for recoil memory, chemical resistance & abrasion resistance •Temperature rating -68°C to 52°C •Mates w/ single pole metal socket (#15-320)

Part No. 23-4325, 12', 1 hot, 100 amp capacity.

Part No. 23-4625, 15', 1 hot, 100 amp capacity.

DUAL POLE - Two 4 ga. Fine Stranded Copper

•Excellent ratings for recoil memory, chemical resistance & abrasion resistance •Temperature rating -48°C to 110°C •Internal ground to improve ground connections •Mates w/ dual pole metal socket

(#15-326) •Zinc die-cast housing, reinforced for durability

Part No. 23-2326, 12', 1 ground, 1 hot, 100 amp capacity.

Part No. 23-2626, 15', 1 ground, 1 hot, 100 amp capacity.

GROTE

Ultralink Power Cords

•Completely sealed to prevent corrosion •Minimal voltage drop through sonic welded terminations •Shock proof, solid molded elastomeric plug body •Stainless steel radial springs ensure a tight grip on the pins •Plated brass split terminals: increased current carrying capacity

ULTRALINK ABS POWER CORDS

•Meets recommended wire requirements for trailer built with ABS, starting in 1998 •Wire configuration includes an 8 ga. ground and 10 ga. red and blue •Extra tough urethane jacket material performs -48°C to 87°C •Configuration: 1/8-2/10-4/12 •(87062EA) includes a 48" straight trailer lead

PART NO.	PLUG 1	PLUG 2	STYLE	LENGTH
87060EA	Straight	Angled	Coiled	15 ft.

ELECTRICAL JUNCTION BOX
•Box is made of high impact black UV resistant ABS plastic •Sealing surface of lid has a unique V groove to help exclude moisture •Supplied with nuts, lock washers, and two strain relief clamps •14-way junction box is designed to meet the needs of new ABS wiring where seven terminals are not enough
Part No. 667-7040, 7-way junction box supplied with 5 grommets.

Part No. 667-1440, 14-way junction box supplied with 5 open and 5 closed grommets.

ADAPTER
•Adapts trucks equipped with 6-way plugs to trailers with 7-way sockets.
Part No. 791-67.

SOCKETS — 7-WAY with CIRCUIT BREAKERS
Part No. 670-7220, 20 breaker amperage.
Part No. 670-7230, 30 breaker amperage.

SOCKETS — 7-WAY with CIRCUIT BREAKERS AND ADAPTER BOX
•Adapter box supplied with a rear mounting gasket
Part No. 670-72205, 20 breaker amperage.
Part No. 670-72305, 30 breaker amperage.

4-WAY CONNECTORS - Heavy duty, RV and truck connector, 12-24 volt, 35 amp
•Features extended exterior and socket conceals terminals •Unique cable clamp prevents chafing - gives more cable support, saves installation time •Integral finger grips for positive pull - never shakes loose •Stainless steel spring •Dust and water resistant •Polarized •Terminals accept up to #12 gauge wire •Two 1/4" mounting holes on 4-way sockets •2-7/8" on centre •Mounts through 1-3/8" dia. hole
Part No. 11-400, Complete assembly - #11-402 plug and #11-404 socket
Part No. 11-402, Heavy duty plug - no cable guard
Part No. 11-403, Heavy duty plug w/ cable guard
Part No. 11-404, Heavy duty socket

11-402

11-403

11-404

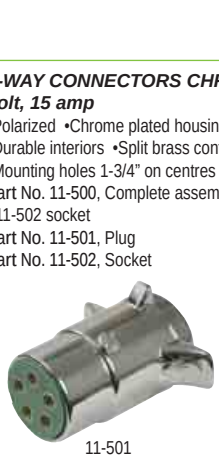
Pollak

4-WAY CONNECTORS CHROME PLATED - 12-24 volt, 20 amp
•Polarized •Chrome die cast ABS plastic high impact green insulators and split brass contacts
Part No. 11-408, Complete assembly - #11-409 plug and #11-410 socket
Part No. 11-409, Plug
Part No. 11-410, Socket

11-409

11-410

5-WAY CONNECTORS CHROME PLATED - 12-24 volt, 15 amp
•Polarized •Chrome plated housing, spring loaded cover •Durable interiors •Split brass contact for maximum current •Mounting holes 1-3/4" on centres
Part No. 11-500, Complete assembly - #11-501 plug and #11-502 socket
Part No. 11-501, Plug
Part No. 11-502, Socket



11-501

11-502

Connectors

6-WAY CONNECTORS

•High impact interiors of super strength keyed for proper assembly •Brass terminal pins for best conductivity, terminals accept up to #12 gauge wires •Two 1/4" mounting holes on 6-way sockets •2-7/8" on center •Mounts through 1-3/8" dia. hole

Part No. 11-600, Complete assembly - #11-604 plug and #11-607 socket
Part No. 11-602, Complete assembly - #11-604 plug and #11-608 socket
Part No. 11-603, Complete assembly - #11-604 plug and #11-609 socket - incorporates concealed terminals on socket side for exterior mounting. Recommended for RV and flat bed trailer use.
Part No. 11-604, Plug - no cable guard
Part No. 11-605, Plug w/ cable guard
Part No. 11-607, Socket, exposed terminals
Part No. 11-608, Socket w/ rubber boot
Part No. 11-609, Socket, concealed terminal
Part No. 11-613, Plug
Part No. 11-614, Socket - black ABS plastic
Part No. 11-615, Socket w/ rubber boot - #11-614 socket and #11-616 boot

ACCESSORIES

Part No. 11-606, Plug interior
Part No. 11-616, Rubber boot - seals against dust and moisture, fits #11-607, #11-614
Part No. 11-617, Connector bracket - designed to fit under the trailer tongue, ball, or 2-hole frame mounting. Heavy gauge steel plated. Fits connectors #11-400, #11-408, #11-500, #11-600, #11-603, and #11-614.
Part No. 11-627, Connector bracket - same as #11-617 except with black zinc coating for protection against rust and corrosion
Part No. 11-626, Hardware kit for 6 pole plugs

7-POLE SOCKET FOR ABS APPLICATION

•Wire insertion style socket •Floating solid brass pins •40 amps continuous duty @ 6-28VDC •Manufactured from high impact nylon •Interchangeable with all SAE type connectors
Part No. 11-837.

HEAVY DUTY 7-WAY PLUGS

•Meets and exceeds all standards of SAE J560 •Floating pins for ease of alignment and maximum contact •Will accept the widest range of wire gauges, from #16 wires to #8 ground wire •Interchangeable with all competitive ATA types •Tapered design fits comfortably and conveniently for easy hand position pull. Jumbo finger grips and two hang-up holes •High impact cycolac interior with extended lip for easy removal and replacement •Solid brass terminal screws •40 amps continuous duty @ 6-28 VDC •WeatherBeater seal accommodates .450 minimum wire dia.

Part No. 11-700, Plug - zinc die-cast
Part No. 11-702, Plug w/ cable guard - #11-700 plug and #11-763 guard
Part No. 11-704, Plug - glass filled nylon
Part No. 11-710, Plug w/ cable guard - #11-704 plug and #11-763 guard
Part No. 11-900, WeatherBeater plug - zinc die-cast
Part No. 11-902, WeatherBeater plug w/ cable guard - #11-900 plug and #11-763 guard
Part No. 11-904, WeatherBeater plug - glass filled nylon
Part No. 11-910, WeatherBeater plug w/ cable guard - #11-904 plug and #11-763 guard

ACCESSORIES

Part No. 11-762, Rubber boot - seals against dust and moisture, 2.5" long. For .460-.720 dia. cable, fits #11-700, #11-704, #11-852, #11-900, #11-904.
Part No. 11-763, Cable guard - plated steel, 3.56" long fits #11-700, #11-704, #11-852, #11-900, #11-904.
Part No. 11-764, Plug interior for #11-700, #11-702, #11-704, #11-710, #11-900, #11-902, #11-904, #11-910. Supplied with mounting screw.

11-700

11-702

11-704

11-710

11-764

7-WAY SOCKETS

•Meets and exceeds all standards of SAE J560 (solid pin sockets only) •Floating pins for ease of alignment and maximum contact •Self grounded (die-cast only) •Optimum slant mount and drain slot rid housing interior of accumulated moisture •Will accept the widest range of wire gauges, from #16 wires to #8 ground wire. Ground terminal pin #1 will accept #14 gauge min. to #8 gauge max. Other terminals will accept #16 gauge min. to #10 gauge max. •40 amps continuous duty @ 6-28 VDC •Self grounded (die-cast only) to #1 ground terminal •Stainless steel spring •Recommended mounting hole = 2" dia. •Interchangeable with all competitive makes

Wire Insertion Style Sockets

Part No. 11-720, Solid pin 2 hole mount socket
Part No. 11-721, Split pin 2 hole mount socket
Part No. 11-729, Solid pin 3 hole mount socket
Part No. 11-730, Split pin 3 hole mount socket
Part No. 11-723, Solid pin nylon socket

11-720

11-723

Ring Termination Style Sockets

Part No. 11-785, Same as #11-720 except with rear threaded terminals for ring terminals. Solid pins.
Part No. 11-811, Same as #11-785 except with split pins

11-785

Bullet Termination Style Sockets

Part No. 11-786, Bullet style solid brass terminals for push-on amp style terminals. Will accept straight or right angle connector wires. Extended hinge pin and external spring for increased closure force.
Part No. 11-797, Same as #11-786 except without extended hinge pin and external spring. Solid pins.
Part No. 11-789, Same as #11-797 except with split pins

11-786

Accessories

Part No. 11-761, 7 pole socket rubber socket boot for #11-720, #11-721, #11-723, #11-724, #11-729, #11-730 and #11-851. Seals against dust and moisture, 1.5" long, for .460"-.720 dia. cable.
Part No. 11-781, Hardware kit for 7-way sockets, zinc die-cast
Part No. 11-771, 7 pole socket bracket fits #11-851
Part No. 11-780, Neoprene gasket for 3-hole mount die-cast sockets. May be used as template.

11-797

11-771

7-WAY SOCKETS W/ REPLACEABLE CIRCUIT BREAKERS

•Base plate and back plate made from rugged glass filled nylon to resist breaking •Bottom lip has been extended to allow for better plug and cable support •Drain hole has been incorporated into the housing to allow accumulated moisture to escape •Will accept the widest range of wire gauges, from #14 wires to #8 ground wire •Will accept all plugs conforming to SAE J560 specifications •Ground may be tied to any screw mounting the rear terminal plate •Designed to provide easy serviceability of circuit breakers •Recommended that positive feed be attached to aux. post on circuit breaker.

AMPERAGE	PIN TYPE	PART NO.	REPL. CIRCUIT BREAKER METAL HOUSING	REPL. CIRCUIT BREAKER PLASTIC HOUSING

30	Split	11-739	54-130	54-130PL

STANDARD SOCKETS ADAPTED TO CIRCUIT BREAKER MOUNTING PLATE WITHOUT BREAKERS

For use as a replacement of original equipment when circuit breaker protection is not required
Part No. 11-732, Wire insertion style - solid pin
Part No. 11-733, Wire insertion style - split pin
Part No. 11-796, Ring termination style - split pin

11-732

RV CONNECTORS

•Polarized design with high impact green Cycolac interior split brass contacts for perfect fit to insure maximum current •PVC sleeves not affected by ozone or weather •Includes trailer end and car end •12-24 volts, 20 amp.
Part No. 11-200, Complete 2-way assembly
Part No. 11-405, Complete 4-way assembly

AUTOMOTIVE, MARINE, RV & TRUCK INLINE CONNECTORS

•Molded inline connectors are an economical means of connecting electrical systems •Wires are colour coded for easy installation •Standard 18 gauge automotive wire, 12" long, except where noted •Polarized to insure proper connection •Molded case offers all round weather protection •12 volt, 15 amp.
Part No. 12-200, Complete assembly 2-pole, flat type, 18 gauge wire
Part No. 12-403, Complete assembly 4-pole, flat type, 18 gauge wire
Part No. 12-404, Complete assembly 4-pole, flat type, with 48" wire leads of female (car) side. 12" leads on male (trailer) side
Part No. 12-600, Complete assembly 6-pole, square type, 18 gauge wire
Part No. 12-601, Complete assembly 6-pole, square type, with 48" wire leads of female (car) side. 12" leads on male (trailer) side

12-200

12-600

12-404

7-WAY RV OEM STYLE SOCKETS & WIRING ASSEMBLIES

Part No. 11-893, RV Socket OEM Style 12V, 30 amps - features high impact nylon that solves corrosion problems and eliminates rusting when mated with special interlocking sealed connector •Socket lid features stainless spring and runner gasket, also has a drain slot and is angled down for drainage •Terminal pins are tin plated copper alloy providing higher conductivity and less resistance •Fits Ford style and universal Pollak #12-711U mounting bracket for other OEM applications

11-893

Part No. 11-898, Wiring Assembly Kit - includes #11-893 socket and #12-711U bracket, interlocking connector and 4 ft. harness assembly with 0.5" convoluted tubing, and 7 wire leads colour coded to RVI standards •For new installations or replacement of damaged aftermarket or OEM sockets and wiring harnesses •Includes mounting hardware

11-898

7-WAY RV CONNECTORS

•Plastic connector set eliminates rusting, poor appearance and difficulty in plug removal •Design offers dual grips for ease of plug removal from socket and incorporates vinyl inserts to keep out dirt and moisture •Interior design prevents internal short circuiting, and the safety latch prevents damage from accidental pull away •Colour coded to RVI standards
Part No. 12-705, Complete assembly - #12-706 trailer end plug and #12-707 car end socket
Part No. 12-709, Complete assembly w/ bracket - #12-705 assembly and #12-711U bracket
Part No. 12-706, Trailer end plug
Part No. 12-707, Car end socket
Part No. 12-712, Car end socket w/ bracket - #12-707 car end socket and #12-711U bracket

7-WAY RV CONNECTORS W/ UNIQUE INTERIOR DESIGN

•Non corroding, shock resistant interiors with unique terminal reinforcer dams that eliminate short circuiting by preventing contacts from spreading •Centre pin will take up to 8 gauge wire for battery charge systems •Traditional metal connectors •Heavily plated for maximum weather and corrosion resistance •Stainless steel cover spring •Jumbo welded pistol grip •Safety latch prevents damage from accidental pull away •Colour coded to RVI standards
Part No. 12-700, Complete assembly - #12-702 trailer end plug and #12-703 car end socket
Part No. 12-704, Complete assembly w/ bracket - #12-700 assembly and #12-701U bracket
Part No. 12-702, Trailer end plug
Part No. 12-703, Car end socket
Part No. 12-710, Car end socket w/ bracket - #12-703 car end socket and #12-701U bracket

9-WAY RV CONNECTORS

•Heavy duty staking methods proven in long term usage. No possibility of molding compound contaminating contacts to cause dead spots •Unique method of machining from solid bar (not stamping) and spring loading contacts give long trouble free service •Floating pins are self-aligning offering continuous wiping action and the most positive contact •Terminals designed for 2-8 gauge, 2-12 gauge and 5-14 gauge to new industry standard for minimum voltage drop •Contacts on both trailer and car side spring loaded •Completely field serviceable
Part No. 12-905, Complete assembly - #12-906 trailer end plug and #12-907 towing vehicle end socket
Part No. 12-906, Trailer end plug
Part No. 12-907, Towing vehicle end socket
Part No. 12-701U, Bracket - constructed of heavy gauge steel

MOUNTING BRACKETS

Part No. 12-711U, Right angle mounting bracket for: #12-703, #12-707, #12-907, black epoxy coated for protection against rust and corrosion

Part No. 12-701U, Right angle mounting bracket for: #12-703, #12-707, #12-907, constructed of heavy gauge steel

POLLAK

Electrical Connectors

Plugs Feature:
•Large finger grips for ease of coupling/uncoupling •Meets SAE J560 specifications (ISO meets ISO 3731) •Floating brass pins for easy installation •Extended housing for easy repair •Wire insertion on 7-way (non-blade), and 6-way plugs

PERMAPLUG™
•Anti-corrosive, Dupont Super-Tuff Nylon® housing •360° cable compression fitting holds cable tight •Housing resists magnesium chloride, salt, oil, grease and fuels •Plugs fit all SAE J560 7-way cables •ABS insert protects housing from impacts •Easy replacement insert
Part No. 16-730.

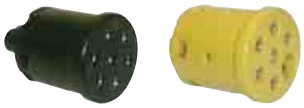
ZINC DIE-CAST PLUG
•Reinforced zinc die-cast for durability •Plugs fit all SAE J560 7-way cables •Easy replacement insert
Part No. 15-710, Industry-standard plug.
Part No. 15-730, Industry-standard plug w/ cable guard.

ISO PLUG w/ CABLE GUARD
•Reinforced zinc die-cast housing for durability •Male ground pin to prevent mis-connection •Easy replacement insert
Part No. 15-830.

4 & 6-WAY PLUGS
•Zinc die-cast housing for durability •Brass terminations for superior conductivity •Rugged finger grips for easy coupling/uncoupling
Part No. 15-410, 4-way plug.
Part No. 15-430, 4-way plug w/ cable guard.
Part No. 15-610, 6-way plug.
Part No. 15-630, 6-way plug w/ cable guard.

CABLE GUARD
•Spring for #15-710, 15-730 & 15-830 Plugs.
Part No. 15-731.

REPLACEMENT INSERT
Part No. 15-711, For standard Phillips #16-730, 15-730 & 15-710 SAE J560 plugs, black.
Part No. 16-811, For Phillips #15-830 ISO 3731 plug, yellow.



6-WAY INSERTS
Part No. 15-611, 6-way insert.

QCP™ REPLACEABLE CARTRIDGE INSERT
•Replacement cartridge for QCP™ Assembly ONLY •Machined brass pins •Floating pins for easy coupling/uncoupling
Part No. 16-125.

LIFTGATE (Charging) Plugs Feature:
•Perfect for liftgate applications utilizing trailer battery pack •NOT RECOMMENDED FOR POWER PULL FROM TRACTOR BATTERY •100 amp capacity
•Zinc die-cast housing with cable guard for durability

DUAL POLE PLUG
•Helps eliminate grounding corrosion and increases conductivity •For use with 4 gauge wire only •Separate ground pin for ground return systems •Mates with #15-326 socket
Part No. 15-336.

SINGLE POLE PLUG
•Industry-standard plug •Crimp lug for 4 gauge wire included •Installs with standard lug crimp tool •Mates with #15-320 socket
Part No. 15-335.

SINGLE CONDUCTOR BREAKAWAY
•Ideal for dumptruck applications •10 ga. to 6 ga. •50 amp
Part No. 15-800, Black socket.
Part No. 15-801, Red socket.
Part No. 15-805, Black plug.
Part No. 15-806, Red plug.

STA-DRY® Socketbreakers Feature:
•Inner cavity sealed to prevent contaminants from passing to wire harness
•Anti-corrosive, Dupont Super-Tuff Nylon® housing
•Stainless steel hinge pin and spring for long-life
•Circuit breaker can be changed in 30 seconds
•Raised interior ribs for moisture exit
•Includes neoprene closed cell sponge mounting gaskets
•Quick & easy circuit breaker change
•Full-opening lid

7-WAY SOCKETBREAKERS
Part No. 16-760, Without circuit breakers, split pins.
Part No. 16-761, With 15 amp circuit breakers, split pins.
Part No. 16-762, With 20 amp circuit breakers, split pins.
Part No. 16-763, With 30 amp circuit breakers, split pins.

ISO SOCKETBREAKERS
Part No. 16-860, Without circuit breakers, split pins w/ female ground pin.
Part No. 16-861, With 15 amp circuit breakers, split pins w/ female ground pin.
Part No. 16-862, With 20 amp circuit breakers, split pins w/ female ground pin.
Part No. 16-863, With 30 amp circuit breakers, split pins w/ female ground pin.

Zinc Die-Cast Socketbreakers Feature:

- •Meets SAE J560 specifications
- •Stainless steel hinge pin and spring for long-life
- •Full-opening lid
- •Raised interior ribs for moisture exit
- •Includes neoprene closed cell sponge mounting gaskets
- •Quick & easy circuit breaker change

7-WAY LOW PROFILE SOCKETBREAKERS

•Designed for container chassis, piggy-back and intermodal trailers where standard socketbreakers are exposed to damage •Circuit breaker can be changed in 30 seconds

Part No. 15-750, without circuit breakers, split pin.
Part No. 15-751, with 15 amp circuit breakers, split pin.
Part No. 15-752, with 20 amp circuit breakers, split pin.
Part No. 15-753, with 30 amp circuit breakers, split pin.

7-WAY EXTENDED BARREL SOCKETBREAKERS

•Industry standard application •Circuit breaker can be changed in 30 seconds

Part No. 15-760, without circuit breakers, split pin.
Part No. 15-761, with 15 amp circuit breakers, split pin.
Part No. 15-762, with 20 amp circuit breakers, split pin.
Part No. 15-763, with 30 amp circuit breakers, split pin.

STA-DRY® Sockets Feature:

- •Inner cavity sealed to prevent contaminants from passing to wire harness
- •Anti-corrosive, Dupont Super-Tuff Nylon® housing
- •Resists magnesium chloride, salt, oil, grease and fuels
- •Extended front barrel for additional cable support
- •Slanted 5° for moisture drain
- •Unbreakable housing and lid
- •Stainless steel hinge pin and spring for long-life
- •Elongated holes for mounting adaptability
- •Meets SAE J560 specifications
- •Split brass pins

WIRE INSERTION

Part No. 16-720, 2-hole, wire insertion.
Part No. 16-721, 3-hole, wire insertion

7-WAY SOCKETS

•Zinc die-cast housing for durability •Elongated holes for mounting adaptability •Stainless steel hinge pin and spring for long-life •Full-opening lid •Meets SAE J560 specifications

Part No. 15-720, 2-hole, wire insertion, split pin.
Part No. 15-722, 3-hole, wire insertion, split pin.

4 & 6-WAY SOCKETS

•Zinc die-cast housing for durability •Elongated holes for mounting adaptability •Stainless steel hinge pin and spring for long-life •Full-opening lid

Part No. 15-400, 4-way, wire insertion, split pin, mates with #15-410, 15-430.
Part No. 15-600, 6-way, wire insertion, split pin, mates with #15-610, 15-630.

LIFTGATE (Charging) Sockets Feature:

- •Perfect for liftgate applications utilizing trailer battery pack
- •NOT RECOMMENDED FOR POWER PULL FROM TRACTOR BATTERY
- •100 amp capacity
- •Zinc die-cast housing
- •Stainless steel hinge pin and spring for long-life

DUAL POLE SOCKET

•Zinc die-cast housing for durability •Solid brass pins •Elongated holes for mounting adaptability •Stainless steel hinge pin and spring for long-life •5/16" stud size for lugs •Mates with #15-336 dual pole plug.
Part No. 15-326.

SINGLE POLE SOCKET for use with 4 ga., 5/16" lug

•Zinc die-cast housing for durability •Solid brass pins •Elongated holes for mounting adaptability •Stainless steel hinge pin and spring for long-life •5/16" stud size for lugs •Mates with #15-335 single pole plug.
Part No. 15-320.

SOCKET BOOT

•Reduces exposure to contaminants & moisture
Part No. 15-740, Fits #15-720, 15-722, 16-720, 16-721.
Part No. 15-640, Fits #15-400, 15-600.

PART NO.	DESCRIPTION
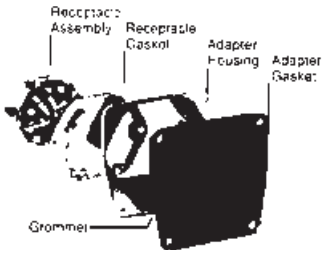
BE24015	15 amp receptacle assembly only - 7 way
BE24020	20 amp receptacle assembly only - 7 way
BE24120	20 amp receptacle assembly c/w adapter housing - 7 way
BE24220	20 amp receptacle assembly c/w adapter housing - 6 and 7 way
24100	Replacement adapter housing c/w screws for #BE24120 assembly
BE20265	Replacement receptacle insert - 7 way
B20021	Replacement cable port grommet



JUNCTION BOXES

PART NO.	DESCRIPTION
BE22070	Circuit breaker style 6 pole junction box c/w lid
BE22090	Terminal block style 6 pole junction box c/w lid
BE22010	Terminal block style 7 pole junction box c/w lid
BE20512	Replacement lid for #BE22010 and #BE22070 junction boxes
B20015	Replacement closed hole grommet for junction boxes
B20016	Replacement open hole grommet for junction boxes

Haldex

HEAVY DUTY TRAILER CONNECTORS

•For tractors, trailers, recreational vehicles and farm equipment •Corrosion resistant zinc die-cast construction •All sockets have spring loaded flap covers •Integral cable clamp prevents cable from being pulled loose from connections •High impact molded insulators have wire codes permanently molded into them for easy identification •Extended bumper type plug interior prevents damage to shell

HEAVY DUTY 7-POLE CONNECTOR ZINC DIE-CAST HOUSING

•Meets and exceeds all rigid anti-skid standards of FMVSS-121, SAE J560 and ISO 1185 •Accommodates the widest range of wire gauge from 16 to 8 for ground wire •Solid floating contact pins for positive contact and alignment

PART NO.	DESCRIPTION
76-4025EA	7-pole connector socket
76-4062EA	7-pole connector plug w/ cable protector
76-4026EA	7-pole connector plug
76-4024EA	7-pole trailer connector assembly - #76-4025EA socket and #76-4026EA plug
Replacement Parts & Accessories	
76-4066EA	7-pole socket interior for #76-4025EA socket
76-4054EA	7-pole plug interior for #76-4026EA and #76-4062EA plugs
76-4071EA	Flexible rubber boot to provide weather proof protection at rear of 7-pole socket
76-4220EA	7-way plug cleaner - helps eliminate poor electrical connections due to corroded trailer terminals. Facilitates both plug and socket cleaning.

HEAVY DUTY 6-POLE CONNECTOR

•Die-cast construction keyed high impact molded insulators •Conceals and protects connections against road splash, dirt, etc. 12-24 Volt, 35 amp

PART NO.	DESCRIPTION
76-4009EA	6-pole connector socket
76-4013EA	6-pole connector plug w/ cable protector
76-4011EA	6-pole connector plug
76-4015EA	6-pole trailer connector assembly - #76-4009EA socket and #76-4011EA plug
76-4018EA	6-pole trailer connector assembly - #76-4009EA socket and #76-4013EA plug
Replacement Parts & Accessories	
76-4010EA	6-pole socket interior for #76-4009EA socket
76-4012EA	6-pole plug interior for #76-4011EA and #76-4013EA plugs
76-4074EA	Flexible rubber boot to provide weather proof protection at rear of 6-pole socket

HEAVY DUTY 4-POLE CONNECTOR

•Special socket housing design conceals and protects connectors against road splash, dirt, etc.

PART NO.	DESCRIPTION
76-4020EA	4-pole connector socket
76-4021EA	4-pole connector plug
76-4019EA	4-pole trailer connector assembly - #76-4020EA socket and #76-4021EA plug

MEDIUM DUTY 4-POLE CONNECTOR

•Polarized, chrome-plated die-cast housing, spring loaded cover, brass contacts

PART NO.	DESCRIPTION
76-4016EA	4-pole connector socket
76-4017EA	4-pole connector plug
76-4014EA	4-pole trailer connector assembly - #76-4016EA socket and #76-4017EA plug

76-4133EA

76-4000EA

MOLDED INLINE CONNECTORS

PART NO.	DESCRIPTION
76-4133EA	6-Pole Molded Connector Assembly - polarized, colour coded, weather resistant PVC body, 24" long
76-4000EA	4-Pole Flat-Type Molded Connector Assembly - polarized, brass contacts molded into weather resistant PVC body. Colour coded wires. Connector assembly complete. 24" long
76-4228EA	3-Pole Flat-Type Molded Connector Assembly - molded water proof body with colour coded wires. Polarized for proper mating of circuits. Terminals precision aligned for maximum current carrying capacity and ease of connecting and disconnecting. 12" long wires on male and female sides
76-4200EA	2-Pole Flat-Type Molded Connector Assembly - molded water proof body. 16 ga., 44" long, colour coded leads

76-4228EA

RV CONNECTOR ADAPTER

Converts 7-Pole to 4-Pole Connections.
Part No. 76-4148EA.

82-1020EA

HEAVY DUTY 4-POLE CONNECTORS •North American
Part No. 82-1020EA, 4 pole socket with enclosed terminals
Part No. 82-1021EA, 4 pole plug - heavy duty connects
Part No. 82-1040EA, Kit - includes #82-1020EA and #82-1021EA

HEAVY DUTY 6-POLE & 7-POLE CONNECTORS
•Exceeds ATA and SAE standards •Die-cast housing for corrosion resistance •Split pin sockets
Part No. 82-1006EA, 6 pole plug - North American
Part No. 82-1011EA, 6 pole plug
Part No. 82-1010EA, 6 pole plug with guard
Part No. 82-2006EA, 6 pole plug with guard - North American
Part No. 82-1013EA, 6 pole plug interior - North American
Part No. 82-1015EA, 6 pole socket with exposed terminals - North American
Part No. 82-1016EA, 6 pole socket with enclosed terminals
Part No. 82-4006EA, 6 pole socket with enclosed terminals - North American
Part No. 82-1012EA, Socket boot for #82-1015EA - North Amercian
Part No. 82-1018EA, 6 pole plug and socket kit
Part No. 82-1001EA, 7 pole plug
Part No. 82-1007EA, 7 pole plug - North American
Part No. 82-1019EA, 7 pole plug with guard
Part No. 82-1037EA, 7 pole plug with guard - North American
Part No. 82-2140EA, 7 way polyglass plug - North American
Part No. 82-1003EA, 7 pole interior plug - North American
Part No. 82-2141EA, Cable guard for #82-1001EA
Part No. 82-2142EA, Plug boot for #82-1001EA - North American
Part No. 82-1002EA, 7 pole socket
Part No. 82-1005EA, 7 pole socket, solid pin - North American
Part No. 82-1047EA, 7 pole socket - North American
Part No. 82-0850EA, 7 way receptacle with circuit breaker

ULTRA-PIN RECEPTACLE, 2 HOLE MOUNT
•Weathertight •No rust, die-cast zinc •Heavy bosses for extra rigidity •Barrel slanted to drain moisture •Mounting holes slotted for universal fit •Replaceable solid brass plate •Floating pins for easy alignment and solid mating •High impact retainer plate •Two male terminals for grounding
Part No. 87250EA, Receptacle only, split pin
Part No. 99510EA, Retro-fit plug-in terminal kit only - contains 9 terminals and 9 boots
Part No. 87270EA, Receptacle with retro-fit plug-in terminal kit, split pin

82-1001EA

82-2140EA

82-1003EA

ULTRA-PIN RECEPTACLE, 3 HOLE MOUNT
•Weathertight •No rust, die-cast zinc •Heavy bosses for extra rigidity •Mounting holes slotted for universal fit •Replaceable solid brass pins •Floating pins for easy alignment and solid mating •High impact retainer plate
Part No. 87220EA, Receptacle only, split pin
Part No. 99510EA, Retro-fit plug-in terminal kit, split pin - contains 9 terminals and 9 boots
Part No. 87240EA, Receptacle with retro-fit plug-in terminal kit, split pin

RVI POLLAGLAS 7-POLE CONNECTORS •12-24 volts •30 amp
Part No. 82-1056EA, 7 pole plus trailer end
Part No. 82-1058EA, 7 pole socket car end
Part No. 82-1050EA, Connector kit - includes #82-1056EA and #82-1058EA

82-1058EA

HEAVY DUTY 1 POLE CONNECTORS
•Continuous duty capacity of 300 amps •Heavy duty zinc die cast housing •Corrosion resistant •North American
Part No. 82-0851EA, 1 pole socket
Part No. 82-0852EA, 1 pole plug
Part No. 82-0950EA, Connector kit - includes #82-0851EA and #82-0852EA

Trailer Connectors

RECEPTACLE MOUNTING BOX
•For surface mounting receptacles •Fits over all terminals and wiring •Strain relief to protect wiring system •Rustproof aluminum •Slotted mounting holes •Mounting for #87860EA, #87240EA, #87220EA, #87850EA.
Part No. 43684EA.

ULTRA-PIN RECEPTACLE, 4 HOLE MOUNT NOSE BOX
•Extra heavy bases •Slanted barrel for drainage •Floating pins •High impact retainer plate •Die-cast zinc.
Part No. 87590EA, Solid pin.

SEVEN TERMINAL JUNCTION BOX
•Corrosion resistant molded cover and housing •Entrance slots •Two-bolt mounting 7-3/8" to centre •Access slot grommets included, four open, four closed •Seven #10-32 studs
Part No. 82-1000EA.

DRI-SEAL CIRCUIT BOX
•Entrances stay dry by using the new push-in choke seals and threaded fittings - comes with 4 choke seals •18 brass circuit studs and full hardware •Entry from 4 sides •All components are corrosion resistant •Numbered label for fast circuit I.D. •Ample area for wire and cable - 1 cable entrance fitting
Part No. 351044EA.

Grote

COLE HERSEE
Trailer Connectors

6 & 4 POLE SOCKETS & PLUGS
SOCKETS: •Die-cast metal housing •Screw terminals, accept up to #12 gauge wire •Brass contacts aligned to assure proper contact and minimum voltage drop •Wiring codes identified on insulator •Replaceable interior •Spring loaded socket door , plug locks into opening securely PLUGS: •Die-cast metal housing •Screw terminals, accept up to #12 gauge wire •Contacts float for best alignment and connection •Replaceable interior

PART NO.	DESCRIPTION
1258	6 pole socket - exposed terminal screws, split contact pins, 17/64" dia. x 2-15/16" on centers flange holes, mounting through 1-3/8" dia. hole
1235	6 pole socket - same as #1258 except with special housing design to protect connections from road splash, dirt, etc.
1257	4 pole socket - exposed terminal screws, split contact pins, 17/64" dia. x 2-15/16" on centers flange holes, mounting through 1-3/8" dia. hole
1232	4 pole socket - same as #1257 except with special housing design to protect connections from road splash, dirt, etc.
1254	6 pole plug w/ cable protector - holds all size cables firmly in place, plated steel cable protector provides strain relief and abrasion protection
1236	6 pole plug - same as #1254 except without cable protector
1253	4 pole plug w/ cable protector - holds all size cables firmly in place, plated steel cable protector provides strain relief and abrasion protection
1233	4 pole plug - same as #1253 except without cable protector

7 POLE PLUGS WITH SPRING-GRIP ELECTRICAL CONTACTS
•Unique brass female contact with self adjusting spring band insures uniform contact with socket pin •Greater contact area for increased electrical efficiency •Coupling and uncoupling are easier •Creates a wiping action that eliminates dirt, dust, etc. •Competitive contacts will spread after repeated use, limiting the contact area and reducing current flow. The distorted contact allows dirt, dust, etc. to build up, further increasing voltage loss •Die-cast metal housing •Ground terminal accepts up to #8 gauge wire, other terminals up to #10 gauge wire •Replaceable interior •Wiring codes identified on insulator

PART NO.	DESCRIPTION
1255	7 pole plug w/ cable protector - holds all size cables firmly in place, plated steel cable protector provides strain relief and abrasion protection
1222	7 pole plug - same as #1255 except without cable protector

7 POLE PLUGS FEATURING SPRING-CLIP QUICK RELEASE PLUG INTERIORS
•Screw, ground terminal accepts up to #8 gauge wire, other terminals up to #10 gauge wire •Replaceable interior •Floating contacts for best alignment and connection

PART NO.	DESCRIPTION
12092	7 pole plug w/ cable protector (die-cast metal housing) - holds all size cables firmly in place, plated steel cable protector provides strain relief and abrasion protection
12091	7 pole plug - same as #12092 except without cable protector
12082	7 pole plug w/ cable protector (glass filled plastic housing) - holds all size cables firmly in place, plated steel cable protector provides strain relief and abrasion protection
12081	7 pole plug - same as #12082 except without cable protector

Cole Hersee Co.

Trailer Connectors

7 POLE CONNECTORS FOR ISO APPLICATIONS

•Replacement 7 pole connectors per ISO 3731-1980 (E): Road vehicles - electrical connections between towing vehicles and trailers with 24V electrical equipment. Type 24S (supplementary) •Die-cast metal housing •Six spring-grip female contacts and one solid male contact pin

PART NO.	DESCRIPTION
12077-01	Polarized ground terminal for correct mating- insulated circuit contacts (not self grounding). One "spring grip" female contact and six solid male contact pins. Spring loaded cover protects contacts from weather, dirt, etc. Flange holes 21/64" diameter, 2-15/16" on centers. Mounts through 2" diameter hole.
11100-02	7 pole connector w/ cable protector - holds all size cables firmly in place, plated steel cable protector provides strain relief and abrasion protection

7 POLE SOCKETS - CONFORM TO A.T.A., R.C.C.C. (RP-102), SAE (J560b) AND FMVSS-121, FIEI T.T.M.A. (RP#40-73) STANDARDS OR RECOMMENDATIONS

•Ground terminal accepts up to #8 gauge wire, other terminals up to #10 gauge wire •Brass contacts, aligned to assure proper contact and minimum voltage drop •Wiring codes embossed on insulator •Spring loaded socket door cover, fits over mating ridge on socket face for weather and dirt protection •Screw terminal •Flange holes: oval .488" x .328", 2.93" on centers •Mounting through 2" dia. hole

PART NO.	DESCRIPTION
12063	7 pole socket (solid brass contact pins) - self grounding, die-cast metal housing
12063-01	7 pole socket (split brass contact pins) - self grounding, die-cast metal housing
12080	7 pole socket (solid brass contact pins) - insulated circuit contacts, glass filled plastic housing
12080-01	7 pole socket (split brass contact pins) - insulated circuit contacts, glass filled plastic housing

12063

12080

STOR-A-WAY TRAILER CONNECTOR PLUG HOLDER

•For all 7-pole plugs conforming to T.T.M.A., A.T.A. and SAE specifications •Keeps plugs clean when not in use •Spring loaded for secure locking •Prevents plug damage and tangling of cables •Heavy duty glass filled plastic housing
Part No. 11750.

PLATED STEEL SOCKET MOUNTING BRACKET

•For 7-pole plugs conforming to T.T.M.A., A.T.A. and SAE sockets and 6 and 4 pole sockets of comparable design •Center hole 2" dia.
Part No. 11165.

PLATED STEEL CABLE PROTECTOR

•Plated steel spring for plug #12081, #12082, #12091, #12092
Part No. 81192.

ADAPTER HOUSING

•For 4, 6, and 7 pole connector sockets without circuit breakers •Eliminates need for cutting socket mounting hole in trailer •Socket attaching screws and lockwashers furnished
Part No. 1179.

PROTECTIVE BOOT FOR 7 POLE SOCKETS

•Protects against road splash, dirt, etc. •Inner ridge locks over head of terminal screws and edge of casting to hold securely •For socket #12063, #12063-01, #12080, #12080-01 and other 7 pole sockets of comparable design
Part No. 11178.

PLUG CLEANER WITH STAINLESS STEEL BRUSHES

•Extends life of connectors •Clean corroded contacts in seconds •Durable plastic body with snap-on cover
Part No. 11187.

SINGLE POLE POWER TAKE-OFF CONNECTOR

•Provides power to auxiliary equipment •Accepts up to #0 cable •Die cast housing •Electrical conductors and connections designed for maximum efficiency and long life

Socket, Self Grounding

•Mounting: fits 2" dia. hole, flange holes 21/64" dia. 2-15/16" on centers •Contact: solid brass 3/8" dia. male contact with insulated tip to prevent short circuits •Weatherproofing: rubber boot protects terminals and connections from moisture and dirt
Part No. 11041.

Plug, Ground Return Terminal

•Contact: brass female contact produces Spring-Grip tension for solid engagement with mating socket •Cable clamp: holds cable firmly in place
Part No. 11042.

UNIVERSAL TRAILER CONNECTORS WITH PROTECTIVE RUBBER CAPS

•Molded insulator bodies •Precision machined brass contacts •Rubber caps to protect connectors •Polarized to assure proper mating of circuits •Circuit identification printed on insulator •Four pole
Part No. 1134.

FARM EQUIPMENT CONNECTORS - 2-POLE

•2-pole breakaway-unit •20 amp maximum capacity •Polarized for proper mating of circuits •Mate with all connectors of comparable design

Socket

•Plated steel housing •High impact resistant molded plastic insulator •Mounting: integral mounting bracket with two .218" dia. mounting holes, 1.25" on centers •Contact: brass •Terminals: brass screw •Cover: stainless steel spring cover locks plug in place, closes securely to protect contacts when not in use
Part No. 1282.

Plug

•Plated brass housing •Cable Clamp: threaded cable grip prevents cable from being pulled loose from connection, plug automatically releases at approximately 20 pounds pull
Part No. 1283-325.

UNIVERSAL TRAILER CONNECTORS

•Polarized to assure proper mating of circuits •Molded weatherproof bodies •Colour coded 16 ga. wire, 6" long •Conductors properly aligned and bonded in insulation to assure minimum voltage drop and ease in connecting

Part No. 11135, 5-pole.

Part No. 11173, 3-pole.

Part No. 11134, 4-pole.

Part No. 11134-08-BP, 4-pole connector with eight #30223 Quick-tap wire splicers.

Part No. 11172, 2-pole.

Wiring Harness Fuses & Accessories

- ANN: Rated at 125 volts for applications up to 800 amps
- ANL: Rated at 32 volts for applications up to 750 amps — often used for protection on forklifts, golf carts, and similar applications.
- AMG: High current applications on some late model vehicles
- AMI: Used in power distribution protection for some late model vehicles
- FLB: Bolts into fuse block, 13/16" bolt terminal
- FLD: Bolts into fuse block, 9/16" bolt terminal
- FLF: Female terminations
- FLM: Male terminations
- FLN: Female terminations, locking tab
- FLS: Female mini terminations
- FMX: Female Maxi

NEW Low Profile

Automotive & Heavy Duty Electrical Products

ATC Fuse Holders & Accessories

FUSE TAP
Fits over the leg of any ATC blade fuse to tap into an existing circuit — to power a cellular phone, stereo component, etc.
Part No. BP/ATC-TAP, Pack of 5.

FUSE CIRCUIT CONVERTER
Converts an ATC fuse circuit into two fusible circuits by plugging into the fuseblock and accepts two fuses to provide protection for the existing circuit and the add-on circuit (10 amp maximum).
Part No. BP/HHA.

ATC FUSE HOLDERS
Part No. HHC, 1-20 amps w/ 16 ga. wire leads — yellow.
Part No. HHD, 1-30 amps w/ 12 ga. wire leads — black.
Part No. BK/HHD-C, Cover for HHC or HHD.
Part No. HHD-12, Display card of 12 HHD fuse holders.

HHC
HHD
BK/HHD-C

HHD-12

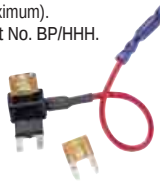
ATC FUSE HOLDERS
Part No. HHF, 3-20 amp fuse holder w/ protective cap w/ 16 ga. wire leads.
Part No. HHG, 3-30 amp fuse holder w/ protective cap w/ 12 ga. wire leads.

ATC FUSE HOLDER — WATERPROOF
Part No. HHR, Waterproof fuse holder w/ locking cap and mounting hole w/ 12 ga. leads.

ATM/Mini Fuse Holders & Accessories

FUSE TAP
Fits over the leg of any ATM blade fuse to tap into an existing circuit — to power a cellular phone, stereo component, etc.
Part No. BP/ATM-TAP.

FUSE CIRCUIT CONVERTER
Converts an ATM fuse circuit into two fusible circuits by plugging into the fuseblock and accepts two fuses to provide protection for the existing circuit and the add-on circuit (10 amp maximum).
Part No. BP/HHH.



MINI FUSE HOLDERS
Part No. BK/HHL-B, HHL body only - 2-20 amps.
Part No. BK/HHM-B, HHM body only - 2-30 amps.
Part No. BK/HHM-C, Cover only.

ATM FUSE HOLDERS
Part No. HHL, 2-20 amps w/ 16 ga. wire leads, with cover.
Part No. HHM, 2-30 amps w/ 12 ga. wire leads, with cover.

Maxi & Miscellaneous Fuse Holders & Accessories

MAXI FUSE HOLDERS
Part No. HHX, 20 - 60 amps fuse holder w/ cover and w/ 6 ga. wire leads.
Part No. BK/HHX-B, Body only, 20-60 amps, w/ 6 ga. wire leads.
Part No. BK/HHX-C, Cover only.

LIFT TRUCK FUSE HOLDER
Used with ANN and ANL fuses.
Part No. SFR.

AMG FUSE HOLDER
Fuse holder used with AMG fuses from 100 to 300 amps, recommended wire size is #2-8 and has full access design for ease of wiring from any direction. Impact resistant and has durable plastic base and cover.
Part No. HMEG.

AMI FUSE HOLDER
Fuse holder used with AMI fuses from 40 to 80 amps, and multiple blocks can be linked together to form an assembly.
Part No. HMID.

Buss® Fuses

Glass Tube Fuse Holders

WATERPROOF UNIVERSAL FUSE HOLDER
Accepts AGC, MDL fuses and from 12 to 16 ga. leads (not included).
Part No. HFA.

TWIST-LOCK FUSE HOLDER
Universal nylon twist-lock fuse holder w/ 14 ga. wire.
Part No. HHK.

PANEL MOUNT FUSE HOLDER
High profile knob, rear hex nut mounting, ¼" QC terminations up to 15 amp.
Part No. HKP-HH.

AGC FUSE HOLDER
1-30 amp AGC and SFE-20 fuse holder w/ 12 ga. wire.
Part No. HMK.

UNIVERSAL FUSE HOLDER
With springs to adapt to different fuse lengths w/ 14 ga. wire.
Part No. HRK.

PANEL MOUNT FUSE HOLDER
Low profile knob, rear hex nut mounting, ¼" QC terminations up to 20 amp.
Part No. HTB-26I.

Fuse Blocks & Accessories

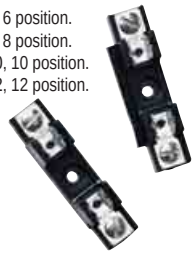
MULTI-POSITION FUSE PANELS
Short base fuse panel for blade type fuses.
Part No. 15600-06-20, 6 position.
Part No. 15600-08-20, 8 position.
Part No. 15600-10-20, 10 position.
Part No. 15600-12-20, 12 position.

COMBINATION FUSE TESTER & FUSE PULLER
Tests glass and blade fuses in or out of the fuseblock.
Part No. FT-3.

Buss® Fuses

MULTI-POSITION TERMINALS
Quick connect terminals for ¼" glass fuses — 20 amp max.
Part No. S8202-5, 5 position.
Part No. S8202-8, 8 position.
Part No. S8202-12, 12 position.

MULTI-POSITION SCREW TYPE TERMINALS
Screw type terminals for ¼" glass fuses — 30 amp max.
Part No. S8301-6, 6 position.
Part No. S8301-8, 8 position.
Part No. S8301-10, 10 position.
Part No. S8301-12, 12 position.



Fuse Kits & Assortments

ATC STYLE EMERGENCY 6 FUSE ASSORTMENT
With ATC-5, 10, 15, 20, 25, and 30; and fuse puller.
Part No. AT-7.

ATC BULK DISPLAY
100 ATC blade fuses, bulk packed in a 12 cavity plastic box.
Part No. CP/100BK.

GLASS STYLE EMERGENCY 6 FUSE ASSORTMENT
With AGC-5, 15, and 30, SFE-9, 14, and 20; and fuse puller.
Part No. EK-7.

GLASS STYLE EMERGENCY 5 FUSE ASSORTMENT — JAPANESE CAR
With AGC-5, 10, 15, 20, and 30; and fuse puller.
Part No. KJ-7.

BLADE STYLE EMERGENCY 6 FUSE ASSORTMENT — JAPANESE CAR
With ATC-5, 7½, 10, 15, 20, and 30; and fuse puller.
Part No. KJA-7.

ATM STYLE EMERGENCY 8 FUSE ASSORTMENT
With ATM-2, 5, 7½, 10, 15, 20, 25, and 30; and fuse puller.
Part No. KM-9.

485 pc. SERVICE KIT
485 piece assortment of blade and glass fuses, in-line fuse holders, flashers, fusible links, circuit breakers, fuse puller and fuse tester in a sturdy lockable hinged box.
Part No. SCA.

42 pc. ATM BLADE FUSE ASSORTMENT
With 7 each of ATM-5, 10, 15, 20, 25, and 30. Also includes combination fuse tester/puller.
Part No. 43.

42 pc. ATC BLADE FUSE FUSE ASSORTMENT
With 7 each of ATC-5, 10, 15, 20, 25, and 30. Also includes combination fuse tester/puller.
Part No. 44.

FUSIBLE LINK KIT
16 assorted fusible links for wiring harness protection. In a clear plastic display box.
Part No. 45.

Contains 1 each of:
FLB-40, 60, 70
FLD-80
FLF-20, 30, 40, 50, 60
FLM-80, 100
FLS-30, 40
FMX-20, 30, 40

ATM DISPLAY STAND
Includes 20 tins of assorted amps.
Part No. 150.

Contains:

NO.	TINS
ATM-2	1
ATM-3	1
ATM-4	1
ATM-5	1
ATM-7½	2
ATM-10	5
ATM-15	3
ATM-20	3

BLADE & GLASS DISPLAY STAND
Includes 40 tins of blade and glass fuses.
Part No. 200.
*Contains 1 tin each of (except *= 2 tins):*
AGC-1, 2, 3, 5, 7½, 10, 15, 20, 25, 30
ATC-3, 4, 5, 7½, 10, 15, 20*, 25, 30
ATM-2, 3, 4, 5, 7½, 10, 15, 20, 25, 30
GBC-8
MAX-20, 30, 40*, 50, 60*
SFE-14, 20

BLADE & GLASS KIT
40 tins of popular blade and glass fuses in a clear plastic service kit.
Part No. 201.

*Contains 1 tin each of (except *= 2 tins):*
AGC-1, 2, 3, 5, 7½, 10, 15, 20, 25, 30
ATC-3, 4, 5, 7½, 10, 15, 20*, 25, 30
ATM-2, 3, 4, 5, 7½, 10, 15, 20, 25, 30
GBC-8
MAX-20, 30, 40*, 50, 60*
SFE-14, 20

MAX FUSE DISPLAY STAND
12 fuses in a starter display with slots for growth.
Part No. 245.

Contains:

NO.	TINS
MAX-20	1
MAX-30	2
MAX-40	5

CIRCUIT BREAKERS

•Typical Circuit Breaker Applications: Accessory circuit, cooling fan, door locks, headlamps, tail lamps, window lift, sunroof, trailering package •Plastic Vs Metal: Vibration... plastic housings with mounting brackets are one piece molded designs and are less prone to vibration. Metal housing with brackets are two piece designs. The bracket is attached by spot welding and can be loosened by vibration. Shorting Out... if a wire should loosen from a terminal on a plastic housing version, it will not short out against the housing as it may do with a metal housing. Weight...the plastic housing is also lighter than the metal housing. 24V Vs 12V Circuit Breakers: a 24V circuit breaker may be used in a 12V application because of the heavy duty thermal metals used in assembly. However a 12V circuit breaker is not recommended for 24V since the materials are heat affected...not current affected.

CIRCUIT BREAKERS - TYPE 1, CYCLING - AUTOMATIC RESET

•Single pole thermal type breakers •5A to 50A; 12VDC; 24VDC rating •-23°C to 65°C operating temperature •-29°C to 93°C storage temperature •Complies with SAE standards J553

No Mounting Bracket.

76-9035RL	14	3	.365"	41 x .010"

REPLACEMENT SOCKETS & PLUGS

•Repair or fabricate your own extension cords •3 conductor •110 volt
Part No. 76-9758EA, male plug.
Part No. 76-9759EA, socket.
Part No. 76-9758PK, pack of 10 male plugs.
Part No. 76-9759PK, pack of 10 sockets.

WIRE PROTECTOR FLOOR RAMP

•Protects wire extension cords •Prevents people from tripping on wires •6 ft. long x 3" wide •Grey
Part No. 76-9834EA.

WRAP'N SEAL AUTOMOTIVE TAPE

•Versatile automotive and household tape bonds without adhesive by stretching onto itself, forming a complete rubber covering.
Part No. 66-9972EA.

SEVEN TERMINAL JUNCTION BOX

•Seven #10-32 studs - corrosion resistant molded cover and housing •Complete with four entrance slots •Two bolt mounting 7-3/8" center to center. Access slot grommets included, four open - four closed
Part No. 76-2134EA.

SCREW-TYPE TERMINAL BLOCKS

•Terminal blocks feature self-insulating, molded housing •Positive current carrying capacity due to tin-plated brass screws and binders.
Part No. 76-2104EA, 4 lugs.
Part No. 76-2105EA, 6 lugs.
Part No. 76-2106EA, 10 lugs.

STUD-TYPE TERMINAL BLOCKS

•Completely insulated back •Rated at 30 amp #10-32 brass studs are mounted on 5/8" centres •Use with ring or hook terminals •9/32" x 3/8" slot

Part No.	No. of Studs	Mtg. Hole Centres
76-2109EA	4	3-1/8"
76-2111EA	6	4-3/8"
76-2112EA	8	5-5/8"
76-2113EA	10	6-7/8"

STUD-TYPE TERMINAL BLOCK w/ "HOT FEED" CONNECTION

•36 volt capacity •Solid brass bus bar with two brass 1/4" stud power terminals •#8-32 screws for circuit connection •No. 10 mounting holes, 10 circuits •5-3/4" x 1-1/4" x 1-1/32".
Part No. 76-2133EA.

BLADE-TYPE FUSE & CIRCUIT BREAKER PANELS

•Accepts ATO or ATC blade type fuses or blade type automatic or manual reset circuit breakers •30 amp maximum rating per branch circuit •Molded of high grade thermoplastic •Rated to 105°C •Recessed mounting holes.
Part No. 76-6043EA, 6 positions.
Part No. 76-6044EA, 8 positions.
Part No. 76-6045EA, 10 positions.

FUSE BLOCKS w/ "HOT FEED" CONNECTIONS

•Fuse clips with screw connections simplify installation and eliminate excess wiring •Solid brass bus bar for use with SFE-20 amp or 3 AGC type fuses •4-1/4" x 2-1/4" x 5/8" •11/64 dia. mounting holes
Part No. 76-2132EA.

TOGGLE SWITCH

•S.P.S.T. two position off/on •Bat handle •Two screw terminals •Nickel-plated off/on indicator •Rating: 6-12 VDC, UL listed, 6 amps at 125 V; 3 amps at 250 V. Mounting stem 15/32" long, 15/32" dia.
Part No. 76-5072EA.

HEAVY DUTY TOGGLE SWITCH
•S.P.S.T. two position off/on •Two heavy brass screw terminals •11/16" long black plastic handle •Nickel-plated off/on indicator •Die-cast housing, copper contacts and contactors •Rating: 50 amps at 6-24 VDC •Mounting stem 7/16" long, 15/32" dia.
Part No. 76-5012EA.

HEAVY DUTY THREE-POSITION "MOMENTARY" TOGGLE SWITCH
•S.P.D.T. three position momentarily "on", normally "off", momentarily "on" •Three heavy brass screw terminals •1-1/2" extra long black plastic handle •Die-cast housing, copper contacts and contactors •Rating: 50 amps at 6-24 VDC •Mounting stem 7/16" long, 15/32" dia.
Part No. 76-5020EA.

HEAVY DUTY TOGGLE SWITCH
•D.P.D.T. two position on/on •Two heavy brass screw terminals •11/16"standard chrome handle •Rating: 20 amps at 12 VDC •6 terminal selector
Part No. 76-5064EA.

UNIVERSAL SOLENOID STARTER SWITCH
•Rating: 25 amps at 6 V; 15 amps at 12 V •Mounts through 5/8" dia. hole •Insulated two-screw terminals
Part No. 76-5209EA.

UNIVERSAL PIGTAIL
•Universal contact for replacement base socket.
Part No. 76-4300EA, single contact
Part No. 76-4301EA, double contact

HEAVY DUTY PUSH/PULL SWITCH (TWO TERMINAL)
•Two position off/on •Rating: 25 amps at 6 VDC; 15 amps at 12 VDC •Mounting stem 5/8" long, 7/16" dia.
Part No. 76-5007EA.

HEAVY DUTY PUSH/PULL SWITCH (TWO TERMINAL)
•Two position off/on •Rating: 25 amps at 6 VDC; 15 amps at 12 VDC •Mounting stem 5/8" long, 1/2" dia. •Chrome plated integral knob
Part No. 76-5013EA.

HEAVY DUTY COMBINATION IGNITION-STARTER SWITCH, WEATHERPROOF DESIGN
•Extra heavy-duty for 6, 12 and 24 VDC (continuous rating 45 amps at 12 V) •Four positions: Left - accessories, Center - off, Right - accessories and ignition, Extreme Right - start •Mounting stem 7/16" long, 3/4" dia. •Two brass keys included mounting nut with rubber cap to protect against moisture
Part No. 76-5207EA.

SIDE MARKER/LICENSE PLATE LAMP
•For Chrysler (91-93)/GM (69-95)/Ford (68-93)
Part No. 76-4330EA.

GM PIGTAIL
•3 wire pigtail and socket assembly for GM 1976-1995.
Part No. 76-4407EA.

STOP & TAIL LIGHT SOCKET
•For GM. •Twist lock type. •Replaces grey OEM sockets.
Part No. 76-4309EA, Focal length 1¼".
Part No. 76-4310EA, Focal length 7/8".

5-WIRE CONNECTOR
•Universal 5-wire connector for 5-pin relays.
Part No. 76-4410EA.

UNIVERSAL SOCKETS
Part No. 76-4495EA, for H9004 halogen bulbs.
Part No. 76-4496EA, for H9005 halogen bulbs.
Part No. 76-4497EA, for H9006 halogen bulbs.

Junction Box Connectors

CABLE ENTRANCE FITTINGS
NPT aluminum fittings that incorporate a rubber compression-type cable seal
Part No. 76-9124EA, 1/2" NPT x 3/8" cable size for use with 4 conductor, 14 gauge cables.
Part No. 76-9125EA, 3/4" NPT x 1/2" cable
Part No. 76-9126EA, 3/4" NPT x 5/8" cable size for use with 7 conductor, 6 @ 12 gauge and 1 @ 10 gauge cables.

COMPRESSION FITTINGS
Three part construction consisting of a pre-tapped cap, threaded base and PVC collapsible grommet seals around the cable perimeter
Part No. 76-9133EA, 5/16" I.D. compression fitting for 2 and 3 conductor cable.
Part No. 76-9134EA, 1/2" I.D. compression fitting for 4 and 5 conductor cable.
Part No. 76-9135EA, 11/16" I.D. compression fitting for 6 and 7 conductor cable.
Part No. 76-9170EA, oval hole for 3 conductor cable.

PLASTIC JUNCTION BOX CONNECTORS
Allow for liquid-tite connection of wire into the electrical junction box. The three part construction consists of a pre-tapped compression nut, a threaded base, and a PVC compression grommet that squeezes down on the cable sheath to provide a liquid-tite seal. The plastic material is extremely durable and corrosion resistant.
Part No. 76-9137EA, 1/4" NPT connector handles cable O.D. from .11" - .26" colour black
Part No. 76-9138EA, 1/4" NPT connector handles cable O.D. from .07" - .12" colour black
Part No. 76-9139EA, 3/8" NPT connector handles cable O.D. from .15" - .32" colour black
Part No. 76-9140EA, 3/8" NPT connector handles cable O.D. from .07" - .24" colour black
Part No. 76-9141EA, 1/2" NPT connector handles cable O.D. from .23" - .47" colour black
Part No. 76-9142EA, 1/2" NPT connector handles cable O.D. from .19" - .35" colour black
Part No. 76-9143EA, 1/2" NPT connector handles cable O.D. from .39" - .56" colour black
Part No. 76-9144EA, 1/2" NPT connector handles cable O.D. from .27" - .47" colour black
Part No. 76-9145EA, 3/4" NPT connector handles cable O.D. from .51" - .71" colour black
Part No. 76-9146EA, 3/4" NPT connector handles cable O.D. from .35" - .63" colour black

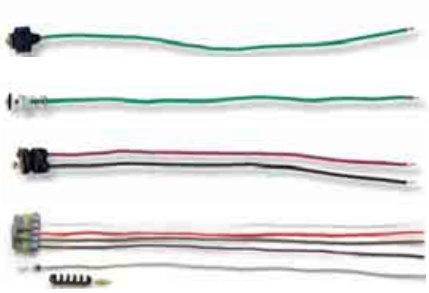
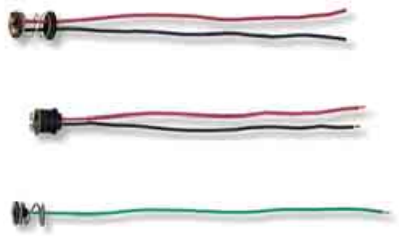
PIGTAIL ASSEMBLIES

•Brass contacts •Heavy duty thermo-plastic wire
Part No. 68080EA, 9-1/2" single contact rubber
Part No. 68100EA, 9-1/2" single contact spring/washer 3/8"
Part No. 68110EA, 9-1/2" double contact rubber plug
Part No. 68680EA, 20" Metri-pack plug in sealed pigtail fits 4/5 wire



PIGTAIL ASSEMBLIES

•Brass contacts •Heavy duty thermo-plastic wire
Part No. 68130EA, 7-1/2" double contact spring/washer and rubber washer
Part No. 68150EA, 6-1/2" double contact rubber spring
Part No. 68170EA, 9-1/2" single contact spring/washer 5/8" socket



UNIVERSAL SOCKET

•Universal flush mount and brake; double contact •Stop/tail/turn/park; used with mini-bulbs; 198, 1016, 1034, 1154, 1157.
Part No. 84-1000EA.

UNIVERSAL SOCKET

•Universal single contact •Stop and tail back-up; used with mini-bulbs; 67, 81, 1133, 1141, 1156.
Part No. 84-1003EA.

SEAL BEAM SOCKET

Part No. 84-1006EA, 3 wire, 3 prong seal beam
Part No. 84-1007EA, 2 wire, 2 prong seal beam

G.M.C. SOCKET

•Chevrolet 1969-1982 •Ground twist lock stop/tail •3 way; double contact •Replaces GM #890323, 8914823; used with mini-bulb 1157.
Part No. 84-1009EA.

FORD & OTHER SOCKET

•Ford and universal double contact with pigtail assembly •Stop/tail/signal/park •Fits 3/4" hole; uses mini-bulbs; 198, 1016, 1034, 1154, 1157.
Part No. 84-1004EA.

FORD & OTHER SOCKET

•Side marker socket Ford/G.M.C. 1968-1981
•Heavy duty plastic housing; used with mini-bulb 194.
Part No. 84-1008EA.

TWIST-IN SOCKET PIGTAIL

•Includes #194 bulb •Blunt cut wires, fits 46913 cab marker lamp.
Part No. 68380EA.

IN-LINE FUSE HOLDERS WITH FUSES

•Nylon fuse holders for glass tube fuses
•Protects electrical equipment.
Part No. 82-2160EA, 20 amp. Blk.
Part No. 82-2161EA, 15 amp. Red.
Part No. 82-2162EA, 10 amp. Wht
Part No. 82-2163EA, 30 amp.

BAYONET STYLE FUSE HOLDER

•Provides full protection of electrical equipment.
Part No. 82-2167EA, 7", 12 ga.
Part No. 82-2168EA, 7", 14 ga.
Part No. 82-2169EA, 12", 14 ga.

ATO STYLE FUSE HOLDER

•Versatile fuse holder for in-line or snap-mount panel applications
Part No. 82-2164EA, 3-20 amp, 16 gauge black wire.
Part No. 82-2165EA, 25-30 amp, 8" loop of 10 gauge orange wire.

FUSEBLOCK

Part No. 82-2301EA, 4 fuse 3" x 2-3/8" x 5/32".
Part No. 82-2302EA, 6 fuse 4-3/8" x 2-3/8" x 5/32".

TERMINAL STRIPS

•Anti-corrosive, bakelite with nuts and washers •Rated at 30 amp
•#10-32 brass studs are mounted on 5/8" centers
Part No. 82-2311EA, 4 stud.
Part No. 82-2312EA, 6 stud.
Part No. 82-2313EA, 8 stud.
Part No. 82-2314EA, 10 stud.

BARRIER STRIPS

•Black phenolic base •Brass screw
•3/8" centers
Part No. 82-2332EA, 4 position.
Part No. 82-2334EA, 6 position.
Part No. 82-2338EA, 10 position.

HEAVY DUTY TOGGLE SWITCH - 2 POSITION ON/OFF

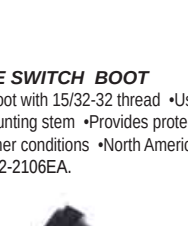
•15 amp @ 6-12-28 volt D.C. •15 amp @120 volt A.C. •7-1/2 amp @ 240 volt D.C. •Mounting stem 15/32" dia. x 3/8" long •Mounting 1 x 2" dia. hole •North American

Part No. 82-2123EA.

TOGGLE SWITCH BOOT

•Rubber boot with 15/32-32 thread •Used with 15/32" mounting stem •Provides protection from weather conditions •North American

Part No. 82-2106EA.



IGNITION STARTER SWITCH - 4 POSITION, 2 KEYS

•Terminals included nuts and washers •Die-cast •Fits panel 3/4" - 1" hole •3/4" bushing •North American
Part No. 82-2150EA.

IGNITION STARTER SWITCH - 4 POSITION, 2 KEYS

•Assembled, oversized •O-ring sealed to protect against moisture •Pick-proof nylon cylinder •Chrome plated •North American
Part No. 82-2156EA.

MASTER BATTERY DISCONNECT SWITCH

•180 amp @ 6-36 volt D.C. •Overall, 2-5/8" dia. 4-1/8" long •Large die cast lever for ease of operation •Mounting stem 3/4" dia. 25/32" long •North American
Part No. 82-2103EA.

MOMENTARY STARTER SWITCH

•Neoprene cap to seal out weather •Miniaturized H.D. panel switch for diesel trucks, tractor, farm, marine and industrial •60 amp @ 12 volt •40 amp @ 24 volt •Silver contacts, solid hex nut •5/8" x 5/8" x 1-13/16" Diameter 15/16"
Part No. 82-2151EA, with cap.
Part No. 82-2152EA, without cap.

MOMENTARY STARTER SWITCH

•2 screw terminals •15 amp •North American
Part No. 82-0600EA.

FLOOR DIMMER SWITCH

•3 terminals for plug connection •North American
Part No. 82-2203EA.

UNIVERSAL DOOR SWITCH

•Screw terminals •On plunger out •Dual mounting hoses 3-3/8" x 2-1/16" •Replaces Chrysler #882943, KF-204229
Part No. 82-2230EA.

BACK-UP SWITCHES

•Two screw terminals •Leak proof •North American
Part No. 82-2234EA, Universal.
Part No. 82-0458EA, Replaces Kenworth (K30133), Mack (IMR2297), Freightliner (06-10525) and others.

STOP LIGHT SWITCH

•Meets DOT 121 requirements •Brass body •Installs with a deep socket •North American
Part No. 82-2159EA.

ROCKER SWITCH

•35 amp, 12 volt •2 position 3 screw terminals •White actuator with nickel plated bezel •S.P.S.T. •North American
Part No. 82-0302EA, Red pilot light.
Part No. 82-0303EA, Amber pilot light.
Part No. 82-0304EA, Green pilot light.

AXLE SWITCH

•2 position both on controls •High; low axle ranges •Die-cast with rubber protection •3 female terminals •Large red knob •Use with Eaton 2 speed rear axle
Part No. 82-2236EA.

PILOT LIGHT

•12 volt •Red 1/2" dia. faceted lens •For panel mounting through 5/16" hole •North American
Part No. 82-0115EA.

STARTER SOLENOID SWITCH - CONTINUOUS DUTY

•85 amp •12 volt continuous duty solenoid •Insulated •Includes hardware and flat bracket •North American
Part No. 82-0307EA.

UNIVERSAL BUZZER

•842 Buzzer use as low air pressure or, bus rear door warning buzzer •12 volt •2 screw terminal •North American
Part No. 82-2238EA.

SWITCH ASSEMBLY

•Includes switch, pilot light, mounting bracket and hardware
Part No. 44151-5EA.

FOG & DRIVING LAMP WIRING KIT

•Includes illuminated rocker switch, 30 amp relay, terminated wires & fuse
Part No. 68460-5EA.

FOG & DRIVING LAMP ROCKER SWITCH

•Illuminated universal rocker switch •Handles up to 15 amps
Part No. 44870-5EA.

35 Amp, 12V DC Rocker Switches

New universal design for automotive, truck, bus, marine, and recreational vehicles. Snap-in mounting fits .830 x 1.450 panel cutout in .093, .125, .187 thick panels. Brass screw or .250 blade terminals. Nylon bezel actuator and housing with molded elastomer gasket designed into housing for weather resistant design.

Push-Pull Switches

EXTRA HEAVY DUTY
6 - 28 volts, 75 amp D.C., 2 position S.P.S.T. Off-On, 2 terminals, heavy duty diecast body.
Part No. 35-306*.

HEAVY DUTY
3 position 6 - 12 volt Off-On-On, 5 terminals. 15 amps @ 12 volts.
Part No. 35-308.

HEAVY DUTY
3 position 12 volt Off-On-On combination rheostat, panel, and headlight. Push Pull for headlights, turn to dim panel. With 20 amp circuit breaker. 5 terminals.
Part No. 35-316.

MODERATE DUTY
2 position Off-On, 25 amp @ 6 volt; 15 amps @ 12 volt, 2 terminals.
Part No. 35-300*.

MARINE
3 position Off-On-Both On for controlling running lights. 3 terminals. Brass body.
Part No. 33-400.

MARINE
2 position Off-On, 15 amps @ 12 volts. 2 terminals. Brass body.
Part No. 33-402.

MARINE
3 position, Off-On-On, two separate circuits. 4 terminals. Brass body.
Part No. 33-403.

Momentary Push (Starter) Switches

2 positions, Off-On, normally off (push to on) •Zinc die-cast housing, silver contacts, brass terminals
Contact rating: @ 14 VDC: Make 70 amps; @ 28 VDC: Make 35 amps
Operation: 50,000 cycles
Mounting Stem: 5/8-32 UN-21 thread accommodates panels up to 1/4" thick

PART NO.	DESCRIPTION
24-359	Starter switch with flush terminal screws
24-360*	Starter switch with flush terminal screws and black weather cap
24-362*	Starter switch with flush terminal screws and start protection collar
24-373	Starter switch with 2 male blade terminals
24-372*	Starter switch with 2 male blade packard terminals and protection collar
24-394	Starter switch with 8-32 threaded terminals
24-393	Starter switch with 8-32 threaded terminals and black weather cap
24-395	Starter switch with 8-32 threaded terminals and red weather cap
24-392	Starter switch with brass turret/button packard terminals
25-358	Black weather/dust cap only
25-348	Yellow weather/dust cap only
25-352	Red weather/dust cap only
25-372	Accidental start protection collar
52-600	Screw terminals. 15 amps @ 6 volts, 10 amps @ 12 volts, 15/16" mounting hole required.
33-200	MARINE HEAVY DUTY 15 amps @ 12 volts, all brass, chrome plated. Button and face nut furnished. Brass back nut and washer mounting stem 1-1/4" long.

Momentary Push Button/Door Jamb Switches

Part No. 52-620, Sealed plunger switch
Part No. 52-622, Mating connector
2 positions: On-Off, normally on (push to off).

Part No. 52-623
Door jamb switch to accept two bullet terminals.
12 volts @ 5 amps.

Part No. 52-616
Universal, 5 amps @ 12 volts, screw terminals, "ON" when plunger is out. Dual mounting hole 1-3/8", 2-1/16" on centre.

Precision Ball Switches

Typical applications include: neutral and top gear sensing, back-up lamp switching, anti-lock brake switching, power take-off interlock and operator presence detecting. Available in normally open or normally closed and with various terminal types. Please refer to your Pollak catalogue for complete information.

Ignition Starter Switches

Part No. 31-103*
4 position — two keys supplied. Terminal nuts, lock washers, hex back nut, knurled face nut supplied, die cast housing. Fits panels with 3/4" to 1" hole, bushing 3/4" long. 4 terminals.

Part No. 31-105
4 position — two keys supplied. Same as 31-103 except with special patented lock-out feature in "start" position. A special ratchet is incorporated which prevents the key from being turned to the "start" position without first going all the way to the "off" position. Feature protects the starter mechanism. 4 terminals.

Part No. 31-159
4 position. For general purpose including farm tractor. O-ring sealed for protection against moisture and dirt. Chrome plated face nut and two common keys supplied. 4 terminals.

Part No. 31-609*
3 position. Two keys supplied. Terminal nuts, lock washers, hex back nut, knurled face nut supplied, die-cast housing. Fits panels with 3/4" to 1" hole, bushing 3/4" long. 4 terminals.

Part No. 31-607
4 position. Lever operated terminal nuts, lockwashers, hex back nut and knurled face nut assembled. Die-cast housing fits panels 3/4" to 1" holes, bushing 3/4" long. 4 terminals.

Part No. 31-608
Same as 31-607 except with special lock-out feature in "start" position. Special patented ratchet is incorporated which prevents the lever from turning to the "start" position without first going all the way to the "off" position. Feature protects the starter mechanism. 4 terminals.

Part No. 31-114
Replaces: International 167603R91, 344688-C91. 2 keys assembled, chrome mounting nut.

Part No. 31-602
2 position. 2 keys assembled. Terminal screws, hex back nut and knurled face nut. Key removable in "off" position only. Bushing diameter 3/4" long. Die cast housing.

Master Disconnect Switches

Part No. 51-302*
Lever operated — 6-36 volt, 180 amps continuous capacity, 1000 amps in rush. S.P.S.T. (off-on) two stud terminals. For battery circuit only. Does not disconnect alternator or generator field circuit. On vehicles equipped with alternators engine must be shut off to avoid potential damage to alternator diodes. •Incorporates silver plated contacts for heavy duty application •One piece die-cast housing with integral mounting stem to keep out dust and moisture •Large die-cast lever with on-off indicator •Two 3/8" copper alloy stud terminals, hex nuts, and lock washers •Overall length 4-3/8"; diameter 2-5/8" approx. •Conforms to requirements of UL#558 •Mounting stem 3/4" diameter, 1/2" long, with two hex nuts and lock washer

Part No. 51-304
Lever operated — 6-36 volt. D.P.S.T. (off-on) four stud terminals. For battery and alternator or generator field circuit. Designed to break alternator generator circuit prior to battery circuit disconnect. Use for gasoline and oil tank trucks as well as other applications. •Incorporates silver plated contacts for heavy duty application •One piece die-cast housing with integral mounting stem to keep out dust and moisture •Large die-cast lever with on-off indicator •Two 3/8" and two 10-32 copper alloy stud terminals, hex nuts, and lock washers •Overall length 4-1/8"; diameter 2-5/8" approx.

Part No. 31-219
Key operated — 6-36 volt, off-on-on, 3 stud terminals. Three position OFF, accessory ON. Key removal in off and accessory position. Three 3/8" terminals including hardware. Full time rating of 75 amps per terminal, 150 amps total using 4 gauge battery wire and 8 gauge on remaining. Complete with chromium plated mounting nut, 2 keys included. Requires 1½" dash mounting hole.

Part No. 51-303
Face plate. For use with disconnect switches. Silver self-adhesive mylar label with black letters. 2½" diameter, 3/4" diameter center hole.

Pollak

Please ask for further information on the complete line of Pollak Electrical Accessories.

Solenoid Switches

Automotive, truck, farm tractor, industrial, construction, off-the-road, recreational vehicle applications. Typical applications include: snow plows, truck winch, lift trucks, low voltage equipment.

Part No. 52-305
Universal — 12 volt applications. Grounded base, flat bracket, internally grounded to housing, other end connected to small terminal.

Part No. 52-307*
12 volt continuous duty solenoid insulated, with hardware. Flat bracket.

Part No. 52-315
Weather Resistant. 12 volt continuous duty solenoid insulated, with hardware. Flat bracket. With protective grey plastic coating.

Part No. 52-324
24 volt, continuous duty. 85 amps, insulated.

Dimmer Switches

Part No. 52-252
Floor mounted type, 3 special terminals.

Part No. 52-250*
Universal — with 3 flat screw terminals and 4 bullet terminals supplied in separate hardware kit. 3 screw terminals.

Part No. 52-253
Special floor mounted type, 3 special terminals for plug connection.

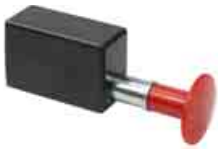
The "Electronic" Dimmer Control from POLLAK

Maximum current load 5 amp, 7/16"-28 thread panel mount. The Electronic Panel Lamp Dimmer Control is a cost effective, reliable method of safely controlling the intensity of dashboard lighting in the cab of heavy duty vehicles. Pollak Panel Lamp Dimmer controls have been specified by Mack Trucks, Freightliner, Peterbilt, and Kenworth. These manufacturers know that electronic reliability keeps trucks on the road and out of the shop. An electronic Panel Lamp Dimmer eliminates the old-fashioned rheostat type control. Sophisticated electronic pulse width control circuitry and power MOSFET technology used in the panel lamp dimmer's design eliminates the heat build up found with traditional rheostats. Pollak's two wire design allows the Pollak controls to be a drop-in replacement for existing rheostat applications. State-of-the-art surface mount electronic design reduces the housing size and weight while eliminating expensive product failure caused by vehicle vibration. This Pollak Panel Lamp Dimmer is designed in accordance with stringent SAE J1455 recommendations. Load dump and transient conditions will not adversely affect the dimmer's operation and it is completely protected from continuous short circuit overload.
Part No. 52-262.

Specialized Electrical Products

AXLE LIMIT SWITCH
Two speed axle shift limit switch. For use in controlling the Eaton two speed electric axle. Phenolic insulator base with o-rings on studs. Used with Pollak #52-261 axle switch.
Part No. 52-260*.

AXLE SWITCH
2 position both on controls, high and low axle ranges. Die cast body protected with rubber cover. Three female terminals to receive bullet terminals. Large red knob for use with Eaton 2-speed rear axle.
Part No. 52-261*.



PILOT LIGHT
12 volt pilot light, red 1/2" diameter faceted lens. For panel mounting through 5/16" hole. Has snap-out socket for conventional bulb replacement.
Part No. 52-115*.

SEALED BEAM FLASHER CONNECTOR
2-wire connector assembly used on all vehicles with 2 pr ong seal beam lighting, or 2 prong flashers.
Part No. 52-255.

SEALED BEAM FLASHER CONNECTOR
3-wire connector assembly used on 3 prong seal beam lighting, or 3 prong flashers.
Part No. 52-256.

BUZZER
12 volt, 2 screw terminals. 76dB @ 4 ft.
Part No. 52-400*.

ATO BLADE TYPE FUSE PANEL
Accepts ATO blade-type fuses, or blade-type, auto or manual reset circuit breakers.

Part No. 52-406, 6 Station.
Part No. 52-408, 8 station.
Part No. 52-410, 10 station.
Part No. 52-412, 12 station.

FUSE PANEL
For economical tight cluster mounting of 1/4" x 1⅛" fuses. Break-away design, 300 volt rating. 12 gang.

Part No. 52-214, Screw terminal.
Part No. 52-214Q, Blade terminals.

Pollak

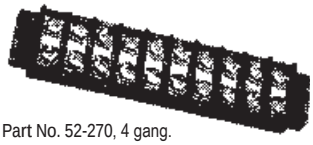
TERMINAL BLOCKS (NON FEED-THROUGH)

30 amp, 600 volt rating.

Part No. 52-244, 4 gang.
Part No. 52-245, 6 gang.
Part No. 52-246, 8 gang.
Part No. 52-247, 10 gang.

TERMINAL BLOCKS (WITH INDEPENDENT FEEDS)

20 amp, 300 volt rating.



Part No. 52-270, 4 gang.
Part No. 52-271, 6 gang.
Part No. 52-272, 8 gang.
Part No. 52-273, 10 gang.
Part No. 52-274, 14 gang.

FUSE HOLDERS

Part No. 52-116, 30 amp 12 gauge fuse holder
Part No. 52-100, 20 amp 16 gauge fuse holder
Part No. 52-216, ATO style fuse holder, for 25 or 30 amp fuses - 12 gauge
Part No. 52-215, ATO style fuse holder, for 3 - 20 amp fuses - 16 gauge

7 TERMINAL JUNCTION BOX

Designed to offer a quick and trouble free method of connecting wires between the trailer and the towing vehicle. Black ABS plastic cover and base complete with 5 open rubber grommets, 5 closed rubber grommets, 7 #10-32 threaded studs, and mounting hardware. 8.06"L x 3.2"W x 2.09"H. Two mounting holes .38" dia., 7.38" on centre.
Part No. 52-259.

Pollak

BATTERY JUMPER TERMINALS

Designed to provide remote mounting for battery connections either inside or outside of the vehicle. Easily installed, the positive terminal can be individually used or in conjunction with the negative terminal as a pair. Rubber caps, solid brass studs, brass hex nuts and brass lockwashers. Dimension for grooved contact post: 13/16" dia., 1-1/8" long.
Part No. 52-138, Red cap - positive terminal.
Part No. 52-139, Black cap - negative terminal.

Heavy Duty Single Pole Toggle Switches

•Single pole •Universal applications •Electrical rating 25 amps at 12 VDC •Mounting stem: nickel plated brass, 15/32" thread, 15/32" long •Panel thickness: up to 1/4" thick, except where noted •Handles: nickel plated brass •Housing: plastic with plated steel cap •Mounting Hardware: nickel plated brass •Contacts: silver •Keyway: located in down position •* = Mounting stem 11/32". Fits panels through 3/16".

EXTRA HEAVY DUTY TOGGLE SWITCH

•Single pole, single throw •Universal applications •Electrical rating 30 amps at 6-12 VDC •15 amps at 24-36 VDC •Mounting stem: 15/32" - 32 thread, .240" long with keyway •Panel thickness: up to 3/16" thick •Handles: chrome plated brass, 1-1/16" long •Housing: die-cast •Mounting Hardware: plated steel hex nut •Contacts: silver plated

Part No.	Up	Centre	Down	Terminals
551840	On	Off	-	2 screw

WEATHER RESISTANT LIGHTED TOGGLE SWITCH

•Single pole, single throw •Electrical rating 25 amps at 12 VDC •Mounting stem: 15/32" - 32 thread, 3/8" long •Panel thickness: up to 1/8" thick •Handles: translucent, 11/16" long •Housing: black plastic •Mounting Hardware: black nickel plated face nut, hex nut •Contacts: silver •Keyway: located in down position •Lighted switches can be wired for either dependent (illuminated when switch is actuated) Independent (not controlled by operation of the switch)

Part No.	Up	Centre	Down	Terminals
54109	On/Red	-	Off/White	4 screw

TOGGLE SWITCH IN RECESSED PLATE

•Toggle switch mounted in a recessed plate to prevent accidental actuation and protect switch from damage •10 amps at 12 VDC •Mounts flush in a 2" hole, three 7/32" holes on 2-3/4" circle
Part No. 5543.

TOGGLE SWITCH FACE PLATE

•Fits all toggle switches with 15/32" dia. mounting stem and keyway •Nickel plated steel, 1" high, 5/8" wide •Stamped ON-OFF
Part No. 8250.

WEATHERPROOF SILICONE TOGGLE BOOT SEALS

•Durable silicone rubber boot bonded to nickel plated brass nut with 15/32" - 32 thread •Mounting surface of nut has O-ring seal for moisture and dirt protection •Covers entire toggle handle •Fits standard handles up to 11/16" long
Part No. 81264.

WEATHER RESISTANT ROCKER SWITCHES

•Single pole, single throw •Universal applications •Faceted lenses •Black plastic housing, bezel and actuator •25 amps at 12 VDC •Illuminated when switch is actuated •OFF/ON •Dependent pilot light, 3 blade terminals •Fits panels .093" to .187" thick.
Part No. 58328-13, amber.
Part No. 58328-12, clear.
Part No. 58328-11, green.
Part No. 58328-04, red.

ROCKER SWITCHES

•Single pole, single throw •Moisture resistant plastic housing, bezel and actuator •Universal applications •25 amps at 12 VDC •ON/OFF White rocker actuator •Fits panels .060" to .250"thick •2 screw.
Part No. 56000-08.

ROCKER SWITCH BRACKETS

•For installing two or more rocker switches in panels •For use with part number series 56000, 57000 and 58000.

Install two switches using two end sections

Add centre sections for three or more switches

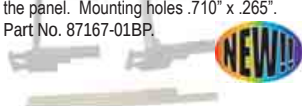
Part No. 82159-1, End Section

Part No. 82159-2, Centre Section

Part No. 98628, Bracket Hole Plug

BRACKET MOUNTING KIT

For installing an array of switches onto a panel, when through-mounting isn't possible. Use in conjunction with 82159 bezels. Holds from 2 to 6 bezels (not included). Snap together assembly; no special tools needed. Contains two bracket sections and brass stabilizing the unit. Assembled kit mounts on top of or under the panel. Mounting holes .710" x .265".
Part No. 87167-01BP.



COLE HERSEE CO.

Intermittent Duty Solenoids

•Single pole, single throw •Normally open contacts •One circuit: Off-On •750 amps make •100 amps break •10 seconds on - 20 min. off •12 volt •Grounded

Cole Hersee Co.

STEEL HOUSING
•Bracket mounting holes 5/16" x 19/32", 2 - 13/64" on centres
Part No. 24037.

PHENOLIC HOUSING
•Bracket mounting holes 9/32" x 25/64", 2 - 7/64" on centres
Part No. 24022.

Continuous Duty Solenoids

•Single pole, single throw •Normally open contacts •One circuit: Off-On •85 amps

STEEL HOUSING -12 V, GROUNDED
•Bracket mounting holes 5/16" x 19/32", 2 - 13/64" on centres
Part No. 24106.

Part No. 24063.

Heavy Duty Momentary Push Button Switches

•For applications to 36 VDC •Off-On, normally Off •On with button depressed, spring return to Off •Silver contacts

Mounting stem: 5/8" -32, 21/32" long.
Terminals: two screw
Button: chrome plated with face nut.
Part No. 9095.

Same as #9095 except with protective rubber cap.
Part No. 9245.

Mounting stem: 5/8" -32, 21/32" long.
Terminals: two screw
Button: plastic, with protective cap and mounting nut
Part No. 90030.

Door/Momentary Switches

•Single pole, single throw •Normally On •Off with plunger depressed, spring return to On •Mounting stem: 7/16" -20 thread, 7/16" long, two flats on stem for mounting in double D shaped hole •Two screw terminals •1/2" long plunger
Part No. 9055.

Momentary Push Button Switches with Imprinted Actuator Buttons

•Function permanently embossed in white on colour coded buttons for easy identifications •Weatherproof for exposed areas with special face nut with built in lip-seal for weatherproof protection •Terminals: two screw with lockwashers •Mounting stem: 7/8" -24 thread keyed to prevent switch from turning, mount in panels .04" - .10" thick •2-7/32" L x 1-1/8" D.
Part No. 90047-01, Engine Start, black button.
Part No. 90048-01, Engine Stop, red button.

Headlamp Dimmer Switches

•SPDT •On-On •Mount on floorboard •Depress-release for LOW beam, depress-release for HIGH beam

Mounting: two 7/32" dia. holes, 1-5/8" on centers.
Terminals: three blade.
Replaces: Delco U803, Ford C0TF, C0TZ-13A024A, Motorcraft SW-263
Part No. 7702.

Mounting: two 7/32" dia. holes, 1-5/8" on centers.
Terminals: three blade.
Replaces: A.M. 3156124, 3160926, Chrysler 1841895, 1881938, 2097628, 2291202, 3488882, CH-247, Delco U-801, Ford B9A-13532A.
Part No. 7776.

Mounting: two 9/32" dia. holes, 1-3/4" on centers.
Terminals: three blade.
Replaces: A.M. 5457282, Delco 1997028, 1997031, 1997035, 1997037, 1997040, 1997043, D-803, D-804, D-808, D-809, D-810, G.M. 538446, 578005, 1539288.
Part No. 7762.

Terminal Blocks

TERMINAL BLOCK w/ COMMON HOT FEED CONNECTION

•36 volt capacity •Solid brass bus bar with two brass 1/4" stud power terminals •#8-32 screws for circuit connection •No. 10 mounting holes •1¼"W x 1-1/32"H.
Part No. M-449, 10 circuit, 5-3/4" length.
Part No. M-448, 20 circuit, 8-7/8" length.

TERMINAL BLOCKS w/ INDEPENDENT HOT FEED CONNECTION

•Terminal links and screws: nickel plated brass terminal links and #8-32 binding head screws •Insulator base: moisture repellent molded plastic with protective insulator barrier strips

Part No.	No. of Gangs	Length
M-426	4	3.22"
M-427	6	4.33"
M-428	8	5.46"
M-429	10	6.59"
M-456	14	8.84"

TERMINAL BLOCKS w/ SINGLE STUD TERMINALS

•Terminals: #10-32 thread stud with hex nuts, lockwashers and flat washers •Mounting: two eyelets for 3/16" screws •Insulator base: moisture repellent molded plastic

Part No.	No. of Gangs	Length
4721-P2	2	2.62"
4721-P3	3	3.25"
4721-P4	4	3.87"
4721-P5	5	4.5"
4721-P6	6	5.12"
4721-P8	8	6.37"
4721-P10	10	7.62"
4721-P12	12	8.87"
4721-P14	14	10.12"

TERMINAL BLOCKS w/ SINGLE STUD TERMINALS

•Terminals: #10-32 thread stud •Mounting: slot holes for 1/4" mounting screws •Insulator base: moisture repellent molded plastic with protective insulator barrier strips

Part No.	No. of Gangs	Length
4755	5	5¼"

Universal Wiring Connectors

FLASHER CONNECTOR

•Accepts standard 3 prong flasher units •Molded plastic connector has # 14 ga. thermoplastic jacketed wire leads which terminate at silver plated phosphor bronze contacts •Plated steel bracket attached with two .203" dia. mounting holes
Part No. 3032.

DIMMER SWITCH CONNECTORS

•Fits switch #7762 •Trucks: Autocar 68-80, Chev 61-68, Freightliner 63-67, 72-80, G.M. 60-86, I.H.C. 61-80, Kenworth 65-67, 72-74, 77-80
Part No. 30155.

•Fits switch #7702 and #7776 •Trucks: Ford 60-78, Dodge 59-86
Part No. 30156.

SEALED BEAM HEADLAMP CONNECTORS

•8" No. 14 ga. thermoplastic wire leads terminate at plated bronze contacts which are housed in a molded plastic connector.
Part No. 3029, 3 leads.
Part No. 3051, 2 leads.

Heavy Duty Pilot Lights

•Corrosion resistant construction •Spring actuated brass contacts to assure proper contact with bulb •16 ga. insulated copper wire leads, 8" long

SMOOTH LENS, SELF GROUNDING IN METAL PANELS

•Single contact •Metal socket •Lens: 3/16" dia. •Bezel: chrome plated brass 1/2" dia. •Bulb 12V #53 bulb supplied, socket accepts miniature bayonet base bulbs •Mounting stem: 5/16" dia., 3/8" long
Part No. PL-1-GC, green lens.
Part No. PL-1-RC, red lens.

SMOOTH LENS, SELF GROUNDING IN METAL PANELS

•Single contact •Metal socket •Lens:17/32" dia. •Bezel: chrome plated brass 7/8" dia. •Bulb 12V #53 bulb supplied, socket accepts miniature bayonet base bulbs •Mounting stem: 3/4" dia., 11/16" long
Part No. PL-19-AC, amber lens.
Part No. PL-19-BC, blue lens.
Part No. PL-19-GC, green lens.
Part No. PL-19-RC, red lens.

SMOOTH LENS, INSULATED, ADDITIONAL WIRE LEAD FOR GROUND

•Single contact •Plastic socket •Lens:17/32" dia. •Bezel: chrome plated brass 7/8" dia. •Bulb 12V #53 bulb supplied, socket accepts miniature bayonet base bulbs •Mounting stem: 3/4" dia., 11/16" long
Part No. PL-20-AC, amber lens.
Part No. PL-20-GC, green lens.
Part No. PL-20-RC, red lens.

Master Disconnect Switches - With Diecast Lever

•Single pole •Two positions: Off-On •For 6-36 DC systems •Disconnect battery circuit only •Designed to prevent electrical fires, tampering, theft and battery drain when equipment is unattended.
Electrical ratings (unless noted):
1000A intermittent, 175A continuous.
UL Listed 707B: 800A intermittent, 175A continuous.
UL Listed 375M: 250A at 6V, 125A at 12V intermittent; 40A at 6V, 20A at 12V continuous.

Mounting stem: brass, 3/4" -16 thread, 23/32" long, fits panels up through 3/16" thick •Terminals: two 3/8" -24 studs •Case: plated steel •Contacts: Silver. Labeled UL 707B.
Part No. 2484-16

Part No. 2484-A, Same as No. 2484-16, but without UL label.
Part No. 2484-09, Same as No. 2484-16, but with copper contacts, and without UL label.
Part No. 2484-06, Same as 2484-16, but weather-resistant with O-ring seal in operating shaft, gasket-sealed terminal insulation and sealant in mounting stem and case.
Part No. 2484, Same as 2484-16, but with copper contacts and ratings: Labeled UL 375M.
Part No. 82065, For use with master disconnect switches without indexing pin •Polished aluminum with blue enamel finish •2½" dia.

Lockout Lever Kit

•For locking switch in Off position with padlock to prevent accidental actuation •Accepts padlocks with shackles up to 5/16" dia. For use with master disconnect switches with 3/4" dia. mounting stem #2484, #2484-A, #2484-16.
Part No. 24505.

(Padlock not included)

Universal Buzzers

•For bus "door open" warning, bus operator signal, low air pressure warning, etc. Electrical contacts designed for instant response and uninterrupted signal •Case: impact resistant ABS resin •Insulator: moisture repellent •Terminals: two screw with lockwashers
•1-7/32"L x 2-1/2"W x 2-17/32"H •For 12VDC electrical systems •Replaces Ford FDM-2938A, GMC 1116882, Superior Coach 76032, Divco-Wayne E-11811-A
Part No. 4099.

660-200	SPST •Continuous duty •1 circuit Off-On •12V •85A •Insulated	24059
660-201	SPST •Intermittent duty •1 circuit Off-On •12V •750A make 100A break •10 secs On-20 min. Off •Grounded	24037
660-202	SPST •Continuous duty •1 circuit Off-On •24V •85A •Insulated	24063
660-204	SPST •Continuous duty •1 circuit Off-On •12V •85A •Grounded	24106

TRUCK-LITE
Circuit & Lamp Testers

LAMP & CIRCUIT CHECKER

•Compact and rugged tester quickly checks function of lamps and wiring •Can be used with all Truck-Lite sealed lamps and wiring systems •Uses one standard 9 volt battery (included).
Part No. 97100.

TRAILER CABLE & CIRCUIT TESTER

•Tester is constructed of heavy duty glass filled polypropylene and polycarbonate, and uses high quality brass pins for reliable contact •LED's quickly identify faulty circuits in either the connector cord assembly or the tractor •Tester is designed for use with 12 or 24 volt systems, and negative or positive ground vehicles •Includes vinyl storage bag
Part No. 97101.

Truck-Lite®

GROTE
System Checker

Grote
The first name in vehicle safety systems®

•7 way system checker •Light for each function •Illuminates when system is functioning.
Part No. 920273EA.

HELLA®
Relays

PART NO.	VOLTAGE	AMPS	NO. OF PINS	COMMENTS
960388467	12V	20/40A	5	w/ mounting bracket
960388087	12V	20/40A	5	no mounting bracket
960388107	12V	20/40A	5	w/ resistor - no mounting bracket
H41388221	12V	20/40A	5	w/ resistor - weather proof - w/mounting bracket
003437101	12V	70A	4	potted w/ mounting bracket and diode
003510087	12V	30A	4	w/ mounting bracket
003510367	12V	15A	4	blade style fuse - w/ mounting bracket
003510267	12V	40A	5	dual 87 contacts - w/ mounting bracket
003588001	12V	2 x 30A	8	double relay - w/ mounting bracket
003526001 - Plug in base w/ mounting bracket for relays with SAE pin configuration				
701235033 - Wire connector for use with 003526001 plug in base				

STEWART WARNER
Variable Load Signal Flashers

SW INSTRUMENTS

Flashes 2-8 32 CP. Signal lights for hazard warning, or 2-4 for turn signals

Part No. 13600, 12 volt, 2 pin
Part No. 15513, 12 volt, 3 pin
Part No. 13610, 24 volt, 2 pin
Part No. 15550, 24 volt, 3 pin

TRIDON
"Electronic" Signal Flashers

HEAVY DUTY SERIES (HD/EL/EG)

The HD/EL/EG series are true variable load flashers for 2 to 6 lamps on turn signal or hazard warning applications for most passenger vehicles and light trucks. Required for towing applications.

Part No. HD-12, 12 volt, 2 pin
Part No. HD-13, 12 volt, 3 pin
Part No. EL-12, 12 volt, 2 pin (Electro-Mechanical)
Part No. EL-13, 12 volt, 3 pin (Electro-Mechanical)
Part No. EG-22, 24 volt, 2 pin flasher (Electro-Mechanical)
Part No. EG-23, 24 volt, 3 pin flasher (Electro-Mechanical)

EXTENDED LIFE ALTERNATING SERIES (ELA)

Flash alternates side to side for emergency vehicles. Utilizes a temperature compensating feature for longer life. Flashes 6 standard bulbs per side or two sealed beam units per side. (Rated 150W / side).

Part No. EL-13A, 12 volt, 3 pin

APPLICATION SPECIFIC SERIES (EP)

The EP Series of turn/hazard flashers are 3 terminal, 2 bulb turn /4 bulb hazard (except EP-36) designed for Japanese, European and North American applications.

Part No. EP-26, 12 volt, 3 pin (fits late model Chrysler vehicles)
Part No. EP-27, 12 volt, 3 pin (fits late model Ford, GM vehicles)
Part No. EP-29, 12 volt, 3 pin (fits late model GM trucks)
Part No. EP-32, 12 volt, 3 pin (fits Toyota models 1985-1987)
Part No. EP-33, 12 volt, 3 pin (fits Mazda models)
Part No. EP-34, 12 volt, 3 pin (fits Nissan, Honda, & Subaru models)
Part No. EP-35, 12 volt, 3 pin, 2 lamps /side with Outage• (fits Volvo, GM ST Pick-Up, B.M.W, & Toyota models)
Part No. EP-36, 12 volt, 3 pin, 3 lamps /side with Outage• (3 bulb turn, 6 bulb hazard flasher fitting GM Full Size Pick-Ups)

(•Outage indication is an accelerated flash rate indicating a bulb failure)

LOUD FLASHER SERIES (LF)

High lamp load flasher. Ideal for trailering. Is 5 times louder than standard flasher.

Part No. LF12C, 12volt, 2 pin (Electro-Mechanical)

TRIDON

Flashers

HEAVY DUTY ELECTRO-MECHANICAL FLASHERS - 12 Volt

•Housed in a rectangular case with chamfered corners to allow the flasher to be installed in standard 1-3/8" round mounting hole •Rated at minimum of 100 hours continuous operation •Loud, pleasant audible signal •Voltage range of 11-15 volts •Temperature range of -31°C to +62°C •70 - 120 flashes per minute •Exceeds SAE J590, J945 and FMVSS 108 •Part # 286 exceeds SAE J1054

Part No. 172, 12 lamp, rated for 25 amps, 2 terminal
Part No. 173, 12 lamp, rated for 25 amps, 3 terminal
Part No. 182, 16 lamp, rated for 35 amps, 2 terminal
Part No. 183, 16 lamp, rated for 35 amps, 3 terminal
Part No. 282, 20 lamp, rated for 45 amps, 2 terminal
Part No. 283, 20 lamp, rated for 45 amps, 3 terminal
Part No. 286, 10 lamp, alternating, rated for 25 amps per side, 3 terminal

FLASHER FOR FORD F-SERIES TRUCKS

F150, F250, F350 SERIES & FORD RANGER
•Plastic housing •12 volt, 5 amp max. hazard, 2.5 amp max. turn signal •LED and Incandescent lighting systems.
Part No. 97283.

SCHOOL BUS FLASHER

•Compact electronic school bus flasher is designed for use on all eight-lamp bus wiring systems •Unit is short circuit protected •Internal components are sealed and unaffected by vibration •Meets SAE J1054 •Input Voltage: 10 - 17 vdc •Max Output Current: 16 amps / terminal 1 amp on Stop Arm, Solenoid terminal •Flash Rate: 75 +/- 5 FPM •Duty Cycle: 50/50 •Operating Temp. Range: -31°C to +62°C.
Part No. 97223.

ULTRAFLASH II HEAVY DUTY SOLID STATE FLASHERS

•Suitable for LED or incandescent lamps on 12V or 24V systems. •Provides continuous service at maximum rated current level and operates at 12 or 24 volts. Unit can be mounted with included screws or cable ties •Ultraflash II is short circuit overload protected with a self-resetting feature and can operate in a temperature range of -40°C to +62°C •Rated for 35 amp maximum load or 16, 32/3 cp bulbs •Unique folding bi-polar plug with 11" leads for reverse polarity operations •Optional 12" jumper wire for remote mounting •Meets DOT FMVSS 108/SAEJ945/J950
Part No. 97231, Ultraflash II w/o audible signal.
Part No. 97232, Ultraflash II with audible signal.
Part No. 94954, 12" jumper wire.

ULTRAFLASH II ALTERNATING HEAVY DUTY SOLID STATE FLASHER

•Suitable for LED or incandescent lamps on 12V or 24V systems. •Provides continuous service at maximum rated current level and operates at 12 or 24 volts. Unit can be mounted with included screws or cable ties •Ultraflash II is short circuit overload protected with a self-resetting feature and can operate in a temperature range or -40°C to +85°C •No audible signal •Rated for 17 amps/channel or 8,32/3 cp lamps per channel •12" wire leads •Meets DOT FMVSS 108 and SAEJ1054
Part No. 97201.

Turn Signal Switches

TURN SIGNAL SWITCHES

•Features heavy duty painted die cast housing with chrome handle •4 and 7 wire versions have built-in pilot lights to indicate left and right turns
Part No. 902, 4 wire
Part No. 900, 7 wire
Part No. 900Y209, 7 wire, Kenworth repl. #K-301D182
Part No. 900Y114, 7 wire, Navistar repl. #775863C93, 1663595C91.
Part No. 900Y129, 7 wire, Volvo/White repl. #84401-0005
Part No. 900Y73, 7 wire, Mack repl. #1MR3412P2, 1MR3412P1, 1MR2201P2, 1MR2201P1
Part No. 900Y170, 7 wire, Ford repl. #E5HT13B302-AA, E5HZ13341A.

TURN SIGNAL SWITCHES

•Features heavy duty painted die cast housing with chrome handle •10 wire design includes push button high/low beam selector and separate hazard warning switch
Part No. 905, 10 wire w/high/low button
Part No. 915Y103, 10 wire, Kenworth repl. #K-301-230, 18500D-044
Part No. 915Y104, 10 wire, Peterbilt repl. #16-03827
Part No. 915Y105, 10 wire, Volvo/White repl. #84401-3203
Part No. 915Y113, 10 wire, Freightliner repl. #A06-17126-000, A06-13867-002
Part No. 915Y114, 10 wire, Peterbilt repl. #16-04415

10-LAMP FLASHER
•Molded base and terminals •Heavy duty contacts •12.8V - 20 amp
Part No. 44810-3EA, 2 terminal
Part No. 44820EA, 3 terminal.

12-LAMP ELECTRO-MECHANICAL FLASHER
•Mechanical stability and improved durability •60-120 flashes per minute •Less than 4 millivolts per amp voltage drop •Fits standard round socket •100 hours of continuous operation
Part No. 44530EA, 2 terminal, 12.8V - 25 amp.
Part No. 44850EA, 2 terminal, 24V - 25 amp.
Part No. 44540EA, 3 terminal, 12.8V - 25 amp.
Part No. 44860EA, 3 terminal, 24V - 25 amp.

16-LAMP ELECTRONIC FLASHER
•60-120 flashes per minute •11-15 volts DC •Only one moving part •Less than 4 millivolts per amp voltage drop •Fits standard round socket •100 hours of continuous operation •12.8V - 33 amp
Part No. 44690EA, 2 terminal.
Part No. 44700EA, 3 terminal.

20-LAMP HEAVY DUTY ELECTRONIC FLASHER
•60-120 flashes per minute •11-15 volts DC •Only one moving part •Less than 3 millivolts per amp voltage drop •Fits standard round socket •100 hours of continuous operation •12.8V - 42 amp
Part No. 44710EA, 2 terminal.
Part No. 44720EA, 3 terminal.

FLASHER MOUNTING BRACKET
Part No. 43770EA.

4/2 FLASHER NORTH AMERICAN PIN OUT
•Heavy duty contacts •Lamp outage •Flash rate electronically timed •12.8V - 25 amp
Part No. 44750EA, 3 terminal.

6-LAMP HEAVY DUTY ALTERNATING FLASHER
•11 - 15 volts DC •One moving part •Less than 4 millivolts per amp voltage drop •Fits standard round socket •12.8V - 25 amp
Part No. 44730EA, 3 terminal.

SELF ADJUSTING, LED FLASHER
•Automatically adjusts to LED current •Rated from 1.0 to 20 amp •Heavy duty contacts •Electronic flasher •Steady flash rate for all LED applications
Part No. 44890EA, 3 terminal.
Part No. 44891EA, 2 terminal.

Turn Signal Switches/Harnesses

7-WIRE/4-WIRE REPLACEMENT SWITCH KIT
•Replaces Signal-Stat 900, 902 •Includes switch and blunt-cut plug-in pigtail (#69680) •4 or 7 wire systems compatible •Adapts to non-brake circuit switch •6-12V
Part No. 48072EA.

BRIGADIER SWITCH
•Replaces GM 2049298, Signal Stat 900Y155 •Grease-free contact area •Plug-in wiring harness included •Internal column installation •6-12V
Part No. 48192EA.

2 TO 18-BULB TURN SIGNAL SWITCH WITH HI-LOW BEAM
•Universal replacement with lift handle headlight dimmer •Grease-free contact area •Harness sold separately •6-12V
Part No. 48282EA.

2 TO 18-BULB TURN SWITCH
•Universal replacement without hi-low beam function •Grease-free contact area •Harness sold separately •6-12V
Part No. 48272EA.

Grote
The first name in vehicle safety systems®

UNIVERSAL REPLACEMENT HARNESS
•Fits 48272 switch •Grease-free contact area •Not designed for high-low beam system •4 to 7 wire system compatible
Part No. 69680EA.

UNIVERSAL PLUG-IN WIRING HARNESS WITH HI-LOW BEAM
•Fits 48282 switch •Requires 44460 non-latching relay •Grease-free contact area •4 to 7 wire system compatible
Part No. 69690EA.

Back-Up Alarms

Preco Electronic Alarms Feature: • 24-month warranty •Passed million cycle operational test •Meet O.S.H.A., Bureau of Mines and state regulations •Decibel ratings are +/-4 dB (A) @ 4' as specified in SAE J994 Mar 85 •60-90 Sound cycle/minute •Solid state electronics sealed in urethane •Steam cleanable •#8-32 UNC Terminal Studs •Have a temperature range of -40° C to +77° C •All alarms, circuit boards, speakers, and drivers are manufactured in the USA.

BAC-A-LARM® 200 Series

•Field proven dependability has thrust the 200 Series alarms into the highest demand category of any low sound level alarm on the market. Max. current draw less than 0.3 amp. Polarity protected. Weight: 10 oz. Dimensions: L 4.02" x D 1.6" x H 2.67".

Part No. 230, 97 decibels •12 volt systems •SAE J994 Type C •1250 Hz nominal frequency • +30/-400 spike protected volts

Part No. 250, 102 decibels •12-24 volt systems •1200 Hz nominal frequency • +100/-400 spike protected volts

BAC-A-LARM® 300 Series

Versatile, durable housing allows optimum value for this medium sound level alarm. Universal mounting provides vertical or horizontal mounting options. Max. current draw less than 0.5 amp. Polarity protected. Weight: 1 lb. 8 oz. Dimensions: L 5" x D 3.78" x H 3.06".

Part No. 370, Protected manually adjustable sound •97 and 107 decibels •12-24 volt systems •SAE J994 Types B & C •1200 Hz nominal frequency • +100/-400 spike protected volts

BAC-A-LARM® 45AA

Housed in rugged, die-cast aluminum, this model is the standard for medium sound level alarms in the industry. Vertical or horizontal mounting options. Dual polarity. Max. current draw less than 0.5 amp. Weight: 2 lbs. 4 oz. Dimensions: L 5.5" x D 3.63" x H 4.75".

Part No. 45AA, Manually adjustable sound-fingertip control •87 and 107 decibels •12-24 volt systems •SAE J994 Types B & D •1200 Hz nominal frequency • +/-150 spike protected volts

BAC-A-LARM® 110/112

The rugged, heavy duty model #112 is used by the industry's major OEM's. Model #110 is available where fewer sound levels are required. Horizontal mounting. Weight: 2 lbs. 4 oz. Dimensions: L 7.21" x D 4" x H 3.21".

Part No. 110, Single sound level •112 decibels •12-24 volt systems •SAE J994 Type A •Polarity protected •1150 Hz nominal frequency • +100/-400 spike protected volts •Max. current draw less than 1.0 amp

Part No. 112, Manually adjustable sound-fingertip control •97, 107, 112 decibels •12-24 volt systems •SAE J994 Types A, B & C •Dual polarity •1150 Hz nominal frequency • +/-150 spike protected volts •Max. current draw less than 0.5 amp

PRECO-MATIC 1040

Self-adjusts automatically to 10 decibels above the surrounding noise, thus reducing irritation for operators and workers. Versatile and compact universal mounting. Polarity protected. Max. current draw less than 0.5 amp. Weight: 1 lb. 8 oz. Dimensions: L 5" x D 3.78" x H 3.06".

Part No. 1040, 87-112 decibels •12-24 volt systems •1150 Hz nominal frequency • +100/-400 spike protected volts

BAC-A-LARM® 40 SERIES

This flush-mount alarm fits into any 40 Series round tail lamp hole. This alarm utilizes the industry standard rubber grommet and the 2 or 3 pronged pigtails used in the 40 Series stop, tail, and turn lamps. •Steam cleanable •Voltage spike protected •4-5/16" round x 1-3/4" deep •12 oz. weight •Works with positive or negative ground systems

Part No. 4028, 77-97 decibel 12-48 volt self-adjusting. Automatically adjusts to a minimum of 5 dB above surrounding noise levels.

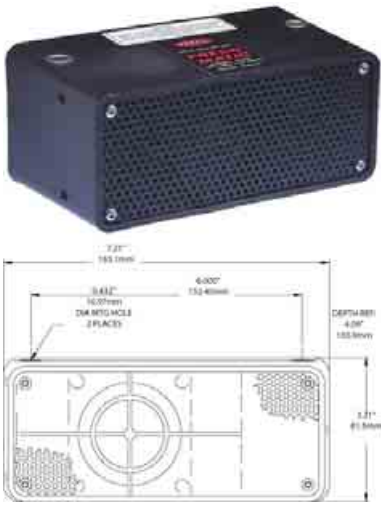
Part No. 4028K, Bac-A-Larm kit c/w grommet and pigtail

Part No. 4030, 97 decibel 12 volt
Part No. 4030K, Bac-A-Larm kit — c/w grommet and pigtail

Part No. 4050, 102 decibel 12-24 volt
Part No. 4050K, Bac-A-Larm kit — c/w grommet and pigtail

PRECO-MATIC 1060

Unique, self-adjusting sound level automatically adjusts to 10 decibels above the surrounding noise. OEM design housing mounts horizontally on 6" centres. Polarity protected. Max. current draw less than 0.5 amp. Weight: 2 lbs. 4 oz. Dimensions: L 7.21" x D 4" x H 3".
Part No. 1060, 97-112 decibels •12-24 volt systems •1110 Hz nominal frequency • +100/-400 spike protected volts



POLLAK
Back-Up Alarms

Electronic Back-Up Alarms: •100% tested at factory and warranted for 15 months from date of manufacture •Solid state electronics sealed against dust, moisture, and vibration •Can be used in positive or negative ground vehicles •Operates in temperature ranges -40°C to +76°C •Steam cleanable

MANUALLY ADJUSTABLE 112/107/97 DB

Heavy duty adjustable unit for largest construction and mining vehicles, graders, dumps, crawlers, tractors, belly dumps, etc. Designed for high performance, the most compact lowest cost unit of this type available. •Multi-voltage 9 to 24 volts •Voltage spike protected •Certified conformance to S.A.E. J994, types A, B, and C •Meets state, federal, O.S.H.A., Bureau of Mines, and Army Corps of Engineers' requirements •Made of non-corroding plastic
Part No. 41-761.

UNIVERSAL BACK-UP ALARM SWITCH

Switch for vehicles not equipped with automatic back-up light circuit. 8 amp.
Part No. 41-706.

Pollak

Single Level Back-Up Alarms: •Manufactured of high impact, non-corroding plastic •Completely weather resistant and steam cleanable •Meets extreme requirements of off-highway equipment •Operates in temperature ranges -40°C to +76°C •Can be used on positive and negative ground vehicles

SINGLE LEVEL 107 DB

A medium to heavy duty unit for off-highway trucks, dump trucks, loaders, cranes, backhoes, etc. •Voltage spike protected •Certified conformance to S.A.E. J994, type B •State, federal, O.S.H.A., Bureau of Mines and U.S. Army Corps of Engineers' requirements •Size - 5"W x 4.7"D x 3.1"H
Part No. 41-751, (12 - 36 volts).

SINGLE LEVEL POLLALERT 97 DB

The rugged and compact Pollalert allows replacement of unnecessarily large and bulky alarms currently used on light and medium duty trucks, dump trucks, motor homes, campers, electric forklifts and other similar applications. •Voltage spike protected •Certified conformance to S.A.E. J994, type C •Meets state, federal and U.S. Army Corps of Engineers' requirements •Size - 4"W x 2"D x 2.5"H
Part No. 41-720*, (12 -36 volts).

SINGLE LEVEL POLLALERT 107 DB

This unit offers the same features as number 41-720, except offers a higher decibel rating of 107 db and conforms to S.A.E. J994, type B.
Part No. 41-722, (12-36 volts).

* Denotes items are available in "Visi/PAK" display packages by adding a "V" after the part number(s).

Visi PAK

TRUCK-LITE
Back-Up Alarms

4" ROUND BACK-UP ALARM/SELF-ADJUSTING

•Features a urethane-filled housing to protect the alarm from moisture, dust and vibration •Alarm is flush mounted to help protect against road debris, salt and mud •Uses industry standard grommets and pigtails •Steam cleanable •Voltage spike protected •Meets OSHA Bureau of Mines and all state regulations •Meets SAE J994 •Operating temperature range from -40°C to 76°C
Part No. 92914, Self-adjusting 77-97dB, 12-48V, alarm only.
Part No. 92916, Single sound 97dB, 12V, alarm only.
Part No. 92918, Single sound 102dB, 12-24V, alarm only.

SELF-ADJUSTING SOLID STATE BACK-UP ALARM

•Adjusts automatically to environmental noise, reducing irritation for operators and workers •Rugged glass reinforced nylon housing •Sealed solid state electronics •Steam cleanable •Meets OSHA Bureau of Mines and all state regulations •Meets SAE J994 •Operating temperature range from -40°C to +76°C •UNC terminal studs #8-32
Part No. 92905, 87-112dB, 6 to 36 volts.

SINGLE-SOUND LEVEL SOLID STATE BACK-UP ALARM

•Single sound level back-up alarm •Rugged glass reinforced nylon housing •Sealed solid state electronics •Steam cleanable •Meets OSHA Bureau of Mines and all state regulations •Meets SAE J994 •Operating temperature range from -40°C to +76°C •UNC terminal studs #8-32
Part No. 92903, 107dB, 6 to 36 volts.
Part No. 92904, 112dB, 6 to 36 volts.

COMPACT SINGLE SOUND BACK-UP ALARM

•Tough fiber-glass reinforced nylon housing and sealed solid state electronics •Steam cleanable •Meets OSHA Bureau of Mines and all state regulations •Meets SAE J994 •Operating temperature range from -40°C to +76°C •UNC terminal studs #8-32
Part No. 92900, 97dB, 12 volt.
Part No. 92901, 97dB, 12 to 24 volts.
Part No. 92902, 102dB, 12 to 24 volts.

SINGLE SOUND LEVEL BACK-UP ALARM

•Single sound back-up alarm for light to medium duty use •Features epoxy sealed solid state electronics and a rigid PVC plastic housing •Meets OSHA Bureau of Mines and all state regulations •Meets SAE J994 •UNC terminal studs #8-32
Part No. 92909, 97dB, 12 volt.

Truck-Lite®

GROTE
Back-Up Alarms

BEEPING BACK-UP HALOGEN BULB ALARM
•Combination back-up safety device and lamp in one •Provides a clear beeping sound when vehicle shifts into reverse gear •Installs as easily as replacing existing bulb •12.8V - 1.67 amp •Greater light output with 20 watt bulb •Alarm DOES NOT meet OSHA or SAE J994 requirements
Part No. 73140-5EA, Bayonet base, #1156.
Part No. 73150-5EA, Wedge base, #3156.

73-150-5EA
73-140-5EA

90 dB LIGHT DUTY BACK-UP ALARM
•Universal mounting •Compact size •Material: fibreglass/nylon •Blue finish •Non-SAE alarm •12.8V - .6 amp
Part No. 73120EA.
Part No. 73120-5EA, Retail pack.

MEDIUM/LOW NOISE SURROUND BACK-UP ALARM
•12-24 volts DC, .6 amp •Self-grounding, eliminates potential corrosion points •Universal integral mounting bracket •Voltage spike and surge protected •60 pulses per minute •Material: fibreglass/nylon •Blue finish
Part No. 73040EA, SAE Type C, 97 dB. UL approved.
Part No. 73040-5EA, Retail pack.

Part No. 73090EA, SAE Type B, 107 dB. UL approved.
Part No. 73110EA, Self Adjusting Volume, SAE Type A, 98-102 dB.

MEDIUM NOISE SURROUND BACK-UP ALARM
•12 volts DC, .3 amp •Features hardware terminations •Integral mounting bracket •Electronics completely encapsualted in potting for total circuit board protection •Material: Nylon •Blue finish
Part No. 73240EA, Smart Alarm®, SAE Type F, 82-107 dB.
Part No. 73250EA, SAE Type B, 107 dB.

FIELD-SELECTABLE BACK-UP ALARM
•Adjusts to SAE type B or A for medium to high noises •12-36V - .75 amp •Volume control 107-112 dB •Universal mount •Reverse mounted sound chamber •Corrosion resistant lead •Material: steel •Blue finish
Part No. 73030EA.

SELF-ADJUSTING BACK-UP ALARM
•Volume 87-112 dB •Measures ambient noise level and instantly self-adjusts to at least 5 decibels louder •Automatically adjusts to cover SAE type D through A •12-24V - .75 amp •Universal mount •Reverse mounted sound chamber •Corrosion resistant lead •UL approved •Material: steel •Blue finish
Part No. 73080EA.

4" GROMMET MOUNTED BACK-UP ALARM
•Mounts in standard 4" grommet •Grommet not included •107 dB •12-36V - .75 amp •Type A SAE code •Material: steel
Part No. 73160EA.
Part No. 91740EA, Grommet.

ACTUATION SWITCH
•Often utilized with back-up alarms •Easy installation •Activates when shifting into reverse •Zinc plated finish •12-36V - 5 amp (max)
Part No. 44134EA.

ACTUATION SWITCH
•Heavy duty usage •Waterproof •Mechanical actuation •Material: Duramold/steel •Zinc finish •12.8V - .5 amp (max)
Part No. 44421EA.

AEROQUIP
Support Clamps

900729 SUPPORT CLAMP
•Lightweight neoprene-coated steel support clamps are designed to support hose where long runs are necessary. They not only furnish a neater installation, but prevent damage and chafing. The neoprene lining will withstand high ambient temperatures.

CABLE TIE TOOLS

HEAVY DUTY CABLE TIE TOOL

Heavy duty automatic cutting and tensioning adjustment features make this reliable tool a welcome assistant while fastening. Use with 18 to 50 lb. rated cable ties.
Part No. 23-9000EA.

CABLE TIE TOOL

This highly durable tool is ideal for tensioning standard and heavy duty cable ties rated from 40 to 175 lbs. Made of lightweight molded aluminum with precision cutter.
Part No. 23-9001EA.

CABLE TIE TOOL - ECONOMY

Effective and light weight. Place the cable tie end into the tool and squeeze trigger to desired tension. Cut the cable tie with a simple twist of the wrist. no sharp ends are left. Recommended for use with light to standard duty (18 lb.-50lb.) cable ties.
Part No. 76-2860EA.

CABLE TIE TOOL - ADJUSTABLE/ AUTO-CUT

This heavy duty tool is for use with 18-50 lb. rated cable ties. Automatic cut-off and adjustable tensioning makes this tool dependable in assembly applications.
Part No. 76-2864EA.

CABLE TIE TOOL - LARGE - AUTO-CUT

Plier action provides excellent tensioning of 120 lb. and 175 lb. cable ties. the cutter provides a smooth, safe finish. Field proven durability.
Part No. 76-2862EA.

CABLE TIE TOOL - AUTO-CUT

For frequent users and assembly applications, this tool has adjustable tension settings. Automatic cut-off and adjustable tension. Less operator fatigue. Recommended for use with light to standard duty 18-50 lb. rated cable ties.
Part No. 76-2861EA.

400 PC. CABLE TIE ASSORTMENT IN HANDY PACK

These assortments are a must for every tool kit - home and shop. Each assortment contains 400 cables ties. Convenient and organized, the package container is reusable. Contains: 200 - 4" cable ties, 100 - 7.5" cable ties, 100 - 11" cable ties
Part No. 76-2920PK, Natural.
Part No. 76-2921PK, UV black.

650 PC. CABLE TIE ASSORTMENT - COLOURED TIES IN JARS

Coloured cable ties are ideal for colour coding and cosmetic appeal and are conveniently packaged in jars. Contains: 300 - 4" cable ties (200 pc Natural & 25 pc each of Blue, Green, Red & Yellow); 300 - 7" cable ties (All Natural); 50 - 11" cable ties (All Natural)
Part No. 56-2999PK.

1000 PC. CABLE TIE ASSORTMENT - FLUORESCENT

This assortment contains two packages of 100 of each of the five fluorescent colours: Blue, green, Orange, Pink & Yellow.
Part No. 76-2914PK.

GROTE Cable Ties

CABLE TIES

•Made of a general purpose nylon 6/6 material •Light weight, high strength and maintain a wide temperature range •Can absorb or release moisture depending on the environment which results in longer life •Provide a strong grip and flexibility •Prevent kinking and curling of wires •Absorbs vibration, insulate cables and protect from abrasion •Black ties are U.V. resistant which results in a decrease in premature aging

Shrink Tubing Information

SINGLE WALL - General purpose flexible polyolefin shrink tubing. Shrinks to form a tight cover. Shrink ratio 2:1.
DUAL WALL - A rigid polyolefin tubing with an elastic memory which allows shrinkage without melting. Inner wall melts into voids. Shrink ratio 3:1.
HEAVY WALL - A special adhesive lined heavy wall shrink tubing with a 3:1 shrink ratio. Primarily used for battery connections.

TECTRAN
Making the Right Connections

Dual Wall Heat Shrink – 6 inch Lengths

DUAL WALL HEAT SHRINK TUBING

•Rigid dual wall polyolefin heat shrink •Meltable inner wall •Extremely abrasion resistant •Shrink ratio of 3:1

Heat Shrink Tubing

SINGLE WALL HEAT SHRINK TUBING

•Cost effective; design for insulating and protecting •Provides strain relief •Shrink ratio 2:1 •Minimum shrink temperature 90°C •Continuous operating temperature -30°C to 125°C

Part No.	I.D.	Length
83-5000RL	3/16"	100 ft.
83-5001RL	1/4"	100 ft.
83-5002RL	3/8"	100 ft.
83-5003RL	1/2"	100 ft.

DUAL WALL HEAT SHRINK TUBING

•Shrinks outer jacket and melts the inner "encapsulant" wall to flow and fill surface irregularities •Shrink ratio 3:1 •Minimum shrink temperature 135°C •Continuous operating temperature -55°C to 110°C

Heat Guns

HEAT GUN

•Two heat settings •Lightweight (1 lb.) •3-wire ground cordset •UL and CUL listed •Thermoplastic
Part No. 83-6501EA.

BUTANE POWERED MICRO TORCH

•Self-igniting trigger switch with safety lock •Adjustable flame •Powered by "Refillable" fuel cell •20 minute run time
Part No. 83-6500EA.

Grote
The first name in vehicle safety systems®

TECTRAN

Heat Gun

HEAT GUN

•Electric heat gun - 120V •Temperature can be set to 398°C or 593°C •Equipped with fold-down stand for hands free operation •Can be shut off immediately after use - cool down time not required.
Part No. HG-1.

TECTRAN
Making the Right Connections

TECHSPAN IND. INC.

Heat Gun

HEAT GUN

•Compact, lightweight and easy to use, this heat gun with temperature setting of 399°C to 538°C and an airflow of 15 CFM at 3650 FPM meets the requirements of most materials •The compact ergonomically designed polycarbonate housing, enclosed ceramic heating element and wrap-around air intake assure you of a lightweight (.73 kg), easy to use source of flameless heat whether you're working with heat shrinkable materials, spot drying paint, bending plastics/laminates or activating adhesives •UL and CSA approved •120V., 12 amp, 1500 watt.
Part No. 76-9888EA, Heat gun.
Part No. 76-9891EA, Heat shrink attachment.

MAKITA Heat Gun

HEAT GUN ACCESSORIES

Wide Angle Slit Nozzle - Provides a 1-3/4" x 3/16" air flow •Nozzle has a slight angle to direct air flow for lap welding surfaces such as PVC materials and single ply roofing
Part No. 110751-A.

Large Reflector Nozzle - 3" wide •Used to deflect air flow around pipes •Used for bending PVC pipe, heat shrinking tubing, thawing pipe and soldering copper pipe
Part No. 110730-A.

Reflector Nozzle - Used for soldering pipes or shrink tubes
Part No. 110705-A.

3" Surface Nozzle - Provides a 3" x 1/4" air flow for heating large surfaces
Part No. 110702-A.

9/16" Reduction Nozzle - Spot oriented hot air de-smoldering and PVC welding
Part No. 110707-A.

25/32" Reduction Nozzle - For concentrated air flow
Part No. 110708-A.

3/8" Reduction Nozzle - Provides small area air flow (approx. 3/8") •Also used with #110720-A for plastic welding
Part No. 110706-A.

3/8" Reflector Nozzle - Small reflector nozzle for use in activating solder sink wire connectors and small shrink tubing
Part No. 110746-A.

Plastic Welding Nozzle - Attaches to #110706-A to provide concentrated air flow to melt the plastic welding rod •Also can be used for fusing plastic parts together
Part No. 110720-A.

HEAT GUN

•Variable temperature control 121°C - 593°C for a wide variety of applications •Strips paint and varnish, thaws frozen pipes, loosens tile and putty, re-melts adhesives, etc. •2-speed blower setting for 8 CFM or 14 CFM •Thermocouple control maintains precise temperature •12.5 amp •1500 watts •Overall length 10"
Part No. HG1100.

makita
INDUSTRIAL POWER TOOLS

MILWAUKEE® Heat Guns

VARIABLE TEMPERATURE HEAT GUN

•12.5 amp motor •120 volt AC •14.8 cu. ft. min. air volume •93°C to 593°C air temperatures •Heat adjustment dial (1-6) •Electronic control allows extra reduction of air flow for more accurate and concentrated heat location without damage to heating element •Includes air reduction and hook nozzle
Part No. 8978-20.

DUAL TEMPERATURE HEAT GUN

•11.6 amp motor •120 volt AC •14.8 cu. ft. min. air volume •298°C and 537°C air temperatures •Impact resistant heating element •Cool air inlet design •Support stand •3 position rocker switch- off, high and low •Double insulated
Part No. 8975-6.
Part No. 8980, Kit includes Includes accessory assortment and impact resistant carrying case.

VARIABLE TEMPERATURE HEAT GUN

•11.6 amp motor •120 volt AC •14.8 cu. ft. min. air volume •60°C to 560°C air temperatures •Impact resistant heating element •Cool air inlet design •Rotate rear housing to select temperature •Support stand •Double insulated
Part No. 8977-20.
Part No. 8985, Kit includes accessory assortment and impact resistant carrying case

NOTE: AH = amp hours

*Height is measured from the base to the top of the post.

Professional Car & Truck Battery

•ACDelco professional batteries are tough and dependable, and last up to 30% longer than the average competitors'. •The hydrometer or "the eye" eliminates the guesswork by indicating the battery state of charge.

Voyager® Marine/RV Battery

•Deep cycle battery puts out a steady stream of power for long periods of time and the technology allows you to recharge again and again. •Built-in charge indicator for quick glance monitoring.

Heavy Duty Battery

ACDelco Heavy Duty Batteries have special features in the grid, element, case, and cover to provide dependable, trouble-free service for off-road vehicles, line haul trucks, and construction, farm, and industrial applications.

ABBREVIATIONS

D - Dry battery
W - Wet battery
M - Maintenance free battery - these batteries have built in green eye battery hydrometers.
DT - Dual Terminals: has both top post and side terminals.
LUG - Has lug or eyelet terminals.
SSB - Side male thread bus terminals (Low profile applications)
ST - Side terminals - female threads.
TP - Top post - standard SAE.
TPWN - Combination top post and wing nut terminals.
TS - Top stud - male thread terminals.
TSM - Top stud marine

AUT - Automotive battery - These batteries are used in passenger cars and small trucks both import and domestic.

DC - Delco Deep Cycle batteries can be used until they "power out", then can be recharged. These batteries have excellent recovery power.

EV - Delco Electric Vehicle "Long Drive" batteries are designed for electric golf carts, small forklifts, trolling motors, wheelchairs, and electric pallet jacks. These batteries are able to handle the deep cycling demands for which car or truck batteries are not intended.

GU - Delco General Utility batteries are designed for lawn and garden tractors, snow throwers, small generators, pumps, snowmobiles, and go-carts etc.

HC - These High Cycle batteries are used from the high end of their charge, down to a partially discharged state, then are recharged. These are designed for use with electric motors on a slow draw or are used on vehicles with large electrical requirements. These batteries have good recovery properties.

HD - Heavy Duty freedom batteries are designed with commercial vehicles, farm equipment, and construction equipment in mind. They have high cranking and reserve power.

IND - Industrial and farm batteries, are designed for wheeled tractors or self propelled implements which have special electrical needs.

LC - For automotive or light commercial applications.

MAR - For Marine and RV use. These are deep cycle batteries which will not only start your engine but will provide plenty of reserve power for trolling motors, fish finders and running lights etc. These batteries have excellent recovery properties when recharging, and a long cycle life, which means years of service.

SS/M - Delco Special Service/Marine batteries are deep cycle batteries designed for stops and starts, and vehicles with constantly running motors. These are excellent batteries for taxi, ambulance, police, marine, and RV applications. These batteries can be run down and recharged with excellent charging recovery.

ACDelco®

AC DELCO

Recreational Vehicle & Marine Batteries - 12 Volt

•Motorcycle •ATV •Riding Mower •Snowmobile •Water Sport

These compact batteries come dry charged and come complete with a battery acid pack. These batteries come with a 90 day warranty. Application Guides are available.

BATTERY ACID

Part No. BA-20, 20 litre pack battery acid
Part No. BA-210, 210 litre drum battery acid

ATTWOOD

Battery Boxes

9082-1

9065-1

9069-1

9067-1

9084-1

Polypropylene construction for total acid resistance. Hold-down straps resist 350 lbs. of force. Battery boxes are drop tested in temperatures ranging from -28°C to 49°C. Mounting hardware is included.

PART NO.	DESCRIPTION
9082-1	Small Battery Box. Black, vented style. Inside dimensions: 8-1/4" x 5-1/2" x 7-7/8".
9065-1	Standard Battery Box. Black, vented style. Inside dimensions: 11-1/8" x 7-3/4" x 10-1/8". Used for battery series 24/24M.
9069-1	Standard Battery Box (non-vented). Black, non-vented style. Same dimensions and same battery series as #9065-1.
9067-1	Series 27 Battery Box. Black, vented style. Inside dimensions: 13-7/8" x 7-1/4" x 10-1/2". Used for battery series 27/27F/27M.
9084-1	Large Battery Box. Black, vented style. Inside dimensions: 15-7/16" x 7-1/8" x 9-3/4".

QUICK CABLE®

Battery Accessories

PART NO.	DESCRIPTION
302103	QuickHold battery hold-down, 8-5/8" min. - 14-3/4" max., carded
302102	QuickHold battery hold-down, 5-1/2" min. - 9" max., carded
302201	Adjustable universal cross bar type battery hold down
302203	Universal side type hold-down for side mount and end mount batteries
302120	Small battery tray, 11-1/4" x 8-1/4" I.D.
302121	Large battery tray, 13-3/4" x 7-5/8" I.D.

Battery Accessories

ADJUSTABLE BATTERY HOLD-DOWNS

•Heavy duty design bridges flush surface and raised vent batteries; adjusts and locks at precise 1/8" increments •Fibreglass reinforced polypropylene is rust and corrosion proof •Non-conductive - eliminates hold-down as source of shorts •Ideal for all applications - car, truck, bus, off-road as well as marine or recreational installations
Part No. 84-9288EA, Offset hold-down, 5-1/2" - 9" min/max extension.

HOLD DOWN SETS - L & J STYLE

•Use with vinyl coated steel battery trays •Long thread accommodates all crossbar/frame designs •"L" and "J" style bend eliminates any need to shift or remove battery •Sold as pair; hardware included
Part No. 84-9287PR, Hold-down "J" bolt set 8".
Part No. 84-9285PR, Hold-down "L" bolt set 10".
Part No. 84-9286PR, Hold-down "J" bolt set 10".

Battery Isolators

BATTERY ISOLATORS FOR 12-36 VDC NEGATIVE GROUND ELECTRICAL SYSTEMS

•Isolate batteries to prevent the battery with the higher charge from draining into the battery with the lower charge •Allow two batteries to be charged simultaneously from a single power source •Contain solid state circuitry embedded in the insulation for efficient heat dissipation •Installation and wiring instructions included

42 AMP MAX. ALTERNATOR RATING
•Terminations: one #10 gauge 6" wire lead, two #16 gauge wire leads •Mounting: two 13/64" dia. holes •Size: 5"L x 3-1/4"W x 2-3/16"H
Part No. 48080.

70 AMP MAX. ALTERNATOR RATING
•Terminations: three 1/4" stud •Mounting: two 9/32" dia. holes •Size: 5"L x 3-1/4"W x 2-3/16"H
Part No. 48070.

90 AMP MAX. ALTERNATOR RATING
•Terminations: three 1/4" stud •Mounting: two 9/32" dia. holes •Size: 6-1/2"L x 3-1/4"W x 2-13/16"H
Part No. 48090.

Cole Hersee Co.

140 AMP MAX. ALTERNATOR RATING
•Terminations: three 5/16" stud •Mounting: four 9/32" dia. holes •Size: 6"L x 4-3/16"W x 3-11/32"H
Part No. 48120.

200 AMP MAX. ALTERNATOR RATING
•Terminations: three 5/16" stud •Mounting: four 9/32" dia. holes •Size: 8-1/2"L x 4-3/16"W x 3-13/32"H
Part No. 48160.

BATTERY ISOLATORS FOR USE WITH DELCOTRON SERIES CS ALTERNATORS
•Include an extra ignition connection terminal
•Connects to a terminal or wire that is switched by the ignition switch

140 AMP MAX. ALTERNATOR RATING
•Terminations:three 5/16" stud and one #10 stud •Mounting: four 9/32" dia. holes •Size: 6"L x 4-13/16"W x 3-11/32"H
Part No. 48122.

DOCAP
Power Inverter

150 WATT POWER INVERTER

•DC to AC portable power inverter •150 watts of continuous power •Overload protection •High grade thermal protection •Low battery shutdown •Peak surge power 450 watts •Modified sine wave •Ideal for all general purpose applications
Part No. 841-028.

DC TO AC POWER INVERTER

•300 watts of continuous power •Overload protection •High grade thermal protection •Low battery shutdown •Peak power surge capability to 600 watts •Modified sine wave •Ideal for cars, boats, trucks and RV's
Part No. 841-030.

600 WATT INVERTER

•DC to AC portable power inverter •Overload protection •High grade thermal protection •Low battery shutdown •Battery voltage:12Volt DC •Output voltage:115V AC •Output frequency: 60 HZ •Ideal for laptops, fax machines, fans, TV's, small appliances, microwave ovens
Part No. 841-032.

DOCAP

TRIPP•LITE POWERVERTER®
DC-to-AC Inverters

ULTRA COMPACT POWERVERTER®

Ultra compact PowerVerter Inverters provide affordable, spacesaving solutions for all mobile power applications. They pack reliable technology into a durable, lightweight aluminum housing small enough to store or mount inside any car, pick up, conversion van or trailer. Power all applications with the vehicle engine off or on.

FEATURES: •Easy DC Battery Connection - Cigarette lighter 12v DC plug (PV150, PV375) simply plug into any dashboard lighter or 12v DC outlet to draw power from your vehicle's battery. - Battery Clips and Cables (PV600) clip directly to vehicle or auxiliary batteries - Connectors for User-Supplied Cables (PV1800HF, PV1000HF).
•Cool, Continuous Operation - Up to two internal fans allow longer, cooler continuous inverter operation (except PV150)
•Easily Replaceable External Fuses - Commonly found, easily replaceable automotive type fuses in conjunction with internal sensing circuits protect your inverter and your battery from overload.
•Durable Aluminum Housing - Rugged to handle rough travel. Light enough to carry along.
•Battery Saver Alarm - Alerts you to low battery voltage level allowing you to safely shut down equipment and recharge your battery.
•Up to 3 AC Outlets - Accommodate all your electronic equipment.

TYPICAL APPLICATIONS: •RV Entertainment Centre - PV1800HF and PV1000HF models supply enough power and AC outlets to simultaneously run multiple pieces of equipment. PV600 model provides a portable solution for mobile entertainment. •Mobile Kitchen/Workshop - PV1800HF and PV1000HF models connected to a vehicle or auxiliary battery source can power a variety of kitchen appliances and power tools. Since they pack up to 1800 watts of power, you don't have to choose between a blender and a drill, run them simultaneously!
•Automotive Office -A PV375 plugged into a dashboard lighter provides enough power for a laptop and a colour inkjet printer, making it possible to print reports on the fly. •Recharging on the Road - The PV150 can be used to power or recharge cell phones, laptop computers, electric shavers, camcorders, portable CD players and many other devices from your dashboard lighter or 12V DC outlet.

DC-to-AC Inverters

HIGH SURGE POWERVERTER® PLUS INDUSTRIAL STRENGTH POWER

FEATURES: •High Peak Surge Output - Because they can meet high initial power demands, PowerVerter Plus Inverters can start and power motors from 1/8 horsepower (PV500FC) to 1 horsepower (PV2400FC).
•Automatic Overload Protection - If overload, PowerVerter systems automatically protect themselves from damage.
•Frequency Controlled Inverter Output - Allows devices dependent on tightly regulated AC line frequency (such as computers, VCRs, CD players, tape recorders and clocks) to operate with no irregularities.
•Battery Charge Meter - Shows the level of battery charge remaining.
•Load Meter - Displays the level of demand on the PowerVerter by attached equipment.
•Power Switch - Controls PowerVerter operation.
•Remote Control Options - PowerVerter Plus PV500FC and PV1250FC feature remote on/off ports. With the addition of a cable and on/off switch, these inverters can be turned on and off from a distance.
•Connection - PowerVerter Plus Inverters feature multiple AC outlets so that equipment may be plugged directly into them. Battery connections are made with user-supplied cables and fuses.
•Mounting - PowerVerter Plus Inverters are designed for permanent mounting on site or in vehicles. Mounting flanges or keyhole brackets allow for horizontal installation on rigid surfaces and mounting plates.

TYPICAL APPLICATIONS: •Truck Mount - A PV2400FC can be permanently mounted in a diesel truck, drawing on the 24V vehicle's battery to power lights, tools and communications equipment. •Camping Kitchen - A PV1250FC connected to a truck or RV battery can power all sorts of kitchen appliances: blenders, coffee makers, even microwaves. •On-Site Power -A PV2000FC can draw energy from vehicle batteries to power lights and small motors at construction sites, providing a quiet, ecological, economical alternative to gas powered generators. •Travelling Workshop - A PV500FC connected to a pick-up's battery can run drills, grinders and sawsalls, and can recharge cordless tools.

Part No.	Input Voltage (DC)	Output Voltage (AC)	Output Frequency	Continuous Output Power	Peak Surge Output Power	No. of 15 Amp Outlets	Size (H x W x D)
PV750FC	12 volts	120 volts	60Hz	750 watts	1125 watts	2	7 x 7 x 10"
PV1250FC	12 volts	120 volts	60 Hz	1250 watts	2500 watts	2	7 x 8.75 x 9"
PV2000FC	12 volts	120 volts	60 Hz	2000 watts	4000 watts	2	7.2 x 8.5 x 16.5"
PV2400FC	24 volts	120 volts	60 Hz	2400 watts	4800 watts	2	7.2 x 8.5 x 16.5"

APS POWERVERTER® AUTOMATIC UNINTERRUPTIBLE POWER FOR LARGE LOADS & CRITICAL EQUIPMENT

•Alternative Power Sources - APS PowerVerters are the best way to turn sporadic AC input into a constant, reliable power supply. These PowerVerters provide AC power to your equipment while utility power is available and charge an array of user-supplied DC batteries at the same time. When AC power is not available such as during blackouts APS PowerVerters quickly and automatically switch to providing connected equipment with frequency controlled AC power drawn from attached batteries.

TYPICAL APPLICATIONS: •Floating/Flying/Driving Power - Whether boating, flying or camping, connect an APS to a vehicle's battery to provide an uninterruptible power source for kitchen appliances, power tools or other electronic devices. •Blackout Protection - APS PowerVerter's automatic power switching provides instant AC power from battery when utility power fails. Connect emergency lights, flood pumps, coolers, heaters, cash registers or any other vital equipment.

Part No.	Input Voltage (DC)	Output Voltage (AC)	Output Frequency	Continuous Output Power	Peak Surge Output Power	No. of 15 Amp Outlets	Size (H x W x D)
APS1250	12 volts	120 volts	60Hz	1250 watts	2500 watts	2	7 x 8.25 x 9 "
APS2012	12 volts	120 volts	60 Hz	2000 watts	4000 watts	Hardwired	7.2 x 8.5 x 16.5"

AMBULANCE INVERTER/CHARGER

•Provide automatic, uninterruptible DC to AC power for critical equipment, plus battery recharging from shore power. With built in serious surge protection for sensitive EMS electronics
FEATURES: •Hospital grade GFCI outlets •Heavy duty AC surge protection •Hospital grade male plug •Over/under voltage protection •Remote on/off control •Remote battery level indicator •Remote inverter/shore power indicator •DC quick connection •3 stage charging •Heavy duty construction •Low battery shut down •Battery conservation load sensing •Intrinsic short circuit protection •Automatic transfer switch

Part No.	Input Voltage (DC)	Output Voltage (AC)	Output Frequency	Continuous Output Power	Peak Surge Output Power	No. of 15 Amp Outlets	Size (H x W x D)
EMS-1250UL	12 volts	120 volts	60Hz	1250 watts	2500 watts	2	7 x 8.75 x 9"

ACCESSORIES

Part No. APSRM-4, Remote control module - Includes remote module, face plate, 25ft. master override cord and 50 ft. remote control cord.

FLEX-A-PRENE
Welding Cable

Reel Size - 500 feet.
Temperature rating: -50 to + 90° C

Part No. EF-4, #4 600 volt neoprene 34 ga. Flex-A-Prene welding cable
Part No. EF-2, #2 600 volt neoprene 34 ga. Flex-A-Prene welding cable
Part No. EF-1, #1 600 volt neoprene 34 ga. Flex-A-Prene welding cable
Part No. EF-1/0, #1/0 600 volt neoprene 34 ga. Flex-A-Prene welding cable
Part No. EF-2/0, #2/0 600 volt neoprene 34 ga. Flex-A-Prene welding cable
Part No. EF-3/0, #3/0 600 volt neoprene 34 ga. Flex-A-Prene welding cable
Part No. EF-4/0, #4/0 600 volt neoprene 34 ga. Flex-A-Prene welding cable

TECHSPAN IND. INC.
Welding Cable

ta TECHSPAN AUTOMOTIVE

Reel Size - 25 feet.
Temperature rating: -40 to + 90° C

Neoprene Jacketed Welding Cable - Extra flexible multi-stranded copper conductor
•Resists oil and acids •Flame retardant
Part No. 76-9296RL, 2 gauge .496" o.d. 672 x .010" stranding.
Part No. 76-9295RL, 1 gauge .583" o.d. 840 x .010" stranding.
Part No. 76-9293RL, 1/0 gauge .640" o.d. 1083 x .010" stranding.
Part No. 76-9294RL, 2/0 gauge .700" o.d. 1274 x .010" stranding.

ARCTIC INDUSTRIAL
Booster Cables & Clamps

Copper-Core Cold Weather/Extra Flexible Welding Cable Leads - These cold weather booster cables are constructed with 1/0 cold weather neoprene rubber, 34 gauge cable that is super tough, super flexible, even at temperatures as low as -50°C. The core and jacket combine to offer superlative conductive capacity, strength and flexibility under the worst of working conditions.

Part No. XHDBC-12, 12 ft. set 800 amp heavy duty Arctic "Big Stud" booster cables
Part No. XHDBC-16, 16 ft. set 800 amp heavy duty Arctic "Big Stud" booster cables
Part No. XHDBC-20, 20 ft. set 800 amp heavy duty Arctic "Big Stud" booster cables
Part No. XHDBC-25, 25 ft. set 800 amp heavy duty Arctic "Big Stud" booster cables

TECHSPAN IND. INC.
Booster Clamps

ta TECHSPAN AUTOMOTIVE

74-9554PR

500 AMP EXTRA HEAVY DUTY CABLE CLAMPS
•Heavy gauge steel, nickel alloy plated •Complete with lugs, strain relief, bolts and nuts
•Clamps come with vinyl insulated hand grips •Sold as a pair
Part No. 76-9554PR.

800 AMP PROFESSIONAL QUALITY CABLE CLAMPS
•Super heavy duty, extra thick solid copper jaws ensure maximum conductivity •Heavy duty springs ensure a reliable connection •Epoxy coating prevents shock, resists heat and abrasion •Sold as a pair
Part No. 76-9555PR.

GROTE
Booster Cables & Clamps

BOOSTER CLAMPS
•Jaws grip battery posts, studs and side terminals •Insulated grips in both black and red •3 coil spring, over 50 lbs. of clamping pressure •Solid copper clamps •5/16" - 18 nut and bolt included.
Part No. 84-9280PR, Clamps, 400 amp., standard jaws - 1 red/1 black.
Part No. 84-9281PR, Clamps, 400 amp., parrot jaws - 1 red/1 black.
Part No. 84-9321EA, Clamps, 800 amp., parrot jaws - red.
Part No. 84-9322EA, Clamps, 800 amp., parrot jaws - black.

Grote The first name in vehicle safety systems

84-9280PR

84-9281PR

BOOSTER CABLES
•Cable construction of 100% fine stranded copper wire •Tangle-free design remains flexible even in cold weather •Heavy duty, zippered vinyl storage bag included
Part No. 84-9276EA, Cables, 4 ga. x 20 ft., 400 amp., standard jaws - 1 red/1 black pair.
Part No. 84-9277EA, Cables, 4 ga. x 20 ft., 400 amp., parrot jaws - 1 red/1 black pair.
Part No. 84-9278EA, Cables, 2 ga. x 18 ft., 400 amp., standard jaws - 1 red/1 black pair.
Part No. 84-9279EA, Cables, 4 ga. x 20 ft., 400 amp., plug in connector cables - 1 red/1 black.

Compact Jumper Cables

In times of emergency, TINY TIGER™ jumper cables can be used on: •Automobiles •Light Trucks •Buses •RVs •Boats •Motorcycles. It is compact and easy to handle. Advanced technology copper alloys and space-age cable insulation provide 80% more boosting power than many old style, bulky cables. The insulation is cold weather resistant down to -40° C •10 ft. set, blister packed
Part No. BC10-10.

In times of emergency, SUPER TIGER™ jumper cables can be used on: •Heavy Duty Trucks •Buses •RVs •Automobiles •Boats •Motorcycles. It is compact and easy to handle. Advanced technology copper alloys and space-age cable insulation provide 90% more boosting power than many old style, bulky cables. The insulation is cold weather resistant down to -40° C •10 ft. set, blister packed.
Part No. BC8-10.

Small enough to store in your glove compartment!

NGK Spark Plugs

NGK spark plugs are used by 82% of the world's car manufacturers as original equipment! Research proves that NGK spark plugs deliver quicker starts, less fouling, and more efficient fuel economy.

STANDARD & RESISTOR SPARK PLUGS

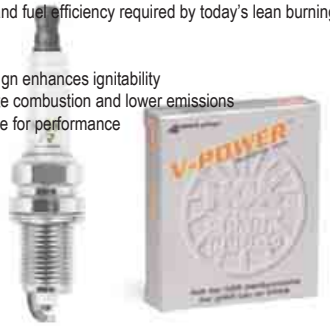
The workhorse, at the heart of smooth-running engines around the world. Available in standard or resistor.

- •OEM quality
- •Triple gasket sealing process
- •Consistent performance
- •Plug of choice in millions of vehicles

V-POWER™ SPARK PLUGS

Advanced V-groove centre electrode provides optimum performance and fuel efficiency required by today's lean burning engines.

- •OEM quality
- •V-groove design enhances ignitability
- •More complete combustion and lower emissions
- •Racer's choice for performance



IRIDIUM SPARK PLUGS

The next generation of spark plugs. NGK is a pioneer in Iridium Spark Plug design and manufacturing.

- •More durability and a higher melting point than platinum
- •Better centre electrode anti-oxidation and anti-erosion
- •Improved ignition
- •Superior anti-fouling
- •Lower required voltage
- •New metal shell plating process for better anti-corrsion

Please ask for further information on the NGK product line.

AC DELCO SPARK PLUGS

The AC Spark Plug Numbering System

AC SPARK PLUG IDENTIFICATION TABLE

PREFIX

B ..... Series Gap
C ..... Commercial
CS ..... Chain Saw
F ..... Fine Line 14 mm 5/8" hex
M ..... Marine
MC ..... Motorcycle types (are now S)
LM ..... Lawn mower type
R ..... Resistor
S ..... Shielded (5/8-24 thread)
S ..... Sport Vehicle
SN ..... Snow Types (are now S)
TC ..... Tractor-Commercial (now C types)
V ..... Surface Gap

Prefix letters are sometimes combined — e.g. VB, CR.

SUFFIX

A ..... Clip Gap
C ..... Colder Version of M44 Plug
E ..... Special Design Electrode, Extended Tip
F ..... 1/2" (12.7 mm) reach
FF ..... 1/2" (12.7 mm) reach, fully threaded
G ..... Pin Gap (Cold Running)
J ..... Boot Release Agent, Anti-Seize Compound
K ..... Special Design
L ..... 7/16" (11.1 mm) reach
LT ..... Long reach, .715" (18.16 mm), Tapered Seat
M ..... Special Design Electrode
S ..... Extended Tip
S ..... 7/8" (22.3 mm) Moderate Long reach 23/32" (18.25 mm)
T ..... Tapered Seat Shell Design
TS ..... Tapered seat with extended tip
X ..... Wide Gap (H.E.I.)
XL ..... Extra Long reach, 3/4" (19 mm) fully threaded
Z ..... Special gap (usually denotes wide gap)
Z ..... European applications
6 ..... 0.060" (1.5 mm) gap
8 ..... 0.080" (2 mm) gap

600 ..... Resistor Type
900 ..... Platinum Type

Suffix letters are combined to form such AC suffix designations as: XLS, TS, FFM, TSX, SZ, etc.

NUMBERING

1st number denotes THREAD SIZE:

4 = 14 mm 2 = 1/2" taper
8 = 18 mm 5 = 1/2"
10 = 10 mm 6 = 3/4"
12 = 12 mm 7 = 7/8"

2nd number denotes HEAT RANGE

0-1-2-3-4-5-6-7-8-9
COLD----------HOT

The higher the second digit, the "hotter" the plug; the lower the last digit, the "cooler" the plug (except Z types). (The numbering of Z type plugs is opposite to that for other types and the heat rating is indicated by the last two digits: the higher the number, the cooler the plug.)

Prefix and suffix letters are used to identify a specific type of AC Spark Plug — the numbers relate to thread size and heat range. For example, the R43TS spark plug shown is:

R = Resistor
4 = 14 mm Thread
3 = Heat Range
T = Taper Seat
S = Extended Tip

ACDelco Spark Plugs
•For all vehicle makes •Original Equipment on GM vehicles •Solid, consistent performance •Designed for overall everyday reliability •Monolithic glass-seal design prevents harmful compression leakage

ACDelco RAPIDFIRE®
•For everyday vehicles •Up to 18% quicker throttle response •Up to 27% smoother idle •Up to 17% greater corrosion protection •Up to 2% greater fuel economy •Fast, consistent starts in all weather

ACDelco Dual-Life Platinum Spark Plugs
•Long life, high efficiency performance spark plug •Proven to last for 160,000 km •Maximum efficiency and engine performance •Makes vehicle care more maintenance free

ACDelco Glow Plugs
•Maintain ignition in all cylinders, improving throttle response and reducing exhaust emissions •Seal the combustion chamber to withstand combustion pressure as well as vibration and cycling forces of the engine •Speed the heat-up time to approximately 800°C •Help regulate the glow-plug-tip temperature with special resistive material •Provide faster engine start-up and eliminate plug overheating and failure

ACDelco Nonautomotive Spark Plugs
•Allow electric pulses of up to 25,000 volts to pass through them •Spark more than 80 times per second, with some engine speeds approaching 10, 000 rpm •Seal the combustion chamber and withstand combustion pressure along with engine vibration and cycling forces •Are specially designed to perform under many unconventional, nonautomotive conditions

PHILIPS / SYLVANIA / GE / WAGNER

Halogen Bulbs - Carded

All bulbs are blister packaged 1 bulb per card.
Suffixes:
LL = Longer Life - Lasts 100% longer. Rated average life 850 hours.

WV = Weather Vision - Ideal for driving in rain, sleet, snow, fog and at night. A special coating on the bulb gives you good visibility in all kinds of weather.

XV = Xtra Vision - 20 to 30% more light. Xtra Vision have filaments in a unique position to optimize light on the road.

ST = SilverStar - Whitest, Brightest, Sharpest - SilverStar's colour temperature is a white hot 4000°K, far higher than other halogens. Shines with a luminance up to 20% greater than other halogens.

NH = Nighthawk - Conquer the darkness, and drive with the confidence that you upgraded to the leader in headlamp technology. GE Nighthawk provides the user the most cost effective solution in achieving the most light on the road without either changing your technology platform or compromising the integrity of your system by not meeting DOT or SAE specifications. In measurable terms, Nighthawk provides 30% more light than a standard halogen headlamp and where you need it most.

Model 220
Single Includes:
•(1) 220 Lamp
•(1) Bulb, H3 12V 55W
•(1) Stone Shield

All Models - mount upright or pendant

Model 450
Single Includes:
•(1) 450 Lamp
•(1) Bulb, H3 12V 55W
•(1) Stone Shield
Kit Includes:
•(2) 450 Lamps
•(2) Bulbs, H3 12V 55W
•(2) Stone Shields
•(1) Wiring Harness with switch and relay.
Complete mounting hardware.

Model 530
Kit Includes:
•(2) 530 Lamps
•(2) Bulbs, H3 12V 55W
•(1) Wiring Harness with switch and relay.
Complete mounting hardware.

Model 550
Single Includes:
•(1) 550 Lamp
•(1) Bulb, H3 12V 55W
Kit Includes:
•(2) 550 Lamps
•(2) Bulbs, H3 12V 55W
•(1) Wiring Harness with switch and relay.
Complete mounting hardware.

Work Lamps

Model AS115FF halogen work lamp. This lamp features the double FF reflector made of high-gloss vapour plated die cast aluminum mounted in a shock-proof black molded housing and glass lens. Lamp comes prewired and is able to mount on horizontal or vertical surfaces. 6¼" x 6-5/32" rectangular.

HELLA®

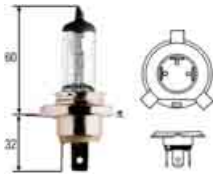
Interior Lamps

Part No. H26192031, Black interior lamp with adjustable shutter. Light is switched on/off mechanically when shutter angle is 45°. Optically designed clear lens. Surface wall mounting. 24V, 10 watt bulb included.

Part No. H83205011, Replacement bulb for interior lamp H26192031.

Special Application Lamps & Accessories

HIGH WATTAGE HALOGEN BULB
H4, 12V, high wattage bulb 100/80 watt.
Part No. H83140171.



ILLUMINATED PUSH-PULL SWITCH
Comes complete with red, orange, and green lenses.
Part No. 004778001.

PILOT INDICATOR LIGHTS
Part No. H22982001, Red.
Part No. H22984001, Amber.
Part No. H22985001, Green.

UNDER DASH MOUNTING PANEL
1 hole or 2 hole.
Part No. H84980011, 1 hole.
Part No. H84980021, 2 hole.

EUROPA HAZARD WARNING LAMP
10,000 ft. range.
Part No. 007146001.

SAFETY STROBES

Highway Safety Strobes

•Two modes: flashing/steady on •LED Lights 6-1/2" x 3-3/4" •Magnetic back •Fold out stand •Lasts longer than flares •Can be seen up to 2,500 feet away •Uses four AA batteries (not included).
Part No. SH501, Red .
Part No. SH501Y, Yellow.

Part No. 94862, Single plug assembly w/.180 bullet and #6 ground terminal.
Part No. 94888, Single plug w/.156 bullet and #6 ground terminal.

MODEL 33® LED MINI-MARKER LAMP
Part No. 33050R, Red, Grommet mount kit.
Part No. 33051R, Red, Flange mount kit.
Part No. 33250R, Red, Lamp only.
Part No. 33050Y, Amber, Grommet mount kit.
Part No. 33051Y, Amber, Flange mount kit.
Part No. 33250Y, Amber, Lamp only.
Part No. 33740R, Red, 3 lamp ID assembly 56".
Part No. 33700, Grommet.
Part No. 33800, Flange.
Part No. 33710, White polycarbonate plastic branch deflector.
Part No. 33711, Grey ABS plastic surface mounted deflector.

NEW!!

Truck-Lite Model 33® LED Mini Marker Lamp Lighting Features: •Worlds smallest LED marker lamp for the transportation industry •Exceeds P2 legal requirements •Not recommended for PC applications •Hardwired lamp design is easily retrofitted •LEDs draw less current, allowing more power for other vehicle requirements •Electronics are completely sealed in epoxy to resist corrosion and moisture •Offers trailer engineers and design manufactures new trailer and rear door structure design flexibility •Reduces lighting costs due to physical damage and heat entrapment

FULL PATTERN LIGHT OUTPUT LEDs
Truck-Lite LED Lighting with a full pattern light output design. Equipped with standard termination and a full, multiple diode light pattern. LED lamps are easy to retrofit outdated incandescent applications.

4" ROUND, STOP, TURN, & TAIL LAMPS
Part No. 4050, Red, 24 diode pattern.
Part No. 4050A, Yellow, 24 diode pattern.

6" OVAL, STOP, TURN, & TAIL LAMPS
Part No. 6050, Red, 24 diode pattern.
Part No. 6050A, Yellow, 24 diode pattern.

2" ROUND, CLEARANCE & MARKER LAMPS
Part No. 3050, Red, 10 diode pattern.
Part No. 3050A, Yellow, 10 diode pattern.

Replacement Lenses

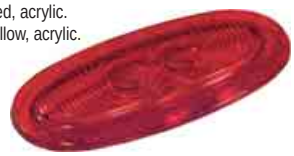
MODEL 80, 4" ROUND LENS
Part No. 99007R, Red, acrylic.
Part No. 99007Y, Yellow, acrylic.
Part No. 99007C, Clear, acrylic.

MODEL 80, 4" BACK-UP LENS
Part No. 99008C, Clear, polycarbonate.
Part No. 99008R, Red, polycarbonate.
Part No. 99008Y, Yellow, polycarbonate.

MODEL 26, BEEHIVE LENS
Part No. 99039R, Red, acrylic.
Part No. 99039Y, Yellow, acrylic.
Part No. 99039C, Clear, acrylic.
Part No. 99039B, Blue, acrylic.
Part No. 99039G, Green, acrylic.

3½" OBLONG LENS
Part No. 99041R, Red, acrylic.
Part No. 99041Y, Yellow, acrylic.

OBLONG LENS FOR BETTS
Part No. 99043R, Red, acrylic.
Part No. 99043Y, Yellow, acrylic.



3" ROUND LENS FOR BETTS
Part No. 99044R, Red, acrylic.
Part No. 99044Y, Yellow, acrylic.

MODEL 26, OBLONG LENS
Part No. 8933, Red, acrylic.
Part No. 8933A, Yellow, acrylic.

MODEL 26, OBLONG LENS
Part No. 9057, Red, acrylic.
Part No. 9057A, Yellow, acrylic.

MODEL 26, OBLONG LENS
Part No. 99050R, Red, polycarbonate.
Part No. 99050Y, Yellow, polycarbonate.

MODEL 26, OBLONG LENS
Part No. 99051R, Red, acrylic.
Part No. 99051Y, Yellow, acrylic.

MODEL 26, DOUBLE BULLS-EYE
Part No. 9007, Red, acrylic.
Part No. 9007A, Yellow, acrylic.
Part No. 9007B, Blue, polycarbonate.
Part No. 9007G, Green, polycarbonate.

MODEL 26, OBLONG M/C LENS
Part No. 9093, Red, acrylic.
Part No. 9093A, Yellow, acrylic.
Part No. 9093B, Blue, polycarbonate.
Part No. 9093G, Green, polycarbonate.

MODEL 26, CAB MARKER LENS
Part No. 99063R, Red, polycarbonate.
Part No. 99063Y, Yellow, polycarbonate.

MODEL 26, CAB MARKER LENS
Part No. 99066Y, Yellow, acrylic.

MODEL 26, CAB MARKER LENS
Part No. 99067R, Red, acrylic.
Part No. 99067Y, Yellow, acrylic.

MODEL 80, MULTI-FUNCTION LENS
Part No. 9071, Red, acrylic.

MODEL 80, MULTI-FUNCTION LENS
Part No. 9051, Red, acrylic.

MODEL 80, 5" DOME LENS
Part No. 99080C, Clear, polycarbonate.
Part No. 99082C, Clear w/ switch hole, polycarbonate.
Part No. 99082R, Red w/ switch hole, polycarbonate.

7" LENS
Part No. 99088C, Clear, acrylic.
Part No. 99088R, Red, acrylic.
Part No. 99088Y, Yellow, acrylic.

MODEL 70, 4" TAIL LENS
Part No. 99090R, Red, polycarbonate.
Part No. 99090Y, Yellow, polycarbonate.

MODEL 80, BACK-UP LENS
Part No. 99095C, Clear, acrylic.

TAIL LENS FOR BETTS 71 DEEP, 4"
Part No. 99101R, Red w/o license plate window, acrylic.

MODEL 26, ARMORED M/C LENS
Part No. 99111R, Red, acrylic.
Part No. 99111Y, Yellow, acrylic.

MODEL 81, TURN SIGNAL LENS
Part No. 9079, Red, acrylic, c/w gasket.
Part No. 9079A, Yellow, acrylic, c/w gasket.

MODEL 92, BEACON LENS
Part No. 99143Y, Yellow, polycarbonate.

MODEL 80, M/F LENS
Part No. 9049, Red, acrylic.

MODEL 26, C/M LENS
Part No. 9082, Red, polycarbonate.
Part No. 9082A, Yellow, polycarbonate.

BUS LENS, 7"
Part No. 99168R, Red, acrylic.
Part No. 99168Y, Yellow, acrylic.

Mounting Accessories

GROMMET MOUNT KIT FOR 2½" LAMPS
Part No. 10401, Grommet mount kit, open back.
Part No. 10402, Grommet mount kit, closed back.
Part No. 10700, Wide groove grommet only, open back.
Part No. 10702, Wide groove grommet only, closed back.

3" GROMMET MOUNT KIT FOR 2½" LAMPS
Part No. 10404, Grommet mount kit.
Part No. 10704, 3" grommet mount only, black.

CAM-ON MOUNT KIT FOR 2" & 2½" LAMPS
Part No. 10410, Cam-on mount kit.

SURFACE GROMMET MOUNT KIT FOR 2½" LAMPS
Part No. 10412, Surface grommet mount kit, open back.
Part No. 10722, Surface mount only.

BRANCH DEFLECTOR MOUNT KIT FOR 2½" LAMPS
Part No. 10414, Branch deflector mount kit, grey.
Part No. 10725, Branch deflector mount only, grey.

"L" MOUNTING BRACKET FOR 2½" LAMPS
Part No. 10729, "L" bracket w/2 25/32" hole.
Part No. 10730, "L" bracket w/3" hole.

GROMMET MOUNT KITS FOR 2" LAMPS
Part No. 30401, Grommet mount kit, open back.
Part No. 30402, Grommet mount kit, closed back.
Part No. 30700, Grommet mount only, open back, black.
Part No. 30702, Grommet mount only, closed back w/ .75 exit hole dia., black.

SOCKETS & PLUGS
Part No. 94902, Marker clearance plug.
Part No. 94993, Right angle stop/turn/tail plug.
Part No. 94992, Right angle stop/turn plug.

Please ask for further information on the extensive line of Truck-Lite products, including accessories.

STAINLESS STEEL GROMMET COVER
Part No. 10740, Grommet cover, 2½" (dia. = 3.395).
Part No. 30713, Grommet cover, 2" (dia. = 2.895).

BRANCH DEFLECTOR MOUNT KIT FOR 2" LAMPS
Part No. 30404, Branch deflector mount kit, grey.
Part No. 30721, Branch deflector mount only, grey.

"L" MOUNTING BRACKET FOR 2" LAMPS
Part No. 30728, "L" mounting bracket.

GROMMET MOUNT FOR MODEL 15 LAMPS
Part No. 15702, Grommet only.

ADAPTER MOUNT KIT FOR MODEL 15 LAMPS
Part No. 15404, Adapter mount kit, grey.

BRANCH DEFLECTOR MOUNT KIT FOR MODEL 15 LAMPS
Part No. 15401, Branch deflector mount kit.

BASE MOUNTS FOR MODEL 19 LAMPS
Part No. 19720, Grey base only.

CHROME LAMP GUARD FOR MODEL 26 LAMPS
Part No. 9179, Lamp guard.

GROMMET MOUNT FOR 4" LAMPS
Part No. 40700, Grommet mount only, black.

STAINLESS STEEL GROMMET COVER FOR 4" LAMPS
Part No. 44701, Grommet cover.

STEEL MOUNTING BRACKET
Part No. 40720, Mounting bracket w/ flange.

METAL MODULE BOX FOR 4" LAMPS
Part No. 40725, Metal module box.

45 SERIES & LLV 45 GROMMETS
Part No. 45700, Super 45 grommet.

GROMMET MOUNT KIT FOR OVAL LAMPS
Part No. 60700, Grommet only.

STAINLESS STEEL GROMMET COVER
Part No. 60703, Grommet cover.

MOUNTING BRACKET FOR OVAL LAMPS
Part No. 60720, Mounting bracket.

Warning & Emergency Lighting

ROTATION BEACON MINI-BAR
Part No. 92524Y, Yellow, mini bar w/ 2 halogen rotators.

HIGH PROFILE ELECTRONIC STROBE
Part No. 92500Y, Yellow, 12 volt, 1.8 amp, 8 joules/flash.
Part No. 92506Y, Yellow, 12/24 volt, double flash, 2.0 amp.
Part No. 92513Y, Yellow, 12/24 volt, quad flash, 2.0 amp.

LOW PROFILE ELECTRONIC STROBE
Part No. 92530Y, Yellow, 12 volt, 0.5 amp, 3.0 joules/flash.
Part No. 92531Y, Yellow, w/ magnetic base, 12 volt, 3.0 joules/flash.

TEAR DROP ROTATING BEACON
Part No. 92602R, Red, w/ magnetic base, 12 volt, 3 amp.

Please ask for further information on the extensive line of Truck-Lite products, including accessories.

Warning & Emergency Lighting

STANDARD REVOLVING BEACON, 6"
Part No. 92603Y, Yellow, 12 volt, 2 amp.

STANDARD REVOLVING BEACON, 8"
Part No. 92600Y, Yellow, 12 volt, 6 amp.

Fog, Driving & Work Lighting

UNIVERSAL SNOW PLOW LIGHT / ATL LIGHT KIT
Part No. 80800, Universal snow plow light / ATL kit.
Part No. 80810, ATL lamp assembly, LH.
Part No. 80820, ATL lamp assembly, RH.

HEAVY DUTY RECTANGULAR AUXILIARY LAMPS
Part No. 80510, Driving lamp kit, black housing.
Part No. 80511, Clear fog lamp kit, black housing.
Part No. 80512, Amber fog lamp kit, black housing.
Part No. 80515, Driving lamp kit, chrome housing.
Part No. 80516, Clear fog lamp kit, chrome housing.
Part No. 80517, Amber fog lamp kit, chrome housing.

RECTANGULAR AUXILIARY LAMPS
Part No. 80520, Driving lamp kit.
Part No. 80521, Clear fog lamp kit.
Part No. 80522, Amber fog lamp kit.

COMPACT, RECTANGULAR AUXILIARY LAMPS
Part No. 80525, Driving lamp kit.
Part No. 80526, Clear fog lamp kit.
Part No. 80527, Amber fog lamp kit.

RUBBER HOUSED MULTI-PURPOSE LAMP, 4½"
Part No. 80360, Clear, No. 4411-1 S.B., 3000 cp.
Part No. 95910, Mounting hardware.

RECTANGULAR RUBBER HOUSED MULTI-PURPOSE LAMP - UNIVERSAL MOUNT
Part No. 80394, Clear, trapezoid lamp - #H9411.
Part No. 80395, Clear, medium flood lamp - #H9414.
Part No. 80396, Clear, wide flood lamp - #H9406.
Part No. 80397, Clear, spot lamp - #H9405.
Part No. 95910, Mounting hardware.

81 SERIES LED WORK LAMP
•Rugged all purpose work lamp •Trapezoidal floodlight pattern •More even lighting than comparable incandescant work lamps •6 light emitting diodes •Operates at full brightness between 8.5v and 16v •Overvoltage protection @17v-18v •Durable black powder coated housing •Includes stainless steel mounting hardware •Mounts on one 5/16" -18 stud
Part No. 81360.

NEW!!

DAYTIME RUNNING LAMP MODULE
Part No. 97300, DRL control module.

Reflectors

3" REFLECTOR W/ ACRYLIC LENS & ABS HOUSING
Part No. 98004R, Red.
Part No. 98004Y, Yellow.

3" REFLECTOR W/ ACRYLIC LENS/HOUSING
Part No. 98006R, Red, mounted through centre hole.
Part No. 98006Y, Yellow, mounted through centre hole.
Part No. 98006C, Clear, mounted through centre hole.

3-3/16" REFLECTOR W/ ACRYLIC LENS/HOUSING
Part No. 47, Red - adhesive.
Part No. 47A, Yellow - adhesive.

2" REFLECTOR W/ ACRYLIC LENS/HOUSING
Part No. 52, Red, mounted through centre hole.
Part No. 52A, Yellow, mounted through centre hole.

2-3/16" REFLECTOR W/ ACRYLIC LENS/HOUSING
Part No. 45, Red - adhesive.
Part No. 45A, Yellow - adhesive.

3" ALUMINUM HOUSING REFLECTOR
Part No. 41, Red.
Part No. 41A, Yellow.

RECTANGULAR REFLECTOR W/ ADHESIVE BACKING
Part No. 98001R, Red, acrylic.
Part No. 98001Y, Yellow, acrylic.
Part No. 98002R, Red, polycarbonate.
Part No. 98002Y, Yellow, polycarbonate.

OBLONG REFLECTOR W/ ACRYLIC LENS/HOUSING
Part No. 98031R, Red, screw mount.
Part No. 98031Y, Yellow, screw mount.
Part No. 54, Red, adhesive backing.
Part No. 54A, Yellow, adhesive backing.

HEXAGON STYLE REFLECTOR W/ ACRYLIC LENS & ADHESIVE BACKING
Part No. 98033R, Red.
Part No. 98033Y, Yellow.
Part No. 98034R, Red, chrome trimmed border.
Part No. 98034Y, Yellow, chrome trimmed border.

RECTANGULAR STYLE REFLECTOR W/ ACRYLIC LENS/HOUSING - COMPACT DESIGN
Part No. 98035R, Red.
Part No. 98035Y, Yellow.

RECTANGULAR STYLE REFLECTOR W/ ACRYLIC LENS & ADHESIVE BACKING - COMPACT DESIGN
Part No. 98003R, Red.
Part No. 98003Y, Yellow.

Please ask for further information on the extensive line of Truck-Lite products, including accessories.

Junction Boxes & Harnesses

SURFACE MOUNT JUNCTION BOX KIT

Surface mount. Contains #50800 junction box, #50816 junction box cap, #50820 terminal block, four #50830 filler plugs and mounting and assembly screws. High impact chemical resistant plastic.
Part No. 50400, Junction box, surface mount.

COMPRESSION FITTINGS

A 3-part fitting consisting of a pre-tapped cap, a threaded base and a black PVC grommet that is available with 6 different hole sizes to accommodate various conductor cables.
Part No. 50840, 3/8" I.D., for 2 conductor cable.
Part No. 50841, 1/2" I.D., for 4 and 5 conductor cable.
Part No. 50842, 3/4" I.D., for 6 and 7 conductor cable.
Part No. 50843, 5 hole, for single conductor wire.
Part No. 50846, For 3 conductor flat cable.
Part No. 50847, For 4 conductor flat cable.

STOP/TURN/TAIL HARNESS

14 gauge wire. 5 conductor, round cable.
Part No. 50200, R.H. stop/turn/tail harness, 72" length.
Part No. 50201, L.H. stop/turn/tail harness, 72" length.
Part No. 50202, R.H. stop/turn/tail harness, 156" length.
Part No. 50203, L.H. stop/turn/tail harness, 156" length.

Please Note: Many other harness configurations are available, please ask for more information.

Accessories

ELECTRICAL CONNECTION BRUSH KIT

Part No. 97025, Electrical connection brush kit.

NYK-77 COMPOUND

Corrosion preventative compound for electrical contacts, switches and junction boxes.
Part No. 97940, 8 oz. can.
Part No. 97944, 2 oz. tube.
Part No. 97943, 1 quart can.
Part No. 97948, 14 oz. cartridge.

DOCUMENT HOLDER

Grey base is made of chemical resistant high-impact ABS plastic. Cover is smoked polycarbonate and includes a permanently adhered gasket.
Part No. 97960, Document holder, complete.
Part No. 97962, Replacement cover.

Part No. 920013EA, Double contact for shallow lens (108LS).
Part No. 920103EA, Double contact for deep lens (48LS).

SEALED MARKER LAMP PIGTAILS
•6" long •Fits U.S. 10, 15, 30 series lamps, 4711 and 4712 series LEDs
Part No. 67050EA, Ring terminal ground w/ blunt cut wire.

3-WIRE PLUG-IN PIGTAILS
•Dual function •11½" long
Part No. 67000EA, 3-wire plug-in pigtail.

3-WIRE 90° PLUG-IN PIGTAILS
•Dual function •18" long
Part No. 66843EA, Ring terminal with blunt cut wires.

ELECTRICAL SEALANT
Part No. 99580EA, 1.25 oz. tube.

ULTRA-SEAL CORROSION PREVENTIVE SEALANT
•Prevents rust and corrosion
•Good mechanical stability
•Added tackifiers improve adhesion and resistance to washout
•Operating range -40° to 150°C
Part No. 99170EA, 4 oz. tube.
Part No. 99170-1PK, Display box of 12 x 99170.
Part No. 99180EA, 8 oz. tub with applicator.

REPLACEMENT LAMP SOCKET PIGTAILS
Part No. 68110EA, 9½" long, double contact.
Part No. 68130EA, 7½" long, double contact.
Part No. 68150EA, 6½" long, double contact.
Part No. 68080EA, 9½" long, single contact.
Part No. 68100EA, 9½" long, single contact.
Part No. 68170EA, 9½" long, single contact.

METRI-PACK™ PLUG-IN SEALED PIGTAIL
•Fits either 4 or 5 wire applications •20" long •Fits 5370, 5371, 5372, and 5376 series lamps
Part No. 68680EA.

PLUG CHECKER FOR 7 WAY PLUGS
Plug checker (TC2). Simply plug checker into 7 way cable and bring into cab.
Part No. 920273EA.

MINI STICK-ON RECTANGULAR REFLECTOR
Part No. 40132EA, Red, acrylic.
Part No. 40133EA, Yellow, acrylic.

OVAL REFLECTOR
Part No. 41042EA, Red, acrylic, screw mountable.
Part No. 41043EA, Yellow, acrylic, screw mountable.
Part No. 41032EA, Red, acrylic, stick-on/screw mountable.
Part No. 41033EA, Yellow, acrylic, stick-on/screw mountable.

TARGET TECH
A Unit Of Federal Signal Corporation

Strobe Beacons, Halogen Beacons

Choose from a wide variety of strobe and halogen beacons. Replacement parts are available. Also available in magnetic mount.

Mini Lightbars

Effective strobe warning delivered in a compact, economical size. Quality mini lightbars designed for performance. Available in revolving or strobe form.

Lightbars

JetStream™, JetStrobe™, Vista™, Turbo Beam® Plus, AeroDynic®, EconoMaster™. A variety of configurations and replacement parts too.

TARGET TECH
A Unit Of Federal Signal Corporation

Remote Strobes, Directional Heads, Mounts, Complete Systems, Tractor/Utility Lamps & VisiBeam® II / Littlite®

Directional Lights

Rugged and effective for increased safety. Complete SignalMaster™ systems.

Switches & Miscellaneous Products

Switches for lighting systems, AudioMaster™ Two-Way Intercoms, and grille lights.

FIREBOLT® STROBES

•No flash tube or power supply available for this series
•Dimensions: 3.6" H x 5.0" Dia.

Part No. 220100-02, Firebolt, 12 - 72 VDC, amber.
Part No. 220100-03, Firebolt, 12 - 72 VDC, blue.
Part No. 220100-04, Firebolt, 12 - 72 VDC, red.
Part No. 220100-05, Firebolt, 12 - 72 VDC, clear.
Part No. 220100-06, Firebolt, 12 - 72 VDC, green.

Part No. 210873-02, Firebolt, 12 - 72 VDC, with magnetic mount, amber.
Part No. 210873-03, Firebolt, 12 - 72 VDC, with magnetic mount, blue.
Part No. 210873-04, Firebolt, 12 - 72 VDC, with magnetic mount, red.
Part No. 210873-05, Firebolt, 12 - 72 VDC, with magnetic mount, clear.
Part No. 210873-06, Firebolt, 12 - 72 VDC, with magnetic mount, green.

Part No. 212356-02, Firebolt, 115 VAC, amber.
Part No. 212356-03, Firebolt, 115 VAC, blue.
Part No. 212356-04, Firebolt, 115 VAC, red.
Part No. 212356-05, Firebolt, 115 VAC, clear.
Part No. 212356-06, Firebolt, 115 VAC, green.

FIREBOLT® PLUS STROBE

•The Firebolt strobe works in multiple voltages 12 - 72 VDC •Features a replaceable strobe tube as well as a modular power supply •Dimensions: 3.6" H x 5.0" Dia.

Part No. 220200-02, Firebolt Plus, amber.
Part No. 220200-03, Firebolt Plus, blue.
Part No. 220200-04, Firebolt Plus, red.
Part No. 220200-05, Firebolt Plus, clear.
Part No. 220200-06, Firebolt Plus, green.

Part No. 220208-02, Firebolt Plus, with magnetic mount, amber.
Part No. 220208-03, Firebolt Plus, with magnetic mount, blue.
Part No. 220208-04, Firebolt Plus, with magnetic mount, red.
Part No. 220208-05, Firebolt Plus, with magnetic mount, clear.
Part No. 220208-06, Firebolt Plus, with magnetic mount, green.

REPLACEMENT PARTS FOR FIREBOLT STROBES

Part No. 211550-95, 12 - 72 VDC power supply for Firebolt Plus series only.

Part No. 211300-95, Flash tube for Firebolt Plus series only.

Part No. 211360-95, 12 - 72 VDC power supply/ flash tube for Firebolt Plus series only.

Part No. 205580-95, Amber dome.
Part No. 205581-95, Red dome.
Part No. 205582-95, Clear dome.
Part No. 205583-95, Green dome.
Part No. 205584-95, Blue dome.
Part No. 200523-95, Dome gasket.
Part No. 200290-95, Replacement cigarette plug.

LED PULSATOR® BEACON

•An industry first — a polycarbonate base Class I LED beacon (Class II version available) •LEDNode technology for zero maintenance lighting; no bulbs or strobe tubes to replace •Flash competely fills the dome; no dark spots or shadows •Ten selectable "strobing" flash patterns •Power Select feature; easily switch flash patterns by powering on/off •Synchronize or alternately flash with multiple LED Pulsator units or a variety of other LED light heads (Class I version) •Multi-voltage, 12 - 24 VDC; maximum of 0.80 amps, 0.35 amps average •Available in permanent mount

Part No. 212660-02, Class I.
Part No. 212650-02, Class II.
Part No. Z-8444374-03, Amber strobe lens.

PULSATOR® 451 (LOW PROFILE) & PULSATOR® 551 (HIGH PROFILE) STROBES

•The Pulsator strobe is a multi-voltage 12 - 48 VDC beacon ideal for applications that require water resistant performance and easy maintenance •Heavy duty versions feature a helical strobe tube and a power supply encased in gel for superior performance in high vibration environments
•Pulsator® 451 dimensions: 4.0" H x 6.5" Dia.
•Pulsator® 551 dimensions: 6.0"H x 6.5" Dia.

Part No. 211680-02, Pulsator 451, double flash, amber.
Part No. 211680-03, Pulsator 451, double flash, blue.
Part No. 211680-04, Pulsator 451, double flash, red.
Part No. 211680-05, Pulsator 451, double flash, clear.
Part No. 211680-06, Pulsator 451, double flash, green.

Part No. 211823-02, Pulsator 451, double flash, heavy duty, amber.
Part No. 211823-03, Pulsator 451, double flash, heavy duty, blue.
Part No. 211823-04, Pulsator 451, double flash, heavy duty, red.
Part No. 211823-05, Pulsator 451, double flash, heavy duty, clear.
Part No. 211823-06, Pulsator 451, double flash, heavy duty, green.

Part No. 211681-02, Pulsator 551, double flash, amber.
Part No. 211681-03, Pulsator 551, double flash, blue.
Part No. 211681-04, Pulsator 551, double flash, red.
Part No. 211681-05, Pulsator 551, double flash, clear.
Part No. 211681-06, Pulsator 551, double flash, green.

Part No. 211820-02, Pulsator 551, double flash, heavy duty, amber.
Part No. 211820-03, Pulsator 551, double flash, heavy duty, blue.
Part No. 211820-04, Pulsator 551, double flash, heavy duty, red.
Part No. 211820-05, Pulsator 551, double flash, heavy duty, clear.
Part No. 211820-06, Pulsator 551, double flash, heavy duty, green.

REPLACEMENT PARTS FOR PULSATOR STROBES

Part No. 439411-95, Flash tube for 451 series.
Part No. 439290-95, Flash tube for 551 series.

Part No. 208567-95, Amber dome, for 451 series.
Part No. 208566-95, Blue dome, for 451 series.
Part No. 208568-95, Red dome, for 451 series.
Part No. 208569-95, Clear dome, for 451 series.
Part No. 208564-95, Green dome, for 451 series.

Part No. 208667-95, Amber dome, for 551 series.
Part No. 208666-95, Blue dome, for 551 series.
Part No. 208668-95, Red dome, for 551 series.
Part No. 208669-95, Clear dome, for 551 series.
Part No. 208664-95, Green dome, for 551 series.

Part No. 210387, Wiring kit, one strobe.
Part No. 210376, Wiring kit, two strobes.

MODEL 401 (LOW PROFILE) STROBES

•The model 401 strobe works in multiple voltages 12 - 48 VDC •Features corrosion resistant, vibration dampening rubber base to absorb harsh shocks •Dimensions: 5.7" H x 5.9" Dia.

Part No. 220300-02, Model 401, single flash, amber.
Part No. 220300-03, Model 401, single flash, blue.
Part No. 220300-04, Model 401, single flash, red.
Part No. 220300-05, Model 401, single flash, clear.
Part No. 220300-06, Model 401, single flash, green.

Part No. 220308-02, Model 401, single flash with magnetic mount kit, amber.
Part No. 220308-03, Model 401, single flash with magnetic mount kit, blue.
Part No. 220308-04, Model 401, single flash with magnetic mount kit, red.
Part No. 220308-05, Model 401, single flash with magnetic mount kit, clear.
Part No. 220308-06, Model 401, single flash with magnetic mount kit, green.

REPLACEMENT PARTS FOR MODEL 401 STROBES

Part No. 211141-95, Flash tube.
Part No. 210387, Wiring kit, one strobe.
Part No. 210376, Wiring kit, two strobes.
Part No. 200290-95, Replacement cigarette plug.

TARGET TECH®
A Unit Of Federal Signal Corporation

MODEL 851 PLUS STROBES

•The model 851 strobe works in multiple voltages 12 - 48 VDC •Features corrosion resistant anodized aluminum open base
•Dimensions: 7.5" H x 6.6" Dia.

Part No. 420400-02, Model 851, double flash, amber.
Part No. 420400-03, Model 851, double flash, blue.
Part No. 420400-04, Model 851, double flash, red.
Part No. 420400-05, Model 851, double flash, clear.
Part No. 420400-06, Model 851, double flash, green.

Part No. 211946-02, Model 851, quad flash, amber.
Part No. 211946-03, Model 851, quad flash, blue.
Part No. 211946-04, Model 851, quad flash, red.
Part No. 211946-05, Model 851, quad flash, clear.
Part No. 211946-06, Model 851, quad flash, green.

REPLACEMENT PARTS FOR MODEL 851 STROBES

Part No. Z2005265A, 12 - 48 VDC power supply, double flash.
Part No. 211400-95, Flash tube.
Part No. 200775-95, Amber dome.
Part No. 200771-95, Blue dome.
Part No. 200773-95, Red dome.
Part No. 200772-95, Clear dome.
Part No. 200774-95, Green dome.

MODEL 901 (LOW PROFILE) & MODEL 951 (HIGH PROFILE) STROBES

•Multi-voltage 12 - 48 VDC strobe •Features corrosion resistant anodized aluminum open base
•Model 901 dimensions: 5.5" H x 6.6" Dia.
•Model 951 dimensions: 8.2"H x 6.6" Dia.

Part No. 211740-02, Model 901, double flash, amber.
Part No. 211740-03, Model 901, double flash, blue.
Part No. 211740-04, Model 901, double flash, red.
Part No. 211740-05, Model 901, double flash, clear.
Part No. 211740-06, Model 901, double flash, green.

Part No. 211742-02, Model 951, double flash, amber.
Part No. 211742-03, Model 951, double flash, blue.
Part No. 211742-04, Model 951, double flash, red.
Part No. 211742-05, Model 951, double flash, clear.
Part No. 211742-06, Model 951, double flash, green.

REPLACEMENT PARTS FOR MODELS 901 & 951 STROBES

Part No. 211200-95, Flash tube for model 901.
Part No. 211400-95, Flash tube for model 951.
Part No. 200767-95, Amber dome for model 901.
Part No. 200775-95, Amber dome for model 951.
Part No. 200766-95, Blue dome for model 901.
Part No. 200771-95, Blue dome for model 951.
Part No. 200769-95, Red dome for model 901.
Part No. 200773-95, Red dome for model 951.
Part No. 200768-95, Clear dome for model 901.
Part No. 200772-95, Clear dome for model 951.
Part No. 200770-95, Green dome for model 901.
Part No. 200774-95, Green dome for model 951.

MODEL 651 PLUS STROBES

•The model 651 strobe works in multiple voltages 12 - 48 VDC •Features corrosion resistant anodized aluminum open base
•Dimensions: 5.7" H x 6.6" Dia.

Part No. 420200-02, Model 651, double flash, amber.
Part No. 420200-03, Model 651, double flash, blue.
Part No. 420200-04, Model 651, double flash, red.
Part No. 420200-05, Model 651, double flash, clear.
Part No. 420200-06, Model 651, double flash, green.

Part No. 211944-02, Model 651, quad flash, amber.
Part No. 211944-03, Model 651, quad flash, blue.
Part No. 211944-04, Model 651, quad flash, red.
Part No. 211944-05, Model 651, quad flash, clear.
Part No. 211944-06, Model 651, quad flash, green.

REPLACEMENT PARTS FOR MODEL 651 STROBES

Part No. 211200-95, Flash tube.
Part No. 200767-95, Amber dome.
Part No. 200766-95, Blue dome
Part No. 200769-95, Red dome.
Part No. 200768-95, Clear dome.
Part No. 200770-95, Green dome.

PHASE II® STROBES

•Multi-voltage 12 - 48 VDC beacon •Features hermetically sealed base to support the circuit board and provide superior water resistance
•Dimensions: 8.05" H x 10.5" Dia.

PHASE II® 162 STROBES

•Specifically designed for class 1 applications •Strobe is a powerful 16 joules
Part No. 211880-02, Model 162, double flash, heavy duty, amber.
Part No. 211880-03, Model 162, double flash, heavy duty, blue.
Part No. 211880-04, Model 162, double flash, heavy duty, red.
Part No. 211880-05, Model 162, double flash, heavy duty, clear.
Part No. 211880-06, Model 162, double flash, heavy duty, green.

Part No. 421200-02, Model 162, double flash, Class 1, amber.
Part No. 421200-03, Model 162, double flash, Class 1, blue.
Part No. 421200-04, Model 162, double flash, Class 1, red.
Part No. 421200-05, Model 162, double flash, Class 1, clear.
Part No. 421200-06, Model 162, double flash, Class 1, green.

PHASE II® 1262 STROBES

•Offers 12 joules of high intensity flash output and 6 joules for low intensity
Part No. 211874-02, Model 1262, double flash, heavy duty, amber.
Part No. 211874-03, Model 1262, double flash, heavy duty, blue.
Part No. 211874-04, Model 1262, double flash, heavy duty, red.
Part No. 211874-05, Model 1262, double flash, heavy duty, clear.
Part No. 211874-06, Model 1262, double flash, heavy duty, green.

Part No. 420800-02, Model 1262, double flash with hi/low, amber.
Part No. 420800-03, Model 1262, double flash with hi/low, blue.
Part No. 420800-04, Model 1262, double flash with hi/low, red.
Part No. 420800-05, Model 1262, double flash with hi/low, clear.
Part No. 420800-06, Model 1262, double flash with hi/low, green.

PHASE II® 1682 STROBES

•Offers 16 joules of high intensity flash output and 8 joules for low intensity
Part No. 211877-02, Model 1682, double flash, heavy duty, amber.
Part No. 211877-03, Model 1682, double flash, heavy duty, blue.
Part No. 211877-04, Model 1682, double flash, heavy duty, red.
Part No. 211877-05, Model 1682, double flash, heavy duty, clear.
Part No. 211877-06, Model 1682, double flash, heavy duty, green.

Part No. 420900-02, Model 1682, double flash with hi/low, amber.
Part No. 420900-03, Model 1682, double flash with hi/low, blue.
Part No. 420900-04, Model 1682, double flash with hi/low, red.
Part No. 420900-05, Model 1682, double flash with hi/low, clear.
Part No. 420900-06, Model 1682, double flash with hi/low, green.

PHASE II® GIGASTROBE®

•Offers 22 joules of high intensity flash output
Part No. 211730-02, Gigastrobe, single flash, amber.
Part No. 211730-03, Gigastrobe, single flash, blue.
Part No. 211730-04, Gigastrobe, single flash, red.
Part No. 211730-05, Gigastrobe, single flash, clear.
Part No. 211730-06, Gigastrobe, single flash, green.

REPLACEMENT PARTS FOR PHASE II® STROBES

Part No. 439212-95, 12 - 48 VDC power supply, single flash, for Gigastrobe.
Part No. 211146-95, Flash tube for model 842.
Part No. 211800-95, Flash tube for models1262, 1682, 162, Gigastrobe.
Part No. 205560-95, Amber dome.
Part No. 205562-95, Blue dome.
Part No. 205561-95, Red dome.
Part No. 205563-95, Clear dome.
Part No. 205564-95, Green dome.
Part No. 205565-95, Replacement dust cover.

TARGET TECH®
A Unit Of Federal Signal Corporation

ARCTIC STROBES

•This is a multi-volt 12 - 48 VDC strobe •Rated from -75°C to 65°C. Powerful 8 joule power supply
•Dimensions: 8.6" H x 9.0" Dia.
Part No. 211777-02, Arctic strobe, double flash, amber.
Part No. 211777-03, Arctic strobe, double flash, blue.
Part No. 211777-04, Arctic strobe, double flash, red.
Part No. 211777-05, Arctic strobe, double flash, clear.
Part No. 211777-06, Arctic strobe, double flash, green.

REPLACEMENT PARTS FOR ARCTIC STROBE

Part No. 439356-95, 12 - 48 VDC power supply, double flash.
Part No. 439413-95, Flash tube.
Part No. 200775-95, Amber dome.
Part No. 200773-95, Red dome.
Part No. 200772-95, Clear dome.
Part No. 200774-95, Green dome.
Part No. 200771-95, Blue dome.
Part No. 200762-95, Replacement dust cover.

FIREBEAM® WARNING LIGHT

•Brightest compact warning light. Complete with magnetic mount, 10 ft. cord with cigarette lighter plug •Draws only 4.3 amps
•Dimensions: 3.8" H x 4.8" W x 5.1" D.
Part No. FB3ME-02, Firebeam, 12 VDC, 95 FPM, amber.
Part No. FB3ME-03, Firebeam, 12 VDC, 95 FPM, blue.
Part No. FB3ME-04, Firebeam, 12 VDC, 95 FPM, red.
Part No. FB3ME-05, Firebeam, 12 VDC, 95 FPM, clear.
Part No. FB3ME-06, Firebeam, 12 VDC, 95 FPM, green.

Part No. FB3ME-24-02, Firebeam, 24 VDC, 95 FPM, amber.
Part No. FB3ME-24-03, Firebeam, 24 VDC, 95 FPM, blue.
Part No. FB3ME-24-04, Firebeam, 24 VDC, 95 FPM, red.
Part No. FB3ME-24-05, Firebeam, 24 VDC, 95 FPM, clear.
Part No. FB3ME-24-06, Firebeam, 24 VDC, 95 FPM, green.

REPLACEMENT PARTS FOR FIREBEAM®

Part No. 439237-95, H1 bulb, 12 VDC, 55W.
Part No. 439231-95, H1 bulb, 24 VDC, 70W.
Part No. 440500-02, Amber dome.
Part No. 440500-03, Blue dome.
Part No. 440500-04, Red dome.
Part No. 440500-05, Clear dome.
Part No. 440500-06, Green dome.
Part No. 440500-07, Purple dome.

MODEL 100 ROTATING BEACON

•Powerful warning signal (80,000+ candelas) halogen rotator •Draws only 4.3 amps
•Dimensions: 7.5" H x 8.5" Dia.
Part No. 442112-02, Model 100, 12 VDC, 175 FPM, (100F-012), amber.
Part No. 442112-03, Model 100, 12 VDC, 175 FPM, (100F-012), blue.
Part No. 442112-04, Model 100, 12 VDC, 175 FPM, (100F-012), red.
Part No. 442112-05, Model 100, 12 VDC, 175 FPM, (100F-012), clear.
Part No. 442112-06, Model 100, 12 VDC, 175 FPM, (100F-012), green.

Part No. 443114-02, Model 100, 24 VDC, 95 FPM, (100-024), amber.
Part No. 443114-03, Model 100, 24 VDC, 95 FPM, (100-024), blue.
Part No. 443114-04, Model 100, 24 VDC, 95 FPM, (100-024), red.
Part No. 443114-05, Model 100, 24 VDC, 95 FPM, (100-024), clear.
Part No. 443114-06, Model 100, 24 VDC, 95 FPM, (100-024), green.

SENTRY® ROTATING BEACON

•Powerful warning signal (80,000+ candelas) with full sized reflectors and halogen bulb •Draws only 4.3 amps
•Dimensions: 6.5" H x 6.4" Dia.
Part No. 448112-02, Sentry, 12 VDC, 95 FPM, surface mount (SY12SS), amber.
Part No. 448112-03, Sentry, 12 VDC, 95 FPM, surface mount (SY12SS), blue.
Part No. 448112-04, Sentry, 12 VDC, 95 FPM, surface mount (SY12SS), red.
Part No. 448112-05, Sentry, 12 VDC, 95 FPM, surface mount (SY12SS), clear.
Part No. 448112-06, Sentry, 12 VDC, 95 FPM, surface mount (SY12SS), green.
Part No. 448112-07, Sentry, 12 VDC, 95 FPM, surface mount (SY12SS), purple.

Part No. 448114-02, Sentry, 24 VDC, 95 FPM, surface mount (SY24SS), amber.
Part No. 448114-03, Sentry, 24 VDC, 95 FPM, surface mount (SY24SS), blue.
Part No. 448114-04, Sentry, 24 VDC, 95 FPM, surface mount (SY24SS), red.
Part No. 448114-05, Sentry, 24 VDC, 95 FPM, surface mount (SY24SS), clear.
Part No. 448114-06, Sentry, 24 VDC, 95 FPM, surface mount (SY24SS), green.
Part No. 448410, Magnetic mount kit.

REPLACEMENT PARTS FOR SENTRY®

Part No. 439237-95, H1 bulb, 12 VDC, 55W.
Part No. 439231-95, H1 bulb, 24 VDC, 70W.
Part No. 448500-02, Amber dome.
Part No. 448500-03, Blue dome.
Part No. 448500-04, Red dome.
Part No. 448500-05, Clear dome.
Part No. 448500-06, Green dome.
Part No. 448500-07, Purple dome.

MODEL 14 DUAL-BEAM BEACON

•Powerful warning signal (35,000+ candelas) •Draws only 4.7 amps
•Dimensions: 7.5" H x 8.5" Dia.
Part No. 444112-02, Model 14, 12 VDC, 95 FPM, permanent mount, amber.
Part No. 444112-03, Model 14, 12 VDC, 95 FPM, permanent mount, blue.
Part No. 444112-04, Model 14, 12 VDC, 95 FPM, permanent mount, red.
Part No. 444112-05, Model 14, 12 VDC, 95 FPM, permanent mount, clear.
Part No. 444112-06, Model 14, 12 VDC, 95 FPM, permanent mount, green.

Part No. 444114-02, Model 14, 24 VDC, 95 FPM, permanent mount, amber.
Part No. 444114-03, Model 14, 24 VDC, 95 FPM, permanent mount, blue.
Part No. 444114-04, Model 14, 24 VDC, 95 FPM, permanent mount, red.
Part No. 444114-05, Model 14, 24 VDC, 95 FPM, permanent mount, clear.
Part No. 444114-06, Model 14, 24 VDC, 95 FPM, permanent mount, green.

TARGET® TECH
A Unit Of Federal Signal Corporation

INCANDESCENT FLASHING BEACON

•Dimensions: 3.6" H x 5.0" Dia.
Part No. 212251-02, Incandescent beacon, 12 VDC, amber.
Part No. 212251-03, Incandescent beacon, 12 VDC, blue.
Part No. 212251-04, Incandescent beacon, 12 VDC, red.
Part No. 212251-05, Incandescent beacon, 12 VDC, clear.
Part No. 212251-06, Incandescent beacon, 12 VDC, green.

REPLACEMENT PARTS FOR INCANDESCENT FLASHING BEACON

Part No. 205580-95, Amber dome.
Part No. 205584-95, Blue dome.
Part No. 205581-95, Red dome.
Part No. 205582-95, Clear dome.
Part No. 205583-95, Green dome.
Part No. 200523-95, Dome gasket.

LOW PROFILE & HIGH PROFILE HALOGEN FLASHING BEACON

•Low Dimensions: 4.0" H x 6.5" Dia.
•High Dimensions: 6.0" H x 6.5" Dia.
Part No. 212421-02, Halogen beacon, 12 VDC, low profile, amber.
Part No. 212421-03, Halogen beacon, 12 VDC, low profile, blue.
Part No. 212421-04, Halogen beacon, 12 VDC, low profile, red.
Part No. 212421-05, Halogen beacon, 12 VDC, low profile, clear.
Part No. 212421-06, Halogen beacon, 12 VDC, low profile, green.

Part No. 212426-02, Halogen beacon, 12 VDC, high profile, amber.
Part No. 212426-03, Halogen beacon, 12 VDC, high profile, blue.
Part No. 212426-04, Halogen beacon, 12 VDC, high profile, red.
Part No. 212426-05, Halogen beacon, 12 VDC, high profile, clear.
Part No. 212426-06, Halogen beacon, 12 VDC, high profile, green.

REPLACEMENT PARTS FOR HALOGEN FLASHING BEACON

Part No. 208762, Amber dome for low profile.
Part No. 208763, Blue dome for low profile.
Part No. 208764, Red dome for low profile.
Part No. 208765, Clear dome for low profile.
Part No. 208766, Green dome for low profile.

Part No. 208667-95, Amber dome for high profile.
Part No. 208666-95, Blue dome for high profile.
Part No. 208668-95, Red dome for high profile.
Part No. 208669-95, Clear dome for high profile.
Part No. 208664-95, Green dome for high profile.

MULTI-DIRECTIONAL REMOTE STROBE HEAD

•Dimensions: 5.3" H x 5.3" W x 6.6" D
Part No. 601601-22, Two head multi-directional remote strobe.

TURBO BEAM® PLUS LIGHTBARS

•Turbo Beam lightbars are economical, yet durable. Complete with an anodized aluminum raised base that eases installation and maintenance.
Part No. 211916-02SB, Turbo Beam Plus, 47", 12 VDC, amber.
Part No. 211916-03SB, Turbo Beam Plus, 47", 12 VDC, blue.
Part No. 211916-04SB, Turbo Beam Plus, 47", 12 VDC, red.

ROOF MOUNT KIT

•Black anodized aluminum extrusion with a channel for attaching standard mounting feet •A variety of different warning lights, including mini-lightbars and rotating lights and auxiliary equipment can be mounted onto the bar
Part No. 210960-46, 46" roof mount kit.
Part No. 210960-54, 54" roof mount kit.
Part No. 439194-95, Repair kit, c/w tool and 10 clips.

Light Not Included

TURBO BEAM® PLUS MINI-LIGHTBARS

•Raised base to ease mounting and maintenance •Offers all the attributes of longer lightbars but in 15" and 22" lengths
Part No. 415510-02SB, Turbo Beam Plus Mini Lightbar, 15", amber.

Part No. 415611-02SB, Turbo Beam Plus Mini Lightbar, 22", amber.
Part No. 415611-04SB, Turbo Beam Plus Mini Lightbar, 22", red.

AERODYNIC® "WRECKER SPECIAL" LIGHTBARS

•AeroDynic lightbar has become the standard in the towing and recovery industry. Its brilliant rotators and unique mirrors produce 80,000 candelas per flash low current draw. Equipped with an extruded base and polycarbonate domes for extra durability.
Part No. 517112, AeroDynic, 52", (25RWLI2).
Part No. 517112-24V, AeroDynic, 52", (25RWL12), 24 V model.

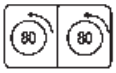
TURBO BEAM® MINI-LIGHTBARS

•Feature powerful halogen bulbs, precision parabolic reflectors, and R.F.I. suppression drive motors •Turbo Beam models have a low profile, flush aluminum base
Part No. 415010-02SC, Turbo Beam, 15", 55 W bulbs, 12 VDC, amber.
Part No. 415010-03SC, Turbo Beam, 15", 55 W bulbs, 12 VDC, blue.
Part No. 415010-04SC, Turbo Beam, 15", 55 W bulbs, 12 VDC, red.

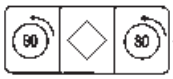
Part No. 415011-02SC, Turbo Beam, 15", 55 W bulbs, 12 VDC, with mirror, amber.
Part No. 415011-03SC, Turbo Beam, 15", 55 W bulbs, 12 VDC, with mirror, blue.
Part No. 415011-04SC, Turbo Beam, 15", 55 W bulbs, 12 VDC, with mirror, red.

Part No. 415111-02SC, Turbo Beam, 22", 55 W bulbs, 12 VDC, with mirror, amber.
Part No. 415111-03SC, Turbo Beam, 22", 55 W bulbs, 12 VDC, with mirror, blue.
Part No. 415111-04SC, Turbo Beam, 22", 55 W bulbs, 12 VDC, with mirror, red.

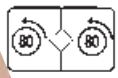
Part No. 211906-02SC, Turbo Beam, 15", 12 VDC, with magnetic mount, amber.
Part No. 211906-03SC, Turbo Beam, 15", 12 VDC, with magnetic mount, blue.
Part No. 211906-04SC, Turbo Beam, 15", 12 VDC, with magnetic mount, red.



415010



415111



415011

REPLACEMENT PARTS FOR TURBO BEAM® MINI-LIGHTBAR

Part No. 439237-95, H1 bulb, 12 VDC, 55 W.
Part No. 411401, 10" rotator assembly for #415011.
Part No. 411165, Green end dome, right.
Part No. 411166, Blue end dome, right.
Part No. 411167, Amber end dome, right.
Part No. 411168, Clear end dome, right.
Part No. 411169, Red end dome, right.
Part No. 411175, Green centre dome.
Part No. 411176, Blue centre dome.
Part No. 411177, Amber centre dome.
Part No. 411178, Clear centre dome.
Part No. 411179, Red centre dome.
Part No. 411185, Green end dome, left.
Part No. 411186, Blue end dome, left.
Part No. 411187, Amber end dome, left.
Part No. 411188, Clear end dome, left.
Part No. 411189, Red end dome, left.
Part No. 439194-95, Repair kit, c/w tool and 10 clips.

TARGET TECH
A Unit Of Federal Signal Corporation

COMPLETE SIGNALMASTER™ SYSTEMS

•Low profile lighting system provides a variety of sequentially flashing patterns
•Dimensions: 2¾" H x 3½" D x 42" L
Part No. 322112, 320182 light with 331102 control.

VISIBEAM® II REMOTE CONTROL SPOTLIGHT

•Provides reliable, economical work area illumination with 100 watt halogen bulb that draws 7.8 amps •Can adjust the light assembly upward, downward and horizontal.
Part No. 620102, VisiBeam II, 12 VDC, 55W bulb, permanent mount (VB12S).

MAGNETIC MOUNT WORK LAMP

•Great for illuminating emergency repairs
•Features a single-pole rotary on/off switch, an anti-scratch pad, a vibration absorbing, corrosion resistant rubber housing, and a 9 ft. coiled cord with cigarette plug adapter
Part No. 325048, PAR 36, 4.5" dia., 12 VDC sealed beam.

ROUND TRACTOR LAMPS

•These lamps feature rubber housing with zinc plated steel brackets that permit both horizontal and vertical adjustment
Part No. 325039, PAR 36, 4.5" dia., 12 VDC 4411-1 sealed beam with mounting bolt.
Part No. 325040, PAR 46, 5.7" dia., 12 VDC 4419 sealed beam with mounting bolt.
Part No. 325045, PAR 36 housing only.
Part No. 325046, PAR 46 housing only.

RECTANGULAR TRACTOR LAMPS

•These lamps feature rubber housing with zinc plated steel brackets that permit both horizontal and vertical adjustment •Also has a 5/16" mounting stud
Part No. 325541, 7" x 5" sealed beam, 12 VDC c/w H4651 sealed beam.

OFF-ROAD HIGH INTENSITY LAMP

•Shock free •Complete with steel housing and vertically adjustable bolt mounting
•Halogen sealed beam lamp produces 200,000 candlepower
Part No. 323552, PAR46, 5.7" dia., 12 VDC 4537-2 sealed beam.

TOGGLE SWITCH

•Two position, long lever type with black toggle and lock nut •SPST, 12 VDC, 10 amps
Part No. 210620, Toggle switch.

TOGGLE SWITCH

•Two position, one inch bat type chrome on metal lever with two screw terminals •SPST, rated for 35 amps
Part No. 210633, Chrome on metal toggle switch.

210620 210633

TOGGLE SWITCH PANEL

•Panel for use with 1/2" dia. toggle switches or indicator lights
Part No. 210624, Single hole panel.

SWITCH KIT

•Three position toggle switch and panel for multiple light controls
•Allows isolated or joint use of light
Part No. 210390, Switch kit.

LIGHTED THREE-ROCKER SWITCH CONTROL

•Features three 20 amp lighted rocker switches on a panel that mounts flush to the dashboard
Part No. 670132, Three rocker switch control (SW-SPA).

AEM ELECTRIC COMPANY

Snowplow Light Kits

Cushion Mount Rectangular Snowplow Light Kits - Rectangular housings are made of corrosion and impact-resistant polycarbonate. Features an integrated turn signal and parking light lens. The heavy duty cushion mounting system using 1/2" - 13 x 2" long mounting studs prolongs both sealed beam and turn signal bulb life. Kit comes complete with left and right hand snowplow lights with quartz halogen sealed beams for increased visibility, heavy duty selector switch, wiring connectors, mounting hardware and complete installation instructions.

UNIVERSAL WIRING HARNESS
Part No. 725521.

Replacement Parts:
Part No. 725532, Left-hand snowplow light.
Part No. 725533, Right-hand snowplow light.
Part No. 732467, Turn signal/parking lens (amber).
Part No. 767018, Harness (single underhood).
Part No. 767033, Complete harness system.
Part No. 765064, Heavy duty selector switch.
Part No. 739006, Spacer, swivel plated steel.

ECONOMY DO-IT-YOURSELF WIRING
Part No. 725548.

Replacement Parts:
Part No. 732467, Turn signal/parking lens (amber).
Part No. 765064, Heavy duty selector switch.
Part No. 739006, Spacer, swivel plated steel.

RETROFIT PLUG-IN HARNESS
(5 pole extended heavy duty, for straight trucks)
Part No. 725555.

Replacement Parts:
Part No. 725552, Left-hand snowplow light.
Part No. 725553, Right-hand snowplow light.
Part No. 732467, Turn signal/parking lens (amber).
Part No. 767050, 2 beam, 5 pole, extended heavy duty retrofit plug-in underhood harness.
Part No. 765064, Heavy duty selector switch.
Part No. 739006, Spacer, swivel plated steel.

RETROFIT PLUG-IN HARNESS
(4 pole, reduces installation time and labour costs)
Part No. 725531.

Replacement Parts:
Part No. 725532, Left-hand snowplow light.
Part No. 725533, Right-hand snowplow light.
Part No. 732467, Turn signal/parking lens (amber).
Part No. 767026, 2 beam, 4 pole, retrofit plug-in underhood harness.
Part No. 765064, Heavy duty selector switch.
Part No. 739006, Spacer, swivel plated steel.

RETROFIT PLUG-IN HARNESS
(5 pole, for imports and where a separate ground is required)
Part No. 725551.

Replacement Parts:
Part No. 725552, Left-hand snowplow light.
Part No. 725553, Right-hand snowplow light.
Part No. 732467, Turn signal/parking lens (amber).
Part No. 767043, 2 beam, 5 pole, retrofit plug-in underhood harness.
Part No. 765064, Heavy duty selector switch.
Part No. 739006, Spacer, swivel plated steel.

WESTERN/FISHER STYLE
(9 pin replacement for #8416)
Part No. 725561.
-(7 pin replacement for #8418)
Part No. 725571.

Underhood harness and control relay/flasher bag parts not included.

Replacement Parts:
Part No. 732467, Turn signal/parking lens (amber).
Part No. 739006, Spacer, swivel plated steel.

Snowplow Light Adapter Harness Kits

Snowplow light 4-beam system conversion kit for retrofit plug-in harness system - for use on trucks with conventional four-beam headlight system employing sealed beams #H4651, #H4656, #4651, and #4652.
Part No. 767027, Conversion kit for 725531.
Part No. 767051, Conversion kit for 725551 and 725555.

Snowplow light harness conversion kit for Ford / Mazda trucks - for use on late-model trucks employing #H9007 halogen beams.
Part No. 767029, Conversion kit for 725531.
Part No. 767052, Conversion kit for 725551 and 725555.

Snowplow light harness conversion kit for GMC / Chev, Jeep trucks - for use on trucks with low-profile four beam headlight system employing sealed beams #H4701 and #H4703.
Part No. 767030, Conversion kit for 725531.
Part No. 767053, Conversion kit for 725551 and 725555.

Snowplow light GMC / Chev. truck conversion kit for composite lighting system - for use on late-model trucks with composite four-bulb headlight system employing #H9005 and #H9006 halogen bulbs.
Part No. 767031, Conversion kit for 725531.
Part No. 767054, Conversion kit for 725551 and 725555.

Snowplow light harness conversion kit for Dodge, GMC / Chev. trucks - for use on late-model trucks employing conventional type 2E1 sealed beams #HP6545, #H6545, and #H4666.
Part No. 767032, Conversion kit for 725531.
Part No. 767055, Conversion kit for 725551 and 725555.

Snowplow light conversion kit for Ford / Dodge / Toyota / Nissan / Mazda / Isuzu trucks - for use on late-model trucks employing #H9004 halogen bulbs.
Part No. 767041, Conversion kit for 725531.
Part No. 767042, Conversion kit for 725551 and 725555.

GROTE

Cushion Mount Snowplow Light Kits & Adapter Kits

UNIVERSAL WIRING HARNESS
Part No. 63451-4EA.

Replacement Parts:
Part No. 63381EA, Left-hand snowplow light.
Part No. 63391EA, Right-hand snowplow light.

ECONOMY DO-IT-YOURSELF WIRING
Part No. 63441-4EA.

RETROFIT PLUG-IN HARNESS
(5 pole extended harness heavy duty)
Part No. 63455-4EA.

RETROFIT PLUG-IN HARNESS (4 POLE)
Part No. 63401-4EA.

Replacement Parts:
Part No. 63381EA, Left-hand snowplow light.
Part No. 63391EA, Right-hand snowplow light.

SNOWPLOW LAMPS WITH LEXAN SEALED BEAMS
Part No. 64261-4EA.

Replacement Parts:
Part No. 64241EA, Left-hand snowplow light.
Part No. 64251EA, Right-hand snowplow light.

SNOWPLOW LAMPS W/ LEXAN SEALED BEAMS & CONNECTOR
Part No. 64291-4EA.

Replacement Parts:
Part No. 64271EA, Left-hand snowplow light.
Part No. 64281EA, Right-hand snowplow light.

MOUNTING BRACKETS

Mounting Brackets

REVOLVING LAMP MOUNTING BRACKET
•Chrome heavy duty steel mounting bracket for mounting revolving lights to accommodate the curvature of truck cabs
Part No. EKW-25.

ADJUSTABLE MOUNTING BRACKET
•Heavy gauge steel, black enamel finish, ratchet-type hinge permits vertical lamp adjustment •Accommodates 1/2" maximum lamp stud diameter
Part No. 72-9003EA.

EKW-25

side view

PHILATRON

Magnetic Tow Lights

•Ideal for wide-load moves, R.V. vehicles, agricultural equipment, boat trailers and military equipment •Constructed with Philaprene thermoplastic insulation to ensure long life and resistance against abrasion, corrosion, oil and water •Each unit is equipped with rubber housed sealed lamp, a 4-way plug and a coiled cord between lights that spreads from 9 inches to 8 feet
Part No. 13-500, Magnetic tow lights with coiled cable (extended length 30 ft./ retracted length 18 in.).
Part No. 13-525, Magnetic tow lights with straight cable (length 30 ft.).

TOW LIGHT MAGNETS
Part No. 211838, Replacement magnets for tow lights - 1 pair.

13-525

GROTE

Magnetic Tow Lights

Part No. 65402-4EA, Magnetic Tow Truck Lamp Kit.

BUYERS

Truck Lamp Cabinets

•Heavy duty steel design •Continuous welds •Black powder coat finish
•Individually wrapped for finish protection

Part No. LB383, Single oval cabinet.
Part No. LB3163, Double oval cabinet.
Part No. LB663, Single round cabinet.

LB663 LB383 LB3163

STAR FABRICATION PRODUCTS

Light Boxes & Brackets For Sealed Rubber Mounted Lights

•Weatherproof boxes for sealed rubber mounted lights •Compact design
•Suitable for weld-on or bolt-on applications

MARKER LAMP MOUNTING BRACKET
Single 2½" clearance light bracket. Steel.
Part No. 4110.

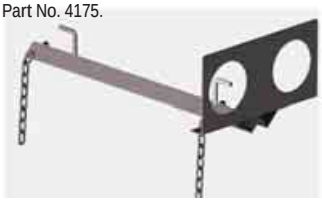
TAIL LAMP MOUNTING BRACKET
Single oval light mounting bracket.
Part No. 4140, Steel.
Part No. AL4140, Aluminum.

TAIL LAMP MOUNTING BRACKET
Single 4½" signal/tail mounting bracket.
Part No. 4160, Steel.
Part No. AL4160, Aluminum.

TAIL LAMP MOUNTING BRACKET
Double 4½" signal/tail mounting bracket.
Part No. 4170, Steel.

LOGGING LAMP MOUNTING BRACKET
Double rear log light bracket. Steel.
Part No. 4174.

LOGGING LAMP MOUNTING BRACKET
Double rear log light bracket c/w reversed angle iron. Steel.
Part No. 4175.

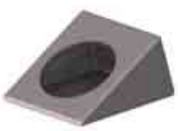


MARKER LAMP LIGHT BOX
Single 2" marker light box.
Part No. 1010-S, Steel.
Part No. AL1010-S, Aluminum.

MARKER LAMP LIGHT BOX
Single 2½" marker light box.
Part No. 1010, Steel.
Part No. AL1010, Aluminum.

MARKER LAMP LIGHT BOX
Single 2½" marker light box with sloped ends.
Part No. 1012, Steel.
Part No. AL1012, Aluminum.

MARKER LAMP LIGHT BOX
Single 2½" angled marker light box.
Part No. 1110, Steel.
Part No. AL1110, Aluminum.



MARKER LAMP LIGHT BOX
Single 2½" angled marker light box.
Part No. 1111, Steel.
Part No. AL1111, Aluminum.

MARKER LAMP LIGHT BOX
Double 2½" marker light box.
Part No. 1020, Steel.
Part No. AL1020, Aluminum.

MARKER LAMP LIGHT BOX
Double 2½" corner marker light box. 3¾" long. Steel.
Part No. 1022.

MARKER LAMP LIGHT BOX
Double 2½" corner marker light box. 4½" long. Steel.
Part No. 1021.

MARKER LAMP LIGHT BOX
Double 2½" angled corner marker light box. 4½" long.
Part No. 1030, Steel.
Part No. AL1030, Aluminum.

IDENTIFICATION LAMP LIGHT BOX
Triple 2½" identification light box.
Part No. 1050, Steel.
Part No. AL1050, Aluminum.

Light Boxes & Brackets For Sealed Rubber Mounted Lights

•Weatherproof boxes for sealed rubber mounted lights •Compact design
•Suitable for weld-on or bolt-on applications

TAIL LAMP LIGHT BOX
Single oval tail light box.
Part No. 1040, Steel.
Part No. AL1040, Aluminum.

TAIL LAMP LIGHT BOX
Single oval tail light box w/ 2½" marker light opening on side. Steel.
Part No. 1043.

TAIL LAMP LIGHT BOX
Single oval tail light box w/ sloped ends.
Part No. 1045, Steel.
Part No. AL1045, Aluminum.

TAIL LAMP LIGHT BOX
Double oval tail light box.
Part No. 1041, Steel.
Part No. AL1041, Aluminum.

TAIL LAMP LIGHT BOX
Double (offset) oval tail light box. Steel.
Part No. 1042.

TAIL LAMP LIGHT BOX
Double (side x side) oval tail light box.
Part No. 1044, Steel.
Part No. AL1044, Aluminum.

TAIL LAMP LIGHT BOX
Triple (right slanted) oval tail light box.
Part No. 1046, Steel.
Part No. AL1046, Aluminum.

TAIL LAMP LIGHT BOX
Triple (left slanted) oval tail light box.
Part No. 1047, Steel.
Part No. AL1047, Aluminum.

TAIL LAMP LIGHT BOX
Double (right slanted) oval tail light box. Steel.
Part No. 1048.

TAIL LAMP LIGHT BOX
Double (left slanted) oval tail light box. Steel.
Part No. 1049.

TAIL LAMP LIGHT BOX
Single 4½" tail light box.
Part No. 1060, Steel.
Part No. AL1060, Aluminum.

TAIL LAMP LIGHT BOX
Double 4½" tail light box. 14 gauge.
Part No. 1070, Steel.
Part No. AL1070, Aluminum.

TAIL LAMP LIGHT BOX
Double 4½" tail light box. Heavy duty 10 gauge steel.
Part No. 1070-HD.

TAIL LAMP LIGHT BOX
Double 4½" flanged tail light box.
Part No. 1071, Steel.
Part No. AL1071, Aluminum.

TAIL LAMP LIGHT BOX
Double 4½" tail light box w/ 2½" marker light opening on side.
Part No. 1072, Steel.
Part No. AL1072, Aluminum.

TAIL LAMP LIGHT BOX
Triple 4½" tail light box.
Part No. 1073, Steel.
Part No. AL1073, Aluminum.

LOGGING LAMP LIGHT BOX
Four oval Alberta cabguard light box. 12 gauge.
Part No. 1080, Steel, 12 gauge.
Part No. AL1080, Aluminum, 12 gauge.
Part No. 1081, Steel, 14 gauge.

LOGGING LAMP LIGHT BOX
Four oval Alberta cabguard light box w/ 1½" tube. Steel.
Part No. 1090KA, 12 gauge.

LOGGING LAMP LIGHT BOX
Four oval Alberta cabguard light box w/ 1½" tube. 14 gauge steel.
Part No. 1093, Right.
Part No. 1094, Left.

LOGGING LAMP LIGHT BOX
Four oval Alberta cabguard light box w/ 1¼" tube.
Part No. 1090, 12 gauge steel.
Part No. AL1090, 12 gauge aluminum.
Part No. 1092, 14 gauge steel.

RECEIVER TUBE
Receiver tube to fit #1090 and #1092 light boxes — 1¼" I.D.
Part No. 1091, Steel.
Part No. AL1091, Aluminum.

RECEIVER TUBE
Receiver tube to fit #1090KA, #1093, and #1094 light boxes — 1½" I.D. Steel.
Part No. 1095.

SWING ARMS
Spring loaded swingout light arm in your choice of right hand, left hand, square end, or angled end.
Part No. 1201, Right hand, square end.
Part No. 1201GP, Right hand, angled end.
Part No. 1202, Left hand, square end.
Part No. 1202GP, Left hand, angled end.

STICK-ON CONVEX MIRRORS
•Corrosion resistant aluminum housing
•Adhesive back
Part No. 10103, 2" round.

Part No. 70709, Glass kit for 7" x 16" box mirrors (207 series).

FENDER MOUNTED ASSEMBLY KITS

•Fits most fibreglass, steel, and aluminum fenders and hoods

Part No. 60111, Tripod assembly w/ 8.5" convex, stainless steel.

Part No. 60121, Deluxe mini assembly w/ 8.5" convex, stainless steel.

Part No. 60131, Heated tripod kit w/ 8.5" convex, stainless steel.

Part No. 60141, Tripod assembly w/ wide angle convex, stainless steel.

Part No. 60151, Shortened tripod assembly w/ 8.5" convex, stainless steel (fits newer aerodynamic styled trucks).

HOOD MOUNTED ASSEMBLY KITS

•Fits most fibreglass, steel, and aluminum fenders and hoods •Included both straight and curved arms

Part No. 60171, HD hood mounted assembly w/ 8.5" convex, stainless steel.

Part No. 60181, HD hood mounted assembly w/ heated 8.5" convex, stainless steel.

FENDER & HOOD MOUNTED BRACKETS

Part No. 60101, HD tripod bracket, stainless steel.

Part No. 60103, HD tripod bracket, painted black.

SINGLE ARM MOUNTING BRACKETS

Part No. 60201, Stainless steel.

Part No. 60203, Painted black.

C.O.E. BLIND SIDE MOUNTING BRACKETS

Part No. 60301, Stainless steel, bracket only.

Part No. 60303, Painted black, bracket only.

Part No. 60701, 5" extension bracket, stainless steel.

Part No. 60801, 7" extension bracket, stainless steel.

C.O.E. BLIND SIDE ASSEMBLY KITS

Part No. 60401, Stainless steel bracket with #10801 convex mirror head.

Part No. 60501, Stainless steel bracket with #10891 wide angle 8.5" convex.

UNIVERSAL MIRROR MOUNTING KITS

•Mounts to either 5/8" or 3/4" brackets

Part No. 70201, Universal mounting kit, Stainless steel.

Part No. 70208, Universal mounting kit, Zinc plated steel.

CUSTOM WEST COAST BRACKET KITS

•Brackets fit: International, Ford, and GMC/ Chevrolet trucks •Kits include brackets, outer yoke, clamps, and hardware

Part No. 60699, International truck S-series (4000-4700) West Coast kit, aluminum.

Part No. 60696R, Mack trucks, stainless steel (R-series), right.

Part No. 60696L, Same as #60696R; left.

OPEN ROAD

JR. WEST COAST ASSEMBLY

•Easily added to most trucks, vans, or RV's

•Kits include mirror head & mounting hardware

Part No. 20852, 5" x 10" Jr. West Coast "tube through" mirror assembly, stainless steel.

JR. WEST COAST MIRRORS

Part No. 20801, 5" x 10", Jr. West Coast mirror, stainless steel.

Part No. 20811, 5" x 10", Jr. West Coast mirror, stainless steel, heated.

Part No. 20851, 5" x 10" Jr. West Coast "tube through" mirror, stainless steel.

Part No. 20901, 6" x 10" rib back mirror, stainless steel.

Part No. 20903, 6" x 10" rib back mirror, painted black.

Part No. 20904, 6" x 10" rib back mirror, painted white.

WEST COAST ADJUSTABLE BRACKETS

•Adjusts from 18" to 23" as necessary

•Fits most conventional style trucks

•Includes mounting hardware

Part No. 60601, Stainless steel.

Part No. 60603, Painted black.

Part No. 60604, Painted white.

HEAVY DUTY SAFETY YOKES

•Extends mirror out from bracket •Fits most conventional style trucks •Can be used with West Coast adjustable brackets •Extends out 9.75" with a span of 17"

Part No. 70701, Stainless steel.

Part No. 70703, Painted black.

Open Road Mirrors & Accessories

EXTRA WIDE HEAVY DUTY SAFETY YOKES

•For use with extra wide trailers (102") •Fits most conventional style trucks •Can be used with West Coast adjustable brackets •Extends out 12.75" with a span of 17"
Part No. 70711, Stainless steel.
Part No. 70713, Painted black.

C.O.E. HEAVY DUTY ADJUSTABLE SAFETY YOKE

•For use with most West Coast mirrors
•Extends out 6" with a adjustable span of 28" to 42"
Part No. 70721, Stainless steel.

MOUNTING BRACKETS

Part No. 70308, 65°, zinc plated steel.
Part No. 70311, Small 90°, stainless steel.
Part No. 70318, Small 90°, zinc plated.

70311

70308

ADJUSTABLE MOUNTING BRACKETS

Part No. 70321, "Swing-A-Way", stainless steel.
Part No. 70323, Adjustable mounting bracket, painted black.

70321

70323

"L" MOUNTING BRACKETS

Part No. 70401, "L" bracket, stainless steel.
Part No. 70408, "L" bracket, zinc plated steel.

70401

UNIVERSAL STEADY BRACKETS

•Extends from 10" to 15"
Part No. 70501, Stainless steel.
Part No. 70503, Painted black.

70501

MOUNTING KIT

Part No. 70511, Stainless steel.
Part No. 70518, Zinc plated steel.

70511

EXTENSION ARMS

•5/8" inner tube, 3/4" outer tube with compression nut
Part No. 70801, Extends 15" - 21" length, Stainless steel.
Part No. 70803, Extends 15" - 21" length, Painted black.
Part No. 70811, Extends 17" - 25" length, Stainless steel.
Part No. 70813, Extends 17" - 25" length, Painted black.
Part No. 70821, Extends 10" - 15" length, Stainless steel.
Part No. 70823, Extends 10" - 15" length, Painted black.

WEST COAST MIRROR ADAPTERS

•Use to adapt International trucks mirror brackets to fit most any regular West Coast mirror head
Part No. 70971, West Coast mirror adapters, zinc plated.

MIRROR CLAMPS

Part No. 70901, Clamp, 3/4" tube, 3/8" holes, stainless steel.
Part No. 70908, Clamp, 2 piece, zinc plated steel
Part No. 70921, Clamp, 5/8" tube, 1/4" holes, stainless steel.
Part No. 70931, Clamp, 3/4" tube, 1/4" holes, stainless steel.
Part No. 70941, Clamp, 3/4" tube, 3/8" slot, stainless steel.
Part No. 70961, 3/4" clamp, w/bolt and washer for step van mirrors.

70901

70908

70941

70961

10½" CROSS VIEW MIRROR ASSEMBLY

•Kit includes large convex mirror head •Brackets fit most step, cargo, and delivery vans
•5/16" adjustable female ball stud and bolt
Part No. 40101, Stainless steel.
Part No. 40104, Painted white.

CROSS VIEW MIRROR BRACKETS

•Reinforced ¾" tubing arms and heavy duty brackets
•Brackets fit most step, cargo, and delivery vans
Part No. 60901, Standard 11", stainless steel.
Part No. 60904, Standard 11", painted white.

8½" CROSS VIEW MIRROR ASSEMBLY KITS

•Kit includes large convex mirror head •Brackets fit most step, cargo, and delivery vans •5/16" adjustable female ball stud and bolt
Part No. 40201, Stainless steel.
Part No. 40203, Painted black.
Part No. 40204, Painted white.

STEP VAN MIRROR ASSEMBLIES

•Fits most step, delivery and package vans •Fits right or left side •Assembly includes flat glass 6.5" x 10" head, 6.5" x 6" convex mirror head, cab feet, and mounting hardware •Bracket span adjusts to from 18" to 33", extends out 9"
Part No. 40401, Assembly, stainless steel.
Part No. 40403, Assembly, painted black.
Part No. 40404, Assembly, painted white.

STEP VAN MIRRORS

Part No. 40601, 6½" x 6" convex glass, stainless steel.
Part No. 40603, 6½" x 6" convex glass, black.
Part No. 40604, 6½" x 6" convex glass, white.
Part No. 41301, 6½" x 10" Flat glass, stainless steel.
Part No. 41303, 6½" x 10" Flat glass, black.
Part No. 41304, 6½" x 10" Flat glass, white.
Part No. 41601, 6½" x 6" Flat glass, stainless steel.
Part No. 41603, 6½" x 6" Flat glass, black.
Part No. 41604, 6½" x 6" Flat glass, white.

5½" x 7½" LIGHT DUTY TRUCK MIRROR

•General purpose mirror head •Centre mounted 5/16" adjustable female ball stud
Part No. 30101, Stainless steel.
Part No. 30103, Painted black.
Part No. 30104, Painted white.

5½" x 7½" LIGHT DUTY TRUCK MIRROR

•Fits #50101 (MT-2) small tripod assembly •Centre bracket mount
Part No. 30201, Stainless.
Part No. 30203, Painted black.

5½" x 8½" LIGHT/MEDIUM DUTY TRUCK MIRROR

•Perfect for moving and package delivery vehicles •Offset mounted 5/16" adjustable female ball stud
Part No. 30301, Stainless steel.
Part No. 30303, Painted black.
Part No. 30304, Painted white.

6" x 9" LIGHT/MEDIUM DUTY TRUCK MIRROR

•Universal 6" x 9" replacement head •Fits #50201 (MV-1) Maxi-Vu mirror assemblies
Part No. 30401, Stainless steel.
Part No. 30403, Matte black finish.

7½" x 10½" MEDIUM DUTY TRUCK MIRROR

•Fits #50301 (MT-3) and #50401 (MT-3WW) assemblies
Part No. 30501, Stainless steel.
Part No. 30503, Painted black.
Part No. 30504, Painted white.
Part No. 30511, Stainless steel, heated.

7½" x 10½" MEDIUM DUTY TRUCK MIRROR WITH INTERNAL ELBOW

•Replacement mirror for Ford, Chevrolet, and Dodge trucks •Elbow length is 4"
Part No. 30701, Stainless steel.

LIGHT DUTY TRIPOD MIRROR ASSEMBLY

•Includes 5.5" x 7.5" mirror head and hardware •Designed for small pick-up trucks •Below eye level tripod bracket assembly
Part No. 50101, Stainless steel.

MAXI-VU LIGHT DUTY TRUCK ASSEMBLY

•Includes 6" x 9" mirror head and hardware •Swing-a-way brackets give universal fit to most trucks
Party No. 50201, Stainless steel.
Party No. 50203, Matte black.
Party No. 70800, Extension arm, aluminum 4-3/8" long.

MEDIUM DUTY TRIPOD ASSEMBLY

•Includes 7.5" x 10.5" mirror head and hardware •Designed for full size pick-up trucks and vans •Below eye level tripod bracket assembly
Party No. 50301, Large tripod assembly, stainless steel.
Party No. 50304, Large tripod assembly, painted white.

Open Road Mirrors & Accessories

EXTENSION BRACKETS FOR TRIPOD ASSEMBLIES

•Extends mirror head out for added visibility when towing

Part No. 70841, 4" stainless steel extension, coarse threads, for Cham-Cal elbows and mirrors.

Part No. 70101, 4.5" offset elbow extension, stainless steel.

Part No. 70111, 7.5" offset elbow extension, stainless steel.

Part No. 70121, 11.5" offset elbow extension, stainless steel.

HEAVY DUTY TRIPOD ASSEMBLY

•Includes 7.5" x 10.5" mirror head and hardware •Designed for full size pick-up trucks and vans •Extendable for trailer towing by swinging head out and rotating

Part No. 50401, HD tripod assembly, stainless steel.

INTERNAL ELBOW LARGE TRIPOD ASSEMBLIES

•Includes 7.5" x 10.5" mirror head and hardware •Designed for full size pick-up trucks and vans •Extendable for trailer towing by swinging head out

Part No. 50701, Stainless steel.

Part No. 50704, Painted white, steel.

EXTENSION ARM FOR TRIPOD ASSEMBLIES

•Adds convex or flat glass spot mirror to assemblies

Part No. 70851, Extension arm, 9.5" long, 90° twist, with 8.25" hole centres, stainless steel.

Stainless Steel Oval Light Brackets/Assemblies

STAINLESS STEEL LIGHT BRACKETS

Part No. 90011, Single oval light holder.

Part No. 90012, Dual oval light holder.

Part No. 90013, Triple oval light holder.

Part No. 90014, Quad oval light holder.

STAINLESS STEEL LIGHT ASSEMBLIES WITH AMBER LIGHTS

Part No. 90001, Single amber light holder.

Part No. 90002, Dual amber light holder.

Part No. 90003, Triple amber light holder.

Part No. 90004, Quad amber light holder.

MOTORIZED WEST COAST MIRROR 7" x 16"
Part No. 97840, Remote control, heated

6" x 16" WEST COAST MIRROR

Part No. 97811, Painted black, steel, rib back.

5" ROUND CONVEX MIRROR
•L bracket included •5/16 female adjustable ball stud and bolt
Part No. 97802, Painted black, steel.

6" ROUND CONVEX MIRROR
•L bracket included •5/16 female adjustable ball stud and bolt
Part No. 97819, Bright stainless steel.
Part No. 97820, Painted black, steel.

7½" ROUND CONVEX MIRROR
•L bracket included •5/16 female adjustable ball stud and bolt
Part No. 97815, Bright stainless steel.
Part No. 97816, Painted black, steel.
Part No. 97817, Off-set stud, bright stainless steel.

8½" ROUND CONVEX MIRROR
•L bracket included •5/16 female adjustable ball stud and bolt
Part No. 97803, Bright stainless steel.
Part No. 97804, Painted black, steel.
Part No. 97814, Off-set stud, bright stainless steel.

8½" CROSS OVER VIEW CONVEX MIRROR
•5/16 female adjustable ball stud and bolt
Part No. 97831, Painted black, steel.

Mirrors & Accessories

10" REAR CROSS VIEW SYSTEM
•3/4" tubing arm and heavy duty universal mounting brackets
Part No. 97862, Bright stainless steel.

6" x 9" SUPER STYLE LOW MOUNT MIRROR HEAD
Part No. 97800, Bright stainless steel.

7½" x 10½" LOW MOUNT MIRROR HEAD
Part No. 97805, Bright stainless steel.

5½" x 7½" RECTANGULAR MIRROR HEAD
Part No. 97807, Painted white steel.

SUPER STYLE LOW MOUNT MIRROR ASSEMBLY (6" x 9" SWIVEL MIRROR HEAD)
Part No. 97850, Bright stainless steel assembly.

O.E. STYLE LOW MOUNT MIRROR ASSEMBLY (7½" x 10½" MIRROR HEAD)
Part No. 97852, Bright stainless steel assembly.

STICK-ON CONVEX SPOT MIRRORS
•Corrosion resistant aluminum housing
•Adhesive back
Part No. 7044, 3¾" round.
Part No. 7048D, 4" x 5½" rectangular.

UNIVERSAL MOUNTING KIT FOR 3/4" OR 5/8" TUBE
•Two part clamshell style clamp for attaching convex mirrors to other bracketry
Part No. 97823, Bright stainless steel.

FENDER MOUNT MIRROR BRACKET
Part No. 97828, Bright stainless steel.

TRIPOD FENDER MOUNT MIRROR BRACKET
Part No. 97829, Bright stainless steel.

HEATER ELEMENT
•Replacement is used for either 6" or 7" heated West Coast mirror heads
Part No. 97845, Replacement heater element, 12 volt.

Truck-Lite®

HEATED, ICE & FROST-FREE WEST COAST MIRROR OEM STYLE, 7" x 16" MIRROR HEAD

REFLEXITE REFLECTIVE MARKING TAPE

•Tough, durable film resists cracking and lifting to look like new, long after application •Typically 1,000 candlepower for maximum long site detection distance performance, exceeding minimum requirements by four times •Silver daytime appearance ensures maximum night time performance and blends with aluminum trailer rail •Reflects light at all application angles on the roadway •Constructed of single ply .008 thin with no open cell construction •Impact resistant, withstanding a blow from a forklift or loading dock and still retro-reflects.

Part No. 98-107, Red/white, 1½" x 150 ft. roll.
Part No. 98-104, Red/white, 2" x 18" strip.
Part No. 98-108, Red/white, 2" x 54" strip.
Part No. 98-101, Red/white, 2" x 150 ft. roll.
Part No. 98-102, Red/white, 3" x 150 ft. roll.
Part No. 98-105, White, 2" x 12" strip.
Part No. 98-100, White, 2" x 150 ft. roll.
Part No. 98-110, Yellow, 2" x 150 ft. roll.

REFLECTIVE MARKING TAPE - FOR USE WITH CONTINUOUS SIDE PATTERN

•Tough, durable film resists cracking and lifting to look like new, long after application •Typically 600 candlepower, exceeding minimum requirements by 2.5 times •White daytime appearance offers a cosmetically appealing look and blends with white trailer skin •Reflects light at all applicable angles on the roadway •Constructed of single ply .088 thin with no open cells •Impact resistant, withstanding a blow from a forklift or loading dock and still retro-reflects.

Part No. 98-127, Red/white, 2" x 150 ft. roll.

Guardian® HP Hub Seals

— New Technology for a Higher Standard of Performance

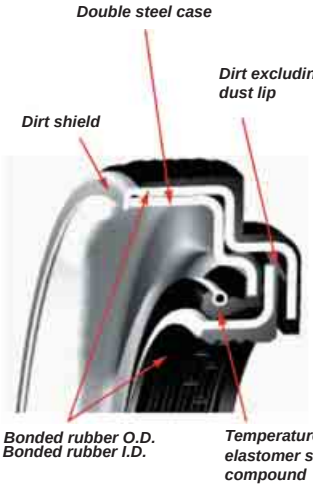
Introducing Guardian HP, the newest seal technology to improve per mile performance and cost-per-mile profitability. Guardian HP gives you all the features of Stemco's exclusive Guardian seal design with the added benefits of the all-new High Performance sealing element. Guardian HP's new technologically advanced seal has been developed for extra protection and greater sealing with it high performance sealing lip, superior contamination exclusion and self-adjusting thrust pad. With new Guardian HP, you're assured of longer life and easier installation. Installation right on the axle instead of the hub bore assures positive alignment every time with virtually error-proof installation. There's no tool impact on the seal, causing damage or installation related failures. Easy to remove and service. No more damaged bearings during seal removal.

Sealing lip, O.D. beads, self-lubricating thrust pad, and flexible contaminant exclusion lip all molded as a single unit from high performance HNBR-Teflon elastomer for fewer leak paths and better heat resistance.

Voyager™ Seals

Revolutionary Hub-installed Unitized Seal that will Minimize Your Maintenance Costs

The Voyager seal utilizes Stemco's proven dirt shield technology, a solid metal shield that prevents dirt and contamination from entering the sealing areas. This technology is incorporated into a fully-unitized hub-installed seal. The double steel case allows for a positive hub installation without warping or bending as occurs with single-case seals. The Voyager seal features a bonded rubber OD that forms a superior seal between the seal case and the hub bore. Special anti-rotation features lock Voyager's bonded ID surface in place, protecting the spindle shoulder from costly damage and wear.



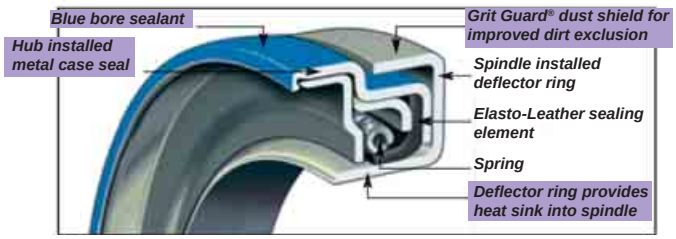
Grit Guard® Hub Seals

— Two-Piece Design for Improved Dirt Exclusion

A two-piece design, the Grit Guard Seal features a spindle-installed deflector ring. This provides dirt exclusion for extended seal performance and insures a new surface for the sealing lip. The hub-installed metal case seal provides a metal-to-metal continuous press fit between the seal and hub. In addition, a blue coating is applied to the seal to prevent minor seepage between the seal and hub.

Grit Guard's Elasto-Leather sealing lip provides an excellent temperature range from -65°F to +250°F. It remains flexible and durable unlike rubber lips which lose resilience at -30°F and +225°F. Because the Elasto-Leather sealing lip acts like a wick and holds oil, there is no dry start which can tear or damage rubber lips.

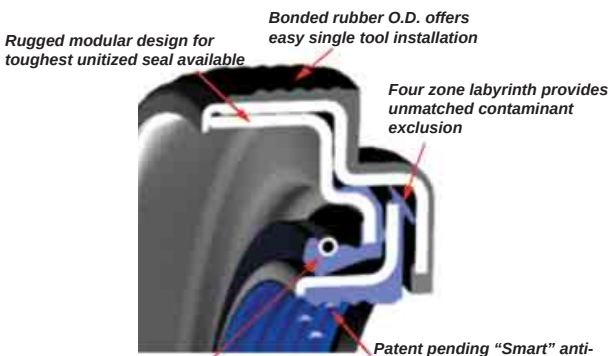
Designed to reduce maintenance and prevent unnecessary wear on expensive spindles, the Grit Guard two-piece design provides effective and lasting protection against contamination.



Discover™ Seals

The Discover seal features a high temperature elastomeric co-polymer sealing element combined with Teflon™. The revolutionary design plus a long life sealing element equals unparalleled performance. Shown to exceed competitor's performance by five times. Utilizes Stemco's patent pending "Smart" anti-rotation feature which insures positive positioning and locking of the seal to the spindle. Features a double steel case design that exhibits strength expected in heavy duty components. This sealing element is protected by a four zone labyrinth to provide unmatched contaminant exclusion and performance. In durability and reliability, Discover blows away the competition!

Stemco introduces the Discover seal. As a pioneer in the hub seal industry, Stemco proudly announces a technologically advanced high performance seal to enter a new millennium.



Many Stemco Wheel End Parts and Tools are available from Gregg Distributors Ltd. Please ask for further information.

Pro-Torq® Advanced Axle Spindle Nuts

•Longer Tread Life - Fleets save tires, wheels track truer. Pro-Torq controls axial motion, holding bearing end play near zero while maintaining exact cup and cone alignment on the spindle. This is good news for radial tires. Pro-Torq delivers the adjustment precision which experts agree is needed to maximize radial tire life.
•Extended Wheel Seal and Bearing Service - Pro-Torq supports seal, bearing, and axle manufacturers' specifications. With Pro-Torq's tight control on wheel bearing adjustment, fleets minimize premature seal failure and improve extended seal and brake lining programs. Pro-Torq is also your choice when using new semi-fluid and synthetic grease lubricants to precisely set bearings for lubed-for-life wheel ends. Pro-Torq compensates for normal bearing wear, permitting precise .001" take-up increments at scheduled preventative maintenance intervals. This keeps bearings properly aligned, running collar, and lasting longer.
•Improves ABS - Pro-Torq's reliable low end play bearing adjustment and axial motion control helps assure accurate wheel end sensor monitoring of wheel speeds on anti-lock braking systems. Stemco recommends replacing the keeper assembly each time it is removed for maintenance purposes.

How To Determine Bolt Circle
Count the number of mounting holes; measure diameter of bolts; measure bolt circle (select 2 holes opposite each other and measure from the centre of one bolt to the centre of the one opposite). On odd number holes, measure inside diameter of hub and add twice the distance from the bore to the centre of bolt hole.

Sentinel® Hub Caps

Vent pressure while keeping contaminants out and lubricant in...

To relieve pressure, Sentinel ESP's duck-billed pressure relief valve opens, allowing pressure to vent out, while the umbrella check valve remains closed, stopping lubricant from leaking out and contaminants from flowing in.

BASE PART NO.	OIL CAP	GREASE CAP	BOLT CIRCLE	BOLT SIZE	NO. OF BOLTS	GASKET NO.

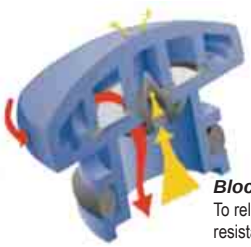
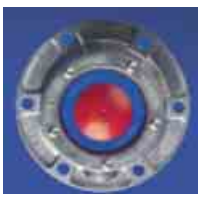
REPLACEMENT VENT PLUGS:
Part No. 359-5915, 3/4" vent plug.
Part No. 359-5990, 1⅛" vent plug.





Block moisture and contaminants from entering the hub cap...

To relieve vacuum, Sentinel ESP's interior check valve lifts slightly, drawing air through the water resistant expanded PTFE fabric filter into the wheel end, while the duck-bill check valve remains closed, blocking dirt, grime, and other contaminants from entering.

Sentinel Oil Window Kits

•For retrofitting standard caps.

Part No. 359-6143, 2¾" window kit, includes gasket and screws
Part No. 359-6145, 3½" window kit, includes gasket and screws

STEMCO
Hubodometer® & Accessories

Whether for maintenance purposes or logging miles, accuracy is critical. So, if your Hubodometer doesn't give you an honest, accurate calculation of miles travelled, you're losing money and profits. Stemco builds a drive-less Hubodometer guaranteed to deliver mileage accuracy within ±2% (based on the life of the tire). With construction so durable, it's backed with a 500,000 mile warranty.

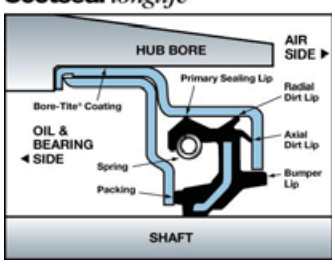
SKF/CR®
Seals

SKF/CR Scotseal Plus®
SKF/CR Scotseal Plus® is a unitized or single piece design. It has four sealing lips; a primary sealing lip, radial and axial dirt lips, plus an outer bumper lip that acts as a preliminary dirt excluder. The primary sealing lip is made of nitrile. It incorporates the CR Waveseal® design that creates a sweeping motion as the wheel rotates to return lube to the bearing while reducing heat build-up.

Scotseal *longlife*



SKF/CR Scotseal®
SKF/CR Scotseal® are unitized or single piece designs. Each incorporates three sealing lips; one primary sealing lip to keep oil in and two secondary lips to keep dirt out. The sealing element used in Scotseal is made of nitrile rubber.

SKF/CR®

Hub Caps

How to Determine Correct Hub Cap for Mounting

Bolt-on Caps: Count the number of mounting holes, measure diameter of bolts; measure bolt circle (select 2 holes opposite each other and measure from the centre of one bolt hole to the centre of the one opposite).

HITCHMASTER COUPLINGS PREMIER MFG. CO.

INNER CAP NUT
O.E. standard for dual steel wheels. Through hardened. Zinc yellow dichromate plating. Grade 8.
Outer thread: 1-1/8"-16
Inner thread: 3/4"-16
Inner thread min. depth: 1-1/4"
Outer overall length: 2-7/32"
Part No. E-7895-R, Right.
Part No. E-7895-L, Left.

INNER CAP NUT
O.E. standard for steel inner and aluminum outer wheels. Through hardened. Grade 8.
Outer thread: 1-1/8"-16
Inner thread: 3/4"-16
Inner thread min. depth: 1-7/8"
Outer overall length: 3-1/16"
Part No. E-7897-R, Right.
Part No. E-7897-L, Left.

INNER CAP NUT
O.E. standard for dual aluminum wheel applications. Through hardened. Grade 8.
Outer thread: 1-1/8"-16
Inner thread: 3/4"-16
Inner thread min. depth: 1-15/16"
Outer overall length: 3-1/16"
Part No. E-5988-R, Right.
Part No. E-5988-L, Left.

DISC WHEEL NUT
For outer dual or large stud single mounting. Through hardened. Zinc yellow dichromate plating. Grade 8.
Thread: 1-1/8"-16
Hex: 1-1/2"
High: 7/8"
Part No. E-5977-R, Right.
Part No. E-5977-L, Left.

DISC WHEEL NUT
For single mounting, front or rear. Grade 8.
Thread: 3/4"-16
Hex: 1-1/2"
High: 7/8"

Part No. E-5652-R, Right.
Part No. E-5652-L, Left.

FLANGED CAP NUT
Thread: 11/16"-16
Hex: 1-1/8"
High: 1-1/16"
Part No. E-5734.

BACK NUT
Locknut, heat treated.
Thread: 3/4"-16
Hex: 1-1/8"
High: 21/32"
Part No. E-4961A.

BACK NUT
Locknut, heat treated.
Thread: 7/8"-14
Hex: 1-1/4"
High: 49/64"
Part No. E-1835.

SPOKE WHEEL RIM NUT
Flat face, 2 sides. Grade 5.
Thread: 5/8"-11
Hex: 1-1/16"
Part No. E-4962.

SPOKE WHEEL RIM NUT
Flat face, 2 sides. Grade 5.
Thread: 3/4"-10

*Fits special "rounded" hex nuts found on Dana axles of some Ford trucks.

TUBULAR SPANNER WRENCHES

New style with 3/4" drive square opening.

1946 through current Chevrolet 5200 and 7200 lb. axles. Used with nut size 2"-16 thread (GM3663657).
Part No. E-1929.

1954 through current Chevrolet 11,000 and 13,500 lb. axles. Used with nut size 2-1/8"-16 thread (GM473636).
Part No. E-1930.

1954 through current Chevrolet 15,000 lb. axles; 1965 through current Chevrolet 15,000 lb. trailing axle; 1966 through current Chevrolet 17,000 lb. 2-speed axle. Used with nut size 2-1/2"-16 thread (GM3703711).
Part No. E-1931.

EUCLID
Wheel Attaching Parts

DISC OUTER NUT WRENCH
1½" hex - holds outer nut while turning inner nut.
Part No. E-5855.

STUD SETTER
For installing spoke wheel studs. The only other tool needed is an impact wrench with 1⅛" and 1¼" sockets or 4-way wrench.
Part No. E-5833, For 5/8" stud size, USS thread.
Part No. E-5834, For 3/4" stud size, coarse thread.

BROKEN CAP NUT & STUD REMOVAL TOOL KIT
3 tools for the price of 1. Eliminates the need to buy an entire new tool when teeth wear. Replace only the rib nut at a fraction of the cost of other removal tools.
Part No. E-5205, Broken stud and cap nut removal kit. Includes 1-1/8" rib nut, 3/4" rib nut, 5/8" rib nut, and drive-on tool.
Part No. E-5206, 1-1/8" replacement rib nut for removing broken 1-1/8" inner cap nuts.
Part No. E-5207, 3/4" replacement rib nut for removing broken 3/4" wheel studs.
Part No. E-5208, 5/8" replacement rib nut for removing broken 5/8" wheel studs.

Compressor Accessories & Parts

AIR CLEANERS

Part No. KN19040, This air cleaner provides greater atmospheric air intake capacity. Suitable for mounting on Midland and competitive model compressors. May also be remote mounted by using accessory intake manifold connector kits SN3711AC, SN3711AD, plus 3/4" I.D. hose cut to length. Unit includes filter #100696E; has 2.75" mounting centres; is 4.30" in diameter and 4.44" overall height.
Part No. 100696E, Replacement element for KN19040. 1-1/4" I.D., 4" O.D., 1" width.

UNLOADER REPAIR KIT

Part No. RNT26A, For all EL1300/EL1600 naturally aspirated and turbochargeable compressors.

MANIFOLD KITS — DISCHARGE

Part No. SN3711K, For all EL1300/EL1600 compressors - manifold - 5/8" tube
Part No. SN3711J, For all EL1300/EL1600 compressors - manifold - 1/2" NPTF

MANIFOLD KITS — INTAKE

Part No. SN3711AD, For all EL1300/EL1600 compressors - 3/4" hose, 2.75" mounting centres
Part No. SN3711AA, For all EL1300/EL1600 compressors - 1/2" pipe, 2.75" mounting centres
Part No. SN3711AC, For all EL1300/EL1600 compressors - 3/4" pipe, 2.75" mounting centres

Air Dryers

PURE AIR PLUS™

The more moisture and contaminants you're able to keep out of your truck's air brake system, the longer your brakes will last. That's why the Pure Air Plus™ Air Dryer from Midland is the best air dryer for you. Its unique design removes more moisture and contaminants than any other desiccant dryer on the market today. This unit is compact in size and lightweight for small mounting areas. Also offers one of the easiest and fastest on-vehicle serving systems on the market today.

Part No. DA34100, 12 volt Midland Pure Air Plus™ Air Dryer
Part No. DA34110, 24 volt Midland Pure Air Plus™ Air Dryer

Part No. DQ6020, Major repair kit -- includes purge, Turbo Saver™ and one-way check valve assemblies
Part No. DQ6032, Coalescing filter kit
Part No. DQ6026, Desiccant kit -- includes desiccant cartridge and coalescing filter
Part No. DQ6011, 12 volt heater kit
Part No. DQ6012, 24 volt heater kit

Specifications:
Length: 14.92 inches
Maximum Width: 9.13 inches
Weight: 18.2 lbs.
Heater: 65 watt thermostatic
Drying Method: Coalescence Desiccant
Burst Rating: 500 psi
Capacity: 24 SCFM
Inlet/Outlet Ports: 1/2" NPT
Governor Port: 1/8" NPT
Exhaust Port: 3/4" hose

AEROFINER AIR DRYER KITS

Part No. RN969, Desiccant recharge kit for Aerofiner II dryer
Part No. RN970, Purge valve kit for Aerofiner II dryer

RN969

RN970

"PURE AIR™" TRIPLE ACTION AIR DRYER

•First... it's an aftercooler, for more efficient heat dissipation.
•Second... it's a coalescer, for more effective contaminant removal.
•Third... it's a desiccant bed drying unit, for more effective moisture removal.

Part No. KN33000, Midland Pure Air Dryer c/w 12 volt heater
Part No. KN33010, Midland Pure Air Dryer c/w 24 volt heater
Part No. RN60, Minor repair kit - contains o-rings and desiccant
Part No. RN60A, Major repair kit - contains o-rings, desiccant and spitter valve parts
Part No. RN60D, 12 volt lower cover assembly
Part No. RN60E, 24 volt lower cover assembly
Part No. RN60F, Purge valve kit - contains new purge assembly, o-rings and exhaust tube
Part No. RN60G, Outlet check valve kit - contains valve disc, spring and o-rings
Part No. RN60N, 12 volt heater kit

KN33000 - Specifications.
Length - 18.25 in.
Max. Width - 7.49 in.
Weight - 23 lbs.
Relief Valve - 150 psi
Heater - 60 watt thermostatic
Max. Operating Pressure - 250 psi
Burst Rating - 500 psi
Capacity - 24 cfm
Inlet Port - 1/2" NPT
Outlet Port - 1/2" NPT
Governor Port - 1/8" NPT
Purge Port - 1" hose
Drying Method - Convection, Coalescence, Desiccant

Haldex

Desiccant Air Dryers

This desiccant series of air dryers, Turbo-2000 and Turbo-3000 are models designed to mount vertically between the air compressor and the air system's supply reservoirs. The desiccant air dryer receives hot compressed air that it cools, dries, and filters before delivery to the supply reservoirs.
The Turbo-2000 incorporates four pounds of desiccant and a separate purge tank (460 cu. in.) that is isolated from the vehicle air system. The purge tank stores clean, dry air for regeneration of the desiccant bed. Unit is constructed with a unique spin-off cartridge.
The Turbo-3000 has a specific amount of regeneration air stored within the desiccant canister eliminating the need for an isolated purge tank. This unit also is constructed with spin-off cartridge.

Turbo-2000 Desiccant Air Dryer

Part No. 620500, Turbo-2000 desiccant air dryer/tank, 12 volt, E-type*
Part No. 620504, Turbo-2000 desiccant air dryer/tank, 24 volt, E-type*

Part No. 221, Purge tank for use with above desiccant air dryers

*Holset SS E-type or QE Compressor compatible

KN24001 heated

FS-5173

Relief Valves

Part No. KN31200, 1/4" NPT male thread. Open at 150 psi; flush mount to prevent damage. Brass construction.
Part No. KN31250, 3/8" NPT male thread. Open at 150 psi; flush mount to prevent damage. Brass construction.
Part No. KN31526, 1/2" NPT female thread. Open at 250 psi. Made of brass and stainless steel. For Pure Air Plus air dryer.

Alcohol Injectors

This alcohol evaporator is an automatic vapourizing device for keeping air lines and air reservoirs free of ice. It may be used with any make of air compressor. The evaporator is connected into the compressor discharge line between the compressor and the air reservoir. The warmed compressed air stream is pumped by the compressor through a venturi shaped passage in the evaporator. A small passage ahead of and angled to the venturi admits air to the liquid alcohol below and also introduces the resulting alcohol vapour into the air stream. Capacity 40 oz.

TRUCKS & TRACTORS
Part No. A72420, Alcohol injector
Part No. A39219, Maintenance repair kit for A72420
Part No. A75962, Replacement safety valve for A72420

MIDLAND
Dash Control Valves

FLIPPER STYLE

Part No. KN20001, Panel mount - flipper style valve. Made of durable EGP. An on-off, non-automatic two position valve where all ports are 1/8" NPT. Mounting holes 1.50" centres #10-24 thread. Available face plates sold below.

AVAILABLE FACE PLATES FOR KN20001

Part No. N14515F, Reads "Tractor Trailer Protection - Normal - Emergency - Not For Parking"
Part No. K145157, Reads "On-Off"
Part No. K145158, Reads "Dry Road - Slippery Road"
Part No. K1451511, Reads "Cab Controlled - Unlock - Lock - Fifth Whe - Holland"

DOUBLE FLIPPER STYLE

Part No. KN20080, 3 position - neutral centre - manual release both sides.
Part No. KN20090, 3 position - neutral centre - automatic release 1 side, manual release 1 side.
Part No. KN20110, 2 position - manual release both sides.

•2 supply ports - 1/4" NPTF
•2 delivery ports - 1/8" NPTF
•Panel mount, directional air control valve •May be used for control of push-pull air cylinders or other air operated devices •All units supplied with handle

PUSH-PULL STYLE

Part No. KN20010, Valve c/w knob - 0 psi pop pressure.
Part No. KN20020, Valve only, no knob - internal knob thread. 25/40 psi pop pressure.

•Panel or bulkhead mount •Requires 3/4" hole in dashboard
•1/8" NPTF supply port •1/4" NPTF delivery and exhaust port

PUSH-PULL STYLE

Part No. A83580, Bulkhead mount fits 5/8" dashboard hole. Made of aluminum bar stock, all ports 1/4" NPTF. Complete with knob an face plate. Optional faceplates and replacement knob shown belov

FACE PLATES & KNOB FOR A83580

Part No. N14515BN, Face plate reads "Push to Release Brakes - Pull Normal Operation"
Part No. N14515BR, Face plate reads "Pintle Hook - Push to Release"
Part No. A25079, Replacement knob

PUSH-PULL STYLE

Part No. KN20061, Panel mount deadman type dash valve. For use on construction equipment. Made of EGP. All ports 1/8" NPTF, c/w face plate, knob, and mounting screws. See chart below for additional face plates and knobs.

Part No. KN20031, Panel mount dash valve. No knob or face plate. Made of EGP, all ports 1/4" NPTF. Pop pressure 25-35 psi. See chart below for additional face plates and knobs.

FACE PLATES AND KNOBS FOR KN20031, KN20061, KN20010, & KN20020

Part No. N14514, Knob for KN20031, KN20010, & KN20020
Part No. A25079, Replacement knob for KN20061 valve
Part No. K145151, Face plate reads "Push to Supply Trailer Air - Pull for Emergency - Not for Parking"
Part No. K1451517, Face plate reads "Push to Release and Pull to Set Brakes"
Part No. N14515AB, Face plate reads "Push for Emergency Release of Spring Brakes"
Part No. K1451510, Face plate reads "Push to Drive - Pull to Apply - Emergency and Parking Brake"

KN20061

KN20031

PUSH-PULL STYLE

Part No. KN20021, Push-pull valve c/w knob - pop pressure 35 psi. Controls parking/emergency brakes.
Part No. KN20035, Push-pull valve c/w knob - pop pressure 17½ psi. Controls tractor only parking.
Part No. KN20025, Push-pull valve c/w knob - pop pressure 35/25 psi

REPLACEMENT KNOBS FOR KN20020, KN20021, KN20035, & KN20025

Part No. KN20900, RED pin type reads "Pull to exhaust - trailer air supply - not for parking - push to supply"
Part No. KN20901, YELLOW pin type reads "Pull to apply - parking brake - push to release"
Part No. KN20902, BLUE pin type reads "Pull to apply - tractor parking - push to release"
Part No. KN20903, YELLOW pin type reads "Pull to apply - system park - push to release"
Part No.12509, YELLOW 1/4-28 thread reads "Pull to apply - parking brake - push to release"
Part No. 12510, RED 1/4-28 thread reads "Pull to apply - trailer emergency - not for parking - push to release"
Part No.12501, RED 1/4-20 thread reads "Pull to apply - trailer emergency - not for parking - push to release"
Part No.12503, YELLOW 1/4-20 thread reads "Pull to apply - parking brake - push to release"

KN20021

KN20035

KN20025

•Bulkhead mount •Requires 7/8" dashboard hole •Made of durable EGP •All ports 1/8" NPTF •Pin type knob mounting

MANIFOLD DASH VALVE

Part No. KN20615, One piece body construction made of durable EGP. Smaller size valve offers more room behind dash. Direct replacement for Bendix MV2 or MV3 valves. All ports - 1/4" NPTF. Comes complete with knobs. Controls parking/emergency brakes and trailer air supply.

Brake Valves

HAND OPERATED

Part No. KN20541, In-column mount hand operated brake valve. Made of durable EGP. Handle applies 70° maximum travel. All ports 1/4" NPTF. Handle and knob not supplied with valve.
Part No. KN20543, Replacement handle.

TRAILER BRAKE CONTROLS

Part No. KN20561, Trailer brake control. Holding style - c/w handle and brackets.
Part No. KN20562, Trailer brake control. Self return style - c/w handle and brackets.

•External steering column mount •Handle applies 70° maximum travel •Chrome handle
•All ports 1/4" NPTF

KN20541

KN20561/ KN20562

FOOT OPERATED

Part No. KN22100, Single circuit foot operated brake valve provides smooth and consistent pedal feel over competitive application valves. Used primarily with pre CMVSS 121 vehicles. Supply ports - 1/2" NPTF and 1/4" NPTF. Deliver ports - 1/2" NPTF. Valve only — no pedal.

Part No. KN22150, Dual circuit foot operated brake valve provides smooth and consistent pedal feel over competitive application valves. Meets CMVSS 121 requirements. Popular changeover model requires minimal modifications. All ports - 3/8" NPTF.

Part No. SN4017A, Pedal kit for above two models.

KN22100

KN22150

Relay Valves

2 PORT RELAY VALVE - COMPACT SIZE

Just 3½" x 3½" x 3⅝" tall. A fast, low cracking pressure straight relay for tractor-trailer-truck applications. Two mounting holes, .34 diameter x 1.50" centres. Cover may be rotated without affecting warranty or performance. All ports 3/8" NPTF.
Part No. KN28500.

2 PORT RELAY VALVE - LOW DIFFERENTIAL, HIGH CAPACITY

4 psi cracking pressure. Meets or exceeds CMVSS 121 timing requirements. Two mounting holes, .40 diameter x 2.50" centres. Cover may be rotated without affecting warranty or performance. Control port - 1/4" NPTF. Supply and delivery ports - 1/2" NPTF.
Part No. KN28140.

2 PORT RELAY VALVE - MULTI-PURPOSE, LOW DIFFERENTIAL, HIGH CAPACITY STRAIGHT RELAY.

4 psi cracking pressure. Meets or exceeds CMVSS 121 timing requirements. Two mounting holes, .34 diameter x 1.50" centres. Cover may be rotated without affecting warranty or performance. Control port - 3/8" NPTF; supply port - 1/2" NPTF; delivery ports - 1/2" NPTF.
Part No. KN28061.

4 DELIVERY PORTS FACING DOWN - LOW DIFFERENTIAL, HIGH CAPACITY.

4 psi cracking pressure. Meets or exceeds CMVSS 121 requirements. Cover may be rotated without affecting warranty or performance.

Control port - 1/4" NPTF; Supply port - 3/4" NPTF; Delivery ports - 1/2" NPTF.
Part No. A86477.

Auxiliary supply port may be used for air suspensions or other accessories requiring reservoir air. Control port - 1/4" NPTF; Supply port - 3/4" NPTF. Delivery ports - 3/8" NPTF;
Part No. A103600.

4 PORT EMERGENCY RELAY

Four delivery ports facing down. Suitable for pre 121 trailers, dollies, or exempt trailers. 4 psi cracking pressure. Service port - 1/4" NPTF; emergency port - 1/4" NPTF; reservoir port - 3/4" NPTF; delivery ports - 1/4" NPTF.
Part No. KN30300.

FULL FUNCTION VALVES

•Fully complies with CMVSS 121 trailer regulations, for spring brake control and other requirements.
Single valve for tandem axle:
-one or two reservoir systems -protects supply line to 70 psi
-no dragging spring brakes with 70 psi or higher in supply line
-3 second spring brake apply -service brake functions
Suitable for easy retrofit of multi-valve systems.
Part No. KN28600, c/w 3/4" NPT steel nipple for reservoir
Part No. KN28601, c/w 1/2" NPT steel nipple for reservoir

4 PORT MULTI-FUNCTION VALVE

All in one compact valve assembly contains pressure protection, check valves, spring brake control, relay, and anti-compounding. Interchangeable with competitive units. Meets all CMVSS 121 trailer requirements for spring brake control and other regulations. Emergency port - 3/8" NPTF; service port - 3/8" NPTF; reservoir ports - 1/2" and 3/8" NPTF; delivery ports - 3/8" NPTF.
Part No. KN26020.

Haldex

QUICK RELEASE VALVES

Used wherever a quick release function is required in the air brake system. Made of durable EGP - corrosion and weather resistant. Utilizes an oil resistant diaphragm for longer life. Aids in meeting CMVSS 121 timing requirements. 1.5" mounting centres.

PART NO.	INLET PORT	DELIVERY PORT	DIFFERENTIAL PSI
KN32003	1/2	3/8	3
KN32005	3/8	3/8	0
KN32011	1/2	3/8	0
KN32050	1/2	3/8	6
KN32060	3/8	3/8	6

Contains quick release valve with built-in two way check valve — used in spring brake circuits to prevent compounding. Replaces two valves with one. Oil resistant diaphragms and disk. 1.5" mounting centres, all ports 1/4" NPTF.
Part No. KN32040.

AIR LINE CHECK VALVES — ONE-WAY CHECK VALVES

Used wherever pressures must be isolated and not allowed to feed back. Can be used on truck, trailer, and tractor applications. A popular use is to protect dry tanks from wet tank failures per CMVSS 121.
Part No. KN23080, 1/4 NPT port size, female-female thread
Part No. KN23010, 3/8 NPT port size, male-female thread
Part No. KN23000, 1/2 NPT port size, male-female thread
Part No. KN23040, 3/4 NPT port size, male-female thread

AIR LINE CHECK VALVES — TWO-WAY CHECK VALVES

Not position sensitive, may be mounted in any position. Can be used in place of ball or shuttle types. Improves FMVSS-121 systems. Used when two inputs must become one output.
Part No. KN25060, 3/8 NPT port size.

AIR LINE CHECK VALVES — TWO-WAY CHECK VALVES - SHUTTLE TYPE

High capacity, for use when two inlets must become one outlet. Functions best when mounted horizontally. Interchangeable with most competitive models.

PART NO.	INLET PORT SIZE	OUTLET PORT SIZE
KN25120	1/4 NPT	1/4 NPT
KN25110	3/8 NPT	3/8 NPT
KN25061	3/8 NPT	3/8 NPT
KN25100	1/2 NPT; 3/8 NPT	3/8 NPT

KN25110

KN25100

KN25120

PROTECTION VALVES — PRESSURE PROTECTION VALVE

Non-adjustable. Used to protect the air brake system from accessory failure. All ports 1/4" NPTF.

PART NO.	OPERATING PSI OPEN	CLOSED
KN31000	65	45
KN31010	95	75

Pressure protection with one-way check valve. Ideal for use in protecting the air brake system from accessory failures. Also used with non-charging emergency relay valves. 75 psi opening pressure.
Part No. KN31171.

ISOLATION VALVE

The Midland Isolation Valve saves fuel and horsepower. Engines that have air dryers and turbocharged compressors allow engine boost pressure to be vented to the atmosphere when the air compressor is in the unloaded mode. Under normal conditions, this will cause boost pressure loss which in turn causes loss of engine horsepower. Under heavy load conditions when you need the power most, is when the greatest boost pressure and horsepower loss will occur. The Midland Isolation Valve will help remedy this problem.
Part No. KN23500.

SOLENOID AIR VALVE

Most commonly known as an axle valve or three-way ball check valve (normally closed) and is activated by a 12V coil. Used to operate the shift mechanism of a two-speed axle. 2 ports, both are ¼" FNPT.
Part No. KN68230.

GOVERNOR

1/8" NPTF ports and .336 diameter mounting holes. Direct compressor or remote mounting. The piston type governor operates in conjunction with the compressor unloading mechanism. The governor automatically controls the air pressure in the supply system between the desired predetermined maximum and minimum pressure.
Part No. KN18530.

TRACTOR PROTECTION VALVES - NON-AUTOMATIC

2-line non-automatic tractor protection valve. Must be used with pressure sensing dash control valve. Quick release feature eliminates the need for extra valve. Will not allow trailer brake compounding. Directly replaces competitive valves. Tractor service port - 3/8" NPTF; tractor emergency port - 1/4" NPTF; trailer service port - 1/2" NPTF; trailer emergency port - 1/2" NPTF.
Part No. KN34060.

TRACTOR PROTECTION VALVES - AUTOMATIC

Two and three line automatic tractor protection with quick release. Can replace two valves on some competitive systems. Minimize in-cab noise by exhausting trailer lines outside the cab (on model with Snorkel).
Part No. KN34030, 2 line system type tractor protection valve
Part No. KN34050, 3 line system type tractor protection valve c/w exhaust Snorkel
Part No. KN34070, 3 line system type tractor protection valve c/w 1/8" stoplight switch port

Tractor control port - 3/8" NPTF; trailer service port - 1/2" NPTF; trailer emergency port - 1/2" NPTF; reservoir port - 3/8" NPTF; dash valve port - 1/4" NPTF.

INVERSION VALVE

Used with spring brake equipped trucks or tractors. Allows modulated control of spring brake in case of primary system air failure. Interchangeable with competitive models (with hose line relocation). 4.65" mounting centres. All ports - 1/4" NPTF.
Part No. KN28030.

AIR LINE FILTER

Part No. 11480, Two 1/4" NPTF ports. Removable and replaceable filter element. Can be used in both emergency and service lines.
Part No. N12971B, Replacement filter for 11480.

BUYERS PRODUCTS

Air Valves

4-WAY 2-POSITION P.T.O. AIR VALVE
•Panel mount valve is ideal for operating double acting cylinders •Easily mounts in dashboards or consoles •Includes tailgate control faceplate
Part No. BAV010.

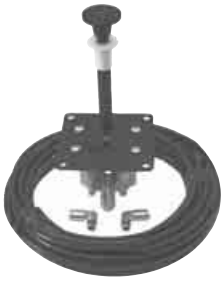
5 PORT 4-WAY 2-POSITION SOLENOID AIR VALVE
•Large 1/4" NPT ports assure adequate air flow •Rugged 12 VDC coil comes complete with 2' leads •Can be easily converted to 3 way operation by installing 2 pipe plugs
Part No. BAV050SA.

HEAVY DUTY 4-WAY 3-POSITION P.T.O. AIR VALVE
•3 position detented spool allows for adjusting linkage without shutting off air pressure •Center position blocks air at valve while opening both cylinder ports to atmosphere •Large 1/4" NPT ports allow maximum air flow
Part No. BAV020.

TOGGLE STYLE AIR VALVE KIT
•Spring return brass air feathering toggle valve •Brass push in fittings •25' x ¼" dia. nylon DOT approved tubing •Console adapter plate •Stainless steel finger guard
Part No. K1010TAS.

3-WAY 2-POSITION MANUAL AIR VALVE
•8" console •3 way 2 position detented •Manual air valve used for engaging PTO's
Part No. BAV030.

NEUTRAL LOCKOUT AIR VALVE KIT
•Spring return neutral lockout air valve •Brass compression fittings •25' x ¼" dia. tubing
Part No. K1010AS.
Part No. BAV040, Valve only.



NEUTRAL LOCKOUT/ FEATHERING AIR VALVE KIT
•Spring return neutral lockout air valve •Brass compression fittings •25' x ¼" dia. tubing
Part No. K1010FAS.

GDX
Airline/Air Brake Repair Kit

61 PC. AIRLINE/AIRBRAKE REPAIR KIT

Includes an assortment of common fittings for airline repair on both nylon synflex tubing and 3/8" rubber airline. Includes compression unions and connectors, precision grip tube fittings, union splicer fittings and replacement ferrules. Also contains both red and blue polyurethane gladhand seals.
Part No. KIT9.

MIDLAND
Ready Made Air Brake Hose Assemblies

Haldex

All air brake hose assemblies are made from Type B air brake hose with permanently attached couplings. Hoses meet SAE J1402 and DOT 106 specifications. All air brake hoses come with one swivel end and one fixed end. 3/8" hoses have 1/4" NPT ends — 1/2" hoses have 3/8" NPT ends.

COILAIR

Coiled Air Hose Assemblies

All thermoplastic construction fights off oil, grease, gasoline, diesel fuel, road salts, and chemicals. Highly resistant to cuts and abrasion. Coilair lines stay taut throughout all truck manoeuvres. If tension relaxes after long service it may be fully restored by pulling one end of the line back through the coil.
Coilair is an engineered set of retractable lines for the safe convenient connection of air lines between tractors and trailers. Permanently tensioned, they stretch up to 12 times their closed length to eliminate unsightly and hazardous draped lines, pogo sticks, springs, and hangers.

PART NO.	DESCRIPTION
COILAIR-15SET	15 ft. set Coilair - one red and one blue hose c/w 1/2" male pipe fittings

PHILATRON

Coiled Air Hose Assemblies

Stallion-Flex II™ Coiled Air Hoses — 600 Series

•Lead length: 2 @ 10" •Nominal O.D.: .620" •Nominal I.D.: .375" •Nominal wall thickness: .123" •Fittings: 1/2" x 1/2"

Application: Trucks that require brake air lines from the tractor to the trailer.
Features: Temperature rated at -70°F to +220°F. Resistant to oil, chemicals, ozone, weather, and sunlight. Hose flexibility permits a shorter working length of brake lines, thereby increasing braking efficiency. Coil memory will not kink or sag, and the hose will not crack in sub-zero temperatures. TWO YEAR WARRANTY against cracking, kinking, excessive sagging or other significant physical damage resulting from temperature extremes, exposure to oils and chemicals, or flexing fatigue. DOT certified.

PART NO.	DESCRIPTION
S3-600-12CBR	Set, 1 red and 1 blue coiled air hose, 12 ft. working length

Hytron Air Brake Tubing

Hytron Tubing meets DOT and SAE specifications for air brake system use. It is not intended for compressor discharge lines, frame to axle applications, or for tractor to trailer intervehicular connections. Hytron Air Brake Tubing uses standard DOT approved compression fittings with inserts listed unless using fittings with built in inserts.

PHILLIPS
Gladhands

QWIK-E® Gladhands Feature:
•Quick release valve and gladhand combined
•Anodized housing for corrosion protection
•For use with ABS and non-ABS brake system
•Trailer brakes are released up to 50% faster than conventional methods
•Eliminates in-city stop and go trailer tire bounce
•Standard equipment on most OEM trailers

QWIK-E® STRAIGHT MOUNT GLADHAND
•For use on trailers only •1/2” female pipe thread without filter screen
Part No. 12-206.

QWIK-E® ANGLE MOUNT GLADHAND
•For use on trailers only •3/8” female pipe thread bottom port
Part No. 12-236.

QWIK-E® SERVICE KIT
•Kit includes breather valve, polyurethane seal, snap ring and gasket
Part No. 12-226.

STANDARD Gladhands Feature:
•Wrap around connector plate provides additional strength
•Powder-coated connector plate for corrosion resistance
•Zinc-coated detent plates
•Keyed for positive connection
•E-coated screws for corrosion protection

STRAIGHT MOUNT GLADHAND
•For use on aircoil, tractor & trailer •1/2” pipe port
Part No. 12-006, Service, blue.
Part No. 12-008, Emergency, red.
Part No. 12-010, Universal.

ANGLE MOUNT (38°) GLADHAND
•For use on trailer •3/8” pipe port
Part No. 12-136, Service, blue, bottom port.
Part No. 12-138, Emergency, red, bottom port.

Gladhands

SWINGER - 3/8" PIPE PORT
•Designed for intermodel and piggy-back trailers where straight or angled gladhands are exposed to damage •Inner seal prevents dirt and insects from entering the air brake system •Stainless steel return spring for long life •Compression fitting
Part No. 12-5506-38, 55° w / standard service gladhand.
Part No. 12-5508-38, 55° w/ standard emergency gladhand.

COMPOSITE SHUT-OFF GLADHANDS
•Designed for double trailers •Composite material for increased protections against magnesium chloride, road salts and chemicals •Integrated shut-off arm to seal air system •Molded in-colour for easy identification •Standard with polyseal
Part No. 12-316, Service, 3/8" female pipe thread.
Part No. 12-318, Emergency, 3/8" female pipe thread.

SHUT-OFF GLADHANDS
•Designed for double trailers •Integrated shut-off valve •Colour coded connector plate for easy identification •Includes bulk head fitting •Standard with rubber seal
Part No. 12-306, Service, blue, 1/2" air tube.
Part No. 12-310, Emergency, red, 1/2" air tube.

GLADHAND FILTER SCREENS
Part No. 12-038, Fits gladhand #'s 12-006, 12-008, 12-010, 12-136, 12-138.
Part No. 12-039, Fits QWIK-E® gladhand #'s 12-206, 12-236.

12-038

12-039

GLADIATOR GRIP™
•Provides strong leverage for coupling/uncoupling gladhands •One piece body for easy installation •Durable and strong; made from solid T6 aircraft aluminum •Corrosion resistant anodized colour coating •Easy installation - installs between aircoil and gladhand
Part No. 12-600, Pair, red & blue.

Cable Support

STOW-A-WAY™ GLADHAND HOLDER
•STOW-A-WAY™ offers safe, easy storage for coiled electrical cable and air lines when not in use •Anti-corrosive, durable housing •Air & electrical can be coupled/uncoupled with both feet on the ground
Part No. 15-041, 1 Plug.
Part No. 15-042, 2 Plug.

MOUNTING KIT
•Securely mounts STOW-A-WAY™ to pogo sticks
Part No. 17-039.

POGO STICKS
•Designed for use with heavier ABS cables •Extra heavy duty internal spring •Accepts STOW-A-WAY™ (#15-041, 15-042), needs #17-039 mounting kit •Aircraft quality mounting bolt •Includes 3 hose holder •8" coated spring for corrosion resistance •Heavy duty 7/16" mounting bolt
Part No. 17-0400, 40" chrome.
Part No. 17-0401, 40" gold chromate.

TRACKER BARS
•Supports electrical and air assemblies •Stainless steel bar •Includes bar, snap-on clip, sleeve, 3 hose holder, 20" spring
Part No. 17-249, Kit with 36" bar.
Part No. 17-149, Kit with 43" bar.

SNAP-ON CLIP
•Offers easy replacement for spring kits •No need to unhook tracker bar •For use with #17-149 & 17-249.
Part No. 17-160.

TRACKER BAR REPLACEMENT PARTS KIT
•Replacement spring and hardware for tracker bars •Includes snap-on clip, sleeve, 3 hose holder and spring
Part No. 17-420, Kit with (2) 16" springs.
Part No. 17-148, Kit with 20" spring.

Air Assemblies

POWER GRIP™ COILED AIR ASSEMBLY
•Perfect for frequent coupling/uncoupling •Extra long brass handle adds cold weather coupling/uncoupling leverage •Extra long plated spring adds life to nylon tubing ends •Vertical at the tractor, angled at the trailer end prevents hose kinking •Includes thread seal for secure connection to gladhand and chassis •Single piece trailer side & three piece tractor side fittings
12' WORKING LENGTH
Part No. 11-3120, Set (red and blue).
Part No. 11-3100, Red (emergency) coil only.
Part No. 11-3110, Blue (service) coil only.

15' WORKING LENGTH
Part No. 11-3150, Set (red and blue).
Part No. 11-3170, Red (emergency) coil only.
Part No. 11-3180, Blue (service) coil only.

HEAVY DUTY COILED AIR ASSEMBLY
•Industry standard nylon tubing •Vertical at the tractor end, angled at the trailer end prevents nose kinking •Includes thread seal for secure connection to gladhand •Single piece trailer side & three piece tractor side fittings •Plated steel spring for cable support
12' WORKING LENGTH
Part No. 11-312, Set (red and blue).
Part No. 11-310, Red (emergency) coil only.

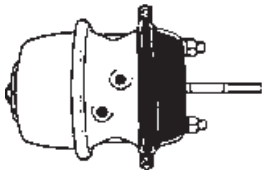
GP2430L	24/30	Gold Seal piggy-back half — long stroke
GC3030	30/30	Gold Seal combination spring brake
GC3030CS	30/30	Gold Seal double diaphragm spring brake; includes clevis kit
GP3030	30/30	Gold Seal piggy-back half
GC3036	30/36	Gold Seal combination spring brake
GC3636	36/36	Gold Seal combination spring brake

*Note: Clevis yoke and pins sold separately.

"Life Seal" Spring Brakes

COMBINATION FEATURES:
- 9½" fully threaded push rod
- Orange alert stroke indicator
- Piloting dust shield and diaphragm
- Epoxy powder coated spring and housing
- Gore-Tex® filter eliminates contamination
- Integral caging tool
- Guided pressure plate/compression spring design
- Zinc plated spring chamber - permanently attached for safety
- 6 year unlimited mileage brake warranty



PIGGY-BACK FEATURES:
- Gore-Tex® filter eliminates contamination
- Integral caging tool
- Guided pressure plate/compression spring design
- Zinc plated spring chamber - permanently attached for safety
- 6 year unlimited mileage brake warranty

GDX
30/30 Spring Brake Chamber With Clevis

FEATURES:

Power Spring: •Heat fused •Epoxy coating
Clamp Bands: •Matched stamping for maximum sealing •Alloy steel maintains consistent pressure •Zinc plated for rust protection
Non-Pressure Housing: •Welded stiffeners under mounting studs •Rust preventive coating
Return Spring: •Heavy steel plate meets OEM standards •Phosphate coating for rust protection
Push Rod: •Heavy steel plate meets OEM standards •Rolled edge has smooth working surface •Orange stroke alert indicator •Rust preventive coating
Aluminium Adapters: •Double O-ring section •Wear resistant plated piston
Diaphragms: •High quality rubber, nylon reinforced fabric
Fasteners: •Tensile strength •Zinc plated for rust protection

Part No. GD3030WC, Type 3030 sealed unit with clevis, 2.5" stroke, 10.5" push rod length.

ADJUSTER REPLACEMENT PARTS

Part No. 427-10558, Double Bend Flat Stud Kit, Trailers - Includes 4 each: plastic bushings, anchor stud, nut and installation instructions. To update from round pin to flat stud.
Part No. 427-10563, Double Bend Flat Stud Kit.
Part No. 452-10125, Plastic Bushings - Double bend control lever replacement bushing (black rectangular).

CREWSON INDUSTRIES

Automatic Slack Adjuster With Stroke Indicators

Brake Stroke Indicator is permanently mounted to the automatic slack adjuster, eliminating the need to crawl under vehicles to determine air chamber stroke. Auto-Check™ consists of a bright yellow pointer, and an indicator plate divided into four colours for easy use:

1. White Area: Correct home/set-up position
2. Green Area: Normal working stroke
3. Yellow Area: Brake stroke is near re-adjust limits
4. Red Area: Brake stroke is past re-adjust limit

All Crewson Industries Automatic Slack Adjusters are sold in a complete kit with Crewson Industries clevis, clevis pins, and template. Clevis Kits are also available.

PART NO.	CHAMBER SIZE	SPLINE SIZE	CLEVIS TYPE	ARM LENGTH

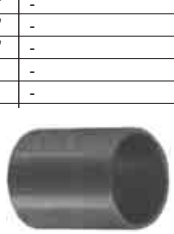
CLEVIS PIN BUSHING

O.D. 5/8"; I.D. 1/2"; length 31/64".
Part No. E-2307.



BRAKE REPAIR KITS

These kits contain all necessary parts to service one brake assembly. (Anchor pins, lock washers, springs, etc.) Only a few have been itemized here, please contact Gregg Distributors for more information or specific application requirements.

Part No. E-2030HD, "Mega" kit, Spicer (Dana) and Std. Forge, 12-1/4" brake with cast shoes.
Part No. E-1887ASHD, "Stop Mate" kit, Eaton 16-1/2" single anchor pin brake.
Part No. E-2121SHD, "Mega" kit, Fruehauf "Pro-Par" 16-1/2" brakes.
Part No. E-3710SHD-C, "Stop Mate" kit, Fruehauf "Pro-Par" 16-1/2" late model "XEM" brake.
Part No. KIT-4SHD, "Stop Mate" kit, Rockwell 16-1/2" "P" series and Std. Forge early model brake.
Part No. E-2769SHD-C, "Stop Mate" kit, Rockwell 16-1/2" "Q", "Q Plus", Spicer (Dana) "Fast Change", "XLII" and Hendrickson "Intraax" brake.
Part No. E-3895SHD-C, "Stop Mate" kit, Universal 16-1/2" quick change series brake. For use with all Rockwell "Q" brake shoes. Can also be used for all Fruehauf "XEM" and Spicer "Fast Change" shoes.

"POSI-ROLL" DIAMOND KNURLED BRAKE SHOE ROLLER

For fabricated brake shoes. For Eaton 16-1/2" "ES" brake.
Overall length: 2-7/32"
Length of large dia.: 1-9/32"
O.D.: 1-1/4"
Part No. E-2177.

BRAKE SHOE ROLLERS

For 16-1/2" brakes with fabricated brake shoes.
Overall length: 2-7/32"
Length of large dia.: 1-9/32"
O.D.: 1-1/4"
Part No. E-523.

Part No. E-781, Same as #E-523 except 1/8" oversize version. O.D. 1-3/8".

"POSI-ROLL" DIAMOND KNURLED BRAKE SHOE ROLLER

For cast shoes.
Overall length: 1"
O.D.: 1-1/4"
I.D.: 3/4"
Uses Euclid pin #E-501.
Part No. E-2176.

BRAKE SHOE ANCHOR PIN

Hard chrome plated. For cast and fabricated shoes with replaceable bushings. Also late model Mack.
Part No. E-502.

BRAKE SHOE ANCHOR PIN

Zinc clear chromate plated. For Rockwell, Eaton, Fruehauf, Spicer and Std. Forge axles. Use with snap ring and retainer washer.
Part No. E-1112S.

BRAKE SHOE ANCHOR PIN

Zinc clear plated. For late model Fruehauf "XEM" brake. Yellow dichromate finish helps distinguish from #E-2766S anchor pin with zinc clear chromate finish.
Part No. E-3711S.

BRAKE SHOE ANCHOR PIN

Zinc clear chromate plated. For Rockwell "Q" brake and Spicer "Fast Change" brake.
Part No. E-2766S.

LOCK RING

Part No. E-801, Can be used on all 1¼" anchor pins with grooves.

Part No. E-527, Use with Eaton 16½" diameter fabricated steel shoes and Std. Forge 12¼" fabricated steel shoes.

ANCHOR PIN SPIDER BUSHING

Stainless steel.
Part No. E-920.

Air Brake & Axle Parts

BRAKE SHOE RETURN SPRING
Black. 6-1/4" overall length, 1" O.D.
For 16-1/4" brakes.
Part No. E-757.

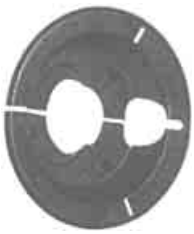
CAM BRAKE SHOE RETURN SPRING RETAINER
2-3/4" overall length, 1/4" O.D.
Part No. E-747.

BRAKE SPIDER
Bolt-on spider assembly for 16-1/2" brakes. Easy anchor pin removal and replacement. Prevents bending of spiders caused by driving out frozen anchor pins. Allows adjustment for wear. Includes seal and bushing. 5-5/8" pilot diameter.
Part No. E-957.

BRAKE SPIDER MOUNTING BOLT & NUT
Grade 8. 1/2" diameter x 1-13/16" long.
Part No. E-632.

DUST SHIELDS
For brake sizes 16-1/2" x 6" or 16-1/2" x 7". Steel or space age nylon plastic (corrosion resistant and 3.5 lbs. lighter than steel dust shield).
Part No. E-886, Steel.
Part No. E-3775, Plastic.

DUST SHIELDS
For brake sizes 16-1/2" x 6" or 16-1/2" x 7". For Meritor trailer applications with fabricated steel spiders.
Part No. E-9095.



BRAKE CAMSHAFTS

EUCLID LEFT HAND PART NO.	EUCLID RIGHT HAND PART NO.	DESCRIPTION/APPLICATION
E-1095	E-1094	For Air Ride Suspensions with 16½" brakes - 1½" diameter and 10 spline

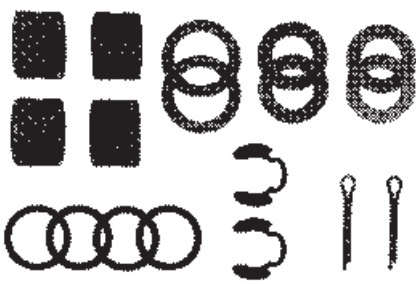
E-7219	E-7220	For Spicer Trailer Axles with 16½" - 1½" diameter and 10 spline
E-4892	E-4893	For Trailer Axles with various 16½" - 1½" diameter and 10 spline
E-9665	E-9666	For Meritor Drive Axles with 16½" Q Plus brakes - 1½" diameter and 28 spline

Only a few camshafts have been itemized here, please contact Gregg Distributors for more information or specific application requirements.

CAMSHAFT REPAIR KITS
For 16-1/2" dia. cam brakes. These kits contain all necessary parts to service one pair of camshafts. (Bushings, seals, washers, etc.) Only a few have been itemized here, please contact Gregg Distributors for more information or specific application requirements.

Part No. E-2125, Kit, for Eaton self contained drive axle brakes.
Part No. E-2090, Kit, for late model Fruehauf "Pro-Par" axles with 16-1/2" brakes.
Part No. E-2086B, Kit, for Rockwell 16-1/2" and 18" drive axle "P" and "Q" series brakes "universal kit".
Part No. E-3993B, Kit, for Rockwell 15 and 16-1/2" drive axle "Q" brakes.
Part No. E-2287, Kit, for Spicer and Std. Forge.



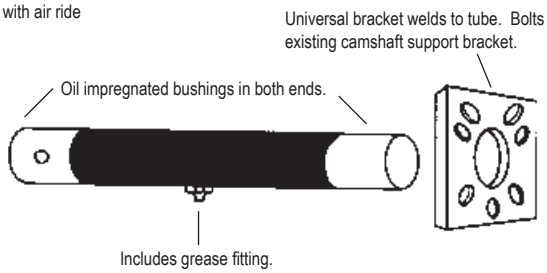
CAMSHAFT SUPPORT BRACKET
For Spicer and Std. Forge 16-1/2" dia. brakes. Includes #E-2102 bushing.
Part No. E-2104.

CAMSHAFT SUPPORT BUSHING ASSEMBLY
For Rockwell trailer axles.
Part No. E-1318A.

CAMSHAFT TUBE ENCLOSURES FOR TRAILERS
For greater camshaft life where trailer is subjected to extreme operating conditions.
For standard 1½" dia. camshaft:
Spider end I.D.: 1½"
Support end I.D.: 1½"
Tube overall length: 17¾"
Tube O.D.: 1⅞"
Cam length: 20⅜"
Part No. E-4737A.

Support bracket mounting plate. Universal standard adapter for 1-7/8" O.D. cam tube enclosures.
Part No. E-4739.

For standard 1½" dia. camshaft with air ride suspension:
Spider end I.D.: 1½"
Support end I.D.: 1½"
Tube overall length: 21"
Tube O.D.: 1⅞"
Cam length: 23¾"
Part No. E-4738A.



CAMSHAFT BUSHING
Nylon. O.D. 1⅞"; I.D. 1½"; length 1¼".
Part No. E-536.

CAMSHAFT BUSHING
Bronze. O.D. 1⅞"; I.D. 1½"; length 1¼".
Part No. E-667.

CAMSHAFT BUSHING
Nylon. O.D. 1⅞"; I.D. 1½"; length 1½".
Part No. E-759.

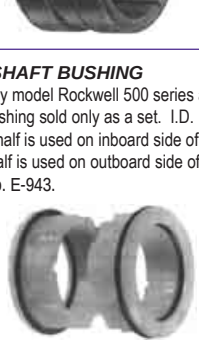
CAMSHAFT BUSHING
Nylon. O.D. 1⅞"; I.D. 1½"; length 2".
Part No. E-661.

CAMSHAFT BUSHING
Nylon. O.D. 2-15/32"; I.D.
1½"; length 1¾".
Part No. E-2102.

CAMSHAFT BUSHING
Nylon. O.D. 2½"; I.D.
1-19/32"; length 1½".
Part No. E-1577A.

CAMSHAFT BUSHING
Nylon. O.D. 2¾"; I.D.
1½"; length 2½".
Part No. E-535.

CAMSHAFT BUSHING
For early model Rockwell 500 series axles. Split bushing sold only as a set. I.D. 1½". Yellow half is used on inboard side of spider; white half is used on outboard side of spider.
Part No. E-943.



CAMSHAFT SPACER WASHERS

PART NO.	O.D.	I.D.	THICKNESS	APPLICATION
E-1113	1⅞"	1 17/64"	.060	Plated. For Rockwell 4000-6000 series axle spline end.
E-564	2"	1 17/32"	.050	Plated. For Rockwell RN/RL series.
E-2411A	2¼"	1⅝"	1/32"	Plated. For Rockwell 4000-6000 series axle cam end.
E-581	2¼"	1 17/32"	.032	Plated. Used on all 1½" dia. camshafts.
E-580	2¼"	1 17/32"	.060	Plated. Used on all 1½" dia. camshafts including end washer for Fruehauf "Pro-Par" camshaft.
E-719	2 7/16"	1 9/16"	.120	Plated. Used on Rockwell and Shuler axles.

CAMSHAFT SEALS

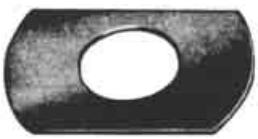
PART NO.	O.D.	I.D.	THICKNESS	APPLICATION
E-1416	1⅞"	1½"	3/16"	For 1½" dia. camshafts. Use with late model Rockwell and Std. Forge weld-on spiders.
E-1416A	1⅞"	1½"	1/4"	Same as E-1416 except 1/4" thick. Cannot be used on late model Rockwell axles.
E-654	2 1/16"	1½"	1/4"	For 1½" dia. camshaft.

E-801/E-4736/E-526/E-1569

E-910

CAMSHAFT LOCK RINGS

PART NO.	I.D.	THICKNESS	APPLICATION
E-801	1⅛"	1/16"	For Rockwell 4000-6000 series axle
E-4736	1⅜"	3/32"	Wider snap ring for use with Rockwell drive axle camshafts. Not for use with Euclid replacement camshafts.
E-526	1 31/64"	1/16"	For all 1½" dia. camshafts.
E-1569	1½"	1/16"	For Rockwell 4000-6000 series axle and "Pro-Par" axle with 1⅝" dia. camshaft.
E-910	1½"	1/16"	For 1½" dia. camshaft. Use in cam front lock groove.



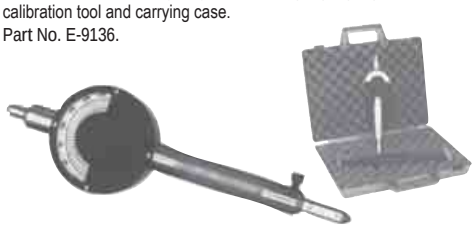
CAMSHAFT HEAD WASHER

PART NO.	O.D.	I.D.	THICKNESS	APPLICATION
E-656	3⅞"	1½"	1/16"	For 1½" dia. camshafts. Can be used on Fruehauf camshafts by reversing.

Air Brake & Axle Parts

BRAKE SHOE ANCHOR PIN PRESS
A heavy duty press that will easily remove rusted and corroded brake shoe anchor pins without damage to the brake shoe spider. Removes pins up to 1¼" diameter.
Part No. E-2654.

HEAVY DUTY BRAKE DRUM GAUGE KIT
Easy to read 4" dial calibrated in ten thousandths from -.040 to +.120 with an unbreakable crystal. Measures any brake drum from 12" to 18" diameter in 1/4" increments. Both end tips of gauge are made with hardened steel balls inserted at contact points for accuracy and service. Easy to adjust slide bar shows exact drum diameter to be checked. Includes heavy duty brake drum gauge, gauge calibration tool and carrying case.
Part No. E-9136.



Please Note: The preceding pages featuring Euclid Air Brake & Axle Parts is only a partial representation of the line. Gregg Distributors Ltd. offers a much wider assortment of these parts from Euclid, please call for more information.

S-Cam Rotation Meters - Cam Rotation Meters For PMVI Spec

SPLINE CUP TYPE BRAKE CAM ROTATION METERS
The splines on a ten spline S Cam are spaced at 18° apart, the splines on a 28 spline S Cam are spaced at 6.42° apart. To increase the accuracy of the start position on the ten spline cup type brake cam rotation meter, three colour coded ten spline meters are available each with its own timing position, 9°; +9°; -9°.
Part No. GOLDCA92B, 10 spline, 0° cup type, 1.50" ID.
Part No. BLUECA92B, 10 spline, -9° cup type, 1.50" ID.
Part No. SILVERCA92B, 10 spline, +9° cup type, 1.50" ID.
Part No. CA92C, 28 spline, 0° cup type, 1.50" ID.

GOLDCA92B

BLUECA92B

SILVERCA92B

CA92C

REVERSIBLE & UNIVERSAL BRAKE CAM ROTATION METERS
All brake cam rotation meters have an internal index arrow for timing the meter to the S Cam. All configurations of the brake cam rotation meters replace the existing external spacer washer and accurately measure 120° of accumulated brake adjustment, left or right S Cams. Brake rollers over-cam after 145° of cam rotation, 2" of air cylinder stroke is equal to an additional 18° of cam rotation.
Part No. CA92A, Flat 10 spline, reversible, 1.50" ID.
Part No. CA92F, Flat 10 spline, reversible, 1.25" ID.
Part No. CA92G, Flat, universal, 1.25" ID.
Part No. CA92D, Flat, Freuhauf, 1.50" ID.

Relined Brake Shoes

•Sold by the shoe •No hardware •No box, bulk •Core charge applies

HD AMERICA 20
Performance Plus Savings
HDAPN 20 provides guaranteed OE grade performance and delivers outstanding value, while reducing maintenance costs. Rated for 20,000 lb. axles, HDAPN 20 is the perfect choice for normal loads, in both city and highway applications. Grey-Rock GS linings.

HD AMERICA 23
Stopping Power for the Toughest Application
HDAPN 23 is the block to choose for extra stopping power. Manufactured for dump, refuse, tanker, ready-mix and other heavy duty applications, this superior block is rated for 23,000 lb. axles. Grey-Rock GG linings.

KIC Brake Drums

•All brake drums conform to ASTM A-159, Grade 3500B •Hardness range for all brake drums is 207 to 255 Brinnel thus providing long term wear properties •All balanced drums are machine balanced using computer controlled dynamic balancing equipment •All products are machined using CNC machinery and inspected using CMM measuring equipment •KIC brake drums have passed dynamometer drum distress testing performed by Carlisle motion control •KIC provides limited lifetime warranty for all wheel end products

PART NO.	DESCRIPTION
52120-12	16½" x 7" drum. Replaces Dayton #122601; Durametal #16778; Gunite #3295A; Webb #68981.

EUCLID
Steelite X30™ Brake Drums

These brake drums set a new standard in advanced wheel-end design and development. Exclusive one-piece shell provides exceptional durability and concentricity, and reduces weight. One-piece design also eliminates weld seams. Significantly lighter than standard full-cast drums (up to 200 lbs. for a typical tandem axle tractor/trailer combination).

PART NO.	DESCRIPTION
53-123537-002	Crosses with Centrifuse #89996B
53-123565-002	Crosses with Centrifuse #87156B
53-123566-002	Crosses with Centrifuse #88797B

EUCLID

GABRIEL
Heavy Truck Shock Absorbers

Gabriel®

FLEETLINE HEAVY DUTY TRUCK SHOCKS - 83000 SERIES
Smallest heavy duty product, best suited for light trucks or heavy truck front suspensions
•1-3/8" bore
•Spun closure
•9 stage valving

FLEETLINE HEAVY DUTY TRUCK SHOCKS - 85000 SERIES
Added durability makes this series the standard heavy duty product for today's low friction suspensions
•1-5/8" bore provides improved durability
•360° are welded end mounts protect against end mount breakage
•Hydraulic rebound stop prevents impact damage to the shock and vehicle mounting components
•Multi-lip piston seal provides backup seal protection
•Welded closure improves pull apart strength

FLEETLINE HEAVY DUTY TRUCK SHOCKS - 85700 SERIES
Designed for unique truck applications and for severe duty bus applications. The speciality features of this series ensure a long consistent operating life
•1-5/8" bore with a bulged design provides increased fluid capacity for cooler operation
•Patented rod seal material significantly increases the life of the seal
•Custom blended HT Fluid reduces friction and wear in extreme operating conditions

Light, medium, heavy duty shock absorbers for trucks, tractors, trailers, and buses.

Please request further information on the line of Gabriel Shock Absorbers.

GASSLX HEAVY TRUCK GAS SHOCKS/ADJUSTABLE - 89000 SERIES
•Premium three position adjustable Heavy Truck gas shock
•Unique Gas Cell double seals for superior gas retention
•Position Adjustable offers personal ride selection
•1-5/8" bore, 360° arc welded end mounts provides improved durability
•Specially formulated H.T. fluid reduces friction and wear in extreme operating conditions
•Many more premium component upgrades combine to provide the ultimate in performance and durability

Gabriel®

GOODYEAR

Super Cushion® Air Springs

Goodyear Super Cushion air springs for trucks and trailers protect cargo, provide constant level hauling, and deliver long, trouble-free service. Goodyear Super Cushion air springs give your trucks and trailers a new high in productivity and long life. They offer a quiet, cushioned ride. Because there's less vibration, truck and trailer bodies last longer than with steel springs. The driver rides in greater comfort, becomes less fatigued and stays more alert. Cargo gets better protection from shock and vibration.

Please ask a Gregg Distributors representative for more information on Goodyear Super Cushion air springs.

NEWAY®

Air Control Valves

TYPE CR (CONTROLLED RESPONSE) HEIGHT CONTROL VALVE
Adjusts air pressure with controlled response under a wide variety of climatic and payload conditions.
Part No. 90054007.

OPTIONAL DUMP VALVE
For #90054007 height control valve. Allows air to be released from air springs. This valve allows you to lower tractor for easy coupling/uncoupling with trailer. Also used for lowering vehicle for easier loading/unloading at dock.
Part No. 90554335.

TYPE IR (IMMEDIATE RESPONSE) HEIGHT CONTROL VALVE
Adjusts air pressure without delay under a wide variety of climatic and payload conditions.
Part No. 90555105.

TYPE IR (IMMEDIATE RESPONSE) HEIGHT CONTROL VALVE WITH DUMP VALVE
Allows air to be released from air springs. The dump vlave allows you to lower tractor for easy coupling/uncoupling with trailer. Also used for lowering vehicle for easier loading/unloading at dock.
Part No. 90555106.

MANUALLY OPERATED RELIEVING TWO-WAY VALVE
Used to apply pilot pressure to actuate dump valves.
Part No. 90054088.

ELECTRICAL THREE-WAY SOLENOID VALVE
Used to apply pilot pressure to actuate dump valves.
Part No. 90054075.

3-WAY PILOT VALVE
¼" NPT ports, 1/8" NPT pilot port.
Part No. 90554615.

AIR PRESSURE PROTECTION VALVE
¼" NPT ports.
Part No. 90554107.

ADJUSTABLE LINKAGE ASSEMBLY
(Model SRK 168) Use for all controlled response time-delay height control valve applications.
Part No. 48100225.

ADJUSTABLE LINKAGE ASSEMBLY
(Model SRK 205) Use for all immediate response height control valve applications.
Part No. 48100267.

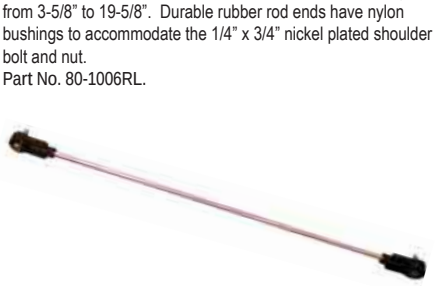
TECTRAN
Air Control Components

HEIGHT CONTROL VALVE
This valve is used in air suspension systems to maintain a constant ride height. Used on many OEM applications. Tight dead band; integral supply port check valve to prevent "leak downs". Improved chemical resistance with new seal formulation. Universal mounting bracket can be used to mount valve on left or right side. There is an extra straight lever arm included to broaden the application range. Interchangeable with all current height control valves. Fittings installed for 1/4" O.D. tubing.
Part No. 80-1006, Delay - 1 to 5 seconds at 100 psi.
Part No. 80-1006ND, Non-delay - less than 1 second at 100 psi.

HEIGHT CONTROL VALVE WITH INTEGRAL DUMP VALVE
Fastest fill rate — up to 300% higher air flow rates compared with conventional refill/exhaust systems. Integral dump valve reduces the number of parts in the air suspension system. Tightest industry dead band ensures smoother ride and minimizes suspension and drive line wear. Engineered for long life. 1/8" NPTF dump pilot port;
1/4" NPTF supply and delivery ports.
Part No. 80-1005.

ADJUSTABLE LINK
Adjustable from 8" to 15". Links may be cut for applications shorter than 8". Rubber bushings on each end with 1/4" holes.
Part No. 80-1006AL.

ADJUSTABLE LINK
1/4" diameter zinc dichromated steel rod can be cut for lengths from 3-5/8" to 19-5/8". Durable rubber rod ends have nylon bushings to accommodate the 1/4" x 3/4" nickel plated shoulder bolt and nut.
Part No. 80-1006RL.



MIDLAND
Air Levelling Valve

Used to maintain vehicle height on an air suspended chassis. One valve can be used for left or right installations; one valve can control two suspension bellows. Unit includes a standard vertical linkage which can be cut to desired length, and an adapter plate to allow changeover from competitive models.
Part No. KN27000.
Part No. RN10JC, Linkage kit for KN27000.

EUCLID
Air Levelling Valve

Part No. E-4323, Height control (levelling) valve replaces Neway #90054007

Brake Locks

Designed to supplement the vehicles parking brake system

LEVER LOCK

Lever Lock with pressure warning switch supplements a vehicles standard parking brake by utilizing the hydraulic service brake system. Manually operated one-way check valve which locks fluid under pressure in the selected brakes. Hand release leaves both of the operator's feet free for clutch and gas pedal operation. Provides two wheel lock up on split-brake systems. For short-term parking only.
Part No. 66605.

DUALOCK

Dualock with pressure warning switch provides four-wheel lockup for hydraulic split brake systems. Designed to supplement the standard parking brake of a vehicle equipped with a dual or split brake system by utilizing the hydraulic service brake system. They also provide axle by axle holding protection on single or non-split hydraulic systems. For short-term parking only.
Part No. 66606.

ELECTRIC BRAKE LOCKS

Electric brake lock with a pressure warning switch, provides two-wheel lock up. It utilizes the service brake system to provide a supplemental "hold" assist. This is not recommended for split brake systems. It does not interfere with normal braking and can be installed with no additional plumbing. Holds hydraulically without any current draw.
Part No. 68140.

Numbering System

•The number and letter immediately following the part number designates the tube and pipe size of fittings. Example: 668-12D denotes a (Compression Connector) fitting suitable for use with 3/4" (12) O.D. tubing and 1/2" (D) pipe.

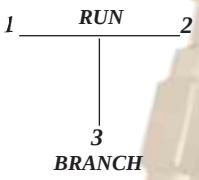
E	3/4"
H	1"

Measurement of Tees

•Please note that tube and pipe sizes shown in all Tees described in this catalogue follow the standard practice of listing dimensions in the following order: (When sizes on run are the same, No. 2 end in not repeated in description).



Example: FO44R-6 x 4 x 4 indicates 3/8T x 1/4T x 1/4T
(1) (2) (3)

FO44R-6 x 4 indicates 3/8T x 3/8T x 1/4T
(1) (2) (3)

445-4A indicates 1/4T x 1/4T x 1/8 M.I.P.
(1) (2) (3)

Pipe Fittings (Taper Pipe Threads)

•Illustration below shows actual pipe size. To determine pipe size compare fitting with illustrations.

	1/8" PIPE	1/4" PIPE	3/8" PIPE	1/2" PIPE	3/4" PIPE	1" PIPE
Threads Per Inch	27	18	18	14	14	11-1/2
Approx. O.D.	13/32	9/16	11/16	27/32	1-1/16	1-5/16

Pressure Range

TYPE OF FITTING	IDENTIFICATION	PRESSURE RANGE (Based on normal operating conditions and a Safety Factor of 4 to 1)
COMPRESSION	Double bevelled separate sleeve	Up to 750 psi. Use long nut when excessive vibration may be encountered. Not recommended on tin coated copper brazed steel tubing.
S.A.E. 45° FLARE	Tapered nose on connector	Up to 1200 psi. Use long nut for excessive vibration. For additional protection double flare tubing.
INVERTED FLARE	Raised cone inside connector	Up to 1200 psi. Can withstand more vibration than any other style of brass fitting. The standard nut is also available in steel which often proves advantageous where brass fittings are subject to frequent disassembly. For additional protection double flare tubing.
THREADED SLEEVE	Half sleeve machined into nut	Up to 200 psi. This type of fitting is not recommended where vibration is present even at low pressures.
PIPE	Threads are tapered having square cut ends with no inside or outside bevelling	Up to 1000 psi. Dryseal Pipe Threads make pressure tight joints possible without the use of a pipe sealer compound. Excessive tightening is a common fault. 2-1/2 to 3 full turns past 'handtight' is recommended.

AIR BRAKE FITTINGS – D.O.T. SPEED FITTINGS

D.O.T. Speed fittings are used on highway, off-road vehicles in air brake, suspension, drive train control and auxiliary air systems. They are designed to meet the National Highway Traffic Safety Administration of the D.O.T. Federal Motor Vehicle Standard No. 106.

•Quick connect: Simply push tubing in, no tools, or loose parts to handle in tight places. Assembly time savings are up to 80% of conventional compression fittings. •Fluid: Compressed Air. •Maximum Inlet Pressure: 150 psi. •Temperature Range: -20°F to 200°F (-30°C to 93°C) •Applicable Standards: FMVSS106. •Tubing: Must conform to SAEJ844, Type A or B, and Code of Fed. Reg. 49, Part 571, Subpart 106. WARNING: •These products are intended for use in motor vehicle or industrial compressed air systems only. •For all air brake applications except those designed for use between frame and axle or between towed and towing vehicle.

Needle Valves

Needle Valves are designed to give trouble-free performance when used with water, gasoline, or oil. Manufactured from brass rod, and using steel handles, they can be relied upon for utmost dependability. The neoprene packing utilized in these valves is water, gasoline and oil resistant and will hold its resilience and elasticity indefinitely.

BRASS VALVES & SHUT OFFS

Spring Bottom Type Two Way Shut-Off Cocks

Spring bottom shut-off cocks are recommended for use on gasoline, air, and general service, up to 50 lbs. working pressure. They are not recommended for fuel oil as conditions usually make leakproof connections difficult to maintain.

PAR-BARB FITTINGS

Specifications: PAR-BARB fittings are precision injection molded from high strength, chemically inert, engineering thermoplastics. These compact, economical, easy to use fittings are of a barbed design chosen to allow a high degree of holding power in combination with small size and light weight. (The use of a Le-Hi worm-drive or Super Strap clamps is recommended in all applications.) (Applications include plumbing systems in travel trailers and motor homes, irrigations, instrumentation, reverse osmosis and deionized water systems.) Working Pressure: PAR-BARB fittings are generally used in systems where pressures do not exceed 125 psi. Approvals: PAR-BARB fittings have the approval of the NSF, (National Sanitation Foundation) for use with liquids for human consumption, and are made of F.D.A. listed materials. White Nylon: Natural Nylon resin, specifically formulated for toughness, and resistance to physical stress and abrasion. With U-V inhibitors.

EATON | Aeroquip

AEROQUIP WIRE INSERTED SUCTION FC619 - SAE100R4

Construction: Synthetic rubber tube, reinforcement consisting of a helical wire between two textile reinforcement layers and synthetic rubber cover.
Application: Suction and transfer applications for hydraulics, crude, fuel and lubricating oils, gasoline, air and water.
Temperature Range: -40°C to +135°C.

Part Number	Hose I.D. (inches)	Hose O.D. (inches)	Max. Operating Pressure (psi)
FC619-12	.75	1.21	300
FC619-16	1.00	1.48	250
FC619-20	1.25	1.75	200
FC619-24	1.50	2.04	150
FC619-32	2.00	2.55	100

AEROQUIP FC332

Construction: AQP elastomer tube, textile braid reinforcement, AQP elastomer cover.
Application: For gasoline, fuel and lubricating oils, air, and water. Not recommended for hydraulic impulse applications and not approved for air brake applications.
Temperature Range: -40° C to + 150° C. Water not to exceed 82° C, air not to exceed 121° C.

AEROQUIP FC647

Construction: Synthetic rubber tube, textile braid reinforcement, oil and mildew resistant textile braid cover.
Application: For gasoline, fuel and lubricating oils, air, and water. Not recommended for hydraulic impulse applications and not approved for air brake applications.
Temperature Range: -40° C to + 100° C. Water not to exceed 66° C, air not to exceed 74° C.

AEROQUIP 2556

Construction: Synthetic rubber tube, textile braid reinforcement and synthetic rubber cover.
Application: For gasoline, fuel, and lubricating oils, air, and water. Not recommended for hydraulic impulse applications and not approved for air brake applications.
Temperature Range: -40° C to + 100° C. Water not to exceed 66° C, air not to exceed 71° C.

Medium Pressure Hose

AEROQUIP 1503 SAE100R5 - SINGLE WIRE BRAID

Construction: Synthetic rubber tube, textile inner braid, single wire braid reinforcement and synthetic rubber impregnated textile braid cover.
Application: For hydraulics, air, gasoline, crude, fuel and lubricating oils.
Temperature Range: -40°C to +121°C. Except air +71°C.

AEROQUIP 2651 SAE 100R5 - SINGLE WIRE BRAID

Construction: Synthetic rubber tube, textile inner braid, single wire braid reinforcement, outer textile braid and synthetic rubber cover.
Application: Hydraulics, gasoline, crude, fuel and lubricating oils, air and water. Except air not to exceed 250 psi.
Temperature Range: -40°C to +100°C. Except air +71°C.

AEROQUIP FC300 SAE100R5 - SINGLE WIRE BRAID

Construction: AQP elastomer tube, polyester inner braid, single wire braid reinforcement and blue polyester braid cover.
Application: Hydraulics handling petroleum based fluids, air, gasoline, crude, fuel, lubricating oils, fire resistant hydraulic fluids, and other industrial fluids.
Temperature Range: -49°C to +150°C. Except air +121°C.
*(FC300-32 only) Does not comply with SAE100R5 operating pressure of 350 psi or minimum burst pressure of 1400 psi.

AEROQUIP FC350 FMVSS106 - ENGINE & AIR BRAKE HOSE

Construction: AQP elastomer tube, polyester inner braid and a single wire braid reinforcement; black polyester textile braided cover.
Application: Air, gasoline, fuel, lubricating oils and coolants.
Temperature Range: -49°C to +150°C. Except air +121°C.

AEROQUIP FC355 FMVSS106 - ENGINE & AIR BRAKE HOSE

Construction: AQP elastomer tube, polyester inner braid and a single wire braid reinforcement, blue AQP elastomer cover.
Application: Air, gasoline, fuel, lubricating oils and coolants
Temperature Range: -40°C to +150°C. Air not to exceed 250 psi or +121°C.

AEROQUIP FC802 SAE J51 TYPE D - MULTI-REFRIGERANT HOSE

Construction: Bromobutyl cover, polyamide-veneer tube, synthetic braid reinforcement, synthetic rubber backing layer.
Application: Transportation, refrigeration, and air conditioning systems using Refrigerant 12, R-22, R-134a, R-502.
Temperature Range: -40°C to +121°C.

E-Z Clip™ System Designed To Work Exclusively With Aeroquip GH134 & FC505 Hose

THE E-Z CLIP SYSTEM TOOL CASE

Contains 20 of each size of clips; 10 of each size cages; assembly tool; hose cutter and replacement blade.
Part No. FF12139.

GH134 MULTI-REFRIGERANT HOSE

SAE J2064 Type E Class 1
•Internal polyamide veneer gives excellent effusion resistance •Synthetic rubber backing layer offers maximum resistance to moisture ingression •Stabilized, synthetic braided reinforcement for extended service performance •Chlorobutyl rubber cover for superior flexibility •E-Z Clip fittings offer assured coupling integrity, exceeds SAE J2064 performance
Construction: Polyamide veneer tube, stabilized synthetic braided reinforcement and chlorobutyl rubber cover.
Application: Transportation, refrigeration and air conditioning systems.
Operating Temperature Range: -30°C to 125°C
R404a Effusion: .2 lbs./ft2/yr. at 140°F (.8 kg/m2/yr. at 60°C)
HFC 134a Effusion: .50 lbs./ft2/yr. at 176°F (2.42 kg/m2/yr. at 80°C)
R22 Effusion: 27.7 lbs./ft2/yr. at 158°F (135 kg/m2/yr. at 70°C)
Moisture Ingression: .08 gm/in2/yr. (.013/cm2/yr)

Part Number	Hose I.D. (inches)	Hose O.D. (inches)	Max. Operating Pressure (psi)	Min. Burst Pressure (psi)

Polyon™/Thermoplastic Hose

AEROQUIP FC372 - POLYON™/THERMOPLASTIC CONDUCTIVE BLACK HOSE

Construction: Thermoplastic elastomer tube, single braid polyester reinforcement and a black perforated polyurethane cover.
Application: Hydraulic system service with petroleum, fire resistant, and water base fluids, pneumatic, fuel, and lubricating systems.
Operating Temperature Range: -54°C to +93°C. Water not to exceed +66°C and air not to exceed +71°C.
Meets or exceeds SAE100R7 specifications.

AEROQUIP FC373 POLYON™/THERMOPLASTIC NON-CONDUCTIVE ORANGE HOSE

Construction: Thermoplastic elastomer tube, single braid polyester reinforcement and an orange non-perforated polyurethane cover.
Application: Hydraulic system service with petroleum, fire resistant, and water base fluids, fuel, and lubricating systems.
Operating Temperature Range: -54°C to +93°C. Water not to exceed +66°C.
Meets or exceeds SAE100R7 specifications for non-conductive hose.

AEROQUIP FC374 POLYON™/THERMOPLASTIC CONDUCTIVE BLACK HOSE SAE 100R8

Construction: Thermoplastic elastomer tube, single braid Kevlar reinforcement and a black perforated polyurethane cover.
Application: Hydraulic system service with petroleum, fire resistant, and water base fluids, pneumatic, fuel, and lubricating systems.
Operating Temperature Range: -54°C to +93°C.
Water not to exceed +66°C, air not to exceed +71°C.

AEROQUIP FC375 POLYON™/THERMOPLASTIC NON-CONDUCTIVE ORANGE HOSE SAE 100R8

Construction: Thermoplastic elastomer tube, single braid Kevlar reinforcement and an orange non-perforated polyurethane cover.
Application: Hydraulic system service with petroleum, fire resistant, and water base fluids, fuel, and lubricating systems.
Operating Temperature Range: -54°C to +93°C.
Water not to exceed +66°C.

AEROQUIP FC310 - 1 WIRE HI-PAC

Construction: Synthetic rubber tube, single Hi-Pac carbon steel wire reinforcement; synthetic rubber cover.

Application: Hydraulic system service with petroleum and water-glycol base fluids, for general industrial service.

Temperature Range: -40°C to +100°C

AEROQUIP FC510 - 1 WIRE BRAID HI-PAC

Construction: AQP elastomer tube, Hi-Pac braided carbon steel wire reinforcement; AQP elastomer blue cover.

Application: Hydraulic system service with petroleum and fire resistant fluids, for general industrial service.

Operating Temperature Range: -40°C to +150°C

PREMIER DISTRIBUTOR

High Pressure Hose

AEROQUIP FC639 SAE100R17

Construction: Synthetic rubber tube with one or two wire braid reinforcements, fire and ozone resistant synthetic rubber cover.
Application: General industrial and hydraulic system service with petroleum and water-base fluids. Recommended for high-pressure oil lines used on construction equipment and other off-highway applications.
Temperature Range: -40°C to +100°C.

AEROQUIP FRH2AT/FC212 - DOUBLE WIRE BRAID - MEETS SAE100R2AT

Construction: Synthetic rubber tube, double wire braid reinforcement and synthetic rubber cover.
Application: Hydraulic system service with petroleum and water base fluids, for general industrial service.
Operating Temperature Range: -40°C to +100°C.

AEROQUIP GH793 MATCHMATE PLUS™ - DOUBLE WIRE BRAID - EXCEEDS SAE 100R2AT PERFORMANCE

Construction: Synthetic rubber tube, double wire braid reinforcement and synthetic rubber cover.
Application: Hydraulic system service with petroleum and water base fluids, for general industrial service.
Operating Temperature Range: -40°C to +100°C.

AEROQUIP GH781 - DOUBLE WIRE BRAID

Construction: Synthetic rubber tube, double wire braid reinforcement and synthetic rubber cover. Meets or exceeds DIN requirements at 1/2 SAE bend radius.
Application: Hydraulic system service with petroleum and water base fluids, for general industrial service.
Operating Temperature Range: -40°C to +100°C.

AEROQUIP GH120 MATCHMATE ICE™ - DOUBLE WIRE BRAID

Meets specification SAE J343; and SAE 100R16 performances.
Construction: Exclusive low temperature compound tube, double wire braid reinforcement, and exclusive low temperature cover. Meets or exceeds DIN requirements at 1/2 SAE bend radius.
Application: Low temperature flexing and hydraulic system service with petroleum and water based fluids, for general industrial service.
Operating Temperature Range: -57°C to +100°C.

AEROQUIP FC579 - DOUBLE WIRE BRAID

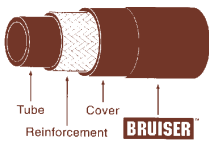
Meets specification IJ100.
Construction: Synthetic rubber tube, double wire braid reinforcement and synthetic rubber cover.
Application: Hydraulic jack service with petroleum and water base fluids.
Operating Temperature Range: -40°C to +100°C.

AEROQUIP BRUISER HOSE:

- Has the highest resistance to abrasion of any known polymer-covered hose
- Greatly reduces costly downtime by preventing abrasion-related hose failures
- Resists abrasion 240 times better than five leading rubber-covered hoses
- Installs and routes easily due to slick hose surface
- Eliminates the need for "bundling" with nylon sleeves

BRUISER hose was designed to work where hydraulic hose is subjected to constant abuse and abrasion from: •hose-to-machine •hose-to-hose •hose-to-environment
For OEM or replacement use in really tough work environments like construction, mining, forestry and agricultural equipment applications, it's BRUISER or BUST!

BRUISER cross section



Abrasion Test Results Using ISO 6945 To Failure

Product Tested	Cycles Completed
BRUISER	2,000,000+
Nylon Sleeve	510,000
Tuffcoat	182,188
Average of five competitors	8,187

AEROQUIP FC849B BRUISER - DOUBLE WIRE BRAID

Construction: Synthetic rubber inner tube, double steel wire braid reinforcement, synthetic rubber cover, and BRUISER polyethylene sheath.
Application: Hydraulic system service with petroleum and water based fluids, for general industrial service.
Operating Temperature Range: -40°C to +100°C.

Thru-The-Cover Reusable Fittings For Use With Hose Styles FRH2AT And GH793.

STAINLESS STEEL FITTINGS

Aeroquip stainless steel crimp fittings offer the ultimate in corrosion resistance for demanding applications. These TTC fittings are made from high quality 316 stainless steel. They provide excellent resistance to corrosive chemicals, humid environments, salt air, and salt water. Crimp specifications are identical to the specifications for standard MatchMate Plus TTC fittings.

Fittings For Use With Hose Styles FC619, FC639, GH195, GH120, GH663, FC310, FC510, GH793, FRH1AT, FRH2AT, GH781, FC849B, FC579.

All Aeroquip standard Code 61 split flange fittings and o-rings will directly interchange with Komatsu flange fittings. However, split flange halves and bolts are not interchangeable. There is no Code 61 split flange in the -10 size so the special -10 size Komatsu flange fitting listed below may be used.
Note: A special Komatsu o-ring must be used in the -10 split flange fittings. No other o-ring, no matter how similar in appearance, can be used.

Spiral Wire Hose

AEROQUIP GH493 - FOUR HEAVY SPIRAL WIRE SAE 100R12
Construction: Synthetic rubber tube, 4 spiral wire reinforcement, black synthetic rubber cover.
Application: Hydraulic system service with petroleum and water base fluids, for general industrial service.
Operating Temperature Range: -40°C to +121°C.

AEROQUIP FC659 SAE100R12
Construction: Synthetic rubber tube, 4 spiral wire reinforcement and synthetic rubber cover.
Application: Hydraulic system service with petroleum and water-base fluids requiring premium performance and flexibility.
Temperature Range: -40°C to +121°C.

Super Heavy Duty Hose

AEROQUIP FC273 - FOUR OR SIX SPIRAL WIRE SAE 100R13
Also Known as "Kelly Hose"

Construction: Synthetic rubber tube, multiple heavy spiral wire (4 wire for -12, -16; 6 wire for -20, -24, and -32); black synthetic rubber cover.
Application: Hydraulic system service with petroleum and water base fluids, for general industrial service.
Operating Temperature Range: -40°C to +121°C.

AEROQUIP FC606 - SIX SPIRAL WIRE SAE 100R15

Construction: Synthetic rubber tube, 6-spiral wire reinforcement, synthetic rubber cover.
Application: High pressure hydraulics, hydrostatic transmissions.
Operating Temperature Range: -40°C to +121°C.

AEROQUIP GH506 - FOUR SPIRAL WIRE DIN 20023 T2, EN 856 TYPE 4SH
Also Known as "Kelly Hose"

Application: Four wire hose for high pressure hydraulic systems with petroleum and water-glycol base fluids.
Operating Temperature Range: -40°C to +100°C.

Assembly Equipment

FT1500 HOSE CUT-OFF SAW

•Powerful 4.2 hp high torque motor for faster and easier cutting •Clear face shield guard for added safety •Includes mounting hardware and protective goggles •Standard 14" scalloped blade cuts 1- and 2-wire braided hose through 2" I.D. and 4-wire spiral hose through 2" I.D. •Optional blades are available separately

Part No. FT1500.

BLADES:

Part No. FT1500-1, Standard scalloped blade, (included with machine).

Part No. FT1500-2, Smooth bevelled blade cuts stainless steel braided cover hose.

Part No. FT1500-4, Scalloped toothed blade cuts industrial fluid transfer hoses through 4" I.D.

FT1097 PORTABLE HOSE ASSEMBLY MACHINE

The FT1097 Portable Hose Assembly Machine is designed to speed the production of Aeroquip reusable hose assemblies on a low production basis. The machine will assemble reusable hose assemblies with all Aeroquip standard reusable fittings including male pipe, swivel, flange, and elbow types in hex sizes through 2-1/8". This model may be either bench mounted with the four mounting bolts provided in the base or stand mounted on the optional folding stand.

Part No. FT1097-1-1, Basic machine, 110V

Part No. FT1097-1-2, Basic machine, 220V

Part No. FT1013-2-2, Folding stand

Part No. FT1220-10, Assembly tool kit - contains all mandrels and adapters for assembly of SAE 45°, SAE 37° (JIC) and PTT 30° fittings in -4 through -20 sizes.

Part No. FT1097-2-1, Vise kit (replaces wrench and clevis with vise similar to FT1013 machine)

FT1097-2-1

FT1013 HOSE ASSEMBLY MACHINE

The model FT1013 hose assembly machine will assemble Aeroquip hose lines with all standard reusable fittings including male pipe, swivel, flange, and elbow type. This is a 1/2 h.p., 110 volt AC lightweight portable machine.

The unit can be used to assemble all standard reusable fittings to applicable hose in sizes -3 (3/16") through -32 (2"). Certain styles of single wire braid hose and fittings in -40 (2½") size can also be assembled on this machine.

Part No. FT1013-1-1, 110 Volt, single phase hose assembly machine with stand, vise, and tool kit

Part No. FT1013-1-3, 110 Volt, single phase hose assembly machine with stand and vise

Part No. FT1013-1-5, 110 Volt, single phase hose assembly machine with vise

Part No. FT1013-2-1, Vise only

Part No. FT1013-2-2, Stand only

ET 1000 PORTABLE, LIGHT DUTY, POSITIVE STOP CRIMP MACHINE

This crimp machine has been approved to crimp:
•All 1-wire and 2-wire braided MatchMate Plus™ hoses in sizes 1/4" through 1-1/4" using MatchMate Plus TTC fittings.
•All 4-wire spiral MatchMate Plus hoses in sizes 3/8" through 1", using MatchMate Plus TTC12 fittings.

The new ET1000 crimp machine builds on the success of the prior FT1370 portable crimp machine by using the same basic frame and construction design, but employs a 2-piece split half collet assembly in lieu of the traditional ProCrimp die cages. The correct hose asembly crimp diameter is obtained by the use of a spacer ring that conrols the stroke length of the cylinder during the crimping operation.

Features:
•Pusher slides out of position
•Compatible with the Aeroquip MatchMate Plus hose and fittings
•Can be mounted on service vehicles due to portable design
•Can be powered with virtually any 10,000 psi hydraulic power source (min. 36 cubic inch pump reservoir capacity)
•Utilizes 2-piece collet assemblies
•Spacer rings control the crimp diameter

Benefits:
•Sliding pusher allows for easier fitting insertion into the machine
•Simple positive-stop crimp diameter control system for consistent crimping time after time with no operator adjustments required
•Easily transported between job sites
•Versatile power source options
•Electricity is required only when using an electric style pump

These machine packaged part numbers offer a variety of pumps with the same tooling package including all collets and spacer rings to crimp: 1-wire and 2-wire braided MatchMate Plus Hoses (sizes 1/4" through 1-1/4") using TTC fittings GH493, 4-wire spiral MatchMate Plus Hose (sizes 3/8" through 1") using TTC12 fittings.

Part No. ET1000-006, No pump, but includes complete MatchMate Plus Collet and Spacer Ring Tooling package described above
Part No. ET1000-007K, Air/hydraulic pump, and complete MatchMate Plus Collet and Spacer Ring Tooling package described above
Part No. ET1000-008K, 110 Volt electric pump, and complete MatchMate Plus Collet and Spacer Ring Tooling package describbe above
Part No. ET1000-009K, 2 stage hand pump, and complete MatchMate Plus Collet and Spacer Ring Tooling package described above
Part No. ET1000-010, 12 volt DC pump, and complete MatchMate Plus Collet and Spacer Ring Tooling package described above

Part No. 140-06701, 1.5 oz. tube, high efficiency PTFE grease.

EATON | Aeroquip

"PROCRIMP" FT1380

Aeroquip's ProCrimp FT1380 sets a new standard for simplified, fast crimping of hose assemblies. This machine can be set up in any shop, garage or work area to crimp 1 and 2 wire braid, 4 spiral, and many other hose styles offered by Aeroquip. The ProCrimp FT1380 uses the same dies as the current Aeroquip model FT1330 crimp machine in a new die cage. This enables the user to utilize existing dies, thus minimizing expense, while gaining the benefit of electronic controls.
The electronic controls on the ProCrimp FT1380 have been designed to simplify all aspects of the crimping process by reducing the number of steps and time involved in setup and crimping of fittings to hose. This reduces not only the cost of labour in making an assembly but also minimizes the opportunity for costly errors. This means less time, less waste and more money in your pocket!
While any crimp setting can be easily entered into the ProCrimp FT1380 keypad, there are 10 preset keys on the keypad which can be programmed for your 10 most popular hose styles. When crimping any of these 10 styles you simply press the preset button for that hose, insert the appropriate die cage and you're ready to crimp!
Features:
•Fast, quiet, easy to use minimizes training and mistakes
•Crimp through -20, 4-spiral hose
•Preset crimp settings for fast setup time
•Adjustable keypad entry for simplified crimping
•Programmable electronic controls for minimal maintenance
•Easy to calibrate
•Upright design for easy hose insertion
•Standard work light
•Simple die cage insertion saves setup time
•Full flow hydraulics with spring return provides fast cycle time
•"Soft" retract position gives minimum cycle distance and time
•ENERPAC® hydraulics is reliable, serviceable, and standardized

Part No. FT1380-115, 115V crimp machine only
Part No. FT1380-115-5, 115V crimp machine kit c/w 5 of the most popular die cages listed below — indicated with an asterisk (*)

FLAT CRIMP DIE CAGES FOR FT1380-115 CRIMP MACHINE

*Included with FT1380-115-5 kit.

Part No. FT1380-2-3, Die cage conversion kit - converts one FT1330 die to use in FT1380 machine.
Part No. FT1380-2-4, Die cage holder kit - attaches to side of FT1380 crimp machine to hold dies off table.
Part No. FT1330-XL, MatchMate Plus locator kit - helps keep crimp fitting in ideal position for crimping.

MACHINE BACKSTOP

For FT1380 Crimp Machine. Features both "spring-loaded" and "positive-stop" options, this backstop simplifies crimping for a wide range of fitting styles including thru-the-cover, PTFE and others. Also features magnetic mount and 2.5" of travel. Benefits: Installs in seconds, makes high volume hose assembly easier, increases machine capacity to include PTFE and accommodates a variety of fitting sizes.
Part No. FT1380-4.

Assembly Equipment

"PROCRIMP" FT1390 HOSE ASSEMBLY MACHINE

The Aeroquip ProCrimp FT1390 hose assembly crimp machine is Aeroquip's top-of-the-line crimper. It is capable of crimping Aeroquip Through-The-Cover (TTC), single skive, and internal skive fittings onto 3/16" through 2" I.D. hose. Efficient 10,000 psi hydraulics combined with user friendly electronic controls make the ProCrimp FT1390 fast, quiet, and easy to use — providing excellent productivity and less chance for error.

The ProCrimp FT1390 crimp machine features programmable electronic controls allowing the user to custom-tailor the machine crimp settings. Ten preset crimp selections can be automatically programmed on the operator's keypad for those hose assembly types most frequently produced. A programmable retract stop is also built into the crimper, which allows for less than full retraction after crimping. This reduces the total crimp cycle time.

Features:
- Electronic controls are simple to set up, less chance of error
- Programmable — can be set up with the push of 1 button
- Standard work light gives good visibility in work area
- FT1307 tooling standard — proven reliable drop-in tooling
- Standard (adjustable) back stop simplifies large volume jobs

Part No. FT1390-115-12, Machine plus 12 standard die cages (shown below) needed to assemble a wide variety of Aeroquip hose including MatchMate Plus™.

HOSE INSERTION GAUGES

Improve hose assembly reliability with these easy to use aluminium gauges that are designed to ensure proper fitting depth during pre-assembly. Simply bottom the hose in the appropriately marked cavity and scribe a mark on the hose flush with the top surface of the gauge. Insert the fitting until the back of the socket is aligned with scribe line. For use with all hoses that mate with TTC, TTC12 and Global Spiral TTC fittings.

Part No. FF90308-01, For use with all hoses that mate with -4 through -16 TTC and TTC12 fittings.
Part No. FF90308-02, For use with all hoses that mate with -20 through -32 TTC and TTC 12 fittings.
Part No. FF90308-03, For use with all hoses that mate with -12, -16, -20 Spiral TTC fittings.

AEROQUIP HOSE ASSEMBLY LUBE

A specially compounded lubricant far superior to any other lubricant ever used in hose assembly work. Aeroquip Lube drastically reduces assembly torques and virtually eliminates the danger of inner tube damage. Use for either hand or machine assembly. 16 oz. Part No. 222070.

PREMIER A DISTRIBUTOR Aeroquip

ULTRA CLEAN TECHNOLOGIES
Hose, Tube, & Pipe Cleaning Technology

The Revolutionary Contamination Eliminator System is Your Solution to Hydraulic Hose, Tube, and Pipe Contamination.
Industry has grappled for years with the difficult problem of effectively cleaning the interior of all types of tubing and hose. Users have attempted to solve the problem with a variety of chemicals, as well as pressure flushing and pull-through techniques. Hydraulic hose users often ignore the need for pre-installation cleansing and simply opt for total replacement. These expensive and time consuming methods are marginally effective at best.
Ultra Clean Technologies Corp. has designed, developed, and successfully marketed an exciting and inexpensive air operated gun-like launcher that cleans hose, tubes, and piping in seconds. The launcher simply fires a soft projectile, 20% larger than the tube ID into the pipe under pressure. The projectile strips out the internal contamination or residue as it travels through the tube, around bends, and through couplings. The launchers have interchangeable nozzles and the projectiles come in a variety of diameters to effectively handle all tube sizes from 2 to 110 mm.

HAND HELD LAUNCHER KIT
Economically priced for the occasional user. Ideal for mobile and job site applications because of its size and portability. Comes complete with 7 acetyl hose nozzles, quick release coupling and carry case, as well as starter projectile package and projectile containment system. Durable brass internals, strong plastic handle and anodized aluminum firing head and locking ring. Has a quarter turn locking ring for easy nozzle change and projectile loading. Size range: 1/8" through 1-1/4" hose, tube, or pipe.
Part No. UC-EL7-DP.

2" PNEUMATIC LAUNCHER KIT
Supplied with Full Flow GC and Unique 360° Rotary Coupling for non-fatigue operator use. Ergonomic handle has a built-in bench mount port. Made from lightweight aluminum and has a user-friendly design to minimize fatigue. All aluminum parts are fully anodized. Release bar has a built-in safety that automatically engages when faceplate is in the closed position and also releases faceplate for the loading of projectiles. Ideal for production hose and tube shops, mobile hose fabricators, and job site applications because of its size and portability. With 9 nozzles, packed in a lockable, vibration-protected case. Size range: 1/8" through 2" hose, tube, or pipe.
Part No. UC-HL-9-2.

UC-H38	1½"
UC-H50	2"

The UC-EL is supplied with a 1/2" quick release coupling and plug for easy air connection to the launcher. The recommended air pressure is 85 psi min to 140 psi max. The air source should always be regulated to the correct pressure and filtered to insure contaminate free air.

Dirty air will re-contaminate your hose, tube or pipe.

1. Unscrew the 1/4 turn locking ring from the firing head.

2. Load the Ultra Clean Projectile into the nozzle and screw the 1/4 turn locking ring back onto the firing head.

3. Connect the supplied quick release coupling to a 1/2" ID air hose. Then connect the quick release coupling onto the launcher.

4. Insert the nozzle into your hose, tube or pipe and depress the trigger. Keep trigger depressed until the Ultra Clean Projectile exits the hose, tube or pipe that you are cleaning.

Oilfield Hose

SILVER STRIPE ROTARY/VIBRATOR & KICKER HOSE

Application: Oilfield drilling and exploration at API Grade "C" and "D" working pressures; where a heavy duty long service life hose is required.
Tube: Black, oil and abrasion resistant Hydrogenated Nitrile (HNBR). Suitable for oil or water based muds.
Reinforcement: Multiple plies of bias laid textile cord for extra strength and flexibility. Two spirally wound, high tensile, multiple strand cables provide unsurpassed ruggedness and reliability under severe service conditions.
Cover: Black, oil, weather and abrasion resistant Neoprene (CR).
Temperature: -40°C to +93°C

Part Number	Hose I.D. (inches)	Hose O.D. (inches)	Grade	Rated W.P. (psi)	Test Pressure (psi)	Min. Bend Radius (inches)
5500-40	2½	4.45	C	4000	8000	48

5600-56	3½	5.75	D	5000	10,000	54

TRIOFLEX SLIM HOLE ROTARY HOSE

Application: NRP Trioflex Hose was specially designed for applications on portable drilling rigs, work-over rigs, slim hole and seismograph rigs. It is an extremely flexible and durable hose.
Tube: Black, oil and abrasion resistant Neoprene (CR). Suitable for oil or water based muds.
Reinforcement: Four braids of high tensile, heavy gauge steel wire.
Cover: Black, oil, weather and abrasion resistant Neoprene (CR).

Part Number	Wire Braids	Hose I.D. (inches)	Hose O.D. (inches)	Rated W.P. (psi)	Design Burst Pressure (psi)	Min. Bend Radius (inches)
5014-40	4	2½	3.65	3000	6000	24.0
5014-48	4	3	4.13	2000	5000	30.0

GOLD STRIPE FACTORY BUILT ROTARY/VIBRATOR & KICKER HOSE — ASSEMBLIES

Application: Oilfield drilling and exploration at API Grade "C" and "D" working pressures; where a heavy duty long service life hose is required.
Tube: Black, oil and abrasion resistant Hydrogenated Nitrile (HNBR). Suitable for oil or water based muds.
Reinforcement: Multiple plies of bias laid textile cord for extra strength and flexibility. Two spirally wound, high tensile, multiple strand cables, mechanically secured to built-in nipples provide unsurpassed ruggedness and reliability under severe service conditions.
Cover: Black, oil, weather and abrasion resistant Neoprene (CR).
Temperature: -40°C to +93°C

Rated Working Pressures:
Grade C - 4000 lbs.
Grade D - 5000 lbs.

A822/1822 BLOWOUT PREVENTER HOSE

Application: Flexible piping used to control BOPs (Blowout Preventers) and associated valves that control well pressure during drilling operations.
Tube: Black, oil resistant Nitrile (NBR).
Reinforcement: Multiple plies of high tensile steel wire.
Cover: Red, specially compounded, fibreglass impregnated, flame resistant rubber.
Temperature: -40°C to +100°C

A825/1825 BLOWOUT PREVENTER HOSE

Application: Flexible piping used to control BOPs (Blowout Preventers) and associated valves that control well pressure during drilling operations.
Tube: Black, oil resistant Nitrile (NBR).
Reinforcement: Multiple plies of high tensile steel wire.
Cover: Red, specially compounded, fibreglass impregnated, flame resistant rubber.
Temperature: -40°C to +100°C

Versil-flare™ Flareless & Flared Tube Fittings

Versil·Flare™

VERSIL-FLARE FLARELESS TUBE FITTING

The Aeroquip Versil-Flare Flareless Tube Fitting can use any standard SAE 37° male flare adapter or hose fitting as a body. This eliminates the need to inventory special flareless tube fitting bodies and results in reduced inventory expense. Aeroquip Versil-Flare Flareless Tube Fittings are available in sizes from 3/16" tube O.D. to 2" tube O.D.

Pre-setting tools and extra assembly time are eliminated because there's no need for flaring, special preparation, or pre-setting. The chance of assembly error is reduced because the ferrule can be installed only one way and assembly is the same for all sizes and tube wall thicknesses. This assures a tight joint every time. These features improve production rates.

VERSIL-FLARE FLARED TUBE FITTING

The Aeroquip industrial standard three piece flare type tube fitting can be used on the full range of standard steel hydraulic tubing in various wall thicknesses from 3/16" tube O.D. to 2" tube O.D. All three components are constructed from high quality zinc plated steel for long service life. The standard SAE 37° flare angle is used to produce a highly efficient seal under hydraulic pressures. The sleeve is used to help support the tube and absorb vibration.

Assembly is easy. A properly sized wrench and flaring tool are all that is necessary. This is important in tight locations. Aeroquip standard SAE 37° flare type fittings can also be disassembled and re-assembled repeatedly. Aeroquip quality is built into every component to assure leakproof connections.

The Aeroquip standard SAE 37° flare type tube fitting conforms to the following hydraulic tube fitting standards. Military specification, MIL-F-18866 and SAE J514.

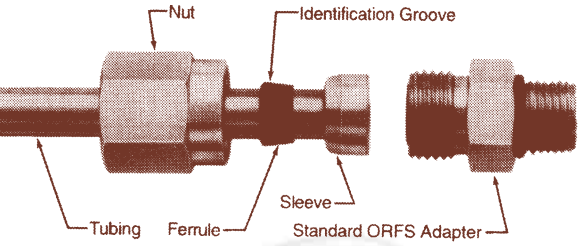
ORS-TF Adapter Fittings



The ORS-TF tube fitting, patent pending, utilizing the ORS-TF nut, ferrule, and sleeve can be joined directly to steel tubing to solve your fluid leakage problems. It does not require the time and expense of brazing and provides the advantage of repetitive reuse. It is a compression type fitting that works on a variety of tubing.

Balanced Pressure Swivel Joints

The Aeroquip FS65 90° Swivel Joint with its forged body design is available in sizes 1/4" - 1". Working pressure on 1/4 - 3/8" is 5000 psi; 1/2 - 3/4" is 3500 psi; and 1" is 3000 psi. The pressure balanced design allows the joint to swivel with low torque even under full pressure.

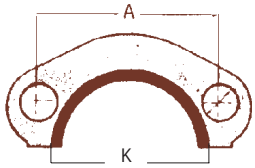
EATON | Aeroquip

Split Flanges

Two methods can be used to determine the flange dash size and code. The first is by measuring the flange head diameter on the fitting itself (the "K" dimension). The second is by measuring the "A" dimension on the flange or the flange port. Either will determine the dash size and the code since these dimensions are exclusive to either code 61 or code 62 split flange kits. See chart for these dimensions.

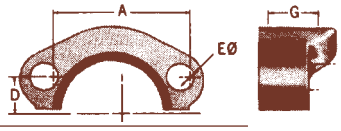


"A" Dimension (inches)	"K" Flange Head Diameter (inches)	Flange Dash Size	Maximum Operating Pressure (psi)
Code 61			
1.50	1.19	-8	5000
1.88	1.50	-12	5000
2.06	1.75	-16	5000
2.31	2.00	-20	4000
2.75	2.38	-24	3000
3.06	2.81	-32	3000

"A" Dimension (inches)	"K" Flange Head Diameter (inches)	Flange Dash Size	Maximum Operating Pressure (psi)
Code 62			
1.59	1.25	-8	6000
2.00	1.63	-12	6000
2.25	1.88	-16	6000
2.62	2.12	-20	6000
3.12	2.50	-24	6000
3.81	3.12	-32	6000

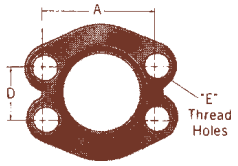
SPLIT FLANGE HALF 449-74446 - SAE J518C CODE 61

Cadmium plated, chromate finish
Standard series -- 2 required



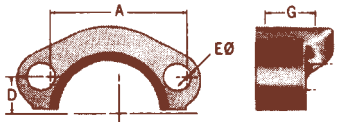
4-HOLE FLANGE FC2119 - SAE J518C CODE 61

Cadmium plated, chromate finish
Standard series



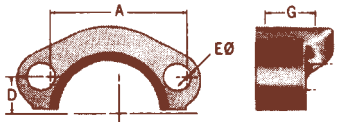
SPLIT FLANGE HALF FC3425 - SAE J518C CODE 62

Cadmium plated, chromate finish, high pressure 6000 psi series -- 2 required



SPLIT FLANGE HALF FF593 - SAE J518 CODE 61

Zinc plated yellow, chromate finish standard series
FF593 Kit Includes: 2 flange halves, 4 grade 8 hex bolts, 4 lock washers, 1 Buna-N o-ring.



SPLIT FLANGE HALF FF595 - SAE J518 CODE 62

Zinc plated yellow, chromate finish, high pressure 6000 psi series
FF595 Kit Includes: 2 flange halves, 4 grade 8 hex bolts, 4 lock washers, 1 Buna-N o-ring.

SUPPORT CLAMP

Lightweight neoprene-coated steel support clamps are designed to support hose where long runs are necessary. They not only furnish a neater installation, but prevent damage and chafing. The neoprene lining will withstand high ambient temperatures.

EATON | Aeroquip

Protective Sleeves

900705 STEEL PROTECTIVE COIL SLEEVE

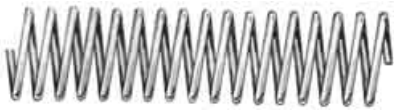
Steel protective coil sleeve is recommended for use where hose lines are subjected to excessive abrasion or accidental damage. Construction: spring steel, rust resistant.

Maximum Lengths:
-1 through -6: 30 feet
-7 through -11: 15 feet

900564 STEEL PROTECTIVE COIL SPRING SLEEVE

Protects hose cover, and reinforcement from abrasion and accidental damage. Construction: steel wire, rust resistant.

Maximum Lengths:
-1, -2, -3, -4: 30 feet
-5, -6, -7: 20 feet
-8: 12 feet



900952 PLASTIC PROTECTIVE COIL SLEEVE

Recommended to protect hose from abrasion, this light weight plastic sleeve is unaffected by air, water, oil, gasoline, hydraulic and most other fluids. This coil can also be used for group bundling of hose lines.

Temperature Range: -18°C to +82°C.

FC425 NYLON ABRASION SLEEVE

Nylon sleeve protects hose from abrasion and allows bundling of hose lines.

Bundling Sleeves

REUSABLE SLEEVING WITH HOOK AND LOOP CLOSURE

During use, hydraulic lines can be subject to tremendous stress and wear. Lines that are allowed to move freely are easily abraded, crimped, or cut. However, common methods for binding hydraulic lines, such as cable ties, can overly restrict movement as the lines expand and contract. Bundling sleeves from Eaton protect hydraulic lines from damage by holding them securely in place, yet provide enough flexibility for normal operation. The sleeves are easy to install and can be quickly removed when hose replacement is needed. Black colour with a urethane treatment.

TectorGuard Heavy and Medium Duty wrap provides superior protection from premature hose or cable failure in the factory or in the field. Manufactured from HDPE, they provide high impact protection, and are used widely in many industries. The unique double bevel design on the inside and outside edge prevents the wrap from snagging or cutting, allowing for safe and easy installation either before or after the hose or cable is in service.
TectorGuard resists oils, lubricants, gasoline, and most solvents — and has a high resistance to ultraviolet weathering. It also withstands ambient temperatures ranging from -73°C to 104°C.

TectorGuard Light Duty is used widely in the electrical industry for harnessing, bundling, and insulating wires, cables, and other types of conductors manufactured from LDPE. TectorGuard protects against abrasion while allowing wires to be broken out of the assembly at any point.

*Outside bevel only.

AEROQUIP
Quick Disconnect Couplings

FD15 SERIES OIL SAMPLING VALVE — 50 - 300 PSI

In-line sampling of system fluids is made without system shutdown, usually in less than one minute, and without fluid contamination. Application: Engine oil, lubricating oil, transmission fluid and hydraulic fluids in mobile construction equipment, military vehicles, trucks and stationary equipment. Buna-N.
Part No. FD15-1000-2, 1/8" NPTF inlet ports.
Part No. FD15-1000-4*, 1/4" NPTF inlet ports.

*The 1/4" NPTF version is qualified to MIL-V-81940/2-1 and its performance is representative of the other inlet port configurations listed above.

FD35 SERIES ARC LATCH™ — FOR 10,000 PSI HIGH PRESSURE APPLICATIONS

The FD35 Series Arc Latch design has a greater surface contact area for long surface life in rugged high pressure applications. Maximum operating pressure is 10,000 psi. Safety sleeve lock prevents accidental disconnection. Heavy duty back-up ring prevents o-ring extrusion. Heat treated and plated steel for greater wear and corrosion resistance. Self-sealing poppet valves provide excellent high and low pressure sealing. Standard seal material — Viton. Standard body material — zinc plated steel. -6 coupling size.
Part No. FD35-1002-6-6, Male half, female pipe/valved, 3/8-18 thread.
Part No. FD35-1001-6-6, Female half, female pipe/valved, 3/8-18 thread.

EATON | Aeroquip

FD45 SERIES/ INDUSTRIAL INTERCHANGE HYDRAULIC & FLUID TRANSFER COUPLING

The FD45 Quick Disconnect Coupling provides positive shutoff of a fluid system on both sides of the coupling upon disconnection. The poppet valves in each half of the coupling provide a spring actuated seal to prevent fluid leakage. They are used in fluid systems where a quick disconnection point is necessary for operating or maintenance reasons. Other valving options are available.
The FD45 Series Coupling was designed to provide an Aeroquip Quick Disconnect Coupling which would be interchangeable with the most popular general purpose quick disconnect couplings of other manufacturers. This interchangability allows the user to connect either half of the FD45 Coupling with the mating half of similar couplings made by other manufacturers.
While the FD45 Coupling was designed to mate with other manufacturers' couplings, it was also designed to Aeroquip's stringent quality standards. Aeroquip's maximum working pressure is 4000 psi in all sizes of steel and stainless steel couplings with a 12,000 psi minimum burst pressure rating to provide a 3 to 1 safety factor. The male half of the steel coupling is made of cadmium plated steel and is hardened for long service life.

FD89 SERIES/FLUSH-FACE COUPLINGS/ISO 16028 INTERCHANGE

Aeroquip's FD89 Series is specifically designed for those applications where quick and easy connections and no-spill performance are essential. Ideal for use where global interchange-ability with other manufacturers is important. The FD89 Series is available in sizes from 1/4" through 2" to best meet your specific size requirements. •Globally accepted interface which meets dimensional requirements of ISO 16028 •Quick and easy push-to-connect latching •Safety sleeve lock guards against accidental disconnections •The globally accepted interface meets HTMA requirements •Dual flush face valves result in minimal fluid loss, air inclusion, and easy cleaning

5100 SERIES/LOW SPILL — CONNECT UNDER PRESSURE

•Practically no air inclusion — valve design eliminates air inclusion upon connection. •Practically no fluid spillage — valve design also prevents fluid spillage during disconnection. •Connects under pressure — utilizes mechanical advantage to connect against line pressure. •Completely serviceable — all components can be replaced. •Variety of sizes and models — the 5100 Series Coupling gives a choice of four basic designs adaptable to most industrial applications. •Wing or hex nut styles available — wing nut is used for quick connection, hex nut for confined spaces. •Bulkhead mounting — steel flange available for bulkhead mounting. •Field proven — extensive usage has made the 5100 Series Coupling an accepted standard for many applications. This all purpose coupling is designed for use with most industrial fluids including hydraulic fluids, lubricating oils, and air. Modified versions are also available for many other applications, i.e., gasoline, diesel fuel, chlorobromo methane, and water. Further information on design, installations, and applications furnished upon request.
Basic material: Brass bodies with steel mounting flange and malleable iron wing nut or steel hex nut.

5650 PUSH-PULL Thread together connect under pressure with pipe threads

5600 SERIES/HYDRAULIC & FLUID TRANSFER COUPLING

The 5600 Series general purpose coupling features a PUSH-PULL™ latch and poppet valving in a low profile design. It is a favourite in North America and abroad.

- Push-Pull ball latch design allows quick and easy connection and disconnection of fluid lines.
- Self-sealing poppet valve provides excellent high and low pressure sealing.
- Conforms dimensionally to ISO standard 7241/1 Series A.
- Streamlined valving provides minimum pressure drop.
- Standard seal materials — Buna-N, EPR, and Viton.
- Standard body material — zinc plated steel with zinc poppet guides. (Brass poppet guide in -4 size.)

FD69 SERIES ARC LATCH™ — HIGH PRESSURE WATER BLAST (10,000 PSI)

The FD69 Series "Arc Latch" design has a greater surface contact area for long service life in rugged high pressure and water blast applications. The maximum operating pressure is 10,000 psi with 40,000 psi minimum burst pressure. Safety sleeve lock guards against accidental disconnection. Smooth bore "straight through" design for high flow. Heavy duty back-up ring to prevent o-ring extrusion. Standard seal material — Buna-N. Standard body material — zinc plated steel. -8 coupling size.

Part No. FD69-1002-6-8, Male half, female pipe, 3/8-18 thread.
Part No. FD69-1002-8-8, Male half, female pipe, 1/2-14 thread.

Part No. FD69-1001-6-8, Female half, female pipe, 3/8-18 thread.
Part No. FD69-1001-8-8, Female half, female pipe, 1/2-14 thread.

FD90 SERIES/SAE J1502 INTERCHANGE

The FD90 Series diagnostic coupling is designed to connect and disconnect pressure gauges to hydraulic systems, eliminating the need for permanent gauges. The maximum operating pressure is 7,000 psi. Automatic sleeve for one hand push-to-connect operation. Flush face valving provides minimal fluid loss and low air inclusion. Self-sealing valve design allows connection and disconnection at 500 psi. Broad range of end configurations for system accessibility. Standard seal material — Buna-N. Standard seal material — zinc plated steel. -4 coupling size.

Part No. FD90-1034-2-4, Male half, female pipe/valved, 1/8-27 thread.
Part No. FD90-1034-4-4, Male half, female pipe/valved, 1/4-18 thread.

Part No. FD90-1044-3-4, Male half, male SAE o-ring/valved, 3/8-24 thread.
Part No. FD90-1044-4-4, Male half, male SAE o-ring/valved, 7/16-20 thread.
Part No. FD90-1044-5-4, Male half, male SAE o-ring/valved, 1/2-20 thread.
Part No. FD90-1044-6-4, Male half, male SAE o-ring/valved, 9/16-18 thread.

Part No. FD90-1012-2-4, Male half, male pipe/valved, 1/8-27 thread.
Part No. FD90-1012-4-4, Male half, male pipe/valved, 1/4-18 thread.

Part No. FD90-1046-6-4, Male half, metric male o-ring/valved, M14 x 1.5 thread.

Part No. FD90-1021-2-4, Female half, female pipe/valved, 1/8-27 thread.
Part No. FD90-1021-4-4, Female half, female pipe/valved, 1/4-18 thread.

Part No. FD90-1041-4-4, Female half, female SAE o-ring/valved, 7/16-20 thread.

Part No. FD90-1040-4, Dust cap for male halves.

EATON | Aeroquip

N Series — Full Flow, Interchangeable Couplings

•MIL-C-3486 interchange designed for use in compressed air service where full flow and medium duty performance is desired. •Applications: Pneumatic impact tools, low pressure fluid transfer, plant air/gas, general purpose air handling requiring high flow. •Interchange guide: MIL-C-3486; National "Series B"; Bowes.

•Sleeve is cast using a unique process that provides better surface finishes, tighter tolerance control, and excellent repeatability.
•Heavy duty hammer lugs are designed to provide optimum durability during connection and disconnection.
•Seals are easily field replaceable, including the valve seal, which can be replaced without having to replace the entire valve.
•WS-Series couplings comply with applicable Det Norske Veritas North Sea standards for coupling applications.
•Unique 'Initial-Thread' profile will ensure nipple longevity in the toughest environments.

•Fire tested and certified to 700°C for 5 minutes in accordance with EUB Directive 36: Drilling Blowout Prevention (Certificate #C26959).
•Designed for hazardous area service where couplings are required to operate under fire conditions in an emergency.
•Sleeve is cast using a unique process that provides better surface finishes, tighter tolerance control, and excellent repeatability.
•Blowout Prevention Couplings are individually marked with the BOP series designation and manufacturing date code.

PIONEER
Hydraulic Quick Disconnect Couplings

4000 SERIES - GENERAL PURPOSE
The 4000 Series couplers are a rugged, general purpose coupling with a single acting sleeve. These couplers will only connect when the system is not operating or when all pressure has been relieved.

Complete Coupling #	Thread Size	Working Pressure	Male Tip #	Female Body #
4000-2	1/4" NPT	2200 lb.	4010-2	4050-2
4000-3	3/8" NPT	2500 lb.	4010-3	4050-3
4000-4	1/2" NPT	2500 lb.	8010-4	4050-4
4000-5	3/4" NPT	2500 lb.	8010-5	4050-5
4000-6	1" NPT	2000 lb.	4010-6	4050-6
4000-7	1¼" NPT	1000 lb.	4010-7	4050-7
4000-8	1½" NPT	1000 lb.	4010-8	4050-8
4000-15	3/4"-16 ORB	2500 lb.	8010-15	4050-15
4000-16P	7/8"-14 ORB	2500 lb.	8010-16	4050-16

3000 SERIES - EXTREME PRESSURE
The 3000 Series is designed for extreme high pressure applications found on portable hydraulic rams. These couplers use a threaded sleeve which mates with matching threads on the male tip.

Complete Coupling #	Thread Size	Working Pressure	Male Tip #	Female Body #
3000-2	1/4" NPT	10000 lb.	3010-2	3050-2
3000-3	3/8" NPT	10000 lb.	3010-3	3050-3

4100 SERIES - HIGH FLOW
The 4100 Series coupler has the same features as the 4000 Series except it offers a higher flow rate.

Complete Coupling #	Thread Size	Working Pressure	Male Tip #	Female Body #
4100-5	3/4" NPT	2000 lb.	4110-5	4150-5

8200 SERIES - CONNECT UNDER PRESSURE
The 8200 Series coupler is designed for use on either an open centre or closed centre hydraulic system that has a control valve. Featuring a double-acting sleeve permits easy one hand connection to a clamp mounted female body. The 8200 Series coupler will permit connection of the female body to the male tip while either or both halves are under pressure.

Complete Coupling #	Thread Size	Working Pressure	Male Tip #	Female Body #
8200-4	1/2" NPT	2500 lb.	8010-4	8250-4

5000 SERIES - CONNECT UNDER PRESSURE
The 5000 Series coupler is designed for applications where uncoupling or recoupling under trapped pressure is a requirement. No remote valving is required to connect under pressure.

Complete Coupling #	Thread Size	Working Pressure	Male Tip #	Female Body #
5000-4	1/2" NPT	2200 lb.	8010-4	5050-4

4200 SERIES - GENERAL PURPOSE
The 4200 Series coupler has the same features as the 4000 Series except it utilizes a double acting sleeve for one-handed connection when female body is clamp mounted.

Complete Coupling #	Thread Size	Working Pressure	Male Tip #	Female Body #
4200-4	1/2" NPT	2500 lb.	8010-4	4250-4

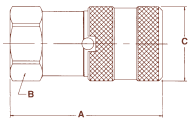
9200 SERIES - LEVER COUPLERS
The 9200 Series coupler is designed to work on many agricultural implements. The 9200 Series will connect or disconnect at zero pressure even with pressurized lines. These couplers come with colour coded levers to identify your raise and lower lines. These lever couplers are found OEM in many applications.

Female Body #	Handle Colour	Working Pressure	Male Tip #
9250-4R	Red	2500 lb.	8010-4

Non-Spill Quick Couplings

FF SERIES
Designed for the mobile equipment market and are used extensively on skid steer loaders. The non-spill feature eliminates hydraulic spillage and air inclusion when connecting or disconnecting hydraulic attachments. FF Series are also ideal for many other applications where hydraulic spillage is a concern and global interchangeability with other manufacturers is important.

COUPLERS



Part No.	Body Size (In.)	Thread Size	Dimensions (In.)		
			Overall Length (A)	Hex Size (B)	Largest Dia. (C)

FE SERIES
These couplings were designed for the mobile equipment market and are used extensively on skid steer loaders. The non-spill feature eliminates hydraulic spillage and air inclusion when connecting or disconnecting hydraulic attachments. FE Series are ideal for many other applications where hydraulic spillage is a concern and global interchangeability with other manufacturers is important. Steel body; zinc plated with yellow chromate finish. Flush face valving; anti blow-out NBR nitrile with BFT seal.

COUPLERS

Non-Spill Quick Couplings

FEC SERIES

Pioneer FEC Series nipples provide connect-under-residual pressure capability with up to 3625 psi of trapped pressure. These nipples are ideal for applications where residual pressure makes reconnection difficult. This series of nipples are commonly found on hydraulic attachments used in skid steer applications. Mates with FE and FF Series couplers.

Quick Coupling Accessories

QUICK COUPLING KITS

Part No. 8500-4, Contains 2 of the 8200-4 couplers along with 1 of the 5006-4 clamps and a set of dust plugs and caps.

Part No. 9500-4, Contains 2 of the 9250-4 bodies and 1 of the 9006-4 breakaway clamps and 1 set of automatic dust covers. *NOTE*: To complete this kit you must purchase 2 of the 8010-4 tips separately.

BREAKAWAY CLAMPS

Part No. 5001-4, Single breakaway clamp for 1/2" coupler bodies
Part No. 5006-4, Double breakaway clamp for 1/2" coupler bodies
Part No. 9006-4, Double breakaway clamp for 9200 Series lever couplers
Part No. 9507-4-IH, Nylon automatic dustcover kit for 9006-4 clamp

STROKE CONTROLS

Part No. 638655, Fits shaft size 1⅛": For use on all 2" and 2½" x 8 cylinders.
Part No. 638656, Fits shaft size 1¼": For use on all 3" and 3½" x 8 cylinders.
Part No. 638657, Fits shaft size 1⅜": For use on 40TH08 cylinder only.
Part No. 638658, Fits shaft size 1½": For use on 50TL08 cylinder only.

STROKE CONTROL SPACERS

Part No. 639070, Fits shaft size 1⅛" *.
Part No. 639120, Fits shaft size 1¼" *.
Part No. 639240, Fits shaft size 1½" *.
*Spacer kit consists of 5 segments: (2) 1" segments, (1) 1¼" segment, (1) 1½" segment, (1) 1¾" segment.

RETAINER KITS

Part No. 640091, 1" pin retainers - 2 pins c/w 4 hair pins.
Part No. 638666, 1¼" pin retainers - 2 pins c/w 4 cotter pins.
Part No. 640110, Pack of 12 hair pin retainers.
Part No. 638668, Pack of 12, 3/16" x 1½" cotter pin retainers.

BREATHER FILTERS

NOTE: Breather filters are used on hydraulic systems or for changing double acting cylinder to single acting application.
Part No. 640368, ⅜" NPT breather filter.
Part No. 640370, ½" NPT breather filter.

Cylinder Pins

Replacement pins for air and hydraulic cylinders. Supplied with clips. Usable length is measured between clips.

Part No.	Dia.	Usable Length
55030	1"	2¾"
55031	1"	3¼"

Stroke Control Segments

For air and hydraulic cylinders. Cast aluminum alloy.

Part No.	Fits Shaft Sizes	Width
55003	1⅛" to 1¼" diameter	¾"
55004	1⅛" to 1¼" diameter	1"
55005	1⅛" to 1¼" diameter	1¼"
55006	1⅛" to 1¼" diameter	1½"
55007	1⅜" to 1½" diameter	¾"
55008	1⅜" to 1½" diameter	1"
55009	1⅜" to 1½" diameter	1¼"
55010	1⅜" to 1½" diameter	1½"
55011	2" diameter	1"
55012	2" diameter	1½"
55013	2" diameter	2"
55014	2" diameter	4¼"

AQP® Racing Hose

Stainless steel braid for superior performance

AQP Racing Hose is compatible with petroleum and synthetic lubricants, hydrocarbon fuels and liquid engine coolants. It operates at higher temperatures for longer periods. Light and flexible, it is easy to work with, and its stainless steel cover will ensure long lasting durability. AQP Racing Hose also features AQP elastomer inner tube that is resistant to oxidation, the effects of ozone and other various agents present in the air.

Temperature Range: Continuous operating temperature from -48°C to +149°C.

Applications: Fuel, Lube, Coolant, Air lines.

Part Number	Hose Dash Size	Hose I.D. (inches)	Hose O.D. (inches)	Max. Operating Pressure (psi)	Min. Burst (psi)

Pro Clamp™ Hose Connectors

Pro Clamp™ connectors are made of red anodized aluminum to give you band clamp connections a professional look. The Pro Clamp™ connector can be used on any rubber or stainless steel braid hose. Pro Clamp™ connectors should not be used on brake lines, air conditioning, power steering or other high pressure lines. Pro Clamp™ connectors come complete with a quality band clamp.

Stainless Steel Overbraid

Stainless Steel Overbraid is used to dress up existing rubber hoses. Simply slip it over current radiator hoses and can be clamped with the Aeroquip PRO-CLAMP™ connectors for a finished hose assembly look. Stainless Overbraid provides no additional performance for the hose, yet provides added abrasion resistance and good looks.

Vise Jaw Inserts for Anodized Fitting Protection

These vise jaw inserts are a must for race teams, engine builders, and street rodders. Keep your good-looking fittings from Aeroquip looking good even after assembly. Vise jaw inserts firmly hold the hex of the fitting during assembly, without marring the anodized finish. Can be used with any size fitting from -03 to -32. With magnetic backs, allowing quick set-ups and easy transfer between vises. Sold as a pair.
Part No. FCM3661.

Quick Disconnect Brake & Clutch Coupling

Allows rapid connection/disconnection of brake and clutch lines without fluid loss, air inclusion, and the need to bleed the line. Coupling also includes a safety clip on lanyard to prevent accidental disconnection. Available with -03 or -04 SAE 37° (JIC/AN) threads. Male half includes jam nut for bulkhead mounting. Temperature range -40°C to 121°C. For use with non-petroleum brake fluids. Seal material — EPR.

USA-150	1-1/2"	1.98"	500 psi
USA-200	2"	2.54"	500 psi

Ultrabraid Steel Air is a heavy duty, wrapped finish, wire braided air hose for use in severe industrial applications as well as for service in mines, quarries, and construction jobs. Tube: Black Chemigum® synthetic rubber, RMA Class B medium-high oil resistance. Reinforcement: Braided (1) steel wire. Cover: Yellow Chemivic® synthetic rubber (wrapped impression), RMA Class B (Medium - High Oil Resistance) MSHA approved. Temperature: -40°C to 104°C.

PLICORD® STEEL AIR & MULTIPURPOSE HOSE

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
PSA-300	3"	3-52/64"	500 psi
PSA-400	4"	4-58/64"	500 psi

A high pressure air hose for heavy duty service in construction, mines, quarries, and industry. Tube: Black SBR/Nitrile, RMA Class B (Medium - High Oil resistance). Reinforcement: Spiral plied steel wire. Cover: Yellow Plioflex® (wrapped impression), RMA Class B (Medium - High Oil Resistance). Temperature: -32°C to 82°C.

Please see a Gregg Distributors representative if you require specific application recommendations.

PYROFLEX II HOT AIR HOSE

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
PHA-300	3"	3.547"	50 psi
PHA-400	4"	4.609"	50 psi

Designed to handle hot air to the tank on dry bulk material trucks. Capable of handling temperatures up to 163°C in continuous service. Tube: Black versigard. Reinforcement: Synthetic fabric with wire helix. Cover: Black versigard.

INDUSTRIAL HOSE

AIR HOSE
Kuri-Tec® Industrial

Kuri Tec

PVC AIR & WATER HOSE

Flexible PVC compound reinforced with high tensile strength yarn. Economical, lightweight, low temperature alternative to rubber hose. Complies with RMA's Class B designation for medium oil resistance. Applications include transfer of air, water, and mild water soluble chemicals. Excellent air supply line for pneumatic tools and paint spray systems. Temperature range of -26°C to 65°C. Please see page X3 for assemblies.

These hoses, made from specially formulated compounds of high grade PVC resin, are engineered to be tough and flexible at very low temperatures. The superior physical properties and design of the hose makes it outperform other general purpose PVC and rubber hoses in cold weather air tool applications. Please see page X3 for assemblies.

TUNDRA-AIR™ LOW TEMPERATURE AIR & WATER HOSE

CONSTRUCTION:
•Tube - high grade low temperature PVC compound
•Reinforcement - high tensile strength polyester yarn
•Cover - high grade low temperature PVC compound, yellow colour

FEATURES:
•Excellent low temperature flexibility •Extremely easy to handle, even in cold weather where other PVC hoses become stiff •Excellent abrasion resistance •Resilient material avoids permanent deformation caused by stresses •Medium Class B oil resistance •Non-marking pin-pricked cover •Light weight •Silicone-free materials

APPLICATIONS:
•Outdoor air and water hose for use in cold weather, where flexibility is required. •Ideal for in-plant applications that require very easy handling in tight workspaces. •In-plant freezer applications requiring air or water service •A versatile, lightweight multi-function hose for air, water, or mild chemical use.

SERVICE TEMPERATURE RANGE: -40°F (-40°C) to 150°F (+65°C)

PART NO.	I.D.	O.D.	MAX. WORK. PRES. @ 20°C
K1231-04	1/4"	.500"	300 psi
K1231-06	3/8"	.625"	300 psi
K1231-08	1/2"	.781"	300 psi

POLYURETHANE AIR TOOL HOSE

An extremely lightweight, tough, flexible pneumatic air tool hose that is suitable for a wide range of industrial and construction applications. The light weight and flexibility of this hose helps to cut down on work related injuries. Good flex fatigue and resilience characteristics. Excellent resistance to oils and solvents; complies with RMA's Class A designation. Tube: Clear ether-based polyurethane. Reinforcement: High tensile strength yarn. Cover: Ether-based polyurethane. Surface temperature range: -40°C to 85°C •Superior cut resistance •High abrasion resistance (provides extra long life compared with PVC or rubber) •Good resistance to hydrolysis and algae in warm water applications •Non-marking, silicone free core and cover •Non-conductive compounds •For use with pneumatic air tools such as roofing nailers, sanders, chippers, impact wrenches, etc.; auto repair and body shops; construction sites; marine applications; spray painting equipment
Please see page X5 for assemblies.

EXPLORER PLUS AIR HOSE ASSEMBLIES

Versatile heavy duty air hose for mining, construction, and industrial applications where higher pressures are encountered. Temperature range of -40°C to 93°C. Tube: Black synthetic. Reinforcement: Synthetic yarn. Cover: Abrasion and weather resistant yellow synthetic (wrapped finish).

Explorer hose assembly c/w 2 hose stems with wing nut fastened by clamp style couplings:
Part No. HA-EPA-75-400-50-DB, 3/4" x 50 ft.
Part No. HA-EPA-100-400-50-DB, 1" x 50 ft.
Part No. HA-EPA-125-400-50-DB, 1¼" x 50 ft.
Part No. HA-EPA-150-400-50-DB, 1½" x 50 ft.
Part No. HA-EPA-200-400-50-DB, 2" x 50 ft.

Explorer hose assembly c/w 2 Chicago fittings and double punch locked at each end:
Part No. HA-EPA-75-400-50-UC, 3/4" x 50 ft.
Part No. HA-EPA-100-400-50-UC, 1" x 50 ft.
Part No. HA-EPA-125-400-50-UC, 1¼" x 50 ft.
Part No. HA-EPA-150-400-50-UC, 1½" x 50 ft.
Part No. HA-EPA-200-400-50-UC, 2" x 50 ft.

Kuri-Tec® Industrial

PVC AIR & WATER HOSE ASSEMBLIES

Conveniently assembled and wrapped for display purposes. All hoses come with crimped-on brass 1/4" male NPT fittings.

HS1176-06X25	3/8" x 25 ft.	Blue
HS1176-06X50	3/8" x 50 ft.	Blue

Flexible PVC compound reinforced with high tensile strength yarn. Economical, lightweight, low temperature alternative to rubber hose. Complies with RMA's Class B designation for medium oil resistance. Applications include transfer of air, water, and mild water soluble chemicals. Excellent air supply line for pneumatic tools and paint spray systems. Temperature range of -26°C to 65°C.

TUNDRA-AIR™ LOW TEMPERATURE AIR & WATER HOSE ASSEMBLIES

Conveniently assembled and wrapped for display purposes. Hose assemblies are furnished with the following fittings: 1/4" ID - 1/4" x 1/4" M NPT, 3/8" ID - 3/8" x 1/4" M NPT.

Part No. HS1231-04X25, 1/4" x 25 ft.
Part No. HS1231-04X50, 1/4" x 50 ft.
Part No. HS1231-04X100, 1/4" x 100 ft.
Part No. HS1231-06X25, 3/8" x 25 ft.
Part No. HS1231-06X50, 3/8" x 50 ft.
Part No. HS1231-06X100, 3/8" x 100 ft.

These hoses, made from specially formulated compounds of high grade PVC resin, are engineered to be tough and flexible at very low temperatures. The superior physical properties and design of the hose makes it outperform other general purpose PVC and rubber hoses in cold weather air tool applications. Temperature range of -40°F (-40°C) to 150°F (+65°C).

POLYURETHANE AIR TOOL HOSE ASSEMBLIES

Conveniently assembled in 25 ft., 50 ft., or 100 ft. lengths.

Part No. HS5090-04X25, 1/4" x 25 ft.
Part No. HS5090-04X50, 1/4" x 50 ft.
Part No. HS5090-04X100, 1/4" x 100 ft.

Part No. FSP-404, 1/4" male swivel hose fitting.
Part No. FSP-606, 3/8" male swivel hose fitting.

Polyurethane Hose Features:
•Blue non-marking polyurethane
•4" pigtail and 20" whip end
•Highly kink, abrasion, and oil resistant
•Flexible and lightweight
•Can be used to transfer air, fluids, and chemicals
•Temperature range of -18°C to +85°C

Please see a Gregg Distributors representative if you require specific application recommendations.

WATER HOSE

Goodyear Industrial

GARDEN HOSE

For lawn, garden, and low pressure water service. Tube: Versigard (non ORS). Reinforcement: Synthetic cord. Cover: Green versigard (smooth finish - non ORS). Please see page X11 for assemblies.
Part No. GH-1, 1/2" green rubber garden hose.

GOODYEAR INDUSTRIAL HOSE

PLICORD GREEN WASHDOWN HOSE

Plicord green washdown hose is a quality water discharge hose for the environments typically found in paper mills and other industrial operations. Tube: Black Plioflex synthetic rubber. Reinforcement: Spiral plied synthetic fabric Cover: Green Plioflex synthetic rubber (wrapped impression). Temperature: -32°C to 93°C.

PART NO.	I.D.	O.D.	MAX. PRESSURE
PGW-75	3/4"	1-11/64"	150 psi

PRIMELINE PVC DISCHARGE HOSE

Recommended for water discharge service. 3:1 safety factor. Temperature range of -23°C to 65°C. Tube: Black pliovic. Reinforcement: Two spiral and one longitudinal fibre. Cover: Grey pliovic.

PART NO.	I.D.	MAX. WORK. PRESSURE

PRE-300	3"	3.52"	43 psi
PRE-400	4"	4.61"	38 psi

CONTRACTOR'S WATER SUCTION & DISCHARGE HOSE

Economical general purpose water suction and discharge hose. Its lightweight construction affords ease of handling and makes tight bends without kinking. Ideally suited for a wide range of construction jobs. Temperature range of -32°C to 82°C. Tube: Black plioflex. Reinforcement: Synthetic fabric with wire helix. Cover: Black plioflex (wrapped finish). Please see page X7 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE

PW66PS	3/8"	3/8-18

NEPTUNE 3000 HOSE

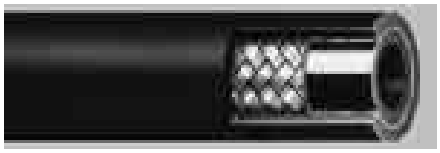
Specifically designed for use on pressure washers with working pressures of 3000 psi and temperatures to 121°C. Compounded to be resistant to the cleaning chemical used in the pressure washing industry. Tube: Chemigum, ORS, RMA Class A. Reinforcement: Braided high strength wire. Cover: Blue, oil resistant synthetic rubber RMA Class B. Please see page X7 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
NEP-25	1/4"	.531"	3000 psi
NEP-38	3/8"	.688"	3000 psi
NEP-50	1/2"	.813"	3000 psi

WHITEWATER HIGH PRESSURE HOSE

Designed for use on either steam cleaner machines or combination steam cleaner/pressure washer machines. Whitewater handles steam up to 163°C at 350 psi with a safety factor in excess of 10:1. Whitewater handles hot water up to 121°C at 3000 psi with a 4:1 safety factor. The tube and cover compounds used in Whitewater are resistant to the chemicals used in the pressure washer and steam cleaner market. Tube: Black, heat resistant synthetic rubber, RMA Class C. Reinforcement: One wire braid. Cover: Black, heat and oil resistant synthetic, RMA Class B. Please see page X8 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
WHI-38	3/8"	.688"	3000 psi
WHI-50	1/2"	.813"	2500 psi



GALVANATOR™ 3000 CLEANING EQUIPMENT HOSE

Designed for pressure washer equipment. Its rust resistant reinforcement and superior abrasion resistant cover provides maximum protection against adverse affects of water, oil, and animal fats. Tube: Black Chemigum®. Reinforcement: Braided (2) steel wires. Cover: Yellow Carbryn® (wrapped finish); ORS, RMA Class A (High Oil Resistance). Temperature: -29°C to 121°C. Note: not recommended for steam service.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
GAL-38	3/8"	.692"	3000 psi
GAL-50	1/2"	.820"	3000 psi

GAUNTLET® 3000 CLEANING EQUIPMENT HOSE

Designed for pressure washer machines with working pressure up to 3000 psi. Its super abrasion resistant cover provides maximum protection against adverse affects of oil and animal fats. Tube: Black Chemigum®. Reinforcement: Braided (1) steel wire. Cover: Yellow oil resistant Carbryn®; RMA Class A (High Oil Resistance). Temperature: -29°C to 121°C. Note: not recommended for steam service.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
GAU-38	3/8"	.692"	3000 psi
GAU-50	1/2"	.820"	3000 psi

NEPTUNE® 1500 CLEANING EQUIPMENT HOSE

Designed for pressure washer equipment and carpet cleaners, agricultural sprayers and high pressure air lines. Tube: Chemigum®. Reinforcement: Braided (1) synthetic yarn (3/4" - 2 Braid) Cover: Gray oil resistant synthetic rubber, RMA Class B (Medium - High Oil Resistance). Temperature: -29°C to 93°C. Note: not recommended for steam service.

CPT-25	1/4"	.585"	1500 psi

GOODYEAR
INDUSTRIAL HOSE

Please see a Gregg Distributors representative if you require specific application recommendations.

BEND RESTRICTORS

Bend restrictors are recommended for use on pressure washer hoses. They are designed to provide longer service life by preventing excessive bending behind the fitting. Recommended for temperatures up to 121°C.

Part No. 4888-8796, Black thermoplastic restrictor for Neptune 1/4" I.D. hose.

Part No. 4888-8804, Black thermoplastic restrictor for Neptune 3/8" I.D. hose.

Part No. 4888-8812, Black thermoplastic restrictor for Neptune 1/2" I.D. hose.

Part No. 4888-8820*, Black synthetic rubber restrictor for Whitewater 3/8" I.D. hose.

**Note: Recommended for temperatures up to 163°C.*

WATER HOSE
Kuri-Tec® Industrial

R.V./MARINE HOSE
Non-toxic white PVC reinforced with high tensile strength yarn covered with a clear non-toxic PVC. Compounded with FDA certified materials. Certified with I.A.P.M.O. for use in recreational vehicle cold water systems. Applications include water pressure lines and drinking water lines in R.V. and pleasure crafts. Temperature range of 0°C to 52°C. Please see page X8 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE @ 20°C
136-08	1/2"	.688"	150 psi

Kuri Tec®

Please see a Gregg Distributors representative if you require specific application recommendations.

TIGERFLEX® SPA HOSE
Flexible PVC construction with smooth bore interior for efficient transfer of water. Designed for installation of hot tubs, spas, swimming pools, and filters, etc. Solid cream in colour. Requires less fittings than rigid pipe therefore saves on costs. Temperature range of -20°C to 65°C.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE@ 22°C

TIGERFLEX® PVC SUCTION & DISCHARGE HOSE
General purpose PVC clear hose with either white, green or black helix. Designed for water suction and discharge service in industrial and agricultural applications. Smooth bore construction allows full flow. Some applications include construction and mining, suitable for air seeder equipment, irrigation lines, liquid fertilizer transfer, etc. Temperature range of -20°C to 65°C. Please see page X8 for assemblies.

SJMD-250	2-1/2"	150 psi

BLUE PVC WATER DISCHARGE HOSE
A tough, economical PVC water discharge hose featuring polyester yarn reinforcement and homogeneous PVC cover and tube. For applications requiring low to medium working pressure. Ideally suited for construction, agricultural, mining, drip irrigation, and general water discharge applications. Homogeneous virgin PVC construction eliminates separation of tube and cover. High tensile polyester yarn reinforcement provides strength and durability. Good for temperatures from -21°C to 54°C. Reel length 300 ft. Please see page X8 for assemblies.

WATER HOSE
Kanaflex® Industrial

Kanaflex®

300 EPDM is a heavy duty liquid suction hose used for dewatering and other construction applications, agricultural chemicals, etc. Offers long life and abrasion resistance; features an exposed helix for easy handling and dragging. It is lightweight, economical, and flexible even in low temperatures. Its temperature range is -40°C to 70°C. Construction: EPDM rubber sidewall with polyethylene helix, smooth bore, slightly corrugated O.D.

WATER HOSE ASSEMBLIES
Goodyear Industrial

GREEN RUBBER GARDEN HOSE ASSEMBLIES

For lawn, garden, and low pressure water service. Tube: Versigard (non ORS). Reinforcement: Synthetic cord. Cover: Green versigard (smooth finish - non ORS).
Part No. GHC-50, 1/2" x 50 ft.
Part No. GHC-100, 1/2" x 100 ft.

Please see a Gregg Distributors representative if you require specific application recommendations.

PLICORD WATER DISCHARGE HOSE ASSEMBLIES

Complete with female and male aluminum camlock. Double punch locked at each end. For medium and heavy duty water discharge service in mines and construction work. Temperature range of -32°C to 82°C. Tube: Plioflex. Reinforcement: Synthetic fabric. Cover: Black plioflex (wrapped finish).

50 ft. Plicord Water Discharge Hose Assemblies:
Part No. HA-PWD-150-50-CE, 1-1/2" x 50 ft.
Part No. HA-PWD-200-50-CE, 2" x 50 ft.
Part No. HA-PWD-300-50-CE, 3" x 50 ft.
Part No. HA-PWD-400-50-CE, 4" x 50 ft.
Part No. HA-PWD-600-50-CE, 6" x 50 ft.

100 ft. Plicord Water Discharge Hose Assemblies:
Part No. HA-PWD-150-100-CE, 1-1/2" x 100 ft.
Part No. HA-PWD-200-100-CE, 2" x 100 ft.
Part No. HA-PWD-300-100-CE, 3" x 100 ft.
Part No. HA-PWD-400-100-CE, 4" x 100 ft.
Part No. HA-PWD-600-100-CE, 6" x 100 ft.

CONTRACTOR'S WATER SUCTION HOSE ASSEMBLIES

Complete with female aluminum camlock, king nipple and suction strainer. Double punch locked at each end. An economical general purpose water suction and discharge hose. Its lightweight construction affords ease of handling and makes tight bends without kinking. Ideally suited for a wide range of construction jobs. Temperature range of -32°C to 82°C. Tube: Black plioflex. Reinforcement: Synthetic fabric with wire helix. Cover: Black plioflex (wrapped finish).
Part No. HA-CWS-200-20CS, 2" x 20 ft.
Part No. HA-CWS-300-20CS, 3" x 20 ft.
Part No. HA-CWS-400-20CS, 4" x 20 ft.

NEPTUNE 3000 HOSE ASSEMBLIES

Neptune 3000 hose is specially designed for use on pressure washers with working pressures of 3000 psi and temperatures to 121°C. Compounded to be resistant to the cleaning chemicals used in the pressure washing industry. Tube: Chemigum, ORS, RMA, Class A. Reinforcement: Braided high strength wire. Cover: Blue oil resistant synthetic rubber RMA Class B. *Note: (2) solid MNPT crimp-on ends.*

Includes 2 Goodyear 1/4" MNPT crimp-on ends and 2 bend restrictors:
Part No. HA-NEP-25-25-4, 1/4" x 25 ft.
Part No. HA-NEP-25-50-4, 1/4" x 50 ft.
Part No. HA-NEP-25-75-4, 1/4" x 75 ft.
Part No. HA-NEP-25-100-4, 1/4" x 100 ft.

Includes 2 Goodyear 3/8" MNPT crimp-on ends and 2 bend restrictors:
Part No. HA-NEP-38-25-6, 3/8" x 25 ft.
Part No. HA-NEP-38-50-6, 3/8" x 50 ft.
Part No. HA-NEP-38-60-6, 3/8" x 60 ft.
Part No. HA-NEP-38-75-6, 3/8" x 75 ft.
Part No. HA-NEP-38-100-6, 3/8" x 100 ft.

Includes 2 Aeroquip 1/2" MNPT crimp-on ends and 2 bend restrictors:
Part No. HA-NEP-50-25-8, 1/2" x 25 ft.
Part No. HA-NEP-50-50-8, 1/2" x 50 ft.
Part No. HA-NEP-50-75-8, 1/2" x 75 ft.
Part No. HA-NEP-50-100-8, 1/2" x 100 ft.

GOODYEAR INDUSTRIAL HOSE

WATER HOSE ASSEMBLIES

Goodyear Industrial

WHITEWATER HIGH PRESSURE HOSE ASSEMBLIES

Whitewater hose is designed for use on either steam cleaner machines or combination steam cleaner/pressure washer machines. Whitewater handles steam up to 163°C at 350 psi with a safety factor in excess of 10:1. It also handles hot water up to 121°C at 3000 psi with a 4:1 safety factor. The tube and cover compounds used in Whitewater are resistant to the chemicals used in the pressure washer and steam cleaner market. Tube: Black, heat resistant synthetic rubber, RMA Class C. Reinforcement: One wire braid. Cover: Black, heat and oil resistant synthetic, RMA Class B. *Note: (1) solid and (1) swivel MNPT crimp-on ends.*

Includes 2 Aeroquip 3/8" MNPT crimp-on ends and 2 bend restrictors:

Part No. HA-WHI-38-25-6, 3/8" x 25 ft.
Part No. HA-WHI-38-50-6, 3/8" x 50 ft.
Part No. HA-WHI-38-60-6, 3/8" x 60 ft.
Part No. HA-WHI-38-75-6, 3/8" x 75 ft.
Part No. HA-WHI-38-100-6, 3/8" x 100 ft.

Includes 2 Aeroquip 1/2" MNPT crimp-on ends and 2 bend restrictors:

Part No. HA-WHI-50-25-8, 1/2" x 25 ft.
Part No. HA-WHI-50-50-8, 1/2" x 50 ft.
Part No. HA-WHI-50-75-8, 1/2" x 75 ft.
Part No. HA-WHI-50-100-8, 1/2" x 100 ft.

Please see a Gregg Distributors representative if you require specific application recommendations.

Kuri-Tec® Industrial

R.V./MARINE HOSE ASSEMBLIES

Conveniently assembled and wrapped for display purposes. All hoses come with male/female spun garden hose connections. Non-toxic white PVC reinforced with high tensile strength yarn covered with a clear non-toxic PVC. Compounded with FDA certified materials. Certified with I.A.P.M.O. for use in recreational vehicle cold water systems. Applications include water pressure lines and drinking water lines in R.V. and pleasure crafts. Temperature range of 0°C to 52°C.
Part No. HS136-08X25, 1/2" x 25 ft.
Part No. HS136-08X50, 1/2" x 50 ft.

PVC GARDEN HOSE ASSEMBLY

Assembled and packaged in coupled lengths for display purposes. Blue PVC compound uniquely blended to make this hose look and feel like comparable rubber hose and to stay flexible at low temperatures. Its lightweight features make it an easier hose to handle than conventional rubber assemblies. Temperature range of -26°C to 65°C.
Part No. HS1176-08X50, 1/2" x 50 ft. - coupled.

TIGERFLEX PVC SUCTION & DISCHARGE HOSE ASSEMBLIES

Complete with female aluminum camlock, king nipple, and strainer. Double punch locked at each end. General purpose PVC clear hose with green helix. Designed for water suction and discharge service in industrial and agricultural applications. Smooth bore construction allows full flow. Some applications include construction and mining, irrigation lines, liquid fertilizer transfer, etc. Temperature range of -20°C to 65°C.
Part No. HA-K200-20-CS, 2" x 20 ft.
Part No. HA-K300-20-CS, 3" x 20 ft.
Part No. HA-K400-20-CS, 4" x 20 ft.

BLUE PVC WATER DISCHARGE HOSE ASSEMBLIES

A tough, economical PVC water discharge hose featuring polyester yarn reinforcement and homogeneous PVC cover and tube. For applications requiring low to medium working pressure. Ideally suited for construction, agricultural, mining, drip irrigation, and general water discharge applications. Homogeneous virgin PVC construction eliminates separation of tube and cover. High tensile polyester yarn reinforcement provides strength and durability. Good for temperatures from -21°C to 54°C. Hose assemblies come complete with female and male aluminum camlocks, and are double punch locked at each end.
Part No. HA-SF10B-150-50-CE, 1-1/2" x 50 ft. PVC 70 psi hose assembly.
Part No. HA-SF10B-200-50-CE, 2" x 50 ft. PVC 70 psi hose assembly.
Part No. HA-SF10B-300-50-CE, 3" x 50 ft. PVC 55 psi hose assembly.
Part No. HA-SF10B-400-50-CE, 4" x 50 ft. PVC 45 psi hose assembly.
Part No. HA-SF10B-600-50-CE, 6" x 50 ft. PVC 40 psi hose assembly.

Part No. HA-SF10B-150-100-CE, 1-1/2" x 100 ft. PVC 70 psi hose assembly.
Part No. HA-SF10B-200-100-CE, 2" x 100 ft. PVC 70 psi hose assembly.
Part No. HA-SF10B-300-100-CE, 3" x 100 ft. PVC 55 psi hose assembly.
Part No. HA-SF10B-400-100-CE, 4" x 100 ft. PVC 45 psi hose assembly.
Part No. HA-SF10B-600-100-CE, 6" x 100 ft. PVC 40 psi hose assembly.

BROWN HEAVY DUTY WATER DISCHARGE HOSE ASSEMBLIES

Constructed with premium quality PVC tube and cover, reinforced with two spiral plies and longitudinal synthetic cords. Use for agricultural, quarry, irrigation, mining, construction and industrial applications. Excellent as a portable hydrant or relay supply line hose. May be coiled or racked when wet. Resists kinking and twisting. High working pressure. High ozone resistance. Good for temperatures from -21°C to 54°C. All hose assemblies come complete with female and male aluminum camlocks, and are double punch locked at each end.
Part No. HA-SF50R-150-50-CE, 1-1/2" x 50 ft. PVC 120 psi hose assembly.
Part No. HA-SF50R-200-50-CE, 2" x 50 ft. PVC 115 psi hose assembly.
Part No. HA-SF50R-300-50-CE, 3" x 50 ft. PVC 100 psi hose assembly.
Part No. HA-SF50R-400-50-CE, 4" x 50 ft. PVC 100 psi hose assembly.
Part No. HA-SF50R-600-50-CE, 6" x 50 ft. PVC 80 psi hose assembly.

Part No. HA-SF50R-150-100-CE, 1-1/2" x 100 ft. PVC 120 psi hose assembly.
Part No. HA-SF50R-200-100-CE, 2" x 100 ft. PVC 115 psi hose assembly.
Part No. HA-SF50R-300-100-CE, 3" x 100 ft. PVC 100 psi hose assembly.
Part No. HA-SF50R-400-100-CE, 4" x 100 ft. PVC 100 psi hose assembly.
Part No. HA-SF50R-600-100-CE, 6" x 100 ft. PVC 80 psi hose assembly.

Part No. HA-L100-25-100-4, 1/4" x 100 ft.

GOODYEAR INDUSTRIAL HOSE

PETROLEUM HOSE
Goodyear Industrial

PREMIUM FARM FUEL HOSE

Premium Farm Fuel hose is designed for agricultural fuel dispensing service. This hose is suitable for unleaded and alcohol extended fuels. It has a temperature range of -37°C to 82°C. Tube: Black chemigum. Reinforcement: Synthetic cord. Cover: Black wingprene. Please see page X12 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
AGF-75	3/4"	1.094"	75 psi
AGF-100	1"	1.375"	75 psi
AGF-125*	1-1/4"	1.80"	250 psi

*Has a red cover.

ARCTIC ORTAC FUEL DISCHARGE HOSE WITH STATIC WIRE

Arctic Ortac is a premium multi-purpose hose for air, oil, water, kerosene, and some chemical applications. Stays flexible and can be reeled up at temperatures as low as -54°C. Tube: Black, low temperature, oil resistant ECO. Reinforcement: Braided synthetic cord. Cover: Black with blue stripe (smooth jacket) ultra-low temperature, oil resistant synthetic rubber.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
PAO-25	1/4"	0.629"	300 psi
PAO-38	3/8"	0.748"	300 psi
PAO-50	1/2"	0.960"	300 psi

ARCTIC SOFTWALL PLUS FUEL DISCHARGE HOSE WITH STATIC WIRE

This is a premium gas pump hose designed specially for extremely cold environments. Remains flexible where temperatures of -54°C are encountered. ULC and UL approved. Tube: Black, low temperature synthetic rubber. Reinforcement: Braided synthetic cord with anti-static wire. Cover: Black, low temperature synthetic rubber (wrapped jacket). Please see page X12 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
ASW-75	3/4"	1.125"	300 psi
ASW-100	1"	1.500"	300 psi

PETROLEUM HOSE
Goodyear Industrial

GOODYEAR INDUSTRIAL HOSE

PLICORD ARCTIC ORTAC FUEL DISCHARGE HOSE WITH STATIC WIRE

Multi-purpose hose for air, oil, water, kerosene, and some chemical applications. Can be statically grounded. Remains flexible and can be reeled at temperatures as low as -46°C. Tube: Black, low temperature, oil resistant ECO. Reinforcement: Synthetic fabric. Cover: Ultra-low temperature, blue with white stripe synthetic (wrapped jacket). Please see page X12 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
ASW-125	1-1/4"	1.781"	300 psi
ASW-150	1-1/2"	2.109"	300 psi

ARCTIC FUEL DISCHARGE HOSE

A low temperature construction for air, water, oil, kerosene, fuel oil, and some chemical operations where temperatures fall as low as -54°C. Tube: Black low temp, oil resistant synthetic rubber. Cover: Blue ultra-low temperature, oil resistant synthetic rubber. Reinforcement: Synthetic cord; static bonding wire built into the hose for static grounding. Temperature: -54°C to 82°C.

FLEXSTEELGASOLINE PUMP HOSE

A premium gas pump hose where long life is a desirable factor. ULC listed for use on gasoline dispensing pumps, especially where reel-type pumps are used. This hose has excellent cold weather characteristics with a temperature range of -37°C to 82°C. Tube: Black chemigum. Reinforcement: High tensile wire braid. Cover: Black wingprene (wrapped finish). Please see page X12 for assemblies.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
FGP-75	3/4"	1.125"	250 psi
FGP-100	1"	1.500"	150 psi

INSTA-GRIP I AIR & MULTIPURPOSE HOSE

For use with push-on fittings at maximum working pressure of 300 psi. For low pressure hydraulic pneumatic systems such as robotics, shop air systems, general industrial, maintenance and automotive applications. Temperature range of -40°C to 93.3°C. Tube: Chemigum®, oil and heat resistant synthetic rubber, RMA Class A (High Oil Resistance). Reinforcement: Braided (1) high strength synthetic yarn laid at an angle for strength and coupling holding ability. Cover: Black, oil, weather and abrasion resistant Carbryn® rubber, RMA Class A - (High Oil Resistance).

PFP-400	4"	4.609"	150 psi
PFP-600	6"	6.687"	150 psi

PETROLEUM HOSE

Designed for use in tank truck or in-plant applications for the transfer of DILUTED industrial chemicals and petroleum waste, sludge and sediments. It is not recommended for refined petroleum products or concentrated industrial chemicals. Tube: Black Nitrile. Cover: Black SBR (wrapped cover) with white stripe. Reinforcement: Spiral synthetic fabric with wire helix. Temperature: -32°C to 82°C.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
EFP-200	2"	2.547"	150 psi
EFP-300	3"	3.563"	150 psi
EFP-400	4"	4.609"	150 psi

PLICORD BLACK FLEXTRA® II HOSE

Used by tank trucks, bulk petroleum stations and other operations to transfer gasoline and other petroleum base products under pressure, gravity flow, or suction service, where a flexible hose is required. Suitable for temperatures to -40°C. (Not for use where aromatic content exceeds 50%.) Tube: Black chemigum. Reinforcement: Synthetic fabric plies with double wire helix. Cover: Black wingprene (corrugated).

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
PBF-200	2"	2.500"	150 psi
PBF-250	2-1/2"	3.031"	150 psi

EBONITE L.T. (LOW TEMPERATURE) HOSE

Ebonite L.T. is an innovative flat corrugated tank truck hose with special low temperature compounds. Exceptional lightweight and sub-zero performance (to -54°C) are possible because of a design that begins with a low temperature nitrile tube, adds a two-ply polyester cord/wire dual helix reinforcement, then tops it off with an abrasion resistant ORC cover that has a special flattened corrugated construction. This unique combination of compounds and construction makes Ebonite L.T. light, easy to handle, and "fight-free", even in the coldest Canadian winters. Its abrasion resistant qualities add significantly to durability, long service life, and overall economy.

PREMIUM FARM FUEL HOSE ASSEMBLIES — PUNCH LOCKED

Premium Farm Fuel hose is designed for agricultural fuel dispensing service. This hose is suitable for unleaded and alcohol extended fuels. It has a temperature range of -37°C to 82°C. Tube: Black chemigum. Reinforcement: Synthetic cord. Cover: Black wingprene.

Complete with 2, 3/4" MNPT king nipples with punch lock clamps:

Part No. HA-AGF-75-10-12PL, 3/4" x 10 ft.
Part No. HA-AGF-75-15-12PL, 3/4" x 15 ft.
Part No. HA-AGF-75-25-12PL, 3/4" x 25 ft.
Part No. HA-AGF-75-50-12PL, 3/4" x 50 ft.

Complete with 2, 1" MNPT king nipples with punch lock clamps:

Part No. HA-AGF-100-10-16PL, 1" x 10 ft.
Part No. HA-AGF-100-15-16PL, 1" x 15 ft.
Part No. HA-AGF-100-25-16PL, 1" x 25 ft.
Part No. HA-AGF-100-50-16PL, 1" x 50 ft.

ARCTIC SOFTWALL PLUS FUEL HOSE ASSEMBLIES WITH STATIC WIRE — PUNCH LOCKED

This is a premium gas pump hose designed specially for extremely cold environments. Remains flexible where temperatures of -54°C are encountered. ULC and UL approved. Tube: Black low temperature synthetic rubber. Reinforcement: Braided synthetic cord with anti-static wire. Cover: Black low temperature synthetic rubber (wrapped finish).

Complete with 2, 3/4" MNPT king nipples with punch lock clamps:

Part No. HA-ASW-75-10-12PL, 3/4" x 10 ft.
Part No. HA-ASW-75-15-12PL, 3/4" x 15 ft.
Part No. HA-ASW-75-25-12PL, 3/4" x 25 ft.
Part No. HA-ASW-75-50-12PL, 3/4" x 50 ft.

Complete with 2, 1" MNPT king nipples with punch lock clamps:

Part No. HA-ASW-100-10-16PL, 1" x 10 ft.
Part No. HA-ASW-100-15-16PL, 1" x 15 ft.
Part No. HA-ASW-100-25-16PL, 1" x 25 ft.
Part No. HA-ASW-100-50-16PL, 1" x 50 ft.

PLICORD ARCTIC ORTAC FUEL HOSE ASSEMBLIES WITH STATIC WIRE — PUNCH LOCKED

Plicord Arctic Ortac hose with static wire is a multi-purpose hose for air, oil, water, kerosene, and some chemical applications. Can be statically grounded. Remains flexible and can be reeled at temperatures as low as -46°C. Tube: Black, low temperature, oil resistant ECO. Reinforcement: Synthetic fabric. Cover: Ultra-low temperature, blue synthetic (wrapped finish).

Complete with static wire and 2, 1¼" MNPT king nipples with punch lock clamps:

Part No. HA-ASW-125-10-20PL, 1¼" x 10 ft.
Part No. HA-ASW-125-15-20PL, 1¼" x 15 ft.
Part No. HA-ASW-125-25-20PL, 1¼" x 25 ft.
Part No. HA-ASW-125-50-20PL, 1¼" x 50 ft.

ARCTIC SOFTWALL PLUS FUEL HOSE ASSEMBLIES WITH STATIC WIRE & PETROLEUM FITTINGS

This is a premium gas pump hose designed specially for extremely cold environments. Remains flexible where temperatures of -54°C are encountered. ULC and UL approved. Tube: Black low temperature synthetic rubber. Reinforcement: Braided synthetic cord with anti-static wire. Cover: Black low temperature synthetic rubber (wrapped finish).

Complete with 1, 3/4" MNPT swivel and 1 solid 3/4" MNPT fitting:

Part No. HA-ASW-75-10-12, 3/4" x 10 ft.
Part No. HA-ASW-75-15-12, 3/4" x 15 ft.
Part No. HA-ASW-75-25-12, 3/4" x 25 ft.
Part No. HA-ASW-75-50-12, 3/4" x 50 ft.

Complete with 2 solid 1" MNPT fittings:

Part No. HA-ASW-100-10-16, 1" x 10 ft.
Part No. HA-ASW-100-12-16, 1" x 12 ft.
Part No. HA-ASW-100-15-16, 1" x 15 ft.
Part No. HA-ASW-100-17-16, 1" x 17 ft.
Part No. HA-ASW-100-25-16, 1" x 25 ft.

PLICORD ARCTIC ORTAC FUEL HOSE ASSEMBLIES WITH STATIC WIRE & PETROLEUM FITTINGS

Plicord Arctic Ortac hose with static wire is a multi-purpose hose for air, oil, water, kerosene, and some chemical applications. Can be statically grounded. Remains flexible and can be reeled at temperatures as low as -46°C. Tube: Black, low temperature, oil resistant ECO. Reinforcement: Synthetic fabric. Cover: Ultra-low temperature, blue synthetic (wrapped finish).

Complete with static wire and 2 solid 1¼" MNPT fittings:

Part No. HA-ASW-125-15-20, 1¼" x 15 ft.
Part No. HA-ASW-125-24-20, 1¼" x 24 ft.
Part No. HA-ASW-125-28-20, 1¼" x 28 ft.
Part No. HA-ASW-125-32-20, 1¼" x 32 ft.

FLEXSTEEL GASOLINE PUMP HOSE ASSEMBLIES WITH PETROLEUM FITTINGS

Premium gas pump hose used where long life is a desirable factor. ULC listed for use on gasoline dispensing pumps, especially where reel-type pumps are used. This hose has excellent cold weather characteristics with a temperature range of -37°C to 82°C. Tube: Black chemigum. Reinforcement: High tensile wire braid. Cover: Black wingprene (wrapped finish).

Complete with 3/4" MNPT solid fittings on each end:

Part No. HA-FGP-75-.75-12, 3/4" x 9".
Part No. HA-FGP-75-1-12, 3/4" x 12".

Complete with 1, 3/4" MNPT swivel and 1 solid 3/4" MNPT fitting:

Part No. HA-FGP-75-8.6-12, 3/4" x 8-1/2 ft.
Part No. HA-FGP-75-9-12, 3/4" x 9 ft.
Part No. HA-FGP-75-9.6-12, 3/4" x 9-1/2 ft.
Part No. HA-FGP-75-10.6-12, 3/4" x 10-1/2 ft.
Part No. HA-FGP-75-12-12, 3/4" x 12 ft.
Part No. HA-FGP-75-13-12, 3/4" x 13 ft.
Part No. HA-FGP-75-15-12, 3/4" x 15 ft.
Part No. HA-FGP-75-16-12, 3/4" x 16 ft.
Part No. HA-FGP-75-17-12, 3/4" x 17 ft.
Part No. HA-FGP-75-18-12, 3/4" x 18 ft.
Part No. HA-FGP-75-20-12, 3/4" x 20 ft.

Complete with 2 solid 1" MNPT fittings:

Part No. HA-FGP-100-13-16, 1" x 13 ft.
Part No. HA-FGP-100-15-16, 1" x 15 ft.
Part No. HA-FGP-100-17-16, 1" x 17 ft.

Please see a Gregg Distributors representative if you require specific application recommendations.

GOODYEAR INDUSTRIAL HOSE

PETROLEUM GG

Designed for a wide range of fuel, oil and lubricant applications where light weight and flexibility are essential.
Typical Applications: Rail car and tank truck loading and delivery, storage tank transfer, refinery process, drumming, manifolding, batching, and blending.
Conveyants Handled: Light distillates — gasoline, diesel fuel, paraffin, kerosene and 100% aromatics. Not recommended for corrosive and aggressive chemicals.
Features: •Complete product compatibility — for safe handling of all types of hydrocarbon conveyants •Light weight — easy to handle in loading and delivery •Flexible — even at low temperatures •Tough PVC outer cover — resists dragging wear and abrasion •Safe and dependable — tested to industry standard 1-1/2 times rated working pressure •Double end-to-end electrical continuity — prevents static electricity build-up and internal arcing

Inner Wire: Galvanized steel
Outer Wire: Galvanized steel
Carcass: Multiple layers of polypropylene fabric, film, and polyester barrier layers
Cover: Abrasion-resistant PVC-impregnated fabric
Temperature Range: -30°C to +100°C
Colour: Black with blue stripe

PART NO.	I.D.	MAX. WORK. PRESSURE*	MIN. BEND RADIUS
755-150	1½"	200 psi	5"
755-200	2"	200 psi	5"
755-300	3"	200 psi	7"
755-400	4"	150 psi	10"

HEAVY DUTY PETROLEUM

Appropriate for transfer of conveyants from storage tanks, process piping or loading arms to rail cars and tank trucks.
Typical Applications: Ideal for transfer from storage tanks, process piping or loading arms to rail car or tank truck, tank-to-process handling and manifolding/batching.
Conveyants Handled: Light distillates — gasoline, diesel fuel, paraffin, kerosene and 100% aromatics as well as black oils and heavy lubricants. Not recommended for corrosive and aggressive chemicals.
Features: •Complete product compatibility — for safe handling of all types of hydrocarbon conveyants, 100% aromatics and other non-aggressive chemicals and solvents •Durable — easy to handle •Retains flexibility — even at very low temperatures •Tough PVC outer cover — resists dragging wear and abrasion •Safe and dependable — tested to industry standard 1-1/2 times rated working pressure •Double end-to-end electrical continuity — prevents static electricity build-up and internal arcing

Inner Wire: Galvanized steel
Outer Wire: Galvanized steel
Carcass: Multiple layers of polypropylene fabric, film, and polyester barrier layers
Cover: Abrasion-resistant PVC-impregnated fabric
Temperature Range: -30°C to +100°C
Colour: Black with white stripe

PART NO.	I.D.	MAX. WORK. PRESSURE*	MIN. BEND RADIUS
775-400	4"	200 psi	13"

CHEMICAL PG

For low-pressure transfer applications in over-the-road vehicles, storage tank and rail car loading and unloading. Designed for use where light weight and flexibility are essential.
Typical Applications: Tank-to-process chemicals handling, storage tank transfer and batching, drumming, manifolding, blending, etc., rail car and tank truck loading and delivery.
Conveyants Handled: Suited for a wide range of inorganic and organic liquids and petroleum products at rated discharge pressure or full suction.
Features: •Lightweight — easy to handle •Flexible — even at low temperatures •Tough PVC outer cover — resists dragging wear and abrasion •Polypropylene liner with a polypropylene and polyester carcass — for maximum chemical resistance •Safe and dependable — offers maximum flexibility •Double end-to-end electrical continuity — prevents static electricity build-up and internal arcing •Special polypropylene coated inner wire — fast dissipation of static electrical charges

Inner Wire: Polypropylene-coated steel
Outer Wire: Galvanized steel
Carcass: Polypropylene fabrics, films and polyester barrier layers
Cover: Abrasion-resistant PVC-coated fabric
Temperature Range: -30°C to +100°C
Colour: Yellow with blue stripe

ABRASIVE MATERIAL HANDLING HOSE

Goodyear Industrial

GOODYEAR INDUSTRIAL HOSE

ARTRAC MATERIAL HANDLING HOSE

Recommended for high abrasion service. Static, material handling suction blower and ducting hose. Suitable for grain vac applications. Limited chemical resistance. Temperature range of -34°C to 65°C. Tube: Thermoplastic alloyed blend of Nitrile rubber, polyurethane, and PVC. Reinforcement: Rigid PVC helix. Cover: Black thermoplastic alloyed blend of Nitrile rubber, polyurethane, and PVC.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
ART-300	3"	3.77"	40 psi
ART-400	4"	4.85"	40 psi
ART-500	5"	5.96"	40 psi
ART-600	6"	7.08"	40 psi

SPIRAL CLAMPS

Steel, double bolt clamp designed specifically for use with Kanaflex, Pac Echo, and Goodyear spiral hoses. Clockwise spiral only.

Part No. SC300, 3" Spiral clamp.
Part No. SC400, 4" Spiral clamp.
Part No. SC500, 5" Spiral clamp.
Part No. SC600, 6" Spiral clamp.
Part No. SC800, 8" Spiral clamp.

PLICORD BLACK SOFTWALL HOSE

Used in tank truck service to carry dry cement in discharge applications. Temperature range of -40°C to 88°C. Tube: Static conductive, black natural (1/8" tube). Reinforcement: Synthetic fabric. Cover: Black plioflex (wrapped finish).

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
PBS-400	4"	4.453"	50 psi
PBS-500	5"	5.469"	50 psi

TAN FLEXTRA® BULK TRANSFER HOSE

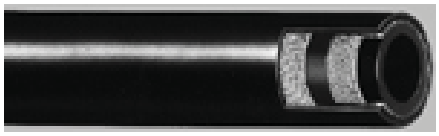
For tank truck and in-plant service. Used to convey non-oily abrasive materials such as sand, limestone, plastic pellets and dry abrasive food products. Do not use where static electricity is a problem. Temperature range of -40°C to 82°C. Tube: Pureten® gum rubber (FDA compliant). Reinforcement: Spiral plied synthetic fabric with wire helix. Cover: Tan Plioflex® gum rubber (corrugated) with yellow spiral stripe (Wrapped impression)

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
TAN-200	2"	2-39/64"	75 psi
TAN-300	3"	3-41/64"	75 psi
TAN-400	4"	4-44/64"	75 psi
TAN-500	5"	5-50/64"	75 psi
TAN-600	6"	6-50/64"	75 psi

PLICORD BLAST HOSE

Heavy duty hose for steel shot or sandblasting in cleaning or finishing metal, stone, glass, and other surfaces where severe external and internal abrasion is encountered. Temperature range of -32°C to 82°C. Tube: 5/16" black static conductive tufsyn. Reinforcement: Synthetic fabric. Cover: Black plioflex (wrapped finish).

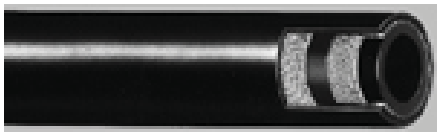
PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
UBB-50	1/2"	1.141"	150 psi
UBB-75	3/4"	1.500"	150 psi
UBB-100	1"	1.875"	150 psi
UBB-125	1-1/4"	2.156"	150 psi
UBB-150	1-1/2"	2.375"	150 psi
UBB-200	2"	2.875"	150 psi



PLICORD BLAST WHIP HOSE

Plicord Blast Whip hose is designed for most blasting operations. It has a reduced outside diameter for extra flexibility, thus reducing operator fatigue. The multiple layers of braid help resist flexing, kinking, and pulling while being flexible and easy to handle. This hose has a static conductive tube and will handle temperatures of -32°C to 82°C. Tube: Black tufsyn. Reinforcement: Two ply synthetic fabric. Cover: Black plioflex (wrapped finish).

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
PBW-100	1"	1.520"	150 psi
PBW-125	1-1/4"	1.875"	150 psi



Kuri-Tec® Industrial

TIGERFLEX® UREFLEX MATERIAL HANDLING HOSE

Smooth polyurethane lining — provides resistance to abrasion and eliminates material build-up. All black HMW PVC convoluted cover — formulated with anti-static compound. Also provides sub-zero flexibility. Applications: •Industrial vacuum machines •Pneumatic conveying systems for powder, pellets or granular materials •Abrasive material transfer •Grain handling •Sand/shot blast recovery line •Roof rock cleaning •Fly ash collection •Hydrovacs •Service Temperature Range: -40°C to 65.5°C

PART NO.	I.D.	O.D.	MIN. BEND RADIUS	MAX.WORKING PRESSURE @ 20°C	VACUUM RATING @ 20°C

tigerflex

Kuri Tec

TIGERFLEX® POLYURETHANE SUCTION & DISCHARGE HOSE

Polyurethane lined abrasion resistant PVC material handling hose for dry applications. Thick smooth polyurethane lining provides additional abrasion resistance and eliminates material build-up. Blue HMW PVC convoluted cover formulated with anti-static compound provides sub-zero flexibility. Applications include abrasive material transfer, grain handling, air seeder equipment, industrial vacuum equipment, sand/shot blast recovery line, and roof rock cleaning. Temperature range of -40°C to 65°C.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE @ 20°C

ABRASIVE MATERIAL HANDLING HOSE
Kanaflex® Industrial

180 AR ABRASIVE SUCTION HOSE

Heavy duty abrasion resistant suction hose for vacuum trucks or handling abrasives such as crushed rock, sand, pea gravel, cement powder, dry fertilizer, iron ore, and grains. This lightweight, flexible hose is extremely abrasion resistant and static dissipating with no grounding wire. It has a temperature range of -40°C to 70°C.

PART NO.	I.D.	O.D.	MIN. BEND RADIUS	MAX.WORKING PRESSURE @ 22°C	VACUUM RATING

POWERLOCK CLAMPS

Steel, double bolt clamp designed specifically for use with Kanaflex corrugated hose shown above.

Part No. PC300, 3" Powerlock clamp.
Part No. PC400, 4" Powerlock clamp.
Part No. PC500, 5" Powerlock clamp.
Part No. PC600, 6" Powerlock clamp.
Part No. PC800, 8" Powerlock clamp.

CHEMICAL TRANSFER HOSE
Goodyear Industrial

GOODYEAR INDUSTRIAL HOSE

FABCHEM CHEMICAL TRANSFER HOSE

Fabchem Chemical Transfer hose is a significant improvement in transferring chemicals. Fabchem handles 98% of common industrial chemicals. This hose has a wide operating temperature range of -40°C to 70°C. Tube: Clear plyocin. Reinforcement: Synthetic fabric with double wire helix. Cover: Green versigard (corrugated).

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
FCT-150	1-1/2"	1.969"	200 psi

FCT-300	3"	3.625"	200 psi
FCT-400	4"	4.672"	200 psi

N/R PAINT SPRAY HOSE

Used for paint spray applications on spray pumps. Will handle spraying paints, duco, lacquer, solvent fluids, drying oils, lacquer thinners, turpentine, and gasoline. Temperature range of -18°C to 66°C. Tube: Nylon. Reinforcement: Braided high strength synthetic yarn. Cover: Black wingprene.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE
PSH-38	3/8"	0.688"	750 psi

Kuri-Tec® Industrial

Kuri Tec®

Please see a Gregg Distributors representative if you require specific application recommendations.

EVA-ANHYDROUS HOSE

Ethylene vinyl acetate, reinforced with polyester yarn, is a rubber-like compound of thermoplastics. It is highly flexible, extremely tough, with a very good stress and crack resistance at low temperatures. Applications include agricultural spraying, low pressure lawn spray, sight gauges, and transfer of liquids, gases, and chemicals at low pressure. Temperature range of -23°C to 65°C.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE @ 21°C
K4350-06	3/8"	0.594"	300 psi
K4350-08	1/2"	0.719"	250 psi
K4350-12	3/4"	0.970"	150 psi
K4350-16	1"	1.313"	150 psi

PVC CHEMICAL SPRAY HOSE

Yellow ribbed PVC construction reinforced with high tensile spiraled yarn makes this hose both economical and durable. Some features of the hose include lightweight, easy recoiling, chemical resistance of quality PVC and corrugated cover for reduced drag friction. Applications include agricultural spraying, vineyard spraying, nursery spraying, and building wash down. Temperature range of -5°C to 65°C. (Not recommended for high pressure tree spray applications.)

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE @ 20°C
K4131-06	3/8"	0.625"	600 psi
K4131-08	1/2"	0.790"	600 psi

FOOD & BEVERAGE HOSE
Kuri-Tec® Industrial

REINFORCED VINYL TUBING
Blue tinted cover and tube compounded from non-toxic PVC ingredients in compliance with applicable FDA requirements. Reinforced with spiraled polyester yarn and with multiple longitudinal polyester yarn to reduce elongation under pressure. Applications include pneumatic lines, glue lines, air and water lines, food and beverage dispensing, lubrication lines, and transfer of powdered foods. Temperature range of -4°C to 65°C.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE @ 20°C
K3150-03	3/16"	0.375"	250 psi

K3150-06	3/8"	0.594"	225 psi
K3150-08	1/2"	0.750"	200 psi
K3150-10	5/8"	0.891"	200 psi
K3150-12	3/4"	1.031"	150 psi
K3150-16	1"	1.300"	125 psi
K3150-20	1-1/4"	1.620"	100 psi
K3150-24	1-1/2"	1.938"	100 psi
K3150-32	2"	2.490"	75 psi

POLYETHYLENE TUBING
Low density polyethylene tubing, natural colour. Food grade certified, economical, and lightweight. Excellent resistance to solvents and cracking. Chemically inert. Ideal for the transfer of air and liquids in industrial applications. Applications include water lines, pneumatic logic control lines, and vending equipment. Temperature range of -45°C to 60°C.

PART NO.	I.D.	O.D.	MAX. WORK. PRESSURE @ 20°C
220-0440	0.170"	0.250"	140 psi

220-1062	0.500"	0.625"	75 psi

Please see a Gregg Distributors representative if you require specific application recommendations.

CLEAR VINYL TUBING
High quality flexible PVC compound made with Kuri-Tec formulation. High gloss crystal clear appearance with glass smooth interior to reduce sediment build-up. Non-toxic blue tint in compliance with FDA requirements to enhance clarity. Applications include laboritories, water lines, air conditioning and refrigeration drainage, bottling plants, printing press equipment, ice making machines, furnace drainage, and transfer of weak chemicals and acids. Temperature range of -4°C to 65°C.

Kuri Tec®

POLYSPRING™ SUCTION & DISCHARGE HOSE
Crystal clear PVC hose reinforced with a spring wire. Compounded from non-toxic PVC ingredients in compliance with applicable FDA requirements. This hose features full vacuum rating, anti-kinking, chemical and ozone resistance, and clear visual flow. Applications include food and beverage dispensing, air and water supply lines, car wash, coolant lines, pneumatic parts transfer. Temperature range of -4°C to 65°C.

PVC SUCTION & DISCHARGE HOSE (DRY/ LIQUID APPLICATION)
Heavy duty PVC food grade material handling hose for dry or liquid applications. Smooth bore construction and cover. Complies with all applicable FDA and USDA requirements and 3-A Sanitary Standards. Allows visual confirmation that material is flowing. Applications include pneumatic conveying systems for powder, pellets or granular materials, transfer of liquid or dry dairy products, fish processing equipment, syrup and juice transfer, and poultry cleaning operations. Temperature range of -20°C to 65°C.

GOODYEAR INDUSTRIAL HOSE

UNREINFORCED TUBING
Kuri-Tec® Industrial

Please see a Gregg Distributors representative if you require specific application recommendations.

Kuri Tec®

POLYURETHANE TUBING

Ester based polyurethane tubing with transparent blue tint. Designed for use under severe operating conditions for transfer of air and fluids. Highly resistant to abrasion, ozone, solvents, and fuel. Some applications include insulating sleeves, metering pumps, lubrication lines, small engine fuel lines, granular transfer lines, abrasive slurry transfer, and robotics control lines. Temperature range of -40°C to 85°C. (Not recommended for the transfer of water above 38°C).

NYLON TUBING

Nylon tube has high mechanical properties, an extremely high pressure rating, and a wide temperature range. The loss of mechanical strength at elevated temperatures is much less than with other types of plastic tube. It retains its flexibility at sub-zero temperatures. Nylon tube is odourless, tasteless, non-toxic, fungus and corrosion resistant, readily sterilized in steam or boiling water. This tube has excellent chemical resistance being unaffected by gasoline, oils, greases, organic solvents, refrigerants, most alkalis, and diluted acids.

PVC/THERMOPLASTIC HOSE/DUCTING
Thermoid

ULTRAFLEX® TPU (THERMO-PLASTIC URETHANE)

Type TPU is constructed of a helical wire reinforced thermoplastic urethane that offers excellent abrasion resistance for material handling applications. A tough, versatile, lightweight, flexible hose/ducting that can be used in a wide variety of applications. Offered in black. Temperature range: -54°C to 93°C.

R15ESA	1½"	2-15/64 to 2-19/64

SANDBLAST Hose Couplings

Sandblast hose couplings fit snugly over the cover of sandblast hose and are fastened with screws into the hose carcass. This design allows unrestricted flow of the sand or blast material, and minimizes coupling wear. Nozzle holders are threaded to accept sand nozzles, and female NPT adapters allow attachment to the blasting machine. The couplings come complete with natural rubber gaskets and screws.

LOCKABLE CAMLOCK DUST CAPS

Dixon Lockable Camlock Dust Caps are available in brass and aluminum. The caps feature handles which fold over the top of the cap and permit the use of a lock-out or padlock to secure the cap closed and make it tamper proof.

SIZE	ALUMINUM PART NO.	BRASS PART NO.	REPLACEMENT HANDLE PART NO.

4"	AL400DCL	BR400DCL	-
6"	AL600DCL		

NOTE: Replacement handles do not come with pins (See page X28).

TANK TRUCK SAFETY CAPS

Part No. 300PC-AL, 3" NPT female aluminum transport tank safety cap - dry goods use only, no relief valve.
Part No. 300PC-SS, 3" NPT female stainless steel transport tank safety cap - dry goods use only, no relief valve.
Part No. 300SFC-SS, 3" NPT female fusible stainless steel transport tank safety cap, 121°C critical temperature - meets DOT specifications MC306 and MC307.

SOLID BRASS HOSE NOZZLES

Dixon Solid Brass Nozzles are a free flow solid nozzle for spraying water. These nozzles do not have any kind of shut off.

PART NO.	THREAD SIZE	THREAD TYPE	LENGTH	DISCHARGE OPENING

BN-25	2-1/2"	NPSM	12"	1"

THREAD DESIGNATION:
GHT: Garden Hose Thread
NPSM: National Pipe Straight Mechanical

FIRE HOSE NOZZLES

Dixon Fire Hose Nozzles are designed for water applications only and pressures up to 100 psi. All nozzles come complete with a bumper on the front to help protect the nozzle from damage if dropped or if something is dropped on them. Fire hose nozzles are adjustable from straight stream to fog discharges. These nozzles are made from factory mutual approved thermoplastic.

PART NO.	THREAD SIZE	THREAD TYPE

CFB150S	1-1/2"	NPS

Thread Designation:
GHT: Garden Hose Thread
NPS: National Pipe Thread Straight

SUCTION HOSE STRAINERS

Heavy duty suction strainers are equipped with standard pipe thread for easy connection. Constructed of heavy gauge steel then plated and chromate coated for additional corrosion protection. An "open" area of over 50% allows strainers to filter out large damaging debris, yet permits sufficient water passage to keep pumps functioning at full capacity.

DRUM WRENCH

The Dixon Drum Plug Wrench is for removing the 2" or 3/4" bung from 205 litre drums. This drum wrench is made from a bronze material which is sparkproof and safe around flammables.
Part No. DPW.

SAFETY POP OFF VALVES

Dixon Safety Pop Off Valves meet the ASME Code; National Board Certified Safety Valves are designed to protect un-fired pressure vessels from over pressure. Maximum operating temperature is 121°C. All Dixon Safety Pop Off Valves are made with 1/4" male pipe thread and are made from an all brass construction with a chrome steel ball on a precision machined brass seat. Most common applications for these safety valves is on stationary or portable shop air compressors.

PART NO.	PRESET RELIEF PRESSURE
SV-100	100 psi
SV-125	125 psi
SV-150	150 psi
SV-175	175 psi
SV-200	200 psi

HOT WATER WASHDOWN SPRAY NOZZLE

For low pressure cleaning and sanitation applications, such as food and dairy processing, tank and drum cleaning, pharmaceutical and chemical manufacturing and meat and poultry packing. Efficient design for operator comfort.
1/2" female NPT inlet. Black cover. Variable spray pattern from solid stream to 50° hollow cone. Hose connects at base of gun for easy maneuvering. Rubber coated handle protects hands from water temperatures to 66°C. 14 GPM flow capacity. Available with brass construction. Maximum operating pressure: 150 PSI.
Part No. BWSG.

1290	1-1/2" automatic nozzle	5-D

OPW 11-A® - is designed with today's consumer in mind. Small, trim, light-in-weight, easy and convenient to use, the OPW 11-A is also a rugged performer that offers long life and reliable service.

OPW 11-B® - high quality automatic shut-off nozzle is designed specifically for the self-service pre-pay or card-lock systems, to help prevent gasoline spills. The OPW 11-B cannot be opened until the pumping system is pressurized, and closes automatically when the pressure is removed. This means the OPW 11-B is closed when placed back in the dispenser storage position.

OPW 7-H® - if you operate a full service truckstop, refuel your own fleet, or manage a cardlock refuelling location, the low cost, long life and durability of OPW 7-H high flow nozzles can help increase your productivity, sales, and profits.

OPW 7-HB-ATT - same as OPW7-HB, but with FlowLock™ - designed to shut-off automatically when the spout is tipped up, limiting spillage.

OPW 1290 - features: •Venturi type automatic shut-off mechanism •Aluminum body, light weight, easy to maneuver •Two-position hold-open device; one-hand control- means easy setting of flow rate •Easily replaced spout; simply remove the spout retainer nut •Right angle design provides larger lever area for better grip and easier control; permits nozzle to fit into awkward spaces close to walls and into corners •Built-in outlet check valve meets all known requirements of the Division of Measurement Standards •Dual poppets make nozzle easy to open against high inlet pressure. (Maximum static operating pressure 50 psi.)

BREAKAWAY CONNECTOR

Fuel hose breakaway valve. Designed to be installed in fuel dispensing hoses, this coupler will break away with a pull force of less than 250 lbs. Dual valves seal automatically upon break away, limiting fuel spillage, while protecting dispensing equipment.
Part No. 66V, 3/4" NPT.
Part No. 66V-1300, 1" NPT.

FLOW LIMITERS

Part No. 44-0044, 3/4" F x 3/4" F (NPT).
Part No. 44N-1044, 3/4" F x 3/4" M (NPT).

HUSKY X — ¾" AUTOMATIC SHUT-OFF NOZZLE

•Shuts off when gas tank is full •Nozzle is equipped with unique Flo-Stop device that shuts off nozzle if it falls from fill tank or raises above the horizontal •Nozzle comes with smooth Full Grip Guard •Steel reinforced spout bushing keeps spout tip round, and acts as a captive fastener to prevent tip-end sensor damage •Standard Flo-Equalizer regulates flow to 10 GPM max. •NPT thread •Weighs 2.5 lbs.
Part No. 159404-04, Unleaded, with hold-open clip.
Part No. 159408-04, Unleaded, without hold-open clip.

(Waffle Splash Guard is optional, as seen in photo)

HUSKY X S — ¾" PRESSURE ACTIVATED PREPAY AUTOMATIC NOZZLE

•Pressure activated nozzle for self-service, full service, and unattended stations •Nozzle comes with smooth Full Grip Guard •Nozzle shuts off when a) the pump shuts off b) when the gas tank is full c) when the lever is opened before the pump is turned on d) when the leak detector has not completed its test cycle •Aluminum reinforced spout bushing keeps spout tip round, acts as a captive fastener to prevent tip-end sensor damage •Standard Flo-Equalizer regulates flow to 10 GPM max •Nozzle is equipped with unique Flo-Stop device that shuts off nozzle if it falls from fill tank or raises above the horizontal. •NPT thread •Weighs 2.6 lbs.
Part No. 159504-04, Unleaded, prepay nozzle with hold-open clip.
Part No. 159508-04, Unleaded, prepay nozzle without hold-open clip.

HUSKY X & HUSKY X S ACCESSORIES

Part No. 1473, Replacement spout.

Part No. 4145-03, green.
Part No. 4145-04, black.
Part No. 4145-05, yellow.

HUSKY VIII — 1" HIGH VOLUME AUTOMATIC SHUT-OFF NOZZLE

•Automatic shut-off nozzles for Truck Stop and other high volume applications •Husky VIII nozzle shuts off when the gas tank is full •Nozzle is equipped with unique Flo-Stop device that shuts off nozzle if it falls from fill tank or raises above the horizontal •Flow rates up to 75 GPM •Spout is reinforced with a thick aluminum bushing that retains spout spring and keeps spout from rounding-in — the two leading causes of clicking-off and spit-back spillage •For diesel or gasoline •NPT thread •Weighs 4.1 lbs.
Part No. 173310-04, With hold-open clip.

HUSKY VIII S — 1" HIGH VOLUME PRESSURE ACTIVATED AUTOMATIC NOZZLE

•Automatic shut-off nozzles for Truck Stop and other high volume applications •Pressure shut-off nozzle for unattended self-service and unattended stations •Husky VIII S nozzle shuts off: a) when the pump shuts off b) when the gas tank is full c) when the lever is opened before the pump is turned on d) when the leak detector has not completed its test cycle •Flow rates up to 75 GPM •Nozzle is equipped with unique Flo-Stop device that shuts off nozzle if it falls from fill tank or raises above the horizontal •Spout is reinforced with a thick aluminum bushing that retains spout spring and keeps spout from rounding-in — the two leading causes of clicking-off and spit-back spillage •Full Grip handguard and Waffle Splash Guard is standard with these nozzles •For diesel or gasoline •NPT thread •Weighs 4.2 lbs.
Part No. 177610-04, With hold-open clip.

HUSKY VIII S & HUSKY VIII ACCESSORIES

Part No. 2279, High flow spout with bushing.

Full Grip Hand Guard
Part No. 4740-01, blue.
Part No. 4740-02, red.

Part No. 4740-05, yellow.

HUSKY 1-GS — 1" AUTOMATIC SHUT-OFF NOZZLE

•Automatic shut-off nozzle for farm, 12V skid tank pumps, or larger pumps without air eliminators •Nozzle shuts off when gas tank is full •Not to be used with gravity tanks; not legal for retail dispensing •Nozzle is equipped with unique Flo-Stop device that shuts off nozzle if it falls from fill tank or raises above the horizontal •Inlet size 1" •NPT thread •Weight 3.0 lbs.
Part No. 045704-04, Unleaded with hold-open clip.

Husky 1-GS Accessories
Part No. 1473, Unleaded spout.
Part No. 0554-04, Full grip hand guard, black.

HUSKY 1691 — 1½" HIGH VOLUME AUTOMATIC SHUT-OFF NOZZLE

Provides 100 GPM; 30% lighter than similar nozzles
•Designed with extra large hand opening to accommodate gloves or mittens •Check valve is in nozzle body, not the spout, for inexpensive, fast spout replacement •Self-adjusting stem packing — no field adjustment is required •Automatic shut-off, with dual poppets for easy opening •Two position hold-open latch •Right angle design allows nozzle to "fit" close to walls and corners •Cast-in protective standoffs provide durability with rough usage •For diesel or gasoline •Weighs 3.96 lbs.
Part No. 169010, With hold-open clip.

Husky 1691 Accessories
Part No. 5042, 1-3/8" O.D. replacement spout.

Fuel Dispensing Products — Accessories

SWIVELS FOR STANDARD FUEL NOZZLES

Part No. 0350, Multi-plane swivel, ¾"M x ¾"F.
Part No. 2272, 90° pump swivel, ¾"M x ¾"F.
Part No. 0087, Multi-plane swivel, 1"M x 1"F.
Part No. 5266, 1½" x 1½" high flow swivel.
Part No. 5235, 1¼" x 1¼" high flow swivel.

BREAKAWAY VALVES

Stops the flow of fuel on both sides of the separation.
Part No. 2273, ¾"F x ¾"F NPT Safe-T-Break® breakaway valve.

Part No. 3360, ¾"F x ¾"F NPT reconnectable Safe-T-Break® breakaway valve.

Part No. 3096, Scuff guard for use with #3360 breakaway valve.

Part No. 2276, 1"F x 1"F NPT reconnectable Safe-T-Break® breakaway valve (for truck and high volume fueling).

Part No. 3098, Scuff guard for use with #2276 breakaway valve.

Part No. 5812, 1"F x 1"F NPT non-reconnectable Safe-T-Break® - Includes scuff guard to protect the dispenser while hanging. Separates at less than 300 lbs. pull force.

BUSHINGS

Part No. 0385, 1"M x ¾"F bushing.

GRAVITY FEED NOZZLES & ACCESSORIES

Bayco 900 and 1250 series low pressure nozzles are designed for use with 12 volt utility pumps and gravity flow fuel dispensing.

PART NO.	DESCRIPTION	REPAIR KIT	REPLACE. SPOUT
900S	1" NPT nozzle with 1" straight spout	900SK	875-4
900B	1" NPT nozzle with 1" angled spout	900SK	875-5
900W34S	1" NPT nozzle with 3/4" straight spout	900SK	234-80-4
900W34B	1" NPT nozzle with 3/4" angled spout	900SK	234-80-5
900S34	1" NPT nozzle with 3/4" straight spout and 1" x 3/4" NPT bushing	900SK	234-80-4
900B34	1" NPT nozzle with 3/4" angled spout and 1" x 3/4" NPT bushing	900SK	234-80-5
	1-1/4" NPT low pressure gravity flow nozzle with 1-1/4" spout	1250SK	1250-3

1250

STANDARD BULK DELIVERY NOZZLES

Bayco's bulk delivery nozzles handle pressure for flows of 40 - 80 gallons per minute and have a manual shut-off.

PART NO.	DESCRIPTION	REPAIR KIT	REPLACE. SPOUT
114DA	1-1/4" NPT pressure nozzle with 1-1/2" spout	114DSK	1143A
112DAL	1-1/2" NPT pressure nozzle with 1-7/8" spout	112DSK	1125A
BL-124	1-1/2" NPT ball type nozzle with 1-5/8" spout		

HOSE SWIVELS & CHECK VALVES

Bayco Hose Swivels and Check Valves are recommended for use on fuel oil delivery nozzles
to prevent hose from twisting and kinking. Bayco Check Valves are used between hose and nozzle. Poppet opens at 2 psi.
Part No. SWMF125, 1¼" NPT male x female hose swivel.
Part No. SWMF150, 1½" NPT male x female hose swivel.

Part No. 1210, 1¼" NPT male x female check valve.
Part No. 1220, 1½" NPT male x female check valve.

Part No. 1580U, 1½" NPT male x female combination swivel/ check valve.

SWMF125/SWMF150

1210/1220

SAF-T-LOCK ANGLE VALVES

PART NO.	DESCRIPTION	REPAIR KIT
500	1" NPT female heavy duty farm tank angle valve	500K
525	1-1/4" NPT female heavy duty farm tank angle valve	

500/525

PRESSURE FILL & VENT CAPS

Part No. 2000L, 2" NPT fill and vent cap for gravity flow fuel tanks.
Part No. 2500L, 2½" NPT fill and vent cap for gravity flow fuel tanks.
Part No. 2500SFV, 2½" NPT fill and vent cap - no valves - for gravity tanks.

For gravity flow fuel tanks - fully automatic.
1. Pressure Relief Valve
Allows for escapement when temperature builds up excessive pressure. Opens at 2 psi.
2. Intake Vacuum Valve
Allows air to enter when pressure drops or when drawing off fuel. Opens at .33 psi.

•The locking feature gives you the advantage of added protection against possible pilferage. The model 2500L or 2000L is used with a fuel storage tank which has a locking lug attached to fill opening. Simply tighten cap, insert padlock and snap shut.

2000L/2500L
(Lock Not Included)

Part No. 400-DDAL, 4" x 4".

STAINLESS STEEL COUPLER TO ADAPTER CAMLOCKS

Part No. SS300-200CA, 3" x 2".
Part No. SS400-300CA, 4" x 3".

"EZ BOSS-LOCK" TYPE D COUPLERS

Type D cam and groove female coupler x female NPT.
Part No. AD150EZ, 1½".
Part No. AD200EZ, 2".
Part No. AD300EZ, 3".
Part No. AD400EZ, 4".

"EZ BOSS-LOCK" TYPE C COUPLERS

Type C cam and groove female coupler x hose shank.
Part No. AC150EZ, 1½".
Part No. AC200EZ, 2".
Part No. AC300EZ, 3"
Part No. AC400EZ, 4".

"EZ BOSS-LOCK" TYPE B COUPLERS

Type B cam and groove female coupler x male NPT.
Part No. AB150EZ, 1½".
Part No. AB200EZ, 2".
Part No. AB300EZ, 3".
Part No. AB400EZ, 4".

"EZ BOSS-LOCK" TYPE H DUST CAPS

Type H dust caps.
Part No. AH150EZ, 1½".
Part No. AH200EZ, 2".
Part No. AH300EZ, 3"
Part No. AH400EZ, 4".

BRASS "EZ BOSS-LOCK" COUPLERS

Brass.
Part No. BD100EZ, 1".
Part No. BD200EZ, 2".
Part No. BD300EZ, 3".

PRESSURE RELIEF VALVES

2" male NPT.
Part No. 2180-15, Air relief valve - 15 lb.
Part No. 2180-18, Air relief valve - 18 lb.
Part No. 2182M-15, Blower/tanker relief valve - 15 lb.
Part No. 2182M-18, Blower/tanker relief valve - 18 lb.

2180-

2182M-

IN-LINE SIGHT GLASS

Designed for dry bulk transfer hose. Includes aluminum bodies, Buna seals, acrylic sight glasses, stainless steel hardware and bronze cam arms.
Part No. 3544CA, 4" CA sight glass adapter.
Part No. 3533CA, 3" CA sight glass adapter.

BAYCO

Tank Car Products

VACUUM RELIEF VALVE
1½" male NPT vacuum relief valve.
Part No. 1120.

FLANGED VALVES
Flanged swing check valve — metal-to-metal seal.
Part No. 3000N, 3" round.
Part No. 3030SQ, 3" square.

3000N

3030SQ

CAMLOCK TANK CAR ADAPTERS
Aluminum or bronze; leather gaskets also available.
Part No. AL500-300TCA, 5" x 3" aluminum.
Part No. AL500-400TCA, 5" x 4" aluminum.

Part No. BR500-300TCA, 5" x 3" bronze.
Part No. BR500-400TCA, 5" x 4" bronze.

Part No. TCA-GASK, Replacement leather gasket.

TANK TRUCK FAUCETS
Part No. 4400, 4" tank truck main body faucet c/w handle.
Part No. 4401, 4" x 22° faucet adapter c/w sight glass and buna seal.
Part No. 4425, Replacement sight glass and buna seal for #4401.
Part No. 4433, Replacement buna seal for #4400.

4400

4401

API ADAPTERS
Part No. 5204LNG, 4" API adapter - load only, with bronze wear ring, no cap.
Part No. 5204NG, 4" API bottom load valve — fixed handle, w/o sight glass, ALH nose ring.
Part No. 5000-24, API cap and chain assembly for #5204LNG and #5204NG.
Part No. 5201-16, Replacement handle for API adapters.

5000-24

5204LNG

5204NG

GRAVITY UNLOADING DROP ADAPTERS FOR API
Part No. 4500, 4" ring - 8 bolt flange with hanger pin.
Part No. 4501, Outlet, 3" x 4" x 22½° adapter with sight glass and gaskets.
Part No. 4502, Outlet, 4" x 4" x 22½° adapter with sight glass and gaskets.
Part No. 4425, Replacement sight glass and buna seal for #4501.
Part No. 4502-5, Replacement sight glass and buna seal for #4502.
Part No. 4433, Replacement buna seal for #4502.

4500

4501/4502

TIGHT FILL ELBOWS
Part No. 6000-15, 3" female coupler inlet with hardware.
Part No. 6000-14, 4" female coupler inlet with hardware.
Part No. 6000-16, 3" male coupler inlet with hardware.
Part No. 6000-17, 4" male coupler inlet with hardware.
Part No. 6200, 4" tight fill elbow with side lever release handle.
Part No. 6200T, 4" tight fill elbow with side lever release handle and anti-spill sleeve.
Part No. 6000-10, Replacement sight glass for 6000 series elbows.

6000-14

6200T & 6200

Vapour Recovery Products

VAPOUR RECOVERY HOSE COUPLERS & ADAPTERS
Part No. VRC3000AL, 3" aluminum vapour hose coupler with probe.
Part No. VR4000, 4" vapour return valve, bulb design with sight glass and drain plug.
Part No. VR4030CS-AL, 4" coupler x 3" aluminum vapour hose coupler with poppet.
Part No. VR4050AL, 4" aluminum vapour cap.
Part No. VR4086BY, 4" alloy service station vapour adapter.
Part No. VR6200, Two-point vapour recovery elbow with 3" adapter outlet.

Self Priming Centrifugal Pumps

Gasoline Engine Driven Centrifugal Pumps - BSGF Series w/ Iron Clad - These general purpose pumps are designed for liquid transfer and contractor dewatering using a semi-open impeller. Features: rugged stamped steel base for firm mounting, cast iron casing with 2" suction and discharge, priming and drain plugs for standard 3/4" garden hose, self lubricating mechanical seal, carbon ceramic faces, Viton bellows to resist most agricultural chemicals and liquid fertilizers, and four vane/semi-open grey cast iron impeller with "blind hole" for engine shaft protection.

PART NO.	SUCTION & DISCHARGE NPT	DESCRIPTION
BSGF-8	2"	Briggs & Stratton, 3.5 hp, with 3 qt. fuel tank
BSGF-10	2"	Briggs & Stratton standard, 5.5 hp, with 3 qt. fuel tank

BANJO

Aluminum Solids Handling Pumps — 2" & 3" Gas Driven Pumps

Features: •Self-priming centrifugal pumps •High Volume - 150 GPM to 300 GPM •Solids Handling - 2" pumps: 1" solids, 3" pumps: 1¼" solids •Steel trash strainer included to eliminate clogging •Heavy duty roll cage sold separately

2" X 2" PORT SIZE, 5.5 HP PUMP
MODEL 200PH-2S5
•Port size: 2" x 2"
•Engine: Honda GX160, 5.5 HP
•Four stroke air cooled OHV
•C/W oil alert

Part No. 60-55520-2S5.

3" X 3" PORT SIZE, 5.5 HP PUMP
MODEL 300PH-3S5
•Port size: 3" x 3"
•Engine: Honda GX160, 5.5 HP
•Four stroke air cooled OHV
•C/W oil alert

Part No. 60-55530-3S5.

HEAVY DUTY ROLL CAGE
•Port size: 3" x 3"
•Engine: Honda GX160, 5.5 HP
•Four stroke air cooled OHV
•C/W oil alert

Part No. 62-50000HD.

Polypropylene Transfer Pumps — 2" & 3" Gas Driven Pumps

2" X 2" PORT SIZE, 5.0 HP PUMP
MODEL 200PGC-5
•Port size: 2" x 2"
•Engine: Honda GC160, 5.0 HP
•Four stroke air cooled OHV

Part No. 60-55020.

2" X 2" PORT SIZE, 5.5 HP PUMP
MODEL 200PH-5.5
•Port size: 2" x 2"
•Engine: Honda GX160, 5.5 HP
•Four stroke air cooled OHV

Part No. 60-55520.

2" X 2" PORT SIZE, 5.5 HP PUMP
MODEL 200PH-5.5OA
•Port size: 2" x 2"
•Engine: Honda GX160, 5.5 HP
•Four stroke air cooled OHV
•C/W oil alert and roll cage

Part No. 60-55520-OA.

3" X 3" PORT SIZE, 5.5 HP PUMP
MODEL 300PH-5.5
•Port size: 3" x 3"
•Engine: Honda GX160, 5.5 HP
•Four stroke air cooled OHV

Part No. 60-55530.

Note: Some pump images may not be exact.

BANJO®

3" X 3" PORT SIZE, 6.5 HP PUMP
MODEL 300PH-6.5
•Port size: 3" x 3"
•Engine: Honda GX200, 6.5 HP
•Four stroke air cooled OHV

Part No. 60-56530.

3" X 3" PORT SIZE, 5.5 HP PUMP
MODEL 300PH-5.5OA
•Port size: 3" x 3"
•Engine: Honda GX160, 5.5 HP
•Four stroke air cooled OHV
•C/W oil alert and standard roll cage

Part No. 60-55530-OA.

Polypropylene Bolted Ball Valves

FEATURES: •Glass-filled polypropylene for strength and durability -- will never rust or corrode. •Unique internal design -- the body fits snugly into the specially designed flanges. •Self-aligning ball -- rotates freely against Teflon seats. •Low torque design -- for easier operation.

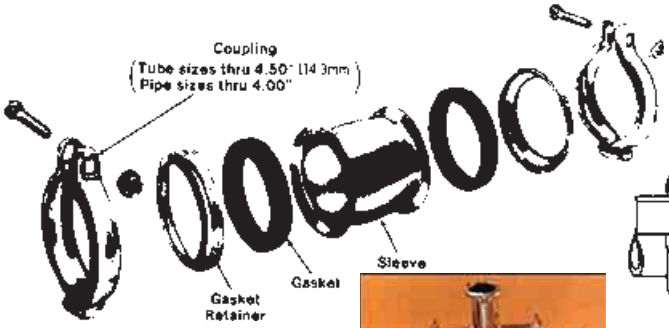
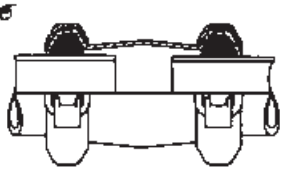
Flexmaster Joints are available in both standard and self-restrained styles. The self-restrained style, using Buna-N gaskets, maintains a firm, positive grip on the pipe or tube, preventing it from moving along the pipe or tubing. Flexmaster Joints are designed for up to 300 psi (2.07 MPa) service, depending on restraint and depending on size. They absorb vibration and shock and are ideal for making quick connections and disconnections when repairing or dismantling a system. They are especially suited for joining oil, air, and water lines.





PIPE JOINT w/ STANDARD or SELF-RESTRAINED GASKETS	
Size Range	Pressure Rating
050-088	300 psi (2.07 MPa)
100-175	200 psi (1.38 MPa)
200-288	200 psi (1.38 MPa)
300-600	150 psi (1.03 MPa)
Gasket Temperature Ratings	
Buna Rubber	-25°F to +215°F (-32°C to +102°C)

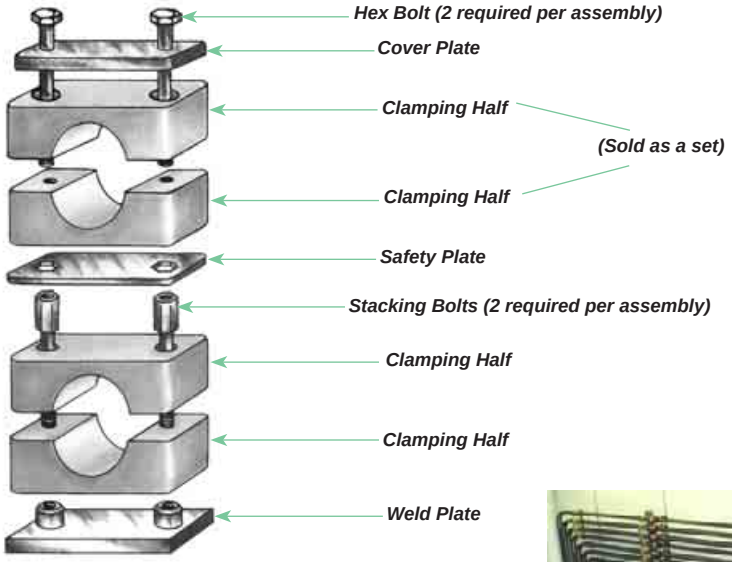
Pipe Clamps

Easy To Use - Maintenance Free. Engineering, plant, and maintenance personnel appreciate the Behringer Clamp's rugged construction, simplicity and clean design. All systems can be quickly and effectively secured and are virtually maintenance free. Our modular clamp design assures greater flexibility in assembly, adjustment and stacking, as well as an endless variety of application configurations to suit every need.



Unlimited Mounting Options
(subject to stock availability)

Standard Series
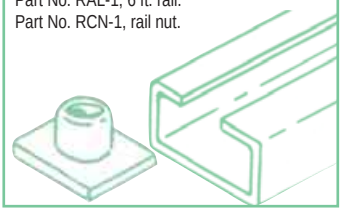
Application: Pressures under 1500 psi, pneumatic and low pressure hydraulic
(up to 3" pipe).

RAIL MOUNTING

Standard Series Rail can be mounted with weld plate or 2 RCN-1 rail nuts.
Part No. RAL-1, 6 ft. rail.
Part No. RCN-1, rail nut.



WELD STRIPS

Part No. ST-GRW-02-C-4FT, GRW2.
Part No. ST-GRW-03-C-4FT, GRW3.
Part No. ST-GRW-04-C-4FT, GRW4.
Part No. ST-GRW-05-C-4FT, GRW5.
Part No. ST-GRW-06-C-4FT, GRW6.

BEHRINGER Pipe Clamps Heavy Series

Single Heavy Series
Application: For line pressures over 1500 psi, outdoor environments, reduces pipe vibration, shock and hammer (up to 8" pipe).

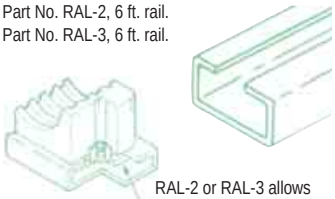
RAIL MOUNTING
RAL-2 or RAL-3
Allows lateral slide of weld plate (SWP)

Group No. H3, H4, H5 use Part No. RAL-2 only.
Group No. H6 use RAL-3 only
Part No. RAL-2, 6 ft. rail.
Part No. RAL-3, 6 ft. rail.



RAL-2 or RAL-3 allows lateral slide of weld plate (SWP)

RAL-4 MOUNTING

For Group No.'s H3, H4, H5, H6, H7, H8.
Part No. RAL-4, 2 meter rail.
Part No. RCN-7, Rail nut for group H3, H4, H5.
Part No. RCN-8, Rail nut for group H6.

3/16" Thick!

BEHRINGER®

Twin Series

Twin Series
Application: Pressures up to 1000 psi, pneumatics and low pressure hydraulics (up to 1¼" pipe).

Conversion Formulas

1 CMKG = 13.887 IN-OZ
1 CMKG = 0.867 IN-LB
1 MKG = 7.233 FT-LB
1 KPCM = 1 CMKG
1 CMKG = 0.98 Nm
1 FT-LB = 12 IN-LB

1 dNm = 14.16 IN-OZ
1 Nm = 8.8507 IN-LB
1 Nm = 0.73756 FT-LB
1 KPM = 1 MKG
1 MKG = 9.80665 Nm

Dry Torque Recommendations

S.A.E.

Diameter	Grade 5 Coarse	Grade 5 Fine	Grade 6 Coarse	Grade 6 Fine	Grade 8 Coarse	Grade 8 Fine
1/4	108*	120*	132*	156*	17	19
5/16	17	20	23	25	34	37
3/8	31	35	40	45	60	68
7/16	50	55	64	72	96	108
1/2	75	85	98	110	145	165
9/16	110	120	140	160	210	235
5/8	150	170	195	220	290	330

*Any torque less than 15-lb is given in in.-lb.

Metric

Diameter (mm)	Pitch	Grade 8.8	Grade 12.9
6	1.00	84*	132*
7	1.00	132*	20
8	1.25	18	29
8	1.00	20	32
10	1.50	33	58

Product INDEX

10 Micron Hydraulic Filter Assemblies
Buyers ... Q23
111 Valve Lubricant & Sealant
Dow Corning ... J9
115 Volt AC Transfer Pumps
Fill-Rite ... E76-E77
12 Volt & 24 Volt Booster Pack
Solar ... E52
12 Volt Booster Pac
Solar ... E52
12 Volt Cooler/Warmers
Koolatron ... Q145
12 Volt Cordless Grease Gun
Lincoln ... E69
12 Volt Electric Transfer Pumps
Fill-Rite ... E76-E77
12 Volt Power Sockets
Hoppy ... Q140
12 Volt Trouble Light Bulbs
AGS ... L28
Cliplight ... I27
Miscellaneous ... I28
12 Volt Trouble Lights
Grote ... I28
12/34 Lubricant & Penetrant
Jet-Lube ... J6
120 Volt Winches
Dutton-Lainson ... I78
Strongarm ... I78
180 Slimline Safety Glasses
North ... N34
2 Cycle Oil
Amalie/Xcel Products ... L74
2-Screw Mount Hour Meters
Stewart Warner ... Q50
2-Ton Clear Epoxy
Devcon ... J12
20 Litre Pail & Lid
... L43
24 Volt Booster Pac
... E52-E53
24 Volt Electric Transfer Pumps
Fill-Rite ... E76-E77
25 Micron Hydraulic Filter Assemblies
Buyers ... Q23
2L Series V-Belts
Goodyear ... Q3
3-36 Multi-Purpose Lubricant
CRC ... L15
3-Screw Mount Hour Meters
Stewart Warner ... Q50
3-Way Ball Valve
Buyers ... U15
316 Silicone Release
Dow Corning ... J10
32 North
... M55
321 Dry Film Lubricant
Dow Corning ... J10
33 Extreme Low Temperature Bearing Grease
Dow Corning ... J9
360 LED Strobes
Grote ... S35
3L Series V-Belts
Goodyear ... Q3
3M
Autobody Chem. & Applicators ... L37, L59-L62
Autobody Tapes ... L62
Bristle Discs ... G22
Conspicuity Tape ... S73
Cut-Off Wheels ... G22
Duct Tape ... I92
Ear Plugs ... N32
Electrical Tape ... I92
Emery Cloth ... G19
File Strips ... G17-G18
Grinding Discs ... G17
3M (cont'd)
Hand Sanding Blocks ... G18-G19
Masking Tape ... I93
Plastic Sheeting ... I88
Respirators ... N44
Sanding Discs ... G16-G17
Sanding Sponge ... G19
Sandpaper - Rolls ... G18
Sandpaper - Sheets ... G18-G19
Scotch-Brite Products ... G20-G21
Scotchgard ... L62
Splicing Compound ... I92
Tape ... I92
Utility Abrasive Rolls ... G20
Welding Drapes ... L63
Welding Paper ... L63
Wet/Dry Sandpaper ... G18
3V Series V-Belts
Goodyear ... Q2
4 Electrical Insulating Compound
Dow Corning ... J9
4 Wheel Pipe Cutters
Ridgid ... A177
4 X 4 Synthetic Blend Motor Oil
Quaker State ... L70
4-Way Wrenches
Performance Tool ... A155
40 Series Back-Up Alarms
Preco ... R66
4000 Cooling System Cleaner
FPPF ... L30
41 Extreme High Temperature Bearing Grease
Dow Corning ... J9
44 High Temperature Bearing Grease
Dow Corning ... J9
4BX Series V-Belts
Goodyear ... Q3
4L Series V-Belts
Goodyear ... Q3
4WD Bearing Locknut Tool
Performance Tool ... A144
5 Ball Paints
Krylon ... J16-J17
5 Minute Epoxy
Devcon ... J12
5-Way Plus Penetrant
3M ... L37
55 O-Ring Lubricant
Dow Corning ... J9
557 Silicone Dry Film Lubricant
Dow Corning ... J10
5L Series V-Belts
Goodyear ... Q3
5th Wheel Grease
Permatex ... L8
5V Series V-Belts
Goodyear ... Q2
6 Volt Spring Top Batteries
Energizer ... I40
Eveready ... I40
700 Industrial Grade Sealant
Dow Corning ... J9
7176 ATF
Castrol ... L69
732 Multi-Purpose Sealant
Dow Corning ... J9
733 Glass & Metal Sealant
Dow Corning ... J9
736 Heat Resistant Sealant
Dow Corning ... J9
737 Neutral Cure Sealant
Dow Corning ... J9
738 Electrical Sealant
Dow Corning ... J9
739 Plastic Adhesive
Dow Corning ... J9
76 Lubricants
Air Comp ND30 Oil ... L65
76 Lubricants (cont'd)
Airkool Two Cycle Oil ... L64

CELEBRATING 40 YEARS
1968 Gregg 2008

40 Years and Still 100% Canadian

Times change, but some things stay the same. From our founder's humble beginnings operating out of the family garage, through our expansion into 17 branches across Western Canada, Gregg Distributors Ltd. has remained 100% Canadian owned and operated. This is an honour few companies can celebrate, and we look forward to continuing this legacy into the future.
